STATE COLLEGE STATION, RALEIGH, N. C., APRIL 29, 1932

OFFICE: HOLLADAY HALL

TULL RE-ELECTED BY JUNIOR CLASS AT FRIDAY MEET

Ward Named Vice President and Nye Secretary-Treasurer in Voting Monday

FIRST VOTE CONTESTED ON PROCEDURE GROUNDS

First Election Three Weeks Ago; Whitehead Defeated for Presidency in Close Vote; Cannon Defeated for Vice Presidency by Slim Majority; Catherine Harding Loser in Secretary-Treasurer Race; Stevens Elected Cheer Leader

In a reelection held Monday, the Junior Class of State College named Reid Tull of Charlotte as president of the rising senior class over Dave Whitehead of Greensboro. Tull, a guard on the 1931 football team, was chosen president at a previous election three weeks ago, but the election was protested on the ground that the procedure was not according to parliamentary procedure.

Other officers elected yesterday are: William H. Ward of Thomasville, vice president; Glenn Nye of Blowing Rock, secretary and treasurer; and Graham T. Stevens of Raleigh, cheerleader. Ward was also chosen at the previous election and won yesterday by a slim majority over A. C. Cannon of Greenville, S. C. Catherine Harding of Raleigh, announced as secretary and treasurer after the first election, was defeated yesterday by Nye in a close race.

ANNUAL R. O. T. C. TESTS FOLLOW REVIEW MONDAY

Col. Davids Reviews R. O. T. C. Regiment and Makes Army Proficiency Tests

Colonel H. B. Davids, Senior Instructor of the North Carolina National Guard, was the guest of honor at a formal parade and review of the R. O. T. C. Regiment Monday, after which he inspected the cadet corps as the inauguration of a week's inspection as part of the annual War Department proficiency tests.

Several hundred students and townspeople viewed the exercises, led by the band and drum and bugle corps. On Tuesday he inspected the close order drill of picked squads, platoons, and companies of the three battalions. Combat exercises were viewed on Thursday, with a provisional detachment of three companies from the three battalions composing war strength platoons under the command of Major Henry Ricks.

Y. M. C. A. WILL INSTALL NEW OFFICERS SUNDAY

Dean Herbert Herring of Duke Will Talk After Ceremony at Powell's Cabin

Installation of the Y. M. C. A. officers for the coming year will be held Sunday night at Powell's Cabin, at which time a buffet supper will be served to the old and new cabinet members.

A talk will be given by Dean Herbert Herring, Assistant Dean of Students at Duke University, to the new cabinet members on "The responsibility invested in them and the place of the Y. M. C. A. organization on the college campus."

A short talk will be given by the outgoing president, Henry Y. Brock, and the incoming president, Ralph Cummings.

The new officers include Ralph Cummings, president; H. K. Royal, vice president; and Archie Ward, secretary and treasurer. The cabinet members have not been announced.

Immediately after the installation of the new cabinet the old cabinet will retire and leave the direction of the Y. M. C. A. in their hands for the coming year 1932-33.

Red Masquers To Present "The Trial of Mary Dugan"

Local Dramatic Organization Will Give Popular Play by Bayard Veillers in Pullen Hall on May 11 at Eight O'clock; Scene of Entire Play is Laid in Courtroom; Play is Characterized as "Sensational"

The Red Masquers, local dramatic organization, will present "The Trial of Mary Dugan" in Pullen Hall on May 11 at eight o'clock.

The play, by Bayard Veillers, author of "The Thirteenth Chair," is characterized as "sensational" and has been received by enthusiastic audiences in previous showings. The play was unusually successful on the New York stage and ran a year in London.

The scene of the play is laid in a courtroom, and the whole play takes place there. The opening scene is a contrast to the rest of the play, as it is the sentencing to death of an Italian woman, Pauline Aguerro, for the same offense for which Mary Dugan is to be tried—ordering her lover.

After this scene of dragging a screaming wretch from the stage, the trial of the defendant, Mary Dugan, goes on. One of the high spots in the play is when Mary Dugan discharges her attorney, Edward West, and lets her young brother Jimmy Dugan take his place.

The audience is to be the jury at this trial and the verdict is to be left up to them.

The cast is as follows: Galloway, District Attorney—Dwight Stokes; Judge Nash—Professor A. M. Fountain; Pauline Aguerro—Catherine Harding; Dr. Welcome—Leroy B. Lumpkin; Edward West, Defense Attorney—Nick Sloan; Madison, negro elevator boy—Tubby Hanks; Hunt, an inspector—O. K. Irgens; Dagmar Lorne, a chorus girl—Miss Williams; Mary Dugan—Miss Hazel McDonald; May Harris—Miss Helen Dowell; Jimmy Dugan, Mary's brother—Blair Chapman; Mrs. Rice—Mrs. R. O. Moon; Marie Ducrot—Miss Mary Hugh McDonald; Asst. District Attorney—Gordon Butler; Clerk of Court—Gustave Johnson.

Other officers elected yesterday are: William H. Ward of Thomasville, vice president; Glenn Nye of Blowing Rock, secretary and treasurer; and Graham T. Stevens of Raleigh, cheerleader. Ward was also chosen at the previous election and won yesterday by a slim majority over A. C. Cannon of Greenville, S. C. Catherine Harding of Raleigh, announced as secretary and treasurer after the first election, was defeated yesterday by Nye in a close race.

DEAN OF ENGINEERING WILL REVIEW REGIMENT

Dr. Riddick to be Honored at Parade Monday in Series of Weekly Reviews

Dean W. C. Riddick of the School of Engineering will review the State College R. O. T. C. regiment in a military ceremony Monday. The ceremony is part of the series the regiment is giving weekly in honor of the deans of the schools.

DEAL ELECTED TO HEAD FROSH CHEMICAL MEN

Ralph Deal was elected president of the Freshman Chemical Engineering Society for the third term at its weekly meeting on April 20.

Other officers elected were: D. F. Behney, vice-president; J. E. Porter, secretary-treasurer; and F. C. Johnson, reporter.

Professor Flunks

Professor W. A. Reid, instructor in Chemistry, is failing a course that he is not taking.

Reid secured permission from Professor C. M. Heck to attend his astronomy class as a "visitor" this term, and due to a technical mistake Professor Reid was entered as a student. Because he cut too many classes and failed to bring in the required outside work he was sent a "Flunk" slip at mid-term.

Textile Show Winners

MISS NELL YORK
Winner of the grand prize at the Style Show held recently by textile students at N. C. State College, Miss York, a freshman at Meredith College, won over 80 other young ladies from five North Carolina colleges. Each girl modeled a costume made by herself in home economics classes. Fabrics for all the costumes were designed, spun, woven and dyed by students in the Textile School.

MISS ESTELLE FARRIS
One of the five first prize winners at the State College Textile Schools Style Show, Miss Farris of Raleigh is shown here modeling her prize winning beach pajamas. Miss Farris made the costume in the home economics classes of Meredith College where she is a freshman. She was in competition with eighty other girls from North Carolina colleges. All costumes were made of fabrics produced by State College Textile School students.

