STATE DEBATERS HAVE BUSY YEAR IN ENGAGEMENTS

Debate Team Goes to Sixth Round in Pi Kappa Delta Debate Tournament

COLLEGE REPRESENTED BY STOKES AND BATTS

Stokes Wins Place As Extemporaneous Speaker; Ties With Wake Forest for Second Place in Tri-State Tournament; Miss Margaret Owen, State Co-ed, Represents School in Women's Oratorical Contest

Word was received from Prof. E. H. Paget, director of forensics and debating, that the State College debate team, composed of R. L. Batts and Dwight Stokes was eliminated in the sixth round of debates in the national Pi Kappa Delta annual debate tournament which was held at Lexington, Kentucky this week.

The question for the debates was the regular Pi Kappa Delta question, "Resolved that the President of the United States should have a substantial increase in power as a settled policy." Professor Paget accompanied the team to Lexington.

The State team has had a busy season this year. It attended the Tri-State Tournament at Greensboro, North Carolina, March 24 to 26 where it tied with Wake Forest for second place. Both teams won eight out of eleven debates, losing to Roanoke, who won nine out of twelve clashes.

At this meeting Stokes won first place in the extemporaneous speaking contest when he defeated the contestants from North Carolina, South Carolina and Virginia. He spoke on the "British System of Radio Control." Horace D. Carpenter won first place in the oratorical contest with his speech, "At Some Dark Corner" and also second place in after dinner speaking. Carpenter also won first place in the N. C. I. F. A. Miss Margaret Owen represented State in the Women's Oratorical Contest. Miss Owen was the first woman to represent State in a meet of this kind.

The debate team has also competed in a number of non-decision practice debates with teams throughout the South, including South Carolina, Waynesburg, Wake Forest and others, taking both the negative and affirmative sides of the question.

Batts and Stokes clashed with Redlands, California, in a demonstration of the direct clash debate at the tournament at Lexington, Wednesday April 4.

Last night the State affirmative, represented by Horace Cotton and Frank Busbee met the University of Alabama in a non-decisional debate.

The team is scheduled to debate later in the season with Wake Forest, Georgia Tech, and Emory.

The season will end with a demonstration of the direct clash debate April 19 before the annual convention of the Southern Association of Teachers of Speech, which will be held at Birmingham, Alabama.

Experimental Theatre
The Experimental Theatre, newly organized State College dramatic club, sponsored by the Southern Vagabonds of Lakeland, Florida, presented the most successful plays of its career at Lakeland, Florida, Friday, March 23. The cast included E. H. Paget, who played the part of Lee Baxter, the novelist; Jane Virginia H. Andrews as Miss Burlington, his secretary; Frank Busbee, as "Soft Touch" Bonski, a gang leader; Veronica Paget, as Valeria Pherps, a vaudeville "queen"; H. D. Carpenter, as Joe Schwartz, a political boss and Dwight Stokes as Donald Galloway, an adventurer.

The first play, "Shock," produced under the direction of Professor Paget was an extemporaneous melodrama. The other play presented by the group was an impromptu play with the basic situation suggested by the Southern Vagabonds.

The Experimental Theatre will appear at the Virginia Intermont College at Bristol, Virginia, Saturday, April 7, where it will be sponsored by the Virginia Intermont Dramatic Club.

Other engagements of the dramatic club are: April 23 at Charlotte, and a tentative engagement at Chapel Hill. The final play and the climax of the season will occur when the group appears before the Southern Association of Teachers of Speech at Birmingham, Alabama, April 20. There will also be one more production here.

Try-outs for the next three-act play will be held in Professor Paget's office next week.

Saint Pat and Princess Pat

Princess Pat and Saint Pat, Miss Matilda Ehringhaus of Raleigh, and William New of Waynesville, who will preside over the annual Engineers Fair at N. C. State College, April 5, 6, and 7 are shown above. Miss Ehringhaus, daughter of Governor and Mrs. J. C. B. Ehringhaus, is one of the most attractive members of Raleigh's younger society set. New is an outstanding senior in the Engineering School and is president of the Engineers' Council, the highest honor available to engineering students.

Princess Pat made her first appearance last night at a street parade in downtown Raleigh. Tomorrow night Princess Pat and Saint Pat will lead the dance figure at the Grand Brawl which will conclude the engineering festivities.

Architecture Float Wins First in Colorful Parade

1934 SENIOR BIDS TO BE DISPLAYED

Committee to Take Orders for Commencement Invitations April 10 and 13

Containing many new features, the 1934 commencement invitation is now on display to members of the senior class.

The leather invitation is red and the cardboard invitation is white. Both are bound with leather things which are of the same color as the invitation cover. The cover will contain a blind embossed seal of the college and the date 1934.

In the front of the invitation is a picture of Dr. E. C. Brooks, president of the college. Approximately 25 pages will follow this picture. These pages will include an engraved page of the formal invitation to attend the exercises, the program of commencement week, a list of the campus fraternities and organizations, the senior membership of Blue Key, Phi Kappa Phi, Golden Chain, and Pine Burr, a prominent campus view, senior superlatives, senior class officers, senior committees, and the senior class roll with members listed according to school and course. The final printed page will contain the school song printed in black over a wolf head. Much improvement is shown in these invitations over those of previous years.

The Invitations Committee is composed of R. S. Poole, chairman, Joe Dixon, and Howard Stony.

Orders for the invitations will be taken in the *Agromech* office in Fifth Dormitory Tuesday, April 10 and Friday, April 13, which is the final date for placing orders.

Anti-Aircraft Exhibit
Cooperating with the Engineers' Fair, General McCloskey, commanding officer of Fort Bragg, has sent an anti-aircraft exhibition to be demonstrated here under actual conditions. This contribution of the army to the Fair is the exact opposite of the fleet of planes sent last year.

Wins Third-
Word was received here last night that Dwight Stokes, member of the State College debating team, had won third place in the extemporaneous speaking contest sponsored by Pi Kappa Delta, national forensics fraternity. The convention of the fraternity is being held in Lexington, Kentucky.

Stokes ranked ahead of sixty-five speakers from all over the country, and over all the speakers entered from twelve Southern states represented in the contest.

Stokes was accompanied to the convention by Prof. E. H. Paget, director of forensics at State College.

