R. H. GATLIN LEADS BLUE KEY SOCIETY FOR COMING YEAR

Election Held At Formal Banquet At Carolina Hotel

WIPOND VICE-PRESIDENT LEADERSHIP FRATERNITY

M. B. Amos, C. E. Brake, H. Y. Brock, J. T. Geoghegan, F. W. Gorham, C. N. Gross, and J. C. Whitehurst are Newly Elected Members of Organization—Greaves-Walker Outlines Purposes of Fraternity.

R. H. Gatlin, Raleigh, was elected president of Blue Key, national honor fraternity, at their banquet at the Carolina Hotel Tuesday, May 13, at which time they formally initiated seven new members and elected other officers for the coming year.

Others elected were: M. R. Vipond, Norfolk, Va., vice-president; W. D. Stevenson, Swannanoa, secretary; M. B. Amos, High Point, corresponding secretary; William T. Mast, Valle Crucis, treasurer, and J. C. Whitehurst, Norfolk, Va., sergeant-at-arms.

The newly-elected men are M. B. Amos, C. E. Brake, H. Y. Brock, J. T. Geoghegan, F. W. Gorham, C. N. Gross, and J. C. Whitehurst.

Prof. A. F. Greaves-Walker, head of the ceramic engineering department, briefly outlined the purposes of Blue Key.

Active members of the North Carolina State College Chapter of Blue Key include: C. H. Belvin, Jr., E. W. Buchanan, J. P. Choplin, C. L. Clark, E. G. Couch, Jr., R. S. Dunham, Joe Ellis, W. T. Garbald, R. H. Gatlin, A. M. Greaves-Walker, E. H. Harwood, W. E. Koonce, J. B. Litchfield, H. G. Love, W. T. Mast, W. F. Ottinger, E. H. Roberts, T. G. Smith, W. D. Stevenson, A. D. Stuart, L. C. Vipond, M. R. Vipond, A. L. Weaver, W. W. Weltmer.

Honorary members include: Dr. E. C. Brooks, A. S. Brower, Frank Capps, C. C. Early, Hon. O. Max Gardner, A. F. Greaves-Walker, W. N. Hicks, and R. R. Sermon.

Taylor Makes Talk To Self-Help Men At Saturday Meet

Self-reliance, initiative, and tenacity that stay through the future are the things that a successful self-help student acquires while in college, as they were outlined by Dr. C. C. Taylor, dean of the Graduate School, in his address at the Self-Help Club banquet Saturday night.

The banquet is an annual event for the Self-Help Club. The one held Saturday night was presided over by Ray Woodall, retiring president of the organization, and the welcome address to the visitors was delivered by "Mutt" Cryder, the new president. The guests of honor were Mr. and Mrs. E. S. King, Mr. and Mrs. L. W. Bishop, Mr. T. T. Wellons, and Dr. and Mrs. Carl C. Taylor. Dr. Taylor was the major speaker of the occasion.

"I think that some of the finest training a student receives while in college is that gotten from self-help work. I count the best part of my education that part which I received as a self-help student," said Dr. Taylor. "Self-help work gets the credit for me being what I am today, whatever that may be."

Dr. Taylor was able to speak freely of the subject from the standpoint of experience, as he worked his way through college entirely, graduate and undergraduate schools. He now has a Ph.D., and when he started out to get his education he said he had only \$94. He has also had an opportunity to observe the performance of the self-help student of today, as he quite frequently has State College self-help men work around his home. The speaker pointed out some of the disadvantages of self-help work, because, he said, that to paint it rosy would be a gross misrepresentation when there are many confronting obstacles for the student who has to

—Continued on page 2

SENIOR PRESIDENT

JOHN GEOGHEGAN

Tau Beta Pi Men Elect Lee Mercer To Head Society

Tau Beta Pi, national honorary engineering fraternity, at a meeting held in the Ceramics building Monday evening, elected ten men to membership in that organization. The men were voted upon on their scholastic standing and ability as leaders. The new members who were elected and elected officers for the coming year are: J. B. Gurley, F. A. Jones, D. R. Melton, L. R. Mercer, A. B. Peary, W. W. Peele, W. D. Stephenson, and C. B. Turner, Jr.

At a banquet held directly after the meeting these men were initiated, and election of officers for the coming year was held. The officers elected were: L. R. Mercer, Norfolk, president; J. B. Gurley, Rosemary, vice-president; F. A. Jones, Gastonia, corresponding secretary; D. R. Melton, Cherryville, recording secretary, and C. B. Turner, Hendersonville, treasurer.

Organized originally at Lehigh University in 1885, it has grown to a national fraternity of fifty-eight chapters, having twenty-five thousand members. The retiring officers for the local chapter are W. E. Koonce, president; E. B. Worth, vice-president, and E. H. Harwood, secretary.

Frosh Feast On Dawgs Of Friendship Council

Wednesday afternoon the Freshman Friendship Council "trolley-carried" out to Lassiter's Mill to give their "tummies" a little diversion from the daily "run" at twilight "bull."

Unaccustomed to evening rambles along the streams, the boys immediately responded to Mr. King's gentle command to "fall in." After overindulgence in "dogs" and the accessories the fellows tried their hands at fishing. As the dusk deepened into night the Council gathered together and discussed the work which is before it for the coming year. R. W. Cummings, Raleigh, is in charge of the organization of the Freshman Friendship Council, and A. F. Ward, Lumberton, is in charge of the new student work. Mr. King told of the work of the Council in the past years and the result of the work among the freshmen and urged the present council to carry on the work in welcoming the freshmen next year.

ELECT WILSON PRESIDENT FROSH HONOR FRATERNITY

Phi Eta Sigma Holds Banquet and Elects Officers At Meeting On May 16th

The North Carolina Alpha Chapter of Phi Eta Sigma, national freshman honor fraternity, was installed at North Carolina State College on May 16. The installation and banquet were held in the Carolina Hotel, with Dean G. Herbert Smith, of Illinois, grand secretary of Phi Eta Sigma, conducting the installation ceremonies.

After the installation initiation the following officers were elected: M. K. Wilson, Jr., president; W. F. White, Jr., vice-president; C. F. Knott, secretary, and A. L. Druenwright, treasurer. There are twelve members of the class of '32 and nine members from the class of '33 enrolled as charter members of this fraternity. This being a fraternity for men only, three co-eds who were pledged were not allowed to join. Three honorary members of the faculty were elected by the fraternity at a former meeting. They are President E. C. Brooks, Dean Clay, and Dean W. N. Hicks.

The purpose of the fraternity is to induce higher scholarship among the freshman class.

North Carolina State College Was Founded By Watauga Club

North Carolina State College of Agriculture and Engineering is a direct result of a movement of the "Watauga" Club.

In 1834 W. J. Peele, member of the Raleigh bar and a gentleman of great learning, ardent patriotism, high and unselfish purpose, and clear vision, first conceived the idea of the formation of a few public-spirited citizens into a club for the study and discussion of public improvement. A few leading citizens met at his office, where he unfolded his plans for the organization of such a club, suggesting that the Indian word, "Watauga" meaning "sparkling water," would be an appropriate name.

Some of the members of the club were Alfred D. Jones, afterwards consul-general to Shanghai; Arthur Winslow, Dr. Chas. W. Dabney, then state chemist and later president of Cincinnati University, and W. J. Peele. At subsequent meetings other members were added, among them being Hon. Josephus Daniels, afterwards secretary of the Navy; Hon. Walter Hines Page, afterwards ambassador to Great Britain, and W. S. Primm, later member of the board of trustees of the college. At every meeting some member was appointed to prepare an essay on some subject of public interest. One of the most interesting was on "The Establishment of a Technical College," which

was the central subject discussed at every subsequent meeting. Mr. Peele was the originator of the idea and it was his dominating passion. It was he, along with many other influential citizens, who conceived the idea that one of the greatest needs in North Carolina was industrial education. A committee of ardent supporters of the idea was appointed to appear before the legislature with the bill for an appropriation to build an industrial school. Under the chairmanship of Honorable Augustus Leazar the bill passed both the House and Senate after combating successfully all the arguments against it. The grounds for the erection of the buildings were donated by Mr. R. S. Pullen, upon which the State College of today is located.

