## EARLY DATE SET FOR COMPLETION OF TENNIS WORK

Vaughan Says Tennis Courts will Be Finished in Approximately Two Months

**SURFACING WORK NEXT ON PROJECT SCHEDULE**  
Courts Graded Last Year With \$200.00 Appropriation From Student Funds; Nets to Come From Athletic Department; Courts Designed by Experts; Plans for Improvement of Other Courts Not Made; Four Courts Now In Play

State College's four new tennis courts will be ready for use within the next two months, according to Professor L. L. Vaughan, who supervises college construction and maintenance. The courts were graded last year with a \$200.00 appropriation from the student activities fund. Recently sand for surfacing has been hauled and iron supports for the backstops have been erected. Wire has been purchased.

Work on the courts is now being carried on as part of the college maintenance and construction program. Nets and other equipment for the courts will probably be obtained from the college athletic department. The courts were designed by tennis experts last year, and, according to predictions, will be on a par with any in the state. The block of four courts occupies the site of old tennis courts which were small with unsatisfactory surfaces.

Plans for improving the remainder of the courts have not been made. At present there are four unimproved courts in use, although they are not in satisfactory playing condition. Sites for about sixteen courts are available.

## PAST PRESIDENTS TALK AT PHI ETA SIGMA MEET

Smoker Held in Honor of Freshmen Making Exceptional Grades Last Term

Phi Eta Sigma, freshman national honorary scholastic society, held a smoker Tuesday night, January 24, in honor of all the freshmen that made exceptionally high grades last term. Invitations were sent to 23 freshmen to attend the affair.

J. H. Barnhardt had charge of the program. Mark Wilson, who four years ago was president of the first chapter to be organized at State College, gave a talk on "The History of Phi Eta Sigma."

A. H. Couch, who was president of the organization last year, spoke to the group on "What Phi Eta Sigma Means to a Freshman."

At the conclusion of the talks smokers and refreshments were served. Bids will be extended within the next few days to the freshmen whose scholastic averages are equal to the requirements for admission into the society.

## "EVENS" LEADING "ODDS" IN COUNCIL ATTENDANCE

At the meeting of the Freshmen Friendship Council Wednesday night, January 25, the results of the attendance contest showed that the "Evens" were leading the "Odds" by a score of 77 to 72.

At the close of this contest, an entertainment will be given the entire Council by the losing side. John Albright McBrayer was appointed chairman of the program committee, and each discussion group is to elect a member to serve on the committee with him.

## DORMITORY RESIDENTS NUMBER 674 THIS TERM

Fewer Students Reside in Dormitories This Year Than Last, Says Wellons

There are now 674 students residing on the campus reports T. T. Wellons, superintendent of dormitories. This number is smaller than the number last term, which was 729.

Beginning with the next school year, all members of the football squad will be placed on one floor in Seventh Dormitory. The number of students in each dormitory are: Watauga, 93; First, 15; Fourth, 24; Fifth, 23; Sixth, 38; Seventh, 115; South, 133; 1911, 195; Y. M. C. A., 15; Gymnasium, 19; and Power plant, 2.

## College Gets Fire Engine Of Old Horse-Drawn Type

City of Raleigh Lends Ancient Steamer Engine for Laboratory Use; Engineers Will Use it in Fair Parade; Professor Park Says it was Powerful Piece of Apparatus in its Day; Park Member of Company Which Used it Years Ago

State College now has a fire engine. With the rims of its wheels smoking from crude foot-brakes, and nickel plate shining brightly in the afternoon sunshine, an old-time fire engine of the horse-drawn type drew up before the door of the mechanical engineering laboratory Thursday afternoon. Its wheels were slightly shaky, and its means of locomotion, an auto pump engine, which had pulled it from its resting place under the city auditorium, gave it a sort of inferior appearance, but it harkened back to a time when a fire engine without a horse was unheard of.

This engine has been loaned by the city of Raleigh to the Mechanical Engineering department, to be used in the laboratory in the shop building of that department for experimental purposes.

C. E. Park, instructor in the machine shop, who was at one time president of the Rescue Fire Company, which used this engine, says, "The

steamer passed into oblivion with the advent of the auto-pumper, but when it got up steam, it was powerful enough to rip off weatherboard, shingles and everything else."

The fire engine is now being stored in the garage in the rear of Page Hall, and it will see service in the Engineers' Fair parade, when a low steam pressure will be used to blow the whistle, and a smoky fire will be built for appearance.

Professor Park, when asked about the old steamer, told of various incidents concerning fire fighting in Raleigh. In the early days of fire fighting, before water works were established, bucket companies were organized which used small hand- or horse-drawn carts to transport the buckets. Water was then drawn from nearby wells, and the buckets were passed from hand to hand, to be emptied at the fire. This system was very inadequate, and a fire was rarely extinguished by this method.

## BEE MEN MEET AT STATE TODAY

Marketing and Preparation of Honey to Occupy Attention of Beekeepers

The preparation of honey for market and the marketing of this product by North Carolina beekeepers will be the principal subject to be discussed at the seventeenth annual gathering of the State Beekeepers Association, which will be held today in the zoology building.

Three interesting speakers on the program, according to C. L. Sams, beekeeping specialist for the college, will be H. W. Weatherford, extension specialist in beekeeping for the Virginia Polytechnic Institute; A. D. Hiett of Lynchburg, Va., and L. W. Hawks, successful beekeeper of Mt. Airy, Surry County. Mr. Hawks is president of the association this year.

Among the other speakers who will lead important discussions are: C. W. Cary of Norfolk, Va., Frank B. Meacham of State College, and Dr. Z. P. Metcalf, head of the department of entomology for the North Carolina Experiment Station. Mr. Sams will report on the progress being made in beekeeping in this state at the present time.

Beekeepers from both eastern and western North Carolina will be present for the meeting.

## PROF. JOHNSON WARNS SENIORS ABOUT CONCEIT

The danger of a graduating student feeling that he has "arrived," rather than a realization that he is only just ready to begin his work, was emphasized in a talk by Prof. T. S. Johnson at a meeting of Tau Beta Pi honorary fraternity, Wednesday afternoon, at 4:30, in Page Hall.

"Some students feel that they are wasting time on any course they take outside of their own department," said Professor Johnson. "Study must not be too narrow. Too much specialization is dangerous. The world expects the college graduate to be a leader in public life as well as in technological activities; so a student should keep up with worldly affairs. Make your best your criterion, and don't be guided by someone else's ability. Run not against the field, but against yourself."

