The audience is requested to be seated during the Recessional

THE HONORABLE DONNA SHALALA

Donna E. Shalala is the longest serving secretary of Health and Human Services (HHS) in U.S. history. Shalala accepted the post in January 1993 to lead the federal government's principal agency for protecting the health of Americans and providing essential human services. HHS administers a wide variety of programs including Medicare, Medicaid and federal welfare and children's programs.

In Shalala's seven years as secretary, the department has helped guide the welfare reform process; made health insurance available to an estimated 2.5 million children through the approval of Children's Health Insurance Programs (CHIP); raised child immunization rates to the highest levels in history; led the fight against young peoples' use of tobacco; created national initiatives to fight breast cancer, racial and ethnic health disparities, and violence against women; and crusaded for better access and better medications to treat AIDS.

Born on February 14, 1941, in Cleveland, Ohio, Shalala earned a bachelor of arts degree from Western College for Women in 1962 and a doctoral degree from the Maxwell School of Citizenship and Public Affairs at Syracuse University in 1970.

From 1975 to 1977, Shalala served as treasurer of New York City's Municipal Assistance Corporation, the organization that helped rescue the city from the edge of bankruptcy. Shalala then went on to become president of Hunter College in New York, New York, a position she held for eight years. She also was an assistant secretary at the Department of Housing and Urban Development during the Carter Administration.

From 1987 to 1993, Shalala served as the chancellor of the University of Wisconsin-Madison, the first woman to head a Big Ten university. *Business Week* named her one of the five best managers in higher education.

Shalala also has served in the Peace Corps as a volunteer in Iran. She has more than two dozen honorary degrees and a host of other honors, including the 1992 National Public Service Award and the *Glamour Magazine* Woman of the Year Award in 1994. She has been elected to the National Academy of Education, the National Academy of Public Administration and the American Academy of Arts and Sciences.

THE REVEREND BILLY GRAHAM

The Reverend Billy Graham is perhaps the world's most recognized Christian evangelist. For more than half a century, he has taken his message through enormously popular crusades to more than six billion people across six continents.

Born November 7, 1918, Graham was raised on a dairy farm in Charlotte, North Carolina. Growing up during the Depression, he learned the value of hard work on the family farm, but he still found time to spend many hours in the hayloft reading books on a wide variety of subjects.

Ordained in 1939 by a church in the Southern Baptist Convention, Graham graduated from Florida Bible Institute (now Trinity College) in 1940. He graduated from Wheaton College in Illinois in 1943 and married fellow student Ruth McCue Bell.

After graduating, Graham joined Youth for Christ, an organization founded for ministry to youth and servicemen during World War II. He preached throughout the United States and Europe in the immediate postwar era.

In 1950, Graham founded the Billy Graham Evangelistic Association. His ministry is conducted through the Association's radio programs, television specials and newspaper columns. Graham also has written 18 books.

Graham's guidance has been sought by several presidents, and his appeal in both the secular and religious arenas is evidenced by the wide range of groups that have honored him. He has received numerous honorary doctorates from institutions around the world. Recognitions range from the Congressional Gold Medal to the Speaker of the Year Award and the Templeton Foundation Prize for Progress in Religion.

Graham has preached the Gospel to more people in live audiences than anyone else in history—more than 210 million people in more than 185 countries and territories—through various meetings and missions.

Graham and his wife have three daughters, two sons, 19 grandchildren and several great-grandchildren. The Grahams make their home in the mountains of North Carolina.

THE ALMA MATER

Words by:
ALVIN M. FOUNTAIN, '23

Music by:
BONNIE F. NORRIS, JR., '23

Where the winds of Dixie softly blow
o'er the fields of Caroline,

There stands ever cherished N.C. State,
as thy honored shrine.

So lift your voices; Loudly sing
from hill to oceanside!

Our hearts ever hold you, N.C. State
in the folds of our love and pride.

ACADEMIC COSTUME

Academic gowns represent a tradition handed down from the universities of the Middle Ages. These institutions were founded by the Church; the students, being clerics, were obliged to wear the prescribed gowns at all times. Round caps later became square mortarboards; the hoods, originally cowls attached to the gowns, could be slipped over the head for warmth.

