ALMA MATER The Grains of Time

RECESSIONAL (Platform Party only)

Dr. Jerry Punch

There are television sports reporters. And there are doctors. Dr. Jerry Punch is both.

Until recently, Punch navigated between two hectic careers as a sports reporter for ESPN and ABC and as chief of staff of a Florida hospital and director of an emergency room. Occasionally, his dual interests merged: he sometimes stopped covering auto races so he could rush to help badly injured drivers such as Rusty Wallace and Don Marmor.

Punch, 43, now concentrates on reporting full time. After 15 years in trauma medicine, he sold the emergency medicine group he used to run in Florida and works solely for ESPN and ABC, which are both Disney affiliates.

Success has come steadily for Punch. He graduated magna cum laude from NC State University in 1975 before finishing at Bowman Gray Medical School at Wake Forest University in 1979. He credits NC State with instilling in him the "relentless preparation" that shapes his work. Punch said his two best decisions in life were to marry his wife, Joni Fields Punch, and to attend NC State.

A native of Newton, Punch brings a lifetime of loving sports to his profession. He was a mechanic and race car driver in high school and was a walk-on, back-up quarterback at NC State for Coach Lou Holtz. He got his start in the business announcing auto races on the weekends in medical school and eventually landed assignments with ESPN when he was a resident at a Daytona Beach hospital.

He has been a pit reporter covering NASCAR Winston Cup races for ESPN since 1984 and has worked as a college football sideline reporter since 1989. He also hosts other motorsports events and has called play-by-play for college football, basketball and gymnastics.

At the same time, Punch held down a demanding schedule as a doctor. Most recently, he was director of emergency room services at Memorial Hospital-Flagler in Bunnell, Fla.

In recognition of his accomplishments, NC State named him Outstanding Young Alumnus in 1989. The annual award honors graduates who are 35 or younger and have made the most contributions to their profession, community and university.

He also was awarded the United States Air Force Outstanding Performance Award, which is given for exemplary service in the auto racing community, in 1989; was named NASCAR's Team Player of the Year in 1990; and was given the ARCA Motorsports Media Award in 1995. That award is presented to individuals or groups whose extra efforts have benefitted that motorsport series.

Punch has four sons. He and his wife live in Cornelius with their 2 1/2 year-old daughter.

Dr. Prezell Russell Robinson

Dr. Prezell Russell Robinson is president emeritus of Saint Augustine's College where he is also Charles A. Mott Endowed Distinguished Professor of the Social Sciences. But Robinson's influence extends far beyond the Raleigh campus where he spent 28 years as the top administrator. He also has made an international imprint during his career.

Robinson is serving for the second time as a U.S. Alternate Representative to the United Nations. He was first appointed by President Bush in 1992 and was appointed again by President Clinton this year. He also was selected by the Department of State to visit and lecture in six African countries in 1971 and was appointed by President Carter to serve on the U.S.-Liberian Commission in 1980.

Robinson, who was born in Batesburg, S.C., graduated from Voorhees School and Junior College in Denmark, S.C., before earning a bachelor's degree in economics and social science from Saint Augustine's. He earned master's and doctoral degrees in rural education and rural sociology-economics from Cornell University.

He was a dean and sociology professor at Saint Augustine's between 1956 and 1964, was appointed executive dean and professor in 1964 and was named acting president in June 1966. He became president and a professor of sociology eight months later.

Robinson has earned recognition throughout his career, both as a faculty member and an administrator. He was voted one of three outstanding teachers at Saint Augustine's in 1961-62, was awarded a U.S. Fulbright Fellowship to India in 1965 and was selected one of 20 college presidents in the "100 Most Effective Presidents of America" in 1986. Robinson has received 11 honorary degrees.

Robinson has a long history of involvement in the Raleigh community. He is active in the Episcopal Church, at the parish, diocesan and national levels. In addition, Robinson is vice chairman of the North Carolina State Board of Education and has served on numerous academic and community organizations. They include: the executive committee of the International Association of University Presidents; the board of directors of The Episcopal Church Foundation; the Association of Southern Colleges and Universities, of which he was president in 1974-75; the executive committee of the United Negro College Fund, of which he was president and a member from 1978 to 1981; the National Association for Equal Opportunity in Higher Education, of which he was president from 1982 to 1985; the Association of Episcopal Colleges, of which he was president from 1989 to 1994; the board of directors of The Episcopal Church Pension Fund, on which he has served since 1985; and the board of trustees of Peace College in Raleigh and of Voorhees College.

Robinson, who lives in Raleigh, retired in 1995. He and his wife, Lulu, have one daughter.

The Alma Mater

Words by:

ALVIN M. FOUNTAIN, '23

Music by:

BONNIE F. NORRIS, JR., '23

Where the winds of Dixie softly blow
o'er the fields of Caroline,

There stands ever cherished N.C. State,
as thy honored shrine.

So lift your voices; Loudly sing
from hill to oceanside!

Our hearts ever hold you, N.C. State
in the folds of our love and pride.

Academic Costume

Academic gowns represent a tradition handed down from the universities of the Middle Ages. These institutions were founded by the Church; the students, being clerics, were obliged to wear the prescribed gowns at all times. Round caps later became square mortarboards; the hoods, originally cowls attached to the gowns, could be slipped over the head for warmth.

Many European universities have distinctive caps and gowns which are different from those commonly used in this country. Some of the gowns are of bright colors and some are embellished with fur. A number of these may be noted in the procession.

The usual color for academic gowns in the United States is black. The bachelor's gown is worn closed, the master's and doctor's may be worn open or closed. The shape of the sleeve is the distinguishing mark of the gown: bachelor--long pointed sleeves; master--oblong, square cut in the back with an arc cut away in front; doctor--bell shaped.

Caps are black. The tassels for the Ph.D. degree are gold and those for other graduate and professional degrees may be of the color corresponding to the trimmings on the hoods.

Of all the components of the academic costume, the hood bears the heaviest symbolic burden. The hood must make clear the level of the degree, the faculty in which it was given, and the institution which awarded it. The level of the degree is shown by the size of the hood, the width of the velvet trimming, and in the case of doctors, by the shape. The bachelor's, master's, and doctor's hoods are three feet, three and one-half feet, and four feet long, respectively. The velvet trimming in the same order is two, three, and five inches and extends all around the hood on the exposed edge. This same trimming identifies the faculty in which the degree was awarded. For each faculty there is a corresponding color; so a glance at the trimming is all that is needed to identify the faculty. A partial list of the colors follows: Agriculture, maize; Architecture and Art, brown; Science, golden yellow; Economics, copper; Education, light blue; Engineering, orange; Forestry, russet; Physical Education, sage green; Religion, scarlet; Speech, silver gray; Veterinary Medicine, gray; Textiles, wine red. The following faculties have the same color--dark blue: Anthropology, History, Languages, Literature, Philosophy, Political Science, Sociology.

Academic Honors

Honors participants benefit from a more individualized and rigorous approach to their desired degree through special classes, seminars and individual research.

Undergraduate degree honor designations are:

- Cum Laude--for GPA 3.250 through 3.499 (white sash)
- Magna Cum Laude--for GPA 3.500 through 3.749 (red sash)
- Summa Cum Laude--for GPA 3.750 and above (gold sash)
