## STATE DEBATERS GET INVITATION TO SPEECH MEET

Convention of Speech Teachers  
Will Convene in Los Angeles  
Late Next Month

## PROF. PAGET ALSO ASKED TO ATTEND CONVENTION

During Past Three Years Team  
Has Won Eighty Per Cent of Engagements; Paget Twice Elected  
President of Southern Association  
of Teachers of Speech; Schedule  
of Regular Debates to  
Get Under Way in February

State College debaters have been invited to appear before the National Association of Teachers of Speech at their annual meeting which will convene late next month in Los Angeles. This is the first time that a student team has been invited to appear before this organization.

The team if it accepts the invitation will demonstrate the new form of debating perfected by it—the "direct clash debate."

The invitation came from Miss Henrietta Prentiss, president of the association, who also asked Prof. Edwin Paget, director of debating at State College, to appear before the meeting and explain the merits of the new plan.

To raise money the debate squad is working out a series of debate demonstrations before the local schools and colleges as well as before public gatherings. Also a play is to be given.

Mayor Isley of Raleigh has promised the use of the Memorial Auditorium for one or more debate demonstrations. Louis Wade, chairman of the Junior Chamber of Commerce, has promised support.

As a result of the fine record of State College teams under his direction, Professor Paget has acquired a national reputation and twice has been elected president of the Southern Association of Teachers of Speech. This year he is director of forensics for that organization and will have charge of all debating, oratorical and extemporaneous speaking contests for the coming year.

Throughout the last three years, teams coached by Professor Paget at State have won more than eighty per cent of their debates and in addition have won sectional and national titles.

Members of the varsity debate squad are as follows: Frank L. Busbee, Raleigh; William E. Braswell, Greensboro; W. Gordon Butler, Fayetteville; Horace P. Cotton, Red Springs; W. C. Huband, Winston-Salem; L. M. Knott, Wendell; and J. F. Pou, Raleigh.

Freshmen are: Hazel Beacham, Raleigh; Charles E. Lynch, Wilmington; Alexander Rivenbark, Watha; and Stephen A. Ward, Lumberton.

While several debates have already been scheduled for December and January the regular schedule will not get under way until February and the spring months.

## ROGERS NOW RECOVERING FROM ACCIDENT INJURIES

State Student is Severely Injured  
In Motorcycle Wreck on  
November 20

Charles Rogers, junior, is slowly recovering from a fractured knee cap and serious cuts and bruises about the head sustained on November 20 when the motorcycle on which he was riding crashed into an auto, driven by Ben Merritt, also a State College student. The accident occurred at the intersection of St. Mary's and Hillsboro streets. Police said the motorcycle was headed west on Hillsboro when it met the Merritt car, which was making a left turn into St. Mary's street. The impact broke the handles off both doors of the car on the side of the crash and shattered both windows.

Immediately after the accident a passerby picked the injured boy up and carried him to the hospital. Merritt went to the police station but no charges were preferred against him as an investigation of the wreck revealed that he was not responsible.

The motorcycle on which Rogers was riding was the same that figured in the wreck that caused deaths of W. D. Thurston and Richard Speight, two other State College students, three months ago. Thurston and Speight were riding on the machine when it crashed into the rear of a truck loaded with stone.

## Aviation Students Building Aeroplane In Spare Time

Curry and Stahl Spending Only One Hundred Dollars on Construction of Plane; Ford Motor Being Used; Two Students and Another Built Successful Glider Last Year Which Furnished Flying Training for Students

By E. J. LASSEN  
An airplane is being built by two aeronautics students of North Carolina State College which, when finished, will have cost its makers only one hundred and ten dollars!

In about the middle of last July, W. Lewis Curry, Paul O. Stahl, and J. F. Nycum, students in the aeronautics branch of the department of Mechanical Engineering of North Carolina State College found that the excitement of flying a glider, built by Curry and Nycum was falling off. Curry immediately began to search for a new direction in which to concentrate his activities. He was told of an airplane which used a Ford, model "A" motor for power that had been built at a very low cost and had then been flown successfully. It was wrecked when his builder, who was not a pilot and knew very little about flying, tried to take it up. From the wreckage, the owner had salvaged the Ford motor. No damage had been done to this engine, and it could be bought for a song.

Curry soon had the engine in his possession. He and Stahl found in the 1932 edition of "The Flying and Glider Manual" plans and descriptions for making such an airplane as would suit their purpose. They put up their headquarters in Peele Hall and went to work.

The fuselage, the wings, ailerons, elevators, and the fin and the rudder

are now finished. The instrument board has been assembled, but connections to the instruments have not yet made. The landing gear has been built, and wheels will soon be put on. The motor is being installed at present.

The fuselage is that part of an airplane which corresponds to the body proper of an automobile. Curry and Stahl built theirs of spruce and plywood, for these materials are strong enough to withstand any severe vibrations transmitted from the motor. The fuselage is 18 feet long. The wings have a span of 28 feet.

They are made up of a total of 29 ribs, each of these ribs being one foot apart. A covering for the wings will be made from linen. This covering will be strengthened about six times by three or four coats of "dope." Curry gave a general outline of features in the construction of the airplane and experiments gone through in building it. They follow:

The motor has been flown twelve hours. There will be an eighteen-gallon gas tank which will be placed directly above the passenger cockpit, between the wings. The expected mileage will be 25 miles to a gallon of gasoline. The airplane is expected to have a cruising speed of 75 miles per hour, but, by streamlining, 90 miles per hour will be made possible. The engine will use a Bosch magneto (Please turn to page three)

## JUNIORS SELECT RING CONTRACT

Motion That Ring be changed in  
Regard to Greater University  
Voted Down

At a meeting held Wednesday in Pullen Hall the Junior Class decided on the Ring contract for the class rings. At the meeting presided over by the class president, Joe Dixon, Dean Cloyd read the rules and regulations that the Faculty Council has established in regard to the change and nature of contracts with the companies, and to protect the student.

The motion that the design be changed in regard to the connection with the Greater University of North Carolina was voted out by a large majority.

The company with which the contract was signed, Auld's, will have a representative to take orders during the second term and the rings will be delivered in the third term. It is a ruling of the Faculty Council that no ring can be worn before the third term of the Junior year, and that no ring can be sold on the campus by other than the representatives of the company with whom the contract is made.

Other business to come up before the class was the matter of the Prom to be held next Spring. It was decided to have another Midnight show some time the first of the second term. Dean Cloyd complimented the class on the orderliness of the meeting and the attendance, which was the best and largest of any Junior meeting held this year.

## NEGRO STUDENTS SPEAK TO SOPHOMORE COUNCIL

Claudius Gabrielle and Arnold Joseph, students at St. Augustine's College, spoke to the Sophomore Council at their regular meeting last night.

Gabrielle is from Sierra Leone, Africa, and Joseph is from Trinidad Island, British West Indies. These students speak about the financial difficulties of their countries and of their own experiences. Gabrielle said that he thought the missionary work could be carried on better by natives than by white people. An open forum was held after the talks were concluded.

## Change

College officials are considering a change in the college calendar next year to have only one day's holiday at Thanksgiving and add the extra two days to the first part of the Christmas holidays. Another suggestion being considered is beginning school one week earlier in September.

A somewhat informal canvass of student opinion on the subject is being made.

## DR. TRYON VISITS SCHOOL TUESDAY

M. I. T. Graduate School Secretary Addresses Chemical Engineering Students

Dr. James L. Tryon, secretary of the graduate school of Massachusetts Institute of Technology, spent Tuesday as a guest of the Chemical Engineering department. During his visit he addressed the senior chemical engineers at eleven o'clock, held a conference with the staff of the Electrical Engineering department at twelve o'clock, addressed the Civitan Club at one o'clock luncheon, visited different engineering laboratories and shops in the afternoon, and addressed the student chapter of the American Institute of Chemical Engineers in the evening.

For many years Dr. Tryon has been director of admissions in Massachusetts Institute of Technology and for some years has been secretary of the graduate faculty. Recently he has visited practically all of the leading engineering colleges in the United States studying especially the trends in engineering education. He thinks that the State College engineering curricula are in line with those of the best engineering school in the country.

Among other subjects discussed by Dr. Tryon was one of timely importance. He referred at length to the effects of the depression on business and the consequent employment of technical men. He did not think that in the long run engineers will be greatly hurt by the depression, because it seems to be the opinion of business leaders that as industry reopens operations more and more attention will be placed on the technical training of the men who are employed to fill the ranks. He therefore feels sure that the men who are masters of their branches of engineering will be given a greater chance than has been the case heretofore. More and more men are using this time to advance their training by graduate study in highly specialized lines of their several engineering professions.

There are this year over 600 men doing intensive work in the Graduate School of Engineering at M. I. T. Although men of ability have been employed only on part time for months, it appears almost certain that when the ranks are again filled men of ability and the best engineering training will get the places of importance.

INSPECTOR  
Colonel W. I. Reed of the Fourth Corps area of the R. O. T. C., located in Atlanta, will visit State College next week-end for the purpose of making the annual informal inspection of the R. O. T. C. unit.

## STUDENT JUDGES SECOND AT MEET OF CROP TEAMS

Cummings and Zimmerman Capture Second and Third in Individual Rankings

## OKLAHOMA WINS EVENT BY VERY SMALL MARGIN

Cummings Makes First Perfect Score in Crops Identification Section; State Team First in Grading and Identification; State Has Remarkable Record For Series of Competition; Dr. Cotner and Darst Coach Teams

The North Carolina State College crops judging team competing for the national championship against a dozen of the country's largest colleges and universities placed second in the annual contests held in Chicago Saturday.

Such a narrow margin separated the first two teams, State College and Oklahoma A. and M., that an extra day was taken by the judges to make their decision. Oklahoma was finally declared the winner.

Ralph Cummings of Reidsville and J. L. Zimmerman of Lexington placed second and third respectively in the individual rankings. In placing next to the high scorer, McCarty of Oklahoma, Cummings made the first perfect score ever turned in for the crops identification section of the contest and in addition placed first in the market grading contest.

