### BRING IT UP-TO-DATE

As plans for the 1933-34 edition of the college catalogue go along, some attention might well be given to revising the section on student activities in this important organ which is studied by prospective students and used as a general reference by all members of the college community.

The present information, which has been changed very little for years, does not give anywhere near a true picture of student life. Defunct organizations are described, while recently-founded groups do not appear at all. Important reorganizations and radical changes in policy have occurred since the far-distant day when the original information was compiled. One glaring omission is the failure to mention the annual student exhibitions and functions which are now a salient feature.

The reason for the incorrectness, no doubt, is that the book is edited by a faculty member who has neither the time nor resources to change it properly. It would be entirely worth while to employ a student to check and amplify this section each year. Student institutions change more than any other phase covered by this publication. A modernized description will present a much more attractive picture because of the many improvements in the past few years.

Parents are interested in the page setting forth the costs, but the prospective student probably studies the student activities section more than any other part of the book. It is important, too, that all have access to correct information about student institutions.

### BEST TO OBSERVE THE LAW

Students should take to heart the little warning issued by the City of Raleigh in arresting fifteen for violation of the ordinance which prohibits soliciting of rides from the street proper. Prompt release indicates that it was just a warning, but no doubt succeeding offenses will be punished.

There is nothing but justice in the law that "thumbers" should stay on the curb. Both the motorists and the student are in danger when the law is not observed. Last year the Commissioner of Safety appealed to students through the columns of THE TECHNICIAN to comply with the law.

"Bumping" is possible only through the indulgence of the public and it is an imposition for students not to carry on the practice in the most safe way possible.

More weight is given the arguments of those who favored a recent bill to abolish the practice altogether when this ordinance is violated. "Bumping" in the manner approved by local authorities will assure its continuance—something which the whole student body desires.

### BRING THEM BACK

Discussion on the matter of professors keeping books overtime from the library reveals that students, too, are guilty of this same thing in a slightly different way.

Many books kept past the two-weeks period are never returned through fear of excessive overdue charges. Library officials are interested in getting these books back, and never charge excessive fines. All is forgiven if the book is returned.

In other cases, a book is passed from hand to hand during the two-weeks period until the original borrower cannot find it when it is due. Then the possessor of the book does not return it through negligence and the library has lost another book. Last year a student employee of the library found sixty books in a short tour of rooms and fraternity houses in search of books.

Every book on the shelves of the library has a value to the student body, and it is deplorable that books should be lost through the negligence of an individual.

### THE CAUSE OF ENLIGHTENMENT

A scene was enacted on the floor of the Assembly Wednesday afternoon whose outcome means much to the future of this state.

Six men, trustees and presidents, plead the cause of higher education before an appropriations committee which may recommend allotments to the Consolidated University of North Carolina which, in the words of Dr. Frank Graham, "threaten the very life of the University."

Most remarkable was the nature of the pleas. There was no attempt to obtain special privilege for any one school or any branch of education—the appeal was for the youth of North Carolina as the North Carolina of the future.

These men told of the remarkable devotion of faculties in refusing offers from other schools in the face of ruinous salary cuts. They were willing to accept the inevitable if they must, but they warned that such devotion must finally be strained to the breaking point and higher education would go down, destroying North Carolina's hopes for future leadership.

Impassioned hope that in spite of economic troubles the future would not be sacrificed transcended mere oratory on this dramatic occasion.

The agencies of life and the agencies of enlightenment were deemed by these men to be fundamental. Intellectual progress was placed alongside the need to care for the hungry by these leaders who believe that it is the duty of the state to provide for its future citizens.

Somehow there is the lasting impression that these men know the justice of the cause they plead, and if their words are not heeded there will be less light to dispel future darkness.

