Confidential files obtained Sunday on NCSU Chancellor Bruce R. Poulton indicate administrative admissions standards were waived when he was chosen chancellor of the university.

According to the files, Poulton scored only 470 out of a possible 1600 on the CAT (Chancellors' Aptitude Test), which is administered by the Educational Testing Service of Princeton, N.J.

"There is a clause in the North Carolina general statutes that says we can waive admissions standards to allow an administrator with 'special talents' to enter the universi-

ty," Anna Keller, admissions director at NCSU, said in an interview.

Apparently Poulton's 'special talent' is his ability to carry on a conversation within six inches of the other person's face, Keller said during the interview.

When problems arise on campus, the chancellor can intimidate students to the point that they melt in his presence, she said. Poulton is 6' 6" and weighs in excess of 250 pounds.

At a meeting of the City Council Sunday afternoon, Walter Keller (Anna's husband) said (not in an interview) that the Poulton case was not the only one in which admissions policies were ignored.

"It has also been proven that the "My wife told me that over there **CAT** discriminates against residents

of New Hampshire."

Approval of Poulton's selection was based on his high school grade point average. Apparently he attended 10 different schools in an effort to get the "broadest education possible," he said.

Walter Keller had another reason why Poulton attended so many schools, however.

"Anna told me that Bruce was kicked out of three schools for bad grades and out of five others for foul language," he said not in an interview.

'The other time the chancellor was asked to leave a school was when he ripped off a Dominoe's Pizza delivery boy in the tenth grade," Keller said.

Poulton's records indicate his grades improved dramatically after he transferred to Louisburg Academy in Louisburg, North Carolina.

Louisburg officials, in an interview Sunday, said special arrangements were made with Poulton in order to raise his grade point average.

"We decided to give him eight points on a four-point scale for an 'A' and four points for an 'F,' " guidance counselor C.M. Through said in the interview.

With the special grade point average arrangements, Through said in the interview. Poulton was able to raise his GPA from a 1.2 to a 3.0 in just two semesters at Louisburg, Through said in the interview.

# **Conservative students charged** with trespassing at drug store while protesting sale of condoms

Staff Writer

The executive director and the president of a Raleigh-based conservative student group were arrested Sunday on charges of trespassing at the Kerr Drug store in the Mission Valley shopping center. The charges were later dropped.

Adolf Smith and Benito Jones were taken to the Wake County Courthouse, charged and released on 25 cents bond. Both are members of the organization called Students for Fascist America.

However, three hours later, the charges were dropped after the Raleigh Police Department reported that both Smith and Jones had agreed to sign an agreement in which they said that they would never hold such a protest again. Police spokesmen said that both men immediately agreed to any conditions when they saw the jail cell.

Worker exploitation. The rich were rich-and powerful and didn't have to listen to all the poor people cry. I sit at home nights dreaming about the Victorian era," Smith said in the interview.

Jones concurred. "We're building a winning combination of conservative students - only those that worship the great Jesse - gun enthusiasts and minorities - only the rich members of the minorities, of course. We don't want to hear any of that discrimination crybaby stuff.'

"We have over 20,000 members in Raleigh alone," Smith said in an interview. Only 25 students showed up to protest at the store.

country of the two bodies of people that are the greatest threat to this country's freedom - journalists and poor people. We think it would be best to just round up all of them and ship them to Russia, where they belong. Being poor is an obvious plot against America, a plot to take all the taxpayer's money and ruin the federal economy.

"Everyone knows that in this great economy that our great president has established - with only the help of Jesse - a person has to work to stay poor. It's a communist plot," Smith said in the interview.

Jones stated that the immediate goal of the organization is to rid the country of all sex education classes

Technician political cartoonist Dennis Draughon is pushed to safety by friends and security personnel after receiving three gun shots to the chest.

An assassination attempt was made on the life of Technician political cartoonist Dennis Draughon at 5:23 p.m. Sunday.

Draughon received three shots to the left side of the chest as he left the Student Center for a rally of black feminists against vivisection. Technician bodyguards quickly pushed Draughon into a waiting vehicle and sped him to Rex Hospital.