## Bumming

Senator Corey, of Pitt County, who introduced the bill into the North Carolina Assembly recently to prohibit bumming, evidently really is against the idea of riding without paying.

D. Murray House, senior who hails from the same town as the author of the hitch-hiking law, tells this story: "Not long ago while home for the week-end I called Senator Corey Sunday night and asked him for a ride to Raleigh Monday morning. 'For five gallons of gas,' he told me." House hummed.

## COLLEGE WOMEN TO BE FEATURED IN TEXTILE SHOW

Annual Style Show to be Held in April, Announces Dean Thomas Nelson

**CLUB ELECTS OFFICERS TO MANAGE EXPOSITION**

Affair Will be Larger and Better Than Ever Before, Says Dean Nelson; Six Women's Colleges Accept Invitation to Participate; Possibility That Three More May Accept; Adams Elected Superintendent of Exhibits

Six North Carolina women's colleges have already accepted invitations to participate in the Style Show to be held by the Textile department of State College in April, and there is a possibility that three more colleges will accept the invitation.

At a meeting of the Tompkins Textile Society, held Tuesday night at 6:30, Dr. Thomas Nelson, Dean of the Textile School, announced that judging from the present prospects, the 1933 Textile Exposition and Style Show will be larger and better than ever before. Plans were formulated for the exposition and officers were elected.

The officers are as follows: Superintendent, John C. Adams; assistant superintendent, B. M. McConnell, carding and spinning department; foreman, A. H. Willis; assistant foreman, W. A. Blackwood; knitting department; foreman, F. A. Thomas, Jr.; weaving department; foreman, E. B. Caldwell, Jr.; assistant foreman, Hal Farris; designing department; foreman, W. H. Ward; assistant foreman, P. W. McCollum; dyeing and finishing department; foreman, C. E. Stout; assistant foreman, T. S. Blackwood.

## RICCARDELLI IS SPEAKER BEFORE LEAZAR MEMBERS

Ridout Gives Declaration at Meeting of Literary Society Friday Night

At a meeting of Leazar Literary Society last Friday night, E. S. Riccardelli gave a talk on "Life around New York City."

He held of the advantages and disadvantages of living in the metropolis, bringing to the members information about the city. A declaration was also given by F. E. Ridout. Professor Fountain stressed the point that the giving of declarations be encouraged in the work of the Society. Plans for the carrying out of future programs were discussed and each member was asked to give his ideas as to the nature of programs he would like to be presented during the school year.

The Society will meet again on Friday night, January 27, at 6:30.

## CASTLEBURY AND SEITZ TAKE OFFICE IN COUNCIL

Two New Members Sworn Into Office at Council Meeting Wednesday Night

J. S. Castlebury, sophomore councilman from the education school and E. W. Seitz, councilman-at-large from the New Bedford Textile Building, were sworn into office at a meeting of the Council Wednesday night.

Castlebury was elected at a special election recently to replace C. J. Thomas, who was eliminated under point system rules.

A report on the student loan fund revealed that \$175.00 is at present out on loans, with a balance of \$118.41 available.

## TEXTILES PICK OFFICERS FOR ANNUAL EXPOSITION

A regular business meeting of Phi Psi, national textile fraternity, was held Wednesday night, January 25, in the chapter room in the Textile Building.

The local chapter welcomed to membership E. F. Anderson of Pontiac, R. I., who before coming to State College was a member of Beta Chapter at the New Bedford Textile School, New Bedford, Mass.

## Dance Leaders

DORIS CHAMBLEE

SARAH RAND

Above are pictured the young ladies who will lead the figure at the mid-winter dances in the Frank Thompson Gymnasium on Friday and Saturday, January 27 and 28. Miss Rand is sponsor for W. F. Hanks, president of the Interfraternity Council and Miss Chamblee is sponsor for Burke McConnell, vice president.

## Chemical Research Aimed Towards Improving Health

State Department Making Quality Surveys of North Carolina Water Supplies

**LACK OF FUNDS HAMPERS SCOPE OF UNDERTAKINGS**

Public Health and Industry Expected to Benefit From Comprehensive Tests

By W. J. KELLY  
Among research problems being studied this year by students working under the direction of the faculty of the State College Chemical Engineering Department are several that bid fair to make important contributions to the economic and public health welfare of the State.

Although none of the problems are of the spectacular type of scientific experiment, they are all carefully carried out—results checked and rechecked—with the final result always being aimed to aid the state at large or some goodly section or interest therein.

For instance, one of the projects on which students are at work is a comprehensive survey of the chemical quality of public water supplies in Eastern Carolina. This study is being made in cooperation with the North Carolina Public Health Association. A great deal of emphasis is being placed on a careful analysis of samples to determine whether the supplies of towns and cities contain objectionable matter or chemicals.

An example of the importance of this kind of study is the close correlation between the prevalence of poor teeth and the occurrence of certain chemicals in the water supplies of Arizona towns and cities. It is not uncommon there to find children below the teen age wearing plates. This is attributed by some experts to the unusual chemical content of water supplies. This particular problem is just one of the factors that will be studied by the chemical engineers at State College.

It will, when completed, be of tremendous practical value to consumers who desire to locate industries in the section. Chemical content of the water of a section is often an important consideration in the location of manufacturing plants and other enterprises. Information derived from this study will be made available to all who are interested.

Curtailed appropriations at State College have cut down the number and scope of research problems being studied this year by the chemical engineering department. In past years, however, it has done a tremendous amount of work for industries and state agencies, but the faculty, research assistants and graduate students are carrying on a number of important projects this year despite the almost total absence of funds.

## TEN MEN ACCEPT BIDS TO CONTRACTORS' CLUB

Ten members of the Civil Engineering School accepted bids offered by the State student chapter of the Associated General Contractors of America, Tuesday night.

The initiation of these pledges will take place next Wednesday. Those pledged were: J. A. Willet, R. G. Browning, Jr., W. J. Brown, Hiram Bell, R. J. Casey, W. W. Merritt, G. M. Jordan, W. M. Porter, Hyman Dave, and C. H. Csel.

## MATTOON GIVES LECTURE SERIES ABOUT FORESTS

Pisgah Forest Supervisor Visits State on Tour of College Departments

**PUBLIC OPINION NEEDED TO STOP FOREST FIRES**

"Fire Control," "Wild Life Management" and "Recreation in Forests" Are Topics of Lecturer; Practically All Fires Are Caused by Carelessness; U. S. Service Serves Two Purposes; Ag Club Hears Illustrated Lecture Tuesday

M. A. Mattoon, supervisor of the Pisgah National Forest, made a series of technical lectures to the Forestry students on January 23, 24, and 25. Mr. Mattoon is on a tour of the forestry schools of the East, giving the students a practical view of forestry problems as handled by the government forest service.

