GREEKS CAPTURE 117 NEW PLEDGES ANNOUNCES DEAN

Sigma Phi Epsilon Takes Pledge
Population Honors With
Fourteen Men

NEW PLEDGING SYSTEM
USED FOR FIRST TIME

President of Interfraternity Council Says Plan of Rushing This Year Very Successful; Kappa Alpha Frat Second in Number of Pledges With 12 Men and Delta Sigma Phi Third With 11; Rush Period Lasts Seven Days

The first rushing season under the new governing body of the Greek letter lodges the Interfraternity Council, ended with 117 men accepting bids to the eighteen fraternities on the campus.

Sigma Phi Epsilon pledged the largest number with 14 men; Kappa Alpha was second with 12 and Delta Sigma Phi third with 11 pledges. Sigma Tau Beta and Alpha Kappa Pi tied for the least number of pledges with two each.

New rush rules were in effect this year, with a system of invitations and date cards in effect. The rushing period was seven days with a quiet period of three days immediately following.

The complete list of pledges, as announced from the office of E. L. Cloyd, Dean of Students, is as follows:

Alpha Chi Beta: Gray Hamilton, High Point; Lynn Loy, Creedmoor; F. C. Quay, Harrisburg.
Alpha Kappa Pi: C. F. Lane, Rocky Mount; J. B. Sauls, Ayden.
Alpha Gamma Rho: J. M. Davis, Camp Hill, Penn.; F. H. Hube, Wise, Va.; Hayes McCulley, Lenoir; R. J. Worley, Loris, S. C.
Alpha Lambda Tau: D. A. Bland, Raleigh; O. E. Lillipert, Jr., Winston-Salem; Joe Long, Jr., Edenton; W. A. Smith, Elizabeth City.
Beta Sigma Alpha: D. E. Brewer, Clemmon; Thomas Meares, McBee, S. C.; E. R. Simmons, Winston-Salem; B. C. Sissel, Winston-Salem; J. L. Womble, Greenwood, Miss.
Delta Sigma Phi: Hugh Bethea, Dillon, S. C.; Carlisle Booth, Sumter, S. C.; J. S. Bowyer, Salem, N. H.; William Caldwell, Dillon, S. C.; E. A. Herbst, Salem, N. H.; L. A. Martin, Nyack, N. Y.; Walter Oakden, New York City; T. J. Raber, Haddonfield, N. J.; P. N. Troskin, New York City; (Please turn to page three)

BROOKS SPEAKER ON ANNIVERSARY

President Says Education Needed
to Retain Possession of
New Science

Dr. Brooks, president of the college, in an address entitled "Education as Catastrophe," delivered to the student body at the 43rd formal opening of the college in Pullen Hall Friday, October 2, emphasized the need for maintaining educational standards in this critical period of depression and unemployment.

Pointing to the marvelous improvements in communication, transportation and science, Dr. Brooks stated that we could never go back to the old methods of industry or education because the world is geared up to the new order of things and to go back would only create chaos and more suffering than there now is because the new industrial system has created jobs that were never dreamed of in 1900 and to go back to the old educational standards would mean that we would lose the great advances that we have made in the last thirty years.

"We especially need education today to retain possession of the new science, the new mechanics, and the new technique already acquired," he said. "Our people in North Carolina have recently been put to the test and they have repeatedly voted that they do not intend to revert to the simple days when education provided for only the very few."

Dr. Brooks also pointed out that the remedies for the great injustices and suffering of the masses of people resulting from the industrial changes can only come through education.

Henry Hicks of Rocky Mount, president of the Senior Class in a message to the Freshman Class advised them (Please turn to page three)

FRESHMEN WEIGH NEARLY 31 TONS

Average Yearling Weighs 137.3 Pounds With 5.6 Per Cent Color Blind

WILLIAM TILGHMAN HAS
261 RECORD OF POUNDS

Writer Declares Yearlings Not
Chesty With Average 2.6
Inch Expansion

By J. W. LAMBERSON
Stop lights do not mean a thing to 5.6 per cent of this year's freshmen class who are color blind, according to records of physical examinations compiled by the R. O. T. C. on registration day.

Many interesting facts were revealed by these records. The average freshman weighs 137.3 pounds, is 5 feet 7 inches tall and has a chest expansion of 2.6 inches.

If laid end to end the freshmen examined would reach from the campus to Meredith College. The total height was 2,466 feet and the weights amounted to nearly 31 tons. The total chest expansion was 98.8 feet, which represents a stupendous amount of lung power.

The reason for the average weight being high can easily be seen when the following weights are considered: William P. Tilghman of Raleigh who weighs 261, Frank L. Porter of Hamlet who weighs 234, Wilbert R. Rex, freshman football player, of Decatur, Ill. who weighs 210 and Robert Lee Poovey, Jr. of Statesville who weighs 206½ pounds. The light members of the class are Augustus D. Brannon of Rockingham who tips the scales at 95, James A. Pippin of Washington who weighs 100, R. G. Browning, Jr. of Raleigh who tips the scales at 105 and Earnest L. Boltek of Hickory who tips the scales at 108 pounds.

The height was also a little bit above the average of 5 feet 7 inches or 5 feet and 7 inches. There are a few who can look over one's own shoulder. (Please turn to page three)

TWENTY MEN SELECTED FOR STATE ORCHESTRA

Raleigh Boys Hold Lead in
Orchestra Population With
Four Musicians

The State College Orchestra try-outs were completed last week and twenty men were selected for the organization, according to Major P. W. Price, Director of Music.

Fifteen of the twenty men are from North Carolina, and four of these are from Raleigh. The complete personnel is as follows: J. F. Allen, Raleigh, N. C.; W. E. Cooper, Kane, Pa.; R. H. Cottrell, Jr., Winston-Salem, N. C.; J. A. Creech, Florence, S. C.; J. W. Culp, Jr., Gastonia, N. C.; B. B. Culp, Gastonia, N. C.; W. L. Curry, Raleigh, N. C.; Henry Dinkelspiel, Memphis, Tenn.; E. P. Galba, McKees Rocks, Pa.; J. A. Gerow, Raleigh, N. C.; W. J. Hayes, Wilmington, N. C.; E. G. Jones, Fayetteville, N. C.; J. H. Lindstrom, Fayetteville, N. C.; J. O. S. McCullers, Durham, N. C.; J. L. Padgett, Cliffside, N. C.; B. Sissel, Winston-Salem, N. C.; C. M. Smith, Fountain, N. C.; J. S. Stearns, Jr., Monroe, N. C.; E. R. Poole, Raleigh, N. C.; O. B. Moore, Whitakers, N. C.

PERSONNEL OF QUARTET LISTS ALL TAR HEELS

The State College Quartet has been organized for the coming year and will accompany the glee club on a trip through the eastern part of the state in November. Major P. W. Price, Director of Music.

North Carolina boys make up the personnel of the quartet. Joe Allen, of Raleigh, is singing first bass; John Mattox, of Wendell, sings second bass; W. E. Boykin, Charlotte, first tenor; and Frank Gelle, of Raleigh, is the second tenor.

Order of 30 and 3
Freshman Chapel on October 16 will be in charge of the Order of 30 and 3. E. L. Cloyd, dean of students announced yesterday after attending the initial meeting of the society.

L. Polk Denmark, alumni secretary, will make a short talk followed by W. P. Hanks, president of the order, who will explain the purposes of the organization and introduce its members.

Eleven additional members will be selected for the club at the beginning of the second term. Present members are now holding an "observing term" before voting on prospects.

"Floyd Gibbons"

R. F. BROWN
Dean of the School of Science and Business, will give a survey of world news events before sophomore assemblies during the year. Mr. Brown was selected by the Class of 1934 program committee.

GREAVES-WALKER CONFIRMS STORY

Head of Ceramic Department
Makes Reply to Complaint
of E. G. Couch

"THE TECHNICIAN has never been misled by the Department of Ceramic Engineering, and all the articles published with reference to the employment of last year's Ceramic graduates were correct," stated Professor A. F. Greaves-Walker when interviewed regarding the "Open Forum" letter of Everett G. Couch, Jr., published in the October 2 issue of THE TECHNICIAN.

"As far back as last March, various companies had agreed to take the 1931 graduates and the jobs were as certain as jobs can be that far in advance of graduation," said Professor Greaves-Walker. "Unfortunately, business conditions got worse towards commencement time and just before the men received their degrees three of these companies advised that they were not yet ready to have them report for duty. In no case was the promise of a job withdrawn."

