## UPPERCLASSMEN MUST ATTEND CHAPEL

### TOTAL ENROLLMENT FIXED NEAR MARK SET LAST SESSION

Lower Than Previous Attendance Record By Thirteen

### FRESHMEN INCREASE; OTHERS SHOW LOSSES

School of Engineering Again Enrolls More Than One-Third, With Science and Business, Agriculture, Education, and Textile Schools Following—Co-eds Return in Increased Numbers, the Majority Enrolling in High School Teaching.

With the tabulation of students now completed by the Registration Department, a check-up reveals that the total enrollment of both men and women students amounts to 1,797, a registration 13 less than the same period last year.

The Engineering School, as usual, far outnumbers any other two schools on the campus, having a total enrollment of 784 students, 347 of this number being freshmen. Second comes the School of Science and Business with an enrollment of 343 students. Enrollment in other schools follows: School of Agriculture, 257; School of Education, 186; Textile School, 122. Special students number 14; graduate students, 55; irregulars, 8. Twelve students, who registered late, are not included in the above tabulation. State's freshman class this year outnumbered that of last year by 55, with an enrollment of 681 students. These freshmen are distributed throughout the schools in the following numbers: School of Engineering, 347; School of Science and Business, 130; School of Agriculture, 99; School of Education, 73, and the Textile School, 32.

Total co-ed enrollment is 76. The majority of this number is in the School of Education. Of the 18 freshmen—Continued on page 2

### OFFICIALDOM

When N. C. State and Clemson gridsters clash at Charlotte Saturday night the governors of both North and South Carolina may add the touch of officialdom. Governor John G. Richards of South Carolina and Governor Gardner of North Carolina have been invited to attend, and since Governor Richards has tentatively accepted, the chances for the attendance of both officials is expected.

The Wolfpack is in good shape for the encounter and will make a strong bid for victory in Saturday's game and thus change the tide that has followed them in the past two games.

### Staff of Agromeck Chosen To Help Elected Officials

The staff of the 1931 Agromeck was announced this week by the editor, Everett G. Couch, and Business Manager John N. Gammon.

This year the staff for the annual is smaller than ever before. It is said by the officials of that publication that in previous years there have been some members of the staff that were no more than drones, but this year they have decided to do away with this and have selected men from which they expect the very best of service.

On the new editorial staff there are three seniors, three juniors, and one sophomore. The business staff is composed of one junior and one sophomore to aid the business manager. The Agromeck follows a policy of training men for their respective positions and letting them grow into them,

### FRESH FELLOWSHIP GROUPS HOLD SECOND MEET OF YEAR

Carried On By Upperclassmen Under the Leadership of Halstead

The Freshman Fellowship group had a fine start and the second meeting of the year showed much interest in the work which is carried on for the first-year men by upperclassmen under the chairmanship of Jimmie Halstead.

The leaders are all members of the promotion force of the Y. M. C. A. and are instructed by Jimmie Halstead and Rev. F. McNeill Potest, of the Pullen Memorial Baptist Church.

Several hundred freshmen have signed up for the meetings, which are held each Wednesday evening during the fall term, groups being held in the dormitories and in the Y. M. C. A. Some of the groups are under the leadership of prominent faculty members, who report much interest and thought among the new men meeting with them.

### State Forest Club Takes New Members On Autumnal Tramp

On Saturday evening, October 4, the members of the N. C. State Forest Club gathered in front of Little Doc Morris' place for the purpose of taking the new men on the Annual Fall Hike.

Sixty-five men along with Dr. J. V. Hofmann, Professor Hayes, Dr. Anderson, and Mr. Graber proceeded on their road to a rendezvous near Boone's Pond. Two large fires were already burning and to one side could be seen boxes with rolls and weiners peeping from under their covers.

### JOE E. MOORE ORGANIZES LOST-FOUND BUREAU HERE

Was Organized Last Year Under Same Man and Proved Great Help

The Lost and Found Bureau, conducted under the direction of the Self-Help Bureau director, Joe E. Moore, has been organized and is at work now. Darnell Whitt, self-help freshman, is assisting Mr. Moore in performing the work of the bureau.

Last year the bureau had its birth under the leadership of Mr. Moore and was of such signal benefit that it was commended by the president of the college. Before last year there was no plan or method of locating the owner of an article found on the campus or there was no place to look for something that had been lost.

Students losing articles with their names in them will be notified by mail or by a personal call if the article is turned in at the Y. M. C. A. desk or at the bureau in Office "Three of the Y." Any article turned in at the bureau will be advertised and the operator will make all efforts possible to locate the owner.

### BLUE KEY ASKS MORE UNIFORMS FOR STATE BAND

Regalia for One Hundred Men Advocated By Fraternity

UNIFORMS WERE BOUGHT THROUGH BLUE KEY HELP

Leadership Fraternity Wants Cooperation of Authorities In Taking Steps To Help Raise Money To Buy More Uniforms—Robert Gatlin Presides Over First Meeting—Want Band To Make Trip With the Football Team This Year.

State College will have the best student band in the South in the near future, if the plans of Blue Key, national honor fraternity, materialize.

At the first meeting for the season of the college cafeteria banquet room last Friday, the members of that organization, to some extent, forecast their plans for the coming year. Their main motive during the year is to equip the State College band with uniforms adequately to take care of 100 men. They are offering to cooperate with the proper authorities in taking steps to raise money to buy these uniforms.

Two years ago the Blue Key was the chief instigator in bringing about the movement which made it possible for the school to equip a 30-piece band. They circulated a petition asking that—Continued on page 2

### State Now Toots With Symphonic Orchestra

North Carolina State College is able this year, through the guidance of "Dead" Price, to boast of a symphonic orchestra for the first time in the history of the college. The orchestra is composed of 25 musicians, all but five of whom are natives of North Carolina.

