

## AGROMECK GETS \$1,500 ADDITION TO PICTURE FEE

Vote Last Year to Increase Annual Fee Does Not Get Attention of Trustees

### PUBLICATION BOARD VOTES TO BUY OFFICE EQUIPMENT

Appropriation From Publication Reserve Fund Made by President E. C. Brooks After Conference With Year Book Heads; Board Takes Up Eligibility of Aspirants for Editors and Business Managers; Technician Clears \$800 in 1931-32

The 1932 Agromeck will receive a \$1,500 appropriation from the publications reserve fund to be applied on picture fees according to information made public at a meeting of the Publications Board Tuesday afternoon at 4:00 p.m.

Dr. E. C. Brooks made the appropriation recently after a conference with Agromeck heads.

The money will be pro rated on individual picture fees, with seniors who have their pictures made, probably receiving a two dollar reduction, and juniors and sophomores approximately a one dollar reduction. There will be no individual freshman pictures in the book this year, but there will be a group picture of the class.

Last year the student body voted to pay a compulsory picture fee in order to have every student's picture in the book, but the administration and the Board of Trustees did not consider the additional fee.

The publications reserve fund consists of the accumulated profits of publications and was established to carry over any publication which should ever show a deficit for the year. The Board also decided to buy permanent equipment for the three campus publications, the Agromeck, the Watawgan and the Technician out of the same fund to the amount of about \$200.

The Board also took up the question of eligibility rules for aspirants to the positions of editor, or business managers of the publications. Last year there was considerable argument over the eligibility of a candidate for the editorship of the Technician and this year the Board is formulating a set of rules of eligibility for entrance in the primary elections next spring.

The rules will probably be completed and passed on during the next two weeks, when they will be published so that prospective candidates may know the conditions they must fulfill in order to compete for a publications office.

### STATE'S GRANGE CHAPTER WILL BE INITIATION HOSTS Over Sixth Degree in "Y" on October 19

The State College Chapter of the National Grange will be host to more than fifty candidates for the Sixth Degree to be given in the Grange Hall of the Y. M. C. A. Wednesday, October 19.

Members of the Grange are required to take the Sixth Degree in order to be eligible to attend the National Grange Convention in Winston-Salem on November 17 through 25. This meeting will be the first time the national organization has convened in the South in 40 years and more than 20 thousand members are expected to attend.

W. Kerr Scott, graduate of State College in 1917, is head master of the North Carolina Grange and will conduct the initiation at the institution. Decorations for the event and all preparations will be made by the student branch at the college.

### DORMITORY COUNCIL HEARS MILLER TALK ON WEDNESDAY

J. F. Miller, head of the physical education department, gave a talk to the Dormitory Council on the intramural program which the physical education department is sponsoring for this year, at a meeting Wednesday night.

He urged all clubs to enter teams in all the nine sports which will be offered this year. The names of the dormitories winning each event are to be placed on a plaque on a wall in the gymnasium.

### Leaders

On next Wednesday night Dr. E. C. Brooks will entertain a group of approximately fifty of the student leaders of the campus, at an informal dinner in the Y. M. C. A. The members of Golden Chain, Blue Key, and Student Council will be invited in a body. Other guests will be the presidents of various organizations and the captains of all teams. This banquet is an annual affair and Dr. E. C. Brooks discusses problems pertaining to the college which are of interest to the student body.

## PAGET ANNOUNCES DEBATING TRYOUTS

Director of Forensics Sets October 27-28 as Dates for Debate Team Meets

North Carolina State College debaters will be given their try-outs for the debate squad to represent this school in intercollegiate circles during the coming year, October 27 and 28, recently announced Prof. E. H. Paget, director of forensics.

The debate question of the year is, "Resolved, That the United States should agree to the cancellation of the Inter-Allied war debts." This question has been chosen by Phi Kappa Delta, national debating fraternity, and will be the dominant question in all parts of the country.

Graduation and absence from school has depleted the ranks of veteran debaters, only three being left, L. M. Knott, W. C. Hubbard, and Catherine Harding.

It has been the policy of the director of debating to increase the number of debaters each year, and plans call for the use of from twelve to fifteen students. More students will be used if the turnout of prospective debaters permits.

During the past three years the debate team under the direction of Professor Paget has won approximately eighty per cent of its engagements; it has won the South Atlantic championship once; was runner-up for the Southern championship once; finished third in the national extemporaneous speaking contest at Tulsa, Oklahoma; has won four state championships in oratory and extemporaneous speaking; and for the last two years has held the Southern championship both in oratory and extemporaneous speaking.

The tryouts on October 27 and 28 will be held in Prof. Paget's office from 4 to 5 p.m. The tryouts for the men's varsity team, the women's varsity team, and the freshman team will be held at this time.

### PHI EPSILON SOCIETY NAMES OFFICERS ON WEDNESDAY

Phi Epsilon, co-ed society, held their regular weekly meeting Wednesday night, October 12, at which time the new officers who were elected at the preceding meeting took over the duties of their offices.

Catherine Harding, president, was the only one elected last year to return to school. The officers elected this year in place of those that did not return are: Volene Williams, vice president; Hazel McDonald, secretary; and Elisabeth Gaither, secretary.

The "Y" has been obtained by the club for the "rushing" party.

### Cosmopolitan

Two foreign countries and ten states are represented among the students enrolled in the textile school of N. C. State College. The foreign countries represented are Bulgaria and China and the state representation is distributed from Rhode Island to Georgia.

## ROOSEVELT POLLS LARGE PLURALITY IN SOPH ELECTION

Compulsory Attendance May be Banned if 85 Per Cent of Class Attend Meets

### B. F. BROWN TO CONTINUE "WORLD EVENTS" PROGRAM

Norman Thomas Gets 10 Votes and Herbert Hoover 21 When Straw Vote is Taken; Coach Doak Urges Class to Participate in Intramurals; Janette Selected Cheer Leader; Sophomores to Paint Numeral on Riddick Field Fence

By J. F. ABERNETHY  
Franklin Delano Roosevelt, Democratic choice of president, received 369 of 400 votes counted at the initiation meeting of the Sophomore class held in Pullen Hall Wednesday at noon.

Herbert Hoover received 21 votes amid boos of the Sophomores. Norman Thomas, received ten votes and mild applause. Roosevelt's straw victory was taken with an ovation.

"Chick" Doak urged the members of the class who did not live on the campus to get together and organize teams for the intramural sports. He also stated that the point system would be used to determine the winning team.

