PUBLICATIONS ASSOCIATION OF THE
**NORTH CAROLINA STATE COLLEGE
OF AGRICULTURE AND ENGINEERING**
RALEIGH, NORTH CAROLINA

F O R E W O R D

WHY a theme? We asked ourselves this question and answered that we thought a theme too disconnected with our college history and memories to be deserving of use as the basis of a story running through these pages. Instead we have embodied the college, its phases of life, and the various types of training it offers into a composite art motif. If it be termed a theme, let it be termed a theme of the college. We sincerely hope our purpose to present something new and different has been achieved. It shall have been if, in passing years this volume brings you memories of friends . . . of trials and triumphs . . . of life—at North Carolina State.

TO OUR MOTHERS AND
FATHERS

BECAUSE we feel a great indebtedness to them for the opportunities we are afforded; because theirs is a sincere joy when accomplishment is ours; because they have provided us this fellowship of college life; and, because we know no greater love than parental love . . . we wish to express a deeply felt gratitude and respectfully dedicate this volume of THE AGROMECK to the living mothers and fathers of the members of the Class of '34 and to the memories of those who are gone.

THE SCHOOL OF AGRICULTURE

THE purpose of the School of Agriculture; To secure through scientific research, experimentation and demonstration, accurate and reliable information relating to soils, plants, and animals and to secure from every available source reliable statistical, technical, and scientific data relating to every phase of agriculture that might be of advantage to North Carolina; to provide instruction for men who desire to become scientific, technical and professional agriculturists; and, to disseminate reliable information by use of publications and extension agents, and give wise instruction to the agricultural workers of the State.

THE GOLDEN CHAIN

SENIOR HONORARY

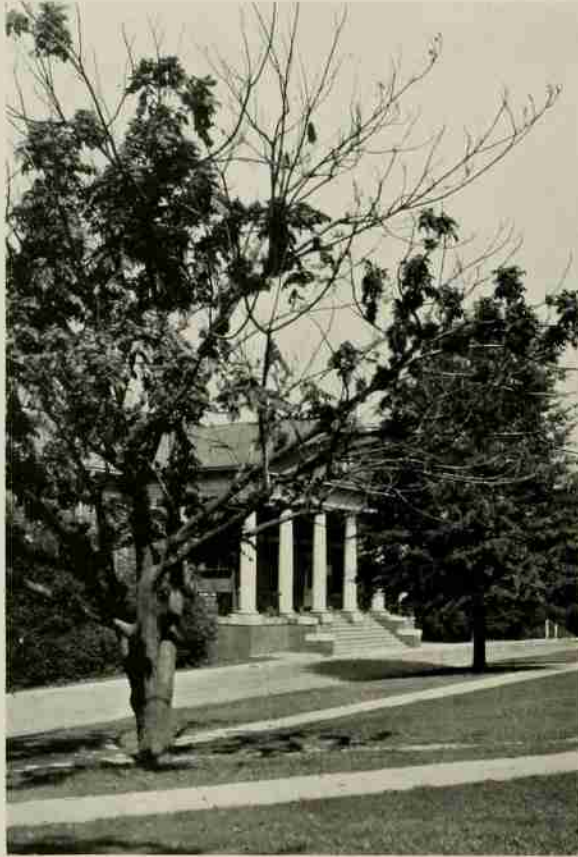

Golden Chain, Senior Honorary Society, was organized in May, 1926. The purpose of the society is to promote better citizenship and leadership on the campus. In May each year twelve Juniors, considered the outstanding members of their class, are added to the Chain by a tapping ceremony at the Memorial Tower.

W. F. GREENWOOD, K Σ Rocky Mount, N. C.
Mechanical Engineering
 Order of "30 and 3"; A. S. M. E.; Military (1, 2), Sergeant (3); *AGROMECK* (3); "Y" Cabinet (3); Vice-President of Sophomore Class; House of Representatives (1); Prom Committee (3); Companion of St. Pat.

JOHN FAIRLEY SCALES, Η K A Raleigh, N. C.
Industrial Management

WILLIAM SCHWARTZ Adams, Mass.
Landscape Architecture
 Military (1, 2); Glee Club; Beaux Arts Society.

JAMES W. MILLER, JR. Albemarle, N. C.
Forestry
 Forestry Club (5).

WALTER EUGENE WOOTEN Hickory, N. C.
General Business

ROBERT LEE POOVEY Statesville, N. C.
Textile Manufacture
 Tompkins Textile Society; Military (1, 2, 3).

JAMES FRANCIS POU Winston-Salem, N. C.
Civil Engineering
 Freshman Friendship Council; Sophomore Cabinet; A. S. C. E.; Cross Country (1, 3).

PRESTON B. RAIFORD Seven Springs, N. C.
Mechanical Engineering
 A. S. M. E.

LAWRENCE H. MCCULLEY, A T P Lenoir, N. C.
Education
 Football (1, 2, 3); Military (1, 2), Sergeant (3).

DANIEL RAY POOLE Ellerbe, N. C.
Agricultural Education

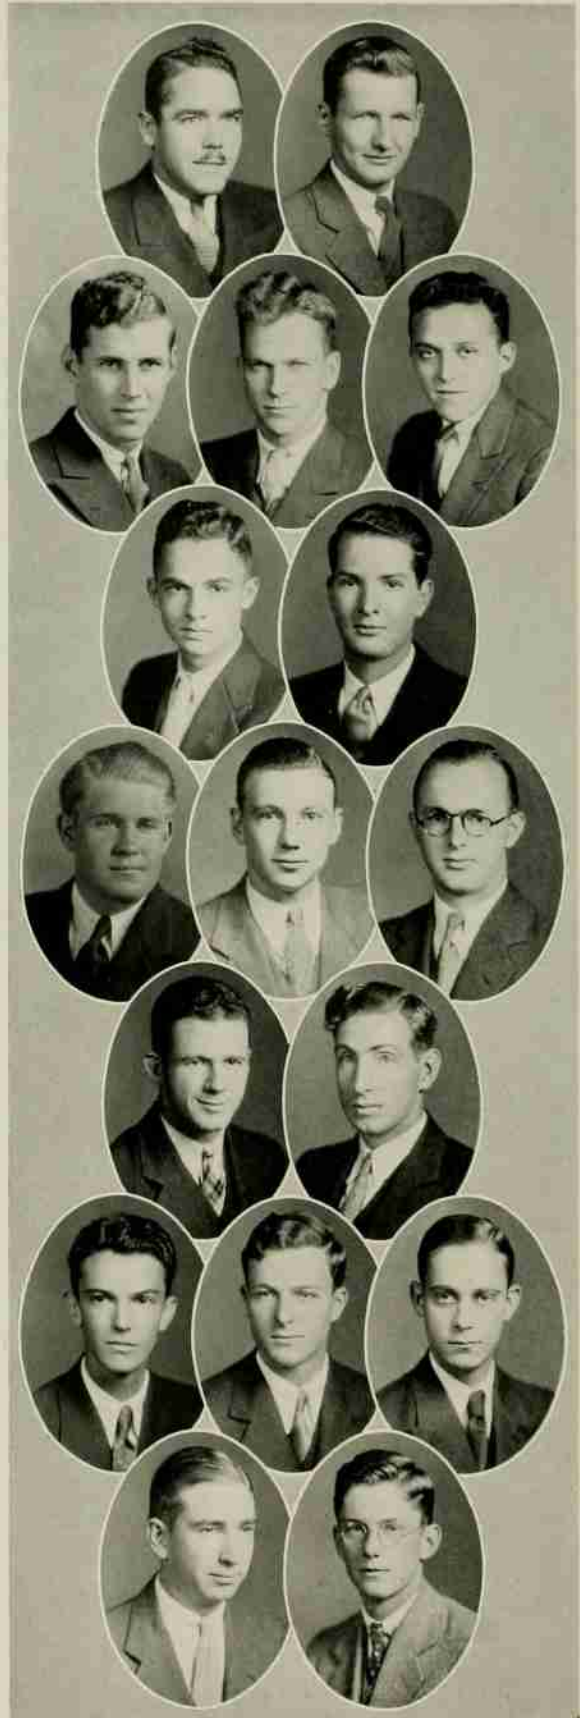

WILLIAM FRANK BOOKER Raleigh, N. C.
Physics

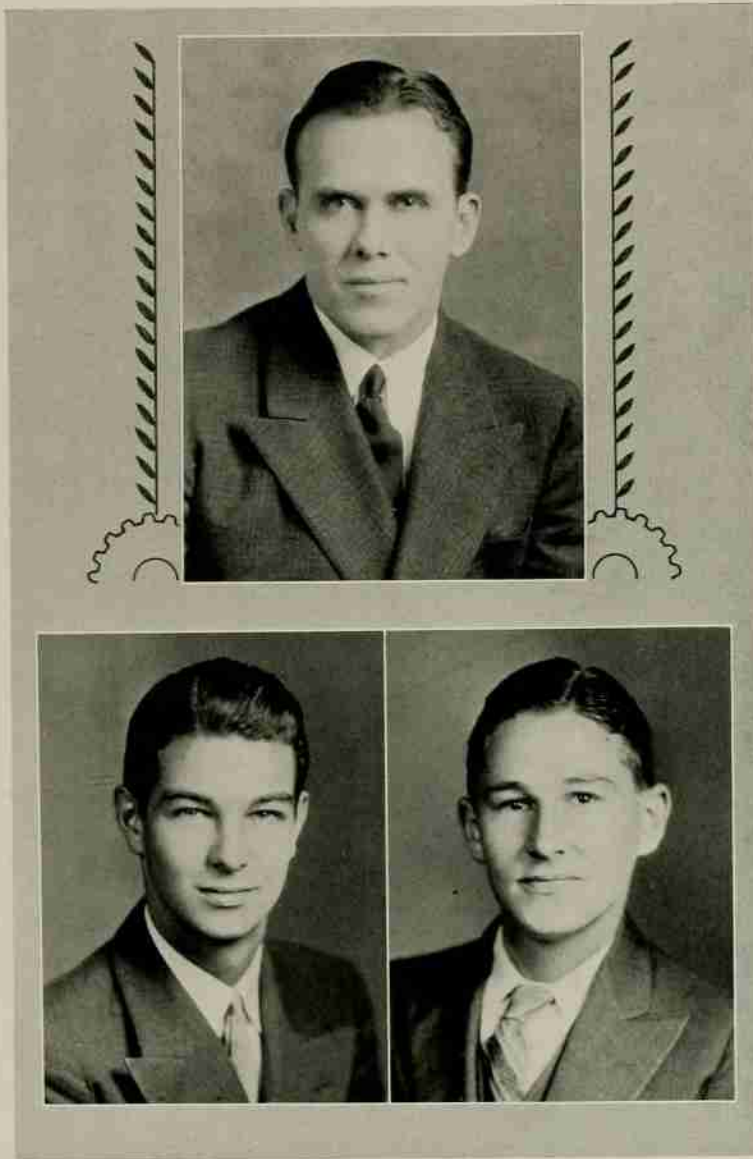

FRANKLIN E. CORRELL, JR. Woodleaf, N. C.
Horticulture
 Military (1, 2), Sergeant (3).

CHARLES LEON DAVIS Conway, S. C.
Agricultural Economics

WM. L. DIXON, JR., Η K Φ Charlotte, N. C.
Electrical Engineering
 Assistant Manager Football (1, 2, 3).

R. GETTY BROWNING Raleigh, N. C.
Civil Engineering
 A. G. C.; A. S. M. E.; Military (1, 2).

GERLOCK

SHAULIS

MORRISON

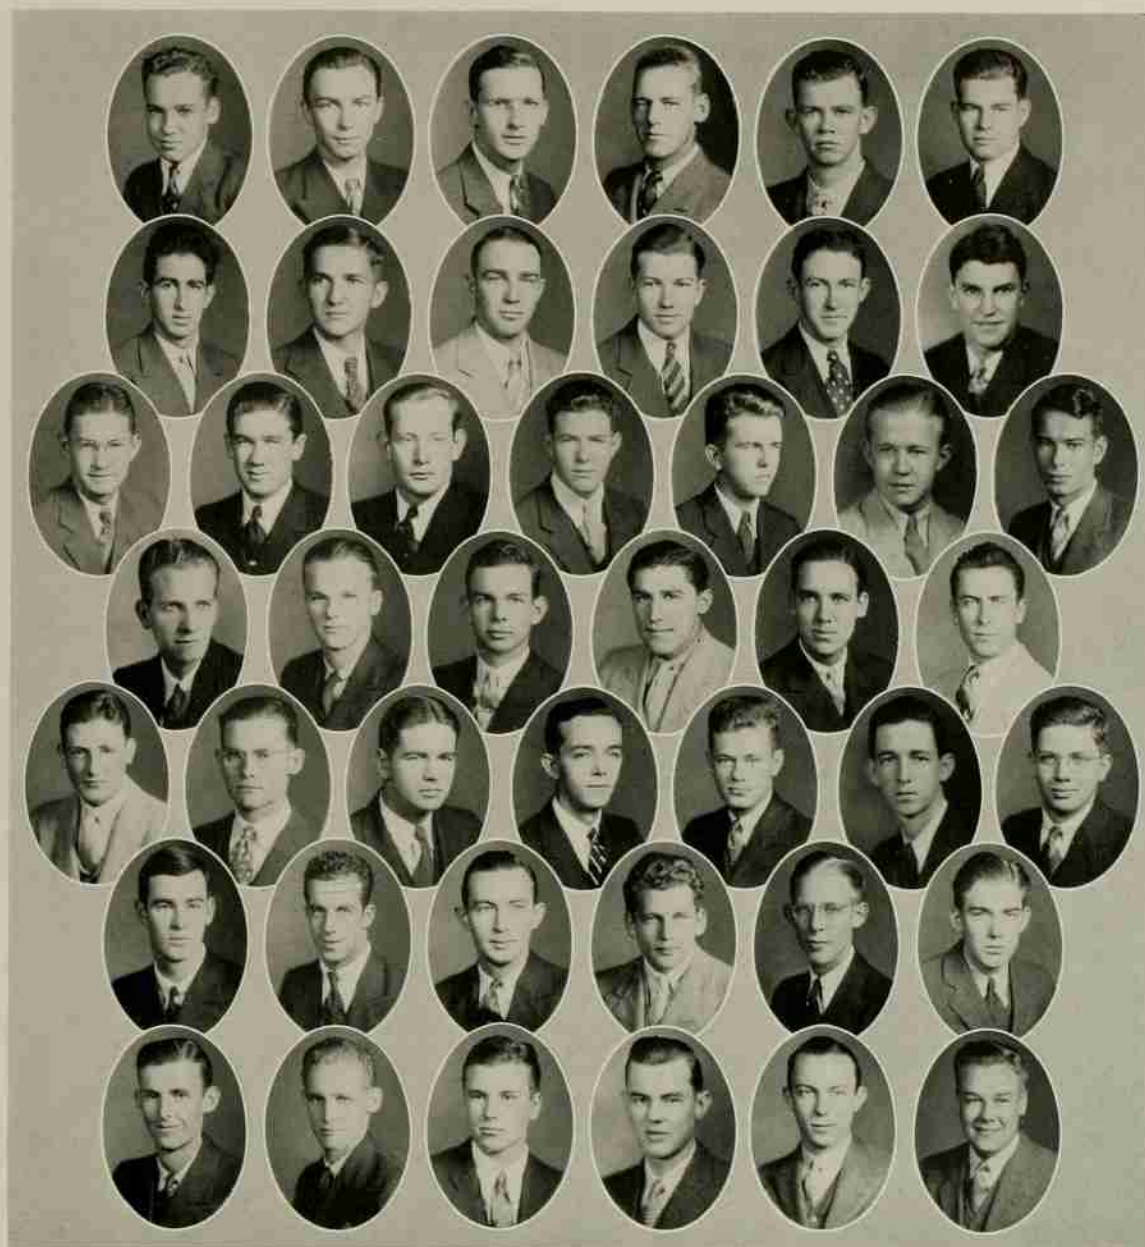

Freshman Class Officers

R. G. SHAULIS *President*
 AMIL J. GERLOCK *Vice-President*
 ROBERT HALL MORRISON *Secretary-Treasurer*

FRESHMEN

- First Row:* E. H. CURTIS, W. C. DAVIS, T. W. COOPER, R. COHEN, B. L. DUVAL, J. R. DOSSENBACH.
- Second Row:* C. S. GALE, J. W. DAVIDSON, J. T. DAMERON, R. E. RETTEW, W. L. SWAIN, E. J. HELLMAN.
- Third Row:* S. A. GUYTON, J. A. SMITH, W. T. LEARY, P. C. BLALOCK, J. W. WESTBROOK, I. S. BROWN, D. W. DURHAM.
- Fourth Row:* C. A. DREHER, E. W. BLACKWOOD, E. T. HOOKS, M. L. HORNE, J. A. FEATHER, R. G. SHAULIS.
- Fifth Row:* V. A. THORPE, W. S. TERRELL, J. ROSENSTEIN, W. M. CARLISLE, N. M. DALRYMPLE, C. E. WITT, N. I. JOHNSON.
- Sixth Row:* J. W. WILLEY, H. KIRSCHNER, W. L. WELLS, J. R. GARRABRANT, W. H. HOOKS, J. B. HELTZEL.
- Seventh Row:* H. P. HUTCHINGS, J. W. OGLETREE, C. F. GOODE, A. D. ROBERTSON, C. W. WESCOTT, F. M. SINCLAIR.

FRESHMEN

First Row: E. F. BOYETTE, H. C. BYRD, P. W. SMITH, C. E. CAMPBELL, C. M. BUTLER, C. R. BAYNE.

Second Row: H. DELPHIN, A. C. KING, E. H. FORBES, J. T. RICHARDSON, A. R. BLACKBURN, W. L. CULFEPPER.

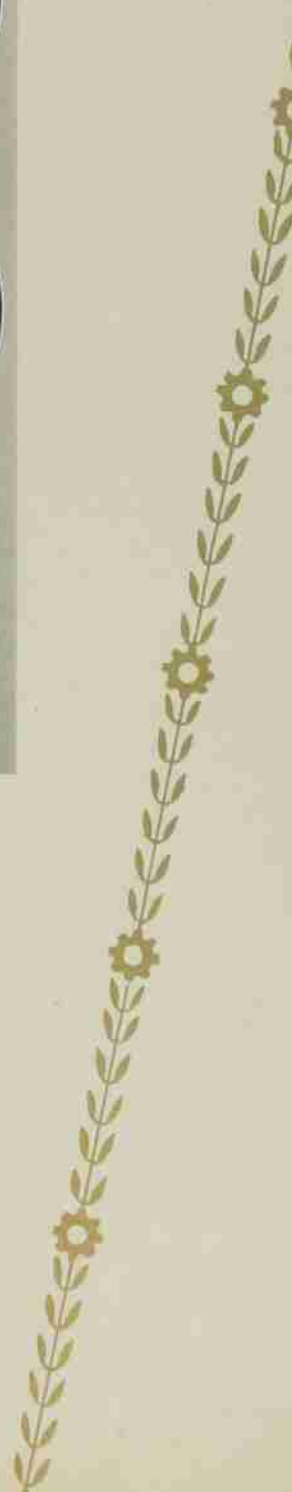

Third Row: M. B. PAYNE, W. C. FORSYTHE, J. H. GRIFFIN, L. H. RICH, W. C. MILLS, C. H. TAYUM, T. R. MOIR.

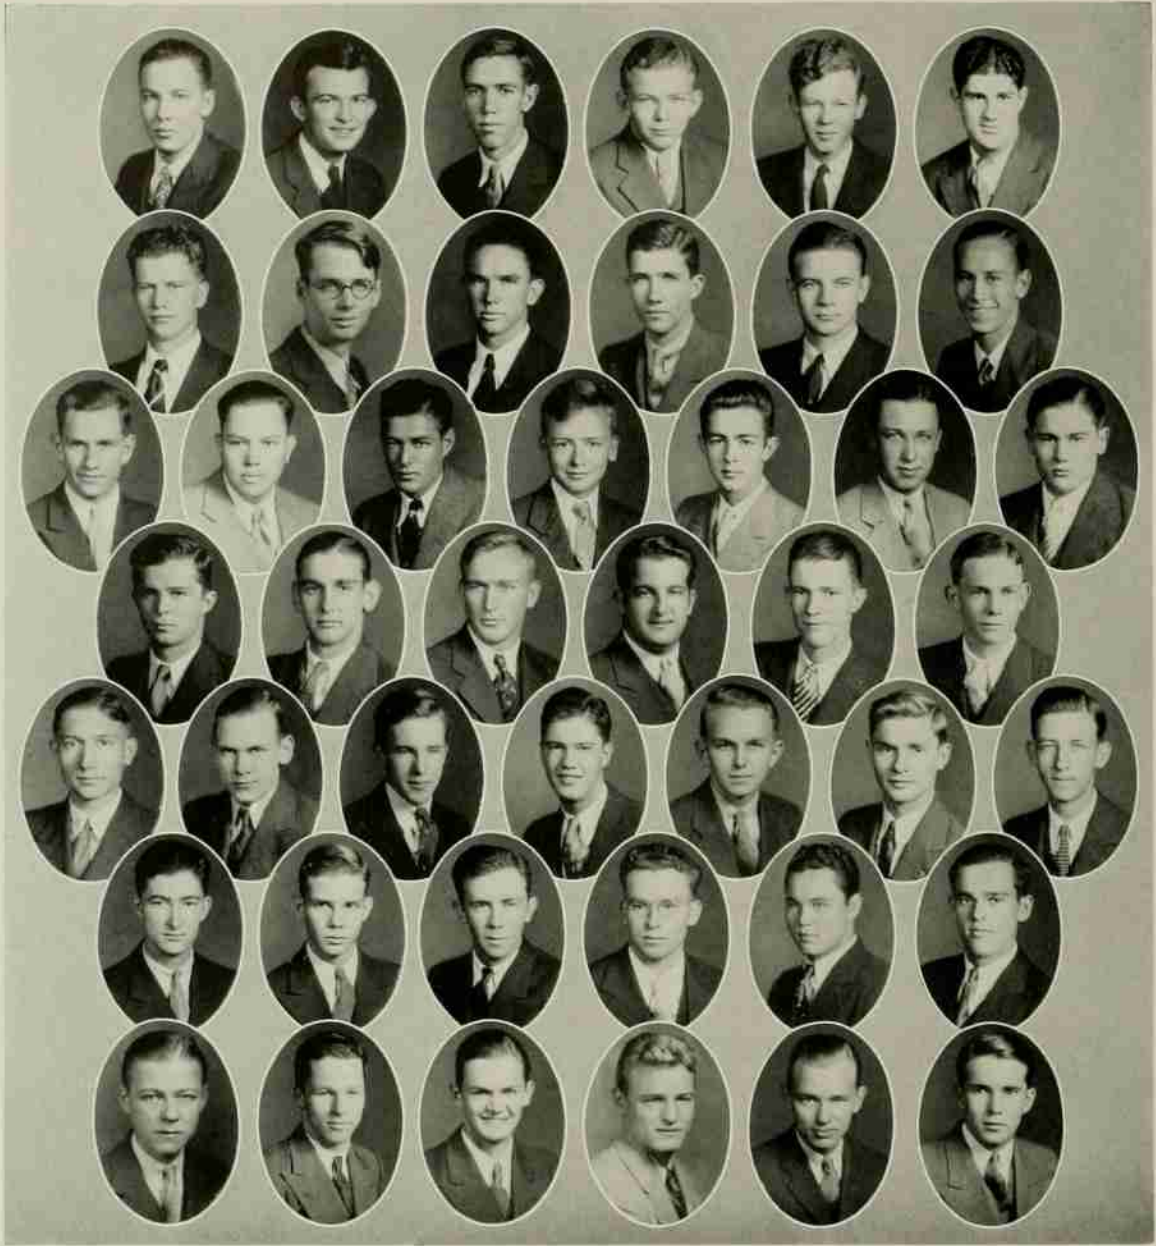

Fourth Row: J. R. BOLLING, F. W. DIXON, J. L. DOWNING, E. F. GRODECKI, B. H. BIGGS, S. M. HULAK.

Fifth Row: B. F. BERTLAND, W. E. BUTLER, H. A. CLARK, T. E. BARROWS, E. H. BARNES, W. C. ARIALL, M. M. DALE.

Sixth Row: W. F. CORBETT, J. S. BLANCHARD, V. D. ALMOND, E. A. COHEN, T. T. ALLISON, H. B. FINCH.

Seventh Row: R. B. FLACE, J. A. BOLAND, H. M. CUTHRELL, F. O. TAYLOR, W. C. BELL, H. E. BILLINGS.

FRESHMEN

First Row: H. D. HAMPTON, J. B. HUBBARD, T. I. HINES, L. M. HINSHAW, E. L. GUERRANT, D. CARA.

Second Row: J. L. CARPENTER, J. P. HAMMOND, C. F. RUSSELL, E. J. WICKER, G. M. ASHBY, E. B. LEWIS.

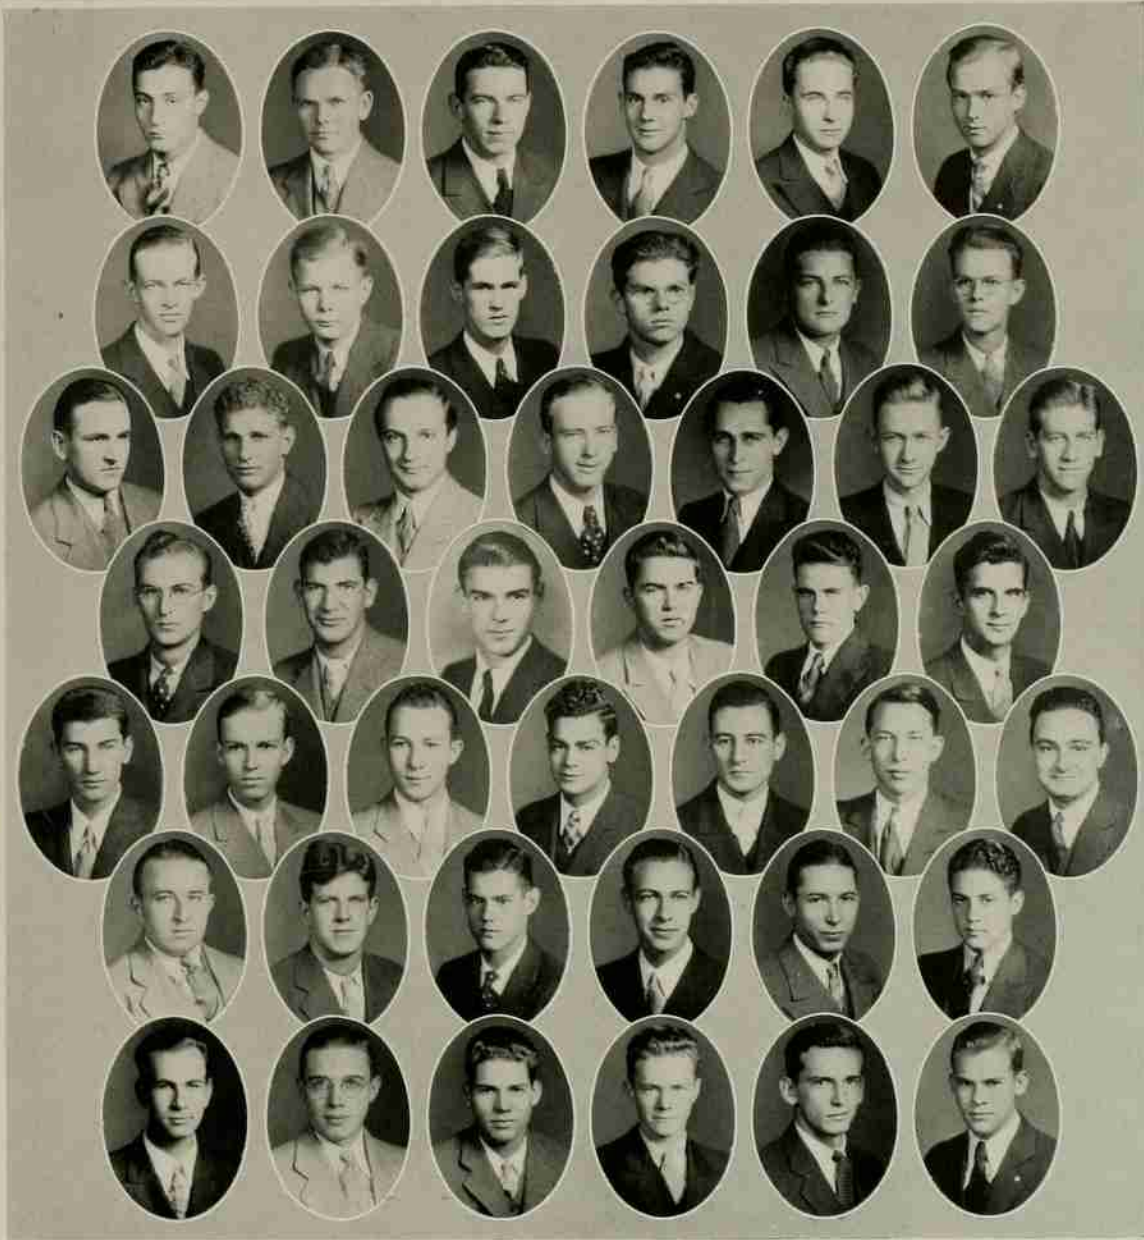

Third Row: W. L. BYNUM, W. E. CHESHIRE, W. B. ROGERS, C. S. BAKER, S. Y. RIGGS, G. S. ESTES, M. R. SUTTON.

Fourth Row: O. A. DALY, C. R. TICKLE, J. B. TATUM, L. P. SPITALNIK, J. M. STEPHENSON, H. W. UNDERHILL.

Fifth Row: C. D. DELAMAR, R. RHYNE, C. A. RHYTHER, C. E. PENLAND, J. W. WELFMAN, S. A. ASHE, P. IURIE.

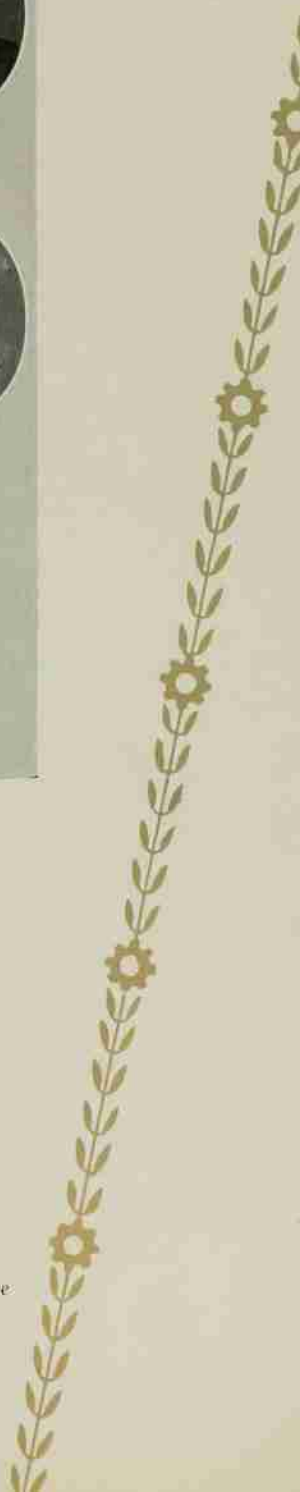

Sixth Row: M. G. MYERS, W. R. GARRETT, J. S. ALLEN, J. M. WORRELL, O. SMOTHERS, H. L. ROBERTSON.