The State College team was first in market grading and in identification but placed fifth in seed judging. Low scores in the seed judging section cost the North Carolina team the championship but unusually high scores in other events made the margin separating the two highest teams so small that the results were checked again.

Five teams and six individual championships during the last nine years have given State College a record unequalled in the history of the contests. In 1931 both team and individual championships went to State College by record scores.

Following is the individual record of the members of the State College team: Ralph Cummings made a perfect score in grading oats, stapling cotton, and identification. So far this record is unequalled in the National Contest. Cummings, in commercial grading, which included twenty-six classes, scored 463.5 points out of a possible 480, losing 16.5 points.

J. L. Zimmerman made a perfect score in judging soybeans, in stapling cotton, and in commercial grading of oats. He also scored high in all of the other departments.

C. Y. Tilson made perfect scores in stapling cotton, commercial grading of the members of the State College team in grading cotton by scoring 88 out of a possible 90.

The State team scoring as a team established a new record in commercial grading of all crops, scoring 1,344.75 out of a possible 1,440. Last year's champion team made a total score of 1,272 out of the possible 1,440. The team made a perfect score in commercial grading of oats, scoring 225 out of 225, also the team was perfect in stapling cotton. In identification the 1932 State team scored 1,393.2 points out of a possible 1,440. The 1931 State team made a score of 1,326 out of the possible 1,440, losing to the 1932 team by 67.2 points.

Other members of the State College team who made the trip to Chicago are: W. E. Adams of Danlap and C. Y. Tilson of Mars Hill. Dr. J. B. Cotner, who with Professor W. H. Darst coached the team, made the trip with the students.

## FIRST CO-ED GLEE CLUB BEING FORMED AT STATE

Eleven Girls Soon to Begin Work  
On Songs Under Direction  
Of Mrs. Moen

The Girls' Chorus, co-ed glee club, is now being formed at State College. The chorus will be under the direction of Mrs. R. O. Moen.

A meeting was called on November 17 by Mrs. Moen to determine how many coeds were interested in forming a glee club. Eleven were present and indicated their desire to join the club. Work on songs will begin as soon as possible.

The music is to be furnished by members at their own expense. This is the first musical organization to be formed by the women at the college. Although men students have had a well-known Glee Club for many years.

## Perfect Score

RALPH W. CUMMINGS  
Crop team member who made three perfect scores, second in the National Crop Judging Contest held in Chicago, and placed second in all-around rating. J. L. Zimmerman placed third.

## POSTE WILL VISIT CERAMIC SOCIETY

National Head American Ceramic Society to be at State Tuesday Night

E. P. Poste, of Chattanooga, national president of the American Ceramic Society, will be the guest of honor at the meeting of the local student branch of the society Tuesday evening in the Ceramic Building.

Before the meeting members will entertain Mr. Poste at supper in the cafeteria.

A number of the alumni have expressed their intention of returning to the campus for the occasion, among whom are P. E. Trevathan, '28, John A. Boren, '28 and R. B. Stamey, '29, charter members of the State College branch.

As this will be the first visit of a national officer of the society to State College the student members have planned an elaborate program which will include the presentation to Mr. Poste of a beautiful vase as a memento of the occasion.

Following the meeting Mr. Poste will be initiated as an honorary member of Keramos, professional Ceramic Engineering fraternity.

Mr. Poste, who is a graduate of Carnegie Institute of Technology, and a consulting engineer to the enameling industry, will speak on "Opportunities in the Enameling Industry for the Ceramic Engineer."

## RED MASQUERS TO GIVE MYSTERY AS NEXT PLAY

State Dramatic Organization Sets  
Tryout Dates for "That  
Donovan Affair"

"The Donovan Affair," by Owen Davis, a mystery drama, will be the next play presented by the Red Masquers, college dramatic club.

The play is unusual in that it offers fourteen prominent parts, eight men's and six women's parts. There will be twenty parts open in all, including the minor parts. There have been few times in the history of the organization when there have been so many parts open to college actors and actresses. No one is elected to membership into the club until they have demonstrated their ability in at least one play.

Try-outs for the play will be Friday, December 2, Saturday, December 3, and Friday, December 9.

## STATE FORESTRY CLUB INITIATES SEVENTEEN

Third Degree Given to Neophytes  
At Ceremony Saturday Night,  
November 19

On Saturday night, November 19 the Forestry Club initiated seventeen new members.

The ceremonies lasted from about eight o'clock until twelve, and were held near Boone Pond, a spot about three miles out Oberlin Road. A fire awaited them when they arrived, and it was around this fire that they were given the third degree.

The Forestry Club is composed of students of Forestry. Any one taking this course is eligible for membership, the only requirement being an annual fee of two dollars.

This Club was organized in 1931 and its purpose is to create a better understanding between the students and faculty.

## THREE SOCIETIES BID 27 STUDENTS FOR MEMBERSHIP

### Religions

Statistics compiled by the Y. M. C. A. reveal that the Methodist religion is the preference of more boys at State College than any other. 433 students, approximately twenty-five per cent of the student body listing this fact in registration data.

The Baptist denomination ranks second with 412 students listing this as their religion. The next largest group are those who have no church preference, numbering 234 students.

The Presbyterians rank third in number on the campus, they are 203 strong, while the Episcopalians are fourth with 83.

The other denominations are: Catholics with 51 followers; Lutherans with 51 followers; Christian with 31; Jewish, with 19; Congregational with 10; Reformed with 9; Moravian with 5; Christian Science with 4; Christian Disciples with 4; Friends with 3; Disciples of Christ, with 2; The Church of Christ, with 2; the Quakers, with 2. The following denominations had one each: Church of God, Advent Christian, Hindu, Russian Orthodox, and the United Church.

## STUDENTS ATTEND ANTI-WAR MEET

Prof. Joe Moore Leads Discussion  
Group to Oust Military  
In Colleges

Five State College students and Prof. Joe E. Moore attended the United Youth Conference Against War which was held in New York City November 25-27.

The delegates from State were: Lonnie Knott, Bill Braswell, Van Shuping, Frank Busbee, and H. H. Jackson.

Professor Moore led a discussion group on "Putting the War Department out of Education."

The conference was held to discuss means of outlawing war among the peoples of the world. At the present war is being fought between two South American countries and war clouds still loom in Manchuria. The tension is sharpened in Europe as Germany seems on the verge of civil war.

The conference was attended by 450 youths, 50 being from outside New York City. State College came the longest distance of the groups represented.

## TWO STUDENTS INJURED IN AUTOMOBILE WRECK

Edward Gruehn and P. E. Daniels,  
Juniors, Involved in Crash  
November 19

Edward Gruehn and P. E. Daniels, juniors, were injured Saturday, November 19, when the car in which they were riding overturned on the road between Raleigh and Wendell.

The accident occurred when Gruehn, driver of the car, was forced off the road by an oncoming automobile and lost control of the car. The car plunged down a steep embankment, overturned and caught on fire. Gruehn was pinned under the car and suffered severe cuts, bruises, and burns.

Daniels was thrown several feet from the wreckage and sustained minor cuts and bruises. He was not as seriously injured as Gruehn.

Daniels returned to school the following Wednesday but Gruehn is still confined in Rex Hospital, where he is steadily improving. He is expected to re-enter school at the beginning of the second term.

## Coaches Coach

The State College Rifle Team will be coached this year by the coach who coached last year's coach. He is Captain R. W. Venable, who was for four years instructor of rifle marksmanship at Fort Benning, Ga.

Among those that he has given instruction to are Lieut. W. E. Curraway, last year's coach of the squad, and Captain T. C. Thorson. Captain P. W. Ricamore is to assist him in coaching the varsity and R. O. T. C. squads.

## Phi Kappa Phi, Pine Burr and Phi Eta Sigma Select Out- standing Scholars

PINE BURR WILL PLEDGE  
STUDENTS TODAY AT NOON

Ten Students Given Invitations to  
Phi Kappa Phi After General  
Business Session; Pine Burr to  
Initiate Ten Pledges at Carolina  
Pines Tonight With Dean E. F.  
Brown as Speaker; Seven Re-  
ceive Bids to Phi Eta Sigma

Three honorary scholastic fraternities, Phi Kappa Phi, Pine Burr, and Phi Eta Sigma, issued bids to 27 prospective members this week.

Those given bids to Pine Burr are: E. J. Lassen, W. E. Kistler, Miss Frances Gray, Joe Pleasant, H. M. Foy, D. S. Barnes, F. V. Harris, W. C. Cheatham, Donald Fry, and John A. Erwin.

They will be pledged in Pullen Hall today at noon, and the initiation will be held tonight at Carolina Pines. Dean E. F. Brown will speak on "Scholarship."

Sophomores who missed the requirements of Phi Eta Sigma first term last year but are eligible this year and received bids are: D. W. Morrish, O. K. Irgens, L. A. Martin, J. L. Ponder, F. H. McKinney, A. M. Epstein, and Fred Miller.

The initiation of those pledges accepting will be held sometime next week. There are now twelve active members in school. Bids will be issued freshmen at the beginning of the second term. To be eligible for membership into the society a student must make two and one-half times as many credit points as he makes credit hours.

The ten students given pledges to Phi Kappa Phi are: O. P. Owens, J. L. Zimmerman, L. A. Moss, R. W. Cummings, Elizabeth Gaither, R. E. Tew, Robin-Williams, A. L. Drumwright, E. H. Stahl, and K. L. Stahl.

Resolutions were adopted at a meeting Thursday night concerning the eligibility of prospective members, the election of officers of the society, and the averages of students transferring from other colleges here.

## STUDENT COUNCIL GIVES MIDNIGHT SHOW TONIGHT

"Prosperity," Featuring Marie  
Dressler and Polly Moran,  
To Be Shown

"Prosperity," featuring Marie Dressler and Polly Moran is the show which is being sponsored by the Student Council Friday night at 12:00 o'clock to raise money for the student loan fund.

The council has made arrangements to have the street cars operating after the show to provide transportation back to the college.

Members of the Student Council have tickets for sale at twenty-five cents each in the various dormitories and at the dining hall.