Many European universities have distinctive caps and gowns which are different from those commonly used in this country. Some of the gowns are of bright colors and some are embellished with fur. A number of these may be noted in the procession.

The usual color for academic gowns in the United States is black. The bachelor's gown is worn closed, the master's and doctor's may be worn open or closed. The shape of the sleeve is the distinguishing mark of the gown: bachelor--long pointed sleeves; master--oblong, square cut in the back with an arc cut away in front; doctor--bell shaped.

Caps are black. The tassels for the Ph.D. degree are gold and those for other graduate and professional degrees may be of the color corresponding to the trimmings on the hoods.

Of all the components of the academic costume, the hood bears the heaviest symbolic burden. The hood must make clear the level of the degree, the faculty in which it was given, and the institution which awarded it. The level of the degree is shown by the size of the hood, the width of the velvet trimming, and in the case of doctors, by the shape. The bachelor's, master's, and doctor's hoods are three feet, three and one-half feet, and four feet long, respectively. The velvet trimming in the same order is two, three, and five inches and extends all around the hood on the exposed edge. This same trimming identifies the faculty in which the degree was awarded. For each faculty there is a corresponding color; so a glance at the trimming is all that is needed to identify the faculty. A partial list of the colors follows: Agriculture, maize; Architecture and Art, brown; Science, golden yellow; Economics, copper; Education, light blue; Engineering, orange; Forestry, russet; Physical Education, sage green; Religion, scarlet; Speech, silver gray; Veterinary Medicine, gray; Textiles, wine red. The following faculties have the same color--dark blue: Anthropology, History, Languages, Literature, Philosophy, Political Science, Sociology.

ACADEMIC HONORS

Honors participants benefit from a more individualized and rigorous approach to their desired degree through special classes, seminars and individual research.

Undergraduate degree honor designations are:

Cum Laude--for GPA 3.250 through 3.499 (white sash)

Magna Cum Laude--for GPA 3.500 through 3.749 (red sash)

Summa Cum Laude--for GPA 3.750 and above (gold sash)

Dissertation: Comparative In vitro Metabolism of Chloroacetamide Herbicides and Selected Metabolites between Rats and Humans. (Under the direction of Ernest Hodgson and Randy L. Rose.)

Barbara Ann Coles, Physiology
Bridgeton, New Jersey

Dissertation: Manipulating Intestinal Development and Function through Exogenous Peptide Administration. (Under the direction of W. James Croom, Jr. and Vern L. Christensen.)

Claude-Bertrand Eugene Courbois, Economics
Boone, North Carolina

Dissertation: Pesticide Availability for U.S. Food Crops: Understanding Market and Safety Forces in Product Entry, Maintenance and Withdrawal Decisions. (Under the direction of Gerald A. Carlson.)

Yu Cui, Wood and Paper Science
Wuhan, People's Republic Of China

Dissertation: Delignification of Kraft-AQ Southern Pine Pulp with Hydrogen Peroxide Catalyzed by Mn(IV)2-Me4DTNE. (Under the direction of Josef S. Gratzl and Chen Loung Chen.)

Tricia Marie Davis, Sociology
Tomahawk, Wisconsin

Dissertation: Repeating the Problem: An Examination of Unwed Adolescent Motherhood. (Under the direction of Theodore N. Greenstein.)

Leesa Jean Deterding, Chemistry
Wray, Colorado

Dissertation: Development of a Capillary Electrophoresis/Mass Spectrometric Method Using Non-aqueous Modifiers for the Analysis of Apolipoproteins: Sensitive and Precise Markers of Coronary Artery Disease. (Under the direction of Morteza G. Khaledi.)

David Drake, Forestry
Doylestown, Pennsylvania

Dissertation: Non-industrial Private Forestlands, Red-cockaded Woodpeckers and a Safe Harbor. (Under the direction of Edwin J. Jones.)

Stephanie Reed Earnshaw, Industrial Engineering
Volant, Pennsylvania

Dissertation: The Location/Allocation of Field Representatives and Trainers to Sites and Start Times. (Under the direction of Salah E. Elmaghraby and Yahya Fathi.)

