

# Community Center Proposal Gets Nationwide Approval

Prof. C. M. Heck Says Inquiries Received from 35 States On His Proposal

WOULD ASK FEDERAL AID FOR RURAL PARK AREAS

Federal Authorities Show Interest By Asking for Complete Data for Plan

By J. W. LAMBERSON  
A recent proposal calling for the expenditure of Federal relief labor and money for construction of health-education park centers in rural counties of the United States, has gained nation-wide approval.

Use of Federal money for development of such centers was advocated by C. M. Heck, professor of physics at North Carolina State College.

According to Professor Heck, inquiries have been received from 35 states concerning development of the Centers, and at present 55 counties in North Carolina are actively engaged in choosing suitable sites for community centers.

Applications for their construction are being placed with CWA authorities.

Although reports from Washington state that the CWA work will be disbanded after May 1, indications are that the CWA or some similar agency will continue to work after that date on such projects as recreational centers and the enlarging and improving of consolidated rural schools.

Professor Heck who has planned and personally financed the move to secure the county recreational centers stated, "it was the Federal Government that actually forced the idea of part time work and shorter working weeks upon the American people through the CWA, NRA and other agencies; therefore, the government should take the initiative in providing a nation-wide program for the recreation and leisure time of its citizens. Our work on this project has been stimulated by the firm conviction that the Federal Government should assume the function of guiding and aiding a coordinated adult recreation-educational program over the country."

Authorities in Washington have indicated their interest in this project by asking for complete data on the favor with which the program has been received in North Carolina and other states. Detailed descriptions were also requested by Washington authorities.

A Health-Education Center as outlined in this movement comprises: a large artificial lake to draw the county together for fishing, swimming, boating; a larger rustic structure to be built around the lake for housing rural life clubs, such as the Grange, Home Demonstration Clubs, Parent-Teachers Associations, School Masters Clubs, libraries, and museums; camps, picnic grounds, and an athletic field; and provides for the construction of other buildings for county health work as they are needed.

Detailed descriptions of these centers, accompanied by plans and drawings, were mailed out the last of December to county, state, and school officials in practically all states west of the Rockies.

Of the 35 states that sent requests for additional information concerning the Centers directly to Professor Heck and also to Washington, the states of Virginia, Mississippi, Missouri, North Dakota, and Alabama have displayed the most active interest and have progressed more toward forwarding similar programs in their states.

The North Carolina project was begun last November by Professor Heck who first secured the approval of the CWA administrator and took his proposition to Washington Authorities. They were so interested that they called in the Federal Extension leaders to make plans for a nation-wide adoption of a similar plan.

In North Carolina, in less than a month after this project was begun, over half of the counties had offers of sites for the Park Centers as donations and had committees of representative leaders preparing the park projects. Many of the applications, completed at the expense of counties and committeemen, are now on file awaiting the allotment of labor and funds by Mrs. O'Berry, State CWA Administrator.

Four North Carolina counties, Guilford, Montgomery, Johnston, and Northampton, have made extensive plans at considerable expense and are now impatient to begin these health-education park centers within their boundaries.

It is the hope of Professor Heck that his Rural Community Centers will be used in connection with the good road movement now in progress in North Carolina and other states, and give rural people suitable places where they may go over these roads to gatherings for social, recreational, and educational purposes.

Lone Man Co-ed Wesley College, with its lone co-ed (a man) is offering to its girls a course in automobile mechanics in which they may satisfy their curiosity, and requirements for graduation at the same time.

# NEEDY STUDENTS GET FEDERAL AID

Shepherd Explains That FERA Provides Funds Only for Needy Students

"The purpose of the recent funds granted the college through the Federal Emergency Relief Administration is to relieve those students who are in college under circumstances which make it absolutely necessary for them to have this financial aid to pay their college expenses," said M. L. Shepherd, director of self-help at State College, yesterday.

The purpose of the fund has been impressed upon each applicant. He is required to sign an affidavit stating that he must have federal aid in order to pay college expenses, and he must also state that his earnings will be applied to the necessary college expenses. He must, further, sign an agreement to faithfully perform the duties assigned to him by the departmental head for whom he works. If the student does not keep this agreement, his certificate will be revoked.

"The fund has been distributed," said Shepherd; by weekly allotments throughout all departments of the college. Each department has a constructive program of employment planned, such as improving the instructional equipment. Much clerical and research work has been assigned to eligible and capable students.

"One has only to observe the many worthy employment projects submitted by the department heads, to see that the reduced appropriations for State College by the last State legislature were so low that it made impossible, the proper maintenance of the equipment. Hence the FERA fund will not only serve the primary purpose of helping the students financially, but will also render the departments more efficient in instruction."

