CORRELATION

The problem of the relation of extra-curricular activities to the college course is one that has never been successfully solved. A sharp dividing line separates the two at State College, which is not in line with the trend at many colleges endeavoring to correlate the two and fit both into one complete educational program.

This year THE TECHNICIAN is cooperating with Professor W. K. Wynn, teacher of journalism, in arranging for practice stories in his classes to be used in THE TECHNICIAN. This, it is hoped, is a first step in working out a program which will develop more interest in journalism and improve THE TECHNICIAN. In many colleges the journalism department works closely with the student newspaper with mutual gain.

This is merely one instance. In many other fields of activity, college courses go hand in hand with outside work. Debating and technical society work are other cases to the point. Almost every activity is or could be associated with college courses, and college credit given to advantage.

Something interesting in this connection appeared in the following news item which appeared in THE TECHNICIAN on March 9, 1929:

CREDIT NOW TO BE GIVEN FOR WORK ON PUBLICATIONS

In answer to the petition to Dr. Brooks, relative to credit for work on college publications, the Committee on Recommendations of Courses of Study recommends credit for the work, to be arranged through regularly-organized channels.

The motion was passed that the necessary machinery be put in motion to make it possible for the business managers and editors of college publications to have courses outlined so as to receive college credit, and that the School of Science and Business be requested to work out such an arrangement.

This plan was abandoned finally, going the way of many other suggestions.

Here was an idea advocated by student leaders which contained a concrete recommendation for an adjustment in educational methods of value to the student and the college. Its only fault was that it did not go far enough—why limit credit to publications, when in many fields of extra-curricular activity students are learning things of inestimable value to them?

State College was established to provide leaders in agriculture, business, engineering, textiles and education, and in every one of these fields the value of student extra-curricular experience in personnel work, writing, speaking, organization, governmental and executive ability cannot be doubted. Yet the college gives these men absolutely no official recognition of the education they are receiving.

Administrators may well consider the whole realm of undergraduate activities as a laboratory where students actually cope with the problems they will meet after their college days. Learning, far more effective than that of the classroom, comes here, for it comes from individual interest—not from a dry recital which will be forgotten in a few months.

Each student takes, during his junior and senior years, no less than three hours of elective work. Some take more, the requirements varying in different courses. Some students elect technical work, others may choose to study something completely different from their regular course. The same thing is true in activities. Some spend their time in a technical society devoted to the interests of the profession, and others elect to busy themselves elsewhere. There is no reason why activity men should not be relieved of the burden of this classroom work and receive credit for work which is "elective" in the true sense of the word.

An engineer attains prominence in debating and

oratory. Can anyone imagine any better evidence of good use of his time, even from the standpoint of education in his particular course? This student will some day address his fellow-employees or the public concerning his work and thus be a more valuable man to his profession.

Credit for such extra-curricular work would tend to encourage entrance into this realm which is so valuable to a well-rounded education. If the college intelligently judged such work, activities of dubious value would receive less emphasis and disappear.

Of course it is realized that no haphazard awarding of credit could be made. But the college administration could well reconsider the plan to consider meritorious work in a worthy activity as the equivalent of the three-hour elective.

Possibly it may be said that the activity man receives all the more benefit because he gets the three-hour course and the activity. This may be true, if the student is able to stand the strain. But sometimes a student must neglect preparation for his required courses to study for the three-hour elective in which he may not be interested, but is merely taking because the college requires it.

A list could be set up of the activities on the campus and the positions worthy of consideration as the equivalent of the three-hour course. Many of these are carried on under the supervision and cooperation of faculty members. These professors could furnish a recommendation on the proficiency of the student and furnish a basis for his grade. In other cases, visible evidence of the proficiency and a report by the student would furnish the basis. If a man undertook to substitute an activity for a course and failed to fulfill the requirements for credit, then he would fail. A real goal and tangible reward for ambition would exist for those students who are interested in activities.

The only opposition to this measure is the fact that it will be upsetting ancient principles of college education. For centuries education has been received by a group of students sitting and listening to a professor. Education comes in other ways, too, and the college can well take advantage of the knowledge to take a constructive step in educational methods.

HELP FOR EVERYBODY

Campus organizations desirous of advancement may well take advantage of the opportunity to have news of their activities appear in the college newspaper. With more than fifty groups on the campus, it is well-nigh impossible for THE TECHNICIAN to cover the many meetings and doings of all of them, even though it is anxious to make the paper complete as possible.

Ordinarily, the only place where news of a campus organization appears is in this paper and the only way it can be known is through the publicity thus obtained.

