

HILL-AND-DALE TEAM HOLD FIRST TRY-OUT

In Preparation for Dual Meet With Carolina Cindermen Here November 2

In preparation for one of the most successful seasons on the cinder-path, Coach Alex Redfern has drilled his charges hard the past week. The first official try-outs were held last Thursday.

One week from today the Statesmen take on Carolina in a dual meet, to be staged in the latter's territory. Seven men will enter for the varsity, and seven for the frosh. Last year's freshman team was State Champions, and they defeated Carolina by a margin of 11 points.

The official course to be run will be five and a half miles. Glen Elliot, of U. N. C., holds the State record with a time of 26 minutes and a few seconds.

Captain Redfern and J. N. Johnson finished first for the varsity in this week's try-outs, with the fast time of 21 minutes, 40 seconds for over a 4-mile course. Brock ran Redfern and Johnson a close second, with Henry Ricks trailing only a few feet. Ash and Peary finished third. For the frosh, Troutman, Humphy, Rich, and Drumwright finished first, second, third, and fourth, respectively.

Coach Redfern announced that the teams representing State would probably be picked from the following men: Varsity, M. M. Alexander, J. R. Ash, H. Y. Brock, J. N. Johnson, W. E. Lawrence, A. B. Peary, Henry Ricks, R. E. Truesdell, and himself. From the freshmen, J. H. Bullard, H. E. Bennett, A. L. Drumwright, W. C. Hubald, W. R. Humphy, J. H. Troutman, and T. L. Rich.

The following are the men now out for cross-country: M. M. Alexander, J. R. Ash, H. Y. Brock, J. A. Cox, A. B. Campbell, J. N. Johnson, W. E. Lawrence, E. M. Overton, A. B. Peary,

CAROLINA AND V. P. I. TO PLAY AT UNIVERSITY TODAY

Collins' Forward Wall Looks Good in Scrimmage Against Freshmen

Because of the showing his forward wall made against the freshmen during the week Coach Chuck Collins still has a smile playing on his face, despite the fact that three of his veterans might not be ready for the V. P. I. game at the Hill this afternoon. The game will start at 2:30.

The Tar Heel coaches have been sending three full elevens through a defensive scrimmage practically every afternoon this week in an attempt to strengthen the Heels' forward wall.

This department of Collins' team did not play up to their usual form in the game with Georgia last week, but will be ready to go this afternoon.

V. P. I. will have to offer in their backfield quartet one of the outstanding ball carriers in Virginia and also in the South. This man goes by the name of McEver, MacAuley being his first name. He is quite a big chap and is expected to give the North Carolina men plenty of trouble.

The probable starting lineup for the Heels will be Parsley and Holt, ends; Koenig and Adkins, tackles; Farris and Eskew, guards; and Lipscomb, center. Johnny Branch, quarter; Magner and Slusser, halves, and Harden, full, will form the backfield. J. A. Parker, Henry Ricks, S. G. Riley, P. C. Shaw, T. A. Smith, R. E. Truesdell, J. G. Williams, W. F. White, V. R. Williams, C. D. Patterson, J. E. Byrum, J. C. Boone, J. H. Bullard, H. E. Bennett, C. Chambers, F. S. Feiree, A. L. Drumwright, W. C. Hubald, W. E. Harrell, W. R. Humphy, B. C. Miller, H. L. Ponzor, A. A. Filley, Foust Sloan, J. H. Troutman, H. G. Vann, and T. L. Rich.

Winning that game against the Deacons a few days ago was a bit costly. It put one of State's stars out of the game for the rest of the season. Silver is the fellow.

Morgan, the man who replaced Silver at end in the second half, will be a man that can fill Silver's shoes. This new first-stringer showed some real form and much is expected of him this season.

They say in college circles that the freshman team should not be praised too much, but when one can turn in a victory over a strong team, as the Wolflets did over Duke last week, well the sport pages can't contain too much about it.

It is reported that the "rats" of V.M.I. have a very strong team this year. They have won both of their starts this fall and the game this afternoon should be a good one.

The freshman football team is trying out a new method this year by electing a captain at the beginning of each game. Cobb made a good one last Friday.

Just too bad that State lost Leeka after his freshman year here a few years ago. The Associated Press said this Monday about the former Wolflet player: "Iowa received a batch of new stuff to prepare for the invasion of Wisconsin Saturday, with Leeka, who was promoted from B team, tossing passes."

Word has circulated around that a wrestling team is being started down at the gym—let's go down and help them out.

Alec Redfern and his band of cross-country runners are working hard for their first meet of the season with Carolina on November 2. Watch these men step this year.

Not much has been heard about the tennis team! Is one being organized? If so, let's hear something about it by just dropping a note in at this office, so we can send a man out for a story.

Fifteen minutes is not very long, but Georgia scored two touchdowns in the last quarter over Chapel Hill last Saturday, to beat the Tar Heels. Better luck next time, Carolina.