The orchestra will make its debut in the middle of November and will make several other trips through North Carolina.

### FEDERATION OF COLLEGES TO CONVENE HERE OCT. 21

Representatives of Colleges in Eastern North Carolina To Attend

On Wednesday, October 22, representatives of all the colleges of Eastern North Carolina will gather in Pullen Hall for afternoon and night sessions of the North Carolina Federation of Students, having as a special guest and speaker, Ed R. Murrow, president of the National Students' Federation, an organization which has recognized the State Federation.

This meeting, the first of its nature ever attempted in the State, is being planned to go over in a big way. The State College band will be on hand to furnish music, speakers prominent in the educational field of the State and other dignitaries will be present to add to the meeting.

The North Carolina Federation of Students, founded last year, has as its members every college of the "Big Five," as well as a majority of the junior colleges of the state. Their purpose is to establish better relations between the colleges who are members and to aid in causing some type of reciprocity in athletic games, thus allowing students of visiting teams to view games at a decreased cost.

Adn colleges be held, but western and central institutions of the State will gather in another convention held at the same time but at a more centrally located place.

### CH. E. HOLDS FIRST GET-TOGETHER OF YEAR

Has Rented Booth At State Fair, Which Will Be Filled With Exhibits

The American Institute of Chemical Engineers, local chapter, installed last year under the leadership of Dr. Randolph, held their first meeting of the year Tuesday evening in the Civil Engineering Building.

C. M. Sprinkle, president, presided over the meeting, making a short speech relative to the aims and purposes of the organization. Old members stated Sprinkle will throughout the year tell of their experiences in the fields of industry in which they worked for the past summer.

A two-reel moving picture, giving a graphic picture of the refining of crude oil to make the many products that are derived from it, was shown at the conclusion of the meeting.

Plans for the organization's participation in the fair are rapidly going forward. A booth, which will be filled with various chemical exhibits donated by the many chemical companies of North Carolina and Virginia, has been rented in the main fair—Continued on page 2

### State Military Will Appear At Next Game

Probably for the first time in the history of State College football, the entire R. O. T. C. unit dressed in their new uniforms and accompanied by the band, will give a demonstration before the Wake Forest-State game Thursday. Marching on the field, following the band, they will execute several maneuvers while the drum and bugle corps adds to the music.

This, according to Major Silvester, is only the beginning of the unit's work on game days. During chapel drill periods the unit has been practicing the college yells and songs, this making the first time the R. O. T. C. corps made a deliberate attempt to better school spirit in the ranks preparatory to the football games.

### N. C. STATE AGRICULTURIST COMES OFF PRESS TOMORROW

After Five Years of Sleep, Magazine Awakes To Resume Place On Campus

After five years of dormancy, the N. C. State Agriculturist, publication of the agricultural school, has been revived and the initial issue will come off press tomorrow.

The magazine contains 24 pages, most of them filled with explanation of the agricultural school. This edition especially plays up the Students' Agricultural Fair, which will begin October 13. John Crawford, president of the fair, has an article in the periodical. In addition, this edition carries articles written by different departmental professors.

Rufus G. Vick is editor and W. Beaufort Callahan business manager of the Agriculturist. Other members of the staff, as given out by the editor, include: R. J. Jenkins, managing editor; W. H. Brake, associate editor; A. D. Stuart and F. W. Cook, alumni news; F. H. Jeter, extension; W. K. Wynn, editorial adviser, and D. H. Latham, campus news.

The business staff is composed of: T. M. Fields, circulation manager; J. D. Britt, national advertising; R. C. Invey, B. D. Robinson, C. G. Lawrence, and W. D. Reynolds, local advertising.

### ANOTHER COUNTY CLUB

Another organization, the New Hanover County Club, was reorganized at a meeting of students from that county in the Y. M. C. A. last week.

Charles D. Whaley, senior in electrical engineering, was elected president; W. O. Humphrey, vice president; R. Konig, secretary, and William Boyd, reporter.

The purpose of the club, as set forth by the constitution, is "to create fraternal spirit among the members of our community who are in this institution." The club will meet every Thursday night in the Y. M. C. A. at 6:30.

## Founders' Day Meet Occasion of Ruling Made By Dr. Brooks

Every Upperclassman Is Required To Attend Chapel Once Each Month—Purpose of Meetings, According To President, Is To Bring About Better Unity Between Student Body and Faculty and To Promote Harmony Between Student Organizations

### THEY DO!

"Work like Hell and advertise." Theta Tau, professional engineering fraternity, apparently has adopted this old slogan and mean to abide by it in their campaign to foster school spirit.

Posters mimeographed and tacked up by members of the fraternity last Thursday informed students of the Wolfpack's departure for Florida and urged them to be present for a big send-off. This was the first step taken by Theta Tau this year towards improving school spirit on the campus.

### REDUCED FAIR TICKETS ARE OFFERED STUDENTS TO BETTER ATTENDANCE

A large attendance of college students is expected at the North Carolina State Fair, since reduced admission prices are being offered the students, and the program is one which should particularly appeal to them.

Again this year student tickets will be on sale for 35 cents. The regular admission price is 75 cents in the daytime, and 50 cents at night. The student tickets will be on sale at the various colleges, and should be purchased before coming to the fair grounds.

The amusement program at the fair this year includes eight big free acts in front of the grandstand in the Melville-Reiss Shows, 40-car outfit with 17 shows and 10 rides, and a big fireworks display every night.

The feature act will be the "Sensations of 1930," a real Broadway musical comedy revue, with 32 chorus girls in the cast. This attraction carries its own stage and lighting equipment, and is exactly the same sort of show that costs \$6 to see on Broadway during the winter season. The admission to the grandstand at night for this big revue, the fireworks program, and the eight big free acts, which are to be repeated both day and night, will be only 50 cents.

