ENGINEERS VOTE TO NOT COMBINE STUDENTS' FAIRS

Engineers Council Against Combination of Agriculture and Textile Exhibits

SOPHOMORE MEMBER PLAN FAVORED BY COUNCILMEN

Matter of Combination of Fairs Referred to Council After Agitation to Combine Student Fairs; Sophomores to be Elected From Each School to Serve on Council For Experience

That the Engineers' Fair should not be combined with the Textile Exposition and the Agricultural Fair was the decision of the Engineers Council at a meeting on May 12.

There has been agitation on the campus for the combination of the three fairs, and the matter was brought before Dean Cloyd, who referred it to the Engineers Council, where the idea was disapproved.

The choosing of sophomores to serve on the Council to gain experience was approved. One sophomore is to be selected from each school of engineering and is to serve on the Council merely to gain experience. This man does not have the right to cast his vote at any of the meetings, and he does not necessarily have to be elected the next year to serve on the Council as an active member.

FRESHMEN CHEMICAL MEN HEAR LECTURE BY GROVE

"Destructive Distillation of Cotton Seed Hulls" Subject of Professor's Talk

Professor C. S. Grove of the Chemical Engineering Department gave a lecture on "The Destructive Distillation of Cotton Seed Hulls" at a meeting of the Freshmen Chemical Engineering Society Wednesday night.

A detailed explanation of the processes which are carried on in the cottonseed oil industry was given by Grove in his lecture. He stated that the experiments which are now being carried on by students in the Chemical Engineering Department are furnishing results which are likely to add an additional revenue to the cotton industry.

In his talk on "Some Chemical Problems in Connection with the Cottonseed Industry," Julius Smith stated that the value of manufactured products from cottonseed in the United States exceeded \$44,000,000 a year. He gave an account of the establishment of a plant in Anniston, Alabama, for the production of xylene, a product which is largely in the experimental stage at present.

Dr. E. E. Randolph, head of the Chemical Engineering Department, gave a brief talk on "Glycerides in the Oil Industry."

FORESTRY CLUB ELECTS BLAKENEY 1932-33 HEAD

Final Meeting of Organization Held in Cafeteria Sunday Honoring Seniors

The Forestry Club held its final meeting for the year, in the reception room of the cafeteria, Sunday night, May 15, in honor of the outgoing Forestry seniors.

The following officers were elected: Jack Blakeney, president; H. P. Bishop, secretary; C. F. Prout, treasurer; A. B. Hafer, social chairman; T. C. Croker, athletic manager; J. M. Davis, sergeant at arms.

Dr. Hoffman discussed plans for the Forestry Club for the coming year.

ECONOMIC ASSOCIATION MEETS NEXT SATURDAY

State to be Host to Spring Meeting of Teachers of Economic Subjects

The North Carolina Economic Association's spring meeting is to be held at the Woman's Club here in Raleigh. It will take place at 7 o'clock Saturday night, May 21.

This association is composed of teachers of Economics and allied subjects in North Carolina. They have three meetings a year—one at Carolina, in the fall; one at Duke, during the winter, and now the spring meet in Raleigh.

The committee in charge of this meeting is composed of Dr. Moen, Dr. Bernstein, and Professor Schlenker.

Seniors Select Marshals As Commencement Nears

Site for Final Ceremonies Not Yet Decided Upon by Faculty Council; Plans for Faculty's Donning Caps and Gowns Almost Certain of Going Through; R. O. T. C. Commissions to be Given Out at Exercises

The State College senior class Monday chose the following as graduation marshals: Archie Ward, chief marshal; Reid Tull, Mark Wilson, and Brian Chapman, junior marshals; Norman York and A. L. Bennett, sophomore marshals; and James Louden, freshman marshal.

Due to the fact that the faculty council could not decide where the commencement exercises will be held the committee was not able to go ahead with their plans on the subject. The choice of the sites has been narrowed down to three, namely: the lawn east of Holladay Hall, the section between this plot and Dr. Brooks' home, and the third battalion drill field in front of 1911 Dormitory.

At a previous meeting of the senior class, the members voted to request the faculty members participating in the commencement exercises to wear caps and gowns.

Henry Ricks, president of the senior class, said, "We feel that this would help to make the exercises more impressive and improve them greatly. Although no definite response has been forthcoming from the faculty we feel most assured that they will cooperate with the senior class in this matter."

It was decided that the R. O. T. C. commissions will be given out immediately following the awarding of the degrees on commencement day. It has not as yet been decided who will award the commissions. Captain Watson will administer the oaths.

A committee was selected to assist Dr. Brooks in arranging the graduation exercises. The committee consists of Earl Baysden, chairman, and Duncan Rogers, D. K. Clodfelter, Frank Gelle, and Maud Shaub.

MINSTREL SHOW DRAWS APPLAUSE

Woman's Club Sponsors Faculty Presentation Tuesday for Student Loan Fund

By LOUIS H. WILSON
Professors emerged from the cloak of pedagogy Tuesday night and, with their wives, brought repeated applause from a nearly packed house in Pullen Hall, where they staged the faculty minstrel for the benefit of the students' loan fund.

Johnnie F. Miller and Dean E. L. Cloyd featured the production with their respective skits—Miller with his "Dance of Spring" and the Dean with his "Campus Comments."

The musical Mr. Miller, dressed as a 10-year-old, pleased the audience with acrobatic dancing and was recalled three times; Dean Cloyd's ballads on campus life brought repeated applause. Both actors were exceptionally good.

Dr. W. B. Cobb, playing the part of "Stumbo" among the men, was a featured actor with a strong voice, unrestrained acting and witty jokes, he easily won the pleasure of the audience. Other end men were G. O. Randall, R. H. Rogers, D. S. Weaver, G. E. Silver, and E. L. Cloyd.

In the first part, a reading by Mrs. C. L. Mann was appreciated, with "Are You From Dixie" sung by the chorus; "American Strut," a dance number featuring Peggy Thorson, Ann Cloyd, Jeannette Henninger, and Billy Crouse; "Snuggle on Your Shoulder," sung by Mrs. C. H. Brannon; "Carry Me Back to Old Virginia," sung by Mrs. R. O. Moen; "Swing Low Sweet Chariot," sung by Mrs. Roy S. Dearstine; and "Smiles," sung by Mr. R. H. Rogers.

"In Mrs. Brooks' Kitchen," a skit featuring Mrs. C. G. Doak, Mrs. J. A. Arey, and Mrs. W. B. Shay was well received, as was a little drawn-out. Mrs. Doak was good.