"The fact remains that, in spite of the embarrassing position in which this placed the department, all of the graduates with one exception, had positions within 30 days after receiving their diplomas. The exception was in the hospital after an operation for appendicitis. One of the jobs was temporary, taken at the option of the graduate, who advised he did not wish a permanent position at once. As soon as his job was completed he registered for another year's work in a college in a neighboring state. Upon being discharged from the hospital the sick man was almost immediately offered a promising position in a New England (Please turn to page three)

FRESHMEN HEAR HYGIENE ADVICE

Dr. F. N. Seerley Asks Yearlings
to Keep Bodies Free From
Corruption

Dr. F. N. Seerley, prominent Y. M. C. A. lecturer, addressed the freshman class on the subject of "Sex Hygiene" in their meeting in Pullen Hall, Wednesday at noon.

H. Y. Brock, president of the State College Y. M. C. A., introduced Dr. Seerley.

"The human body is a wonderful machine," Dr. Seerley told the frosh; "with remarkable coordination and the latent possibility of development to a high degree of perfection. However, it is our brain that makes us whatever we are and it is through this medium that we have the power to make ourselves what we want to be."

"Human beings are a composite of the things they come in contact with, their home environment and the things they read and hear. This is illustrated by the fact that habits formed in childhood remain with us. Cheating in college usually can be traced to habits formed in high school."

Dr. Seerley's talk was full of humor, but throughout the lecture he pointed out the need for right living and right thinking in building character and manhood. "Life today in colleges is a challenge to every boy to build a fine character free from evil and corruption," Dr. Seerley declared.

MANY TRANSFERS SET NEW RECORD

Sophomore and Freshman
Classes Show Decreases
From Last Year

ENGINEERING DECREASE
OF 15 MEN FOR 1931-32

Total Population of Institution Is
Thirty-five Greater Than
Session Last Year

Junior and senior registration at N. C. State increased this year while the freshmen and sophomore totals are less, according to W. L. Mayer, Director of Registration. Thirty-five more students are enrolled than at the corresponding period last year, when a new high mark was set of 1,767.

"The increase in the junior and senior registration," says Mr. Mayer, "is due to the exceptionally large number of transfers. Many of these students took their first two years of college work at junior colleges, probably for financial reasons. Many transfers of this type are enrolled."

The seniors totaled 262 this year as against 240 last year, increasing, as did the junior class, the latter showing 304 this year against 252 last year. The sophomore class decreased from 501 last year to 492 this year and the freshman class decreased from 700 last year to 641 this year.

The graduate students increased from 43 last year to 74 this year; irregular students increased from 11 last year to 15 this year; however, special students decreased from 20 last year to 11 this year.

All schools showed an increase except the engineering school, which had 771 this year against 786 last year. The School of Agriculture increased from 468 last year to 386 this year; the School of Education increased from 188 last year to 235 this year; the School of Science and Business increased from 344 last year to 355 this year and the Textile School increased from 122 last year to 127 this year.

STATE COLLEGE FACULTY BEGINS EXTENSION WORK

College Credit Will Be Given for
Courses in Five North Carolina
Towns

Extension classes with members of the North Carolina State College faculty as instructors, have been started in Lenoir, Youngsville, Kinston and Zebulon and are meeting regularly.

Each class meets sixteen times for two-hour sessions. Regular college credit is given in these courses.

There are two sections of the Psychology class meeting in Lenoir with Prof. K. C. Garrison as instructor. The classes meet in the Lenoir High School at 4:30 and 7:30 p.m. each Wednesday.

English is the course being taught at Youngsville by Prof. L. C. Hartley in the Youngsville High School. This class also meets at the same hours on Wednesday.

At 4:30 p.m. in the Kinston High School there is a course in North Carolina history with Prof. Hugh Leffer in charge and at 7:30 there is a class in American Literature with Prof. A. I. Ladd as instructor. These classes meet on Thursday.

Prof. S. R. Winston meets a class in sociology on Thursday afternoons at the Zebulon High School.

Extension classes are being organized in Rocky Mount and in the following counties: Johnston, Craven, Pamlico, Jones, Onslow and Carteret.

CERAMIC ORGANIZATION WILL INITIATE FIFTEEN

Charles C. Morrison President of
American Ceramic Society
for 1931-1932

The N. C. State branch of the American Ceramic Society, headed by President Charles C. Morrison, met October 6 at 7:15 p.m. and discussed plans for the coming year.

The officers guiding the society are: Morrison, Edward C. Davidson, vice-president, and Secretary-Treasurer William C. Bangs.

The plans formulated include the initiation of fifteen new men in the near future, adoption of a financial program and promotion of high scholarship.

At the beginning of the meeting the purposes and benefits of the A. C. S. were explained to the new men present.

SOPHOMORES BAN WINDY SPEAKERS AT CLASS MEETS

Dean B. F. Brown Will Feature
Assemblies With Resume
of World News

CARTOONIST
TO SPEAK OCTOBER 14

York Says to Make Programs Interesting Speakers Will Be Limited to fifteen Minutes; Worthwhile Objectives to be Chosen and Class Will Make Opportunities to Serve College; Committee Meets Tuesday

Norman York, President of the Sophomore Class, declares that the sophomore assembly program committee this year is against long-winded speakers and that every speaker addressing the second-year men will be limited to fifteen minutes.

The committee, consisting of York, D. L. Bohannon, vice president of the class, Charles Styron, member at large from the class, Professor W. N. Hicks and Lieutenant W. E. Carraway met Tuesday night and outlined plans that include the scheduling of short and snappy speeches for the meetings and the adoption of "enthusiastic college loyalty" as the aim of the class this year.

"We plan to make the assemblies interesting," says York, "and for that reason no speaker will be allowed to hold the floor for more than fifteen minutes. It is our purpose to use these assemblies to organize the sophomore class into an effective group for carrying out the class projects. Several worthwhile objectives will be chosen and the class will make opportunities to serve the college instead of waiting to be called upon."

"The class assemblies are to be run solely by students and suggestions from the class at large will be invited and given full consideration.

"A feature of the programs will be a regular fifteen-minute talk by Dean B. F. Brown of the School of Science and Business. He will review the current events and opinions of the month in a short and snappy resume somewhat after the manner of Lowell Thomas.

"The schedule of each meeting will be as follows: Opening by president; five-minute talk by Dr. E. C. Brooks; (Please turn to page three)

ELECTRIC CLUB MEETS TUESDAY

State Society Will Secure Prominent
Speakers for Regular
Sessions

The N. C. State Student Branch of the American Institute of Electrical Engineers held its first meeting of the year Tuesday, October 6 in Room 207 of the Electrical Engineering Building.

G. E. Ritchie, president of the branch, explained to the new men in the electrical school the aims and purposes of the Institute and of the student chapters. "Members may take part in all work of the local branch," says Ritchie, "and can attend district and national conventions and are eligible for admission to the Order of Saint Pat, other qualifications being fulfilled. They also receive the official publication of the Institute, Electrical Engineering."

The president appointed a program committee for the term. With Charles Ireson, representative of the Engineers Council, as chairman.

"It will be our policy to invite prominent men from the several branches of the electrical profession to talk to the students at the bi-monthly meetings of the Branch. The talks will be supplemented by moving pictures and student programmes," said Ireson.

At the close of the meeting, R. S. Fouraker, faculty adviser to the branch, and Professor Wm. Handel Browne reminded the students of the State Convention of the A. I. E. E. in Durham on November 15 and of the coming district convention in Florida. This branch will present technical papers at both conventions.

PLEDGE DANCES

The State College Pledge Dances will be held November 6 and 7, announces T. A. Mott, Jr., President of the Intrafraternity Council.

There will be dances Friday night, Saturday afternoon and Saturday night.

The orchestra has not been chosen. Weede Meyer, Jelly Leftwich and several orchestras under contract with the Orchestra Corporation of America are being considered.

COMMANDANT MAGRUDER TO SPEAK OCTOBER 14

York Says to Make Programs
Interesting Speakers Will Be Limited
to fifteen Minutes; Worthwhile
Objectives to be Chosen and Class
Will Make Opportunities to Serve
College; Committee Meets Tuesday

Norman York, President of the Sophomore Class, declares that the sophomore assembly program committee this year is against long-winded speakers and that every speaker addressing the second-year men will be limited to fifteen minutes.

The committee, consisting of York, D. L. Bohannon, vice president of the class, Charles Styron, member at large from the class, Professor W. N. Hicks and Lieutenant W. E. Carraway met Tuesday night and outlined plans that include the scheduling of short and snappy speeches for the meetings and the adoption of "enthusiastic college loyalty" as the aim of the class this year.

"We plan to make the assemblies interesting," says York, "and for that reason no speaker will be allowed to hold the floor for more than fifteen minutes. It is our purpose to use these assemblies to organize the sophomore class into an effective group for carrying out the class projects. Several worthwhile objectives will be chosen and the class will make opportunities to serve the college instead of waiting to be called upon."