Draughon's condition is listed as

critical. At the moment of the first shot, he was heard to have said "I've been shot, by God. I must be doing my job."

A suspect was immediately restrained and wrestled to the ground by nearby Technician security agents.

William Warbucks IV, 23, of Route 8, Raleigh, was taken to the Federal Prison at Butner for observation. Warbucks is currently executive director for the Raleigh-based organization Students for Fascist

it is believed to be part of an effort by Fairness in Media to attempt a hostile takeover of Technician.

Both Smith and Jones said in an interview they were happy they were arrested and also said they, in fact, tried to get arrested to bring publicity to the sale of birth control devices and early pregnancy testing kits at the store.

They disagreed with the RPD's account of the story.

"We never agreed or signed anything. This is a liberal, communist both hollered as they were plot," pushed out of the Wake County Courthouse. Both were visibly upset, with tears running freely and feet stomping.

"Birth control is just like abortion. It is murder. Every time you prevent a pregnancy, you are doing the same as killing the child that would have been born. Birth control devices such as condoms are going to be the downfall of this great nation," Smith said in an interview.

"The early pregnancy testing devices are the same," Jones said in an interview. "Girls don't need to know they're pregnant. We just feel they should shut up, have the babies and stay at home - preferably without shoes.'

The manager of the store, Lib Ral, said in an interview after the incident that she was flabbergasted by the protest. "I guess these are the same people who have been trying to get a bill through the legislature that prohibits the open sale of any feminine products in a store where persons under the age of 18 shop. I don't understand them.

In an exclusive interview with The Noise and Disturber, Smith and Jones made these comments:

"We're part of a growing movement of students of conservative thought. We are the student movement of the 80s - the 1880s, that is. They were great times. Completely free enterprise. Weak unions.

The low turnout was due to a time conflict with a television show. Jerry Falwell's Hour of Power is a favorite of our members, and they just couldn't justify missing it."

"Our first and foremost goal is to get Jesse Helms elected president, and then to pass a constitutional amendment giving the president an unlimited number of terms, until Jesse decides he has done enough," Jones said.

"Our greatest goal is to rid the

and any other material that might educate a person about sex. "It is a well-known fact that the more a person knows about sex and birth control, the more likely they are to have sexual activity and get pregnant. The best knowledge is no knowledge," Jones said in the in-

terview "'Ignorance is bliss' is our motto. We're as happy as can be," Smith said.

**Poulton allots lands** for parking, golf course

### **By ANN GREENWICH** Staff Writer

N.C. State University Chancellor Bruce Poulton updated the university's plans for the newly acquired land surrounding Dorothea Dix hospital at a news conference Friday.

Poulton listed three main uses for the land, each having approximately equal priority.

Listed as proposed uses for the land were new resident parkng for NCSU students, a faculty golf course and a large tobacco research station.

"We have been looking for quite some time for a place to -stick resident parking. The Faculty Senate has been on my ass for several months now to get the residents off the inner campus and give the parking to them, so that's the main reason for the parking allocation," Poulton said.

"We have also had a great need for increased recreational opportunities for the faculty. A golf course is just what the doctor ordered, the doctor of the Faculty Senate, that is," Poulton guipped.

Finally, Poulton discussed the need for a new tobacco research station.

"Although most tobacco research is not very space intensive, we feel that since tobacco is such an important crop to North Carolina, it is deserving of the space," he said.

Poulton responded to questions as to why the station could not have been located in a more rural area by alluding to demands by researchers that they not be required to travel

"They feel that if the station were located too far out, it would make it difficult to hire secretaries," Poulton said.

Although not discussed in great detail, the parking proposal is sure to arouse the greatest uproar.

'We feel that it is much more important to look out for the comfort of the faculty and staff - in this case, their parking ease - than to consider the inconvenience for the students.

"They shouldn't be out late anyway, so why should having their parking out there make such a difference?" Poulton said.

"In addition to moving them, we are considering making the student body pay for the new lots by a fee increase," Poulton added.