"Happy Days," sung by the chorus, opened the third act. "Mighty Lak a Rose," sung by Mrs. F. B. Wheeler and Mrs. Roy S. Dearstine, called for encores, as did a buck and wing dance by George (Coon) Silver and Sam Silver.

Mrs. L. P. Denmark's song, "Home," was good. Mr. E. W. Galtier's clog dance was well accepted; a tap dance led by Peggy Thorson, with Jeannette Henninger, Ann Cloyd, and Billy Crouse, was good. The show was concluded with "State College Keep Fighting Along." Major Percy W. Price and his orchestra furnished music for intermissions.

Members of the chorus included Mesdames J. F. Miller, L. P. Denmark, and page four.

30 AND 3 ORDER TAKES IN ELEVEN

Sophomore Honorary Organization to Elect Officers at Meeting Next Monday

30 and 3, local sophomore honorary order, initiated eleven new members of the sophomore class last week and entertained them with a banquet at Edenhall Tea Room Wednesday evening. New officers will be elected at a meeting scheduled for Monday afternoon.

The order was founded last year and takes eleven men from the rising sophomore class each year. New members who were pledged at a meeting of the sophomore class on Wednesday, May 11, are: Albert Couch, Phil Kinklen, Lock Webb, Norman York, Jack Coffey, Cliff Palm, R. S. Poole, William Kanto, David Bohannon, T. J. Barker and W. B. Braswell.

SIXTEEN MEN TREATED AT COLLEGE INFIRMARY

Three Students Undergo Operation for Appendicitis in Downtown Hospital

Sixteen students have been treated in the infirmary this week and three operations for appendicitis performed, according to Ruth Boyette, infirmary nurse.

Those treated were C. A. Powell, W. F. Greenwood, G. B. Wheelless, J. R. Alcorn, E. A. Daniels, Troy Herring, Hugh Eudy, J. D. Swain, W. J. Dunning, Fred Montony, T. P. Robertson, H. F. Mintz, C. B. Gay, L. R. Paramour, Wm. E. Braswell, and R. M. Sherman.

Those operated on for appendicitis were John Smith, G. F. Menzes, and H. H. Patten. All of these were operated on at an up-town hospital, and will be back in the infirmary the last of the week.

WATAUGAN WILL APPEAR AT END OF NEXT WEEK

Final Number of Campus Magazine Will be Edited by Outgoing Head

Contrary to past tradition, the incoming editor of the Wataugan, Lewis Drumwright, will not edit the final issue of the magazine, which will be ready for distribution at the end of next week.

Most of the literary section of the magazine will be taken up with an article by A. C. Newton on "The Flying School" and will carry several illustrations on the subject.

J. C. Whitehurst's essay which won first prize at the Southern Engineers Convention at Chattanooga this spring will appear in the issue.

BROOKS ADVISES STUDENT LEADERS AT INSTALLATION

President Lays Down Eight Points at Ceremony in Pullen Hall Friday

NEW AND OLD OFFICERS MAKE SHORT SPEECHES

Lefort, Brake, Wilson and Williams Talk; Brooks Praises Student Government; Councilmen Sworn in Are Webb, Whitsell, Boswell, Anderson, Porter, Poole, Gardner, Evans, Sullivan, Thomas and Findlay

Stating that the Student government had not yet reached its fullest possibilities, Dr. Brooks, president of the college, gave eight points as comprising a new standard of cooperation for the student government system at the installation exercises of the newly elected student government officers in Pullen Hall Friday.

Impressive ceremonies yesterday marked the installation of the newly elected student government officers at State College and also the eleven anniversary of the existence of student government at the institution.

Short talks by the new and old president and vice president were given. The retiring officers are: Romeo LeFort of Greensboro, president, and C. E. Brake of Rocky Mount, vice president. The officers for the coming year are: Mark Wilson of Chattanooga, Tenn., president, and Robin Williams of Hillsboro, vice president.

Pointing out the close relation and similarity between student body government and state and national government, Doctor E. C. Brooks, president of the college, praised the student government system highly and complimented the local body on the remarkable progress and improvement made in the last few years.

President Brooks' advice for student administrators are: "To be able to disagree without resorting to personal abuse; To be free to criticize, without becoming libelous or malicious and striking at character; To be humorous, but without being coarse or vulgar; To point out defects without arraying class against class; To condemn wrongdoing, but to base condemnation on truth and not a mere rumor; To use public funds legally, and be conscious of a public duty in the expenditure of these funds; To place all business with the public on a sound basis that will square with good business ethics; To make honor grow from an inward desire to be honorable—for everyone has the possibility of becoming what he thinks he is, and most people think they are honorable."

New members of the student council who were given the oath of office are: J. W. Webb, Charlotte; Max Whitsell, Gibsonville; L. M. Boswell, Summerfield; C. T. Anderson, Norfolk; W. J. A. Porter, Rockingham; Rawlings Poole, Washington, D. C.; M. J. Gardner, Greensboro; D. C. Evans, Greenville; W. H. Sullivan, Greensboro; C. J. Thomas, Troy, and J. D. Findlay, Charlotte.

SIGMA PI ALPHA ELECTS CRUMPLER 1932-33 HEAD

Officers Named for Coming Year at Meeting of Society Tuesday Night

B. F. Crumpler, of Salemburg, was elected president of Sigma Pi Alpha, language fraternity, at a meeting of the society Tuesday night.

Other officers elected were: L. D. Murphy, Davis, vice president; Louise Gray, Raleigh, secretary; and W. P. Kanto, Youngstown, Ohio, treasurer.

Plans for the social to be held Friday night at the Tar Heel Club for members of the society were completed.

POINT SYSTEM HEADS APPOINTED BY WILSON

At the meeting of the Student Council Wednesday, President Mark Wilson appointed the following men to serve on the Point System Committee: R. M. Williams, chairman, C. T. Anderson, J. L. Reitzel, W. H. Sullivan, and J. A. Porter.

The purpose of the committee is to check up on all office holders on the campus and enforce the ruling that one person cannot hold more than 13 extra-curricular points, and also to study the Point System for possible changes and improvements.

New Colonel

DAN A. TORRENCE
Junior from Petersburg, Va., who was selected colonel of the R. O. T. C. regiment for the coming year. He was also recently elected business manager of the Agromeck.

FIVE INITIATED INTO BLUE KEY

Leadership Fraternity Elects Carlton Anderson President For Next Year

Five new active members were taken into Blue Key leadership fraternity and Carlton Anderson was elected president for the coming year at a banquet at the Carolina Hotel last night.

The new men taken into the society are Reid Tull, George Grimes, Lonnie Knott, Fred Jones, and Robin Williams. Col. Bruce Magruder was initiated into honorary membership.