"The class assemblies are to be run solely by students and suggestions from the class at large will be invited and given full consideration.

"A feature of the programs will be a regular fifteen-minute talk by Dean B. F. Brown of the School of Science and Business. He will review the current events and opinions of the month in a short and snappy resume somewhat after the manner of Lowell Thomas.

TEXTILE SCHOOL EXHIBIT AT FAIR

Governors of Southern States
Will Be Exhibited in Cloth
Says Nelson

A feature of the annual North Carolina State Fair will be the exhibit of the North Carolina State College Textile School which for the last several years has had exhibits at the Annual Fair.

Two large knitting machines and a Jacquard loom will be used in giving demonstrations of weaving, knitting and yarn manufacture and processes of dyeing and designing will be demonstrated by students of the School who will be at the exhibit at all hours of the fair is open, announced Dean Nelson.

"Likenesses of the governors of North Carolina, Georgia, Virginia, Maryland and South Carolina will be run off the Jacquard loom consecutively. These will be given to the public. The knitting machines and a looper will be used to demonstrate how men's fancy socks are knitted," says Dr. Thomas Nelson, dean of the school.

RANDOLPH IS APPOINTED TO TEST GAS OF STATE

State Corporation Commission
Gives State Man Newly
Created Position

Dr. E. E. Randolph, Head of the Department of Chemical Engineering, has recently been designated by the State Corporation Commission to test the quality of the commercial gas sold in North Carolina.

The need for this work was created when an act of the recent General Assembly empowered the Commission to make these tests and determine the quality of the gas being furnished the consumers of the state by public utility companies.

STATE PREXY CHAIRMAN OF COLLEGE COMMITTEE

Dr. E. C. Brooks, president of N. C. State College, will head the executive committee in charge of the annual meeting of the North Carolina Conference of Colleges which will be in session at the Washington-Duke Hotel in Durham on October 28 and 29.

Other members of the executive committee are: W. H. Fraser, of Queens-Chloro, vice president; N. W. Walker of the University of North Carolina, secretary-treasurer; W. L. Lingle, of Davidson; Dr. A. T. Allen, State Superintendent of Public Education; and Dr. Holland Holton, of Duke.

Mechanical Engineers Take National Membership Offer

John Whitehurst is President of North Carolina State Student Chapter

CLODFELTER SECRETARY OF LOCAL ORGANIZATION

Student Mechanical Engineers Used Name of National Chapter Without Being Officially Connected; Next Meeting to be Held on Wednesday, October 14; Juniors and Seniors Are Eligible for Membership

The North Carolina State College Society of American Society of Mechanical Engineers has become affiliated with the American Society of Mechanical Engineers, according to J. C. Whitehurst, president of the local chapter.

Although the present chapter has been a prominent figure among the activities of the campus for a number of years. This organization, while using the name of the national organization, has not been associated with it. According to information received from the Mechanical Engineering Department all men who are either Juniors or Seniors are eligible for membership. After the completion of their collegiate career, the members of the State College chapter become junior members in the national society which is composed of professional engineers.

The next meeting will be held on Wednesday, October 14, at which time a smoker will be held following the business meeting in order that the old and new members may become better acquainted. At this meeting the speakers will be Ernest Hartford, Assistant Secretary of the National Society of the A. S. M. E. and M. C. Maxwell, student relation committee chairman.

The officers are now working up the list of speakers for the coming meetings. Other officers of the State College Chapter are: D. K. Clodfelter, secretary; Dan Hogsett, treasurer; O. B. Moore, publicity, and Prof. John Foster, adviser.

ONE MAN MARS RECORDS OF CHEMICAL GRADUATES

Dr. Randolph Makes Correction of Editorial Comment in "Technician"

Dr. E. E. Randolph, head of the State College Chemical engineering department, yesterday stated to THE TECHNICIAN that with exception of one graduate, all the last year men were placed in positions.

"This statement," says Dr. Randolph, "is made as a correction to editorial comment stating that all the graduates were placed. At the time the story was published in THE TECHNICIAN, it was thought that arrangements were made for the entire class of graduates.

"The department of chemical engineering is working toward placing this student as soon as possible."

"So far as the records of the chemical engineering department shows," says Dr. Randolph, "No graduate has lost a position because of inefficiency. A few have voluntarily resigned and depression affected a few others. In such cases, efforts have been made to help these men to make new connections."

Although State was crushed by Florida last Saturday, the Wolfpack had its stars. Dink Dellinger, senior back, was a constant worry to Gator backs. He was down on punts to stop the Floridians in their tracks and was also State's best ground gainer. In the line, Capt. Charlie Cobb, Red Espey, Arthur Wilson and Bob Greason were best.

Two of the best centers in the South will be in action when N. C. State and Clemson play in Charlotte Saturday. State will be headed by William Espey, a junior; and Clemson by Captain Fordham. Both are red-headed.

Both Clipper Smith of State and Jesse Neely of Clemson are working their teams behind locked doors.

There comes a time when we suddenly seem to gallop into old age.

To Atlanta

C. E. BRAKE President of the State College chapter of Delta Sigma Phi, National commerce fraternity, will represent the organization as its official delegate to the convention of the chapter of the Southeastern states in Atlanta, Ga., on October 17.

COLLEGE ACTORS WILL GIVE PLAY

"The Thirteenth Chair" Selected for Red Masquers' Initial Presentation

The Red Masquers, dramatic club of State College, held their first meeting of the year Friday, October 2, at noon and discussed "The Thirteenth Chair," mystery play to be given as the first presentation of the coming season.

"The Thirteenth Chair" is a famous stage play by Bayard Veller, and is a mystery story with murder, romance, thrills and the famous sleuth.

Tryouts for the play will be held today, announces Professor E. H. Paget, who is director of the Red Masquers activities in the dramatic field. Students wishing to try out for the play, or interested in dramatics, are urged by Paget to attend the meeting today or see him at his office.

LAWFUL PLAGIARISM

V. P. I.

From highways to the air seems to be the theme of the students up at the Virginia Polytechnic Institute where the college has established an airport.

According to the latest reports the new port has been in service since the fifth of August and the number of visiting planes is rapidly increasing. The port has two grassy run-ways, both of which are 1,800 feet long and 250 feet wide. The new port is located about one and one-fourth miles from Blacksburg.

Here is some more news concerning the "Hoover Prosperity" of which we are hearing and suffering so much. The famous magazine club plan has invaded the V. P. I. campus. Under the new club plan the students will receive the college newspaper, the comic magazine, and the annual at a greatly reduced price.

Well, here we aren't bothered with publication subscriptions—the college says six dollars for this service and we pay six dollars.

Texas

It looks as if the famous BEAN is going to school!

A student at the Texas Technological College made a contract with the school officials whereby the student was to pay the college for his three months room and board with one truck load of BEANS.

With Wrigley accepting cotton for gum and the Texas school accepting beans the currency of Uncle Sam is not doing so much circulating.

Mat Matlack, guard, and Allen Nelms, end; monogram men of last fall's team will be ready for the Clemson game and their addition to the squad will help matters considerably. Both men have been ill for over a week. The coach says Milo Stroupe will be unable to play on account of his knee. Stroupe is a tackle. Robert Gillespie, 200 pound sophomore tackle has also returned to the squad.

Only afternoon drills will be used this week in preparation for the contest.

The pause after the shift cost State a few yards again Saturday, but Head Coach Smith says the backs were a little anxious in the first few plays and very little trouble from the shift would be had for the remainder of the season.

- M. L. Shepherd.

For the first time in many years, State has a good crop of punting and passing football players. Heading the punters is Bob Greason, a junior end. He is ably assisted by Bob McQuage and Charlie Jeffrey, quarterbacks; and Mope Cumisky and Phil Kinken, fullbacks. Don Wilson, a half, is the best of the passers with Bob McQuage, Charlie Jeffrey and Bob Cook as good assistants.

Don Wilson, N. C. State's sophomore halfback, has been showing his old-time form in scrimmage drills this week, his passing and running having been the features of the work. Wilson was a bit off in the Florida game and when he reported for work Monday afternoon, was shifted to the second string backfield.

Four of Clemson's best stars are on the injured list, but there is belief that they will be ready by Saturday. State is assured of the absence of one of its chief line cops, Milo Stroupe, 190 pound tackle.

"That bully old slogan hits me just right—"

... no bamboozlin' about that!"

SURE! When a word fits, you know it! "Satisfy" just fits CHESTERFIELD. A smoker picks up a package, and he likes its neat appearance—no heavy inks or odors from ink. That satisfies him.

Then he examines a Chesterfield. It is well-filled; it is neat in appearance; the paper is pure white. And that satisfies him.

