ALVIN M. FOUNTAIN, '23

Music by:
BONNIE F. NORRIS, JR., '23

Where the winds of Dixie softly blow
o'er the fields of Caroline,

There stands ever cherished N. C. State,
as thy honored shrine.

So lift your voices; Loudly sing
from hill to oceanside!

Our hearts ever hold you, N. C. State
in the folds of our love and pride.

JOHN HOPE FRANKLIN

John Hope Franklin is a renowned educator, historian and author who is the James B. Duke Professor of History Emeritus at Duke University.

Dr. Franklin is a native of Oklahoma and a graduate of Fisk University. He received a master of arts degree and a doctoral degree in history from Harvard University.

From 1985 to 1992, Franklin was professor of legal history in the Duke University School of Law. Prior to that time he served as professor of history at several universities, including St. Augustine's College, North Carolina College at Durham (now N. C. Central University), Howard University and Brooklyn College.

He was chairman of the History Department at the University of Chicago (1967-1970) and was named John Matthew Manly Distinguished Service Professor (1969-1982). Dr. Franklin also has served as professor at Cambridge University, England, and as visiting professor at Australian and New Zealand universities, Harvard University, the University of Wisconsin, Cornell University, the University of California at Berkeley and the University of Hawaii.

He has written a number of books including "The Emancipation Proclamation," "The Militant South," "The Free Negro in North Carolina," "Reconstruction After the Civil War," and "A Southern Odyssey: Travelers in the Antebellum North."

Perhaps his best known book is "From Slavery to Freedom: A History of Negro Americans."

His most recent book is a collection of essays covering a teaching and writing career of 50 years. "Race and History: Selected Essays, 1938-1988" was published early in 1990.

Dr. Franklin has served on many national commissions and delegations, including the National Council on the Humanities, from which he resigned in 1979 when he was appointed to the Advisory Commission on Public Diplomacy. He also served on the President's Advisory Commission on Ambassadorial Appointments.

He received the Council for the Jefferson Medal for 1984 presented by the Council for the Advancement and Support of Education, and was the first recipient of the Cleath Brooks Medal by the Fellowship of Southern Writers in 1989. In 1990 he received the Encyclopedia Britannica Gold Medal for the Dissemination of Knowledge.

Academic Costume

Academic gowns represent a tradition handed down from the universities of the Middle Ages. These institutions were founded by the Church; the students, being clerics, were obliged to wear the prescribed gowns at all times. Round caps later became square mortarboards; the hoods, originally cowls attached to the gowns, could be slipped over the head for warmth.

Many European universities have distinctive caps and gowns which are different from those commonly used in this country. Some of the gowns are of bright colors and some are embellished with fur. A number of these may be noted in the procession.

The usual color for academic gowns in the United States is black. The bachelor's gown is worn closed, the master's and doctor's may be worn open or closed. The shape of the sleeve is the distinguishing mark of the gown: bachelor—long pointed sleeves; master—oblong, square cut in the back with an arc cut away in front; doctor—bell shaped.

Caps are black. The tassels for the Ph.D. degree are gold and those for other graduate and professional degrees may be of the color corresponding to the trimmings on the hoods.

Of all the components of the academic costume, the hood bears the heaviest symbolic burden. The hood must make clear the level of the degree, the faculty in which it was given, and the institution which awarded it. The level of the degree is shown by the size of the hood, the width of the velvet trimming, and in the case of doctors, by the shape. The bachelor's, master's, and doctor's hoods are three feet, three and one-half feet, and four feet long, respectively. The velvet trimming in the same order is two, three, and five inches and extends all around the hood on the exposed edge. This same trimming identifies the faculty in which the degree was awarded. For each faculty there is a corresponding color; so a glance at the trimming is all that is needed to identify the faculty. A *partial* list of the colors follows: Agriculture, maize; Architecture and Art, brown; Science, golden yellow; Economics, copper; Education, light blue; Engineering, orange; Forestry, russet; Physical Education, sage green; Religion, scarlet; Speech, silver gray; Veterinary Medicine, gray; Textiles, wine red. The following faculties have the same color—dark blue: Anthropology, History, Languages, Literature, Philosophy, Political Science, Sociology.

Academic Honors

Honors participants benefit from a more individualized and rigorous approach to their desired degree through special classes, seminars and individual research.

Undergraduate degree honor designations are:

- Cum Laude—for GPA 3.250 through 3.499 (white sash)
- Magna Cum Laude—for GPA 3.500 through 3.749 (red sash)
- Summa Cum Laude—for GPA 3.750 and above (gold sash)