The committee administering the FERA funds for State College, has succeeded in formulating a policy that makes the availability of employment extremely practical for the eligible student. The students who have been issued certificates should be guided by the following points, according to the committee:

1. Decide the type of work for which he is best qualified.
2. Ask a job of any instructor he prefers. (Advantageous in that he becomes better acquainted with his instructors.)
3. The student should remember that he is a college man and should keep all promises made by him.
4. If the budget of the professor for whom he works is not large enough to employ all of his allowed time, he may seek additional work with other professors.
5. The student must be sure not to take an indifferent attitude toward the FERA employment. All legitimate complaints against the student's work will be recorded, as well as a complete record of his work.
6. Consult the Self Help Director when any question arises concerning the FERA employment.

**Professor's Mother Dies**  
The death of Mrs. Catherine Grimshaw, mother of Prof. A. H. Grimshaw, of the Textile School, occurred early yesterday morning at her home in Somerville, Mass. The funeral will be held tomorrow afternoon.

# FRESHMEN WISH RETURN OF ABOLISHED HEADGEAR

Fresh Officers State That Class is in Favor of Return of Head Adornment

Freshmen made known their desire to bring back the custom of caps for members of their class at their meeting last Friday.

Despite the denunciation of freshmen caps by upperclassmen, the sentiment of the class is still for the return of the headgear to State College campus. Upperclassmen speaking against the caps were Bill Braswell, Bill Barker, W. P. Kanto, Norman York, and Walter Jones. Brown and Garris were the freshmen who spoke for their class.

Showing that they would not be convinced by the imposing array of upperclassmen, the freshmen, with Brown as spokesman, expressed the opinion that the scrapbook which Barker produced to prove his point against the caps could really be shown to be favorable toward them.

**Graham in Washington**  
President Frank Graham of the Greater University, A. T. Allen, State Superintendent of Education, and Felix Gissette of Chapel Hill are appearing in Washington now before the House Committee on Education to show that North Carolina needs Federal funds to carry on her schools.

# BROOKS RETURNS TO OLD POSITION

No Dean of Administration to be Named as State College Prexy Takes Reigns

No dean of administration for State College will be appointed, since Dr. E. C. Brooks has recovered sufficiently from his illness to return to his duties as head of the college.

Dr. Frank Graham, president of the Greater University, was authorized by the Board of Trustees to appoint a dean of administration during the illness of Dr. Brooks or until Dr. Brooks was able to return to his duties. Dean W. G. Riddick, head of the Engineering School, at the request of Dr. Graham served as temporary chairman of the faculty until Dr. Graham could consult individually with the State College faculty as to their views. President Brooks returned to his duties about two weeks ago.

Much interest was aroused in speculating who Dr. Graham would appoint to fill the place of Dr. Brooks about a month ago. Several State College professors were prominently mentioned for the post as well as men from the Chapel Hill unit and from outside the Greater University. The entire situation put Dr. Graham in a vulnerable position, since it was his duty to appoint the officer. The return of Dr. Brooks to his old position has cast an entirely different light on the picture, and has pulled Dr. Graham out of a tight spot.

# A Tree

Over 100 students were entertained between their 8:00 and 9:00 o'clock classes Thursday morning by a group of CWA workers who were busy felling the large tree at the North end of the Civil Engineering building.

When the 9:00 whistle blew, the tree was ready to fall; so students began to gather from everywhere around to watch operations. Two men sawed while six negroes fugged at a rope tied to the upper branches of the tree. The six darkeys found the odds against them, and since the 9:07 whistle was about to sound, a score of students bent their endeavors to aid.

With twenty husky students at the other end of the rope, there was nothing else left to do for nature's monarch but to bend and fall with a crash. At the same time the whistle blew, and 100 students were late for their classes.

# PROF. JOHNSON TO SPEAK AT "Y" COUNCIL MEETING

The sophomore council of the Y. M. C. A. will meet next Wednesday at 7:30 p.m. instead of 6:30 as it has done heretofore.

Prof. T. S. Johnson will be the discussion leader Wednesday. His subject will be "What are the Intellectual Qualities of the Ideal Man?"

All sophomores are being urged to attend the meeting.

# SCHAUB GIVES SMOKER TO AG UPPERCLASSMEN

Juniors and Seniors Fill Out Score Card on Professors of Agriculture

Seniors and Juniors in agricultural education were entertained by Dean I. O. Schaub, head of the agriculture school, at a smoker Monday night. Of the 137 juniors and seniors enrolled

in agricultural education, 87 were present. Much interest was shown by the students in filling out score cards on their various professors. The results of the cards will be known soon. The filling out of cards or the grading of professors is being carried on by Alpha Zeta in an attempt to improve the methods of teaching and the curricula of the agricultural school. The work is being directed by Dean Schaub.