The other officers elected were: Archie Ward, vice president; A. L. Drumwright, secretary; Fred Jones, treasurer; R. M. Williams, corresponding secretary; and Mark Wilson, sergeant-at-arms.

A review of what Blue Key has done this year and plans for next year were discussed.

A. S. Brower, former comptroller of State College and now purchasing agent for the state, was the speaker for the occasion.

LEAZER LITERARY CLUB HEARS STUDENTS FRIDAY

Plans Made for Debate on Eighteenth Amendment at Next Society Meeting

Plans for a debate on the Eighteenth Amendment, a discussion of the Annual State College Declamation Contest, and talks by W. E. Braswell and W. J. Smith featured a meeting of the Leazar Literary Society Friday night.

Braswell delivered a political speech on John P. Garner, nominated for presidency of the United States. He stated that the best means for alleviating the present economic evils would be to elect Garner president.

The planned debate on the Eighteenth Amendment was substituted for the cancelled inter-society debate between Pullen and Leazar Literary Societies.

CERAMIC SOCIETY HEARS GARRISON AT LAST MEET

Psychology Professor Talks on "Psychology in Industry" Tuesday Night

Using as his theme of discussion "Psychology in Industry" Dr. K. C. Garrison, professor of psychology, spoke before members of the American Ceramic Society at the final meeting of the year Tuesday night.

He pointed out the value of human element in problems of industry showing that human beings differed considerably in various industrial activities, such as speed of movement, susceptibility to monotony, and proneness to accidents. He also discussed other problems relating to industry and engineering.

The picnic, which was planned by the society, was postponed as only a few days remain in the term.

TORRENCE NAMED REGIMENT HEAD FOR NEXT YEAR

Slugs

The public telephones at State College yield many things to the collectors besides nickels. Out of the sixteen pay telephones on the campus, twelve of them had a total of 318 slugs in them last month. The phone in the Y. M. C. A. led the list with eighty-three slugs.

Many ingenious methods are employed to work the phones. Most of the slugs are pennies that have been beaten out, some are lead slugs and several foreign coins usually turn up.

Howard D. Cooke, manager of the telephone company, stated that the telephones were kept out here for the convenience of the students and that if the present practice continued they would be forced to discontinue the telephone service.

According to the telephone officials, the beating out of coins originated at State College.

Another method used to defraud the company is to reduce a penny to a size small enough to fit the dime slot.

SCHOOL RECEIVES TRACT OF FOREST

Dr. Brooks Reports Gift and Increased Enrollment to Executive Committee

Dr. E. C. Brooks, in his report to the executive committee of the Board of Trustees, Friday told of the gift of a tract of land tendered to the Forestry Department by A. D. McLean and others, and expressed the opinion that it, together with the large Hill tract in Durham County, would prove very valuable in the work of the Forestry Department.

This gift is a tract of 1,500 acres in Beaufort County.

A slight increase in the total enrollment at the college was reported by Dr. Brooks, although the resident students decreased by 30. The total of resident, correspondence, and summer school students was 2,344 for the current year.

It was decided that the budget for the college year 1932-33 would be the same as the present budget, which has been cut under executive orders. The salaries and wages in the present budget are about 15 per cent below those for 1929-30.

It was decided that the budget for the college year 1932-33 would be the same as the present budget, which has been cut under executive orders. The salaries and wages in the present budget are about 15 per cent below those for 1929-30.

RTY-THREE INITIATED INTO A. S. M. E. FRIDAY

Mechanical Professors Make Talks at Initiation Banquet Friday Night

Forty-three sophomores were formally initiated into the State College Student Chapter of the American Society of Mechanical Engineers, Friday night, at a banquet held at the Sir Walter Hotel.

Professor L. L. Vaughan gave a brief history of engineering. He told the members that there are now fifty-seven varieties of engineering.

Professor W. J. Dane congratulated the society on its success during the past year, and thanked the seniors for their help in making the organization's meetings interesting during the past year.

T. J. Raber, sophomore, pledged the cooperation of the incoming members with the work of the A. S. M. E.

In his talk Dr. Riddick encouraged the seniors, saying, "When engineers are idle, you will know there is no progress. When the world comes back to normal, engineering will again be in demand."

Receives Saber

Cadet Captain Joe E. Hull, captain of Company 4, was presented with a saber at drill Tuesday, May 17, by his company as an expression of their appreciation for his work and interest in the company.

This is the first time that any company has presented to their company commander a token of appreciation.

The saber will be appropriately engraved to commemorate the occasion.

Officers' List Made Public With House, Peterson and Murphy Majors

DR. BROOKS AND SENIORS TO REVIEW CORPS MONDAY

Dr. Brooks Will Award Prizes; Tulluck, Goodwin, Crutchfield, Nye, Helms, Sprinkle, Whitehead, Wood, Drumwright, Bennett and Chambers New Heads of Companies, Band and Drum and Bugle Corps

Dr. Brooks, of Petersburg, Va., is the next Colonel of the R. O. T. C. regiment, according to the selections made public today by the Military Department heads. The three battalion majors will be D. M. House for the First Battalion, B. A. Peterson for the Second Battalion and L. D. Murphy for the Third Battalion.

Other members of the regimental staff are: L. F. Yost, Lieutenant-Colonel; W. M. Turner, Regimental Adjutant; and E. H. Cherry, W. H. Espey and F. R. Nail, staff captains.

Parade

Graduation Parade, the last of the series of military ceremonies for the current school year, will be staged next Monday. The event was scheduled for Thursday, but was postponed when Dr. E. C. Brooks was called out of town. Dr. Brooks and graduating military seniors will review the regiment.

For graduation day parade, all units will arrive on the field in command of seniors. After formation, the seniors will turn command of their units over to the juniors who are to command next year, and will themselves form a line beside President Brooks. The juniors will then march the regiment unit by unit past this line as a salute to the President and the graduating officers.

As part of the ceremony engraved sabers will be presented to Capt. J. M. Barnes and Lt. C. E. Brake as commanders of the winning company and platoon in the annual close-order drill competition. Dr. Brooks will award a prize, equivalent to tuition for one year, to the freshman who has shown the greatest application and diligence in the R. O. T. C. this year.

Other Officers

Other captains named on the various battalion staffs are: F. A. Thomas, adjutant and J. A. Duncan, P. D. Officer in the first battalion; W. D. Pritchard, adjutant in the second battalion and Clem Campbell, adjutant in the third battalion.