### College Opinions

#### SPEAKING THE PUBLIC MIND ON THE BUDGET QUESTION

If the sentiment expressed through the editorial columns of the more important newspapers of the state are at all indicative of public opinion in those sections of the state in which these journals are circulated, it is quite evident that the majority of citizens of North Carolina have the interest and welfare of the University and other state institutions truly at heart. On few occasions before has the state press been so outspoken in its praise of the work of higher education in North Carolina, or so condemning of budget commission for advocating such pronounced reductions in education. All of the liberal, progressive newspapers within the borders of this state, including among others the Greensboro Daily News, the Raleigh News and Observer, and the Raleigh Times, have eagerly upheld the position of the higher educational institutions. And only the Charlotte Observer, termed by Dabney in his book *Liberalism* in the South as the most conservative newspaper in the state, has failed to take up the cause of education.

Not only have the newspapers of this state diligently plead the cause of higher education in North Carolina, but some of the New York papers have voluntarily taken up the fight. Both the New York Times, and the New York Evening Post have come out with editorials emphasizing the place the University of North Carolina has made for itself in the educational circles of the nation, as well as the setback it must undergo if the budget commission's proposed reduction goes into effect.

The nation's educators are watching with keen interest what action the Legislature will take, realizing the strong possibility of the University's losing her present prestige and standing in university circles if she receives this financial reduction.

Education in North Carolina will go through a grave crisis within the next two weeks, for in that time the Legislature will have taken its vote and the fate of the state educational institutions will have been determined. The importance of the Legislature's action can not be too greatly emphasized. It calls for slow and deliberate consideration, tempered with unrestrained leniency—*Carolina Daily Tar Heel.*

#### VITAL PROBLEMS

Communism, socialism, technocracy, what Congress is doing, the Japanese-Chinese war, the World Court, the League of Nations, hunger marches, bonus pleas—these are all questions of vital importance in national affairs and of extraordinary interest to every citizen. But should they be of interest to the college student? Should he consider them as much as he does his next date, the coming examinations, and the problems of his own campus? Many persons have ventured the opinion that he should not; others have said that he should.

Should the college student pay any attention to the things going on in the world about him? He should! For the simple reason that everything happening in the world affects him both directly and indirectly. These problems are of interest to citizens and he is the future citizen. And, in the present, he concerned as every one is affected by the conditions that surround them.

The present depression has touched the student, forcing him to cut his expenditures. More students are having to go through college on loans. More persons are having to work to make both ends meet in their gleaming of a college education. Should currency inflation, the shortage of gold, and expenditures by the government interest them? Especially when added taxation is a burden on the pupils, of which every college student is a part.

Each college student is receiving an advanced training so that he may be prepared to take his place among the leaders in his chosen field. This causes a natural concern with the fate of the tottering economic system. A radical change would make years of work a loss of that much time. Shall he take an interest in the solution of the problems which will determine his future life?

Possibilities of war are always threatening in a crisis as the present. War is one of the most effective methods of contorting prices and temporarily getting rid of a low ebb in the economic cycle. The college student will be appealed to as the youth who can protect the ideals of his native land. He will be encouraged to enlist or will be drafted to go off to a struggle from which he will probably, under the sure-fire scientific death-dealing devices perfected, never come back. Those that do will have their faculties so impaired that they will never be able to perform their proper functions in life. Years of training will be wiped away and the ambitions which have led to concentrated study will be devoured by death or thwarted by permanent injury.

The questions suggested are not only of concern to the student as a future citizen, but also in the very course which he is taking. Every law student, as a potential office holder, should be interested in politics and changes which threaten to alter the present political system. Liberal arts students should also be interested in politics and the future of education. What is being suggested to create new forms of employment for an over-production in the industrial field is of concern to engineers. A changed economic system would materially affect medical practice. All studies and all students are enveloped in the changing social sphere.

The changes which have been advocated to take place will affect every profession and change the entire outlook of humanity. As future citizens and leaders in the various fields it is up to the college student to help solve these problems. Should he be interested in national and international affairs and the mechanism of the social and economic system? If he cares at all, about what is going to become of him or how his life will be changed in the future, he should.—*Tulane Hallbulletin.*

## GARRISON TALKS TO PROFS TONIGHT

American Association of University Professors to Convene Here Tonight

The first meeting of the American Association of University Professors of State College will be held tonight at 6:30.