On Monday morning, Mr. Mattoon lectured to the Forestry School on "Fire Control." In this lecture he stressed that, "Public sentiment must eliminate fires." He pointed out that 95 per cent of the fires in Pisgah National Forest were man-caused and only 5 per cent were caused by lightning. "This is a problem of local psychology and human engineering," he told this group. He went on to outline the system that was used to cope with the fires that were encountered in the Forest.

Mr. Mattoon talked to the juniors and seniors Monday afternoon on "Forest Management." He gave the dual purpose of the National Forest as providing headwaters of streams, and producing timber crops. He emphasized the importance of "cleaning up" after lumbering in order to encourage new growth and to prevent a fire hazard.

"Wild Life Management" was the subject of Mr. Mattoon's lecture to the juniors and seniors on Tuesday morning. "The wild life management is becoming more important because of the tremendous popular appeal, and because of the publicity it gives to the forest," he told the students. The biggest problem at present seems to be in excess of deer in certain localities. Mr. Mattoon described the method of trapping the mature deer and capturing the fawns that they might be transported to less concentrated areas.

He outlined the work being done in the Forest during which 315 hunters killed 191 deer. This hunt was experimental in reducing the number of deer and its results are yet to be seen. The last lecture given by Mr. Mattoon was Wednesday morning when he spoke on "Recreation in the National Forests." He spoke of the quarter-million people that visited the Forest each year and increased the recreation problem. "The spiritual, mental, and physical influences on people who visit the Forest is tremendous," said Mr. Mattoon. He described an adequate recreational program which would assist in solving problems that might come up.

Many of the upperclassmen held private consultations with Mr. Mattoon, seeking advice on different lines of forestry. Dr. Hoffman, head of the department of forestry, expressed his appreciation to Mr. Mattoon for his visit to the school.

## TWO HANDBALL COURTS COMPLETED BY Y. M. C. A.

Two handball courts have been completed in the north end of the basement of the Y. M. C. A. and are being opened today for the use of the students and faculty.

Two ping-pong tables have been in use in the south end of the Y. M. C. A. lobby for over a month, and are used by many.

## Nice Trip

Talmage Hoyle, a self-help student, will sail for Cyprus Island, in the Mediterranean Sea, in February to become the assistant representative of the London Imperial Tobacco Company in conducting a tobacco growing experiment on the island.

Hoyle made the acquaintance of the representative last summer when he was employed in Delhi, Ontario, Canada, in tobacco farming.

Hoyle's contract guarantees him eight months of employment at twenty pounds a month and transportation to and from Cyprus Island. In addition, if the tobacco farming experiment is successful he will have an interest in the project now anticipated by the tobacco interests in England.

### REPRESENTATION FOR TAXATION

Each State College student pays fifteen dollars per year fees for athletics, which is presumably expended under the direction of the faculty athletic committee for the institution's sport program.

The student body, however, has absolutely no voice in the policies of the group which handles approximately \$24,000 of its money each year. As those who make the program possible through physical participation, moral and financial support, it seems that they should have something to do with its direction.

A student representative on this athletic committee would seem to be a logical way to make this group more representative of the interests of all. As a duly elected official with prescribed qualifications, he would fill somewhat the role of the tribune in the old Roman government who plead the cause of the plebeians before the patrician rulers. His services and his voice would make for a better athletic committee.

Of course, his status will largely be determined by the college administration, since as yet student government at State College does not occupy the position of importance it holds in many schools. His would be a job that could fall into innocuous desuetude easily. He could be squelched at all times. However, it would be a step forward to have even a nominal representation; sometime the position might play a much needed part in college administration.

More and more it is being realized that students, after all, are an important part of the college, although this fact seems to have been neglected in the formulation of many college policies. Student responsibility has helped tremendously in government, publications, social life and many other phases of college affairs and may be counted upon as a loyal and progressive force.

The most forward colleges today are the ones in which students take an active part in the managing of their affairs.

Student cooperation and assumption of responsibility is much more likely to produce a harmonious and satisfactory college policy than the ancient idea of complete faculty domination. The student viewpoint is particularly valuable always, especially when it is expressed through qualified elected representatives.

### DEFENDERS OF LEARNING

Education is finding staunch supporters in North Carolina, as drastic budget reductions threaten the very life of a program conceived by far-seeing statesmen and thinkers.

Those who cry economy when economy has been carried to the danger point may well consider the protests of thousands who know that North Carolina must not turn back now.

How much influence this protest will exert in the halls of the budget-balancers is yet to be known. However, it seems clear that this voice is not the cry of educational lobbyists as in days of yore, but the demand of a people who see the curtailment of education as bad business from even a utilitarian standpoint.

An interesting sidelight on the Senate bumbling bill is the News and Observer's suggestion that drivers who pick up college boys learn something from them.

Those who pick up students just now learn that all of them are heartily against a bill which is prompted by no great need and will work hardships upon the college student.

If hitch-hikers are criminals, what a lot of jailable young men there are in the United States!

### SPRING WILL BE HERE

The promise that the four new tennis courts will be finished soon is good news to the State College student body.

The struggle for tennis courts has an ancient and honorable record on the State College campus.

Two years ago the agitation in THE TECHNICIAN got under way and the campus newspaper advocated strongly the provision of these necessary recreational facilities.

Editorial recommendation continued last year, ending when the courts were promised. A student activity fund appropriation of \$200.00 was used to grade four sites for courts.

On October 23, 1931, headlines in THE TECHNICIAN declared "College tennis gets attention of authorities; courts to be improved at once." On May 6, 1932, the newspaper quoted Dr. Brooks as saying, "Construction work will be completed as soon as possible." On October 21, 1932, Dr. Brooks said, "Final plans for completion have been made and work will be finished in the near future."

This week's issue of the paper tells of the pathetic plans of the tennis team to start practice—without courts. Passing days are bringing dreams of students happily exchanging volleys and smashes in the warm sunshine on State College's new courts.

It is hoped that no eventuality will prevent the courts from being placed in service on schedule.

### RENAISSANCE

Just at this time every year the campus takes on new life. A flood of news items this week heralds this annual awakening, when students arise from the lethargy of the first term and begin to do things.

Political rumblings, reform movements and plans will predominate until the climax near end of school.

Reasons for this trend are not hard to discover. Organizations swing into their full functioning ability. Realization that the end of the year is in sight inspires students to make the most of the remaining time.

