

Mann Says Geodetic Survey Accomplishing Two Things

Survey Employing Engineers and Undertaking Valuable Surveying Projects

BESTON IS SUPERVISOR OF PROJECTS IN STATE

Second Phase to Start February 15, Following Expiration of First Phase

By J. W. LAMBERSON

The Geodetic Control Survey, as a part of the CWA projects in North Carolina, is accomplishing two major and necessary undertakings—the doing of work while things and the aiding of engineers needing employment—says Prof. C. L. Mann, head of the civil engineering department of N. C. State College and originator of this project in North Carolina.

The first few of these surveying parties were organized last spring by Professor Mann under the welfare relief work in an effort to give jobs to unemployed engineers and this past fall the project was enlarged as a CWA project. Professor Mann was offered the position as head of the North Carolina project, but was unable to perform this extra work in addition to his college duties. D. B. Beston was named supervising engineer for the Geodetic Survey and Professor Mann secretary of the State Board of Registration for Engineers and Land Surveys.

This survey project and other projects requiring engineers have given employment to all available unemployed engineers in North Carolina and authorities state that more can be used.

The first phase of the survey expires February 15 and the second phase in which surveying parties will be reinforced and improved will begin after that date.

The Geodetic Control Surveys will be of tremendous value when they are completed. They are establishing permanent surveying markers at regular intervals along the main highways to be used as reference points for determining beyond all doubt the position of boundary lines. Permanent elevations of the land placed on these markers will also be established to be used in various state developments.

In the future an engineer with the aid of a Geodetic map of elevations can sit in his office and in a few hours plan a 50-mile highway to fit the contours of the land.

"Engineers are forerunners of all developments and are also the first to be curtailed and lose their jobs in times of depression," Professor Mann pointed out, "and they should be given employment as they have been hardest hit."

Engineers are being used on numerous other CWA projects, including marial surveys, soil surveys, sanitary work, salt marsh surveys, and State Board of Health work.

FROSH CHEMICAL GROUP HOLDS MEET WEDNESDAY

The Freshman division of the American Institute of Chemical Engineers met in its regular weekly meeting Wednesday at 12 o'clock in Winston Hall.

It was announced that at the next meeting of the A. I. Ch. E. all freshmen that wished to be initiated into the society would have to be present and have their dues paid. C. R. Stintette gave a very interesting talk on dyes and dyeing. He stated that he had had some experience in this work and that it had one of the most outstanding futures in the country. Hall Morrison, chairman of the program committee, appointed W. A. Bridgeforth on the program for next meeting. F. C. Gere is president of the group.

WILMINGTON FRESHMAN HAS FINGERS CUT OFF

H. C. Byrd, Jr., of Wilmington, freshman in Electrical Engineering, had three fingers of his left hand cut off while working at a lathe in the college workshop yesterday afternoon. Byrd was immediately taken to the infirmary where Dr. A. C. Campbell found it necessary to amputate Byrd's middle finger at the second joint and his little finger and ring finger at the first joint. The index finger, although severely lacerated was not seriously enough injured to warrant amputation. The Wilmington youth was working with a short piece of wood at the lathe when the wood slipped.

Announcements

The Sophomore Assembly meets in Pullen Hall Wednesday, February 14, at 12 o'clock.

W. N. Hicks.

The following organizations will be photographed for the 1934 edition of the *Agromock* on Sunday afternoon, February 15, according to this schedule: A. I. Ch. E., 2:00; A. E. E., 2:05; A. S. M. E., 2:10; Am. Ceramic Society, 2:15; Monogram Club, 2:20; N. C. S. Forestry Club, 2:25; Gamma Sigma Epsilon, 2:30; Lambda Gamma Delta, 2:35; A. I. C. E., at 2:40. All members of these organizations are urged to be present at the specified time, as the schedule will be strictly followed. These photographs will be taken at the West Entrance of Holi-day Hall.

Open Forum

This column is conducted for the expression of student opinion. Opinions expressed below are not necessarily in accordance with the editorial policies of this newspaper.—Ed. NOTE.

Clears Up Remarks To the Editor:

Rather contrary to my most sincere expectations, the article written by me and printed in this column last week was misunderstood by certain interested parties in several ways. I am writing this with the intention of trying to clear up some points.

First, I should like to clear the Student Council of possibly some blame or "slaps in the face" which might have been created by the incorrect impression given to the public in the editorial column of last week's paper. The Student Council, upon my motion, I should say, made the "crack-brained motion" referred to in the editorial, backing up in a letter which I wrote. The Council, however, made the motion in the same spirit in which the letter was written, which was merely to bring into the open print something which the great majority of students on the campus talk about among themselves in, usually, rather uncomplimentary terms. And, having brought into the open this "something" rather than this situation, to try, in some manner, to remedy it. It does not mean a great deal when just one student has a "sore thumb," but when approximately 1,400 students have "sore thumbs," there must surely be something more to the situation than just a small, dull throb, so to speak.

The statement in the same editorial to the effect that this present move is not new, that every year students "kick" about prices, is true. And being true, becomes interesting. If every year some students complain, then why? Surely it has not become one of our dearly beloved traditions here to complain about the Students Supply Store annually just "for old time's sake." And when complaints are made, why is not something done about it? Is the whole thing too involved for a workable solution to be forthcoming?

I, too, want to correct a false impression given by the above-mentioned editorial, possibly to the public. I made no statement, nor hinted to the effect that some professors had their students buy new books oftener than was necessary. The man who wrote the editorial brought up that point himself, not I.

I brought up, last week, the point that used books were bought for as little as possible at the store. As evidence for this contention, I offer: Recently, a number of books in good condition which cost approximately \$45 when new, were taken to the store for the purpose of selling them. The student was offered approximately \$9 in trade for them. In another case: Books which cost approximately \$22 when new, were offered for sale at the store. The staggering sum of \$1.50 was offered for them. These are only a few of the hundreds of such incidents. Surely books do not depreciate in monetary value so drastically after once being bought new. If they do, then possibly some day one will have to pay a fee to another person, in exchange for which the person will take some books off his hands. Seriously, why could not a student carry his used books, for which he no longer had any use, to a student's store and get something like the true monetary value for them. I ask that question, others before me have asked it. WHY?

There have also been incidents reported to the effect that there were professors' prices on articles at the store, together with students' prices. Naturally the prices to professors would be lower, in fact, lower than the supposed cost price as represented to the student, in some cases. To look at such cases with an impartial point of view, one can clearly see the class price idea, which is the favoring of one class, to the disadvantage of another class. The word "Students" should surely be removed from the name of the store. As has often been said, any fool can criticize. The real test of criticism is whether it is or can be constructive. Why not remove all interests of the Alumni Association from the store and make it in truth the Students Supply Store of N. C. State College. Why should the Alumni Association expect the students to financially support it, partially, through revenue from the Students Supply Store?