First Lieutenants for next year are as follows:

N. H. Bain, J. W. Boat, J. C. McLean, A. C. Newton, W. E. Dick, W. H. Klutz, J. L. Pleasant, Jr., J. H. Troutman, A. S. Johnson, H. E. Marrs, H. M. Murray, R. F. Ruffner, W. R. Humphrey, C. C. Parks, J. B. Shinn, Jr., M. D. Thomason, L. B. Woodbury, Jr., R. H. Cottrell, Jr., E. P. Galba, B. R. Jolly, Jr., Lindstrom, J. L. Padgett, L. O. Fulcher, H. H. Kacyolan, H. B. Hines, Jr., K. L. Ponzner, E. R. Cathey, B. F. Crumpler, J. O. Hall, F. W. Reams, L. F. Thompson, S. J. Gurneau, Lee Hurst, H. A. Johnson, W. C. Keel, Jr., J. M. King, B. L. Ahman, J. P. Bowen, A. R. Lippard, L. A. Moss, N. S. Gregory, P. J. Hathaway, J. A. Royal, A. D. Williamson, J. H. Wallace.

Sergeants for next year are as follows: C. H. Garner, F. R. Kahn, J. B. Liles, R. B. McRae, T. J. Raber, S. P. Theim, W. J. Barker, J. E. Buchanan, J. T. Freeman, J. G. Hunt, P. W. McCollum, J. B. Vaden, W. E. Braswell, L. R. Smith, N. H. Tate, N. M. York, Wm. Boyd, J. T. Cooper, W. E. Davis, Jr., C. D. Thomas, M. S. Wilkinson, L. L. Cole, W. L. Curry, H. Dave, J. C. Geddie, J. M. Foyner, W. P. Kanto, G. D. Newcomb, W. L. Padgett, C. C. Taylor, J. P. Abernethy, G. T. Gardner, W. H. Hadlow, Jr., W. W. Hewitt, J. A. Hodnett, Jr., P. G. Pinken, R. J. McQuage, D. L. Bohannon, J. E. Jenkins, R. H. Nims, P. E. Stone, D. S. Barnes, W. T. Becton, A. E. Calhoun, J. Dixon, J. M. Reitzel, J. D. Swain, F. A. Carter, H. M. Foy, Jr., W. E. Kistler, Jr., G. B. Peeler, M. A. Rhyne, C. N. Rogers, C. T. Wright, W. D. Averett, J. F. Ferguson, F. B. Forbes, S. A. Troy, Jr.

DOVER COMMENCEMENT DELIVERED BY BROWNE

T. E. Browne, dean of the Education School, delivered the commencement address at the Dover High School Friday night.

THE EIGHT-POINTS

Eight planks in the platform upon which student government must stand if it is to rise in prestige and capability were laid down by Dr. E. C. Brooks in his address at the inauguration of student government officers.

These points cover publications, classes, organizations and student government proper, furnishing policies which are the ideals of student administration:

Enumerated, they are:

1. To be able to disagree without resorting to personal abuse.
2. To be free to criticize, but without becoming libelous or malicious and striking at character.
3. To be humorous, but without being coarse or vulgar.
4. To point out defects without arraying class against class.
5. To condemn wrongdoing, but to base condemnation on truth and not mere rumor.
6. To use public funds legally, and be conscious of a public duty in the expenditure of these funds.
7. To place all business with the public on a sound basis that will square with good business ethics.
8. To make honor grow from an inward desire to be honorable—for everyone has the possibility of becoming what he thinks he is, and most people think they are honorable.

Each student administrator will find in this list a general basis for honest, democratic, impartial and free fulfillment of office.

Dr. Brooks says that "student government has not yet reached its fullest possibilities. If these eight points become an integral part of the policies of student officers, then student government will reach its fullest possibilities. Capable student government means a better college and training grounds for the leaders of the future."

ROBBING THEMSELVES

Investigation reveals that State College students rob the telephone company of approximately fifteen dollars every month in using slugs to make telephone calls. Dismissing this with a smile is impossible when officials of the company declare that the telephones will be removed shortly if this practice continues.

The telephones were installed through the efforts of student leaders who realized the value of the convenience and what they mean to the individual student in cases of emergency, when every minute counts in delivering a death or sickness message.

But the good they wrought is to go for naught on account of childish desires to display mechanical ingenuity and avoid spending a nickel.

When the telephones were first installed students began tearing them from the walls and damaging them. The service was continued in the face of this, but the latest crimes have made removal imminent.

There is a specific North Carolina statute against such practices, and the student body gains nothing by breaking it.

AN IDEA

The Memorial Tower, eye-sore of the campus, may be finished some day if the plan of a prominent senior is adopted. The idea is printed in full in the Open Forum column and seems to be an admirable way to kill three birds with one stone.

Seniors may leave a valuable and permanent gift to the college, the Student Loan Fund will be increased enormously and the Memorial Tower will be gradually completed.

AFTER THE SHOW

The audience in Pullen Hall last Tuesday night was not large and few of these were students, but all proclaimed the show successful from the standpoint of entertainment quality.

Financially, the show cleared over \$100.00, which will go directly to the student loan fund. Need for every cent of this exists and the efforts of the faculty and their wives for this cause will be appreciated.

The spirit of cooperation, friendliness and sheer enjoyment that was evident throughout the show was contagious. The audience appreciated the throwing off of pedagogical dignity and enjoyed the jokes that faculty actors made about their fellow professors. Originality and talent were displayed. They joked about the salary cut and their own foibles, revealing a buoyant spirit that surprised many of the students present.

Throughout the whole show there was the undercurrent of loyalty to State College—the greatest single impression left by the performance.

The show paved the way for closer contacts between faculty members and should give impetus to the idea of a Faculty Men's Club, somewhat similar to the State College Women's Club which sponsored the show and deserves credit for its success.

The students present left Pullen Hall with a feeling that they knew their teachers better and that faculty members had taken the initiative towards a more unified college community.

COORDINATION

Physical changes in the plant of the college will probably be considered in the meeting of the Board of Trustees in a few weeks. Extensive building or remodeling seems unlikely in the face of financial conditions, but there is one rearrangement which should be kept in mind as worthy of the serious consideration of this body and student leaders.

At present headquarters of student government proper, publications and organizations are scattered about over the campus. The Y. M. C. A. housed them at one time but is now totally inadequate.

The ultimate solution, of course, is a student activities building. The need exists now, with organizations meeting wherever they can find a place. One suggestion is the use of office space in the new auditorium that may be built some day.

Student activities have grown enormously. Most of them serve a real purpose in the educational program and they have become an integral part of the college life. Any plan to expedite this work will make the training in activity work more valuable and more efficient.

SOMETHING FOR ALL

Intramural sports during the past spring have received more campus interest and had more participants than at any other time within the past few years. A more extensive program and the introduction of new competitions has been possible with real enthusiasm over the tournaments among dormitories, clubs and fraternities.