STATE STUDENTS TO VISIT POLLS IN COMING WEEK

Only Student Government Posts And Vote for Best Athlete To be Taken

FINALS TO BE RUN OFF WEEK AFTER PRIMARIES

Carrow, Sullivan, Stanko, Summey, and Findlay Run As Council Nominees for Student Government President; Gardener to Run As Independent Candidate; Two Highest to Run in Final Election April 17 for Position

Primary election for officers in the Student Government will be held in the Y. M. C. A. Tuesday, April 10. Final elections will be made April 17, a week later.

Candidates for president of the Student Government are J. D. Findlay from the Agricultural School; W. H. Sullivan from the Engineering School; C. L. Carrow from the Textile School; J. T. Stanko from the Education School; and L. S. Summey from the Business School. These candidates were elected Wednesday afternoon at a Junior Class meeting to represent their respective schools on the Student Council for 1934-35 and are automatically candidates for the position of president of Student Government. Marshall Gardener, a junior in the Business School, has announced his intention of running as an independent candidate. No others have made known their desires to become candidates in the race. The two men receiving the largest number of votes in the primary election will be run in the finals to determine the president and the vice president. The candidate receiving the largest number of votes is made president and the other vice president.

Candidates for secretary and treasurer of the Student Government are S. K. Hudson from the School of Agriculture; R. W. Seltz from the School of Engineering; T. M. Jenkins from the School of Textiles; W. B. Aycock from the School of Education; and C. H. Lloyd from the School of Business.

No other students have announced their intentions of running for these two posts as independent candidates.

The candidates for this position were elected at a Sophomore Class meeting Wednesday. Each of the five schools named Student Council members for the coming year, and these sophomores automatically become nominees for the post of secretary and treasurer of the Student Government. The two candidates receiving the largest number of votes in the primary will run for two offices in the finals, the one receiving the largest number of votes becoming secretary and the other receiving the position of treasurer.

If any independent candidate is elected to office he replaces the representative from his school already on the Council or if an independent candidate receives more votes than the Council member elected from his school, he replaces the Council member on the Council.

Candidates for editor and business manager of the *Watagan* and *The Technician* will be voted upon at the finals. Y. M. C. A. candidates will also be voted upon at this time.

A popular vote of the student body to determine the best athlete in school will be held at the primaries, with the two highest going to the finals.

At a meeting of the House of Student Government recently, two proposals were made to modify drinking and gambling rules in the Constitution. The proposed changes read as follows:

(1) The House of Student Government voted that Article III, section 2: "Drinking or having in possession intoxicating liquors by any student is strictly forbidden. The penalty for this offense shall be at the discretion of the Student Council," should be stricken from the Constitution; and that drunkenness should be added to the Preamble of the By-Laws of the Constitution.

(2) The House voted that Article VI, section 2 in the By-Laws be changed to read: "Excessive gambling on the part of any student on the campus shall be strictly forbidden. Violation of this article shall be at the discretion of the Student Council."

Hart to Speak
Rev. Jack Hart, well-known on the State College campus will be in Raleigh Sunday, according to E. S. King, secretary of the Young Men's Christian Association. He will preach in the Church of The Good Shepherd Sunday morning and Sunday afternoon at five o'clock he will speak at Saint Marys College. State students are invited to attend the service Sunday morning.

ENGINEERING DEPARTMENTS TO EXHIBIT STUDENT WORK FOR INSPECTION OF PUBLIC

STATE PROFESSOR COMMITTS SUICIDE

J. T. Nelson, History Professor, Found Dead in Car Early Sunday Morning

Professor Jean T. Nelson, young State College history professor, committed suicide in his car in a lonely, wooded spot near the outskirts of Raleigh, early Sunday morning.

After leaving a short note explaining his act and a few other notes, giving directions concerning the settling of his affairs in Raleigh and directions concerning his funeral he drove his car to a small patch of woods back of the Broughton High School and ended his life by asphyxiation. He connected a rubber tube from the exhaust to the inside of the tightly closed car and started the motor, which ran until the supply of gasoline was consumed.

The car was found some time afterward by a passing pedestrian and the conditions reported to the police. Coroner L. M. Waring declared it a clear case of suicide.

The only explanation of the act was in a short note left by Nelson saying, "I'm a nervous wreck." He also left a note requesting that his body be cremated, and a small amount of money to settle a few bills. He also left directions concerning his insurance policies and a check payable to Dr. T. Spence.

Nelson was graduated from Hendrix College and received his M.A. degree from the University of Chicago. He was granted a leave of absence from State College last year to go to Duke to work for his Ph.D. He had completed most of the work for the degree and had almost completed examinations when he committed suicide. He was majoring in the history of South America. Professor Nelson has spent five years at State College.

According to faculty members of the history department and other department friends, he had worked extremely hard on his degree and had just completed his examinations. They believed that this excessive amount of work that he had been doing had resulted in the unusual nervous condition that caused him to take his life. It has been reported by members of the faculty and others that Nelson had unsuccessfully attempted suicide several times previously. Several people had noticed a marked difference during the past month in his physical and nervous conditions.

The remains were sent to his family in Arkansas.

**DINERS TO HAVE MUSIC
IN COLLEGE "BULL" HALL**
Dorm President Winning in Competition for Best Floor to Get Five Dollars

An amplifying system providing music for the college dining hall was voted by the Student Council at a meeting Wednesday.

A previous trial had been made of such a system, and it was found to have been satisfactory and proved popular with the students. New speakers for this system will be ordered and are expected to arrive soon.

It was also decided at the meeting to give the dormitory president winning the prize for the floor scoring the most points, five dollars in cash rather than the medal which has been given heretofore and which had cost the amount of the new cash prize.

The Council also voted to send the present secretary of the Council, Bill Sullivan, and the incoming president to Atlanta April 26 to attend a meeting of the Southern Federation of Students. These men will represent the Council from State College.

A banquet will be held for old and new Council members and a few faculty members in the State College Cafeteria April 18 or 19.

**FRATERNITY NEOPHYTES
GET "HELL WEEK" SOON**
Fraternities at State College will begin next week what is commonly called "Hell Week" among the Greek letter pledges. The pledges will go through various trials and tribulations according to the customs of the fraternities. Initiation of freshman pledges is held in the spring because of a ruling of the State Interfraternity Council that no pledge can be initiated until he has been in college here two preceding terms and made a "C" subject average.