The names of Leazar, the sponsor and champion of the bill; Pullen, the donor of these valuable grounds, and the Watauga Club, the author of the movement, have been honored and remembered in that there are two literary societies here bearing the names of Leazar and Pullen, also a Pullen Hall and a Watauga Hall. The monthly magazine of the college, published by the student, is also known as "The Watauga." The newly constructed Business Administration Building bears the name of Pease, the organizer of the Watauga Club.

CHEMICAL FRATERNITY SELECTS NEW OFFICERS

J. I. Crouch Is Elected Grand Alchemist of State College Chapter

The North Carolina State chapter of Gamma Sigma Epsilon, national honorary chemical fraternity, held a meeting last Wednesday night for the purpose of electing officers for the coming year. The interest was high, as was shown by the attendance, only three members being unable to be present.

The following men were elected as officers for next year: J. I. Crouch, grand alchemist; A. B. Peary, visitor; M. R. Vipond, recorder, and M. R. Wells, sergeant-at-arms. After the election of officers came the election of new members. At a previous meeting a committee had been appointed to make a list of those men majoring in chemistry whose scholastic average was equal to the high standard set by Gamma Sigma Epsilon as one requirement for admission to the society. This list was read, and after some discussion as to whether these men had shown other characteristics expected of members of this society, the new members were chosen from those whose names were on the list. The recorder was then instructed to notify those men of their election.

The Gamma Sigma Epsilon has been severely handicapped this year by the illness of the president, Alex Redfern, but next year, with the new and active officers, it should be an active force among the chemistry students in promoting the high ideals and scholarship for which it stands.

PATRIOTIC SONS AMERICA REVIEW STATE R.O.T.C. UNIT

Special Parade Requested By Dr. Brooks In Honor of the P. O. S. of A.

By a special request to Dr. E. C. Brooks the State College R.O.T.C. regiment gave a parade Wednesday afternoon on Red Field in honor of the North Carolina State Camp of the Patriotic Order of Sons of America.

The North Carolina State Camp of the order was holding its annual convention in Raleigh last week and the president of the North Carolina chapter, H. G. Mitchell, of Statesville, requested the parade as part of the program. He very heartily expressed his appreciation of the affair to Lieut.-Col. C. C. Early.

Colonel Charles Belvin led the parade. It was similar to the weekly parades given on Monday and carried out in the same order. It was attended by approximately two hundred of the Patriotic Sons and also a large galaxy of spectators.

Carolina University Offers Opportunity To Study and Travel

Opportunity to study and travel at the same time will be given North Carolina College students this summer by the University of North Carolina. The University will conduct a trans-continental study-tour under the direction of the Extension Division. For educational purposes, according to officials, the tour will be divided into two motorcades, one leaving June 7 and the other a day later.

A choice of at least three courses will be offered in each section. Courses offered in the first section will be confined to natural sciences and will include geology, botany, and general science. Social science courses only will be given in the second section, whose members will study sociology, economics, and geography. Classes will meet daily except Sunday, and three hours will be devoted to classwork each morning before the motorcade begins travel for the day. All instructors are members of the faculty of the University of North Carolina.

BRAKE IS PRESIDENT AGRICULTURE SOCIETY

New officers for the Ag. Club were elected at a regular meeting Tuesday evening. Those elected were W. H. Brake, president; D. H. Latham, vice-president; T. M. Fields, secretary; H. W. Scheld, treasurer, and H. B. James, reporter.

The retiring president, Joe Ellis, Jr., immediately turned the meeting over to the new president. Brake assured the club that he would do everything possible to make the club a success next year, and that with the loyal support of the club they would make next year an even greater success for the Barnwarming and Ag. Fair.

Recognition!

Maybe the Superintendent of Buildings, Turner Tobias Wellons, should drift more often to the eastern edge of the campus.

Mr. Wellons, according to Agromeck officials, came by the basement of the "Y," where annuals are being dispensed, last week. He took one of the books and leisurely thumbed its pages.

Upon turning to page 20 he blankly queried, "What is this a picture of?"

Imprinted on that page is a partial view of President E. C. Brooks' new home.

Sophomore Class Selects R. Lefort 1931 President

Romeo Lefort, Greensboro, sophomore in Chemical Engineering, was elected president of next year's junior class at a meeting of the sophomores in the college Y. M. C. A. auditorium Wednesday night.

The presidency of the class is one of the highest honors achievable at State College. Many aspire to it. Politics seemed to have swung into action long before the meeting convened. Immediately after supper Wednesday evening the steps of the campus sovereigns "trying to make up each other's mind," with very little results, according to comments floating through the atmosphere.

Six men were nominated for president of next year's junior class, and the ballot was closed before some, who probably expected to make a big run, were even nominated. The entire auditorium was a furor when the candidates withdrew from the room and the floor was opened for rump speeches. Some of the speeches were short, some long, some were listened to very attentively, and some were "boomed" down, and the results of the effect of those same speeches were obvious when the votes were cast.

One noticeable fact about the presentation of the candidates before the class by the retiring president, Clarence Cone, was that they were asked to tell where they were from. When a man gave an out-of-state home address commotion was created in the hall. To counteract this stigma, one candidate said that his home was in a foreign state, but he had now assumed residence in North Carolina. All of the offices went to native North Carolinians.

George Hobson, of Booneville, gave Lefort a close run for the presidency, but was defeated by a narrow margin.

Henry Ricks, Rocky Mount, sophomore in Electrical Engineering, who also made a strong run for president of the class, was elected vice-president to assist Lefort in the executive

N. C. C. W.

P. D. Morgan, senior in Business, must be conducting a matrimonial bureau, according to a Greensboro postmarked letter which he made public this week. The anonymous "matchmaker" recommended a potential bride for all but one of the inmates of First Dormitory—E. P. Bass not being commended.

The letter, headed Necking College for Classy Women, Greensboro, N. C., said in part: "We wish to place the following applicants at the State for placement, since we have tried the matrimonial bureau to no avail."

The writer then paired the N. C. C. W. damsels and the First inmates as follows: Leslie Vipond and Sarah Carr; H. Y. Brock, Jr., and Grace Coppedge; F. H. Meese and Elizabeth Cobb; W. S. Smith and Cora Hartsell; J. H. Parson and Esther Godfrey; H. T. Meyer and Lorene Meares; "Mike" Whitehurst and Ruby Huggins; "Mac" McLain and Elizabeth Carter; Roy Park and Helen Warsaw; "One-Lung" Jourdan and Louise Perkins; L. D. Eagles and Cornelia Montgomery; E. B. Worth and Virginia Copeland; "Stead" Smith and Christine Williams; "Stiff" Griffin and Martha Stuart; Joe Byram and Isabelle Munden.

The letter concluded: "We shall ask you to attend to this matter without delay (P.D.Q.)."

GOVERNOR GARDNER LAUDS COLLEGIANS IN MILITARY CORPS

State Alumnus Regrets That Colonel Early Will Leave

GUNS FIRED IN SALUTE STATE CHIEF EXECUTIVE

President E. C. Brooks Compliments Colonel Early On Success Had With the Military Branch of the College and Expresses Sorrow That Early Leaves State—Governor Is Pleased With Hazing Decision.