To offer a plan which I consider much more serviceable and useful than the present one, I submit: Why could not the administration take over the store and institute a cooperative, non-profit system such as Louisiana State University has in operation now. This plan calls, in brief, for a salaried manager to run the store on a non-profit basis for the school, and the profits, if any, to be turned over to the library, which would possibly eliminate our library fee here. The idea also entails a committee of two faculty and two student members to set and regulate prices at the store each year, regular with the manager.

In comparing the above plan—briefly as it is stated—with our present system of operating the store, it is easily and immediately to be seen that the Louisiana State system has a great many more possibilities than our present one. If our school is to rank as one of the best in the entire country, it must have some of the best professors, some of the best equipment, and the best motivating ideas and purposes throughout its whole

being. The Students Supply Store is, I admit, only a small part of this institution; however, practically all of our students must of necessity use it. Therefore, let us try to make it a store run primarily for service, and naturally, it will become one of the best of such stores in the entire country.

MARSHALL J. GARDNER.

CLOYD APPLIES VERBAL LASHING TO FRAT GROUPS

(Continued from page one)

fraternity grades made a sharp rise, and grades of fraternity men fell just as sharply in the opposite direction. Since that time, averages have paralleled, showing, however, a slight decline from the normal during last year on the part of fraternities. "The difference between the grades of fraternities and non-fraternity men was greater at the end of last year than ever before," said Cloyd, "and if we ever hope to see our fraternities recognized as leading organizations, the grades must go up. We cannot expect freshmen to want to be fraternity men; we cannot hope to command the respect of parents of freshmen and their consent to their sons' joining fraternities; we can not expect the backing of the faculty so long as it can be shown that for a period of six years past grades of fraternities have been below the average men's group."

"I want some action to be taken on the low grades of fraternity men. It has been suggested that a rule should be made whereby a fraternity whose average was below a 'C' could not take in members that year, and that shall be considered if fraternities continue to stay so far below normal in scholarship."

Fraternity Finances

Dean Cloyd made a report on fraternity finances, saying that he had in his office many unpaid bills to fraternities, most of which "could not unfortunately not be paid." He said that debts were injuring the reputations of fraternities here, among the merchants of the city of Raleigh.

"Every time a fraternity falls down on its debts it injures other fraternities, and it is the duty of each fraternity to pay its debts promptly to guard the reputation of all."

The faculty Council has helped the fraternities to collect money owed them by ruling that a man whose debts to the house are over 60 days cannot enter this college until

Mae West

"Mae West" is a new addition among the notables of the State College campus. She recently received four "blessed events" who are reported as doing nicely. The youngsters will be distributed to friends who have promised to take good care of them as soon as they can leave their mother.

"Mae West" is a stray canine which Arnold Peterson, lover of dogs, recently adopted. He keeps her and the youngsters in the basement of 1911 and supplies them with food.

they are paid. It is up to the fraternities to cooperate in this.

Conduct in Houses

The group was told that a decided improvement in the conduct of members at their houses concerning women and liquor was necessary.

The Dean said that he was constantly being reproached for the "disgraceful situation in connection with the conduct in fraternity houses." He gave as an example the criticism of a member of the Board of Trustees two years ago, after which a thorough investigation was made. No one who censured the conduct of the houses could say directly what was wrong, and no one would implicate themselves in blaming the fraternities responsible. He said it was, however, the bound duty of each fraternity to see to it that its conduct was not open to censure.

"I know that drinking is going on in fraternities and that liquor is ever present in fraternity houses. If I had my way, I would give a college student caught drinking one of two choices. I would tell him to stop drinking and remain here or else continue, but leave college."

"When we take a man into this college we are trying to develop his brain and his power of reasoning. Whiskey deadens the brain. To preserve anything that's dead, put it in alcohol. If you want to kill anything that's alive, give it alcohol."

"There should be no place in a college for a man who drinks liquor. You who drink should have the 'guts' to stop it."

House Dances

Dean Cloyd said that the fraternities houses were not built to hold the crowds which attended their individual dances, and that he wanted them

to conform with the ruling made by the Council at the beginning of the fall term, allowing only two visitors from each of the other fraternities to attend the dance at the house of one fraternity, and excluding non-fraternity men from these dances unless they received invitations to attend.

He said that the attitude toward chaperones at the general fraternity dance must change, and that there should be more sociability between the men and their chaperones. He said that heretofore, in many houses, the attitude shown was that the chaperones were at dances merely to sit, and to occasionally pull their feet off the floor when a "couple" came traipsing by.

Committees have been set up by the Council on scholarship, finance, pledging and rushing, and although Dean Cloyd failed to mention it, a committee on the freshman cap has been set up.

Cloyd said that he wants suggestions regarding improvements to be made in fraternities' social, moral, and scholastic habits. He wants time and thought to be given to improvements. His suggested remedies are:

1. Clean up your chapter house both physically and morally.
2. Bring your fraternity standard up to a scholastic grade of "C" or over.
3. Elect your strongest members to the Interfraternity Council, and rule that the junior member succeed the senior as his fraternity representative. This will decrease the cost of honor keys presented to Council members each year, let alone the improvement in the strength of the Council.
4. Invite faculty members around for suppers and smokers.
5. Support campus organizations. (Cloyd mentioned specifically the failure of a large number of students to attend the State College Band concert last Sunday.)

"You get real joy in life when you live clean and straight," was Cloyd's closing remark. "Keep your fraternity on a high level."

Howard Stoney, president of the Interfraternity Council, asked for suggestions on the Dean's statements, but not one member of the fraternities offered to speak.

To Assist in Survey

Dr. Z. P. Metcalf, head of the department of Entomology and Zoology at State College, has been requested by Lee A. Strong, chief of U. S. Bureau of Entomology, to assist in the survey of the work done by the U. S. Department of Agriculture on the insect pests of cotton.

Radio Chicks

L. W. Hall and Tom Freeman, electrical engineering students, have discovered that a certain place in a radio has the correct temperature for hatching eggs.

Hall has secured four eggs and placed them in their musical incubator and is now waiting for further developments. The normal hatching period for eggs is three weeks.

It is hoped that the chickens, if the eggs hatch, will show signs of musical talent. For the next three weeks, it is evident that there will be a fowl time in the radio.

CITY TO PLACE LIGHTS AT DANGEROUS CORNER

Lights Will Be Placed at Intersection of Hillsboro and Oberlin Streets

The City of Raleigh will place a traffic light at the intersection of Hillsboro Street and Oberlin Road, as a result of a campaign by college officials and THE TECHNICIAN over a period of two years.

According to J. H. Brown, commissioner of public safety, the light will be installed within the next sixty days. A stop light was originally erected at the intersection of Hillsboro and Fendell Lane, one block west of the new location, but was removed after a short period of use.

