YORK ANNOUNCES INITIAL VOLUME OF NEW JOURNAL

First Issue of Engineers' Magazine to Make Appearance on Campus Today

TO CONTAIN ARTICLES
BY PROFS AND STUDENTS

Issue Has No Name; Prize to be Offered for Student Submitting Best Name; Contains Articles by Abernethy, Armour, Greaves-Walker, Randolph and Maneri On Various Phases of Engineering Field

The new Engineers' magazine makes its debut on the campus today, announced N. M. York, editor. R. H. Ruffner is business manager.

The magazine, being published by the Engineers' Council and will appear once each term. The entire publication will be devoted to engineering in its different phases, and both students and the faculty have articles in the first issue. The cover of the magazine will be printed in green ink for the Irish St. Patrick, patron saint of Engineering.

No name will appear on this issue as the Council decided to let the student body name the magazine. A prize of a shirt has been offered the winner. The contest closes December 15.

In this issue there is an article on "The Progress of Television," by J. F. Abernethy, which deals with television from its beginning up to the present time, and names some of the most important contributors to that field.

"Commercial Aviation," by A. E. Armour, points out the value of air routes to commercial aviation. Airplane manufacturers in an attempt to get more speed for commercial planes adopt ideas and plans of the racing ships.

"A Sewage Treatment Plant," by C. J. Maneri, discusses the way in which sewage is treated at the State Hospital of New York State in Poughkeepsie.

An article "Engineers, What of Your Future," by Prof. A. F. Greaves-Walker, head of the ceramic school, talks of the author's interview with some of the engineers of the largest concerns of the country, in which he states their views on the present economic conditions and the future of engineers.

"Removing Manganese from Water Supplies," by E. E. Randolph, head of the Chemical Engineering department, gives the method by which the author solved the problem of removing manganese from water supply of a North Carolina city.

There is also a message from William New, president of the Engineers' Council, a column, "Among the Engineers," and other short articles. The next issue of the magazine will be devoted entirely to the Engineers' Fair.

TREASURER ANNOUNCES REGISTRATION CHANGES

Bowen Gives Rules Concerning Extensions of Credit for January Registration

A. F. Bowen, treasurer of State College, has announced the changes in registration. These changes are effective with the 1934 registration.

Under the present law and regulations of the Trustees, it is required: That there will be no free tuition, except to indigent cripples; that accounts be paid in advance; and that there be no new registration until back accounts are paid.

The college must conform to the above, because it has no discretion in the matter; but every courtesy and consideration shall be extended to the students and their relatives.

Those students must have some extension of credit to register in January. "I request all such to see me before they leave for the holidays and make arrangements for credit and registration," said Bowen.

Students who follow this request need not report for registration until the regular day, Wednesday, January 3, 1934.

Students who do not make such advance arrangement for credit and for registration must report to Bowen on January 1 and 2. These matters cannot be arranged on registration day. The late fee is in effect on January 4.

Harrelson Speaks
Col. J. W. Harrelson, member of the board of the Department of Conservation and Development, was the guest speaker at a meeting of the John Burroughs Science Club at Needham. Broughton High School held recently.

Helps Pick Play

JONATHAN DANIELS
Editor of the News and Observer who was one of the committee who helped select a subject for an impromptu play given by the Experimental Theatre in Pullen Hall Tuesday.

A. I. E. E. CHAPTERS TO CONVENE HERE

Southern Convention of Electrical Society Meets at State December 12-13

The Students Activity Conference, annual meeting of the Southern district of the American Institute of Electrical Engineers, will be held at State College, January 12 and 13. Prof. R. S. Fournaker of the E. E. department is Councilor for this district.

Delegates are expected from 16 other technical schools, members of this district. Each school will send one faculty member and as many delegates as can make the trip. Papers will be presented on technical subjects by the student representative and prizes awarded for the three best. Last year F. E. Bramer of State won third prize at the conference held at the University of Tennessee.

F. M. Craft, vice president of this district has been invited to attend the conference. Students from the following institutions will attend: V. P. L. V. M. I. University of Virginia, Duke University of North Carolina, N. C. State, University of South Carolina, Clemson, Georgia Tech, University of Florida, University of Alabama, Auburn, University of Louisiana, University of Tennessee, University of Kentucky, and University of Louisville.

LETTERMEN TO STRESS SMOKING RULES IN GYM

At a meeting of the Monogram Club in their clubroom in the gym last night, members decided to stress the enforcement of the "no smoking" rule in the gym at athletic contests.

Monogram men will be posted at contests to carry through the rule. J. E. Buchanan is president of the club and D. L. Bohannon is secretary-treasurer. The purpose of the club is the entertainment of visiting players while at State College and the cooperation of lettermen on State teams in other fields is sought.

SHEFFIELD NAMED HEAD OF STATE AG SOCIETY

Officers were elected at a meeting of the Ag Club in Patterson Hall last night. New officers elected were: D. B. Sheffield, president; W. I. Shope, vice president; I. B. Foll, secretary; V. E. Herlocker, treasurer; and Charles Matthews, reporter.

Foiled

Freshman George H. Herring, got the idea that the modern girl is certainly "the thing." Last week a certain girl who gave her name as Jane Adams and her address as Blount street called Herring on the phone three or four nights in succession. Each night Herring became more interested in his female admirer and finally made a date with her for Thursday night. But the plot crashed when Jane gave a suspicious telephone number. Herring did not fulfill his engagement with Miss Adams because Miss Adams turned out to be Ellis Frady, Herring's closest friend.

ACTORS PRESENT VARIED PROGRAM TO RAISE FUNDS

Experimental Theatre Offers New Type Play in Pullen Hall Tuesday Night

GOVERNOR CHOOSES PLOT FOR IMPROMPTU COMEDY

Audience Shows Much Enthusiasm for New Type Play; Miss Hazel Beacham Gives Impersonation of Greta Garbo; Student Debating Team Wins Decision Over Faculty Team; Performance Given to Raise Funds for New York Trip

By EUGENE KNIGHT

The Experimental Theatre at State College presented a varied program consisting of an extemporaneous play, an impromptu play, an impersonation, and a debate between a student team and a faculty team in Pullen Hall Tuesday night.

The impromptu play, so far as is known, was the first attempt of its kind at that type of play. The cast knew nothing of the play they were to give until a committee selected a setting around which the play was to revolve.

A committee headed by Gov. J. C. B. Ehringhaus, and including Mayor George Isaley of Raleigh, Jonathan Daniels editor of the News and Observer, F. H. Jeter, head of the State College News Bureau, Dean Leslie Campbell of Campbell College, and H. D. Carpenter, head of radio station WPTF, selected as a subject some humorous happening in a CWA office.

Using this as a setting the actors proceeded to build a plot, and furnished a climax and ending during the presentation on the stage.

While a play of this sort is far from being a finished production, it provided a great deal of interest in showing that this type of play can be carried out. There were no dead silences between the lines as most of the audience thought there would be, and in all, the actors gave a very creditable performance. Prof. E. H. Paget and David Young carried off the acting honors. Young drew many laughs from the audience.

In the extemporaneous play "The Mad Delmar" the plot was known, and a part of the play rehearsed, but from a certain point the actors carried on supplying those lines they thought necessary to bring the play to a climax and closing.

Both of the plays were carried out with no hesitation on the part of the actors, and provided excellent entertainment.

Miss Hazel Beacham gave an impersonation of Greta Garbo in five minutes between the two plays.

After the plays a direct clash debate between a student team and a faculty team was held on "Resolved: That the principles of the NRA should be adopted as a permanent governmental policy." The student team upholding the affirmative side won by a decision of two to one.

The students taking part in the debate were: Frank Busbee, captain, Horace Cotton, Dwight Stokes, and H. L. Garris.

The faculty team was composed of: Prof. A. M. Fountain, captain, Prof. C. S. Groves, Dr. Z. P. Metcalf, and Dr. H. T. Lefler.

Those taking part in the plays were: Prof. E. H. Paget, Dwight Stokes, H. D. Carpenter, H. B. Hines, Frank Busbee, Edwin Wolfe, David Young, and J. B. Brown.

The program was given to help defray expenses to the convention of the National Association of Teachers of Speech in New York City, December 29, where the debating team will demonstrate the direct clash type of debate used at State College.

S. C. GLEE CLUB TO SING AT COLLEGE WEDNESDAY

The University of South Carolina Glee Club, Maurice Matteson, Director, will give a concert in Pullen Hall Wednesday night, December 13 at 8:15; under auspices of the State College Glee Club.

The South Carolina aggregation is on a concert tour which includes on its itinerary Washington, New York, and other large cities. The club has received many favorable press comments in the larger cities in which it sang during the last few years, and a large crowd is expected, despite the fact that the concert comes during examinations.

There will be no admission charge to the concert.

Honor Guest

J. C. B. EHRLINGHAUS
Governor of North Carolina who will be a guest of honor at a dinner to be given in the State College dining hall by the North Carolina Press Association.

STATE PRESS MEN GIVE DINNER HERE

State Press Association to Entertain Governor Tonight at State College

The State Press Association will give its annual Governor's dinner tonight in the State College dining hall.

Discussions concerning the NRA and Roosevelt's policies will have a large part on the program of the group. Interesting features of the dinner will be entertainments which will include a gridiron skit in the nature of "take-offs" on North Carolina officials and the press and a champion liar's contest, together with several musical numbers, under the direction of C. D. Kutachinski, head of the State College music department.

Dean I. O. Schaub, head of the extension department, and Mrs. Jane McKimmon, State Home Demonstration agent will present statistics to the assemblage to show improvements in lines of agricultural reconstruction.

The annual get-together of the State's officialdom and the Fourth Estate was inaugurated in 1925 when former Governor O. Max Gardner entertained the newspaper men at the first "Live-At-Home" dinner at the Executive Mansion. In 1932 the press returned the honor and feted the Governor at State College. Results of these informal gatherings proved so beneficial that newspapermen decided to perpetuate the annual affair.

On two previous occasions, in 1931 and again in 1932, makers of State newspapers assembled with their Governor and talked about things that make for State Progress. Before Governor O. Max Gardner finished his term he had most intimate contact with State newspaper folk and it is quite evident that he was responsible for arousing their full enthusiasm just as he himself received encouragement from them.

On previous occasions discussions centered around the Live-At-Home Program, emphasized so emphatically by Governor Ehringhaus who was present at the 1932 Editors' Dinner.

STATE CROPS TEAM WINS THIRD PLACE AT MEET

Whole Team Has Perfect Score on Rye, Hay, and Wheat Judging and Grading

The State College crops judging team placed third in the international crops contest held in Chicago December 1 to 3.

The team is composed of W. E. Adams, of Dunlap; J. A. Lutz, of Newton; and J. L. Harrison, of Blanche. They were coached and accompanied by Professor W. H. Darst and Dr. J. B. Cotner.