State will have a cold game as well as a hard one this afternoon when it plays Michigan State at Lansing, Mich. Last year a snowstorm occurred when these two teams were playing.

We see that Williams has taken the lead in individual scoring again in the State. Williams is an Elon back.

Carolina is still leading the team scoring.

This football outfit has another good game set for this afternoon, when they play V.P.I. at the Hill.

The losing streak that Duke has struck in football games this season has just about taken "DeHart" out of the Blue Devils. They have another hard game this afternoon with Villanova.

That'll be a good game at Greensboro today, when Davidson and Wake Forest play.

College girls are taking up boxing. They wrestle, too, but it is called dancing.

OLD FARM IMPLEMENTS TO BE COLLECTED AT STATE

The Department of Agricultural Engineering at N. C. State College is starting a collection of old agricultural implements. Professor D. S. Weaver, head of the department, says that the progress made in the past fifty years in the invention and manufacturing of farm machinery is outstanding.

Probably the most interesting piece in the museum is an old home-made planter, made before the War Between the States. It consists primarily of a wooden keg, around the middle of which is a wooden rim. Just to one side of this rim is a series of holes. The whole keg is in a frame to which are attached handles, a point to open the furrow, and two sticks to rake the soil back over the seeds. The quantity of seed which is dropped is regulated by the stopping up of different holes with corn-cobs.

Professor Weaver says the principles in this old machine are still employed in the modern two-horse, two-row corn and cotton planter, as they still use furrow openers, dropping devices, and covering chains.

The Department of Agricultural Engineering is collecting as much of this kind of material as it can, and will welcome any addition which any one cares to make.

Key Town selling —a new telephone idea

Commercial development men of the Bell System have originated a new use of the telephone which is proving economical and efficient for modern salesmanship. From important central towns the salesman makes periodic visits to customers and prospects by telephone.

To conceive this idea, to make it practical

by selecting Key Towns on a basis of most advantageous rates to surrounding points, and to sell it as a business practice—all this illustrates how telephone service is as open as any commodity to constructive imagination.

Key Town selling is one of many indications of the steady demand, present and to come, for more and more telephone service.

"LITTLE DOC" MORRIS INSTALLS BIG ICE BOX TO HOLD 1,200 DRINKS

"Little Doc" Morris has installed a new triple-door refrigerator in his college rendezvous. This new box will

hold approximately 50 crates of beverages, it being nine feet long, four feet wide, and three and one-half feet high.

Another recent installment is the new eagle ball game, to keep the students amused. A large variety of

magazines and papers can also be bought here. All these installments make this one of the most up-to-date college hang-outs in the South.

The moving picture critics are right, always.—Pola Negri.

Drink
Coca-Cola
Delicious and Refreshing

PAUSE AND REFRESH YOURSELF

IT WON'T BE LONG NOW. AND THE PAUSE THAT'S COMING MAY NOT BE SO REFRESHING AS SOME OTHERS WE KNOW OF.

The moral is to avoid situations where it is impossible to pause and refresh yourself—because whenever you can't is when you most wish you could. Fortunately, in normal affairs there's always a soda fountain or refreshment stand around the corner from anywhere with plenty of ice-cold Coca-Cola ready. And every day in the year 8 million people stop a minute, refresh themselves with this pure drink of natural flavors and are off again with the zest of a fresh start.

Wolflets and V. M. I. Play Here This Afternoon

FROSH IN GOOD CONDITION FOR SECOND BATTLE

Virginians Expected To Give Locals Hard Scrap

LARGE CROWD WILL SEE 1933 MEN IN ACTION

Both Schools Have Best Teams Secured in Recent Years; State's Line Expected to Make Much Trouble for the Visiting Backfield Men.

One of the best football games to be played here this season will be run off this afternoon on Riddick Field when the State College Freshmen and V. M. I. football squads meet. The game is set for 2:30.

This yearling team from the Virginia Military Institute, being one of the best, the Virginians have had in quite a few years, is expected to give the Wolflets the hardest battle they will have this season.

Coach Drennan's freshmen showed some real football ability in their first game of the season with the Duke Blue Devils last Friday, when they sent the Methodists back to the North Carolina smoky city with the small end of a 9-6 score.

It was a strong line that opened up holes in the Duke line for the set of fast-stepping backs, especially in the first half, that will be counted on to chalk up the second State Frosh win of the season today.

The showing the cubs made in the backfield department was one of the outstanding features of the game. During the first half every man stepped off many yards through and around the Duke line, and the passing and punting of Waddell, Raleigh boy,

Tobacco's
at its best... in
a pipe

MEN'S preference for a man's smoke—the pipe—is plenty positive. But do you know why? We'll tell you.

First, pipe tobacco's different—for instance, Edgeworth. Second, tobacco smolders as it should in a pipe. And third, these mean you get more satisfaction—greater relish of the good old savory burley, soothing fullness of rich smoke.

