

## State Population Increased By 193 In Registration

### Engineering Most Popular Course at State College

#### SCIENCE AND BUSINESS SECOND IN ENROLLMENT

Two Thousand Students Are Expected to Enroll Before Year is Past; With Each Registration Co-eds Increase in Number at N. C. State.

State College is larger by 193 students than it was at the first term last year, causing the population of the institution to reach the mark of 1,812 at the end of registration. This does not count those who registered late and are still registering. It is expected that 2,000 students will enroll before the year is past. Bus and train poured into State College 626 new men to take the places of those lost in graduation last spring. Several of the new students are a boon to the sore eyes of the male population, for co-eds always attract the lion's share of attention, and have increased greatly over the number present last year.

Among the new men the School of Engineering seems the most popular, with 309; 94 of these registered in the School of Electrical Engineering. The department of Mechanical Engineering follows with 50 new students.

Additions to the Science and Business group totaled close to 110, making that school second choice of the new students. The School of Agriculture holds third place.

### FRESHMAN FELLOWSHIP GROUPS ORGANIZED BY STATE Y. M. C. A. MEN

Annual Freshman Fellowship groups are being organized by LeRoy Clark and Harvey Whitley, with approximately forty-five able upperclassmen taking groups. The canvass, which was made last Wednesday night, resulted in two hundred and fifty-seven freshmen signing up for the groups. These meetings are to be held every Wednesday night, from six-thirty to seven-thirty.

Rev. E. M. Potat, Jr., pastor of the Pullen Memorial Baptist Church, willingly agreed to take charge of the weekly meetings of the discussion leaders on Monday nights. Mr. Potat is very able in leading college groups, having spent his entire life on college campuses.

Freshmen from First, Fifth, and Sixth dormitories are to meet in the Y.M.C.A. building. These groups will be led by Dr. Carl C. Taylor, Dean of Graduate School; Dr. Z. P. Metcalf, Director of Instruction in School of Agriculture; Prof. Harding, of the Textile School, and W. N. Hicks, Professor of Religious Education.

Other prominent men of the campus who are working with these fellowship groups are J. E. Moore, Associate Secretary of the Y.M.C.A.; E. W. Buchanan, President, and A. D. Stuart, Vice-President of Y.M.C.A.

The Freshman Fellowship groups are held on each floor of all dormitories except First, Fifth, and Sixth, with the purpose of helping the new men to become adjusted to college life and to promote good fellowship among

### FRESHMEN PICTURES WILL BE MADE HERE OCTOBER 5 AT YMCA

The photographer will be in the Y.M.C.A. Saturday, October 5, to finish making freshmen pictures. This day will be the last chance for freshmen to have their pictures made. If you have already paid, be sure and bring the slip containing the number.

E. H. ROBERTS.

### STATE GRADUATE PRAISED BY CONSTRUCTION COMPANY

#### M. W. Brown Received A.G.C. Scholarship Here Last Year

Report has been received from Superintendent Crews on the work of M. W. Brown, a graduate of the past year in construction engineering, to whom the A.G.C. scholarship at North Carolina State College was awarded last spring. Mr. Brown was employed during the summer months by Anglo-Blackford Company on the Robert E. Lee Hotel addition at Winston-Salem. Mr. Crews' letter is as follows:

"Brown came to us right out of school and was placed on some of the roughest and most difficult work we had to offer, from a physical standpoint, that of handling and carrying lumber to the form builders. He was placed on this work immediately, by the writer, in order to test his stamina.

"We have worked him on an average of fourteen hours per day, and we are glad to report that he has never made a complaint, either as to the hours or as to the work required. He has not missed an hour from the job since the first day of his employment.

"After having received varied experience along lines of actual construction, he was placed with our engineer and required to run lines, give levels, lay out partitions, etc., in which work he has proven accurate and in every way satisfactory.

"In summary, we would say that he has shown ambition, energy, accuracy, stability, and a desire to learn, and, in our opinion, is the type of young man that would prove to be an asset to any contracting organization."

### RIDDICK FIELD UNDERGOES RENOVATION FOR BIG GAME

#### "Daddy" Price's Band Will Be Out, Resplendent in New Uniforms

Riddick Field, the Wolfpack lair, is receiving a general overhauling under the direction of Dr. R. R. Sermon, acting director of athletics, in preparation for Friday's opening scrap with Washington and Lee. Before this opening game the grandstands will have been completely renovated and the reserved seats renumbered.

During the summer months the field was dressed with topsoil and seeded with grass, which has developed into a sturdy stand of turf. The field has been used very little for practice, and should be in fine shape for the coming of the Generals.

With the opening game less than a week away, the field is being prepared for the coming of the Generals.

### Senior Blazers Urged By President Koonce For Graduating Class

Seniors are urged to buy "blazers" in a letter to graduating men from President W. E. Koonce, of 1930 class. Mr. Koonce, in his letter, pointed out that the blazer, when bought and worn by the purchaser, is a mark of distinction which this class is the first to enjoy. It is hoped, Mr. Koonce says in his letter, that the blazer will become a tradition on the campus.

### Weaver and Plonk Head Technician For Coming Year

Failure of W. R. Dixon, editor of THE TECHNICIAN for the coming year, to enter school this fall threw a wrench into the mechanics of the paper. The first edition was published due to the heroic efforts of James Parker and Louis H. Wilson, managing editors of the past year. The loss of the editor was a serious matter that only the student body or their representatives could remedy.