WASHINGTON - The \$48.5 million takeover of CBS was finalized Sunday, and a new era of special interest broadcasting will commence Tuesday evening during the newscast, according to Sen. Jesse A. Helms, R.N.C.

Helms, speaking at the Radicals for Ronnie convention in Washington, D.C., said that the country has spoken and given its mandate to the Right. "We are a liberal-fearing nation, and we'll fight those commies ments," Helms said. "We'll change the way America thinks, and I'll be like a Big Brother to all the people."

The Congressional Club in conjunction with Fairness in Media supervised the unprecedented acquisition of the CBS network. The entire pre-Helms working staff of CBS was fired today, and conservative, hand-picked replacements will fill the vacated desks by dawn Tuesday.

Giving the victory peace sign, which former President Richard M. Nixon immortalized, Helms said that there is still hope for the stringent Puritan ethics that shaped America into a global military power.

For over two months we've been hearing how you're going to turn college athletics around, how you're going to end freshman eligibility, raise entrance requirements for athletes and generally turn your athletics program into one that will rival an Ivy League school in academics. Nice talk. All talk.

Where are the results? Where are the scholars you were going to bring in? Where is the announcement that next year's freshmen will not be allowed to play varsity sports in the major revenue sports? Where?

We've waited patiently for results. We have none. You've had plenty of time to get everything done you said you would; after all, it only took the Romans one day to build Rome.

It is a well-known fact that your interest in athletics goes beyond your duties as an administrator. There's hardly a person in the state who doesn't know how much you like being the only

You knew all along that it wouldn't pass, so you came out for it to appear to have the best interests of the athletes in mind. Smooth trick.

It's time to get off your duff, Bruce. We want results, and we'll keep on writing editorials about you until all wrongs are righted.

# Scores should determine everything

Chris Washburn had a 470 SAT score. How can they 'let this kid get into State University? With an SAT score this low, he would probably have difficulty getting into a State penitentiary, much less an institution of . higher learning.

I don't like it. I don't like the athletic department for giving him the scholarship. I don't like the coach for recruiting him, and I don't like the chancellor much either. He had a 470. A four-seventy! That's a four, followed by a seven, followed by a zero. In other words, that's a 200 on the mathmatical section and a 270 on verbal. Add those two together and

## The lost weekend

The sky is blue, the walls are breathing and the elephants are pink. If you don't see these hallucinations clearly, you're not drinking enough. In the tradition of that great distiller, we condone drinking, heavy drinking.

If someone has told you not to drink until afternoon, just remember - it's noon somewhere in the world. Heh, heh.

There's nothing wrong with drinking to special occasions, like the weekend, the weekdays, the mornings, the afternoons, the sunshine, the rain.

Don't worry about the D.T.s. They can be cured with a shot of Jack Black.

Our favorite drink is the next one. In fact, we drink between drinks. We've never met a drink we didn't like.

Damn, get that lizard off my leg. The spiders are in the TV set waiting for me to fall asleep. They want to devour my soul. Did I have breakfast with Jack Kennedy today?

The hallucinations are more frequent now. The bugs are coming out of the TV set; they're mad! They saw my can of Raid. I'm doomed. I need a drink.

that's 470.

Boy, that really bugs me. In case you forgot what he made: a 470 on the SAT - the Scholastic Aptitude Test. It tests the scholastic aptitude a student has. Of course, Washburn made a 470, which proves he doesn't have much aptitude in scholastics.

The maximum is 1600. That's a 1330 more than a certain basketball player made. He made 470 - not 1600.

The minimum score is 400. Students get that much for signing their names. Well, a certain someone got only 70 more points than that.

Did I mention that Chris Washburn made a 470 on his SAT test? Well, if I didn't, he made a 470 on it. That's not too good.

Ignoring the facts that he was recruited at very early age, that the SAT is not an accurate determinate of collegiate success, especially for minorities, and that athletes are placed under much pressure to forego academic excellence, Washburn only made a 470. For those of you who know "Chisem-bop," that's not much finger tapping.