Accidents resulting in two deaths have occurred in that vicinity during the past two years, as well as other serious accidents in which individuals have been injured more or less seriously.

Sophomore Assembly

Dean Brown of the business school will resume his review of current world events at the sophomore assembly, Wednesday. The comprehensive and deft manner in which Dean Brown treated current history last term was an enjoyable and absorbing part of the program.

Efforts are being made to obtain as speakers for next week's assembly Dr. Frank Porter Graham, president of the Greater University, and Hank Anderson, popular football coach.

HAGOP HAGOPIAN SENDS REGARDS

Former State Student Now in Egypt Writes to Editor Telling Of New Home

Hagop Hagopian, formerly a student at State College and now living in Alexandria, Egypt, has written a letter to the editor of THE TECHNICIAN concerning his new, yet old, home. Hagopian formerly lived in Egypt before coming to State College.

He received his Master's degree in 1933, and left for Egypt about the middle of last term.

The letter follows below:

"My dear Mr. Lassen: How are you getting along with your 'Technician'? Do you know I miss that paper for everything. Couple days ago I received two copies of the *Wataugan*. Was I happy? I thought I was again back in old State College, but alas, I am not, I am far, far away. It is for to see that sacred institution, I may be far away, there might be oceans and mountains, but my thoughts and my heart is over there with my Alma Mater.

I had a safe journey back home. I spent a day and a half in Naples, Italy. It's worthwhile to go and see the blue Mediterranean, to see the remains of the old Roman Empire. I had a good date in Naples with an Italian girl, although I didn't know Italian language, but never mind, I did get along fairly well with her, as you're aware that love doesn't need any language. Here in Egypt, I am enjoying a summer weather, no rain, no snow, always sunshine, so keep the sunny side up.

Please give my best regards to everybody and hello from the land of King Tut.

(Signed) Hagop Hagopian."

... SOCIETY ...

Rawlings Poole—Telephone 1440

Theta Kappa Nu

Members of the Theta Kappa Nu fraternity entertained a number of guests at an informal dance last Friday evening at their home on Hillsboro Street.

The rooms of the first floor were thrown en suite for the affair. The symbol of the chapter was subtly present in the pine bough decorations that were artistically placed about the suite. Delicious punch and cakes were served for refreshments.

Young ladies attending were: Misses Elizabeth Dunn, Mildred Thrift, Mary Graham Croom, Bervice Goodwin, Ola Day Uzzle, Mary Louise Parker, Edith Wyatt, Catherine Mason, Margaret Brewer, Mary Poyner, Eliza Lewis, Marie Bennett, Fay Allen, Edythe Bagby, Caroline Tucker, Evelyn Bagby, Catherine Noel, Elizabeth Park, Adelaide Goodwin, Catherine Martin, Dorothea Parker, Marion Eighme, Catherine Theim, and Margaret Kelly. Chaperons for the occasion were: Mr. and Mrs. Edgar Cumiskey and Mr. and Mrs. Charles Plybon.

Order of 30 and 3

Members of the sophomore honorary organization, Order of 30 and 3, will sponsor a dance, honoring Mr. and Mrs. H. W. "Hunk" Anderson, on Friday night February 23, from 9 until 12 in the Frank Thompson Gymnasium.

The dance committee has selected one of the state's best dance and entertainment organizations for the occasion. Hillery Thurston and his North Carolinians, featuring Margaret Hutchins, radio and television star, with Johnnie Jackson, golden voice tenor and a Rhythm Trio will furnish the music.

The admission price will be seventy-five cents. The proceeds from the dance are to be used for the benefit of the State College Golf Team, which has as yet not been able to procure sufficient funds to ascertain a schedule for this spring. This will be the first All-College dance to be held at State in the year 1934. All students of the college are cordially invited to attend.

The dance committee which is making the plans is composed of the following members of the Order: W. F. Greenwood, chairman; W. H. Sullivan, and Phil Kinken.

The chaperons who have already been selected are: Mr. and Mrs. J. S. Whitener, Dean and Mrs. E. L. Cloyd, Mr. and Mrs. Frank Reese, Mr. and Mrs. T. S. Johnson, Captain and Mrs. B. W. Venable, Mr. Polk Denmark, and Mr. Ed Hunsinger.

STUDENTS FAVOR JOHNSON AS ADMINISTRATION DEAN

(Continued from page one) position. I am also in favor of a State College man for this position."

Horace Cotton, member of the debating squad said, "Professor Johnson in my opinion should be appointed by Dr. Graham as dean of administration because he is more capable of the job than any of the other nominees."

Bill Braswell, president of the Y. M. C. A., stated, "I am very much in favor of President Johnson. His past record at this school indicates that he is the man for the position. He has not only taken an active interest in the affairs of the school, but in student activities as well."

Aaron Epstein, junior in Electrical Engineering, said, "The only man I can think of is Professor Johnson. He is a live-wire. In an engineering school things should be more progressive than in a cultural school, and Professor Johnson is the type of man we need here since he is very aggressive."

Howard Stoney, president of the Interfraternity Council and a senior in Business Administration, stated, "I think that Dean B. F. Brown should be made dean of administration. He would considerably raise the educational standards here."

Walter Jones, president of the senior class, said, "Professor Johnson has done more for this school in the last six months than all the other faculty, therefore he should be made dean of administration."

One student approached was in favor of a Carolina man for the position.

Students Get Jobs

Prof. W. H. Browne, head of the Electrical Engineering department announced yesterday that the Carolina Power and Light Company had given jobs to the following graduate students: R. C. Kirk, W. S. Smith, J. R. Salem, R. H. Cottrell, Jr., J. A. Lester, W. C. Cheatham, L. O. Garner, J. W. Bart, and J. F. Riddick.

Fifty-Cent Dance

The Raleigh Junior Woman's Club will entertain at another of its popular "four-bit" balls Saturday evening from 9 until 12 o'clock in the Virginia Dare ballroom of the Sir Walter Hotel.

The entertainment will be in the form of a Valentine dance and large numbers of students from State, Carolina and Wake Forest are expected to attend.

Sponsors for the dance have been chosen as follows: Miss Virginia Kennedy, Miss Pickette Kendall, Miss Margaret Vass, Miss Chesire Cox, Miss Mary Smedes Poyner, Miss Mary Helen Stewart and Miss Mabel York.

These dances sponsored by the Junior Woman's Club are among the most popular informal entertainments given during the year and are attended by many members of the younger social contingents from Raleigh and nearby towns.

The committee in charge of Saturday's dance is composed of Miss Arabel Cox, chairman, Miss Anderson York, Miss Davetta Levine, Mrs. Margaret York, Wilson and Miss Eula Beth Warner.

BARKER ATTACKS TECHNICIAN HEAD ON PAST STANDS

(Continued from page one) caps. That, however, is my own personal opinion. If Freshman caps are voted back by a majority of the students here, I will do my best to enforce the rules which bringing them back will necessarily entail.