Terry Eugene Engle, Nutrition, Animal Science
Corona, California

Dissertation: Effects of Dietary Copper on Lipid Metabolism in Growing and Finishing Steers. (Under the direction of Jerry W. Spears.)

Michelle Kennedy Esancy, Fiber and Polymer Science
Huntersville, North Carolina

Dissertation: Azo Dyes Based on the 5,10-Dihydrophenophosphazine Ring System. (Under the direction of Harold S. Freeman.)

- Joel Scott Fenner, Statistics
 East Longmeadow, Massachusetts
 Dissertation: Multi-systems Operation and Control. (Under the direction of Jye-Chyi Lu.)
- Katherine Joyce Follett, Psychology
 Ithaca, New York
 Dissertation: The Influence of Aging and Cognitive Complexity on the Fundamental Attribution Error. (Under the direction of Thomas M. Hess.)
- Michael Thomas Fralix, Textile Technology Management
 Raleigh, North Carolina
 Dissertation: Fabric Printing in a Totally Digital Supply Chain. (Under the direction of Trevor J. Little and Samuel C. Winchester, Jr.)
- Dawn Elizabeth Fraser, Crop Science and Plant Pathology
 Falkirk, Scotland
 Dissertation: Epidemiology of *Stagonospora nodorum* and Breeding for Resistance to Glume Blotch in Winter Wheat. (Under the direction of J. Paul Murphy and Steven Leath.)
- Lori Ann Frear, Zoology
 Grahamsville, New York
 Dissertation: Influence of Resource Availability, Food and Females, on Social Behaviors of Male and Female *Anolis carolinensis*. (Under the direction of Harold F. Heatwole.)
- Joshua Sing-Yih Fu, Civil Engineering
 Kaohsiung, Taiwan, Republic Of China
 Dissertation: Conjunctive Use of Air Quality Models for Efficiently Developing Cost-effective Ozone Control Strategies. (Under the direction of E. Downey Brill, Jr.)
- Nianci Gan, Statistics
 Wuhan, People's Republic Of China
 Dissertation: General Zero-inflated Models and Their Applications. (Under the direction of Jye-Chyi Lu.)
- Zhaoping Ge, Physiology
 Shanghai, People's Republic Of China
 Dissertation: The Insulin-like Growth Factor System in *Procine Corpora Lutea*. (Under the direction of John Evan Gadsby.)
- Sandra Elizabeth Godwin, Sociology
 Jay, Florida
 Dissertation: Making the Cultural Personal: Parents' Use of Cultural Resources to Manage Emotion and Salvage Identity. (Under the direction of Barbara J. Risman.)
- Mark Stewart Graham, Forestry
 Fayetteville, North Carolina
 Dissertation: Evaluating the Periodic Harvest of White-tailed Deer as a Strategy to Obtain Older Bucks on Fort Bragg Military Reservation, North Carolina. (Under the direction of Richard A. Lancia.)
- David Kirk Grotjohn, Psychology
 Cary, North Carolina
 Dissertation: An Application of the Elaboration Likelihood Model to Product Safety Warnings. (Under the direction of Amy G. Halberstadt and Michael S. Wogalter.)

Kevin Payne Gwaltney, Chemistry

Chester, Virginia

Dissertation: Potential Building Blocks for Improved Porphyrinic Molecular Magnetic Materials: Design, Synthesis and Characterization. (Under the direction of David A. Shultz.)

Hoon Ham, Materials Science and Engineering

Seoul, South Korea

Dissertation: Scanning Tunneling Microscopy of Nanoscale Structures of Titanium Disilicide on Clean Silicon Surfaces. (Under the direction of Robert J. Nemanich and Carl C. Koch.)

Karen Elizabeth Harwell, Aerospace Engineering

Tullahoma, Tennessee

Dissertation: Matching Boundary Layer and Inviscid Flowfields at Hypersonic Speeds. (Under the direction of Fred R. DeJarnette.)