On the other hand, I wonder what Ronald Reagan's SAT score was - or Jesse Helms'.

Chris Washburns running around with 230 million 470 SAT scores. We'd have to pave the country and make it into one massive basketball court. I don't like basketball. I don't like any sports. You see, when I was a kid, we were too poor to have sports. We didn't even have a ball; we just imagined that we had one. That is, unless we could find a cat to use.

We had to walk 20 miles in the snow, without shoes, to see a sport, any sport. You can bet that when we did see a sport, none of the players had a 470. Washburn had a 470.

When I was in school, basketball players didn't like me. They used to call me Meathead and squeeze my body like a zit. I had lots of zits when I was a kid, about 470 of them. I hate zits, and I hate 470s. Washburn had one on his SAT. That is, the Scholastic Aptitude Test.

We were too poor to have SATs in my day, so we had to pretend that we took them. As long as I was pretending, I made a 1600, not a 470.

I used to get beat up all the time in high school, about 470 times a year. I hate 470s.

I've been reading the People's Forum for years, and I never thought they were true. That is, until something happened to me. I was sitting in a port-a-john on the construction site where I work when a tall, long-legged blonde walked in and said, "My measurements are 36-24-36." Then she handed me a tape measure and asked me to confirm her claim. Before I knew it, we were both naked as jaybirds.

I couldn't believe it. There I was, in a port-a-john, engaged in the kinkiest sex in my lifetime. We had that john rocking so much it toppled over into the street. trapping us inside. But hell, I didn't miss a stroke.

All of a sudden, this UFO picked up our love nest and took us inside their ship where they forced us to perform unnatural sex with extraterrestrials while they studied us for some type of dissertation. It was awesome. You've never had sex until you have menage a trois with two females from Alpha Centori.

The aliens returned us to earth after our trip to a totally unexplored errogenous zone, but no one believed my story. I know your readers will. As for me, I'm spending a lot of time in port-a-johns, hoping my new friends will return.

I noticed something the other day. You never see Gov. Jim Martin and Jerry Lewis in the same room. And every year

You never see Jerry Lewis for the rest of the year. Maybe, because he's in our governor's mansion; maybe, because they're one and the same.

I also heard that Gov. Martin is very. popular in France. They think he's a political genius. If you want my opinion, Gov. Martin should get together with his cousin, Dean, and make some more funny movies.

## Simple mix-up

Once again, the liberal press has distorted my words. As president of the United States, I have to make a lot of speeches and sometimes you can mix them up. I was quoted as saying, "Let's keep the grain and export the farmers." That's not what I meant at all. I really meant, "We've just made farming illegal, and the bombing starts in five minutes."

# Local man finds wonders of controlled drugs

RALEIGH - Back in the 70s. Jack Smith was a teacher, Boy Scout leader and all-around respected member of his community. Then, in 1980, something happened that changed his life. Jack Smith was introduced to the world of recreational pharma ceuticals.

I remember Jack back from the days of the war and riding motorcycles in the 60s. He was pretty cool then, too. But now Jack has changed, and his life has taken on new meaning.

"Well, ole buddy," Jack commented as we sat and ate lunch at some inconspicuous barbeque joint the other day. "Things was pretty boring until I found controlled substances. I mean, all those kids. Kids in school, kids in the scouts. I was getting tired of the little farts, know what I mean?

"So one day after school one of the little fellas left some candy on his desk. Well, at least I thought it was candy. I took a few hits of speed by mistake, and I read War and Peace at a stoplight on the way home. It was then I knew

that I needed a change of pace."

Since that time Jack has been doing some heavy research in the area of chemical alterations, and he has made quite a few accomplishments.

"My favorite," he said, "is a drug that turns farts purple. It's a real knee slapper at parties and stuff."

Who would have thought that such a nice fellow like Jack would have found his calling in the underworld? Not many, I bet. But that doesn't bother Jack, he's used to ridicule, coming from a small tow.. outside of Raleigh.

"Sure," he said. "I've heard all the Fuquay-Varina jokes. I even made some up myself."