Declaring respect for law and order a precedent of culture among any people, Governor O. Max Gardner Monday lauded the Reserve Officers' Training Corps regiment for its part in the creation of a sentiment at the college which has, he said, brought the spirit and morale of the student body to its highest point in the more than twenty years he has been acquainted with it.

As an example of a healthy student body sentiment, Governor Gardner pointed to the fact that in the past year the student body has twice wholeheartedly taken a stand for law and order, once when it showed its approval of disciplinary action taken by the college and State authorities against a small group of hazers, and another time when it made evident its willingness to lose outstanding members of its championship freshman football team rather than allow these members to persist in an attitude of opposition to college regulations.

The Governor's remarks were part of a brief address he made at a luncheon which followed the annual Governor's Day review of the R.O.T.C. regiment. Present with him at the luncheon, as the guest of Col. C. C. Early, head of the military department at the college, were President E. C. Brooks, a number of the members of the board of trustees and of the faculty, State officials and ranking officers of the Cadet Corps.

Governor Gardner expressed regret that the War Department is terminating Colonel Early's connection with the college this year, after his five-year tour of duty there, crediting his influence with having done much to bring about the present high state of student morale. President Brooks also complimented Colonel Early on the success he has had with the military unit at the college, and, for the administration, expressed regret at his leaving.

Governor Gardner was greeted on his arrival on the campus at noon by a salute of 17 guns, fired by the howitzer section of the regiment. The regiment, after forming, was presented to him by Cadet-Colonel C. H. Belvin, Jr., of Raleigh, after which it marched in review before him, unit by unit. There was a large attendance of spectators.

Faculty Members To Review Parade Monday Afternoon

Final parade of the State College R. O. T. C. regiment for the present year will be held on the college campus Monday, May 26, at high noon, according to an announcement by Major C. C. Early, the commandant. Members of the faculty, their families and friends have been invited to witness the ceremony. The regiment will be reviewed by Dr. E. C. Brooks, president of State College.

The parade is known as the Graduation Parade, and will be the last military formation at State College in which members of the senior class will participate. When the time comes for the regiment to be marched in review the entire senior class will proceed to the reviewing stand, and form in line with Dr. Brooks.

The regiment will then be marched in review before the senior class by the cadet officer of the junior class. Immediately after the parade the seniors of the corps will be presented their commissions as lieutenants of infantry in the Officers Reserve Corps by General Albert L. Cox.

MANY NEW VOLUMES BOUGHT BY LIBRARY DURING THIS MONTH

"Increased interest in good reading on the part of the students has made it necessary to add to the library many volumes in standard fiction, travels, and biographies," said Frank Capps, State College librarian.

"The available fiction for students has been doubled during the past four years. The demand now is much more insistent for good reading than just reading, which indicates to my mind that they have been guided somewhat by their reading teachers.

"Some one, in some way, has given them an impetus for good reading; more than they ever received before.

"There are some very worthy additions to our library," continued Mr. Capps. "We have just acquired a new edition of the Britannica Encyclopedia.

"Since our reference reading is greater now than ever before, we have the New English Dictionary. Our new American Dictionary of Biography is a fine addition to our reference shelf.

"We have some of the most outstanding reference authorities, which serve the freshmen and other students very well in their reference work.

"Most of our books are standardized fiction, that tends to increase circulation. In the past several weeks the average daily circulation has increased almost double to that of last year this time.

"Any book recommended for purchase will not be bought if it has no literary value. I do not buy books outright without suggestion. I buy the books that the different heads of the departments suggest. Of course the money is limited, but I buy any book that I think the boys will read, even if they go to other places to read it. If they must read it, then I think they may as well read it here as elsewhere."

"The Tragic Era," by Claude Bowers, is a good and a new addition to our library. We have also just recently added:

"All's Quiet on the Western Front,"

TO UNIV. OF MISSOURI

Prof. Elmer Wood, who since coming to State College the first time made a name for himself in economic circles, will leave after the end of this school year to go to the University of Missouri.

HONOR!

At the regular election meeting of May 5 of the Phi Kappa Phi Honor Society the following nine seniors were elected to membership:

- Alexander, R. F.
- Betha, J. E.
- Bullard, A. G.
- Mitchell, C. S., Jr.
- Neil, K. A.
- Owen, G. N.
- Taylor, C. R.
- Kleiger, I. S.

At a special called meeting on Wednesday, May 7, the following six graduate students were also elected to Phi Kappa Phi:

- Fourie, S.
- Gauger, H. C.
- Mann, Mrs. H. B.
- Loomis, C. P.
- Lee, Nancy
- Williams, N. W.

This is the first year that the North Carolina State College Chapter of Phi Kappa Phi has elected graduate students to the society.

by Remarque, a German. (This is a classic of its kind. It is and it isn't a novel.)

"Mansion of Philosophy," by Durant.

"In the Evening of My Thought," by Clemenceau.

"The Field of Honor," by Donn Byrne.

"A Farewell to Arms," by Ernest Hemingway.

"Jolna," by DeRoche.

"The Galaxy," by Susan Ertz.

These books are all best sellers and very interesting.

The recent additions to the library are as follows:

"The Five Flamboys," by Francis Beeding.

"The Black Camel," by Earl Derr Biggers.

"Atilla," by Brion.

"Field of Honor," by Donn Byrne.

"Partners in Crime," by Agatha Christie.

"In the Evening of My Thoughts," two volumes, by Clemenceau.

"Poison in a Garden Suburb," by Cole.

"The Practical Conduct of Play," by Curtis.

"White Oaks of Jaina," by De La Roche.

"Roper's Row," by Warwick Deeping.

"The Art of Thinking," by Diment.

"The Galaxy," by Susan Ertz.

"Footsteps in the Night," by Simson C. Fraser.

"The Book of Puka-Puka," by Frieble.

"Electric Drive Practice," by Fox.

"Salt-Water Taffey," by Corey Ford.

"Wholesome Parenthood," by Groves.

"They Stooped to Folly," by Glasgow.

"The Dark Journey," by Julian Green.

"Hide in the Dark," by Hart.

"A Farewell to Arms," by Ernest Hemingway.

"Handbook of Building Construction," two volumes, by Hool & Johnson.

"Building Construction," by Huntington.

"Sam Houston," Marquis James.

"Camping and Woodcraft," by Kephart.

"Depreciation," by Roy B. Kester (author of Accounting text now used here).

"Atmosphere of Love," by Andre Maurois.

"My Basketball Bible,"

"Relatives," by Neale Russell.

"The Best Short Stories of 1929," by O'Brien.

"The Alchemy Murder," by Oldfield.

"The Methodist Faun," by Anne Parrish.

"Modern Marriage" (a handbook), by Popenoe.

"The Good Companions," by J. B. Priestly.

"Family Life Today," by Rich.

"Ultima Thule," by Richardson.

"All's Quiet On the Western Front," by Erich Maria Remarque.

"Believe It or Not!" by Robert L. Ripley.

"The Omnibus Crime," by Dorothy L. Sayers.

"Balancing the Farm Output," by Spillman.

"Principles of Economics," by Taylor.

"Lad of Sunnybank," by Albert Payson Terhune.

"The Intelligent Man's Guide to Marriage and Celibacy," by Juanita Tanner.

"The Normal Course in Play,"

"The Mistress of Husaby," by Sigrid Undst.

"The Bridal Wreath," by Sigrid Undst.

Sophomore Class Selects

R. Lefort 1931 President

(Continued from page 1)

duties, which will be many, as the class will have the responsibility of giving a promenade and carrying out many other duties which the class as sophomores were not burdened with.

