FRED MCFEELY "MISTER" ROGERS

Fred McFeely Rogers is the longtime host of the *Mister Rogers' Neighborhood* television program, a child development expert, an ordained Presbyterian minister and a family advocate. Rogers was born in 1928 in Latrobe, Pa., a small town east of Pittsburgh, where he also was raised.

He attended Rollins College in Florida, where he majored in music composition. After graduation in 1951, he was hired by NBC in New York as an assistant producer. He later worked as floor director on several programs.

In 1953 he moved back to Pittsburgh at the request of WQED, the nation's first community-supported public television station. Rogers developed and began producing several programs there, including *The Children's Corner*. Some of Rogers' program regulars, including puppets Daniel Striped Tiger and King Friday XIII, began their long lives on the show.

It was during the seven-year run of *The Children's Corner* that Rogers began studying child development and attending the Pittsburgh Theological Seminary in his spare time. He was ordained by the Pittsburgh Presbytery in 1962 with a charge to continue his work with children and families through the media.

Rogers first appeared on camera in 1963, when he was hired by the Canadian Broadcasting Corporation to create a 15-minute children's series entitled *MISTEROGERS*.

In 1964 Rogers returned to Pittsburgh, where his show evolved into the half-hour *Mister Rogers' Neighborhood*. Rogers uses his own observations and training along with consultations with experts to write *Mr. Rogers' Neighborhood*, the longest running show on public television.

The program reaches almost eight million households and child-care settings each week. There are nearly 700 episodes in the series, and Rogers continues to write and produce several weeks of new programs each season.

Mister Rogers' Neighborhood is a slow-moving, quiet program aimed at teaching children to find within themselves the courage to grow.

Rogers' work has earned two George Foster Peabody Awards and several Emmys.

Rogers is president of Family Communications Inc., the nonprofit organization he founded in 1971 to produce materials that encourage the healthy emotional growth of children and their families.

He has received honorary degrees from more than 30 colleges and universities, including Yale, Carnegie Mellon and Boston universities and his alma mater, Rollins College.

Rogers and his wife, Joanne Byrd Rogers, have two married sons and two grandsons.

ACADEMIC COSTUME

Academic gowns represent a tradition handed down from the universities of the Middle Ages. These institutions were founded by the Church; the students, being clerics, were obliged to wear the prescribed gowns at all times. Round caps later became square mortarboards; the hoods, originally cowls attached to the gowns, could be slipped over the head for warmth.

Many European universities have distinctive caps and gowns which are different from those commonly used in this country. Some of the gowns are of bright colors and some are embellished with fur. A number of these may be noted in the procession.

The usual color for academic gowns in the United States is black. The bachelor's gown is worn closed, the master's and doctor's may be worn open or closed. The shape of the sleeve is the distinguishing mark of the gown: bachelor--long pointed sleeves; master--oblong, square cut in the back with an arc cut away in front; doctor--bell shaped.

Caps are black. The tassels for the Ph.D. degree are gold and those for other graduate and professional degrees may be of the color corresponding to the trimmings on the hoods.

Of all the components of the academic costume, the hood bears the heaviest symbolic burden. The hood must make clear the level of the degree, the faculty in which it was given, and the institution which awarded it. The level of the degree is shown by the size of the hood, the width of the velvet trimming, and in the case of doctors, by the shape. The bachelor's, master's, and doctor's hoods are three feet, three and one-half feet, and four feet long, respectively. The velvet trimming in the same order is two, three, and five inches and extends all around the hood on the exposed edge. This same trimming identifies the faculty in which the degree was awarded. For each faculty there is a corresponding color; so a glance at the trimming is all that is needed to identify the faculty. A partial list of the colors follows: Agriculture, maize; Architecture and Art, brown; Science, golden yellow; Economics, copper; Education, light blue; Engineering, orange; Forestry, russet; Physical Education, sage green; Religion, scarlet; Speech, silver gray; Veterinary Medicine, gray; Textiles, wine red. The following faculties have the same color--dark blue: Anthropology, History, Languages, Literature, Philosophy, Political Science, Sociology.

ACADEMIC HONORS

Honors participants benefit from a more individualized and rigorous approach to their desired degree through special classes, seminars and individual research.

Undergraduate degree honor designations are:

- Cum Laude--for GPA 3.250 through 3.499 (white sash)
- Magna Cum Laude--for GPA 3.500 through 3.749 (red sash)
- Summa Cum Laude--for GPA 3.750 and above (gold sash)