Having done some heavy research into acid, Jack sometimes has times when he doesn't function quite properly, but he adjusts marvelously, right Jack? 'Gaaaaaaaaaaaaaaaaaa.'

While unemployed, Jack hit a couple of area banks, but he is planning on returning all the money when he hits it big with his newest invention, the Sex Simulation drug. It has potential to sweep the nation's high schools.

"I know how it is to run around horny all day," Jack said. "I was pretty ugly when I was in school, so the girls didn't exactly attack me. But with this new drug, all you have to do is pop a pill in the bathroom between classes, and it's off to Sex ville, get it?

"I think we are going to market it on a Wednesday," he said. "It'll put a whole new twist in 'Hump Day."

Jack has been busy lately, commuting back and forth to Venus for his research, but he still had time to sit down and chat with an old buddy from the 60s. I guess he hasn't changed after all.

## **McDonald's mixes** porn with fast food

Officials of the soon-to-open McDonald's on Hills-borough Street have said that they intend to show pornographic movies on the two 70-inch screens that will be located in the restaurant.

"We are attempting to retain the spirit of the old Studio One movie theater that used to be located here," manager I.M. Grimace said.

"We conducted numerous market surveys and found that a number of people were opposed to the closing of Studio One, so we're trying to make everybody

happy." Studio One closed in the fall after it was bought by the McDonald's Corp. The theater was renowned for showing "art" films in the evenings and pornographic movies during the day.

"We really think this will cause a revolution in the fast food industry," Grimace said,"This is going to catch on like wild fire.'

"McDonald's has been trying for years to update their image. You know, the clown thing is really getting old.'

We're really hoping to draw the college market with this move. Of course, this is only the first step."

Grimace declined to comment on what further steps would be taken to revamp the company's image.

## Seven league schools forfeit games in point shaving scam

THE UNASSOCIATED PRESS

LEXINGTON, Ky. - A federal investigation into alleged point-shaving at Tulane University has spread to The Big East conference, resulting in the forfeiture of all basket ball games played by league schools, with the exception of Seton Hall and Providence.

David Gavitt, commissioner of The Big East, said the league would appeal the ruling announced Sunday but Jack Davis, NCAA president, said the decision would stand.

"The investigation has revealed that seven of the nine Big East schools were guilty of fixing the score," Davis said. "We stand behind (People's Court) Judge (Joseph H.) Wapner's decision."

Wapner, who handed down the ruling sporting a N.C. State bath robe and a North Carolina hat, denied reports that he was biased by an allegiance to the ACC and his alma mater, Duke University.

"That's just bunk," Wapner said from behind a pair of "Go Duke" sunglasses after the trial. "The ruling had nothing to do with my relationship with 'Skeet' (ACC commissioner Marvin 'Skeeter' Francis) and the boys.

"We do get toge ther for an ocassional Dutch Master and a round of golf, but beyond that I never see the guy."

The "boys" apparently refers to State coach Jim Valvano, Carolina coach Dean Smith and Duke coach Mike Kryzewski.

Six Big East schools - Pittsburgh, Boston College, Syracuse, St. John's, Villanova and Georgetown - advanced to the NCAA tournament but were disqualified from the post-season event, according to Davis.

"We can't allow no cheaters in the tournament," Davis said. "Especially from some two-bit conference that thinks it's better than the ACC."

Seton Hall and Providence will meet in a special playoff for the vacated Big East championship on April 6 in Madison Square Garden in a preliminary to an NWA Texas Death Match featuring "Rowdy" Roddy Piper, Hulk Hogan, The Junkyard Dog and Wahoo McDaniel.

The alternate plan, according to Davis, will be for the Final Four to be replayed this week in Greensboro with Duke, Maryland, North Carolina, N.C. State and Georgia Tech, all eliminated from the NCAA event by Big East teams, making up the field.

Georgetown head coach John Thompson was - as expected quite displeased with the final decision.

"We've been trying to compete with the ACC for years now," said Thompson. "So when we finally do, they just take it a way from us.