Adams won fourth place in crop identification with a score of 474 out of a possible 480. All the team members placed perfect on the rye grading and several perfect scores were made on hay grading and wheat judging.

The teams placed as follows: Nebraska University, first, 3,909; Oklahoma State College, 3,909; N. C. State College, 3,694; Minnesota University, 3,679; Michigan State College, 3,644; and Kansas State College, 3,610.

State College's score this year of 3,694 was larger than last year's winning score of 3,645, but the first prize winner this year made the largest score ever to be made in the history of the contests. Expenses of the trio were defrayed by the team members themselves.

STUDENTS TO BE ALLOWED TO WORK ON CWA PROJECT TO IMPROVE STATE CAMPUS

HAYES DISCUSSES FORESTRY ANNUAL

Publications Board Asks Foresters to Seek New Local Advertising

Prof. R. W. Hayes discussed the proposed forestry annual *The Tar Heel Woodsman* with the Publications Board at a meeting held in Ricks Hall Wednesday.

At a meeting of the Board November 27, the group sent a request to the Faculty Council asking that it consider the annual which it had recently discussed and had referred to the Board for consideration. The following recommendation was sent to the Council: "The Publications Board recommends to the Faculty Council that it oppose the forestry annual because it is an incentive toward departmental publications but if the Faculty Council sees fit to authorize the printing of *The Tar Heel Woodsman*, the Publications Board respectfully requests that the Forestry school seek new sources of local advertisements. The Board also feels that the same purpose as the forestry annual might be arrived at by a special issue of *The Agriculturist*."

The Board was told at the meeting Wednesday that there are 15 publications from Raleigh and Wake Forest drawing on advertisers in Raleigh and that a few more publications would hinder other papers, annuals, and magazines in securing advertising.

After some discussion the Board sent a recommendation to the Faculty Council that the Forestry school be permitted to print their annual, providing that national advertising be stressed as a form of resource, and that the Board would seek to set up policies by which the editors of all campus publications might sit at meetings of the group for discussions.

Romeo LeFort, secretary of the Board, announced that he was communicating with other schools in an endeavor to bring before the Board a constitution through which the policies might be standardized. Another increase of ten per cent suggested by Edwards and Broughton, printers of *The Technician* and *The Watauga* was brought before the students. Since contracts with the printer judge that the Board shall be sole judge in the rise of prices due to NRA regulations, it was decided to wait for a decision until January, meanwhile the first ten per cent increase would stand as it had been agreed upon. Publications keys will be discussed at the next meeting in January, at which time a definite design for the key will be agreed upon.

JOHNSON ELECTED HEAD OF RELATIONS SOCIETY

Cotton and Busbee Named to Represent Club at Washington Convention

The International Relations Club of State College held an election of officers last night at a short business meeting.

Those elected were: E. L. Johnson, of Quitman, Mississippi, president; Horace Cotton, of Red Springs, vice president; T. A. Betts, of Raleigh, secretary; M. L. Shepherd, of Raleigh, treasurer; Van Shuping, of Morganton, librarian; Sam Silver, of Raleigh, critic, and J. W. Lamberson, of Raleigh, reporter.

Two club members, Horace Cotton and Frank Busbee were elected delegates to represent the club at the National Student Conference to be held in Washington, D. C., December 29 to 31.

Four new members were taken in the club. They were: H. W. Webb, of Charlotte; W. P. Bourdeaux, of Burgaw; M. I. Annetta, of Asheboro, and T. C. Gardner, of Goldsboro.

Frank Busbee, of Raleigh, was the retiring president of the club.

EDUCATION FRATERNITY PLEDGES FIVE JUNIORS

Five members were initiated into Kappa Phi Kappa, honorary education fraternity, recently. The new members were J. T. Stanko, J. G. White, J. C. Castlebury, E. R. Dowdy, and C. F. Henkel.

Exam Schedule

The exam schedule is as follows:

Monday and Wednesday classes at 11, Monday, December 11 from 9 to 12. Tuesday and Thursday classes at 11, Monday from 2 to 5. Tuesday and Wednesday classes at 10, Tuesday from 9 to 12. Tuesday and Thursday classes at 10, Tuesday from 2 to 5. Monday and Wednesday classes at 8, Wednesday from 9 to 12, and Tuesday and Thursday classes at 8, Wednesday from 2 to 5. Monday and Wednesday classes at 9, Thursday from 9 to 12, and arranged exams, Thursday from 2 to 5. Tuesday and Thursday classes at 9, Friday from 9 to 12, and arranged exams, Friday from 2 to 5.

College to Receive About \$68,000 From Government to Make Improvements

ONE-FIFTH OF STUDENTS TURN OUT FOR CWA JOBS AT INITIAL REGISTRATION

Work Will Be Only for Those Students Who Return to School Without CWA Aid; Cloyd, Johnson, and Shepherd in Charge of Employment; Forty-five Cents an Hour to be Minimum Wage; Project to Include Improvements on Riddick Field, Freshman Field, Dormitories, and Other Campus Buildings

T. S. Johnson, professor of Industry, announced yesterday that the request for a loan of \$16,000 for an addition to the State College stadium from the Civil Works Administration is now awaiting consideration by that body.

Professor Johnson said that the application would probably go through, for CWA officials were in sympathy with the loan. The completed project, should the loan be passed, would make possible the addition of another section to the present east stadium and an eight-foot brick wall at the north end of Riddick field, and gates and driveways would be added to the plant.

With another section added, the east stadium would have a capacity of 7,000.

The Civil Works Administration has announced that self-help students will be employed in the relief project that is to be carried out at State college. A total of \$67,735.95 of Federal funds will be expended in improving the campus, announces Mrs. Thomas O'Berry, State CWA administrator.

This will provide 77,830 hours of skilled labor, 11,600 hours for unskilled labor and 1,320 hours for professional men, totaling 90,750 hours of work. The work will include: General repairs on Riddick Field such as grading, installing drains, planting grass, etc.; the extension of intramural playgrounds south of the railroad tracks, including 60,000 square feet fields and 4,000 square feet tennis courts; general campus improvements such as landscape work, planting grass, installation of storm drains to prevent erosion of soils, grading of the agricultural school quadrangle and laying 300 feet of steam mains, and general road improvement.

The road improvement will include surfacing all the main streets on the campus, as well as laying 2,100 linear feet of concrete sidewalks. New water lines will be installed, including 1,200 feet of six-inch cast iron pipe and three fire hydrants. Six dormitories will be painted outside only while the Y. M. C. A. and Experimental Station buildings will be painted inside and out. Page Hall will have a new roof and floor drains. The registrar's office will receive a record vault to contain valuable records.

Rocky Branch will be straightened out and cleared of obstructions, slipping banks and stone reventments will be installed to prevent soil erosion of the nearby fields. The poultry farm will be repaired and the buildings painted. An aboretum will be built on Walnut Creek and considerable forestry work will be done on the college forest property.

Students to Work
Senator Capus M. Waynick, State Director of the Federal Re-employment Service, announced that officials in Washington had ruled that self-help students would be allowed to register with the Service as unemployed persons.

Such students would be given preference on college CWA projects over other persons registered with the Re-employment Service, but not over persons who are on direct relief rolls.

Professor T. S. Johnson announced to students at a meeting Wednesday night that self-help students who register with the Service would be given work on the CWA project which has just gotten underway at the College. He suggested that self-help students might remain at the College during the Christmas holidays.

Senator Waynick emphasized that any student seeking to register must be registered on his birthday.

HONOR FRAT BIDS TWENTY STUDENTS

Pine Burr Society Tenders Bids to Seven Seniors and Thirteen Juniors

Seven Seniors and thirteen juniors were extended bids Tuesday, November 28 by Pine Burr, local honorary scholastic fraternity, announced Joe Dixon, president of the society.

Those seniors receiving bids were: A. B. Crow, C. J. Brown, S. J. Dunsinski, W. E. Barnes, W. J. Brown, J. T. Cooper, and C. D. Thomas.

Juniors tendered bids were: B. B. Culp, A. M. Epstein, M. J. Gardner, J. J. Griffith, E. C. Herlocker, A. F. Hoffman, F. C. Johnson, A. W. Robinson, Christine Shepherd, F. C. Williams, W. R. McLean, J. L. Summers, and H. D. Whitener. These juniors were selected from the upper fifteen of their class. Those seniors tendered bids this year either did not accept last year or did not have a sufficiently high average.

The initiation of those that accept will be held at some date after the holidays.

Pine Burr was founded at State College in 1922 by Col. J. W. Harrelson and other faculty members. Its purposes are to encourage high standards of scholarship, to develop leadership in all worthwhile organizations on the campus, and to preserve the history and traditions of State College.

To be eligible for membership the student must have an average of 85 or over, and must be active in some form of campus activities. Members are selected the fall and spring term.

Officers of the society are: Joe Dixon, president; C. A. Williams, vice president; Edna Mae Halverson, secretary; and L. A. Dudley, treasurer. The society has many projects planned for next term.

FORESTRY CLUB ELECTS CORPENING PRESIDENT

The Forestry Club, at a meeting last night elected next year's officers. Officers chosen for the new year were: B. H. Corpening, president; W. Askew, vice president; W. E. Boykin, treasurer; R. O. Bennett, secretary; J. H. Hube, social chairman; Paul N. Obst, program chairman; O. R. Douglas, sergeant at arms and H. F. Bishop, athletic director.

The club has entered a team in the Independent League for intramural basketball.

Brooks Better

Mrs. E. C. Brooks, wife of the president of State College, said Wednesday, in a letter received by Dean E. L. Cloyd, that Dr. Brooks can now sit up, and that his condition is rapidly improving.

In her letter, Mrs. Brooks expressed her appreciation of communications which Dr. Brooks received on his birthday, Sunday, saying, "Mr. Brooks did appreciate all the nice messages from the Faculty Council, the Faculty individually, sororities, and fraternities on his birthday."

Mrs. Brooks said that Dr. Brooks will probably return to Raleigh in a week or ten days.

Heck Has Plan to Develop Rural Community Centers

Proposal By Physics Prof Has Endorsement of CWA Bureau in Washington

STATES RELIEF PROGRAM WOULD AID RURAL AREAS

Centers Would Include Parks, With Lakes, Camps, and Gathering Places

Prof. C. M. Heck, professor of physics, has outlined a plan whereby community centers might be developed in the rural areas as a part of the CWA program in this state.

The proposal has the endorsement of the CWA in Washington and of Mrs. Thomas O'Berry, North Carolina CWA administrator.

The centers would include park areas, with lakes, camps and gathering places, which would be especially adapted to the needs of rural people.

He also stressed the fact that these centers will enable rural people to get their proportionate share of the ten to fifteen million dollars to be spent on North Carolina CWA projects. Otherwise, he said, projects being rushed in the cities will use up most of the money before the country people can get their part.