Larger and better exhibits than ever shown before are already entered in every department, attracted by the \$25,000 premium list. Horse racing, with \$6,600 in purses, will be the feature of the afternoon program.

## Plans for Engineers' Fair Presented By W. G. Dameron

Plans for a larger and more elaborate Engineers' Fair than has previously been attempted were presented to the Engineers' Council Thursday night by the new president, W. G. Dameron. The first meeting of the council was utilized by the president for the appointment of committees to take charge of different phases of the work, and for outlining their duties for the year.

The council this year hopes to interest a larger number of people over the State in the fair with a view to stimulating an interest in engineering education in North Carolina. It is possible that arrangements will be made for having the night parade photographed for the screen by one of the news reel companies. Although no definite date has been set, the fair which has for years been one of the most looked-forward-to events of the

calendar will probably be held this year about the first of April. The following committees have been appointed: Fair: H. D. Crotts, chemical engineering; R. C. Kirk, electrical engineering. Parade: J. M. Johnson, civil engineering; C. M. Sprinkle, chemical engineering. Bowl: W. C. Bangs, ceramic engineering; J. W. Workman, architectural engineering. Deans: E. A. Meents, ceramic engineering. Snacks: W. M. Stevenson, mechanical engineering; V. M. Harrison, architectural engineering. Alumni: W. F. Gorham, mechanical engineering. Publicity: J. B. Gurley, electrical engineering.

### STATISTICS

The strength of the R. O. T. C. regiment of State College as of September 30 was 891—newly enrolled for military work in the four classes. In the basic course, covering the first two years of work, are 768 men taking military training, with 506 first-year men and 262 second-year basic men. Sixty-seven juniors are taking the first-year advanced work, with 56 seniors taking the second-year advanced work.

### REVIEW OF FRATERNITY MEET GIVEN BY HEADMASTER MAST

Many Interesting Occurrences Told of By President At First Meeting

At the first meeting of Delta Sigma Pi, International Professional Commerce Fraternity, held Tuesday night at 101 Peele Hall, Headmaster William T. Mast gave brief review of the National Convention of that organization held in Detroit, Mich., September 10-14, at which he was official delegate for Beta Delta Chapter of N. C. State. Mast revealed many occurrences of his few days in Detroit which, he

said, made him appreciate being a member of Delta Sigma Pi. There were about 150 delegates present at the convention and approximately 15 of that number were official delegates. The convention was held for the purpose of discussing business matters of national importance in Delta Sigma Pi.

Delta Sigma Pi takes in new members two times each year. Plans for pledging the new men will be taken up at a meeting in the near future, according to the headmaster.

#### ATTENDING CONVENTION

Lee Mercer, local senior in chemical engineering, left Tuesday to attend the annual convention of Tau Beta Pi, which will be held in Bethlehem, Pa., at the home of the founder, Dr. Williams.

Heretofore the conventions (which are nation-wide) have been held in some middle-western state, thus making it easier for delegates all over the nation to attend. This year, however, due to the declining health of Dr. Williams, and since a memorial to him is to be unveiled there, it was decided to have the convention in his home city.

#### A.I.Ch.E. Holds First Get-Together of Year

(Continued from page 1) building for the use of chemical engineers. Since this is the first division of the engineering school to have a booth at the State Fair, it is expected to attract quite a bit of attention. The booth has one of the most desirable locations to be had—that

one between a large Raleigh bank and the Maxwell House Coffee booths.

Dr. Randolph, in a short talk to the members and freshmen who were invited to attend, stated that the purpose of the organization was one of mutual benefit. Chemical engineers, he declared, were easily placed in the many positions open in North Carolina and Virginia.

Freshmen who were invited will be given the privilege of joining the organization Tuesday night, October 21, as associate members, becoming active in the third term. Every member of the chemical division of the engineering school is eligible to become a member of the club.

#### Blue Key Asks More Uniforms for State Band

(Continued from page 1)

the students pay a certain amount extra on their registration fee to buy the band uniforms, and this was a success. As a result, that number was purchased at a cost of approximately \$1,500.

Robert Gatlin, president of the North Carolina State College Chapter of Blue Key, says that the organization is willing to cooperate to the fullest extent in furthering the advancement of the band. They will assume the responsibility to formulate plans for raising the necessary funds. He is asking the cooperation of the student body, in behalf of Blue Key, to make State College's band the best in the South.

The plans of raising the money to equip the band have not been made, but different channels whereby it may be secured have been considered. Gatlin says that in many colleges of the United States collections are taken up at the football games so that the fans will have a chance to contribute to their band.

It is the aim of Blue Key to make one long trip a year possible for the State College Band with the football trip. They feel that it will be an aid in creating better school spirit; will be an advertisement for the school, and they think the members of the band deserve that much recognition as an expression of appreciation for their services to the school.

Blue Key is a national honorary fraternity and is known as the Rotary of the colleges. The State College Chapter was established in 1922. To become a member of Blue Key it is necessary for a student to rate high scholastically and must be actively connected with school activities. The local chapter has its meetings bi-monthly around a dinner table in the cafeteria banquet room.

# FLORIDA ELEVEN DEFEAT WOLFPACK IN LAST HALF 27-0

**Both Teams Scoreless Until the Second Half, When Floridians Hit Stride and Score Unchecked for 10 Minutes**

After holding the Florida Alligators to a scoreless tie for the first half, N. C. State's Wolfpack turned around last Saturday in Florida and lost by a 27-0 score. The Alligators hit their stride in the third period and for ten hectic minutes could not be checked. In these few short minutes they amassed a total of four touchdowns and three extra points.