The only regret is that this renaissance does not happen earlier, for it is the beginning of the positive forces which change student life for the better.

There are many things worthy of the thought and consideration of students who are interested in influencing college life. So let these springtime urges be nurtured and presented full-blown in this annual period of struggle and reform.

For the eighth consecutive time Huneycutt's clothing store has been robbed. This small crime wave should be given every attention by local police authorities. Such things have a tendency to spread and the college community can get along very well without any more robberies.

Delta Sigma Pi announces that Dr. Bernstein will speak on Technocracy at their next meeting. His remarks will be awaited with interest, just to see how an economist regards the abandonment of the price system upon which his profession is constructed.

Considerable comment has been heard concerning the indefinite appropriation of library books by professors. It seems that many students have held strong opinions on the subject for a long time, and, surprisingly enough, the library itself is in favor of some restriction for professors who have had out numbers of books for a number of years.

## College Opinions

### RESULTS RATHER THAN MEANS

It would seem to be in line with the policy of a progressive university to eliminate in so far as is possible all elements in its educational system which smack of the secondary school. A system of compulsory attendance in a high school is very necessary in the light of the kind of work and the attitude of mind which is usually held towards such work by students of a secondary school. There is a given task assigned to both teachers and taught, a definite curriculum which does not allow for much variation from the prescribed subject-matter. This training of youth in the essential background of the intellectual field seems well-advised.

In college, however, there is an entirely different problem to be faced. It is taken for granted, or at least it should be, that men and women come to college of their own free will and with a desire for learning. Otherwise they have no place on the college campus. If they attend our University, they then find themselves, after the first two years' work, given a wide range of subjects and corresponding courses which they may take up. Given as they are freedom to choose their field for more intense concentration, it does not seem quite logical to make any requirements as to class attendance, especially inasmuch as the students have elected to study the subjects which they are taking up.

A system of compulsory attendance in a university would seem to indicate a basic lack of belief in the sincerity of college students. It does, indeed, appear strange that students, supposedly adults, should be required to be educated; and then in the same breath, be subject to a discipline, apparently enforced to prevent them from not choosing to be educated. The fallacy in this kind of obligatory attendance indicates better and more work. It is everywhere tacitly admitted that physical presence in a classroom in no way guarantees attention. It is possible to conceive, then, of a student of great ambition and intellectual curiosity who attended his class only fifty or sixty per cent of the time. Similarly, it is possible to conceive, and this more universally, of a student of little or no intellectual interest attending class like a well-constructed robot.

It is not necessarily true that a system of optional attendance would mean less actual class attendance than under a compulsory ruling. If the professor's lectures were of a stimulating sort and if his comments on difficult points led and inspired, the student who cut would be using bad judgment. On the other hand, if the professor makes use of his class period merely to rehash what is already well stated in a good textbook, then it would seem that class attendance should be of secondary importance. In a system of optional attendance, a professor is able to check up on that all-important question of whether or not he is getting his material across by the size and regularity of his audience. In this way, more of real, sincere interest would be aroused in the student, and a far more frank and honest relationship would be established between professors and students. Let the discipline of the college office be exercised from the point of view of results rather than means. The day of paternalism is passed. Let marks, not bodily presence in a lecture room, be an indication of a student's sincerity of purpose.—Carolina Daily Tar Heel.

## SCENES and SAYINGS

On the day following the editorial in THE TECHNICIAN concerning the faculty habit of indefinitely borrowing books from the library, Dr. E. M. Bernstein was seen entering the library with an armful of books. Perhaps the State College professors may not, after all, break this record: "Cambridge, Mass.—(IP)—An elderly Scotsman who borrowed a book from the Cambridge Public Library in 1894—38 years ago—took advantage of a fineless week at the library to return the book."

At all times on the campus you can hear the rhythmic beat of the hammers on copper pennies in the effort to increase their dimensions to the size of a nickel for use in the pay telephones. State College boys are credited by the telephone officials with inaugurating the system of beating the toll.

### MATTOON GIVES LECTURE SERIES ABOUT FORESTS

(Continued from page one)

encouraged because it benefits a large number of people.

The wild game in this area is protected and fish are being bred to be put into the streams. The government has about one thousand head of cattle grazing on the grass in the open spaces in the forest between the months of May and October. During the other months these cattle are kept on government farms. The number of cattle that are kept is regulated by the amount of available grazing range in the forest region.

Mattoon showed some very good pictures of fire destroying good timber and fire devastated regions. He also showed some very beautiful scenes of the forest in the summer, concluding with a picture of a girl in a bathing suit about to dive into one of the many streams of Pisgah National Forest.

### ALPHA ZETA ENTERTAINS AG SCHOOL SOPHOMORES

The Alpha Zeta fraternity entertained all the sophomores in the school of Agriculture and Vocational Agriculture at a smoker last Monday night 7:00 o'clock. There were approximately 50 students present besides the fraternity members.

Robin Williams, chancellor, made a speech of welcome to the guests. He spoke on the organization, its purpose, and the standards by which the organization chooses its members.

Prof. D. S. Weaver spoke on the "Work of the Alpha Zeta" and "The Need for Leadership in Agriculture in the Present Crisis."

### Less this year

The number of Chinese students going abroad this year is half that of 1931, according to the figures of the World Chinese Students' Federation, Shanghai. From July 1st—1930—June 30, 1931, 1,228 students sailed for foreign lands. From July 1st, 1931—June 30th, 1932 only 542 students applied to the Chinese Government for permission to study abroad.

Of the 542 going abroad this year 150 go to America, 131 to Japan, 121 to France, 74 to Germany, 29 to Belgium, 28 to Finland, 3 to Canada, 3 to Sweden, 2 to Italy and 1 to India. There is a great decrease in the number going to Japan; in 1931, 674 went there.

### Strike Works

Commonwealth College at Mena, Arkansas, is dedicated to the teaching of future labor leaders, and students are taught all the details of carrying on successful strikes. The teachers did their work so well that two-thirds of the student body was able to take control of the campus in a strike for more student representation on the board of control.

### Honorist Honored

The student at Wellesley College have elected Will Rogers as honorary member of their class.

## KIRBYE LECTURES TO SOPH CABINET

### Talks on "Our Source of Power For Moral Transformation" Thursday

Dr. J. Edward Kirbye, pastor of the United Church, was the speaker at the Sophomore Council meeting last night in the Y. M. C. A., talking on "Our Source of Power for Moral Transformation."

"It is the realization of what we may be that we should think of when we begin to climb the highways of life," stated Dr. Kirbye, "and when started, the human spirit can go long distances when it sets out to do so."