He lights up. At the very first puff he likes the flavor and the rich aroma. He decides that it tastes better—neither raw nor over-sweet; just pleasing and satisfying.

Then he learns it is milder. That's another way of saying that there is nothing irritating about it. And again he's satisfied!

Satisfy—they've got to satisfy! The right tobaccos, the CHESTERFIELD kind, cured and aged, blended and cross-blended, to a taste that's right. Everything that goes into CHESTERFIELD is the best that money can buy and that science knows about. CHESTERFIELDS do a complete job of it. They Satisfy!

A THOUSAND PER CENT BETTER

The season for criticism has opened—State lost a football game. What of it? Dozens of Southern Conference teams are fighting the conference crown and the Wolfpack is no exception. Some team has to lose. In contrast to hundreds of smiling faces that left the Memorial Stadium in Greensboro were those faces, long and worried, at the finish of the ride-State battle.

At the minimum, State is batting a thousand per cent among the BIG FIVE and has a win over Davidson against a loss last year. And, that 34 to 0 loss Saturday was not at all indicative of the Wolves' strength and predictions are that Big Five teams in State will find this little John Smith no commencing fellow, in future grid dates.

That new morale that has come to the Wolfpack, heralded by the press all over the State, has remained unchanged by a defeat. Loyalty is ever present on the college gridiron and that it be contagious among the student body is desirable.

"Rome was not built in one day"—and neither can a new system be installed in a season.

Idle talk may center around a "we wanna new coach"—such wants are only asked by those gamblers who have made a poor investment. The "we" in "we wanna new coach" does not represent student opinion. The college is satisfied with its coaching staff and believing that the Davidson victory will be repeated against other foes—students will not bother themselves with disgruntled statements against Coach "Clipper" Smith and Frank Reese—again we pledge student body support.

Winners don't knock—knockers don't win.

CRYING IN THE WILDERNESS

The "State College Record" deliberately misrepresents the true status of tennis at the institution. "Twelve new tennis courts have been constructed adjacent to the gymnasium," so this publication states.

Pause for a good laugh and catch your breath and laugh again and then pause in all seriousness think of 200 or more State students who like to play tennis and have no facilities.

State College students contribute \$37,000 annually to athletics and physical training alone and only ask a few hundred dollars for decent courts.

Students have been complaining, and justly, for the past three years for improvements on the tennis courts. Their complaints have reached deaf ears, and unjustly.

Several students have been attracted to the college by the advertisement in the college catalogue stating "the twelve new tennis courts have been erected"—and when they got there the ground was all bare with exception of numerous stoves.

For the past several years the college tennis team have been forced to take memberships in the Raleigh Tennis Club where they have had to train, hold their matches and entertain visiting teams.

The college has two capable tennis coaches who render their services without cost to the institution. The college was donated a loving cup to be awarded to the single's tennis champion—this cup could better be awarded to the student who can stumble across the present so-called courts without breaking a leg.

In the past few years, students have entertained themselves with rat courts, hazing, and some few have broken laws of the state in their desire for entertainment. It would be better to encourage tennis for a few hundred as a wholesome recreation.

Great stress is put on physical education by college authorities all of which is compulsory. Little attention is paid the elective physical training and amusement of the student body.

As each freshman expects to find tennis courts at State College and arrives to be disappointed, the institution registers a disloyal student.

On the basis of good business ethics that are taught behind our doors—is this neglect good business?

THE COLLEGE PAYS AND PAYS

That the Negro race is superstitious has been evidenced on the N. C. State campus during the past two months.

Rastus and his like do not "believe in signs." Numerous "Give the Grass a Chance" placards adorn the campus to remind the scholar that the institution can be made more beautiful with their aid.

A lumbering, several-ton-truck, drives up to a dormitory door—ignoring the gutters, chipping-off cement with the heavy wheels of the van—over the grass, ignoring "keep off the grass signs,"—a slovenly truck driver emerges from the college trash-wagon and goes into the "dorm"—a minute he's gone and then back he comes with a handful of waste-paper and the truck rumbles on to the next dormitory, repeating destruction of property.

That students destroy public property unintentionally is an evil, but that the college should pay a double-indemnity for truck-driver-destruction is inexcusable.

AFTER PLEDGE DAY

There are a few saddened freshmen on the campus who did not get bids to fraternities. Worry not.

Fraternities are always on the lookout for good men and three years do not elapse without an outstanding man being recognized.

It is not necessary to be a fraternity man to be outstanding—a glance at campus title holders will substantiate this fact.

More than one man has regretted joining a social fraternity in haste and long meditation is not unwise.

Social fraternities are what the name implies—social. The advantages of being a member should not be overlooked, but, as a man decides to spend four valuable years of his life with a specific group of students, what his organization accomplishes and stands for should be taken into consideration.

Fraternities have made and broken men on State College campus. They have encouraged and discouraged scholarship. They have spurred freshmen on to greater achievements and have held back promising men.

Do not be discouraged after accepting a pledge to find that fraternity men are not like the distorted pictures set forth in the cinema—fraternal spirit is human, fraternity men make mistakes and have bad habits, but the advantages are great.

Then too, if you are not a fraternity man—fraternal spirit can be found in other organizations.

Honor and social fraternities will look you over, freshmen. Pause and look over them.

DEMOCRATIC IDEAL

A forward step in administrative work was taken by Dr. E. C. Brooks on Founders' Day.

The president of the College announced that campus leaders would be asked to meet with him in the near future for discussion of college problems and for the purpose of familiarizing the campus leaders with the work of the administration.

This meeting has all the potentialities of being one of questions and answers which are sure to promote the welfare of the institution.

For years, State College students have been familiarized with only those needs and functions of the school that are given to the daily press.

There are functions and changes in college government that could profitably be discussed with campus leaders.

After all, a college is just a big business organization having administrative officers under whom subordinate members work. Or, it is a big army with the President as General and the campus elective officers as lieutenants.

As President Brooks finds those needs that should be promoted among the students, he will find numerous "lieutenants" willing to aid and suggest in carrying-out the idea or change suggested.

As individual organizations set-forth their complaints and suggestions pertaining to college welfare, these same "lieutenants" will serve as the voice of the campus.

A better college morale will be the result of this wise move of the president, who we believe inaugurated the idea because of the lack of an auditorium wherein he could talk with the entire student body.

President Brooks will find State College leaders ready to cooperate in any undertaking for the betterment of the institution. He will find them critical and suggestive. He will find them eager for betterment.

Campus leaders may disagree with the President's ideas—but ever admire him for his democratic idea of a student-administrative forum.

ECONOMY RESULTS

Editor P. H. Burrus and Business Manager George Hobson make the announcement this week that the 1932 "Agromeck" will practice economy.

These annual officials have eliminated the fifty-cent charge to military students for their books and cut the senior picture charge from ten to eight dollars.

Whether as a result of depression or a desire to render a service to the student body, these men stamp themselves as unforgettable among students of the year 1931-32.

The military charge has been a source of much criticism, and its removal is desirable.

Open Forum

FAIR WEATHER FANS

The best way to assure success on the football field is for every man in the institution to lend his physical, mental and moral support to the team. Boosting and cheering is just as big a part of a successful season as carrying the ball. We cannot all be members of the team but there is not a student on the campus who cannot lend his voice through cheering. There should be no place on State College campus for "fair weather boosters" who are frankly willing to yell their lungs out when State is winning and doesn't especially need their support, but who will immediately forsake the cause if a break goes against us. However, there is always room on any campus for loyal, whole-hearted backing when the team shows signs of weakness.

During the Florida game when State's defense cracked, scattered expressions of disapproval and sarcastic gibes at the team and coaches were disgracefully evident and while these expressions came from a mere handful of spectators who might not have been connected with the College in any way, they certainly reflected a terrible attitude on the part of some of the witnesses of our games. We are sure that no student would tolerate such an attitude on the part of any member of the student body. A sudden loyal outburst on the part of College supporters would greatly put a crimp in any individual who attempted to knock the team.

Cheer leaders may do their best and work themselves almost to death but without the backing of the cheering section all their efforts will be in vain. We are therefore appealing to every student at State College as well as alumni and other supporters of the institution to see the good work rather than the errors, boost rather than knock.

This appeal is directed particularly to student leaders who have as a rule cooperated in maintaining school spirit.

We have got good material on the field. We have got good coaches and if we will all back the team they will come through the season all right.

State College students please keep your seats until the game is ended even though the spectators may begin to leave.

(Signed) "SPRIV" STEPHENS,
Head Cheer Leader.