One of the problems facing sponsors of the proposal is that of obtaining land, owned by county or town, on which to develop the centers. A plan now is under consideration to ask the CWA to include the purchase price of the land in the cost of materials in case the land cannot be obtained through donations.

Regarding the difficulty of rural citizens getting together on a project, Professor Heck said that it is a difficult matter to determine just what CWA project is best for a given community, and that the divisions, themselves, might lose much valuable time in arguing over different projects.

The centers Professor Heck has in mind would cost from \$15,000 to \$20,000 each. On an average, he said, each county should get about \$45,000 in CWA allotments, thus, the centers would cost only a part of the total county allotments.

And if desired, several smaller centers could be established in each county, he explained, instead of the one large center.

Professor Heck urged rural people to hasten their applications for community centers under the CWA while there is yet money to build them.

Organizations are being formed, he said, in many counties to sponsor such centers as soon as possible.

Gets Appointment

T. S. Johnson, professor of industry, was recently notified of his appointment by Gen. Hugh S. Johnson as the member representing the public on the cotton industrial relations board for North Carolina under the NRA. The function of the board is to pass on all disputes between Capital and Labor in the industry. The other members of the board are E. C. Dwell, of Charlotte, representing Capital, and F. T. Cornelius, of Salisbury, representing Labor.

FARMING STUDIES DECREASE LABOR

Browne Says Application of Education to Farming Will Shorten Working Hours

The application of intelligence and research to farming will make possible for the farmer of the future shorter hours of work in providing the raw materials for feeding and clothing the nation. This was expressed recently by T. E. Browne, Dean of the school of Education, and State Director of Vocational education.

It is quite probable that in the future the food and clothing supplies of the country may be produced by farmers working five or six hours a day. That has come about, very largely because of the farmers learning how to utilize the findings of science and to adjust their activities according to a more balanced farm operation program.

The teaching of vocational agriculture in our high schools and the teachings of our colleges have, no doubt, made a large contribution to this progress. The results of this program of agricultural instruction is that in the future people engaged in the basic vocation of farming will not have to devote all their waking hours to making a living, but will have some time for actual living, enjoying some of the pleasures of community life and entertainment with their families, stated Mr. Browne.

A recent study has been made in the State of Virginia to determine the value of vocational training in the lives of the farmers of that State who have had the privilege of attending classes in agriculture. This study has brought out interesting facts as to the contribution the teaching of agriculture has made to the lives of the farmers of that State. Commenting on the findings incorporated in this study of Dr. Newman, Dr. George F. Zook, United States Commissioner of Education, stated: "The study shows that the average annual earnings of a vocationally trained farmer exceed those of an untrained farmer by \$311. According to census returns, there were 36,000 farm operators in Virginia in 1930, many of whom profited in some measure at least by vocational training in agriculture."

TEXTILES GRADS GIVEN PROMOTIONS RECENTLY

Five Alumni of State College Receive New Positions During Past Month

During the past month several graduates of the Textile School have either been promoted or accepted better positions with other firms.

J. F. Matheson, '27, formerly assistant superintendent, has been promoted to the management of the Mooreville Cotton Mills, Mooreville, N.C. At the same time C. W. Gunter, '23, formerly foreman of finishing, has been promoted to assistant superintendent.

J. P. Walton, '26 has been made superintendent of the Cannon plant at Social Circle, Ga.

J. Y. Bass, '32, is now assistant designer at Swift Manufacturing Company, Columbus, Ga.

J. J. Chamberlain, '24, formerly connected with the Viscose Company, is now connected with Pray, Day, and Kelly, New York.

W. R. Rogers, '31, who is with the Roanoke Mills Company, Roanoke Rapids, has been promoted, and S. C. Riley, Jr., has accepted the position left vacant by Rogers.

ERWIN MILLS PRESIDENT TALKS TO TEXTILE MEN

K. P. Lewis Congratulates State Textile School on Excellent Teaching

K. P. Lewis, president of the Erwin Cotton Mills Company of Durham, talked to the Tompkins Textile Society last week.

Lewis congratulated the State College Textile School upon the excellent work which it has done in training young men for the textile industry.

The Agricultural Adjustment Act and the National Recovery Act were discussed. Lewis enumerated many advantages and some disadvantages accruing to the textile industry from the efforts of the government to stabilize business, and stated that the minimum wage provided in the textile code had done a great deal to eliminate unfair competition and over production in the industry.

The organization that Lewis represents employs a number of State College Textile graduates, among whom are a manufacturing engineer, and an office manager, five superintendents, a textile chemist, and younger men who act as assistants in various departments.

GOVERNOR SPEAKS AT FRAT BANQUET

Ehringhaus Discusses Taxation and Budgets at Banquet of Delta Sigma Pi

J. C. B. Ehringhaus, governor of North Carolina, was guest of honor and principal speaker at the Delta Sigma Pi, international commerce fraternity, Founder's Day Banquet held at Carolina Pines, Sunday evening, November twenty-sixth.

The Governor's subject was: "The Problem of Taxation and Budgets in Relation to State Government."

In addressing the members of the fraternity Governor Ehringhaus said, "It is indeed a peculiar situation when people will vote to do general welfare and other public works, and then squeal when taxes are levied to raise the necessary money to carry out such programs. If any taxpayer should go against any of these public works then he is branded as a selfish citizen. Generally speaking the public is ready to support with vote, voice and action any expenditure, but it does not consider that they will have to pay for the expenditure."

"Improvements," the Governor continued, "for the future should be paid for by our posterity. Many improvements are now used up before they are paid for. For example road bond issues are out and are not paid for but yet the roads are used."

"The State Government is the biggest business in North Carolina. It has an annual budget of approximately fifty million dollars. It is essential that the government have revenue equal to expenditures. You cannot postpone indefinitely these obligations. People believe the State government is just a storehouse of

wealth. They believe that the lack of money is a means of repudiating their ideas.

"The State must meet its financial obligations to be on sure footing. The government is for the benefit of all citizens and all citizens should contribute to the government. But, we have had a long list of exemptions. The contribution of each citizen should be in proportion to his ability to pay. The chief difficulties with the taxation situation are: the large number of exemptions and the inability to fix taxation according to ability of citizens to pay."

Governor Ehringhaus concluded, "I think that you gentlemen have a mighty fine organization. Your ideals and purposes are of the highest type and I think most worthwhile. Our

PAULSON REPLIES TO RECENT CRITIC

Discoverer of Da Vinci Painting Comments on Editorial in Raleigh Paper

In reply to an editorial which appeared recently in *The News and Observer*, commenting on his claim of having discovered a Da Vinci picture, J. D. Paulson, professor of Architecture at State College, says that he desires to have his evidence to the discovery placed before a jury of art experts.

Prof. Paulson announced recently that, through a system of photographic reproductions, he has discovered that the painting recognized as Botticelli's "Adoration of the Kings" is in reality Leonardo Da Vinci's "Birth of Christ." Markings have been discovered, he said, showing it to be Da Vinci's work. Prof. Paulson has not seen the original picture but has worked with reproductions of it.

Following is Prof. Paulson's statement:

"Inasmuch as you have mentioned by name in an editorial, perhaps you will do me the justice to print a reply. Aside from the obvious intent of your editorial, I should like to comment on several other interesting features of the claim.

"The owner of the painting, so far as I know, has never been told that he possesses a painting by Leonardo Da Vinci instead of one by Botticelli, because I have never had any communication with him.

"I was convinced that the painting was by Leonardo for a number of excellent reasons before I was fortunate enough to obtain a perfectly registered color reproduction bearing the inscriptions I have indicated.

"The announcement is only one of a number that I hope to be able to make concerning famous paintings. There are in this world a number of paintings by Leonardo Da Vinci which are at present unrecognized.

"I should take pleasure in demonstrating to any jury of art experts *The News and Observer* cares to assemble that my claim is well founded. My only demand with regard to this jury is that each individual have knowledge of Italian painting, that we have keen eyesight, and that he be personally unprejudiced.

"If I were, as you imply in your editorial, a charlatan pretending to have discovered something, I should shrink from examination. On the contrary, I welcome it."

IT TAKES HEALTHY NERVES TO BE THE CHAMPION TRAP SHOOTER

SHOOTING FROM SCRATCH, 25 yards behind the traps, Walter Beaver pulled out of an exciting tie to win the 34th Grand American—the first time it has been won by a limit contestant! He has been a steady smoker of Camels for years, and says: "During all these years I've been smoking Camels because I like their taste and mildness...they never jangle my nerves."

HOW ARE YOUR NERVES? If you smoke a lot...inside...outdoors...wherever you are...join the swing to Camels. You'll find them milder, better tasting, and they never get on your nerves.

Steady Smokers turn to Camels

WALTER BEAVER, holder of the coveted Grand American Handicap, says:

"Winning a trap-shooting championship is partly a matter of luck, partly the result of practice and partly healthy nerves. I'm a steady smoker. People kid me about it at the tournaments. They say I never have a cigarette out of my mouth. During all these years I've been smoking Camels, not only

because I like their taste and their mildness, but also because they never jangle my nerves."

It's no fun to feel that your nerves are ragged—and to wonder why. Check up on your eating...your sleep...your cigarettes. Switch to Camels. Your nerves and your taste will tell you that Camels are a more likable cigarette—and that they don't upset your nerves.

GROUP TO SPEAK ON GOVERNMENT

North Carolina Federation of Students to Aid in Radio Broadcast Tuesday

Joe Porter, senior in textiles, and a member of the Executive Committee of the North Carolina Federation of Students, last week received an announcement from Ken Goodson, chairman of the Committee that student government officers in several colleges in the State of North Carolina will join with public officers and private citizens of the state in a program of government education to be given over a state-wide radio hook-up Tuesday from 1:30 to 2:30 p.m.

At the invitation of the public officers of North Carolina, the Executive Committee of the Student Federation in November 1933 joined with them in building the Institute of Government. Student government officers have an equal vote with all other groups of public officials in the policies of the institute.

The purpose of the institute is to collect, compare, and codify laws and practices carried on in various communities throughout North Carolina and to make systematic comparative studies of the structure and the workings of government in the cities, the counties, and the State. These studies will then be set forth in guidebooks, illustrated in demonstration offices, taught in schools of governmental officers, and made available in supplementary texts and source materials for students and teachers of government in the high schools, colleges and professional schools. The studies will be brought forth in study and discussion programs for all groups of citizens, and will be kept up to date and transmitted periodically through the journals of *Popular Government*.

Comparative studies have been started in tax administration, accounting methods and practices of governmental units, in criminal law administration, and in the administration of justice in the courts.

The studies will be carried on by full time members of the Institute staff, under the supervision and with the cooperation of interested official groups. Staff members will gain first-hand practical knowledge of the subjects under experienced men in different counties, and with the knowledge gained will then be in positions to present their findings to the public.

The program of the Institute will be carried on through three years, providing the program is self-supporting, from contributions of citizens and public officials. Fifty thousand dollars has been guaranteed if the three-year program is successful toward a permanent endowment to perpetuate the program.

Lost and Found

COL. REED TO INSPECT STATE R. O. T. C. REGIMENT

Colonel William L. Reed of Atlanta, R. O. T. C. officer of the staff of Major General Edward L. King arrived last night for the purpose of making the annual informal inspection of the State College R. O. T. C. Unit today. This is the third inspection that Colonel Reed has made of the regiment and equipment. Lt.-Col. Bruce Magruder is commandant of the State College Army Unit.

BILL BARKER

President of the Student Government who spoke to the freshmen in the Ag School on what the Student Government would mean to them.

MANN APPOINTED TO HEAD SURVEY

Civil Prof Named By Patton As State Supervisor of Local Surveys

Prof. C. L. Mann, head of the civil engineering department, was Monday appointed State supervisor of local surveys authorized by the Federal Emergency Relief Administration. R. S. Patton, director U. S. Coast and Geodetic Survey, announced the appointment.

Professor Mann has not accepted the position pending advice from college authorities. He stated that should he accept the appointment he would in no way sever his connection with the civil engineering department.

Should this field work get under way a large office force will be required to complete the computations. This office will be at State College.

This new project is an expansion of the surveying work which has been going on since April, and which was organized by Professor Mann for the purpose of helping unemployed engineers. It means the reemployment of 575 men in North Carolina. The State will probably be divided into 12 districts, with each district headed by an engineer who will have under him some eight or ten parties.

At present there are ten parties in the State. North Carolina has the lead over the other states in this work, since the organization has already been set up.

FRESHMAN CLASS ELECTS MORRISON AS SECRETARY

Gerlock, Vice President, Asks Frosh to Make Class Most Outstanding

Hall Morrison of Charlotte was elected secretary-treasurer of the freshman class at a meeting last Friday. Jack Dosenback ran Morrison a close second. Ray Shaulis, president of the class, conducted the election.

A. J. Gerlock, vice president, made a short talk to the class asking them to cooperate with the officers in order that the freshman class would be the best ever to enter State College. The class was enthusiastic over the speech. Major C. D. Kutschinski led a few songs and endeavored to teach the class one of the songs that had been written by a State College student some years ago and adopted as one of State's songs. Although the song was new to most of the students a creditable showing was made.

Half and Half

It is estimated that the students at Washington and Lee University spend almost as much of their money on entertainment as they do on schooling.

EXAMINATIONS

Students who are able to review complete notes are much better prepared for examinations. With ABC Shorthand, which is quickly learned in 12 easy lessons, you can take lecture and reading notes verbatim. Complete course now sells for \$1.00 at STUDENTS SUPPLY STORE.

BARKER SPEAKS TO AG FRESHMEN

President of Student Body Tells Frosh to Benefit by Student Government

The final Freshman Ag Assembly held Wednesday in Polk Hall was under the direction of the Student Council, with Bill Barker, president of the Student Government, acting as the presiding officer.

In his brief talk he explained why the Student Council had taken charge of several freshman assemblies in the past term, stating that it was to acquaint the students with Student Government and to get away from the previous idea of having faculty members alone take charge of these gatherings. He said that Student Government was for the freshman more than any one other class as they would be here longer to benefit by it and that its success was up to them. Changes should come from this class and be brought up before the various sectional assemblies instead of from the Senior and Junior classes who would leave before the necessary legislation was put in force. During the past year the Council has been working under serious difficulties, because of the consolidation of the Greater University of North Carolina, consequently tying both student governments of the two universities together and hampering their flexibility.

Barker also explained the workings of the Honor System and its application to the coming finals. For the benefit of students taking the finals for the first time he gave some helpful hints, such as take your time and use the entire three hours; don't get excited; read over the question and think on it before you write out the answer; answer the easiest first; be neat, and watch your spelling, and finally read over all your answers carefully before handing them in.

MU BETA PSI MEMBERS TO USHER AT CONCERT

Members of Mu Beta Psi, honorary musical fraternity, will usher for the concert to be given by the North Carolina State Symphony Orchestra in honor of Gov. J. C. B. Ehringhaus tomorrow.

Hyman Dave, president of the fraternity, will direct the ushering. Major C. D. Kutschinski will play a viola in the orchestra.

Regular admission price to the concert is \$1.50 and \$1.00, but State College students and faculty members will be admitted to the balcony for 35 cents if tickets are procured at the Y. M. C. A. before one o'clock Saturday.

All A's

It seldom happens, but it did this time. Recently Dr. L. E. Hinkle, modern language professor, gave one of his Spanish classes a quiz that covered ten chapters of the book. Despite the fact that the quiz was fairly difficult and inclusive, every member of the class had a perfect paper. It was not reported whether Dr. Hinkle left the classroom or not during the quiz.

A. I. Ch. E. NAMES STUDENTS TO ATTEND CONVENTION

The American Institute of Chemical Engineers held its regular meeting Tuesday night in Winston Hall. Bob McWheels was appointed to find the sophomore in Chemical Engineering that had the highest average his freshman year. This is to be done in order that he may be presented with a medal for his good work. It was decided that the society would enter a team in the independent intramural winter sports. Nothing further is to be done about it until after the Christmas holidays. L. I. Rankin, with Bill Braswell as an alternate, was elected to represent the local society at the national convention, which meets December 12 and 13 at Roanoke, Va.

Honor System

At the University of Southern California the "Tapping Method" was suggested to enforce the honor system in examinations. Tapping to expose cheating is a method of warning students who are trying to evade the rules. Observers of the violation stop it by tapping their feet upon the floor. This is taken up by the whole class and the result is cessation from cheating.

3 about Cigarettes

Not so long ago practically all cigarettes were made by hand

Now, Chesterfields are made by high-speed machines that turn out 750 cigarettes a minute, and the cigarettes are practically not touched by hand.

By the use of long steel ovens—drying machines of the most modern type—and by aging the leaf tobacco for 30 months—like wine is aged—Chesterfield tobacco is milder and tastes better.

Only pure cigarette paper—the best made—is used for Chesterfield.

And to make sure that everything that goes into Chesterfield is just right, expert chemists test all materials that are used

in any way in the manufacture. Chesterfields are made and packed in clean, up-to-date factories, where the air is changed every 4½ minutes. The moisture-proof package, wrapped in Du Pont's No. 300 Cellophane—the best made—reaches you just as if you went by the factory door.

In a letter to us, an eminent scientist says:
"Chesterfield Cigarettes are just as pure as the water you drink."

"Chesterfield cigarettes are just as pure as the water you drink"

SUBSCRIPTION PRICE: \$1.50 Per College Year

Winner of North Carolina Collegiate Press Association Prize for 1931-32 and 1932-33

A WELCOME LOAN

The college has finally found an entertainment which is certain to be attended by a large number of students. The speaker in this drama was Prof. T. S. Johnson with the glad tidings that the school has been loaned \$68,000 by the Civil Works Administration to be used in improvements on the campus, and his very attentive audience was a crowd of students which jammed into the Y. M. C. A. auditorium eager to find out how the money would be doled out to them. The announcement and explanation of the fact that the men would be paid for work done—to be hard work, perhaps during the Christmas holidays, they were told—to the tune of from 45 cents to \$1.10 an hour from unskilled to skilled labor, respectively, was indeed an encouraging sign for so many who have been "down and out" as far as money matters are concerned.

Slowly, but more positively, the eyes of citizens are moving from a capitalistic system which kept temporarily "cool with Coolidge," and fell into hot water with Hoover, toward what is approaching closer the gospel preached by Norman Thomas, the confirmed Socialist preacher and candidate for the presidency on the Socialist platform in 1932, who was a self-help student in his Princeton undergraduate days. However, the changes coming about under Roosevelt do not appear so radical, and although some points are not as refined, as those planned by the Socialists and the change does not seem so certain in its proposed effects, the experiment of experiments by which the Constitution of the United States has been for the present turned to a mere scrap of paper and trite economic laws are expected to be proven worthless as being presented to us as a revolutionary issue, to be worked out by plans which upon first thought may seem somewhat flimsy.

This business of handing out long-term loans which seem almost like gifts, and in the general opinion of many are such, will by no means appeal to the conservative element of our citizenry. Take State College's immediate actions.

To the average mind, no good can come of frenzied borrowing of money by the college, with no decent collateral to show, and with fanciful projects in view for its expenditure, such as an arboretum which will probably be in disuse when the loan falls due, paying work for the upkeep of which no funds are immediately in view, and so on.

However, the advantage of the loan does not lie in the material gain, but it will aid in bringing rusty machinery back in motion which has so long been idle while the capitalists gambled with funds which would have passed ecstatically from hand to hand had they been given to the consumer sooner, to grease the tracks for the prime mover of industry—purchasing power.

It is far better that \$3,300,000,000 be appropriated by the Legislature in Washington for useful work to be carried on by idle jobs than is the presentation of money to the idle through the Red Cross and relief associations which ask no return for their donations, furthering thereby the cause for idleness, and producing a waste of manpower which would be better off handling the pick and shovel toward the improvement of its environment.

Although probably a very small portion of the Civil Works Administration loan will ever be repaid, for the present men must live, and that desire is uppermost in the Roosevelt policy, whether or not the loans to be used for lives be repaid by the debtors or through future socialistic taxation.

The police department confided to W. O. Huneycutt a few weeks ago that two policemen were watching his store from behind the bushes across the street, with a loaded shotgun, and asked that it be kept quiet. They must have been asleep last week when a brick flew through Huneycutt's window.

We hope they found the brick.

THE TECHNICIAN extends to Dr. Brooks Christmas greetings and its best wishes for a healthy New Year.

And had as we hate to do it, we wish *The Watauga* a Merry Christmas and a Happy New Year.

BOO!!

Probably by now the sour stomach the editor of the *Duke Chronicle* nursed after watching his alma mater clear State by a small margin has settled and the grapes have all been consumed. Perhaps an incident which occurred in the Tech-Duke game, and others like it, will serve to prove to him that a cornered wolf and a cornered devil are somewhat alike.

In an editorial which appeared in the *Duke paper* on November 29, the editor states, "our high opinion of the Wolfpack has been shattered by what appeared to us to be 'dirty football.'" He also says, "We hope never to see another game like the one played last week by the Wolfpack."

If the editor of *The Chronicle* traveled to Atlanta last week-end, he was forced to look upon Horse Hendrickson, Duke quarterback, banished from the game for unnecessary roughness, and we'll bet he choked on his peanuts at the sight, a very shocked young man.

The editor literally "boos" the referee for his lack of attention to "the illegal use of hands" and then turns around and says of the game with a team "which has had a disastrous season," "we demand that it be the clean, hard fight of true sportsmanship."

He sings on: "We are partisan—for we are only human—and we see football games through prejudiced eyes. Yet we feel that the illegal use of hands in the game Saturday was so obvious that even neutral and 'supposed to be' neutral eyes saw it. We are reminded that perhaps State supporters are making the same criticism of our men."

"Again we ask what neutral eyes saw. There is a great difference between hard, fast playing and 'rough stuff.' A football game is a fight, but not the kind that permits illegal use of hands that have been taped although not injured."

After their game with Duke, five men on the Chapel Hill University team went to the infirmary, and in the State College game, witness Stanko, Buchanan, Sabol and Wilson knocked cold—Sabol taken out of a game for the first time this season; Isaacs with an injured knee; Stevens with a broken finger; McQuage kicked in the back, putting him on the shelf for a while—just straight, clean, fair football caused all this—didn't it, Mr. *Chronicle* Editor?

On Monday, November 13, members of Blue Key of State College, O. D. K. of Duke, and Golden Fleecy of Chapel Hill unit at a meeting at Duke agreed that harmony among the three institutions was essential and that the three organizations should work toward clean sportsmanship and fair play between the schools. On Tuesday, November 14, Rameses, the Carolina mascot, had disappeared, and on Wednesday, Duke was bellyaching about stained glass windows being broken and steps being painted.

"People who live in glass houses—"

FOR THE CAP

Criticizing an editorial which appeared in this column two weeks ago, Hop Wilson, editor of the 1931-32 *TECHNICIAN*, and now city editor of the *Lenoir News-Topic*, places the label, "a relic of barbarism" on the freshman cap, and expresses a wish that the rat cap will not return to State.

In his editorial in the *Lenoir paper*, Wilson says that after the cap was abolished by the Board of Trustees in 1930, a "calm and noteworthy attitude between freshmen and upperclassmen ensued."

Perhaps Wilson's attitude would be somewhat different if he could see now from the eyes of a student how much of his "noteworthy attitude" has changed to abject indifference. Much of the enthusiasm of students a few years back was consumed with the burning of the freshman cap in 1930.

Even in the government of the college this indifferent attitude has been shown. Last year the House of Student Government had difficulty in getting a quorum of its members to attend meetings. On the Student Council, when that body met Wednesday night, a quorum was not present to consider issues before it.

At the beginning of the fall term, hazing still went on, shrouded with some secrecy; so with or without the cap, hazing will positively not be a thing of the past.

Schools throughout the United States continue to require freshmen to wear the cap, and in most schools it is a tradition which has been kept in spite of difficulties. State has very few traditions to which it can point, and the cap is chief among them.

Today, at their regular assembly, freshmen will vote on the return of the cap, and in January, upperclassmen will bring up the matter for a vote.

Practically every campus organization is backing the return of the cap, and Bill Barker, president of the student body, is an advocate of its return.

For four years there has been nothing except lectures and his presence here to cause the freshman to feel upon entering the school that he is an integral part of the unit, and it has become so difficult to discern between him and an upperclassman that a tag must be used to give him his place.

Among the freshmen in the class of 1937, the cap is talked of as an aid to betterment of friendship among those of that class, and it has been found that a large number of these men are desirous of seeing the cap back at an early date.

At their Wednesday meetings, freshmen were told of the drive to bring back the adornment, and they were found to be in favor of its reinstatement.

It is hoped that the red cap and its white button may again be in evidence at State College.

It might be a good idea for seniors and juniors to refuse to pay physical education fees at the January registration until adequate locker arrangements are promised for the gymnasium.

The accident at College Court Wednesday night is just another of those incidents that will continue until stop lights are put at the intersection.

HERE AND THERE

By G. W. FORD

"The time has come," the walrus said, "to talk of many things. . . . (That's just a clipping from my new poem entitled *The Ancient Columnist*.) But there really are many things to talk about this week. First and foremost in our minds this week are the exams for the term. Yes sir, they're just around the corner and it's not that far off corner behind which property is hiding either. It's close at hand, in fact it's so close we're sitting up nights waiting for it.

They tell many stories about examinations but the best one I've heard so far came from the English department. It seems that the members of the class were to read a book, then on the exam they were to write a report of the book. One fellow handed in a typewritten report.

The one thing I dread about this Christmas vacation is coming back and having everyone you meet say, "Hello there! y'all have a big time at home?" Why don't we make some rules stating that everyone whose name starts with from A to E should talk at the English Repeal Act. Those from E to J could talk about the price of eggs and so forth. What do you think about it?

Before we go on let me inform you that Hazel Beacham did not get married on Thanksgiving. I don't know what went on over the holidays but I am informed by Hazel that her name is still Miss Beacham. She further stated that the students were "driving her nuts with their congratulations."

Good news . . . Captain Thorson is back with us again. He will resume his work next term.

These Thanksgiving stories seem to be plentiful this week. It seems that Al Guttle was running around on the sidewalk looking for his Shanghai Lil. Jimmy Cagney found his Lil in the picture show. . . . I don't know how Al made out.

Well, this issue we bring to a close another term . . . we have passed one more stepping stone on the way to success or what have you? Take care of yourselves during the holidays and we'll see you all next year . . . and until then, let me wish you a Merry Christmas and a Happy New Year.

TAU BETA PI TO HOLD FALL INITIATION TODAY

Eleven Seniors and Three Juniors Pledge Honorary Engineering Fraternity.

Tau Beta Pi, national honorary engineering fraternity, will hold its fall initiation today at 4 p.m. The initiation will be formal only, and is to be held in the Electrical Engineering building.

This organization which has one of the most solemn and dignified initiations of any organization on the campus contends that so called "horse play" detracts from its dignity; so it has outlawed "horse play" in its initiations since its origin in 1855. The initiation is expected to be over by 5:45.

The formal initiation will be followed by a banquet given the new members at Carolina Pines this evening at 6:30.

The men to be initiated are H. A. Lynch, A. H. Couch, J. D. Swain, W. New, W. E. Barnes, J. C. Broadmeadow, Joe Dixon, C. A. Williams, W. B. Boyd, J. C. Bolen, J. W. Hunter, F. C. Johnson, A. M. Epstein, and F. C. Williams. The latter three are juniors.

Alumni members who will attend the banquet are Professors C. L. Mann, W. N. Hicks, H. E. Satterfield, A. M. Greaves-Walker, and Messrs. C. L. Mann and B. P. Petroff.

The officers of the local chapter are: W. E. Kister, Jr., president; C. J. Brown, secretary; D. S. Barnes, recording secretary; and Prof. L. L. Vaughan, treasurer.

WOMAN SERIOUSLY HURT BY HIT-AND-RUN DRIVER

Mrs. L. D. Cannon Injured by Automobile Wednesday Night; Negro Driver is Held

The fifth of a series of unfortunate avoidable accidents occurred at the intersection of Hillsboro street and Oberlin road when Mrs. L. D. Cannon, an employee of the College Court Barber Shop, was seriously injured by a hit-and-run driver.

Henry Nichols, Negro, living near Anderson Heights, is being held by the police as the alleged hit-and-run driver who struck Mrs. Cannon Wednesday night.

According to officers who investigated the accident, the car which struck the woman never hesitated a moment but sped away from the scene. Detectives obtained a description of the car and the license number, but could not locate Nichols until Thursday morning.

In addition to a charge of hit-and-run driving, the Negro is charged with careless and reckless driving.

Getting Tuned Up

PAGET TO SPEAK AT DEBATE MEET

Phi Rho Pi District Meeting to be Held at Campbell College December 8

Dean Leslie H. Campbell of Campbell College, president of the Southeastern District of Phi Rho Pi, national forensic society, announces the district meeting for December 8 and 9 at Campbell College. The meeting will begin with preliminaries at 2 o'clock today, and the finals will be tonight with the business meeting Saturday morning.

At the Friday night meeting greetings will be brought to the division by the national president, Roy Brown, and Prof. E. H. Paget of State College, president of the North Carolina Teachers of Speech Association, and author of the direct plan for debating will speak on debating and give a demonstration of his plan.

Professor Paget, will speak on the "Aims and Technique of the Direct Clash System."

The debate squad of State College will appear before the convention this afternoon at Campbell College to demonstrate the "direct clash" method of debating employed here. The subject of the debate will be, "Resolved, That the Principles of the NRA should be adopted as a permanent Governmental Policy."

The squad will be composed of Frank Busbee of Raleigh; Dwight Stokes of Newsom; and H. L. Garris, Jr. of Raleigh, representing the affirmative and Horace Cotton of Red Springs; R. L. Batts of Rocky Point; and H. B. Hines of Manteo, representing the negative side of the subject.

Immediately following a fraternity dinner, the team will journey to Wake Forest where it will meet the Wake Forest debate team at 9 o'clock in another direct clash debate on the same subject.

FOURTH TO REMAIN OPEN DURING XMAS HOLIDAYS

T. T. Wellons, superintendent of the dormitories, announced yesterday that Fourth Dormitory will be open during the holidays instead of Watauga as before. All boys wishing to remain during the holidays to work on the CWA project or for any other reason should see Wellons as soon as possible.

All those who are not expecting to return to College next term should check out before they leave and leave their keys with Wellons. Those students who wish to room in the dormitories next term should apply for their rooms before leaving next week. The price will be the same as before Christmas.

Students in the education school who will be away six weeks for practice teaching during the next term, would find it advantageous to see Wellons about their rooms. Wellons says that he expects to be able to make arrangements that will be beneficial to those students.

Dramatics Bureau
A bureau of dramatic activities has been established at Louisiana State University for the purpose of carrying out a state-wide program for sponsoring play production groups in communities throughout Louisiana where there would otherwise be no opportunity for creative work in dramatic art.

Good Logic
A student in a logic exam at Marquette ran out of subject matter after writing three pages, and he wrote: "I don't think you will read this far, and just to prove it I'll tell you about the baseball game I saw yesterday." For another five pages the student described the game, and he was never called on it.

Masquers Score

The stork, it seems, must have passed over Pullen Hall the night the Red Masquers gave their production, "A Tallor Made Man," before ending at a Raleigh home. A report from a local physician shows that since the presentation of the play a newly-arrived baby was named after the leading character, John Paul Bart.

DURHAM NAMED PRESIDENT OF FRIENDSHIP COUNCIL

The Freshman Friendship Council at its regular meeting last night elected its officers for the coming term. The officers elected were: Dwight W. Durham of Warrenton, president; E. F. Grodecki of Perry, N. Y., vice president; and Carl F. Lang, of Melrose Park, Penn., secretary.

The council accepted an invitation from Rev. and Mrs. Joseph D. Walker to a social in their home next term. Rev. Walker, pastor of the West Raleigh Presbyterian church, has been the leader of several study courses at the Y. M. C. A. this year.

The council is also planning a social with Meredith College Students for next term.

The names of all professors who keep their classes overtime are published regularly at the University of Kansas.

Nine Home Tilts Scheduled For State College Cagers

Red Terrors to Meet Clemson January 5 and Wake Forest On January 9

INJURIES KEEP McQUAGE FROM OPENING PRACTICE

Sermon Has Only Three Monogram Men to Build His Team Around This Year

The basketball team of State College will play more than half of its cage games at home for the coming season. The Red Terrors' schedule calls for 15 games.

The Raleigh Memorial Auditorium game, which heretofore has been scheduled with Wake Forest College, has been transferred to State as a home game. Nine tilts will be staged in the Frank Thompson gym.

Bob McQuage, captain of the Red Terrors, will be unable to report for practice until some time in January due to a fractured vertebra. Dr. Ray R. Sermon, trainer and coach of basketball at State has announced. McQuage was injured in the Duke-State football game at Durham on November 25. He was expected to report for basketball practice Monday afternoon.

Candidates reporting for practice who have had some experience in frosh play or varsity games are: Milan Zori, W. L. Smith, Joe Hochfeld, Charles Aycock, R. O. Pratt, Stewart Flythe, John Guzas, R. J. Womble, Russell Sherrill, Clifton Palm, Robert Harris, Walter Oakden, and W. W. Lambeth.

The injury of McQuage will be a serious loss to the Red Terrors. In an interview Doc Sermon said, "We hope McQuage will be ready for our opening game with Clemson on January 5, but the vertebra is rather badly sprained and it may be he will not be able to take part in drills until later in the season."

The 1934 schedule is as follows: Jan. 5—Clemson at Raleigh. Jan. 9—Wake Forest in Raleigh Auditorium.

Jan. 12—Davidson at Davidson. Jan. 17—Duke at Durham. Jan. 22—Virginia at Raleigh.

Jan. 24—N. Carolina at Raleigh. Jan. 27—V. P. I. at Raleigh. Jan. 28—W. M. I. at Raleigh.

Feb. 2—Wake Forest at Raleigh (State). Feb. 7—Davidson at Raleigh. Feb. 10—N. Carolina at Chapel Hill.

Feb. 13—V. P. I. at Lexington, Va. Feb. 14—W. M. I. at Blacksburg, Va. Feb. 15—W. and L. at Lexington, Va.

Feb. 16—Virginia at Charlottesville, Va. Feb. 19—South Carolina at Raleigh.

MANY STATE GRIDDERS PLACE ON ALL-STATE PICKS

Sabol, Redding, and Ray Rex Most Mentioned in Sports Writers' Choices

The sports writers of the state daily newspapers, the Associated Press writers of the state and nation accorded several honors to members of the State College football team in their selection of candidates for All-State teams.

In the AP All-State team, Ray Rex was the only State man mentioned on the first team. He was named for the fullback post. Ray Redding received the End post, Steve Sabol the center position, and Bob McQuage the quarterback post.

The sports writers of the daily newspapers in the state were more favorable to Wolfpack players in their selection. State College players were named to two positions on first team. Steve Sabol copped the center post and Ray Redding the end position. On the second team Bob McQuage and Ray Rex were named for the quarterback and fullback post respectively.

On the All-American team selection by the AP, Ray Rex, fullback, and Steve Sabol, center, were given honorable mention.

New Education Method
Forty of the most brilliant high school and prep school students entering Temple University from Philadelphia and vicinity this year have been put in an experimental group, relieved of most of the regular college student routine. No definite course of study will have to be taken by the group; no credits earned; no marks given; class attendance will not be compulsory. The first two years will be devoted to study of world problems and how to solve them. The last two years will be devoted to specialization in the field of the students' choice.

On the Shelf

CAPT. BOB McQUAGE
The captain of the State College Red Terror basketball team, who is shown above, will be unable to practice with the basketball squad until early in January because of an injury to his back. McQuage has been an outstanding guard for the Terrors for the past two seasons and has been mentioned several times as a candidate for All-State basketball team.

Sports Views

By BROCK SISELL

The Wolfpack should be commended for the fine playing it did against Duke. Outplaying the Devils three quarters—and giving them the scare of their life, anyone could easily forget the poor showing State made against earlier foes. In fact, with a few successful "breaks" of the game, State could have had a fairly successful season.

Duke University by losing to Georgia Tech lost a fine chance for it to go to the Rose Bowl—and show those Californians what a splendid brand of football is being played in the old Tar Heel state. Some of these days a North Carolina team will rise out of the obscurity and show the country a real football team. North Carolina bears watching!

The football captain for next year's team will be elected soon. A suggestion which I think would help in making for a fine coordination in the leadership of the "Pack" would be to elect co-captains. By doing this, if one captain is absent from a game the other captain could lead the team in the field of battle.

Coach "Doc" Sermon will have some tough sledding with his basketball team this year unless he can find some promising material among the sophomore candidates. But this shouldn't worry "Doc," he never has failed yet in putting out a team which has not made State proud of it.

Among the sophomore basketball candidates, I wouldn't be a bit surprised to see "Chub" Womble, Charlie Aycock, Russell Pratt, and Stewart Flythe make the varsity team. They sure are hard-working, up-and-coming workers in practice.

Wrestling should go over big this year. More interest is being shown than ever before. The largest freshman wrestling squad ever to turn out for practice turned out this week. Varsity wrestling should have a good season too with five experienced men back to grapple this year.

With basketball games, wrestling and boxing matches, swimming meets, and rifle matches on the program for the Winter term, State students will have plenty to look forward to when they come back from the Christmas holidays.

Here's wishing the readers of this column a big Christmas and a hope that they will return to school for the Winter term resolved to turn out and back up every State College team.

Plan for Employment
Mrs. Roosevelt and Secretary of Labor Perkins have evinced interest in a plan proposed by a college professor's wife that all able-bodied youth between the 18 and 26 years should be conscripted into a vast class called the commons to grow and process food, run the nation's transportation systems and basic industries and supply the entire population with food, clothing, shelter and transportation without cost. On reaching 26 years, after eight years of public service, the "commoner" becomes a member of the capitalists. The necessities are provided to him but luxuries will be produced under the capitalistic system at present. He must work if he wants an automobile, a fur coat for his wife, a car for the table, or a trip to Florida in the winter. The plan would solve the educational upset caused by conscription of youth just out of public school by arranging for night college work and completion of higher education after graduation.

INTRAMURALS END SUCCESSFUL YEAR

Only Finals in Campus Sports to Be Played Off After Christmas Holidays

The fall intramural season has come to a successful completion and by the Christmas Holidays, all games except the finals will have been played off. At the time THE TECHNICIAN went to press, Johnny Miller, director of Physical Education said that several titles for sectional championships remained to be played off. The report at present is:

In fraternity horsehoes, the winners in the sections are the Sigma Phi Epsilon, the Alpha Lambda Tau, and the Sigma Nus. In dormitory horsehoes, there is a tie between the 1st floor of 1911 and the 1st floor South for one section championship. The 3rd floor 1911 and the 2nd floor South are champions in the other two sections.

The football situation is a little more complicated with several ties still to be played off. In the fraternity section, the Sigma Phi Epsilon have won the championship of their section. The Delta Sign and Alpha Gamma Rhos are tied for championship of one remaining section, and the Kappa Alphas and the Sigma Nus are tied for the other.

An intramural swimming meet has been taking place during the past week, but final reports have not come in. Preliminary events were conducted for two fraternities teams on Tuesday and the dormitory teams on Wednesday. Events were: 25 yard free style, 50 yard back stroke, 100 yard free style, a four man 100 yard relay, diving, and the plunge for distance.

Johnny Miller says that combination of all these activities have made the past two weeks very busy ones for him and the rest of the physical education staff. He expressed himself as gratified, however that the fall intramural season was ending so successfully.

WRESTLERS HOPE TO CINCH CROWN

Coach "Red" Hicks Has Experienced Wrestlers in Each Weight Division

The State College varsity wrestling team, coached by W. N. "Red" Hicks, is looking forward to a successful season. There are experienced wrestlers in each weight, and the entire team is in good condition.

In the 118 pound class, Morrah, a junior, is sure of his post as he has no competition out in that weight. Kerr, a junior, will fight in the 125-pound class. He has no other competition than Broadmeadow. Nolan, a senior, will take care of the 135-pound weight. As competition he has Hodgkin and Chatfield. Captain "Jock" McLaurin, a senior, will wrestle in the 145-pound class. Others out in that weight are Krach and Davis. Bernhardt, a junior, will fight in the 155-pound class. The only other competitor is Phil Davis. Furr, a junior, is almost assured of the 165-pound weight. Croom, a junior, will handle the 175-pound division. Cooper, a sophomore, will fight in the unlimited weight.

The first match of the season will be held at Carolina on January 15. There will be three home matches, the teams being W. M. I., V. P. I., and Washington and Lee. Washington and Lee holds the Southern Conference championship in wrestling.

The State varsity wrestlers were the only State team to win a state championship, and with nearly all the old wrestlers back, should be almost assured of that title again. They will also be strong contenders for the Southern Conference title.

Several more men are reporting in the heavyweight class following the close of the football season.

DORMITORY MEN DONATE FUND FOR ATHLETIC CUP

Dormitory Club Gets \$16 for Purchase of Intramurals Loving Cup Award

Sixteen dollars has been appropriated by students living in dormitories toward an athletic cup which will be awarded that group which wins in the intramurals competitions among the dormitories.

The club has been in full cooperation with Coach Johnny Miller and his intramurals program, since its establishment this fall, according to Bill Barker, president of the club.

The purpose of the group is the enrichment of dormitory life by the promotion of better acquaintance among students, better intramurals athletics programs, and better dormitory conditions.

George Culberson is secretary of the Dormitory Club.

This should sound encouraging to prospective engineers, for all graduates in Tulane's engineering school last year now have jobs.

All-State End

RAYMOND REDDING—End

A board consisting of 16 sports writers of North Carolina selected Raymond Redding as All-State right end. Redding, who hails from Decatur, Illinois, received 22 points out of a possible 32. He was selected because of his brilliant and consistent play throughout the season. Out of a possible 540 minutes playing time, Redding played 483 minutes.

RULES ANNOUNCED FOR RIFLE TEAM

Captain Venable Gives Out Regulations for Frosh and Varsity Riflemen

Captain Venable, coach of the State College rifle team, announced Monday a set of rules which will govern members and prospective members of the varsity R. O. T. C. and freshman rifle team.

The most important rules are as follows: 1. Enter the armory during firing hours through the East door only. 2. Get your rifle, open the bolt, get target and sufficient ammunition for contemplated firing and pass into the gallery opening the door just long enough to pass through. Should all firing points be occupied await your turn in the chairs just inside the door or back in the assembly room. 3. Keep all bolts open until you are in position ready to fire or dry shoot. 4. Operate your target carefully, thereby avoiding delays. The command "cease firing," given at any time by any person in the gallery, will be rigidly obeyed by opening the bolt and waiting until the range is cleared. 5. When finish firing clean your rifle and return it to the racks. Be careful not to interchange bolts as each bolt is adjusted to a particular rifle. 6. For special instruction see the officer in charge.

During the fall there has been much confusion in the Armory during rifle practice. It is hoped that these simple rules will greatly clarify the situation and lessen any chance for possible injury to a candidate for the rifle team. A schedule of rifle practice periods and the officer in charge has been posted in front of the Armory for the convenience of the rifle team.

SABOL, STEPHENS LEAD IN GRID TIME PLAYED

Sabol Plays 525 Consecutive Minutes, and Stephens Plays 518 Minutes

Steve Sabol, center, and Kenneth Stephens, left end, led members of the State College Wolfpack this fall in number of minutes played during the schedule of nine games.

Sabol, a sophomore, was first with a total of 525 consecutive minutes of play out of a possible 540.

Stephens, a junior, played 518 minutes, but they were not consecutive. Ranking next to Sabol and Stephens was Raymond Redding, with 483 minutes. Redding is also a junior and played right end.

In addition to the three high men, there were three who played more than 400 minutes and five others who played more than 300 minutes. They were: Bob McQuage, left half, 479 minutes; Don Wilson, quarterback, 476 minutes; Carl Isaacs, tackle, 470 minutes; John Stanko, guard, 389 minutes; Ray Rex, fullback, 385 minutes; Bo Bohannon, right half, 348 minutes; Venice Farrar, tackle, 344 minutes; and Buck Buchanan, guard, 341 minutes.

TWO NEW DOORS ADDED TO THOMPSON GYMNASIUM

Students attending basketball games and other indoor amusements in the Frank Thompson Gymnasium this winter at State College will find two new double doors making entrance more accessible. Heretofore entrance could only be made through doors on the front. The new doors are on each side of the spacious gym floor.

Athletes Study Less

The universal belief that the average athlete is a "dumb-bell" has been exploded by tests made at the Milwaukee State Teachers College. The median score for athletes was 78 and for non-athletes, 82. The slight variation is due to the fact that athletes study less, according to Dr. Billings.

GYM LEADERS COMPETE IN DIFFERENT EVENTS

Gym Competition to Select Best Groups and Individuals Held Recently

Sixty-eight leaders of the freshman physical education classes competed recently in the events required in the different events are as follows:

1. Hop-step-jump—L. S. W. Womble, W. T. Gill, 28 feet 10 inches.
2. Hitch-kick—S. W. Womble, 9 feet 4 inches.
3. Elephant Vault—W. T. Gill, 6 feet 6 inches.
4. Bar Snap—P. W. Shell, 8 feet 6 inches.
5. Rope Skip—L. L. Sarin, H. C. Bragaw, 197 times per minute.
6. Medicine Ball Throw—W. T. Gill, 50 feet.
7. Potato Relay—Tolar, 14.2 seconds.
8. Rope Climb—H. P. Hutchins, P. P. Brown, Marjin, 5.3 seconds.

These winners are the best of the freshman physical education classes, for the competition was between men who had already been selected to lead the gym classes because of their unusual proficiency.

In the sophomore gym classes, there was competition in the two sophomore elective games, swimming and football. The winners in tag football competition was the Tuesday and Thursday classes of the following picked men: William Utly, J. M. Brown, W. S. Leroy, O. R. Freeman, S. L. Eisenberg, W. H. Darst, C. C. Cox, C. Stein, W. C. Creel, C. G. Riley, C. S. Layton, H. Gellifus, H. McMillan, R. P. Harris, I. Pearson, T. L. Ware.

The winners in the sophomore swimming events were the Monday and Wednesday classes composed of following picked men: R. G. Hodgkin, B. S. Lambeth, J. Marguelles, M. H. Meekins, L. G. Tucker, F. M. Thompson, J. H. Westbrook, W. C. Gardner, W. R. Mann, J. A. Parrott, J. M. Britz, H. O. Dixon, W. H. Gregory, H. H. McKimmon, J. D. Moore.

FROSH WRESTLERS BEGIN PRELIMINARY WORKOUTS

Unusually Large Number of Freshmen Report to Coach Joe Moore Tuesday

An unusually large number of freshman wrestling candidates reported to Joe Moore, wrestling coach, Tuesday afternoon for preliminary workouts. According to coach Moore, this is the largest freshman wrestling squad in the history of the college. Indications are that a very successful team will be developed from this large squad.

As a result of the initial workout the following men showed up most promising: W. C. Bell, 118 lb. class; J. W. Ogletree, 125 lb. class; Hall, 145 lb. class; W. C. Gardner, 145 lb. class; W. L. Troxler, 165 lb. class; and T. C. Ferrin, 175 lb. class.

The remaining candidates, classified according to weights are: 125 lb. class—F. T. Roberts, L. M. Hinshaw, J. D. Carpenter, J. King; 135 lb. class—J. W. Westbrook, W. J. Bridges, Horowitz, Pendleton; 145 lb. class—F. C. Gore, E. H. Forbes, Chambers, and McSwain; 155 lb. class—A. F. Hein, and Robertson; 165 lb. class—J. T. Richardson; 175 lb. class—M. Thompson, and Chiemego; unlimited class—Cohen, Schwartz, Kiser, Gurley, and J. H. Fox.

The first meet for the frosh wrestling team will be held with the University of North Carolina freshmen Saturday, January 13, at Carolina. Plans are being made for a full schedule of meets for the freshmen. Coach Moore is being ably assisted by O. K. Irgens in developing the team. Gus Palmer was recently elected freshman manager for the group.

All-State Center

STEVE SABOL—Center

The sports writers of North Carolina selected Steve Sabol, Campbell, Ohio, as All-State center. He was given a close run for the honor by Dunlap, center of Duke University. Sabol received 23 points. This is the second consecutive year that State has placed a center on the All-State team. Last year Captain "Red" Espey was named All-State center. Sabol also broke the State's endurance record when he completed 525 consecutive minutes of football playing this season.

RELIEF WORK COMMENCED ON TWO ATHLETIC FIELDS

CWA Workers Begin Enlarging Freshman Field and Grading Riddick Field

Work was started Monday by a force of 75 relief workers on one of the civil works projects at State College in grading Freshman Field in connection with improvements there and on Riddick Field.

The project provides for the enlargement of Freshman Field to include a third practice unit. It is planned to have both varsity and freshman practice on Freshman Field and use Riddick Field only for actual games.

There are already two practice fields on Freshman Field. Riddick Field, the scene of all of State's varsity and freshman games, will be graded and turfed. At present the north end of the field is no more than three feet higher than the south. The field will have a crown and a drain will be installed underneath. Shrubs will also be planted around the field.

More Harvard Nudists

A recent survey shows that there are more Harvard students at nudeist colonies than from all the other American schools combined. Lost and found

STATE SWIMMERS TO MEET DEVILS

Frosh and Varsity to Meet Duke Team in Thompson Gym Tomorrow at 7:30

Freshman and varsity swimming teams of State College and Duke University will meet here tomorrow night in the Frank Thompson gymnasium pool at 7:30. It will be the second meet for the varsity team of State and the first of the season for the Blue Devil swimmers. The engagement will be the first meet for both of the yearling teams.

In their first appearance this fall, the State tankers defeated the strong army team of Fort Monroe, Virginia, 46-33. State's team is led by Captain F. A. Carter, a dash man. Jimmy Westbrook, a sophomore, is another star in the dash events.

Duke's best bet is Breast who swims the breast stroke. When State and Duke met here last winter, Breast missed equaling the world's record for the 100 yard breast stroke by only two seconds.

A list of the events and State participants follows: VARSITY: 400 yard relay: 1. Holoman, 2. Carter (Capt.), 3. Moorman, 4. Stonebanks; 200 yard breast stroke: Peiffer, Hunter, and Washam; 150 yard back stroke: Stonebanks and Thompson; 50 yard free style: Westbrook and Carter; 400 yard free style: Moorman; 100 yard free style: Westbrook and Carter; 220 yard free style: Westbrook and Moorman; 300 yard Medley: Stonebanks, Peiffer, and Holoman; Diving: Thompson.

FRESHMAN: 400 yard relay: 1. Wayant, 2. Bertland, 3. Hunter, 4. Goodwin; 200 yard breast stroke: Shelley (Capt.), and Gatz; 150 yard back stroke: Retlin and Hutchins; 50 yard free style: Amadon and Wayant; 400 yard free style: Bertland and Estus; 100 yard free style: Amadon and Wayant; 220 yard free style: Amadon and Bertland; 300 yard Medley: Retlin, Shelley, and Hunter; Diving, Kurfes and Hutchins.

Facilities have been made at the gym to accommodate a large group of spectators. At the first appearance of the State swimmers this fall, one of the biggest groups of spectators ever to attend a swimming meet were present.

HERE'S Energy FOR YOU!

HERE'S Energy FOR YOU!

MAKE A MEAL a day of Shredded Wheat, and you'll put new speed into everything you do.

This forty-year favorite is packed with natural energy elements. Yes, *all* the vitamins, proteins, minerals, carbohydrates and bran that make whole wheat man's great energy food... all of them come to you in Shredded Wheat. It's 100% whole wheat with nothing added, nothing taken away.

And here's something that will please your pocketbook. Just a few pennies buy a satisfying bowlful of this natural energy food. It's ready cooked, ready to eat with milk or cream... with your favorite fruit. Try it for ten days in a row... and watch your energy chart hit high.

Lambda Chi Alpha
The Lambda Chi Alpha fraternity entertained a number of guests at a Thanksgiving dance at their home on Clark Avenue.
The house was attractively decorated for Thanksgiving with autumn leaves and forest foliage. Guests enjoyed punch and waters throughout the evening.
Young women present were: Misses Lillian Williams, Louise Echerd, Nancy Campbell, Roberta Snell, Mildred Thrift, Lucille Davis, Evelyn Bagby, Dorothy Tyson, Margaret Tyson, Elizabeth Weathers, Garnet Eighme.
Mr. and Mrs. Wilbur Wilfong chaperoned the dance.