After a dinner in the college cafeteria, Dr. K. C. Garrison will speak upon "Some Educational Problems in Higher Education."

Some of the major problems that Dr. Garrison will discuss will be the recent increase of scientific studying of higher education, as a large amount of experimentation is being carried on in the higher institutions of learning in this field. Two of the largest problems of education, Learning, which deals with the technique of teaching, class sizes, and lectures and laboratory methods; and Measurement, which deals with entrance and classification examinations, will be discussed in detail.

Dr. Garrison's talk will be of interest to the members as it deals with many of the everyday problems that confront them in their teaching professions.

The local association is now composed of 31 members and was formed January 9, 1933.

At the meeting tonight the names of possible new members will be submitted. To become a member of this association, three or more active members must vote to accept the new member. His name is then sent to the office of the association and is published in the *Bulletin*, a monthly publication, as a tentative member. If no objections are raised by the time of the next publication his name is published as a member.

To become an active member it is necessary to hold, and to have held for three years, a position of teaching or research with the rank of instructor or higher in an accredited institution.

## How To Avoid BONERS

A GOITER IS A MUSICAL INSTRUMENT

THERE ought to be a law against people like Bill Boner! He even thinks an escapee is a staircase outside a house.

Still—he might be cured, if somebody would convert him to pipe smoking. For a good pipe with the right tobacco is man's first aid to clear thinking and wisdom. As for the "right tobacco," that's easy. A recent investigation showed Edgeworth Smoking Tobacco to be the favorite at 42 out of 54 leading colleges.

Just one puff will tell you why. It's that truly individual blend of fine old burleys—a blend you find only in Edgeworth Smoking Tobacco. Once you try Edgeworth, you'll never again be satisfied with less.

Buy Edgeworth anywhere in two forms—Edgeworth Ready-Rubbed and Edgeworth Plug Slices. All sizes—15¢ pocket package to pound humid tin. If you'd like to try before you buy, write for free sample packet. Address Larus & Bro. Co., 120 S. 22d St., Richmond, Va.

## State Fighters Will Meet Gamecocks Saturday Night

Fresh to Engage Oak Ridge in Eye-opener at 7:30 in Gymnasium

**THREE SCRAPPERS HURT, RHYNE WILL NOT START**

**Freshmen Will Concede Heavy-weight Division Scrap to Prep School-Team**

Captain Bill Beatty's varsity boxing team will make their first home appearance Saturday night, February 4, when they meet the University of South Carolina scrappers in the college gymnasium. Freshmen will furnish a curtain raiser at 7 p.m. against Oak Ridge.

Three of State's scrappers are not in the best of shape but only one of these is expected to start. Marshall Rhyme, 135-pounder, has an infected eye that will keep him idle. His place will be filled by Joe Sauls, who will step up from the 125-pound class. Allen Nease, who held Carolina's Captain Lervinson to a close decision two weeks ago, is still bothered by a strained tendon in his neck, but will fight against the Gamecock 125-pounder.

Captain Charite Garner, 146-pound Southern Conference champ, who last week experienced the novelty of seeing a decision go to his opponent, Leroy Sidges of Duke, is determined that it shall not happen again. He is working hard this week in spite of a cut over his right eye, sustained early in his scrap with the Duke freshman.

State's two undefeated sophs, Bill Dunaway and Jack Fabri, are in excellent shape and are set to add to their string of victories begun last year. The other starters against the Gamecocks will be Turner Blitsly, Bull Hall and Red Stephens, in the 115, 175 and unlimited classes.

The South Carolinians have won their only start this year against Presbyterian College, and although not much is known here about their 1932 team, older varsity men at State remember the teams of the past two seasons, which beat the State punchers by two 4-3 scores.

**Fresh Line-up**  
The freshmen starters for State are: 115, White; 125, Beddoes; 135, Pescock; 145, Hudson; 155, Landis; 165, Stein; 175, Brinson.

There is no boxer in the heavyweight division for State, and although the Oak Ridge fighters are conceded one victory, the frosh will put up a whale of a battle, similar to the one at Duke last week.