Laura Nan Healy, Comparative Biomedical Sciences

Durham, North Carolina

Dissertation: Effect of Background Strain on the Hematologic Toxicity of Inhaled Benzene in FVB/N-Tg.AC and C57BL/6-Trp 53 +/-knockout Mice. (Under the direction of John M. Cullen.)

Cherilyn Louise Heggen-Peay, Immunology

Raleigh, North Carolina

Dissertation: Immune Alterations and Performance in Young Turkeys Associated with Poult Enteritis and Mortality Syndrome and a Novel Virus. (Under the direction of Muquarrab A. Qureshi.)

Kinam Heo, Animal Science

Seoul, South Korea

Dissertation: Nutritional and Metabolic Assessment of Carnitine for Young Pigs. (Under the direction of Jack Odle.)

Ji-Dih Hu, Mechanical Engineering

Taipei, Taiwan, Republic Of China

Dissertation: RTP Temperature Measurement: An Evaluation of the Ripple Technique. (Under the direction of F. Yates Sorrell, Jr.)

Lynn Jeffrey Hubbard, Food Science and Biological and Agricultural Engineering

Julian, North Carolina

Dissertation: Determination and Analysis of Convective Heat Transfer Rates during Immersion Frying. (Under the direction of Scott A. Hale and Brian E. Farkas.)

Robert Louis Hummel, Entomology

Tampa, Florida

Dissertation: Tillage, Insecticide Inputs, Crop Rotation and Intercropping: Factors That Affect Insect Pests and Natural Enemies in Vegetable Systems in Western North Carolina. (Under the direction of James F. Walgenbach.)

Jingrui Jiang, Horticultural Science

Fu-Jian, People's Republic Of China

Dissertation: Physiological and Molecular Analysis of Brassinosteroid Action in Plant Cell Division. (Under the direction of Steve D. Clouse.)

Cheryl Ann Johnson, School Psychology
Raleigh, North Carolina

Dissertation: The Influence of Internal and External Comparison Others on Sex Differences in Self-presentations of Academic and Social Competence and in State Self-esteem. (Under the direction of Samuel S. Snyder and Mary E. Haskett.)

Deana Robinson Jones, Physiology
Mount Gilead, North Carolina

Dissertation: The Effects of a Rearing Phase Vaccination Program and Laying Phase Dietary Total Sulfur Amino Acids on Egg Production, Composition and Functionality; Heterophil:Lymphocyte Ratios; and Plasma Corticosterone and Thyroid Hormone Concentrations. (Under the direction of Gary S. Davis and Patricia A. Curtis.)

Catherine Edith Jozwik, Microbiology
Casper, Wyoming

Dissertation: Genetic and Biochemical Analysis of Translational Repression by Bacteriophage RegA Proteins. (Under the direction of Eric S. Miller.)

Donghun Kang, Materials Science and Engineering
Seoul, South Korea

Dissertation: Field Emission Study on Ultra-thin AlN Coated Mo Emitters. (Under the direction of Jerome J. Cuomo.)

Gregory John Kaszycki, Computer Science
Pittsburgh, Pennsylvania

Dissertation: An Adaptive Non-parametric Kernel Method for Classification. (Under the direction of Dennis R. Bahler.)

Kathleen Anne Kelly, Chemistry
Poughkeepsie, New York

Dissertation: Thermodynamic Analysis of Retention in Micellar Electrokinetic Chromatography. (Under the direction of Morteza G. Khaledi.)

Scott Fredrick Kiefer, Mechanical Engineering
Marshall, Wisconsin

Dissertation: Heat Transfer and Electro-mechanical Analyses of Electrostatically Actuated Blinds inside Insulated Glass. (Under the direction of Lawrence M. Silverberg.)

Chul Kim, Mechanical Engineering
Busan, South Korea

Dissertation: Accurate Suspension Models for Active Vehicle Control Synthesis Using Model Reduction Techniques. (Under the direction of Paul H Hwan Ro.)

Hyejin Ko, Statistics
Seoul, South Korea

Dissertation: Missing and Mismeasured Covariates in Nonlinear Mixed Effects Models. (Under the direction of Marie Davidian.)