There's even a fourth reason: you like good company. The pipe-smoking brotherhood is that.

Tobacco's at its best in a pipe. It gets a chance to be itself there—to loosen up as it comes to life, to expand and take in air and glow. Only the choicest leaves get that chance, moreover, for pipes tell the truth about tobacco. Choice leaves, choice blends, and mighty careful handling. Edgeworth comes up through eleven distinct processes before we're willing to pass it on to you.

If you keep on missing all this, that's your fault—for we're waiting to send you your first pipeful of Edgeworth. See the coupon? Fill it out, get a good pipe and the postman will bring you a neat little glad-to-meet-you packet of good old Edgeworth.

Edgeworth is a careful blend of good tobacco—selected especially for pipe-smoking. Its quality and flavor never change. Buy it anywhere—Ready Rubbed and Plug Size—15¢ packet package to pound humidifier tin.

EDGEWORTH

LARUS & BRO. CO.,
Richmond, Va.

I'll try your Edgeworth. And I'll try it in a good pipe.

Name _____

Town and State _____

Now let the Edgeworth come!

SOME OF STATE'S STARS THAT HAVE BEEN TWINKLING THIS SEASON

MACK STOUT

AL VANN

CAPT. JOHN LEPO

BASEL MELTON

EIGHT NEW TENNIS COURTS COMPLETED AT STATE COLLEGE

Eight new tennis courts were completed near the freshman athletic field during the summer. Never before has State College had such splendid tennis courts.

All sophomores in the Physical Training class are required to learn the game, and with the rest of the school the courts should see steady usage during the fall and spring months.

With the opening of the intramural sports, the 21 fraternal organizations and clubs on the campus will be given an opportunity to compete for the tennis honors of the school, and this year the competition promises to be keen.

JOHN SILVER

PAUL CHOPLIN

Above we have some of Gus Tebell's men who have already attained gridiron stardom, one who will be out the rest of the season, and another who will probably show his wares before the season is over. Top row, left to right: Stout, Vann, Melton, and Lepo, who are twinkling, and in the bottom row we have Silver on the left, who will be out the rest of the season with a foot injury, and Choplin, a man who will probably see action before the season is over.

could hardly be improved on in frosh circles.

The line, with Duke and Burneum, ends; Cobb and Stroupe, tackles; Matlock and Martin, guards, and Red Espey at center, is one that any college would be proud to own.

The freshman team has plenty of reserve material that is just a few points below the first string to call on, in case of necessity.

After today's game the Tech yearlings meet the Wake Forest freshmen here, November 11; Davidson frosh at Davidson, November 8, and close the season with the Carolina freshmen here on the Wednesday before Thanksgiving. A large crowd is expected.

MAYFIELD WILL RECOVER SAYS TELEGRAM RECEIVED

Jimmie Mayfield, who held a guard's position on the Wolfpack football team for two seasons and who played right field on the baseball team, was seriously injured by a falling tree several weeks ago in a lumber camp.

His hips were crushed, and his condition was so serious that rumors came out to the effect that he was not expected to live.

School officials called Saint Luke's Hospital at Richmond, Va., for a report on his condition, and found that he is well on the road to recovery.

Being industrious and well dressed lands a man at the top.

To work hard and dress intelligently and stylishly is to improve your chances of getting along as you should.

Genial costuming will help you make friends, and after all friends are the most important part of lives.

You'll feel friendly toward this man's shop after you have purchased articles of wear here and found out how thoroughly satisfactory your purchases proved to be.

Wolfpack and Michigan State Play Today At East Lansing

FIFTEEN MEN ANSWER CALL FOR WRESTLERS

Paul Choplin Will Captain 1929 Grapplers, Joe Moore Assisting

Fifteen men reported to the initial call for the wrestling team which was issued by Coach "Buck" Drennan last week.

Paul Choplin is captain of this year's mat men. The men have been working out every Monday night in the athletic gym.

Since Coach Drennan is busy with freshman football, Joe Moore, last year's captain, has consented to work out with the men in the afternoons he has vacant. Also, Eason, another ex-grappler, is helping the men.

Both varsity and the freshmen will send a team to represent State College in collegiate meets. With the first meet scheduled for the first of January a general call is being issued to all men who would like to try out for the team.

Joe Broadhurst is manager. The tentative schedule as announced by Coach Drennan is as follows: Varsity—V. P. I., January 1; Carolina, January 8; Duke, January 20; Davidson, February 1; V. M. I., February 8; W. and L., February 10; Virginia, March 1. Freshman—Carolina frosh, January 8; Davidson frosh, January 20; Winston High, February 1.

Wolflets Inaugurate Plan To Elect Leader

New Man Will Be Selected To Lead The Team In Each Game

The State freshman football team has inaugurated a new captain system this year. In the past years one captain was elected for the whole season, but now one man is selected for each game. In this way there will be five captains for the season.