In the election last spring A. L. Weaver was elected to work with Dixon in the role of business manager. At a special called meeting of the publications board, composed of Professor Stewart Robertson, A. S. Brower, comptroller, and representatives from the three college publications and the student body, last Friday evening, F. W. Plonk was elected to the position of business manager, with Weaver as editor.

Due to serious mismanagement of finances during the past year, the board passed the motion made by Mr. Brower that all publications hand in a monthly report of all finances and business transactions. This method will be of value to all publications, as it will give all an insight into the doings of the others.

The board also decided to make the meetings a regular affair, instead of waiting until the necessity of a called meeting to straighten out publication difficulties. Regular meetings are to be held the first Wednesday after the first Saturday of each month at 12 o'clock.

### STATE FUTURE LOOKS FAIR AS CO-EDS NUMBER FIFTY

#### Ada Spencer Among the First Pioneers at State College in 1926

The number of co-eds at State College has increased by leaps and bounds, since Ada Spencer, the pioneer of State College co-eds, entered in 1926. The number has increased by ten times, that year there being only five enrolled.

This year's school has opened with fifty of the fair sex present, more than twice the number of last year, which was twenty-one. At this rate of increase it will be only five years before the number of co-eds will equal the present number of boys at this institution.

Girls are really revolutionizing State College. Day by day the old college is changing with the rest of the dear old world. Most of the co-eds are registered in the School of Education, and journalism claims a few. Below are the names of co-eds enrolled:

Sallie Virginia Anderson, Jane Virginia Andrews, Nancy Beddingfield, Edith Wells Cowper, Fannie E. Featherstone, Linda Catherine Madry, Josephine Richards, Maud K. Schaub, Ada Curtis Spencer, Mary Joe Swicegood, Mary E. Brooks, Mary Hunnicutt, Dorothy Blankenship, Edith Buchanan, Katherine Samalilly Crinkley, Pattie S. Dowell, Edith Gilbert, Mrs. L. S. Holland, Sue Howell, W. M. Kirhna, Mrs. L. B. Ladu, Nancy Lee, Cora McLean, Mag

### Sigma Pi Builds First Fraternity House At N.C.S.

Marking the beginning of an era of fraternity house construction at State College, Rho Chapter of Sigma Pi fraternity completed, during the past summer, the first house to be built by a social fraternity, at 2513 Clark Avenue, Fairmont.

The house, which will comfortably take care of 32 men, is of a modified colonial design. The walls are of "Selma Colonial" brick, made especially for the job by the George M. Norwood Brick Company.

The house is of three stories. The ground floor contains a living or club room 13 by 50 feet, the rear of which is glassed in to create a solarium. On the opposite side of a large entrance hall is the dining-room, kitchen, and secretary's office.

On the second floor are four large bedrooms and two bathrooms containing shower cabinets. The third floor is a large dormitory with a capacity of 14 beds.

The floors and trim are of oak, the trim being finished natural. The heating system is of the vapor type.

J. Marvin Thompson of Raleigh was the general contractor, and the construction was under the supervision of Professor A. F. Greaves-Walker, an alumnus of the chapter.

The building cost approximately \$18,000, and has been newly furnished throughout in the club-house mode.

Sigma Pi established a chapter at State College in 1921.

The active members are receiving many compliments on their progressiveness in building a home, and it is anticipated that several other fraternities at State will soon do likewise.

### STATE STUDENT ELECTED TO HEAD S. R. CONFERENCE

#### A. D. Stuart Begins Second Year on Y. M. C. A. Regional Council

A. D. Stuart, of Hamer, S. C., senior in Agronomy, was elected chairman of the Southern Regional Council of the Student Y. M. C. A. at Blue Ridge last June. This is the group that plans and carries out the annual Blue Ridge Conference held each year near Asheville. This office, which is virtually the office of president of the Southern Regional Council, shows the appreciation of a State College man by three hundred of the Y.M.C.A. leaders of all the colleges of the South. Under Stuart's leadership the Y.M.C.A. programs of all Southern colleges will be planned next summer.

Stuart has already commenced work on next year's program, a meeting being held at Peedie University, N. J., during August.

Stuart is very active in college activities, being in several honor societies and other organizations, including Alpha Zeta, Pine Burr, Blue Key, Agricultural Club, Leazar Literary Society, board of directors of Students' Agricultural Fair. During his junior year Stuart was on the Y.M.C.A. Cabinet, and this year he is vice-president.

Next year will be Stuart's third year at Blue Ridge and his second year on the Regional Council.

### Literary Societies Here Begin Campaign for New Members

During the next three weeks Pullen and Leazar, the two outstanding literary societies on the campus, will conduct an intensive campaign among the members of the freshman class.

Unless there is an unexpected change of plans, the aim of both societies will be to pick from the freshman class a group of temporary members. Each society will probably choose from twenty to twenty-five. These members will be placed under upper-class guidance, and under the supervision of Professor Edwin H. Paget, faculty adviser, at the end of the winter quarter those qualified to become active members will be elected. The maximum number elected will probably be set at ten or twelve, thus assuring the societies of the best possible members from the Class of '33. Election will thus be considered one of the highest honors a student may receive while at State College.

Both Leazar and Pullen offer a

wide range of activities, giving the student the opportunity to receive training in speaking, debating, oratory, reading, discussion of vital and timely questions, parliamentary practice, and personality adjustment. The societies will also provide an opportunity for social development and for informal discussions. In the past both Leazar and Pullen have played very prominent parts in student life. From their ranks have come the orators who have several times represented the school in the constitutional contests in Los Angeles, California; the many debate teams which have traveled widely in the South and East; and many prominent leaders in student life at State College. The programs of both societies during the first three weeks will be devoted partly to preparing new members to assume their parts in the forensic, oratorical, parliamentary, amusement, and social activities of the societies.