EIGHT GET BIDS IN PHI KAPPA PHI

Five Undergraduate and Three Graduate Students Bid by Honor Society Monday

Five undergraduate and three graduate students were elected to membership into Phi Kappa Phi Honor Society at a meeting of the local chapter on Monday.

The undergraduates tendered bids were: Miss Dorothy Blankenship, Raleigh; Miss Lavina Fuller, Raleigh; W. K. Cathey, Waynesville; J. W. Kelly, Bladenboro; and G. K. Schaeffer, Kutztown, Pa.

The graduate students were: W. L. Fabianic, Raleigh; Melvin Craton, Flat Rock, Ind.; and H. R. Johnston, Quitman, Miss.

ANNUAL REVIEW COMMENTS BOOK

Fountain Discusses Good and Bad Qualities of 1932 Edition of Agromeck

By ALVIN M. FOUNTAIN
For many years the freshmen at State College have had impressed upon them a very meaningful mandate, "Assume the angle!"

I trust that the Agromeck editor and the other members of the senior class will forgive me if I also assume an angle in my review of the 1932 annual, and become very personal in my viewpoints and opinions of its excellencies and its faults. After all, a review is a personal opinion; there is no occasion for making it appear otherwise.

One's first impression of the book is that its size is greater than the pessimistic reports of the fall and winter terms would have had us expect. Although it is some twenty-five pages smaller than the one of last year, the decrease is not evident in its bulk or appearance.

A dignity of cover design grows easily out of its mellow black checkered backs, with figures and letters placed ideally between severity and generosity. The figure of the distaff, shuttle, and beaker is a part of the present textile theme that runs throughout the book.

The explanation given is that the chapter was unable to agree on any more members. Last year the list was long and created a stir on the campus, with the faculty members issuing statements after the Agromeck was distributed.

Alpha Sigma Sigma has enjoyed a considerable expansion since its inauguration in 1925 by J. M. Potter, editor of the book that year. Chapters now exist at Clemson College and at the Citadel.

DONKEY SOCIETY LISTS ONLY TWO

Perry and Hutchinson Offer Life Membership in Alpha Sigma Sigma by Agromeck

Michael A. Perry, professor of Industrial Management, and H. H. Hutchinson, clerk in the Treasurer's office, are the choices for membership in Alpha Sigma Sigma, national Donkey Fraternity, announced in the 1932 Agromeck. Heretofore a large number of students and faculty members have been chosen for the dubious honor as "outstanding." However, the page has blank spaces for the individual to fill in his selection.

The explanation given is that the chapter was unable to agree on any more members. Last year the list was long and created a stir on the campus, with the faculty members issuing statements after the Agromeck was distributed.

Alpha Sigma Sigma has enjoyed a considerable expansion since its inauguration in 1925 by J. M. Potter, editor of the book that year. Chapters now exist at Clemson College and at the Citadel.

AGRICULTURIST EDITION WILL BE ISSUED TODAY

April Magazine is First Under Supervision of L. M. Boswell, New Editor

The April issue of the N. C. State Agriculturist comes out today under the supervision of the new editor, L. M. Boswell, and the new business manager, O. P. Owens. This is the "Vocational Teachers and County Agents" edition.

The first articles, "Developing Vocational Agriculture and Teacher Training," by L. O. Armstrong, and "Value of Agricultural High School," by F. W. Reams, deal directly with the purpose of the issue. These articles try to show just why the teaching and practicing of agriculture is a very necessary part of a future farmer's work.

Following these feature articles there are four other discussions, one on farm life and the other three on diseases of farm crops and their control.

Under the editorial direction, Boswell sets forth his ambitions, and pays a tribute to the former editor. Following this, F. H. Jeter writes about the activities of the farmers of North Carolina, and R. W. Cummings writes of the activities of the Ag. Club.

A few jokes and a summary of the things necessary for the carrying out of a good agricultural program finish the reading material.

PINE BURR BIDS HONOR STUDENTS

Nineteen Men to be Honored With Pledging Ceremony in Pullen Hall, May 6

Nineteen honor students will be pledged at a ceremony in Pullen Hall on May 6 by Pine Burr, local honorary society. These men were tendered bids at a meeting of the organization on April 20.

Professor C. B. Shulenberg was elected to honorary membership and the following have been extended bids to become active members of this organization.

Those tendered bids are: W. J. Cahay, W. E. Cooper, W. E. Lyuch, J. A. Royal, Henry Russ, J. W. Bost, B. F. Crumpler, E. B. Crutchfield, H. W. Scheld, R. E. Yates, J. W. Cup, C. E. Cobb, R. W. Cummings, L. M. Knott, R. E. Law, R. M. Williams, Reid Tull, C. T. Anderson, and G. E. Ritchie.

THETA TAU OFFERS BIDS TO TEN MEN WEDNESDAY

Professional Engineering Society to Initiate New Men Wednesday, May 4

Ten men were tendered bids to Theta Tau, national professional engineering fraternity, at a meeting of the society Wednesday night.

The men extended bids were: J. W. Caffey, Lenoir; T. A. Rydingsvard, Norfolk, Va.; W. F. Jones, Jr., Suffolk, Va.; B. Petroff, Stanford, Conn.; R. E. Tew, Portsmouth, Va.; J. A. Royal, Newport News, Va.; R. A. Bradshaw, Salisbury; E. L. Rivenbark, Laurinburg; W. G. Thompson, High Point; and M. L. Bradley, Fayetteville.

The initiation will be held next Wednesday night.

Officers of the society are: L. G. Atkinson, Wadesboro, regent; A. R. Lippard, Salisbury, vice regent; L. F. Yost, Raleigh, scribe; L. D. Murphy, Davis, treasurer; and M. D. Thomas, Salisbury, corresponding secretary.

TECHNICIAN WINS N. C. C. P. A. PRIZE FOR BEST PAPER

Ceramic Honor

First Journalistic efforts of State College ceramic engineering students brought praise in a letter to Prof. A. F. Greaves-Walker, head of the department, from "The Ceramic Age," foremost journal in that field.

The organization is as yet unrecognized by the men's Student Council. Next year's officers will be the third for the organization.

WOMEN TO MEET FOR REELECTION

Irregularity in Constitutional Procedure Given as Cause for New Election

Women students will meet today to re-elect the officers of the Women's Student Government for next year. Officers were elected on May 20, but due to an irregularity in constitutional procedure, another election was decided upon.

The organization is as yet unrecognized by the men's Student Council. Next year's officers will be the third for the organization.

Miss Elizabeth Brooks of Raleigh was elected president at the first election to succeed Miss Maude Schaub of Raleigh.

Other co-eds elected were: Vice president, Elizabeth Guther of Raleigh; secretary, Ruby Markham of Raleigh; and treasurer, Elizabeth Owen of Raleigh.

The council members that were elected are Sarah Holman of Snow Camp, Marguerite York of Cary, and Bee Colter of Raleigh.

Representatives elected to the Woman's House of Student Government are Catherine Huddleston, Catherine Harding, Hazel McDonald, Emily Upchurch, Margaret Curtis, Katherine Williams, Edna Mae Halverson, LeNeve Zimmerman, Christine Shepherd, Mary Palmer, Elizabeth and Margaret Colwell, all of Raleigh.