This was the first conference game for the two teams, with Florida showing a decided advantage. A crowd of more than 10,000 fans saw spectacular runs by Sauls and Bethea, of Florida, and a great defensive game by Charlie Cobb, State tackle.

**Betha Stars Scoring**  
The first half showed two evenly matched teams running the ball back and forth between the twenty-yard lines. Early in the third period the red-headed Bethea gave Florida their first score by running 37 yards, behind perfect interference, for a touchdown. This run started the ball rolling, and in less than ten minutes the big Florida backs had crossed the last white marker three more times. After these few minutes the scoring ceased; the rest of the game as closely played as the first half, neither team showing a marked advantage for the remainder of the game.

**Sauls Runs 61 Yards**  
Ed Sauls, Florida's 200-pound fullback, made the longest and prettiest run of the day when he caught a kick-off, sidestepped State's tacklers to an open field and ran 61 yards and stumbled and fell. On the next play he drove through the line for the remaining yards and a score.

**Cobb and Gurneau Star**  
The work of Charlie Cobb and Sam Gurneau deserves special mention. Charlie Bachmann, Florida coach, said many nice things about the play of the two State boys. The players stat-

## GURNEAU SHOWS PLUCK IN FLORIDA GRID TILT

SAM GURNEAU

Sam Gurneau, big Indian fullback from Superior, Wis., is N. C. State's one "all-American." Against Florida last Saturday, Sam was remembered by the 'Gators. The Tampa Tribune says in part: "The Carolina team, led by Gurneau and Cobb, played superb ball for the first half. They balked every attempt of the superior 'Gator machine on the goal." Gurneau is Van Liew's biggest "passing hope" in the game with Clemson Tigers at Charlotte Saturday.

ed on their return that the Florida stands gave Cobb an ovation as he left the field after the game. The Tampa Tribune says in part: "The Carolina team, led by Gurneau and Cobb, played superb football for the first half. They balked every attempt of the superior 'Gator machine on their own goal."

## Wolflets To Play Oak Ridge Cadets At Soldiers Field

North Carolina State College freshman football team officially opens its season at Greensboro Saturday afternoon with the hard fighting Oak Ridge cadets.

Dr. Warren is well pleased with the showing that the freshman candidates have made in practice sessions, and with the benefit of the grinding practices that all of the present 55 aspirants have undergone, a good showing is expected of the "Little Wolves"

# STATE GRIDSTERS TO TUSSLE TIGERS AT "QUEEN CITY"

**Old State Spirit Much In Evidence—Many State Students Expected To Attend the Game and Cheer Team.**

The old N. C. State College football spirit has been much in evidence during the week as the Wolfpack squad works out daily getting into shape for its game with Clemson at Charlotte, Saturday afternoon.

Undaunted by their defeat at the hands of the University of Florida Saturday at Tampa, Coach Van Liew, Dr. R. R. Sermon, Line Coach Butch Slaughter have been giving their men plenty of work this week and the squad has responded as if the game Saturday were its first of the season.

The 'Gator game was the first Southern Conference game of the season for State. Coach Van Liew's men put up a hard battle for the first half, when the 'Gators failed to cross the goal, but Coach Bachmann's shock troops began to show their quality in the second half when the Floridians got busy and scored 20 points in the third quarter and seven more in the fourth.

Coach Van Liew stated upon his return to Raleigh that his men made a great showing and that he was well pleased with the team. The weather was rather hot and the squad was tired a bit from the long trip, the State mentor said.

Although State failed to score, it presented one of the greatest tackles seen in Florida in many years in Charlie Cobb. Cobb, who is a sophomore this year, was praised by Coach Bachmann of the 'Gators as being all-Southern calibre. When Cobb left the field he was given one of the biggest ovations ever paid a visiting player.

Cobb along with Willie Duke, left end; Mat Matlack, left guard; Red Espey, center; Capt. Mack Stout, right

in the battle at three o'clock Saturday afternoon. About 30 men will make the trip over to Greensboro in the bus which leaves Saturday morning at 9 o'clock.

## SATURDAY AT 2:15

A radio story of the State-Davidson football game, to be played in Charlotte Saturday, will be broadcast over Station WBT for the benefit of thousands, who, though interested, will not be able to attend the contest.

The description of the play will be given by football experts. The story from the field will go on the air at 2:15.

guard; Milo Stroupe, right tackle, and Bud Rose, right end, are expected to give the Clemson team lots of trouble Saturday.

This line material is the strongest department in the State camp this fall. All of the men are Sophomores except Capt. Mack Stout and Bud Rose. Stout is serving his last year and Bud Rose has one more after this.

### Boxing Notice

All interested in trying out for the boxing team report at the gym Friday, at 4:30. This year boxing is a recognized minor sport and letters will be awarded.

Dr. R. R. SERMON.

Robert "Bob" Cook, halfback, of Charlotte, will see some action in his home town Saturday when N. C. State meets the Clemson Tigers. Bob is leading the Wolfpack in scoring and

Upperclassmen must attend chapel. This edict will automatically penalize many students about three points annually.

N.C.S.

Fifty thousand people gathered at Kings Mountain to see Hoover. Think how much revenue could be derived from such a crowd at a football game!

N.C.S.

Football must be a "sport for governors." It is very likely that Governors Gardner and Richards will both attend the State-Clemson affair in Charlotte tomorrow.

N.C.S.

If State College could hold the State championship in football as long as the Athletics are holding the National pennant for baseball, we wouldn't have to worry about advertising the school.

N.C.S.

"Red" Staton's episode of the 'possum is about the best we have heard yet. Anyone would think he had been courting in the country, although he says he was in the heart of the residential section of Raleigh.