RUSSIAN ENGINEERS

Popularly recognized today as the country with the greatest future, Russia offers to young engineers unlimited opportunities in assisting in the great economic developments that the country is undergoing today and will undergo in the next few decades. Having been for years comparatively backward in her economic development, the time has come when Russia will arise from her slumbers and join in with those other countries that constitute the army of progress. For years Russia has been kept in the background in economic development because of corrupt and inefficient governments; but as soon as the political experiment now going on there is definitely established as a success, great leaps will be taken to catch up with those other nations who have forged ahead. Russia is by far the largest country in Europe, and if properly developed could bring forth unlimited quantities of the natural resources which lie buried in her soil. Developments in mining must entail the use of railroads, bridges, new plants and innumerable other necessities that require the presence and ability of engineers who through personal contact can realize just what is needed.

Skilled labor today is at a premium in Russia and the chances of securing work is therefore enhanced tremendously. According to the latest statistics, Russia is devoting more money in proportion to its income toward drilling oil wells, sinking mines, building dams and power houses and lining out railroads than is the United States. In spite of these developments, however, there is a tremendous shortage of raw materials and fuel that cannot possibly be overcome without the employment of a great number of engineers.

The government of Russia today is wholeheartedly behind all efforts and suggestions for national improvements. With such cooperation on the part of the government, and with so large a country with such economic possibilities still in an embryonic stage, there is no limit to the number of paths leading to success that is open to the young engineer.

A nerve system for energetic skyscrapers

Long before the huge bulk of a new skyscraper looms up, Bell System men have planned its nerve system—the maze of telephone cables and wires so vital to its business activities.

From the inception of a building design, telephone engineers work hand in hand with the architects. They determine the telephone

needs of thousands of future tenants. Then they plan cable shafts rising from cellar to roof and the grid of under-floor ducts that will put telephones within easy reach of every occupant.

There's a real thrill in working out these plans, for without telephones the immense structures of today would hardly be practicable.

FRESHMEN WEIGH NEARLY 31 TONS

(Continued from page one)

William A. Myatt of Raleigh and Finley G. Lewis of Roper who are both 6 feet 6 and one-fourth inches tall, a close second is followed by Thomas N. Adams, Jr. of Raleigh who is 6 feet four and one-fourth inches tall and Charles A. Fox of Asheboro who is 6 feet three inches tall.

There are a few who must always get in the front rank in order to be seen. They are: Howard G. McKenzie of Gastonia who is 61.75 inches tall, Haywood C. Hill of Snow Hill who is five feet two inches tall, James T. Bilosly of Raleigh who is five feet two and one-half inches tall and J. Brantley Speight of Waterfield who is five feet three inches tall.

Upperclassmen can't accuse the Freshmen of this year of being chesty individuals, for the average chest expansion was 2.6 inches. However, there are a few who can make their manly bosoms swell when it is necessary for instance, Glenn E. Goodwin of Greensboro and William F. Dunaway of Raleigh, who both have a chest expansion of 4 and a quarter inches. There are twenty others who can expand their chests 4 inches. Samuel J. Winchester of Summerfield had the least expansion with 1 and three-fourths inches.

There were many more physical defects on file, but the examining doctors reported that the class as a whole was physically the best in years.

SOPHOMORES BAN WINDY SPEAKERS AT CLASS MEETS

(Continued from page one)

fifteen-minute review by Dean Brown; fifteen-minute address by some prominent man to be chosen by the program committee each month; and class business.

"The first meeting of the sophomore class is scheduled at 12:00 noon on October 14. At the beginning of the meeting the program committee will be introduced. The regular schedule will be followed, with Dr. Brooks and Dean Brown making their regular talks. The visiting speaker will be the Lieut.-Col. Bruce Magruder, commandant of the regiment, who will talk for fifteen minutes on some subject of student interest. Class business will round out the program."

GRAVES-WALKER CONFIRMS STORY

(Continued from page one)

Ceramic plant, but decided not to take it as it might have involved work beyond his strength at the time.

"It would appear therefore, that the statements that every Ceramic graduate, from the time the department was established, who did not continue in graduate work, had been placed or could have been placed practically immediately after graduation, holds good. It does not seem to be important whether the job was secured by the department or the graduate. That the Ceramic field offered the openings is the important point."

imitable funsters who never let trouble get the better of them, selected a "natural" with which to take them from two-reelers to the feature comedy field.

It is doubtful if there is a comedy made today so uproariously funny as "Pardon Us," which will be the feature picture at the State Theatre on Thursday, Friday and Saturday. It is a notable accomplishment for Hal Roach, who has heretofore given the entertainment world plenty of good comedies but branded all too short by the fun-loving public.

Laurel and Hardy are at their best. It would be difficult to imagine them better than in any one of their shorts, for they have set a standard for good pictures. The story, which deals principally with prison reform, has a great deal to do with the success of the picture.

Situations have been injected with discretion and spaced with precision. One of the most amusing sequences deals with Laurel and Hardy in "black-face." They have escaped jail and in order to keep their freedom they go "black-face" and join a group of colored cotton pickers. To top it off they make pets of the bloodhounds sent after them.

Hardy disclosed heretofore unexploited talent by singing "Lazy Moon" in a very pleasing tenor voice. Laurel vies for honors with his contribution of a buck and wing dance.

The entire picture is hilariously funny and shows excellent direction by James Parrott. Among others in the cast who give splendid performances are Wilfred Lucas, Walter Lang, June Marlowe and James Finlayson.

In addition to the regular picture program, there will be a black-face comedy act on the stage matinee and night. The act will be presented by Fog, Coleys and Fog, a well known vaudeville team and it will consist of several popular song and dance numbers in addition to the regular comedy line.

A musical act "Gigolo Rocket," a novelty act "Screen Souvenir," a "Strange As It May Seem" act and Sound News will complete the picture program.

Pity the poor sailor, who has only one sweetheart in every port. A few aspects of traveler has come to usurp the gallant go's prowess as a charmer. He is the traveling salesman who boasts a dame in every town.

They are the champion lovers of this modern, hectic and hurried age. Just how good they are is amusingly revealed in "Traveling Husbands" playing at the Palace Monday, Tuesday and Wednesday.

They make love as fast as their train schedules permit. Occasionally they get mixed up in their dates and girls and the result is a desperate situation such as motivates the picture.

"Traveling Husbands" is a fun-packed, comedy of embroiling love, ludicrous moments, designing women and weak men in a series of surprising situations.

The film, which was directed by Paul Sloane, has a notable cast composed of Evelyn Brent, Frank Albertson, Constance Cummings, Dorothy Peterson, Rita La Roy, Gwen Lee, Stanley Fields, Hugh Herbert and others.

A comedy, "She's My Daisy" with Harry Lauder, a Novelty Act and Sound News completes the program.

"There are four hundred million people in India - and each man wraps his turban differently."

This is the assertion of Lal Chand Mehra, technical adviser during the production of "East of Borneo," Far Eastern drama which is to be shown at the Palace Thursday, Friday and Saturday. And an incident during the filming of the picture seemed to bear out his contention.

While the picture was being made, Mehra was given a day off - and on that day Georges Renavent was unexpectedly called to the studio for a scene. Mehra had wrapped Renavent's turban every day during the filming of the picture, and try as they would no one else in the company, from Director George Melford down, was able to duplicate his tying of the cloth-of-silver headgear.

After many frantic telephone calls Mehra was finally located, and hastened to the studio to save the situation. With a simple twist of the wrist he fashioned Renavent's turban in the proper manner, to match the scenes already made, and the added scenes were finally filmed.

Leading roles in "East of Borneo" are played by Rose Hobart and Charles Bickford, and the supporting cast includes Renavent, Lupita Tovar, Noble Dr. Egan and several hundred natives from Ceylon.

Management of the State Theatre announces Monday next as the opening date for "Side Show," the production featuring Winnie Lightner and Charles Butterworth which will be presented for three days.

Miss Lightner's unique, brand of hard-hitting comedy first set the movie world apace in "Gold Diggers of Broadway." Butterworth, long famous on Broadway, who made his picture debut with Miss Lightner in "The Life of the Party," has since appeared in "Illicit," "The Bargain" and other films. His meekness and unbroken solemnity contrasted with Winnie's strenuous clowning, makes a comic combination unequalled on stage or screen.

"Side Show," which was written by William K. Wells, gives the two a libel and glorious vehicle, not only Florida comedy but for tense drama and had its nitty. Miss Lightner appears as back, Wright hand man to Colonel Gowdy, backs owner, whom she manages stop ink or sober, adding to her usefulness by understating in all sorts of ways from sword-swallower to bearded cowboy. Butterworth, believe it or not, Bob Stoney, the seal trainer, diffidently in love with Winnie.