# ONLY THE CENTER LEAVES FOR Luckies

- 1 Luckies do not use the top leaves ... because top leaves are under-developed ... they are not ripe ... They would give a harsh smoke.
- 2 Luckies use only the center leaves of the finest tobacco plants ... because the center leaves are the mildest, tenderest, smoothest.
- 3 Luckies do not use the bottom leaves, because bottom leaves are inferior in quality. They grow close to the ground, and are tough, coarse and always sandy.

This picture tells better than words the merit of your Lucky Strike. Luckies use only the center leaves. Not the top leaves, because those are under-developed—not ripe. Not the bottom leaves, because those are inferior in quality—they grow close to the ground and are tough, coarse and always sandy. The center leaves are the mildest leaves, the finest in quality. These center leaves are cut into long, even strands and are fully packed into each and every Lucky—giving you a cigarette that is always round, firm, completely filled—no loose ends. Is it any wonder that Luckies are so truly mild and smooth? And in addition, you know, "It's toasted"—for throat protection, for finer taste.

Lucky Strike presents the Metropolitan Opera Company Saturday at 1:50 P. M., Eastern Standard Time, over Red and Blue Networks of NBC. Lucky Strike will broadcast the Metropolitan Opera Company of New York in the complete Opera, "Lucia di Lammermoor."

NOT the top leaves—they're under-developed—they are harsh!

The Cream of the Crop "The mildest, smoothest tobacco"

NOT the bottom leaves—they're inferior in quality—coarse and always sandy!

Always the Finest Tobacco and only the Center Leaves

### FORSTER SPEAKS ON AAA TUESDAY

#### Says Major Purpose of AAA to Control Production at Delta Sigma Pi Meet

Dr. G. W. Forster discussed the operation and policies of the Agricultural Adjustment Administration Tuesday evening at an open meeting held by Delta Sigma Pi, international commerce fraternity. He sketched rapidly the development of the farmer's economic problems from the beginning of the nation to the close of the World War and discussed the remedies which had been applied or suggested.

Dr. Forster stated that the major objectives of the AAA was not to reduce production but rather to control production so that the farmer would obtain prices high enough to maintain a satisfactory standard of living. Therefore, all efforts to accomplish this has met with failure or at best with mediocre success. The present administration through its Agricultural Adjustment and monetary program is actually accomplishing its objective. He stressed, however, the necessity of complete and whole-hearted cooperation on the part of the farmer with the administration in order that the program of the administration would be completely successful. "No time in the history of our country has the farmer had such an opportunity to improve his economic conditions," said Dr. Forster.

The address was not entirely laudatory but was replete with biting criticisms. In closing he stated that the program of the administration would probably have to be changed especially the feature of paying the farmers for making the necessary adjustments in production. He was of the opinion that this could be accomplished through the organization of farmers under the direct control of the federal government. Such control would be, in essence, a monopoly. But the speaker was of the opinion that in case of cotton and tobacco especially this type of control could be made effective by the enactment of additional laws strengthening the present Agricultural Adjustment Act.

Dr. Forster also outlined the problems and difficulties encountered in writing a production contract. As he was one of the advisers of the administration and wrote the tobacco contract, he was in a position to give some very interesting side lights on conditions in Washington.

### STATE STUDENTS PASS SENIOR SWIMMING TEST

#### Red Cross Life-Saving Unit Gives Exam in Which 21 Students Pass the Course

The Red Cross life-saving unit at State College recently concluded an examination at the Thompson pool in which 21 students passed the senior life-saving course.

The examinations are given twice during the school term. During the spring term another examination will be given those students and athletes who were unable to take the winter term exam.

The examiners were Dr. C. Piaster, Winston-Salem; C. C. Stott, Wendell; and J. E. Porter, Raleigh. Assistants to the examiners were W. L. Dixon, Charlotte; C. T. Prout, Jr., Owings, Md.; and T. N. Adams, Raleigh. Beginners in swimming are especially urged to attend the next course.

Students passing the senior course this term were: R. E. Wooten, Cameron; H. P. Mullen, Lincolnton; W. B. Powell, Wallace; G. J. Kwehns, Jersey City, N. J.; H. F. Amidon, Mt. Lakes, N. J.; R. F. Wayant, Asheville; W. C. Smith, Wellesley, Mass.; L. G. Tucker, Livingston, Va.; I. M. Porter, Raleigh; F. Permuter, Newark, N. J.; R. Cohen, Brooklyn, N. Y.; L. S. Sarin, New Bedford, Mass.; C. F. Russell, Hubert; E. A. Cohan, Brooklyn, N. Y.; J. Z. Rosenstein, New Haven, Conn.; J. A. Avery, Palmerton, Pa.; R. Garrobrakt, Wilmington; H. C. Williams, Cofield; W. R. Mann, Whitaker; A. C. Kimrey, Raleigh; I. O. Garodnick, Newark, N. J.; and C. R. Bayne, Plainfield, N. J.

### SIX STUDENTS PLEDGED TO AGRICULTURE FRAT

#### Alpha Zeta to Conduct Informal Initiation Saturday and Formal Monday Evening

Six men were pledged to Alpha Zeta, honorary agricultural fraternity, at the regular meeting of the fraternity last Monday night.

The men pledged were: A. B. Crow, J. D. Roberts, W. C. Aiken, S. C. Winchester, G. R. McCall, M. A. Culp, and S. K. Hudson. The fraternity plans to conduct the informal initiation Saturday night, followed by the formal ceremonies the following Monday night.

To be eligible for membership in Alpha Zeta a student must be in the upper two-fifths of his class scholastically, have taken part in some college activities, have a pleasing personality, and be of good moral character.

At the present there are twenty-one members in the local chapter. The officers are D. M. Whitt, chancellor; A. F. Hoffmann, scribe; C. D. Thomas, censor; Olaf Wakefield, treasurer; and J. L. Ritzel, chronicler.

A news letter is in progress, which will be sent to alumni members. A dance and a banquet are now being planned to be given this spring with the alumni of the fraternity as the honor guests.

### Chicks Progress

The radio chicks of Tom Freeman and "Red" Hall are developing rapidly, contrary to the general opinion that they would die a premature death.

The chicks are now over a week old, having been hatched on February 22. Freeman stated that the chicks have been named Dorothy, Clara, and Marie, but he was afraid that Dorothy's name would have to be changed to Sam, Jim, or some other male name.

### CHEMICALS MAKE PLANS FOR ENGINEERS' FAIR

#### Williams, Stone, and Prof. Grove Talk at Meeting of A. I. Ch. E. Tuesday

Making plans for the Engineers' Fair was the chief topic of discussion of the local chapter of A. I. Ch. E. at a meeting Tuesday night.

C. A. Williams, chairman of the fair committee announced that a prize would be given for the winning idea on making the spot for the Chemical Engineers' Fair, which is to be held the 5th, 6th, and 7th of April. This prize is to be a large cake. P. E. Stone, President of the Society, announced that a bulletin, containing a history of the department and a list of the exhibits, would be mimeographed and distributed to visitors as they entered the building during the fair. Bill Braswell was appointed chief guide and with the help of Van Shaping would welcome the guests at the door. Locke Webb, chairman of the fair committee, stated that many of the exhibit rooms had not as yet been taken and work on some of the apparatus must be started immediately. A list of the exhibit rooms are as follows: fuel room, water analyst, detonation room, cellulose department, glazes, individual exhibit room, dark room, vegetable oils, glass blowing and several others not definitely decided on as yet.

Professor C. S. Grove made a short talk in the form of a plea that all the Chemical Engineers get busy and win the prizes for the best float and the best individual exhibit.

### STATE DEBATERS DEFEAT WAKE FOREST LAST NIGHT

#### Team Composed of Batts and Busbee Win Over Baptist Team Last Night

The State College debate team composed of R. L. Batts and Frank Busbee, defeated the Wake Forest team in a decisional debate last night at Wake Forest. The question debated upon was, Resolved, that the powers of the president of the United States should be given a substantial increase in powers as a settled policy.

The State team upheld the negative side of the question, winning by a 2-1 decision. The team under the direction of Prof. E. H. Paget, forensic coach, has worked intensely on the question, and look forward to a highly successful season this year. Other members of the team are Dwight Stokes, Horace Cotton and J. R. Hollifield.

Wednesday night the squad met the debate teams from Campbell College in a number of non-decisional debates.

### JUNIORS DISCUSS PLANS FOR INTERCLASS DANCE

#### Class May Sponsor Stunt Entertainment by Women's Colleges to Raise Funds

How to defray the expenses of the Junior-Senior dance was the problem which the junior class discussed at its meeting Wednesday.

Two plans were suggested to raise money for the dance, and both were passed by vote. The first plan calls for a stunt entertainment to be put on by the three women's colleges of Raleigh. Each college would put on a stunt under the plan, and the best stunt would be awarded a prize. Admission would be charged to these.

The second plan to raise the necessary funds is the direct contribution of one dollar by members of the junior class to be paid on next registration day.

May 12 was set as the date for the Junior-Senior dance.

### TEXTILE SENIORS VISIT INDUSTRIES

#### Twenty-nine Make Annual Inspection Tour of Large Cotton Mills in Region

Twenty-nine seniors in the Textile School made an inspection trip of several cotton mills of this state and Virginia during the past week. The party was accompanied by Dean Thomas Nelson, who has directed textile education at State College for thirty years.

The purpose of these trips, which are made annually, is to supplement the student's classroom instruction with observations of the industry in actual practice.

The party visited the May Hosiery Company and several plants of the Burlington Mills located in Burlington; the Proximity Print Works and the Proximity Mills in Greensboro; several plants of the Carolina Cotton and Woolen Mills located in North Carolina and Virginia; the Fairbairn Mills and the Granite Finishing Works in Dan River; and the Riverside and Haw River Mills in Danville, Va. These plants manufacture and finish a wide variety of textile products.

At every plant visited, prominent officials of the mill conducted the party through the various departments and pointed out the things that are of the most value to young men who are soon to become an integral part of America's largest industry.

The students were signally honored by two of the companies which they visited. The Carolina Cotton and Woolen Mills entertained them at dinner in the Broad Street Hotel at Martinsville, Virginia. Luther H. Hodges, general manager of this company, who had accompanied the party through the plants at Leaksville and Spray, was unavoidably detained by business engagements, so J. F. Wilson, manager of the Fieldale plant; J. H. Ripple, superintendent of the same plant, and Mr. Lindsay of the general office at Spray, acted as hosts for the company.

At Danville, the Riverside and Dan River Mills entertained the students at dinner in Hylton Hall. Here the students were honored by the company of President R. R. West, Vice President George W. Robyson, and Superintendents Boland, Clark, Becher, and Chase. West and other members of the party made short talks to the students.

At every plant visited the party found graduates of the Textile School filling responsible positions, and these men joined with other officials of the plants in making the visit both pleasant and instructive for the students.

Students who made the trip were: W. A. Blackwood, B. W. Brooks, K. P. Brown, J. T. Cashion, L. G. Derrick, W. G. Faw, H. M. Foy, Jr., G. T. Gardner, J. S. Hardin, B. R. Harris, J. L. Judd, J. H. Lewis, T. G. Matthews, E. May, Jr., P. W. McCollum, J. R. Meikle, J. M. Middleton, J. L. Padgett, G. M. Peeler, R. S. Pindell, J. K. Pittman, H. S. Pionk, J. A. Porter, Jr., M. A. Rhyne, M. H. Rhyne, T. L. Tichie, F. A. Thomas, Jr., L. P. Wilkins, and E. M. Williams.

### MEREDITH GROUP TO GIVE SPECIAL PROGRAM SUNDAY

#### Program to Consist of Several Musical Numbers and Talk By One Member

Miss Lucile Knight, in charge of the Meredith B. S. U. deputation team will present an entertaining program in the north end of the Y. M. C. A. Sunday evening at 8:20, according to William E. Braswell, president of the Y. M. C. A.

The program will include several musical features and a talk by one of the members of the team. The object of these deputation programs is to bring about a better understanding and closer cooperation among the Student Christian Associations of the different colleges. The State College deputation team under the direction of Phil Stone has already appeared before a group at Meredith College this year.

Last Sunday the deputation from the Y. W. C. A. at the Woman's College gave an interesting program in the Y. M. C. A. The team, directed by Miss Lucy Cherry Crisp, gave a number of musical selections, a short talk by Miss Inne Perry on "Speech and Thought" and special musical selections by Miss Jane McDowell. Other young ladies on the team were Miss Helen Dugan and Miss Mary Smith. "All students are cordially invited to attend these deputation programs," says Braswell.

### Announcements

There will be an important business meeting of Delta Sigma Pi in Peel Hall Tuesday evening at 6:30 sharp. President.

There will be a meeting of the A. S. M. E. Tuesday evening, March 6, at 6:30.

All sophomores wishing bids to the annual sophomore party at Meredith College may secure bids by bringing their registration cards to Pullen Hall Saturday morning between 9 and 12 a.m. The party will be held tomorrow beginning at 8 p.m., and a bid will be necessary for admittance. Joe Canady, Vice President.

### GROUP DISCUSSES SUMMER SCHOOLS

#### Greater University Committee Decides to Follow Same Program as Last Year

At a meeting of the Summer School committee of the Greater University, held in the office of the Director, Dr. W. C. Jackson, Friday, February 23, it was decided that the three Summer Schools would go ahead for the year 1934 with about the same program of work as was offered in 1933.