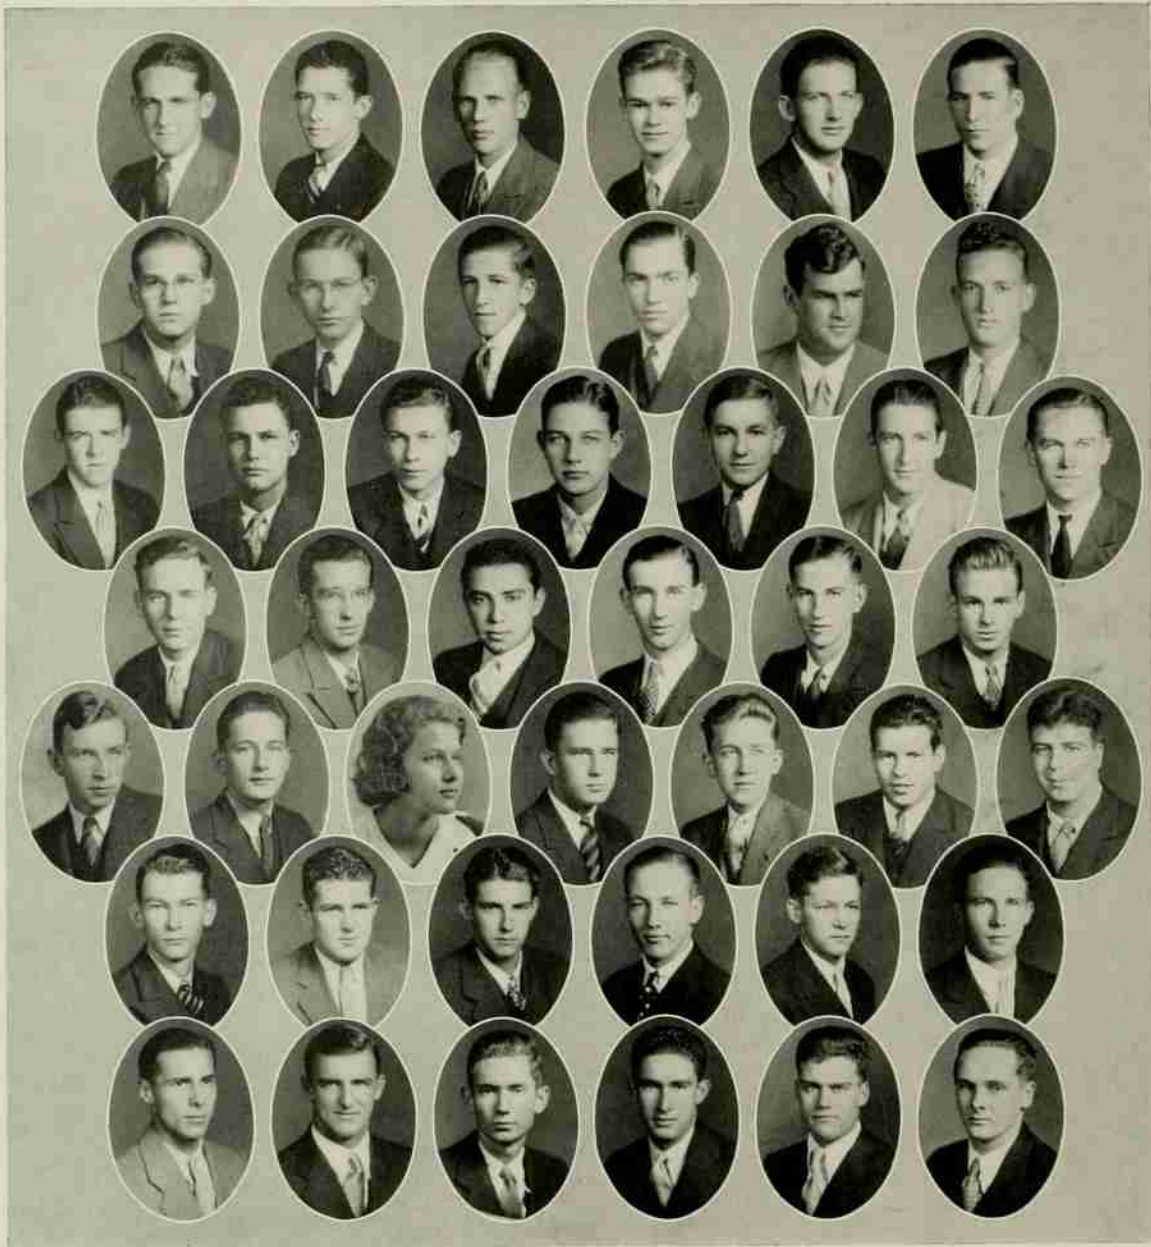

Seventh Row: C. ROGER, A. F. HEIN, R. H. EDWARDS, F. JOLLY, C. H. CRUMLEY, R. F. WAYANT.

FRESHMEN

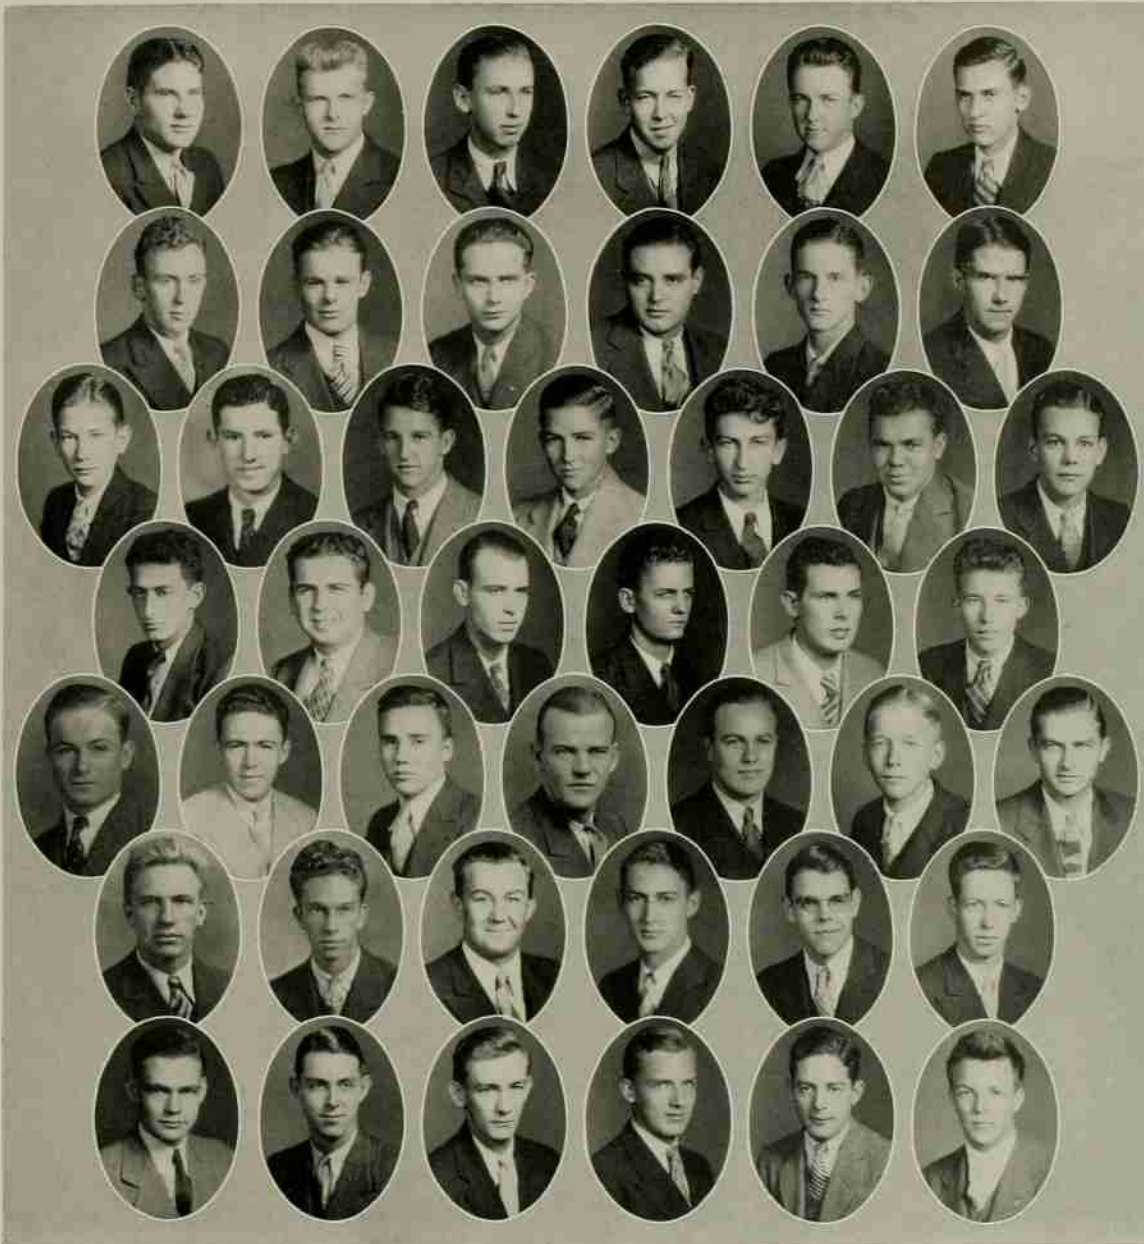

- First Row:* L. SARIN, H. W. SHORE, H. M. SCHROCK, P. W. SHELL, T. T. SHORT, J. B. SHATZER.
Second Row: J. D. SEWELL, R. I. SIMKINS, E. S. HORNBY, H. S. FALLS, E. H. WARREN, R. P. HOOD.
Third Row: B. H. SIGMON, F. E. KINGSBURY, S. A. CHYDZIK, N. C. SENBACK, E. JASKWICH, A. J. TEMPLETON, C. G. CONRAD.
Fourth Row: W. L. SPENCER, W. A. EDWARDS, H. L. GARRIS, I. C. HOWELL, F. L. WOODARD, G. F. SIMMONS.
Fifth Row: A. J. GERLOCK, W. A. BRIDGEFORTH, A. G. LANCASTER, S. W. WOMBLE, M. T. HOWELL, C. R. STINNETTE, E. B. WOOTEN.
Sixth Row: G. H. HERRING, C. M. TURNER, A. H. MARTIN, J. M. TAYLOR, H. L. COLLIER, W. W. AELSTON.
Seventh Row: A. W. WHITE, C. B. WELLS, F. C. GORE, G. S. WILLARD, R. H. WHITLARK, J. N. THOMPSON.

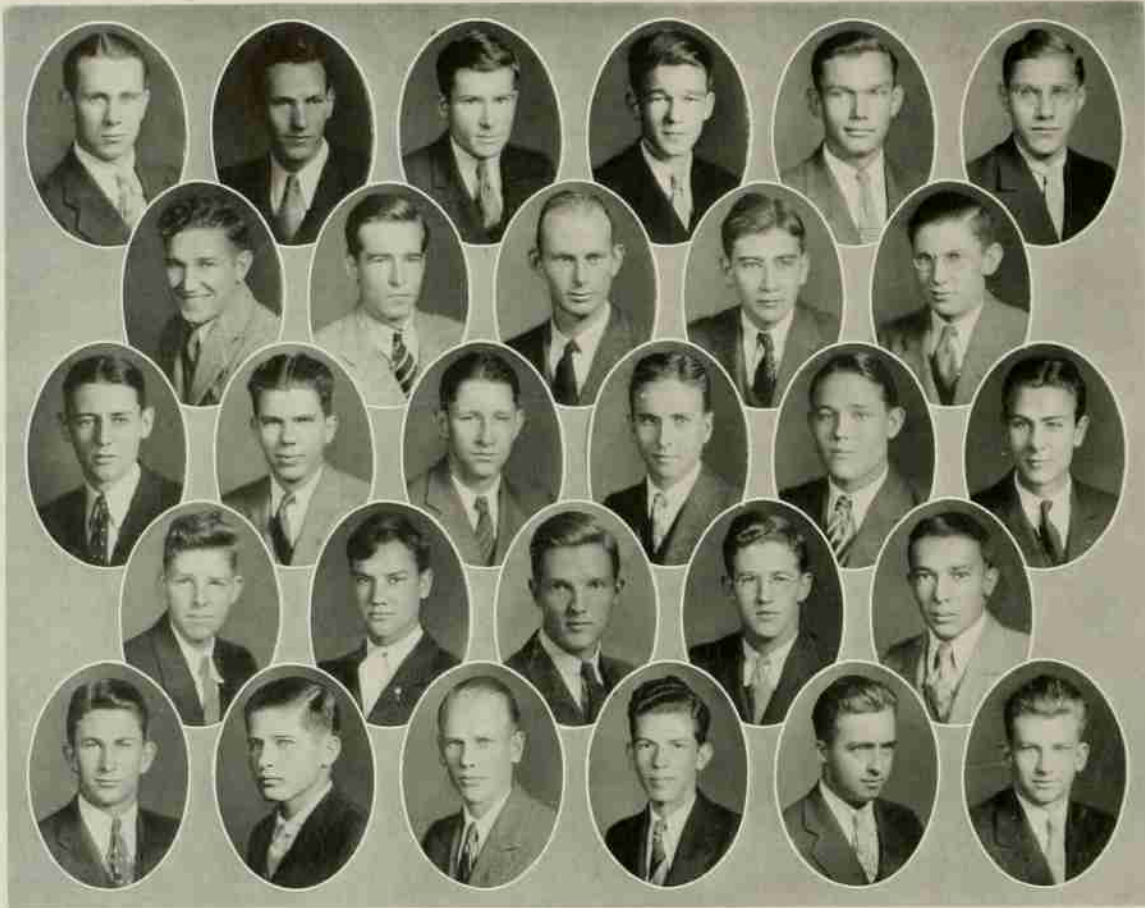

FRESHMEN

- First Row:* H. C. COOKE, J. W. COCKMAN, C. S. GALE, L. N. BROWN, P. W. WARLICK, J. G. SHELLEY.
Second Row: E. S. JONES, R. H. McMILLAN, A. H. MILLER, G. H. FLOYD, C. A. HAYES, W. E. COMPTON.
Third Row: W. B. WALDRUP, L. E. HASSELL, A. C. MAYO, E. WALKER, T. S. WALLER, J. H. FOX, J. R. BOSWELL.
Fourth Row: E. C. FREEMAN, J. W. FREDERICKS, W. E. MACHADO, F. L. GARRISON, M. D. SAUNDERS, R. A. NORMAN.
Fifth Row: F. S. MARTIN, H. A. NADING, A. NICHOLS, T. GATEWOOD, T. G. GOAD, H. E. CHILSON, E. R. SNYDER.
Sixth Row: D. R. SOUTHERLAND, H. SCHLOSSBERG, H. H. YATES, G. L. STANSBURY, G. PALMER, R. E. MCCOY.
Seventh Row: I. A. PALM, R. N. THOMPSON, W. B. HOLEMAN, C. H. HALE, W. K. KISER, T. C. FEARING.

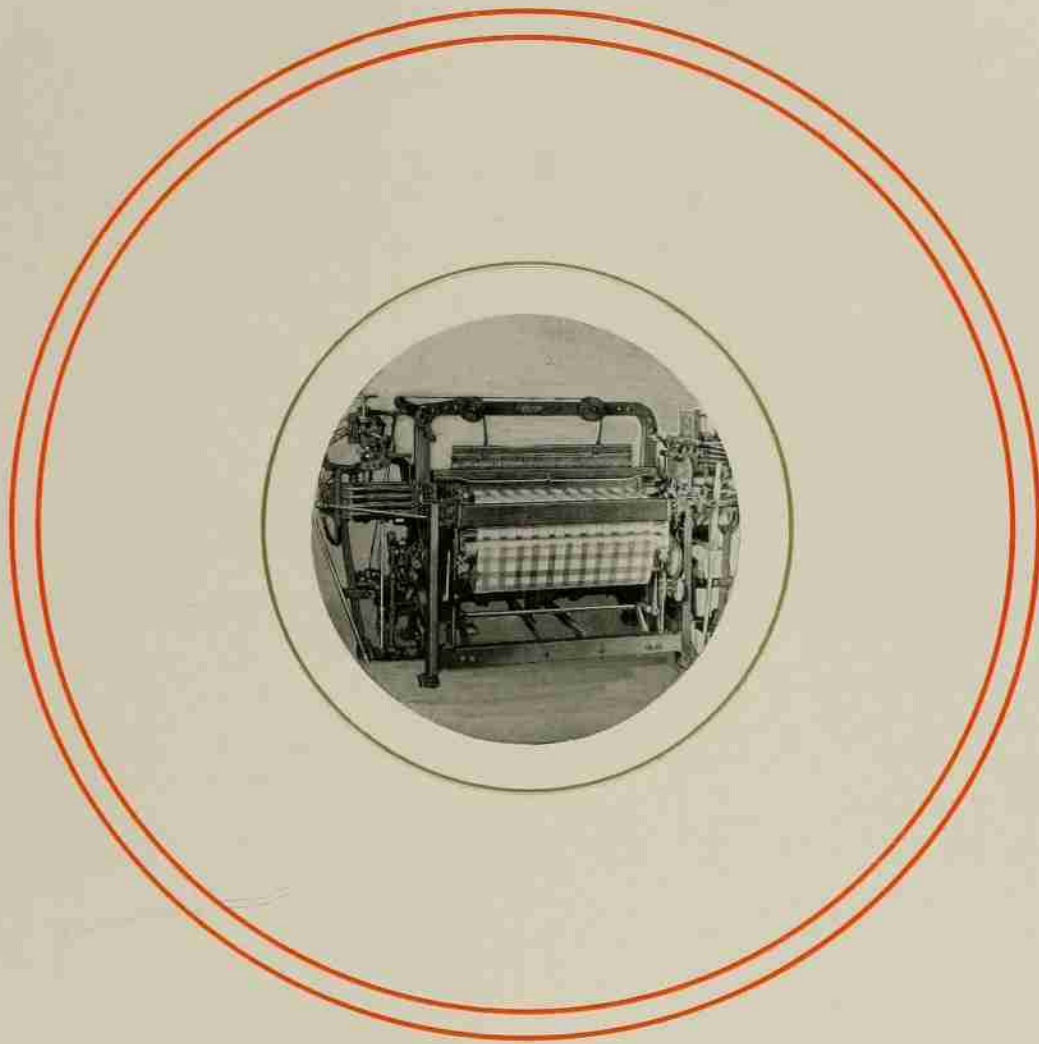

FRESHMEN

- First Row:* J. L. POWERS, M. L. HARRISON, O. L. YOUNTS, P. H. PETERSON, C. B. McSWAIN, E. T. CLARK.
Second Row: R. E. DOUGAL, G. J. KURFEHS, W. V. TARKENTON, R. MASS, W. H. UNGERHILL, J. A. MURRAY.

BOOK THREE

TOMPKINS HALL

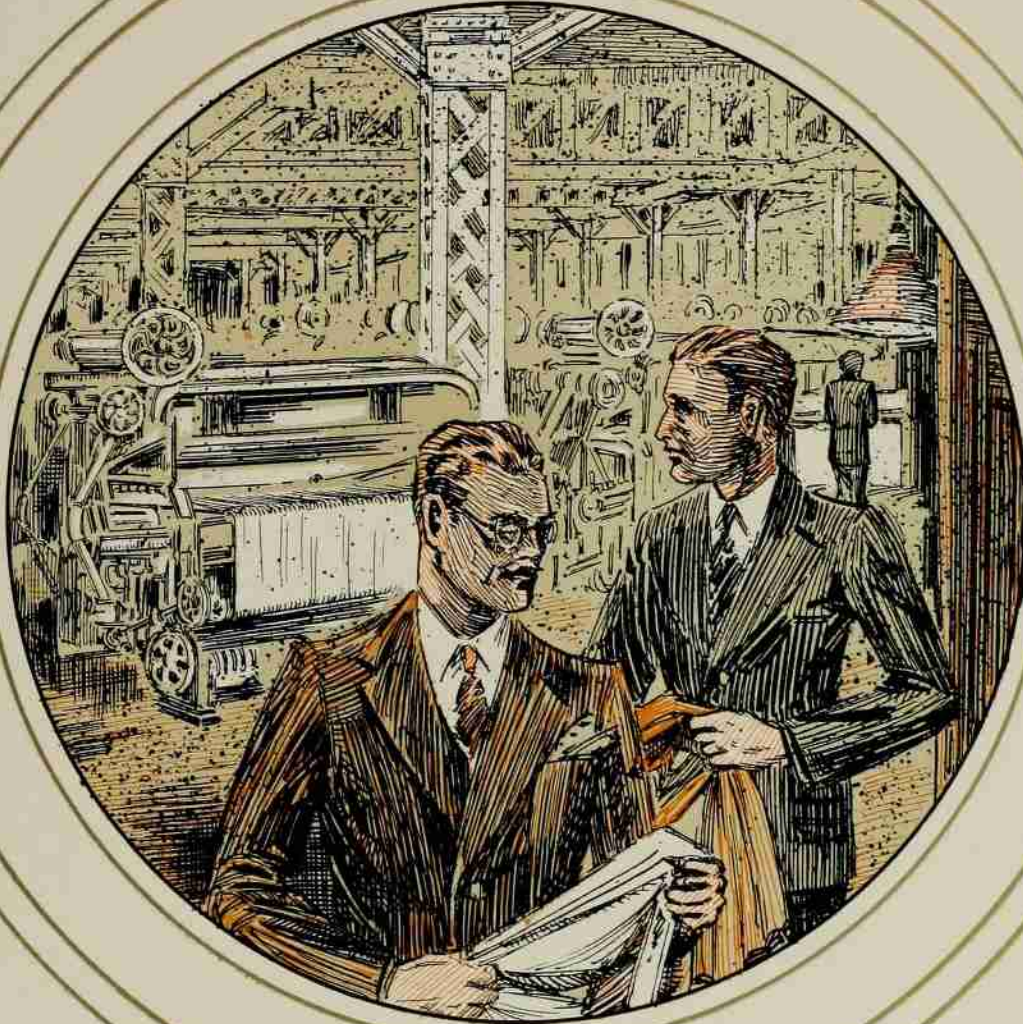

THE SCHOOL OF TEXTILES

THE purpose of the School of Textiles: To promote the textile interests of North Carolina by giving instruction in the theory and practice of all the branches of the textile industry; to cooperate with the textile mills in securing, through scientific research and experimentation, reliable data pertaining to the textile industry; to educate men for professional service in Textile Manufacturing, Yarn Manufacturing, Weaving and Designing, Knitting, Textile Chemistry and Dyeing, and at the same time develop them for leadership; to demonstrate the value of economic diversification, and aid in development of the textile industry.

THOMAS NELSON, *Dean of the School of Textiles*

PEELE HALL

THE SCHOOL OF SCIENCE AND BUSINESS

THE purpose of the School of Science and Business: To give men technical training in Science, Business, and the cultural subjects, the various sciences which underlie all modern industry and agriculture; to do this in order that resources may be better developed and the economic well-being of our people further improved; to give this training because the increase in productive power of our people requires; the widening of markets as an outlet for goods, the improving of methods of business management to reduce costs of production and increase net incomes, and further developing of our system of banking and credit.

BENJAMIN FRANKLIN BROWN, *Dean of the School of Science and Business*

WE ASKED Fred Dixon, genial and popular Sports Editor of the News Bureau, to give the class of '34 the "once over" and select a Who's Who on the basis of achievement in the various activities of college life. He generously complied with our request and on the following pages are presented his selections, accompanied by his reasons for the choices made.

Fred Dixon Looks 'Em Over and Selects

W H O ' S

In the Class of 1934

By FRED DIXON

W. J. BARKER

ALBERT H. COUCH

Because he is Kappa Sigma, Editor of the AGROMECK, Golden Chain, Blue Key, Phi Kappa Phi, Tau Beta Pi, Phi Eta Sigma, "30 and 3," and winner of the Moland-Drysdale and J. C. Steele scholarship awards in the Ceramic Engineering Department.

A. H. COUCH

R. J. McQUAGE

Because he is Pi Kappa Alpha, and an outstanding athlete. He is a three-letter man, being Captain of the basketball team, co-Captain of the baseball team, and a football luminary. He is also Golden Chain, and Staff Captain of the Regiment.

ROBERT J. "BOB" McQUAGE

JOE DIXON

Because of his all-round work as a student and student leader. He is President of Pine Burr, member of Golden Chain, Blue Key, Tau Beta Pi, and was President of the Class of '34 his junior year.

JOE DIXON

Because he is President of the Y. M. C. A., a Golden Chain and Blue Key member, orator and debater, "30 and 3," and a popular and friendly member of the class.

WILLIAM E. "BILL" BRASWELL

Because he is Blue Key President, Golden Chain, Tau Beta Pi, "30 and 3," and a willing worker.

WILLIAM P. "PIPE" KANTO

Because he is Cadet Colonel of the Regiment, varsity halfback, "30 and 3," Tau Beta Pi, and an excellent student.

DAVID L. "BO" BOHANNON

Because he is Editor of *The Technician*, Sigma Pi, Golden Chain, Phi Kappa Phi, Tau Beta Pi, Pine Burr, Phi Eta Sigma—enough honors for an easy vote.

ERNEST J. "ERNIE" LASSEN

Alpha Gamma Rho, and because he is President of the Senior Class, Vice-President of the Interfraternity Council, and manager of the basketball team.

WALTER B. JONES

Delta Sigma Phi, and because he is Business Manager of the AGROMECK, Phi Kappa Phi, Blue Key, "30 and 3," and President of Delta Sigma Pi.

RAWLINGS S. POOLE

Because of the all-round ability he has shown, and because he is Vice-President of the Senior Class, President of the A. I. E. E., and Editor of the *Engineers' Council Journal*. He was also President of the Sophomore Class.

NO.

FORD

YOUNG MAN!

WHAT IS IT THAT YOU WANT MOST—NO,
WHAT WOULD YOU WANT NEXT—

No, next to that—Don't you ever think of
clothes? Pay a visit to one of our sixteen

stores and you will see the reason why Adam was not

contented merely wearing a fig leaf. Don't worry

about your wallet causing a bump on your suit

—we can alter the size of your wallet so that it

will hardly show. As a special feature, we are

going to have the Beauty Queen from

Shaw U. acting as hostess in our new store next

Friday night. She will personally autograph

every five dollar collar button purchased

on that day. We have the duckiest things

and they sell for mere nothings.

PAY US A VISIT.

FUNNYCUTT, INC.

COLLICH MISFITTER

We Won't Tell You Where We're Located—It's a Secret

New Era

Friends, students, janitors, bus drivers—let me break a sweet bit of news to you all. The new era is here. Yes sir, the new editor of THE RAWTAUGAN has just lotsa ideas and he's going to put them across. From now on, working on THE RAWTAUGAN will be like having your square root taken . . . you'll be under a radical. Take our modern spelling for instance: the people today are like a flock of cattle—they're just following a leader. If THE RAWTAUGAN wants to spell *fly* p-h-l-y-, there's no rule saying that we can't do it. Just because Daniel Webster spelled it f-l-y doesn't mean that we have to follow him. He didn't write the dictionary anyhow, so there you are.

Hereafter if THE RAWTAUGAN chooses to spell *cat* M-E-W, we'll do it. Just you wait and see—we'll go down in history as the first magazine having triple-expansion, uni-flow, knee action thinking in its editorial department.

This 'n That

It's really wonderful how people can think of so many things to amuse themselves with. In the past few years they have staged races between everything from flees to elephants.

Only the other day we had an old friend of ours come around and call on us. When asked what he was doing for a living now, he informed us that he was working at a fly racetrack. Then we said to him, "What do you do there?" And he replied, "Time flies."

Yes, friends, time flies. In these days everything is a hustle and bustle. And speaking of bustles reminds us of one of our ex-co-eds, Mae West. There have been quite a few stories floating about lately in which Mae was the principle character. One fellow started a story to end all Mae West stories. Here's how it goes:

"It seems that Mae West was riding in a train. When it came time to go to bed, she had the upper berth and Santa Claus had the lower one. Do you know what Mae said to Santa?"

Of course we bit and said, "What?"

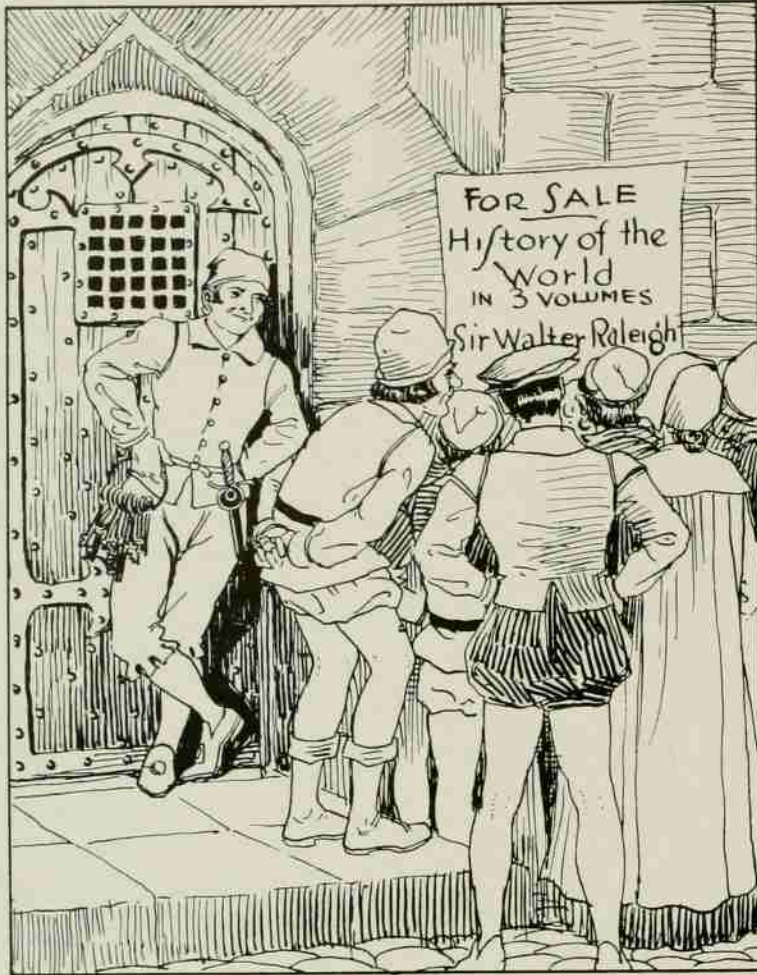

"Nothing," was his reply, "'cause there ain't no Santa Claus."

It might interest you to know that THE RAWTAUGAN never uses what are commonly called space fillers. Just because we

leave a half of a page blank or print a list of girls' names upside-down does not mean that we did not have something better to use in that space—No—a thousand no's less three (we must always

reserve a few no's for other purposes). We can't help it if the board of censors won't let us print the story about the goat who had no nose. So bear in mind that we go to press with two strikes on us and give us a break.

Let us take this space to make an apology. We have tried to imitate our campus humor magazine in this section purely for the sake of humor. If we are being offensive in any way, we are sorry, for we do not mean to be so.

"You hoid me—none of youse guys gets in the Library 'til after the second whistle."

—Raw—

My girl is like a typewriter keyboard—if you touch the wrong spots you get terrible words.

—Voo Doo.

—Raw—

"Have you heard the old refrain?"

"No."

"That's right."—*Rice Owl.*

—Raw—

A small boy saw an elephant in his yard and immediately called the police.

"Chief," he said, "there's a queer animal out here in my back yard. He's picking flowers with his tail."

"Yes," said the Chief, "and what does he do then?"

"Never mind," was the answer, "you wouldn't believe me if I told you!"—*Voo Doo.*

—Raw—

"There's something dove-like about our child."

"Yes, he's pigeon-toed."—*Log.*

OUR DICTIONARY

- Aid—A drink made from lemons or oranges.
- Bask—A male basket.
- Crew—Became larger.
- Dock—A bow-legged chicken that floats.
- Edict—A person with no blood.
- Fluke—A musical instrument.
- Goiter—Something to hold your socks up.
- Hire—Above.
- Ilk—An animal resembling a moose.
- Surf—To dish out.

—Raw—

For the fourth time the corporation lawyer conducting the cross examination led the witness to the accident.

"You say that after the street car passed, the man was seen lying on the ground with his scalp bleeding. Did the car hit him?"

"Naw," exploded the exasperated witness. "The conductor leaned out and hit him as he went by."—*Punch Bowl.*

—Raw—

1st: "Did your wife faint when she found you had lost all your money in the stock market?"

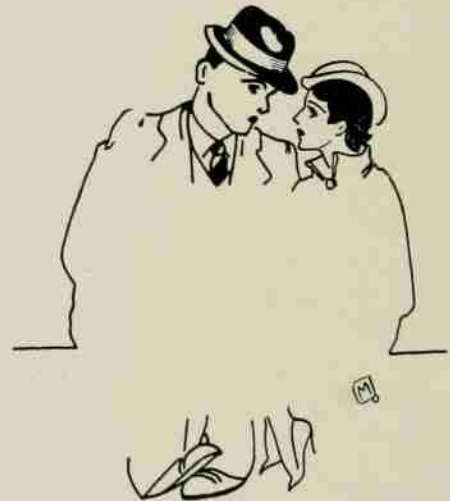

2nd: "She didn't faint at all; she just socked me with her right."—*Log.*

—Raw—

Patriotic Chinese Lady (to her countryman who is milking a cow): "See here, why aren't you at the front?"

Chinee: "Me'em milk 'em in back, ma'am. Nothing doing in the front."—*Log.*

—Raw—

He: "I'm going to ask your Pa for your hand."
She: "Is that all you want?"

"Who warbled that bass note?"

—Raw—

"So you had a date with a college guy?"
"No, I tore my dress on a nail."—*Puppet.*

—Raw—

"Papa, what is a person called who brings you in contact with the spirit world?"
"A bartender, my boy."—*Punch Bowl.*

—Raw—

"Why wouldn't they let you call signals on the football team?"
"Aw, they s-s-s-said I w-w-wasn't t-t-tall enough."—*Voo Doo.*

—Raw—

New Missionary: "Did you know Mr. Brown?"
Cannibal King: "Oh yes! He was the pride of our island."
New Missionary: "Why did he leave such a nice place?"
Cannibal King: "He didn't, sir. You see, times got so hard that we had to swallow our pride."

—Raw—

Daughter: "I've got to go, Mother. I'm posing for an artist this afternoon."
Mother: "All right, dear. But no posing in the nude. Remember, not in the nude."
Daughter: "All right. I'll put a string around my finger."—*Burr.*

—Raw—

A pal of ours recently landed a soft job—he's in a bloomer factory now, pulling down about two thousand a year.