## Governor Gardner To Be Speaker On Anniversary Day

### GOVERNOR SPEAKER ON FOUNDER'S DAY

GOVERNOR O. MAX GARDNER

### SEVEN AGRICULTURAL MEN ON CATTLE JUDGING TEAMS

#### Will Go To National Dairy Exposition at St. Louis, Mo., October 14

Seven agricultural students, out of a field of forty, have been selected for the final intensive training period in preparation for the Students' National Dairy Cattle Judging Contest, to be held at St. Louis on October 14, 1929.

Last spring forty students, all of whom had three years experience in dairy cattle judging, took judging work for three months, at the end of which the following students were selected:

J. S. Wilkins, L. W. McLaughlin, A. G. Bullard, R. L. Browning, T. O. Perry, D. E. Patterson, and W. H. Brake.

The above students will be given two weeks of intensive judging practice here at the college, and will also visit several outstanding dairy farms in the State. On October 13 the four outstanding judges will be selected and will constitute the team making the trip to St. Louis. The dairy judging team is being coached by Professor Fred M. Haig of the dairy department.

The National Dairy Exposition is the most important dairy show in the United States. At this show the best dairy cattle from all over the United States assemble and compete for the high honors and prizes offered.

The Intercollegiate Dairy Judging Contests have always been one of the important features of this great show. More college teams compete in this contest than in any other judging contest in this country. Last year thirty-two college teams from the United States and Canada competed for cups and prizes offered to the winners.

N. C. State's dairy teams, in the past, have always made creditable showings against the other college teams, and every effort is being put forth by the State team to be out in front this year.

### Co-eds' Headquarters Located In Seminar Of College Library

For the comfort and convenience of the women students of State College the Southeast Seminar room, on the second floor of the Library Building, has been set aside and designated as a rest room for women. This room has been provided with tables, comfortable chairs, and a mirror, and will be open from eight o'clock in the morning until ten o'clock at night, for the exclusive use of women students.

Toilet facilities for women will be found in the following buildings: Ground floor, on south side, Library Building; first floor, Holladay Hall; second floor, Peele Hall; second floor, Ricks Hall.

### Exercises Begin in Pullen Hall, October Third

#### MEETING COMMEMORATES STATE'S 40TH BIRTHDAY

Other Speakers Will Be Dr. W. C. Riddick, Dean of the School of Engineering, and F. T. Meacham, of Statesville, Who Will Represent First Graduating Class of the College.

The formal opening at North Carolina State College and Founders' Day exercises will be held, jointly, on Thursday, October 3, Dr. E. C. Brooks, the president, announced on Wednesday.

Governor O. Max Gardner will be the principal speaker at the exercises, which will be held at 11 o'clock in Pullen Hall. Other speakers will be Dr. W. C. Riddick, dean of the School of Engineering, and F. T. Meacham, of Statesville, who will represent the Class of 1889, the first graduating class. Founders' Day, this year, commemorates the fortieth anniversary of the establishment of the college.

Following the exercises in Pullen Hall, to which the public is invited, a luncheon will be served in the college dining hall, with Governor Gardner, members of the Class of 1889, and others.

—Continued on page 4.

### 'TO BE HAMMERED OUT' IS A STUDENT'S AIM IN COLLEGE, SAYS DANIELS

"Young men come to college to be hammered out," said Hon. Josephus Daniels, in speaking to the State College Sunday school class at Edenton Street M. E. Church, South, Sunday morning, September 22, at their first meeting of the year.

"You display what kind of metal you are made of," continued Mr. Daniels, "by being subjected to conditions and problems that will really prove your worth." Mr. Daniels further stated that a young man need not come from a wealthy family to make a success in life. Some men, he said, who make the greatest successes come from the most humble homes. And some boys with the greatest opportunities amount to the least.

The State College Sunday school class at Edenton Street M. E. Church, South, is one of great popularity. It has been established for years, and Mr. Daniels has been the teacher for quite a while. This particular class has always been known for its large attendance, but it is thought that all attendance records were broken last Sunday when the freshman class flooded it. All State College men enjoy hearing Mr. Daniels talk, and there are few, if any, who have not at some time attended his class.

Mr. Daniels has made quite a record in appearing on the job to teach his class every Sunday for years. While he was Secretary of the Navy and stationed at Washington, D. C., he would come home every Saturday night to be in Raleigh on Sunday to teach his class. Mr. Daniels has a great interest in State College men. "Keep your bodies clean and free from abuse," advised Mr. Daniels, "because without a sound body and sound mind man is nothing; and you cannot have a sound mind without having a sound body."

Mr. Daniels spoke as a father and as a brother; and delivered a masterpiece, giving such advice as they themselves could not realize the profound value of. If freshmen would just build their college careers on the foundation that he gave, it would not be shaken by the winds and rains of time.

Our advertisers were solicited with the purpose of putting before you dependable shopping points. Remember this, and feel perfectly safe in guiding your shopping by THE TECHNICIAN.

We are glad that the Major is a lieutenant colonel, and prouder still that he will be with us for another year.

It rained on registration day; but that is nothing new, for that has happened every registration day for the past three years.

The beginning of another year. Why not start things off right? No use to wait until New Year's Day to make resolutions.