Companions

Twelve men selected as the outstanding freshmen in their respective engineering departments will be dubbed Companions of St. Patrick in the ceremonies at the Engineers' Brawl tomorrow night. Names of the freshmen Companions of St. Patrick and their departments are: Architectural, John Hugh Mackay, and J. T. Still, Jr.; Ceramic, A. R. Blackburn, and John W. Ogletree; Chemical, Vincent A. Thorpe, and R. H. Morrison, Jr.; Civil, Clarence S. Gale, and H. M. Schrock; Electrical, Dwight W. Durham, and Wm. E. Cheshire; and Mechanical, Randall F. Atkinson, and Frederick L. Connel.

PLATOON DRILLS HELD YESTERDAY

Lt. R. L. Smith Leads His Platoon To Victory in Annual Drill Competition

Cadet First Lieutenant R. L. Smith, Leaksville, led his platoon, second platoon of Company G, to victory and the position of being the best-drilled platoon in the entire R. O. T. C. regiment in the annual platoon drill competition held at State College yesterday.

Smith's junior officers who assisted him were: Cadet Sergeants L. A. Martin, Nyack, N. Y., and E. C. Robbins, Saint Augustine, Fla.

Second place went to the first platoon of Company E commanded by Cadet First Lieutenant J. W. Coffey, Lenoir, and assisted by Cadet Sergeants D. F. Behney, Harrisburg, Pa., and H. E. Bishop, Chambersburg, Pa.

Third place was won by the first platoon of Company A commanded by Cadet First Lieutenant J. A. Hodnett, Jr., Chatham, Va., who was assisted by Cadet Sergeants B. S. Burt, Raleigh, and F. E. Cornell, Cleveland.

At the graduation parade this year Smith will receive an inscribed saber from the Military Department, Colonel Bruce Marquard, Commandant, said.

W. G. Enloe, manager of the North Carolina Theatres in Raleigh, has given six passes good for a month to be distributed among the personnel of the winning platoon that have helped the most in the upbuilding of the platoon this year.

The platoons were judged on their ability to execute a series of movements, exactness in alignment, unity in marching, correct positions of the cadets, and leadership.

**CHEMICAL FRAT HOLDS
FIRST MEETING OF TERM**
The play that chemical engineering will part in the Engineers' Fair was discussed by the A. I. Ch. E. at the first meeting of the term Tuesday evening.

C. A. Williams gave a report on what the float committee was doing. He said that plans for the float were progressing rapidly and that the hopes were that the float would be the best ever made. Phil Stone, president of the chapter, gave a short talk urging all members of the department to help get the exhibits in order. Bill Braswell, chairman of the program committee, stated that a program containing a history of the department and a list of the exhibits would be handed to the visitors as they entered the building. He also asked that a group of the Chemical Engineers be on hand to conduct the visitors through the exhibits.

Next Best Thing
The old practice of the next best thing was practiced by The Technician cartoonist last night. G. W. Ford, after his drawing tools had been mislaid, finding his tools mislaid and it being necessary to draw the chalk-plate cartoon at once, he resorted to a file-down nail, the blunt end of which was stuck in a round, cylindrical shaped piece of wood. With this improvised tool, which much resembled a scaled down jack, he set about drawing the cartoon. The editorial staff, frantic a moment before, heaved a sigh of relief and settled down to editing the paper.

Eighth Annual Engineers' Fair Opened Last Night With Large Street Parade in Downtown Raleigh

ST. PATRICK TO KNIGHT
OUTSTANDING ENGINEERS
GRADUATING THIS YEAR

Departmental Exhibits Open Today at 2 p.m.; Close Tonight at 10 p.m.; Prize to be Awarded to Student Having Best Exhibit And to Department Having Best Set of Exhibits; About 5,000 People Expected to Attend Fair; Departments Have Varied and Extensive Number of Exhibits On Display

Opening last night with a street parade, the eighth annual Engineers' Fair will exhibit today the type of work done by the students in the respective engineering departments, and will terminate tomorrow night with the Grand Brawl. About 5,000 people are expected to attend the exhibits today.

The parade last night was featured by floats from the six engineering departments. Students carrying torches added much color to the parade. It was headed by Dean W. C. Riddick of the Engineering School and following was William New, St. Pat and president of the Engineers' Council with Princess Pat, Miss Matilda Ehringhaus, daughter of Governor J. C. B. Ehringhaus. Governor Ehringhaus was to have participated in the parade but an illness confined him to his home. Following this car was the individual floats from each department. The float from the Architectural School won the first prize of a silver loving cup. Second place went to the Chemical Engineers.

The exhibits which open this afternoon at two o'clock will show the type of work that students in the Engineering School are doing. Many varied and interesting exhibits will be seen by visitors in each of the departments. The Electrical Department will show such exhibits as a photo-electric cell which controls a fountain, color separator, and an array of high electric voltage. The Chemical Department will exhibit tricks of magic with chemicals, water sanitation, a model sulphuric acid plant, and numerous other displays. A varied exhibit of art pottery will be seen in the Ceramics Department, and the laboratories will be thrown open so that visitors may see some of the phases of the industry. This school won first prize last year for the exhibit. The Architectural Department will show models constructed of minute building stones, free hand drawings, finished drawings, and ornaments and plates. Steam engines that always attract a curious crowd will be seen in the Mechanical Department, as well as molding and wood turning in the shops. The Civil Department will feature testing machines, sanitation, and surveying apparatus. A prize will be awarded to the best individual exhibit, and a prize given to the department having the best set of exhibits. These exhibits close at ten o'clock this evening.

The Grand Brawl will be presided over tomorrow night by Bill New and Miss Matilda Ehringhaus. This is one of the outstanding dances of the college social calendar. At that time St. Pat will knight the seniors that have proved themselves to be worthy to be classed as student engineers. Companions to St. Pat will also be chosen at that time. These Companions are freshmen chosen from the Engineering School that have been outstanding during the year. Two are chosen from each department, making a total of twelve Companions.

**ORGANIZING PLANS MADE
FOR INDUSTRY SOCIETY**
Plans for the installation of a student branch of the Taylor Society, national industrial management society, have been approved by the faculty of the business school, announced R. W. Henninger, professor of industrial management, at the initial meeting held Wednesday night in Peele Hall.

In his address Professor Henninger spoke of the advantages of the Taylor Society to the member both before and after graduation. He pointed out that many of the leading management experts are members of the Taylor Society, including members of President Roosevelt's "Brain Trust." The society took an active part in making the coal miners' and the textile codes.

SCABBARD AND BLADE

A plan for bringing the State College chapter of Scabbard and Blade, national honorary military fraternity, into its own as a leading organization on the campus is now being worked out, and it is hoped that through the rearrangements the fraternity will again be able to hold a place here unequalled by any such group.