—Raw—

"I thought you said you was going to send us a chicken for Sunday dinner?"
"So I was, but it got better."—*Pelican.*

—Raw—

"Don't you pity a girl in the dark?"
"Yes, I can't help feeling for her."

—Raw—

"Stag tonight?"
"Yes, I haven't any doe."—*Red Cat.*

"They call some women Amazons, because they are so wide at the mouth."—*Phoenix.*

—Raw—

"I'm going to Mexico to divorce my wife."
"Tia Juana?"
"No, of course not."

—Raw—

A man pinned under his car after an accident was being questioned by a policeman:
"Married?"
"No," said the man. "This is the worst fix I was ever in."—*Log.*

—Raw—

Judge: "Why don't you get out and hustle. Hard work never killed anyone."
Mose: "Ef dat's de truf, suh, how come ah lost fo' wives."—*Log.*

—Raw—

"Can your girl keep a secret?"
"You said it. We were engaged three weeks before she told me."—*Exchange.*

—Raw—

"Say, waiter, this coffee is nothing but mud."
"Yes, certainly it is. It was ground this morning."—*Log.*

—Raw—

Him: "I hope you'll dance with me tonight."
Her: "Oh, certainly. I hope you don't think I came down here merely for pleasure."—*Log.*

—Raw—

Two students were uncertainly flivvering their way home.
"Bill," says Henry, "I wancha be very careful. Firs' thing ya know you'll have us ina ditch."
"Me?" said Bill, astonished and badly shaken up. "Why, I thought you was driving."—*Kitty Kat.*

—Raw—

A coach is a fellow who is always willing to lay down your life for his school.—*Dodo.*

—Raw—

Judge (in dentist chair): "Do you swear that you will pull the tooth, the whole tooth, and nothing but the tooth?"—*Log.*

—Raw—

Larry: "Do you and your wife ever have different opinions?"
Vern: "Good heavens yes—only she doesn't know it."—*Filched.*

"Remember when we were in college and I carried the ball for 90 yards one day?"

"Yeah, and when you got from the gym to the field you gave it to the referee and took your place on the bench."

—Raw—

Captain: "Fire at will."

Private: "Won't he get sore?"

—Raw—

- LIB
- NANCY
- JANE
- MARGARET
- ALICE
- LOUISE
- SUE
- DOT
- BETTY
- VIRGINIA
- MARION

—Raw—

"What's the difference between a duck?"

"I dunno, what?"

"One of his legs are both alike."

Prof.: "Why do they put the roof on the building last?"

Stude: "Because it's slate."

—Raw—

"What two raw materials are imported from France?"

"Books and plays."—*The Log.*

—Raw—

Dr. Quack: "Yes, your wife's mind is gone completely."

Husband: "No wonder. She's been giving me a piece of it every day since we were married."

—*Sun Dial.*

—Raw—

She: "Did anyone ever tell you how wonderful you are?"

He: "Don't believe they did."

She: "Then where did you get the idea?"

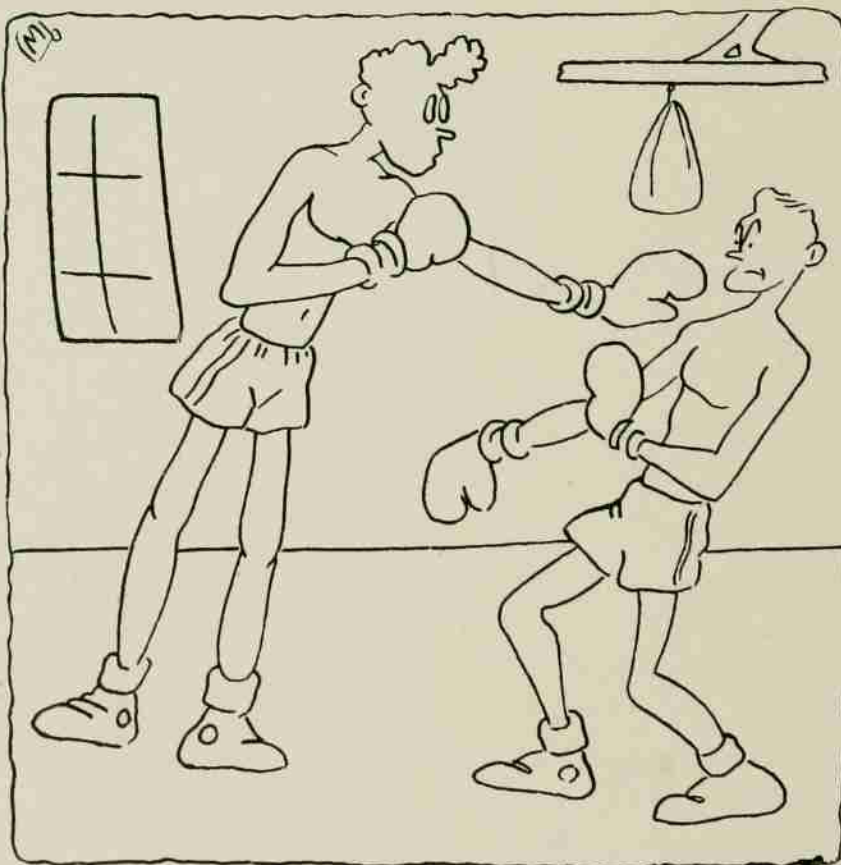

—*Sun Dial.*

—Raw—

"Who is that man over there snapping his fingers?"

"That's a deaf-mute with the hic-coughs."

—*Painter.*

"Why don't you block some of my punches?"

"You don't see any getting by me, do you?"

'Twas a balmy Tuesday evening,
And a goodly slew was there
In the joint they call Manhattan,
Twixt th'college and th'square.

When in popped J. Wellington Jackson;
He said to the boys, "Stand at ease."
Then he drew himself up to the counter,
And quoted, "A hamburger, please."

As he nibbled the last piece of onion,
He went into a business-like trend;
And he said to the man at the counter,
"I'll pay you on Tuesday, my friend."

'Twas a balmy Friday evening,
You could hear our hero puff—
There was Jackson washing dishes,
For the Greek had called his bluff.

—Raw—

Epitaph

Here lies my wife,
Here let her lie,
Now she's at rest:
And so am I.

—Sun Dial.

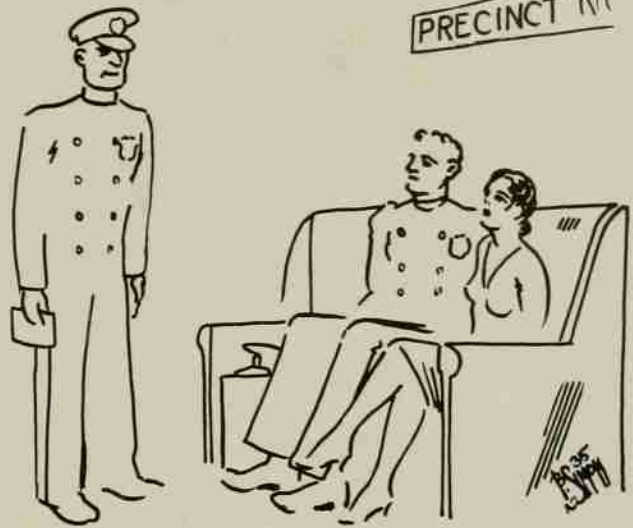

—Raw—

Teechir: "Do yew know ennie nautical terms?"
Boi: "Sure—they're like wot mye farthur sed
when hee cort me cuttin stix with hiz razer."
(Ed. Note: **How do yew like our uneek way uv
spellin?**)

"Don't you think that Sir Walter could just as
well done it this way?"

"Sure . . . I wonder what Gandhi would have
done?"

"Say, Captain, this girl has such an innocent
face: I don't think she'd do anything wrong."

"No, not with her face."

—Raw—

A bulletin board outside a church announced
Sunday services: "Do You Know What Hell Is?"
Underneath was printed in smaller letters: "Come
in and hear our organist."—Ranger.

—Raw—

Brutus: "How many cheese sandwiches did you
eat?"

Caesar: "Et tu, Brute."—Texas Battalion.

—Raw—

Two pigeons were cruising over Germany:

1st: "Isn't that Hitler down there?"

2nd: "Yeah, I just spotted him."

—Rammer Jammer.

—Raw—

"Why are you so excited, little boy? Can't you
stand still?"

"Lady, is that any question to ask a gentleman?"

—Punch Bowl.

—Raw—

Her: "You ain't no gentleman."

Him: "You ain't no blonde."—The Log.

—Raw—

"Do you use Pluto water?"

"Yeah, I'm a regular fellow."

—Penn State Froth.

—Raw—

The lunch counter song: "Throw Another Dog
on the Fryer."—Voo Doo.

We jest hoid

we do more peeping
than a baby chicken

On your guard all of you who are playing *Baker* at this hyre institution (loafing). The man in that hat is roaming about again and he is forever on the lookout for whatever he can hear to print about whoever did whatever he heard. Do I make myself clear, boys?

Here 'tis: We just hoid:

- That nine is what a stitch in time saves. We once had an operation and saved eighty-one.
- That when a train leaves New York and one leaves Raleigh at the same time—they're both the same distance from Washington when they meet.
- That the hen came before the egg in the beginning, but that in our every-day life the egg comes before the chicken . . . breakfast always comes before dinner.
- That the saying "Summer draws on" does not mean that you had better take off your red flannels and put your shorts on.
- That the Burlesque Number is in no way connected with Billy Minsky . . . nor has it anything to do with singing and dancing. We just had to give this issue a name and Burlesque is as good as any, considering that we just learned how to spell it.
- That if a nut on a door is a doughnut and a nut on a wall is a walnut, there is also a place to look for pecans.
- That time flies as do sparrows, pigeons, hawks, vultures, robins, bees, airplanes, missiles, and a multitude of other things too numerous to mention here, but which nevertheless travel from one place to another through the ozone and which are not suspended on rails, cables, wires or other things which are also too numerous to mention.
- That when you go into a "weenie wagon" and the fellow asks you what you'll have and you tell him "most anything," he usually gives you hamburger—and it's usually "most anything."
- That window shades around State College are about as useful as snowshoes are in Hades.
- That there is a specific statement in the dormitory rules that a car may not be kept in a dormitory.
- That there are enough cars in this country for everybody to be riding at the same time, and that if all the cars were put end to end, we would have Sunday afternoon.
- That "W" is just one of the twenty-six letters in the alphabet, but that if it weren't for it we would have no wine, women or waltzing.
- That you can be Spic, Rushin', Irish, and Gaelic all at the same time. This has no influence on the cost of potatoes but it somewhat decreases the value of the shamrock.
- That "C" stands for Columbus and that there are said to be seven C's . . . so far we have only been able to find two—capital and small c's.
- That ice freezes from the top down but nobody has ever stayed out to watch it do so. In a matter like this, even the owl doesn't give a hoot.
- That there is no lead in a lead pencil and therefore the statement "putting lead in a pencil" is false.
- That if we don't do some tall thinking we won't have enough copy to fill our usual space, and that will make us so unhappy that we will have to go and get some humorous magazine and read it and maybe copy a few jokes, but if we think real hard we will not have to do this.
- That roses are red and violets are blue, but newspapers are black and white when they are read.
- That glass is at its best when it's in pane.
- Dave and "Sully" ought to be pretty sore about it all by this time, but what do we care . . . didn't we apologize once.
- That a bird in the hand is the best way to eat chicken and get the most out of it.

"Can you fix this strap on my saddle for me?"
 "Sure—that's a cinch."

—Raw—

A sailor is usually a man who has the same thing on his mind that he has on his chest.—*Phoenix*.

—Raw—

Say, Ike, I don't believe I ever told you 'bout my cousin Jeb. Seems he invented a pair of rubber boots for firemen, so when they jumped out of a window the boots would make 'im bounce. Well, sir, he takes 'em to Chicago an' jumps out of a building, when—great day—what do you suppose? Well, he starts in a-bouncing and three days later they had to shoot him to keep him from starvin' to death.—*Puppet*.

—Raw—

Wit passing through hospital ward: "Good moaning, boys."

—Raw—

He: "Do you know the difference between being good and being bad?"

She: "What's the difference?"

He: "That's what I say."—*The Log*.

—Raw—

A highbrow is one who pretends to know whether the dancer is interpreting a moonbeam or a cow annoyed by hornets.—*Malteasar*.

—Raw—

Storekeeper: "Look here, young man. I will show you what we consider the real thing in men's hose."

Customer: "The real thing doesn't come in men's hose."—*Exchange*.

—Raw—

Daughter: "But, daddy, why do you object to my becoming engaged? Is it because of my youth?"

Daddy: "Yes, he's hopeless."—*Log*.

First Stewd: "Who's your close-mouthed brother over there?"

Second Stewd: "He ain't close-mouthed. He's waiting for the janitor to come back with the spittoon."

—Raw—

Nervous Suitor: "Sir, er—that is, I would like to—er—that is, I mean I have been going with your daughter for five years—"

Father: "Well, whaddye want—a pension?"

—*Penn Punch Bowl*.

—Raw—

"What's happened? Have you had an accident?"

"No, I bet Hans he couldn't carry me up a ladder on his back, and I won."—*Log*.

—Raw—

"I hear your husband left you again, Mrs. Schmaltz?"

"Yes. It must be the Russian in him."

"Howzat?"

"He's always Romanoff."

—*Penn State Froth*.

—Raw—

Then there was the detective who had made his money in the stalk market.—*Penn State Froth*.

She: "What do you do in the winter, dear?"

He: "Oh, I go to the ice lakes and cut up."

IN THE SPRING A YOUNG MAN'S FANCY—

— *But Why Think of That NOW*

Summer draws on—There's something else to think of: Don't go downtown and let the merchants rob you—we'll do it here "On Da Campus" and save you the car fare.

YEARS to come you will want, at times, to pause to recollect those days of fun, of classwork, of athletic and other activities—of college life itself, as you have known and seen it at State. In these pages to follow we have endeavored to picture to some degree for you that life as we have been able to gather it with our camera during the past year. May it prove interesting and full of episodes you will like to recall as you follow your trail through life, and may it remind you pleasantly of the days when you were following

The Wolfpack's Trail

Clipper and Frank Reese follow the play at Duke . . . Officials in a huddle preceding 'Heel-'Pack scrap . . . "Dun-ny" gets his camera set for a shot at the Colonel's boys . . . Extended order in Pullen Park . . . The snow-covered gym from the overpass . . . The Blue Eagle flies at the State-Duke game . . . Wolfpack faces Blue Devil . . . Hunk puts the boys through their winter paces on Frosh Field . . . More doings at the half at Duke . . . The crowds enter the new stadium . . . Stadium under construction . . . Colonel Magruder in Armistice Day Parade . . . Red Coats serenade Deacon section . . . '33 open air graduation.

BOOK FIVE

HOLLADAY HALL

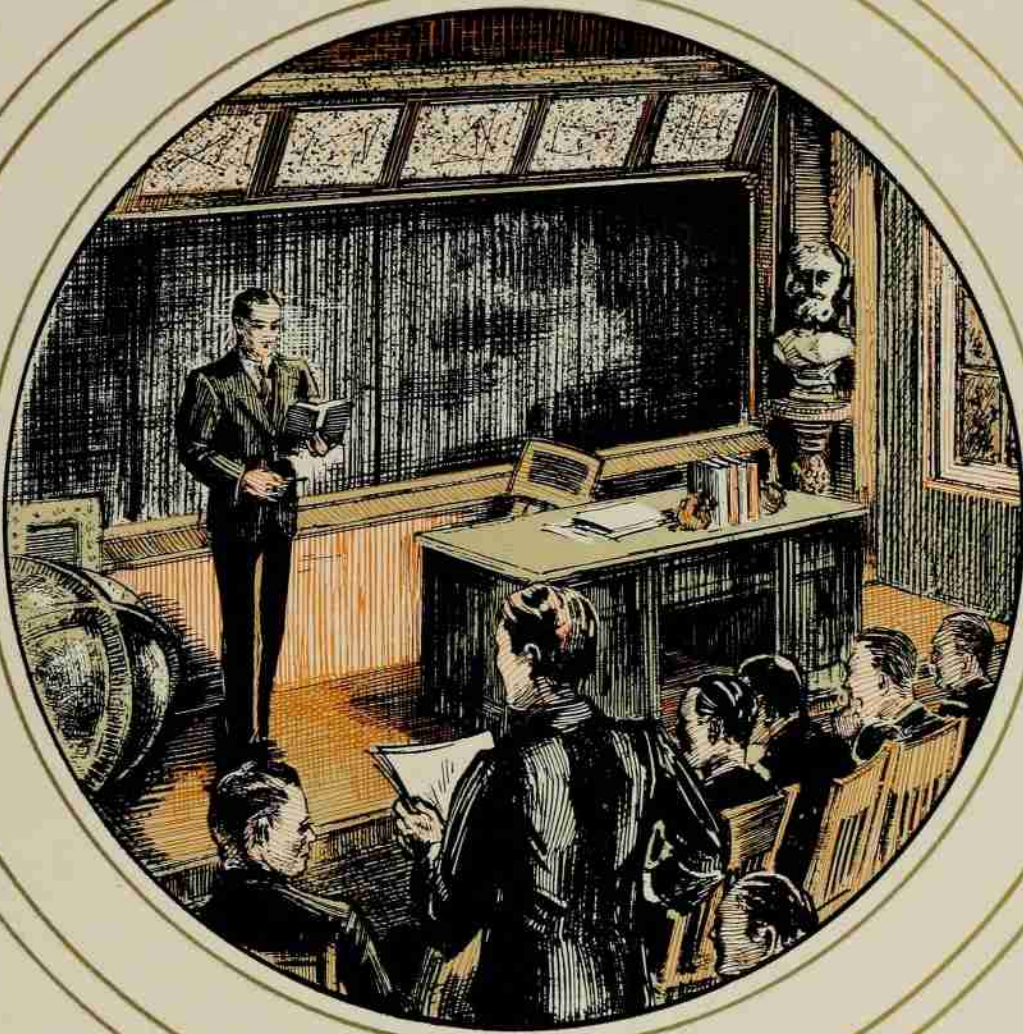

THE SCHOOL OF EDUCATION

THE purpose of the School of Education: To prepare principals and teachers for the rural and urban high schools; to train teachers of vocational agriculture to meet the growing demand in North Carolina for men to teach agriculture in the rural high schools; to prepare persons to teach industrial arts in the junior and senior high schools; to train teachers and counselors in vocational guidance; to prepare teachers and directors for the rapidly developing field of Physical Education with a view to remedying physical defects and to promote wholesome recreation and sports; to give women advantage of the broad opportunities offered by the teaching services suitable to their needs.

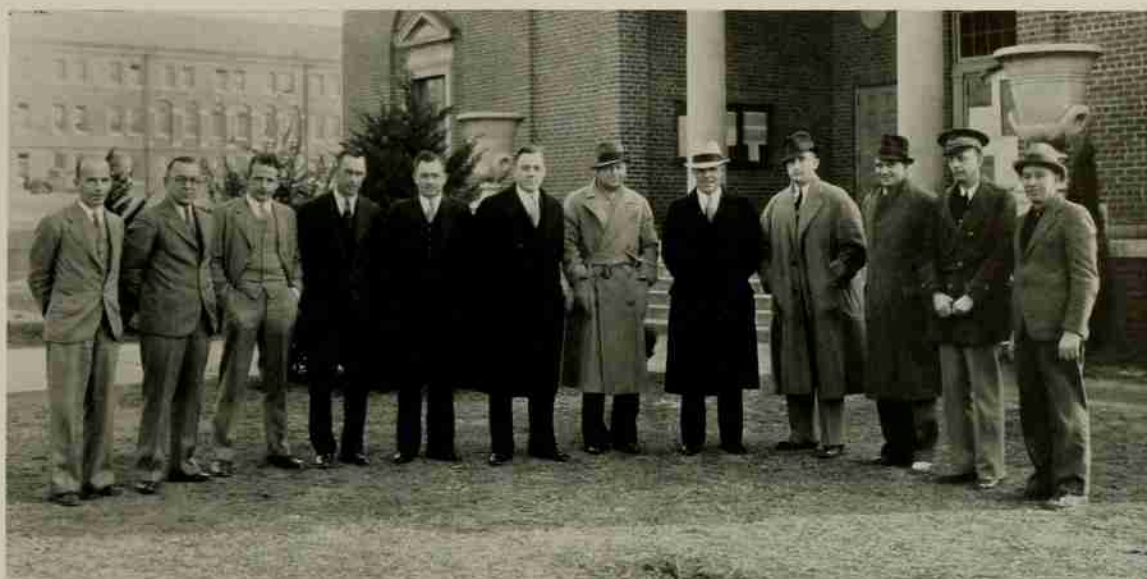

THOMAS EVERETT BROWNE, *Dean of the School of Education*

A T H L E

T I C S

Left to Right: GREEN, MILLER, MOORE, SERMON, JOHNSON, WARREN, REESE, ANDERSON, HUNSINGER, BEATTY, VENABLE, DOAK.

Athletic Coaches

Professor Ralph Green, who coaches Tennis, is a member of the teaching faculty. He is a great admirer and student of Tennis and tennis players. His work as Tennis Coach began in 1928. Tennis was later abolished, but with the return of the sport, he resumed his duties and gives promise of developing some good players.

Johnny F. Miller has been director of Physical Education at State since 1924. He has built an intramural program that compares creditably with any in the South. Mr. Miller is active in the affairs of the school. His friends among the students are countless because he is ever-ready to give help or instruction at any time.

Joe Moore is a graduate of State College. While he was a student, he was unusually active on the campus. Joe is a member of the teaching staff, and his work as Head Coach of Swimming and Coach of Freshman Wrestling is given without charge. He deserves credit for his good teams and for the spirit he instills in his athletics.

Doctor Ray Sermon is one of the most versatile athletic directors in the south. The monogram "S" is symbolic of Dr. Sermon's interest and activity. He has done more to focus the eyes of North Carolina on State's athletic program than any other man. "Doc" serves as Head Coach of Basketball and Track in addition to his duties as trainer and athletic director.

Peele Johnson, who coaches freshman boxing, was graduated from State in 1921. He is an instructor in the Mechanical Engineering Department of the College. His work with the boxers has been very creditable, and he will be valuable in developing men for varsity competition.

Doctor "Bob" Warren was one of State's most outstanding athletes. After finishing at State, he coached freshman sports at V. P. I. until 1930, when he returned to State as Freshman Coach. His work has been very outstanding. His teams have been exceptionally good, and many of our greatest varsity players owe their success to coach Warren's work while they were freshmen.

Frank Reese, backfield coach, is a man who has proven himself very capable. His work under "Clipper" Smith warranted his return as assistant to "Hunk" Anderson. Frank is another product of Notre Dame and the great Knute Rockne.

Heartly W. "Hunk" Anderson holds the distinction of having been Head Coach of Football at Notre Dame. His work during spring practice stamped him as a man of action. "Hunk" was prominently mentioned for All-American honors during his playing days. He is a friendly yet forceful man who commands the respect of his players.

"Ed" Hunsinger is one of the most recent additions to State's coaching staff. His work as end coach of football during spring practice was very good. Coach Hunsinger finished at Notre Dame in 1925. His coaching experience includes eight years at Villanova and one year at Fordham.

Bill Beatty is another product of State College. He became varsity boxing coach in 1933. He has had much boxing experience. In addition to boxing, Bill assists in coaching freshman football. His teams have been very successful.

Captain Venable, State's Golf Coach, is a graduate of Hampden-Sydney. He is the coach of the Rifle Team which is part of his R. O. T. C. work at State. He coaches Golf without receiving pay. He also serves as freshman military instructor. He has developed a strong team that will contend strongly for conference honors this year.

Charles "Chick" Doak has coached baseball at State since 1922. His teams have always ranked high in the conference. Their spirit and their fight are the products of his efforts and his personality. "Chick" has done much for State College and baseball.

Coach W. N. "Red" Hicks has coached Varsity Wrestling Teams for many years. He is loved by his men for his patience and his ability. Coach Hicks is a professor of Sociology and Religion, and his services as coach are given without pay. During recent years his teams have been unusually strong.

Football

McQuage gets off longest field goal in the country for the 1933 season: 51 yards in Georgia game.

John P. "Clipper" Smith, Head Coach, gives Captain "Mope" Cumiskey some pointers

"Clipper's" Reign

Three years ago John P. "Clipper" Smith came to State College as Head Football Coach. "Clipper" is gone now, but we can well afford to pause a moment and credit him with what he is and what he has done for State.

Smith was an All-American guard and captain of the Notre Dame team in 1927. Rockne named him as one of his greatest players.

"Clipper" assisted at Notre Dame for one year after his graduation. He coached at Springfield College and at Georgetown University before he came to State.

Although he is no longer here, his work can well demand praise. When he came to State, football and the players were chaotic. The team ranked well below one hundred others in the country. At the end of the 1932 season, his most successful, there were only thirty-six teams standing ahead of the Wolfpack.

"Clipper" deserves credit for taking the sport and giving it a semblance of order and strength after several years of uncertain playing.

More people will remember "Clipper" because of his success against Duke teams. In his first year here, he startled North Carolina and the South by defeating the Blue Devils 14-0. Again the next year his team won by the score of 6-0. This year, the mighty Duke team finally gained a 7-0 victory, but the game was a hard one.

And in conclusion, we wish to express, in behalf of the student body, an appreciation of the efforts which "Clipper" expended in building up our team, and we wish him great success wherever he may go.

Captain Cumiskey welcoming Hunk Anderson, new mentor, while Mayor Iseley, Professor Ted Johnson, and the student body look on.

This Man "Hunk"

When the announcement was made that "Hunk" Anderson, as he is popularly known, was to be the Head Football Coach at North Carolina State College, the nation listened. We, who are at State, could hardly believe it.

Heartly W. "Hunk" Anderson was Head Coach at Notre Dame during the 1932 and the 1933 seasons. He served with Knute Rockne for many years as an able assistant. He was one of the first of Rockne's "Watch Charm" guards.

When "Hunk" came to N. C. State his welcome was as wholehearted as State men could make it. The manner in which he received it stamped him as an asset. He will, without a doubt, become one of the most liked men on the campus. His attitude toward all students is one of real friendliness. He has already shown a real interest in all phases of student activity. "Hunk" is a "regular fellow."

Coach Anderson lost no time in getting the eyes of the school on football. His winter practice began early; it lasted many weeks, and he planted the foundation of football success in his men. They liked him. Instead of decreasing, his squad increased. The boys learned a great deal of football from "Hunk," and they are sure to learn more.

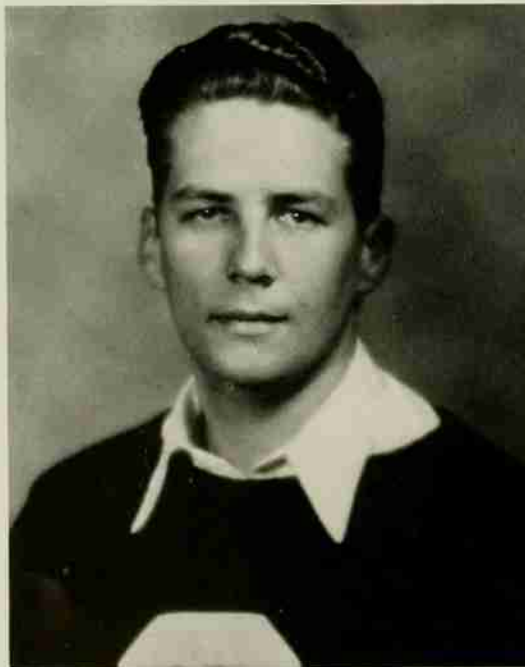

Coach Anderson and Co-Captains-Elect Ray Redding and Kenneth Stephens.

HEARTLY W. "HUNK" ANDERSON
New Head Football Coach

Too much cannot be said about Coach Anderson. We repeat that we are more than glad to have him as coach. We have confidence in him and his ability to bring out the best in some of the finest football material in the South. Though the "wise guys" say "Hunk" is on the spot and that too much is being expected of him, we contend that miracles are not being anticipated—no team is going to skyrocket from mediocrity to fame in "no seconds flat," even under capable leadership. We do look for an upturn in football fortunes, however, and feel that the man at the helm is quite capable of bringing about that upturn.

SEASON'S RESUME, FALL 1933

Things are not always exactly what they seem to be. The 1933 football season which, upon casual observation, appeared to be totally black, was not entirely without thrilling moments. A team, proved capable by moments of greatness, played inspired football at times. There were individual stars who, although they could not win games singlehanded, show that talent was not lacking.

Against Catawba and Clemson there was nothing to indicate a strong team. A sluggish team fought listlessly to gain a tie with a much underrated Wake Forest team. Evenly matched by a plucky Davidson team, the Wolfpack did not make any breaks or show any brilliance. South Carolina was too strong for a team which lacked the last bit of drive to overcome a superior weight.

There were games, however, in which the snap and spark of life drove the team, if not to victory, at least to success. Against Georgia, State led the Bulldogs at the half and fought gamely to lose a splendid game.

When Florida came to Raleigh, the Alligators did not expect to encounter the twisting, fighting team which held them to a scoreless tie.

Nothing can compare with the brilliance displayed against the mighty Duke team. Never before has a State team dragged itself from the depths of mediocrity to scale the heights in such an impressive manner. Undoubtedly one of the best games of the season was that great battle between State and Duke.

One peculiarity of the 1933 season was the succession of tied games. Three times State played opponents to a deadlock. This season marked the end of the régime of "Clipper" Smith, who had coached State's teams for three years.

Among the stars of the season were Captain Cumiskey, Ray Rex, Steve Sabol, Bob McQuage, Don Wilson, Buck Buchanan, and the next year's Co-Captains Kenneth Stephens and Ray Redding. Five men will be lost by graduation. These five men have played brilliant ball for State, and they will be sorely missed by the team next year. Those graduating are Cumiskey, McQuage, Bohannon, Wilson and Buchanan.

Rag Rex Picks Up Three Yards Around Wake Forest's Left End

We may point with pride to this season because of its brilliant climax against Duke. It is well that it was the last game. That greatness will not soon be forgotten. Let us not too seriously judge by the scores or by the record of wins and losses. We repeat, things are not always what they seem.

Game Accounts

(In Sports Jargon)

CATAWBA

On September 23, the Wolfpack opened its season against Catawba. Although the game was more decisive than the score, 7-0, indicated, it was the opinion of experts that the team was playing under "wraps." However true this might have been, State was decidedly unimpressive. Catawba proved to be surprisingly strong. There was no absence of the will to win.

The only touch down of the game came in the second quarter. The half was almost over. Bohannon and Rex drove from Catawba's thirty-eight yard line for a first down. A run by McQuage and an eight-yard pass put the ball on the Catawba ten-yard line. Rex smashed over guard twice for the score. McQuage kicked the extra point.

Stars for Catawba were Appanaitis and Caesaro. These two led a forceful attack in the last quarter for Catawba's best playing. State gained 203 yards with ten first downs as compared to fifty yards and five first down for Catawba.

Another scoring threat by State came in the last quarter when the starting backfield returned to the game and carried the ball to Catawba's fourteen-yard line.

Approximately four thousand people saw the game.

Pre-season dope had highly rated the Wolfpack. The low score of this game seemed to indicate that State was saving for the Georgia game. Straight football was used entirely.

The game was not a particularly thrilling one. The spectators appeared to be always looking for State to open up.

Apex, N. C.*

GEORGIA

Showing that they knew more about football than they had previously shown, State put up a strong fight against the Bulldogs of Georgia.

At the end of the first half the score was 10-7 with the Wolfpack enjoying the advantage.

Georgia scored first on a pass after they had been thrust back from State's four-yard line. This tally came in the first quarter.

In the second quarter State came back strongly. McQuage kicked to Georgia's nineteen-yard line. After three unsuccessful efforts to gain, Georgia attempted a pass which was intercepted by Redding of State who ran twenty-five yards for a touchdown.

After a few minutes of play, Bob McQuage dropped back and kicked 53 yards from placement for a field goal.

In the second half, Georgia was able to check all of State's attacks and, in addition, managed to score two touchdowns. The first came at the end of a sustained drive in the third quarter. In the fourth quarter Grant, of Georgia, ran brilliantly for 68 yards and another touchdown.

Georgia made sixteen first downs while State made fourteen. Penalties were heavy on both sides.

The game was played in Athens, Georgia. It was the first game of the season for Georgia.

Bob McQuage and John Stanko played excellently for N. C. State.

The sun was very hot; perspiration was responsible for several fumbles. In spite of the heat, the game was hard fought on both sides.

CLEMSON

Against Clemson, the Wolfpack failed to show the fight and the life that characterized the game of the previous week. Under a hot sun that drenched the teams with perspiration, the Clemson Tiger bested the boys from State in a slow game.

Highly favored, the State team did not show the strength that was expected of it. On the other hand, Clemson played better than was thought to be their capacity.

Both of Clemson's scores came in the second quarter. As the first quarter ended Stevens, of Clemson, kicked to State's five-

Carolina Held By State For No Gain On the One-Yard Line Just Before
Carolina Score

yard line. After a single try McQuage's kick was blocked for a Clemson safety. Clemson's touchdown came after a drive from State's free kick.

Stevens, of Clemson, was the star of the game. His kicking, running, and blocking were superb. Bob McQuage featured the play of State's team.