## POULTRY JUDGING TEAM TO ENTER COLLEGE MEET

Students Working in Preparation  
For Meet in Trenton, N. J.,  
January 25

State College is now making plans to send their annual poultry judging team to the Intercollegiate Poultry Contest which is to be held at Trenton, N. J., on January 25, 1933. They will compete against such teams as: Cornell, Mass., New York, Rhode Island, Conn., and New Jersey.

Students are working every afternoon from 4 to 6 o'clock, and they have a written exam every night from 7 to 8 o'clock, in the tryouts for places on the team.

## TEXTILE SCHOOL SECURES VALUABLE SILK TWISTER

A silk twister, valued at several hundred dollars, has recently been added to the equipment of the State College Textile School. This machine was secured through the cooperation of the Fletcher Works of Philadelphia, textile machinery manufacturers, and W. A. Kennedy, southern representative of the firm. Kennedy is a graduate of the State College Textile School.

# Technician History Reveals Amazing Growth Since 1921

**First Editor Plead for Students To Increase Size of Three Column Paper**

**EACH STAFF INCREASED QUALITY OF NEWSPAPER**

**Early Editions Featured Poetry And Magazine Material as Well as News**

By ALEX C. NEWTON

The average State College student would be somewhat surprised if he were to pick up a copy of THE TECHNICIAN tomorrow and see an article such as appeared in the issue of November 1, 1921, and which is reproduced word for word below:

**SHALL WE HAVE A LARGER PAPER?**

At the last minute there has been handed in a number of articles that should go in this issue of THE Technician. We are sorry that some of them will have to be omitted due to lack of space. It was for this reason that some of the articles were carried over from last time. Of course our managing editor will do the best he can and reject only such things as he has no room for. But is it right to restrict him in this way? Why shouldn't we have a better and larger paper? Some may ask: Why not more reading matter and less advertising? For this simple reason that it is going to cost over \$1,000 to get out the paper, and only 250 students have subscribed to it. Are you sure that you do not owe it to your college and yourself to subscribe to it if you have not already? If you have already subscribed you can do us no better than to get us a new man. Let's see who is behind us, not only as a paper but as a college.

This searching story-editorial appeared on the front page of the second copy of THE TECHNICIAN ever published and was probably written by J. H. Lane, the first editor. At that time THE TECHNICIAN was vastly different from the up-to-date college newspaper it is today, being a tiny 4 page—3 column sheet, half magazine and half paper. It was a small child with a big voice however, and Business Manager M. L. Rhodes worked hard to fill in the spaces between the student poems and novice news articles with equally novice ads. These early journalists had their hands full, for the Wau-Gu-Rac, the old student publication, had disappeared from the campus, and the student body had lost faith in its scribes.

At first the paper appeared only twice a month and subscriptions were secured only through the efforts of philanthropic students, and high pressure members of the business staff. The paper seemed to prosper for some reason, however, and the next year found E. C. Tatum editing a four-column sheet which was nevertheless similar in most ways to the first issues. Business Manager H. S. Hill had some manner of success also, as he doubled the circulation, and managed to secure some very substantial advertisements. The poems and short skits were a little more prominent than in the preceding issues, but the journalism was just as bad. Altogether, though, these first editors deserve a great deal of credit, as they gave State College a periodical and laid the foundation of a later very successful journal.

Alvin M. Fountain, at present Professor of English at State, was the third editor, and received the able assistance of E. C. Tatum, who after having been editor decided to act as business manager for a while. During the latter part of the year, however, Tatum was succeeded by H. H. Raper, who continued as business manager during the next year also. The most notable feature of Fountain's rule was the drive for a student publications fee, making a subscription to THE TECHNICIAN mandatory, an asset which was not secured until the following year however. This year was probably the hardest THE TECHNICIAN has ever had to face, as the staff was small and the editor had to practically set up the paper by himself.

During the session of 1924-25, Editor S. R. Wallis increased the size of THE TECHNICIAN to 5 columns and 8 pages, the size which it kept until last year. With the help of the new student publications fee and a larger staff, Wallis succeeded in putting out a creditable paper, but it was still more than half magazine.

The next three years saw little change in the form and makeup of the paper. Editor E. G. Moore and Business Manager F. K. Fogler continued on the policy of their predecessors. Editor R. H. Fountain, a brother of the second chief, eliminated some of the poetry, and his business manager, F. S. McCoy placed the financial side on a really profitable basis for

literary-humor magazine, and elated the campus, until a compromise was finally effected. The most notable mechanical achievement of the year was the increase from 5 to 7 columns on the sheet, and an improved makeup. The paper also won first prize as the best college newspaper in the State. Park had won second prize the year before.

Wilson unfortunately had to drop out of school before the end of the year. The Publications Board appointed Dick Yates to fill out his unexpired term. Although Yates edited only two issues, he did a good job and turned the paper over to Henry McClung in first class shape. There is no need to elaborate here on what the paper has done this year, as any reader can form his own opinion. It is sufficient to say that those who are in a position to know are of the opinion that McClung and Business Manager Burke McConnell will again capture first prize as the best college newspaper in North Carolina.

## AGRICULTURE CLUB PLANS FOR SECOND BARNWARMING

**Club Officers for Rest of School Year Will be Elected on December 6**

The "Ag" Club decided to hold another barn warming during the spring quarter at a meeting Tuesday night. Favorable financial reports by the treasurer was the basis of the decision.

Robin Williams invited all students to attend a lecture on etiquette to be given by Mrs. Jane McKimmon in room 207, Polk Hall, on Monday evening, December 5, at 7:00 p.m.

A. D. Williamson, president of the Ag club, announced that the next meeting will be held in Patterson Hall at 6:30 o'clock on December 6. The election of officers for the winter and spring quarters and a report from the crop judging team and coaches will be given at this meeting.

## STATE GRANGE INITIATES NEW STUDENT MEMBERS

At the regular bi-weekly meeting of the Grange last Thursday night several students who wished to join the club were accepted. These new members will be formally taken in the club at the first meeting next quarter. The time of the meetings have been changed from 6:30 to 7:00 o'clock beginning next January.

### Popularity Contest

The University of Kentucky will publish pictures of the ten professors receiving the most student votes in the space usually given to popular co-eds in the forthcoming edition of their annual.

## GAME MANAGING CLASS HEARS STATE WARDEN

**England Tells Students Game Supply is One of Valuable Assets to State**

Charles H. England, State Game Warden of North Carolina spoke to the class in game management on its last meeting before the holidays.

England is the first game warden since the passage of the state wide game laws in 1927, and it is partly through his efforts that the Game Warden Service of North Carolina was formed.

In his talk the game supply was shown to be one of the most valuable

assets of the state. He also stressed the point that if we are to have a constant supply of game the game laws must be obeyed almost to the letter.

The duties of the game warden were primarily to educate the people to such an extent that they would not want to break the laws.

**EAT .AT. WILSON'S**

LIFE'S little ups and downs don't mean a thing to a true Shredded Wheat fan. He can take it! And so can you, if you get the energy that's packed away in these 100% whole wheat, 100% good to eat, biscuits!

Shove a couple overboard into a nice bowl of milk or cream. In Shredded Wheat all the energy elements that smart old Nature put into wheat are right in those golden-brown biscuits. And note that flavor! Quick, waiter, we want more!

When you see Niagara Falls on the package, you KNOW you have Shredded Wheat.

**Tau Beta Pi Initiates**

Here are eighteen State College engineering juniors and seniors who were recently made members of Tau Beta Pi, national honorary engineering fraternity. Membership in the fraternity is confined to students ranking scholastically among the upper twenty-five per cent of their class. The State College chapter is the first to be established in North Carolina and includes several members of the faculty of the college. Left to right, the new members are: W. C. Henry, Elizabeth, N. J.; A. R. Lippard, Salisbury; W. C. Moorman, Clifton, N. J.; J. W. Bost, Eagle Springs; F. E. Brammer, Athens, W. Va.; C. B. Griffin, Woodville; B. B. Petroff, Moscow, Russia; G. W. Benburg, Elizabeth City; M. L. Bradley, Fayetteville; F. A. McGoogan, Rennett; C. S. Grove, Jr., Raleigh, (assistant professor in chemical engineering at the college); R. L. Snyder, Raleigh; H. S. Dinkelspiel, Memphis, Tenn.; J. A. Royal, Benson; J. L. Pleasants, Lexington; T. J. Raber, Haddonfield, N. J.; W. E. Kistler, Jr., Charlotte; and J. W. Culp, Jr., Gastonia.

time," Wednesday and Thursday. "Bring 'Em Back Half Shot," Cartoon, and "If I'm Elected," comedy, completes the program.

Joe Anton, as played by George Raft in "Night After Night," the screen version of a story by Louis Bromfield, which plays at the Palace Theatre Friday and Saturday, is a fellow of infinite charm.

"Union Wages," comedy, and Sound News, completes the program.

**AVIATION STUDENTS BUILDING AEROPLANE IN SPARE TIME**

(Continued from page one)

neto for ignition. This type magneto has been used on many types of racing cars, and has been found extremely dependable. The ordinary model "A" carburetor will be used. It has been slightly altered for use in the plane.

Four Chrome Molybdenum Steel pipes support the motor together with two Ash motor bearers which are to be lined with felt to absorb motor vibrations. On the instrument board there are four instruments, a Tachometer for measuring motor speeds; an Altimeter, for measuring altitudes; a temperature gauge; and an oil gauge. A magneto switch also reposes there. Curry has made a bank indicator, but it has not yet been installed.

When asked whether or not he could fly the machine after it had been built, Curry said, "I have taken a few lessons in flying at the Raleigh airport, and I find that the experience I had this summer in handling a glider is of great help in learning to fly. It has given me more confidence in my own ability to handle a motor-driven craft. The glider, by the way, was taken up at least 500 times last summer, and for a while gliding was a favorite sport at the airport."

Curry stated that \$55.00 has been spent on the airplane so far, and \$60.00 more will serve to complete it. Thirty dollars will be spent on cover for the wings and fuselage, and the rest will pay for wheels, motor repairs and incidentals.