The annual moving of THE TECHNICIAN office is over and we are going to settle down for another year of hard work and late hours.

THE TECHNICIAN is fortunate in having such an able columnist as appears on this page this week. It is our hope that he will lengthen his column in future issues.

State College has a birthday October 3, the fortieth anniversary since it was founded. Some people would think that is getting old; but wait! old State has just begun.

We return to the campus to find that the old buildings have been remodeled and are as good as new. But my; these walks and roads! We are afraid the mud and dirt carried into the new building will ruin them.

**FORTIETH BIRTHDAY**

Next Thursday State College will celebrate the fortieth anniversary since the opening of the college in the fall of 1889. Since that date, which in reality is only a fraction in the movement of time, a great change has taken place. For the graduation class of 1893 to return to the campus is like Rip Van Winkle returning to his home after his long slumber in the mountains of New York.

State College was begun by men of forethought and ambition. It was their desire to make North Carolina a better place in which to live. Two distinct movements were responsible: the first represented by a group of progressive young North Carolinians banded together in Raleigh as the Watauga Club sought to bring about the organization of an industrial school for the teaching of woodwork, mining, metallurgy, and practical agriculture. The other movement, originating among the farmers in North Carolina and actively sponsored by Colonel L. L. Polk, then editor of the *Progressive Farmer*, had as its objective the establishment of an agricultural college supported by State appropriations and by the Land Scrip Fund of the Federal Government.

The first requirement of such

a school as was created through such a channel was that any many entering the institution be a graduate of the public schools of this State. Such a requirement left little room for selection and elimination; any man was eligible to enter after completing the courses given by the free schools. The result of such a method is the rapid growth in the student body in the last forty years. In that length of time State has built up the enrollment to over half the size of that of the University of North Carolina, which has been established almost a century.

Old Holladay Hall, the first building to be erected on the thirty-acre tract donated by Mr. R. S. Pullen, comprised the then A. and M. College of North Carolina. Years have passed, and graduating classes have passed on to make room for the influx of new blood. Thirty-six classes have come and gone—entering in the quest of knowledge and leaving knowing that the world is a greater place in which to live and that they are able to cope with the problems of society.

Handicaps have been met with at every turn; bridges have been necessary to cross the waters of strife and need. What has been and still is the secret of this great development from a one-building, two-curricular college to the campus that we know today? The secret is the wonderful fortune that State College has had in the securing of able presidents. The college opened October 3, 1889, with 72 students and a teaching staff of eight. Alexander Q. Holladay was the first president, 1889-1899; followed by George Taylor Winston, 1899-1908; Daniel Harvey Hill, 1908-1916; Wallace Carl Riddick, 1916-1923; Eugene Clyde Brooks, 1923—

Being a State institution, with appropriations from the State, State College is somewhat different from other types of schools. Our money comes from state appropriations and not from the philanthropic offerings of a wealthy godfather. The national cry is always "The taxes are too high." With such a stumbling-block in the way of education we can see plainly the job that has confronted the builders of our Alma Mater. The past four years has seen the erection of new buildings, the improvements on old ones, the laying of walks and the beautification of the grounds.

If four years can show so much improvement and the last forty the entire history, what will the next decade bring to the educational-seeking youths of the State?

**NEW BUILDINGS vs. MUDDY ROADS**

With a steady drizzle of rain for the first five days of the week the freshmen had the misfortune of not only becoming initiated to the ways of the sophomores, but also to the ways and means of the college in getting from one building to the other. During the past summer, work on the remodeling of old buildings has done much to help the inside appearance of the college; but these roads, THESE roads!

Walking on the campus, a thing that should be a pleasure, is misery. Dust or mud slushing about your feet until you are in doubt as to whether you will reach your destination or not. Probably we would have more visitors, which would

mean more students, if they knew that they could ride on the campus without being shaken to pieces, engulfed in dust or covered with mud.

How nice it would be to walk or ride on the campus with a feeling of nice, smooth, dust-proof, mud-proof pavement under us, and be able to walk from one building to the other and not wade through a sea of clinging mud.

**Student Forum**

**NOTICE, FRESHMEN!**

This is a warning for all freshmen to know the freshman rules, and for those that are supposed to be wearing the authorized cap to be sure that they have them on.

This does not mean that you can go for a few minutes without knowing the freshman rules of wearing the cap, for you know not the hour or the minute you may be caught. A check-up is being made now.

The penalty for disobedience is heavy, so take my advice and learn the freshman rules and find yourself with a freshman cap on your head at all times, except on Sundays and on holidays.

A. L. VANN,  
Judge, Court of Customs.

**"Y" WELCOMES STUDENTS**

Dear Fellow Students:

Again old State's doors are thrown wide open for the returning "Wolves" and for the "Cubs" who have for the first time come to make this their four-year home. This year finds her walls filled with the largest student body in her history, representing every corner in our State and many states in the Union, in addition to students from across the seas.

Every single one of these students is extended a most hearty welcome by the Y. M. C. A. The purpose of the Y. M. C. A. in connection with the college is to educate the entire man—physically, intellectually, esthetically, and religiously. North Carolina State College now has a great name as inculcating into her students those qualities of manhood which win respect everywhere. Her future rests with you. Shall we continue to improve the quality of her graduates, or shall we go backward? We have before us the opportunity to make this the greatest year in her history in many ways, and I know that we shall prove loyal to her colors and ideals.