For several years past, the organization was open to practically every junior in the Military Department, if he had the necessary funds to pay his dues for membership. The pledging of men to the chapter lost much of its popularity, and membership in the organization carried with it no special honor. Besides, those who did not join the organization were known to resent any authority that it might take upon itself in the Military Department. In other words, Scabbard and Blade had no definite place to hold. It functioned mainly as a social order, the payment of the dues meaning merely that members were given a banquet and dance as an initiation, and then later they gave a dance. It seems that little thought was given to the potential aspects of the organization, for it has shown no open benefits on the campus, and for all the good it did for the school, it might just as well not have functioned.

The plan is that Scabbard and Blade here shall be so changed as to carry on work which has heretofore been done among the Military students for that department, whether they were members of that organization or not, such as the Military Ball, special parades, competitions among units, and the like. The organization would consist of around 16 officers, picked from among the juniors, by a vote of all the men in the regiment. Eight of these would be elected in the spring term, and eight in the fall term of the following year. Each separate company would name two outstanding men from among its juniors, and later a definite number of men would be chosen by a popular vote of the students in Military. By allowing a student vote on the membership, Scabbard and Blade members would again come into power as leaders, and they could then carry on Military affairs as a governing body, their powers sanctioned by the students, since it would be shown by vote that the men were leaders in the students' estimations. There would be no resentment on the part of those not in Scabbard and Blade at the powers which the organization might have, for it would be highly recognized. Dues would, according to the plan, be put at such a level as to make it possible for anyone elected to join.

Our campus, as well as most other college campuses, is overcrowded with honor fraternities, professional, and social fraternities which are doing nothing for the betterment of our college life, as was intended by most of them when they were formed. Too many of them live in name only, and are of no other importance. A general adjustment of fraternities at State College would mean the saving of a large amount of money to the student body, and would again lend prestige to some of the more popular fraternities on the campus. Perhaps the plan offered for the change in Scabbard and Blade policies is a forerunner of like changes which can be made in other organizations.

A staff, altered somewhat, but carrying with it the practices handed down for years from those of the "Fourth Estate" of the State College newspaper group is with this issue ushering in another year of TECHNICIAN newspapering.

Elections will soon determine who will be the new TECHNICIAN heads, but until then our paper will be a cooperative record in which the candidates for offices on THE TECHNICIAN will take charge in preparation for chosen positions on the blade.

Freshmen who have pledged fraternities will soon know the rougher aspects of college life, since the annual initiation, or "Hell-Week," is just around the corner. Brace up, freshmen, you will have your chance next year.

THE ENGINEERS' FAIR

Sparks flying about through the ether; artificial silk flowing from a man-made worm; pottery glistening; statues and models competing for the favor of the interested eye; model bridges longing for the great open spaces; machines hissing and wheels whirling—the eighth annual Engineers' Fair comes into being, manufactured by students anxious to learn and to show to the public what it means to be an engineer.

Approximately six-hundred students are taking part in a project which is bringing out every ounce of effort in their power and requiring such cooperation which can only be brought out when men are working for one outstanding purpose in view. At no other time in their college days will ever be shown the whole-hearted endeavors to work together as these engineers are bringing out during these three days, when the outcome of human laziness, the machine, takes on a personality, heretofore gone unnoticed by the layman. Wheels and cogs; wires and chemicals; iron and wood—for three days they are the cynosure of the eyes of the public—they reign supreme.

Perhaps the immediate purpose of the Fair may seem to be demonstration, but the underlying object it achieves is not merely this superficiality. Through his four years at college, the average engineering student is occupied chiefly with the theoretical. His work consists mainly in learning formulae, and experimenting mathematically and very little time is given over to the practical aspects of the subject. In working for the Fair he is occupied during a large part of his school year with planning for exhibits and other phases of the work. He is gaining his practical knowledge through a channel which is particularly interesting to him because he is working together with other students like himself, in work that he is especially adapted for and which he himself picks as he desires.

The Engineers' Council is deserving of the highest praise for its efforts in putting on the Fair, and deserves the highest commendations for the excellence of its work.

About this time of the year when spring has descended upon us, another malady also settles about the same time—politics.

Already there have been seen signs of an interesting campaign for various posts that will come up for a vote of the student body in the next week or two. Whispering, back-slapping, and corner conferences have suddenly become very popular. The old habit of speaking to everyone and giving a good demonstration of a tooth paste advertisement is being seen more and more each day as the time draws near.

HERE AND THERE

By G. W. FORD

Well, boys and girls, we've rounded the second pylon and are starting out on the home stretch of our academic year. Just imagine how much different it would be if we knew what was in store for us . . . but then there would be no fun to it if we had things all set before us. We want to play our own cards. Let's play them right and we'll all come out on top.

Say, have you seen the new walk leading around the gym to the Armory? That's one of the things that popped up while we were away for the spring holidays. And it's not just a common every-day walk either . . . each and every stone has a historical background. The stones used in making this walk came from the Capitol Square where the CWA workers are laying new walks. Think of all the famous people who have trod on these very stones . . . how many of us think of this as we go to class?

Dave Morrah, one of our wrestling champions and also a rival of ours in the publication realm, has gained twenty-three pounds since the close of the wrestling season. Dave says that he doesn't know which chin to grow a beard from.

It's good that Easter comes only once a year. . . I can still feel the effects of that week-end of Easter dances. After such a strenuous turn at dancing, I've decided not to go to another one until the Engineers' Brawl.

You have no doubt noticed quite a few new young ladies on the campus going to and from Ricks Hall. They're not co-eds . . . let me tell you how it is: These girls are at work manipulating machines which are known as Comptometers. This machine is one in which you set the amount of tobacco grown in the state, turn a crank, and the answer comes out telling how many cigarettes the college boys smoke per year . . . or something like that.

And another thing . . . with the coming of these operators the activities around a certain boarding house at

2220 Hillsboro Street have picked up quite a bit. One fellow that I know keeps singing some song . . . it goes: "Umpah, Umpah—" Sounds like Indian to me.

Some bright young fellow, who had nothing better to do, took it upon himself to plaster the numerals 37 in two conspicuous places on the new stadium. Poor lettering . . . even if the letters were more legible such an act would still be out of order. We are all aware of the fact that there is a class of 37 . . . the numbers tell us nothing new; they only serve to mar the beauty of the new stadium.

Bill Dunaway is back with us again this term . . . too bad that he had to be out of school during the boxing season.