T Husky Joe, the barker is Winnie's ally, though the coming of her young sister, Irene, to spend a vacation with the circus, results in the transfer of his affections. All the razzle-dazzle of circus life accompanies the action of "Side Show." The new girl is insulted by roughs and at a call of "Hey, Rube!" all the show people engage in a rough and tumble fight. Winnie decides to send her sister home and Joe and the girl go away together. An inquisitive canvasser overhears things and promptly broadcasts the news, at which Winnie beats him up. She is periodically seen as carnival fire diver, wild woman, nurse or wielder of the mitts.

The end of "Side Show" is a happy, if ludicrous one - and the large cast splendidly acquit themselves in their picturesque roles. Lightner and Butterworth are aided by Evelyn Knapp, Donald Cook, Guy Kibbee, Louise Carter, Matthew Betz, Ann MacGruder, Luis Alberni, Edward Morgan, Tom Ricketts and Otto Hoffman. Roy Del Ruth, who directed Miss Lightner in "Gold Diggers of Broadway," directed "Side Show." Here is the picture which will entertain the whole family. It is inside dope on the circus business. "Side Show" is uproarious, tender, thrilling, different and altogether delightful. Take 'em all.

A musical act, "Old Lace" with Ruth Etting, a travel talk, novelty, "Temple of Love" and a Sound News will complete the program.

Laurel and Hardy, those two in-

PACK MEET TIGERS TOMORROW

CHARLOTTE HOST AS WOLVES PLAY CLEMSON TIGERS

Coach Smith Disappointed at Wolfpack Showing Against Florida 'Gators

NEW STARTERS APPEAR FOR CLEMSON CONTEST

Charlie Jeffrey Replaces Bob McQuage at Quarter With Cook for Don Wilson at Half and Scholl for Sam Gurneau; New Changes Expected to Give Wolfpack a Smoother Organization; Clemson Beat State Last Year

By BLAN CHAPMAN

Charlotte, Oct. 9.—The Queen City of the South, enjoying the pre-game thrill of its first football encounter of the year, will play host to grid fans in this section tomorrow when the Wolfpack from N. C. State College clash with the Clemson Tigers on the Central High School field. The opening kick-off is scheduled for 2 o'clock.

Special arrangements have been made to accommodate the expected capacity crowd, according to Bill Garibaldi, who is handling the receipts for

Twenty-nine State football players and two managers will compose the roster to accompany the coaching staff to Charlotte today.

The men making the trip include: Buchanan, Bohannon, Cobb, Cumisky, Cook, Dellinger, Espey, Gillespie, Gorham, Greason, Gurneau, Jeffrey, Kinken, Lanning, LeFort, Matlack, McLawhorn, McQuage, Nelms, Rose, Scholl, Stroupe, Tull, Utley, A. Wilson, D. Wilson, Davis, Cleveland, Managers Crow and Hutchison.

The squad will leave here around noon today and spend the night in Concord; return direct from there to the stadium in Charlotte Saturday. The team will return to Raleigh Saturday night.

This end, with all particulars being ironed out and the stage in complete readiness for the turf aspirants to settle tomorrow.

Everything Under Control
An additional set of Charlotte Police officers are to patrol the grounds and professional ticket sellers are being placed to handle the gate receipts it was announced.

Clemson defeated the Wolfpack here last year, but the odds are in favor of State this season, on the basis of the showing of both teams thus far.

The Tigers were held to a 0 to 0 deadlock by Presbyterian College in their first game, and swamped under a 44 to 0 score by Tennessee last week. The State record shows a nice win from Davidson, 15 to 7, while Florida routed the Wolfpack in their keystone game, 34-0.

Coach "Clipper" Smith of State was disappointed in the showing his team made against the Floridians, but said that the "Gators had a powerful team and had been underrated. "You can not expect a team to win a football game if they do not block and tackle and we weren't doing either in the second half of the Florida game," said Smith Monday morning.

"Costly plays to begin the second half started the team to its defeat. The team had put up a good fight in the first half, but the hot weather, failure to block and tackle and a few wrong plays coupled with a hard driving 'Gator-forward wall, was more than the State players could stand. We didn't have reserve material to send in to compete with the new material being injected into the game by Coach Bachman," continued Coach Smith.

Backs Still Anxious
When asked about the shift, Smith said that the backs were a little

Big Five Scorers

Player and Team	Td.	Pts.	Total
Slusser, Carolina	3	0	18
Brewer, Duke	2	0	12
McQueen, Davidson	2	0	12
Peacor, Davidson	2	0	12
Cumisky, State	1	0	6
Dellinger, State	1	0	6
D. Wilson, State	1	0	6
Daniel, Carolina	1	0	6
Peacock, Carolina	1	0	6
Thompson, Carolina	1	0	6
Hutchins, Wake Forest	1	0	6
King, Davidson	0	3	3
Mullen, Duke	0	3	3
Phipps, Carolina	0	1	1

The tentative line-ups for tomorrow's game follows:

Clemson	Position	State
Clemson	LE	Scholl
Doxier	LT	Robb
Flagg	LG	Duke
Fordham	C	Espey
Proctor	RG	LeFort
Davis	RT	A. Wilson
Werts	RE	Greason
Clark	QB	Jeffrey
Harvin	LH	Cook
Priester	RH	Dellinger
Hinsmann	FB	Cumisky
Officials:	Black, referee; Powell, umpire; Major, head linesman; Perry, field judge.	

anxious on the first few plays when they were penalized for not pausing, but that he expected very little trouble from this for the remainder of the season.

Smith says that Clemson has a good club, big and tough and will be hard to defeat even though they were smothered by the strong Tennessee outfit Saturday.

Three changes made in the State football team Monday by Head Coach "Clipper" Smith are expected to give the Wolfpack a smoother running organization when it faces the Clemson Tigers.

The most important change was in the quarterback post when Charlie Jeffrey replaced Bob McQuage. McQuage is no doubt the best runner, passer and punter, but for coolness under fire and blocking ability, Jeffrey, who is a junior, has it on his younger partner.

The Florida game was the first in which Jeffrey has seen action this year, but he was regular quarter last fall while McQuage ran the yearling squad. With Bob Cook running at left half, the Wolves will have a much faster backfield, for next to Hank McLawhorn, Cook is the speediest man on the squad. Cook is a junior and he replaced Don Wilson, a sophomore, in Monday's scrimmage. Wilson has the most drive and is a bit shifter than Cook and can pass several degrees better, but Cook has shown plenty of fight in both games this year and is a fine fellow to replace the popular Wilson as long as changes are being made. Both Jeffrey and Cook are fair passers and punters.

With Francis Scholl playing end instead of Sam Gurneau, State will have two of the fastest ends in the State. Scholl is a sophomore. Gurneau is the best pass receiver, but can't block and tackle as well as Scholl. Bob Greason is the other end.

The casualties in the State camp increased a couple this past week with the injury of Rudy Seitz and Joel Morris. Seitz, a 200-pound tackle, was hurt in scrimmage the middle of the week, as was Quarterback Morris.

Charlotte, Oct. 9.—Tentative arrangements were being made here today with officials of Radio Station WBT to broadcast the football game tomorrow between State College and Clemson College.

It was not known officially that the plans would materialize, but it is considered likely that fans out of the City will get a play by play account of the game.

Rudy and Joel
Seitz is out with torn ligaments in his leg, while Morris is nursing a broken toe. Both men will be out of the game tomorrow, it was said.

News from the Clemson quarters relates that the Tigers have been well

(Please turn to page six)

Willie Duke, guard, was shifted from a wing position to that of a guard. Duke has held this berth during the ensuing season thus far, and due to his speed and drive, is a good bet for the maintenance here the rest of the year.

MAYBE THESE BOYS LOST A GAME TOO

This is how the N. C. State football squad looked back in 1898. Just ten years after the founding of State College this snappy photo was taken. The men in the picture, reading left to right, back row: Mgr. Tucker; McKinnon, 180, sub.; Turner, 180, R. T.; Bowden, 185, L. G.; Woodward, 180, L. T.; Bryson, 160, sub. Middle row: Moore, 160, R. E.; Saserley, 180, R. H.; Penford, 165, F. B.; Whitley, 155, L. H.; Capt. Ramsey, 165, L. E. Bottom row: Lougee, 145, sub.; Dunn, 180, R. G.; McNeill, 180, C.; Wood, 134, Q. B.; and Finch, 165, sub.

FLORIDA GIVES WOLFPACK 34-0 BIRTHDAY PRESENT; FROSH BEAT OAK RIDGERS

Teams Battle on Even Grounds During First Quarter of Saturday Game

FLORIDA SHOOT'S WORKS DURING SECOND QUARTER

Gob Greason's Booting Features Game for John Smith's Gridsters With Captain Cobb Menace in State's Line; Rogero, Buck, Fountain and Hall Share Alike in Honors for Alligator Victory; Notre Dame Shift Better

Last Saturday was North Carolina State College's birthday, and the University of Florida's 'Gators traveled all the way to Raleigh to present the institution with a most undesirable present; a football score that read—Florida 34, State 0.