Chalapathi Rao Venkata Koka, Horticultural Science
Bangalore, India

Dissertation: Physiological and Molecular Characterization of a Brassinosteroid-deficient Tomato Mutant. (Under the direction of Steve D. Clouse.)

DEPARTMENTAL AWARDS FOR TEACHING AND LEARNING EXCELLENCE

The Departmental Awards for Teaching and Learning Excellence were established in 1999-00. Each year, up to two departments are recognized for their exceptional accomplishments in teaching and learning. Nominations are made by college deans, and dossiers supporting these nominations are reviewed by a committee of faculty, students, and staff appointed by the provost. Each department identified for this award receives a continuing base budget adjustment of \$15,000 and a one time award of \$5,000.

The two departments selected to receive this award are listed below along with abstracts of their dossiers.

Botany

The Department of Botany is committed to excellence in teaching and learning at both the graduate and undergraduate level. The department's philosophy of teaching and learning encompasses three major perspectives. First, the activities as a department are student centered, and are driven by the needs of the diverse students we serve. Second, research and teaching are viewed as inseparable and mutually beneficial. Third, the educational mission is one that has no borders, and extends past the department to the college, university, and beyond to a national and international audience of learners. The commitment to being student centered by providing innovative educational opportunities, high-quality courses taught by award-winning faculty, and by striving to meet the students' personal and professional development in addition to their educational development is met. Research and teaching is linked by having faculty with nationally and internationally recognized research programs, offering courses that teach students about research, providing students with research opportunities, and securing and directing training grants that offer students opportunities unmatched at many institutions. Finally, the faculty contribute to many educational activities beyond the borders of the department, as teachers, advisors, directors of academic programs, members of key teaching committees, and participants in important educational initiatives.

History

The History Department is exceptionally well organized to teach effectively at all levels of the undergraduate and graduate curricula. Students benefit from the unusually equitable distribution of faculty teaching responsibilities, and from the symbioses of teaching with research; there is widespread faculty participation in the organization of the department as a teaching unit; the department contributes significantly to the development of students' skills of communication and ethical awareness; the department curriculum represents the kinds and degrees of diversity to which the university is committed; the department has taken significant steps to improve the history major and to assess the effectiveness of the learning process in the major; it has developed outstanding Masters Programs in

History and Public History; and the faculty is increasingly engaged with new teaching methods and technologies.

Nominations were received from the following departments, all of which are to be congratulated for having been recognized by their colleges for accomplishments in teaching and learning:

THE HONORABLE DONNA SHALALA

Donna E. Shalala is the longest serving secretary of Health and Human Services (HHS) in U.S. history. Shalala accepted the post in January 1993 to lead the federal government's principal agency for protecting the health of Americans and providing essential human services. HHS administers a wide variety of programs including Medicare, Medicaid and federal welfare and children's programs.

In Shalala's seven years as secretary, the department has helped guide the welfare reform process; made health insurance available to an estimated 2.5 million children through the approval of Children's Health Insurance Programs (CHIP); raised child immunization rates to the highest levels in history; led the fight against young peoples' use of tobacco; created national initiatives to fight breast cancer, racial and ethnic health disparities, and violence against women; and crusaded for better access and better medications to treat AIDS.

Born on February 14, 1941, in Cleveland, Ohio, Shalala earned a bachelor of arts degree from Western College for Women in 1962 and a doctoral degree from the Maxwell School of Citizenship and Public Affairs at Syracuse University in 1970.

From 1975 to 1977, Shalala served as treasurer of New York City's Municipal Assistance Corporation, the organization that helped rescue the city from the edge of bankruptcy. Shalala then went on to become president of Hunter College in New York, New York, a position she held for eight years. She also was an assistant secretary at the Department of Housing and Urban Development during the Carter Administration.

From 1987 to 1993, Shalala served as the chancellor of the University of Wisconsin-Madison, the first woman to head a Big Ten university. *Business Week* named her one of the five best managers in higher education.

Shalala also has served in the Peace Corps as a volunteer in Iran. She has more than two dozen honorary degrees and a host of other honors, including the 1992 National Public Service Award and the *Glamour Magazine* Woman of the Year Award in 1994. She has been elected to the National Academy of Education, the National Academy of Public Administration and the American Academy of Arts and Sciences.