The Editor of THE TECHNICIAN did not come to me for statements about the Freshman caps. If he had, he might have printed some of my supposed "quotations" correctly. However, the things which he printed and to which he attached my name, after warping the facts considerably, were not heard by the editor from my lips. Some one else told him what he "thought" I said. If my opinion is to be used by anyone, it ought to be at least first-hand information, not hearsay. I have never said that "Hunk" Anderson and his football team will take the place of the caps in fostering school spirit," as was stated in THE TECHNICIAN editorial of last week. What I did say was that with "Hunk" Anderson, a widely-known football coach, in charge of gridiron activities here, that phase of school spirit relating to athletics will naturally be on the increase. And the main light in which we hear Freshman caps mentioned is that of "School-spirit," referring no doubt to the above-mentioned phase. Contrary to the editor's opinion, I do realize that the discussed purpose of the cap is not entirely the building of school spirit, but school spirit seems to be the main issue when caps are mentioned. I do not see how school spirit can be gained or lost simply by donning or doffing a symbolic cap.

I was dragged over the coals by the editor for changing my mind concerning the issue of the Freshman caps. The editor of THE TECHNICIAN seems to be afflicted with the same disease. Wednesday afternoon he liked the letter to the Open Forum, concerning the Student Supply store, but he could not print it because it would hurt his business. Next, he would print it, after much persuasion, he could not, however, give an editorial on the subject. Thursday, at noon, he was neutral, stating that he was not taking sides on the matter. Thursday night, after consulting Mr. Ivey, he wrote an editorial referring to the Student Council's motion as "crack-brained." Sixteen members of the Council, repre-

They made Valentine's A SAINT...!

He knew how women love the little tributes of affection that keep Romance aglow!

J. J. FALLON COMPANY, Inc. Phone 4070 "We Grow the Flowers We Sell"

sented every school on the campus, and in this way being a representative section of the student body, did not seem to think that the motion was "crack-brained." The statement on the front page of THE TECHNICIAN: "Student Council brings charges against Students Supply Store" is altogether false. In no way did the council bring charges. It heartily endorsed a letter written by Marshall J. Gardner, protesting against the present system of operating the store. It is the purpose of the Student Council at all times to try to improve the conditions on this campus. It is an evident fact that the majority of the students here are not in accord with the present system of operating the store. Mr. Ivey should welcome an investigation in order to do away with this sentiment on the campus. With these ideas in mind, the Student Council endorsed the aforementioned letter.

The editor of THE TECHNICIAN was directly responsible for the inaccurate report of a fight between two students in the 1911 dormitory last fall which story then spread in various newspapers all over the state. According to THE TECHNICIAN, one of the students smashed a coca-cola bottle over another's head. This "brutal" attack with deadly weapons was serious enough to rate a "Box" in THE TECHNICIAN, in spite of the fact that there was no coca-cola bottle used in the fight. It is practically impossible to break a coca-cola bottle over a man's head without killing him. The father of one of the boys read of this "slaughter" in a Georgia paper and immediately telegraphed his son. It was only through the strong plea of the boy and his promise of good behavior that he was allowed to stay in school. Not only did this cause much confusion and trouble between father and son, but the reputation of N. C. State College was not helped one bit by this

exaggerated account. Following this, an outside committee met and made certain recommendations, the result being an editorial in THE TECHNICIAN in which the Student Government was referred to as "Shaky."

Student opinion, like public opinion, can easily be forced into certain directions by newspaper reports, but any student who thinks will see that this misrepresentation of campus affairs by the editor of a paper which "1,500 Students read" is hardly the way to "re-establish morale and rebuild tradition."

(Signed) Bill Barker.

CERAMIC SCHOOL GIVEN NEW PYROMETER OUTFIT

Device to Indicate Furnace Temperatures Presented by Instrument Company

The Department of Ceramic Engineering is the recipient of a complete recording pyrometer outfit donated by the Brown Instrument Company of Philadelphia.

The recorder is of the latest type and is equipped with red, white and green signal lights which indicate whether the furnace temperature is above, or below, or at the point desired by the operator, and the equipment is valued at \$250.

The recorder has been connected to a new rapid heating type electric furnace which is being given its "baptism of fire" by George A. Wells, Teaching Fellow in the department, who is investigating the solubility of aluminum in glass in connection with his Thesis.

It is anticipated that the results of this investigation will be of considerable value to the glass and enameling industries.

CHINESE SPEAKER TO GIVE LECTURE MONDAY EVENING

(Continued from page one)

essentials of the most complex situation in a few sentences make it a rare privilege to hear him speak or to converse with him.

For the past few weeks he has been speaking in the colleges of this country. On January 28 he spoke over the WEAF network on the Far Eastern Situation. This is his second visit to State College. The last visit was two years ago when he was on a tour of American colleges and universities.

Dr. Koo who is also an accomplished musician and author of a collection of Chinese Songs, will broadcast a musical program, sponsored by the State College Y. M. C. A., over WPTF, Monday, February 12, 5:20 p.m. This program will be a selection of Chinese Folk Songs played on the Chinese Flute.

Some of the folk songs to be played by Dr. Koo in this program have never been heard outside of China, either in their authentic form or in any adaptation. He has selected several, from a collection of songs he published, for this program. Each song has a simple melody and portrays the life of the Chinese people.

With his bamboo flute, an instrument which costs less than ten cents in China, Dr. Koo has enchanted small groups of friends during his present visit to America. This program will enable many, who have heard him interpret China in his speeches, to hear him interpret Chinese culture in a new way.

Several musical selections will be furnished before the lecture, by the St. Augustine's Choral Club under the direction of Professor L. T. Caldwell.

JOHNSON FOR DEAN

The appointment of a dean of administration for this institution during the illness of Dr. E. C. Brooks has become a paramount question not only to State College students but to the entire state as well.

With several nominees on Dr. Graham's list, one of which will fill the position, there arises the fact that there are as many candidates from the Chapel Hill unit of the Greater University as there are from State College.

While any of the men from Chapel Hill might fill the position just as well as any State College man, this is a job that should be filled by a representative from this school.

When we spoke to Dr. Graham regarding his appointment of the new Dean of Administration at State, Wednesday, we suggested that Prof. T. S. Johnson be given the post, and whatever the results may be THE TECHNICIAN still stands firmly by its opinion that the ability of Johnson to do justice to this position is above that of any other faculty member from State College.

Professor Johnson was Dr. E. C. Brooks' closest confidante and his right-hand man before Brooks' present illness, and he showed by his ability to take over the president's work that he was well fitted for the position he is now being considered for. Immediately upon the announcement of Brooks' collapse, he took things in hand, and CWA and PWA funds came pouring in. He is largely responsible for the negotiations which led to our having a new stadium, and it was through his efforts that the recent loan of \$14,300 from the PWA came through, to be used in the completion of the east stadium. Finances are but one of many issues which are involved in the administration of the college, but the fact that Dr. Brooks, who is known to have handled the appropriated funds of the college in making out the budget, very efficiently, has shown his endorsement of Johnson for the position by his past actions, proves that Johnson is known capable of doing the same.