Prof. W. N. Hicks, adviser for the class, gave two reasons why the Sophomores should meet at least once a month. "First, to help the members of the class to become better acquainted with each other; Second, to foster a better understanding in our associations with economic as well as political problems."

"In the matter of compulsory attendance to these meetings," said Hicks, "if there is at least seventy-five to eighty per cent present, I will try to have the compulsory ruling withdrawn."

Dean B. F. Browne will continue to give his "world events" this year to the class.

Mark K. Wilson, president of the Student Body, stated that the Sophomore class help the Freshmen by not carrying its horseplay to the extremes. He also asked to see more pep meetings that the team may know that the class support it.

In the absence of John "Clipper" Smith, who was ill, Rev. E. McN. Pickett, Jr., pastor of Pullen Memorial Church, presented an inspirational talk, the subject being Unselfishness and Sportsmanship.

Charlie Janette was selected Sophomore cheer leader and any other members of the class wishing to make the cheer leading team were asked to report to the cheer leader.

David Morrish and James Barnhardt, who have charge of the painting of the 35 emblem on the Riddick Field fence showed the class a drawing of the emblem. The numerals are to be white upon a shield of red. At the top of the shield is wolf's head and at the bottom is N. C. S. If possible, the painting will be displayed at the State-Wake Forest game today, the committee said.

### PROF. E. W. BOSHART MAKES RADIO TALKS DURING WEEK

Addresses of Station WPTF Are Heard by Pupils in Raleigh Schools

Advice to young men and young women on the occupations they wish to enter in life was given by Prof. E. W. Boshart, director of vocational guidance, in three talks which he delivered over the local radio station on Tuesday, Wednesday, and Thursday. The subject of the first talk was "Our School at Work," the second was "Our World of Education" and the last was "The Problems We Must Face."

During his lectures Professor Boshart had pupils from the local schools in the studio to aid him in his talks. "It is very helpful to have pupils in the studio," said Professor Boshart, "as I can study their responses during the time they are in the studio, both while they are speaking and while they are mere observers. It was the first speech that any of them had ever made over the radio."

The purpose of these lectures is to give the young people some idea of the occupations they are to enter after they leave school.

Professor Boshart will speak again over the radio station next week on "Industrial Arts in Schools." This will be divided into three lectures as were his first speeches.

### Fair Sponsor

MISS MARY KATHRYN GRIFFIN  
Sponsor of State College Students' Agricultural Fair. Miss Griffin is sponsored by Fred Jones, student president.

## STUDENTS' FAIR IN FULL SWING

Zoology Student's Display Wins Departmental Exhibit Prize By Small Margin

The Students' Ag Fair is in full swing at the State Fair Grounds this week. The fair started Monday, October 10, and will end Saturday, October 15.

The exhibit of the Zoology Department won the prize for the best department exhibit by a half-point margin over the Vocational Agriculture display, which came second. The Animal Husbandry Department won third prize.

Many visitors have viewed the student exhibits in the big tent which houses the Ag Fair, and Fred Jones, president of the Fair this year, stated that "the Fair is a success and many favorable comments have been received from the faculty and the public."

Beginning as a small corn show several years ago when Prof. C. L. Newman was head of the Department of Farm Crops, the Agricultural Students' Fair has grown to be one of the leading features of the present day in the agricultural products of North Carolina.

Beginning with the fall of 1928, the Students' Agricultural Fair has been held in connection with the North Carolina State Fair, at the Fair Grounds.

### J. R. SALEM WILL SPEAK TO ELECTRICAL SOCIETY

J. R. Salem will give a talk on "The Electric Power Development in Syria," at the meeting of the American Institute of Electrical Engineers, Tuesday night, October 18. C. M. Smith, Jr., will give topics of the day.

The society has increased its membership with five new members. They are: John W. Hunter, John E. Jenkins, Charles M. Rogers, W. Rex Buchanan, and Joseph F. Abernethy.

All electrical engineers who wish to join the society are being urged to be present at the meeting.

### FRESHMAN COUNCIL PLANS TO ORGANIZE WEDNESDAY

The Freshman Friendship Council will hold its first meeting Wednesday, October 19, at 6:30 p.m., in the Y. M. C. A. auditorium, for the purpose of organizing for the year.

Dr. E. C. Brooks, president of the college, will be the principal speaker. Ralph Cummings, president of the Y. M. C. A., will preside over the meeting, and welcome the freshmen into the council.

The remainder of the program will be in charge of James Barnhardt, supervisor of the group, who will outline this year's program.

## FRATERNITIES GET NINETY-FOUR MEN ANNOUNCES CLOYD

Greek Letter Fraternities Have Approximately 20 Per Cent Decrease Over 1931

### KAPPA SIGMA AND SIGMA NU TIE FOR HONORS WITH NINE

Freshmen Required to Pass 70 Per Cent of Work Before Their Initiations to be Held in Spring; Seventeen Social Fraternities on Campus; Last Year 117 Freshmen Were Pledged; Rushing Season Ends at College Saturday

Ninety-four pledges, most of them freshmen, were accepted bids to the seventeen social fraternities on the campus at the end of rushing season on Saturday, October 8, according to E. L. Cloyd, Dean of students.

Kappa Sigma and Sigma Nu tied for honors getting nine pledges respectively.

Before the freshman pledges can be initiated they must pass seventy per cent of their scholastic work and receive the permission of faculty supervisors of the fraternities. No freshmen are initiated until the spring term and then only when they have satisfied requirements during the first two terms of the school year.

Last year 117 were pledged at the end of rushing season, a decrease of approximately twenty per cent.

A list of the pledges is as follows: Alpha Gamma Rho—Charles Turlington, Fayetteville; J. K. Henry, McKees Rocks, Pa.

Alpha Lambda Tau—Sam R. Leager, Raleigh; Maurice A. Wright, East Orange, N. J.; F. D. Newcomb, Wilmington; Edgerton Vaughan, Jackson; Jack T. Miller, Albemarle; Joyce Harrington, Washington; and John Wilkes, Jr., Hamlet.

Beta Sigma Phi—Kenon Brockwell, Raleigh; Vann Neelans, Goldsboro; Leslie B. Williams, Kingston; Henry H. Latham, Washington; E. R. Sykes, Jr., Wendell; E. P. Schulken, Wilmington; and A. L. Owens, Plymouth.

Kappa Alpha—Gordon Smith, Jr., Raleigh; Tom Wilcox, Allen, Louisiana; T. M. Carter, Washington; Robert W. McNairy, Greensboro; and Charles Brantley Aycock, Raleigh.