There will be one session at both the Woman's College in Greensboro and State College at Raleigh, beginning June 13 and ending July 24. There will be two six weeks sessions at Chapel Hill, the first beginning and ending on the same dates as the other two to be followed by a second six weeks at Chapel Hill. The work will be so coordinated that students taking work at the Woman's College and at State College for the first six weeks may continue their studies at Chapel Hill during the second six weeks without interruption.

The emphasis at the State College Summer School will be upon the agricultural and technological subjects. However, instruction will be given in the professional fields for teachers and in related and supplementary fields for regular college students. Adequate provision will be made for the service courses and students wishing to remove conditions, or to do work leading to the shortening of their period of residence at State College should take advantage of the Summer School, says Prof. T. E. Browne, who will head the State Summer School.

### CAMPUS PUZZLES OVER FAMS SIGNS

#### Origin of Mysterious Letters All Over Campus Remains Unsolved Mystery

Since its appearance on the campus sidewalks last Friday morning, FAMS has been a chief topic of discussion among the students, with many wild guesses heard as to what it could mean.

A majority expressed the opinion that it was some new sort of advertising for a Red Masquers or Experimental Theatre play by Prof. E. H. Paget. Others seemed to think that it concerned Meredith students, or some kind of "monogram supper."

Since the advent of the first letters, many more and much larger ones have appeared.

Some of the other speculations as to the meaning of the letters as heard in different quarters are listed below:

"Federal Alcohol Administrations Service," "Federal Adjustment Moratorium Service," "Fearful, Awful, Murderous Scandal," "Fascist Alarming Murder Society," "Fallen Arches Medicant Society," "Free Alcoholic Music Service," "Friendly and Mutual Seances," "Fully Accredited Magic Science," "First Aid Made Simple," "Federal Administration Moves Silently," "Frequent Adjustments More Salubrious," "Frenzied and Malicious Secrets," "Fried

### COLLEGE BAND TO GIVE THIRD CONCERT MARCH 11

The third concert in the series of mid-winter concerts by the music department is scheduled for Sunday afternoon, March 11, when the band will again present a program of standard classics and lighter concert music.

The second concert drew a much larger audience than did the first and the concert to be held March 11 is expected to draw a still larger audience.

There will be no admission to the concert, which will be held in Pullen Hall.

### Founders' Day Dance

One of the outstanding social events of the season was the Founders' Day banquet-dance given Monday night at the Carolina Pines clubhouse by the Alumni Club of Rho chapter of the Sigma Pi fraternity at State College.

The dance is an annual affair given by the fraternity in honor of the founding of Sigma Pi at Vincennes University, Vincennes, Indiana, February 26, 1897.

The banquet room of the Carolina Pines was decorated with the fraternity colors, lavender and white. The walls were attractively decorated with pines and ivy adorned the table which was draped in lavender and bordered in white. The table was arranged in the shape of a "T" above and behind the toastmaster hung a reproduction of the jewel pin in lavender and white. The pin was in the center of a spotlight of soft-colored lights.

During the elaborate five-course dinner the toastmaster, John McIntyre, conducted an entertaining program which consisted of short talks from members of the Alumni Club and of the active chapter. Professor A. F. Greaves-Walker made an interesting

talk on the history of the fraternity. A delightful feature of the banquet was the playing of Jack Wardlaw and his Orchestra. The song "Sweetheart of Sigma Pi" was played as members of the fraternity adjourned to the ballroom of the clubhouse.

From 10 until 1 o'clock Jack Wardlaw and his Orchestra played for a delightful dance attended by approximately 350 members of the college set invited by members of the fraternity.

Young ladies present for the banquet-dance were: Miss Katherine Harris, Miss Foy Allen, Miss Rosalie Hay, Miss Katherine Mason, Miss Mary Porter Flint, Miss Eleanor Layfield, Miss Mary Conway, Miss Sally Richardson, Miss Margaret Underwood, Miss Dorothy Finch, Miss Elizabeth Layfield, Miss Virginia Weathers, Miss Eloise Harrington, Miss Fannie Belle Bray, Miss Sally Bailey Heyward, Miss Virginia White of Goldsboro, Miss Lee Dixon of Benson, Miss Gladys Fox of Birmingham, Ala., Miss Hazel White of Goldsboro, Miss Ethel Rowland, Miss Barbara Moore, Miss Josephine Owens of Spencer. Professor A. F. Greaves-Walker, faculty member of the fraternity, and Mrs. Greaves-Walker were also guests at the banquet.