Now that elections are drawing near it's great fun to watch those fellows who are seeking offices. Before the final elections are over there will be many a sore hand from slapping fel-

State College Engineers Welcome You

And here's the latest . . . someone got hold of the chalk plate tools and mislaid them. As a result I had to scratch the cartoon for this week with a nail stuck in a piece of wood . . . so when you hear someone saying, "That picture looks as though it was scratched with a nail," you can say, "Sure, it was."

ATTENTION, SENIORS

The final date for taking cap and gown measurements will be made Thursday, April 12, in the Students Supply Store. All seniors who are expecting to be graduated and have not as yet been measured are urged to do so at the appointed time.

E. C. T. C. TO PRESENT PROGRAM HERE SUNDAY

The deputation team of Eastern Carolina Teachers' College will present a program for State College students Sunday afternoon at 5:10 in the Y. M. C. A. Ten girls will take part in the program.

The program on Sunday will be the last program of the year. Teams from N. C. C. W., and Meredith have presented programs previously during the year. The State College deputation team has presented programs at Greensboro College and Meredith. The members of the State team have been invited to appear at N. C. C. W. and E. C. T. C. during the third term.

Through these programs, the Y. M. C. A. hopes to foster better relations among the students of the various colleges of the state. The State deputation arrangement committee is composed of Phil Stone and Bill Barker.

How are YOUR nerves?
THIS FREE BOOK WILL TELL YOU

Shows 20 ways to test nerves—all illustrated. Instructive and amusing! Try them on your friends—see if you have healthy nerves yourself. . . Mail order-blank below with fronts from 2 packs of Camels. Free book comes postpaid.

CLIP AND MAIL TODAY!

R. J. Reynolds Tobacco Company
Dept. 76-B Winston-Salem, N. C.

I enclose fronts from 2 packs of Camels. Send me book of nerve tests postpaid.

Winter Intramural Program Comes to Successful End

Miller's Program Has Been Most Successful Since Inauguration of Activities

BOXING CREATES CHIEF INTEREST TO STUDENTS

Pikas and Delta Sig Fraternities and First Floor 1911 Led in Team Points

According to Johnny Miller, the season of intramurals for the winter term at State has been the most successful since he took charge of intramural activities at the college. More men have entered on teams, more enthusiasm has been shown, and a better grade of athletics has been participated in.

Perhaps more interest was aroused in intramural boxing than in any other single intramural activity. A large crowd was present at the matches to enthusiastically support their fighters. Perhaps the most exciting moment of the matches was in the dormitory match when Jack Gattis, football player, scored a clean knockout over H. B. Wagon with a straight right to his chin. Winners in boxing finals in the dormitory and fraternity sections were: Henry Latham, Delta Sigma Phi and J. R. Chapman, 1st 1911 in the 115 pound class; J. W. Hanna, Sigma Pi, and Fred Ramsauer, 1st 1911, in the 125 pound class; Joe Canady, Sigma Phi Epsilon and Bob Griffin, 3rd South in the 135 pound class; Frank Edmondson, Sigma Nu, and B. L. Bass, Fifth Dormitory, in the 145 pound class; J. R. Edwards, Pi Kappa Alpha, and Jimmy Westbrook, 3rd 7th, in the 155 pound class; W. K. Caldwell, Delta Sigma Phi, and Jack Gattis, 2nd 1911 in the 165 pound class; Phil Kinken, Sigma Nu, and Glenn Goodwin, Lambda Chi Alpha fought to a draw, as did Perry Wilson, 2nd 1911, and Julian Richardson, 1st South, in the 175 pound class; Byron Fox, Phi Kappa Tau, and Nellis Johnson, 1st 1911, in the unlimited class weight.

In basketball, the Pi Kappa Alpha fraternity and the Forestry Club won the championship. Members of the Pi Kappa Alpha team were: S. R. Smoak, T. C. Sawyer, Jr., Fairley Seales, Key Seales, Fred Eaton, William Culpepper, Jr., D. A. Brannon, Roger Norman, and J. R. Edwards. Members of the Forestry team were: Charles Riley, W. C. Aiken, Emery Chatfield, Charley Layton, and Thomas J. McManis, Jr.

The Pi Kappa Alpha also won the fraternity section of intramural handball, while the Demolay team won the independent league title.

The dormitory teams fell behind in their basketball and handball schedules and were so delayed that the victors in this section have not as yet been determined.

COLLEGE TENNIS TEAM SCHEDULES SIX MATCHES

Three Veterans Among 17 Candidates Seeking Places on State Varsity Team

Six matches are on the tennis schedule arranged for State College this spring. All of the matches are with Duke, Carolina and Wake Forest each appearing on the schedule. However, there is a possibility that other games may be booked later on in the season.

Seventeen candidates for the team have already reported to Coaches R. W. Green and Hugh Lefter, including three monogram players of the 1933 team. The veterans are A. L. Polley, Aberdeen; J. M. Brown, Burlington, and Bill Fisher, Salisbury.

The other candidates are: Boyce Holman, Raleigh; Jimmy Westbrook, Wilmington; Carl Lange, Melrose Park, Pa.; G. T. Allison, Charlotte; W. P. Leslie, Bill Peck, Wilmington; Dwight Durham, Warrenton; Henry Nading, Winston-Salem; Jack Aycocke, Wilmington; Leonard Dearborne, Waverly, Pa.; C. L. Davis, Conway; and N. B. Dozier, Rocky Mount.

W. R. Mann of Whitakers is manager. The schedule: April 11, Wake Forest, here; April 16, Carolina at Chapel Hill; April 23, Duke, here; April 26, Carolina, here; May 2, Duke at Durham, and May 14, Wake Forest at Wake Forest.

Credit should be given Johnny Miller for the efficient way he conducted State College's ninth invitational high school basketball tournament which was held here March 8, 9, and 10. I talked with several of the visiting players. They spoke highly of Johnny Miller and seemed impressed by the fine treatment received while playing here. Two of the fellows are planning to come to State next fall.

Excerpts from a letter to THE TECHNICIAN Director Miller says:

"I want to take this first opportunity to tell you that the State College high school basketball tourney was a success in every way. The teams were better coached, the players were better individually, the games were run off without a hitch. One hundred and fifty dollars was cleared and deposited to be used for intramural athletics. The most difficult undertaking in connection with the tourney, is securing sleeping accommodations for over 500 visitors. Students of our college, are therefore the ones who make the tourney possible."