Intramural sports have a valuable and definite place in college life, but are often sacrificed for publicity's sake and the interest of outsiders in varsity sports. They promote a friendly, democratic rivalry among students and furnish healthy expression for a natural desire for play and exercise without the training grinds of varsity competition. Students pay for the athletic phase of college life and those who are unable to compete for the varsities are entitled to intramural opportunities comparable with their needs.

During the present spring, with track and baseball curtailed by finances, the intramurals have furnished an outlet for athletic interest. During the past few weeks the TECHNICIAN has given more prominence to stories of these competitions, partly because the small varsity program made the space available and partly through a belief that they are of campus interest.

Next year some attention should be given to making these events more representative and enlarging the program to include all sports in order that every individual may have a chance to compete. In the past the competitions have been in the form of tournaments. This system has the drawback that a team stakes all its hopes on one chance to win or lose. A league with each team playing several games would enlarge the program in point of interest as well as in the actual number of games played. Funds for such a program should come from athletic association funds, but if this is impossible, the interest this year makes it probable that the teams would be glad to cooperate in paying a small fee to defray the costs of the leagues.

An enlarged intramural program would be entirely in keeping with the trend in colleges everywhere toward the increasing importance of campus athletics as an integral part of education.

Recently students have been riding motorcycles and driving automobiles around the quadrangle in front of 1911 dormitory. Possibly the college should set aside a day for these students to take turns enjoying the thrill of invading this court which is sacred to pedestrians.

Respect for campus property must exist before the student body can expect to receive improvements. At many colleges this regard for the beauty of the campus is a tradition, and State College needs the establishment of this feeling as a basis for efforts to make the campus more attractive.

FARM CONVENTION TO BE HELD HERE

State Host to 30th Annual Gathering from August 29 to September 2

The 30th State Farmers Convention and Federation of Home Demonstration will be held at State College from August 29 to September 2.

The subjects taught this summer will be considerably brightened as they will be devoted more to a real country life program than in previous years. Considerable inspirational and recreational matter will be included in the program.

There will be only one general meeting for men and women during the morning hours. This will be the formal opening exercises on Tuesday, August 30. On Wednesday, Thursday, and Friday the general meetings will be held each evening out-of-doors. The convention will open informally Monday evening, August 29, with the exercises being in the nature of competitive community singing followed by local talent and moving pictures.

According to plans made yesterday three prominent speakers will be secured for the three evening gatherings. Other speakers will be asked to address the separate meetings of the men and women to be held in Pullen Hall each morning.

The women will hold their annual short course at which regular class room work in the various subjects will be taught. The graduation exercises for those women who have attended four consecutive short courses will be held on Friday, September 2.

The convention this year is one month later than usual. It is expected that this change in time will permit a much larger attendance than in former years.

Those attending the conference on the conventions Friday were Warren W. Watson of Lake Landing, president of the State Convention; Mrs. D. A. McCormick of McDonalds, hostess of the State Federation of Home Demonstration Clubs; Mrs. Warren Watson; William A. Graham, Commissioner of Agriculture; George R. Ross, director of State owned farms; Fred E. Miller, director of branch experimental stations; Dean I. O. Schaub, State College; Mrs. Jane S. McKimmon, State College; Prof. C. L. Newman, associate editor of *The Progressive Farmer*; Charles A. Sheffield, secretary of the State Convention, and Miss Ruth Current, director of the farm women's short course.

Open Forum

The school year is about to close and the graduating class has not yet taken a stand as to whether or not it will leave any remembrance of itself on the campus. The more recent classes have pledged certain amounts of money to be used in further construction of the Memorial Tower.

If the class of '32 considers leaving a memorial at all I should like to offer the following suggestion: That each member of the class pledge ten dollars to be paid within a year, that the money collected be turned into the student loan fund to be loaned to students at six per cent interest, that the interest collected be turned over to the finance committee of the Memorial Tower.

There are approximately 280 students to be graduated, should every student pay the ten dollars, the student loan fund would be increased \$2,800, and an income of \$148 per year could be given towards the Tower. On the face it seems that \$148 would not help the tower much, but over a period of ten years the funds for the tower will have increased \$1,480 and the student loan fund will still have use of the \$2,800.

Should this plan or a similar plan be adopted, the class of '32 will be doing a double service with whatever money it may decide to give.

F. W. GORHAM, '32.

Announcements

All students who have not received their Agromeck may get their copy any day next week from one to two o'clock, at the office of the Y. M. C. A. Registration card must be presented and publication fees paid.
Geo. B. Hobson, Bus. Mgr.

The Glee Club and Orchestra will meet in Pullen Hall Monday night at 6:30 for election of next year's officers.

The Freshman class will elect officers for the coming year today in Pullen Hall, according to J. H. Barnhardt, president of the Freshman class.

On behalf of the State College Woman's Club I wish to express our appreciation to all students and student organizations who helped in making our Faculty Minstrel a success.

We wish also express our appreciation to those members of the clerical staff who gave so freely of their time in assisting with the preparation of the programs, and to the carpenters, electricians, and other service departments of the college who so cheerfully carried out our every suggestion in staging the minstrel.

MRS. R. F. POOLE,
Chairman of the Committee.

One of the Telephone Removers

PEANUT HULL USE EXPERIMENT GOAL

Use of Waste Products for Rayon Is Object of Chemical Junior's Search

By A. J. SETZER

Clothes made of peanut hulls is the entrancing possibility opened up by the experimental work now being carried on by the junior class of Chemical Engineering School.

Undergraduate students of the Chemical Engineering Department are now spending many of their afternoons in investigating the possibilities of peanut hulls as a source of alpha cellulose, the material from which Rayon is manufactured. The true alpha cellulose content of peanut hulls is unknown, but if research reveals, as is indicated now, the percentage is high, that knowledge will be of economic importance.

There are collected annually, at a few points in this country, approximately 70,000 tons of peanut hulls, available at an extremely low cost. If the results of the experimental work being carried on by the Chemical Engineering students comes up to expectations peanut hulls will very soon serve as a supplementary source of alpha cellulose.

In the present day industrial world, industry must utilize every possible portion of its raw material in order to meet and survive competition. Today the manufacturer with the least waste succeeds best in meeting competition.

Peanut hulls, at present, have little

value attached to them. They make poor fertilizer because they contain only a small portion of material obtainable for plant food. Their heat of combustion is low, making them of little value as a fuel. By making peanut hulls a raw material for rayon manufacture, the peanut industry is given another source of income. Peanut growing is an important occupation in Eastern North Carolina. By assisting the peanut packers, the farmers of North Carolina who grow peanuts will be able to obtain a higher price for their produce.