N.C.S.

The commemoration of Founders' Day last week at Pullen Hall was an impressive occasion. The entire faculty was seated on the stage available for the student body to observe in a mass. The very life and thoughts of each professor radiated from the respective faces. During the exercises some of them slept for a few minutes; in fact Dean B. F. Brown was about the only one who remained wide awake throughout the occasion. It seemed that Professor Boshart was studying, the phrenology and physiognomy of the students; Dr. Metcalf was indulging in thoughts of the zoological structure of man; Dr. Garrison was thinking of human behavior in its highest type; Dr. Wilson thought of man only in terms of his chemical value, which is only about ninety-eight cents; Prof. Heck was figuring out when Jupiter was going to sprinkle the earth again; Barnhardt was originating a wise-crack for his next class; Prof. Ruffner was anticipating another midnight wagon ride in his tuxedo; Prof. Dave Weaver was worrying about how much money he had lost by not taking up the bootlegging profession; Dr. Randolph was pining for his Willys-Overland; Dr. Harrison was closely watching for a grammatical flaw in the speaker's English, and the rest—some with thoughts and some without.

STOP THE LEAKS

LACK of finances annually forces numerous students to drop out of college at the end of the first semester. Many parents pine each fall, "I want to send my son back to college, but it costs too much."

Strange to say, most of the really poor boys stick out until they have graduated. It is usually the spendthrift, the seemingly rich, who discontinue their education before graduation.

The poor boys know finances are limited, and curb their expenditures. They become accustomed to deprivation and outside work. As they advance the ladder of learning the incline becomes easier. Many of these self-help students finish with money to their credit in the bank.

It is the student who seemed to have plenty of money—who spent liberally for "college" clothes, expensive organizations, and other luxuries—who does not return.

Are these frivolities worth the price? Is one year in college with a "big splash" worth four years of conservative education?

Now is the time to curb our expenditures for vain indulgences and save it for things of permanent value. Then we will not have to drop out of school before our education is complete.

AND SPRING IS YET TO COME

It has been the case many afternoons this year that a stranger passing the college campus on Hillsboro Street would get the impression that State College is a co-educational and co-racial school. Very often we have noticed members of the colored race, both sexes, parked on the lawn around the monument and along the bank afford the highway. They seem to make this a meeting place to socialize.

Apparently, negro nurses, from families living in the vicinity of the college, bring the children out for fresh air and recreation, and always, by some chance, meander over to the campus and are met there by their boy friends. Occasionally we have noticed several couples congregated on the lawns, and they seem to feel perfectly at home. They recline on the grass and, naturally, create attraction for passers-by.

This practice is indeed a reflection on the institution, and should be stopped at once. Some students have already assumed the initiative to speak in person to negroes whom they have seen committing this offense. They asked them to find some other place to do their courting, and were heeded. But, of course, it is impossible for them to speak to all who come here.

The college officials should take some steps to prevent continuation of this practice.

ROBBING PETER TO SAVE PAUL

FADS AND FANCIES involve economic waste, and one of the latest examples of this is night football.

All over the country athletic officials this fall erected expensive floodlighting systems whereby the football games could be played at night. State College, not to be left behind, poled lights on Riddick Field.

One game has been played at night. The result was so discouraging that other night games were called off.

At the High Point-State game difficulty was experienced in following players. It was hardly possible to distinguish players, and college spirit appeared at a low ebb. Glamour and color, the dominant attraction in all large crowds, was lacking.

The little experiment, it is said, cost State College approximately \$1,200. Earlier in the summer a decrease in appropriations forced the college to clamp down on expenditures for college publicity. It is true the college received a little publicity by erecting the lights—but that's about all.

Of course the lights were used during hot weather for night scrimmage. But evidently this plan did not work so well. Our team has not been any more successful this year than in years before. Sport writers everywhere have condemned night football, and only last week Chris Cagle, of Mississippi, refused to play his team against the Wolfpack at night.

More than likely State College has played its last night game on Riddick Field. We wonder if the crowd witnessing the State-High Point game was 600 larger than it would have been had the game been played in daylight?

THE FOOTBALL INDUSTRY

A CURSORY glance at the Sunday sport sheets serves to indicate that the 1930 season will add considerable weight to the argument that football is no longer a game, but an industry. The original purpose of football seems to have been forgotten in the mad rush for dollars, winning teams and new records.

Harvard draws upon its multitudinous workmen to amass ten touchdowns in a double header. The "B" team of Notre-Dame scores a one-sided victory against a Detroit eleven while the "forty horsemen" cavort in the new million-dollar stadium. Colgate takes great pleasure in announcing the high scoring mark of its modern history in a 99 to 0 triumph over a fifth-rate opponent, and Louisiana State boasts childishly that its 85 to 0 win, even though over a set-up, keeps it atop the South's high point column.

Carolina brings three teams and more to V. P. I. (though it must be admitted they kept most of the first string in), and Yale is criticized for smothering a weak adversary with a continual string of substitutes. And these substitutes—if the Carnegie report is to be believed—punch the time clock and draw their wages the same as any union man.

And the worst is yet to come. For with the great mid-season games will be heard the cries of "biggest crowd of all time" and athletic officials will work overtime checking the receipts of the record gate. The modest college gridiron has given way to the colossal Yankee stadium and Soldiers' Field as the theatre of these money-making spectacles.

Of course it's not quite as bad as all that may sound. There are still a few institutions where they don't go in for turning out halfbacks like collar buttons. They still regard football as a college sport and take no pride in using a hundred players to crush little Siwash by some unparalleled score. They are not interested in gaining a few dollars and a victory at the expense of their students' careers and their honor.

