DR. HARM DE BLIJ

Author, professor, and television personality, H. J. de Blij (pronounced duh Blay) for seven years was the popular Geography Editor on ABC's "Good Morning America." In 1996, he joined NBC News as Geography Analyst. His Geography series "The Power of Place" aired for several years on PBS. In his role as television's geographer he has appeared from locations throughout the United States and around the world, using his trademark maps to explain the geographic background to major events.

He has published more than 30 books, including scientific, educational and trade titles, and over 100 articles in the scholarly and popular literature. Several of his books have achieved multiple editions and have spent years on the bestseller lists. His publishers include the Smithsonian Institution, the National Geographic Society (of which he is an Honorary Life Member), Rand McNally, and John Wiley and Sons. Dr. de Blij's books have been translated into foreign languages including French, Italian, Russian, and Chinese.

Dr. de Blij has a unique range of educational experiences. Born in the Netherlands, he received his early schooling in Europe (part of it during the Second World War as recounted in his memoir *Wartime Encounter with Geography*), his college education in Africa, and his higher degrees in the United States. He holds a doctorate in geography from Northwestern University and has been awarded honorary degrees in humanities as well as the sciences. His television work earned him a share in an Emmy Award from the Academy of Television Arts and Sciences in 1993.

He specializes in geopolitical and environmental issues. A member of the Association of American Geographers and Honorary Fellow of the American Geographical Society, he was elected in 1980 to the National Geographic Society's Committee for Research and Exploration. He was the founding editor of the Society's scholarly journal, *National Geographic Research*.

Dr. de Blij has held several academic positions, including that of George Landegger Distinguished Professor of Political Geography in Georgetown University's School of Foreign Service, Presidential Professor at the Colorado School of Mines, and John Deaver Drinko Professor of Geography at Marshall University. His advocacy of geography on the public lecture circuit has taken him to virtually all corners of the United States; his work in research, teaching and television has spanned the globe.

He is an avid wine collector and has written three books on this pleasant (and very geographic) topic, including *Wine: a Geographic Appreciation*, which won the 1984 medal of the O.I.V. in Paris, France. Dr. de Blij also is an amateur violinist, and continues to play chamber music whenever the opportunity arises.

Harm de Blij and his wife, Bonnie, maintain homes in Boca Grande, Florida, and Chatham, Massachusetts.

THE ALMA MATER

Words by:
ALVIN M. FOUNTAIN, '23

Music by:
BONNIE F. NORRIS, JR., '23

Where the winds of Dixie softly blow
o'er the fields of Caroline,

There stands ever cherished N.C. State,
as thy honored shrine.

So lift your voices; Loudly sing
from hill to oceanside!

Our hearts ever hold you, N.C. State
in the folds of our love and pride.

ACADEMIC COSTUME

Academic gowns represent a tradition handed down from the universities of the Middle Ages. These institutions were founded by the Church; the students, being clerics, were obliged to wear the prescribed gowns at all times. Round caps later became square mortarboards; the hoods, originally cowls attached to the gowns, could be slipped over the head for warmth.

Many European universities have distinctive caps and gowns which are different from those commonly used in this country. Some of the gowns are of bright colors and some are embellished with fur. A number of these may be noted in the procession.

The usual color for academic gowns in the United States is black. The bachelor's gown is worn closed, the master's and doctor's may be worn open or closed. The shape of the sleeve is the distinguishing mark of the gown: bachelor--long pointed sleeves; master--oblong, square cut in the back with an arc cut away in front; doctor--bell shaped.

Caps are black. The tassels for the Ph.D. degree are gold and those for other graduate and professional degrees may be of the color corresponding to the trimmings on the hoods.