Will State College have tennis courts conditioned enough for varsity play this spring? This is a question which members of the tennis team and the many State students who are interested in tennis ponder over. For the past three years the college has promised to condition all the tennis courts, but to date it has made only a half-hearted attempt. With the large amount of government funds being appropriated to the colleges, it would be a fine thing if State officials would apply for a small appropriation to build some courts that the college would be proud to speak of. With the courts in their present condition, the State team would be ashamed to invite a visiting team to play on its courts.

TECH NINE OPENS SPRING SCHEDULE

State Wins Over W. & L. and Davidson But Lose to Deacons in Easter Classic

State College's baseball team defeated Davidson College 11-4 at Davidson Wednesday afternoon, giving State a record of two wins and one loss for a percentage of .666 thus far this season. The team in its first game defeated Washington and Lee 4-3 on March 29, and was in turn defeated 4-2 in the annual Easter Monday game with Wake Forest.

In the game with Davidson, Wolfpack sluggers got seventeen hits off West and Coble, while the Wildcatters were held down to seven base hits by Lynn and Rodwell, who pitched for State.

Kirkman, State's right fielder, hit a home run, a double, and two singles to lead the attack for State. Roach made five singles and Cox a home run and a single to put the punch in State's offensive. Mackorell and Bumgarner led the Davidson batters with two hits each.

The game Wednesday was the first of a two-game series with Davidson, the second being played yesterday afternoon. Today, State goes to play the University of South Carolina at Columbia, while tomorrow they will play Clemson there before returning to Raleigh.

In the State-Washington and Lee game, State's scoring was confined to the fourth inning, all four State runs being made then. Roach got a single at the beginning of the fourth, then Rex hit a long three-base hit, and got home on a grounder hit by Johnson which W. and L.'s second baseman muffed. Johnson stole second, and came home on a three-base hit by Flythe. Flythe's run came in on a hit by Cox. This ended the State scoring. Cox and Roach for State turned in the best fielding exhibits of the game.

The annual State-Wake Forest Easter Monday classic was attended by some 3,500 fans who saw Wake Forest take the game for the fourth time in the

ATHLETIC TEAMS ELECT 1935 WINTER CAPTAINS

Rex, Westbrook, Morrah and Bernhardt Chosen to Lead Three Major Sports

Captains for next year's varsity basketball, swimming, and wrestling teams were elected at a recent meeting of the teams.

Ray Rex, Decatur, Illinois, and star guard for two years, will captain the 1935 State quint. In addition to his play on the court, Rex is fullback on the football team, heaves the shotgun in track and takes a turn in the outfield in baseball. He also was named on the 1934 Southern Conference basketball second team.

Jimmy Westbrook, sophomore from Wilmington, was the tankmen's choice for captain of next year's swimming team. He is one of the outstanding dash men in the Southern Conference. Westbrook was beaten only once in competition this winter.

The wrestling team decided on co-captains Dave Morrah, Greensboro, and Carl E. Bernhardt, Salisbury, to lead the 1935 mat team. Morrah recently won the 115-pound championship in the Southern Conference tournament. Bernhardt, 155-pound wrestler, is also a guard in football and is a candidate for this season's baseball team.

Some number of years. The game featured the pitching of Bill Herring for the Deacons. Herring struck out seven State batters, and retired the home team on strikes in the first and seventh innings. In addition, he hit a single to center in the second inning to score two of his teammates.

The Deacons got their scores in the second and fifth innings, and in each case their offensive was started after two outs had already been made. State's big moment came in the fourth when Lambeth opened with a single, McQuage got to first on an error. Roach hit a bunt, and Ray Rex hit a fast ball towards short. Mitchell, of Wake Forest, however, stopped the ball and threw McQuage out at third.

Stewart Flythe, State pitcher, could not compete with the pitching of Herring. While few base hits were made off him, he walked five batters, hit two, and made a pair of wild pitches to first.

ANDERSON CLOSES FOOTBALL DRILLS

Much Promising Material Developed to Make Winter Drills a Success

Winter football drills, under the direction of Coach "Hunk" Anderson for the first time, closed at the end of the winter after one of the most successful drills ever held at the college. Practices have been held each week, weather permitting, since January 15.

Much promising material, which previously had not been noticed, was developed during the winter sessions. Development of Venice Farrar as a fullback; return of "Red" McAdams, and the work of several freshmen were the highlights of the drills.

Howard Bards and Nick Hayden, halfbacks, and Maurice Roy, quarterback, were the most promising of the freshman group. Bards, runs, punts, place-kicks and tackles brilliantly. Hayden is best as a passer. Roy runs a team well and is a fine blocker.

Outstanding candidates at various positions follow:

Ends—Co-captains Raymond Redding and Kenneth Stephens, Carroll Conrad and Dominic Cara. The last two are freshmen.

Tackles—Carl Isaacs, Clifton Daugherty, Carl McIntyre, Jack Klaver, Al Edwards, Carl Goode, and Edward Snyder. All but the first two are freshmen.

Guards—John Stanko, Barnes Worth, Herb Kirschner, Alex Regdon, Harold Schlossberg and Albert Chiemlego. The last four are freshmen.

Centers—Steve Sabol, Willie Hamerick and Mitchell Polinsky. Polinsky is a freshman.

Quarterbacks—Maurice Roy, Willie Dusty, Eddie Jaskwich and Lawrence McCulley. Roy and Jaskwich are freshmen.

Halfbacks—Robert McAdams, Phil Davis, Roscoe Roy, Howard Bards, Nick Hayden, Gus Scanlon and Joe Ryneska. The last four are freshmen.

Fullbacks—Venice Farrar and Odell Smothers. Smothers is a freshman.

Ray Rex, fullback; Jack Fabri and

BASEBALL WILL FEATURE IN SPRING INTRAMURALS

Play in spring intramural sports of playground baseball, tennis doubles, and track will start next Wednesday according to the present schedule. A large number of fraternity, dormitory and independent teams are expected to participate.

All baseball games will be played at 4:30 o'clock on the 1911 field. Tennis games will start very shortly. The track meet between the intramural teams is scheduled to take place some time the last of May. The exact date has not been set yet.

Carl Bernhardt, guards, and Milan Zorl, tackle, varsity players of last fall, were unable to take active part in the drills due to winter sports.

Several men who will play freshman ball next fall were also used in the drills, and they showed considerable ability. They were: Ren Hoek and Cohee, fullbacks; Shea and Handley, halfbacks; Marks, center, and Powers and Brownie, guards.