RUSSIAN TRANSPORTATION DESCRIBED BY PETROFF

Boris B. Petroff, State College student from Russia, spoke on the trans- portation conditions in Russia at the regular meeting of the local student chapter of the American Society of Civil Engineers Tuesday night in the Civil Engineering Building.

Petroff gave a brief outline of the history of transportation in the old Russian Empire, after which he told of the amazing lack of highways and railroads in the modern Soviet, saying that most of the freight was transported by water over the 500,000 miles of navigable rivers and canals in the country.

Petroff stated that, in his opinion, most of the transportation systems to be built in Russia in the future would be railroads, since Russians have taken almost no interest in the automobile and present conditions do not warrant air transportation. Russia presents a wonderful field for the civil engineer, according to Petroff.

The initiation will be held next Wednesday night. Officers of the society are: L. G. Atkinson, Wadesboro, regent; A. R. Lippard, Salisbury, vice regent; L. F. Yost, Raleigh, scribe; L. D. Murphy, Davis, treasurer; and M. D. Thomas, Salisbury, corresponding secretary.

Cups Awarded to Wilson and Rabb at Press Association Meet in Greensboro

GREECH AGAIN ELECTED ASSOCIATION TREASURER

Agromeck Gets Second in Annual Contest; Thirteen State Delegates Attend Sessions; Former Editor Wilson Gives Credit to Staff Members in Statement; Washburn of Wake Forest Elected Association President for Next Year

The Technician was judged the best college newspaper in North Carolina at the annual spring convention of the North Carolina Collegiate Press Association held at N. C. C. W. in Greensboro April 21 through 23. N. C. State's newspaper led a field of twelve.

Louis H. Wilson, winning editor of the paper, was presented a silver loving cup with John P. Rabb, business manager receiving a like award. Judges of the newspaper were: Earle Godbey, editor of the Greensboro Daily News; W. H. Kendall, associate editor of the News; and A. D. Jones, editor of the Greensboro Daily Record.

James Creech was re-elected treasurer of the N. C. C. W. His election is the first time an officer has succeeded himself in the history of the organization. Creech is advertising manager of the Technician.

The 1930-31 Agromeck received second place in the annual judging with Pine Needles of N. C. C. W. winning first, and the Duke Chanticleer taking third place.

The Duke Chronicle was rated second best college newspaper and Old Gold and Black of Wake Forest took third place. The Duke Archivist was first in the magazine group with the Scepter of Queens-Chicora, second and the Coraddi of N. C. C. W. third.

Thirteen from State
Thirteen delegates represented State College at the Convention: Henry A. McClung, Jr., John P. Rabb, Burke McConnell, Dick Yates, and James Creech, for the Technician; Rawlings Poole, B. L. Altman, A. L. Drumwright and M. G. Elliott, for the Watsonian; George Hobson, Dan Torrence, Jr., and Henry Russ for the Agromeck; with L. M. Boswell and W. C. Boyce for the Agriculturist.

Other staff members of the winning newspaper include: H. A. McClung, Jr., managing editor; Dick Yates, associate editor and columnist; W. J. Kelly, associate editor; A. C. Newton, news associate editor; Alan Chapman, sports editor; Fred Dixon, assistant sports editor; Auburn Lucas, assistant sports; J. W. Ford, cartoonist; John Nycum, society; W. C. Hubbard, exchanges; J. W. Lamberson, E. S. Knight, and Walter Riegler, reporters.

Former Editor Wilson says that "the Technician staff cooperation is the outstanding factor in making the first place award possible. The exceptional work of H. A. McClung, Jr., as managing editor, the column of Dick Yates, and the sports page of Alan Chapman; and the cartoons of G. W. Ford were appreciated by the judges. The loyalty and work of A. C. Newton, E. S. Knight, J. W. Lamberson, and John Nycum were factors in the paper's success and they share the glory that comes with the Press Association award, and with W. J. Kelly shares honor with his stories from the college News Bureau."

In awarding the Technician first place, Editor Godbey, chairman of the judges, says:

"The committee, having fully considered the entries from twelve colleges which were submitted have awarded the title of the best college newspaper to the Technician of North Carolina State College.

"The papers were considered strictly upon their merits with contents, appearance, make-up, clarity and force of editorial page, features and well-roundedness."

New Officers
A. B. Washburn of Wake Forest was elected president of the Association next year; Virginia Allen of North Carolina College and Edith Storm of Queens-Chicora were named vice presidents.

The delegates were entertained by the North Carolina College girls in a three-day program of dances, theater parties and banquets.

Page Winchell

Mr. and Mrs. "Frank" have announced the birth of live bouncing offspring, all doing well at last reports.

Frank is the gymnasium cat, who was taken in by the boys living at the Frank Thompson gymnasium some three or four months ago. He was promptly named after the donor of the gymnasium and some time ago he brought a bride to the gym to share the food and care he received. Both are very expert in the catching of rats.

"Two" Floyd and Hayes McCulley say that the boys are elated over the blessed event and will help bring up the kittens.

MECHANICAL ENGINEERS SELECT DANA CHAIRMAN

At a meeting of the student branch of the American Society of Mechanical Engineers, held last Tuesday night in Page Hall, Professor W. J. Dana was elected honorary chairman of the society for the coming year. Professor Dana will succeed Professor John E. Foster, who has served in this capacity for the past three years.

SUBSCRIPTION PRICE: \$1.50 Per College Year

The North Carolina Collegiate Press Association at their recent meeting in Greensboro voted to go on record as favoring freedom of the press. The framers of the Constitution were for it, too, but many North Carolina Colleges are unable to take advantage of the ruling.

HOW IT HAPPENED

Reward for worth to the student body through student work on the various activities carried on for the direct benefit of the college community sometimes comes and sometimes does not.

Oftentimes the mere election to office or a matter-of-fact selection is cause for publicity, congratulations and bids to honorary fraternities, while hours of toil go unrecognized as the student body at large fails to realize where credit is due.

The announcement that the TECHNICIAN has been awarded first prize in the college newspaper contest for this year is a cause for mention of a small group of students who have labored without pay and without definite expectations of selection for the highest positions on the paper.

Exchanges come to this office with forty or fifty names on the masthead, but the TECHNICIAN has gone to press by the work of approximately eight editorial workers and five men on the business side. Carrying the additional load imposed by the smallness of the staff, these men have given their time without stint—passing up opportunities for other things in their loyalty to the paper.

History books give generals credit for winning battles—but the armies were always there.

RECOGNITION DAY

Plans are under way to set aside a day during the last part of the school year for the recognizing of student contributions to the college and, in connection with this, to present a general summary of the happenings and progress of the year.

Both those who have brought credit to the college through individual effort in the outside world and those who have spent their time and talent on the campus will receive distinction before the student body on that day. Although merely establishing another "day" would not mean much, this day will mark a worthy reestablishment of the custom years ago of a similar recognition when the student body was small enough to meet at regular assemblies in Pullen Hall. The new ceremony will probably be held outdoors and arrangements are being made to make it an impressive occasion.