"This 'Hoya Paranoia' stuff was getting to be fun. We were really counting on a second consecutive championship. I hope Dean and the rest of those damn ACC bigwigs are happy now."

Dean Smith, last seen speeding out of a Burger King drive-thru, could not be reached for comment.

A landmark decision by People's Court Judge Joseph H. Wapner that disqualified all Big East teams from the NCAA tournament cleared the way for an all-ACC Final Four.

Wapner ruled Sunday that Big East teams were to be disallowed from the NCAA tournament because of point shaving. As a result the five ACC teams - Duke, Georgia Tech, North Carolina, N.C. State and Maryland - eliminated from the tournament by Big East teams will be allowed to play for the national championship Saturday and Monday in Green sboro.

Tar Heel coach Dean Smith said he was not surprised that a scandal had taken place, since his team was "four-cornered" by Big East Villanova last Sunday, and said his team would be ready to play by Saturday.

"Most of the players are still on campus because of classes anyway," Smith said. "Buzz (Peterson) is out of town looking for an agent, but we called his home and told his mama to locate Buzz and send him back as soon as possible."

Wolfpack coach Jim Valvano was out of town filming a commercial for Ragu spaghetti sauce. State spokesman Ed Seaman was doubtful if Valvano would return in time.

"The contract calls for him to go to Rome to make the spot," Seaman said. "Then after that, he is going to appear in Frank Sinatra's next video, which is to be made in Vienna, and after that ...."

Duke coach Mike Kryzewski was unavailable for comment, but released a statement to the press which read in part, "I think it is a fair and just decision. I knew all along The Big East was up to something. I mean, how can you logically expect a team like Georgetown to beat Providence by less than 80 points. It just couldn't be done.'

Maryland and Georgia Tech will meet in a preliminary first-round contest to pair the field to four teams.

"I can't believe that all the North Carolina schools drew the byes." Terrapin coach Lefty Driesell fumed. "It seems like every year Carolina wins the draw. They can't be that lucky."

Tech coach Bobby Cremins was on a camping trip with point guard Mark Price in Boone, N.C., according to Georgia Tech Sports Information Director Mike Finn.

"He took Mark up there to let him get lots of rest and some fresh air after his horrendous performance against Georgetown;" Finn said. "I'm sure they both will be elated to get another shot at the title, especially since they may get the chance to knock off Carolina for the fourth straight time.'

This season," Donald Saltine has had a bout with jock itch, been plagued with a hamstring injury and suffered through a batting slump.

But on Sunday, all the agony ended. The N.C. State senior belted a three-run homer with two out in the bottom of the eighth inning, powering the Wolfpack to a 6-4 victory over rival North Carolina before 7,500 fans at Doak Field.

"It felt great, there's nothing like it," said Saltine who had only one hit in his previous 14 at bats. "It's been a long time. I had jock itch before the season started and just couldn't seem to get rid of it. Then I got the hamstring, and I've just not been in the groove.

"It's been mentally and physically tough. I've been struggling. I feel I've been letting the team down, not to mention my girlfriends.'

Saltine went hitless in his first two at bats Wednesday, then walked on his third trip in the sixth inning. The center fielder reached third on two errors, but was caught stealing home. During that moment, however,

medical history was made. Tar. Heel

contact with Saltine and the rash "jumped on B.J. like dust," Saltine said Without the rash and with a sense

for perfect timing, he gave himself and the Pack the lift they needed.

His blast over the left-field fence extended State's winning streak to eight games, improved the team's Atlantic Coast Conference mark to 3-2 and overall record to 20-10. It also assured coach Sam Esposito, whose players have had a history of this type of fungus, his 15th 20-win season in 19 years and sealed starting pitcher Paul Grossman's sixth triumph without a loss.

It all happened in the zany eighth, when Carolina went ahead 4-3 in the top of the inning without hitting the ball out of the infield, then tried to vex the Pack with a juggling act on the pitchers' mound.