Kappa Sigma—Carson I. Simms, Charlotte; John Parrott, Kingston; Morrison Campbell, Raleigh; Walter Flournoy, Raleigh; A. L. Mills, Rocky Mount; Hubert Todd, Lumb, George Ross, Jr., Raleigh; Chas. R. Riddick, Hertford; and Robert B. Murdock, Salisbury.

Lambda Chi Alpha—A. H. Daves, Jr., Winston-Salem; J. K. Bruton, Mount Gillett; L. B. Webb, Mount Airy; Rufus Womble, Raleigh; Paul Allen, Raleigh; C. C. Daugherty, New Bern.

Phi Kappa Tau—J. W. Bradley, Jr., Fairmont; W. C. Bowen, Smithfield; J. S. Mauney, Kings Mountain; and John A. Bassler, Rockville Centre, N. Y.

Pi Kappa Alpha—Jas. S. Smithman, Troy; T. C. Sawyer, Jr., Belcross; Malcolm Wall, Enfield; and W. C. Whitcomb, Bethel.

Pi Phi—Phil—Ralph Glies, Glen Alpine; Jack James, Marion; John A. Garron, Valdese; and W. L. Dixon, Jr., Charlotte.

Sigma Nu—Adal S. Oliver, Jr., Raleigh; Robert G. Hodgkins, Jr., Wilmington; R. G. Sherrill, Raleigh; Howard White, Jr., Raleigh; W. G. Cole, Jr., Canton; W. E. Hall, Statesville; Rufus M. London, Rock Hill, S. C.; Joe Lukens, Norfolk, Va.; and Ailyn Julien, Charlotte.

Sigma Phi Epsilon—E. B. Yearby, Jr., Raleigh; John E. Guzas, Brookline, N. Y.; S. W. Fowler, Greensboro; and J. A. Watkins, Andrews.

Sigma Pi—H. K. Keck, Roselle Park, N. J.; Jack Walsh, Beach Haven, N. J.; John T. Stanko, Steubenville, Ohio; S. V. Sabol, Andrew S. Sabol, Campbell, N. Y.; and J. W. Hanna, Hickory.

Theta Kappa Nu—Geo. J. Grimes, Mount Olive; E. W. Cooper, Kingston; W. B. Coppersmith, Jr., Elizabeth City; and D. C. Kautz, Somerset, Pa.

Alpha Chi Delta—R. J. McCullough, Chocoma, Mass.; Joseph A. Jackson, Portsmouth, Va.; Nelson H. Tate, Richmond, Va.; D. K. Fry, Princeton, W. Va.; R. M. Bruce, Princeton, W. Va.

Alpha Kappa Phi—William A. Bain, Jr., Norfolk, Va.; Robert Griffin, Wilmington; P. W. Sutherland, Flushing, N. Y.; Wendell R. Moore, Greensboro; Herbert F. Schoof, Ridgewood, N. J.; George McArthur, Rocky Mount; and J. Louis Lempert, Jr., Rutherford, N. J.

Beta Sigma Alpha—E. R. Dowdy, Harbinger; Geo. H. Schmutz, Palmerline (Please turn to page two)

## FROSH CLASS HAS STEADY DECREASE FOR THREE YEARS

### Homecoming

Hundreds of former N. C. State College students are expected to attend the annual fall Homecoming Day to be held at the college Friday. The principal event of the day will be the annual Fair Week game between State and Wake Forest.

Two of the campus honor societies, Blue Key and Golden Chain, are in charge of the arrangements and will make every effort to insure the homecoming alumni an enjoyable time.

## PRICE ANNOUNCES BAND PERSONNEL

Fifty-four Piece Band to be Among Best in South, Says Director of Music

"This year State College has a fifty-four piece collegiate band which will be one of the best in the South for color and quality," says Percy W. "Daddy" Price, director of music.

"Daddy" Price worked hard to put the band in good condition for the State-Clemson game, last Saturday. Practice for the State-Wake Forest game has been going on all this week. The Wake Forest College song, the formation of the "WF," and other maneuvers have been learned and the band is ready again to strut its stuff today.

Concerts will be held this year as customary and will either be held in Pullen Hall or the City Auditorium.

B. R. Jolly is drum major for this year and the members of the band are:

Trumpets: J. F. Allen, Raleigh; D. E. Bennett, Greensboro; W. L. Curry, Raleigh; W. E. Cline, Drexel; K. W. Clark, Wilmington; R. H. Cottrell, Winston-Salem; C. R. Goodwin, Raleigh; O. M. Horton, Raleigh; W. C. Hubbard, Winston-Salem; J. D. McCall, Raleigh; R. Norris, Gastonia; R. L. Poote, Bromwell, W. Va.; W. S. Teague, Fairmont; W. C. Whitehurst, Bethel; J. M. Wells, Elm City.

Trombones: J. M. Poyner, Raleigh; J. F. Nycum, Durham; R. C. Treverton, Marion; J. S. Thompson, Haw River.

Baritone: C. S. Grove, Raleigh; S. A. Ward, Lumberton.

French Horns: E. P. Galba, McKees Rocks, Pa.; J. H. Lindstrom, East Orange, N. J.

Alto: H. C. Hill, Snow Hill; W. H. O'Kelly, Raleigh; L. L. Cole, Dunbar, Va.; J. L. Land, Hamlet.

Drums: E. R. Poole, Raleigh; R. S. Poole, Washington, D. C.; E. F. Anderson, Pontiac, R. I.; I. M. Porter, Raleigh.

Basses: J. H. Barnhardt, Charlotte; K. H. Brockwell, Raleigh; B. R. Harris, Raleigh; J. R. Womble, Rocky Mount. Saxophones: J. M. Gregory, Fredericksburg, Va.; A. H. Griffin, Edenton. Piccolo: J. W. Culp, Gastonia.

Clarinet: B. B. Culp, Gastonia; J. C. Geddie, Raleigh; E. M. Geddie, Raleigh; J. L. Stonebanks, Raleigh; R. S. Hoggard, Charlotte; W. H. Sullivan, Greensboro; W. M. Porter, Charlotte; W. H. Darst, Raleigh; W. P. Ingram, Shelby; R. C. Childs, New Bedford, Mass.; F. D. Newcomb, Wilmington; A. S. Cheverko, Brookline, N. Y.; L. T. Ames, New Bedford, Mass.; J. C. Williams, Raleigh.

Cymbals: H. M. Jernigan, Dunn. Drum Major: B. R. Jolly, Raleigh.

"It is interesting to note," said Price, "that there are eighteen men from Raleigh and nine men from out of the state on the band this year."

### Back to Nature

Dr. B. W. Wells, botany department head, taught his class in "back to nature" style in Wilmington.