**NOVELTY SCREEN SOUVENIR AND A SOUND NEWS COMPLETE THE PROGRAM**

An engrossing story acted to perfection by a brilliant cast, headed by the New York stage star, Helen Hayes, makes "The Sin of Madelon Claudet," which will be shown Wednesday and Thursday at the Capitol Theatre, one of the most interesting and entertaining talking pictures seen here in some time.

**AERONAUTICAL SOCIETY INITIATES FIFTEEN MEN**

Fifteen students were initiated into the Aeronautical Engineering Society last night at 7 o'clock. They are: L. G. Tucker, K. W. Stephens, C. L. Goodwin, Franklin Kelly, S. W. Fowler, E. J. Lassen, I. W. Ferrell, R. A. Waiseman, P. C. Cox, J. M. Gregory, W. D. Bennett, R. E. Vick, John C. Parrott, R. S. Lyster, W. L. Curry.

A motion picture was shown by "The Gas Engine."

**Announcements**

Gamma Sigma Epsilon, chemical honorary fraternity, will meet Wednesday, December 7 in the chemistry building. All members are urged to be present.

C. B. Griffin, President.

The Chess Club is meeting every Wednesday night except during exams at its room, 102 Seventh Dormitory. All those interested in chess are invited to be present.

Henry Saunders, President.

Several wrestlers are needed in the 115 and 125 pound class. Any one interested will report to Coach Joe Moore in the auxiliary gym.

There will be a Demolay initiation Wednesday evening at 7:30 p. m. December seven. Masonic Temple, Raleigh.

All DeMolays and Master Masons are invited to attend. If you do not have your card, please see me.

"Dad" Grimshaw.

Any student that took pictures of the R. O. T. C. Corps formation in the State-Duke game, are asked to lend them to the Military Department.

LT.-Col. Bruce Magruder.

There will be a meeting of the Varsity and R. O. T. C. rifle squads, Monday afternoon at 4 p. m. in the armory. The purpose of the meeting will be to organize and elect officers for the squads, and those interested are requested to be there.

Captain Venable, Coach.

**OVER 700 TAKING EXTENSION WORK**

**Sixteen Per Cent Gain Over Last Year Shows, According to Director Capps**

Enrollment in extension courses now totals 727, an increase of sixteen per cent over last year, according to Frank Capps, Director of the Extension Division.

The college extension division of the college has grown larger and increased its sphere of usefulness each year. At the present time it has 35 extension classes organized and in operation located at the following centers: Raleigh, Franklinton, Louisville, Zebulon, Smithfield, Rocky Mount, Wilson, Goldsboro, Trenton, Jacksonville, New Bern, Beulaville, Mount Olive, and Tarboro. There are 382 persons enrolled in these classes. All the classes are taught by members of the college faculty, meetings usually held in the evenings. The courses taught include History, English, Sociology, Psychology, Science, Soils, Chemistry, Modern Languages and Education. College credit is allowed upon the completion of these courses.

In addition to the evening classes taught, the extension division is offering 39 correspondence courses al-

lowing college credit upon completion, and 10 practical courses that do not give college credit. There is now a registration of 345 in the correspondence course department. The most popular courses offered by correspondence include English, History, Education, Sociology, Business Law, Ceramics, Modern Languages, Psychology, and Agriculture. In the practical courses, Electricity, Mathematics, Practical Land Surveying and Electric Meters are most popular as indicated by enrollments.

In addition to the above services, the college extension division maintains a speaker's bureau, furnishing lectures to communities throughout the State, and acts as a cooperating agency in bringing the entire facilities of State College to the citizens of the State.

**ANNOUNCING**  
A New Service to State College Students  
**STUDENTS PROFIT SHARING PLAN**  
IN USED TEXTBOOKS

**ADVANTAGES:**

1. You set your own price for your books.
2. We act as your representative.
3. Free storage and insurance on your books at no cost to you.
4. An established trading center catering to the entire college community. Direct contacts with prospective customers.
5. An opportunity for the Student to profitably market books he does not wish to keep and to obtain a necessary technical library at low cost.
6. The plan saves you advertising books for sale. We give free advertising without cost.
7. You assume no obligation and receive the service of a well organized selling agency.
8. The plan saves you from being pestered to death by everybody looking for used books, and saves you the trouble of looking everywhere and pestering other people for books you want.

## A BETTER WATAUGAN

In this day of depression, one of the most valuable retrenchments that can be made is to transform existing equipment to serve a greater need.

An opportunity of this kind exists on the State College Campus. The Wataugan, literary-humorous magazine, exists to entertain the student body and to provide an outlet for student writing talent. The latter function is by no means unimportant.

Also in a technical school, with practically every student studying to be a specialist, there is no publication which provides specifically for the technical type of writing and reading for which the need undeniably exists.

Consideration of these two facts immediately suggests that the Wataugan evolve to serve both needs instead of the one. Theoretically, at present it is open to the type of contributions that would make it a technical and scientific publication. The reason no such material is published is merely because of the psychology connected with the student conception of the Wataugan. In other words, each contributor thinks of the material in past issues when he writes an article. The evolution to the proposed magazine is not necessarily a matter of name, but merely a change in campus opinion of what constitutes Wataugan material. The student body, in a final analysis, determines what shall be in the magazine and if the change is approved and the editor makes it a policy to encourage technical material, the thing will be done.

In the first place, the Wataugan needs some change. Not through any fault of its editors but through lack of writing interest, the magazine has lost its literary prestige. The major change occurred four years ago and was made in response to public opinion. Before that change, the Wataugan was purely a literary publication. In the last issue and in all of the past several issues, literary contributions have been few. As a result, the magazine is ballasted with humor, some of it good and all of it fairly readable. All critics agree, however, that relatively the humorous material is too great and unbalances the magazine.

The change into a technical magazine would deprive the campus, therefore, of nothing except the superfluous humorous material. The space would be filled with scientific articles written by students, and the prediction is made that there would be no dearth of such material. Students generally would enjoy this reading matter. The current science magazines capture a great deal of the reading public's interest.

There would also be no question of depriving the student body of opportunities to read and write purely literary material. All of the present volume of contributions would be used and still leave ample room for the technical articles.

Art would not be sacrificed; in fact, it would assume more importance as the necessary complement to the more serious type of publication which is proposed.

The only possible objection to the plan will be the contention that it will sacrifice something belonging to the whole campus for the good of a few number. This would hardly be true, since most students, outside of the Agriculture School, are technical students, and the Agriculture students have their own magazine. Certainly the new magazine would refuse no contributions of non-technical nature and would not feature any one thing to the exclusion of general interest.

The principal reason for suggesting the change is the fact that most technical schools as large as State College have a magazine of this nature, and the need exists on this campus. Except for financial reasons, the student body should have both the Wataugan and a technical magazine. The purpose is to fill the need without spending any more money. In this connection, the proposed publication would also be a better advertising medium.

The net result of the change would be to bring into being a more comprehensive, more readable, more representative and better magazine without losing a single benefit of the present Wataugan.

## ANCIENT FOOLISHNESS

Almost every State College organization firmly believes that initiation must include horseplay and a crude third degree ending with a trip back to the college in the wee hours of the morning.

These inanities originated with social fraternities. After so many years the mounting toll of fatalities and unfavorable publicity brought about disapproval from national officers and "hell weeks" came into deserved disrepute. State College social fraternities still go in for it, but with less and less enthusiasm each year.

However, clubs, societies and honorary fraternities are now reverting to this ancient foolishness with more and more enthusiasm. The initiations usually last through only one evening, probably only because this is as much as members can plan without revolt among the neophytes.

Last year a State College student was severely burned during an initiation by the mechanical engineering society. He was crawling through the underground steam line tunnels as a part of the required horseplay. The dangers are much greater during the society and club horseplay, because it is so much more haphazard than the carefully planned inhumanities of the social fraternities.

Something strange about the whole matter is that no one enjoys it. The ceremonies are usually held at night, and the public does not have a chance laugh at the students. The pledges certainly do not enjoy anything except the perverted joy of planning for the discomfort of the next group of unfortunates. The old members, who are supposed to enjoy it, usually are embarrassed and slightly ashamed, although there are always at least one or two childish individuals who get a great deal of unholy joy out of such things. Psychologists have a name for them.

Of course, the more reputable honorary fraternities do not have such initiations; in fact, the caliber of an organization is generally in inverse ratio to its horseplay. If this were fully realized, many groups would abolish their playful crudities as the first step in increasing prestige.

## WORTHY APPROPRIATION

The State College debating team has an opportunity to appear before the National Association of Teachers of Speech to demonstrate a new debating plan which originated at State College. The recognition is an honor to the college and brings credit to a coach and team who have been remarkably successful in the field of forensic competition.

However, it takes money to go to California. The members of the team are starting a campaign to raise money, but they will hardly be able to obtain the required sum in the short time until the meeting.

Here is a worthy opportunity to use an appropriation from the Student Activities Fund which is entirely in line with the purpose for which it exists. The appropriation from this fund to the debaters this year was cut, and the present amount needed will probably not be in excess of the reduction. Unless unforeseen circumstances arise, the student body will thus spend no more on forensics than it did last year.

The proposed change in the college calendar to start school one week earlier and have only one day off for Thanksgiving seems to be meeting with general approval from the student body.

The break in the term just before examinations is generally thought to be too great and the extra two days before Christmas will give students who work during the pre-Christmas rush more opportunity to earn money.

Starting school one week earlier has the advantage of conformity with other colleges.

An unclaimed title never goes begging. At the first of last year the University of Maryland Diamondback carried the legend, "The Best College Weekly in the South," but it was deleted a little later. Now the Alabama Crimson-White carries the caption, "The South's Leading College Newspaper."

All honor is due the crop-judging team and their coaches for continuing the remarkable record they have in the national competitions in Chicago. Probably no other representatives of the college bring any more recognition than does this team with its accomplishments.

Last week the Student Council paid a bill of \$40.00 to the telephone company for damage to dormitory telephones. Thus indirectly the entire student body must pay for the destructiveness of a few. Where is public opinion?