Wolfpack Better
The Wolfpack club looked somewhat improved over their first game, with the new Notre Dame shift functioning better than against Davidson, and pre-game dope had the game booked to be a nip and tuck affair. But little did the forecasters expect such a surprise as Shaw Buck, scintillating 'Gator quarterback handed the local spectators. This lad placed his name in the Hall of Fame in this section with a 75 yard dash for Florida's first touchdown.

The two teams battled on practically even ground, during the first quarter; with each club doing a lot of kicking. The State team was allowed to play on the offensive very little, and it was Florida's afternoon, clearly shown, after the half. When the State Wolves handled the ball, they took to the aerial game, and that was just what Florida wanted. State took to the air exactly 14 times during the game; five of these were intercepted by some Florida back, which resulted sooner or later in a touchdown; five fell to the ground; and their remaining four were completed. Florida passed eight times, with only one being intercepted. However, a like number from the State club were incomplete.

However, the game was probably not as easily won for Florida as the score might seem. Time after time, Bob Greason placed State out of more danger with his superb booting. Greason also recovered a 'Gator fumble, which seemed to be a break for the Wolfpack, only to lose the oval after Cumisky ran 30 yards, and then fumbled. Captain Cobb, who caused the Florida team so much trouble last year, was the same continuous menace to the Alligators this season. This big 'Captain kept a lot of plays from materializing over the left side of State's line.

Here's How, Boys
The middle of the second quarter was the time Florida started shooting the works. Greason delivered a beautiful kick from deep in his own territory to Florida's own 25 yard line.

(Please turn to page six)

TRACK SCHEDULE GIVEN BY COACH

Six dual meets have been carded for the 1932 State College track team, announces Coach R. R. Sermon. Davidson opens the spring program at Raleigh, April 2. State will also participate in the State meet at Greensboro May 7, and the Southern Conference meet at Birmingham May 13 and 14.

The complete schedule is: April 2, Davidson at Raleigh. April 9, V. P. I. at Raleigh. April 15, Duke at Raleigh. April 23, U. of North Carolina at Chapel Hill. April 30, Washington and Lee at Lexington.

May 2, State meet at Greensboro. May 13-14, S. C. meet at Birmingham, Ala. State's track team this year is being captained by James "Twee" Floyd of Salisbury, a dash man. Dr. R. R. Sermon is coach.

Journey over to Charlotte tomorrow and see a scrapping Wolfpack in action against Clemson.

The Pack didn't look so hot against Florida, it's true, in the second half; but watch 'em make smoke in their scrap with the Tigers.

There was a little kick heard on the Florida game about the showing of the Wolfpack, but it amounts to little. Just give "Clipper" and Frank a little time, a year, two years, if necessary and they will show you a corking good team. It takes time to build a Notre Dame team.

The team this year isn't half bad. Smith needs a few reserves, some cooler weather and the Florida story will not be repeated.

Games Tomorrow

- State v. Clemson at Charlotte, Carolina v. Florida at Gainesville, Duke v. Villanova at Durham, Davidson v. V. P. I. at Blacksburg.
- Wake Forest Open, Guilford v. Roanoke at Winston-Salem.
- Elon Open, High Point v. Wofford at High Point.
- Lenoir-Rhyne v. Newberry at Newberry.
- Appalachian v. King at Bristol.
- Catawba v. Wesleyan at Bowling Green.

Rex Scores First Touchdown for Coach Robert Warren's Freshman Team

ENTIRE SQUAD IS USED TO GET 12-0 VICTORY

Hammarick Takes Honors for Wolflets for Line Play; Game Played at Night Witnessed by Capacity Crowd; Goodwin Scores Second Touchdown After Peterson Secures Two First Downs; Yearlings Goal Little Threatened at Any Time

The N. C. State freshmen opened their season here one week ago tonight with a victorious game over the Kadets from Oak Ridge by scoring two touchdowns to the Ridger's none. The game was played under the flood lights on Riddick Field, and was witnessed by a capacity crowd of spectators.

The State Wolflets were too much for the Ridgers. Outside a couple of threats, the little States were really never seriously threatened. The yearlings out-weighted Coach Weaver's boys by at least 12 to 15 pounds to the man. State did a lot of play on the offensive side, but handicapped by some bad breaks, were able to push across only two markers.

The scoring started near the beginning of the game. After an exchange of kicks, Goodwin shot a pass to McAdams. This was good to the 25 yard line, then after a couple bucks, Rex went over for the counter.

Second Counter
In the second quarter, Roy recovered an Oak Ridge fumble on the visitors 30 yard line. The same Roy clipped off six yards; Peterson made two first downs; then Goodwin took the ball for a touchdown. Both Rex for points were wild.

Coach Bob Warren used his entire squad in the game. Rex and McAdams did the most scintillating running for the yearlings, with Hammarick taking the honors in the line.

Davidson and Duke Gridmen Winners in Big Five Games

Only two Big Five teams in the State were victorious last Saturday. The Davidson Wildcats trampled Washington and Lee 7 to 0 and Duke trounced their opponent, V. M. I. 13 to 0. Wake Forest was defeated by Furman, 36 to 8, while Carolina bowed to Vanderbilt 13 to 0.

Davidson Fooled 'Em
Disregarding all predictions against themselves, the Davidson Wildcats played a real scrapping, fighting game against the Washington and Lee Generals. The Generals made constant gains on the ground but at the critical moment the Wildcats would bucked and hold within the shadow of their goal. In the third quarter Wagner pounced on a fumble made by the

STATE WOLFLETS TO PLAY DEVILS BENEATH LIGHTS

CASERLEY GIVES OLD PHOTOGRAPH OF 1898 WOLVES

Records of Six Football Players Not Available in Records of College

FIRST STATE PLAYERS IN RESPONSIBLE JOBS

Ramsey of Salisbury Was Captain of 1898 "Agricutural and Mechanical College"; Irvin V. Tucker Now With Federal Department of Justice; C. B. Williams Captained Team Few Years Later; Picture Presented Alumni Office

Probably the first picture ever taken of a football team at State College is shown above. The members might not look so awfully hot, but oh boy, how they played the grid sport. The sports department wish to thank Polk Denmark, and his assistant, Miss Nancy Steele, for their cooperation in making possible this picture. The photo was sent to Mr. Denmark by W. W. Caserley, Roanoke, Va., a member of the above squad.

In checking the records from the Alumni office several interesting facts were unearthed. Out of the 16 members there were 10 accounted for; however these records may be in error. The best present information available, nevertheless, has one member of the squad connected with the Department of Justice in Washington, D. C.; one farmer; two grocers; two railroad men; and several prominent business officials.

Irvin V. Tucker, ex 1899, from Whiteville, N. C., continues his managing affairs, and is the person spoken of as being connected with the Department of Justice. Tucker is a member of the Board of Trustees of this College now. John L. McKinnon, Laurinburg, N. C., is a farmer. Joseph P. Turner, Leaksville, N. C., class of 1902, is reported in the grocery business.

No record was found of Zolly M. Bowden of Lutz, Fla.; Kenneth R. Woodward, Edenton, N. C., both of the class of '01; nor of Bryson, Edward Wood, entering here in 1896 from Edenton, had no present record in Mr. Denmark's office. W. W. Caserley of Roanoke, Va., who presented the picture, is conductor on the Norfolk and Western railroad; while his running mate, Eugene G. Person of Macon, Ga., is a train dispatcher. John S. Whitley, Williamston, N. C., is unrecorred.

Ramsey Was Captain
J. E. Ramsey, Salisbury, N. C., captain of the '98 team, is a prominent business man. He is a member of the College Board of Trustees and also on the Athletic Committee.

Lewis O. Lougee, originally from Durham, might have been just a sub on the football team, but he is the chief engineer for the Geo. S. Baton Co. in Pittsburgh, Pa. now. Lougee graduated in 1901. James H. Bunn, Henderson, N. C., is now superintendent of a cotton mill. James P. McNeill, Cheraw, S. C., ex 1902, is in the insurance business. Charles E. Moore, Tarboro, N. C., unaccounted; while B. H. Finch, Lexington, N. C., is reported in the grocery business.

Honorable mention is given to C. B. Williams, professor of Agronomy here. Williams was not on this squad, but captained a team just a few years later, and knew practically all the members of the '98 club.

Coach Robert Warren Has No Injuries on Wolflet List for Coming Play

STATE COACHES EXPECT TO USE MANY RESERVES

Game Tomorrow Night Sees Little Dukemen in First Grid Contest of Season; Affair Originally Scheduled for Afternoon; Same Team Starting Oak Ridge Game Expected to be Used by Warren and Beatty Against Duke

Coach Bob Warren will send his freshman football team against the younger Duke Blue Devils tonight at 8 o'clock on Riddick Field in anticipation for their second win in as many games. The game was originally scheduled for this afternoon, but officials announced yesterday that the contest would be under the lights. This is the second affair played at night here at State College this year.