Cobb, the big Marine tackle, was captain the first game of the season and proved himself to be a very able leader. His running mate, Stroupe, is expected to lead the Wolflets in their game this Saturday against the strong V. M. I. freshmen. Coach Drennan hopes this new method of selecting freshmen captains will keep up a good spirit and incidentally develop some good leaders for future teams.

Gus Wright is doing some mighty fine punting in the Wolfpack backfield.

Will Be Third Game Between Two Schools in the Last Three Years

Gus Tebell and his band of Wolves are a long way from home today, and this afternoon will play Michigan State at East Lansing, Mich.

State left for the northern stamping ground early Thursday morning and arrived in the Spartan stronghold early Friday afternoon in time for a light workout before the game today.

Today's game will be the third between the two schools in the last three years. The first year, Michigan came down here and was defeated 19-0 in a sea of mud, and the following fall State journeyed to their school to return the call and were defeated 7-0 in a driving snowstorm, and tomorrow's paper may carry a story about the game being played in a whirlwind—who knows? and at the same time—State or Michigan will have one.

With the count standing one game won and one lost between them, the two teams will be fighting for the upper hand. Twenty-two members of the Pack made the trip. John Silver, string end, did not go, as he will be out the game the rest of the season with a broken ankle.

In addition to Coaches Tebell and Sermon and Student Manager F. M. Johnson, the following men made the trip: Ends: Patterson, Morgan, Jordan and Crowson; tackles, Lepo, Gardner, Rose and Hampton; guards, Stout, Vann, Smathers and May; centers, Choplin and Gorham; backs, Melton, Dellinger, Davant, Aderholt, Johnson, Wright, Jeffrey and Edmondson.

Interest In Nation's Football Play Today Will Be Divided Among Baker's Dozen Games

Interest in the nation's football Saturday, October 26, will be divided among a baker's dozen of contests, the majority of which will be played in the East.

West of Ohio, the mid-west will find Chicago and Purdue lined up at Chicago; Michigan at Illinois; Nebraska at Missouri; and Iowa at Wisconsin.

East of Ohio Carnegie Tech will entertain Notre Dame, Dartmouth will journey to Harvard, Lafayette will tackle Penn State at State College, Princeton will entertain the Navy, and Army will go to Yale.

Three major contests are scheduled for the South. Florida and Georgia will battle at Florida, Mississippi will go to Southern Methodist, and Arkan-

DAVIDSON AND WAKE FOREST DEACONS TO PLAY AT GREENSBORO

When Davidson and Wake Forest meet in football today at Greensboro a battle of wits will take place, or rather, more so than just a plain, straight football game, in that the respective coaches, Monk Younger and Pat Miller, will each have a bag of tricks to spring on their most worthy opponents.

With injuries plentiful in the Presbyterians' camp, and Coach Miller out to test his reserve material, two more reserve football teams will battle on more or less even grounds.

The Demon Deacons have placed their second-string backfield on the front, and reports from that section are that Hutchins, Mills, Newsome, and Dupree are performing up to par and will probably start the game. The backfield reserve material is much more promising than that of the line, and much time has been spent during the past week developing said material to stand the punishment to be given by the Wildcats. The two Edwards boys and Zimmerman are due to see lots of service in the contest.

From Davidson the report comes that the boys have things under control, and the air will be used to a great extent in order to score on the heavy team from Wake County. The scrimmage held last Wednesday was very costly to the Wildcats in that two good members for the day's contest were hurt. Chick Brohard and Murry Christian are the above mentioned, and Brohard may be out the remaining part of the season. Fraley and Parrish are to be the mainstays in running and passing for the 'Cats.

while at guards, Bob Thorpe will have as his running mate, Fred Taylor. Adkins will replace Rupp at center.

The Devils left Thursday night for the Quaker City and will take a light workout Friday on the Irishmen's grid field. Thirty men made the trip on the squad and plans were being made by which a special train would travel to the northern city for students, but nothing definitely was announced.

NOTICE!

All fraternities, military companies or clubs planning to enter teams in Intramural Athletics are requested to register by November 1. There will be a swimming meet and horseshoe pitching contest this fall.

TRY-OUTS FOR COLLEGE DEBATING TEAM NOV. 18

Three Other Eliminations To Be Held at Same Time in Pullen Hall

Try-outs for the varsity debate squad, the freshman debate squad, temporary membership in both Leazar and Pullen literary societies, and the oratory squad will take place at the same date. The try-outs occur Monday, November 18, from 3 to 5:30 in Room 109, Pullen Hall. Try-outs for all four groups will consist of a five-minute speech on either side and on any phase of the question, "Resolved, That the United States should advocate the worldwide disarmament of all armed forces except those needed for police purposes." A bibliography on this question may be secured at the library. Contestants are urged to begin their study of the question at the earliest possible opportunity. A list of suggestive topics dealing with the general question of disarmament will be found posted in the meeting rooms of both Pullen and Leazar, on the second floor of the Y. M. C. A., and on the door of Room 109, Pullen Hall.