Last Saturday the botanist took a class in forestry to lake regions around Wilmington. He was inspecting plants closely while resting on a stump. The stump submerged, as did Dr. Wells, but the classes went on. Dr. Wells donned a loin cloth improvised from a towel, and continued his lectures.

State Student Population This Year is 1,597 With 205 Less Than in 1931-32

### BUSINESS AND TEXTILES TOP WITH INCREASE OVER '31-32

Transfer Students Increase 45 Over Last Year; Science and Business Increases Nine and Textiles Two Over 1931-32; Seniors is Only Class Greater Than Last Year With 279; Engineers Have Greatest Loss With 122 Less

Student population at State College this year, with approximately 1,597 registered, is 205 short of last year's record.

The freshman class has had a steady decrease for the past three years, from 700 in 1930-31, 641 in 1931-32, to 525 this year. Sophomores decreased 67 over last year, 76 over 1930-31. Juniors are 38 less than last year.

Seniors are the only class larger than last year, with an enrollment of 279 over last year's record of 263 and 1930-31 with 240.

Graduates are ten less than last year, with 64; irregulars have two more, with 20, and special students 18 against a record enrollment last year of 11.

The greatest increase of students is in the transfers, with approximately 1120 over 75 last year.

Science and Business shows the greatest increase of any school and the only increase other than Textile. Science and Business, with 364, increased nine over 1931-32 and 20 over 1930-31; Textiles, with 129, increased two over 1931-32 and seven over 1930-31; Agriculture, with 255, decreased 31 over 1931-32 and three over 1930-31; Education, with 195, decreased four over last year and a gain of seven made in 1930-31.

The School of Engineering has the greatest loss, with 122 less than last year and 137 less than 1930-31. The enrollment this year 649.

Ranked by population, the Engineers lead the enrollment with 649. Science and Business is second with 364; Agriculture third, with 255; Education fourth, with 195, and the Textiles last, with 129. In Engineering, the mechanicals lead with 179, chemicals 167, electricals 144, civils 55, and 25 ceramic engineers.

### RADIO CLUB WILL CONVENE FOR FIRST TIME TONIGHT

Club Members Participate in Operating Amateur Station at N. C. State Fair

Tonight the Radio Club will hold its first meeting at 6:30 in the radio room at Winston Hall. All the old members are being urged to attend and those who wish to join are also asked to attend.

The club has a new fifteen-watt transmitter, which was built by Professor H. L. Caviness, advisor to the club. The transmitter is on forty meters and is the latest type of station for amateur use.

Plans are being made to secure a receiver and as soon as one is secured, the station will begin its operations. Messages are sent to all parts of the world free of charge, and persons desiring to take advantage of this opportunity are asked to leave their messages at the radio room.

The members of the club participated in the work of operating the amateur station located at the State Fair this week. Hundreds of messages were relayed from the Fair Grounds to various places in the country.

### JONES AND SWAIN HEAD JUNIOR RING COMMITTEE

Walter Jones and J. D. Swain have been named as those who will manage the business matters accompanying the ordering and buying of the rings of the class of '34.

Joe Dixon, president of the junior class, made these appointments, and also announced that Dean Cloyd has consented to act as adviser on this committee.

All juniors are urged to be present at class meetings, since there will be some important business to be considered this year.

## ABOUT THE Y. M. C. A.

The Y. M. C. A. ranks as the major phase of student life in point of money expended for maintenance. It is a social institution upon the campus, and as such deserves the critical interest of the college community with the purpose of ascertaining if it is performing service commensurate with its cost and the consideration given to it.

Faculty and students in years past have neglected to offer any criticism of the Y. M. C. A. because of the feeling that it was something sacred and above the ordinary standards of values. Thus there has been no stimulation of the organization and little thought given to the fact that the campus has changed and that every part of the college must change if a well-balanced and efficient order of things is to prevail.

The Y. M. C. A. makes the statement often that it is supported entirely by voluntary student donations. The Y. M. C. A. costs the college about \$11,000.00 each year. Student donations last year amounted to \$863.00. The budget this year calls for \$1,800.00 expected student subscriptions, but the amount collected so far, with one registration over, is but \$400.00 odd dollars. The student activity fee gives the Y. M. C. A. \$600.00 every year, and last year an extra \$150.00 was appropriated. The gap between the expected and actual student subscriptions thus creates a financial problem which officials of the organization and the student body must face, for the difference must be made up some way and the student activity fee will probably be called upon.

The budget calls for \$4,125.00 to be spent this year. In addition to the \$1,800.00 student subscriptions and the \$600.00 from the student activity fee, the rest is expected to come from the following sources: \$700.00 faculty donations, \$425.00 room rent, and \$600.00 appropriated from general college funds.

In addition, the college pays the salaries of three regularly-employed officials of the organization, amounting to about \$7,000.00, and maintenance of the building.

The Y. M. C. A. boasts of its services. These services, exclusive of the Self-Help Bureau, which is handled by a regular employee, are: New student work, publishing the handbook and a student information and service bureau. These might be termed necessary services, and their total cost by the Y. M. C. A.'s own budget amounts to about \$800.00.

These figures show that the Y. M. C. A. costs the college, over and above necessary services, at least \$8,000.00.

Part of the Y's money goes for speakers, and most of them come for a dual purpose, one purpose being to serve interests desirous of influencing the thinking of college students towards gain for an organization or principle. A lecturer on prohibition last year, obtained by the Y. M. C. A., who spoke to a class meeting where students were required to attend, was afterwards found to be a rank impostor. He was not the sincere benefactor of his pose, but a paid propagandist whose figures were highly colored and whose information was highly dubious. These facts were obtained from an impartial investigator by chance, and are verifiable.

Also last year the Y. M. C. A. housed and fed a man who "conferred" with student groups. His "conferences" were thoroughly disliked by those who heard him, and he was not popular among the groups which he tried to impress. Very few liberal, forceful speakers with a message and a vision visited State College last year, or in the past few years.

Years ago, when the college was much different from today, the Y. M. C. A. was the hub of campus life. There was no gymnasium, and the "Y" had a swimming pool and a bowling alley. These were abandoned and now the only recreation offered is a small library of periodicals and a few checker tables.

Years ago literary societies were in their heyday and there were fights over pledges, and now their prestige is gone. Students were deeply interested in the religious programs of the Y. M. C. A. and now they go to the churches of Raleigh.