The only threat by the Wolfpack came in the fourth quarter. The ball was advanced to Clemson's thirteen-yard line. A pass to Redding was incomplete as the game ended.

Both teams made seven first downs. Clemson gained 165 yards while State made 130.

McQuage gained 63 yards for high man. Toward the end of the game Ray Rex found the Clemson line to be easier.

It was Home-coming Day at Clemson. More than four thousand spectators were present for the game.

FLORIDA

Again upsetting the "dope" of experts, State played stubbornly to hold Florida to a scoreless tie. More than seven thousand people were on hand to see the game on Riddick field. The game was played at night.

The Alligators, of Florida, threatened to score frequently but lacked the drive to carry over.

In the third quarter, Rex broke away for a long run to the Florida four-yard line. The play was called back and State was penalized. This stopped the only threat made by State in the game.

Florida threatened to score in every period. They showed more drive than State, except during brief moments of inspiration.

Henderson, of Florida, was outstanding for the 'Gators. Ray Rex played well for State.

In the line, Stanko, Sabol and Isaacs starred for State.

Florida made eleven first downs to lead State. The State team gained four first downs.

Spectators found the ball hard to follow because of the lights.

Florida was undefeated, having beaten Sewanee and Stetson.

State supporters were apparently satisfied with the result of the game.

CARL T. ISAACS, Tackle
Struthers, Ohio

WAKE FOREST

Experiencing another slow week-end, State managed to hold Wake Forest to a scoreless tie on October 21.

Again the experts favored State to win. Again pre-game predictions were upset.

It was Home-coming Day at Wake Forest. There were more than seven thousand spectators.

This was the second year that State and Wake Forest had tied. It was also State's second tie of the season.

In the second quarter, Wake Forest drove more than eighty yards into State territory, but failed in a place-kick try.

Ray Rex led the play for State while the brilliant work of Bill Martin shone for Wake Forest. Martin gained 97 yards.

Wake Forest had the edge in yards gained and in all other departments except the return of punts. They gained 194 yards to 117 for State.

There was only one scoring threat in the entire game: that of Wake Forest in the second quarter.

DAVIDSON

The deadlock jinx began to look like a permanent thing when State and Davidson played to a 6-6 tie on Riddick Field, October 29.

Both scores came in the third quarter. Davidson scored first when Johnny Mackorell intercepted a State pass and ran eighty-five yards for a touchdown.

Bob McQuage returned the kick-off to Davidson territory. After eight plays, the ball was on their seventeen-yard line. McQuage skirted left end for a touchdown on the next play.

Both touchdown runs were made possible by good blocking. Four field goals were attempted, but none were successful.

Three of these tries were made by State.

State was far in advance where statistics were concerned. The Wolfpack gained 209 yards, while Davidson gained only 44.

There were about seventy-five hundred spectators.

CAROLINA

Breaking the series of tied games, Carolina turned back State by a single touchdown. The game was played on Riddick Field. This was the twenty-sixth game between the two schools.

STEPHEN V. SADOL, Center
Honorable Mention: All-American
United Press; All-Southern
Campbell, Ohio

The game was marred by cold and rain which kept more than eight thousand fans shivering.

The only touchdown of the game came in the last part of the second quarter. A State punt was blocked and, after eight plays, Moore of Carolina, went over the line.

The longest run of the game, by Jackson, of Carolina, was called back and the team was penalized.

Early in the second quarter, State advanced to Carolina's 22-yard line. Several charges were repulsed and McQuage punted over the goal. This was State's closest approach to a scoring threat.

Carolina gained an advantage in first downs, with a total of nine, while State had three.

This was the fifth consecutive loss to Carolina and the nineteenth of the long series begun in 1894.

The game was marked by good sportsmanship. Every man was playing his hardest, but the heat of the game did not serve to bring about enmity between the teams.

Despite the rain and mud, there were no losses of the ball because of fumbles.

Carolina gained a net total of 121 yards as compared to 77 for State.

For State, Ray Redding and Ray Rex played the best ball of the game. Redding's work was singularly excellent.

SOUTH CAROLINA

The team of the University of South Carolina kept its conference record unmarred by turning back State, 14-0. The game was played in Columbia on November 11. Although the score was higher than in most of the previous games, the contest was hotly fought.

During the first half, both teams tried desperately to get an advantage, but the two fast and powerful lines prevented any scoring.

South Carolina's two touchdowns were made by Earl Clary. One of them came in each of the last two quarters. A safety in the third period completed the scoring.

Ray Rex lead the State team by gaining 28 of the total of 39 yards.

McQuage Caught In Secondary On Carolina's 22, After Almost Getting In the Clear

The defensive play of State's team was outstanding during the first half of the game.

The State boys advanced to the South Carolina 32-yard line for their closest approach. This was in the second quarter.

South Carolina gained 188 yards of which Earl Clary made 111. The Gamecocks made eight first downs while State made three.

State tried five passes, making one good for no gain. South Carolina completed only two of twelve for four yards gain.

There were nearly four thousand spectators at the game.

DUKE

Ten thousand cheering spectators saw a much belittled State team rise to unheard-of greatness and check the drive of the highly favored Duke Blue Devils. A comparatively small crowd which saw this game stole a march on the thousands who didn't care to see a massacre.

Not until the last five minutes of the game did Duke manage to score a lone touchdown. It looked as though State would again prove too strong for the Devils. A tie score appeared inevitable.

Duke had the edge in all departments of play, but the sheer gameness and fight of the State team gained the sympathy and respect of their spectators.

Coach Wade's boys again learned that, against Duke, State is not the same as in other games: but a fighting pack that will not taste defeat if it can possibly be averted.

With a 25-yard pass to help, it took ten plays to carry the ball the last 45 yards to the touchdown. Alexander, of Duke, charged into the center of the melée for the tally.

State did not wait for Duke's attack. They ran eagerly forward to meet it. And they repulsed it until there was nothing left.

The game was a real headliner. It has been classed as one of the country's best this year.

The two outstanding players of the day were Redding and Farrar of State.

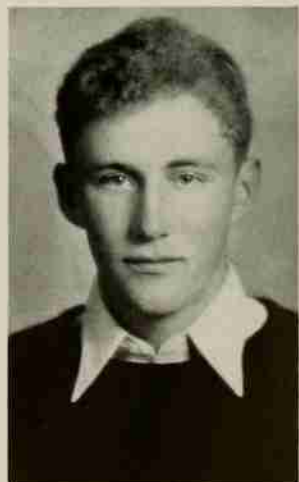

State's only scoring chance came on a fumble by Duke in the first quarter.

Basketball

Varsity Squad

Front Row (left to right): LAMBETH, AYCOCK, JAY, FLYTHE, CAPTAIN McQUAGE, REX. Back Row: WOMBLE, HARRIS, ZORI, WILLIAMS, SHERRILL, COACH "DOC" SERMON.

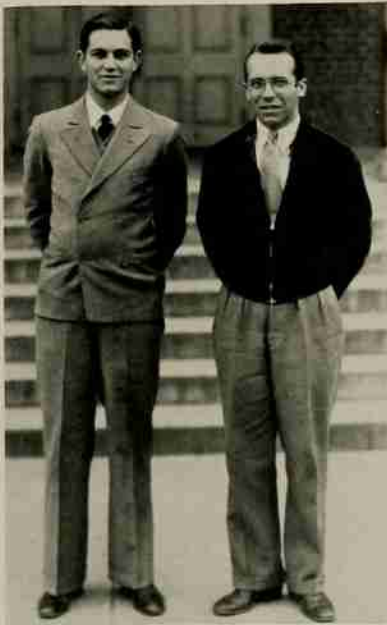

BASKETBALL

Coach Sermon called for candidates for basketball with the season not appearing any too bright. No one dared to do the brave art of making any pre-season predictions. As a matter of fact, the situation looked and was serious. The majority of the candidates were green and inexperienced in varsity play. The failure of several monogram men to return also hampered the work of Coach Sermon. The injury of Bob McQuage, captain of the team, caused no little amount of discussion as the time for the opening game drew near.

FRESHMAN SQUAD

First Row (left to right): CONRAD, COOPER, GERLOCK, CHASE, COOKE, CHILSON. Second Row: WHITE, BOUNOUS, HINES, BANNERMAN, CHAMBERS, UNDERHILL. Third Row: DALRYMPLE, WOMBLE, ALLEN, COACH WARREN.

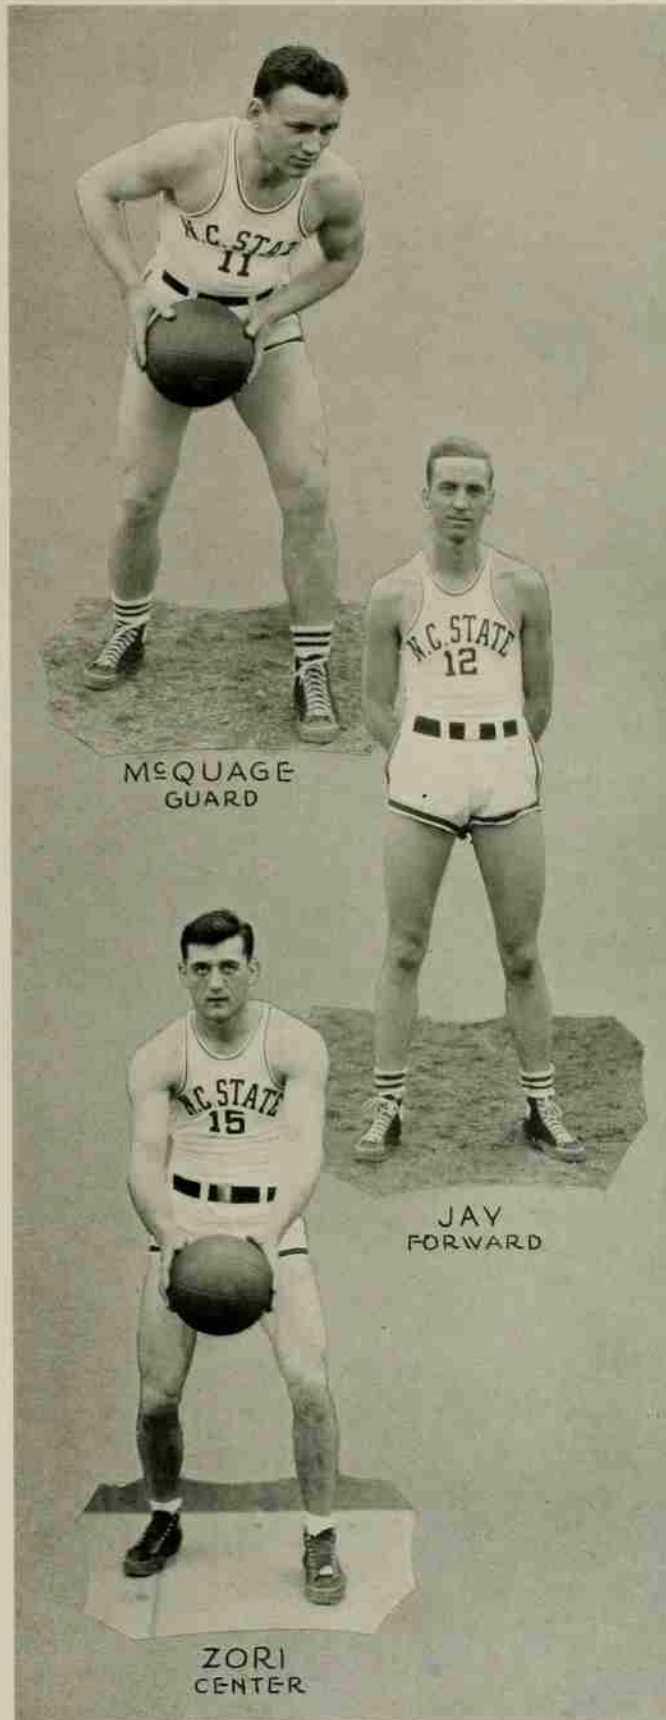

MANAGERS
WALTER JONES J. W. COACHMAN

The "Red Terrors" of State College went on the floor for the first game of the season with only three letter men in their ranks. They were Captain Bob McQuage, LeRoy Jay, and Ray Rex.

The team started off with a winning streak by defeating their first two opponents of the season. In the first game, State took a 36-27 decision over Clemson College. Three days later Wake Forest was downed by the score of 27-19. This initial fire proved to be good experience for the team. Jay and Rex were the two outstanding players of the first two games. They paved the way to victories with their skill and art in shooting baskets.

The N. C. State team traveled to Davidson and handed them a 32-29 defeat. They came back to force Duke in a close game but lost by the score of 33-29. That was the first loss of the season.

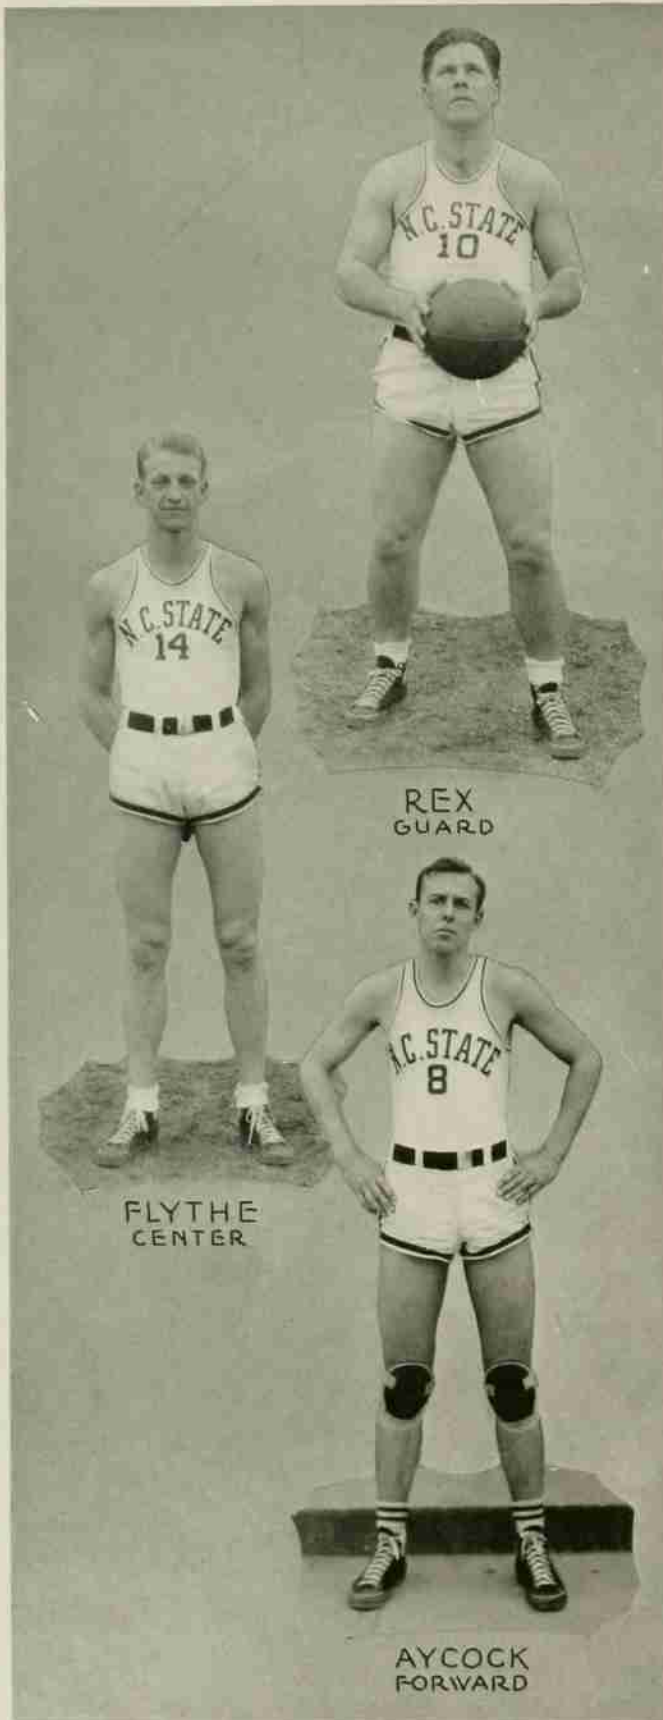

Virginia University traveled down to pit their tossing against State's. The Frank Thompson Gymnasium has never seen a game so closely

played and so full of thrills. At the end of the first half Virginia led 19-9. In the second half, State staged a big rally and came back to tie the score 29-29 at the end of the regular playing time. Jay, Rex and Captain McQuage scored a basket each in the extra period to give State the final winning margin.

Next in order came Carolina. The Carolina quintet opened the game in fine style and stepped out to an eight-point lead before State scored. State appeared to be completely smothered in the first half, and at the end State was on the short end of a 14-9 score. The second half was exactly the reverse. State scored a dozen points before Carolina tallied again. A goal by Jay within three seconds after the second half opened initiated the rally. The excellent play of Flythe and Aycock accounted for the story at the close—N. C. State 34, Carolina 30. This was the fourth game that State had won in the second half. The team appeared to have formed the habit of giving thrills as well as victories.

State continued its winning streak. The team was clicking, and every man knew his play. State College beat V. P. I. 45-30, and Washington and Lee 30-17.

Wake Forest next fell victim to the slashing of the "Red Terrors." State added one more notch to the winning streak for a total of eight wins and one loss. The State cagers took an early lead and held it for a 33-19 win.

The Davidsonians were no match for the mighty "Red Terrors." The score at one time was 20-2 for Sermon's men. Eight relief men were used to keep the game going.

The winning streak was too good to last. State traveled over to Carolina in zero weather to play. State dropped the game 45-24.

State took a fifty-fifty series on the Virginia invasion. V. P. I. fell easily to the score of 46-30. Washington and Lee, however, reversed the tables and handed State a defeat of 43-37.

The mighty "Gamecocks" of South Carolina traveled up to Raleigh to have a little fun. The "Red Terrors" were defeated 33-27. The South Carolinians were never headed

during the period, although they did not have it as easily as everyone predicted. Their ability to make good their free shots won the game for them.

The Techs were defeated in the last game of the season. Duke handed State a second defeat. The score was 41-34.

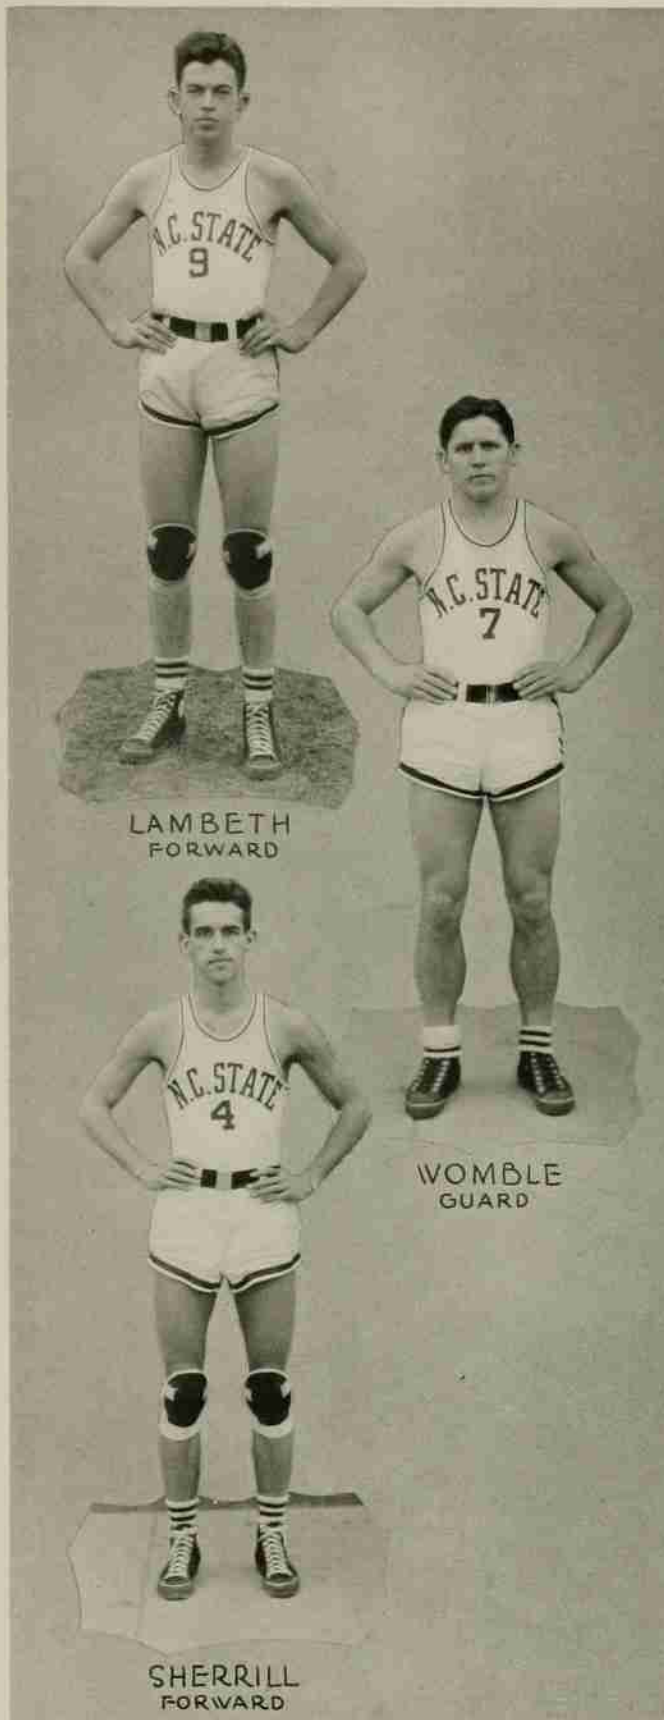

The Southern Conference Tournament opened Thursday night, March 1, 1934. State drew South Carolina for the first game. The odds were stacked high against State. Practically all predictions were in favor of the "Gamecocks."

State pulled the biggest upset of the season by defeating the highly favored "Gamecocks" to the tune of 43-24. State won in a big way. The final score did not tell the story of what might have been done. South Carolina had won 31 consecutive games before State checked their winning streak. The South Carolinian's had depended on a very strong but slow and deliberate brand of ball. When they met State they had no time to get set. The "Red Terrors" were too fast and good at covering the invaders. Freddie Thompson, ace scorer of the Birds, was thoroughly bottled. The State team produced a well rounded and balanced attack headed by LeRoy Jay and Ray Rex.

The win of State over South Carolina in the first game of the tournament pitted them against Washington and Lee for the next match. This was played the following night. State lost 28-32.

SEASON'S RESULTS

State	36	Clemson	27
State	27	Wake Forest	19

BASEBALL, 1933

Coach Doak called for all men to report March 10. He announced that he would build his team around the 1932 club. It was probable that all positions except short-stop would be filled by mongram men. The schedule showed a grand total of fifteen games. Some of these were to be played with out of state teams while the remainder were to be divided between Tar Heel clubs.

The entire student body predicted great victories for the ball club. They turned their eyes on the old faithful "Snoozy" Morris, who was to captain the club through the season.

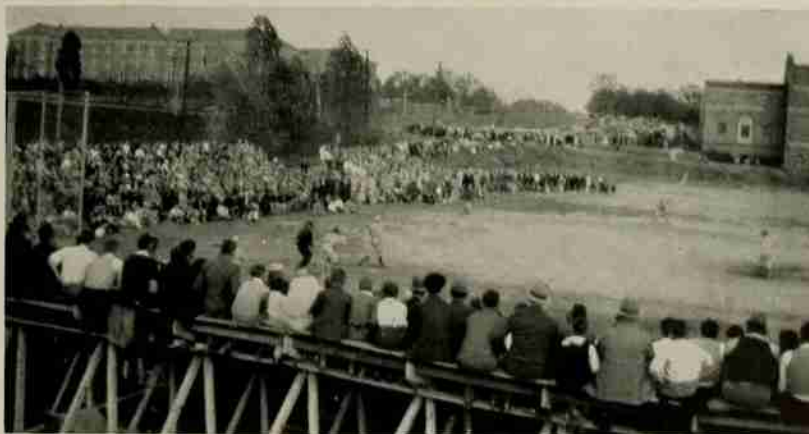

The season got under way in what may be termed great style. The State team defeated Washington and Lee by the score of 11-1. The team showed great power when at bat and fielded in mid-season style.

After going through a week of hard training, the State team left for an invasion of the Old Dominion State. Coach Doak took fifteen men. The team made a clean-sweep of teams played in Virginia.

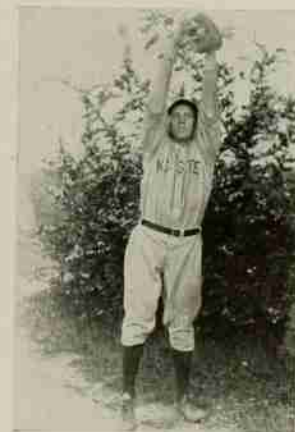

The Red Terrors defeated V. P. I. at Blacksburg Monday, April 10. The State men staged a slugging battle that four V. P. I. hurlers could not stop. State scored 13 hits for 23 bases and were aided by eight errors from Virginia Poly.

Rudy Seitz was the big star, and he gave State something to talk about. He fanned eight of the men to face him. Not being satisfied he cracked out a homer and a single. Ned Wood came in for second honors.

State then hopped over to V. M. I. to give them a nice trimming to the tune of 13-3. This proved to be an easy victory for the Doak men.

N. C. State romped over Washington and Lee for five runs in the fourth frame to win by a margin of 7-4. Willie Duke, State, upset the works by slamming out a homer and putting the game in the bag.

State defeated the University of Virginia by the score of 4-1 to give the State team a clean-sweep of their Virginia trip. The four wins in Virginia gave the team five straight wins.

State romped over V. P. I. Saturday, April 22, to receive their sixth win. Willie Duke again came through with three nice triples to feature the batting and Lambeth came in for second honors. After the third inning State had the game sewed-up.

The Red Terrors received their first defeat at the hands of Barnes, a clever pitching ace for Wake Forest. It was the first time since 1930 that the Easter Classic had been held. This did not alter the 12-1 score with State on the short end.

State lost its second game of the season, and its first of the Southern Conference, when Duke won by the score of 5-0.

State trimmed Davidson to the score of 9-6. The feature of the game was a homer by Willie Duke, State's center fielder, with the bases loaded. This gave State a three-point lead. Neither team scored after the sixth inning, because both pitchers clamped down tightly and retired the other side in short order.

In the second Duke encounter, the State team defeated Duke by the close score of 5-3. Seitz did the pitching and lived up to his true form. He allowed only three hits. This win made the second win for State in the "Big Five" contest. State lost the first two of its games: one to Wake Forest and one to Duke.

State scored in the ninth inning against Carolina to give the Techs their third straight win in the "Big Five." Carolina garnered five runs from Lynn in the eighth to tie the score. The Techs, however, rallied in the ninth for a win of 7-6.

Again State received a setback at the hands of Wake Forest, the score being 7-4. June Barnes successfully worked his jinx and jinxed State out of the "Big Five" Conference.

The Tar Heels licked State in the last game of the season by the score of 7-1. Seitz pitched his last game for State and did it in the same good form as before, but the Carolina team proved too much.

This game ended the season for N. C. State. It also rung down the curtain for Jeffrey, Duke, Nelms, Seitz, Fuller, Cauthen, Wood, Griffin, and Captain Morris. They were all letter men.

BOXING

The news spread like wild fire that Captain Bill Dunnaway, of the boxing team, did not register for the Winter term. Time came for the first bout, and the team set to work minus the services of one of the best boxers and promises of a good captain.

The pugs made their debut at the University of South Carolina. There had been much shifting and many perplexing problems as to who could make the weights. However, Coach Bill Beatty found a way out, and Jack Fabri boxed in Dunnaway's weight.

State College returned from South Carolina on the small end of a $4\frac{1}{2}$ - $3\frac{1}{2}$ score. Stephens and Bilisoly won. Stephens on a technical knockout. Garner dropped a close decision.

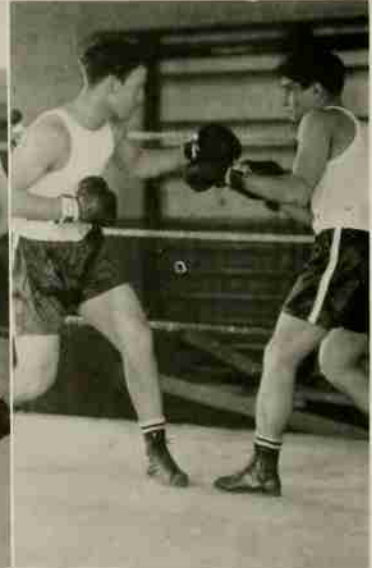

The State boxers tied Carolina 4-4. This was the second year that State and Carolina had tied scores in boxing. Three technical knockouts featured the match. Stephens disposed of

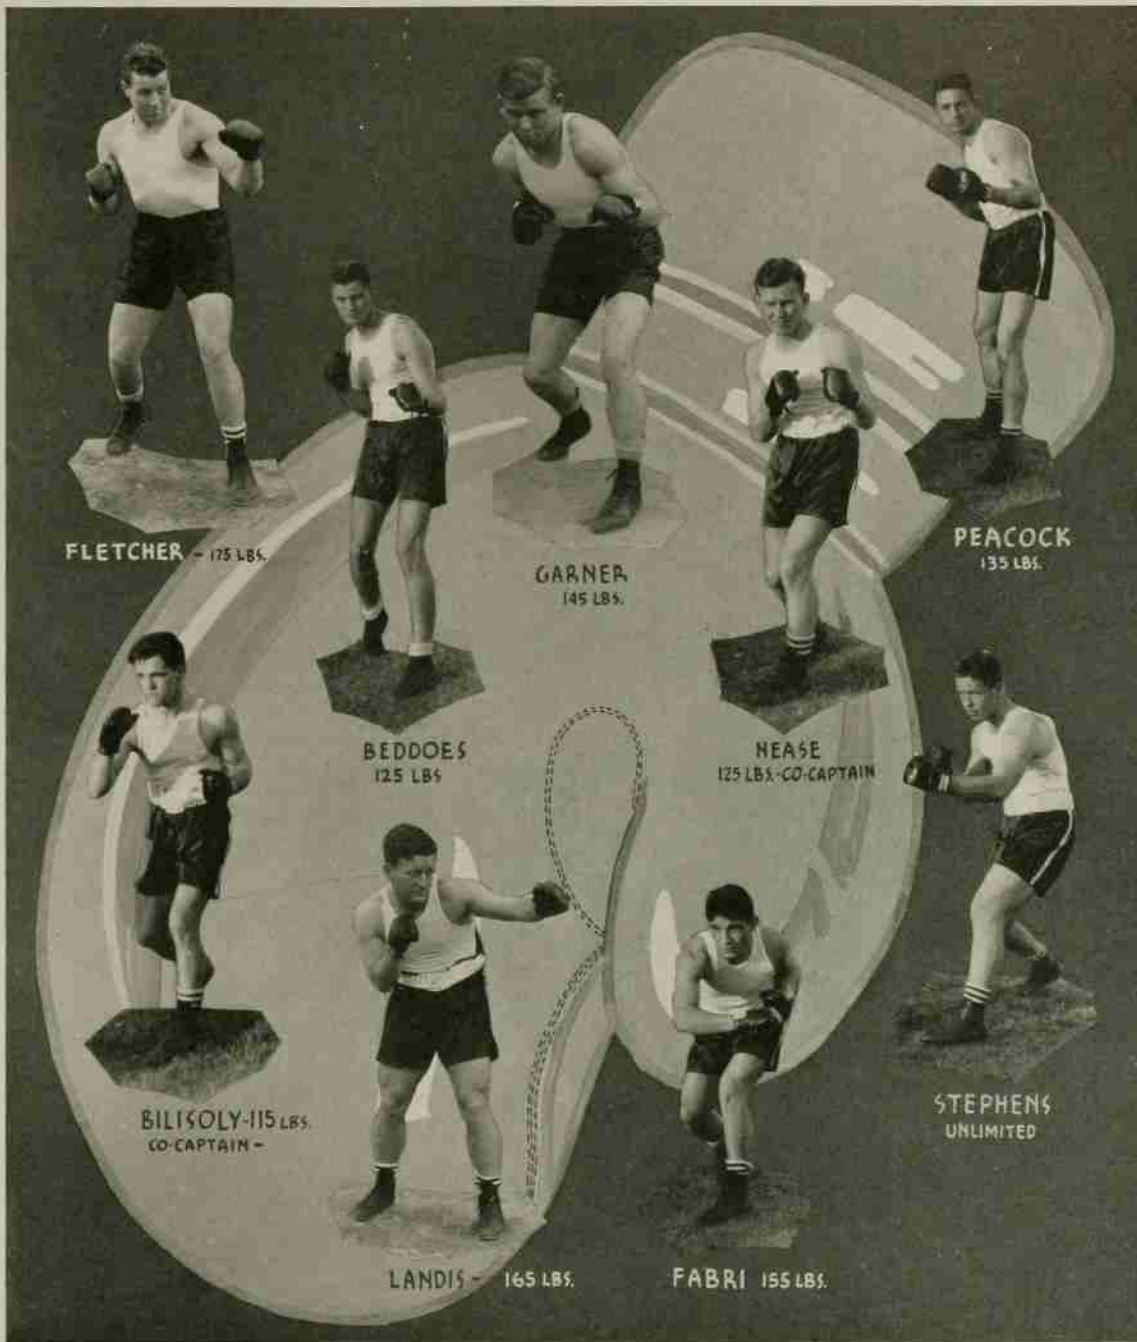

Smoky putting that lucky rabbit foot to work on Red Stephens and Jack Fabri.