All contestants who desire further directions and advice concerning the try-outs should see Prof. Edwin H. Paget, director of forensics, in his office in 109 Pullen. He will be in his office at noon on every school day in the week.

Professor Paget wishes to urge all students not to be too modest. If you have had any debate experience at any time during your school career or have had training in public speaking, declamation, oratory, or literary society activities, try out by all means. Let those directing debating judge whether or not you possess potentialities. All those displaying signs of innate ability will be given careful training over a six weeks' period. At the end of that time the teams will be chosen. Freshmen will receive instruction during a several months period, in order to

prepare them to fill vacancies in the debate or oratory squads in 1930-31. Upperclassmen achieving the most progress will probably be invited to become temporary members in Pullen or Leazar literary societies. The outstanding members of this group will be elected to permanent membership to Leazar or Pullen at the close of the winter quarter. Those students who are fortunate enough to win a place on the varsity debate teams will be eligible for election to the Forensic Council and to Pi Kappa Delta, National Honorary Forensic Society.

IMPROVEMENTS SHOWN IN AGRICULTURE EDUCATION FOR PAST ELEVEN YEARS

The development of agricultural education in North Carolina, under the support received through the passing by Congress of the Smith-Hughes Act in February, 1917, and the George Reed bill in 1928, has been little less than miraculous. Starting the program in 1917-18 by taking over the 21 farm-life schools in 18 counties of the State, with an enrollment of 223 students, the report for 1928-29, just eleven years later, shows 143 schools in 68 counties with an enrollment of more than 10,000 men and boys in organized classes.

Of course the increase in enrollment is encouraging, but the interest among farmers, business and professional groups, and the results as indicated by improved practices in the environment of the schools and by profits on student projects—last year approximately a million dollars (\$1,000,000)—is indeed gratifying. In our opinion there has never been any movement inaugurated in America that means more for the improvement of agricultural conditions among the mass of farmers than the teaching of vocational agriculture in the rural high schools of the nation. By this means the best scientific information on production and marketing is taken directly to the farmer out in his home community, and by the requirement of supervised practice work and accurate records each student is given a chance to check up on the teaching.

For the young man who believes in rural life and who has a passion for service and leadership there is no more challenging opportunity than is offered in the teaching of agriculture in the large rural high schools serving definite agricultural communities, with the school as the center.

He: "Please!"
She: "No."
He: "Please do."
She: "Positively no!"
He: "Please, just this time."
She: "I said no!"
He: "Aw, ma, all the boys go bare-footed now."

LOIS CLAYTOR ADDED TO EDUCATION DEPARTMENT

Her Work Will Be With Teachers of Wake County and Its Towns

Miss Lois Claytor, of the Southern Woman's Educational Alliance, has been added to the staff of the Department of Education at this institution. Miss Claytor is a graduate of Duke University, and has spent quite a bit of time at Harvard studying under the direction of Dr. Brewer and Dr. Allen in the Department of Vocational Guidance.

This new member of the educational staff will be associated with Professor Boshart, and do extension work through the Department of Education of State College. She will hold classes at Cary, Garner, Apex, Wendell, Zebulon, and other places throughout the county. She will hold classes for the teachers, and assist them in working out their problems in the respective schools. Her work will be very similar to that which Professor Boshart has been and is now carrying on.

SHAKESPEARE PROFESSOR DISCOVERS RARE LETTER WRITTEN BY OLD MASTER

Prof. B. Roland Lewis, of the English department of the University of Utah, discovered a letter written by Sir Robert Temple, a gentleman of Oxford, to Harry Rose, keeper of the Shakespeare property, asking for certain bulbs for transplanting. This reveals another angle of the immortal Shakespeare, according to Prof. Lewis, namely, that the great dramatist was a lover of flowers and took a keen interest in the appearance of his property. The letter was written in 1616, about the time of the marriage of Shakespeare's daughter, says Professor Lewis.

The discovery was made in the Huntington Library at San Marino, Cal., where Professor Lewis spent the past summer. This library has one of the largest collections of original Shakespearean documents in the world today. Dr. Shelling, of the University of Pennsylvania, and Dr. Baskerville, of the University of Chicago, eminent authorities on Elizabethan drama, worked with Professor Lewis.

The University of Utah, through the efforts of Professor Lewis, has one of the finest and most complete collections of facsimiles of original Shakespearean documents in the world. Professor Lewis devotes a good share of his spare time to research. His recent and notable discovery brings added reputation not only to him, but to the University as well.

AG JOURNALIST STUDENTS HEAR DR. KNAUPP TALK AS FIRST REPORTING DUTY

Students in Agricultural Journalism got their first taste of speech reporting Thursday, when Dr. Joseph G. Knaupp, associate professor of agricultural economics, explained the Farm Marketing bill in an address to them. Tracing the history of this and other recent farm bills, he made comparisons, explanations and criticisms of the late bills introduced affecting the farmer.