The answer to the question of what has happened to the Y. M. C. A. through all these changes is that it has changed into a highly centralized student activity. It does not reach out and touch the student body as in years past; interest is small and the only active work done is by a small group of students who conduct their meetings in a realm apart from the stream of college life. A great deal of time and money is expended on conferences, training courses, a Y. M. C. A. graduate school, religious meetings and lectures—all of which has little to do with the student body as a whole.

The whole situation is that the Y. M. C. A. is a little world within itself and is growing more self-centered every year.

The only tangible service it renders the college outside of the necessary services mentioned previously is the housing of student publications and organizations, excepting, of course, the experience and training received by the few students interested in Y. M. C. A. work.

In order to lift it from the charge of merely being a parasite upon the college, the Y. M. C. A. must begin to do something to justify its existence. The stereotyped programs which have been the same for years will no longer serve on a campus which has changed radically and is likely to change even more so in the next few years.

This is a time of searching inquiry into every phase of student life. It is up to Y. M. C. A. officials and student workers to do something to justify the existence of the organization. Recreation facilities might increase student interest. Speakers who would interest students and bring some message to the campus, abandonment of old propaganda programs, in fact, almost any innovation would increase the worth of the Y. M. C. A. to the campus.

Student interest in the Y. M. C. A. is on the decrease. There is a growing conviction that the Y. M. C. A. is a relic of a former day, and unless the organization does something to merit a change in this trend, the college cannot afford to support it. Its momentum cannot last much longer.

## BAD PRECEDENT

Dr. Brooks' appropriation of \$1,500.00 to apply on individual picture fees for the 1933 Agromeck may possibly be justified on the grounds of a temporary relief measure, but the depletion of the reserve fund is a dangerous measure.

If the administration had passed the compulsory picture fee for which practically the entire student body voted last year, there would have been no need for the appropriation.

At first the entire fund of \$3,000.00 was to be used for this purpose, but after consultation with the chairman of the Publications Board, the amount was reduced. The Publications Board as a whole, which is set up to handle matters pertaining to publications, was not consulted before the appropriation was made.

Even considering the fact that this is a year when every dollar is needed by the majority of the students, it is dangerous to deplete the reserve fund by half. When publications purchase much-needed equipment this year, the fund will be further depleted.

The reserve fund was accumulated from the profits of publications in years past. Its purpose is to protect against the possibility that any of the three publications should show a deficit at the end of any year. Good business demands that this fund be adequate.

The fund can serve many purposes, but not if it is to be depleted through appropriations. Some day State College may decide to issue another publication, or to change the present ones. Capital will be needed to do these things. Publications represent an investment in an important phase of student life and there must be a reserve to protect them against the possibility of loss and to care for the future.

The only benefit the student body will derive is a small reduction in the picture fee for upperclassmen. The only benefit the Agromeck will derive is the possibility that a few more will have their pictures made on account of the small reduction in rates.

It is economically unsound to spend the principal which has accumulated for years for the benefit of one publication for one particular year. It sounds like taking a United States Treasury surplus and buying the State of North Carolina a new capitol building without even a Congressional appropriation.

The Technician was strongly for the compulsory picture fee for the Agromeck. The importance of a good annual with as many pictures as possible is a known fact. However, it is heartily against mortgaging the future of all publications for an immediate gain to one of them.

The State College student body and gridiron fans in general are grateful to the North Carolina Highway Patrol. Last Saturday the enjoyment of the State-Clemson game was augmented by the well organized direction of traffic.

The efficiency of Captain Charles Farmer is to be commended as a service to State College and the commonwealth that it represents.

Next week Professor Edwin H. Paget will begin work on the 1932-33 forensic team. During the past few years his teams have won nation-wide renown for the college through their excellent showing in intercollegiate competitions. Best wishes for success this year to a man who is really serving the college in this important field of extra-curricular activity.

## Open Forum

### Apropos of Political Clubs

THE TECHNICIAN published a notice recently which announced that two Democratic clubs, and possibly a third political organization, were to be formed at State College. If these plans materialize, it will indeed be an unfortunate day in the annals of State College history.

Political education should be a part of the scholastic program of every student. If students do not receive instruction in school, then they must pick up what little they can outside of school, presumably, from the neighborhood barber shop or drug store corner. Knowledge from such sources is often misleading. But more than that, it is usually narrow and partisan. No end of argument results if it be shown that the adherents to the party platform are prejudiced. Prejudice towards a candidate may arise from such subtleties as the color of the candidate's hair, the rotundity of his abdominal region, the expression upon his countenance, etc. Then, too, we are beset these days with political spellbinders and mud-slingers who, it seems, delight in divesting the political campaign of all semblance of truthfulness, honesty and other qualities that go to make up a dignified and truthful representation of the candidates.

If in these formative years we do not endeavor to better existing conditions (not through reform), it is doubtful that we shall overcome our inertia later. We have but to step from the beaten path, and improvement will in all probability follow. If organizations be formed, let them be neutral ground for the free discussion of politics and politicians. Let us hesitate to consider before we are enveloped in the magical smoke cloud of the eloquent, but cunning, spellbinder.

Our American Democracy is threatened by pernicious party politics. What executive can refuse the demands of his party? In satisfying such demands, he must sacrifice much that would enable him to execute the exigencies of his office to much greater satisfaction of the people. Most of us fail to realize that an officeholder must satisfy the demands of his party if he is to receive the backing of his party. Less and less are candidates declaring for one or the other party because they believe more in the platform of one organization than another. It is becoming a matter of relative party strength which determines their choice of alignment. As long as these means to election exist, we are bound to experience poor administration in public office.

If State College endorses this undesirable condition by forming the proposed centers for the dissemination of party propaganda, then we shall have lost our reputation for clear sighted, level-headed logic. Let us not lapse into the position of "just another college."

OSCAR IROGENS.

## Mortgaging the Future

## COMMITTEE PLANS FEE DISTRIBUTION

Appropriation of Activity Fund  
Fixed by Disbursements  
Committee Thursday

The committee in charge of disbursements from the student activity fund met Thursday morning to consider appropriations from the fund for the year 1932-33.

The fund consists of the \$150 which every student pays at registration. The committee is composed of the president of the student body, the four class presidents, and Dean E. L. Cloyd.

The committee fixed the 1932-33 disbursement to the Y. M. C. A. at \$600.00; \$400.00 to the crop judging teams; \$500.00 to the forensic teams; and about \$100.00 towards the construction of tennis courts. Other appropriations will be made as the need arises throughout the year.