NEASE AND BILISOLY

STEPHENS AND FABRI

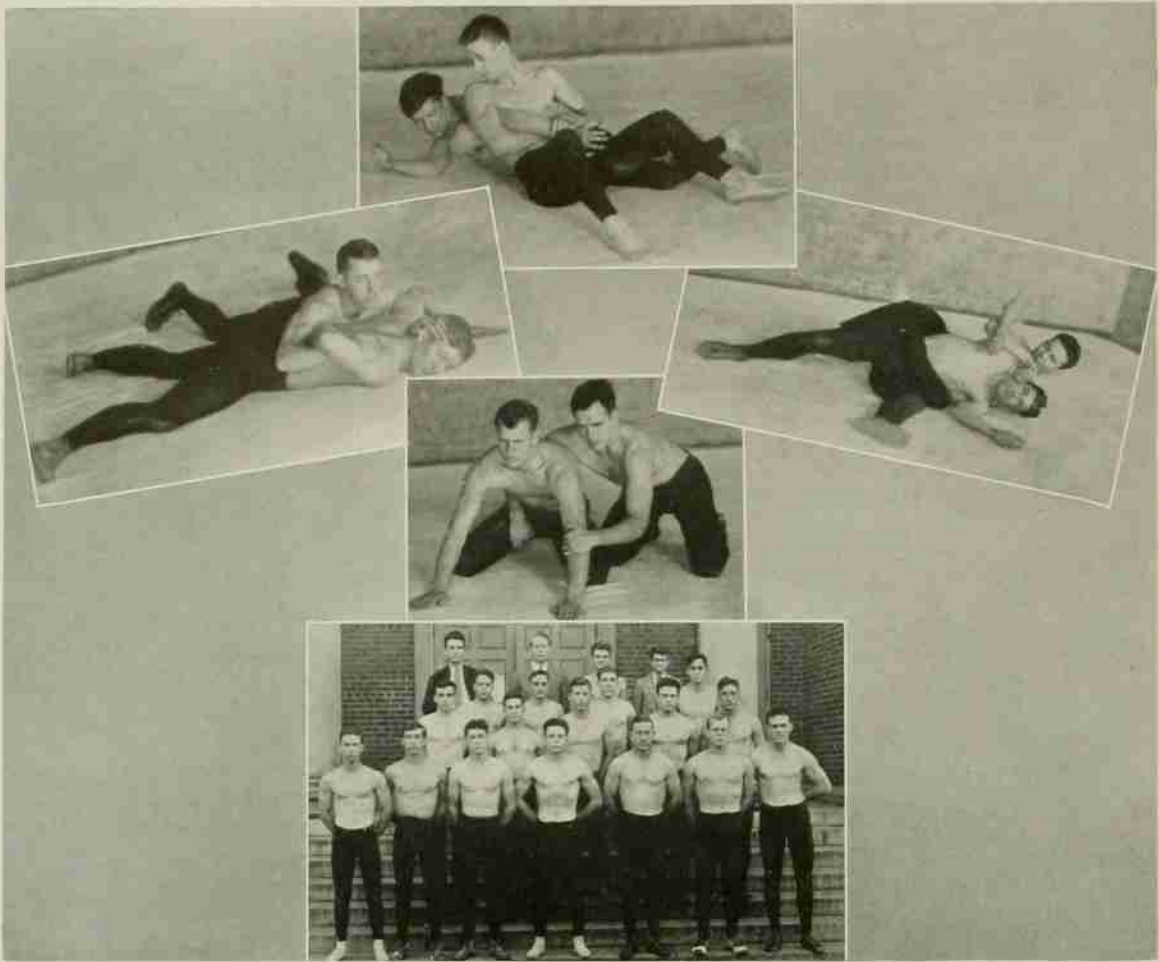

Coruth in 95 seconds. Garner won over Lumpkin by decision. Fabri won a decision over Giddins.

In a boxing match with Georgia, State took a 5-3 victory. Turner Bilisoly scored the only technical knockout. Peacock battled Bell to a draw. Nease, State, won a decision over Rehton. Garner and Goodman fought to a draw. Fletcher won a decision over Hopkins, and Stephens won by default.

The pugs of N. C. State had little trouble in turning back the Generals of Washington and Lee, 6-2. One technical knockout, four decisions, and two draws was how it went.

State's fighting mittmen floored Duke to the count of 5-3. The fighting of Peacock held the attention of the spectators. Bilisoly and Ovisho fought to a draw. Fabri won by default. Stephens won by default.

Top Center: Co-Captain-Elect Dave Morrah, top, 118 lbs., showing Double Wristlock on Kerr, 126 lbs.

Middle Center: Cooper, heavyweight, top, and Croom, 175 lbs. in the referee's position on the mat.

Left: Co-Captain-Elect Bernhardt, top, showing Bar Hammerlock and Half Nelson on Furr, 165 lbs.

Right: Captain McLaurin with Crossbody Ride on Nolen, 135 lbs.

First Row (left to right): MORRAH, KERR, NOLEN, MCLAURIN, BERNHARDT, CROOM, COOPER. *Second Row:* HODGKIN, KNACH, FURR, MARGOLIS, P. DAVIS. *Third Row:* HARPER, THORNTON, CANUE, F. DAVIS. *Fourth Row:* MEEKINS (Sophomore Manager), COACH HICKS, CHAYFIELD, DOGGETT (Senior Manager).

WRESTLING

The strongest wrestling team in the history of State College opened its 1934 season by overwhelming the University of North Carolina to the tune of a 26-0 score. Carolina had never been held to a scoreless tie before. The matches showed clearly the superiority of the State wrestlers.

One week later the strong wrestling team from V. M. I. was defeated 16-14 in a thrillingly close match. Some of the best wrestling ever seen here was displayed against V. M. I.

Caught a bit unawares by a sudden change in the date for the Washington and Lee match, the State wrestlers could not withstand the brilliant onslaught of the visiting team, but each man managed to fight to a close decision. The score was 6-18 for the only defeat of the season. The victorious men were Captain Jim McLaurin and Charlie Nolen.

Virginia Tech could not match the State wrestlers in the next match. The score was 20-8 in a rather one-sided match. After two postponements, Duke finally forfeited, and another match was given to State.

With the State Championship securely retained, the wrestlers began to prepare for the Southern Conference Tournament, which was held at Blacksburg, Va. Two State wrestlers, Dave Morrah and Charlie Nolen, were crowned individual Conference Champions. Morrah is a 118-pounder, and Nolen wrestles in the 135-pound class. Nolen is a senior.

Each man on the team received either first, second, or third place with the exception of Craig Furr, who, because of a severe knee injury, was forced to forfeit. Colin Kerr received second place in the 126-pound weight. The team placed third in the tournament.

Captain McLaurin was undefeated in dual meets, and his absence will be felt greatly next year. Clifton Croom was stopped early in a promising season by a broken collar bone. His loss weakened the team considerably.

Only two men will be lost by graduation this year, but Coach Hicks has prospects for another strong team next year. And with Carl Bernhardt and Dave Morrah as co-captains for next year, he is sure to have two strong leaders.

THE SEASON'S RECORD

SWIMMING TEAM

Left to Right: COACH JOE E. MOORE, WESTBROOK, MOORMAN, HOLDMAN, CAPTAIN CARTER, STONEBANKS, PEIFFER, STYRON, THOMPSON, MANAGER SCOTT.

SWIMMING

Swimming is a comparatively new sport at State College, having been officially recognized by the Athletic Department last year. But it has made a creditable showing in its early stages, and its future looks promising. Interest in this sport is not local; for, of late years, it has been gaining in popularity throughout the Southern Conference, each year bringing better and better material to the colleges; and each year sees almost every Southern Conference record lowered, until these records now compare favorably with those of the best schools in the country—schools where swimming has been a recognized sport for years.

State College is fortunate in having one of the largest and finest swimming pools in the South. And the team is particularly fortunate in having in Professor Joe E. Moore a coach who is not only an expert of wide experience in swimming but also a leader possessive of a personality conducive to bringing out the best that is in the men with whom he works.

Starting the season with only three lettermen as a nucleus, Coach Moore rapidly developed a strong team. In the first meet of the year, the strong Ft. Monroe Army School team was topped by a substantial margin. Later, the Duke varsity and freshmen were overwhelmingly defeated. These victories were followed by a defeat, by a margin of one point, by the University of Virginia, last year's Conference Champions. Next, Washington and Lee scored a win, and a much improved Duke team procured revenge for its first defeat. Undiscouraged, and fresh from a few days' rest, the team traveled to Virginia for the last two meets of the season—William and Mary and a return engagement with Fort Monroe. State took both of these meets by comfortable margins, making the totals for the season three losses and four victories.

Unlike the team of the previous year, in which the free-style members were the principal point-gatherers, the squad this year was marked by a more even distribution of strength among the various departments of the team—the free-style, breast-stroke, back-stroke, and diving.

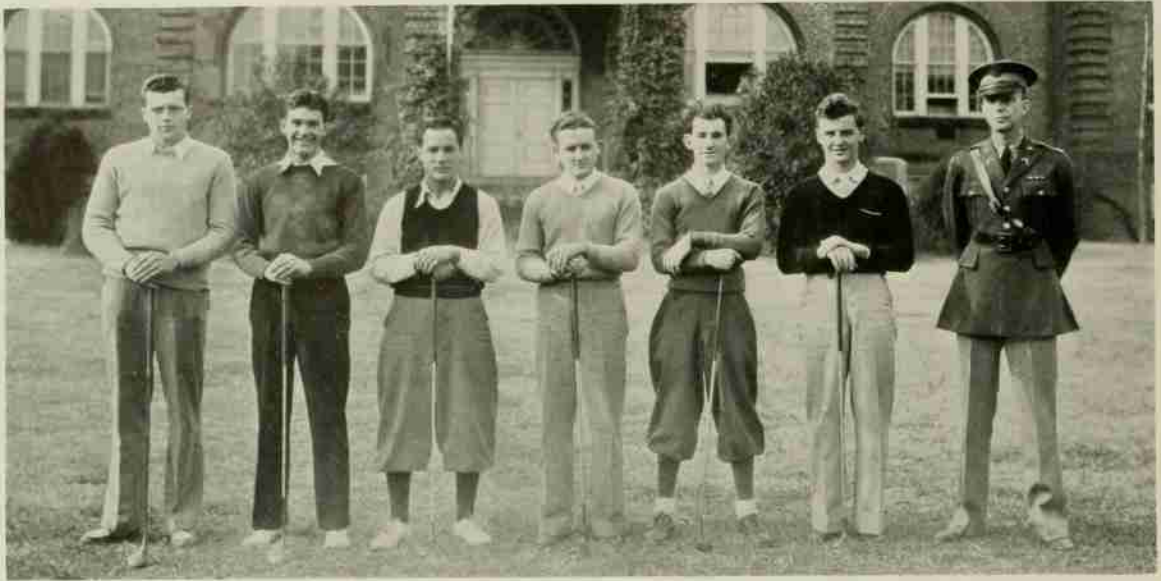

In the free-style dashes and longer swims, Jimmy Westbrook gave brilliant performances, garnering a total of thirteen first places. He was hard pushed by Captain Fehl Carter, a letterman from the previous season. In almost every meet these men finished first and second in the dash events. In the 220-yard free-style events, Westbrook was supported by Moorman, another letterman, and in the 440-yard free-style, Moorman and Holoman combined their efforts.

Jack Stonebanks, the remaining letterman, turned in praiseworthy performances in the back-stroke division. A free-styler originally, he was converted into a back-stroker in an attempt to strengthen this otherwise weak department. He did fine work.

Among the breast-strokers, Peiffer was by far the outstanding star. He placed consistently and wore down his opponents with tenacious endurance.

In the diving, Fred Thompson more than made up in ability what he was lacking in experience. He showed great promise; and with this year's experience behind him, he should go far next season.

Although the team will lose Captain Carter, Moorman, Peiffer and Stonebanks through graduation, there is freshman material on hand which gives promise of a strong team next year. And with interest increasing as it is in this sport, material should be growingly abundant.

GOLF TEAM

Left to Right: ARTHUR WILSON, CHARLES STYRON (Manager), CAPTAIN PAT PASTORE, FRED NEWNHAM (Captain, '33), EARLE RION, J. M. POYNER, CAPTAIN B. W. VENABLE (Coach).

GOLF

In the realm of minor sports few teams have seen more rapid strides in approval and support than golf. The game was introduced as an organized sport at State College in the Spring of 1930 with Tom Mott acting as captain. Other members of the squad were Chick Murray, Jack Biggs, Frank Lawrence, Earle Rion, and Charlie Styron. There was no definite schedule for the year, and, as a result, the game received little attention. A single match was played with Wake Forest College at the Carolina Country Club. The following Spring came with a haphazardly planned schedule at hand. As a result, at the end of the season the sport had taken little more than a slight step toward recognition. The team was made up of four players who had seen action the year before. They were Tom Mott, Chick Murray, Charlie Styron and Earl Rion.

Under such conditions one of two steps were to be taken. The players were to have a coach, or they were to put their clubs away for the year. Fortunately, the change of military officers which comes to each officer every four years, sent Captain Ben Venable to the campus.

Captain Venable knew what it meant to be bitten by a golf bug, and he played the game ardently and well. It was not in his nature to let his game be passed up; therefore he saw to it that "all men interested in golf" met with him. Immediate plans were set for the year. It was late to get just what was wanted in respect to the schedule. The squad had at their disposal the Carolina Country Club course, one of the best eighteen-hole lay-outs in North Carolina. Mott and Murray were gone, and the only letter men were Rion and Styron. Fred Newnham, Jr., and Pat Pastore were competent sophomores. Other members of the squad were Bill Berthlein, Bill Dusty, Fritz Southerland, Don Dyer, Arthur Wilson and Jimmy Poyner.

The team started its season with a defeat at the hands of Rollins College on the local course by a score of eleven to seven. Newnham, playing number one, was the only State golfer to win his match.

The scheduled season opened against Wake Forest with a 12-6 victory. The match was played in a drizzle, which, before the match was over, turned to snow. The weather played havoc with scores. Newnham, Pastore and Styron eked out victories over Hager, Paschal and Robinson, respectively; and Rion lost to Howell. Newnham and Pastore won a best ball match against Hager and Paschal. Styron and Rion halved their match against Robinson and Howell.

In the next engagement State lost to Richmond University, 12½-5½. Charlie Styron, playing number one, lost a close match to Bobby Riegels, 2 up and 1 to play; Fred Newnham won from Swanson; Rion and Pastore lost their matches. Styron and Newnham won their best ball match from Riegels and Swanson.

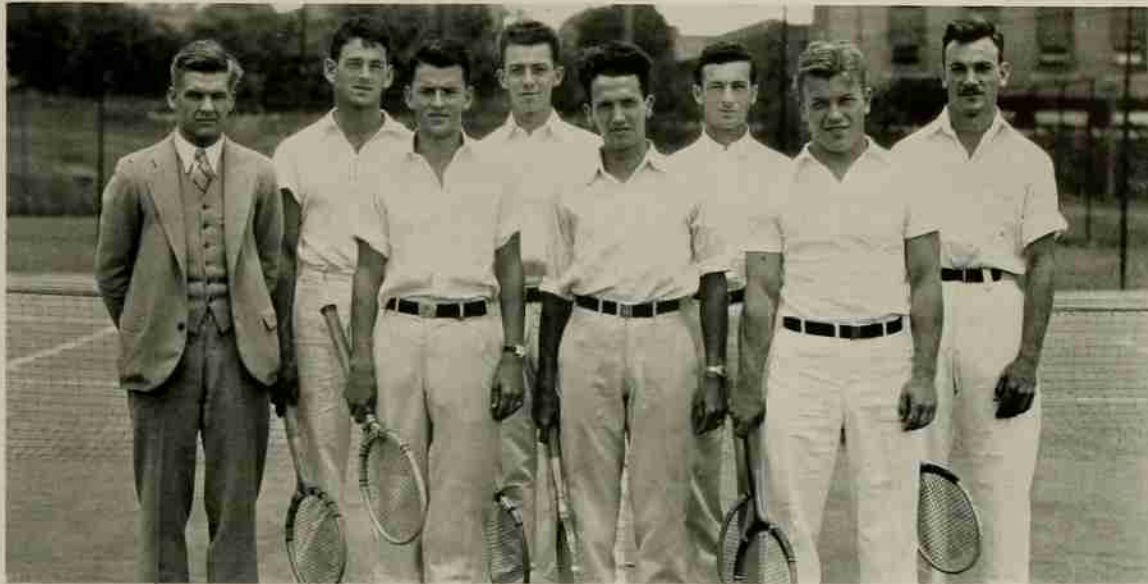

Against V. P. L., at the Carolina Country Club, the State team, composed of Newnham, Pastore, Styron and Rion, won handily, 10-2. Styron lost the only two points to Turner, the captain of the V. P. L. team.

Playing the next match, the Varsity Golfers registered a one-sided victory over Wake Forest at the club. The Techs won, 17½-3½. The afternoon was made one of double victory for State when the Tech Freshmen counted a 14½-3½ win over Wake Forest Yearlings.

For a third time State routed Wake Forest, this time in Raleigh, 16-2. Charlie Styron turned in the best medal score, a 75. Francis Paschal, with a 77, topped the Deacons. Styron won 2½ points from Paschal, who won ½ point; Wilson, 3, defeated Howell, 0; Rion, 2½, defeated Hager, ½; Poyner, 3, defeated Robinson, 0. Styron and Rion defeated Paschal and Hager in the best ball matches, 2½-½; Wilson and Poyner defeated Hager and Robinson by the same score.

In the final match of the year the Techs defeated the strong University of North Carolina team, 12½-5½. Alani Smith, Carolina ace, carded a 74 for the best medal round of the match and won, 2½ points from Newnham, who shot a 75. In foursome play, Newnham and Pastore paired for a best ball match of 69 to win three points from Smith and Michaels. Styron and Rion with a best ball of 73, won two points from Bridges and Cramer.

Throughout the season's play, Fred Newnham had the lowest average score medal, and Charlie Styron won most points for the team. Newnham, Styron, Pastore and Rion won letters.

Left to Right: MANAGER SAUNDERS, DIXON, FOLLEY, WRIGHT, WARD, MUMFORD, WILSON, CAPTAIN FISHER.

TENNIS

Tennis at North Carolina State College is a comparatively new sport. Like all sports, when first introduced, it was hard to get started. Teams have been organized for both varsity and freshman play, and Professor Lefler, because of his love for the sport, volunteered to act as coach.

State College was fortunate in arranging dual meets with Wake Forest, Duke and Emory and Henry for the 1933 season, but the first and last of these games were cancelled.

The new tennis courts at State were officially opened by a 1933 meet with Duke. Three previous meets had been played at the Raleigh Tennis Club, all of which were won by Duke.

Nixon, Duke, won over Mumford, 6-3, 6-4; Hardy, Duke, won over Ward, 6-1, 6-2. In the doubles Nixon and Hardy, of Duke, defeated Mumford and Wilson, 6-2, 6-2, in this match on the new courts.

Coach Lefler and Coach Green, although not so very successful, turned out some good tennis players in Don Wilson, Don Dixon, Bill Fisher and Mumford.

The construction and completion of the new tennis courts gave hope to the 1934 team. The courts were built by one of the greatest engineers in the profession. They were designed like those now in use at the famous resort, Pinehurst. They are of sand and clay and mixed gravel; this gives the courts ability to drain rapidly. With the completion of the courts, and the experience gained from last season drills, the team laid a solid foundation for the 1934 season.

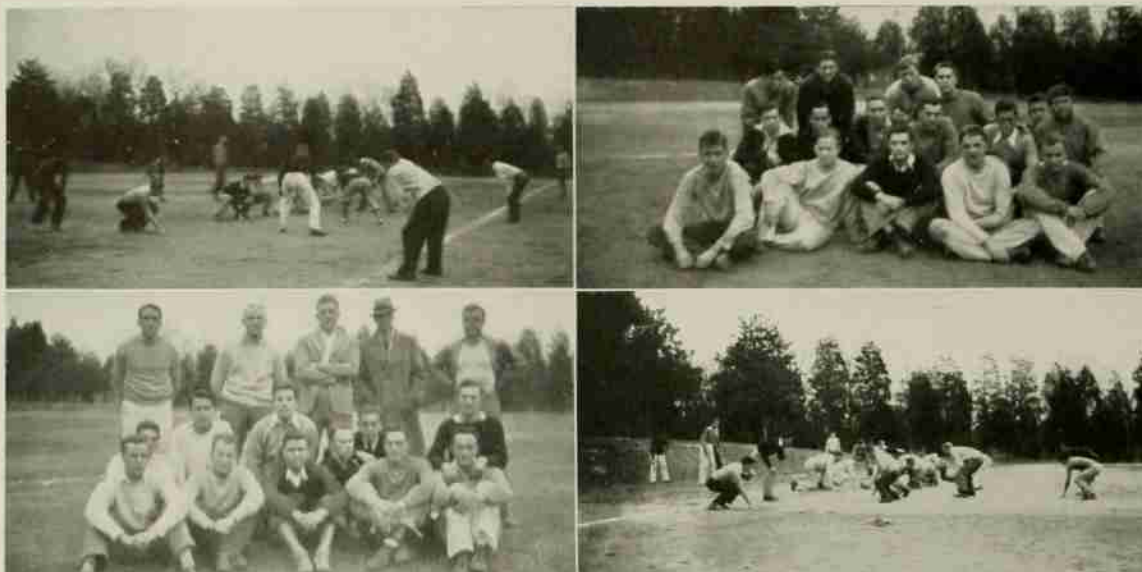

Six matches are carded for the Spring. All of the matches are with Duke, Wake Forest and Carolina. However, there is a possibility that other games will be booked later on in the season.

Seventeen candidates reported for the team this Spring; among these candidates were the monogram players of last season. The letter men are: A. L. Folley, J. M. Brown, and Bill Fisher. The other candidates are Boyce, Holoman, Westbrook, Lange, Allison, Leslie, and Peck.

SCHEDULE, 1934

April 10—Wake Forest at Raleigh.
 April 16—Carolina at Chapel Hill.
 April 23—Duke at Raleigh.

April 26—Carolina at Raleigh.
 May 2—Duke at Durham.
 May 14—Wake Forest at Wake Forest.

Sigma Phi Epsilon vs. Delta Sigma Phi—Finals of Fraternity Tag Football.

PHYSICAL EDUCATION

The Department of Physical Education is a service department for the entire college. It has direct supervision of: first, fundamental activities required of all freshmen and sophomores; second, professional courses for those specializing in teaching and coaching; third, the intramural program; fourth, the intercollegiate athletic program.

REQUIRED COURSES

There are about eight hundred freshmen and sophomores in regularly organized gym classes. The fundamental courses for freshmen are of an individual nature. Health comes from proper functioning of the fundamental organs. Exercise is the best means of attaining and maintaining properly this functioning process. Not only are the prescribed sports of a healthful nature, but they are sports which will develop a coordination of the muscular and nervous system. The fundamental course for sophomores consists of a sports program. There is a wide range of sports such as tennis, swimming and handball, from which the student may make his selection. Team games such as volley ball and tag football afford an excellent opportunity in its social contacts for developing sportsmanship and fine traits of character. This course, just as other courses in the college curricula, carries college credit and each student is graded on his performance.

PROFESSIONAL COURSES

Physical Education programs have recently reached such a magnitude in our country that the training of teachers is a natural reaction. The department has offered professional courses sufficient to minor for the past ten years. They do not believe that a player who simply has the physical ability to star on a team is prepared to handle the coaching of a team with all its problems. The demand this past year from school authorities from all over the state for men who could "teach math and coach" or "teach science and coach" has become very insistent. It is therefore the proper time to meet this challenge with properly trained teachers and coaches. A Major in Physical Education is to be offered by the School of Education starting next year. The option offered meets the state requirements and has been approved by the College Course of Study Committee.

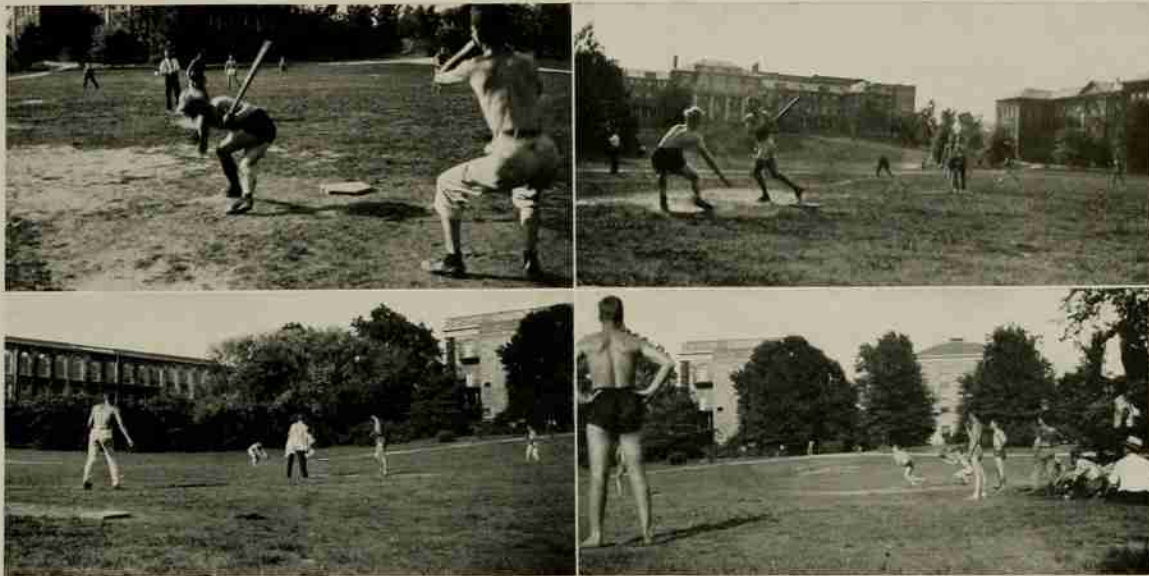

JOHN F. MILLER

Professor of Physical Education, who has led Physical Education and Intramural activities along by leaps and bounds in recent years.

INTRAMURAL ATHLETICS

Intramurals is perhaps of most importance to the students. Experience has shown that voluntary competition creates more interest and provides greater benefits. Intramurals is the follow-up of the required courses. It provides competition between similar organizations on the campus. Much of the technique of the sports is taught in the first two years and records show that a bigger percentage of the upper classes take part in the intramurals.

Second Floor 1911 Dormitory and Sigma Phi Epsilon in Soft Ball Championship Game.

AND INTRAMURAL

The development of the body, of mind, and greatest of all, of character, is the keynote of athletics. Team play fosters the rugged virtues of courage, determination and self-control. Participation promotes interest and association. These qualities are indispensable in a truly higher education.

Intramural at State College had its beginning in 1924. "Athletics for all" has been a slogan here since that time. During the past nine years there has been a gradual development of this program, until today the slogan has become a reality. Last year there were 372 athletic contests conducted. There were somewhat over 1,000 students, exclusive of those on varsity and freshman squads, who participated in these contests. The teams are classified under three heads, namely: the interfraternity league, the inter-dormitory club league, and the independent club league. Sports participated in by these leagues last year were: Tag football, horseshoes, swimming, basketball, handball, boxing, baseball, tennis and track. During the season a championship team is proclaimed by a series of encounters in each sport. The winning team is allotted a number of points, and the other teams participating are credited with a number of points proportional to their showing during the competition. At the end of the year, the club or fraternity in each league having the highest number of points is presented with a silver loving cup. This award is probably responsible for the increasing enthusiasm shown in intramural sports each year.

TAG FOOTBALL—From a series of hard fought encounters, the Delta Sigma Phi Fraternity and the second floor 1911 Dormitory Club emerged as gridiron champions in their respective leagues.

HORSESHOES—In this sport, the Sigma Phi Epsilon Fraternity and the third floor of 1911 Dormitory Club were victors.

SWIMMING—Tank champions in the Fraternity League were the Kappa Alpha's.

HANDBALL—The Sigma Pi Fraternity and second floor of Seventh Dormitory were champions in 1932-'33.

BOXING—The Delta Sigma Phi Fraternity and second floor of 1911 Dormitory earned the most points in boxing during the 1932-'33 season.

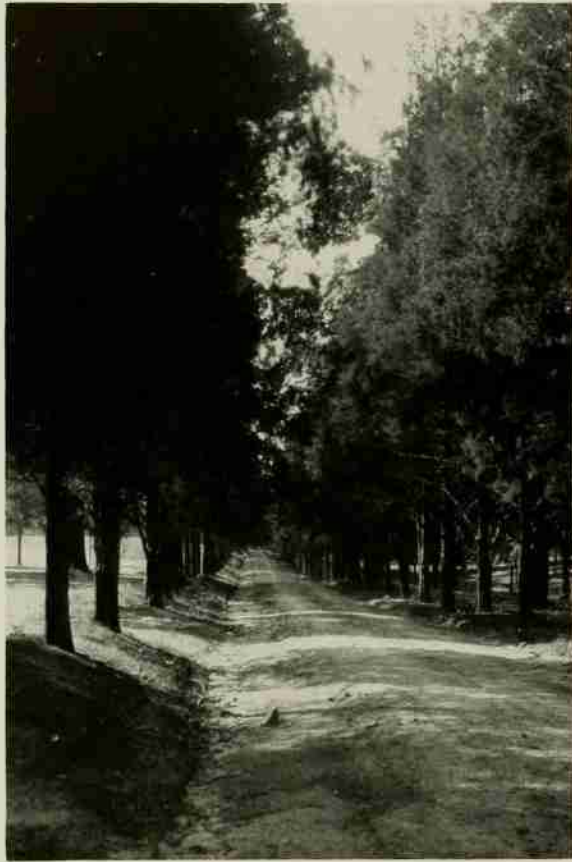

BASKETBALL—The cage championship of 1932 and 1933 was captured by the Sigma Nu's and Fifth Dormitory.

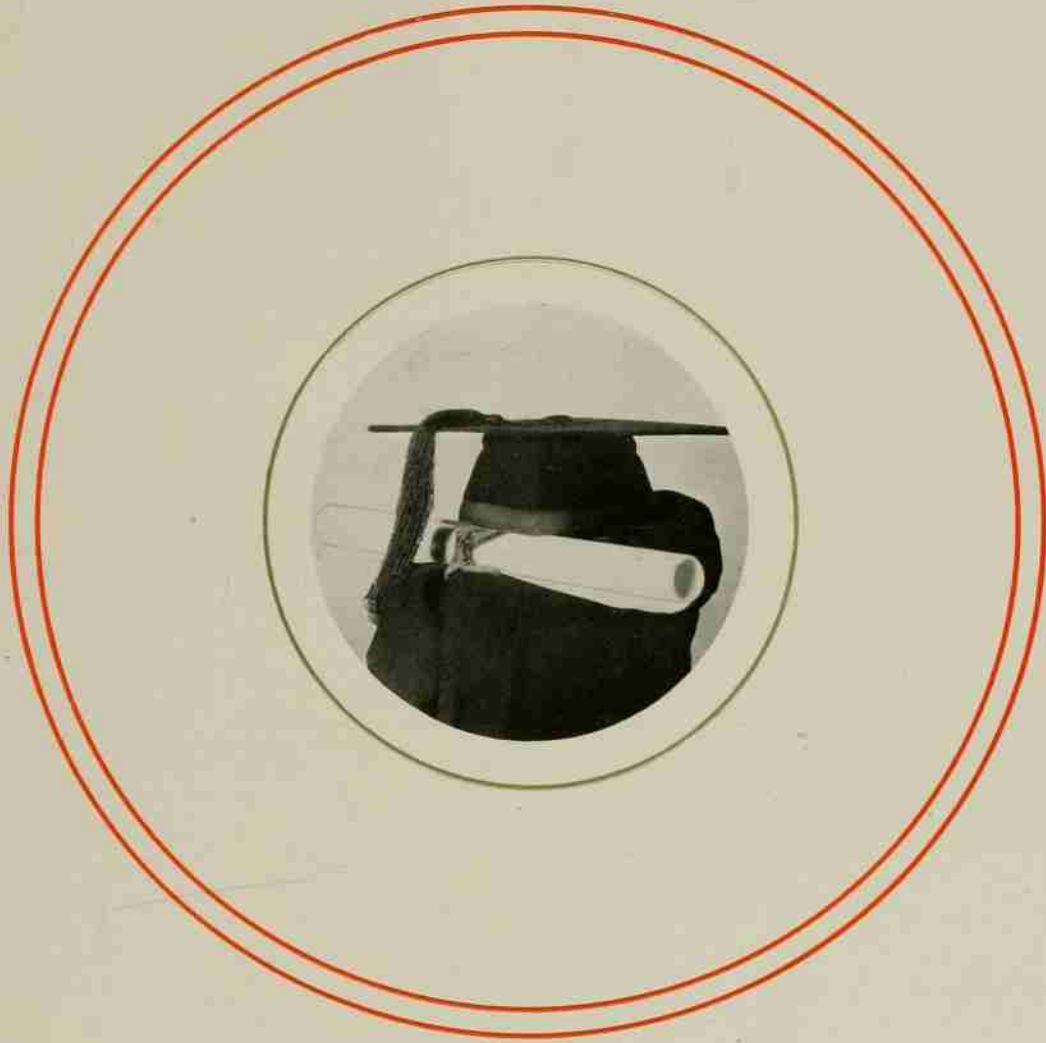

BASEBALL—During the season of 1933 the Sigma Phi Epsilon Fraternity and second floor of 1911 Dormitory were victors of the diamond.

