*Words by:*

ALVIN M. FOUNTAIN, '23

*Music by:*

BONNIE F. NORRIS, JR., '23

Where the winds of Dixie softly blow  
o'er the fields of Caroline,

There stands ever cherished N.C. State,  
as thy honored shrine.

So lift your voices; Loudly sing  
from hill to oceanside!

Our hearts ever hold you, N.C. State  
in the folds of our love and pride.

## DR. E. GORDON GEE

As president of The Ohio State University, Dr. E. Gordon Gee, continues as an outspoken and tireless advocate for higher education.

Gee has been chief executive officer of Ohio State since 1990 and leads one of the nation's most comprehensive land-grant universities -- with 19 colleges, 56,000 students, 22,000 faculty and staff, and an annual budget of \$1.4 billion.

Working with faculty, staff and students, Gee has focused his energy on furthering the university's teaching, research and service missions. He guided a comprehensive planning and restructuring process that set institutional priorities for education in the 21st century.

The Utah native received a bachelor's degree in history from the University of Utah in 1968, and a law degree and doctorate in education from Columbia University in 1971 and 1972 respectively.

He served as assistant law dean at the University of Utah from 1973 to 1974; was a judicial fellow and senior staff assistant in the chambers of the Chief Justice of the United States from 1974 to 1975; and was associate law dean and professor of law in the J. Reuben Clark Law School at Brigham Young University from 1975 to 1979.

In 1981, Gee became one of the nation's youngest college presidents when, at the age of 37, he assumed leadership of West Virginia University, where he had served as dean of the law school from 1979.

Gee has received numerous honors in the fields of law and education. He has written six books, including the award-winning "Information Literacy: Revolution in the Library." He serves on a number of national committees and councils, is on the executive committee of the National Association of State Universities and Land-Grant Colleges, and chairs the Council on Governmental Relations.

He and his wife, Dr. Bumgarner Gee, an assistant professor of art education at Ohio State, live in Bexley. His daughter, Rebekah is a student at Columbia University.

## WILLIAM BRANTLEY AYCOCK

Dr. William Brantley Aycock, chancellor emeritus of the University of North Carolina at Chapel Hill, is a Johnston County native who earned a bachelor's degree in education from North Carolina State University in 1936 and a master's degree in history from UNC-Chapel Hill the following year.

His career was interrupted by World War II and service in the U.S. Army. Aycock received a Bronze Star, Silver Star and the Legion of Merit for action in the European Theater of Operations as battalion commander in the 87th Infantry Division. Later he served as a Reserve officer in the Judge Advocate General's Corps.

After the war, he resumed his education in law school at UNC-Chapel Hill, and joined the law faculty in 1948 a semester before graduating first in his class. He was named acting dean of the School of Law in 1956.

As chancellor of UNC-Chapel Hill from 1957 to 1964, Aycock led the university through a period of rapid growth. Following his term as chancellor, he resumed teaching in the law school; was named Kenan Professor of Law in 1966; was a five-time winner of the McCall Teaching Award; and was the first faculty member to be named to the UNC-Chapel Hill General Alumni Association board of directors. He retired as a full-time faculty member in 1985, but continued to teach and publish.

Over the years, Aycock earned a reputation for his personal and professional stand on issues such as disadvantaged youth and the rights of women. He co-authored "The Military Law Under the Uniform Code of Military Justice" with Seymour Wurfel in 1955.

Aycock also played a role in international affairs as personal assistant to Frank Porter Graham, the United Nations representative during critical peacemaking negotiations in 1951 between India and Pakistan over Kashmir.

His achievements have earned him numerous awards including the Thomas Jefferson Award; the Distinguished Alumnus Award from the UNC-Chapel Hill Law Alumni Association; the William Richardson Davie Award from the UNC-Chapel Hill Board of Trustees; the Liberty Bell Award from the N.C. Bar Association; the Distinguished Service Medal from the UNC-Chapel Hill General Alumni Association; and the University Award from The University of North Carolina Board of Governors.