Dr. Knaupp was in Washington while the committee was considering the bill.

HARRY TUCKER WILL GIVE DAM CONSTRUCTION TALK

Professor Harry Tucker, of the Highway Engineering department, is giving a series of lectures to freshmen at 12 o'clock each day in connection with motion pictures.

His first lecture, which started September 22, was the history of engineering, illustrated with pictures of ancient engineering structures. Since this time he has given lectures on bridge building, road building, water supply, and hydraulics. Professor Tucker has eight more lectures before he finishes his series.

The lecture for next week will be "Dam Construction."

World Power Conference Will Be Held In Berlin Beginning June 16 To 25

The engineering profession and the power developing and using industries of the United States are planning an elaborate paper program for discussion in the sessions of the World Power Conference to be held in Berlin, June 16-25, 1930.

The papers program will stress the economic and financial problems of this generation, the distribution and utilization of power, and focus the attention of the world upon the increasing importance of this tremendous agency in the building up of civilization.

The American committee is formulating the program, which will be closed on October 21st. It is expected that general reports of all the papers will be available in French, German, and English well in advance of the congress.

The address of the World Power Conference Program Committee is Room 818, 29 West 39th Street, New York City.

257 STUDENTS REGISTER IN SCHOOL OF EDUCATION

Department Was Organized in North Carolina State College Three Years Ago

The School of Education is no longer in the old quarters at Ricks Hall, but has been transferred to the new Holiday Hall. The change was made this summer.

The School of Education, the newest of all separate schools, was organized two years ago, now being in its third year, but is recognized as one of the fastest growing schools at State College. The enrollment at the beginning of its first year was 155, but increased 41 in its second year. And now the school has nearly doubled itself in population, with a total enrollment of 257 students starting the course this year.

Before the school was made a separate department there were courses offered from the School of Science and Business, but now it has been greatly enlarged.

Professor T. E. Browne is dean of the school, and on his staff are five other instructors. Only one new member was added to the staff this year, he being Mr. Merle F. Showalter, who is Associate Professor of Education.

LOS HIDALGOS SOCIETY DISCUSS ELIGIBILITY OF CO-EDS FOR MEMBERSHIP

With freedom of the press, freedom of speech, and the freedom of the seas, Los Hidalgos, the foreign language fraternity, which met Tuesday night, discussed the eligibility of the co-eds for membership.

C. S. McIntyre, president of the fraternity, presided over the meeting. The eligibility of the co-eds caused a heated discussion, which resulted in the tabling of the motion. But a consensus of the fraternity showed that a majority favored the fairer sex for membership.

Dr. L. E. Hinkle, who has just returned from abroad, gave a very interesting talk about his stop in Dejon.

STATE SOPHOMORE HURT WHEN AUTO OVERTURNS

Frank Goodwin, sophomore, of Apex, now in Mary Elizabeth Hospital, was injured while trying to be kind to dumb animals.

Mr. Goodwin was going home for the week-end, and, as usual, was sitting heavy on the gas when a dog appeared in the road from nowhere. Goodwin turned his car to miss the dog. He missed the dog, and he also missed the road, which resulted in an overturned automobile.

The doctor at the hospital says Goodwin is improving and will be able to be back at State in about two weeks.

LEARN TO FLY

at the

CURTISS SCHOOL

Aviation offers unsurpassed opportunity to correctly trained aviators. Studying under experienced Curtiss instructors and flying with crack Curtiss pilots thoroughly prepares you for a high place in the business of aviation.

Curtiss offers only the finest instruction and equipment—avail yourself of this splendid opportunity and learn to fly at the local Curtiss Flying School. Write for information or better yet, drop in and see us!

DEAN ELMER CLOYD TALKS TO FRESHMEN ABOUT BAD CONDUCT AT STATE FAIR

Dean Clloyd spoke to the freshmen during lunch Thursday about their ungentlemanly conduct at the fair.

The subject was egg-throwing. It seems that quite a few State students were engaged in the pleasant duty of tossing sundry objects, such as eggs, bricks, etc., at a certain sideshow. Their kindness was unappreciated by the attacked party. The dean stated in no uncertain terms that the act was outrageous.

The chairman of the Fair called Dr. Brooks about the matter, and vehemently stated that arrests would be made if such a disturbance occurred again.

NINE CANDIDATES TRAIN FOR CROPS JUDGING MEET HELD IN KANSAS CITY

In preparation for the International Crops Judging contest, to be held November 16, in Kansas City, Mo., nine candidates for the crops judging team began training Monday under the supervision of Prof. W. H. Darst and Dr. J. B. Cotner, both of the agronomy department.

"The Little International," an elimination contest which is similar to the national contest in Kansas City, will be held next Saturday. The four men making the highest grade in the elimination contest will represent State at the national contest of all the agricultural colleges in America.