The balance carried over into this year from last year's fund was approximately \$600.00. The total spent

last year from the fund was \$2,454.65, which was appropriated as follows: \$145.30 for band uniforms; \$400.00 to the crop judging teams; \$500.00 to forensic teams; \$150.00 to the poultry judging teams; \$40.00 to the Textile Exposition; \$6.00 for travel expenses to a student representative of the college; \$150.00 to the stock judging team; \$200.00 towards the construction of tennis courts; \$100.00 to the Engineers' Fair; \$12.75 in refunds to students who left college; and \$750.00 to the Y. M. C. A.

The budget for the fund this year

shows an expected income to the fund from student fees of approximately \$2,200.00, making a total of approximately \$2,700.00 in the fund for year.

## HOW TO AVOID BONERS

THE UNITED STATES  
IS LOCATED IN THE  
TEMPERANCE ZONE

POOR BILL BONER—he just can't think straight. He thinks a person is safe from contagious disease if he is intoxicated!

But no college man ever pulls boners with a good pipe between his teeth. There's something about a pipe and tobacco that soothes a man, helps him think straight. That is, of course, if he uses the right tobacco. A recent investigation showed Edgeworth to be the favorite tobacco at 42 out of 54 leading colleges.

If you're not already an Edgeworth smoker, there's new smoking satisfaction waiting for you. Edgeworth's blend of fine old burleys is distinctive, different. You'll know—after the first puff.

You can buy Edgeworth tobacco anywhere in two forms—Edgeworth Ready-Rubbed and Edgeworth Plug Slice. All sizes—15¢ pocket package to pound humid tin. Or, if you would like to try before you buy, write for a free sample packet. Address Larus & Bro. Company, 120 S. 22d St., Richmond, Va.

## EDGEWORTH SMOKING TOBACCO

## Talking from the sky on a beam of light

THE huge U. S. Navy dirigible, Los Angeles, is roaring above the General Electric Research Laboratory at Schenectady. On board the airship, an almost invisible beam of light is aimed at a 24-inch mirror-target a half-mile below. The mirror, turning as it follows the dirigible's course, catches the slender beam. Voices transformed into electric impulses in the airship are carried to the mirror by light waves. A photoelectric cell picks up these waves and they are reconverted into sound, which is broadcast to the world by radio.

A "voice on the air," with a "voice from the air"—the official opening of radio station WGY's new 50-kw. transmitter is taking place. One millionth of a watt—generated from the blast of a police whistle in the dirigible—is transmitted to the ground on the beam of light and to a Thyratron tube. The tube magnifies the whistle energy 50,000,000,000,000 times to operate the switches that start the transmitter, five miles away.

Receiving mirror on roof of General Electric Research Laboratory

Thus was "narrowcasting," a possible means of secret communication, recently demonstrated to Military and Naval experts by General Electric engineers. The future will demonstrate its commercial value. Electrical developments such as this are largely the accomplishments of college-trained engineers. They are leading the way to even greater progress in the electrical industry and are helping to maintain General Electric's leadership in this field.

95-9557B-2

GENERAL ELECTRIC

# WOLVES MEET DEACONS TODAY

## UNDEFEATED TEAMS CLASH IN BIG FIVE GRID CLASSIC ON RIDDICK FIELD AT 2:30

Game Today Will Be First Meeting of State Wolfpack With Big Five Foe  
**COACHES MILLER AND SMITH  
ISSUE TENTATIVE LINE-UPS**

Wolfpack Has Won 19 of 24 Games Against Deacons; Fair Week Classic First Begun in 1927; Wake Forest Victory Over South Carolina and Tie With Carolina Expected to Be Big Drawing Card; Neither Team Has Been Scored Upon

Clipper Smith's Wolfpack and Pat Miller's Deacons will meet on Riddick Field today at 2:30 to guard two goal lines, neither of which have been trespassed.

This afternoon's game will be State's first in Big Five competition and Wake Forest's second. Wake Forest held Carolina to a scoreless tie earlier in the season. It is their sixth annual classic.

A look-back at the State-Wake Forest football rivalry which started in 1908 shows that State has won 19 of the 24 games played between the two schools. In the season of 1908 two games were played. State winning 25-0 and 76-0. The next season the teams did not meet, but from 1910 to the present date there has been no break.

Wake Forest's victories came in 1918, 1923, 1924, 1930, and in 1931. Both State and Wake Forest have a way of upsetting the odds in these annual meetings. In the season when the Deacons were riding high in Big Five circles they were treated to upset defeats by State in Thanksgiving meetings, and Wake Forest pulled an upset last fall by taking State 6-0.

The teams have been meeting as a Fair Week feature since 1927. In former years State and Carolina met in the Fair Week game, while in 1926 the Techs played Davidson here on the corresponding date.

The upset victory of the Deacons over the University of South Carolina Gamecocks and their holding the University of North Carolina to a scoreless tie earlier in the season, gave today's event any further trimmings needed to make this annual contest a top-notch drawing card. The game annually attracts a big turnout, but now it looks as if the 1932 affair will be witnessed by the largest crowd to see the Wake County neighbors clash in many seasons.

The ticket sale has been going on for several days and Dr. R. R. Sermon, athletic director of State College, announces and urges people wanting reserved seats to secure them before the game to prevent disappointment in

### At Half Price

There is no scheduled game for any State College team tomorrow, but students who wish to see the Duke-Maryland game may do so for fifty cents with their registration cards.

State students can enter by the north gate at the Duke University Stadium, where they will be identified and can purchase tickets.

not getting good seats. Riddick Field, the seat of this afternoon's battle, can accommodate only 8,000 people and 10,000 are expected to see the game.

The two teams enter today's battle with State having three wins in as many starts and Wake Forest having won one and tied one in two efforts.

Neither the Techs nor the Deacons have had a point scored against them thus far.

Coaches Clipper Smith and Pat Miller will use their strongest line-ups.

The tentative line-ups for this afternoon's big game are:

NELMS	LE	HARDIE
SEITZ	LT	GRANT
STANKO	LG	DeANGELIS
ESPEY	C	OWEN
BUCHANAN	RG	HOOD
STROUPE	RT	SWAN
GREASON	RE	GREEN
McQUAGE	QB	WALL
BAILEY	LH	WILSON
BOHANNON	RH	PETERS
CUMISKEY	PB	LAWHORN

Undoubtedly State has a stronger scoring machine than the Deacons and having kept its goal line uncrossed during its three tests, can offer this as its defensive claim.

Coach Miller again has a strong defensive club. It has held the University of North Carolina and the University of South Carolina, two strong teams, from crossing their goal. They offer as their offense power a 44 yard touchdown pass.

Coach Smith expects a very hard battle this afternoon and has been giving his charges hard work-outs in secret practice all week. He is in doubt as to whether or not he will use Johnnie Komlos, who has a bad shoulder and Rudy Seitz, who has a facial injury. Ray Rex may see very little action as he has a bad shoulder.

