ACADEMIC COSTUME

Academic gowns represent a tradition handed down from the universities of the Middle Ages. Universities were founded by the church and students, being clerics, were obliged to wear the prescribed gowns at all times. Round caps later became square mortarboards. The hoods, originally cowls attached to the gowns, could be slipped over the head for warmth.

Many European universities have distinctive caps and gowns different from those commonly used in this country. Some of the gowns are brightly colored and some are embellished with fur. A number of these may be noted in the procession.

Traditionally, the color for academic gowns in the United States is black. However, many institutions have chosen to use their school color for undergraduate robes as is evidenced by the Wolfpack red you are seeing today. The bachelor's gown is worn closed, the master's and doctor's may be worn open or closed. The shape of the sleeve is the distinguishing mark of the gown: bachelor's have long pointed sleeves; master's are oblong, square cut in the back with an arc cut away in front; doctor's are bell shaped.

The tassels for the Ph.D. degree are gold, and those for other graduate and professional degrees may correspond to the trimmings on the hoods. Of all the components of the academic costume, the hood bears the heaviest symbolic burden. The hood must make clear the level of the degree, the faculty in which it was given, and the institution that awarded it. The level of the degree is shown by the size of the hood, the width of the velvet trimming, and in the case of doctors, by the shape. The bachelor's, master's and doctor's hoods are three feet, three and one half feet, and four feet long, respectively. The velvet trimming in the same order is two, three, and five inches and extends all around the hood on the exposed edge. This same trimming identifies the faculty in which the degree was awarded. For each faculty there is a corresponding color; so a glance at the trimming is all that is needed to identify the faculty.

The tassel for master's candidates corresponds to the following colors: Agriculture, maize; Architecture and Art, brown; Science, golden yellow; Economics, copper; Education, light blue; Engineering, orange; Forestry, russet; Physical Education, sage green; Religion, scarlet; Speech, silver gray; Veterinary Medicine, gray; Textiles, wine red. Anthropology, History, Languages, Literature, Philosophy, Political Science and Sociology are all dark blue.

ACADEMIC HONORS

Undergraduate degree honor designations are noted on transcripts and diplomas for the following grade point averages.

Cum Laude - for GPA of 3.250 through 3.499 (white sash)

Magna Cum Laude - for GPA of 3.500 through 3.749 (silver sash)

Summa Cum Laude - for GPA of 3.750 and above (gold sash)

Students have the opportunity to participate in several programs that provide a more individualized and rigorous approach to learning through special classes, seminars, and research. Participants in the University Honors Program, University Scholars Program, the Park Scholars Program, the Caldwell Scholars Program, and college or departmental honors programs are listed in the full graduation program.

THE ALMA MATER

Words by:
ALVIN M. FOUNTAIN, '23

Music by:
BONNIE F. NORRIS, JR., '23

Where the winds of Dixie softly blow
o'er the fields of Caroline,

There stands ever cherished N.C. State,
as thy honored shrine.

So lift your voices; Loudly sing
from hill to oceanside!

Our hearts ever hold you, N.C. State
in the folds of our love and pride.

HONORARY DEGREE RECIPIENTS

I. King Jordan

*Honorary Degree Recipient
Doctor of Humane Letters*

Honorary degree recipient Dr. I. King Jordan made history in 1988 when he became the first deaf president of Gallaudet University, the world's only university with all programs and services designed specifically for students who are deaf and hard of hearing.

Jordan's leadership has heightened public awareness of the important educational contributions Gallaudet makes to the nation and the world. Much sought after as a public speaker, Jordan challenges the American public to examine their attitudes toward people with disabilities and to open their minds, hearts and workplaces to them. He continues to this day to advocate for the rights and empowerment of people who are deaf and are disabled.