To start the eighth. Tar Heel reliever Tim Kirk pitched to two batters, retiring Bob Marczak and yielding a single to Doug Strange. Coach Mike Roberts called in right-hander Todd Kopcynzski to face the right-handed hitting Alex Wallace and sent Kirk to right field.

Wallace reached first on a throwing error, and Kirk was waved back to the mound. He fanned Mick Billmeyer. But then Saltine, hitting .300 despite his itch and slump, delivered a 350-foot shot that broke the Tar Heels' backs, snapped their eight-game winning streak and left them at 4-2 in the ACC and 18-11 overall.

"Give them credit, they deserve to win, but they gave B.J. another itch and we gave them four outs in the eighth," said Roberts, referring to

for the three unearned runs. "We had exactly what we wanted (with Kirk back in). I thought he would keep the ball in the ball park and the itch to himself.

.

Carolina scored three times without poking the ball past the infielders. After infield hits by Jim Stone and Walt Weiss, Grossman tossed Surhoff's sacrifice bunt over the third baseman's head, allowing two Tar Heels to score.

Moments later, Surhoff, hobbled by his newly acquired itch, squirted home on a suicide squeeze by Scott Johnson, giving the Tar Heels a 4-3 lead.

"Both starters pit ched a whale of a game," Esposito said. "I'm pleased we were able to bounce back. And overall, I thought we were very, very aggressive and sound defensively. And I'm happy to see one of Saltine's problems is behind him now. We've been needing him to pick us up."

In the top of the ninth inning, Carolina threatened mildly, putting two runners on. But reliever David Hall, who pitched the final inning, stopped the rally by retiring Surhoff on an infield grounder for the last out.

And the Tar E.els left just itching to get another crack at the Pack. N.C. State 6, North Carolina 4

Successful post-season keeps Sonny Smith at Auburn

ROCKINGHAM, Ala. - Striding ever-so-casually in front of the Auburn bench, the coach known simply enough as "Sonny" paused to take a quick glance at the scoreboard high above.

The timing seemed ironic, if not downright prophetic.

For this good ol' boy from the heart of Dixie, the clock seemed to tell the entire story. A little over one month before, Sonny Smith had announced that his stint at the Auburn helm was over with the Tigers' final loss.

But while Dean Smith's incredible Heels wrote the final chapter to this, his self-proclaimed finale as a Pat Dye subservient, Sonny had already

begun thinking ot herwise The season had been one of

difficulty - if not simple frustration. It had been a campaign indeed gone second fiddle to Dye's heroes of the astray, yet then recaptured somehow gridiron. Naw, these War Eagles of and savored by those most earnest coach Sonry Smith - a far cry from believers of destiny.

Charles Barkley who now toils for the 76ers of the NBA, had fallen a bit off the pace in the competitive SEC. And when fortunes are such, the Joe B. Halls and Hugh Durhams seldom pause to pick up the fallen and help dust off the britches.

So thus it stood until that fateful day not so long ago when Sonny's boys sent the SEC packing and toted their own luggage off to the promised land - the NCAA tournament.

Once there, as luck would have it, the Tigers forgot their roots. No longer were they a team playing those beastly be hemoths who clash

Birmingham anxious to become a Smith ever since he settled down at backyard.

Under Sonny, the Tigers did just that. Dealing consecutive defeats to highly-regarded Purdue and Kansas and extending their season-ending winning streak to an eye-catching seven games, Auburn emerged as the sweetest of the Sweet 16. Until, of course, Dean's fellas from Blue Heaven rightfully reclaimed that title

But Sonny Smith, only days after his "last game," is a happy man once again. He purveyed as much as we sat chatting and chugging (primarily the latter) in Bertha's Bar and Grill less than a stone's throw from Auburn's campus.

"I make mistakes - much like anyone else in this demanding business," Smith offered before pausing for another nip on his Pride of the South Beer. "But until we accomplished what we did in recent weeks, no one took us seriously."

and NCAA appearances sit well with the higher ups - even in a state that still thinks Paul "Bear" Bryant is gov'nah.