Frank Gorham, of Raleigh, Mechanical Engineering, was the victor in a strongly competitive battle for secretary-treasurer of the junior class. J. S. Culbertson, an Electrical Engineering student, whose home is in Woodleaf, was elected historian.

We Wonder!

A student dressed in track suit, coming from the laundry with his newly creased suit hanging over his shoulders, Saturday caused onlooking collegians to shake their heads and growl, "More Hoover prosperity!"

From appearances the students concluded that the athletically garbed man had only one suit and that when he desired the wrinkles smoothed out it was necessary for him to don some other garment to curtain his nudity.

However, the conclusions were in error. The student, Duncan Liles, had been participating in the Tri-Zeta Lambda Chi Alpha track meet. When the meet was over he dropped by Cullins' un-wrinkling parlor and obtained his suit. He did it for convenience and not of necessity, according to Reuben Carter Windsor.

Taylor Makes Talk To Self-Help Men At Saturday Meet

(Continued from page 1)

work his way which do not apply to boys having their way paid by their fathers or someone else. He said that it deprived the student from entering certain activities that he would otherwise make an excellent showing in, were it not for financial difficulties.

By the end of his lecture he had well covered the subject and given all the pros and cons so that they were easily recognized. He did not sugar-coat the possibilities of a man working his way through college, nor did he condemn it.

In the course of the banquet Paul Choplin, a member of the Self-Help Club, made a short talk in response to an introduction by President Woodall.

Melvin R. "Mac" McKenzie, retiring historian of the club, gave a short history of the Self-Help Club, which was organized three years ago with Joe Moore as the chief instigator. McKenzie and Woodall were both charter members.

Must Have Rubbed Off

"Charley and his girl kissed and made up last night."

"But, judging from Charley's personal appearance after the osculation, one would think that she made up first."

Prophecy Fulfilled

Nextdoor: "Did you hear that dog howling last night? They say it's a sign of death."

Neighbor: "Yes, and it was. I shot the confounded mutt."

Wife's Bad Habit

"My wife will never go to bed before two o'clock in the morning—I can't break her of the habit."

"What does she do all the time?"

"Waits up for me."

STATIONERY—COLLEGE SEALS

42 Delinquents Taught Under State Extension

Forty-two delinquents, wards of the State at Camp Polk Juvenile Prison Farm, beyond Meredith, all under 21 years of age, are learning to read and write in night classes organized and fostered by the extension division of N. C. State College.

Last week, 17 of these youthful offenders against the laws of North Carolina penned letters to the home folks after acquiring the ability to put their thoughts on paper in these extension classes.

The classes meet every night except Sunday, right after supper, in a classroom which has been fitted up by Geo. Ross Fou, superintendent of the State Prison. Mr. Fou also furnishes the teaching personnel from honor prisoners who have received the benefits of an education. Frank R. Brown, of Rowan County, at present is in charge of the teaching, under the direction of the College Extension Division.

The Extension Division, the State Department of Education, and the Central Prison are cooperating in furnishing materials needed by the class, such as books, charts, maps, etc.

According to Frank Capps, director of College Extension, and his assistant, E. W. Ruggles, who largely planned the juvenile classes at the prison farm, other classes of vocational nature will be organized as the boys become proficient in reading and writing. These classes, it is stated, will take up elementary electricity, shop work, and automobile repair, as well as elementary mathematics, civics, history, geography, and personal hygiene and sanitation.

The boys have shown the greatest eagerness for training of this kind, and once registered in a class seldom miss a meeting. As the classes are held in the evening, usually for 45-minute periods after the day's work is done, they interfere in no way with the demands of the State that offenders against the statutes pay for delinquency by labor and loss of liberty.

There is a possibility, too, that the training received in prison may enable

these boys to find a place for them selves in society when their prison terms are over.

There are 190 boys in the juvenile prison at the Camp Polk farm. Arrangements are now being completed to hold weekly meetings of the entire group, probably on each Friday evening, and the College Extension Division will undertake to furnish speakers who will talk to the boys on subjects which should be helpful. Dr. Carl C. Taylor, dean of the graduate school at State College, is scheduled for one of these early meetings.

AN OPEN LETTER TO ALL SENIORS--

¶ In a few short weeks your student days at State College will be over and you will leave forever the class-rooms of State College. Your days on the campus are numbered and a new crop of Seniors are ready to take your places. For three more years men that you know will be active on the campus. Doing things! Being elected to important jobs! Winning games for the old school, and doing things on the campus that you have done before them.

¶ Why not keep in touch with them? Keep up the Wolfpack spirit and subscribe to your newspaper, THE TECHNICIAN, and see what the school is doing. A whole year's subscription is only \$1.50, so fill in the coupon below and mail it in now.

¶ It's a good investment. May we hear from you?

THE TECHNICIAN Business Manager.

I want to keep in touch with State College, so send me THE TECHNICIAN next year.

Name.....

Address.....

P.S. Of course, if you haven't definitely decided on your address for next year you can send the paper home and let them forward it to you.

Member of North Carolina Collegiate Press Association

Entered as second-class matter, February 10, 1929, at the postoffice at Raleigh, North Carolina, under the Act of March 3, 1879.

Co-eds can't be in the Fresh frat. We'll bet they think the Frosh fresh.

Commencement exercises will be held outdoors this year. The officials are not taking any more chances in Pullen Hall.

Just one more edition and we will put covers on the typewriters and put our dictionaries on the shelf until next fall.

The Technician may not be so reliable next year—nearly all the staff members have signed agreements to sell magazines this summer.

We think Bill Pippin is well suited for his newly-accepted position—matron of the co-eds. He sure does keep in close contact with all of them.

In speaking of law and order at the military banquet Monday Governor Gardner LAWded the military department and ORDER-ed applause.

More pictures of professors were turned in this week than ever before. It seems that with examinations just around the corner all the students are trying to get a "leg."

When Lieutenant-Colonel Early leaves State College will lose one of its best humorists. The "newly-wed" joke he told at the military banquet Monday was received with an outburst of laughter.

HONOR?

With examinations looming a week ahead the honor system again blazes into the limelight. The honor system will be just as efficient at State College as the students are honorable, whatever degree that is. A plan was introduced at the North Carolina Federation of Students convention which, according to University men, will do much to elevate honor in colleges. The plan is this: If a man is seen cheating on an exam, two of his fellow students will call him outside and ask him to tear up his paper. They will point out the disadvantages of being a cheat and admonish him to be honest. If he admits the offense and discards his paper nothing more is said of the matter. If he does not, the matter is referred to higher authorities, who have the power to acquit or ship the dishonest student. This plan would at least abolish the sneaking, lurking, deceptive tactics practiced by some students in reporting violations. Then, too, this would give the violator a fair chance and at

least would let him know who his accusers were, and he would take a different attitude toward the whole matter.

Some professors on the campus, according to reports, have adopted detective methods in "planting" evidence on men. One professor, the story goes, worked out a problem, laid the sheet on his desk, and left the room. A student looked at the problem and copied the answer, which was purposely wrong. The professor reported the incident as cheating.

This is what we term the wrong conception of the honor system. The professors are guardians, not detectives. When they intentionally place temptation before students in anticipation of catching someone they are overstepping their positions. They, themselves, have violated the cardinal principle of the system—for have they not acted dishonorably? Just as long as appointed shepherds play the role of detectives and plant temptations before the hungry eyes of the students we will have violations of the honor system.

WHY?

"Live-at-home!" says Governor Gardner. "Grow, eat, work, and propagate State projects."

Fifty-two "believers" in the Governor's "Live-at-home" program have accepted positions with foreign (other states) business firms.

Only 100 per cent of the graduating commerce students are taking their home talent away from North Carolina.

"Oh, where! Oh, where can the North Carolina firms be?"