The many privileges of the Y. M. C. A. are offered to you. We want you to become active in its work. The leaders greatly appreciate the cooperation that has been shown the organization during the past week, both financially and otherwise. The building is yours; the organization is yours; we want to help you in any way that we can. You will always find that the cabinet, the secretary, and all the active members are willing to aid you in any way possible. No request is too small for our attention. But there are many ways in which we can improve that service to you, and we invite your suggestions as to methods. Feel free to come and talk it over with us. There are many ways in which you can aid in the "Y" work. Join in and let's make it the greatest year in our history.

We extend our heartfelt welcome to the freshmen, and invite you to full fellowship with us. We want you to enjoy all the privileges and fellowship of the "Y." We want you to know that we are interested in you and that you can come to us at any time for suggestions, help, or counsel. Our aim is to so aid the college that four years hence you may leave with your "sheepskin," a greater and finer man.

I wish for all of you a most happy and successful year.

E. W. BUCHANAN,  
President of the Y. M. C. A.

**"THIS WEEK"**

By E. H. ROBERTS

"Doc" Elam, State's best-dressed man last year, has again returned to the campus. His official position is style expert for "Huny's" London Shop.

During the summer months "Doc" was employed in New York by the New York Telephone Company. In fairness to "Doc" I must state that he made quite a hit with his employers and they made every effort to retain him. His reasons for leaving were bad gin and diluted rye, although the gin was cheap enough.

Among the other State boys in New York, "Rosy" Roberts, "Bill" Fitzgerald, and Kenneth Byers stand out most prominently. "Rosy," a former editor of THE TECHNICIAN, is connected with the publishing firm of McGraw, Hill & Co. This is "Rosy's" second year in the big city. Byers and Fitzgerald are connected with the New York Telephone Company.

Here's a good one, but don't ask me where I got it. Professor Satterfield's wife was wanting to visit her people in Greensboro. The professor had rather stay home and read books upon chemical subjects. An argument ensued and the Missus immediately began to cry. The professor, thus disturbed from his work, looked up and announced: "Now listen, honey, your tears may move some people, but to me they are just plain NaCl and H<sub>2</sub>O."

A fellow always sees some "funny" sights during freshman week. One that I saw was a car laden with trunks and a bicycle tied on the rear. But after thinking a minute I decided that a bicycle would be a very handy thing to have around school. They are cheaper than old Fords and are a great deal more "College."

# DEMON DEACONS PLAY CAROLINA BIG FIVE GAME

Affair Set for Today at  
2:30 in Kenan Memo-  
rial Stadium

NEW AMPLIFIER WILL BE  
READY FOR OPERATION

Eustace Mills Will Captain Wake  
Forest Team in Absence of  
Johnny Cox; Captain Ray Far-  
ris Will Play After Tonsil Op-  
eration Last Week.

The first "big five" game of the cur-  
rent football season will get under way  
today at 2:30 when the University of  
North Carolina and Wake Forest meet  
at Chapel Hill. The game will be run  
in the beautiful Kenan Memorial  
stadium.

Football stock at both schools has  
been lowered the last few days by in-  
juries of men on both teams. Jimmy  
Farris, star passer at Carolina, received  
a broken nose in a scrimmage with  
the freshman squad Wednesday after-  
noon and is not expected to get in the  
game today. Four guards are on the  
injured list: Jimmy Hudson with a  
head cut over his right eye received in  
the scrimmage, and Bud Eskew, Sam  
Munavant, and Ellis Fyral are out with  
injuries received in a car wreck last  
Sunday.

Coach Chuck Collins will have quite  
a job in picking his starting backfield,  
with such an array of good stars on  
hand, but the ball-carrying quartet  
will probably find Wyrick, quarter;  
Baker, left halfback; Nash, right  
halfback, and House, fullback. The  
ward will consist of Holt and  
Brown, ends; Koenig and Adkins,  
guards; Captain Farris and Eskew,  
linebackers; and Lipscomb, center.

At Wake Forest, a hard-running back at  
the position will be out of the game  
injured knee. Covington, who  
has been passing as well as running,  
will be out in the Deacon backfield. His  
replacement will be in the form of  
leaves two holes vacant, as  
Johnny Cox, captain, is not expected  
to play from Baton Rouge, La., in  
the game. Covington did not  
play in the game with Catawba Saturday,  
and played plenty of driving power  
was sent in.

It is expected that the  
line will probably start in the  
backfield for Covington, with  
Captain Eustace Mills, Hips,  
Munavant rounding out the back-  
quartet. The Deacon line will  
be exactly the same as that started  
at the Catawba Indians Satur-

## VARSITY COACHES OF THE 1929 STATE COLLEGE WOLFPACK

Gus Tebell

Dr. Ray Sermon

BUTCH SLAUGHTER

The above three men are the main factors in what kind of team State College turns out in all branches of sports. They have been well trained in their work. All three have been picked by Walter Camp on his "All-American" team in their football days. Reading from left to right they are: Gus Tebell, head coach; Doc Sermon, backfield coach; Butch Slaughter, line coach.

### New Formation To Be Used By Georgetown; Created By Lou Little

Washington, D. C.—The football year  
1929 is to be featured by the newest  
formation, worked out this summer by  
Coach Lou Little, of Georgetown.

"The Scrambled Egg" formation, he  
calls it, and he firmly believes it will  
eclipse them all, including Georgia  
Tech's Heisman shift, Penn's hidden  
ball trick, and New York University's  
Prussian March.

The play, which it is said will be  
used only on the offense, resembles  
somewhat a moving picture reverse  
reconstruction of a dynamited rock.