Jordan served as president of Gallaudet from 1988 to 2006. Prior to that, he served as professor, department chair and dean – and made numerous scholarly contributions to his field. In addition, he has been a research fellow at Donaldson's School for the Deaf in Edinburgh, Scotland, an exchange scholar at Jagiellonian University in Krakow, Poland, and a visiting scholar and lecturer at schools in Paris, Toulouse and Marseille, France. Jordan holds 11 honorary degrees and is the recipient of numerous awards, among them: the U.S. Presidential Citizen's Medal, the "Washingtonian of the Year" award, the "James L. Fisher Award" from the Council for Advancement and Support of Education, the "Larry Stewart Award" from the American Psychological Association, and the "Distinguished Leadership" award from the National Association for Community Leadership. In 1990, President George Bush appointed Jordan vice chair of the President's Committee on Employment of People with Disabilities (PCEPD). In 1993, President Clinton reappointed Jordan vice chair of PCEPD.

Jordan is a native of Glen Riddle, Penn., a small town near Philadelphia. After graduating from high school, he enlisted in the Navy and served four years. An automobile accident left him profoundly deaf at age 21. Jordan earned a B.A. in psychology from Gallaudet in 1970. The following year he earned an M.A., and in 1973 a Ph.D., both in psychology and both from the University of Tennessee.

Jordan will receive an honorary Doctor of Humane Letters degree.

William Julius Wilson

*Honorary Degree Recipient
Doctor of Humane Letters*

Honorary degree recipient Dr. William Julius Wilson is the Lewis P. and Linda L. Geyser University Professor at Harvard University and director of the Joblessness and Urban Poverty Research Program at the John F. Kennedy School of Government.

Wilson is one of only 19 University Professors, the highest professional distinction for a Harvard faculty member. After receiving a Ph.D. from Washington State University in 1966, Wilson taught sociology at the University of Massachusetts Amherst, before joining the University of Chicago faculty in 1972. In 1990, he was appointed the Lucy Flower University Professor and director of the University of Chicago's Center for the Study of Urban Inequality. He joined the faculty at Harvard in July 1996.

Wilson has been elected to the National Academy of Sciences, the American Academy of Arts and Sciences, the American Philosophical Society, the National Academy of Education and the Institute of Medicine. He is also past president of the American Sociological Association, and is a MacArthur Prize Fellow. In 1996, Wilson was selected by *Time* magazine as one of America's "25 Most Influential People." He was a recipient of the 1998 National Medal of Science, the highest scientific honor in the United States, and was awarded the Talcott Parsons Prize in the Social Sciences by the American Academy of Arts and Sciences in 2003.

Wilson's books include *Power, Racism and Privilege* (1973), *The Declining Significance of Race* (1978), *The Truly Disadvantaged* (1987), *When Work Disappears* (1996), *The Bridge over the Racial Divide* (1999), *There Goes the Neighborhood* (2006, co-author), *Good Kids from Bad Neighborhoods* (2006, co-author), and *More than Just Race: Being Poor and Black in the Inner City* (2009).

Wilson will receive an honorary Doctor of Humane Letters degree.

Charles P. Rose, Jr.
*Commencement Speaker and
Honorary Degree Recipient
Doctor of Humane Letters*

Commencement speaker Charlie Rose is executive editor and anchor of the "Charlie Rose" show – a nightly, one-hour interview program that airs on PBS and Bloomberg and engages in one-on-one in-depth conversation and round-table discussion about important issues and ideas. Rose is also a contributing correspondent to the CBS news program, "60 Minutes."

Rose and his guests define the global conversation. Over the years, Rose has interviewed some of the world's top leaders, including Barack Obama, Gordon Brown, Nicolas Sarkozy, Lula da Silva, Mahmoud Ahmadinejad, Recep Erdogan, Bashar al-Assad, Pervez Musharraf, Hosni Mubarak, Lee Kuan Yew and Manmohan Singh. Since 1991, Rose has done more in-depth hours with Nobel Laureates, and extraordinary men and women of science, politics, art, business, sports, technology, literature and entertainment, than any other program in the world. These conversations have made Rose the cultural and intellectual custodian of our time, providing accessible profiles of the people who have influenced our world.