But these are few. The rest have tooted their whistles, issued their dinner pails and set out to manufacture their football machines. It's unfortunate, too, because football will last in this country only as what it was intended to be—a game. Its industrial tendencies will turn upon it some day and cause its downfall.—Virginia Tech, V. P. I.

Blow the Whistle

—for the Pause that refreshes

When you suffer from large and undiluted doses of your fellows. When the milk of human kindness seems to sour. Blow the whistle for a minute's "time out" on your own account, to pause and refresh yourself.

In other words, go into a huddle with a glass or bottle of refreshing, delicious Coca-Cola. It will make you captain of your soul again, ready to live—or die—for the dear old alma mater.

The Coca-Cola Company, Atlanta, Ga.

9 MILLION A DAY—IT HAD TO BE GOOD TO GET WHERE IT IS

F. T. "Dink" Dellinger, halfback from Cherryville, is one of N. C. State's four lettermen in the backfield. He is fast and has a love for fight and football. In the Florida game with the 'Gators last week Dink did his share of good playing. While the

Wolves have been having much trouble with their backfield, the 'Gator game showed them up as not being so weak. When State and the Clemson Tigers clash in Charlotte next Saturday, Dellinger will be there and State mentors promise some "good playing."

STEPPING INTO A MODERN WORLD

Scientist and Salesman

THE MODERN PARTNERSHIP

Like every other modern industry, the Bell System requires the combined effort of scientist and salesman. The commercial man has again and again shown the public how to use new products of the telephone laboratory, and how to make new uses of existing apparatus.

Transmitting pictures and typewritten mes-

sages over telephone wires are services right now being actively promoted. Scientific selling by long distance is among many ideas originated to increase the telephone's usefulness.

In short telephony, is a business, with problems that stimulate commercially minded men and a breadth of opportunity in step with the fast moving world of industry today.

BELL SYSTEM

A NATION-WIDE SYSTEM OF MORE THAN 20,000,000 INTER-CONNECTING TELEPHONES

**"Whoopee,"** the well-known Ziegfeld staling success, has been produced on the talking screen and will be presented at the Palace Theatre all next week. Produced under the personal supervision of Florenz Ziegfeld himself (the first picture he has ever made) and starring Eddie Cantor and the original New York company, including the world-famed "glorified" girls, "Whoopee" emerges in many ways the sprightliest entertainment of its kind to come to the audible screen. Constantly revealing the inimitable touches that have made Ziegfeld the foremost producer of musical comedies in the world, "Whoopee" from the word go is highly paced, spontaneous, and scintillating comedy. The songs which Walter Donaldson wrote for "Whoopee" include "A Girl Friend of a Boy Friend of Mine."

"I'll Still Belong To You," and "My Baby, Just Care For Me." Here's a week of real entertainment.

With an all-star cast of seven well-known screen and stage players, Universal has made what is claimed to be one of the outstanding dramas of the year, "A Lady Surrenders," which comes to the State Theatre next Monday and Tuesday.

Adapted from the popular novel "Sincerity," by John Erskine, "A Lady Surrenders" is a blending of ultra-sophistication and astute subtlety. It was directed by John M. Stahl, one of the best-known directors and producers.

The story concerns the marital difficulties of a young and well-to-do bed manufacturer and his novelist wife who is bored by the confinement of married life.

Conrad Nagle, one of the screen's best-known and most popular stars, has the masculine lead as the young husband.

A Paramount Sound News and a comedy entitled "Helping Hand," will complete the program.

dresses, broadcloth, shirts, draperies, and other numerous materials where a silk-like material is used.

Miss Walton told of the alliance between the creators of the fashions in Paris and the cotton fields of our Southern cotton growers. The new material has caused many changes in the textile industry of this nation and its development should be of interest both to the mill workers and the mill operators.

Of Paramount interest to lovers of the theatre is the engagement at the State Theatre Wednesday matinee and night of Brook Pemberton's hilarious comedy production, "Strictly Dishonorable," the great smash hit which is now in its second year at the Avon Theatre in New York. The present production has been directed and in every way supervised by Miss Perry and Mr. Pemberton, who performed similar tasks for the original New York presentation.

**State Tennis Team Getting In Shape For Fall Matches**

The State College tennis team is getting into shape for the fall term and three matches are being booked for this month. At a meeting Saturday with Professor Lefter, the new city champion, a program for the coming school year was outlined. A tentative ladder of the rankings of the players who have so far shown an active interest in making the team was drawn up and at the same time a system of challenging was worked out so that anyone who has the goods may make the team.

The tentative ladder is given below and the rankings are based upon the performance of the players in the Raleigh city tournament and their play against last year's lettermen. A man's position on the ladder depends entirely upon his own ability to hold his place against anyone who might challenge him.

- No. 1—M. R. Vipond.
- No. 2—L. C. Vipond.
- No. 3—J. T. Perry.
- No. 4—Hubert Crow.
- No. 5—W. G. Kircheimer.
- No. 6—H. B. Merriam.
- No. 7—L. C. Holman.
- No. 8—C. P. Early.
- No. 9—S. Baroudi.
- No. 10—E. S. Beran.
- No. 11—Frank Gelle.

A player who wishes to advance on the ladder may challenge either of the two players who rank immediately above him and the resultant match shall consist of the usual two-out-of-three sets. The challenger must personally notify the player whom he is challenging, and if the match is not played within five days the challenger will automatically advance on the ladder. Anyone not on the ladder who wishes to make the team may challenge either the No. 11 or the No. 10 player and thus work up. At all times the playing team shall consist of the first six players on the ladder. Regular monograms will again be given for those players who play in the most matches.

A board with the rankings will be posted in the 'Y.' For any additional information see L. C. or M. R. Vipond in Room 203 in First Dormitory.