Three old men are out for the

team this year. They are: I. A. McLain, who served as alternate on the team last year, and L. D. Eagles and A. D. Stuart, both forced out in the elimination contests last year.

POULTRY SHOW WINNER SECOND PRIZE AT STATE AGRICULTURE EXHIBITS

The State College Poultry Department's exhibit, "Steps to Egg Profits," shown at the Students' Agricultural Fair held in connection with the North Carolina State Fair, was awarded second prize in competition with the other seven agricultural departments.

The unique feature of the exhibit was the arrangement of steps formed as stairs showing in a striking manner the factors essential to the securing of eggs and egg profits.

The colors of green, yellow, and white used in the color scheme not only made the exhibit as a whole attractive, but also brought out in a forceful and effective way the main idea of the exhibit.

The first of the six steps illustrated that it is necessary to begin poultry keeping with standard, pure-bred birds. Strong, healthy chicks hatched, early from standard, pure-bred birds and reared under sanitary conditions, is the second step to egg profits. The third step, showing a portable range house and equipment, carried further the idea of sanitation and steady growth which is absolutely necessary to strong and profitable layers. The housing of these future layers in strong, substantial, and comfortable houses was illustrated by the model laying house and equipment on the fourth step. The last and most essential step to egg profits illustrated the principle of feeding a complete and well-balanced ration, consisting of scratch feed, mash, green feed, and grit, was shown on the fifth step with small heaps of these various feeds.

When all these five steps had been carefully followed, the poultryman was shown to be on the road to full baskets of eggs and egg profits, which is the ultimate goal of all progressive poultrymen.

STATE RAH-RAH MAN WRITES A NEW DITTY FOR FOOTBALL TEAM

Skip Merriam, official cheerleader, added the famous Sunday school song of "Brighten the Corner" to the cruder realms of football, and from the combination made a new football song. The words are appropriate, but the tune is somewhat incongruous.

(Tune of "Brighten the Corner")
We want a touchdown,
Hit that line.
Just a little touchdown
Will be fine.
We will get that hoodoo,
And we'll bury it tonight;
'Cause we want a touchdown,
Fight! Fight! Fight!

HINKLE WILL RESUME NIGHT CLASS IN MODERN LANGUAGES

Under Direction of North Carolina State College Extension Bureau

The night classes in modern languages, which will be taught this winter by Dr. L. E. Hinkle, of the State College faculty, under the direction of the College Extension Division, will hold their first meetings this week, according to Edward W. Ruggles, assistant director of the division.

The class in German will meet Thursday night at 7:30 in room 103, Hugh Morson High School, and the class in Spanish will meet at the same time and place on Friday evening. The night classes are open to the public, and those who are interested in the study of modern languages during spare time are invited to attend.

According to Mr. Ruggles, a class in French will be organized if there is a sufficient demand for the subject. Dr. Hinkle has just returned from Europe, where he spent four months in travel and study. He received his Doctor's degree during the past summer at the University of Dijon, offering as a thesis the manuscript of his forthcoming book, "French Civilization."

Other publications of Dr. Hinkle include "Some Things We Owe to Spain," "The Languages in Technical Education," "The Modern Languages in Connection With Citizenship," and a "Textbook of Elementary Spanish."

Him: "My father was a wonderful man. He knew the date of his death two months before he died."
Her: "Wonderful! How did he do it?"
Him: "The judge told him."

'Not Wrong For College Students To Ask Conveyance' Says Daniels

"There is nothing wrong with college boys asking for rides about the country," said Hon. Josephus Daniels to his State College Sunday school class at Edenton Street Methodist Church Sunday, "if they always pay for their rides."

He paused a moment to let his statement sink in, and then continued: "I do not mean that a boy should offer to pay for his lift in money as he would a taxi driver. The average college student knows a great many things the average motorist does not know, so why can't he teach the driver something as they travel along?"

"Several days ago, as I was return-

ing from a trip to Richmond, I picked up a couple of boys at Wake Forest and brought them over to Raleigh. On the way over I said to one of them: 'I never had a chance to go to college. I always wanted to study psychology. Suppose you tell me about psychology between here and Raleigh.' And—here Mr. Daniels smiled benignly—"when we got to Raleigh I knew about psychology."

Several months ago several articles came out in the *News and Observer* condemning the practice, so common among college students, of 'hitch-hiking.' In my opinion, asking for rides is all right, but only as long as they're paid for."

J. F. MILLER WRITES ON FALL GYM REQUIREMENTS

Physical Training Given for Hygienic Value, Says Head of Physical Education

By J. F. MILLER
(Head Physical Training Dept.)
In the past one of the main objectives of the required course in physical training has been for the hygienic value derived from it and also to encourage better skill in athletics.

The course this year will be as it has been in former times, and it will be enlarged to some extent. A credit in physical education will be on the same basis as any other college credit. The requirement of the physical education department is that all students are required to take physical education for six terms, which includes the freshman and sophomore years. These classes meet twice a week for a thirty-minute period.