Alpha cellulose obtained from peanut hulls need not be limited necessarily to the manufacture of artificial silk; it might just as well be the raw material from which is manufactured paper, vulcanized fibres, celluloid, pyroxylin solutions and a number of other important substances.

Each year the Chemical Engineering Department of State College requires that its students engage themselves in some problems of economic importance to the industrial chemistry profession.

Last year they made attempts to adapt cotton seed hulls to new uses.

The students are left to their own initiative as to the methods of procedure.

PIPES!

EVERY PIPE SMOKER has the satisfaction of knowing he has one masculine right that the women won't take away from him. They do leave our pipes alone.

And though the girls may not know it, they're leaving us one of the finest smokes a man can have.

There's something calm and soothing about a pipe and good tobacco. It leads to clear-headed thinking. Perhaps that's why the leaders—the real men of the world—are pipe smokers.

College men like a pipe—packed with cool, slow-burning Edgeworth's, the favorite pipe tobacco in 42 out of 54 colleges. It's cut especially for pipes, to give a cooler, drier smoke. You can buy Edgeworth wherever good tobacco is sold. Or for a special sample packet, write to Larus & Bro. Co., 105 S. 22d St., Richmond, Va.

Edgeworth is a blend of fine old burleys, with its natural savor enhanced by Edgeworth's distinctive and exclusive eleven-step process. Buy Edgeworth anywhere in two forms—Edgeworth Ready-Rubbed and Edgeworth Plug Slice. All sizes, 15¢ packet package to \$1.50 pound humidifier tin.

Edgeworth's

NOTICE

All Crew Members, Supervisors, Team Captains and Student subscription salespeople who wish to avail themselves of the opportunity for free scholarships made possible through the courtesy of the Leading Magazine Publisher's again this year are requested to apply to the national organizer, M. Anthony Steele, Jr., Box 343, San Juan, Porto Rico, stating qualifications fully.

AN OPEN LETTER TO ALL SENIORS—

In a few short weeks your student days at State College will be over and you will leave forever the class-rooms of State College. Your days on the campus are numbered and a new crop of Seniors are ready to take your places. For three more years men that you know will be active on the campus. Doing things! Being elected to important jobs! Winning games for the old school, and doing things on the campus that you have done before them.

Why not keep in touch with them? Keep up the Wolfpack spirit and subscribe to your newspaper, THE TECHNICIAN, and see what the school is doing. A whole year's subscription is only \$1.50, so fill in the coupon below and mail it in now.

It's a good investment. May we hear from you?
THE TECHNICIAN,
Business Manager.

P. S.—Of course, if you haven't definitely decided on your address for next year you can send the paper home and let them forward it to you.

I want to keep in touch with State College, so send me THE TECHNICIAN next year.

Address.....

TAR HEELS DEFEAT TECHS IN FINAL GAME

CAROLINA SCORES 9-7 WIN AT HILL AS SEASON ENDS

State Ends Third Among Big Five With Wake Forest First and Duke Second

DOAKMEN GET SIX HITS AS HEELS GET BUT FOUR

McLawnhorn Allows Seven Runs in Five Innings on Mound; Brandt of Carolina Hits Home Run With Two On; Lanning Finishes Pitching; Game Filled With Errors; Dunlap Puts Out Two State Men in One Play to Cut Off Tech Run

By FRED DIXON

Chapel Hill, May 19.—State College was defeated here today 9-7 by the University of North Carolina. The game ended the 1932 schedule for both teams.

The game also brought to an end Big Five activities in the State for the year and left State College in third place and Carolina in fourth. Wake Forest finished on top, Duke second and Davidson fifth.

Today's game was a bit odd in that Carolina made but four hits while scoring nine runs, and State six while collecting seven. One of the Heels' hits was a home run by Brandt in the first inning with two men on the sacks as a result of walks.

Seven of Carolina's nine runs and three of its four hits were made off Hank McLawnhorn, left handed chunker, who pitched the first five innings. The last two runs of the Heels and hit were made off John Lanning.

George Hinton did Carolina's chunking until the ninth inning, when he was relieved by Griffin after State had started a rally. Hinton went out with none out after State had scored three runs on a walk, error and two singles. McQuage greeted Griffin with a single to score the visitors' last run. The next three men went out to end the game.

The game was filled with errors and loose play, but some nifty defense was exhibited on several occasions. In the eighth inning, Paul Dunlap pulled a double play all by himself to cut State out of a run. Joel Morris sent one of Hinton's slants sailing toward first base and this Dunlap leaped high in the air to snag the ball with one hand. He touched first coming down to catch Allen Nelms off the sack for a double. Morris' lick seemed labeled for extra bases. Dunlap made 19 put outs. Bob McQuage robbed Pattisall of a hit in Carolina's half of the eighth on a similar play. Jimmy Brown played brilliant ball for State around second and Waters handled nine chances at second for the Heels.

The game today was the last for Captain Outen Gerock, first base, and John Lanning and Hank McLawnhorn, pitchers, of State. Lanning has been on the State squad but two years, but is a graduate of a junior college.

Score by Innings:
State 001 200 004—7
Carolina 321 012 00x—9

Doak Field

The Faculty Council at State College has approved the naming of Freshman Field, the scene of all of State's home baseball games, to Doak Field in honor of Chick Doak, coach of baseball at the West Raleigh School. The Faculty Council will present the question to the Board of Trustees for action. The plan to have the field named in honor of Doak was started by a group of State College students.

2ND FLOOR 1911 CAMPUS CHAMPS

Takes Intramural Championship By 7-1 Win Over Sigma Pi Yesterday Afternoon

Second Floor, 1911, club champions, defeated Sigma Pi, fraternity champs, for the campus title by the score of 7-1 on Riddick Field yesterday.

The game was not as exciting as it was expected as the dormitory boys gathered runs at will. Most of the runs were due to errors.

Both teams banged out hits quite freely. Sigma Pi gathered 12 while 1911 collected 13. Cobb and Kanto starred for the frat boys, while Watt, Boyette, and Southerland shone for the dorm men.

The second inning proved to be rather disastrous for Sigma Pi. Hits by Southerland, Fisher, Setzer, and Apple mixed with two walks and three errors netted 1911 four runs. Sigma Pi's lone run came in the second also, as a result of hits by Kanto, Trexler, and Bohannon.

Both pitchers worked the entire route.

The box score:

	Ab.	R.	H.	E.
Sigma Pi	3	0	1	2
Lyerly, 3b	3	0	1	0
Tucker, c	3	0	1	0
Wilson, ss	4	0	1	0
Hoaglin, p	4	0	2	1

Two Presidents

Charles G. "Chick" Doak, head coach of baseball at State College, is president of two baseball leagues in Raleigh—one the City League and the other, the Commercial League. Both are amateur organizations composed of former college and sand lot players.