If every organization would appoint an officer to attend to its publicity, both the paper and the organization will profit. Although sometimes space limitations prohibit lengthy stories, no bona-fide news matter will be omitted unless absolutely necessary.

LEAVING

News that Lieutenant W. E. Carraway is soon to leave State brings sincere regret to the campus. He has been known and liked for his work both in and out of the classroom. As coach of the varsity rifle team, he has produced very successful teams and last year formed a freshman team which made a very creditable record. He has been a member of the sophomore program committee which inaugurated interesting class programs that have been the cause for very favorable comment and have set a precedent which is being followed this year.

The college is fortunate in having this type of military officer. Interested in student life, they serve the college in many ways totally foreign to classroom military instruction.

Out of a total of twenty-two House of Student Government members present at the meeting last Tuesday night, fourteen were Student Council members. The total elected membership is thirty-six, which means that there were fourteen House members absent. Only one Student Councilman was not there.

Unless the possibility of a balance of power though eight votes is considered, there was no use to have the House meeting. The Council could have transacted the business.

There was little important legislation, but there probably will be at the next meeting, and all House members owe it to their constituents to be there.

Students who work on the gates at football games receive one dollar for their services. Each of them pays a \$7.50 athletic fee the first term, which admits them to five home games, or exactly \$1.50 for admission to each game. Since they cannot see the game while they are working, a little arithmetic will show that each student who works on the gate pays fifty cents to do so. Where is justice?

Welcome mileposts on the road to complete Big Five reciprocity: The action of State College athletic officials in allowing Wake Forest students and faculty free admission to the State-Wake Forest game and the announcement that State students will be admitted to the State-Carolina game next Saturday for fifty cents.

State students are wondering why they will not get in the Carolina Branch-State Branch game next week for nothing, since it's all one and the same institution.

SCENES and SAYINGS

Captain David E. Wheeler, State College graduate 1917 class in Textiles, of the 22nd Infantry stationed at Fort McPherson, Ga., successfully defended his title as 4th Corps Area Golf champion last week.

Immediately after graduation, Captain Wheeler entered the Army and saw active service during the world war. Since then he has been stationed at different Army Posts throughout the States.

An interesting story is told concerning the late Dr. Albert Anderson, who was for years head of the State Insane Asylum and whose death was mourned throughout the State:

It seems that an old State College graduate returned to Raleigh after ten years' absence and approached Dr. Anderson, mistaking him for Dr. Brooks, who resembled Dr. Anderson somewhat.

The old grad introduced himself and began talking very cordially about old times. "Yes, yes," he said, "I used to be one of your boys; for four years I was under you and well I remember the times I had." Thus the conversation went on for a long time, with neither realizing the humor of the situation.

"Daddy" Price, ardent chess player and father of the State College chess club, tells how he developed a new way to deploy his chessmen while in church.

He was attending services at the Episcopal church. His mind wandered from the sermon to the chess board and he visualized the new opening. He named it the "Episcopal Gambit" and it is used frequently in the games played at the chess club by the local chess enthusiasts.

Announcements

Active or Majority Members of any Chapter from any city. Please try to see me in my office in the Textile School basement any afternoon of the week starting October 24. The Raleigh Chapter is anxious to get a list of DeMolays now attending State College.

PROFESSOR A. H. GRIMSHAW,
Dad of Raleigh Chapter.

A reorganization meeting of the N. C. State Chess Club will be held Wednesday, October 26 at 8:45 p.m. in Daddy Price's office in the Gym. All old members and any others who are interested are requested to be present. Exceptional ability is not necessary and those who do not play chess can soon learn.

HENRY SAUNDERS,
President.

There will be an important meeting of the Scabbard and Blade Friday night, October 21, at 6:30 p.m. in Holladay Hall. All members are expected to attend.

W. C. KEEL, JR.,
President.

Pictures for the Agroneck will be taken in the Y. M. C. A. starting Monday, October twenty-fourth to the twenty-ninth.

DAN TORRENCE,
Business Manager.

All men interested in golf and who wish to try out for the varsity or freshman golf team see me in my office Monday afternoon at 12 o'clock for a short but important meeting.

DR. R. R. SERMON.

There will be an important meeting of Sigma Pi Alpha in Room 208, Peele Hall, Tuesday night, 8:45 o'clock. All members are requested to be present. Money will not be mentioned.

B. F. CRUMPLER, President.

There will be a very important meeting of the Beaux Arts Society Wednesday night at 7 o'clock on the top floor of the E. E. Building.