He illustrated several personal cases to the group in which the individual although confronted by great odds managed in the end to achieve success.

He said, "The two factors that are necessary to bring out the resources that are within us are: an open mind about all things, and a desire to work. No one has ever accomplished anything or progressed very far without putting into it the thing his own power."

"Contrary to the thoughts of some that at the present time most of the fields of endeavor are overcrowded, any problem that you may want to consider is not complete, and can be carried on a bit further than the originator. There are innumerable fields in which to work."

He advised a thorough education as a most beneficial step in the securing of power for transformation, and stated that "one of the greatest problems of today is to 'democratize' education."

"In comparison of our modern economic problems," Dr. Kirbye said, "in comparison with Jesus Christ, no man has ever been up against any problem as the one He faced, but through His great power He started a movement that lasted through the centuries."

"You are bound to win if you face life with a real force," asserted Dr. Kirbye in closing.

### Dr. Metcalf Talks

Dr. Z. P. Metcalf made a talk Wednesday before the Raleigh Tea and Topics Club on "The Thinking Machine."

He talked to the Smithfield Kiwanis Club Thursday on "Sense and Nonsense."

## May be a Reality Soon

## Prosperity

The strains of "Pay Day" played by the Drum and Bugle Corps brought the good news to the campus Tuesday, January 24 that it was pay day for 134 Juniors and Seniors in the R. O. T. C. regiment, who received approximately \$3,600 for the quarter, October 1 to December 31, 1932.

Each Junior and Senior received thirty cents a day for the 92 day period or \$27.60.

The Juniors received the largest cash balance that they have received, as their pay in the past has been used in making up an advance payment in the purchase price of their uniforms. This money is paid back to the students by the government on a monthly uniform allowance basis.

### Real Troupers

It is traditional that "the show must go on," regardless. From State College players staging one of their productions the night an earthquake rocked the Pacific West, upheld the tradition in true trouper style. Although frightened the amateur players continued to speak their lines, as chancellors in the auditorium ceiling swayed, and the scenery "flashed" threatened to crash down on them. Their courage was credited with preventing a small panic among the audience.

Greatest value ever offered. Another of the famous Friendly Five Family \$5 ALL STYLES Spurs, and accessories.

**SAMPLE SHOE STORE**  
218 1-2 S. WILMINGTON ST.

## How To Avoid BONERS

A SATIRE IS 50% GOAT

THIS sort of thing has gone too far! When asked what product we get from whales, Bill Boner said, "Little whales."

Let's take action at once. Get him a good pipe and a tin of good tobacco. We all know a pipe smooths out the wrinkles, clears the mind for its best thinking. And we all know what smoking tobacco goes best in a good pipe. For a recent investigation showed Edgeworth to be the favorite smoke at 42 out of 54 leading colleges.

Next time you "crum" for an exam, light up a pipeful of Edgeworth. Ah! See how that different blend of fine old burleys makes even the toughest

problem a whole lot easier.

Buy Edgeworth anywhere in two forms—Edgeworth Ready-Rubbed and Edgeworth Plug Slice. All sizes—15¢ pocket package to pound humid tin. If you would like to try before you buy, write Larus & Bro. Co., 120 S. 22d St., Richmond, Va., for a free sample packet.

**EDGEWORTH SMOKING TOBACCO**

## State Boxers to Meet Duke Saturday In Durham at 4:00

Close and Spectacular Matches Expected in Both Varsity And Frosh Matches

### VARSITY TIES CAROLINA AS FRESHMEN LOSE, 5-3

Billsoly, Garner, Dunaway and Fabri Win in Fights at Tin Can Saturday

Another boxing match similar to the staged last Saturday night in the Tin Can at Chapel Hill between Carolina and State College is expected when the State varsity and freshmen teams meet Duke in Durham Saturday afternoon at 4 o'clock.

Duke has been on State's schedule since boxing was organized here three years ago, and the individual fights put on by punchers of these two institutions are always regarded as among the most spectacular in North Carolina.

Coach Bill Beatty's freshmen are in fine shape and ready for whatever the Blue Imps may offer.

The varsity fighters for State are: Billsoly, 115; Neese, 125; Rhyne, 135; Capt. Garner, 145; Dunaway, 155; Fabri, 165; Hull or Hall, 175; and Stephens, unlimited.

The freshmen pugilists who will start against the Baby Blue Devils are White, 115; Beddoes, 125; Peacock, 135; Hudson, 145; Landis, 155; Stein, 165; Brinson, 175; and either Fox or Sutton, unlimited.

**LOSS TO CAROLINA**  
The State College varsity boxers fought the University of North Carolina pugilists to a 4-4 draw while the Tar Heel freshmen eked out a 5-3 decision over the State freshmen in the Tin Can at Chapel Hill, Saturday, January 21.

Three of the varsity engagements were decided by knockouts. Quarles of Carolina kayoed Rhyne in the third round in the 135 pound class, Dunaway of State shellacked Berke in the second round, while Landis of Carolina technically knocked the beezers out of Stephens in the first round.

**Varsity Summaries**  
115—Billsoly, State, won over Glover, decision.  
125—Levinson, Carolina, won over Neese, decision.  
135—Quarles, Carolina, won over Rhyne, technical knockout, third round.  
145—Garner, State, won over MacIntosh, decision.  
155—Dunaway, State, won over Berke, technical knockout, second round.  
165—Fabri, State, won over Giddens, decision.  
175—Brown, Carolina, won over Hull, decision.  
Unlimited—Landis, won over Stephens, technical knockout, first round.

### STATE SWIMMERS LOSE TO DUKE IN FIRST MEET

Duke Takes 56-28 Decision Over State Tankmen in Durham Saturday Night

State College swimming team lost their first meet of the season to the Duke University tankmen, 56-28 at Durham, Saturday, January 21.

Carter of Duke was the high score with eight points.

**Summary:**  
400-yard relay: Won by State (Moorman, Shepherd, Carter, Dinkelspiel.) Time 4:08.  
200-yard breast stroke: Won by MacAnally, Duke; Watson, Duke, second; Roby, State, third. Time 3:12.5.  
150-yard back stroke: Won by Varel, Duke; Bagby, State, second; Whitmarsh, State, third. Time 1:55.7.  
50-yard dash: Won by Shepherd, State; Carter, State, second; Smith, Duke, third. Time 27 seconds.  
440-yard free style: Won by Burke, Duke; Carter, Duke, second; Dinkelspiel, State, third. Time 5:55.4. (New pool record, old record 6:15 held by Sipple, Duke.)  
100-yard dash: Won by T. Losee, Duke; W. Losee, Duke, second; Carter, State, third. Time 3 minutes.  
Fancy diving: Won by Finkel, Duke; James, Duke, second; Bhhn, State, third.  
220-yard free style: Won by Carter, Duke; Burke, Duke, second; Moorman, State, third. Time 2:35.5.  
300-yard medley relay: Won by Jones, MacAnally, Varella, T. Losee. Time 3:06.