Each weeknight, Rose creates programs that introduce new people, explore fresh ideas and illuminate difficult issues. Special series on science, education and the rise of India have probed even deeper. Dr. Eric Kandel, recipient of the 2000 Nobel Prize in Medicine, said, "[Charlie Rose] is not simply a talented interviewer but he has emerged as the major cultural and intellectual historian of recent times and he has done so by causing a paradigm shift in how we learn – of how we acquire new knowledge of what is happening in the world around us."

Rose was born in Henderson, N.C., and graduated from Duke University with a B.A. in history and a J.D. from the School of Law. He has received numerous journalistic awards and honorary degrees. Rose is a frequent principal interviewer and moderator at global forums around the world.

Rose will receive an honorary Doctor of Humane Letters degree.

UNIVERSITY MACE

The NC State University Mace is carried by the chief faculty marshal, a position held by the chair of the faculty. The academic mace, derived from a medieval weapon, represents the need to protect and nurture the fragile search for knowledge. The NC State University Mace has been specifically designed for this community. Each aspect of the mace represents an important characteristic of the university.

When freestanding, the mace is supported in a base of North Carolina stone representing the foundation of knowledge and the dependence of this academic community on the support of the people. At the base of the mace is a brass ring with the names of individuals who have held the position of chancellor, indicating the contribution of generations of academic leaders to the formation and maturation of NC State University.

The long lower fluted handle is the primary means by which the mace is grasped, representing the responsibility for the stewardship of knowledge. The shorter fluted, upper handle is the primary means by which direction is shown, and therefore represents the responsibility for guardianship. A block embedded with the seal of the university on four faces represents the university community and its charge to reach out in all directions. At the top of the mace is a geometric progression of layers representing the continual experimentation and testing of knowledge within the NC State academic community. At the very top of the mace is a bronze prow symbolizing the continual exploration that energizes our community.

The mace is fashioned from burl walnut recovered from a North Carolina tree felled in a storm, emphasizing the need to make wise use of resources even in difficult circumstances. The wood is a gift of the Jordan family, representing the importance of the generosity of the people of North Carolina to the university. The wood is complemented by bronze and silver fittings emphasizing the precious nature of the academic experience in society. During the course of fabrication, an error was made. After much discussion, the design team decided to make the revisions necessary to correct the error rather than refabricate the flawed component. This adjustment, difficult to identify, represents the valuable lessons learned from failure as an essential component of the university experience.

The mace was designed and fabricated by a team that included College of Design Dean Marvin J. Malecha, Chris Jordan (1975, Product Design), Jack Lancaster and Jim Dean (1983, Product Design) in the College of Design Materials Laboratory.

UNIVERSITY MEDALLION

The NC State University Medallion is worn by the Chancellor for ceremonial occasions such as commencement, convocations and installations.

It is similar to the University Mace. Both come from ceremonies of the Middle Ages, during which time the modern university developed. Today, universities create medallions to commemorate special events, the contributions of exceptional individuals and recognition of those in positions of responsibility.

The NC State Medallion is designed with various symbols that describe characteristics of the university. The design features two circles, one small and one large on opposite ends of the necklace, representing the diverse nature of the academic community. The large circle, which joins the chain, is inscribed with the university's year of founding (1887) as a tribute to the vision of the founders. The necklace also consists of etched metal plates, chained together in a whole, signifying the many voices that comprise the NC State community. The medallion hangs from the necklace and features the NC State seal, a representation of the responsibility and authority of the Chancellor.

The necklace and medallion are made out of customized gold-plated brass, a strong material that represents NC State pride and the wealth of knowledge within the university.

Mary Ann Scherr was the first to design the medallion and necklace. It was redesigned by a team that included College of Design Dean Marvin J. Malecha, Chris Jordan (1975, Product Design), Jack Lancaster and Sarah Tector.