MU BETA PSI ELECTS
PRESIDENT FOR YEAR

Mu Beta Psi, musical fraternity, Thursday night elected E. M. Geddie president for the coming year.

Geddie was elected president to replace J. L. Padgett, who failed to return. The other officers are J. A. Creech, vice president; W. C. Huband, Jr., secretary and treasurer; J. C. Getty, inner guard; J. C. Poeg, outer guard.

Desert air is wet . . . by comparison!

Making telephone equipment presents many an interesting problem to the engineers of Western Electric—manufacturer for the Bell System.

A case in point is the drying of telephone cable before putting on the protective lead sheath. This step is of utmost importance, for the tiny copper wires cannot carry your voice properly unless their paper insulation is thoroughly dried. To this end, Western Electric engineers devised special drying ovens in which the air is thirty times drier than desert air!

The same ingenuity and thoroughness go into every step of making cable, telephones, switchboards and many other kinds of telephone equipment. The dependable apparatus that results is one reason why Bell System service is dependable.

BELL SYSTEM

A NATION-WIDE SYSTEM OF INTER-CONNECTING TELEPHONES

NO FOOLING . . . you'll be surprised at the way an order of Shredded Wheat each day can snap up your energy! And why shouldn't it? Shredded Wheat is Nature's own energy food . . . 100% whole wheat. Not a thing added, and not a thing lost. All the energy-building elements that Nature intended you to have are right there, ready to get going. And you can shout this around the Campus, too! You don't have to learn to like Shredded Wheat! Eat it once, twice, three times, and you're friends for life. Quick, waiter, bring the cream!

When you see Niagara Falls on the package you KNOW you have Shredded Wheat.

CHESS MEN JOIN NATIONAL CHAPTER

Club Accepts Invitation to Chi Eta Sigma; Meeting Room Prepared in Seventh

State College Chess Club members plan for a considerable expansion of activities this year, including establishment of new quarters and the acceptance of an invitation to join Chi Eta Sigma, national collegiate chess organization.

A meeting and playing room is being prepared in Seventh Dormitory for the club according to P. W. Price, who fathers the Chess Club activities.

Other Chapters of Chi Eta Sigma are at Duke and Carolina and the local organization plans to play both this year and probably will meet other college teams. Chess teams are composed of five men.

Price is vice president of the State Chess Association and an active member of the Raleigh Chess Club, which lists among its members some of the best chess players in the South.

The Association sponsors a tournament each year and the local club plans to have entrants in the 1932-33 competition in December.

Henry Saunders is president of the club this year. The club is entering on its third year, and will hold its final meeting of the year on Wednesday, October 26.

PRESIDENT TELLS ABOUT FINANCES AT LEADERS' MEET

(Continued from page one) Organizations are always open to critical interests.

Tennis Courts

Dr. Brooks said that final plans had been made for the completion of the tennis courts, that the courts had settled sufficiently to begin the surfacing and they would be finished in the near future.

Conclusion

In conclusion Dr. Brooks made a plea for closer harmony between the administration students, stating that this was the purpose of the meeting and that he would be glad to cooperate at any time in the solving of student problems. Speaking of criticism of the administration, he said that it should always be based on facts and never on rumors.

Other Speakers

Others who spoke during the meeting were Carlton Anderson, president of the Blue Key and Archie Ward, president of the Golden Chain. Anderson and Ward both urged that student organizations cooperate in preparing for the Dad's Day program on November 12 and told of the plans being made by Blue Key and Golden Chain for the event.

W. C. Huband requested that students support the proposed plan to obtain a special train to Chapel Hill for the football game with Carolina.

SOCIETY

House Dances

The State College chapter of the Theta Kappa Nu Fraternity entertained a large group of guests at an informal house dance at their residence on Hillsboro Street, Saturday evening, from nine until twelve. The entire lower floor of the fraternity residence was given over to dancing during the evening. Delicious refreshments were served to those present during intermission.

Members of the Sigma Pi Fraternity entertained at a delightful house dance at their home on Clark Avenue, Wednesday evening, from nine until twelve.

Dancing was enjoyed by a large number of guests during the evening. A light course of refreshments was served in the central room during the dance.

Forestry Picnic

The N. C. State Forestry Club gave a picnic Saturday evening at Crabtree Creek near the prison farm in honor of the new men, both freshmen and transfers.

After refreshments were served, the group gathered round the campfire and sang.

Smoker

The Student Council will entertain faculty members with a smoker on Thursday, October 27.

CAVINESS GIVES TALK TO RADIO MEN TONIGHT

Telegraphic Code Lessons to be Offered by Club to Those Interested

Professor H. L. Caviness, adviser to the Radio Club, will give a talk to the Radio Club tonight at 6:30 in Winston Hall.