THE REVEREND BILLY GRAHAM

The Reverend Billy Graham is perhaps the world's most recognized Christian evangelist. For more than half a century, he has taken his message through enormously popular crusades to more than six billion people across six continents.

Born November 7, 1918, Graham was raised on a dairy farm in Charlotte, North Carolina. Growing up during the Depression, he learned the value of hard work on the family farm, but he still found time to spend many hours in the hayloft reading books on a wide variety of subjects.

Ordained in 1939 by a church in the Southern Baptist Convention, Graham graduated from Florida Bible Institute (now Trinity College) in 1940. He graduated from Wheaton College in Illinois in 1943 and married fellow student Ruth McCue Bell.

After graduating, Graham joined Youth for Christ, an organization founded for ministry to youth and servicemen during World War II. He preached throughout the United States and Europe in the immediate postwar era.

In 1950, Graham founded the Billy Graham Evangelistic Association. His ministry is conducted through the Association's radio programs, television specials and newspaper columns. Graham also has written 18 books.

Graham's guidance has been sought by several presidents, and his appeal in both the secular and religious arenas is evidenced by the wide range of groups that have honored him. He has received numerous honorary doctorates from institutions around the world. Recognitions range from the Congressional Gold Medal to the Speaker of the Year Award and the Templeton Foundation Prize for Progress in Religion.

Graham has preached the Gospel to more people in live audiences than anyone else in history—more than 210 million people in more than 185 countries and territories—through various meetings and missions.

Graham and his wife have three daughters, two sons, 19 grandchildren and several great-grandchildren. The Grahams make their home in the mountains of North Carolina.

ACADEMIC COSTUME

Academic gowns represent a tradition handed down from the universities of the Middle Ages. These institutions were founded by the Church; the students, being clerics, were obliged to wear the prescribed gowns at all times. Round caps later became square mortarboards; the hoods, originally cowls attached to the gowns, could be slipped over the head for warmth.

Many European universities have distinctive caps and gowns which are different from those commonly used in this country. Some of the gowns are of bright colors and some are embellished with fur. A number of these may be noted in the procession.

The usual color for academic gowns in the United States is black. The bachelor's gown is worn closed, the master's and doctor's may be worn open or closed. The shape of the sleeve is the distinguishing mark of the gown: bachelor--long pointed sleeves; master--oblong, square cut in the back with an arc cut away in front; doctor--bell shaped.

Caps are black. The tassels for the Ph.D. degree are gold and those for other graduate and professional degrees may be of the color corresponding to the trimmings on the hoods.

Of all the components of the academic costume, the hood bears the heaviest symbolic burden. The hood must make clear the level of the degree, the faculty in which it was given, and the institution which awarded it. The level of the degree is shown by the size of the hood, the width of the velvet trimming, and in the case of doctors, by the shape. The bachelor's, master's, and doctor's hoods are three feet, three and one-half feet, and four feet long, respectively. The velvet trimming in the same order is two, three, and five inches and extends all around the hood on the exposed edge. This same trimming identifies the faculty in which the degree was awarded. For each faculty there is a corresponding color, so a glance at the trimming is all that is needed to identify the faculty. A partial list of the colors follows: Agriculture, maize; Architecture and Art, brown; Science, golden yellow; Economics, copper; Education, light blue; Engineering, orange; Forestry, russet; Physical Education, sage green; Religion, scarlet; Speech, silver gray; Veterinary Medicine, gray; Textiles, wine red. The following faculties have the same color--dark blue: Anthropology, History, Languages, Literature, Philosophy, Political Science, Sociology.

ACADEMIC HONORS

Honors participants benefit from a more individualized and rigorous approach to their desired degree through special classes, seminars and individual research.

Undergraduate degree honor designations are:

Cum Laude--for GPA 3.250 through 3.499 (white sash)

Magna Cum Laude--for GPA 3.500 through 3.749 (red sash)

Summa Cum Laude--for GPA 3.750 and above (gold sash)