His appointment by Graham as head of the Committee on Administrative and Clerical Set-up would make his appointment to the open office seem reasonable indeed.

Johnson is not only clever in the administration tasks, but he is very popular among members of the student body. He has taken part in Y. M. C. A. activities, he has spoken often before student groups, and he has been as one of them while here. The student attitude may be somewhat "immature" to suggest the appointment of a man to an extremely responsible position, as one professor stated, but a student's mind is not too young to know a good personality and a friendly soul who commands respect, without the slightest touch of conceit.

The attitude of students at this institution should have a great deal of bearing upon this appointment.

INTRAMURAL BOXING

The interest which was aroused last year in the intramural boxing matches will soon be revived, when students again begin to take up the gloves for a little "free-for-all" competition next week.

Coach Johnny Miller is going at the boxing matches in a manner to bring out the best material in dormitories and fraternities, and he hopes to make this year a banner year for the sport.

Last year a deep interest was aroused in the matches. One of the high spots was reached in the interfraternity competition, adding to the zest with which students entered into the sport.

Miller expects to run off the finals during the high school basketball tournaments, in order to give high school students an insight into what is being done for student sports here and at the same time draw an audience. By popularizing the sport in this way, Miller hopes for a peak of cooperation on the part of students.

Support your fraternities and your dormitories and turn out for the boxing matches.

FOR FRATERNITY BETTERMENT

A well-deserved literal "bawling out" by Dean Cloyd Monday night, fed to fraternity men together with ice cream and smokes was probably only one of many which will be the lot of fraternities on the campus from now until scholarship and conditions demanding repair are improved in houses. It was well that Dean Cloyd, who holds the office on the Interfraternity Council could administer the scolding and that it had not fallen to higher authority to give his attitude and his recommendations on changing present conditions.

The one outstanding fact that was presented is that the scholarship of fraternities is comparatively on an average, as low as it can drop and still be called by that name. It is positively a disgrace to any organization that takes upon it Greek letters to fall as low as the average fraternity grades have fallen. And it will be harder than ever before for fraternities to take in members next year if a sharp increase in average grades does not take place. Year after year, during rushing season, fraternities continue to boast in loud tones the qualifications of their present and past scholarship members, and in the meantime, grades continue to fall.

Many remedies have been suggested for the improvement of fraternity men's grades, and one has been to move a fraternity which has shown itself incapable of keeping up to the standard into a dormitory. Merely not allowing a fraternity to take in pledges until grades incline as the Dean suggested, will surely not improve standings of respective frats, for often pledges who are good scholars are very much in-demand, and a fraternity can often be pulled out of a hole by new men who are up in their grades and who may have much influence in the scholastic line.

Some of the fraternities were at a disadvantage under the fire of criticism in that some of their members which were up for censure were not present Monday night. A good many of those who did not attend were the very ones to whom the talk would have meant something.

Nothing was said about the alumni of chapters who are taking no active part in the functions at the houses but who are even working toward breaking the morale of members of a house by their actions. More blame can be laid upon these men than upon those directly connected with the fraternity. These men seem to have no regard whatever for the feelings of their student brothers, and carry on things in their own way, together with others of their kind and active unthinking members of the fraternity.

The fact that not one man in the group of over 250 men there stood up and gave a suggestion for the improvement of the fraternity situation shows that Dean Cloyd's viewpoints were absorbed, and the applause that greeted Cloyd upon completion of the scolding was enough evidence that the talk met with the solid approval of everyone there.

Cloyd's criticisms of liquor and women in fraternity houses was timely. We were told Wednesday that a certain professor was forced to move out of his home not long ago, mainly because of disturbances in an adjacent fraternity house and an attack on a girl which occurred in a car in front of that house one night, obviously by a member of the fraternity.

The Interfraternity Council carries many gold stars of achievement on its banner, but until fraternities can be made to cooperate in the purpose of the establishment of that body, scholarship will continue to decline in the fraternities, and liquor and fraternity houses will still be synonymous.

BRING BACK "THE CAROLINIAN"

Our attention has been called to the fact that The Carolinian, student newspaper of the Woman's College of the Greater University has been temporarily suspended for lack of funds. It seems that budget appropriations for the paper have not been forwarded, and that there are no finances forthcoming from that quarter for the time being.

The Carolinian took second place in the North Carolina Collegiate Press Association contest last year, and it was going far toward taking that or perhaps first place this year. We are sorry to see that what has apparently been narrowmindedness on the part of those faculty who are governing every policy of the paper has caused this situation.

The Carolinian has not been permitted to carry any form of cigarette advertising, and the largest part of the finances of a newspaper are paid for out of profits made on cigarette advertising.

Students at W. C. U. N. C. are allowed to smoke openly, and it is lamentable, to say the least, that the faculty adviser will not permit the student paper of a college in a tobacco-producing state to carry advertisements which would tend toward an increase in tobacco buying, and at the same time build up the trade of the fathers of many of these students, particularly when tobacco is responsible for many of them being able to attend school.

The Woman's College newspaper has many times been suspended because of editorials and other matters which interfered with small notions of some of the faculty there.

Freedom of the press has been infringed on too far at W. C. U. N. C., and we feel that interfering with the policies to as minute a degree as that faculty adviser is doing will mean a destruction of the best efforts of one who has the newspaper at heart.

The best interests of a good newspaper are at stake. It is hoped that the higher authority will see more clearly its mistakes and allow The Carolinian more leeway for its prosperity.

We granted there would be no come-back on this page to Barker's article. There will be one next week, however.

HERE AND THERE

By G. W. FORD

Something terrible has happened during the past week over in 1911 Dormitory. The worst part of it is that nobody seems to know just what really did happen. Most students believe that either a pole cat or a race horse made its way under the building and died. And are the fellows packing their trunks and leaving 1911 in a big hurry... they sure are... just like R. O. T. C. boys getting off drill. Isn't there something we can do about it? We should at least equip the janitors with perfume and sprays.

Elmore Walker was thumping a ride to town the other night while waiting for the bus to come along. A car stopped, Elmore hopped in and the driver said, "Where to?" It suddenly dawned on him that he had hauled a taxi... that's not all... it cost him two bits before he could get out.

I heard from Phil Sewell, who edited this column last year, this past Wednesday. Phil is down in Monroe now and is just after having his appendix taken out. Well, in these days, with the dollar being slashed as it is, even the best of us have to take a cut. But seriously, I'm sure that Phil would like to hear from some of his old friends. Just drop him a line or two at Monroe, N. C.

Several students have asked me what has become of "Little Doc" Morris. I was talking to Doc a few days ago and he told me that the store which he was in had been rented out from under him. He did not express his plans for the future but he said that he sure missed being with the boys.

The 1934 model stream lined cars have put ideas into some of the boys. "Friend" Rudy Bolling now steps to the front with a haircut on that same style.

Ed Thomas has been so engrossed in a certain Meredith student lately that he has lost track of the time. Just ask him what time it is when you get the chance... then you'll see what I mean.

I hear that Jimmy Geddie appeared in class last Friday morning in part of his Tuxedo. I am also reminded that there was a co-ed dance on Thursday evening.

At last some one has found the proper name for South Dormitory. In passing there the other day I noticed two signs nailed together hanging on the front of the said edifice... they formed the words "Rough Hotel."

Roller skating is becoming more popular around here every day... and night too. You see, some of the unexperienced ones go out at night to practice.

Take the golf team for instance; Pat Pastore tells me that roller skates will be part of their regular equipment in the near future. They can then make better time going to and coming from the course.

Then there was that group of students who received a few points in the art from Professor M. R. Rowland. He

Who Will it Be?

Fire Fighters

The problem of putting theory into practice was afforded the freshman forestry class yesterday.

Dr. J. Y. Hofmann was lecturing to this group on fighting fires, when the students noticed a fire in the college orchard. The professor gave permission to leave to any of the students who might wish to fight and four volunteered.

Fire trucks from the city came by one time while the fire was going on and then went back, but returned once more. The last trip was unnecessary, since the students had already extinguished the blaze.

took them out one night and showed them what to do and what not to do. It's a great sport... you ought to get in on it.

And speaking of skating, I just received an invitation to go ice skating in Jersey. I'm afraid that I can't, I wouldn't want to come back... not that I'm so wild about skating.

Before I stop let me tell you about the Beauty Contest. During the past week the votes have come swarming in like flies on a garbage wagon. But just to keep from drawing any hasty conclusions we are going to hold it over a week. By that time we ought to be able to count all the votes and announce the name of the most attractive co-ed.

I just heard from good authority that our friend Chester Seewald is working overtime collecting votes for some fair friend of his. If I remember correctly he was the one who told us that "Because of the commonplace-

ness of beauty, he was unable to differentiate, etc."

Suggested Readings

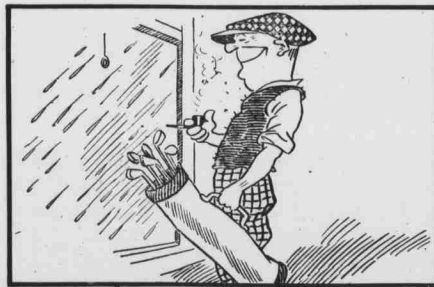

Each week a new list of books will be published as an aid to the student in selecting suitable reading matter. In this list will be included works of the foremost American and foreign authors.—Ed. Note.

- Diet and Personality, Jean Bogert.
- Bioessays, Munch.
- The Psychology of Domestic Animals, H. H. Duker.
- Termites and Termite Control, Charles A. Kofoid.
- The Injured Workman, G. F. Walker.
- Great Men of Science, Philipp Lenard.
- Autobiography of a Bird Lover, Frank M. Chapman.
- Fads and Quackery in Healing, Morris Fishbein.
- Civilization and Climate, Ellsworth Huntington.
- Discovering Poetry, Elizabeth Drew.

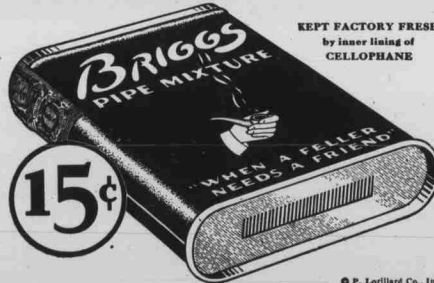

To Attend Retreat

A group of N. C. State students and faculty will represent State at the International retreat, which is to be held Sunday, February 11, 1934, at Chapel Hill. The retreat is being sponsored by the University of North Carolina Y. M. C. A.

"WHEN A FELLER NEEDS A FRIEND"

Placed on the market a year ago, this pipe mixture made many friends before it had a line of advertising. Aged in the wood for years... BRIGGS is mellow, packed with flavor, biteless! Won't you try a tin and let genial BRIGGS speak for itself?

In five places at once —by telephone

Conference telephone service—a new telephone convenience—enables a number of people far apart to talk together as freely as though gathered around a table.

This fosters quicker interchange of ideas in business—saves time and money—expedites decisions. For example: an executive wishes to discuss plans with his district managers. His telephone is connected simultaneously with each of theirs—all can talk, all hear everything that is said!

Through constantly developing new uses, Bell System service grows more and more valuable.

Boxers Expect Tough Fights In Matches at Duke Tonight

Bout Between Garner of State and Sides of Duke Stated to Be Feature

STATE RINGSTERS BEAT WASHINGTON AND LEE

Jack Fabri Defeats Eddie Jean By Only Technical Knock- out of Evening

State's varsity and freshman boxing team will journey to Duke University tonight for a meet which will decide whether or not State has a claim for the boxing supremacy of the Big Five. Stiff opposition is expected from Duke, especially in the lighter weights.

Coach Bill Beatty announced that the team was in about the best condition of the season thus far. The feature bout of the evening is expected to be between Charlie Garner of State and Sides of Duke in the 145 pound weight. Coach Pele Johnson, coach of the freshman team, stated that Frank Jolly, Jack Dunaway and Alex Regdon on the team have not lost a bout this year. The fresh team with these undefeated boxers have strong hopes of winning the freshman matches with Duke.

Washington and Lee Match

State varsity boxers had little trouble in turning back the Washington and Lee mittens, 6 to 2, last Saturday night at the Thompson gymnasium. One technical knockout, four decisions and two draws represented the State scoring. The Generals took only one decision.

Jack Fabri of State, smashing a vicious right to the side of Eddie Jean's head through two rounds, won by a technical knockout in the only bout that did not go the limit.

The summary:

115—Turner Bilsoly, State, took decision over Duncan Corbett.

125—Harry Redden, State, took decision over Wally Davies.

135—Leonard Peacock, State, and Lyle Moore of Washington and Lee, battled to a draw.

145—Charlie Garner, State, took decision over Eddie Mincher.

155—Jack Fabri, State, won on technical knockout after one minute of third round from Eddie Jean of Washington and Lee.

165—George Short, Washington and Lee, took decision over Frank Landis of State.

175—Jimmy Fletcher, State, and Louis Martin of Washington and Lee, fought to a draw.

Unlimited class: Kenneth Stephens, State, took decision over Charlie Mower.

Referee: Allen (North Carolina); Timer, L. M. Waring.