Delta Sigma Phi
Rho chapter, of the Delta Sigma Phi fraternity, entertained a large number of alumni, active members, and pledges at its annual Founder's Day Dinner-Dance held at the Tar Heel Country Club last Saturday evening.
The banquet hall was decorated with the fraternity colors, blue, green and white. The walls were decorated with evergreens and fall leaves adorned the table which was draped in white and bordered in blue green. The table was arranged in the shape of a triangle; above and behind the apex hung the reproduction of the jewel pin in green and white electric colored lamps.
During the elaborate five-course dinner the toastmaster conducted an entertaining program which consisted of short talks, vocal and instrumental musical selections, dancing exhibits, and dialogues. After the dinner the guests adjourned to the ball room where a card dance was held.
At the ten o'clock intermission the guests were served fresh fruit orange punch, containing orange sherbert, and home-made cocoonut cake. Dancing was resumed and continued until the midnight hour.
Young ladies attending were: Misses Virginia Kennedy, Elizabeth Dees, Joyce Swain, Margaret Brewer, Alice Gilliam, Margaret Underhill, Josephine Arnett, Vergiline Griffin, Patricia Jane Hall, Sara Crabtree, Emily Vaughan, Margaret Hunneycutt, Lodina Morris, Fanny Bell Bray, Christine Derby, Rachel Roberts, Janet Orman, Helen Crowder, Virginia Simpkins, and Garnet Eighme.
Alumni attending with partners were: Mr. and Mrs. F. M. Haig, Mr. and Mrs. S. K. Witherspoon, Mr. and Mrs. Marlon Price, Mr. and Mrs. Earl Betts, Sammy Homewood, Sherwood Brockwell, and Charles W. Selfert.

Alpha Chi Beta
Members of the Alpha Chi Beta fraternity entertained at a closed banquet followed by a dance on Thanksgiving Eve. The banquet was held in a beautifully decorated banquet hall of Carolina Hotel. After the banquet program was completed the members and their guests adjourned to the fraternity house on Clark Avenue where dancing was enjoyed until midnight.
Young women guests of the fraternity were: Misses Mary Joe Swicegood, Virginia Puckett, Frances Knott, Virginia Phelps, Mary Conway, Virginia Tate, Pauline Kelly, Sarah Harrison, Betty Weaver, Annette Thomas, Sur Hunter, Mildred Powell, Lillian Covington, and Helen Satterfield.
Chaperones for the evening were: Mr. and Mrs. J. A. Gathwright.

Theatre Party
Professor A. M. Fountain entertained last Friday evening at a theatre party in honor of Miss Elizabeth Caldwell, his guest for the Thanksgiving holidays from Mississippi.
Besides Miss Caldwell, those attending the party were: Prof. and Mrs. James Fontaine, Mr. and Mrs. L. H. Jobe, Mr. and Mrs. M. W. Stubbs, Mr. and Mrs. L. V. Sutton, Mr. and Mrs. H. H. Jobe, Miss Anne Harper with Prof. W. L. Clevenger, Miss Catherine Farris with Lavelle Johnston, and Miss Mary Belle Herring with Col. J. W. Harrelson.
Immediately after the theatre program, Professor Fountain was host at a midnight sandwich supper.

Alpha Chi Beta
Members of the Alpha Chi Beta fraternity entertained at a closed banquet followed by a dance on Thanksgiving Eve. The banquet was held in a beautifully decorated banquet hall of Carolina Hotel. After the banquet program was completed the members and their guests adjourned to the fraternity house on Clark Avenue where dancing was enjoyed until midnight.
Young women guests of the fraternity were: Misses Mary Joe Swicegood, Virginia Puckett, Frances Knott, Virginia Phelps, Mary Conway, Virginia Tate, Pauline Kelly, Sarah Harrison, Betty Weaver, Annette Thomas, Sur Hunter, Mildred Powell, Lillian Covington, and Helen Satterfield.
Chaperones for the evening were: Mr. and Mrs. J. A. Gathwright.

Sigma Phi Epsilon
Members of the Sigma Phi Epsilon fraternity entertained at a most delightful house dance held in their home on Chamberlain Street Thanksgiving Eve.
A large number of guests enjoyed dancing throughout the evening. A complete amplifying system broadcasting popular recordings furnished the music. At seven o'clock delicious fruit punch was served with dainty snacks.
Young women attending were: Misses Caroline Tucker, Susanne Allen, Katherine Noel, Mary Emma White, Margaret Kelly, Agnes Covington, Elizabeth Wade, Elizabeth Parks, Margaret Little, Irene Little, Margaret Brown, Emily Scott, Foy Allen, Margaret Vass, Mary Poyner, Daughton Rankin, Frances Thompson, Ella Mae Boy, Mary Nell Cummings, Ella Mae Noel, Margaret Brewer, Eloise Carrawon, Mary York Neal, Carol Richardson, Lutrelle La Frose, Kappy Robertson, Eleanor Layfield, and Jeanette Bagwell.
Chaperones for the affair were: Mrs. J. N. Mason, Mrs. A. Y. Kelly, Mr. and Mrs. W. F. Hanks, and Mr. and Mrs. E. J. Cumiskey.

Alpha Mu
Alpha Mu sorority entertained at an informal dance Thanksgiving evening at the home of Prof. L. F. Williams, 1816 Park Drive.
Dancing was enjoyed from 9 until 12 o'clock and fruit punch was served throughout the evening.
The hostesses including their women guests were: Mildred Pittman, Eloise Gibbs, Hazel Beacham, Sue Pearce, Elizabeth Gantt, Katherine Williams, Clyde Cotner, Edna Mae Halverson, Virginia Powell, Rosalie Smith, Margaret Owens, and Christine Shephard.
The chaperones were: Dr. and Mrs. R. O. Moen, Dean and Mrs. E. L. Cloyd and Prof. J. T. Nelson.

Dancing was enjoyed from 9 until 12 o'clock and fruit punch was served throughout the evening.
The hostesses including their women guests were: Mildred Pittman, Eloise Gibbs, Hazel Beacham, Sue Pearce, Elizabeth Gantt, Katherine Williams, Clyde Cotner, Edna Mae Halverson, Virginia Powell, Rosalie Smith, Margaret Owens, and Christine Shephard.
The chaperones were: Dr. and Mrs. R. O. Moen, Dean and Mrs. E. L. Cloyd and Prof. J. T. Nelson.

Sophomore Ball
The Sophomore Ball was held Saturday night, December 2 in the Frank Thompson Gymnasium.
The dance was informal, with Jimmy Poyner and his State College Collegians furnishing the music.
The gymnasium was decorated in red and white with the Sophomore Class emblem displayed in a prominent place.
The sponsors for the affair were: Miss Lillian Williams of Raleigh with R. W. Cooper of Kinston and president of the class; Miss Frances Lewis of Wilmington with Joe Canady of Wilmington and vice president of the class; Anne Owen of Fayetteville with Charlie Turlington of Fayetteville; and Miss "Boots" Haywood of Trenton, with Carson Simms of Charlotte.
Chaperon invitations were sent to: Governor and Mrs. J. C. B. Ehringhaus, Dean and Mrs. E. L. Cloyd, Dean and Mrs. Thomas Nelson, Professor and Mrs. F. M. Haig, Professor and Mrs. W. H. Hicks, Captain and Mrs. P. W. Ricamore, Mr. and Mrs. J. F. Miller, Prof. and Mrs. John Foster, and Dr. and Mrs. J. V. Holtmann.

Mu Beta Psi Dance
The members of Mu Beta Psi, honorary musical fraternity, will entertain at a dance tonight between 9 and 12 o'clock in honor of the State College faculty, their friends, and the clerical force of the college. The dance will be informal and will be held in the Frank Thompson gymnasium.
For the past several years the fraternity has honored the faculty with a dance during the fall, winter, and spring quarters.
The gym will be appropriately decorated. Music will be furnished by the State College jazz orchestra under the direction of Hyman Dave, president of Mu Beta Psi.

Announcements
There will be no regular meeting of the Radio Engineers tonight.
Joe Abernethy, President.
There will be an important meeting of the Glee Club in Pullen Hall Monday night, 6:30, at which all members are expected to be present.

Wataugan
The "Campus Life" issue of The Wataugan, college humorous magazine, made its appearance yesterday.
The issue contained a profuse number of illustrations which greatly added to its appearance. It also contained a short story, "About a Girl," which was good.
Other features included pictures of two campus leaders, a sports section, and a page of statistics concerning the college.
There were also a number of good poems.

STUDENTS TO BE ALLOWED TO WORK ON CWA PROJECT TO IMPROVE STATE CAMPUS
(Continued from page one)
show that he is entitled to be considered as unemployed.
Dean Francis Bradshaw of the University of North Carolina at Chapel Hill and other college officials have been conferring with federal officials for some days seeking to have self-help students made eligible for CWA projects. No definite program has yet been worked out for the University, since the Orange County quota of CWA jobs was set before it was ascertained that students would be eligible. The Orange quota is only 453 persons, half of whom must come from direct relief rolls. The University already has registered 150 self-help students.
Students interested in obtaining work should apply to M. L. Shepherd, assistant Y. M. C. A. Secretary and Self-help Director. The committee for the approval of the applications is composed of Dean E. L. Cloyd, Prof. T. L. Johnson, and M. L. Shepherd. Only students who must have work in order to stay in school will be considered for work.
On Wednesday afternoon, the first day of registration, over one-fifth of the student body applied for work. The wages paid range from forty-five cents an hour for unskilled labor to \$1.10 an hour for skilled labor. The maximum work will be thirty hours a week.

self-help students whose work has been constantly diminishing during the past few years. There are a number of students who could not return to school next term without the help, and there is a great danger of too many men who actually do not need work getting jobs which will eliminate many of the men who are vitally in need of them. Many men who have not been known to work since their entrance in State College have signified their willingness to operate a shovel and pick and propel a wheelbarrow, in order to return to school.
The definite schedule for the work has not been released. At the present time however, the work on Riddick Field is under way. The labor being used comes from the employment agencies in Raleigh. Shortly, though, this labor will be gradually replaced by student labor. The actual work itself is being carried on under the direction of J. W. Trent of the CWA.
Shepherd made the following statement concerning the project: "The student who is looking for an easy job with big pay should not accept an assignment to work on the State CWA project. Only those students who themselves know that they will be unable to return after Christmas without CWA employment or employment with equivalent advantages should seek this work. Judging from the unusually large percentage of the student body applying for this work and by years of experience with self-help students, I cannot help but feel that there is a large element of romance in the minds of many students making applications. The high wage scale is so attractive that it nearly eliminates the idea of work. It should be clearly understood that those who merely seek Christmas spending money will not be given employment."

20 FULLY PACKED Cigarettes

No Loose Ends

WHY LUCKIES ARE SO MILD, SO SMOOTH

Open a pack of Luckies and lay the 20 cigarettes side by side. You can't tell one from another. Every Lucky is round, firm and fully packed—with choice Turkish and domestic tobaccos.

And every Lucky is free from annoying loose ends. The tips are clean-cut—the tobacco doesn't spill out. That's why Luckies draw easily, burn evenly—and are always mild and smooth.

ALWAYS the finest tobaccos
ALWAYS the finest workmanship
ALWAYS Luckies please!