Of all the components of the academic costume, the hood bears the heaviest symbolic burden. The hood must make clear the level of the degree, the faculty in which it was given, and the institution which awarded it. The level of the degree is shown by the size of the hood, the width of the velvet trimming, and in the case of doctors, by the shape. The bachelor's, master's, and doctor's hoods are three feet, three and one-half feet, and four feet long, respectively. The velvet trimming in the same order is two, three, and five inches and extends all around the hood on the exposed edge. This same trimming identifies the faculty in which the degree was awarded. For each faculty there is a corresponding color; so a glance at the trimming is all that is needed to identify the faculty. A partial list of the colors follows: Agriculture, maize; Architecture and Art, brown; Science, golden yellow; Economics, copper; Education, light blue; Engineering, orange; Forestry, russet; Physical Education, sage green; Religion, scarlet; Speech, silver gray; Veterinary Medicine, gray; Textiles, wine red. The following faculties have the same color--dark blue: Anthropology, History, Languages, Literature, Philosophy, Political Science, Sociology.

ACADEMIC HONORS

Honors participants benefit from a more individualized and rigorous approach to their desired degree through special classes, seminars and individual research.

Undergraduate degree honor designations are:

Cum Laude--for GPA 3.250 through 3.499 (white sash)

Magna Cum Laude--for GPA 3.500 through 3.749 (red sash)

Summa Cum Laude--for GPA 3.750 and above (gold sash)

DEPARTMENTAL AWARDS FOR TEACHING AND LEARNING EXCELLENCE

The Departmental Awards for Teaching and Learning Excellence were established in 1999-00. Each year, up to two departments are recognized for their exceptional accomplishments in teaching and learning. Nominations are made by college deans, and dossiers supporting these nominations are reviewed by a committee of faculty, students, and staff appointed by the provost. Each department identified for this award receives a continuing base budget adjustment of \$15,000 and a one time award of \$5,000.

The two departments selected to receive this award are listed below along with abstracts of their dossiers.

Accounting

The Department of Accounting educates tomorrow's leaders in business and accounting. Two principles govern our teaching philosophy. First, students learn best when they are active participants in their own education. Second, dedication to continuous improvement in the structure and organization of curriculum and in classrooms will best prepare students for successful professional careers. To accomplish this, many resources are provided for student involvement in the learning process, such as teacher/advisor access, student organizations, internships, facilities for study and meetings, and scholarships. In addition, accounting faculty work with students in a variety of ways to link research and teaching. We make large yearly investments in facilities, new faculty, and continuous curriculum and course revisions, to maintain this excellence. The accounting program increasingly emphasizes communication skills, ethical responsibilities and technology in courses. The department has an annual review and evaluation process in place to monitor teaching effectiveness, and feedback is received from faculty, students, and employers. Finally, the department is involved to a large extent in workshops and conferences on teaching innovations and research, writing, and service for teaching journals and textbooks. As a result of these and other activities, Accounting has a history of excellence in teaching, based on awards, grants, and student feedback.

Foreign Languages and Literatures

Since its inception in 1896, the Department of Foreign Languages and Literatures has been dedicated to serving the undergraduate population at NC State. It has grown into a department that currently teaches fifteen different languages to over 10,000 students per year, being a popular choice for students who wish to expand their literary and cultural knowledge and linguistic abilities. The Department's course offerings promote cultural diversity, are dynamic and interactive, and emphasize the skills of writing, speaking, and critical thinking. By virtue of the relatively small size of our foreign language classes, faculty and students have ample opportunity to interact in meaningful ways. Students are actively engaged on a daily basis in acquiring communicative skills that can then be transferred to other contexts. Members of the Department's faculty have been awarded outstanding teaching, advising, and extension awards. They have presented papers and workshops, organized summer institutes for foreign language teachers, and published in the areas of teaching and learning effectiveness on the regional, national, and international levels, in addition to receiving generous federal grants for curriculum

development. Faculty continually strive to improve their teaching and update their learning through seminars and short courses pertaining to the use of technology and the application of inquiry guided instruction. Several faculty members are actively participating in the Hewlett Initiative and the Alcoa Program. Faculty also work closely with the Study Abroad Office to create new programs and to guide students in their learning experience abroad. In a culturally diverse environment, the Department plays a pivotal role in providing NC State students with communicative skills in foreign languages and cultural knowledge of foreign countries, essential for them to function effectively as global citizens, whatever their fields of professional expertise.

Nominations were received from the following departments, all of which are to be congratulated for having been recognized by their colleges for accomplishments in teaching and learning:
