## SOPHOMORES NAME CARROW PRESIDENT FOR COMING YEAR

Textile Student Wins Over Stanko  
At Class Meeting in Pullen  
Hall Wednesday

## STEPHENS DEFEATS PRICE AS NEXT VICE PRESIDENT

Rising Juniors Vote 128 to 99 as "Dark Horse" Wins Competition; T. C. Gardner Defeats Johnson as Secretary and Treasurer by Vote of 96 to 58; Prof. H. A. Fisher Tells Assembly of Changes in Mathematics Courses in Engineering Department

Claude L. Carrow of Kinston, defeated John Stanko in the final elections for the presidency of the Junior Class by a vote of 128 to 99. Carrow, the "dark horse" in the contest pulled 72 votes out of a possible 82 in the final balloting to clinch the office.

The sophomores nominated five men from their ranks as candidates. They were: J. T. Stanko, A. M. Epstein, J. P. Long, W. H. Sullivan, and C. L. Carrow. Stanko and Carrow received the largest vote and the race was run off between the two, Carrow winning.

J. Kenneth Stephens of Apex, won out over his opponents in the election for Vice President. The candidates were: J. K. Stephens, William Price, Guy Wheeler, J. F. Seales, and D. W. Rodwell. Stephens received 128 votes while Price, the next highest man, received 31.

Candidates for Secretary and Treasurer were: D. W. Johnson, C. W. Eldridge, T. C. Gardner, William Price, and H. H. Latham. Johnson and Gardner received the highest vote and in the final election, Gardner won with 96 votes to 58 for Johnson.

Professor H. A. Fisher, head of the Mathematics Department, explained to the assembly the recent changes made in the mathematics courses. The change is a result of the incapability of State College graduates to compete with graduates of northern colleges which teach considerably more math than is taught here. Fisher stated that the changes should remedy this condition in the future.

## CO-EDS ELECT OFFICERS OF WOMEN'S GOVERNMENT

Miss Edna Mae Halverson of Raleigh Elected President at Wednesday Election

Miss Edna Mae Halverson was elected president of the women's student government at the final elections which were held Wednesday.

At the primaries last week, Miss Halverson received the necessary three-fourths majority for the presidency and her election Wednesday was merely a matter of formality.

Katherine Williams was named vice president of the co-eds, and Christine Shepherd was elected secretary. Louise Eckerd was made treasurer.

The following council members were elected at the polls: Elizabeth Gantt, senior; Katherine Pierce, junior; Elodie Gibbs, sophomore.

House members are: For the senior class, Harriet Link, Marguerite York, Eliza Stephenson, Le Neve Zimmerman. Representatives of the junior class are: Mary E. Hamlet, Virginia Silver, Elida Fisher, Ruth McCullers.

Sophomores: Bertha Pleasants, Elizabeth Maynard, Eleanor Green, Mary Sue Pierce.

The student council held a banquet last night at the Carolina Pines Country Club, in honor of the retiring members.

Mark Wilson, outgoing president of the student body, spoke to members, and introduced Bill Barker, the next president. President C. E. Brooks talked on standards of integrity of student government, and Dean E. L. Cloyd talked on developing a sense of humor.

Student advisers and old members of the council were present at the meeting.

## Win Newspaper Prize

B. M. McCONNELL

H. A. McCLUNG, JR.

H. A. McClung, Jr., editor, and B. M. McConnell, business manager of THE TECHNICIAN, which won first place, for the second consecutive year, among North Carolina college weeklies in the North Carolina Collegiate Press Association Contest.

## Student Relates Experience Of Abduction By Negro Men

## FOUNTAIN LAUDS NEW YEAR BOOK

English Professor Commends Improvements Made in 1933 Edition of Agromeck

By ALVIN M. FOUNTAIN  
With its rich red— or is it russet— coverings, the 1933 Agromeck presents a most imposing exterior, which leads into an attractive campus view in the midst of the usual blank fly leaves. The custom of the last few years led me to expect the book to have as its theme the work of some particular school; but, aside from the dedication to Dean Brown, an appreciation to Dr. Bernstein, and some department-store scenes used as decorations, there is not much about the business school, to which this edition seems to have been addressed. Perhaps because of the decaying state of the school under the consolidation, the whole theme assumes a sort of *mortuarii et salutis* attitude.

The campus views are in black-and-white photographs, instead of the pencil sketches of last year, and perhaps are the better for the change. But their greatest attraction is that they are taken from angles different from those used before, and have a lot of trees and foliage. Here, however, the attraction ends, because the editor has used once more the nauseating sketch of Dr. Brooks, and the cock-eyed views of the homes of the different departments.

The senior section again has the large individual pictures that have become so popular in the last few years, along with the running account of the class history (taken from the files of THE TECHNICIAN, with variations), and the absence of individual write-ups. As one who has thoroughly enjoyed making and reading those write-ups in the past, I naturally am sad at their passing; but they are too childish, they are told.

The sponsor section has also gone back to black-and-white, after experimenting with diluted blue last year, and is again the improved version. To say that this is the most attractive section would be putting it entirely too mildly. I note, however, that there is a larger percentage than usual of mothers and sisters. Could it be that this condition may be traced to the depression, in that the boys are unable to afford girl friends out of the family?

After the sponsors, the different sections are much as heretofore, with (Please turn to page four)

## Airplane Race

In a race at the Raleigh airport between a Curtiss Junior airplane and the monoplane built by J. C. Nyeum, Paul O. Stahl and Lewis Currie, students in the aeronautics course at State, the monoplane flew first, at a speed of 85 miles an hour.

Norwood Wood, test pilot at the Raleigh airport, piloted the monoplane.

The flight yesterday was the second made in the monoplane since it was completed recently. The plane is powered by a four cylinder Ford motor.

## Hornbeck Tells of Being Tied and Left in Boat on Neuse River April 30

RENDERED UNCONSCIOUS  
IN SUDDEN ENCOUNTER  
Frees Self by Burning Holes Through Sack and Swimming From Attackers

That truth is stranger than fiction is evidenced by a story told by George A. Hornbeck of Rocky Mount, a student of State College, of an unsuccessful attempt by four Negroes to kidnap him, Sunday, April 30.

Hornbeck had heard that at one time an Indian skirmish occurred a few miles southwest of Raleigh, and he proceeded to locate the old battlefield, hoping that he might find some Indian relics.

He traveled for three hours through unimproved fields and woods. He was able to find a few arrow heads, and was preparing to return to the college when he came upon an old well in front of a tin-roofed shack.

Being thirsty, Hornbeck began to draw water out of the well. Suddenly he felt a sack fall over his head. He hung his arms about in a desperate attempt to remove the sack. Someone got in the way of his arms and pitched headlong into the well.

According to Hornbeck, his attackers were Negroes. One hit Hornbeck in the back of his neck, rendering him unconscious.

When Hornbeck regained consciousness, he found himself face downward, his hands tied behind his back, a sack over his head, and floating down what he afterwards found to be the Neuse River in a dug-out boat. His feet were tied securely with the sweat-shirt that he had been wearing. His head throbbed and the cloth strips that bound his hands caused him considerable pain.

He tried to turn in the boat, but a seat that was located in the middle of the boat prevented his turning more than half way. He tried in vain to reach the knife that he had in his pocket. There was enough play in the cloth bonds to permit his reaching his pack of matches. He struck one of the matches, but was unable to set fire to the cloth bonds.

He then lit the whole bad and managed to ignite the cloth. The cloth did not burn in flames, but smoldered. The continued smoldering soon weakened the cloth sufficiently to enable Hornbeck to break the remaining strands.

Hornbeck then took his knife and cut the bag and forced his head out of the opening. Hornbeck wormed his way out of the boat and swam to the bank, which was only a few yards away.

About three o'clock Monday morning, May 1, Hornbeck started back to the State College campus. Finally about sun-up he came upon a man cutting wood, who informed him that he was just a few miles from Wendell, which is approximately eighteen miles northeast of Raleigh. Hornbeck began to walk in the direction which he thought might lead him to the college. Some time after two o'clock he found himself back of Meredith College.

He arrived here about 4:30 in the afternoon.

Hornbeck's story was related to Dean E. L. Cloyd, after returning to State, and other conflicting reports regarding the story have been questioned and found untrue. According to Hornbeck, the attempted kidnapping was reported to Sheriff Turner of Raleigh.

## ANNUAL TAPPING BY GOLDEN CHAIN SET FOR MAY 18

Picturesque Ceremony to Honor Outstanding Members of Rising Senior Class

## T. S. JOHNSON TO SPEAK BEFORE TAPPING RITES

Sundial Near Memorial Tower to Be Scene of Event at 6:20 p.m. Thursday; Band to Play; Names of Juniors Shrouded in Secrecy Until Old Members Select Them From Assembled Junior Class; Organization was Founded in 1926

Twelve outstanding juniors will be accorded the highest honor a rising senior can attain Thursday, May 18, when Golden Chain, senior honorary society, holds its picturesque annual tapping around the sundial near the Memorial Tower at 6:20 p.m.

Leadership in campus student life and citizenship is the criterion of selection for membership. The identity of the neophytes is shrouded in secrecy and will not be known until the ceremony. This year's links, hooded and robed in the ceremonial attire of the order, will march in turn around the circle of junior class members and tap the new members. Juniors must be present in the circle to be tapped.

Theodore S. Johnson, professor of Industry, will speak before the event and "Daddy" Price's band will play. Invitations will be sent to the members of honorary societies of Peace, St. Mary's and Meredith to attend the tapping.

Golden Chain was founded in 1926 and the annual ceremony attracts hundreds of students and visitors.

Archie Ward is president of the organization this year. The other links are: Dan Torrence, A. L. Drumwright, Henry Russ, Ralph Cummings, H. A. McClung, Jr., William "Red" Espey, Reid Tull, George Grimes, Lonnie Knox and Mark Wilson. Charles E. Cobb is a member, but is not in school this year.

## DELTA SIGMA PHI ELECTS OFFICERS

R. S. Poole Elected Headmaster of Commerce Fraternity at Tuesday Meeting

Beta Delta Chapter of Delta Sigma Phi, international commerce fraternity, met in Pullen Hall, Tuesday, at 7:00, and elected officers for the coming year.

Those elected to offices in the chapter are: Headmaster, R. S. Poole; senior warden, M. L. Annetta; junior warden, H. S. Keck; scribe, G. V. Ferris; Treasurer, W. C. Furr; senior guide, J. G. Rickard; junior guide, Frank Walker; historian, Frank Davis; master of ceremonies, M. L. Annetta; master of festivities, L. S. Summey; correspondent, W. A. Myatt; faculty adviser, Dr. R. O. Moen.

Faculty members of the organization are: Dean E. F. Brown, R. W. Green, C. B. Schulerberg, Prof. R. W. Henninger, Prof. R. O. Moen, and E. E. Gehring.

## ADVANCE FEE ENDORSED FOR STATE PUBLICATIONS

Board Takes Steps Against Trading in Advertising as Method of Payment

The State College Publications Board met Wednesday, at 4, in Polk Hall and discussed important matters concerning editors and business managers of the campus publications.

An advance in the publications fee charged students yearly toward the expense of issuing school publications was agreed upon, to be given for vote to the students starting Monday.

Trading in advertising was the subject of a lengthy discussion by the group. Steps against this method of payment for advertising in publications will be taken soon.

## Elected to Council

DR. R. F. POOLE

The State College faculty Monday elected Dr. Poole, pictured above, to represent the general faculty on the administrative council of the Greater University.

## FACULTY ELECTS POOLE TO COUNCIL

Plant Pathologist Prof to Represent State Faculty on Administrative Council

By a unanimous vote of the State College faculty, Dr. R. F. Poole, plant pathologist, was elected to represent the general faculty on the administrative council of the Greater University of North Carolina at a meeting of the faculty in the Y. M. C. A. Monday.

Dr. Poole has been connected with State College since 1926, coming to the institution from the University of New Jersey. He is a native of Laurens County, South Carolina, and a graduate of Clemson College with the B.S. degree in 1916. His advanced work leading to the Master's degree and the Doctor of Philosophy degree was taken at Rutgers College, New Jersey, in 1918 and 1921. For seven years before leaving New Jersey, Dr. Poole was connected with the research department of the Experiment Station while teaching experience both in New Jersey and at State.

Dr. Poole is recognized over the nation as one of the leading scientists in his chosen line of study. The list of professional societies in which he is an outstanding member include the American Association for the Advancement of Science, The American Phytopathological Society, The Southern Pathological Society, The Mycological Society of America, The American Horticultural Society, and The North Carolina Academy of Science. He also has membership in Alpha Zeta, Phi Kappa Phi, and Sigma Xi fraternities. Locally, he is a member of the Rotary Club, the North Carolina Grange and the Raleigh Historical Club.

Prof. Harry Tucker, acting director of engineering research, received the second largest number of votes in the balloting.

The election of Dr. Poole was made unanimous on motion by Dr. Thomas P. Harrison of the English department. Dr. E. C. Brooks, president of the college presided at the faculty meeting and the election.

## STUDENT BODY INSTALLS CAMPUS LEADERS FRIDAY

Officers Recently Elected at Polls To be Taken in at Freshman Class Meeting

Student body officers for 1933-34 will be installed Friday, in Pullen Hall, during the freshman class meeting.

Bill Barker, who was recently elected president of the student body, will be taken in, and will give a short talk before the assembly. George Culbertson, secretary, and Marshall Gardner, treasurer, will be installed. The vice president, who has not been elected since the withdrawal of W. P. Kanto, because of conflicting offices, will be installed also.

Mark Wilson, past president of the student body, and Robin Williams, vice president, will be in charge of the installation.

## AERONAUTICS SOCIETY NAMES ARMOUR LEADER

A. E. Armour was elected President of the Aeronautics Society at its meeting on Thursday night.

For vice president, D. W. Ramsey won out, while R. W. Stephens was elected secretary-treasurer. Jesse M. Gregory was elected reporter and W. L. Currie was elected to the Executive Committee.

## TECHNICIAN WINS N. C. C. P. A. PRIZE FOR BEST WEEKLY

## Snakes

Pet snakes are now a fad at State College. Training snakes, taking photographs of live ones, and pickling dead ones has for the past two weeks been occupying the time of many students.

A varied assortment of reptiles has been found. A king snake, water snakes, black snakes, garter snakes, and copperheads have all become victims of the fad. Many who are not particularly fond of handling the snakes spend much of their time at Lake Raleigh with forked sticks trailing snakes to let still so that they may take snapshots of them.

## SOCIETY TO HOLD PUBLIC PLEDGING

Tau Beta Pi to Take in Seven Men During Freshman Chapel Meeting Friday

The State College Chapter Tau Beta Pi, national honorary scholarship fraternity for engineering students, will introduce public pledging for the first time in its history when the candidates for the spring initiation are pledged in Freshman Chapel Friday, May 12. This banquet is to be held in honor of the present Junior class, and their selection was based on character, personality, leadership, and breadth of interest as well as scholarship.

The initiation of these candidates will take place in the afternoon to be followed at 7:00 p.m. by a banquet at the Carolina Pines Country Club. This banquet is to be held in honor of the spring initiates of both Tau Beta Pi and Pine Burr. A large attendance of student, faculty, and alumni members of both organizations is expected. Prof. T. S. Johnson will make the principal speech, and Prof. A. M. Fountain will preside as toastmaster.

Tau Beta Pi was founded in 1885 at Lehigh University to offer engineering students the same opportunity that Phi Beta Kappa offered other students. This worthy object has made the growth of Tau Beta Pi very rapid so that it is now recognized as a dominant factor in the engineering schools of America. It now has 62 chapters located in the leading engineering schools of the country, and has initiated over 22,000 men.

## EDUCATIONAL FRATERNITY HOLDS MEETING TUESDAY

Dean B. F. Brown Speaks to Kappa Phi Kappa on Educational Trends Today

Kappa Phi Kappa, honorary educational fraternity, met in the library Tuesday night. Prospective members were guests of the organization at the meeting.

Dean B. F. Brown, head of the business school, spoke on "Educational Trends Today." Brown stressed in his talk that individual ability and original thinking were higher elements toward success than a stereotyped textbook patterned mind.

## No Vice-President

Robin Williams called a meeting of the House of Student Government Wednesday night for the purpose of electing a vice president to take the place of W. P. Kanto, who recently declined the office, because the number of his offices on the campus violates the point system.

Only 21 members, out of a quorum of 30, appeared to attend the meeting.

No student body vice president was elected for the installation in Pullen Hall today.

## State Student Publication Awarded First Place for Second Consecutive Year

## ASSOCIATION APPOINTS TORRENCE PRESIDENT

Agromeck Given Honorable Mention Among College Annuals; Watauga Takes Second Place Among Humorous Magazines; H. A. McClung and B. M. McConnell Editor and Business Manager of Prize-winning Paper; Convention Meets in Winston-Salem

By E. J. LASSEN  
The TECHNICIAN was awarded first place among weekly newspapers in North Carolina for the second consecutive year, in a contest held by the North Carolina Collegiate Press Association, at the end of a two-day convention held at Salem College in Winston-Salem, May 5 and 6.

Dan A. Torrence, business manager of the TECHNICIAN for the coming year was elected president of the Association by a unanimous vote, Saturday.

H. A. McClung, Jr. of Charleston, West Virginia was editor of the winning newspaper, and B. M. McConnell was business manager. McClung was managing editor of the winning paper last year.

McClung gave credit to staff members for the TECHNICIAN's success in receiving the prize. "Probably the TECHNICIAN has this year had one of the smallest staffs of any college newspaper in the United States," he said, "and this fact is additional credit to their efficiency, spirit and willingness to work as long as was necessary on the long routine detail that goes into the issuing of a newspaper. Practically all of the editorial work on the winning issues was done with the assistance of only four students, and the business staff was composed of only two students."

"Particular mention should be made of the work of E. S. Knight, J. W. Lamberson, G. W. Ford, E. S. Ricardell and E. Lassen."

Other officers elected at the meeting were Jean Newsome, Duke, first vice president; Susan Colder, Salem, second vice president; Miss Frances Mallard, Flora Macdonald, secretary and Hoke Norris, editor of *Old Gold and Black* of Wake Forest, treasurer.

Among the smaller college newspapers, *Old Gold and Black* of Wake Forest won first place. The *Chanticleer* of Duke University was awarded first place among the college annuals. The *Wake Forest Student* won the humorous magazine contest, and of the literary magazines, the *Duke University Archivist* was judged best.

The *Carolinian* of North Carolina College for Women was judged second best in the newspaper contest among larger universities, the *Teccon* of East Carolina Teachers' College was second among the annuals, and the *State College Agromeck* was awarded honorable mention. The *Wide Open* was second among the humorous magazines.

Sanford Martin of the *Winston-Salem Journal* judged the publications. Eighty students represented their respective colleges at the convention, which was held at Salem College.

The Association convened Friday. Discussions were held by the various publications leaders. Freedom of the collegiate press was gone over by the editors of newspapers, and it was decided that a definite stand regarding this and related subjects would be taken at the next meeting of the Association, which will be held at East Carolina Teachers' College in Greenville, next fall. No discussion was had of a collegiate associated press, but this is expected to be an important issue at the next meeting.

At a banquet at the Woman's Club Friday night, Lee B. Weathers, former president of the North Carolina Newspaper Association, and present editor of the *Cleveland Star* discussed newspapers, and gave those present statistics regarding the "greatest occupation today."

The final business session was held Saturday morning, at 10. Officers for 1933-34 were elected then, and cups were awarded prize winning publications.

Those attending the convention from State were: H. A. McClung, past editor of the TECHNICIAN; E. J. Lassen and (Please turn to page four)

## NIGHT WATCHMEN

The helplessness of State College night-watchmen in the event of burglaries can by no means be laid to the individual, but may be blamed directly upon the routes laid out and the general planning of the methods by which these men are being sent out to guard the campus.

When a burglary occurs, the night watchman is immediately called, his time-clock accurately checked, his time sheet examined minutely through a high-powered microscope, and the man carefully questioned. His questioners never consider that they are perhaps the ones who are in the wrong and upon whose method for guarding, many valuable improvements could be made. Should the guard himself make suggestions regarding the route to follow—and since the guard is the man who has the job, he is necessarily the man who knows most about his work, his upper would probably cast the suggestion aside as one given by a man who knows little about anything in particular.

Whether or not the routes assigned the watchmen are satisfactory to those who assign them, there still is one outstanding fact and that is that, as long as these men continue on one steady path, night after night, 30 to 40 minutes behind one another, there will never be any obstacles in the way of the thief who carries on his work late at night about the campus. Anyone with the lowest kind of mentality can observe the watchman as he proceeds on his nightly vigil, follow him, and in a short time have memorized his route. And that is indeed what has happened in the past. The quick clearing out of the safe of football gate receipts last fall was evidence enough that new plans were needed for watching. The robbery occurred at a time when neither watchman would be near Holladay Hall, proving that someone without much effort on his own part found the way clear, by mere observation, for a few nights, of directions and hours.

With a small amount of ingenuity, the efficiency of the efforts at security for a sleeping campus could be increased a hundredfold. An interesting problem in combinations could easily be worked out, and by considering the many buildings, the paths, and the roads, and besides all these, the various ways of getting around these buildings, routes could be mapped out which would confound the closest observer. The possible number of courses to follow will be found to be infinite, leaving a maze of directions to confound the one who might lay the most careful plans for advance.

Those who oversee these conscientious night-walkers will do well to see that their watching is used to advantage, rather than heretofore, as a result of poor supervision, unintentionally give the thief a little more hope with which to carry out his plans.

Editors and business managers of campus publications should immediately begin discussing with members of their staffs who are in any way likely to be eligible for office next year rules for eligibility, with emphasis on the facts regarding credits and grades.

Staff members must not be left in the dark as to any requirements whatever, for ignorance of these important keystones to offices on publications has in the past been the reason for future disappointments. If students who are desirous of being advanced in such offices would lay special stress on learning the Publications Board's rules, it would mean a better understanding between all concerned.

Dean E. L. Cloyd referred to the modern panacea when he talked at the Student Council banquet on developing a sense of humor.

A warm application of humor, used gently at the right time on the sore spots, will never fail to draw out and mitigate the most vexatious irritant.

## LIFE SAVING COURSE

A compulsory course in Red Cross life saving, to be given military students in place of drills, during hot and sultry summer days, would benefit the individual, and would enable officers to more definitely plan the program of that department than has been done in the past.

During the spring term, students lose such interest as they have already gained in their R. O. T. C. work, mainly because the use of drill hours becomes indefinite, and because each day's work is merely a review of work taught during the preceding quarters. Since the advent of the new simplified drill, much valuable time which has in past years been used in refining more difficult phases of military tactics is lost through mere repetition.

Red Cross life saving, taught under instructors within the military department, in the school's swimming pool, would relate enough to R. O. T. C. work to be a desirable addition to that course. It would add to the efficiency of the men who enter swimming competitions in camps during the summer vacation, and would thereby be of an advantage to the athletic department of the college.

There are, within the ranks of the various companies, students who are qualified to teach courses in swimming. Many of these men teach life saving in the pool during the spring term, but find that as long as the instruction is optional with students, it cannot be given the desired place in the college curricula.

## PUBLICATIONS FEES

Last year a change of advantage to the general student body in the publications fee was voted on by students and was accepted by ninety per cent of those voting. The change concerned a picture fee for the *Agromeck*, to be added to the total fees paid each year by students toward campus publications, chiefly for the purpose of a saving on the part of students on the cost of having pictures put in the Annual, and to secure for the *Agromeck* a larger amount of pictures than had appeared in the past.

Picture fees for the *Agromeck* are now as follows: For those students desiring their pictures placed in that publication, freshmen pay three dollars, sophomores pay four dollars, juniors pay five dollars, and seniors pay eight dollars. The change would mean that all students upon registering pay their picture fee, together with the publications fee as now paid. The picture fee would be three dollars yearly for members of all classes alike, doing away with the excessively large sums now charged upperclassmen, meaning a saving for lowerclassmen in the future. This additional fee would raise the publications fee from six dollars per year as it now is to nine dollars per year.

Students should balance the advantages of paying twelve dollars for having their pictures in the *Agromeck* for four years at school, against waiting until their junior year, as a majority of them do, and then have their pictures in the Annual for the last two years, paying a total of thirteen dollars therefor. They will immediately understand the direct advantage of the change.

When *Agromecks* are issued, those receiving copies will be asked to sign a petition for the change. A unanimous vote of the student body is necessary to further the plan.

It is hoped that students will foresee the benefits to be derived by the change.

## THE OTHER SEVEN MEN

In four weeks now approximately three hundred State College graduates will enter a world which at present can not offer a self-earned livelihood to the majority of them. The National Student Federation estimates from their survey that only one of eight members of the class of 1933 will have a self-supporting job. State College may exceed this average, but not by very much.

Assuming that industrial and governmental leaders will solve the problem of readjusting production and consumption to re-establish jobs, there remains the very serious problem of what the other seven men will do until this happens. Recovery can not be so very rapid and it will take years to reabsorb those qualified men who have been laid off since industry sickened four years ago.

It is all-important that the moral and spiritual integrity of this group of trained young men be preserved; their future is indissolubly tied up with the plans to avert such staggering losses as have been sustained in this period of stress.

Any local planning by colleges, government or public-spirited agencies which can provide recreation, interests and self-respect for this group of young men will deserve the highest commendation.

Particularly valuable would be of use their services for social improvement. They could combat adult illiteracy, work with groups of young people in planned recreational and educational programs and in many other ways use the investment made in their education. Funds for programs by the proper agencies for social improvement could well be appropriated or solicited for the specific purpose of using college graduates in projects to promote the general welfare. The need for such projects and the availability of workers deserves attention as a possibility for a dual benefit. If such a program could be carried out, it may be that these unemployed young men might be more useful in such capacities than they would be if they had an opportunity to immediately enter the industrial world for the sole purpose of enacting one of those success stories which were chronicled in the magazines some years ago. This is the first time in the history of this country that people have had time to think of the need for things like this.

H. A. M.

## HERE and THERE

By PHIL SEWELL

Have you read Polk Denmark's first article in the latest issue of the *Alumni News*? If you haven't it would be well worth your time to do so for I have closely followed his work since the formation of the Greater University of North Carolina and his last article I think has proved to be his best. Whether you agree with him or not it will be food for thought and if you are open minded and follow the advice or course that he prescribes you could not do a more spirited deed for your school. Polk is one of the best natured men on the campus and you might be inclined to take his work lightly but don't fail to read his last column in this month's issue and after you read it and give a little thought I feel sure that you will realize that he has the right slant on things.

Well, well at last we have a match for our well known blond co-ed. Whether her blond locks are natural or not I don't know but my doubts have been aroused about this renowned blond from Seventh Dormitory. Now George if it is not too personal, just why don't you and Hazel get together and perfect the process of lightening the hair for that field as yet is not overrun. Is there anything that I could do to induce you to give me the formula that you used so that I could print it in case there are others that are dissatisfied with their looks and may I ask if you also have a method by which we will be able to improve our personalities.

In an effort to solve the economic problems on the campus a movement has been set on foot to see what the reactions toward student janitors next year would be. I for one take this opportunity to speak against any such movement and I take the liberty of offering as an alternative the job of keeping the campus clean and free from grass and leaves. The prospect of student janitors for next year to me is not a pleasant one for I know that the job would not be a pleasant one in any sense of the word. The men in the dormitories would not feel as free to ask that odd jobs be done and thus the service that they

are entitled to would be impaired. Such a thought deserves praise but it also deserves lots of careful consideration before it could be put into practice.

Don't forget that Sunday is Mothers Day and you all know what to do. No matter what you do I know that

## The Beaten Path

it will be appreciated more than anything that you have done before this year.

## How To Avoid BONERS

A MAYOR IS A FEMALE HORSE

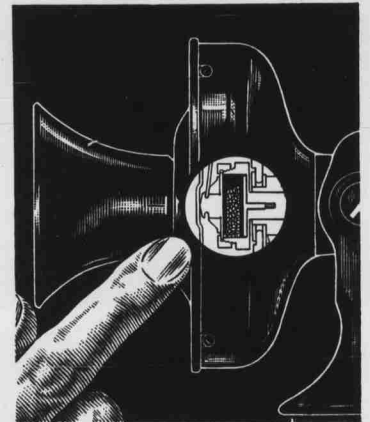

AND you haven't heard the half of it! The other day Bill Boner said the Sphinx were a tribe of people living in Egypt!

Won't some kind friend tell him what to do before it's too late? What he needs is a good pipe and good tobacco. Of course, the right tobacco is necessary—but that's easy. A recent investigation showed Edgeworth to be the favorite smoking tobacco at 42 out of 54 leading colleges.

And here's why: Edgeworth isn't just another smoking tobacco. It's an individual blend of fine old burleys. And you'll know that difference with the first cool puff of Edgeworth. Want proof before you buy? Then write for a free sample packet. Ad-

**EDGEWORTH SMOKING TOBACCO**

## Vocal cords made of coal!

Typical of Western Electric care and precision in manufacturing Bell Telephone apparatus, is the making of the transmitter button which transforms spoken words into electrical impulses.

This transmitter button—the telephone's vocal cords—contains coal. Only a fine grade of selected anthracite, specially treated, is suited for this delicate work. First the coal is ground into fine granular form—next it is carefully sifted and washed. Then, after being roasted in special ovens, it is put into the transmitter button. Approximately 50,000 tiny grains must go into each button—too few or too many would impair transmission.

Such infinite care with "little things" is one reason why Bell System apparatus serves so faithfully.

# Techs Meet Demon Deacons In Title Battle Saturday

### State and Wake Forest Are Tied For First Place in Big Five Circuit

State and Wake Forest will play tomorrow at Wake Forest. The outcome of this game will decide who will be the probable winner in the race for the Big Five Conference title.

State and Wake Forest lead the circuit in a tie for first place, having won 3 and lost 2 games apiece.

Rudy Seltz, fast right-hander, will probably start on the mound for the Doakmen, Fuller catching him.

It is to be supposed that Lefty Barnes will hurl for Wake Forest, because of the jinx he is credited of holding over State the past few years. Joyner will probably not be in the Deacon line-up due to injuries sustained in an automobile wreck a week ago.

As the race now stacks up, it's anybody's. As a memory-freshener, here's a summary of how the various teams have fared in Big Five play:

Davidson—Defeated Carolina twice; lost to State.

State—Defeated Davidson, Duke and Carolina after losing first two starts to Wake Forest and Duke.

Wake Forest—Lost last two starts, both to Carolina, after winning over State and Duke.

Carolina—Defeated Wake Forest twice; lost two to Davidson and one to State.

Duke—Defeated State; lost to State and Wake Forest.

## FROSH TROUCE WILD KITTENS, 6-1

### Womble Features in Davidson Game by Smacking Out Three Home Runs

State Frosh won their first game in three starts in the Big Five Frosh circuit, by beating Davidson 6-1 last Saturday.

Chub Womble, short stop for the Techlets, featured in the game by hitting three home runs.

Davidson's lone score came from a homer hit by Moore, tiny catcher, in the fifth inning.

Lefty Freeman was the winning pitcher for the Techlets limiting Davidson to but three hits, one by Moore and the other two by Burns.

Womble's first homer, in the second inning, came with one on base. The others, in the sixth and eighth, were with empty sacks. In his other trip to the plate Womble went out on a fly to deep left. The former Raleigh high athlete also featured afield, handling eight chances nicely at short.

Jimmy Staton, Tech catcher, turned in a fine defensive game. He tossed out two would-be stealers and picked one runner off first.

State lost last Tuesday 5-1 to Carolina giving Carolina its second Big Five victory in two days.

Techlet ace, Flythe, held the Baby Heels to six hits in seven innings of duty, but they scored because the hits came in the pinches. Lefty Freeman gave two hits and fanned three in the last two innings.

## Big Five Baseball

Clubs	W.	L.	Pct.
State	3	2	.600
Wake Forest	3	2	.600
Davidson	2	2	.500
Carolina	2	3	.400
Duke	1	2	.333

State and Wake Forest are in a tie for first place with the race wide open.

## SERMON RELEASES BOXING SCHEDULE

### Four Home Meets and Two Out Of State Meets Stated for Team Next Year

Dr. Ray Sermon, athletic director, announced yesterday the schedule for the 1934 State College boxing team. Four home meets and two out of state meets were on the card for the boxers.

The teams are the same that were scheduled last year.

The schedule: January 13, University of South Carolina, at Columbia; January 20, University of North Carolina, at Raleigh; January 27, University of Georgia, at Athens; February 3, Washington and Lee, at Raleigh; February 9, Duke, at Raleigh; and February 17, V. P. I., at Raleigh.

The team last season defeated South Carolina and Georgia, tied Carolina, Duke and V. P. I., and was defeated by Washington and Lee.

Bill Dunaway, Raleigh boy and winner of the Southern Conference Junior middleweight title at Charlottesville, Va., will captain the 1934 team.

## DORMITORY MEN DISCUSS STUDENTS AS JANITORS

At a meeting of the dormitory council in Holladay Hall Wednesday night, members opposed the plan that students be given work as janitors in the dormitories.

Plans were started for club rooms in the various dormitories, for use by students on respective floors.

## PROFS TO MEET R. G. A.

The State College faculty golf team will meet the Raleigh Golf Association linksmen in a match Saturday afternoon on the R. G. A. course. Prof. A. H. Grimshaw is captain of the Tech faculty.

Plans were started for club rooms in the various dormitories, for use by students on respective floors.

## STATE GOLFERS LICK CAROLINA

### Newham and Pastore Click to Lead Techs in 12 1-2 to 5 1-2 Win Over Heels

Behind the hard driving and the accurate putting of its four-man team, the State College golfers yesterday gave Carolina's linksmen a clean 12 1/2 to 5 1/2 licking on the Hope Valley Country Club links at Durham.

It was the first time the State golfers had met the Tar-Heels in a number of years, but the Carolina players could not cope with the steady playing of the Techs.

Carolina is scheduled to play State in a return match on the Carolina Country Club course shortly.

Although State won by a wide margin yesterday, the best card of the afternoon was turned in by Allen Smith, Carolina's ace and State intercollegiate champion, it was a 74, four over par.

Fred Newham, Jr., sophomore star of the State's team, was one above the Tar-Heel star, Fred's card was a 75 giving him second best card of the day. Newham holds number 1 position on the Tech's team.

Pat Pastore, sophomore, played a nice steady game to net a card of 76 to help feature in the Tech's win. The other two members of the State team were Charley Styron, who had a card of 78; and Earl Rion, with an 80.

The other members of the Tar-Heel team carried the following scores: H. C. Bridgers, 80; C. D. Cramer, and Ed Michaels, 82 each.

Smith won 2 1/2 points to Newham's 1/2 point; Pastore won 2 1/2 points to Michael's 1/2 point; Newham's and Pastore's best ball card, netted a 69, to win three points.

Styron won 2 1/2 points to Cramer's 1/2 point; Rion broke even with Bridgers, 1 1/2 points each.

Styron's and Rion's best ball developed Cramer and Bridgers for 2 1/2 to 1/2 points.

The team is coached by Captain Ben Venable, staff member of the State College R. O. T. C. unit.

## P. K. A. VICTORIOUS IN TRACK MEET

### Stanley Clevenger, Delta Sigma Phi, Was High Point Man With Two Firsts

By FRED DOERRIE  
Pi Kappa Alpha won the annual State College fraternity track meet yesterday, scoring 34 1/2 points to lead a field of 13 entries.

Other team scores were: Sigma Phi Epsilon, 17 points; Sigma Nu, 13 points; Kappa Sigma, 11 1/2 points; Lambda Chi Alpha, 11 points; Delta Sigma Phi, 10 points; Beta Sigma Alpha, 5 points; Theta Phi, 4 points; Alpha Kappa Phi, 3 points; Kappa Alpha and Theta Kappa Nu, 2 points each; and Pi Kappa Phi and Sigma Phi scored one point each.

Stanley Clevenger, representing Delta Sigma Phi, was high man with first places in the discus and shot put.

Summary of events:  
100 yard dash—Smock, Pi Kappa Alpha, first; Womble, Lambda Chi Alpha; Bridges, Sigma Nu. Time: 11 seconds.

One mile—Partel, Beta Sigma Alpha, first; Guzas, Sigma Phi Epsilon; and Poyner, Sigma Nu. Time: 5:20.

220 yard dash—Womble, Lambda Chi Alpha, first; Smock, Pi Kappa Alpha; and Boone, Sigma Phi Epsilon. Time: 25.2 seconds.

440 yard run—Bridges, Sigma Nu, first; Wall, Pi Kappa Alpha; and Palm, Pi Kappa Alpha. Time: 57.8 seconds.

Broad jump—Hughes, Kappa Sigma, first; Litvin, Theta Phi; and Munford, Alpha Kappa Phi. Distance: 20 feet.

Discus—Clevenger, Delta Sigma Phi, first; Guzas, Sigma Phi Epsilon; and Hughes, Kappa Sigma. Distance: 104 feet, 5 inches.

12 pound shot—Clevenger, Delta Sigma Phi, first; McQuase, Pi Kappa Alpha; and Houston, Pi Kappa Alpha. Distance: 42 feet.

High jump—Davis, Lambda Chi Alpha, first; Linch, Pi Kappa Alpha; and Simms, Kappa Sigma, tied for second. Height: 5 feet 4 inches.

Points were also given for fourth and fifth places.

## TRACK TEAM GOES TO DURHAM MEET

### Ray Rex and Zori Expected to Win Laurels in Annual State Competitions

State's track team will go to Durham tomorrow to enter the State Track Meet to be held at Duke University. A complete team, however, will not be entered.

Ray Rex will put the shot and hurl the discus for the Techs. Last year Rex put the shot 44 feet 7 inches and hurled the discus 121 feet 1 inch. This year in practices he has improved over last year's form and has put the shot for a distance of 46 feet 2 inches. This is one foot and one inch better than the state record.

The other members of the varsity team are: Poliso, shot put; Farrar, javelin; Lynch, 100-yard dash and 220-yard; Lloyd and Shuping 440-yard.

## Sports At a Glance

Varsity baseball, May 12, Wake Forest at Wake Forest; May 15, Duke at Raleigh; May 26, Carolina at Raleigh.

"As long as We're Settling things"

SUPPOSE YOU TELL ME WHY YOU SMOKE GRANGER"

"WELL, it's like this. Back in the old days, when men wore high hats and frock coats, they had plenty of time to think things out, and they had sense, too. They used to sit down on a log and take the time to whittle their tobacco from a plug, to be sure of having a cool smoke.

"In those days, a man named Wellman, right here in Quincy, Ill., made about the best tobacco you could get. He knew how to keep the flavor fine and mellow.

"Well, sir, the people who make this Granger Rough Cut acquired Mr. Wellman's method, and they must have known how the old boys used to whittle their tobacco to make it smoke cool. Yes, sir, this Granger is the real stuff. The same mellowness and fine flavor that Wellman used to hand out to his friends. And it's whittled into big shaggy flakes all ready for the pipe. 'Rough Cut' they call it—'cut rough to smoke cool' is the best way I can describe it.

"Regardless of price, Granger is about the best pipe tobacco I ever smoked. That's why I smoke it, and that's why they call it America's Pipe Tobacco, sir."

Now we wanted to sell Granger for 10¢. It was just a question of how to do it for the price. So we pack Granger in a sensible foil pouch instead of an expensive package, knowing that a man can't smoke the package. We give smokers this good

GRANGER tobacco in a common-sense pouch for 10¢.

GRANGER has not been on sale very long, but it has grown to be a popular smoke. And there is this much about it—we have yet to know of a man who started to smoke it, who didn't keep on. Folks seem to like it.

Liggett & Myers Tobacco Co.

TEN CENTS

The Granger pouch keeps the tobacco fresh

## Alpha Kappa Pi

The Xi Chapter of Alpha Kappa Pi fraternity entertained guests with an informal house dance at their residence at 6 Fernside Lane on the evening of May 8. Refreshments were served during the dance.

Guests present were: Misses Katherine Mason, Jasmine Bland, Mildred Pittman, Berkeley Sauls of Ayden, Marguerite York, Lillian Covington, Beatrice Cotner, Elizabeth Colwell, Rita Colwell, Martha Lane Bradley, Carolyn Rasklyffe, Ellen Williams of Greensboro, Elizabeth Gerow, Laura Gill, Jean Edgerton, Elizabeth Park, Mr. and Mrs. E. P. Galba, Sarah Coleman, Annette Thomas, Helen Hines, May Belle Motley, Emma Lee Ader Holt, Louise Pike, Dorothy Sawyer, Marshall Briggs, and Ann Barber.

The faculty guest was Professor R. W. Henninger.

## Alpha Chi Beta

The members of the Alpha Chi Beta fraternity of State College entertained their friends at an informal dance at their home on Clark Avenue Saturday evening, May 6.

Guests of the fraternity were Misses Virginia, Puckett, Claudia Dowell, Barbara Moore, Margaret Moore, Sadie Harris, Lavenia Fuller, Ann Powell, Violet Hamner, Ethel Goodwin, Pearl Humphrey, Margaret Owens, Clyde Cotner, Lillian Haymore, Elizabeth Pulcher, Effie McLean, Frances Fleming, Kate McLean, Virginia Phelps, Ruth McCullers, Mabel Cutthrell, and Helen Narron.

Chaperones for the occasion were Mr. and Mrs. F. J. Blake.

## Pi Kappa Phi Entertains

Saturday afternoon at their home on Hillsboro Street, members of Tau Chapter of Pi Kappa Phi fraternity of State College entertained at a delightful informal social.

Refreshments of sandwiches, fruit punch and cakes were served during the afternoon.

## GOESER DEMONSTRATES MEAT CUTTING METHODS

Paul A. Goesser, meat demonstration specialist of the National Livestock Association, gave a demonstration of the meat cuttings in the judging room in Polk Hall yesterday afternoon at 4 o'clock before a large audience of students and faculty.

Prof. R. E. Nance of the State College husbandry department had charge of the program.

## Scabbard and Blade

One of the outstanding social events of the spring College season will take place tonight at the Carolina Country Club when Company "G," Third Regiment of Scabbard and Blade, national military fraternity entertains with its fifth annual dinner dance.

The Scabbard and Blade dinner dance is novel and original in that it is the only all no-break card dance given during the year by any State College organization. Following the banquet at eighty-thirty, the twenty cadet sergeants who were recently initiated into the fraternity will take part in the junior figure in which their dates will pin the emblem of the fraternity on their chests. Card dancing will be enjoyed until intermission, after which the senior cadet officers and their dates will participate in the Senior figure, a pageant-like march of much dignity and beauty. Further dancing will then be enjoyed until one o'clock. Music for the dance will be furnished by Dot Bennett and his State Collegians.

At a meeting of the fraternity last Tuesday night committees were appointed by Cadet Captain W. C. Keel, president of the chapter. F. D. Whitehead is chairman of the dance committee, F. R. Nail is chairman of the figure committee, W. D. Pritchard is chairman of the place-card committee, and A. C. Newton is publicity director.

Young ladies who will attend the dance include: Misses Corinna Gant, Anderson York, Dorothy Furr, Catherine Harris, Ray McKinney, Caroline Ratcliff, Frances Eighth, Gertrude Mitchener, Suzanne Allen, Primrose McPherson, Caroline Tucker, Clara Margaret Grantham, Elizabeth Wade, Elizabeth Mason, Mary Helen Stewart, Fannie Belle Bray, Gwendolyn Crowder, Evelyn Pittman, Mildred Butts of Wilson, Alma Fouts of Thomasville, May Wyatt, Aileen Jennette, Margaret Little, Minnie Belle Finch of Bailey, Helen Handy, Hazel McDonald, Margaret Owen, Virginia Gravely, Edyth Wyatt, Elizabeth Maynard, Katherine Glascock, Mildred Martin, Mary Belle McMurray, and Mrs. W. D. Ford. The dance will also be attended by Dr. and Mrs. E. C. Brooks, Dean and Mrs. E. L. Cloyd, Army officers and their wives, and alumni members of the fraternity with their dates.

## FOUNTAIN LAUDS NEW YEAR BOOK

(Continued from page one) new faces filling the old holes. It is just possible that the faces are a little plainer photographically, though not pulchritudinally. Come to think of it, the portraiture of the whole book is excellent.

All members of the faculty will search to see if they have been included in the Alpha Sigma Sigma. Personally I was much disappointed to see that I was not; but that omission was somewhat satisfied by the inclusion of two men from my department. Just as a matter of accuracy, the date of founding of the fraternity should be a year earlier, as its first appearance was in May, 1926, in a full-grown order. It must, therefore, have been founded near the last of 1925. Ask Jim Potter, editor, 1926; he did it.

The superlative and feature sections are very good, largely in the photograph; but at places it is a little hard to identify the names and the pictures, unless we know the relations already. The jokes in the back are sandwiched among the advertisements in true Amos and Andy style. It is likely that this section is the one emphasizing big business. The jokes themselves are so tame I lost interest after the first page.

All in all, it is an excellent book, and I like it so well I think I shall keep this copy I have here.

## TECHNICIAN WINS N.C.C.P.A. PRIZE FOR BEST WEEKLY

(Continued from page one) Dan A. Torrence, present editor and business manager of the TECHNICIAN; A. L. Drumwright, and R. S. Poole, past editor and business manager of the *Watauga*; Dave Morrish and E. J. Lawrence present editor and business manager of the *Watauga*; L. M. Boswell, past editor of the *Agriculturist*; W. R. Smith, and W. E. Adams, present editor and business manager of the *Agriculturist*; Henry Russ, editor of the *Agromock*; A. H. Couch, editor of next year's *Agromock*; Carlton Anderson and Jimmy Creech. Edwards & Broughton Co. of Raleigh, printed the prize-winning TECHNICIAN.

## Announcements

### ATTENTION, JUNIORS

Juniors may secure their bids for admittance to the Junior-Senior set, and the complimentary bid for the afternoon dance from Norman York in Room 515, 1911 Dormitory. Seniors will be admitted to both afternoon and night dances on their registration cards. Joe Dixon, President.

All self-help men are invited to attend a smoker to be given by the Self-Help Club tomorrow night at 7, in the Y. M. C. A.

The American Institute of Electrical Engineering will hold a smoker in the Electrical Engineering building at 6:45 Tuesday. This will be the farewell meeting for the year.

There will be a meeting of the Leazar Literary Society tonight at 8:30 in the Leazar Hall in the Y. M. C. A.

Dean Cloyd wishes to see presidents of campus organizations in his office so that he may make out a list of the respective officers for next year.