INTRAMURAL BASKETBALL PROGRESSING RAPIDLY

The intramural basketball games have progressed to the point where a percentage standing of the various teams can be given. The handball games are slightly more even, the Phi Kappa Taus, the Sigma Nus, the 3rd floor South and the Demolays each having won two games.

The standing in intramural basketball follows:

Fraternity Section			
Team	W.	L.	PCT.
Sigma Nu	2	0	1.000
Pi Kappa Alpha	2	0	1.000
Alpha Lambda Tau	2	0	1.000
Sigma Phi Epsilon	2	1	.666
Phi Kappa Tau	1	1	.500
Delta Sigma Phi	1	1	.500
Alpha Kappa Pi	1	1	.500
Kappa Alpha	1	1	.500
Alpha Gamma Rho	1	1	.500
Theta Phi	0	1	.000
Theta Kappa Nu	0	1	.000
Pi Kappa Phi	0	1	.000
Lambda Chi Alpha	0	2	.000
Kappa Sigma	0	2	.000

Dormitory Section			
Team	W.	L.	PCT.
2nd 1911	2	0	1.000
1st South	2	0	1.000
3rd South	2	0	1.000
1st 1911	1	0	1.000
Demolay	1	0	1.000
1st Watauga	1	1	.500
3rd 7th	1	1	.500

1st Dormitory	0	2	.000
A. I. C. E.	0	2	.000

TERRORS LEAVE MONDAY TO MEET VIRGINIA TEAMS

The Red Terrors of State will leave Monday to play teams of the Southern Conference in Virginia. This will be the only extended trip to be made by the State cagers. The schedule for next week is: February 13, V. P. I. at Blacksburg; February 14, V. M. I. at Lexington; February 15, Washington and Lee at Lexington; February 16, Virginia at Charlottesville.

Dr. Ray Sermon, coach of the State team, has not stated definitely what players he will take on the trip but it is probable that he will select Leroy Jay, Woody Lambeth, and Charlie Aycock, forwards; Stuart Flythe and Milan Zori, centers; Captain Bob McQuage, Ray Rex, Chub Womble, and W. L. Smith, guards.

Retained

Frank Reese, former Notre Dame player and backfield coach at State College since the fall of 1931, who will continue as the backfield coach for the 1934 Wolfpack team. Reese's athletic council upon recommendation of Hank Anderson, new head coach at State. Reese's contract will expire January 1 of next year. The council took no action on the hiring of Ed Hunsinger as end coach under Coach Anderson.

FRESHMAN BASKETEERS SCORE TWO VICTORIES

The State College freshman quintet played two games during the past week and won both of them. The techlets beat the Wake Forest yearlings 34-18 and the Raleigh N. B. C. team 33-22.

The Techlets have lost only one game this season and in yearling circles it is undefeated. Sam Womble and Chase starred in both games for the Techlet team. Womble was high scorer in the games with a total of 27 points. Womble, State freshman forward, is a neat player and is setting the pace for caging points in yearly circles of the Big Five.

State Fresh	G.	FT.	TP.
Chase, lf	4	3	11
Gerlock, rf	3	0	6
Chilmon, rf-rb	1	1	3

Non-scoring subs: N. B. C.—Rogers, State—Cooke, Cooper, Campbell. Referee, Avera (State).

BOXING TO BEGIN IN INTRAMURALS

Miller Plans to Make Season As Interesting As Possible to Student Body

Intramural boxing will come to the fore at State College next week according to plans made by Johnny Miller, director of intramural activities.

Miller plans to make the matches even more of an event than they were last year, and he said that intramural boxing aroused more interest last year than any other intramural sport.

Preliminary bouts are to be held in the auxiliary gymnasium February 15 and 16 at 7:30 p.m. Managers for the various teams should be entering their teams at once, according to Miller. There will be entries in the 115 pound, 125 pound, 135 pound, 145 pound, 155 pound, 165 pound, 175 pound, and unlimited weight classes. Entries will be allowed four pounds over their weight classification, that is a fighter weighing 119 pounds could still be entered in the 115 pound class.

Miller plans to hold the finals of the boxing in the main gymnasium during the high school basketball tournament which will be in the early part of March. The sports director said that last year over 600 spectators tried to crowd into the auxiliary gym for the fight finals, and this year he wanted to have plenty of space for the spectators.

There were several feature bouts in the intramural fight fest last year. Perhaps the chief was that between Huston, a Pi Kappa Alpha, and Henry of the Sigma Nus. The matches were the principal topic of conversation at the college for several weeks last year. It is expected that fully as much interest will be aroused this year.

RED TEAM WINS TWICE IN INTRASQUAD GAMES

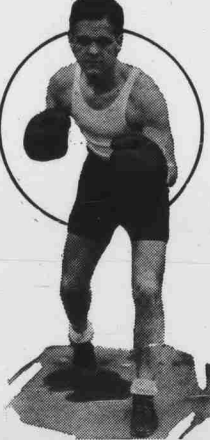

The second series of intrasquad games in State College's football camp Saturday found the No. 1 Reds chalking up another victory. The first-stringers of the red-jersied corps romped to a 46-0 decision over the No. 1 Greens. However, in the other game of the weekly battling the second-string teams played a scoreless draw.

Last Wednesday Coach Anderson held his first mid-week intrasquad game. The red-shirted warriors won 12-0. Red McAdams and Howard Bardes scored the touchdowns, the former on a 65-yard run and Bardes on a 30-yard run.

BIG FIVE BASKETBALL

Team	W.	L.	Pct.
State	5	1	.833
Carolina	4	1	.800
Duke	3	1	.750
Wake Forest	1	5	.167
Davidson	0	5	.000

Undefeated

Turner Bilsoly, co-captain of N. C. State's varsity boxing team, who is undefeated as a boxer this season. He fights in the 115 pound class. Bilsoly, a Raleigh boy, has taken decisions over boxers from University of South Carolina, University of North Carolina, University of Georgia, and Washington and Lee.

STATE SWIMMERS LOSE TO VIRGINIA TANKMEN

State Tankers Lose in Close 43-41 Score for First Defeat of the Season

State's swimming team lost a close decision to the University of Virginia, winners of the last year's Southern Conference swimming meet, last Friday night. The meet was undecided until the last event, which Virginia won, to give them the long end of a 43-41 score.

Virginia took the first three events, and then State forged ahead with the points won by Jim Westbrook, star sophomore, who won the 50, 100, and 220 events. State managed to hold a slim one point margin until the last event, the medley relay. Virginia took this event handily, Captain John Montague of the Virginia team finishing a half length of the pool ahead of State's man.

State was Virginia's first conference rival of the season, and this victory gives the Old Dominion team a clean record thus far in the season. This was State's first defeat, the Red and White tank team having defeated Duke and the Fort Monroe Army Team. The State Swimming team has no meets scheduled for this week, but Coach Joe Moore announced that in all probability, there would be a competition between the varsity and freshman teams tomorrow afternoon.