## GENERAL MAXWELL R. THURMAN

Retired Army General Maxwell R. Thurman is a High Point native who earned a bachelor's degree in chemical engineering from North Carolina State University in 1953.

After a distinguished military career that spanned 38 years, Thurman retired from the Army in 1991. One of the few non-West Point graduates to reach the four-star rank, Thurman was a principal architect of the all-volunteer Army. He played a major role in reshaping the Army's image and recruitment success with the advertising campaign, "Be All That You Can Be -- In the Army."

He probably will be best remembered, however, as commander of "Operation Just Cause," the invasion of Panama in 1989. As head of the U.S. Southern Command, Thurman orchestrated what was at the time the largest U.S. military maneuver since the Vietnam War.

During his career, Thurman held a variety of command and staff positions both overseas and in the United States. He commanded light artillery and rocket units and served as an intelligence officer in Europe, served in the Middle East during the 1958 Lebanon crisis, and twice served in Vietnam.

Thurman commanded the 82nd Airborne Division Artillery, and from 1979 to 1981 was commander of the Army Recruiting Command. He was appointed vice chief of staff in 1983 and served as the Joint Chief of Staff in the absence of the chief of staff. In 1987 he assumed command of the Army Training and Doctrine Command at Fort Monroe, Va. He is credited with molding the Army's "Air-Land" battle doctrine to capitalize on the sophisticated weapon systems and highly trained soldiers.

In 1991, Thurman was named executive-in-residence in what was then the NCSU Division of Economics and Business, now the NCSU College of Management. In that position, he helped design and participate in outreach programs to the local business community.

## ACADEMIC COSTUME

Academic gowns represent a tradition handed down from the universities of the Middle Ages. These institutions were founded by the Church; the students, being clerics, were obliged to wear the prescribed gowns at all times. Round caps later became square mortarboards; the hoods, originally cowls attached to the gowns, could be slipped over the head for warmth.

Many European universities have distinctive caps and gowns which are different from those commonly used in this country. Some of the gowns are of bright colors and some are embellished with fur. A number of these may be noted in the procession.

The usual color for academic gowns in the United States is black. The bachelor's gown is worn closed, the master's and doctor's may be worn open or closed. The shape of the sleeve is the distinguishing mark of the gown: bachelor--long pointed sleeves; master--oblong, square cut in the back with an arc cut away in front; doctor--bell shaped.

Caps are black. The tassels for the Ph.D. degree are gold and those for other graduate and professional degrees may be of the color corresponding to the trimmings on the hoods.

Of all the components of the academic costume, the hood bears the heaviest symbolic burden. The hood must make clear the level of the degree, the faculty in which it was given, and the institution which awarded it. The level of the degree is shown by the size of the hood, the width of the velvet trimming, and in the case of doctors, by the shape. The bachelor's, master's, and doctor's hoods are three feet, three and one-half feet, and four feet long, respectively. The velvet trimming in the same order is two, three, and five inches and extends all around the hood on the exposed edge. This same trimming identifies the faculty in which the degree was awarded. For each faculty there is a corresponding color; so a glance at the trimming is all that is needed to identify the faculty. A partial list of the colors follows: Agriculture, maize; Architecture and Art, brown; Science, golden yellow; Economics, copper; Education, light blue; Engineering, orange; Forestry, russet; Physical Education, sage green; Religion, scarlet; Speech, silver gray; Veterinary Medicine, gray; Textiles, wine red. The following faculties have the same color--dark blue: Anthropology, History, Languages, Literature, Philosophy, Political Science, Sociology.

## ACADEMIC HONORS

Honors participants benefit from a more individualized and rigorous approach to their desired degree through special classes, seminars and individual research.

Undergraduate degree honor designations are:

- Cum Laude--for GPA 3.250 through 3.499 (white sash)