State Varsity Baseball Team

State's varsity baseball team which played its last game of the season yesterday against Carolina at Chapel Hill are: Front row, left to right—Lanning, p; Farris, c; Roach, 3b; Brown, ss; Capt. Gerock, 1b; Wood, 2b; Miller, c; and McLawnhorn, p. Second row—Jeffrey, rf; Seitz, p; Ebey, rf; Nelms, lf; McQuage, lf; Duke, cf; Miller, c, and Leagans, 2b. Third row—Coach Chick Doak, Dave, p. Senter, 1b; Avera, cf; Adman, p; Brewer, cf; Dorea, 2b, and Baysden, manager.

GRIDDERS CARD NINE CONTESTS

Five Home Games With Night Opener Against Appalachian Set for September 24

N. C. State's varsity football schedule for 1932 was completed here this week when arrangements were made with Appalachian College to play the opening game with the Wolfpack on Saturday night, September 24. This will be the only game played at night next fall.

Nine games are listed on the completed schedule which Dr. Ray R. Sermon, athletic director, announced today. In addition to the Appalachian game, four others will be played at Raleigh. They are with Clemson, Wake Forest, Duke and South Carolina. The Wake Forest game, usually played on Thursday of State Fair week, has been shifted to Saturday afternoon of the same week.

The schedule is:
Sept. 24, Appalachian at Raleigh (Night).
Oct. 1, Richmond University at Richmond, Va.
Oct. 8, Clemson at Raleigh.
Oct. 15, Wake Forest at Raleigh.
Oct. 22, Florida at Tampa, Fla.

PUGILISTS LIST SIX RING MEETS

University of Georgia Replaces University of Maryland on 1933 Schedule

University of Georgia has replaced the University of Maryland on N. C. State's varsity boxing schedule for 1933. The Bulldogs will fight at Raleigh on February 18.

Georgia is the second new team on State's schedule—the other being Carolina. The match with the Heels has been set for January 21 at Chapel Hill.

The 1933 schedule is:

Jan. 12, Washington and Lee at Lexington, Va.
Jan. 21, U. N. Carolina at Chapel Hill.
Jan. 27, Duke at Durham.
Feb. 4, South Carolina at Raleigh.
Feb. 11, V. P. I. at Blacksburg, Va.
Feb. 18, Georgia at Raleigh.
Feb. 24-25, Southern Conference meet at Charlottesville, Va.
Oct. 29, Carolina at Chapel Hill.
Nov. 5, Davidson at Davidson.
Nov. 12, Duke at Raleigh.
Nov. 24, South Carolina at Raleigh.

DOAKMEN DEFEAT V. P. I. SATURDAY

Locals Come From Behind and Score Five Runs in Sixth to Get 7-5 Win

State College had to come from behind to defeat a scrapping Virginia Polytechnic Institute baseball team 7-5 on Freshman Field Saturday, May 14.

The game was the last home tilt for the Techs this year.

Coach Chick Doak's boys were four runs behind when they scored five runs to wipe out a 5-1 lead of the Gobblers. To make the game a bit safer, State pushed over another run in the eighth.

The Virginians' runs were scored against Rudy Seitz who pitched the first six innings for State. Seitz was touched for six hits. He struck out four and walked three. John Lanning hurled the last three innings, and did not allow a hit while whiffing four visitors.

Southerland pitched the route for V. P. I. He was in danger only in the sixth when a triple by Avera, doubles by Nelms and Lanning, a single by Roach were mixed with a walk and an error for five runs.

BROWN AND MORRIS 1933 CO-CAPTAINS

Short Stop and Third Baseman Elected as Leaders of Next Year's Ball Club

Joel Morris of Raleigh and Jimmy Brown of Jamesville were elected co-captains for the 1933 baseball team, last night.

Snoozy Morris is a junior this year and has been used as a third baseman, short stop, first baseman, and as pitcher. Snoozy has starred all season and has been one of the leading hitters of the Doakmen.

Jimmy Brown has led the hitting for the team this season. He is playing his first year of varsity ball and is considered one of the best short stops in college circles.

double and a single in two tries, and Ned Wood, with two singles out of four led State's attack.

Captain Outen Gerock got in the game with two out in the ninth. He retired the last batter on a grounder.

Outen was injured in a game with Carolina two weeks ago and had been unable to play since. The game yesterday marked his last home appearance. V. P. I. 000 311 000—5
State 000 015 01x—7

FIRST FLOOR MEN IN WATAUGA HALL WIN TRACK MEET

Winners Score 59 Points in Intramural Contest on Riddick Field Tuesday

DORMITORY STARS FACE FRATERNITY MEN TODAY

Third Floor South Second in Meet Tuesday; Second Floor 1911 Third and Second Floor Seventh Places Fourth; Tucker, Poliseo, and Gerodnick Tied for High Score Honors With 17 Each; Miller Says Meet Today to be Close

In the inter-club track meet held Tuesday, May 17 First floor Watauga took first place by collecting 59 points. Other clubs entered and their scores were: Third floor South 35, Second floor 1911 24, Second floor Seventh 17, Fifth Dormitory 16, Sixth Dormitory 4, Third floor 1911 3, and Second floor South 2.

The winners in the different events were: Broad Jump (1) Tucker, (2) Rhyme, (3) Pickrell, (4) Mullins; High Jump (1) Richardson, (2) Rhyme and Wood, (4) Horsey and Wilson; 100 yard dash (1) Rhyme, (2) Tucker, (3) New, (4) Calhoun, (5) Means; Shot (1) Poliseo, (2) Gerodnick, (3) Womble, (4) Edwards, (5) Barber; Discus (1) Gerodnick, (2) Poliseo, (3) Wilkinson, (4) Wheeler, (5) Barber; Relay (1) Second 1011, (2) Third South, (3) First Watauga, (4) Sixth Dorm.

Club champions who are to meet fraternity champions are: 100 yard dash—M. Rhyme, Tucker, New; Discus—Gerodnick, Poliseo, Wilkinson; Shot—Poliseo, Gerodnick, Womble; High Jump—Richardson, J. Rhyme, Wood; Broad Jump—Tucker, M. Rhyme, Pickrell; Relay—Second floor 1911 team.

The team named above will face the following fraternity team for the campus championship this afternoon at 4:30—100 yard dash—Lynch, Goodwin, Bridges; Discus—Clevenger, Stubing, Meredith; High Jump—Henry, Trexler, Barnhardt, Poole, Palm; Relay—Pi Kappa Phi team; Shot—Clevenger, Goodwin, Davis; Broad Jump—Stubing, Lynch, Munford.

