## STATE TELECOMMUNICATIONS NETWORK

Calls to any point in the 48 states may be economically made on official business in this system.

Dial 8 area code (if not 919) seven digit number.

## ABOUT THE COVER

This electronmicroscope photograph of a wood cell symbolizes NCSU's thrust in scientific and other scholarly research. NCSU was "ranked" a few years ago as one of the top 30 public Research Universities, Class I in the nation. The classification was based on Ph.D. productivity and research quantity. State has some 700 research projects with an annual expenditure of about \$25 million. Last year the Research Triangle counties were identified by an NSF study as having the highest concentration of Ph.D.s in the nation on a population ratio basis.

**This directory is published in limited numbers by North Carolina State University for use by University personnel and is not for public distribution.**

# CENTREX TELEPHONE INSTRUCTIONS

If after reading the following instructions you require further assistance, please dial 828-0911 to report a telephone which is not operating properly.

## INCOMING CALLS

Direct local outside calls to campus numbers may be made by dialing 737 plus the four-digit extension number. When the number is not known, callers will receive assistance by dialing the university exchange, 737-2011.

## LOCAL CALLS

To other Centrex telephones Dial the four-digit number listed in this directory.  
To Raleigh telephones Dial "9" plus the seven-digit number listed in the Raleigh Telephone Directory.

## LONG DISTANCE CALLS

Long distance calls will be charged to your CENTREX telephone number.  
*Station to Station (Direct)* Dial 8 area code (if not 919) seven digit number.  
*Person to Person, Credit Card and/or Charge to Third Number* Dial 9 0 area code (if not 919)—seven digit number. Operator will then answer and assist call.

## TO TRANSFER CALLS

Remain on the line, depress the receiver plunger once for one second and release. Listen for dial tone, dial campus number desired. Stay on line until number answers, announce call and hang up.

## TO CONSULT PRIVATELY

Depress the plunger for one second and release. Listen for dial tone, dial campus number desired. Calling party cannot hear conversation. When consulting party hangs up, you are automatically reconnected to initial caller.

## THREE PARTY CONFERENCE

To add another number to an existing conversation, depress plunger for one second and release, dial number desired. When the number answers depress plunger and release. You have a 3-party conversation.

## DIRECTORY AND INFORMATION CHANGES

Advise the chief operator (dial "O") immediately of all personnel changes affecting CENTREX telephone numbers so that the listings will always be current.

## TELEPHONE EQUIPMENT CHANGES

The following procedure will be used for approval of orders for additions or changes in telephone equipment.

1. To secure technical information prior to submitting a request, department heads may contact the Telephone Company Business Office.
2. The department head will then prepare a letter in duplicate to the Office of Business Affairs, Attention: Mrs. Olive Stone, 112 Winston, setting forth the specific changes or additions in equipment which are desired. This letter must designate the availability and source of funds to pay for the service requested.
3. The Supervisor of Telephone Services will process the order with the Telephone Company and the Physical Plant office after it has been determined that funds, in fact, are available to support the request.

The Office of Business Affairs insists that the budget adjustments necessary to support additional telephone service be submitted and approved in writing prior to initiation of the service order to the Telephone Company.