The department has several courses, among them are tumbling and apparatus stunts, efficiency tests, and the corrective classes. These courses are for the freshmen only. The sophomore classes have tag football, handball, tennis, boxing, volleyball, basketball, soccer football, and playground baseball.

Individual competition among the freshmen this fall will be:

1. Medicine far throw (one arm).
2. Springboard high jump.
3. Three pegs.
4. Run, hitch, kick for height.
5. Bar vault for height.
6. Bar snap for distance.
7. Rope climb for time.
8. Rope skipping.
9. Elephant vault for distance.
10. Standing broad jump.

For the sophomores there will be:

1. Elimination league tennis doubles.
2. Elimination league handball doubles.

The required courses have twelve classes of freshmen and twelve of sophomores. Each class will choose individuals for each event who will meet in class competition.

This year the freshmen have a series of exercises, eleven in number, which are called "The Wolfpack Eleven." Students will be graded on their knowledge of these exercises and their ability to perform them. They will also be graded on their ability to do certain events.

The sophomores will be graded on their general knowledge of tennis, handball, and tag ball.

The course at State is an attempt to be the most modern procedure in physical training. Although handicapped by lack of enough instructors, this department is doing remarkably well.

WILLIAMS, ELON BACK, LEADS INDIVIDUAL SCORING IN STATE

Pete Williams, Elon's star backfield man, has replaced Jimmy Ward, of Carolina, as the individual point scorer in North Carolina football circles. Williams has scored 41 points to 30 for Ward. Manger of Carolina is third with 26 points, and Cox, Gullford, fourth with one less.

Mills, with three touchdowns, is Wake Forest's scoring ace. McCall and King lead the Davidson scores with two touchdowns each, while Flop Beaver heads Duke with a brace of six-pointers.

Carolina Leads Teams
Carolina continues to set the pace in team scoring. The Tar Heels sport 121 points. Elon is second with 92, while other team totals follow: Wake Forest, 71; Gullford, 63; Davidson, 55; Duke, 39; Catawba, 20; High Point, 15; State, 14; Lenoir-Rhyne, 13, and Atlantic Christian, 6.

Blue Key
Blue Key meets Friday, November 1, at 12:45 in the College Cafeteria. All members please be present.

"What did John try to do last night?"
"He tried to neck me."
"What did he say when you said no?"
"April fool!"
"And then what?"
"I said April fool, too."

CAPTAIN EDEN ADDITION TO MILITARY UNIT HERE

Is Native of Illinois and Former Instructor at Cornell University

The Military Department at State College is very fortunate in having Captain J. R. Eden as an instructor and adviser. He is a college graduate, having finished at Depau University in 1910 with an A.B. degree. During his college life he was a member of Phi Kappa Psi fraternity, Kappa Tau Kappa senior honorary fraternity, business manager of the Glee Club and business manager of the college annual. He was also at Cornell University from 1922-1926 as an instructor in the R.O.T.C. division.

Captain Eden is a native of Illinois, and did several years work on the *Illinois State Register*, a newspaper. At the beginning of the World War he was with the First Officers Training Corps as a Lieutenant in the infantry. When the United States entered the war he was promoted to a major. During the war period he received a Croix de Guerre and divisional citation for his good work. He served eleven months overseas. After the war was over he was given the title and work of a captain in the infantry. Captain Eden was sent to Porto Rico for three years as a member of the staff of United States troops. During this period he gave

REV. POTEAT ADDRESSES MEETING OF FELLOWSHIP LEADERS IN "Y" MONDAY

Rev. E. M. Poteat led the weekly meeting of the Discussion Group leaders held last Monday night in the north end of the Y. M. C. A. on the subject, "Dishonesty in the Classroom and Elsewhere."

Interest in these leaders' meetings is increasing weekly, the attendance growing from 30 to almost 50 men. C. L. Clark and F. H. Whitley have succeeded in getting the leaders to work in their respective sections of the various dormitories, and their efforts have resulted in much interest being shown

by the freshmen who have attended the first two meetings.

A very interesting topic has been chosen for next week's meeting and should be very helpful to all men who attend the meetings next Wednesday night, says Whitley. The subject will be "Personal Liberty and Its Uses."

Is that your new girl?
No; just the old one painted over.

EACH

IS A HIGH-SPOT
OF PLEASURE

Camels are either a solitary pleasure

or a companionable custom As you pass

from one activity to the next or meet one

friend after another let Camels mark the

transitions and lend their cheerful aroma

to each new circumstance To punctuate

each day with high-spots of pleasure say

to yourself now and then I'll have a Camel!

Camels are mild, mellow and smooth... refreshingly cool... an expert blend of the choicest tobaccos grown. That's why they bring you an extra measure of pleasure... why they never tire your taste, nor leave an unpleasant after-taste, no matter how often you smoke them.