## College Opinions

### THE CONGRESS WAXES WROTH

And, lo, heralded by a peal of trumpets offstage, appears a new, wrothy, and insulted Student Congress.

With one fell swoop, it has instigated investigations of the campus in general . . . from the Student Laundry to the Infirmary.

It has appointed committees, wrangled within itself, expelled representatives and conducted business entirely in the manner expected of a self-respecting Student Congress.

It has launched an extensive and thorough campaign, the nature of which cannot be revealed at the moment, and will, if it attains its objective, effect the most noteworthy improvement in the history of the Student Government Association.

The rejuvenation strikes a hopeful note among campus legislators. It indicates a revival of interest and spirit which will go far in perpetuating a branch of the S. G. A. which, scarcely a fortnight ago, was being considered for dissolution.

The Diamondback can only hope that the spark struck Thursday will be fanned into flame rather than extinguished by inattention as has been the case in previous years.—University of Maryland "Diamondback."

## SCENES and SAYINGS

By J. W. LAMBERSON

Here is a cold one—  
Last Saturday morning, one of the coldest mornings of this year, two State College youths, O. K. Irgens and C. M. Parker, clad only in running pants and sweat shirts, ran out to Lake Raleigh for a little light track practise. While running around the lake, the soil caved in and Irgens was plunged into the icy water, and to make matters worse, he was arrested for swimming in the city reservoir. However, he managed to out-argue the law and run back to the college in his wet clothes, and he said that when he arrived he resembled a Christmas tree with icicles hanging on him.

Frank Busbee, who drove his car with a group of students to the Peace Conference in New York during the Thanksgiving holidays, was caught speeding in Maryland, and given the choice of paying sixteen dollars or spending sixteen days in the Maryland jail. The students paid.

A good one on the "campus leaders"—

The minutes of the preceding meeting were read at the beginning of the Golden Chain meeting last night and almost accepted as being correct. When someone questioned its correctness investigation showed the minutes to be those of the meeting held over a month before.

Bill Poole, a well-known State College graduate, is now playing the piano for Don Lanning's Orchestra, which is playing at the State next week.

Here is the saddest one—

A student received a box from his best girl, and thinking it to be a box of candy slipped away to a quiet spot to open it. Imagine his surprise when he found it contained letters that he had written to her. A delayed letter of explanation and farewell was received later.

## Open Forum

### STANDARDS FOR TRANSFERS

The September registration, if closely analyzed will reveal the inception of a serious condition, which if allowed to continue unchecked, may deteriorate the standing of State College as a ranking institution of education.

The registration of new students in practically all of the courses offered revealed a decided decrease. This fact need not be alarming in view of the conditions prevailing. The increase of students transferred from other institutions, however, may be the cause of a reputation that would not be salutary to State College.

Everyone is familiar with what is termed as "flunker schools." These schools offer little or no resistance to the registration of students who have not passed the required work in other institutions. Gathering from the registration results, State College is on the path to this class of school.

No objection is offered to giving transfer students credit for work passed in other institutions. However, the transfer student should also be given a course equal to the course given the regular student with a passing requirement of B attached to it for one year. If he has fulfilled this requirement at the end of one year, he has proved his ability to be a credit to State College. If, however, he has failed to meet the requirement, he may do a Sir Thomas Lykin spirit and try his limited ability at some other institution.

S. J. BLAKE.

### MECHANICAL ENGINEERS HOLD MEETING TUESDAY

Engineers Decide Not to Attend Society Meeting in New York Next Week

The State College student chapter of the American Society of Mechanical Engineers held a meeting in Peele Hall, last Tuesday night, at 8:30. The sending of delegates to the national meeting in New York, which will be held December 5 to 10 inclusive, was discussed, and was decided against. The initiation of new members at the first January meeting of the Society was also planned for.

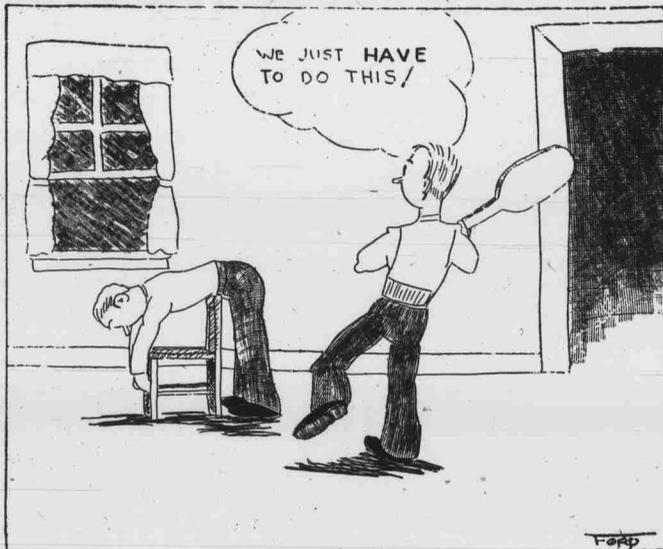

"The Gas Engine," a moving picture of the building of an automobile engine, was shown by the Aeronautics Society, with the compliments of the Continental Motors Corporation.

## Hurting the Organization More Than the Pledge

### COLLEGE STORE BEGINS PROFIT SHARING PLAN

A students' profit-sharing plan in used textbooks is being inaugurated by the Students Supply Store to aid the students in the disposing and buying of second-hand books.

The Supply Store acts as a representative for the students, by handling the books at the student's price and deducting twenty per cent of the sale price for their commission.

With the exception of the first three weeks of each term the owner may have the book or the money received for it returned to him with no storage charges attached.

"This plan eliminates the trouble of

advertising and selling of their books, and it establishes a central location for the purchasing of second-hand books," says L. L. Ivey, manager of the Supply Store.

### Certain Hopes

After being closed for seventeen years, Chicago's "beer college" is again opened, with students at work over textbooks and in the laboratory.

The Wahl-Henius Institute of Fermentation started its first term since 1915 with 19 students in attendance. In an opening address to his students, President Max Henius said: "What has the future in store for us? The revival of the brewing industry in the United States." Courses in chemistry, bacteriology, yeast culture and refrigeration are on the curriculum.

# PRE-SEASON DOPE SHOWS TERRORS AS STRONG TEAM

Basketeers Open 18-Game Schedule With Atlantic Christian on December 15

## FIVE LETTERMEN OUT WITH BROWN EXPECTED

Rose and Morgan Lost by Graduation Last Year; Practice Has Been Under Way for Ten Days; Gurneau Not Back; Center Post Is Problem; Wealth of Guards on Hand; Four New Foes on Roster; 1933 Season is Sermon's Third

State College, always a dangerous contender for the Southern Conference basketball title, will likely be a strong threat again this season.

The prospects for the team this winter have been practicing for about ten days but organized practice did not start until this week.

State opens this winter in the Frank Thompson gymnasium with a pre-season game with Atlantic Christian College, its opening foe is also booked with the Raleigh Y.

- Dec. 15—A. C. C. at Raleigh.
- Dec. 16—Raleigh Y. M. C. A. at State College.
- Jan. 4—George Washington at Washington.
- Jan. 5—Catholic University at Washington.
- Jan. 7—Furman at Raleigh.
- Jan. 11—Wake Forest at Raleigh.
- Jan. 14—V. P. I. at Raleigh.
- Jan. 18—U. N. C. at Raleigh.
- Jan. 21—Duke at Raleigh.
- Jan. 29—W. P. I. at Blacksburg.
- Jan. 31—W. and L. at Lexington.
- Feb. 1—V. M. I. at Lexington.
- Feb. 2—U. of Virginia at Charlottesville.
- Feb. 6—Wake Forest at Raleigh.
- Feb. 9—Davidson at Davidson.
- Feb. 10—South Carolina at Columbia.
- Feb. 14—Duke at Durham.
- Feb. 17—Davidson at Raleigh.
- Feb. 18—U. N. C. at Chapel Hill.
- Feb. 24-25—Southern Conference at Atlanta.

Four new foes are on the 1933 basketball schedule. After two preliminary games before the Christmas holidays, the Tech cagers will encounter the tusslers of George Washington in Washington on January 4. Another game on this trip will be against Catholic University.

The new foes are George Washington University, Catholic University, Furman and South Carolina. Furman will be played in Raleigh, George Washington and Catholic U. are booked for Washington, D. C., and South Carolina will be played in Columbia, S. C.

In addition to the Washington and Columbia trips, State will take a trip to Western Virginia where it will play V. P. I., at Blacksburg, Washington and Lee, at Lexington, V. M. I. at Lexington and the University of Virginia at Charlottesville.

All dates are definitely set except for State's first game with Wake Forest. Dr. Ray R. Sermon, athletic director and head coach of basketball, said a date for this game will be agreed on later.

Five lettermen of the 1932 team are in school and will be eligible for this season. Another letterman, Jimmy Brown, forward, is not in school this year but it is expected that he will return after Christmas in time for the regular season. The lettermen in school are Ralph Johnson, Joel Morris, forwards; Gilbert Clark, Bob McQuaque, and Allen Nels, guards.

Only two men were lost by graduation last spring. They are: Capt. Bud Rose, guard, and Claude Morgan, center, both all-State and high scorers of the '32 team.

Sam Gurneau, center and forward last year, had another year, but is playing professional football this fall and is not in school.

In addition to the seasoned material, Coach Ray R. Sermon will have a number of promising sophomores coming up from yearling ranks. The list includes a number who will give the varsity cagers a hard race for positions. There is also a number of reserves from the 1932 varsity on hand.

The center post will give Sermon most concern. Morgan and Gurneau alternated at that position last winter and they are both gone. Bill Avera is the only reserve back. Many think that George Beahen, star center of the 1931 yearling team, will be the jumper this year and make State fans forget about State's other famous centers. Two other good prospects are Walter Oakden, regular freshman center last year, and his understudy, Bill Myatt. Myatt stands 77 inches and played his first game last winter. Bud Rose was a mighty good guard to lose, but Sermon has a wealth of material on hand for those bertha. Heading the list is Gilbert Clark. Clark stands over six feet and weighs 190 pounds. Regardless of his height and weight, he is fast and about the best defensive man on the team. Allen Nels and Bob McQuaque are two ex-

## Rifle Match

The State College rifle team under the tutelage of Captain Venable and Captain Ricamore will engage in a three-sided informal match with the Carolina Rifle Team and the Durham Rifle Club at Chapel Hill tomorrow.