Two groups are formed, the players  
crouching, facing each other in straight  
lines. Upon the calling of the proper  
signal each man starts wandering, ap-  
parently aimlessly, about the field. Al-  
though this appears to opposing play-  
ers and spectators to be highly fool-  
ish, every player knows just what he  
is doing and the reason why. The ob-  
ject is to become so hopelessly mixed  
up that the opposing players find it  
impossible to figure out who is where  
and who is who.

Of a sudden the mess takes form,  
every man jumps to the position he  
occupied before the ball was snapped.  
Then the play as called by the quar-  
terback in the huddle is executed.  
Little believes no one ever will be  
able to decipher the play, because it  
can be worked in so many hundred  
different ways. No matter how often  
the opposing team shifts its forma-  
tion it never can be sure it has done  
it correctly, Little says.

day, with Quillen and Gregson, ends;  
Williams and Webb, tackles; Lavine  
and Hicks, guards; and Parker, center.

### STATE OPENS FOOTBALL SEASON FRIDAY, OCT. 4

With Washington and Lee Here;  
Game Will Be Played on  
Riddick Field

Completing their fourth week of  
training yesterday and their last full  
week of work before their first game  
of the season, the State College Wolf-  
pack will begin its fifth week's work  
with intensive preparation for their  
first game of the season, with Wash-  
ington and Lee Friday, October 4th.

Practice this week has brought to  
light many weak points in the State  
line and backfield, but these will be  
ironed out before the first whistle Fri-  
day; at least that's the object the  
three varsity coaches seek to obtain  
in the four days left for work.

Rain bothered the squad very little  
this week, as scrimmage sessions were  
held every afternoon in a sea of mud.  
Only two fair afternoons were had  
during the week.

**Probable Line-up**  
Frang Gorham, Raleigh boy, who has  
been shifted from a guard berth to the  
center post in several of the scrim-  
mage sessions during the week, has  
shown some real football ability.

It is somewhat early to state the  
line-up for the Washington and Lee  
game, but from the showing of the  
following men the probable line-up will  
read like this: Morgan and Jordan,  
ends; Vann and Gardner, tackles;  
Stout and Smathers, guards; Choplin  
or Gorham, center; Melton or John-  
son, quarterback; Jeffrey and Dellin-  
ger, halfbacks; and Gus Wright, full-  
back.

When State meets Washington and  
Lee this Friday they will be up against  
the Rockne system of football. The  
Generals have changed from the War-  
ner system to the Rockne system with  
the coming of Coach Gene Oberst.  
Jimmy DeHart, Duke coach, estab-  
lished the Warner system there six  
years ago.

Football claimed its first 1929 vic-  
tim at Buffalo, N. Y., last week, when  
James Rusech, 14, was fatally in-  
jured in a sand-lot game. His neck was  
broken.

Georgia will offer something new  
this season in football. It was an-  
nounced that Vernon Smith, star end,  
would punt and pass. Maybe this is  
all right, but it looks like it will give  
the plays of the Georgia team away.

Georgia Tech won't be so strong in  
reserve material this year as in former  
campaigns.

George Dye went a long way from  
home with all of his weight to make  
the center post of the football team of  
Southern California. He lives in Ala-  
bama and weighs 234 pounds. Cali-  
fornia's forward wall will average  
above 200 pounds to the man.

Weight may count sometimes, but  
the 175-pound linemen at Kentucky  
are giving the 200-pounders a real bat-  
tle for the seven forward positions.

### WILDCATS CLASH WITH CLEMSON AT CHARLOTTE

Today Is Second Game of Season  
for Monk Younger's David-  
son Outfit

With one victory already hanging  
on his belt by virtue of a 20-6 defeat  
of Elon last Saturday, Coach Monk  
Younger sent his football squad through  
a hard week's work this week for the  
game with Clemson at Charlotte to-  
day. It is Younger's hope to chalk up  
his second win of the season at the ex-  
pense of Clemson.

During the week he has sent his  
hopefuls through a series of scrim-  
mages with the freshman team. He  
gave practically every man a chance to  
show his football wares in an attempt  
to discover some new star. Such doings  
brought forth some good football, some  
bad, and some in between the two.

Younger will start the same line-up  
against Clemson that he used against  
Elon, but will send in plenty of subs.  
The starting line-up will be Captain  
Brock, left end; Baker, left tackle;  
Decamp, left guard; Mason, center;  
Mills, right guard; Baker, right tackle;  
Brown, right end; McCall, quarter-  
back; Parrish, left halfback; Brohard,  
right halfback, and Fraley, fullback.

### Carolina Installs Amplifier

Football stock at Carolina has  
gone one step ahead of other col-  
leges and universities of North  
Carolina. When the game between  
Carolina and Wake Forest takes  
place this afternoon fans from the  
center of Kenan Stadium to the very  
farthest corner will be able to know  
what the game is about, who has  
taken the ball, why penalties were  
called, and other whats of football  
by the aid of an amplifier that has  
been installed in the stadium. An  
announcer will be on hand to fol-  
low all the plays and relate them to  
the fans.

### NEW AL JOLSON SINGS DELIGHT DAVEY LEE IN SINGING HIT

Al Jolson has sung to many dis-  
tinguished and attentive audiences,  
but he has never had a more worship-  
ful one than when he sang his new  
song to Davey Lee during the filming  
of "Say It With Songs."