State and Carolina Battle In Feature Tilt Tomorrow

RED TERRORS WIN TWO CAGE MEETS

Wake Forest and Davidson Fall Victims to Strong State College Quintet

Winning 33-19 over the Wake Forest cagers last Friday and taking the Davidson College quintet 26-26 on Wednesday night, the Red Terror basketball team of State now has a record for the season of nine wins and one loss. The lone loss was to the Duke cagers who have been defeated by the Carolina quintet. State cagers defeated the Carolina team 34-30.

The Terrors of Coach Ray Sermon lost little time in asserting their superiority over the Deacon cagers. State took an early lead, topped the Deacons 18 to 10 at the half, and stretched the margin in the final 20 minutes. Leroy Jay, State forward, led the night's scoring with a total of 10 points, while Joe Mulhern topped the Deacon scorers with six. Woody Lambeth, Stuart Flythe and Bob McQuage bore the brunt of the brilliant defensive game State exhibited. Ray Rex, State guard, was outstanding in his floor work, and his ability to hit the basket.

Davidson Game

The Davidsonians were no match for the State varsity, the score at one time in the first half being 20 to 2 in the Terrors' favor. Coach Sermon used eight relief men who played nearly half the game.

From start to finish the State guarding cagers found it difficult to ever get a short shot. Time and again McQuage, Jay, Aycock and Zori broke up Davidson advances and took the ball to carry it down the court and net a State score.

Victory Over Phantoms Would Give Terrors Secure Grip on Big Five Title

CONTEST TO BE TOSS UP BETWEEN RIVAL TEAMS

Freshman Teams of Two Schools To Battle in Preliminary Engagement

Tomorrow night at Chapel Hill, the Red Terror basketball team of State College will meet the Carolina cagers in what is termed the "feature battle" in basketball for the Big Five College teams. The game is scheduled to start at 8 o'clock in Carolina's Tin Can.

Freshman teams of State and Carolina will battle in a preliminary game. The State freshmen are undefeated in yearling circles and one of its wins is over the Carolina Tar Babies. However, the Tar Babies have improved considerably and may give the Techlets a tough tussle.

The battle among the varsity teams at the Hill Saturday night is very much of a toss up, and will bring together two similar teams. State and Carolina have no particular player around whom the teams' attack is formed, but play is centered in every player.

Captain Bob McQuage and Ray Rex have borne the brunt of State's guarding this season as have the McCachren brothers for Carolina. Jim McCachren is captain of the Tar Heels and his brother, Dave, is a sophomore.

Stuart Flythe, State's sophomore center, will spot Ivan Glace several inches of height and reach, but the State youngster with his unusual amount of spring, will keep the Carolina center hustling.

The forward play of State has been led by Leroy Jay, Woody Lambeth and Charlie Aycock. Jay is leading State's scoring and tomorrow night, will fight for top scoring honors with Virgil Weathers, Carolina's ace, loopster. Long and Stuart Aitken round out Carolina's quota of fine forward material.

The game tomorrow night will have a decided bearing on the leadership in Big Five standing. If State wins, the Terrors will have a secure hold on first place, while if State loses, the team will go into third place in standing and Carolina will move up into first place. Duke will remain in second place.

In the first meeting of the two schools this season, State won, 34-30, with a great second half rally.

They Satisfy—

You know, that means something

By "balancing" 6 different types of home-grown tobaccos—
By adding just the right amount of the right kinds of Turkish—
By blending and cross-blending—
"welding" these tobaccos together—
We believe we have in Chesterfield a cigarette that's milder and tastes better.
"They Satisfy" has always seemed to us the best way of describing what we mean by this milder better taste.

Chesterfield

the cigarette that's Milder • the cigarette that TASTES BETTER

College Soda Shop Holds Formal Opening Tomorrow

Establishment to Offer Free Refreshments to All State College Students

SOUTHERN DAIRIES MAN TO GIVE AWAY PRODUCTS

Mechanical Engineering Student Is Assistant Manager of Up-to-Date Store

The formal opening of the College Soda Shop will be held tomorrow from 12 o'clock noon until closing time, with free refreshments being served to all State College students.

Bennie Keith, former manager of the Loft Candy Stores, in Washington, D. C., arrived here last week, and made a long-term lease with Dr. W. C. Riddick, owner of what was formerly Little Doc Morris' store, to open a new up-to-date College Soda Shop. Keith is extending a cordial invitation to the entire student body of State College to be present at the formal opening Saturday.

R. C. Brake, representing Southern Dairies, is aiding in the introduction of the store to the public, by giving away his products to guests.

Forrest Kelly of Raleigh, in the Mechanical Engineering department at State College will be assistant to Mr. Keith. Kelly was the originator of the name "College Soda Shop."

According to Keith, the College Soda Shop carries a complete line of college supplies, stationery, ink, pencils, shaving supplies, boxed candy, popular brands of medicines, magazines and newspapers. The shop has a well furnished soda fountain, supplied by Southern Dairies Ice Cream Company, with many and varied flavors of ice cream, hot chocolate, coffee, sandwiches, and a large number of drinks popular on the market. The counter is well supplied with assorted candies.

Beauty Contest

The Technician Beauty Contest which was scheduled to close this week, will be held over another week so that all ballots not yet cast might come in.

Those leading in the contest are Hazel Bescham, Sarah Holman, Ernestine Holland, Lela Maynard, and Elizabeth Allen. Virginia Tate also received quite a number of votes, but is trailing the others.

Any who have not yet cast their votes will find the ballot in last week's Technician. The ballots are to be placed in the box in the Students Supply Store or on the Technician door.

STATE AND WAKE FOREST STAGE DEBATE TUESDAY

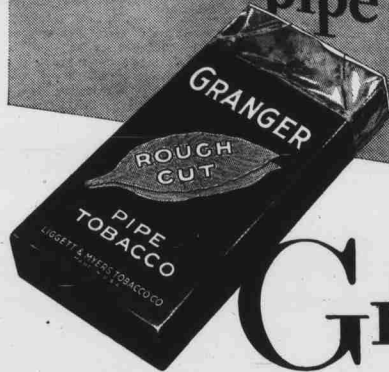

The State College debate team met the Wake Forest team at Wake Forest Tuesday night in the second of a series of practice debates. As they were practice debates, no decisions were made. Both the negative and the affirmative sides were defended by both teams. The query was, "Resolved, that the powers of the president should be given a substantial increase as a settled policy." Those taking part in the debate on the State team were Dwight Stokes and Horace P. Cotton for the affirmative; and R. L. Batts, Dwight Stokes, Frank Busbee, and H. B. Hines, Jr. for the negative.

The next debate with Wake Forest will be held at Pullen Hall next Tuesday night, when the same query will be defended. Both the regular system of debate and the direct clash system will be used.

The negative team will meet Campbell College in a practice clash at Campbell College tomorrow.