### STATE RIFLEMEN SHOOT THREE MATCHES IN WEEK

**Sharpshooters Win From Auburn And Norwich, Losing to Texas A. & M. Team**

The State College rifle team won two and lost one match last week. Scores in the ten man match were: State 3,523, Auburn 3,518, and Texas A. & M. 3,599. Scores in the five man match were: State 1,820 and Norwich University 1,730.

Owing to lack of R. O. C. T. members the Penn State match was forfeited. The University of Florida forfeited to State because of rain. They have no indoor range.

Of those shooting in the Norwich match, the scores out of a possible 400 points were: Stone 368, Daniels 368, Whitely 368, LeRoy 364, and Tew 352. Of those shooting in the Texas and Auburn match the scores out of a possible 400 points were: Stone 368, Daniels 368, Whitely 368, LeRoy 364, Tew 352, Moser 350, Griffith 350, Hube 340, Andrews 340, and Whitehead 332.

The Naval match has not been heard from. Scores out of a possible 300 points were: Daniels 273, Whitely 273, Stone 269, LeRoy 267, and Moser 273.

The varsity matches for this week are: South Dakota State, New York Military Academy, University of Iowa, Mississippi State, University of Wyoming, and New Mexico A. & M.

The R. O. T. C. match is with Creighton University.

### Boxing Tonight

The preliminary rounds for the fraternity and dormitory boxing tournament will be run off tonight at 7 p.m.

The intramural program had a busy week with fifteen basketball and fifteen handball games. The basketball and the handball tournaments for both the fraternity and dormitory men have reached the semi-finals. Games in the consolation league were run off yesterday and they also are in the semi-finals.

The Juniors won the inter-class basketball championship for those rooming off the campus. The intramural boards recording permanent records of the winners in each sport have been finished and will be hung in the lobby of the gym in the near future.

## MATMEN WRESTLE AWAY FROM HOME

**Techlets Find Action at Bragtown; Varsity Go to V. P. I., At Blacksburg, Va.**

The varsity and freshmen wrestlers will engage in tilts away from home this week-end. The freshmen take on Bragtown High School tonight, while the varsity meets V. P. I. at Blacksburg, Va., tomorrow.

Although the abilities of the varsity wrestlers have been hampered by injuries this season, their prospects look good. Nolen, 135-pounder, has been out almost the whole season with a sore shoulder, and Fry, heavyweight, dislocated his shoulder just before the Carolina match. Last Wednesday, Furr was badly injured in practice.

The varsity men who will see action are: 115, Morrab; 125, Kerr; 135, Bell; 145, Cooper; 155, McLaurin; 165, Barnhardt; 175, Croom; unlimited, Clevenger.

The freshmen wrestlers are: 115, Ramsaur; 125, Thornton; 135, Dyer; 145, Krach; 155, Davis; 165, Comfort; 175, Margolis; unlimited, Cooper.

The next varsity wrestling match will be with V. M. I., Saturday, January 11.

The Bragtown wrestlers defeated the Techlets early in the season, 16-14.

### Clever Pugilist

DUNAWAY -135-

Dunaway, who continues to hold his record of having outboxed all competitors. Short, of Baltimore, who refereed at Duke last week, gives Dunaway the credit of being the "best intercollegiate boxer" he has ever seen.

## TERRORS SWEEP VIRGINIA TEAMS

**Cagers Take Fourth Victory by Defeating U. of Va.; Johnson High Scorer**

Doc Sermon's Red Terrors completed their Virginia trip by whipping the University of Virginia 31-27 last night for their fourth straight victory.

The Techs averaged close to forty points a game in their invasion to the Old Dominion. They trounced Virginia Polytechnic Institute 45-25 on January 30; defeated Washington and Lee 39-37 on January 31; lashed Virginia Military Institute 39-24 on February 1. Ralph Johnson led the State scorers on this trip by hanging up 36 points, an average of nine points a game. Bob McQuage was second high scorer with 30 points, closely followed by Frank Partel, who had 27, and George Beaghen, with 25 points.

