THE ALMA MATER

Words by:

ALVIN M. FOUNTAIN, '23

Music by:

BONNIE F. NORRIS, JR., '23

Where the winds of Dixie softly blow
o'er the fields of Caroline,

There stands ever cherished N.C. State,
as they honored shrine.

So lift your voices; Loudly sing
from hill to oceanside!

Our hearts ever hold you, N.C. State
in the folds of our love and pride.

GOVERNOR JAMES B. HUNT, JR.

Gov. James B. Hunt, Jr., an alumnus of North Carolina State University, is now serving an unprecedented third term as governor of North Carolina. He is generally recognized as one of the nation's leaders in promoting education, research and technological innovation.

During his first eight years as governor, Hunt urged the state's education, government and business leaders to form a close partnership, which resulted in the establishment of the N. C. School of Science and Mathematics, the Microelectronics Center of North Carolina and the N. C. Business Committee for Education.

Hunt has served as chairman of national task forces on education and economic growth, as well as chairman of the Education Commission of the States. He currently chairs the National Board for Professional Teaching Standards, which he helped to create in 1987.

After leaving the governor's office in 1985, Hunt was the founding chair of NCSU's Emerging Issues Forum, an annual event that brings together state and regional leaders from education, government and business to discuss issues related to public policy and the economic health of the nation. He still chairs the forum.

Hunt, who during his student years twice served as president of the NCSU student body, has remained closely affiliated with the university since his graduation in 1959 with a degree in agricultural education, followed by a master's degree in agricultural economics.

He earned a law degree from the University of North Carolina at Chapel Hill in 1964 and was a partner in the firm of Poyner and Spruill, one of North Carolina's largest law firms, before assuming his third term as governor.

A native of Greensboro, Hunt is married to the former Carolyn Leonard of Mingo, Iowa. They have four children. The Hunts own and operate the Hunt Farm at Rock Ridge, where they raise beef cattle.

Academic Costume

Academic gowns represent a tradition handed down from the universities of the Middle Ages. These institutions were founded by the Church; the students, being clerics, were obliged to wear the prescribed gowns at all times. Round caps later became square mortarboards; the hoods, originally cowls attached to the gowns, could be slipped over the head for warmth.

Many European universities have distinctive caps and gowns which are different from those commonly used in this country. Some of the gowns are of bright colors and some are embellished with fur. A number of these may be noted in the procession.

The usual color for academic gowns in the United States is black. The bachelor's gown is worn closed, the master's and doctor's may be worn open or closed. The shape of the sleeve is the distinguishing mark of the gown: bachelor—long pointed sleeves; master—oblong, square cut in the back with an arc cut away in front; doctor—bell shaped.

Caps are black. The tassels for the Ph.D. degree are gold and those for other graduate and professional degrees may be of the color corresponding to the trimmings on the hoods.

Of all the components of the academic costume, the hood bears the heaviest symbolic burden. The hood must make clear the level of the degree, the faculty in which it was given, and the institution which awarded it. The level of the degree is shown by the size of the hood, the width of the velvet trimming, and in the case of doctors, by the shape. The bachelor's, master's, and doctor's hoods are three feet, three and one-half feet, and four feet long, respectively. The velvet trimming in the same order is two, three, and five inches and extends all around the hood on the exposed edge. This same trimming identifies the faculty in which the degree was awarded. For each faculty there is a corresponding color; so a glance at the trimming is all that is needed to identify the faculty. A partial list of the colors follows: Agriculture, maize; Architecture and Art, brown; Science, golden yellow; Economics, copper; Education, light blue; Engineering, orange; Forestry, russet; Physical Education, sage green; Religion, scarlet; Speech, silver gray; Veterinary Medicine, gray; Textiles, wine red. The following faculties have the same color—dark blue: Anthropology, History, Languages, Literature, Philosophy, Political Science, Sociology.

Academic Honors

Honors participants benefit from a more individualized and rigorous approach to their desired degree through special classes, seminars and individual research.

Undergraduate degree honor designations are:

- Cum Laude—for GPA 3.250 through 3.499 (white sash)
- Magna Cum Laude—for GPA 3.500 through 3.749 (red sash)
- Summa Cum Laude—for GPA 3.750 and above (gold sash)