Duke will enter the field for their initial contest of the season, but a powerful eleven is expected to represent the Durham organization, despite the fact that news has been scarce from their abode on the Duke campus.

Coaches Warren and Beatty have had the yearlings hard at work, pointing to one of the most hectic battles of the year, and have two teams of practically equal strength to face the little Dukemen. The Southside field having been trampled long and heavy this past week, the small Wolves are in excellent condition for the battle. There have been no injuries on the freshmen's books.

Line-Up Probably
Although no line-up was announced from the State office, it is expected that the same team that started the Oak

(Please turn to page six)

No wonder men smoke PIPES!

EVERY PIPE SMOKER has the satisfaction of knowing he has one masculine right that the women won't take away from him. They do leave our pipes alone.

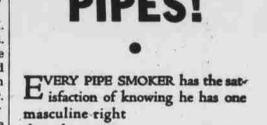

And though the girls may not know it, they're leaving us one of the finest smokes a man can have.

There's something calm and soothing about a pipe and good tobacco. It leads to clear-headed thinking. Perhaps that's why the leaders—the real men of the world—are pipe smokers.

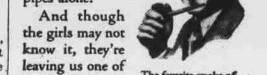

College men like a pipe—packed with cool, slow-burning Edgeworth, the favorite pipe tobacco in 42 out of 54 colleges. It's cut especially for pipes, to give a cooler, drier smoke. You can buy Edgeworth wherever good tobacco is sold. Or for a special sample packet, write to Larus & Bro. Co., 105 S. 22d St., Richmond, Va.

EDGEWORTH SMOKING TOBACCO

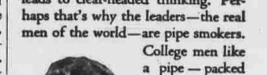

Edgeworth is a blend of fine old burley, with its natural savor enhanced by Edgeworth's distinctive and exclusive eleven-pan process. Buy Edgeworth anywhere in two forms—Edgeworth Ready-Rubbed and Edgeworth Plug Slice. All sizes, 15¢ packet package to \$1.50 pound humidifier tin.

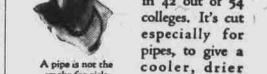

A pipe is not the smoke for girls

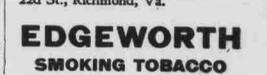

The favorite smoke of college men

FETE NEW CO-EDS

The co-eds of the college held a luncheon in the cafeteria on Wednesday at which the new girls on the campus were introduced to the old members of their organization and given a cordial welcome.

Elizabeth Brooks made a report on the projected new organization to take the place of the old Pioneer Club. She stated that the new organization was to be more social in nature, but with the principal purpose of supporting worthwhile campus activities, and taking its place with other organizations that have the welfare of the campus at heart.

Dean Cloyd addressed the group, commending their activity and assuring them of his cooperation and his good wishes for the success of the new organization.

Plans were made at the close of the meeting for the selection of a new name for the organization in the near future. Maude Schaub presided at the meeting.

INTERCOLLEGIATE CLUB DANCE

The inter-collegiate club sponsored a dance at the ballroom of the Sir Walter Hotel on Friday, October 2 and 3 with Weede Meyer's popular orchestra furnishing the music.

The dances were of much interest among the dance-going society of State College and other nearby colleges.

The dance on Friday night was from 9 to 2 and the dance on Saturday night was from 9 to 12. The latter dance was held upon the occasion of the Florida-State football game and many out-of-town visitors attended the dance.

ANNUAL BARN WARMING

The annual "Barn Warming" which is held each year by the agriculture students of North Carolina State College will be held Saturday night, November 17.

The Frank Thompson Gymnasium under the direction of W. C. Boyce, chairman of the decorating committee, will be transformed into a miniature forest with pine cones, leaves, and everything a forest possesses that can successfully be used in making the interior of the gymnasium a proper setting for such a gala occasion. Bales of straw will be arranged into inviting seats, where agricultural

Romeos and Julietts may whisper romance under the able chaperonage of the artificial moon.

There will be many various contests, and dancing from 10 until 12. In addition to this there will be many entertainment stunts and interesting games along with refreshments for the students and their guests.

The Ag. Club hopes that all freshmen and upperclassmen as well in the school of agriculture and vocational agriculture will attend what is expected to be one of the most enjoyable fetes of the college year.

Cuts Costs

P. H. BURRUS
Editor of the 1932 "Agromeck," State College annual. Tuesday night announced that no military charge for the book would be made this year and that senior pictures will be two dollars less.

Last year, all students taking R. O. T. C. were required to pay a charge of fifty cents before the "Agromeck" was delivered. Senior pictures cost ten dollars.

George Hobson is business manager of the annual.

DAVIDSON AND DUKE WINNERS IN BIG FIVE GAMES

(Continued from page five)
game. The Hurricane played a hard game, and a rough one, as evident by the many penalties. Hutchins and Dunc Wilson did the main playing for the Deacons, but unfortunately

they were both injured and taken out in the second half.

Vandy swamped the Tar Heels to the tune of 13 to 0. The inability to hold the ball after they got it proved fatal to the Tar Heels. Johnny Branch put up a good fight for the Tar Heels but was forced out in the final period. Rip Slusser also played a real game. This was the first Southern Conference game of the year for both clubs.

TEAMS BATTLE ON EVEN GROUNDS DURING FIRST QUARTER OF SAT. GAME

(Continued from page five)
Shaw Buck, Florida, called his own self back and on their first play and ran the necessary 75 yards for a touchdown around right end. Several would-be tacklers were shaken off by Buck, and after he passed the middle of the field, it was open running. Buck had words of perfect interference, however to make the feat complete. The half ended soon after this.

The half opened with Hughes kicking to the State team. State took to the air and Bill Ferrazzi, brilliant sophomore center for the 'Gators, intercepted the pass. It was Florida's ball on State's own 37 yard line; and on the first play, Jimmy Hughes ran for a touchdown, unmolested.

A pass, Rogero to Hall, netted the next touchdown for the 'Gators. The ball was in the air for about 30 yards.

Florida took time out and decided it was time for another tally. The ball was given to Mr. Johnny Fountain and to make a long story short, he ran 60 yards for a touchdown. The final counter for Florida came in the last quarter. This was the only

score the 'Gators made on an advance down the field. This time, it was the same Mr. Fountain who crossed five and a half white lines to score. Florida made six first downs; State six; Florida was penalized 55 yards, the Wolfpack 105 yards; and each team has one fumble to their credit.

Summary and line-ups:

Florida (34)	Position	State (6)
Parnell	LE	Gurneau
Phell	LT	Capt. Cobb
Forsyth	LG	Duke
Ferrazzi	C	Espey
Williamson	RG	LeFort
Jenkins	RT	A. Wilson
Hall	RE	Greason
Buck	QB	McQuage
Rogero	LH	D. Wilson
Emmelhainz	RH	Dellinger
Sibley	FB	Cumisky

Scoring touchdowns: Florida; Buck, Hughes, Hall, Fountain (2). Extra points: Rogero (2), Hughes and Phell.

Score by periods:
Florida 0 6 21 7-34
State 0 0 0 0-0

Officials: Referee, Hutchins (Purdue); Umpire, Powell (Wis.);

KEEP KISSABLE

WITH OLD GOLDS

Charming women are first won by OLD GOLDS' appealing taste. But their enthusiasm doubles when they find that OLD GOLDS do not taint the breath or mar the whiteness of pearly teeth.

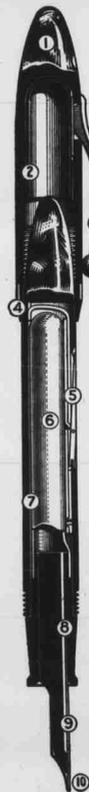

That's because OLD GOLD is a pure-tobacco cigarette. Made from the finest nature-flavored tobacco. So good, it needs no added flavoring.

It's "foreign flavoring," not good tobacco... that leaves unwanted aftermaths. Play safe. Smoke pure-tobacco O.G.s. They leave nothing behind but pleasant recollections.

NO ARTIFICIAL FLAVORS TO TAINT THE BREATH... OR STAIN THE TEETH

It's All in a Lifetime

1. Balance ends.
2. Inner cap air-seal point.
3. Gold-filled ball clip.
4. Gold-filled reinforcing band.
5. Double-action self filler.
6. Rubber reservoir.
7. Dead-air chamber around seal.
8. Special feed regulates flow.
9. Solid 14-karat heavy gold nib.
10. Center-sawed iridium point.