TENNIS—Court champions of 1933 were the Pi Kappa Alpha's and third floor of 1911 Dormitory.

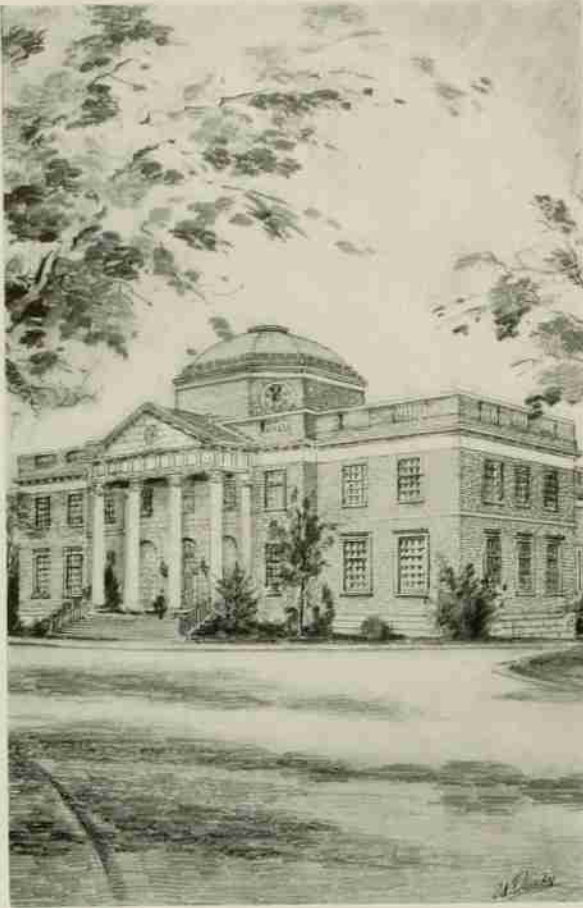

TRACK—The Pi Kappa Alpha Fraternity and third floor of 1911 Dormitory were champions in track.

At the close of the 1932-33 season the Sigma Nu Fraternity led the Pi Kappa Alpha's by a bare six-point margin, while the second floor of 1911 Dormitory Club led the Dormitory League with a score of 1317 points. The second floor of Seventh Dormitory came next with a score of 981 points.

BOOK SIX

D. H. HILL LIBRARY

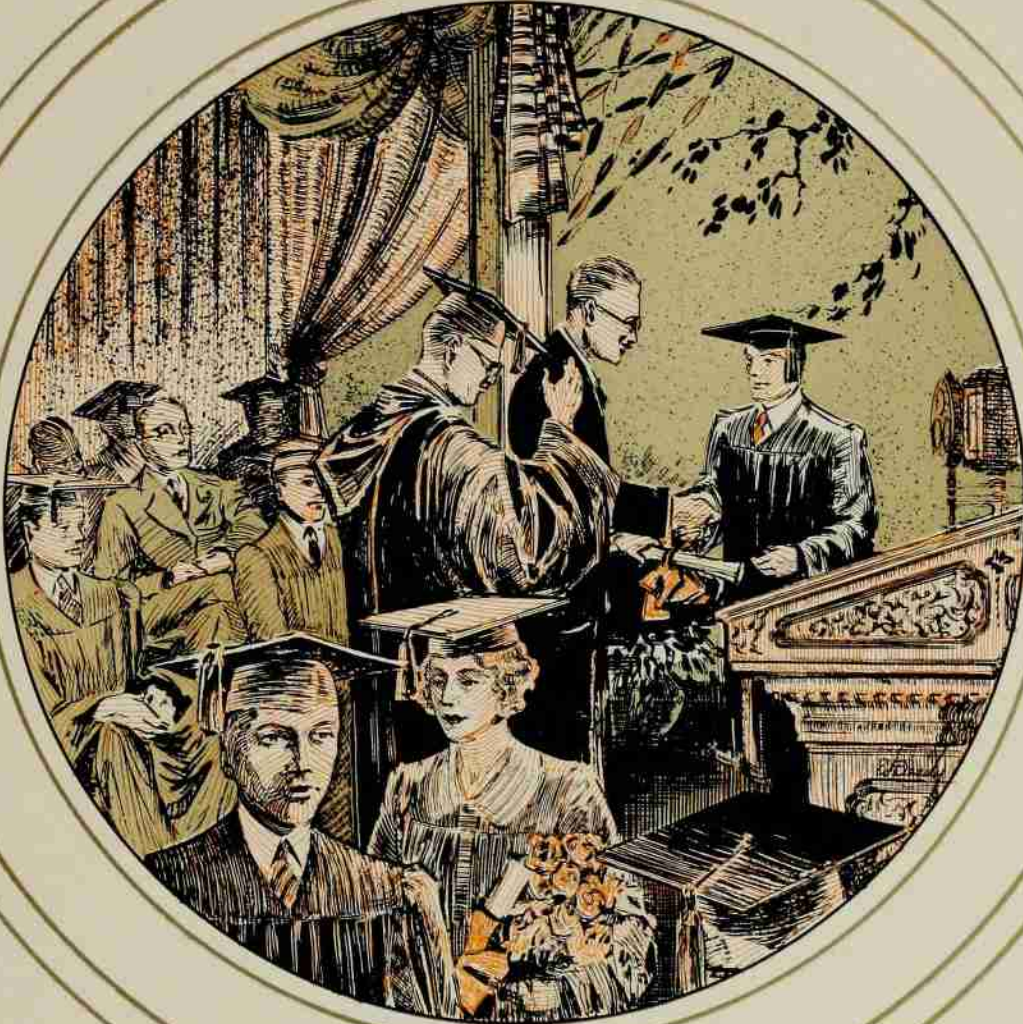

THE GRADUATE SCHOOL

THE purpose of the Graduate School: To formulate and develop graduate study and research in the fields primarily of Agriculture, Engineering, and Textile Manufacturing, and in the business, the basic sciences and the training of teachers related to these subjects. The State of North Carolina at present holds a definite prestige among the states of the Southeast in agricultural production and in certain types of engineering and manufacturing; and the need is apparent for a strong Graduate School, based on the best undergraduate instruction obtainable in these fields. The Graduate School therefore offers training based on the same sound standards, principles, and ideals of the undergraduate school.

ROBERT FRANKLIN POOLE, *Chairman of the Committee on Graduate Instruction*

O R G A N I Z

A T I O N S

MILITARY

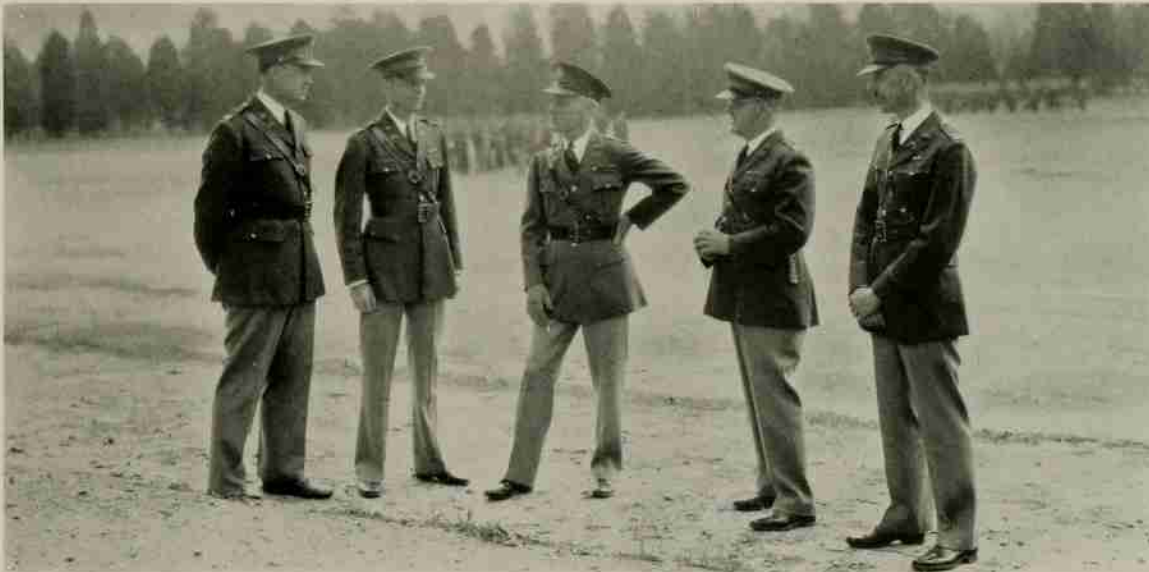

One of the main divisions of the college is the Military Department. The organization of students in this department is known as the Reserve Officers Training Corps. It is under the direction of the Federal Government which furnishes officers of the regular army as instructors, and it assists materially by supplying equipment and uniforms without cost to the students. Instruction in military science and tactics is divided into two phases. The first phase consists of a basic course in military science and tactics. All students who are physically fit are required to take the course for the freshman and sophomore years. The second phase is an advanced course

for which a limited number of sophomores are selected. This course is given during the junior and senior years. Upon completion of this course, the student upon application is given a commission as a second lieutenant in the Reserve Corps of the army.

North Carolina State College not only has one of the largest Reserve Officers Training Corps units in the Fourth Corps Area comprising the eight states of North Carolina, South Carolina, Georgia, Florida, Alabama, Tennessee, Mississippi and Louisiana, but also has one of the best R. O. T. C. units in the South. It is organized as an infantry regiment of three battalions with an excellent regimental band of sixty members.

The military training is conducted as to emphasize the fundamental importance of courtesy, honorable conduct, good sportsmanship, and a spirit of fair play. Neatness of clothing and personal appearance of the R. O. T. C. students is insisted upon, and students are required to be punctual and regular in attendance in classes, drills, and other military duties.

The good influences and contributions of the military department to this college are far too numerous to mention here. This department is indeed a great asset to the college and to its students.

MAJOR C. D. KUTSCHINSKI
Director of Music

DEPARTMENT OF MUSIC

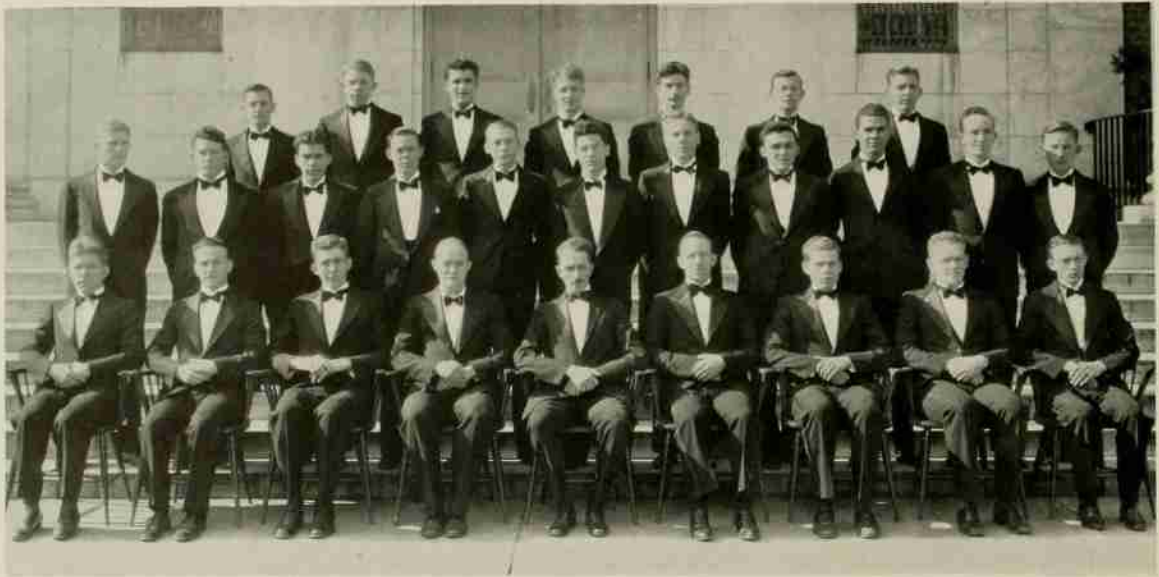

Last September the music department began the year under the direction of Major C. D. Kutschinski, formerly of Winston-Salem, who succeeded Major Price, better known about the campus as "Daddy." Major Kutschinski readily organized the program for the year, and the band made its first appearance on the "State Fair Boosters" tour.

This department offers both classical and popular numbers to the students and to the citizens of the state. Many concerts are offered on Sunday afternoons by the Concert Orchestra which is composed of Paul M. Cox, F. L. Garrison, Jr., E. G. Jones, R. Phillips, W. L. Sumner, J. Womble, B. Sisell, W. Wallace, K. Brockwell, D. Perry, W. F. Corbett, J. C. Geddie, R. Bourne, T. S. Teague, L. N. Brown, C. D. Thomas and G. T. Allison.

The famous Red Coat Band appears a number of times during the year, presenting classical numbers and marches. This organization is composed of students who are interested in instrumental music; namely, W. L. White, W. F. Corbett, J. W. Ogletree, H. Dave, R. C. Childs, H. C. Chambers, A. S. Cherevko, B. B. Culp, E. M. Geddie, J. C. Geddie, J. L. McLean, K. R. Maloon, F. S. Martin, F. D. Newcomb, W. M. Porter, J. L. Stonebanks, A. J. Templeton, J. R. Weatherington, H. B. Whitaker, A. W. White, F. C. Williams, J. R. Bolling, R. G. Bourne, J. M. Gregory, I. A. Palm, A. Griffin, D. F. Burns, L. N. Brown, K. W. Clark, W. E. Cline, W. L. Curry, F. G. Gore, C. R. Goodwin, T. S. Teague, C. E. Viverette, J. M. Wells, C. W. Blackwood, L. L. Cole, H. C. Hill, H. P. Mullen, R. P. Hood, C. E. Hubbard, W. C. Lewis, J. F. Nycum, J. M. Poyner, P. B. Scales.

BAND

GLEE CLUB

E. D. Thomas, E. C. Treverton, C. S. Groves, S. A. Ward, K. H. Brockwell, M. M. Dole, J. L. Padgett, J. R. Womble, G. T. Allison, E. F. Anderson, J. A. Feather, R. S. Poole and I. M. Porter.

The Glee Club and the Orchestra present enjoyable programs on many different occasions; and again this year they obtained the title of "The North Carolina Entertainers." The members of the Glee Club are: W. E. Boykin, P. M. Cox, E. R. Dowdy, L. G. Gerrard, E. G. Jones, F. S. Kingsbury, J. W. Memmert, J. G. White, J. L. Padgett, B. L. Bass, L. R. Burgess, C. W. Blackwood, J. L. Downing, M. T. Howell, J. B. Hunt, J. H. Payne, D. M. Parker, W. V. Tarkenton, L. W. Troxler, S. R. Watson, M. F. Browne, H. C. Chambers, I. Duncan, F. E. Elwell, A. Epstein, E. F. Grodecki, R. H. Nickau, W. Schwartz, C. I. Simms, W. H. Webb, J. C. Geddie, W. Wallace, B. Young, A. F. Hoffman, W. A. Corpening, W. H. Darst, Jr., M. H. Gatlin, E. M. Geddie, R. H. McMillan, S. G. Riggs, B. C. Sisell, J. Weitz, B. L. Ward, J. R. Womble, F. M. Sinclair, C. F. Lane, E. M. Vaughan and C. A. Redmon.

The organization which is small in numbers but large in entertainment ability is the String Quartet. It is very popular in the state and offers classical numbers in all presentations. The members are E. G. Jones, P. M. Cox, B. Sisell and W. Wallace.

Some years past a need for a controlling body of the major campus publications was felt—a body to guide the destinies and handle in an efficient manner the policies of THE AGROMECK, *The Technician*, and *The Wataugan*. For this reason the Board of Publications was organized. Its membership consists of a faculty chairman, faculty editorial advisor, faculty financial advisor, secretary and advisor, the editors and business managers of the three major publications, and a Student Council representative. The voting members are the editors, the Student Council representative, and the advisors. In the immediate future changes in the constitution of the Board and its operation are likely so that even more efficient handling of student publications may be had.

Here 'tis, friends! The 1934 AGROMECK, which has been the subject of more speculation than any other volume in recent years (if word, reports, and rumors we have heard are of any reliability), has now made its appearance and is in your hands. Between these covers are the results of our efforts to present you with something entirely different and new, something better, something larger (not only in size but in scope), something really attractive, something truly reminiscent of your life at State, and something of which both you and we may be justly proud. We have shot our bolt! Or, we have laid our case before you—the jury. Has the jury reached a verdict, Mr. Student Body Foreman? If we are convicted of having, to some measure, produced for you the "something different" for which you have been asking, we shall take issue with society by holding that "Crime (this type of conviction, anyway) *does* pay"—for your satisfaction will be our satisfaction.

Though to attempt what we have had necessitated greater expenditure of effort on the part of all connected with the book, our relationships and work have been pleasant indeed. We have had no similar book of the past to use as a guide, because our idea at the outset was to follow none. In that way we have hoped to be truly different.

THE AGROMECK has been taken to the larger size and the number of pages increased because we have a desire to see State keep step with other schools of similar reputation. A detailed account would be necessary, however, to explain the changes incorporated and the motives behind them, but space does not permit that; so, we are forced to call a halt.

We hope you like it!

—THE EDITOR.

The economic depression, which, as we all realize, has continued at State throughout the past school year, has to a great extent reduced the average individual's assets. However, instead of being discouraged by this grave situation the business staff turned seeming defeat into victory by developing and enacting new financial policies. They have made it possible for the students of State College to be represented by a yearbook which compares favorably with the best.

One policy the business staff is proud to have enacted is the uniform picture fee. The result of this policy is clearly illustrated by the large percentage of the student body which is represented pictorially in this volume.

It has been necessary to develop new and expand old sources of revenue to meet the additional expense involved in bringing about the many improvements of the book. The business staff has worked many extra hours to finance these improvements. From a financial standpoint the 1934 AGROMECK has been successful. We are naturally proud of this achievement; however we have been mutually interested in making possible a volume which you will feel proud to talk about. We hope we have succeeded here also.

REPORTERS

CHARLES MATTHEWS	BILL BRASWELL	C. A. RYTHER	J. D. PENDLETON
F. C. GORE	W. E. KISTLER	HALL MORRISON	H. S. FALLS

Friday morning . . . a student picks up *The Technician*, scans the headlines, reads a few stories, and turns to the cartoon to figure out what it's all about without referring to the editorial which relates to it. He then looks through "Here and There," by Ford, to get the "low-down" on the latest "dirt," and then goes on to the sports page. If he then finds time to study the paper further, he reads the editorials and either agrees or disagrees with the writer, perhaps later to bring his arguments to the editor who will most probably be busy at that time editorializing anew in preparation for the publication of the next week's *Technician*. This is the life of *The Technician* in the average reader's hands.

Tuesday morning, assignments are posted; Tuesday night, in the newspaper domicile in Holladay Hall, *Technician* staff members discuss these assignments, and editorials are planned. Wednesday, typewriters click in earnest, the cartoon is drawn, and reporters and editors work late to complete stories gotten during the day. Thursday a general clean-up is made of news about the campus, the "lay-out" of the sheet is drawn up and corrected by the Managing Editor. That night, work on the blade is completed at the printing shop, type is set, and proof sheets corrected. If news stories have been abundant during the week, the Editor, the Managing Editor, the Sports Editor, and a few loyal reporters go home Thursday night to look askance at blurred textbooks. However, if empty spaces in the forms yawn for more type, the group may often have the privilege of seeing the sun rising upon its return, after an editorial "bull session" in a restaurant, on the way. Here is our acquaintance with *The Technician*, and this is what we of the State College "fourth estate" will always fondly remember.

Following is a sample of what happens often in every week of the college year, in securing advertising, which is the main support of *The Technician*:

A member of the Business Staff goes in to see a prospective advertiser and here is a probable conversation, which is the main support of *The Technician*.

"I know what you are here for; you are trying to get advertising. I'll tell you now that I won't advertise. Business is bad and I haven't the money to spend. However, if you can give me a convincing argument, I may take a small ad."

"Mr. Smith, I would not come down here to see you and try to sell you advertising if I honestly thought that you would be wasting your money. There is a buying market at the college of some 1,800 students and faculty. *The Technician* reaches all of them."

"Granted that the students read *The Technician*, and the market at State College is good. Do not enough of these students read the daily papers to make it unnecessary for me to advertise additionally?"

"I will wager to say that a very small percentage of the students read the daily papers, and *The Technician* is the only newspaper advertising medium through which local merchants can reach the entire student body. *The Technician* is like a small town newspaper because it carries chiefly items that pertain directly to that group, regardless of whether they are interested in news outside the campus."

"Will the students read advertising as well as news in *The Technician*?"

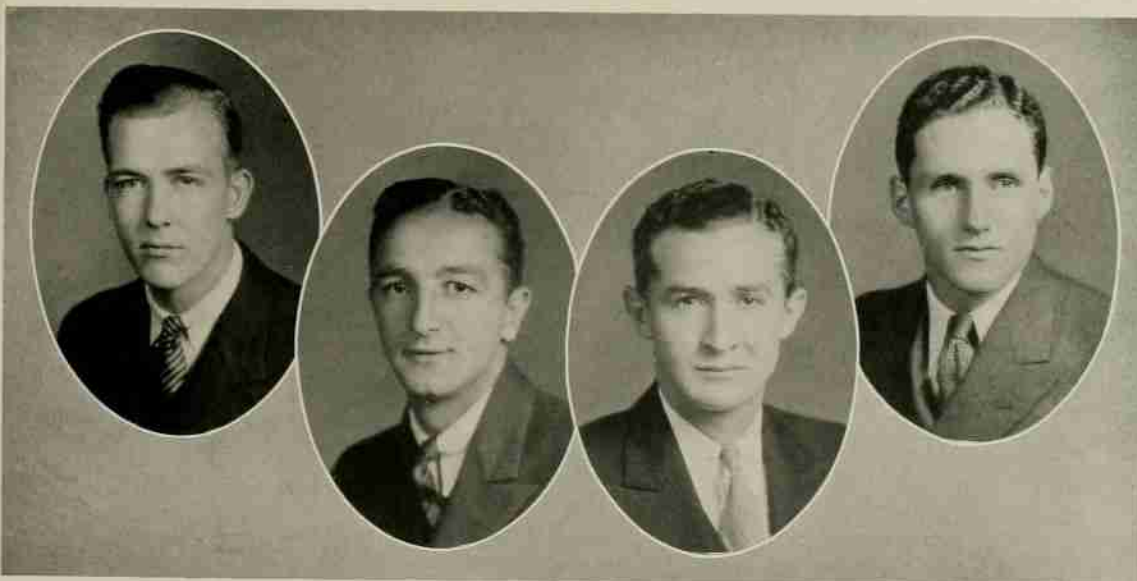

"Yes, that is, if the copy is well presented and the proper amount of space is given to your place of business."

"Well, I can't write advertising copy."

"That is just another thing that I am here for—to write the ad for you, so that you may get the most for your dollars spent with *The Technician*."

"All right. You have sold me your idea; give me about twelve inches of space for the next issue."

And so the member of the Business Staff has won his argument.

E. J. LOWRANCE	<i>Business Manager</i>
C. H. KERR	<i>Assistant Business Manager</i>
L. A. MARTIN	<i>Assistant Business Manager</i>

The past year, the ninth since the origination of *The Wataugan*, was one characterized by a distinctly new form and theme. A literary magazine until five years ago, *The Wataugan* has gradually evolved into a humorous publication.

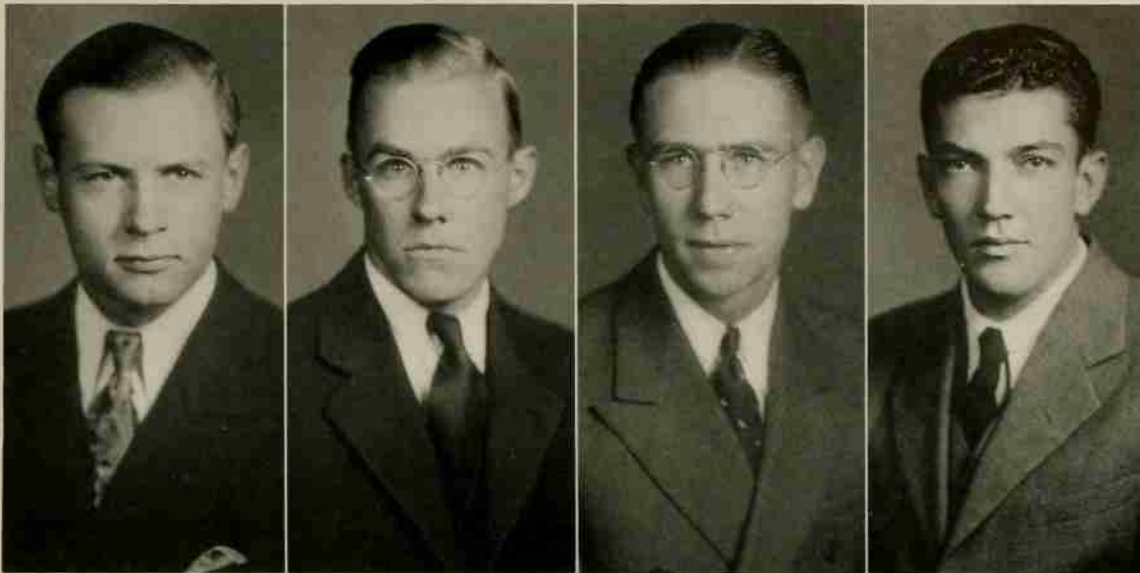

Because the staff believed that a purely literary magazine could not begin to reach the real spirit of the student body, humor was introduced in 1929. Today, because the humorous magazines are the most widely read of all college publications, *The Wataugan* has donned the jester's garb and parades in motley.

We, the editorial staff of the 1933-'34 have tried to keep the contents in time with the ever-changing rhythm of our college. The old idea that the number of contributors determined the worth of the publication has been relegated to a place of minor importance. We have tried to devote our energy toward watching the humorous side of our campus life and portraying it in a style of our own. We believe that we have given our readers a better *Wataugan* than they have ever had before. It is still your magazine, but it is yours because we have given it to you. In a way, it is a portrait of ourselves. The pleasure, the satisfaction, and the worries have been ours. We thank the student body for the privilege of editing *The Wataugan*.

Even more basic than the content of the magazine is the business of keeping it sound financially. To the business staff goes the credit for making the whole magazine possible.

They have labored unceasingly to build a spirit of goodwill between our advertisers and *The Wataugan*. They have seen to its distribution. Their work has been quietly and efficiently done. The business staff merits our sincere thanks and appreciation, tempered with something of admiration for a job well done.

Criticism has been profuse, but it helped greatly to make us see our faults which were many and varied. We could see the improvement in each issue. We wanted to publish the best magazine in the land, but, if we didn't, we can still say that we did our very best, which is, after all, the limit of human capacity.

OLAF WAKEFIELD	<i>Advertising Manager</i>

The N. C. State *Agriculturist* is a monthly magazine published during the school year. The magazine is published by the students in the Agriculture School, and financed by them with the aid of advertisers and subscribers.

The *Agriculturist* was founded in 1923 and until 1927 was financed solely by subscriptions and advertisements. During the remaining four years it was discontinued because of insufficient advertising to help finance the magazine. In 1930 *The Agriculturist* was started again. The agricultural students voted a special fee on themselves to support the magazine, and since then it has been making great progress.

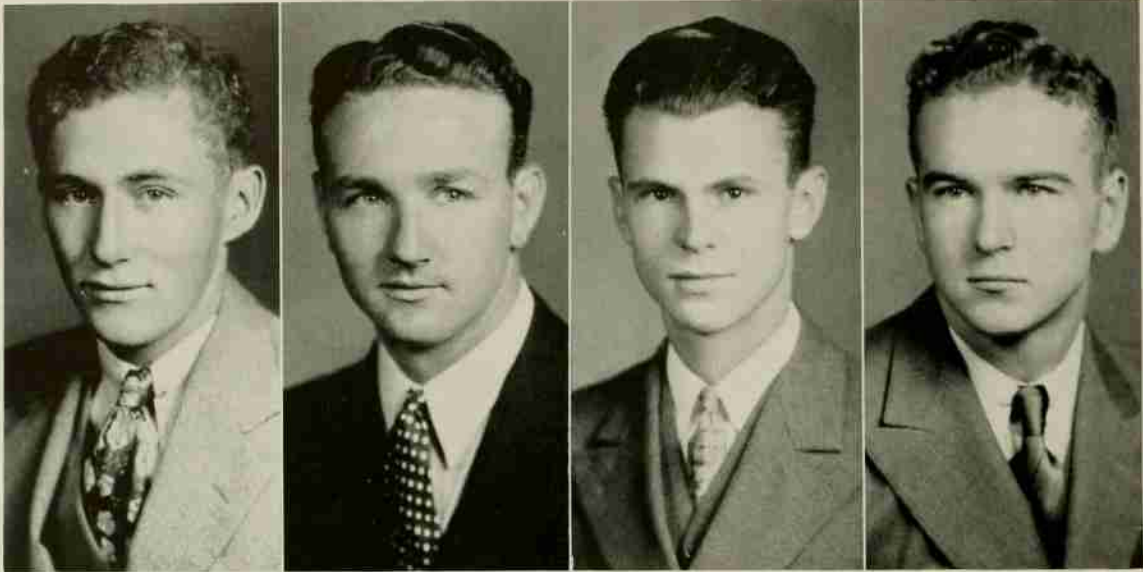

The *Agriculturist* gives those students interested in agricultural journalism and news writing an opportunity to write news, edit and manage a magazine. It encourages students to submit a large number of feature articles, news stories, poems, and jokes with the idea that the editors will have a large number to select from and thus improve the magazine. The *Agriculturist* gives the students of the Agricultural School an outlet for opinion and encourages articles on timely subjects that will be helpful as well as interesting to the farmers and the extension workers of the state.

The purpose of *The Agriculturist* is to establish closer contact with the students as well as the faculty on the campus. It keeps the extension workers and those who have gone out from the college informed as to what the Agricultural School and its students are doing.

This year, in order to encourage more writing, the staff announced a "Best Article Contest." The winner will receive a distinctive gold medal, appropriately engraved.

The *Agriculturist* is very widely circulated. Each agricultural student receives a copy as well as the home of each agricultural student. Each vocational teacher, county agent, and the larger city high schools receive a copy. Exchange is carried on with over thirty agricultural colleges in the United States and Canada and all agricultural colleges in the country are familiar with the publication. On several occasions issues have been sent to England.

The *Agriculturist* has as its object to keep the agricultural population of the state informed as to what the college and the agricultural students are doing through their organizations such as the Students' Agricultural Fair, the Agricultural Club, and the other numerous student activities including the Crops, Livestock, and Poultry Judging Teams. *The Agriculturist* strives to keep the people of the state in closer contact with the college and in this way serves as a splendid opportunity to advertise our college. Through this medium the people will become more appreciative of the college and especially of the work and activities of the agricultural students.