Plans have been made by the club to give regular telegraphic code lessons to all students interested in radio. Those who wish to join and take advantage of this opportunity are urged to be present.

AG FRAT TO GIVE SMOKER TO FROSH DURING TERM

Freshmen in the School of Agriculture will be entertained at a smoker at some time this term. It was decided at a meeting of the State College chapter of Alpha Zeta, national honorary agricultural fraternity, Tuesday night. The faculty advising committee was also appointed at the meet.

COLLEGE GOLF PLAYERS PLAN FOR 1933 SEASON

Nine Prospects Turn Out for First Official Meeting of Local Golf Team

Nine prospective members of the golf team met Thursday night in the Y. M. C. A. and laid plans for the year's campaign.

Captain H. B. Venable was present at the meeting and may coach the team this year. He is a golf enthusiast and is interested in the future of the team.

Although the intercollegiate golf season does not open until next March, the team candidates have been practicing and expect to meet country club teams this fall.

Those at the meeting were: Arthur Wilson, Fred Newnam, Charlie Stron, Pat Tadore, Earl Rion, Donald Byer, James Poyner, William Baerlein, and Frank Lawrence. There will be another meeting Tuesday night in Holladay Hall.

HOUSE HOLDS FALL MEET IN Y. M. C. A. TUESDAY NIGHT

The fall meeting of the House of Student Government was held Tuesday night in the Y. M. C. A.

Joe Dixon was elected Secretary, Robin Williams is automatically chairman, as he is vice president of the student body.

The Honor Committee for the year was also elected. The members are: Prof. J. D. Clark, Romeo LeFort, W. J. Barker, J. D. Swain, and A. F. Ward.

The biggest man on the Butler University football squad, Butch Elser, 230-pound tackle, is the team's best punter.

How To Avoid BONERS
AN INCUBATOR IS SOMETHING YOU BURN RUBBISH IN

TSK! TSK! Isn't it too bad! Bill Boner thinks a blizzard is something you find inside a fowl!

Why doesn't somebody give him a good pipe and some tobacco? For a pipe helps a man to think straight. Of course, it's got to be the right tobacco. But any college man can guide him in that. A recent investigation showed Edgeworth to be the favorite smoking tobacco at 42 out of 54 leading colleges.

Which is only natural—for in all tobacco there's no blend like the mixture of fine old burleys found in Edgeworth. In that difference there's a new smoking satisfaction, a new comfort, for the man who likes to think and dream with a pipe between his teeth.

Buy Edgeworth anywhere in two forms—Edgeworth Ready-Rubbed and Edgeworth Plug Slice. All sizes—15¢ pocket package to pound humid tin. If you'd like to try before you buy, write for a free sample packet. Address Larus & Bro. Co., 120 S. 22d Street, Richmond, Va.

EDGEWORTH SMOKING TOBACCO

A. G. C. TO HEAR ALLEN AT TUESDAY MEETING

Major Mat Allen, chairman of the State Industrial Commission, will speak to members of the State student

chapter of the Associated General Contractors Tuesday at 7 p.m. in the Civil Engineering building. I. L. Herring, president of the society, has announced that all students of engineering are invited to hear Allen's talk.

BRING 'EM BACK ALIVE
"Nature in the Raw"—as portrayed by the vicious battle between the python and the tiger... in Frank Buck's thrilling motion picture, "Bring 'Em Back Alive," filmed from nature in the Malay jungle.

"Nature in the Raw is seldom MILD"

—and raw tobaccos have no place in cigarettes

They are *not* present in Luckies ... the *mildest* cigarette you ever smoked

WE buy the finest, the very finest tobaccos in all the world—but that does not explain why folks everywhere regard Lucky Strike as the mildest cigarette. The fact is, we never overlook the truth that "Nature in the Raw is Seldom Mild"—so

these fine tobaccos, after proper aging and mellowing, are then given the benefit of that Lucky Strike purifying process, described by the words—"It's toasted". That's why folks in every city, town and hamlet say that Luckies are such mild cigarettes.

"It's toasted"
That package of mild Luckies

LUCKY STRIKE
"IT'S TOASTED"
CIGARETTES

Copyright, 1932, The American Tobacco Co.

"If a man write a better book, preach a better sermon, or make a better mousetrap than his neighbor, the he build his house in the woods, the world will make a better path to his door."—RALPH WALDO EMERSON.
Does not this explain the world-wide acceptance and approval of Lucky Strike?