### Surveying Injuries

The School of Education of New York University conducted a survey of football injuries in high schools and colleges last year, and will conduct the survey on a much larger basis this year. A total of 500 institutions are to be asked to cooperate in the survey.

### Campus Boxing

Unusual interest is being shown in the coming intramural boxing tournament which will be held in the gym on February 3.

### CAMPUS TEAMS ACTIVELY ENGAGED

Basketball and Handball Tournaments Enter Second Round; Boxing Meet on Feb. 3

Fifteen fraternities and fourteen dormitory clubs continued active participation in the winter program of intramural sports, which include basketball, boxing, and handball.

Each fraternity and dormitory club is allowed to enter eight men in the boxing tournament, one in each of the weights, which are as follows: 115, 125, 135, 145, 155, 165, 175, and unlimited.

Contestants in each weight will be eliminated until there are two boxers left for the finals, which will be held on Friday, January 10.

Mr. Miller has organized a new league for those rooming off the campus. Thus far the Juniors lodging off the campus are leading that league with two victories and no losses.

The seniors and sophomores show one victory and one loss. The freshmen are in the cellar with two losses and no victories.

In the fraternity basketball league Beta Sigma Alpha faces Kappa Alpha on January 30. On January 31 Delta Sigma Phi meets Phi Kappa Tau at 8:00, while Alpha Kappa Pi versus Pi Kappa Alpha at 8:15.

In the fraternity handball tournament Sigma Pi faces Sigma Phi Epsilon on January 30. On January 31 Sigma Nu meets Alpha Gamma Rho, while Theta Phi faces Alpha Kappa Pi in the quarter finals.

In the quarter finals of the dormitory basketball tournament Second Floor 1911 faces Second Floor South on January 31 at 6:45. At 7 p.m. of the same night First Watauga faces Sixth Dormitory in the quarter finals.

The dormitory handball schedule shows Third 1911 to meet First 1911, while First Watauga meets Third Seventh on January 30. On January 31 Sixth Dormitory meets Fifth Dormitory and Second South Second Seventh.

### FROSH QUINT SCHEDULED FOR TWO GAMES AWAY

Yearlings Meet New Hanover High And E. C. T. C. on Trip; Techs Have Good Record

The freshman basketball team will try to continue its winning ways this weekend, playing two games away from home. Tonight they play New Hanover High at Wilmington and tomorrow Eastern Carolina Teachers are engaged at Greenville.

Players making the trip are: Forgyards, Sherrill, Aycock, Harris, Pratt; centers, Flythe, Zori; guards, Hockfield, Womble, Williams, Guzas.

The Techlets have made a fine showing in their games so far this season, averaging 49 points a game. It is reported E. C. T. C. has greatly improved since the Little Terrors beat them 52-19 in the first game of the season.

### RIFLE TEAM REGISTERS SECOND WIN OF SEASON

Whitehead is High Scorer in Victory Over Dayton; Six Matches This Week

The N. C. State varsity rifle team defeated Dayton University by a score of 3,558-3,508 this week, in the second postal match that they have had this year and the second victory for them.

The high score was made by Captain P. D. Whitehead, Jr., who shot a score of 366 out of a possible 400, and the second high score for the team was made by E. R. Daniels, who shot 363.

Others shooting in the match and their scores were: J. S. Whitley, 363; M. L. Andrews, 362; J. M. LeRoy, 360; F. H. Hube, 357; H. F. Cameron, 347; R. E. Tew, 347; F. E. Ridout, 347; E. H. Moser, 346.

The matches for this week are with Annapolis, Auburn, Penn State, University of Florida, Texas A. & M., and Norwich University.

**for RESULTS use the CLASSIFIED ADS**

### State's Number One Quintet

These Red Terrors will leave Sunday morning with Coach Ray Sermon for a four day invasion of Virginia colleges. Allen Nelms, Gb Clark, Ralph Johnson, and George Beaghen are seniors while Leroy Jay is a junior. Virginia Polytechnic Institute, Washington and Lee, Virginia Military Institute, and the University of Virginia are the foes to be met on this trip.

**Sleeping Tests**  
Antioch College is the locus for a sleeping experiment during this five weeks, for the purpose of finding out just what results will accrue from having early and regular sleeping hours. Seven girls are participating in the test. They have agreed to be in bed not later than 10:30 every night except Saturday, when they are allowed to be up till 12:30. The girls say, "We want to be able to get as much sleep as we want or need."

### SPRING FOOTBALL STARTS MONDAY

"Clipper" Smith Returns to Campus to Inaugurate Regular Off-season Drills

Spring football practice for State College's Wolfpack will begin Monday, January 31, and continue for five or six weeks, announced Head Coach "Clipper" Smith.

Uniforms will be handed out to the candidates Saturday, January 28. The first few days will be devoted to calisthenics and the fundamentals of football. Scrimmages will not be a part of the program until the first or second week in February.

Coach Smith intended to return to the campus during the first week in January but an attack of the flu prevented his arrival until a few days ago.

Eight members of last fall's team will be lost by graduation. Capt. Espey, who played every minute of almost every game this past year, heads the list; others who will be missed are Hank McLawhorn and Charlie Jeffrey, backs; Reid Tull and Willie Duke, guards; Milo Stroupe, tackle, and Allen Nelms and Bob Geason, ends.

No word has been heard from Charlie Cobb, but rumors say he will return next fall.

Coach Smith will again be assisted by Frank Reese, who has been with Coach "Clipper" since 1931.

### Helping the Press

Friedrich Wilhelm Von Prittwitz, German Ambassador to America, and the rest of the German embassy staff figured in a farce put on by Senator Huey P. Long for a reporter for the *Princetonian*. The story relates how the Louisiana Senator, wishing to create a "news" event for a Princeton cub reporter, called up the German embassy and declared that the German government had insulted the American government. It developed that the insult was merely the failure of Herr Von Prittwitz to serve beer to the Southern Senator, when the latter visited the embassy.

### Terrors Will Leave Sunday On Four-Day Virginia Trip

#### Tournament

The eighth annual basketball tournament conducted by State College students under the supervision of J. F. Miller, professor of physical education and director of intramural sports, will be held in the college gym on March 2, 3, and 4.