STUDENT GOVERNMENT

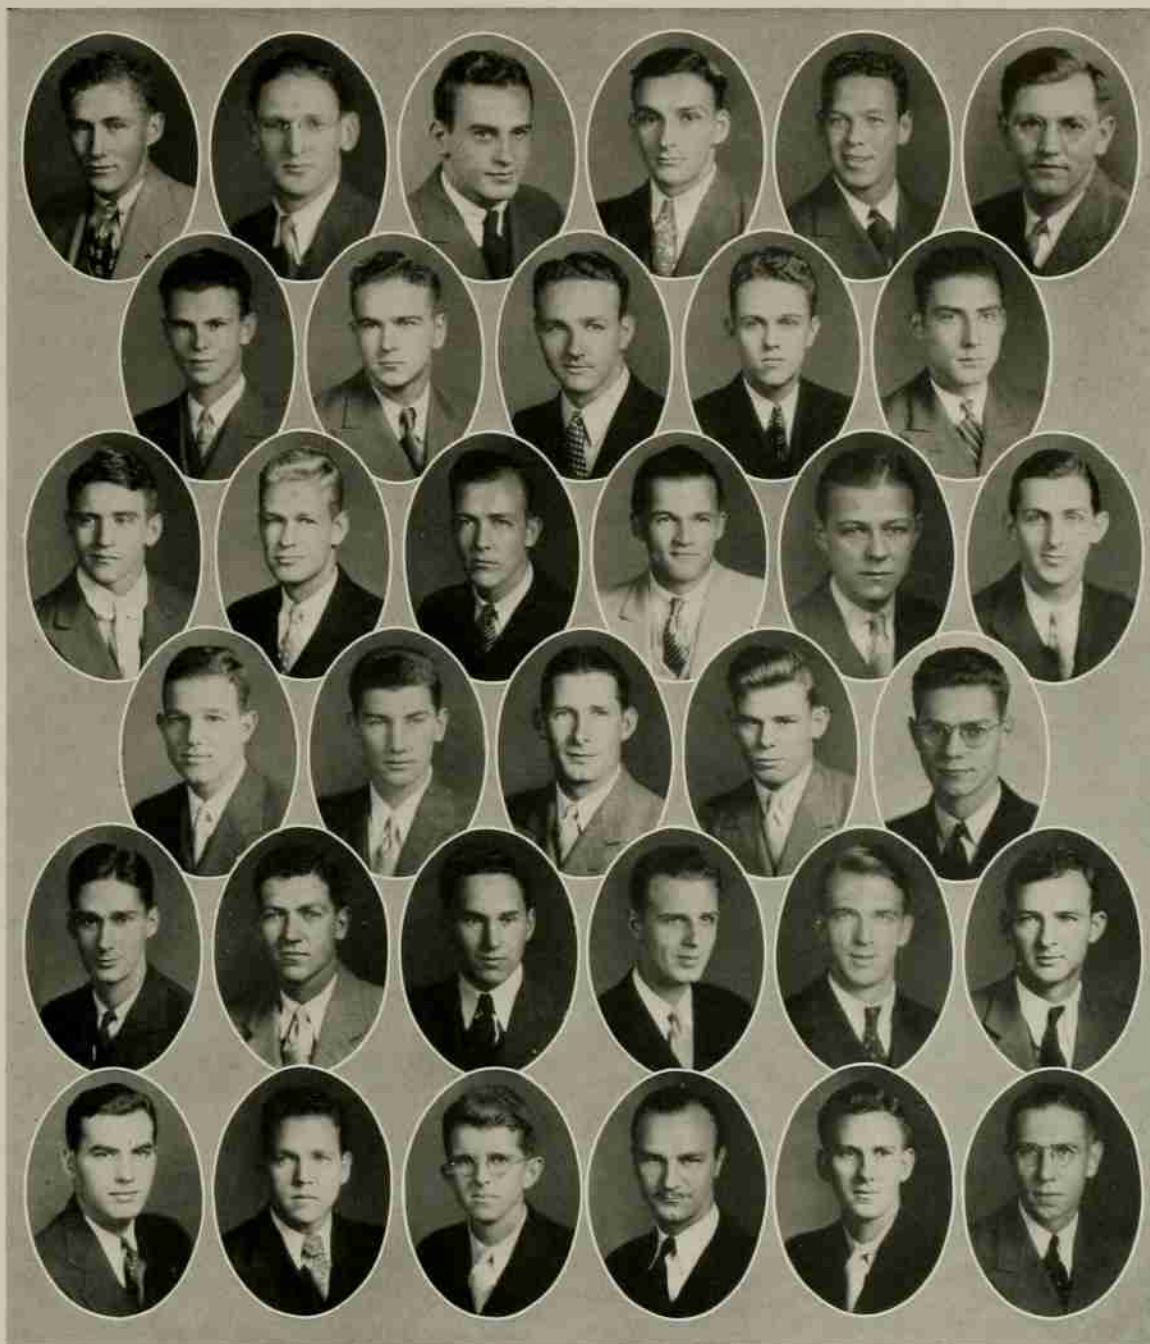

It is the purpose of the Student Government to handle all matters of student conduct, honor, and general student interest; and to promote, in campus life, self-control, personal responsibility, and loyalty to the college and student body. Every duly registered student of North Carolina State College automatically becomes a member of the Student Government and is subject to the jurisdiction of its legislative branches. Each undergraduate at the time of his enrollment must sign a pledge accepting his part in Student Government and pledging his support to the cause.

The articles of the Student Government had their origin at this college on October 4, 1921. Since that time revision has taken place, but the principle of student participation remains unchanged.

The governing body of Student Government consists of the House and the Student Council. The House is the legislative division. It is composed of members of the Student Council, and, another group elected as follows: two members from each school selected from the Freshman class. There are twenty-one members elected from the Sophomore, Junior and Senior classes. There are apportioned so that one-third shall come from each class. The executive division is known as the Student Council and is composed of sixteen members elected annually. There are three members from each school, with one member from the Freshman class at large, elected at the end of the second term.

The basic principle of Student Government is the Honor System. Honor is not born in man. It is something which we must acquire gradually through the careful process of education and correct environment. Since we are now in the last period of our education, this honor should have developed to a sufficient degree that it will accord perfect functioning of our Student Government.

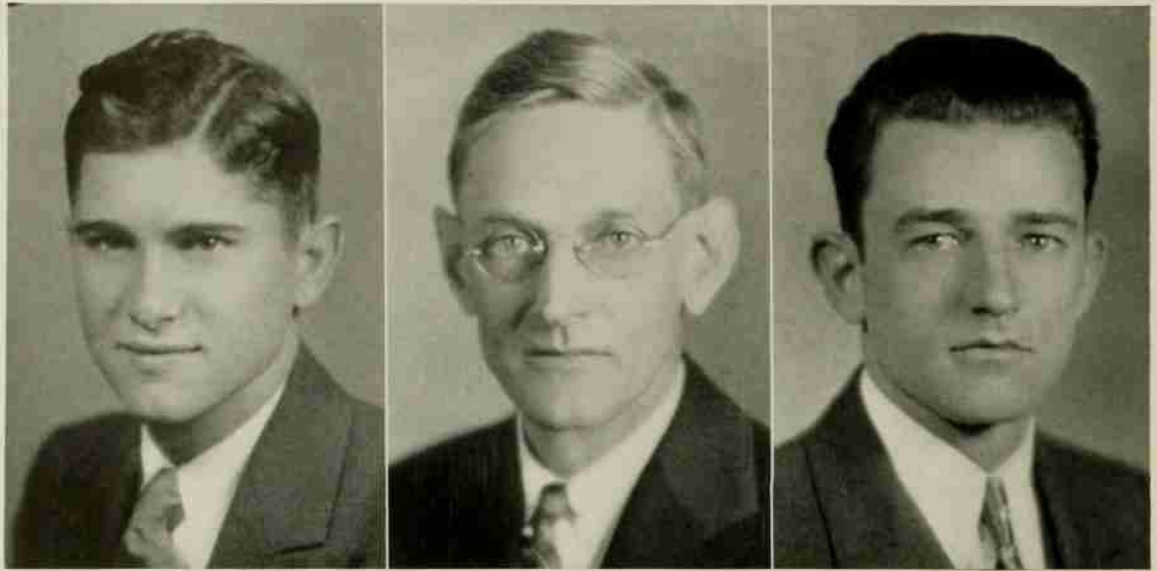

The Student Government is valuable to the student in that it develops a sense of responsibility in the student and trains the student along the lines which are productive of good citizenry.

The Young Men's Christian Association is a fellowship whose primary purpose is to help the student to discover and to accept the full meaning of Christian disciplenship for their own lives and for society.

The first Y. M. C. A. was organized in London, England, in 1844 by Sir George Williams. The first Y. M. C. A. in the United States was organized in 1850, and the first student branch was organized at the University of Virginia in 1857. The association at North Carolina State College was organized in 1890, one year after the founding of the college. There are 800 students' associations in the United States, with an approximate membership of 800,000. The Y. M. C. A. here is affiliated with other associations in the United States and Canada.

The work of the Y. M. C. A. at North Carolina State is under the direction of a general secretary, who devotes his full time to the association. The general secretary is assisted in his work by two full-time assistants and a self-perpetuating board of directions, composed of nine men, not more than three of whom are members of the college faculty. The officers of the organization are filled by students. The program of work is outlined by a cabinet composed of Juniors and Seniors. Another division of the Y. M. C. A. is the Council, whose membership is made up of the student body.

The Y. M. C. A. is housed in a fine, well-equipped building which was made possible by a large contribution of John D. Rockefeller and smaller gifts from many other friends. This building is the religious and social center of the campus and, in addition, has recreational features.

The Y. M. C. A. organization is unique in that its membership is made up of all students and members of the faculty. The privileges of the building are open to all.

The good work of this organization is most commendable and its effects are far reaching, helping the student not only for a short time during his college career, but helping him to find happiness during his later life, due to a clean and wholesome character developed while in college.

The American Society of Mechanical Engineers was organized in 1880 and has a membership of over 20,000. There are seventy-two local sections in forty states and in Canada.

The A. S. M. E. is divided into sixteen professional divisions: aeronautics, applied mechanics, hydraulics, iron and steel, fuels, machine shop practice, management, materials handling, national defense, oil and gas power, petroleum, printing industries, power, railroads, textiles and wood industries. The society covers a very large area and enables members to become well acquainted with branches of engineering other than their division. The society has four publications: The Transaction, Mechanical Engineering, Mechanical Catalogue, and Record and Index. The society also maintains a 175,000-volume library which serves members through a new book loaning system by mail when visits in person prove inconvenient.

The student branches of the American Society of Mechanical Engineers were authorized in 1908. The number of branches has grown until there are now 111 student branches with 3,500 members in forty-six states.

The North Carolina State College student branch includes men from the sophomore, junior and senior classes in mechanical engineering. The elections are held semi-annually, one in each of the first and third terms. A student member of the A. S. M. E. is entitled to many privileges including full participation in all activities and privileges of the student branch. A gold pin the first year of student membership, a membership card each year, *Mechanical Engineering*, the official journal of the society, use of the engineering society's library, use of the society's employment service for summer positions and for permanent positions upon graduation, privilege of competing for cash prizes and awards, and use of the student loan fund.

The N. C. State student branch holds its meetings twice each month. The meetings consist, in addition to the regular business, of talks on technical subjects by students, faculty, and outside engineers, or moving pictures of engineering projects. One of the most valuable advantages of membership is that it aids to develop initiative and ability to express ideas, prerequisite of a good executive.

	K. M. Keeney	

This organization, the national technical society of the ceramic industries, was organized in 1899 by six undergraduates in the first department of Ceramic Engineering in the world, at Ohio State University. Having no competition from other technical societies in the ceramic field it has shown a constant and healthy growth and has become one of the outstanding technical organizations of the country.

Having been organized by students and faculty members it was one of the earliest of the engineering societies to establish student branches, one being organized at Ohio State when it was the only department of its kind in existence.

Student branches are now established at practically all of the departments of Ceramic Engineering throughout the country. The branch at North Carolina State College was established in 1925 with the following students as charter members:

F. S. Hardee, president; J. E. Frink, vice-president; P. E. Trevathan, secretary-treasurer; and J. A. Boren, R. B. Stamey, L. L. Chesson, L. L. Stanford, R. L. Stuart and L. M. Stuart. Professor A. F. Greaves-Walker, then national president of the society, was appointed councillor and has held that office ever since.

Freshmen are admitted to the student branch as associate members and become active upon serving as such for one year.

The American Ceramic Society issues monthly a journal and a bulletin. In recent years a number of contributions have been made to these publications by former members of the State College chapter.

Excellent programs are provided for the monthly meetings of the Chapter and the members make the program for the annual Engineers' Fair one of its major interests.

Each year the chapter sends delegates to the annual meeting of the parent society who take an active part in the program provided for the delegates from the student branches.

In the past eight years the State College branch has provided two presidents of the Engineers' Council, A. McKinley Greaves-Walker, '29, and George J. Grimes, '33. It has in only one of these eight years failed to provide at least one major officer for the Council.

The American Institute of Electrical Engineers was founded by a group of telephone and telegraph engineers in 1884, so the institute is celebrating its fiftieth anniversary this year.

The purpose of the society is to promote the advancement of the theory and practice of electrical engineering and of the allied arts and sciences, and the maintenance of a high professional standard among its members.

A need was felt among the students of Electrical Engineering for some way to bind themselves closer together; therefore the student branch of the American Institute of Electrical Engineers was formed. The North Carolina State College branch holds its meetings bi-monthly and at these meetings is enjoyed the privilege of presenting papers and talks on various electrical subjects. Quite frequently the chapter invites to its meetings visiting engineers, who tell many things about the electrical industry that would never be found in study of texts.

The year 1933-34 has been a big year for the local chapter. It now has 44 members, all of whom are active. From the financial viewpoint, our organization is in the best condition that it has known in four or five years.

The local chapter was host to the seventh Students Activities Conference of the Southern District which was held January 11, 12 and 13. There were one hundred twenty-two student representatives here from seventeen other southern colleges. Colleges in Kentucky, Tennessee, North Carolina, South Carolina, Georgia, Florida, Virginia, Alabama, and Mississippi, sent students to the convention. A theater party was given for the visitors on Thursday evening, and all day Friday was devoted to business and presentation of some very interesting papers. A banquet was given at the Carolina Pines Club on Friday evening with N. M. York as the toastmaster. The convention ended Saturday with inspection trips to Duke University and University of North Carolina.

The North Carolina section of the American Institute of Electrical Engineers met here Friday, April 13, at which time the outstanding electrical engineers of the state were present.

The North Carolina State College branch this year has been under the able leadership of: Professor R. S. Fouraker, councilor; N. M. York, chairman; C. J. Brown, vice-chairman; Myron Reeves, secretary-treasurer. The local branch assumes the role of leadership in directing activities in the Electrical Engineering Department during the Engineers' Fair each year. The total enrollment of the American Institute of Electrical Engineers is approximately 20,000.

In the final sense, chemical engineering may be defined as the art of applying the fundamental principles of chemistry and physics, mathematics, general engineering and special chemical engineering principles to any given process for the production of materials on a large scale which will be a benefit to mankind. The fitness of the chemical engineer to meet this definition depends upon his knowledge of the principles plus his ability to combine and utilize them. It might be said that in the final analysis the success of a chemical engineer depends on his knowledge of how to produce a new and useful product for which there is a market or upon his knowledge of how to produce a used product of a better quality in a cheaper way.

The chemical engineer touches the lives of every one of us in our necessities and luxuries. The clothes we wear, the food we eat, the cars we drive, the "movies" we enjoy—all of these and many others are dependent on the skill of the chemical engineer either for their production, or for their production at a price within our reach.

The Chemical Engineering Department was founded at State College by authority of the Board of Trustees eight years ago under the direction of Dr. E. E. Randolph. It occupied at that time a room in the corner of Winston Hall on the third floor. This included classroom, office, and laboratory space. There was only one member of its faculty. The enrollment was twenty-two men. Today the department is one of the major engineering departments on the campus and ranks high among the engineering schools of the south. It has a staff of three teachers, and an enrollment of one hundred eighty. Its quarters are situated in Winston Hall and consists of seven laboratories equipped for various types of special technical instruction, two stockrooms, two classrooms and offices. Nearly all the graduates of the department have been placed in large and important industries. At present, with few exceptions, every graduate is working in his chosen profession.

The Student Chapter of the American Institute of Chemical Engineers takes an active part in the Chemical Engineering Department. This society has charge of the preparation of the float and exhibits for the annual Engineers' Fair. Meetings are held twice a month for the study of Chemical Engineering subjects and problems.

The North Carolina State Forestry Club was organized with the assistance of Dr. J. V. Hofmann in the fall of 1929. The initial membership was composed, to a large extent, of former Mt. Alto students who had followed Dr. Hofmann to State College when he assumed charge of the new department. The students occupied two adjacent houses on Clark Avenue, and for the first year, 1929-30, weekly meetings of the Forestry Club were held at home. The following year, however, the houses broke up, and the students moved to dormitories, fraternity houses, and private residences. Ricks Hall was chosen as the new meeting place. Finally in the Fall of 1933 this was changed to Patterson Hall, where meetings are being held at present.

The purpose of the Forestry Club is to promote the interests of the profession, provide an outlet for topical discussion in this field, and to bring the students in closer personal contact with each other. Programs are given alternately by the different classes and consist generally of talks by leaders in forestry or closely related fields; the presentation of subjects of common interest not found in the regular curricula; discussion of topics; and some form of entertainment, musical, humorous, or otherwise. The Club takes an active part in intramural sports and sponsors general college activities.

During the fall of 1932 the first "Rolero" was held by the Forestry Club, and it was such a success that it was voted an annual affair. It is a day-long event during which members of the separate classes vie with each other in various contests ranging from races and tree climbing to the more delicate arts, such as tobacco spitting and the crowning of the biggest bar. The winning class receives a cake and a plaque engraved with their class numerals. It is the custom to hold a dance annually during the winter or spring term.

This year saw several new features added to the Club's activities: first, the holding of one meeting each month out-of-doors; second, the publication of a forestry annual by the Club, similar to that published at other forestry schools.

All students in the forestry school are eligible for membership. Meetings are held on Thursday evenings at seven o'clock.

Soon after the founding of N. C. State College in 1889, a need was felt for some form of recognition for the men who participated in the three sports which then existed. A monogram was decided on. Hence, an appropriate Monogram for N. C. State was designed. Any athlete who's ability enabled him to play on the team of one or more of the major sports was eligible to wear the monogram.

In 1918, some of the athletes and wearers of the monogram founded what they called the Monogram Club. It was an organization which included within its membership the men who wore the monogram of N. C. State. When the club was first organized there were no set rules, neither was there a constitution. Seemingly, the club had no purpose other than to enroll on its books the names of the athletes. Unfortunately, the original organization did not exist for a very long time. Interest was lost and revived many times during the ten years following the founding of the club in 1918, and many Monogram Clubs were formed at State during that period.

During the year 1931-'32 "Tweed" Floyd, an all around athlete and captain of the Track Team, organized the present Monogram Club. It was through "Tweed's" efforts, as President of the club, with the help and co-operation of Dr. Sermon, that the present club received the firm foundation which insured its success. Floyd and Dr. Sermon succeeded that year in securing a club room in the Frank Thompson Gymnasium. Also, they succeeded in securing furniture, pictures, cups, and many other things which go to make a club room attractive. A constitution was written, and a ritual became a permanent part of the club.

In recent years the Monogram Club has included within its membership the students who win numerals in the minor sports. As a result, the membership has greatly increased. And along with this increase in membership, an increase in activities of all kinds. Today, the Monogram Club is one of the most active organizations on the campus.

During the year 1932-33 the Monogram Club a dance honoring the sports captains of the "Big Five" schools. The dance was a great success in every way. As a result, the dance has become an annual affair. This is only one of the activities into which the club has entered. Their activities are very numerous. Too numerous for us to enumerate.

Keramos, the national professional Ceramic Engineering Fraternity was organized in 1902 at Ohio State University. The original name of the organization was Beta Pi Kappa, the change being made in 1932. It is one of the oldest professional engineering fraternities in existence.

While the organization is strictly professional in nature, the requirements for membership are as high as most of the honorary societies and it permits the wearing of a key by honor students.

Membership is offered only to students in a department of Ceramics or Ceramic Engineering who have a good scholarship record, are of good character and give promise of making good in industry. Students are eligible in their junior year except that the two outstanding members of the sophomore class may be elected at the end of their second year.

The organization holds biennial convocations in the even years. Professor A. F. Greaves-Walker who was a charter member of the original chapter and who organized the North Carolina Chapter has held one of the national offices, including the presidency, for the past eight years.

The North Carolina Chapter was established March 31, 1925, with the following charter members: R. B. Stamey, president; J. A. Boren, vice-president; L. L. Chesson, secretary; J. H. Frink, treasurer and F. S. Hardee, herald.

The chapter has taken a prominent part in the activities of the department and has stood solidly behind the honor system of the College. It has also taken a leading part in the development of exhibits for the annual Engineers' Fair.

Chapters and sub-chapters of Keramos are located at the following institutions: North Carolina State College, Ohio State University, University of Illinois, Alfred University (New York State College of Ceramics), Iowa State College, Georgia Institute of Technology, University of Missouri (School of Mines) and University of Washington.

Gamma Sigma Epsilon was founded January 20, 1920, at Davidson College, North Carolina, by Dr. A. B. Arbuckle. The fraternity was formed for the purpose of health, happiness, and comfort for its fellowmen; to promote a spirit of subordination to law by engineering a high regard for virtue and truth, and to unite with the members in close bonds of friendship and fellow feeling those deemed worthy of esteem; and to bring into closer relation the facts of science with the truths of God through the promotion of chemistry.

The object of Gamma Sigma Epsilon is to increase interest and scholarship in chemistry and to promote friendship and general welfare of the chemists.

Any student who has completed two years in chemistry in college with an average of 85 or above in chemistry and a complete scholastic average of 80 or above is eligible for membership. Graduate students of high standing, pursuing chemistry and showing promise of usefulness to the fraternity may be elected to membership. Anyone who has attained a prominent place in chemistry and who may be of value to the fraternity may be elected to membership by unanimous vote of the chapter. Anyone in active membership in any other honorary chemical undergraduate fraternity is excluded from membership in Gamma Sigma Epsilon.

The fraternity publishes a magazine, entitled *The Ray*, usually every two months during the school year. In this magazine articles and contributions relating to chemistry, written by well-known men and members, are published. Also, the reports on the activities of each chapter.

The fraternity holds a biennial convention at which the new grand officers are elected. At the same time a loving cup is given the chapter showing the greatest all around development and the largest contribution to the fraternity.

The Alpha Beta chapter was founded February 14, 1921. It was the first chapter to be installed after the founding of the fraternity. Gamma Sigma Epsilon has its remaining chapters located at the University of Florida, University of Alabama, Georgetown College, Wake Forest College, John B. Stetson University, University of Wyoming, University of Chattanooga, and St. Lawrence University.

Delta Sigma Pi was founded at New York University, School of Commerce, Accounts and Finance on November 7, 1907. It is a professional commerce and business administration fraternity organized to foster the study of business in universities, to encourage scholarship and the association of students for their mutual advancement by research and practice, to promote a closer affiliation between the commercial world and students of commerce, and to further a higher standard of commercial ethics and culture, and the civic and commercial welfare of the community.

Delta Sigma Pi is the largest fraternity in commerce and business administration, having over fifty active chapters in all sections of the country except west of the Rocky Mountains. Delta Sigma Pi encourages cordial relations with other fraternities and non-fraternity people. It is dominated by the spirit of youthfulness, untrammelled by hide-bound traditions, and has no so-called "high hat" chapters. Each chapter sponsors a varied, interesting, and constructive program of professional activities, in which all members actively participate.

Scholarship is emphasized to a high degree, and each year since 1912, a scholarship key is presented to the man having the highest scholastic average for the four years that he has been in school. The annual efficiency contest adds much to the effectiveness and usefulness of the chapters, and serves as a stimulus for better work among the members of the chapters.

A professional commerce fraternity has two clean-cut tasks to perform. It has to make itself interesting and vital to the undergraduate during his active membership days. But it must also do something to that undergraduate to make him interesting and worth while to business concerns after he leaves school and starts out to earn his own living. These tasks are two of the building stones of Delta Sigma Pi. The goal toward which all members build is to reach the heights, as leaders, in industry and commerce.

In the fall of 1921 the faculty and students of State College began to see the need of an honor society. At that time there was no organization on the campus which brought together the leading men of the college for the development of ideas and work. In order that this need be filled, a committee composed of student and faculty members was selected. This committee, which was composed of E. B. Owen, J. W. Harrelson and L. L. Vaughan of the faculty, and W. N. Hicks, R. M. Stikeleather and T. S. Williams of the student body, began to draw up plans for a society modeled after the old Watauga Club.

In the spring of 1922, the first meeting was held. Officers were elected; and a name, key and constitution were adopted. The name of this new organization was to be Pine Burr Society. Students eligible for membership in the society must have spent at least two collegiate years at State College, must have a scholastic average of 85, must never have failed a course, must have taken part in extra-curricular work, and must be of good moral character and high ideals.

Pine Burr began with a membership of ten faculty members and sixteen student members. It has maintained its place as the largest and most representative honor society on the campus. It is free of national ties and devotes its work entirely to the betterment of State College by encouraging scholarship and leadership and by participating in various projects for campus improvements.

The Fraternity of Alpha Zeta was founded at the College of Agriculture of Ohio State University on November 4, 1897. Seven years later, in 1904, and seventh in line, the North Carolina Chapter was installed. At the present time there are forty-two chapters in as many states.

Strictly speaking, Alpha Zeta is neither honorary nor social. Its membership is made up of men from the School of Agriculture who are leaders or potential leaders in American agriculture. Any white male person whose scholastic rating places him in the upper two-fifths of his class may become a member after five terms of resident study in the Agricultural School. Personality, character and leadership, in addition to scholarship, make up the requisites of eligibility to membership. Election to the organization must be unanimous by the current student chapter.

The North Carolina chapter has its headquarters in Polk Hall where business and social meetings are held on Monday night of each week in the school year. A greater part of these meetings is devoted to the discussion of varied problems arising from time to time on the Ag. campus. Further investigation and study of important problems is done by committees, several of which are usually active simultaneously. Always the purpose in mind is the upbuilding and enriching of American rural life.

June, 1934, marks the close of one of the most active years of the local chapter. A number of lectures by outstanding men on "Science" and "Religion" have been sponsored. Several friendship smokers have been held in honor of the Agricultural faculty and students. A thorough study was made of the undergraduate and alumni ideas and opinions in connection with the reorganization of the Greater University School of Agriculture. A lengthy report of this project was submitted to Dean I. O. Schaub and Dr. Frank P. Graham at the close of the school year. The chapter's social activities were closed with a brilliant dinner dance at the Carolina Pines on April 14, in honor of its faculty and alumni members.

The Engineers' Council was organized in the fall of 1926 by a group of students from each of the engineering departments, and with the help of two professors. The purposes of this organization are to promote the interest and welfare of the students in the school of engineering, to create and maintain a fraternal spirit among the students of the several departments, to provide for the management of affairs in which all engineering students are represented, and to provide for the publication of an engineers' magazine.

Membership of the Engineers' Council consists of 24 men: two seniors, a junior who serves as an alternate, and one professor from each of the six departments of the Engineering School. The seniors who represent their respective departments are the president and one other member from the technical society in each department.

The Council elects from among its own group a president who is known as "Saint Pat." A vice-president, secretary, and treasurer are also elected. Through this organization the affairs of the engineering student body are carried on.

The major function of the Engineers' Council is the staging of the annual Engineers' Exposition. This event honoring "Saint Pat" is held as near as possible to March 17, Saint Patrick's Day. This three-day affair consists of a downtown street parade, and the demonstration and exhibition of engineers' models and equipment. And at the end of the fair, the engineers' social function, known as the "Grand Brawl," is given. These three events together constitute the largest student undertaking of its kind in the college. During the past few years the Engineers' Fair has grown to be the largest in the South.

The parade usually inaugurates this three-day celebration. This event is held downtown and consists of floats from all the departments and engineering societies. The floats demonstrate each particular phase of engineering representing the branches of engineering as taught at State College. The Fair proper opens the next day. The departments and laboratories are open for inspection by the visitors, and at some time during the three days the different exhibitions are judged. The winning department receives a beautiful cup. On the third day of the Fair the engineers' "Grand Brawl" is staged. At this time the engineering students who have proven themselves worthy student engineers are dubbed as companions of Saint Pat.

The Engineers' Fair as staged at State College is the largest of its kind in the entire South, and it takes its place as a public demonstration of the scope of the engineering school.

The Tau Beta Pi Association, national honor society, was founded at Lehigh University in 1885 by Professor Edward Higginson Williams, Jr. Its purpose is to mark those who have conferred honor upon their Alma Mater by distinguished scholarship and exemplary character as undergraduates in engineering, or by their attainments as alumni in the field of engineering; and to foster a spirit of liberal culture in the engineering colleges of America. The parent chapter at Lehigh existed alone until 1892, when the Alpha Chapter of Michigan was founded. Since then Tau Beta Pi has grown rapidly, until now there are sixty-two active chapters which have initiated over 22,000 members.

Tau Beta Pi covers the entire engineering field but none other than engineering. Tau Beta Pi was founded for the chief reason of brilliant engineers being unable to join honor societies; since education seemingly held a monopoly on the honor societies at that time.

Although distinguished scholarship is the primary requisite for admission into Tau Beta Pi, it is not considered the sole criterion.

After the scholastic requirements have been fulfilled, the selection is based on integrity, breadth of interest both inside and outside of engineering, adaptability, and unselfish activity.

We consider that true integrity is the *sine qua non* for membership into Tau Beta Pi; that it transcends in importance scholarship, activity and every other qualification. Without private and public integrity we believe that no organization is worthy of existence. Under integrity we include honor and high standards of truth and justice.

Breadth of interest sufficient for eligibility in this society will enable a man to maintain his position in a community by the exercise of qualities other than engineering ability.

A true engineer must be able to adapt himself ingeniously to all circumstances and conditions, making them conform to his purpose. Tau Beta Pi tries to select its members from such engineers as these.

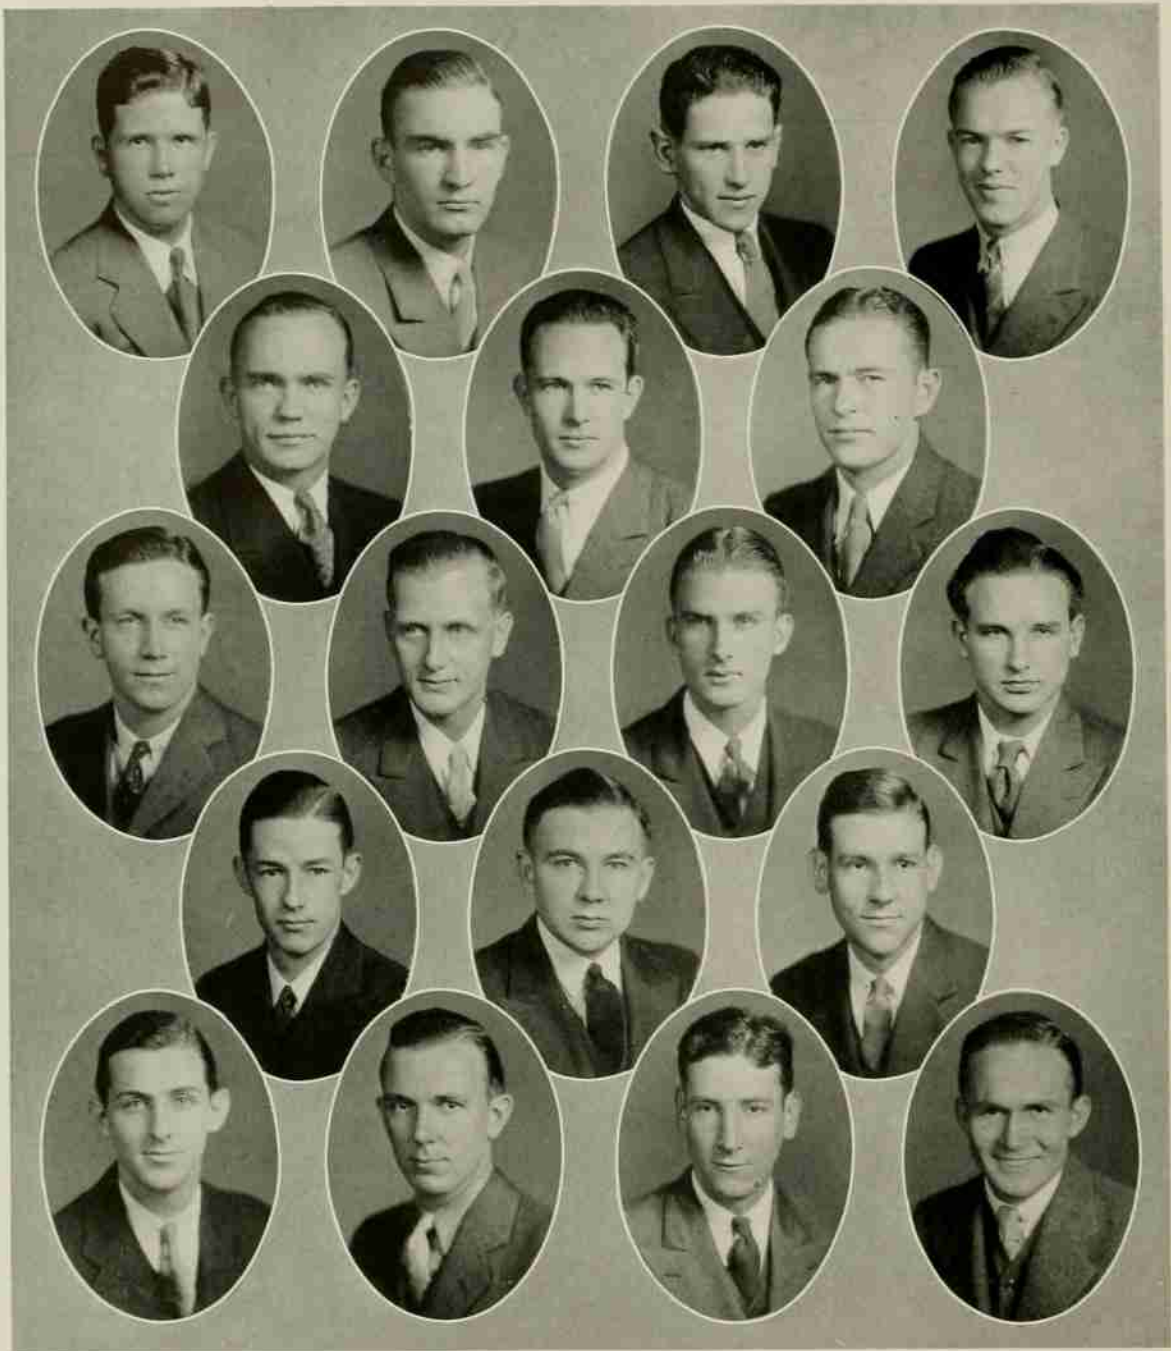

The Alpha Chapter of North Carolina, which is the chapter at North Carolina State, was, as the name indicates, the first chapter in North Carolina. It was established in 1925. The other chapter in North Carolina is the Beta Chapter at the University of North Carolina. It was established in 1928. The N. C. Alpha Chapter charter members were professors L. L. Vaughan, William H. Browne and H. E. Satterfield.