TECH GOLF TEAM LOSES TO HEELS

State Team Loses 15-3 in Match Played at Hope Valley Country Club

Carolina's golf team tallied a 13-5 victory over the State golf team Wednesday afternoon in a match played on the Hope Valley Country Club course at Durham.

Erwin Laxton, Carolina ace golfer, and former amateur champion of North and South Carolina, turned in a 72 to take 3 points from Fred Newnam, Jr., of State. Newnam had a 75 to share second low medal score with Bill Sadler of Carolina. Charlie Styrone of State shot a 76 to win one point and lose two to Sadler.

Bill Berthlein made nearly half of State's total score when he won 2 1/2 points from Lane Fulewider. Berthlein had a 77 and Fulewider a 78. Pat Pastore, captain of the State links team, won one point and lost two to Dick Harris of Carolina. Pastore's score was 79, Harris's 78.

Laxton and Fulewider gained three points from Newnam and Berthlein in the best ball matches, and Harris and Sadler won 2 1/2 points to Pastore and Styrone, who won 1/2 a point.

FROSH NINE TO PLAY TEN GAMES IN SPRING

State College freshmen will play a ten game baseball season according to the schedule released Wednesday. The schedule is as follows:

April 17, Louisville, here; April 20, Wake Forest, here; April 24, Louisville, here; April 26, Campbell College, here; April 28, Carolina, here. May 2, Duke, there; May 7, Carolina, there; May 12, Wake Forest, there; May 15, Duke, here; May 16, Campbell College, here. Bob Warren is being assisted with the frosh baseball team by Peele Johnson, State graduate and former Raleigh High School coach.

DRAW A CIRCLE AROUND THE CENTER OF THIS FINE TOBACCO PLANT

"It's toasted"
✓ Luckies are all-ways kind to your throat

LUCKY STRIKE CIGARETTES

These are the Center Leaves—the Mildest Leaves—the heart of Lucky Strike

As you can see from this picture—Luckies' fine, smooth quality doesn't just happen—for we use *only the center leaves!* Not the top leaves because those are under-developed—not ripe. Not the bottom leaves because those are inferior in quality—they grow close to the ground and are dirt-covered, coarse, sandy. We select only the center leaves—for which farmers are paid higher prices—for the center leaves are the mildest leaves—they taste better—then—"It's toasted"—for throat protection. And every Lucky is fully packed with these choice tobaccos—made round and firm—free from loose ends—that's why Luckies do not dry out. Luckies are *all-ways* kind to your throat.

NOT the top leaves—they're under-developed—they are harsh!

Only the Center Leaves—these are the Mildest Leaves

They taste better

NOT the bottom leaves—they're inferior in quality—coarse and sandy!

... SOCIETY ...

Rawlings Poole—Telephone 1440

State College's spring social season brings a well-rounded calendar of varied and interesting entertainment. Outstanding among these spring and early summer dances and balls have been the White Spade dance last Friday night, the Spring Festival Dances Saturday, and the Pika Ball Easter Monday night. Events eagerly anticipated are the Engineers' Ball, the Regimental Hop, the Junior-Senior Prom and Finals.

Pika Ball

The ball, given by the Alpha Epsilon Chapter of Pi Kappa Alpha Easter Monday night, afforded a perfect climax to the past gala week-end.

Attracting widespread interest was the music of Weede-Meyer and his orchestra, featuring Miss Frances Delaney and "Babe" Pearson. Hundreds of dancers from all sections of North Carolina attended the annual affair.

The gymnasium was elaborately decorated in the fraternity colors of garnet and gold. Streamers in these colors were draped from the ceiling to the side walls and formed a very colorful canopy. A beautifully electrically lighted fraternity pin was hanging directly above the orchestra stand.

The highlight of the evening was the ball figure led by the officers of the chapter and their dance partners. The fraternity members and their partners followed and the figure culminated in the forming of the fraternity symbols. After this a no-break dance was held in honor of fraternity members and their dates.

The fraternity entertained at a house party during the past week-end. Friday evening a buffet supper was given to welcome the guests. Saturday night a theatre party was given. Sunday night the members entertained at a banquet in the club house of Carolina Pines. Monday afternoon the members and their dates attended the State-Wake Forest baseball game. Mr. and Mrs. W. H. Averette of Morehead City acted as chaperons for the house party.

Engineers' Ball

A gala affair, the annual Engineers' Fair here at State, will be climaxed tomorrow night when the "Grand Brawl" is held in the Frank Thompson Gymnasium.

Mr. William New of Waynesville, president of the Engineers' Council, and Miss Matilda Ehringhaus, daughter of Governor and Mrs. J. C. B. Ehringhaus, will reign as "Saint Pat" and "Princess Pat."

During the evening, senior engineers who have proven themselves worthy in their respective fields will kneel before the Princess' thrones and after kissing the blarney stone, will be dubbed a knight of St. Pat.

Jimmy Poyner and his Collegians will furnish the music for the dancing which will take place after the ceremonies.

Kutschinski to Judge

Major C. D. Kutschinski, director of music at State College left for Salisbury this morning where he will serve on a committee of outstanding musicians to judge in the State Junior Musical Contest. The contest will be held Saturday in Salisbury. It is being conducted by the State Federation of Music Clubs.

ARCHITECTURE FLOAT WINS FIRST IN COLORFUL PARADE

(Continued from page one)

the parade. This fire engine was probably the exhibit that attracted the most attention. With smoke pouring from the stack, the pop valve shooting a continuous cloud of steam into the air, and the whistle shrilling, the old engine brought back memories to the older citizens of the town who had probably seen the same engine dashing madly to fires twenty or twenty-five years ago.

Long before the parade began, people were milling about the street waiting to view the handiwork of the engineering students at State College. As the parade came down the street they stepped into the street to better view the passing floats. Judging by comments heard on the street, the parade was entirely successful.

Judges in the contest were Josephus Daniels, Jr., business manager of the News and Observer; George Isley, mayor of Raleigh; and T. S. Johnson, professor at State College. Governor Ehringhaus was to have been a judge in the contest but an illness prevented his being present.

Military Ball

The elaborate preparations for the Military Ball have reached the final stages of completion. The brilliant annual affair will be held on the night of Friday 13, of this month in the Frank Thompson Gym.

Colonel Bruce Magruder says: "From all indications for the preparation and attendance for the dance, I believe we are going to have the most attractive dance that we have had in a number of years."

