**Student
Body
President**

Joe Elvis Corey

The University is constantly changing the rules, and I'm sick of it. One moment we can take over four classes — next it's three. Soon those weasels will be using a plus-minus system. This must stop.

They must stop screwing around with our grades in their attempt to be a slaughterhouse.

Dennis R. Draughon

Until liberty, equality and fraternity are accepted principles at our university, I will, through my candidacy, support a program for expanded cultural, racial and sexual awareness at State, and I condemn those practices which seek to limit free scholarship and promote ignorance and enmity. Truth and light will prevail. Peace.

Charlie Helms

An effective student body president needs several qualities. Leadership experience, knowledge of University workings and the ability to make unbiased decisions are essential. Goals such as keeping student fees low and promoting total campus unity are also necessary. As student body president, I pledge to represent the total student body.

Kevin Howell

Through experience in student government, I have seen what problems exist on campus and have heard many students' ideas and concern. If someone is going to lead student government, previous participation in and knowledge of the entire university system is more than essential. I have served as executive assistant, humanities student senator, member of the Finance Committee and the Afro-American Council.

Bryan R. Kay

The student body president should be ready and willing to stand up for students, whether it involves fighting the west campus enclosure or fighting the stripping of prime student football seats, but he needs strong diplomatic talents as well.

Main points of experience: student body treasurer, Student Senate (two years).

Billy Maddalon

North Carolina State University needs a student government which is strong enough to involve itself in policy-making rather than always reacting to it. As executive assistant to the president, I believe that student government must be willing to affect and change many of the current and future issues facing our campus, which it now fails to do.

Perry Woods

With four years student government experience, I'm aware of how issues affect the university as a whole. Yet, I'm not afraid to aggressively assert student concerns. The administration has steadily chipped away rights and privileges that our predecessors acquired for us. We must prevent NCSU from becoming the "Alma Mother" of students of the future.

Student Center Board of Directors

Elizabeth Rinker

I feel that I am amply qualified to hold the position of at-large member of the University Student Center Board of Directors. I am vitally interested in things which directly relate to students' lives and the quality of these activities. I believe in fairness and will be voicing the students' ideas.

**Student
Body
Treasurer**

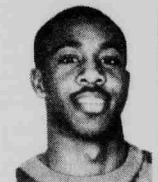

Charles E. Rambeau, Jr.

Vote for experienced leadership. Vice-president of Metcalf, Inter-residence Council finance and pinball committees, FEED Raleigh 1986 and 1987, student senator, University Health Committee, Sports Club Authority and administrative assistant to the student body president. With experience like this, do you not want the best for the job? Vote for Charles Rambeau.

Derek Tyson

Leaders are not born nor made, they come forward as they are needed. So many times there are too many leaders and not enough followers. So too, a leader must also know when to follow other's suggestions. Realizing now, the necessity for a good leader, I announce my candidacy for treasurer.

Paul Briggs

My experience comes from my participation in the organization of special programs and debate on student related issues through the Senate Services Committee and being public relations director of the executive branch of student government. My experience has taught me that making unbiased decisions on controversial issues facilitates progress.

**Scott Carpenter**

Serving as the vice-chairman of the Athletics Committee, I've acquired the experience needed to organize and run the senate smoothly. Playing an integral part in the formation of this year's basketball ticket policy and being the leader of its enforcement, I know how to create innovative ideas that serve student interests.

Student Senate President

Derrick Cook

If I am elected Student Senate president, then actions will be taken toward making our university the epitome of the college experience, the epitome of educational opportunity, the epitome of social equality. And, these events can take place if you, the student body, elect me.

**Felicia A. Atkinson**

As 1986-87 student senator and secretary of Government Operations Committee, I represented my supporters well on every issue. I wish to serve again next year as senator and UNCASG representative.

University of North Carolina Association of Student Governments Candidates

Michael Brown

If elected, I will use my experience as a student body senator to represent N.C. State University and the student body's concerns, among which are keeping tuition increases down, drug testing and improving N.C. State's image.

**Michael R. Covi**

I believe I can best serve the student body of North Carolina State University as the representative of the UNC Association of Student Governments.

**Paige Allen**

As administrative assistant to the student attorney general, I was involved in seven of ten trials and have handled 50 of approximately 120 cases. With your support, I feel my extensive judicial experience will allow me to efficiently run the office of student attorney general. Thank you.

**Jackie Jeter**

Having been involved with the judicial branch of student government since I was a freshman, I feel I have not only the vast experience and qualifications but the initiative, determination, dedication and open-mindedness to effectively fulfill the office of student attorney general.

Student Attorney General

Charmette E. Brown

My two years' UAB service has familiarized me with Student Center procedures. As president, I would emphasize more unity among the UAB committees and students at large, promote programs having wider appeal to the student body, and work to increase student interaction with faculty (inform faculty better, schedule regular mixers).

**David Kemper**

I want you to CASH IN on the opportunities the Student Center and the Union Activities Board offer! I strive for the greatest possible returns in entertainment, culture and new ideas that we can bring this campus. Vote David Kemper!

Susan Brooks

I feel that, as a senator from the School of Humanities and Social Sciences for the past academic year, I have represented the freshmen of my school well.

Having been president of my senior class in high school and vice president of my junior class, I feel I have a good background to be a successful senator at NCSU.

Brooks T. Raiford

As a student senator this year, I have been a dedicated proponent of students' rights and interests. My re-election will enable me to continue these efforts.

Jim Ross

With a year's experience in the Student Senate, I have gained a better understanding of the political process. My experience will benefit you in student government.

Dirk Selland

As a current member of the Student Senate and Athletics Committee, I was a strong proponent of the basketball distribution policy and will continue to take a strong stand on issues affecting the student body.

If re-elected as a student body senator, I will continue to represent the concerns of the students by trying to have the students' input have more of an impact on university decisions.

Andrew Cook

I feel contact with constituents is of primary importance. I will do all I can as a senator to interact with my constituents and get feedback from them. A senator cannot perform his duties without this input.

It's a Waste of Money, Time, and Energy if YOU Don't Vote!

Your student fees provide Student Government with its operating budget. Since you're putting your hard-earned cash into this operation, don't you care how it is spent? Sure you do.

But Student Government does more than allocate money to campus groups. They also "fight for your right to party." That is, they fight to keep fees and tuition low, to open the residence halls and to maintain free speech and free press on this campus.

So why not take a minute and vote?