Others who figured in the scoring were Leroy Jay, with 13, Gib Clark, with 14, Allen Nelms, with 7, and Ray Rex, with one field goal.

These four victories for State make them a strong contender for Southern Conference honors. All four teams met by the Terrors are members of the revised Conference.

### RADIO CLUB MEN AWARDED U. S. AMATEUR'S LICENSE

A. H. Lloyd, E. D. McGowen, W. H. Darst and C. M. Smith Pass Examinations

Four members of the Radio Engineering Club who took their government examinations here at Raleigh on January 7, have just received word that they had passed.

A. H. Lloyd made one of the highest grades accorded to any radio amateur, his grade being 92. E. D. McGowen, 89; W. H. Darst, 82; C. M. Smith, 90.

Many radiograms have been handled for the students and almost every day the operators at the transmitting station find messages stuck under the door. One message for China reached its destination four days after being sent, which is quite a record considering the unreliability of the radio signals at that distance.

The society will hold its regular meeting tonight at seven o'clock.

### Undefeated Boxer

FABRI -165-

Fabri, whose win at Duke last week continues his undefeated record as an intercollegiate boxer at State College. He is a sophomore and was untouted as a pugilist until his entrance here.

### DUKE FRESHMEN BREAK FROSH WINNING STREAK

The undefeated freshman basketball team was handed its first loss of the season last night by Duke, 23-15, at the college gym. Aycock and Womble were high scorers with 6 and 5 points, respectively. Kunkle led the visitors with 12 points.

In the earlier part of the week the team had rolled up three victories, beating Wilmington High Friday night 57-23, E. C. T. C. Saturday 29-27, and Wake Forest Tuesday afternoon 34-21. These games were all played away from home.

In the Wilmington game, the Techlets had little trouble in defeating their rivals.

The Little Terrors play Wilmington High in a return engagement on Thursday, February 9, at the college gym. Players that will probably see action are: Forwards, Sherrill, Aycock, Harris; centers, Flythe, Zori; guards, Hockfield, Womble, Williams, and Guxas.

## Wake Forest and Davidson Next Foes For Red Terrors

### Big Five Standing

	W.	L.	Pct.
Duke	5	0	1.000
Carolina	4	1	.800
State	0	2	.000
Davidson	0	2	.000
Wake Forest	0	4	.000

## STATE TIES DUKE IN BOXING MATCH

### Freshmen Win, 5-3, as Varsity Ties Second Match of Season Saturday Night

Coach Bill Beatty's pugilists broke even in another match when they walked the Duke University fighters to a 4-4 decision on Saturday, January 28 in the Duke University gymnasium at Durham.

It was the second time this season the State College leather pushers tied their opponents. On Saturday, January 21 they fought the University of North Carolina pugs to a 4-4 decision.

State's two undefeated sophomores, Jack Fabri and Bill Dunaway won on technical knockouts. Dunaway finished Norman Ross after 40 seconds of fighting in the second round of the 155-pound class, and Fabri polished off Artie Ersler after 40 seconds of mixing up in the third round of the 165-pound class.

### State to Play Big Five Foes Monday and Thursday After Successful Trip

After having completed a successful trip to the Old Dominion the State College basketball team will play Wake Forest College Monday, February 6, in Raleigh, Davidson on Thursday, February 9, at Davidson.

Both of State's opponents are members of the Big Five and by winning both games they can practically clinch third place, now in dispute between State and Davidson, with two losses and no victories each.

Thus far State lost to Carolina and to Duke in Big Five circles by close scores. Last minute rallies by both teams enabled them to clinch victories over the Terrors.

Wake Forest lost a close decision to Carolina in their first meet, 34-33. State-Wake Forest contests are always close and this one should provide many thrills.

The starting line-up for State will probably be Ralph Johnson at left forward, Leroy Jay at right forward, George Beaghen at center, Allen Nelms at right guard and Gib Clark at left guard. Others who will see action are Frank Partel, flashy sophomore, Ray Rex and Bob McQuage of football fame, Aver, Dixon, Lambeth and Legans.