"Oh, where! Oh, where can they be? With their salaries cut so short and their hours so long."

"It isn't 'Live-at-home' program to me!"

OVER THE CAMPUS

By Elbert Overton

Robert Quillen says: "An agnostic is a man who hasn't any faith in all that foolishness until the doctor tells him it's a matter of weeks." A beautiful parody of this is made when you think of the students who are now being assailed by their professors. It's only a matter of weeks!

We hope the North Carolina colleges make a successful forward step in the organization of the N. C. Federation of students at Chapel Hill Saturday. It will probably be an agency to create more friendships. All power to the federation.

Professor Richardson has certainly done a nice job in securing positions for the seniors. It might be true that they will all have employment. But, the most noticeable fact about the situation is that none of the men have been placed with north Carolina firms, why don't we use home talent?

Captain Applejack went over with a bang: The suar and supporting cast all performed their roles with great efficacy. There was evidence of a good actor back of the scenes. The large audience present was encouraging to the red masquers.

If the expenses for students here at State College are raised, as has been proposed, will the college be benefited any? Many students will be driven away. A few dollars can go a long way toward changing minds of parents and aspiring collegians. The law of diminishing returns is liable to find this an opportunity to function.

Blue Ridge is a fine place to spend your summer vacation and at the same time receive training that will give you college credit and be a benefit throughout a lifetime.

An error was made in this column last week. Milton Abernethy was charged of getting ready to run for another office. He has informed us that he hasn't such intentions, but he says he will continue to "muckrake."

Why can't State College hold its faculty? We understand that two very valuable men from the School of Science and Business, Professors Wood and Schneider are leaving us. This will indeed, be a great injury to that school.

The State College Chapter of the Grange which was recently established, seems to be an active organization. We understand that they are already realizing results from cooperation.

THROUGH THE TRANSON

BY DICK YATES

"PROTECT HOME INDUSTRIES"

With the advent of the North Carolina National Guardsman last week ample evidence of the purpose of the North Carolina National Guard was shown in the content of the advertisements. Of the entire advertising in the magazine, seventy-two per cent was sold to cotton mills in this state. Those mills which were "protected" from strikers carried a larger space than others. Hardly any of the ads were written with the purpose of conveying the impression that the mills running them wished to boost their product. Complimentary ads, merely stating the nature of the business, the location, and the name served in the place of the conventionally persuasive ads so much used when the purpose is to sell something.

Why, even a low-grade moron can glance through the magazine and see that the whole business smells to high heaven. To say that the ads came from cotton mills merely as a coincidence is to admit that one's mental powers are not up to par. In looking around, attempting to find a reason for this large percentage of cotton mill ads, we find ourselves faced with the fact that the only excuse considered necessary for calling out the National Guard is a strike in a cotton mill. Subsequent events always proved quite conclusively that the mill owners were benefited by the appearance of the Guard. Cotton mills in the South are hardly philanthropic agencies; they never buy advertising space unless that space means an increased return for the money invested. Try as we may, the only possible adequate return we can see that could be obtained from these ads is increased "protection" from the National Guard. In that case, the name "National Guard" is absurdly inappropriate.

CONFLICTING IDEAS

We are not free from attack, but our people are more free from the haunting fear of attack than are any other people in the world.—President Hoover.

The Daughters of the American Revolution think differently, and, therefore, utilize wonderful opportunities to make perfect fools of themselves. Thanks should be extended to that organization for creating amusement so uselessly; they certainly relieve others of an unpleasant duty. However, we still think they should retire in the corner and knit socks and blankets for the next war they are expecting.

HIBERNATING STUDENTS

Three weeks ago an editorial advocating the free admission of students from the three girls' schools in Raleigh was printed in this paper. As usual, the majority of the students have set back in smug content, awaiting developments that they themselves must start. If the students, who comprise the college, wish to have the girls admitted gratis, they must say as much. If they are opposed to this idea, a silence maintained by them will in no way obtain the results they desire. Why not circulate a petition for or against this idea?

We may be a little prejudiced about the matter, but personally it seems to us to be a good idea. Fill the stands with girls, and community builders will have some reason to offer for a new stadium. As it is now, with the stands almost empty except at a few football games, the idea of a new stadium is as absurd as the rebuilding of any other college structure that is never used to its full capacity.

If a few of the students who catch their classes in the morning, read western stories in the afternoon, study a while at night, and go to bed at 10:30 would shake the cobwebs out of their brain cavity and sit up and take notice they could get what they want. A spineless, willy-nilly, white-livered attitude will never effect any changes which the students wish made.

CO-EDS ARE VINDICATED

C. P. Shuford, pre-mature graduate of State, attacked the co-eds of this institution some time ago in a letter to the editor of this publication. Much comment was aroused over this letter, and not a few unkindly words were cast in Mr. Shuford's direction by co-eds and their boy friends. Several weeks ago a photo of this Mr. Shuford, who severely criticized the co-eds and called them hags (most ungentleman-like, you know), appeared in the American Weekly under the caption of "North Carolina's Ugliest Man." Mr. Shuford, it seems, has emerged the victor from three ugly contests in this State, and is sponsoring a national event of a like nature, entering himself as a likely candidate.

If the above proves to be any consolation for the poor co-eds whose charm was attacked by Mr. Shuford, our purpose will have been fulfilled.

Stranger Things Have Happened—Why Not This?

COMMENTS from other COLLEGES

Men at Northwestern are not allowed to take girls to athletic events because it is thought that dates tend to dampen enthusiasm for the game and do not show proper respect for the men on the field, who can not take their friends.

Wonder what J. O. Meade, who sat in the eastern bleachers with only his date for company during a freshman contest, thinks of this plan?

Inquisitive one: "Why the black crepe on the door? Roommate dead?" Student: "That's the roommate's towel."

University of California janitors are kicking because students slide down through the banisters and keep them torn

loose. Bunch of backsliders, it seems.

Bumming is no longer a cheap means of traveling at the University of Georgia, where there is a rule which makes it punishable by a \$25 fine.

Because cigarettes cost too much, co-eds at Tennessee have started smoking corncob pipes.

We suppose the popular exclamation is "cob pipe me, cob pipe me."

A professor of physics at Princeton University predicts that humans will develop some means of attaining speed of 50,000 miles an hour before the 21st century is very old. Such momentum, he explains, is necessary if we are to reach the moon. If we are ever fool enough to go that fast we certainly will go right on by the moon and through the Pearly Gates.

SAVE YOUR MATCHES

Match covers are being hoarded student collectors in anticipation of winning the \$10 prize offered by Student Supply Store for the big collection turned in by one student June 1.

Dormitory men are cooperating the contest and fraternities are reported to be pooling the red and white covers.

Truth is such a precious article us all economize in its use.—Mr. Twain.

Snobbery is the pride of those who are not sure of their position.—E. ton Braley.

A more perfect race means a more soulful race, a more soulful race has greater capacity for love.—Bill Key.

Chemistry Grads' Fellowships And Scholarships Announced

This is the first of a series of articles to be given about fellowships and scholarships which are open to graduate students in chemistry.

Below is a list of these. In general, it may be stated that candidates for these positions must file their applications as soon as possible.

Positions Open to Graduate Students Majoring in Chemistry

Brown University, Providence, R. I.—2 Metcalf Fellowships (\$1,000), 1 DuPont Fellowship (\$750), 1 Rice Fellowship (\$750), 3 University Fellowships (\$750), 10 University Scholarships (stipend covering tuition), 3 Graduate Assistantships (\$600 plus tuition).

Holders of fellowships are required to pay tuition (\$300), except that on recommendation of the department the tuition will be refunded to Fellows reporting for research work on August 1st. Address inquiries to Charles A. Kraus.