This tournament is made possible by the students who each year lodge and entertain the six or seven hundred boys who represent the various schools throughout the state.

Thus far over sixty teams have entered and the whole student body will wait for their arrival to make their stay here a pleasant one.

#### TENNIS MEN MAKE PLANS FOR ORGANIZING SQUAD

Five Members of Last Year's Team Will Take Part Again This Season

A meeting of the tennis team was held Wednesday night, January 25, to formulate plans for the coming year.

Five members of last year's varsity team are expected to participate in matches again this year, and a number of others have indicated that they will also play.

For the first time in a number of years, a freshman team will be organized.

The club is confronted with the problem of securing enough finances to buy tennis balls, as there is no college appropriation made for the tennis club.

Henry Saunders is the manager of the club, and stated that he hoped to secure the services of Prof. H. T. Leffer again this year as coach.

Matches will be held with nearby colleges and perhaps a match with some institution in Virginia. The lack of finances prohibit any long trips.

### Sermon's Charges to Play V. P. I., Washington and Lee, V. M. I. And Virginia

#### BROWN MAY BE ELIGIBLE IF OFFICIAL IN ERROR

Duke Wins From State in Thriller Saturday Night by Score Of 36-29

The State College basketball team will leave Sunday morning on their four-day invasion of Virginia colleges.

On Monday, January 30, the Terrors meet V. P. I. at Blacksburg, on Tuesday they meet Washington and Lee at Lexington, and on Thursday they meet the University of Virginia at Charlottesville.

There is a possibility of Jimmy Brown becoming eligible. It is reported that the president of the Southern Conference read the wrong rule and declared Brown ineligible. State College officials are attempting to straighten out the affair and have Brown, who was a star forward last year, once more flash the colors of State College.

Dr. R. R. Sermon, basketball coach, is taking the following men with him on this trip: Jay, Johnson, Partel, and Lambert, forwards; Beaghen and Avera, centers; Clark, Nelms, McQuase, Rex, and Dixon, guards.

**Duke Game**  
The State College Red Terrors lost another Big Five game when Duke University defeated them, 36-29, Friday night, January 20, in the college gymnasium before a large crowd.

After the first three minutes of play, State came to life and turned what looked like a one-sided basketball game into one of the most spirited ever played in the gymnasium at State. The Terrors took the lead from the Blue Devils, but were constantly on their heels.

# You smoke a Pipe

and we'd like to talk with you about it

All races of people since the beginning of time, so far as we have been able to read, have had some kind of a pipe and have smoked something—whether they called it tobacco or what not.

AND since smoking a pipe is so different from smoking a cigar or cigarette, we made a most painstaking, scientific study in an effort to make, if we could, a tobacco which was suited to pipes.

We found out, first, that there was a kind of tobacco that grew in the Blue Grass section of Kentucky called White Burley, and that there was a certain kind of this tobacco which was between the tobacco used for cigarettes and the tobacco used for chewing tobacco. It is this tobacco which is best for pipes.

We found out that Mr. J. N. Wellman, many years ago, made a pipe tobacco which was very popular. But it was never advertised and after he passed away nothing more was heard about it. We acquired this Wellman Method and that is what we use in making Granger.

Next was the cut. We knew that fine tobacco burnt hot because it burnt so fast. You could hardly hold your pipe in your hand, it got so hot at times. So remembering how folks used to "whittle" their tobacco we cut GRANGER just like "whittle" tobacco—"Rough Cut." It smokes cooler, lasts longer and never gums the pipe.

So far, so good. Now we wanted to sell this tobacco for 10c. Good tobacco —right process—cut right. So we put Granger in a sensible soft foil pouch instead of an expensive package, knowing that a man can't smoke the package.

GRANGER has not been on sale very long, but it has become a popular smoke. And we have yet to know of a man who started to smoke it, who didn't keep on. Folks seem to like it.

Liggett & Myers Tobacco Co.

# ... SOCIETY ...

## Phi Epsilon

Phi Epsilon, co-ed sorority, entertained Monday evening at an informal dance and buffet supper at the home of Prof. and Mrs. R. O. Moen on Clark Avenue.

The lower part of the house was thrown en suite and decorated in purple and gold.

Dancing was enjoyed throughout the evening and punch was served. At 11:00 o'clock box lunches which had been prepared by members of the society were auctioned to the boys present.

Members of the society present were: Misses Catherine Harding, Mary Hugh McDonald, Evelyn Rigan, Hazel Beacham, Sue Pearce, Elizabeth Maynard, Eloise Gibbs, Mildred Pittman, Elizabeth Galtner, Corinne Schaub, Marguerite York, Lillian Honeycutt, Edna Mae Halverson, Emily Upchurch, and Elizabeth Garret.

Guests of the sorority included: Misses Alice Gilliam and Josephine Arnett of Meredith College, and Elizabeth and Marguerite Colwell and Clyde and Beatrice Cotner.

Chaperones for the evening were: Prof. and Mrs. Moen, Prof. and Mrs. J. D. Miller and Prof. and Mrs. Weaver.

## Co-ed Honored

Charles Horton and Miss Sue Pearce entertained a number of State College students at a surprise dance at the Carolina Pines Club Saturday evening in honor of Miss Elizabeth Maynard's seventeenth birthday.

Dancing was enjoyed from 9 until 12, and punch served the guests.

Guests present were: Misses Elizabeth Maynard, Eloise Gibbs, Flora Yeargen, Hazel Beacham, Eleanor Green, Clara Sanderson, Elsie Hayes, Charlotte Fuller, Hilda Fuller, Clyde Cotner, Athelna Holland, Frances Harvey, Genola Kasantz, Maxine Lassiter, Mary Ellen Edwards, and Mary Elizabeth Champlin.

Chaperones were Mrs. A. K. Pearce and Mrs. J. W. Fuller.

## Sigma Nu

Members of the Sigma Nu fraternity of State College entertained at a unique and enjoyable party Saturday evening at their home on Clark Avenue.

Refreshments of pimento and chicken salad sandwiches and fruit punch were served.

Young women attending were Miss Mary Ellen Lawrence, Miss Minnie Hughes Rogers, Miss Letitia Mason, Miss Elizabeth Park, Miss Sallie Pat Kafer, Miss Florence Hughes, Miss Janie Jolly, Miss Martha Ruth Kendall, Miss Irene Little, Miss Kildice Tucker, Miss Mabel York, Miss Julia Drake, Miss Nell Joslin, Miss Foy Allen, Miss Edith Wyatt, Miss Sara Crabtree, Miss Mary Helen Stewart, Miss Ella Mae Neill, and Miss Margaret Vass.