A summary of the year's events is a real need and will serve to coordinate student knowledge about the college, especially in the case of the two lower classes, whose interest and fund of information about the campus should be increased. The rewards of students to their classmates in the future may be more intelligently made with a knowledge of the men who are doing things and the things they have done.

MORE THAN FIGURES

A gratifying instance of the benefits of engineering education other than formulae and rules is the praise of the reports of ceramic seniors by the editor of a technical journal and their appearance in his publication.

This recognition, though small in itself, is an example of the benefits of the efforts of educators to not only impart technical knowledge to a man, but also teach him to present it to the public. No matter how strong the light, it is never seen under the bushel.

The craze for re-elections seems contagious. State's junior class, the junior class at Duke University and now the co-eds. Significant in each case is the fact that "irregularity in constitutional procedure" is given as the reason.

PROPAGANDA

Competition—keener, nowadays—goes on in the college community as well as elsewhere.

Sometimes students are too polite to think about competition among the organizations, clubs, societies and fraternities on the campus, but each one is bidding for the time, money, and interest of the individual student. Whether the ideals of the organization are placed high or its purpose is merely to furnish amusement for members, the race for recognition goes on.

The college newspaper, of course, is a fertile place to sow the seeds of renown for an organization. With the exception of the *Agromeck* page and a negligible amount of mention in the outside world, campus organizations do not break into print anywhere else. A duty, therefore, devolves upon the paper to print only news of the organizations and not material which should be charged the regular space rates. The student body pays for news—not for exaggerated recitals of the organization's advantages which may be taken at their face value and bring the organization publicity and new members to the detriment of other groups.

The campus is over-organized—every campus is—and for the college newspaper to bolster a decaying organization that would best be let die, a natural death is not fulfilling the best interests of the student body. The organizations that are worthy of existence and growth on the campus will prove it through their actions worthy of the term "news" and the spirit of their members, without the subversion of the college paper.

A large percentage of the news of the week comes from the activities of organizations—all competitive in the last analysis. Drawing the line between news and propaganda is a task, but should be one of the responsibilities of the paper. The building up of respect for the statements appearing in the paper depends upon carrying out this discrimination between advertisement and timely facts.

FOR EFFICIENCY'S SAKE

A plan is under consideration for engineering societies to elect a sophomore representative to the Engineers Council who will serve as a companion in the work of the council during his junior year and thus be in line for election as one of the two senior representatives with the additional qualification for selection that he is familiar with the work of the body.

Each year, under the present system, twelve men go into office entirely new to the work, except in the unusual case of men elected to the position at the last of their sophomore year who were re-elected the following year. Often even the president of the council attends his first council meeting in the capacity of president.

The sophomore could share the responsibilities of the organization and, if he proved capable, represent his school the next year more creditably as a result of a year's experience. If he did not prove capable, which would be unlikely in the majority of cases for the reason that the honor would serve to make him rise to the occasion, then the society could fail to re-elect him. Nothing could be lost by the new plan, for new men are elected any way.

Altogether, the plan seems to make more sure the selection of capable student administrators—an ideal worth striving for. One of the most notable trends of the year is the general adoption of plans to make student officers more efficient. The point system and the plan to be drawn up by the Publications Board are other instances of the same trend.

NEW TRADITIONS

Next Friday a large number of students will engage in the first cake race in the history of the college. The Student Government, in conjunction with the Department of Physical Education, is sponsoring the race, realizing a need for some such event on the campus. The race will provide entertainment and an antidote for the lethargy into which the campus relapses just before the end of the school year.

This event, and possibly more like it, are worthy of perpetuation on the campus. The end of the cap-burning ceremony left the student body without any annual events of interest except formal exhibitions and ceremonies. While the sophisticated may smile at some of the unusual observances reported in the news of the day from other colleges, yet these demonstrations and the traditions attached to them are a part of these colleges and benefit is derived from them through the interest aroused.

The cannon-dragging of year before last was an abortive attempt to invent this element, but the wrecking of the cannon brought this to an end.

Planning an event is infinitely better than just letting it happen, especially since many of the haphazard sport of collegians may result in consequences damaging both the school and the students involved.

THE ANNUAL

The *Agromeck* which officially appears Monday, in spite of early rumors and handicaps to the staff in the matter of the scarcity of pictures, is withal a worthy representation of the college year.

Originality in design characterizes the book, which may be placed alongside past issues with no impression of inferiority.

Next year's staff will not have the worry accompanying the publication this year, as the result of recent legislation.

Scissored

A Scale for Merit

With the establishment of several experimental colleges in this country, and the removal of examinations at some of our older institutions, the actual value of modern college grading systems has become the recipient of considerable condemnation. Those who attack the present systems offer the excellent arguments that a student's ability in a given field cannot be judged by a method so cut and dried as numerical grading; that such a grade is not a true index of ability; and that the systems now in use give all the advantage to the grade who are satisfied to take their entire knowledge of a course from a textbook.

While the bookwork may not be as capable as the practical student, it must be remembered that numerical grades are only a comparative system after all. A man comes to school to prepare himself for some particular type of work at the completion of his university courses. When he leaves, he is usually forced to seek employment from some organization to which he is a total stranger, hoping to take over some job for which he feels himself especially equipped. At best, he can only have a scanty knowledge of the particular work he is desirous of obtaining, even though he has spent hours of study in the classroom and laboratory. Employers know this to be true, and for this reason, look first to the aspirant's university grades, the only recommendation he can offer, to see if he is capable of applying himself to any task that might be given him. They do not expect good grades to be indicative of great ability, but rather of perseverance. And to these employers it makes no difference whether a strictly numerical system, a system of passing or failing, such as the graduate school uses here, or any other grading system is used. They are interested only in some scale by which they may judge the merits of the prospective employee.—*The Daily Tar Heel*.

KERAMOS STARTS SENIOR RESEARCH

Ceramic Fraternity Adopts Plan to Require Engineering Research Projects

In an effort to promote and encourage research among ceramic engineering students, the North Carolina chapter of Keramos, national ceramic engineering fraternity, has adopted a requirement that all seniors undertake a research project. The results of the projects will, if of value to North Carolina ceramic industries, be presented to the Engineering Experiment Station for publication or, if of general interest, to either the American Ceramic Society or technical journals.

Several researches undertaken by this year's senior members are now in process. C. C. Morrison, whose project is "The Development of Increased Dry Strength in Dust Pressed Bodies by the Addition of Electrolytes," has already obtained some encouraging and positive results. It is anticipated that losses in the wall tile and electrical porcelain industries will be reduced by the new process he is developing.

W. C. Bangs has been working on "The Development of Increased Plasticity and Dry Strength in North Carolina Shales by the Addition of Electrolytes." His results already promise a considerable widening of the range of uses and better working qualities in some of the more difficult North Carolina shales.

E. C. Davidson is undertaking "The Development of a Single Fired White Body and Glaze at Cone 4." Results indicate already that he has produced a "strong" body which will be of considerable value to industry, especially studio work.

H. E. Craven, Jr., has for his subject "The Development of a Chrome Red Glaze." Although the project has not yet progressed far enough to determine whether results will be of value, they offer already some promise.