California Institute of Technology, Pasadena, Calif.—4 Graduate Assistantships (\$750), 6 Teaching Fellowships (\$900), 1 Fellowship

(\$750), 2 Petroleum Fellowships (\$1,000 and \$2,000).

The tuition must be paid until the candidate has been accepted as a candidate for the Ph.D. degree, then half (\$90) is paid.

Columbia University, New York City—1 Special Research Assistantship (\$1,800), 2 Fritzsche Fellowships (\$1,500), these up to the option of Prof. M. T. Beyer may be combined into one stipend (\$3,000). Various university fellowships, scholarships, and assistantships available, varying from \$500 to \$1,500.

Cornell University, Ithaca, N. Y.—3 Fellowships (\$400 to \$750), 1 Scholarship (\$200), 16 Assistantships (\$500 to \$675).

Holders of all these are relieved from the payment of tuition and laboratory fees.

Harvard University, Cambridge, Mass.—Several Fellowships (\$200 to \$750), 14 Laboratory Teaching Assistantships (\$800), acquire of Prof. E. P. Kohler.

Indiana University, Bloomington, Ind.—Special Fellowship (\$1,000 to \$1,200) (minimum requirement Ph.D. or equivalent), 1 Fellowship (\$600), several part-time Assistantships (\$400 to \$80), Gracell Co. Chem. Fellowship (\$50).

Iowa State College, Ames, Iowa—4 Scholarships (\$750), 2 Fellowships (\$640), 10 Graduate Assistantships (\$800), 1 Industrial Fellowship (\$900), 2 Instructorships (\$1,500).

New York University, University Heights, New York City—First-year Fellowships (\$600) exemption from fees in 3 courses; average cost 4th course (\$76), 6 to 8 hours per week teaching required; Advanced Fellowships (\$800), exceptions, fees, and duties as above. Acquire of Arthur E. Hill.

Northwestern University, Evanston, Ill.—Several Graduate Assistantships (\$600 to \$800); several Research Fellowships (\$500 to \$1,000), several University Fellowships (\$500).

Ohio State University, Columbus, Pa.—Several Graduate Assistantships (\$1,000), 30 Graduate Assistantships (\$500), 1 Special Fellowship (\$750), several University Scholarships (\$300), several University Fellowships (\$500). A carry exemption from fees except \$100 matriculation and cost of chemicals.

Penn State College, State College, Pa.—Several Graduate Assistantships (\$800), several scholarships, exemption from fees.

Princeton University, Princeton, N. J.—Several part-time Assistantships (\$650 and free tuition).

Stanford University, Stanford University, Cal.—number of Fellowships (\$750), several Graduate Scholarships (\$200), several Teaching Fellowships (\$600).

Iowa State University, Iowa City, Iowa—5 Scholarships (\$200), 4 Fellowships (\$441 to \$1,000), 3 research Assistantships (\$350 to \$800), 1 Research Aso. (\$1,000 plus), 18 Graduate Assistantships (\$350), 15 Graduate Assistantships (\$700 to \$800). Inquire of Prof. Edward Bar-tow.

Syracuse University, Syracuse, N. Y.—10 University Fellowships (\$500), 16 University Scholarships (free tuition and laboratory fees), several one-half-time Assistantships (\$750, increasing by two successive yearly instalments to \$1,000).

University of California, Berkeley,

TO LEAVE AFTER 4 YRS.

PROFESSOR J. L. CUMMINGS

Professor J. L. Cummings, instructor in Chemistry at N. C. State, has resigned from the staff. It was learned last night. The exact school to which the Professor will go next year was not announced, but it is understood to be in the north.

Cummings, ending his fourth year here, held a position at Columbia University, and had done commercial work for private concerns before entering State. He will devote most of his time next year in research work, doing very little teaching, and this is one reason for the change, it was pointed out.

Professor Cummings is a lieutenant in chemical warfare, and is a graduate from one of the Government's schools in that corps. Besides this honor, Cummings has an A.M. degree in chemistry and a M.S. in chemical engineering.

Cal.—20 Fellowships and Teaching Fellows. These not about \$650 after all fees are paid. Address Prof. G. N. Lewis.

At the Palace All Next Week

One of the best known negro stage actors in American drama—a former chorus girl of the "Blackbirds," negro revue—a former minister and negro editor, one of the few remaining ex-slaves—a vaudeville singing comedian—a cotton-field worker—these are some of the players in the diverse cast in "Hallelujah," King Vidor's great all-Negro talking drama.

From the New York stage, from a phonograph laboratory—from the streets of Memphis, the night clubs of Chicago, and the plantations along the Mississippi the directors of "The Big Parade" assembled the unique group of colored players in the spectacle which comes to the Palace Theatre all next week.

When Vidor, after three years of entreaty, finally won permission to make the daring new picture, the first all-Negro drama in history, the assembling of the cast was his first task. The principal rôles required powerful actors—and but few could be found. He started East on his quest.

Singing "Old Man River" in "Show Boat" in New York he found Daniel Haynes, bronze Adonis with a gorgeous bass voice. Haynes was an established actor of note. Former understudy of Charles Gilpin, star of "Earth," of "Rang Tang" and other Negro stage dramas, he was cast for Zeke, hero of the talking picture, in which he plays the most powerful rôle of his career.

Vidor found Nina Mae McKinney, a sprightly chorus girl and one of the prettiest women of her race, dancing in the "Blackbirds of 1928." Though never before in a dramatic rôle, she proved to be one of the most talented of emotional actresses, in her rôle of Chick, the charmer.

For Missy Rose he needed an actress who could sing in the religious sequences, and on a phonograph record he heard Victoria Spivey, famous "blues" singer. He looked her up—she got the rôle.

Harry Gray, who plays the Parson, had never acted. Born in slavery, he became an itinerant preacher, then editor of a Harlem newspaper. The 86-year-old actor literally relived his rôle as a preacher. Fannie Belle is Knight with Belasco in "Lulu Belle" and other stage productions, and was promptly chosen for the rôle of "Mammy." William Fountaine, the villain, was a dancing comedian in vaudeville—chosen for his type. Everett McGarrity, who plays Spunk, was chosen from among cotton workers on a Mississippi plantation, and little Robert Couch, Milton Dickerson, and Walter Tate, the children in the picture, Vidor found dancing for pennies

on the sidewalk in front of a Memphis hotel.

The Dixie Jubilee Singers, famous Chautauqua chorus, he found in Memphis and impressed as singers to render the spirituals and "blues" in the picture; the extras came direct from the cotton fields.

With these players he told a dramatic story of love, faith, and savage retribution. The story is his own, based on personal experience as a boy in the South. The spectacular baptismal scene, with five thousand players on the banks of the Mississippi, the frenzied religious meetings, absolutely true to life, the dramatic killing in the swamp, and other details of the "Big Parade of the Colored Race" are all filmed with utmost fidelity, with genuine negro music, some never before heard by the public, to embellish the drama itself, in a literal cross section of the Negro race.

At the State Monday, Tuesday, and Wednesday

Ruth Chatterton, as a musical comedy actress who by betrothal is adopted into a family of British aristocrats, romps through a series of whimsically comic scenes educating the peerage in cocktails and jazz and then suddenly springs a surprise in the most dramatic denouements.

This is the actress' achievement in "The Lady of Scandal," Metro-Goldwyn-Mayer's filmization of Frederick Lonsdale's celebrated stage play, "The High Road," which is coming to State Theatre next Monday, Tuesday, and Wednesday.

Directed by Sidney Franklin, who filmed "The Last of Mrs. Crewey," by the same author, it is a collection of clever line and situations which suddenly precipitate a tremendous dramatic situation as the heroine sacrifices her lover to the woman whose need of him is greater than hers.