## Announcements

There will be a meeting of the State student chapter of the A. S. M. E. in Page Hall Tuesday night at 6:30. E. J. Graveley, Chairman.

There will be a meeting of the Leazar Literary Society in Leazar Hall tonight at 6:30. Joe Salem, President.

There will be an important meeting of the Radio Club tonight at seven o'clock. All Raleigh amateurs are being urged to attend. Joe Abernethy, President.

There will be a meeting of candidates for the varsity and freshman tennis teams Wednesday, February 1, at 5 p.m. in the basement of Pullen Hall. Henry Saunders, Manager.

Leazar Literary Society will meet on Friday night, January 27, at 6:30. J. R. Salem, President.

The Watagan office will be open Wednesday, Thursday, and Friday, February 1, 2, 3, for the distribution of the January issue. Editor.

Dr. L. E. Hinkle will meet with the International Relations Club Thursday, February 2, in the Y. M. C. A. All new members are urged to be present and the public is cordially invited. Frank I. Busbee, President.

I wish to thank the Junior Class for their remembrance at the death of my father. Joe Dixon.

## Palace Theatre

Zane Grey's famed action-romance, "Wild Horse Mesa," done into a movie with a cast headed by Randolph Scott, Sally Blane, Fred Kohler, Lucille La Verne, Charley Grapewin and Jim Thorpe will play at the Palace Theatre Friday and Saturday.

Scott's trouble with Kohler, head of a band of outlaws, comes to a head when he blocks the latter's attempt to capture the wild horses by extremely brutal means.

George M. Cohan for President! That's the resolution that has been adopted by the Hollywood, Calif. Breakfast Club, and the New York City Friars Club.

And it's not based on the fact that the veteran author, actor, producer and composer is cast in the role of a candidate for President in his first talking picture, "The Phantom President," in which he is featured with Claudette Colbert and Jimmy Durante which plays at the Palace Theatre Monday and Tuesday.

## Capitol Theatre

The management of the Capitol Theatre announces the engagement of Hazel Green and Her New Yorkers for Monday and Tuesday. Among the twenty people in the show are Jimmy and Betty Page, "Two Pages of Comedy," who present a new and hilariously different type of comedy. The Memphis Collegians Band furnish the music for the Six Orchids, a bevy of carefully selected beauties. Stage performances will be given three times daily at 3:30, 7:00, and 9:15 p.m.

The feature picture for Monday and Tuesday will be "Air Hostess" with Evelyn Knapp, James Murray, and Thelma Todd. It is a particularly exciting picture, as well as a novel one, with one of the most amazing climaxes ever brought to the screen in the form of a crashing of a plane only a few yards ahead of a passenger train.

Playing Wednesday at the Capitol Theatre is Paramount's Olympiad

fare, "Milton Dollar Legs" said to be one of the most insanely funny pictures ever filmed. Not even the various comedies in which the Four Marx Brothers have appeared reach so high a pinnacle of sheer, nonsensical buffoonery as does this picture, according to advance reports.

## State Theatre

With Charles Laughton, Richard Arlen, Lella Hyams and Bela Lugosi in featured roles, Paramount's picture of H. G. Wells' "Island of Lost Souls," which will be shown at the State Theatre on Monday, Tuesday and Wednesday.

The picture marks the first appearance of Paramount's "Panther Woman"—Kathleen Burke, who was chosen for the featured role from over 60,000 entrants in a nation-wide contest.

Completing this program is a musical comedy "Speaking of Operations," a talker "Betty Boop M. D.," a screen Souvenir and a Sound News.

The story of "Twenty Thousand Years in Sing Sing," which comes to the State Theatre on Thursday, Friday and Saturday, was hailed by many critics as a sensational human document when it appeared in book form. It is said to have gained in sheer thrilling intensity in its dramatization for the screen, as it presents the amazing story of a 1000 men without women and 1000 women without men, who can not get along without their men.

A comedy "Dangerous Females," with Marie Dressler and Polly Moran, a cartoon, "Shorty Whose Santa Lives," and a Sound News completes this program.

## Wake Theatre

Monday and Tuesday, John Barrymore and Helen Twilvetrees will appear in "State's Attorney."

Wednesday and Thursday, "Sit Tight" will be shown with Joe E. Brown and Winnie Lightner as comedy stars.

Friday and Saturday, Dorothy Jordan, Eric Linden and Roscoe Ates give excellent performances in "Road House Murder." A Mickey Mouse cartoon comedy and another chapter of "The Last of the Mohicans" will also be shown.

# It's fun to be fooled — ...it's more fun to KNOW

ILLUSION: This very old illusion was invented by Indian fakirs. The secret was unearthed in 1849 by the great magician, Robert-Houdin. At that time, ether had just been discovered, and little was known about it. Houdin claimed that he had discovered that this new anesthetic could make people light as air. To prove it, he caused the subject to rise into the air and float apparently suspended. He passed a hoop around the body to show there were no wires or supports.

EXPLANATION: There are many, many explanations for this old trick. One is that the girl wears a concealed harness, which ends in a socket between her shoulder blades. This is attached to a piston below the stage. The piston is pushed up from below, causing her to rise in the air. The piston is invisible, because it is covered with mirrors which reflect surrounding draperies, similar to the background. The magician can pass the hoop over her body because it is cut in one place. It can be pulled apart for a second when it passes the piston.

SOURCE: "Modern Magic" by Professor Hoffmann. George Routledge & Sons.

Another "magic show" is cigarette advertising. One of its greatest tricks is the illusion that cigarettes can be made miraculously "MILD" through manufacturing methods.

THE EXPLANATION: All popular cigarettes today are made in modern sanitary factories with up-to-date machinery. All are heat treated—some more intensively than others, because raw, inferior tobaccos require more intensive treatment than choice, ripe tobaccos.

The real difference comes in the tobaccos that are used. The better the tobacco, the milder it is.

It is a fact, well known by leaf tobacco experts, that Camels are made from finer, MORE EXPENSIVE tobacco than any other popular brand.

This is why Camels are so mild. This is why Camels have given more pleasure to more people than any other cigarette ever made. It's the secret of Camels' rich "bouquet" ...their cool flavor...their non-irritating mildness.

All the natural, ripe goodness of Camel's tobacco is kept fresh for you by the famous air-tight, welded Humidor Pack. Don't remove it.

NO TRICKS ..JUST COSTLIER TOBACCOS IN A MATCHLESS BLEND