The results of the researches will be presented in regular thesis form which will be filed in the Department of Ceramic Engineering.

This is believed to be the first time in the history of State College that undergraduates have undertaken definitely planned research work.

ARCHITECTS' ADVANTAGES TOLD BY WALKER MONDAY

American Institute of Architecture Representative Talks Before Students

Dr. Walker, American Institute of Architects' representative, addressed a large assembly of architectural and textile students concerning "The Advantages of Architecture" Monday afternoon, April 25, in the Physics Building.

Dr. Walker impressed the students with the absolute necessity of obtaining the proper training and the expert preparation in this particular field in order that they might derive more of the fine points in the architectural field.

In conclusion he stated, "Training and expert preparation are necessary, for at least eighty per cent of the persons who enjoy positions of importance and trust are college graduates."

Many Were Named But Few Were Chosen

ANNUAL REVIEW COMMENDS BOOK

(Continued from page one)

dedication to Dean Thomas Nelson is as well expressed as it is appropriate. The campus view section has dispensed with the usual photographs, and has substituted pencil sketches of a rather high quality. Of course it has been necessary for the artist occasionally to insert an extra tree or shrub for the sake of proportion, but he has done it so well that the students will be climbing or hiding behind them by next year. The once-popular Shakespearean quotations have given place to the bare but bold names of the buildings themselves. The sketch-is-better-than-photograph idea is carried on into a resurrection of an old drawing of Dr. Brooks. The president can do as he likes, but if I were he, I should sue the editor for committing an irreparable insult. The buildings, however, if they will pardon a little pathetic fallacy, would probably prefer the drawings. Their corners are at least more nearly vertical than the cock-eyed photographs that represent the same structures a little later.

Dick Yates' impassioned plea through the year for the elimination of the hallyhoo of senior write-ups had prepared me for a lot of blank space on the senior pages. But I was surprised and delighted to find that each senior had his little squib, the brother to which I have so often written and enjoyed. I plunged into them, but soon found that something was wrong. The writing had no relation to the student pictured above! Gradually it dawned on me that the printed matter was a running account of the events of the four years the students had spent here, rather than a fellow student's good but poorly expressed opinion of the individual pictured. My initial disappointment was soon lost in the interesting chronicle, and half a dozen seniors later, I was just about won over to the new scheme. It surely has the quality of being original; the editor recognizes that fact in his comments at the back of the book, but he is not exactly apologetic about it.

The senior pictures themselves are good large fellows, capable of easy identification; but the depression seems to have had an effect on the faces of all the seniors. Very few of them have even the ghost of a smile, or any liveliness of expression. Perhaps the expression is traceable indirectly to the same photographic difficulty which gives most of them the pasty appearance one usually associates with unfinished proofs.

The editor scores a great point in the junior and sophomore sections by supplying each miniature with its appropriate name, thus clearing up the cloud of non-identification that usually hangs over these sections. By the same good sense, he has eliminated entirely the postage-stamp pictures that I used to represent the freshmen.

If I were to invoke the rhetorical principle of emphasis by proportion, I should devote the next ten columns of this review to the sponsor section. It is the center of the book in more ways than one. With good-looking subjects peering through a thin gossamer of blue, it is easy—nay restful—to the eyes.

The activities for which sponsors

WILSON'S COFFEE SHOP
 THE NEW 45¢ SPECIAL
 107 W. HARRIS ST.

Midville of Black Lash for Coffee Pot
 S. Salisbury St., Near State Capital
 "Wilson's Sandwiches Are Delicious"

were selected offers an interesting study for one who has been around for some time. Not so long ago, yet before the day of the R. O. T. C., the various military units were the only groups allowed the privilege of having a sponsor. Now the whole regiment can claim only three, while the principal publications boast of two each, and several other organizations tag along behind. This condition should be somewhat disarming to that group of pacifists who have recently been decrying the entrance of sex-appeal into R. O. T. C. militaristic propaganda.

The athletic section is somewhat larger and more complete than last year, with individual write-ups of the games and individual pictures of the principal players. But the military section has been cut down almost to the vanishing point. Perhaps it has gone out in search of its erstwhile sponsors.

The activity section is much the same as it has been for some years. But the fraternity section carries forward the editor's idea of identification for each picture, however small. Instead of the small photograph of the respective homes of the Greeks, the book has used some rather terrible pen-and-ink drawings, one or two of which have trees and clouds so much like fire and smoke as to remind one forcibly of burn-outs in insured fraternity houses not long ago on a neighboring campus. Each fraternity

has a short sketch of its history and expansion.

Several innovations find themselves in the feature section. Not the least of these is the presence of good clear pictures of campus scenes and class superlatives. Here, however, the editor succumbs, and mixes his titles all up. Only one who already knows them can identify the pictures. Four additional pages contain a synthetic issue of *THE TECHNICIAN*, obviously clipped and juggled to present the things that the editor assumes we shall like best, regardless of their chronology.

The *Angry Whack* section, now in its twelfth consecutive year, has shortened itself to a few pages of the usual college jokes, fastened upon various members of the senior class and faculty. The Alpha Sigma Sigma, erroneously said to have been founded in the fall of 1926, avoids the waste of considerable ink and profanity by omitting names altogether, thus allowing the owner of each book to fill in to suit himself. That's not such a bad idea after all.

Viewed as a whole, the book is attractive, well organized, and accurate. The members of the staff deserve the unqualified commendation of those who interest themselves in State College. They have done a speedy and worthy job, a job that will hold up the high standard that State College annuals have set for themselves over a long period of years.

STATE TO PLAY DEVIL NINE IN FEATURE RETURN BATTLE TOMORROW IN DURHAM AT 3

Lanning Will be on Mound for Doakmen With Opposing Duke Hurter Yet Unannounced

LANNING WON OVER DUKE IN TEAM'S FIRST BATTLE

Game Will Have Bearing on State Race; State and Carolina Tied for Second With Two Victories and One Defeat Each; Devils Are in Third Position With Two Victories and Two Defeats; Wake Forest Leads Big Five Contenders With Clean Slate

State College's varsity baseball team will face Duke University for the second time this spring at Durham tomorrow at 3:15, and Lanning will attempt to make a duplicate of his recent victory over the Blue Devils.

In their engagement Saturday, the Techs won 3-1 at Raleigh. Lanning allowed the Devils two hits, while his team mates banked out nine safe blows.

The game promises to be an exciting one as it has a good deal to do with the race for the Big Five title. State is now tied with Carolina for second place and a victory may mean the lead for State if Wake Forest drops their game with Carolina on the same day.

In the race for the Big Five title Wake Forest is leading with three victories and no defeats. State and Carolina are tied for second with two wins and one loss apiece. Duke comes next with two wins and two losses, and Davidson brings up the rear with five defeats and no victories.

Coach Chick Doak will use his regular starting line-up, consisting of Captain Outen Gerock at first, Ned Wood at second, Jimmy Brown at short, and Joel Morris at third. W. N. Fuller will receive Lanning's slants. The probable outfielders are Willie Duke, Bob McQuage, and Allen Nelms.