Coach Pat Miller has been developing his offense in secret practice and will surely offer State some real competition. He may not use Grant, an experienced tackle and all-State prospect, because of a very bad cut. However a special helmet has been constructed for protection in case he is badly needed.

## REX BOOSTS LEAD IN BIG 5 SCORING

State Fullback Has Four Touchdowns to Credit; Mope Cumiskey Ranks Third

Ray Rex, hard driving sophomore fullback, scored a touchdown against Clemson last Saturday to boost his total to four for the season and maintain his lead in the Big Five and stand eighth in the Southern Conference standing.

Mope Cumiskey also scored a touchdown in the Clemson game and ran his total up to 12.

Bob McQuage kicked an extra point to bring his total to 11.

Other State scorers are John Komlos and Red McAdams, who have six apiece.

John Cox, Duke's sophomore fullback, kicked an extra point against Auburn to go with his 12 points to rank next to Rex in the scoring with 13 points.

Here is a table of all individual Big Five scoring to date:

Player	School	TD.	TP.
Rex, State	.....	4	24
Cox, Duke	.....	2	13
Cumiskey, State	.....	2	12
Mason, Duke	.....	2	12
Laney, Duke	.....	2	12
Pearce, Davidson	.....	2	12
McQuage, State	.....	1	11
Mackorell, Davidson	.....	1	8
Fleagle, Davidson	.....	1	7
Peabody, Davidson	.....	1	7
Wingfield, Davidson	.....	1	7
Komlos, State	.....	1	6
McAdams, State	.....	1	6
Mills, Davidson	.....	1	6
Russell, Wake Forest	.....	1	6
James, Duke	.....	1	6
Brandt, Carolina	.....	1	6
Croom, Carolina	.....	1	6
Abbott, Duke	.....	1	6
Brownlee, Duke	.....	1	6
Tarrall, Duke	.....	1	6
Ershler, Duke	.....	0	2
Phelps, Carolina	.....	0	1
Lassiter, Carolina	.....	0	1
Cornelius, Duke	.....	0	1

The points the Big Five have piled are as follows:

Team	TD.	Pts.	Opp.
Duke	10	64	18
State	9	60	0
Davidson	7	47	25
Carolina	2	14	59
Wake Forest	1	6	0
Totals	29	191	102

## Pack Wins Third Straight Victory

Products of Frank Reese

These five backs are expected to figure prominently in today's game with the Wake Forest Deacons. Mope Cumiskey was the most consistent gainer for the Wolves against Clemson and is regarded as the stellar back of the Pack. McQuage as quarter will be a threat to be reckoned with and Kinken and Bohannon will see action as halfbacks. Both of these men are fast. Bailey is a ground gainer and passer.

### KIMBRELL OF AUBURN LEADS SOUTH'S FOOTBALL SCORING

The leading scorers of the South are as follows:

Player	Team	T.D.	E.P.	Tot.
Kimbrell, Auburn	.....	9	4	58
Cain, Alabama	.....	9	0	54
Roberts, Vanderbilt	.....	6	0	36
Kercheval, Kentucky	.....	5	2	35
Feathers, Tennessee	.....	5	0	30
Zimmerman, Tulane	.....	4	3	27
Hitchock, Auburn	.....	3	7	25
Rex, N. C. State	.....	4	0	24
Hutson, Mississippi	.....	3	1	19
Bach, Kentucky	.....	3	0	18
Dupree, Auburn	.....	3	0	18
Gunter, Mississippi	.....	3	0	18
Henderson, Vanderbilt	.....	3	0	18
Poppleman, Maryland	.....	3	0	18
Robinson, Tennessee	.....	3	0	18
Sotheron, Maryland	.....	3	0	18
Sullivan, L. S. U.	.....	3	0	18
Woodward, Clemson	.....	3	0	18

## WOLFLETS DROP OPENING BATTLE

Duke Imps Score on Coach Robert Warren's Boys Early for 12 to 0 Victory

The State College freshmen football team dropped their opening game of the season to the Duke University freshmen last Friday by the score of 12-0 at Durham.

The Blue Imps' first score came a few minutes after the game had started, when Quinn, Duke tackle, blocked and fell on a Techlet punt back of the goal line.

The second score was the result of a 71-yard drive, beginning near the close of the third quarter and ending on the first play of the fourth period. State never seriously threatened the Duke goal. Their best sustained offense was a passing attack late in the fourth quarter that was working with effect until Ferguson, Duke back, ended it by intercepting a pass near mid-field.

It was the first game for both teams. Duke presented one of the heaviest freshman machines seen in these parts in a number of years. Both clubs had good lines while the Duke backfield had more speed and drive than the Techlets. State presented a good passing and receiving combination in Norman Raines and Chub Womble. Womble is a Raleigh boy.

Duke counted 16 first downs and State 4.

State Freshmen	Duke Freshmen
Davis	.....
Roesalar	.....
Brown	.....
Sabol	.....
Fortune	.....
Overcaste	.....
Nicholson	.....
Raines	.....
Landis	.....
P. P. Davis	.....
Brinson	.....

Score by periods:

State	0	0	0	0	0
Duke	6	0	0	6	12

Scoring Duke's touchdowns: Quinn and Alexander.

### Last Week

How Big Five Teams Fared Last Week  
State 13, Clemson 6.  
Duke 7, Auburn 18.  
Wake Forest 6, South Carolina 0.  
Davidson 46, Wofford 0.  
Carolina 7, Tennessee 20.

Coach Bob Warren believes in giving everybody a chance. In the Duke game he used about thirty-five players.

## RAY REX FEATURE OF TIGER DEFEAT

Clipper Smith's Team Wins 13 to 0 as State College Goal Remains Unpassed

The North Carolina State College Wolfpack won their third straight victory last Saturday afternoon when they trounced Clemson by the score of 13-0.

Ray Rex, gigantic sophomore fullback, intercepted a pass and ran the entire length of the field for the feature of the afternoon.

The big 200-pounder shook off Woodward, Clemson back for whose hands the pass was intended, and barely out-distanced Miller, who hurried it.

State only once was able to get a sustained offensive under way, a drive of 33 yards in the last quarter ending with a touchdown by Mope Cumiskey, starting fullback. Clemson never got enough punch to score but the Tigers played hard and several times forced State deep into the Wolfpack end of the field.

Some 6,500 people sat in ideal football weather to watch the contest. It was State's first conference game and third win without being scored on.

Clemson	Position	N. C. State
Patterson	.....	Nelms
Dozier	Left End	Seitz
Heinemann	Left Tackle	Stanko
Guy	Left Guard	Espey
Davis	Center	Buchanan
Craig	Right Guard	Stroupe
Wertz	Right Tackle	McQuage
Miller	Right End	Green
Hook	Quarterback	Bailey
Willemson	Left Half	Bohannon
Stevens	Right Half	Cumiskey
	Fullback	

Score by periods:

Clemson	0	0	0	0	0
N. C. State	0	6	0	7	13

"You call it America's pipe tobacco!"

### —AND HERE'S WHY:

Granger is made of White Burley Tobacco — the type between the kind used for chewing and the kind used for cigarettes.

In other words, it's pipe tobacco—and if you're smoking a pipe, you want tobacco made for pipes—not tobacco made for something else, it matters not how good it is.

Handy pocket pouch of heavy foil. Keeps tobacco better and makes price lower.

## One Smoker tells Another

Chesterfields are Milder, They Taste Better

—the things smokers want most in a cigarette

IN CHESTERFIELD there is no harshness — no bitterness. They are made from ripe, sweet Domestic tobaccos and the right amount of Turkish. The taste and aroma are just right.

# CHESTERFIELD

# ALUMNI PROTEST MOVING COLLEGE

Former Trustee David Clark Asks  
Alumni to Sponsor Legis-  
lative Movement

In response to protests by a group of twenty State College alumni over the "moving of State College by piecemeal methods to the University," a meeting of the Executive Committee of the General Alumni Association was called Monday and a resolution drawn up pertaining to the consolidation.

The first meeting of the alumni group, which was held Saturday and presided over by David Clark, former member of the Board of Trustees of State College, recommended that a special meeting of the General Alumni Association be held on October 14; however, since the constitution of the association empowers the executive committee of that body to act in its place between regular annual meetings, a meeting of the committee was held and the following resolutions adopted:

Whereas, the apparent delay on the part of the executive committee of the Board of Trustees of the Greater University in clearly defining the scope of the three institutions affected by the consolidation has caused untold confusion and serious doubts have arisen in the minds of the alumni and friends of all the institutions, especially of State College, and Whereas, the present and immediate question of especial concern is the disposition of the two engineering schools affected, no public mention of which has ever been made by any of the various official bodies, boards or commissions which have been considering the problem of consolidation, and Whereas, the executive committee of the General Alumni Association of North Carolina State College understands that the presidential directorate has made the following recommendations to the executive committee of the Board of Trustees of the Greater University, which committee at present has these recommendations under consideration: (1) That it define the function of each institution embodied within the new organization; (2) That it outline the administrative organization of the Greater University and its relation to each institution; (3) That it determine the number of new officers necessary for the new administration; (4) That an estimate be made of the cost of this additional administrative organization and the approximate additional expense it will be to each institution, therefore be it resolved, that the executive committee of the General Alumni Association of North Carolina State College most heartily endorses and approves the action of the presidential directorate and urges the Trustees to clear up the existing uncertainties at the very earliest possible moment by indicating through the press definitely that the Raleigh branch of the Greater University is now and shall always remain the technological branch of the University as intended by the legislation which created the Greater University, a clause of which reads as follows: "That the North Carolina State College of Agriculture and Engineering shall be located at Raleigh, North Carolina, and shall be known as the North Carolina State College of Agriculture and Engineering of the University of North Carolina." Be it further

Resolved, that copies of this resolution be sent to the Governor of North Carolina, the members of the presidential directorate, the members of the executive committee of the Board of Trustees of the Greater University and to the press.

Clark, who presided over the first

meeting, said the General Alumni Association will be asked to sponsor legislation in the next General Assembly to prevent the gradual moving of State College to the University.

"The consolidated board of trustees," said Clark, has "studiously avoided" taking action about keeping the engineering school at State College. "We don't care if the University keeps its engineering school but we will vigorously oppose the gradual absorption of the agricultural, engineering, and industrial divisions of State College by the University, and if necessary we will take legislative action against it."

Under the consolidation plan passed by the General Assembly of 1931, State College becomes a division of the Greater University of North Carolina with one board of trustees in charge of the University division at Chapel Hill, the Women's College at Greensboro, and State College here.

## Announcement

The following fraternities and dormitory clubs have not been heard from for Intramural competition: Sigma Pi, Alpha Chi Beta, Alpha Gamma Rho, Alpha Lambda Tau, Kappa Alpha, Phi Pi, Sigma Tau Beta, First Floor Watauga, Second Floor Watauga, and Third Floor South.

If any team wishes to enter this competition see me at the Gym by the first of the next week. The entries taken now are for all year so get yours in now.

National Trade-in Sale any day!

Tens of thousands of people are trading in old pens of all makes for \$1.25 to \$2.50 cash in payment for Parker's latest streamlined Duofold Pens, and trading in old mechanical pencils for 75c to \$1.00 on the purchase of brand new Parker Duofold Pencils.

This National Trade-in Sale by Parker, to make way for late fall and Christmas shipments, is the biggest clearance ever held in the fountain pen industry.

These are Parker's latest and smartest colors, including Burgundy and Black, Sea Green and Black, Jade, Plain Black, etc. All have streamlined non-breakable barrels—the pens with super-smooth, pressureless writing Duofold points, and quick-starting, non-clogging feed.

Take your old pen or pencil to the nearest pen counter before this offer expires and walk out with a beautiful new Parker Duofold Pen, or Duofold Pencil, or both.

The pen you trade in must have a 14k gold point but it does not have to be a Parker. The Parker Pen Company, Janesville, Wisconsin.

"Nature in the Raw"  
is seldom MILD

—and raw tobaccos  
have no place in cigarettes

They are *not* present in Luckies  
... the mildest cigarette  
you ever smoked

WE buy the finest, the very  
finest tobaccos in all the  
world—but that does not  
explain why folks every-  
where regard Lucky Strike as  
the mildest cigarette. The fact  
is, we never overlook the  
truth that "Nature in the  
Raw is Seldom Mild"—so

these fine tobaccos, after  
proper aging and mellowing,  
are then given the benefit  
of that Lucky Strike purifying  
process, described by the  
words—"It's toasted". That's  
why folks in every city, town  
and hamlet say that Luckies  
are such mild cigarettes.

**"It's toasted"**  
That package of mild Luckies

"If a man write a better book, preach a better sermon, or make a better mouse-trap than his neighbor, the he build his house in the woods, the world will make a beeline path to his door."—RALPH WALDO EMERSON.  
Does not this explain the world-wide acceptance and approval of Lucky Strike?