## COLONEL EARLY REGAINS HEALTH

### One-Time State College Military Head Improves Rapidly in Washington

Lieut.-Col. Clifford C. Early, former commandant at State College, who has been seriously ill for more than a year, has been improving rapidly in the past few weeks, according to a letter received by Dean I. O. Schaub of the agriculture department. Lieut.-Col. Early expects to be able to resume his work in the War Department at Washington in the near future, if his health continues on the upgrade.

Colonel Early contracted undulant fever while he was stationed at the Philippines. His prolonged illness kept him confined to the Walter Reed Hospital in Washington for considerably over a year. For a long time physicians despaired of his life. Finally, the Colonel after a hard struggle rid himself of the fever and began to regain his strength. Now physicians declare him to be fully on the road to recovery.

Colonel Early, who was one of the most popular military officers ever connected with State College, was in charge of the military department of State College from the fall of 1924 until 1930.

Col. Bruce MacRuder, commandant who visited Colonel Early while the latter was in the hospital, spoke highly of him. "It was during Colonel Early's stay at State that the regiment made and maintained its 'Excellent' rating with the War Department. Its present standing is therefore due in a large measure to his untiring efforts and his pleasant personality, which led to the development of a loyal spirit among members of the regiment."

While Colonel Early was in command of the regiment at State College, he was an active member of many of the prominent campus organizations. He and Mrs. Early sponsored lawn parties for the entire regiment each spring. Two years ago the rifle range back of the gymnasium was named Early Range, in honor of the Colonel.

Colonel Early is hoping to visit friends in Raleigh in April if possible.

### SPORTS VIEWS

(Continued from page five) ers can go to Virginia and can bring only one championship back to North Carolina.

The suggestion that the Southeastern Basketball Conference might merge with the Southern Conference in a tournament should be well received by State College and Raleigh. Since the split of the old conference, the Southern Conference has been a success in every way here in Raleigh, while the Southeastern Conference has had disagreements, friction among the officials, and no success financially in its tournament in Atlanta. The merger again of the old conference, with the tournament to be held in Raleigh, would bring Keener and added zest to the competitive play of the teams. Besides this, it would be a greater financial success under the same leadership of State College and Raleigh officials. N. C. State would play host not to eight teams but to 16 teams if the suggestion is acted upon.

Strange tricks are being played on favorite teams in tournaments this year. Take the Southeastern Basketball Conference tourney, for example. University of Kentucky, undefeated in season play and ceded No. 1 in the tourney, was the favorite to win the championship, but the insignificant University of Florida team—ruled not a chance in the tourney—beats the Kentuckians in the first play-off. And as a "dark horse" team Florida goes into the finals only to lose to the Alabama quintet. Rather tough on the touted Kentucky team. But it just

## HIGH TOURNAMENT BEGINS THURSDAY

### Over 100 Teams Have Applied for Admission to State's Invitational Meet

N. C. State's invitational high school basketball tourney this year will be the largest ever held, according to Johnny Miller, who has charge of all arrangements. More than 100 teams have applied for admission to the tourney which will be held in the Frank Thompson gymnasium on March 8, 9, and 10.

Mr. Miller said that forty-eight of these teams would be selected according to their record. He said he thought this would insure a much higher type of play. Both Spencer and Jonesboro, winners in last years meet, will be back this year to defend their titles.

According to present plans, forty-seven games will be played, and all State College students will be admitted to see every one of these games upon purchase of a student ticket for fifty cents. This is a very nominal charge for admission to see so much good basketball play.

Players who take part in the tourney here will be quartered among the students in the various dormitories and fraternity houses. They will get their meals in the college dining hall.

## TEN BOXERS TO RETURN FOR 1935 RING SEASON

Members of the State College's varsity boxing team have packed their gloves away for the season.

Ten members of this year's team will be back for more competition next winter. They are: Turner Bilsoly, 115 pounds; Allen Nease and Harry Beddoes, 125 pounds; Leonard Peacock, 135 pounds; Jack Fabri, 155 pounds; James Fletcher and Carl Stein, 165 pounds; Raymond Redding and Frank Landis, 175 pounds; and Kenneth Stephens, unlimited. Charlie Garner, 145 pounds, is the only senior on the squad.

State lost but one dual match this winter and that was to South Carolina. It defeated Georgia, Washington and Lee, Duke, and tied Carolina. The tie with Carolina prevented State from capturing Big Five honors. Carolina also defeated Duke thus the Big Five tie will be borne by both State and Carolina for the '34 season.

## Debutantes Sponsor State Team

MISS FOY ALLEN

MISS SARAH CRABTREE

The Junior Chamber of Commerce, arranging for the Southern Conference Basketball Tournament which is being held in the Raleigh Memorial Auditorium invited the young ladies pictured above to sponsor the N. C. State "Red Terror" basketball team.