According to Coach Doak this year's team is one of the best ever to represent State College. "It is full of good hitters and fast," says Chick.

RIFLEMEN CLOSE YEAR OF SUCCESS

Shoulder-to-Shoulder Matches and Starting of Freshman Team Features of Season

State rifle teams have just completed a successful season, winning eight out of nine shoulder-to-shoulder matches and just falling short of breaking even in some seventy postal matches.

The year marked the introduction of shoulder-to-shoulder matches as the main events of the season's schedule and the formation of a freshman rifle team.

Three separate rifle teams saw action during the year: Varsity, R. O. T. C., and Freshman. Any student was eligible for the first, only R. O. T. C. students composed the second, while members of the freshman class made up the last. Different schedules were arranged for each of the three teams.

The State Varsity won seven out of eight shoulder-to-shoulder matches, defeating among others Davidson College and Washington and Lee U., and losing only to V. M. I. Men awarded sweaters were as follows: F. D. Whitehead, R. E. Tew, E. R. Daniels, J. M. LeRoy, J. L. Pleasants, M. L. Andrews, and J. J. Griffith.

The R. O. T. C. team, in the Fourth Corps Area Match, placed fourth out of fifteen teams entered. This match is sponsored by the army authorities for R. O. T. C. units in the southeastern part of the country. State was beaten by Georgia Tech. University of Alabama, and Louisiana State University, and with these three teams was indicated to represent this corps area in the National Intercollegiate Match, which is a nation-wide match held by the War Department for those teams that place at the top in the nine Corps Area Matches. Results of the National Intercollegiate Match have not been received as yet.

State's first Freshman Rifle Team had a very creditable season of postal matches, winning five out of ten, but its chief claim to fame rests in its defeating the freshman team of V. M. I. in the only shoulder-to-shoulder match of the season. Men awarded numerals were T. C. Kendall, M. L. Andrews, P. O. Stahl, J. J. Griffith, C. L. Rascoe, and E. E. Strickland.

STATE FRESHMEN WIN TWO GAMES

Frosh Defeat Campbell College Tuesday and Carolina Tar Babies Wednesday

The State College yearlings scored a 14 to 4 win over Campbell College last Tuesday, featured by six home runs, and trounced the Carolina Tar Babies Wednesday in the second extra inning of an overtime battle ending in a 4-4 score.

Campbell College Game Four of the homers were made by State players. Allen Bailey, Raleigh boy and the yearlings' first-sacker, started the home run fever in the third inning when he lifted one into the left field cedars. Other State men to hit for the circuit were Pitcher Cooper, Lambeth and Johnny Johnson.

Campbell's four-base licks were turned in by Patterson, the visitors' second pitcher, and Humphreys, red-headed third baseman.

In addition to hitting a home run, Johnson also got a single and handled ten chances without an error. He was the individual fielding star of the game.

J. T. Cooper pitched the route for the yearlings, giving up six hits. Campbell used three hurlers and they were reached for 12 safeties.

Umpire: Pace and Caithen. Time of game: 2:05.

Carolina Game A single by Johnston, Bailey's sacrifice and a single by Ray Rex, 215-pound grid halfback who plays outfield on the Techlet nine, manufactured the winning run. Rex's single came with two out.

The Techlets had to put over two runs in the ninth to ward off defeat and bring the extra innings. Hits by Allen Bailey, Oakden and Rex featured the ninth inning rally for a tie.

"Trip" Rand, former Raleigh high athlete and Tar Baby second-sacker, took the fielding honors.

CAMPUS BASEBALL IN SEMI-FINALS

Intermural Play to be Resumed May 2 With Finals Scheduled for May 19

Survivors of the intramural baseball tournament are Kappa Sigma, Delta Sigma Phi, Sigma Pi, and Sigma Phi Epsilon of the fraternity group, and Sixth Dormitory, first floor of South, second floor of 1911, and the first floor of 1911, in the dormitory division.

Play will again be resumed on May 2, and teams winning out will play in the finals on May 19.

The following are the results of the quarter-finals in the fraternity group: Delta Sigma Phi defeated Pi Kappa Alpha, Sigma Phi Epsilon defeated Sigma Nu. In the semi-final groupings Kappa Sigma will oppose Delta Sigma Phi, and Sigma Pi faces Sigma Phi Epsilon.

In the dormitory division, Sixth Dormitory defeated Fifth Dormitory; first floor of South defeated third floor of South; third floor of 1911 defeated second floor of 1911; and the first floor of 1911 defeated first floor of Watwaga Hall. In the semi-finals the Sixth Dormitory will oppose the first floor of South, and the first floor of 1911 faces the second floor of 1911.

J. F. Miller, director of physical education and intramural sports, says, "Competition has been keener this year than before and more teams have taken part in this tournament."

DOAKMEN SWAMP DAVIDSON NINE

State Wins Over Wildcats, 16-2, Wednesday Afternoon in Runaway Affair

State College varsity baseball team had an easy day Wednesday afternoon when they added the Davidson Wildcats to their list of victims by the score of 16-2. It was a one-sided affair and gave the Techs a chance to show their ability in sprinting and running.

"Snoozy" Morris, of Raleigh, proved to be the star as he clouted out two homers, but he was followed closely by Brown with three blows to his credit. Morrison, of the Wildcats, enjoyed a good afternoon of hitting with three singles in as many times at bat.

Lanning started on the mound and allowed only four hits in five innings. McLawhorn and Sets followed him. Croaker and Bailey had no puzzles to offer the Techs and they were given wobbly support.

Score by innings: R. Davidson 000 000 200-2 State 420 331 12x-16

WENDELL VICTOR IN TRACK MEET

Wendell Boys Win With 35 Points Saturday and Green Hope Girls Victorious

Wendell high school led the scoring in boys' events, Green Hope won in girls' competition and Garner, second in both groups, led in total score in the annual high school track meet at Riddick Field Saturday, April 23, for Wake County high schools.

In boys' competition Wendell led with 35 points, other scorers being: Garner, 23 2/3; Green Hope, 22; Apex, 18; Knightdale, 6, and Holly Springs, 5 1/3.

In the girls' division 'Green Hope' tallied 17 points. Scores: Garner and Apex tied for second with 13 points each. Wendell and Knightdale, only other schools in this division, scored one point each.

William Honeycutt tallied 21 of Wendell's points and was anchor man on the relay team which won that event. O. Yates was second high scorer among the boys, the Green Hope lad getting eight points.

Miss Mills of Green Hope led the girls' scoring with eight points.

No Chance "Big Bill" Tilden, while visiting the University of North Carolina recently, made the statement in an interview with the Daily Tar Heel that "the United States has no chance whatsoever of regaining the Davis Cup this year."

He even went so far as to state that in his opinion the American team would not get past the interzone final. In that regard, he believes, the English contingent will repeat their last year's conquest.

FROSH WILL PLAY DUKE NINE TODAY

Warren's Outfit Tackles Little Devils at Four O'clock on Freshman Field

Coach Bob Warren's Techlets will attempt to make it six straight when they tackle Duke's yearlings on Freshman Field this afternoon at 4 o'clock. The batteries for State are Cox and Spence. Lynn and Rodwell will be ready in case Cox has too much trouble in taming the small Devils.