It comes to few children in history  
to have the world's foremost and  
highest-priced entertainer on his  
knees singing for their particular  
benefit, but that is not what impressed  
Davey. To this unspoiled baby won-  
der, a year ago unknown and now  
loved by millions, it was not Al Jolson,  
the star, who was singing to him and  
the microphone, but only his kind  
"Uncle Al."

It is part of the appeal of this  
famous pair that Davey stands in no  
awe of Jolson. It would be difficult  
to get the natural reactions and the  
spontaneous affection between the two  
if Davey realized just how fate has  
favored him. And there is another  
reason. Jolson, who discovered Davey,  
loves the boy as he might love a son,  
and there is real understanding be-  
tween them.

"Say It With Songs" is the third  
great Vitaphone special made for War-  
ner Brothers by Jolson. It comes to  
the Palace Theatre for one week's  
run, beginning September 30th. The  
story is by Darryl Frances Z anuck  
and Harvey Gates. Joseph Jackson  
did the scenario. Marion Nixon, Ken-  
eth Thompson, Holmes Herbert, and  
Fred Kohler are in the cast. Lloyd  
Bacon directed.

and the band will give a short con-  
cert in each.

### MOTHER OF JOHNNY COX DIES AT BATON ROUGE

Word was received at Wake Forest  
College September 24th that the  
mother of Johnny Cox, captain of the  
1929 football team of Wake Forest, had  
passed away at her home in Baton  
Rouge, La.

Captain Cox was called home from  
college last week when the condition  
of his mother became serious and he  
was with her when the end came.

Word has not been received as yet  
whether Captain Cox will return to re-  
sume his studies and football duties or  
not, but he is not expected to be in the  
game with Carolina today.

### WOLFPACK BAND LEAVES FOR STATE FAIR TRIP

"Daddy" Price and his famous  
Wolfpack Band left Wednesday morn-  
ing for a 450-mile State Fair Booster  
trip. State College has one of the  
best bands in its history, and "Daddy"  
has outfitted it with the latest tunes.  
This itinerary will be extended  
through 33 towns in Eastern Carolina.

**Intercollegiate Club Dance**

One of the best dances of the fall season was given Wednesday night at the Woman's Club by the Intercollegiate Club in honor of the State College students who are returning to Raleigh after the summer vacation. The Terpsichorean Club assisted in welcoming the guests. Music during the evening was furnished by Ted Williamson and his orchestra of Oil City, Pa., who furnished the music for the debutante ball last week.

The following members of the fraternities of State College were invited to sponsor the dance with their partners: Sigma Nu, George Fowler and John Gammon; Kappa Sigma, Mac Hughes, Alva Wray, and Doc Patterson; Kappa Alpha, Arthur Thomas, Bobby Grimes, and Tom Mott; Sigma Phi Epsilon, W. R. McCracken, N. J. Sherrill, and J. F. Freese, Jr.; Pi K. A., Albe P. Baggett, Ed Rankin, and Sam Quantz; Delta Sigma Phi, C. D.

Johnson, Jr.; Phi Kappa Tau, James Summey, Dick Godfrey, and H. H. Miller; Lambda Chi Alpha, A. B. Simms, H. B. Merriam, and Reese Shore; Theta Kappa Nu, W. E. Koonce, F. J. Hodges, and E. R. Tant; Alpha Lambda Tau, J. W. White, F. B. Singletary, and G. T. Stevens; Phi Pi Phi, J. W. Richardson, H. J. Brown, and E. R. Poole; Tau Rho Alpha, Burgess Perry and Frank Jarman; Chi Alpha Sigma, J. A. Holjes, J. C. Edwards, and W. R. Dixon; three members of the Phi Omega, Sigma Tau Beta, Beta Sigma Alpha, and Sigma Phi fraternities have also been invited. During the entertainment two nonbreak dances were held in their honor.

**ANNOUNCEMENTS**

**Chemistry Club**

will meet Thursday at 6:30 p.m., 115 Winston Hall.

**Infirmiry Callers**

Please try to make them between the hours of 8 a.m. and 7 p.m. Cooperation in this matter will help the staff very much. The students who are on duty after 7 o'clock have to devote as much of their time as possible to their studies. Of course emergencies come up from time to time which must have immediate attention. No hospital can set certain hours for emergency calls. The bulk of the calls, however, that are made at the infirmiry after 7 o'clock could just as easily be made during the day. We will certainly appreciate your cooperation in this matter.

**Wataugan Contributors**

Please come across with some material for the first issue. There should be plenty of Freshmen here who have had experience on publications, so pocket that timidity and bring your stuff to the Wataugan office on the first floor of the "Y."

**Chemical Engineers**

Chemical Engineering Society will hold its first meeting Tuesday, October 1, at 6:30, in Room 115, Winston Hall. This will be an important meeting and all members and others interested are requested to be present.

**Pep Meeting**

Tuesday night, October 1, at 6:30. All frosh be present. A check-up will be made. Study the yells and words of the songs.

**Blue Key Meeting**

will be held Friday, October 4, in the small dining-room of the College Cafeteria at 12:45 p.m. All members are urged to be present, as the program for the year is to be outlined. Let's get started right for a big year.

**SIXTY FRESHMEN REPORT FOR FOOTBALL PRACTICE**

**Coach Drennan Expects to Have Hundred Men in Next Few Days**

In response to Coach Drennan's call last Monday more than sixty freshmen reported for preliminary football work. This number is somewhat less than last year, as there were more than eight men reporting on the first day. However, Coach Drennan is expecting to have more reporting this week.

**Plenty Backfield Men**

The Freshman mentor has plenty of good backfield material, but he is somewhat short on line prospects. At present he has only two men out for tackle posts.