Basil Rathbone, delineator of sophisticates, appears in the leading male rôle opposite Miss Chatterton, and Ralph Forbes plays the lover. Both leave nothing to be desired in the handling of two difficult rôles. Fred Kerr and MacKenzie Ward repeat their successes in the original London stage play, in which they created the rôles of Lord Trench and Ernest. Nance

O'Neil is a stately Lady Trench and injects much biting sarcasm into her rôle. Cyril Chadwick, Robert Bolder, Moon Carroll, Elmie Ellister, Edgar Norton, and Herbert Bunston have adequate rôles. A spectacular detail is the modernistic theatre setting which opens the picture with Miss Chatterton in a song and dance specialty by Jack King and Elsie Janis.

"Crazy Nut," a talking Charlie Chase comedy, and a Paramount Sound News will complete the program.

At the State Next Thursday, Friday, and Saturday

A sensation! That's "Paramount on Parade," which is coming to the State Theatre next Thursday, Friday, and Saturday. The audience will go for it like nothing that's ever been seen in

this town before. Applause and laughter will shake the house. It is easily one of the cleverest, smartest motion pictures ever made. Some of it is in technicolor.

Every important player in the Paramount company is in the picture, and everyone of them does something big, grand, delightfully entertaining. There is none of the business of dragging in names just to swell the cast. Each member of this cast entertains.

A spirit of the most charming intimacy pervades the picture. The performers meet the audience more than half-way and lead it into the joyful frolic of fun and gaiety. It's like nothing so much as a great, big, jovial Hollywood party with the greatest entertainers in the world on hand to provide the amusement and act as ever-thoughtful hosts.

Look at it this way

IF YOU MADE up your mind to produce the best cigarette ever smoked . . . wouldn't you begin by selecting the choicest tobaccos in all the world? . . . Wouldn't you spend time and money without stint to discover and develop the one most perfect blend? . . . Of course you would. And that's exactly what

Camel did. That's why Camel so quickly became the most popular cigarette in America. That's why, no matter what you pay, you can't match it for mild, mellow fragrance and that smooth richness that makes the perfect smoke. . . Experienced smokers will tell you. . . It's a great cigarette!

Don't deny yourself the luxury of

SOCIAL ACTIVITIES

Plans for Finals

The Pan-Hellenic Council of N. C. State College has engaged Roy Ingram and his Paramount Hotel Orchestra to play for a series of six dances during "finals" this year.

The dances will be given in the Frank Thompson gymnasium, June 6, 7, and 9, embracing a week-end according to the custom established two years ago. The gym will be decorated in rainbow colors, with shaded lights, masses of evergreens, and fraternity insignias and banners.

Allie P. Baggett will lead the Pan-Hellenic figure at one of the evening dances with Miss Florence Briggs of Raleigh. They will be assisted by A. D. Thomas with Miss Virginia Gill of Richmond, Va., and Robert McCracken with Miss Ruth Leary of Morehead City. All fraternity men at State College and their ladies will participate in the figure, at the conclusion of which the young ladies will be presented favors.

The finals committee, which was appointed by President Baggett, includes John McNair of Sigma Nu, James Summey of Phi Kappa Tau, and Mack Hughes of Kappa Sigma. During the "finals" many house-parties will be given by various lodges at their respective residences. Parties will be given by Sigma Phi Epsilon, Kappa Alpha, Phi Pi Phi, and Theta Kappa Nu, while plans are yet pending for other house-parties. The four days of "finals" will be a continuous round of entertainments.

Phi Pi Phi Dance

Phi Pi Phi, social fraternity at State College, entertained members and guests at a delightful dance at their home on Chamberlain Street Thursday night. The house was elaborately canopied with entwined turquoise blue and black streamers, interspersed with red and white balloons. Punch and cake were served the dancers.

The social event was chaperoned by Dr. and Mrs. R. T. Poole and Professor and Mrs. Stewart Robertson.

"Say, Bill; I hear yez had a military waddin'."

"Naw; only Lizzie's old man was there with his shotgun."

Friends!

Many generations of students have passed thru our doors and it is with deep regret that we say "Good-bye" to members of the Class of '30.

Always a friend to State College men and hearty supporters in all your undertakings, we want you to feel that Boone-Iseley is your store when down town.

FOUND: Books, fountain pens, keys, slickers, etc.

LOST: Rifle, book, and a watch.

If you have lost any article call at this bureau this week because a sale will be made of articles after this week.

New York Engineer Talks To State Men About Big Bridges

Mr. F. W. Skinner, consulting engineer of New York City, gave a lecture to the Civil Engineering students on Tuesday evening. Mr. Skinner has been very prominent in the engineering profession for several years. He was for more than 20 years editor of the Engineering Record, was the founder of Contracting, and for 15 years he has been a consulting engineer in New York.

Prof. C. L. Mann extended him the invitation to speak here on the subject of "The Skimmer devoted a large part of his lecture to the details of the building of the Hudson River bridge, the longest and largest suspension bridge in the world. Stereopticon slides enabled Mr. Skinner to illustrate the actual building of the bridge. The span of the bridge is 3,500 feet, reaching from New York side of the Hudson to the New Jersey side. A feat that heretofore has been impossible.

Mr. Skinner had many slides showing the most notable bridges of the world. The construction of many of these bridges was also shown. As each slide was shown Mr. Skinner made many comments explaining the type and construction of each. He explained the principles, requirements, difficulties, development, and the advanced practice of the construction operations.

The speaker is visiting only four colleges in the South with his lectures: N. C. State, V. P. I., Carolina, and Duke.

Judging Frat Holds Banquet at Carolina

The National Honorary Judging Fraternity, Lambda Gamma Delta, had its annual banquet, Wednesday, May 7, at the Carolina Hotel. Mr. Corey J. Spencer, the founder and secretary-treasurer of Jackson, Mich., was the honor guest of the evening. Mr. Spencer gave the principal talk of the evening, emphasizing the necessity of preparation before going out into the business world. He also gave his impressions of his 1,000-mile auto journey from Jackson, Mich., to Raleigh.

Prof. R. H. Ruffner acted as toastmaster of the evening. The judging teams of State College were represented by one member from each department: Poultry, F. W. Cook; crops, A. D. Stuart, and animal husbandry, J. S. Wilkins. Each gave a five-minute talk on the benefits they derived from the training and the contest.

Dean I. O. Schaub, Dr. Z. P. Metcalf, Dr. R. Y. Winters, and Dr. B. F. Knapp, and the coaches of the teams of State College, Dr. J. B. Cotner, Prof. W. F. Armstrong, Prof. W. H. Darst, Prof. F. M. Haig, Prof. W. L. Clevenger, and Prof. J. E. Foster, were present and gave short talks.

Major Taylor, veteran of the Spanish and World Wars, from Jackson, Mich., gave a few humorous remarks concerning his war experiences and of his trip from Jackson, Mich., with Mr. Corey J. Spencer.

Preceding the banquet a formal initiation was given to four new members in Folk Hall. The new members were Dr. L. H. Snyder, Prof. M. E. Gardner, R. Morrow of Statesville, and W. H. Brake, member of the stock judging team at West Virginia.

HARRY TUCKER RELATES ENGINEER'S PART IN WAR

At the regular meeting of the A. S. C. E. Prof. Harry Tucker related the part that engineers played in the World War.

Professor Tucker, who was a captain, said at one time a company of 220 men of the engineer corps, delegated to build a road in "No Man's Land," suffered 165 casualties in a single afternoon. He told about the dug-out crews whose duty it was to examine the abandoned dug-outs for hidden bombs, a find of which usually resulted in a casualty to the engineer corps.

He explained the construction of bridges, hospitals, bomb-proof headquarters, and preparations against gas attacks.