The men on the rifle squad are J. M. LeRoy, F. D. Whitehead, J. S. Suggs, E. C. Daniels, F. E. Stone, J. L. Pleasant, F. R. Nail, and H. F. Cameron.

## ACTIVE PROGRAM IN INTRAMURALS

Miller Announces Winners in Intramural and Physical Education; Many Records Broken

Intramural sports had an active program this week. In addition to the regular program scheduled, there was the fall inter-class competition.

In the fraternity tag football league Pi Kappa Alpha defeated Sigma Phi Epsilon to enter into the final round. Lambda Chi Alpha defeated Kappa Alpha to enter into the other position of the finals. The finalists will meet each other on varsity field, December 5.

First Floor South seems to be the best tag football team in competition. They met some of the best teams in the school and came out victorious in every contest, making them a finalist in the dormitory league. Their last victim was Third Floor Seventh. Their opponents in the finals, which are to be played on Freshman Field, December 5, are Second Floor 1911. Second Floor 1911 defeated First Floor 1911 to enter the final round.

In the fraternity consolation, Delta Sigma Phi defeated Pi Kappa Tau in the semi-final round to bring them to the finals. In the other position of the finals, Theta Phi placed as a result of their victory over Theta Kappa Nu. Delta Sigma Phi plays Theta Phi on Freshman Field December 6.

In the dormitory consolation, Fifth Dormitory defeated the basement of South, and the Third Floor of 1911 defeated Sixth Dormitory. Fifth Dormitory plays Third Floor 1911 in the finals on Varsity Field on December 6. The fraternity horseshoe championship went to Kappa Sigma as a result of their victory over Theta Kappa Nu.

Second Floor 1911 won the championship of the dormitory league by defeating Sixth Dormitory. The fall term competition for physical education events was held this week. At the beginning of each term student leaders are picked in every freshman event. At the end of the term there is a competition to find the best man of that particular event of which he is a leader.

The winner of each of the freshman events are: Medicine ball throw for distance, H. A. Summers, 56 feet, 10 inches. Bar snap for distance, C. B. Knight, 8 feet, 6 inches. Bar vault for height, J. B. Liles, 6 feet, 10 inches; this is also a new record in freshman competition. Standing hop, step and jump for distance, J. B. Ozza, 26 feet, 5 inches. Rope climb for time, J. S. Liles, 5.5 seconds. 70 yard potato race for time, S. C. Davis, 14.5 seconds. Hitchkick for height, Gordon Dees and Stewart Plythe, 10 feet. This is another record in freshmen competition. Rope skip for one minute, H. Bedders, 195 skips.

The swimming team of the Monday and Wednesday classes competed against a picked team of the Tuesday and Thursday classes. The swimmers of the Tuesday and Thursday classes defeated their opponents 27-18. The two teams were tied until the last event, when the winner took all three places of the 100 yard dash. The winning swimmers were Whitmarsh, Cooper, Gardner, Frye, Abenathay, Williams, Wicker, and Willet.

A picked football team of the Tuesday and Thursday classes defeated a team representing the Monday and Wednesday classes by first downs, 3-1. The Tuesday and Thursday team, coached by Bo Bohannon, was composed of Boyles, Ricardelli, Cox, Sabol, Davis, Partell, Ponzar, McAvoy, Lingerfelt, Fowler, Miller, Hearne, McCulland, Jarvis, Moner, Aiben, Sissill, Dameron, and Dickson. The first eleven men named played the entire game for this club.

Excellent returning veterans. Coming up from freshman ranks are Ray Rex, 210-pounder and one of the fastest floor men on last year's yearling team. His running mate, Don Dixon, Clifton Palm is a good reserve. This is Coach Sermon's third year as head basketball coach. His team last year finished third in the Big Five race. The team lost to Auburn 34-33 in the first round of the Southern Conference Tournament. Auburn was later eliminated by Carolina who went to the finals, but lost to Georgia, 25-24.

## Terror Mentor

DR. R. R. SERMON

Head basketball coach for the third consecutive season whose teams in the past have made good records. His team last year finished third in the Big Five race and after a hard battle lost to Auburn 34-33 in the first round of the Southern Conference Tournament at Atlanta. In addition to being basketball coach, "Doc" is trainer for the athletic teams and Director of Athletics.

## FROSH TURN OUT FOR BASKETBALL

Twenty-eight Candidates Report To Coach Bob Warren to Begin Work

Twenty-eight candidates have reported to Coach Bob Warren for the State College Freshmen basketball team. The schedule for the season lists eleven games, seven at home and four away. The foreign games are booked for Wilmington, Greenville, Durham, and Chapel Hill.

The completed schedule for the 1933 season is as follows:

- Jan. 7—E. C. T. C. Raleigh.
- Jan. 14—Mount Pleasant Institute, Raleigh.
- Jan. 18—U. N. C. Raleigh.
- Jan. 21—Duke, Raleigh.
- Jan. 27—Wilmington High, Wilmington.
- Jan. 28—E. C. T. C., Greenville.
- Feb. 4—Wilmington High, Raleigh.
- Feb. 6—Wake Forest, Raleigh.
- Feb. 14—Duke, Durham.
- Feb. 17—Davidson, Raleigh.
- Feb. 18—U. N. C., Chapel Hill.

Included in the number of men out are two former high school stars, Russell Sherrill and Charles Aycock. Sherrill is a forward and Aycock a center.

Club Womble, another former Raleigh high school star, and who prepared at Oak Ridge, N. C., is also reported as soon as football season was over. Womble is a guard.

Those who have reported are: Forwards: W. Shin, New Haven, Conn.; W. D. Tinsley, Spencer; C. G. Riley, Pleasant Garden; J. C. Stanton, Ansonville; W. J. Thomas, Moravia; Clayborn Johnson, Cary; R. M. Fythe, Conway; R. F. Coats, Clayton and J. L. Edfand, Edfand. Guards—T. C. Sawyer, Elizabeth City; J. S. Allen, North Wilkesboro; C. S. Layton, Pleasant Garden; J. M. O'Brien, Oxford; P. M. Cox, Newport News, Va.; J. N. Brock, Trenton and R. E. Vick, Sanford.

## FRESHMEN END SEASON WITH WIN OVER E. C. T. C.

Tecllets' Record for Season Shows Three Wins, One Loss and One Tie

The North Carolina State College freshmen football team completed their five game schedule last week with a victory over Eastern Carolina Teachers' College.

Their record shows three victories, one loss and one tie. The Wolflets were victorious over Davidson, Louisville and Eastern Carolina Teachers' College. They lost to Duke and tied the University of North Carolina.

Coaches Bob Warren and Bill Beatty produced some good prospects for next year's varsity team in Sabol and Cooper, centers; Zori, tackle; Dusty and Andriou, quarterbacks; Raines and Womble, halfbacks; and Brinson, fullback.

The following men were recommended to the athletic council for numerals. Steve Sabol, E. W. Cooper, Jack Portman, W. Z. West, R. S. Hudson, J. W. Brown, Carl Rossier, Milan Zori, Charlie Stott, Morris S. Spruiell, Russell C. Nicholson, Richard S. Davis, D. C. Williams, Marshall E. Ginsberg, W. J. Vann, Jack M. Browne, J. W. Dusty, Adolph A. Andriou, Norman Raines, J. D. Moore, Rufus Womble, P. F. Davis, A. R. Gattis, Frank Landis, E. S. Brinson, Nat Margolis, R. L. Duke, W. P. Le Grande.

## OUTLOOK BRIGHT FOR TOURNAMENT TO BE IN RALEIGH

Decision on Location of Southern Tourney to be Made Around December 8

## ATLANTA PAPER STATES SITE MAY BE CHANGED

Campaign to Bring Event to Raleigh Appears to Have Required Support

The chances for the success of the movement to bring the Southern Conference basketball tournament for 1933 to Raleigh appear bright at the present time. The move has been made in Atlanta for years and usually comes in March.

If the tournament comes to Raleigh, probably the new Memorial Auditorium and the Frank Thompson Gymnasium will be used for the playing of the games. About sixteen teams are usually invited. Duke, Carolina and State have always been issued invitations to the tournament.

The sites for the basketball tournament, as well as the other sporting championship events, are decided at the annual meeting which is slated for Knoxville, Tenn., December 8-9-10 and the *Atlanta Journal* says it understands a movement is on foot to transfer the tournament to Raleigh, N. C.

The paper said "unless there be a decisive shift in sentiment within the next 10 days the conference will transfer the basketball tournament from Atlanta, probably to Raleigh, N. C."

"A campaign to effect the removal seems to have the requisite majority of votes."

The *Journal of Atlanta* said the real motives for the removal have to do with the methods of the local business management and with the officiating. Other reasons are that one city should not monopolize the event and that the northern sector should be given geographical recognition.

A decade ago, when interest in the sport was negligible, Coach Bill Alexander of Georgia Tech, Athletic Director H. J. Stegman, of Georgia, and Al Doonan, of the Atlanta Athletic club, arranged for the tournament to be played here and through the years have made it a profitable self-supporting event.

## "One-Eyed" Connelly Visits State College on Monday

World-Famous Gate-Crasher Drifts Through Raleigh on Way South For Winter

RELATES EXPERIENCES IN YEARS OF CRASHING State College and College Boxing Admired by Renowned Sport Character

By H. A. McCLUNG, JR. State College was host for a brief while Monday to the romantic gate-crasher, "One-Eyed" Connelly, with his interesting tale of experiences through the glamorous history of American sport.