The freshman mentor is being assisted this year by J. B. (Shorty) Lawrence, former State player.

With sixty men out now, and the season just a week old, the coaches are expecting nearly a hundred men to be out in a few more days.

**AGROMECK STAFF NAMED BY NEW EDITOR-IN-CHIEF**

E. H. Roberts, editor-in-chief of the 1930 Agromeck, has announced his staff, the following being selected to fill the important positions: Managing Editor—P. H. Burrus. Senior Editor—T. G. Smith. Junior Editor—John Gammon. Associate Editor—E. G. Couch. Organization Editor—L. W. Watkins. Fraternity Editor—Arthur Thomas. Military Editor—W. F. Ottinger. Sophomore Editor—Horace Carpenter. Local Advertising Manager—J. F. Jarman. Foreign Advertising Manager—D. M. Paul. Art Editor—B. M. Guy. Athletic Editor—Francis Johnson. Snap-shot Editor—W. W. Weltmer.

**Riddick Field Undergoes Renovation For Big Game**

(Continued from page 1) week away, the student body is getting all cocked and primed for the opening contest. Pep meetings are being held each evening to teach the 700, or more, new students the songs and yells.

"Daddy" Price, director of the musical organizations, expects to have his augmented band, with its new uniforms, out on the field tooting "State College Keep Fighting Along" when the scrapping Pack trots onto the field.

Tickets for the Washington and Lee game, and other home games on the schedule, are now on sale at the office of the department of athletics, with a brisk demand reported for the past-boards for the season's opener. The State-Washington and Lee game, it will be recalled, was moved from Saturday to Friday to avoid a conflict with the dedication game of the Duke Stadium on the Saturday date.

**Governor Gardner To Be Speaker on Anniversary Day**

(Continued from page 1) 1893, and special committees of the Board of Trustees as guests.

Attention of the Board of Trustees was called to Founders' Day at its annual meeting last June, and provision was made to have all committees of the board meet at the college on this date. In line with this action, Dr. Brooks has requested the following standing committees to be present and take part in the joint exercises, and later to consider any business which may arise:

Executive Committee: Clarence Poe, Raleigh, chairman; O. M. Gardner, Raleigh; Pascal S. Boyd, Mooresville; Charles W. Gold, Greensboro; B. F. Shelton, Speed; Mark Squires, Lenoir; Irvin B. Tucker, Whiteville.

Building Committee: Robert N. Page, Aberdeen, chairman; Leslie N. Boney, Wilmington; L. G. Berry, Charlotte; J. M. Gamewell, Lexington; R. H. Merritt, Raleigh. Agriculture Committee: S. A. Alexander, Monroe, chairman; C. F. Cates, Mebane; Buxton White, Elizabeth City; Frank Dunlap, Wadesboro; J. W. Carroll, Wallace; D. W. Bagley, Moyock; R. L. Bernhardt, Salisbury.

Engineering Committee: H. P. Grier, Jr., Statesville, chairman; John W. Clark, Franklinville; F. H. Coffey, Lenoir; J. H. Saunders, Kingston; W. D. Faucette, Halifax; William H. Woolard, Greenville.

Athletics Committee: T. L. Bland, Raleigh, chairman; J. E. Ramsey, Salisbury; C. L. Lyerly, Hickory; D. W. Seifert, Weldon; R. R. Eagie.

**Slicker Painting and Cartooning**

**T. S. Ferree, Jr.**

Room 208 1911 Dorm

New Bern; J. L. Becton, Wilmington; C. D. Welch, Cramerton. Experiment Station Committee: D. J. Lybrook, Advance, chairman; D. M. Buck, Bald Mountain; W. D. LaRoque, Kinston; J. S. Watkins, Virginia; Harry V. Latham, Belhaven; L. J. Herring, Wilson; W. A. Bullock, Red Springs. Textile Committee: S. B. Alexander, Charlotte, chairman; David

Clark, Charlotte; Arthur M. Dill, Gastonia; Maurice Hendrick, Goldsboro; J. A. Long, Roxboro.

**School Work Flies**

Through Cloudless Skies ... via Parker Pressureless Touch

24% Greater Ink Capacity Than Average, and \*Guaranteed Forever Against All Defects

Here's a pen that makes school work twice as easy—enables you to do quicker, better work because it clears the track for thinking. It writes without pressure from the fingers—you merely guide it—the pen itself does all the writing for you. No effort. No strain. No fatigue.

And none of the nagging interruptions caused by ordinary pens. Always a gliding, smooth response—always a steady ink flow no matter how fast you write.

Parker Duofold offers you also Non-Breakable barrels of lustrous Permalite, in five jewel-like colors or Moderne Black and Pearl—28% lighter than rubber—holding 24% more ink than average, size for size.

Try Parker Pressureless Touch at a nearby pen counter. See for yourself why Parker Duofold, by actual census count, led all other makes in popularity at 55 colleges and 13 technical schools.

Pens, \$5 to \$10, according to size and finish. Pencils to match the pens, \$3 to \$5.

THE PARKER PEN COMPANY, Janesville, Wisconsin  
Offices and Subsidiaries: New York, Chicago, Atlanta, Buffalo, Dallas, San Francisco; Toronto, Canada; London, England

**Parker Duofold**  
\$5-7-10

High altitudes and high marks are both old friends to W. Howard Ekman, honor student at New York University. Between classes he pilots his own Curtiss plane—and in class pilots a Parker Duofold Pen.