Thus far Rex and Bailey have been leading their team mates in batting, which Johnson and Lambeth lead the fielders.

State's wins have so far been over Durham and Cary High Schools, Campbell College and Carolina Freshmen.

GRIMSHAW INAUGURATES GOLF RATING FOR PROFS

New Method for Rating State Instructors to be Put Into Effect Soon

Professor Grimshaw has recently announced a new plan for rating all faculty golfers at State College for places on the faculty golf teams and for the handicap tournament which will be held in the near future.

All faculty members who play at the Raleigh Golf Association are to be placed on the name ladder which he is now making. Any member whose name appears on the ladder may challenge any other contestant whose name appears above his. Eighteen holes of match play will decide each bracket of the contest. This method of play will also be used to determine the competitive standings for the Raleigh Golf Association teams.

All faculty members have been requested to send their results of all match play to Professor A. H. Grimshaw.

Sidelights

Hagop Hagopian, State College student from Egypt, furnished extra entertainment for the crowd at the State-Davidson baseball game when he appeared on the scene with a camera.

Hagop set up his tripod near the plate during State's half of getting a hit. McQuage seemed nervous, however, and struck out. Hagop's efforts were soon rewarded with action, however, as the next man up, John Lanning, hit a long fly to the outfield.

DORMITORY MEN WIN SWIM MEET

Fraternities Lose in Intramural Engagement Yesterday by Score of 33-21

The dual intramural swimming meet yesterday afternoon between fraternity men and dormitory men attracted forty men and the dormitory men proved to be the best swimmers, as shown by the score, 33-21. The winners in the various events were as follows:

50-yard free style: 1, Dinklespell; 2, Carter; 3, Shepherd. 50-yard back stroke: 1, Dinklespell; 2, Campbell; 3, Plaster. 50-yard breast stroke: 1, Bagley; 2, Shepherd; 3, Leinster. Dive: 1, Plaster; 2, Thomason; 3, Campbell. 100-yard free style: 1, Moorman; 2, Carter; 3, Atkinson. Plunge: 1, Weedon; 2, Bagley; 3, Campbell.

In the interfraternity swim meet held Thursday, April 21, Sigma Nu finished first with Kappa Alpha second and Delta Sigma Phi third. Sigma Nu did not have an entry in the dual swim yesterday.

DOAKMEN WINNERS OVER HENDERSON

State Defeats Athletics 8-2 Saturday With Seitz and McLawhorn on Mound

State defeated Henderson's Athletics, semi-pro club, 8 to 2 last Saturday behind good pitching of Lefty McLawhorn and Rudy Seitz.

Willie Duke and Jimmy Brown, of State, with three out of five, and Branch, of Henderson, with three out of four, led the hitting.

Final Dances

Ted Weems and his Orchestra have been secured by the Inter-Fraternity Council to furnish entertainment for the Final Dances, given each year by the Greek-letter fraternities at State College.

Ted Weems has one of the oldest dance orchestras in the country, and has attained popularity throughout the United States, recording and playing over the radio for several years.

The dances will be given in the Frank Thompson Gymnasium, June 3, 4, and 6 and will consist of a series of morning, afternoon and night dances.

Although the committee has not completed the plans for the dances, they have indicated that the dances will be the most successful ones that have been given.

The gymnasium will be provided with individual fraternity booths, which will be decorated with the fraternity colors and a lighted replica of the fraternity pin. These booths will provide the fraternities with a means of entertaining their parents and special guests.

Each fraternity will elect a sponsor to represent their organization at the series of dances.

Alpha Zeta Banquet

The Alpha Zeta Fraternity, national honorary agricultural organization will give their Annual Spring Banquet in the dining room of the Carolina Hotel, Saturday, April 30.

The banquet, which has become an annual event, is given in honor of the alumni of the organization and of the Agricultural School. H. B. James will act as toastmaster for the evening and some very delightful entertainment has been planned for the guests.

Following the banquet the members with their guests will adjourn to the fraternity chapter room at 208 Polk Hall where dancing and bridge will be in order throughout the remainder of the evening.

Newly elected officers who will be formally installed at the banquet are: R. M. Williams, Chancellor; D. M. Witt, Scribe; R. W. Cummings, Censor; J. E. Wilson, Chronicler; and Fred Jones, Treasurer.

Grange Social

Members of the Grange Club, North Carolina State College Student Chapter, were entertained at an informal social given at the Tarheel Country Club Saturday, April 23, from five until ten o'clock.

The members of the club met at the college Y. M. C. A. Saturday afternoon, and drove to the Tarheel Club where they enjoyed boating, and other outdoor sports during the earlier part of the evening.

Mrs. E. W. Gaither of Raleigh, was hostess to the club at a large supper given in the club dining hall. This was followed by dancing and bridge for the remainder of the evening.

"Ag" Club Dance

Members of the Agricultural Club at North Carolina State College were hosts at a delightful dance in the Frank Thompson Gymnasium, Friday, April 22.

Dancing was enjoyed from nine until twelve by a large group of State College society, as well as a large number of out of town guests. This is the second of a series of dances that has been given by the Agricultural Club this year.

Music for the evening was furnished by the Cavaliers, a local orchestra composed of State students.

WARD NAMED PRESIDENT OF STATE "Y" CABINETS

North Carolina Y. M. C. A. and Y. M. C. A. Groups Meet at Carolina April 22-24

Archie Ward was elected president of the State Student Y. M. C. A. Cabinet at the joint meeting of the Y. M. C. A. and Y. W. C. A. college cabinet of the state held April 22 to 24 at Carolina.

The aim of the gathering is to promote a greater degree of cooperation between the college cabinets of the state.

Delegates attending this convention from N. C. State were Ralph Cummings, Jake Royal, Bill Browwell, Archie Ward, M. L. Shepherd and E. S. King, Y. M. C. A. secretary.

The next meeting will be held during the Blue Ridge Conference, at which time the Y. M. C. A. cabinets of North Carolina and South Carolina will meet to discuss plans to be put in effect at their colleges.

Announcements

The Agromocks will be distributed next week from 8 a.m. to 5 p.m. on Monday and on the remaining days from 1 to 5, at Mr. Welton's office, according to George Hobson, business manager. Be sure to present registration and if you owe your publication fee, it must be paid before you can obtain your copy.

There will be a meeting of the Senior class in the Y. M. C. A. on Monday at 1:30, according to Henry Ricks, president of the class.

Bridge Tournament

Members of the North Carolina State College Chapter of the Lambda Chi Alpha Fraternity will sponsor their fifth Annual Bridge Tournament for the social fraternities on the campus, May 3 to May 5.

A plaque is presented to the winning team each year, bearing the names of the players and their fraternity and is kept until the following year. Winners of last year's contest were Summey and Boggs of the Phi Kappa Tau Fraternity.

Twelve hands will be played in the preliminary rounds, sixteen hands in the final round and the team with the highest score will be declared the winner.

Names of the fraternities were drawn to ascertain their opponents in the preliminary round.