## VIRGINIA TAKES BOXING TOURNEY

### N. C. State Boxing Team Registers Only Three Points in the Conference Tourney

The Southern Conference boxing tournament, held at the University of Virginia last week, was just another walk-away for the Virginia boxing team. It was Virginia's fourth consecutive Southern Conference championship. The N. C. State boxing team registered only three points in the tourney.

The scoring was on the basis of five points for a champion and three points for a runner-up.

The final scoring in the tourney was: Virginia, 23; Maryland, 11; V. P. L. S., North Carolina and South Carolina, 5; N. C. State, Duke, V. M. I., Washington and Lee, 3 points.

Leonard Peacock, N. C. State's 135-pound boxer, was the only State boxer to go to the finals. In the semi-finals, Peacock took the decision over Captain Ed Bain, of V. M. I. after taking much punishment. Peacock forfeited

to Norman Quarles, Carolina boxer, in the finals.

Four State boxers lost in the semi-finals. Turner Bilsoly, 115 pounds, lost to Willis Cavado, V. M. I.; Charlie Garner, 145 pounds, lost in a close decision to Maynard Womer, Virginia; Jack Fabri, 155 pounds, lost to Captain Harold Stuart, Virginia; Kenneth Stephens, unlimited, lost to Al Ferrell, Maryland.

### Three Repeaters

Three 1933 champions repeated in the current tournament. They were Norman Quarles, North Carolina lightweight; Archie Hahn, Virginia bantamweight, and Henry Willard, South Carolina middleweight.

University of Virginia crowned four champions in the tourney.

### Prehistoric Creature

Students at North Carolina last week were cheered by the appearance of a personnel manager in Chapel Hill to arrange employment for some of this year's graduates. He was the first employment man to show up for three years.

### Exam Schedule

The exam schedule for the second term will be released soon, according to Dean E. L. Cloyd. The schedule will be posted as soon as Registrar Mayer approves it.

goes to show that a team should never be too sure of itself because it has an impressive record.

This is being written after State's Red Terrors convincingly toppled the ranking No. 1 South Carolina Gamecocks from their pedestal in conference basketball. The sport staff on The Technician had a hunch that State might pull an upset. In fact, the staff believed so much in its hunch that it reserved space for a streamer and a special write-up on the game for the sport page, even though it knew that the paper was supposed to go to press at the time of the game.

I am still "hunching" that the Red Terrors will show the teams "how" as dark horses in the tournament and win the championship. But State must be prepared for a serious threat in Duke or Carolina before it gets to the finals.

## LECTURER SHOWS GROUP OF SLIDES ON PASSION PLAY

(Continued from page one) much the same as it was years ago. "The theatre or playhouse is a huge oblong building, resembling our grandstands in technical structure, with an open stage much wider than it is deep. The stage portrays the roman square in which is Pilate's home and the homes of several of the High Priests. Behind the houses are seen streets and other buildings of Rome, with trees and clouds showing in the background. The auditorium houses over 5,000 seats selling from 10 to 20 cents. The personnel of the cast includes some 1,000 people. Since this is the 300th anniversary of the beginning of this religious act, the people of Oberammergau are giving a production this summer. Otherwise the next regular production, at the ten year rate, would be in 1940. The Passion Play is given for five months, from May till the last of September and takes eight hours to put it on."

## VOCATIONAL ARTS SENIORS TO VISIT HIGH SCHOOLS

The members of the senior class in Vocational Arts will visit the junior and senior high schools in Burlington, Greensboro, and High Point. They will be accompanied by Edward W. Boshart, professor of Education and Guidance. Those to take the trip are: E. L. Stinson, A. S. Johnson, Stevenson, and Barringer.

The purpose of this trip is to give the students an idea of what the schools are doing, as to the character, of equipment, location, classrooms, provisions, and the disposal of their projects.

*- we believe you will enjoy them*

You hear a lot today about balanced diet—

.. and there's something too in the way tobaccos are balanced that makes a cigarette milder and makes it taste better.

I keep coming back to that statement on the back of the Chesterfield package—

CHESTERFIELD-  
CIGARETTES

ARE A BALANCED BLEND OF THE FINEST AROMATIC TURKISH TOBACCO AND THE CHOICEST OF SEVERAL AMERICAN VARIETIES BLENDED IN THE CORRECT PROPORTION TO BRING OUT THE FINER QUALITIES OF EACH TOBACCO.  
REG. U. S. PAT. OFF.

# Chesterfield

—the cigarette that's MILDER

—the cigarette that TASTES BETTER

We believe you'll enjoy Chesterfields and we ask you to try them.
