

Annexed
numbers

Very Early

Probably 1912

History of crop.

I sowed my
seeds 19 of April
they was
peeping through
the ground

4 of May. I
water them
and tended to
them good.
I had nice
plants.

I set my plants
out 1 of June.
About 2 week

I hired them.
I would of
had a nicer
patch if the
chickens hadn
bother them.
They destroyed
about 5-
dollars worth

I would of
had more
cans if they
hadent bother
them.

I tended to
them as good
good as I new

how,

I think next
year I can do
better.

for I want to
have my patch
father away
from the house

I canned 129
cans on my
tenth of acre and
hope to do better
next year.

Annie Oliver.