Thus far the Davidson Wildcats have lost all of their games. They show losses to Duke, Furman, Carolina, Erskine, and two games to Charlotte "Y."

**STUDENTS' CRUISES**

Magazine subscription scholarship workers and crew managers write immediately for very best student scholarship offers of leading publishers. Can be worked there now. Permanent positions if experienced, also summer crews for U. S. and foreign territory. For full details write—The Collegiate Scholarship Institute—219 Republic Building, Miami, Fla.

# ... SOCIETY ...

## Buffet Supper

The N. C. State chapter of Theta Kappa Nu fraternity entertained at a buffet supper at their home, 2320 Hillsboro Street, Saturday night following the Inter-Fraternity Council Mid-Winter dance in the State College Gymnasium.

During the day more than 35 representatives from the eight chapters of this province of North and South Carolina and Virginia were guests of the local chapter at the annual province meeting of the fraternal organization.

Early Saturday evening members of the local chapter and out-of-town delegates were entertained at a banquet. Following the banquet the members of the fraternity attended the dance and then enjoyed a midnight supper.

Mr. and Mrs. Charlie Plyborn of Raleigh were chaperones at the banquet. Dean E. L. Cloyd, W. F. Hanks of Charlotte, Herbert Hill of Richmond, Va., Bruce Mustek of Cleveland, Ohio, and Ralph Cummings of Reidsville, were honored guests at the banquet.

Young ladies present were: Misses Sallie Jordan of Greensboro, Elizabeth Dunn of Raleigh, Virginia Fuchett of New York, Sue Southland of Chapel Hill, Irma Bernanda of Wilmington, Alma Whitfield of Kinston, Ann Rogers of Greensboro, Anna Greene of Raleigh, Frances Black of High Point, Doris Poole of Greensboro, Ruth Hayward of Richmond, Va.

## Alpha Kappa Pi

Alpha Kappa Pi fraternity will entertain at an informal dance from 9 until 12 Saturday evening at their home on Fernell Avenue.

## AGRONOMY MEN ATTEND CROP ASSOCIATION SHOW

Prof. Darst and G. K. Middleton Represent State College at Suffolk Show

Prof. W. H. Darst and G. K. Middleton of the Agronomy Department attended the annual State Corn and Grain Show, held by the Virginia Crop Improvement Association, in Suffolk, Virginia on January 25-26.

Darst and Middleton arrived in Suffolk in time to be the guests at a directors meeting of the Virginia Crop Improvement Association. They entered into the discussion of the standards for Lespedeza Sericea. The association was highly interested in the work that State College has done in Sericea Seed.

This combination corn and grain show was the largest of its kind that has ever been held. Grain was exhibited from Maryland, Indiana, Missouri, and Pennsylvania as well as from Virginia.

There were two grain judging contests held on the second day of the show. One contest was held for the 4 H Club boys and another for adults. Prizes and medals were awarded the winners.

O. S. Fisher, seed specialist of the United States Department of Agriculture, was one of the distinguished visitors at the show.

## JAMBOREE TO BE HELD BY FORESTRY STUDENTS

The State College Forestry Club will hold a Jamboree at the Hill Forest on Saturday, February 4.

Busses will leave the college Saturday morning and carry the students to the forest. During the afternoon inter-class competition will be staged in many events including smoke chasing, compass work, first aid, tree identification, and even tobacco chewing.

Stunts will be given by each class after supper at the campfire, and stump speeches will also be added to the program. At least fifty students are expected to attend.

## DR. HINKLE ADDRESSES INTERNATIONAL GROUP

Guest Speaker of International Relations Club Speaks on Price of Peace

Dr. L. E. Hinkle, professor of languages, was the guest speaker at the International Relations Club last night.

Dr. Hinkle spoke on the subject of "The Price of Peace and Are We Willing to Pay It."

"If we really want peace, we must pay for it," stated Dr. Hinkle, and some of the prices that must be paid were enumerated by him: "A development of a spirit of good will. One of the greatest prices to be paid will be to accept a new concept of patriotism, as an international type, and not as the type of patriotism which deals with the superlative type and exerts military heroes.