The schedule for the tournament is as follows: Tuesday afternoon, May 3; Theta Kappa Nu vs. Kappa Sigma, Sigma Tau Beta vs. Alpha Lambda Tau, Alpha Kappa Pi vs. Alpha Gamma Rho, Phi Kappa Tau vs. Sigma Nu, Delta Sigma Phi vs. Phi Kappa Phi, Pi Kappa Alpha vs. Beta Sigma Alpha, Pi Kappa Phi vs. Sigma Phi Epsilon, Alpha Chi Beta vs. Sigma Pi; the winner of this group playing Kappa Alpha the same afternoon. Tuesday night, May 3 the winners of the first brackets will play. The semi-finals will be held Wednesday afternoon, May 4 and the finals Thursday afternoon, May 5.

A complete schedule of the tournament will be posted in the window of Honeycutt's London Shop, and the results will be indicated daily.

Agriculture Experts Plan Farm Unemployment Relief

Schaub, Forster, Rogers, Criswell and Sheffield on Advisory Committee

MEASURES TO BE TAKEN IN LEGION RELIEF PLAN

Suggestions Include Survey, Use of Vacant Farm Houses and Lands for Unemployed, and Exchange of Fuel, Food and Farm Products for Part-time Work; Committee States That Plans Would Mean Relief and Profit to Farmers

The placement of agricultural unemployed in farm jobs, and the utilization of vacant farm houses and lands for the relief of the unemployed in North Carolina was recommended recently by a committee of State College agricultural experts as a part of the recently inaugurated program of the American Legion.

Members on the committee making these recommendations are: Dean I. O. Schaub of the School of Agriculture; Dr. G. W. Forster, professor of agricultural economics; R. H. Rogers, agricultural economist; J. F. Criswell, extension specialist; and C. A. Sheffield, assistant to Dean Schaub.

The comprehensive report contained the following recommendations: (1) That each county in the state be thoroughly canvassed with the cooperation of the county agent or some local organization, (2) that arrangements be made with landlords to place unemployed families in all vacant houses and to provide them with a plot of ground for a garden or truck crops, and (3) that arrangements be made with all large-scale farmers to exchange food, fuel and other farm

products for part time work by the unemployed and their families. The report stated that if the suggestions outlined above be adopted and carried out that "farmers would profit through the benefit of cheap labor, thereby, reducing farm cost, and the unemployed would also be benefitted through an opportunity to help themselves at a time when the object is not to make money but to make bread."

These recommendations are already being carried out in several counties and plans to put them into effect in all counties are being formulated by the Employment Committee of the Legion under the direction of Major Michael A. Perry, executive director. Major Perry, in addition to his work with the Legion, is professor of industrial management at State College.

Lost And Found

Let's smoke a MAN'S SMOKE!

WHEN the girls begin to cut corners in our cars and do back somersaults in our planes and borrow our cigarettes—then it's time to take a pipe!

Call it the last stronghold of masculine defiance—or the one pet diversion our little friends keep their fingers off. Call it what you will—there's something downright satisfying, understanding, companionable about a friendly, mellow, MASCULINE pipe! It's a real man's smoke!

And a pipe's at its best when you fill it up with Edgeworth. There's a rare, mellow flavor to the Edgeworth blend of fine burleys that simply can't be touched. It's cut long—to give you a cool, slow-burning smoke. And you'll find it the favorite with smokers in 42 out of 54 colleges.

You can get Edgeworth wherever good tobacconists sell smokes. But if you've never tried it, we'd like the fun of treating you to that first satisfying pipeful. Just write to Larus & Bro. Co., 105 S. 22d St., Richmond, Va.

A pipe's a man's smoke!

Edgeworth is a blend of fine old burleys, with its natural flavor enhanced by Edgeworth's distinctive and exclusive eleven-step process. Buy Edgeworth anywhere in two forms—Edgeworth Ready-Rubbed and Edgeworth Plug Slice. All sizes, 15¢ pocket package to \$1.50 pound humidior tin.

HORN IN ON THIS
WRITE A "BLURB"!
\$25,000!
464 CASH PRIZES THIS MONTH—2 FIRST PRIZES OF \$500 EACH

HERE DAD—TRY A REAL SHAVING CREAM—PALMOLIVE. THERE'S NOTHING LIKE IT!

THANKS, JIM, BUT I'M STICKING TO MY COLGATE'S. IT'S GOT 'EM ALL BEAT—HANDS DOWN!

SURE—ALL EXCEPT PALMOLIVE. NOTHING TOUCHES AN OLIVE OIL SHAVING CREAM FOR A REAL SHAVE AND FOR KEEPING YOUR FACE FEELING FINE—NOTHING.

LISTEN, JIM. WHEN YOUR BEARD GETS AS TOUGH AS MINE YOU'LL APPRECIATE WHAT IT MEANS TO GET A CLEAN, CLOSE SHAVE—LIKE COLGATE'S GIVES ME.

SEE those "blurbs" coming out of the men's mouths? Can you write one? We're putting up \$25,000 in cash for those who can. Get your pencil out—now!

Here's the idea. In a field of 176 competing brands, Colgate's and Palmolive are the two outstanding leaders. They have won an overwhelming preference over all other shaving creams.

We know that Palmolive users swear there's nothing as good as Palmolive. And Colgate shavers claim that Colgate's beats 'em all in a walk.

What we want is *your* opinion. Do you side with Jim or his Dad in the big Palmolive vs. Colgate's argument? Are you a Colgate fan or a Palmolive booster. Let's hear from you!

In ONE of the empty "blurb" spaces, or on a separate sheet of paper, just say *your* say. In your own words, write your boost for Colgate's—or for Palmolive—not both. 464 cash prizes each month for the best "blurbs" sent to us!

CONTEST RULES

MAIL your "blurb" with name and address to Contest Editors, Dept. CN-193, P. O. Box 1133, Chicago, Illinois.

The prize money (totaling \$25,000) is divided into six sets of monthly prizes (each set totaling \$4200). At the end of each month prizes are awarded (see list at right) for the best "blurbs" received during that month, as follows:

Feb. 29, \$4200 Mar. 31, \$4200
April 30, \$4200 May 31, \$4200
June 30, \$4200 July 31, \$4200
(Contest closes July 31, 1932)

Contest is open only to residents of the United States and Canada. Employees of the manufacturers and their families are not eligible to compete.

In event of a tie, each tying contestant will be awarded full amount of the prize tied for. Decision of the judges shall be final. All contributions shall become the property of the manufacturers, to be used in any way desired.

Some hints to help you win

Here are some facts about the world's two largest selling shaving creams—Colgate's and Palmolive. Here are some of the reasons why men prefer these famous shaving creams.

PALMOLIVE

1. Multiples itself in lather 250 times.
2. Softens the beard in one minute.
3. Maintains its creamy fullness for 10 minutes.
4. Fine after-effects due to olive oil content.

COLGATE'S

1. Breaks up oil film that covers each hair.
2. Small bubbles get down to the base of the beard, hold water against each hair at skin-line and soak it soft where the razor works.
3. Gives a close, skin-line shave due to gentle bubble action.
4. Gives a lasting, 24-hour shave.

Here are the prizes for each month—464 in all!