The new officers of the local chapter were installed at this meeting. The new officers are: G. W. Dameron, president and "Saint Pat" for 1931; J. M. Gibson, vice-president; W. J. Whitaker, secretary and treasurer; J. M. Johnson, representative to Engineers' Council.

IS LEAVING

J. B. Schneider, professor of Industrial Management, who was hired for one year to fill Prof. R. W. Heninger's place, has announced that he will make his departure early in June. Professor Schneider came here last fall from the University of Chicago. "I am very sorry to leave," said the professor while discussing the matter. He was hired for only one year and has not yet definitely decided where he will go from here.

Professor Schneider was well liked by the students and heart-felt sorrow over his departure has been expressed by many business students, especially Fred Plunk.

FAMOUS!

North Carolina State College business and science school graduates have climbed to the peaks in their lines, according to E. B. Owen, editor of Alumni News.

A few of the outstanding graduates and their present positions follow:

Samuel Erson Ashbury, B.S. 1893, Assistant State Chemist, College Station, Texas.

Thomas Livingston Bayne, B.S., professor, Cornell University.

James Adrian Bizzell, B.S.'05, M.S.'09; Ph.D., Cornell University; professor of soil chemistry, Cornell University, Ithaca, N. Y.

James Washington Bravley, B.S.'05, Pilot Life Insurance Co., Greensboro, N. C.

William Alexander Graham Clark, B.S.'07, M.E.'09; M.E., Cornell, 1900; U. S. Tariff Commission, Washington.

George Stronach Fraps, B.S. 1896; Ph.D., Johns Hopkins; State Chemist, College Station, Texas.

Henry Kreiger McConnell, B.S. 1907, Tobacco By-Products and Chemical Corporation, Richmond.

Chicken Club Elects Officers

For the purpose of electing officers for the coming year the Poultry Science Club met Thursday evening, May 15, at their regular meeting place. The following were elected, who will take over the duties of the present officers in September: W. H. Ferguson, president; J. V. Arrendale, vice-president; C. B. Beam, secretary and treasurer, and B. D. Johnson, reporter.

Arithmetic Teacher: "Johnny, if your father earned \$40 a week and gave your mother half, what would she have?"

Johnny: "Heart failure."

Roy Ingram Plays For State Finals Beginning June 6

The final dances this year will come on June 6, 7, and 9. There will be six dances: three night dances, two afternoon dances, and one morning dance. The afternoon dances will be given Friday and Monday afternoon from 4 to 6; the morning dance will be Saturday from 10 to 12.

These dances are the largest and last dances given at this college during the year. The finals are given by the fraternities and are sponsored by the Pan-Hellenic Council. They are given in honor of the graduating class.

The music for the finals will be played by Roy Ingram, of New York City. This orchestra plays at the Paramount Hotel and broadcasts from Radio Station WLW. Roy Ingram records for the Brunswick and Columbia reproduction. This band played for the Easter dances at V. M. I., and will play for Cornell Finals on June 13, 14, and 15.

The Frank Thompson Gymnasium, in which this festivity will take place, will be decorated in palatial splendor. The building itself will be completely covered by a mass of colored paper, which will form hundreds of brilliant whirls. The side will carry out the color scheme, but will be in the form of an oblique cube. The orchestra stand will represent a dual sunset, with colored lights playing on the background.

Non-fraternity men may secure admission cards from the officers of the Pan-Hellenic Council. The officers are: A. P. Baggett, president; A. D. Thomas, vice-president; W. R. McCracken, secretary and treasurer.

Account Frat Planning Senior Honor Banquet

Plans are under way by the members of Sigma Alpha Kappa, honorary accounting frat, to hold a banquet in honor of the seniors who are leaving and the few selected men who are to be pledged. Definite plans have not yet been made, but at the next meeting all details are to be arranged.

This fraternity was organized by the seniors in the accounting group in the School of Science and Business, in February, 1927, with a purpose to advance the status of the accounting course at State College and build it up to the point where a graduate of this group will point with pride and confidence to the accounting course which that group wished to see at State College. Another purpose of the fraternity in its infant stage was to secure better subject matter, increase the amount of reference work and secure from time to time outstanding men as speakers.

The following men are charter members: W. C. Walker, Z. E. Whitley, J. A. Riley, R. T. Swindell, A. N. Green, and R. C. Barnes. The three faculty members to start with the organization are Professors R. O. Moe, C. B. Shulenberg, and R. W. Henninger.

Three years have past swiftly and the dream of those sturdy sons of State College is fast becoming a reality. Courses have been added, requirements have been raised, speakers have been secured and under the able management of next year's officers, E. A. Rutter, president; A. C. Little, vice-president; J. W. Little, secretary; H. J. Thell, treasurer, the fraternity should progress even beyond the dreams of those first students of the ancient and honorable profession.

There are certain restrictions and qualifications for membership to this fraternity, the main one being that the student to be elected to member-

She Knows Her "Groceries!"

If anyone should know her "groceries" it's the wife of a professor in the "Ag" school. That's why we're so proud to add her to our growing list of customers among the faculty.

Her faculty wife has boasted about her husband's enormous salary—so that's what they buy their groceries from us—

ship must have an average of 85 on all accounting work for two terms after beginning 1.1 of Kester. Second, a man for membership must have as his life goal following of the accounting profession.

4-H Club Work Makes Advancement In 1929 As Thousands Enroll

In 1929 23,700 farm boys and girls of North Carolina were enrolled in 4-H club work.

Of this number, 62 per cent, or 14,791, completed their projects as outlined and made reports to the county home and farm agents, Mr. Harbison reports. Each of the club members conducted a demonstration under the supervision of county agents.

Girls showed more interest in the work than did boys, 16,365 girls being enrolled as compared to 7,339 boys. There was a 20 per cent increase in enrollment of boys, however, over 1928.

The club girls studied nutrition, food preparation and conservation, clothing and room improvement. The boys chiefly devoted their work to livestock and crops. Demonstrations were conducted by boys in livestock, farm management, beekeeping, forestry, and home beautification. Many club members conducted community projects in connection with demonstrations.

Following is comment on the 4-H clubs which has appeared in a number of the State papers:

"It would be difficult to name any single influence which is doing more for the development of the young men and women of America into useful citizenship than the 4-H Club movement. This year it is estimated that there will be more than 10,000 4-H clubs organized in the United States. As the minimum number of members of a 4-H club is five, that means 50,000 boys and girls engaged in intensive, competitive effort for self-improvement in the fields which the four 'H's' stand for—Head, Heart, Hand, and Health.

"At present there are eight different classes of competition around which

the 4-H clubs are formed—corn, wheat, calves, pigs, sheep, for the boys, and canning, cooking, and sewing for the girls, although there have been and still are many girl members of the grain and livestock clubs. If they did nothing more than train these young folk in the most modern methods the clubs would be doing a great and valuable service; but they go farther than that. They teach the elements of team-work, which in the future, even more than in the past, will be the key to successful farming, and they inculcate the principles of good sportsmanship in teaching the unsuccessful competitors to be good losers. More important than these, even, is the stress laid upon exact cost accounting. The boy who has learned by his own 4-H club record just what it cost to grow a quarter-acre of corn or to raise a calf is going to be a better business man when he runs his own farm than most farmers are today. And farming is on its way to be more of a business and less of a gamble than it has been.

"There are still many rural communities in the United States in which there are no 4-H clubs. Such communities are backward by comparison with those which have encouraged the development of this practical and productive method of helping boys and girls to grow into better and healthier men and women."

NO MAN ---

ever felt his best at a tea dance or house party whose hair needed trimming.

—Finals will soon be here, and of course you want your girl to see you at your best—so drop in soon and get spruced up.