J. F. Miller, director of inter-mural sports, says the records established by both the clubs and the fraternities were almost alike and today's meet is expected to be a close and exciting one.

Faculty Smoker

Faculty men will entertain the old and new Student Councils on Monday night at 7:30 in the Y. M. C. A.

Council Banquet

The old and new Student Councils will have a banquet next Wednesday night at Edenhall Dining Room. The Faculty Advisory Committee, the Deans of the five schools, Dr. E. C. Brooks, and Dean E. L. Cloyd are invited guests.

Senior-Faculty Picnic

The School of Science and Business held their annual picnic at Sunset Lake Club on Thursday afternoon, May 19.

Rawls Guthrie, chairman of the picnic committee, had an enjoyable program arranged. Johnny Miller was in charge of the sports, and the group spent the time swimming, playing baseball and pitching horse shoes. Refreshments were served.

TAYLOR ADVISES PLAN FOR FUTURE

Dr. Carl C. Taylor Tells Advantages in State's Wise Use of Resources

"North Carolina, by wise planning, could reap \$500,000 annually from her fishing and hunting resources," said Dr. Carl C. Taylor before the International Relations Club on Wednesday night.

In the introductory part of his talk, Dr. Taylor told briefly of the organization which is sponsoring the North Carolina plan, membership of which is made up of prominent men of this state. The purpose of the plan is to develop and conserve the resources of the state for the benefit of all the people.

Dr. Taylor showed how difficult it is to sponsor a plan of this kind due to the fact that all Americans in the past have believed in the theory of every man for himself. In the early history of this country boundless natural resources were almost free for the asking. People exploited these resources without a thought of future consequences.

These great mines of wealth have led people to believe that everyone could be a success in life. Dr. Taylor thinks that making good in life will be increasingly difficult in the future if better use is not made of our resources.

He pointed out that only two or three times in her entire history has this state been more conscious of the fact that she is a commonwealth; consequently, this is an excellent time for economic and social planning.

"Since North Carolina has established her good roads, better schools, and health programs, she has received more publicity than any other state in the union. The people are now paying for these public services in taxes and they realize that running a state is an enterprise of all the people," said Dr. Taylor.

As evidence that the economic and social planning for this state is feasible, the speaker stated that our schools, roads, and health programs have been definitely planned. He further stated that the unusual progress made by Wisconsin was due to a plan inaugurated by Robert M. La Follette, Sr., twenty-five years ago. As a result of this plan Wisconsin has no bonded indebtedness—the only state in the union that has achieved this end.

Dr. Taylor stated that since 1900 North Carolina has increased the value of her industrial output fifteen and one-half times. Since 1918 the state had not fallen below eighth place in the value of her farm crops until last year.

"Regardless of this marvelous growth," concluded Dr. Taylor, "North Carolina has merely scratched the surface."

First Glider On Campus Will Be Tried Next Week

Nycum and Curry Finishing Four Month's Work on Glider Designed by Pair

N. C. State's first glider is nearing completion, and its builders, J. F. Nycum and W. L. Curry, are ready to make their initial flight some time during the first of next week. The glider has been under construction since Christmas, and was completely designed by the builders.

Plans are being made to make the test flight at the local airport, and if these plans fail to materialize, some field here on the campus shall be used. Curry will most likely be the one to give the glider her first tryout, since he has had quite a bit of experience in flying.

The glider has a wing-span of thirty-five feet; the wings being made of a light framework over which muslin is tightly stretched. Approximately ten gallons of "dope" were used to strengthen the fabric. The body is about twenty-four feet long, and the fuselage is not covered. The tail is divided into several sections to give control of the glider while in the air. The highest point of the glider is seven feet and the whole weight of 150 pounds is concentrated upon a runner, which has the same construction as a ski. All the frame work has been painted blue while the wings have a coating of metallic silver.

DEPRESSION WILL NOT AFFECT SUMMER SCHOOL

Director Browne Expects Unusually Large Enrollment for Six Weeks Term

"The Summer School attendance will not be affected by the depression," said Dean T. E. Browne, director of the Summer School, recently.

Due to the difficulties of obtaining summer employment many students find summer school profitable in that they can get off from nine to twelve term credits during the session at a small cost.

"The expense of this school for the

six weeks should not exceed thirty-five dollars, excluding meals, and twenty-five dollars for teachers and prospective

teachers," said Dean Browne. It is possible for a student to get his degree by attending three full sessions and three summer schools. In certain

curricula this may be done by carrying an average of eighteen hours during the regular sessions and twelve hours during the summer school.

MINSTREL SHOW DRAWS APPLAUSE

(Continued from page one)
mark, W. B. Cobb, J. D. Paulson, J. A. Ogg, L. R. Harrill, R. S. Warren, C. H. Brannon, R. O. Moen, H. B. Mann, and S. T. Ballenger, with Professors J. V. Hoffmann, E. E. Randolph, A. M. Fountain, J. G. Knapp, and L. O. Armstrong.

The entire production reflected credit upon Mrs. R. F. Poole, director of the show and chairman of the Ways and Means Committee of the State College Woman's Club, sponsors of the minstrel. Pianists were Mrs. J. P. Pillsbury, Miss Margaret Harrington, Mrs. Fred Staudt, Mark K. Wilson, Jr., was stage manager.

AERONAUTICAL SENIORS RECEIVE APPOINTMENTS

Word has been received at State College that H. H. Murray of Wilson, a senior in aeronautical engineering, has been appointed a flying cadet in the U. S. Army Air Corps. Frank Gelle of Raleigh, also a senior in aeronautics at State, has already received his appointment as a flying cadet. Both students will report for duty at Randolph Field, Texas, with the July class.

DO YOU INHALE?

Certainly...

7 out of 10 smokers inhale knowingly... the other 3 inhale unknowingly

Do you inhale? Seven out of ten smokers know they do. The other three inhale without realizing it. Every smoker breathes in some part of the smoke he or she draws out of a cigarette.

Think, then, how important it is to be certain that your cigarette smoke is pure and clean—to be sure you don't inhale certain impurities!

Do you inhale? Lucky Strike has dared to raise this much-avoided subject... because certain impurities concealed in even the finest, mildest tobacco leaves are removed by Luckies' famous purifying process. Luckies created that process. Only Luckies have it!

Do you inhale? More than 20,000 physicians, after Luckies had been furnished them for tests, basing their opinions on their smoking experience, stated that Luckies are less irritating to the throat than other cigarettes.

"It's toasted"

Your Throat Protection—against irritation—against cough