"In a commercial way the barriers of the world peace are being upheld by the imaginary trade boundaries and tariffs.

"Restriction of the movements of people between countries prevents people from getting better acquainted.

"A 'superior complex' is evidenced among some people and races, and they look upon all others as being inferior to them. This is against the policy of good will which is the basic formula of peace."

"Nationalism," stated Hinkle, "is expressed in a defence concept. All the wars that have been fought have been defensive in the estimation of those who fought them."

The sacred rights of ownership has done much in starting wars.

Our technological advancement is far ahead of our feelings, and it has done much in bringing the world closer together.

Frank Busbee announced that the next meeting of the group would be next Thursday night at 7:15, at which time all members and those who have received bids are urged to attend the joint meeting with a Meredith College group to hear a talk by Reverend J. F. Fletcher of Saint Mary's School.

## PLEAS ARE MADE AGAINST CUTTING SCHOOL BUDGETS

(Continued from page one)

colleges were forced to lower their standards through reduced funds, that North Carolina youth would go elsewhere for their education and lose contact with the state during this important period, not to mention those who would never return to the state again permanently. Daniels deplored the worship of a budget as some sort of an idol, saying that higher education was something transcending a mere budget even in the face of present troubles. "The only hope for the impoverished people of North Carolina is their hope that their children will have a better opportunity than they had," he declared in his plea for the continuation of the high standards of education.

## Half Acre Worth \$168.33

Deducting the cost of seed and fertilizer, a farm garden of one-half acre in size is worth \$168.33 to the owner in food provided, says H. R. Niswonger, extension horticulturist at State College.

## Announcements

There will be a meeting of Delta Sigma Pi Tuesday evening at 7 o'clock in Peele Hall. Members are reminded that an unexcused absence will be penalized.

R. I. Van Hook, President.

The Grange Club will meet next Thursday night. All of the new members are requested to be present to receive obligations. Plans for the winter dance will be discussed.

Library hours are 8 a.m.-4 p.m., 7-10 p.m. every day except Saturday and Sunday. On Saturday the hours are 8 a.m.-3 p.m. On Sunday the hours are 3-6 p.m., 7-10 p.m.

## ILLUSION:

One of Napoleon's soldiers rose to fame on the "Burning Oven" trick. A roaring fire was built in an oven ... the temperature rose to 600° F. Into the oven walked the "fire king," M. Chabert, carrying several raw steaks. A few minutes later the doors were flung wide and out he stepped... safe and sound... with the steaks thoroughly cooked.

## EXPLANATION:

Heat rises. When Chabert entered the oven he hung the steaks above the fire, in the center of the oven, then dropped to the floor at the side, covering his head with a hood made from his shirt. He breathed through small air holes in the floor. When the steaks were cooked he threw back the hood, grabbed the steaks, and stepped out in triumph.

**CAMELS**

It's fun to be fooled —  
... it's more fun to KNOW

"The Burning Oven" is an old illusion which has played a leading rôle in cigarette advertising. Its modern name is "Heat Treatment."

EXPLANATION: All cigarette manufacturers use the heat-treating process. Cheap, harsh, raw tobaccos require intensive processing under high temperatures. The more expensive tobaccos, which are naturally mild, call for only a moderate application of heat.

The first Camel cigarette was manufactured under the heat-treating process. Every one of the billions of Camels produced since has received the necessary heat treatment.

But remember that heat treatment never makes cheap, inferior tobacco good. It is not in heat treatments, but in more costly tobacco and fine blending, that Camels find their appealing mildness and flavor.

It is a fact, well known by leaf tobacco experts, that Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand.

You sense this quality in the mildness... the distinctive flavor... of Camels. More costly tobaccos and a matchless blend tell the story of Camel leadership in public confidence.

Try Camels. Judge them critically. Compare them with others for mildness, for throat-ease, for good taste. Key your taste to quality! Camels come to you fresh and cool... in the air-tight, welded Humidor Pack that keeps dryness outside and freshness inside.