In addition to regular business and literary programs, the chapter takes an active part in campus activities. The chapter assists in giving stunt night and scholarship day, and it plays an active part in the Engineers' Fair.

Each year, on scholarship day, Tau Beta Pi presents a silver loving cup to the Sophomore student having the highest scholastic average during his freshman year and through the first two terms of his sophomore year.

The chapter also sends a delegate each year to the national convention of Tau Beta Pi, which this year was held in Chicago.

Membership into Tau Beta Pi is recognized as one of the highest honors that can be conferred on a student engineer.

Phi Psi Fraternity was founded by five students of the Philadelphia College of Textile Engineering on March 18, 1903, to promote good fellowship, social intercourse, mutual advancement of its members and the art of textile manufacturing. In 1905 the fraternity was incorporated under the laws of Pennsylvania. Beta Chapter was organized in 1904 at the New Bedford Textile School, New Bedford, Mass., and the same year Gamma Chapter at Lowell Textile School of Lowell, Mass., was admitted to the fold. Delta Chapter was organized at the Bradford-Durfee Textile School at Fall River, Mass., in 1909.

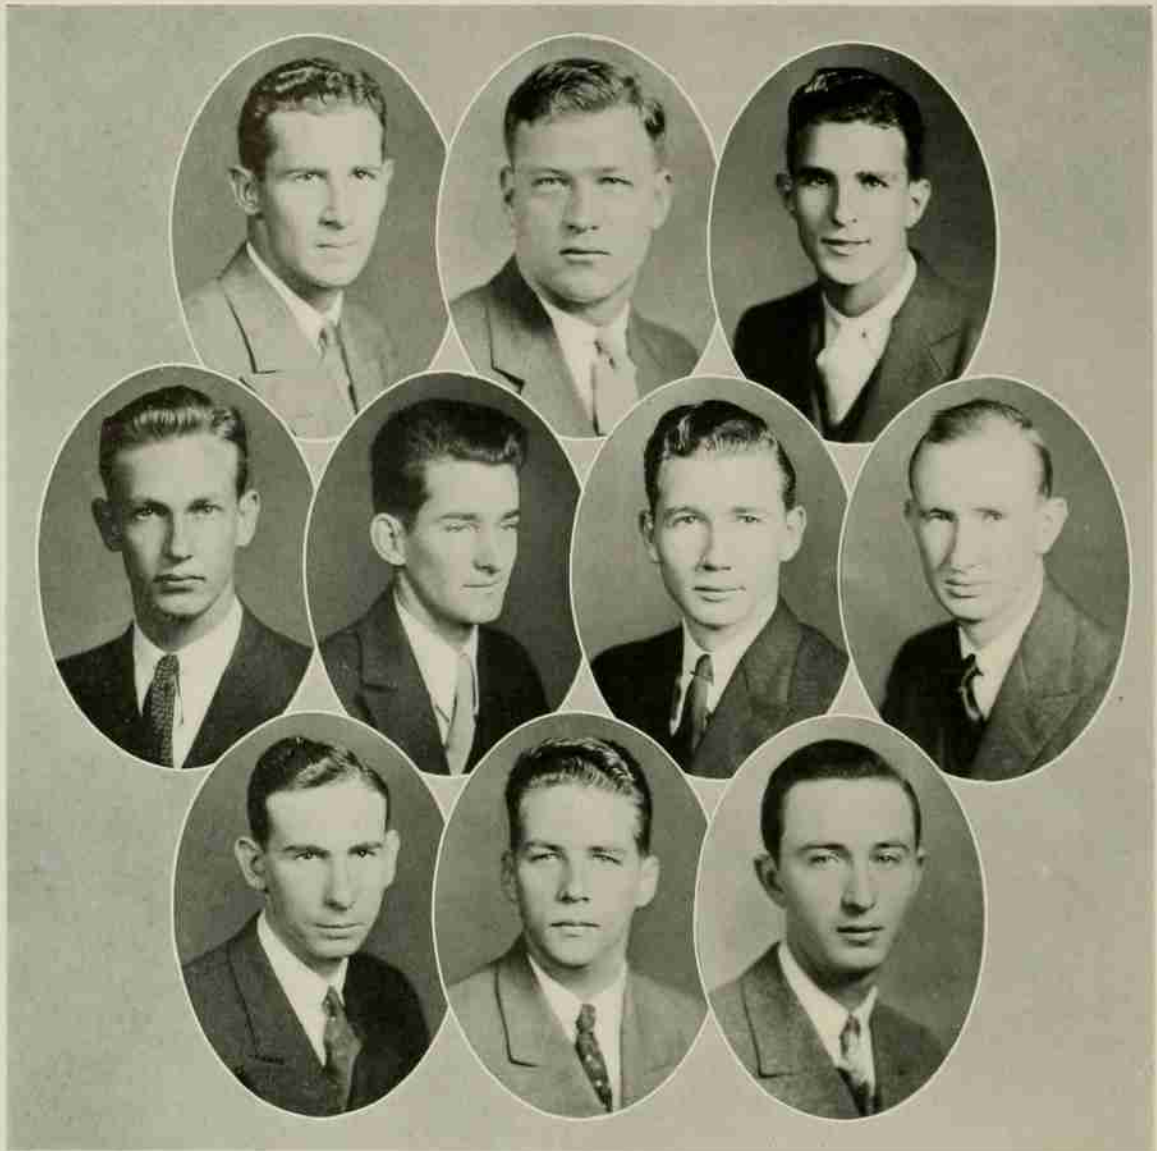

In May, 1924, Eta Chapter was formed at North Carolina State College, Raleigh, N. C., and on January 10th of the following year, 1925, Theta Chapter was organized at the Georgia Institute of Technology, Atlanta, Ga. In May, 1927, Iota Chapter, of Clemson College, South Carolina, was given a charter. The newest chapter, Kappa, was organized in 1929 at the Texas Technological College of Lubbock, Texas.

Phi Psi Fraternity is the largest and most highly respected textile fraternity in the world and its alumni hold some of the highest positions of trust and respect in all branches of the industry. So that the alumni may maintain closer contact with each other, alumni chapters are located in all the leading textile centers of the country.

During the World War the fraternity service flag contained 164 stars, seven of which were turned to gold.

Since its organization at State College, Eta Chapter has taken an important part in the activities of the Textile School. Its members have been prominent, not only in the affairs of their department but also of the college as a whole. They have then gone out to earn places of trust and responsibility in the textile industry.

The members of Phi Psi are selected according to their character, integrity and proven ability. To receive a bid to Phi Psi is an honor of which any textile student should be justly proud.

Lambda Gamma Delta, National Honorary Agricultural Judging Fraternity, was granted a charter under the laws of Michigan on May 26, 1924. The Epsilon Chapter was organized at N. C. State College May 18, 1925.

Membership is limited to those men and women who have attained a place on the various Inter-collegiate Student Judging Contest Teams of Dairy, Dairy Products, Livestock, Hay and Grain, Poultry, and Horticulture; also those persons who have made a special and honorable showing in a particular field of agriculture, that warrants a meritorious award of honor for the distinguished services rendered.

The first purpose of the fraternity is "To stimulate advancement in the field of judging agricultural products." The development of agricultural products is just as important, if not more so, as the development of any other line of work. Many colleges are sending judging teams to the International Judging Contests and are doing work that they can well be proud of, but a number of the Agricultural colleges are not represented for various reasons. Therefore, it is one of the aims of this Fraternity to make it possible for more colleges to send teams.

The second purpose is "To create a higher and more uniform standard of the judging of Agricultural products." One of the objects of the Fraternity is to make each state fair and each county fair have the same standard of judging as the International Livestock Show and National Dairy Show.

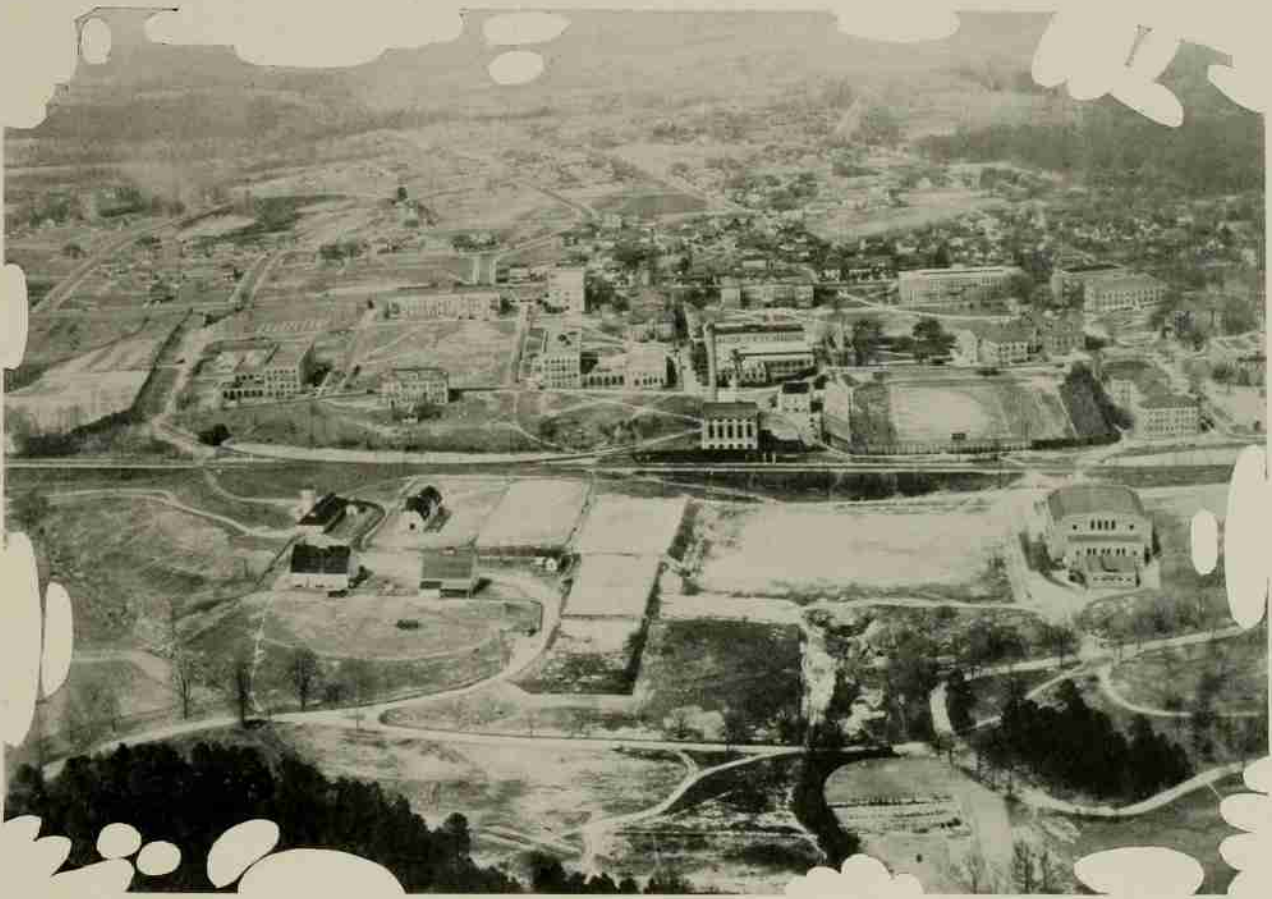

The third purpose is "To honor persons obtaining high standards in such lines of activity." Each year the local chapter gives each student that makes one of the judging teams a beautiful certificate with the college seal and colors in addition to the national membership certificate. There is no Fraternity that honors men and women who take part in the judging contests in the Agricultural field or who are working along this line. In honoring these people in such a manner it encourages them to continue in their work and also brings their efforts and the benefits of them to the eyes of the general public who may not fully appreciate the work that is being done. Another object is to give each student standing highest in the various contests a chance to visit foreign countries and become familiar with their methods.

The fourth purpose is "To create perpetual loan funds for the education of worthy students in Agriculture." It is the object of this Fraternity to create a fund that worthy students can borrow from to attend college. It can be arranged that such funds can be paid back when they are through their course and making use of the education they have thus obtained. Of course, it is only natural that this fund should be used only by those students who wish to educate themselves in the agricultural line.

The Livestock, Crops, Dairy, Dairy Products, Poultry, and Horticulture teams sent from N. C. State College have won national as well as international repute. The crops teams have established a record neither equalled nor closely approached by any other Agricultural college in America.

State College can well be proud of her judging teams and coaches, and look forward to better teams with the thought that the training, the experience, and the personal contacts throughout the preparation and throughout the contest itself are of great value to the students. These inter-collegiate contests do create a deep-seated interest which probably could not be secured in any other way.

He: Well, wouldn't you feel queer at a family reunion?

—*Punch Bowl.*

"Please don't think me forward," she said demurely, "but I wish you'd take that golf ball out of your pocket."—*Voo Doo.*

The bride was very much worried at seeing twin beds in their bridal suite.

"What's the matter, dearest?" asked the bridegroom.

"Why, I thought we'd certainly have a room all to ourselves."

—*Illinois Siren.*

He (changing tire): Muscle Shoals!
She: Why Muscle Shoals?
He: It's the biggest dam I know of.

—*Rammer-Jammer.*

They call 'em virgin pines, because they've never been axed.

—*Carolinian.*

Maxie: But, Ollie you know there's a time and a place for every-
thing.

Ollie: Well, I've got the time.

ANONYMOUS

"Boy, I'm scared! I just got a letter from a man telling me
he'd shoot me if I didn't stay away from his wife."

"Well, all you have to do is stay away from his wife."

"Yeah, but he didn't sign his name."—*Virginia Tech.*

"A traveling salesman like yourself got pretty fresh with me last
night."

"Did you finally get the upper hand?"

"Yes, but I couldn't do a thing with the one he had on my knee."

—*Skipper.*

Ragman: Any old clothes? Any old clothes?

Voice: Get away from here. This is the Sigma Nu house.

Ragman: Any old bottles?

If all the horses say: "Nay," where do little horses come from?

A WOMAN'S PLEA

Kiss me. But kiss me lightly, Love;
Such is my soul
That, when you kiss me much, my spirit flies
To some dream goal.
Hold me. But hold me gently, Love;
Such is my mood
That, when you hold me close my rapture falls
To something crude.
Claim me. But claim me boldly, Love;
Such is my way
That, when you plead with me, my fickle thoughts
Slip far away.
Win me. But win me slowly, Love;
Such is my fright
That, when you startle me, my wayward heart
Takes instant flight.

To The Defense of the MACHINE AGE

“LABOR-SAVING machinery has deprived many of employment; machines have taken the place of men and women—machines are responsible for unemployment.”

So says the pessimist.

But the machines must be manufactured, assembled, transported—creating employment in new industries.

Subways, street cars, automobiles, supplanted the coachman and his horse and buggy, but they give employment to others.

The radio has created new industries and given new life to others.

Electricity supplanted tallow candles and lamps, but created new industries.

THE MARCH OF PROGRESS CANNOT BE HALTED. Old industries give way to new; old methods to new. It is a matter of adjustment.

Electricity is gradually substituting its energy for muscular effort in every branch of industry and in the home. Human intelligence *directs* it.

Carolina Power & Light Co.

1933 COMMENCEMENT MARSHALS

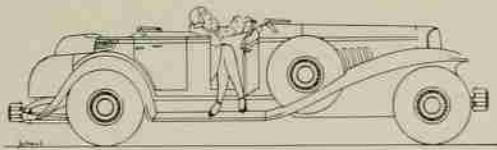

WEBB BARNHARDT POOLE BRASWELL DIXON LOWRANCE

He: Does a woman ever take another woman's advice about clothes?

She: Of course not. You don't ask the enemy how to win the war.—Log.

"But, Jack, I can't marry you—you're almost penniless."

"That's nothing, the Czar of Russia was Nicholas."

"Meet Here After the Social Function"

He was an all Tech man, absorbed in engine lathes and Force vectors. She realized something ought to be done about it.

"What is that town in Long Island?" she asked. "Little—, Little—, Little something."

"Little Neck?"

"It's all right with me," she murmured.

It was on top of a crowded bus in Chicago. "Low bridge!" shouted the conductor to the passengers. "Everyone keep his seat and face to the front."

A gay little flapper up forward turned around, smiled sweetly, and said, "My dear, you know that can't be done."

—Log.

Optician: Weak eyes have you? Well, how many lines can you read on that chart?

Poole: What chart?—Exchange.

Howard S.: Say, do you run around with that little blonde any more?

Bill C.: Oh, she's married.

H. S.: Answer my question!

Rastus: Brothaw president, we needs a cuspidor.
President of the Eight Ball Club: I appoints Brother Brown as cuspidor.—Burr.

*I changed to
the tire with*

NO WEAK SPOTS

If you need tires, we invite you to find out at our store why we can give you bigger, sturdier, far safer, longer-wearing Seiberlings for *not a penny more cost*. Come in—compare—today.

"Sure—I can understand why Seiberling's new and exclusive Vapor Cure method of building tires makes possible for the first time a tire of live rubber—live cotton, welded into a single unit with NO WEAK SPOTS. I don't want tires that have been devitalized with dry, scorching heat—safety and mileage burned out right at the factory. That's why I changed to the new 1934 Seiberling Vapor Cured tires, because I can understand why they are safer."

We believe that when you get the facts here, compare our new Seiberlings, our low prices, you, too, will change to the only tires with NO WEAK SPOTS.

ALPHA SIGMA SIGMA

NATIONAL DONKEY FRATERNITY

The purpose of the aristocratic lodge of Alpha Sigma Sigma is to honor and recognize those "OUTSTANDING" men and women of the year, as selected from student balloting (in fact, so outstanding that they rate three lovely sponsors). The membership is much larger this year than in previous years as a result of a greater interest in voting (or is it because of the greater number of eligibles?). Your guess is as good as ours! The annual convention was held at Duke in the middle of the winter; but the State delegation couldn't get in the stable because they didn't have on white shoes, which sign was recognized there as a password. However, our delegates whispered the national passwords, "If a fly is on the right, feint a swish to the left, then swish back around quickly and catch him off his guard", and gained admittance. The convention was quite a success, except that the host chapter left in a rage when some of their co-eds ran poor races for the three sponsors' posts.

LITTLE WEESA HORSMAN

Keeper of the Stall, Keeper of the Stable, Keeper of the Donkeys—in fact, a pretty good keeper of anything—Keeper of a Secret, Keeper Quiet, a big key man with a happy smile (note the keys on his chest) and a wonderful scent. Note the donkey he is holding on his right—Oh! Pardon us—well, we would have included him in the photo but you wouldn't recognize him from that angle, and he's probably in the class sections somewhere fullface. Again take note (this time at the way Weesa is staring at the camera)—it's because he thinks the thing hiding behind it may be one of his assinine charges. Our guess is that he is probably right and that it's Dunny.

LITTLE WEESA HORSMAN

SWITZERLAND

The Trip of Lingering Memories

Plan now for that one *perfect* vacation — a trip to Switzerland. Make your text-book dreams come true. No other country on the globe offers all the glories of the Alpine-land—towering snow-capped peaks, giant glaciers, mountain-climbing, and all other outdoor sports in ideal settings, medieval castles, and quaint villages with customs and costumes centuries old. Universities with courses for all. Health, culture, adventure! Come now while descending costs make ascending the Alps easier and easier. Railroad fares are reduced as much as 55%. There are hotels and pensions for every purse. Swiss thrift and thoughtfulness have smoothed the way to pleasure. The Playground of the World offers you a hearty Swiss welcome. Your travel agent will help you plan, or you may write us for map and complete information. Ask for packet RC.

Yes, darling, I know
I'm the light of your eyes,
The apple in your pies,
Your one inspiration,
And it is, indeed, a pleasure
For me to hear an effection so warm.

*But what is that ice wagon
Doing in our yard
When we own a Frigidaire?*

—Carolinian.

"I know every girl at this dance."
"But not one of them has spoken to you."
"Isn't that proof enough?"

—Wataugan.

He: Do you really thing there's danger in kissing?
She: Wait until I see if the folks are up.

—Wataugan.

Some one suggested that if all exams and quizzes were placed in
a pile on the Sahara Desert it would be a good idea.

—Bear Pot.

MISS YOU

I miss you in the mornings,
In the first gray streaks of dawn
I reach out my arms to hold you,
But in vain; for you are gone.

I miss you too, at noon time,
When the skies are clear and blue,
Even the flowers all are drooping,
They are lonely, and miss you too.

I want you and I need you,
When the evening sun is low,
My heart is ever yearning for you
Ever whispering, I miss you so.

I miss you in the night time,
When alone by my open fire.

I miss you, oh I miss you,
You alone, are my heart's desire.

—W. D. Pritchard, '33.

Psi: Thish match won't light!

Up: Thash funny. It lit all right a few minutes ago.—Siren.

He asked: "How much does Romeo? I always do forget."
She answered: "That depends, you know, on what Juliet."

The central graphic is a large, stylized letter 'U' with a thick, dark border. Inside the 'U', there is a stack of numerous books of various sizes, some standing upright and some lying flat. In front of the stack, an open book is displayed, showing two pages with black and white photographs. The background within the 'U' is a light, neutral color, and the overall composition is framed by a thin, dark border.

OUR PAGE OF RETROSPECTION

Attention, dear reader! Before you go any further let me tell you that this is really a page of memories for those of us who have worked together on this volume and is, in all probability, of little or no interest to you. But if you have read this far it is likely that you will wander on. I wish you understood the inner workings in the forming of this book so that you might, with us, understand and appreciate this page.

Anyway, pardon me while I go into my trance and say things about the five characters (?) pictured hereon. (If you continue to read this and look at the photos and can't decide what it's all about, don't say I didn't warn you.) It does, off-hand, seem odd that a page which only five people understand should be included; but, after the many preceding pages devoted to your life at State in general, I feel that one page devoted to the making of this volume of the AGROMECK and those who have worked together to produce it is well in place.

(Note: There will be many question marks following words and statements. The writer realizes his lack of definite knowledge along various lines in describing and talking about this crew.)

'Twas a cold and snowy couple of days in March of '34 when we held sessions at which the photos shown were taken. It was in every sense of the words a last round-up, when the AGROMECK of 1934 assumed its final "larger and different" shape (?). Dunbar wandered around the editorial office with a camera, getting all manner of poses and results (as evidenced by Crichton's expression in the lower left photo—he was just about to say, "Now listen, Albert! Class work may come and class work may go, but we've got to have all your copy in by the 10th or the book will be late, Savvy?") That was the fourth time he had said the same thing in a half-hour. The distinguished group in the center are, as best as I can explain them, from left to right: Albert Couch, ye editor (??), and we'll let it pass at that; the ear-to-ear grin following the grouch rests on the face of Len Glover, alias a representative of Lynchburg Engraving Co., alias a W. and L. grad (ah! a reason for the grouch and the grin—the Generals just took the Basketball Tourney)—note the hands jingling change in the pockets, which

change very shortly vamoosed along with the neighboring grouch on arrival of sandwiches and drinks from the drug store; the Napoleonic (discount the grin) stance in the center are the outskirts of M. F. "Dunny" Dunbar, "photographic hound" of Dunbar and Daniel, Inc. (our guess is that he has just told a "Have I told you this one?" and it failed to be heard on the ends of the line); the sporty looking "dugan" on Dunny's left is Rawlings Poole, business manager, whose little red wagon the completion of this book is gonna be after I get this last of my copy in—but he can take it; and on the extreme right, ladeez and gentlemen, gazing into the dim vistas of the extreme left and about to ask me when I'm going to get all my copy in, is the form of W. J. "Bill" Crichton, Jr., of the Observer Printing House—it really wasn't as cold as he looks.

Surrounding the group photo are the results of Dunny's carelessness with his camera during the big melée. Note the business manager looking over the engraver's shoulder to see that the layouts didn't require cuts too large to fit in the "budget book"—we had to be more careful in our planning this year because we made this volume larger. Also note the engraver and editor with their coats off, designating from whence the expended energy (?) and work (?) were emanating. (Apologies to the others.) Note thirdly that the visiting engraver and printer politely "hogged" all the seating space. We consoled ourselves with the mutual thought that they were both quite tired. Glover from chewing that collegiate pipe and Crichton as a result of the tiring effects of asking me when the copy was coming in.

Anyway you look at it, there was work for everybody and we are going to enjoy glancing over this page in the future and recalling these hectic months. So, dear reader, if you are still with me, again I ask your pardon for inserting this personal page in the midst of this students' book; however, if you have read as far as this apology, then the page must not be very personal after all.

You've probably heard that one about the co-ed calling her new boy friend "Dissipation" because he was beginning to tell on her, so we won't tell it.—*Wataugan*.

"Dear, I saw the sweetest, cleverest little hat downtown today."

"Put it on, let's see how you look in it."—*Malteaser*.

"Hello! Hello!" cried an excited feminine voice over the telephone, "come at once! Two men are trying to climb into our window."

"Sorry, Miss, but this is the fire department."

"Well our room is on the second floor and they need a ladder."—*Log*.

A policeman came running in just in time to stop the turmoil in front of the check room. He grabbed a young man by the arm and asked him why he struck the young lady who lay moaning on the floor.

"But she asked me to hit her," the young man replied.

"What do you mean by that?" queried the limb of the law.

"Well, she asked me to fetch her a wrap."—*Exchange*.

"I call my girl street car—you can go anywhere for a dime."

Betty was out on a date last week and she told the boy friend the sky was the limit. Now she's feeling pretty blue.—*Voo Doo*.

TRUE STORY

It was a lonely country road on a balmy moonlit night. Suddenly without any warning the car came to a stop.

She: Now if you're going to pull that one about the gas—

He: Nothing of the kind. We are not out of gas. The motor is not missing. We do not have a flat tire. We—

She: So you have an original excuse.

He: There isn't any excuse. The only reason I stopped is because I want to neck.

She: Oh! that is different. Why didn't you say—mmmnn—*Buccaneer*.

He had been hired to clean the lion's cage and he didn't like the job one bit.

"What shall I do," he inquired of the keeper, "if the lion rushes at me?"

"He won't," replied the keeper stolidly.

"But suppose he does?" (The fellow was persistent.)

"Throw something at him," said the keeper quite indifferently.

"But there's nothing in the cage to throw," persisted the cage cleaner.

The keeper was becoming annoyed. He looked the fellow up and down for a moment, and then delivered himself; "If the lion rushes at you—there will be," he said and on that departed.—*Voo Doo*.

A Final Word Or So Of Appreciation

To supplement our thoughts on the two pages devoted to THE 1934 AGROMECK we wish to add a few words which we hope will, to some extent at least, "give credit where credit is due." Even though such a procedure is quite customary in such publications as this, we are (at least we mean to be) sincere, indeed, in our expressions of gratitude for the aid that has been given us by the many persons, organizations, companies, etc., who and which have collaborated with us in various ways in the production of this volume.

First: there are the members of our staffs, who have given much of their time and valuable assistance.

The student body as a whole has been very cooperative, and that fact has made our work less of a burden.

Fred Dixon was unusually willing to take the time to make his Who's Who selection; and the yearbook heads who have cooperated splendidly with us in the working up of the Beauty and Personality in North Carolina Colleges pages have our sincere thanks.

Colonel Bruce Magruder has taken a keen interest in the development of the Military section (the entire book, in fact), and his aid in acquiring material for that section is sincerely appreciated.

Mr. John F. Miller furnished us material on the Physical Education and Intramural program which was of considerable value.

Charles Styron was good enough to delve into the past few years of State College golf history for its initial presentation in an AGROMECK, and we wish to thank Dave Morrah for the valuable assistance given the Athletic Editors in the preparation of copy.

To the fraternities: many thanks for cooperating in submitting material with which we have endeavored to make your pages more informal and attractive.

With the following we have worked throughout all or much of the school year, and much of the success which this volume may achieve is due them:

Mr. W. J. Crichton, Jr., and Mr. L. W. Hutchins of The Observer Printing House, Charlotte, N. C., our printers.

Mr. Leonard Glover of the Lynchburg Engraving Co., Lynchburg, Va., our designers and engravers.

Mr. Edwin Deady, of the Deady Studios, of Lynchburg and Baltimore, creators of our art work.

Mr. M. F. Dunbar of Dunbar and Daniel, Raleigh, photographers, who was willing to cooperate without the slightest mumble on the many short order calls of the editor (*and they were many!*).

Mr. C. R. Lefort, Mr. F. H. Jeter and Mr. W. L. Mayer, faculty members of the Board of Publications.

And, lest we fail to completely cover the field, let us say finally that, even though you may not be mentioned in this list, if you have in any way contributed to the making of this book we are quite grateful and are sorry that you have been overlooked.

It has been a distinct privilege to produce this volume for you and our ultimate goal throughout, believe it or not, has been your satisfaction. We have changed the AGROMECK radically because you have led us to believe that such was wanted. In ending—we hope you have received much pleasure from the pages of this first 9 by 12 AGROMECK.

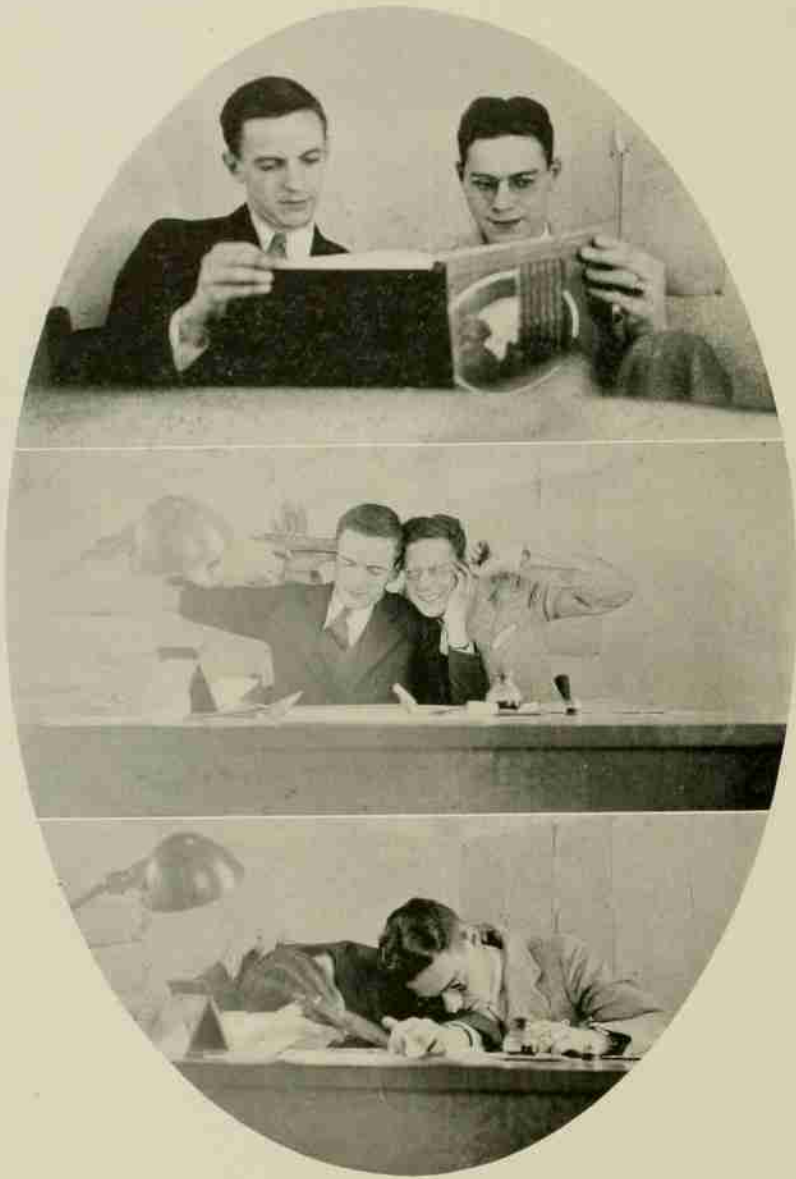

ALBERT H. COUCH,
Editor-in-Chief,

RAWLINGS S. POOLE,
Business Manager,

HUBERT TODD,
Associate Editor.