Connelly drifted through Raleigh, trying vainly to sell athletic equipment to State College athletic authorities. He is going South instead of North, California this winter, although he has made 77 trips to the coast in his long career of wandering and gate-crashing. When asked as to his plans he replied, "I am going to Jacksonville or somewhere in Florida and try to start in some little business—a rolling stone gathers no moss. And this after spending most of his 56 years in wandering! He is stout, with graying hair, and, as he admits, his years and stormy life are beginning to tell on him.

He was very much impressed with State College, expressing open admiration for what little he had seen of the campus and full of curiosity about the college. When asked about his competition from collegiate gate-crashers, he paid tribute to their cleverness, and said, "I expect they can get some good dope from your article."

Interested in Boxing He doesn't care much for college football—his chief interest is in boxing and he regrets that the fight game is not what it used to be. He ascribes this to policies of managers and promoters who are trying to make money without any love or consideration for the sport itself. He also condemned the puritans for their opposition to betting, saying that this added the color to sporting events.

He became enthusiastic over college boxing, saying that it was great sport and was probably the only hope for a restoration of the old-time prestige of boxing. He believes that "every man, woman and child should know something about boxing."

His world-famous nickname was given him by Otto Flore, Denver Post sports writer years ago. Connelly lost his eye in a prize fight when the lace of his glove cut his eye as he blocked a blow.

Couldn't Crash England About the only place he ever failed to crash was the Kingdom of England. He beat his way over by leaving his

## Boxing Coach

HILL BEATTY

This year's varsity boxing coach who succeeds Lieut. Elmes. In addition to tutoring this year's varsity, Coach Hill will also coach the freshmen. During the fall term Beatty is line coach of the freshmen football team. He played on the Wolfpack of 1925, '26, and '27. He also played on the Marine football team for four years.

## THREE STATE GRIDDERS LEAD ALL-STATE PICKS

Espey, Cumiskey and Stanko Named With Other Wolves Prominently Named

Captain Red Espey, center; Mope Comiskey, full back; and John Stanko, guard, of N. C. State, are leading North Carolina's football candidates for these positions on the 1932 all-state team.

Cumiskey is the unanimous choice of North Carolina coaches for fullback and Espey received all votes except one. Stanko was picked as the ace of the left guards by the same men. All three are also leading on teams selected by sports writers and fans.

Robert McAdams, red-headed left half, was placed on the first team picked by the News and Observer of Raleigh. He has been named for such honors on practically every second team selected. Rudy Seitz, tackle, and Bob Greason, end, are two other Wolves named on second teams by coaches and writers. Fans have in addition, named Roscoe Roy, half, and Bob McQuaque, quarterback.

## WOLFPACK TIES SOUTH CAROLINA IN GRID FINALE

## BOXERS SCHEDULE TWO MEETS HERE

Team to Engage in Six Contests During Season; Candidates Begin Work

North Carolina State's 1933 boxing team will stage two of its six scheduled matches here this winter.

The University of South Carolina will appear here on February 4th and the University of Georgia on February 18th.

Georgia is one of the two new schools scheduled for State this winter. The other is the University of North Carolina.

State will open its season with Washington and Lee in Lexington, Virginia. Candidates for this year's team have already begun work. At present they are training under the direction of Captain Charlie Garner, winner of the Southern Conference welterweight title last year.

Quite a number of promising boxers are seeking places on the team including seven lettermen of last winter's team. The lettermen are Alfred Welling, 125-pounds; Marshall Rhyme and Tom McGee, 135-pounds; Charlie Garner, 145-pounds; Josiah Hull, 165-pounds; James Hall, 175-pounds, and William "Red" Espey, unlimited.

A new weight has been added by the Southern Conference this year. The weight is 155-pounds and will more than likely be filled on the State team by Bill Dunaway, undefeated member of last year's freshman team. Coming up with Dunaway from freshman ranks are: Turner Bilisoly, 115-pounds; J. B. Sauls, 125-pounds; Jack Fabri, 165-pounds; Kenneth Stephens, 175-pounds, and Clifton Daugherty, unlimited.

The team this year will be coached by Bill Beatty, freshman coach in 1932. Beatty replaced Lieutenant C. H. Elmes who was transferred by the Army Department to a new post during the past spring.

The 1933 varsity schedule is: Jan. 12, W. and L. at Lexington, Va. Jan. 21, U. of N. C. at Chapel Hill. Jan. 25, Duke at Durham. Feb. 4, South Carolina at Raleigh. Feb. 11, V. P. I. at Blacksburg. Feb. 18, U. of Georgia at Raleigh. Feb. 23, 24, 25, Southern Conference met at Charlottesville.

## Large Crowd See 7-7 Thanks-giving Day Deadlock With Gamecock Gridders

NELMS FALLS ON FUMBLE TO SCORE STATE POINTS

South Carolina Superior in First Half; State Best in Second; Wolves End Season With Best Record in Years With Six Won, Two Tied and One Lost; Smith and Reese Get Credit for Good Team; Shift Mastered Well

North Carolina State College's strong Wolfpack held the highly touted University of South Carolina football team to a 7-7 tie on Thanksgiving Day before a large crowd.

Outplayed in the first two periods when the Gamecocks staged a drive of 51 yards for a touchdown and extra point, the Wolfpack showed the punch they had in the Duke game during the last two periods and immediately started an attack that netted a touchdown and extra point in the final period.

Allen Nelms, Raleigh boy playing his final game at State, contributed the feat which saved his team from defeat. He scored the touchdown by falling on the ball when Ray Rex fumbled as he dived for the goal line as the culmination of the "Pack's" march of 44 yards. McQuaque kicked goal from placement for the important play on which much was at stake.

The South Carolina touchdown was made by Clary, the star of the visiting backs, when he shot through the line as the climax of the best drive the Birds displaying during the afternoon. A penalty against State within the five-yard line gave the visitors first down and then Clary went over the last line on the next play. Wolfe kicked for the extra point.

Passes Scare After the Wolves had tied the count, the South Carolinians injected another scare in the camp of the Techs when Mauney began tossing passes. The Birds made two first downs and were headed toward the State goal when Bob McQuaque snared a pass out of the waiting arms of an intended receiver and little later the final whistle sounded to send fans hurrying for the exits.

Long runs were scarce as alert ends kept the feet back well in check. McAdams clipped off one run of 20 yards, Rex dashed 15 yards through the line and Roy got 10 yards once to contribute the biggest individual gains. One time McQuaque returned a punt for 87 yards but the play was nullified because the Techs were penalized for holding.

ANNOUNCING THE OPENING OF A COMPLETE Christmas Gift Display FRIDAY From Jolly's (128 Fayetteville Street) Our Merchandise is being shown as a convenience to State College students before the Christmas holidays At LITTLE DOC MORRIS'

How To Avoid BONERS A SATIRE IS A MAN WHO IS 50% GOAT THIS sort of thing has gone too far! When asked what product we get from whales, Bill Boner said, "Little whales." Let's take action at once. Get him a good pipe and a tin of good tobacco. We all know a pipe smooths out the wrinkles, clears the mind for its best thinking. And we all know what smoking tobacco goes best in a good pipe. For a recent investigation showed Edgeworth to be the favorite smoke at 42 out of 54 leading colleges. Next time you "crum" for an exam, light up a pipeful of Edgeworth. Ah! See how that different blend of fine old burleys makes even the toughest problem a whole lot easier. Buy Edgeworth anywhere in two forms—Edgeworth Ready-Rubbed and Edgeworth Plug Slice. All sizes—15¢ pocket package to pound tin. If you would like to try before you buy, write Larus & Bro. Co., 120 S. 22d St., Richmond, Va., for a free sample packet.

## Beaux Arts

The first Annual Beaux-Arts Ball was held Friday night in the studios of the Architectural Engineering Department. The ball was sponsored by the Beaux-Arts Society, which is composed of students of Architectural Engineering and Landscape Architecture.

The studios were pleasantly decorated in black and orange, the society colors. A very attractive feature, which caused much interest, was an imitation bar-room in which the refreshments were served. The punch was served from a keg and the cookies in the manner of the free lunch of the old time bar-room.

Among the visitors present were: Miss Elizabeth Johnson, Miss Mary Louise Johnson, Miss Eunice Stephenson, Miss Eloise Gibbs, Miss Cad Ash, Miss Margaret McDonald, Miss Florence Williams, Miss Mary Johnson, Miss Jane Jewel, Miss Batherine Huddleston, Miss Mary Bell McMurray, Miss Florence Frazell, Miss Nancy McCullers, Miss Virginia Franklin, Miss Laura Gill, Miss Lucille Evans, Miss Annette Morris, Miss Katherine Thiem, Miss Ethel Rowland, Miss Nancy Sullivan, Miss Martha Lane Bradley, Miss Dorothy Dent, Miss Claire Eastman, Miss Nell Lowe, Miss Virginia Pool, Miss Mary Norton, Miss Dorothy Pool, Miss Betsy Senter, Miss Peggy Tighman, Miss Mary Crockett, Miss Virginia Harrison, Miss Frances Kegley, Miss Ruth Haley, Miss Frances Martin, Miss Kella Sharratt, Miss Viola Dana, Miss Nell Wynson, Miss Sue Trinkle, Miss Burch, Miss Phyllis Terry, Miss Ida McAllister, Miss Ethyl Anderson, Miss Martha Howard, Miss Eleanor Noel, Miss Elizabeth Fisher, Professor and Mrs. Wheeler, Prof. and Mrs. Paulson and Prof. Ross Shumaker.

## Alpha Kappa Pi

The XI chapter of Alpha Kappa Pi fraternity entertained guests at an informal house dance at their residence on Chamberlain Street Saturday evening, November 19.

The guests present were: Miss Laura Gill, Miss Rita Colwell, Miss Lib Colwell, Miss Carolyn Rackliffe, Miss Jean Edgerton, Miss Lillian Covington, Miss Josephine Clark, Mr. and Mrs. E. P. Gaiba; Miss Martha Lane Bradley, Miss Mildred Pittman, Miss Hazel Ruth Turnage, Miss Mary Alice Bullock, Miss Helen Strickland, Miss Margaret Honeycutt, Miss Elizabeth Gerow, Miss Nancy Sullivan, and Miss Nell Joslin.