"I think once we won the SEC title, the tune started to change," Smith said, striving to muffle a contented belch. "Sonny and money soon went hand in hand. Before, I couldn't even get Dye's football players to interrupt their winter workouts in the gym so we could practice."

the same money desk with Dye. When the Auburn athletic ad ministration offered \$180,000 for the reason to renig on his decision.

His game-by-game existence a memory of the past, Smith will now concentrate on building the Tigers into the program that fans can actually talk about before spring football drills begin.

Yeah, good ol' Sonny had come out on top. And he knew it. Just as sure as the beer in his hand was brewed with that "exclusive beechwood aging process," Sonny had achieved his goal.

Without upstaging Dye, Smith had established himself and his team as SEC contenders. And although Bertha rudely switched to the Birmingham Stallions USFL game when the Auburn UNC game was being replayed on the TV set above the Pabst Blue Ribbon mirror, Smith

"We did our best to represent Auburn University and the tradition we're striving to build here." Smith said. "Now everybody knows who we

**NOTES AND QUOTES:** Sunday's ruling that seven of the nine Big East schools were allegents. "firing their league games makes it obvious now. why there's a noticeable difference in attitudes in that conference and the

Atlantic Coast Conference.

Big East coaches and players often talk about pulling for the opposing team in league games, depending on the line and the payoff.

That's something that isn't mentioned in the ACC, of course.

"No wonder I've noticed on television that coaches in The Big East have more camaraderie," Maryland's Lefty Driesell said Sunday after the announcement was made. "In the ACC, we sprint the other way and cuss each other out.

"Shoot, their coaches could foot all of our salaries with their payoffs. Why, I'm not afraid to tell anybody now that John Thompson offered to pay me to wash his Jag last summer.

"The ACC is definitely the most honest league, despite the intensity."

...

With the recent disclosure of Big East "racketeering," several major changes have taken place in the NCAA tournament format.

The Big East, winners in each of the decisive clashes with the ACC in NCAA action, must now forfeit those victories. Thus, all four ACC victims will be reinstated to the tourney field, comprising a new-look "Fabulous Five."

In a preliminary game for the Fabulous Five, Maryland will meet Georgia Tech, with the winner facing North Carolina Wednesday.

In earlier "illegal" wins, Villanova had nipped the Terrapins, while Georgia Tech bowed to prodigious Georgetown.

State will face Duke in the other Fab Five final.

Tech appears to be the favorite against Maryland, although ACC match-ups tend to provide plenty of upsets. If Cremins can manage to inspire his team like he did so well in the ACC tourney earlier this month. the Ramblin' Wreck stands a good. chance of winning still another title.

State, meanwhile, would seem to have a distinct advantage over the Blue Devils. Lorenzo Charles has provided plenty of offensive punch in the Pack's late-season surge and no one knows this better than Duke's Blue Devils.

The Wolfpack swept Duke in both meetings during the regular season and the Blue Devils are short on inside power capable of containing Charles. Nonetheless, it should be an interesting match-up.

His quest for those pastures that seemed much greener elsewhere is now over, because conference titles

Despite Commissioner Dave Gavitt's claim that members of his league are innocent, the evidence weighs heavily against the league excluding Seton Hall and Providence - that was accused.

State soccer coach Larry Gross on a recruiting trip three weeks ago, he has been contacted by 937 track coaches, 578 soccer coaches, 625 football coaches and several Mafia-related families. Flukem, in a statement, is leaning toward UTEP and UCLA in track, N.C. State and Indiana in football, Guilford and Houston in soccer and the Corlopeno family.

QUICKIE QUIZ: Who was the last person to be described as a "dapper dresser" in this column?

Answer: Georgia Tech's Scott Petway, who dazzled off-the-court observers at the ACC Tournament with his wonderful wardrobe of white slacks, white shoes, white shirt, pink tie and blue-striped jacket. That description of Petway appeared in the March 13, 1985 edition of The N&D.

**BONUS:** What vastly-improved, 6-11 Tar Heel reserve hoopster was once described in his high school yearbook as "the world's only living miscarriage." Answer will be in next week's column.