**Volume of Poetry To Be Published In the Spring**

A new anthology of American college verse will be published in May, 1931, by Harper & Brothers, it has been recently announced by the publishers. The book will consist solely of poetry written by students attending college during the 1930-31 college year. It will be edited by Miss Jessie C. Rehder, Randolph-Macon '29, and Columbia University '30.

All students, either undergraduate or graduate, attending any college during the current year, are invited to submit poems for inclusion in the anthology. The verses will be selected for publication solely upon their literary merit, it was announced. If the venture is a success it is expected that it may become an annual affair.

The verses may be written upon any subject, but must be limited to 50 lines or less. Students wishing to make contributions should mail their manuscripts to Anthology of College Verse, care E. F. Saxton, Harper & Bros., 49 East 33rd Street, New York City. All contributions must be in the publishers' hands by December 10, 1930.

**BALANCE**  
The only Balance<sup>®</sup> pen and pencil is Sheaffer's.

**The College World has "gone Sheaffer"**

The plain fact is that among the hundred leading American colleges, each having 1,700 or more students registered, more Sheaffer's are bought than any other make. That's understandable enough, once you're acquainted with Sheaffer's four advantages: (1) individualized pen points, (2) the Balance<sup>®</sup> design that makes for easier, speedier writing, (3) the modern beauty of the Balance<sup>®</sup> contour, (4) the Lifetime<sup>®</sup> guarantee of satisfactory service.

Since all that comes with Sheaffer's Balance<sup>®</sup> Lifetimes<sup>®</sup>, why be content with less?

\*A recent survey made by a disinterested organization showed Sheaffer's first in fountain pen sales among the 100 leading American colleges having registration of 1,700 or more students. Documents covering this survey are available to anyone.

**AT BETTER STORES EVERYWHERE**  
The ONLY genuine Lifetimes<sup>®</sup> pens is Sheaffer's; do not be deceived! October 7, in the home of Mrs. C. V. York at 1002 Cowper Drive. The Kappa Alpha rushers, were guests for the evening.

Refreshments were served followed by cigars and cigarettes. The freshmen were entertained by cards, conversation, and music. Old men of the chapter present were: T. A. Mott, Jr., Armfield Leinster, Harry Bruce, Wesley York, Jurgen Haas, Herbert Atkinson, Lawrence Haas, Bobby Grimes, Charles Griffin, and Ben Merritt.

### Lambda Chi Alpha Give Dance

Lambda Chi Alpha Fraternity entertained at a delightful dance at their home on 2407 Clark avenue, Tuesday evening in honor of freshmen members of the fraternity from Duke, Carolina, alumni, faculty members, and friends. Dancing was enjoyed throughout the evening by the following guests: Mr. and Mrs. Jackson, Prof. G. G. Osborne and Norman, Mr. Mathews, Misses Clarice Mitchell, Vera Johnston, Mary Lou Coffey, Elise Parin, Louise Kennedy, Eleanor Kennedy, Sara Salpess, Ada Spencer, Ethel Rowland, Emily Storr, Julia Lundy, Louise Michaelson, Agnes Moore, Ray McKennedy, Babe Penny, Edith Holloway.

### Alpha Chi Beta Holds Smoker

Last Tuesday evening the State College Chapter of Alpha Chi Beta gave a smoker. Cigars and cigarettes were enjoyed by all who attended.

Those present were the regular members and W. F. Newman, J. P. Turlington, J. P. Bowen, R. P. Wilson, D. A. Rose, E. J. Hathaway, J. L. Faulkner, Jr., D. K. Muse, J. L. McLeod, J. S. Vincent, Jr., W. B. Jones, and Billy Middleton.

### Alpha Chi Beta "Warm House"

The State College Chapter of the Alpha Chi Beta entertained with an enjoyable house-warming dance at their home on Park avenue, last Friday evening.

The young ladies present for the evening were: Shelton Twitty, Ruth Stanton, Josephine Snell, Roberta Snell, Francis Moore, Barbara Moore, Sayde Harris, Betsy Shoe, Margaret Wade, Ruth Payne, Alice Hedrick, Adela Hart, Elvna Hart, Mary Faulkner, Selma Davis. The chaperones for the occasion were: Mrs. Paulson, Mrs.

## Announcements

### Lost!

LOST: A Beta Kappa key with the initials N.H.S. and number '31 engraved on the back. If found please return to the Ceramic Engineering Department. This key is absolutely useless to anyone and the loser would certainly appreciate its return.

Los Hidolgos will meet Tuesday, October 4, at 7, in the library, for its first meeting. Please attend, as this is an important meeting and no personal notices can be sent, through a lack of addresses.

### Debate, Oratory

All freshmen and upperclassmen who are interested in debate work and oratory are urged to see Prof. E. H. Page between the hours of 4 and 5:30 in Room 109, Fullen Hall, October 16 and 17.

### Lost-and-Found Bureau

All persons finding or losing articles are requested to leave or report their find or loss at the Lost and Found Bureau in the Y. M. C. A., where efforts will be made to locate the owners of lost articles.

These articles were found this week and are now being held for the owners: Bill fold, fraternity pin, two pencils, two high school rings, fountain pen, college handbook of composition, and college algebra.

W. P. Hedrick, and Mrs. S. T. Belanger.

The Pioneer Club of State College entertained at a bridge party at the Parish House of the Good Shepherd Church, Friday night, October 3. The party was given by the old co-eds in honor of the new women students at State this year. Five tables were arranged for bridge. High score was won by Miss Huldah "Twig" Branch and low score by one of the new students, Miss Edna Mae Halverson. Other prizes went to Misses Catherine Huddleston and Sarah Holman.