The gym is to be decorated in true military style and will present the air of a military encampment. The vestibule will contain gun stacks, flags, and other military equipment. Four large shields colored red and white and bearing the initials and insignia of State's R. O. T. C. and two crossed guns will be placed with the various flags over the entrances of the gym; while the ceiling will be decorated by suspended flags and banners. Around the orchestra box will be a miniature camp with tents, guns, and other military equipment so placed as to give a realistic effect. Numerous fir trees will be placed in this camp and around the gym in such a manner as to make the scene more natural. The space under the balcony on either side of the main entrance of the gym from the vestibule will present the appearance of a fortification and parade ground. Sheets of artificial grass will be laid down and a flagpole of miniature size will be the center point of interest in this section. Around it in the usual military style will be grouped machine guns and other equipment.

The feature of the dance program will be the figure. This year the cadets wish to present an entirely different figure. Several innovations in regard to this have been formed and include the presenting of the figure at eleven o'clock this year and every year hereafter. The plans are in the charge of Cadet Colonel D. L. Bohannon. There will probably be at least sixty couples in the figure including Miss Matilda Ehringhaus. Senior escorts will receive a small favor which will be very appropriate for the occasion.

Invitations to the dance have been sent to Governor and Mrs. Ehringhaus, Mayor and Mrs. George Isley, all alumni on the board of trustees, Dr. and Mrs. E. C. Brooks, Dr. and Mrs. Frank Graham, members of the faculty of the college, and military officials of other schools. In addition to this, all cadets will be given invitations to send to their parents. This is being done in an effort to have as many of the parents and outsiders at the dance as is possible.

Preparation for the dance began early in March and a large number of cadets appointed to work on the various committees. There are almost forty boys who are taking active part in making the dance a success and they have all given wonderful cooperation and aid. These boys are from each of the nine companies of the military unit.

Spring Festival Dances

The Sigma Phi Epsilon, Theta Kappa Nu, and Lambda Chi Alpha fraternities sponsored a most delightful set of dances last Saturday in the Frank Thompson Gymnasium.

Dan Gregory and his Victor recording orchestra, featuring Clem "Fat" Garity, Gene Kohler and Bob Levig, furnished the music for both the tea dance and the formal night dance.

Sponsors for the series were: Sigma Phi Epsilon—Miss Carolina Tucker of Raleigh and Miss Eleanor Hayes of Charlotte; Theta Kappa Nu—Miss Jean Montgomery of Charlotte and Miss Mable Olive of Hamlet; Lambda Chi Alpha—Miss Edythe Bagby of Raleigh and Miss Marian Mitchell of Winston-Salem.

LANGUAGE FRATERNITY TO AWARD MERIT KEY

All Students Are Eligible Provided They Have Taken a Language Course

Sigma Pi Alpha, honorary national language fraternity at State College, announced yesterday that a key will be awarded on Scholarship Day to the student at State College who has done the most outstanding work in the language department during the past year.

According to Mike Annetta, president of Alpha chapter, all students are eligible for the award provided they have taken a language course at the college. The fraternity hopes to make the awarding of the key an annual event.

Dr. L. E. Hinkle, head of the language department at State College, is the national president of the fraternity. It is his desire that all of the chapters of the fraternity will adopt the plan to award keys.

The language fraternity is now making plans for the grand convale which will be held at State College in May. Delegates from all chapters are expected to attend.

LANGUAGE ASSOCIATION NAMES HINKLE AS HEAD

Dr. L. E. Hinkle, head of the modern language department at N. C. State College, was recently named president of the Modern Language Association of North Carolina.

Dr. Hinkle, one of the leading professors of modern languages in North Carolina, came to State College in 1918 from Princeton University where he was a graduate student in languages. He is a graduate of Oklahoma University, where he also taught before going to Princeton.

Dances

The Kappa Alpha and Kappa Sigma Fraternities will entertain at a set of dances on Saturday, April 14, in the Frank Thompson Gymnasium.

These will consist of a tea dance and a night dance which will be formal. Music will be furnished by Hilary Thurston and his North Carolinians. Leading the figure from the Kappa Sigma's will be Charles C. Coldiron with Frances Thompson; Henry Mayo with Sara Snipes; and Jimmy Long with Mary Stuart Lackey. From Kappa Sigma will be Jimmy Wright with Mary Helen Stuart; Albert Couch with Frances Huff; and Morrison Cambell with Elizabeth Davidson.

Announcements

Seniors may place orders for their invitations in the Agroneck office Tuesday, April 10, and Friday, April 13. Friday is the last time that orders will be taken. The price for the leather invitation is fifty cents, and the cardboard invitation, twenty-five cents. Cash must be paid when orders are placed.

Dr. E. M. Bernstein will speak at an open meeting of Delta Sigma Pi in Peele Hall Tuesday, April 10, at 7 p.m. on "Recent Banking Legislation."

All individuals and organizations who have not paid for their space in the Agroneck should do so at once. The Agroneck office is located in Fifth Dormitory. Office hours are from 4 to 6 p.m.

R. S. Poole, Business Manager.

All seniors are urged to check at the registrar's office to see that their name is included on the senior class roll to be used in the commencement invitations.

MUSIC TEACHERS ELECT KUTSCHINSKI PRESIDENT

Major C. D. Kutschinski, director of music at N. C. State College, was recently elected president of the State Music Teachers Association of North Carolina.

The Association is made up of college, private, and public school teachers of music.

Major Kutschinski has been a member of the Association for 11 years and has served previously as president and secretary of the group.

The dust hops off these NEW Palm Beach Suits

THE DIRT TEST...

Dust was blown over the face of various types of summer suitings. The suitings were then rinsed in clear water. The dirt that adhered to the fabrics is plainly shown by the color of the water after rinsing. Note that the water in the case of the Palm Beach Cloth tests is almost clear. Other fabrics tested retained from two to five times as much dirt.

Your Palm Beach Suit, because of the smooth yarns of the cloth and its patented construction, sheds the dirt, keeps clean and needs less laundering.

Diagrams don't do it justice. What we need is a microscope. Then we could show you how a flock of dust comes down on a Palm Beach suit and bounces off...doesn't cling a-tall.

We could show you how the clean, sanitary, un-fuzzy fibres of Palm Beach resist dirt. None of the whiskers or scales (scillia) which make wool catch dust and hold it. That's why Palm Beach suits mean smaller laundry bills.

Treat yourself to the cool cleanliness of the new Palm Beach this summer. Look for the label so you'll be sure to get the genuine Palm Beach...smartly tailored by GOODALL...in white and handsome colors. **\$18.50**