The chaperones of the evening were Mr. and Mrs. H. W. Colwell.

## Sigma Nu

A large number of friends enjoyed the hospitality of the Sigma Nu Fraternity of State College Friday afternoon November 18 when members entertained at a tea dansant at their home on Clark Avenue. Several members of the University of North Carolina chapter were special guests of the occasion.

Guests were invited for 4:30 o'clock. Chaperones were Mrs. J. N. Mason and Mrs. C. B. Crawley, who has recently moved to this city from Charlotte and is residing at 6 Maiden Lane. Mrs. Crawley's son, Reid Tull, is a member of the Sigma Nu fraternal order.

Young ladies attending the dance were: Miss Mabel York, Miss Elizabeth Park, Miss Catherine Lawrence, Miss Rebecca Riddle, Miss Minnie Hughes Rogers, Miss Nell Joslin, Miss Mary Helen Stewart, Miss Elizabeth Gerow, Miss Florence Hughes, Miss Ella May Noel, Miss Margaret Vass, Miss Elizabeth Davison, Miss Suzanne Allen, Miss Letitia Mason, Miss Eula Beth Warner, Miss Margaret Adams, Miss Sue Southerland and Miss Sadie Root.

## Phi Kappa Tau

Members of Chi Chapter of Phi Kappa Tau fraternity of State College were hosts at an enjoyable house dance November 19 at their home, 1306 Hillsboro Street.

Guests of members and pledges of the fraternity included Misses Elizabeth Layfield, Eleanor Layfield, Elizabeth Wade, Ray McKinney, Eloise Carriwan, Katherine Mason, Martha Ruth Kendall, Pickette Kendall, Mary Emma White, Caroline Tucker, Mary Ellen Lawrence, Clarice Mitchell, Dorothy Furr, Letitia Mason, Anderson York, Mabel York, Margaret Brewer, Emily Storr, Margaret Briggs, Sarah Rand, Irene Rand, Elizabeth Gerow, Muriel Blackwood, Fanny Bell Bray and Elizabeth Brantley.

Chaperones for the evening were Dean and Mrs. E. L. Cloyd, Dean and Mrs. Thomas Nelson and Prof. and Mrs. J. E. Paulson.

## Grange

The Grange Club will give a dance and bridge party in the Frank Thompson tonight.

Eddie Poole and his College Club orchestra will furnish music for the occasion. Refreshments will be served during the latter part of the evening. The dance will last from 9 to 12.

All State College co-eds are invited to attend.

Admittance will be by receipt or invitation only.

## Campus Dance

The first in a series of dances to be given the entire student body during the year will be held in the Frank Thompson Gymnasium Saturday night, from 9 until 12.

Eddie Poole and his College Club Orchestra will furnish music for the occasion.

The following campus leaders will sponsor the dance: Mark Wilson, student government; C. T. Anderson, Blue Key; W. F. Hanks, Inter-Fraternity Council; Blain Chapman, Order 30 and 3; Archie Ward, Golden Chain; L. M. Boswell, N. C. Agriculturist; A. L. Drumwright, Watauga; H. A. McClung, Jr., THE TECHNICIAN; and Dan Torrance, R. O. T. C.

F. Miller, director of athletics; Romeo LeForte, assistant dean of students, and Eddie Poole, director of the College Club Orchestra are in charge of arrangements for the dance.

## Phi Epsilon

Fifteen new members were initiated into Phi Epsilon, coed society, on Wednesday night.

After the initiation ceremony, Catherine Harding, president of the society, made a short talk on the meaning of Phi Epsilon. "Phi Epsilon," she said, "means 'to be friendly.'" The main purpose of Phi Epsilon is to promote friendliness and co-operation among the girls of the college. Every girl who is registered in State College is eligible for membership in Phi Epsilon.

The new members are: Eleanor Green, Eloise Gibbs, Bertha Pleasants, Elizabeth Gant, Eliza Stephenson, Hazel Beacham, Corinne Schaub, Mary Sue Pearce, Mildred Pittman, Martha Smith, Lucy Wilson, Mary Matthews, Birdena Seligson, Mary Louise Barber, and Elizabeth Maynard.

## Society Dates

Dates for important social events during the second and third terms were released today by the Faculty Council, upon recommendation of the Social Functions Committee.

The dates are: Monday, January 2, Phi Kappa Tau's Annual Dance; Friday and Saturday, January 27 and 28, Interfraternity Council, Mid-Winter Dances (Tentative); Monday, April 17, Phi Kappa Alpha Annual Dance; Saturday, April 8, Engineers' "Grand Brawl"; Friday, April 23, Military Ball; Friday, May 6, Junior-Senior Prom; Friday, May 19, Scabbard and Blade Dinner Dance; Friday, June 9, Saturday, June 10 and Monday, June 12, Interfraternity Council Finals (Tentative).

All these dances will be held in Frank Thompson Gymnasium except the Scabbard and Blade Dinner Dance, which will be held at the Carolina Country Club.

# STUDENTS COME FROM 26 STATES

### Two Hundred Eighty-two From Other States and Eight From Other Countries

Two hundred and eighty-two out-of-state students and eight from foreign countries serve to lend a distinctly cosmopolitan air to the campus of N. C. State College. Not only may students rub elbows with representatives of 26 states and seven foreign countries, but they may also contact representatives of all but four of North Carolina's 100 counties.

Of the counties Wake is far out in front with 320 students and of the states Virginia ranks next to North Carolina with 66. Guilford County follows Wake with 45; New Hanover, 44; Forsyth, 38; Alamance, 31; and Buncombe, 29. The four counties not represented at State are: Clay, Granville, Stokes and Watauga.

Egypt, India, Mexico, Porto Rico, Russia and the Canal Zone are the foreign countries and possessions represented. Two students each come from Porto Rico and Egypt.

Ranking next to Virginia in the number of students at State College is New Jersey with 34. Other states and their representations are: Alabama, 8; Connecticut, 9; Delaware, 2; Florida, 7; Georgia, 5; Illinois, 8; Iowa, 1; Kentucky, 6; Ohio, 12; Maine, 3; Maryland, 6; Massachusetts, 18; Michigan, 1; Missouri, 1; Mississippi, 1; New Hampshire, 1; New York, 27; Rhode Island, 2; South Carolina, 22; Tennessee, 3; Wisconsin, 1 and West Virginia, 10.

## DR. J. L. STUCKEY WRITES ABOUT CYANITE DEPOSITS

### Geology Department Head Tells of North Carolina Deposits in Article

"Cyanite Deposits in North Carolina," an article written by Dr. J. L. Stuckey, head of the geology department, appeared in the November issue of Economic Geology. The article came from a paper presented by Dr. Stuckey to a meeting of the Society of Economic Geologists in Charlottesville, Va. in April, 1930.

The article dealt with the occurrence, distribution, origin, and the age of cyanite in North Carolina, which is the purest specimens of cyanite come from Faido, Switzerland.

"It is widely distributed throughout the Piedmont Plateau in North Carolina, as well as in the Appalachian mountains region. The most important deposits are found in a belt six to eight miles wide which extends along the line of the Black and Great Craggy mountains from the vicinity of Burnsville, Yancey County to Swannanoa, Buncombe County. Small deposits occur to the north and south of the main area and in widely separated sections of the Piedmont Plateau."

The cyanite area discussed were a deposit five miles west of Smithfield, Johnston County; a group of occurrences in the Burnsville, Swannanoa area; and a deposit near Slouss, Yancey County.

The article was accompanied by two photomicrographs of the samples of cyanite, one from Smithfield and one from Slouss.

At the present there is no commercial production of concentrated cyanite, although concentration tests are being made in a test plant near Burnsville.

# State College Developing New Type of Engineering

### Industrial Engineering Prepares Students for Administrative Technical Work

### FEW COLLEGES OFFERING NEW COMBINATION COURSE

### Technical Education is Combined With Business Training in Curricula

A new phase of engineering education looking toward better preparation of the student for the administrative work of factories and other technical projects is being developed at State College.

Industrial engineering, as the new course is called, is of relatively recent development as no college offered courses in it prior to ten years ago, and even today it is offered in only a few colleges in the country and only two or three in the South.

Instead of placing the entire emphasis of the four year curriculum on the strictly technical subjects, students in this course at State College are given an introduction into the administrative and operating phases of industry. While the strictly technical angle is not overlooked or subordinated, the course is designed to fill an oft-expressed want for college trained engineers who are better prepared for the managerial and executive responsibilities of present-day industry.

Of recent years some of the larger industries have taken groups of college graduates and at their own expense trained them for executive and managerial positions as opposed to the purely technical positions.

By beginning this type of engineering training several years ago, State College became a pioneer in this increasingly important phase of engineering training.

Need for Training  
Studies have shown that of the younger college graduates, the vast majority are in purely technical and

lower paid positions. The older graduates who have been out of college for ten or more years and have the benefit of experience in business show a reversed proportion, the majority being in positions of managerial and executive responsibilities. As a general rule the latter positions com-

mand the higher salaries. It is for these latter positions that the new course at State College is designed to prepare students.

Studies of costs, economies, values and organization are added to the basic technical costs to give the students a broader understanding of the business side of industry. Instead of being trained solely for the technical jobs, the industrial engineering students are trained for positions as superintendents, managers, secretaries and other such executive positions.

### THEY'RE Milder THEY TASTE BETTER

YOU would be astonished too, if you could see this machine that turns out 750 Chesterfields a minute... and every one as near perfect as cigarettes can be made.

But please bear this in mind. It is what happens before the tobacco goes into this machine that matters most. Rolling and packaging are important, but not nearly as important as the selection, blending and treatment of the tobacco.

That's why we keep telling you about the tobaccos used in Chesterfields. They're fine, mild, and pure tobaccos. We tell you about ageing and curing the tobaccos... about blending and cross-blending them... because they are things that count.

Chesterfields are milder. They taste better. Prove it for yourself... Just try a package.

Chesterfield Radio Program—Every night except Sunday, Columbia coast-to-coast Network.