At the close of the games Miss Agnes Moore, acting as hostess, and her mother, Mrs. Vic Moore, assisted by Misses Elizabeth Galtner and Maude Schaub, served refreshments of hot chocolate and sandwiches. About 25 co-eds attended the party.

### Phi Pi Phi Smoker

Phi Pi Phi social fraternity, entertained with a smoker at their home on Maiden Lane Tuesday night. Cigars and cigarettes were enjoyed by the old members and new men.

Those attending, besides members, were Messrs. Blackwelder, Boone, Dixon, Cherry, Sandlin, Kelly, Penny, Spruill, Phillips, Lowe, Reel, Wood, Palm, Stobin, Colwell, and Fonville.

### A. L. T. Dance

The State College Zeta chapter of Alpha Lambda Tau entertained at a delightful house dance last night at their home on Forest Road.

The house was decorated with black and gold, the colors of the fraternity, and the illuminated pin of the fraternity was hanging from the wall just opposite the entrance to greet the guests with the symbols of the organization.

Music was furnished by the Capital City Aces, a seven-piece orchestra, often heard at Sir Walter Hotel Virginia Dare's ballroom. Refreshments were served on the lawn, which was lighted with Japanese lanterns.

Those present at the dance were: Miss Eleanor Kennedy with Harry Murry; Louise Kennedy with John Isehour; Elizabeth Layfield with Bruce Liles; Letitia Mason with Spivis Stevens; Mary Helen Keller with Ed. Jones; Mary Emma White with Ray Anderson; Eula Beth Warner with Ed. Gaffney; Nell Hay with Charles Reidell; Foy Allen with Dot Bennett; Fanny Bell Bray with Alvin Schaub; Eleanor Randolph of Greensboro with Wallace Jones; Mary Porter Flint with Harry Shaw; Martha Ruth Kendall with Charles Penny; Mary Alice Murchison with Lloyd Moore; Dorothy Furr with Gene Farris; Margaret Hughes with Howard Stony; Eleanor Layfield with James Newcomb; Ray McKinney with Wilber Becton; Nancy Fish with Frank Lawrence; Sara White with Tom Cooper; Florence Briggs with Almy Baggett; Anderson York with Jimmie Creech; Elizabeth Dunn with Red Lamb; Melissa Brown with Paul Rice; Caroline Tucker with Jack Bagby; Shelton Shaw with Gaitner Scott; Emily Storr with Jimmie Seal; Clarice Mitchell with Bob Sessions, and Vera Johnson with Jack Boone.

Chaperons for the dance were Prof. M. C. Leager, who is a member of the fraternity, Mrs. Leager, and Mrs. Mason.

### EDUCATION CONFERENCE

Prominent leaders in education from all sections of the South will gather at Chapel Hill for the third annual Southern Conference on Education, October 30-31 and November 1 and 2.

"Education in a Changing Economic Order" has been selected as the general topic for discussion. The program will deal particularly with the topic of "Life and Work in the New South."

## 123,000 tests a year

In the Crane testing laboratories, the weight arm of a specially designed machine measures the steadily increasing load suspended from a small cylinder of metal. Watching it intently is a man who has at his command instruments that measure to .00005 of an inch. The cylinder begins to yield; he notes the weight. It snaps; he notes the weight. Disengaging it, he measures the stretch and diameter at the breaking point. These tests form a part of the 123,000 determinations Crane Co. makes on its own materials every year.

63,000 of the tests are chemical; not one component from pig iron to limestone flux is charged in a Crane melting furnace whose suitability has not been determined by analysis. 60,000 are physical; not one hour's melt is drawn off in a Crane foundry whose physical properties—tensile, transverse, and torsional strengths, yield point, breaking point, elongation, and reduction of area are not known.

By such exhaustive tests and by researches of scientists in Crane laboratories, a vast body of authoritative data on metals and their properties has been collected. It is embodied in a book, "Pioneering in Science," which is an invaluable reference book for students. On request, we will send it to you.

Same Pen Converted

### PEN

This Guaranteed-for-Life Pen, with the Bonus Point That Flatters Your Hand, Is Like 2 Pens for the Price of One

Do you know that by having a Parker Duofold pocket Pen, you can now have one of these beautiful Desk Sets too, without having to buy a second pen? You save this extra expense because this Guaranteed-for-Life Pen is convertible.

Parker convertibility means that one Pen takes the place of separate pens for your pocket and Desk Set. By a slight change, the Pen's pocket cap is replaced with a tapered pen end for Desk Set use. Presto! Off with the taper, and back with the pocket cap, when you go out again.

We Pay a Bonus for Every Duofold Point

Parker points flatter your handwriting. For squads of post-graduate point-smiths give Parker Pens their Pressureless Touch.

They are paid a bonus for every point that survives 11 merciless inspections. Any point that fails one test, fails all, and its maker pays a forfeit.

Yet 7 out of 8 are bonus points because we limit the number a man may make a day, and he has time to make each one as good as his best.

Parker Duofold Pens are Guaranteed for Life. They hold 17.4% more ink than average, size for size. In sparkling jewel-like colors, their streamlined Permalite barrels are non-breakable. Select your Parker at any pen counter. Pens \$5, \$7, \$10. Pencils to match \$2.50 to \$5. Desk Bases \$3.75 and up. The Parker Pen Company, Janesville, Wisconsin.

\$5 buys this polished Italian marble Desk Base—lapped pen end included free to convert your pocket Duofold to a Desk Set Pen. Complete set, as shown with Duofold Jr. Pen (pocket cap and clip included), \$10.

**Parker Duofold**  
PEN GUARANTEED FOR LIFE  
\$5 7 10

Duofold Senior Pen, \$7. Pencil to match, \$4.25. Both are convertible. Other Pens \$5 to \$10; Pencils \$2.50-\$5.
