STATE COLLEGE STATION, RALEIGH, N. C., APRIL 27, 1934

OFFICE: 10 HOLLADAY HALL

JUNIORS ATTEND MILITARY CAMPS DURING SUMMER

Colonel Bruce Magruder to be in Command of Fort McClellan This Summer

EIGHTY-TWO TO ATTEND FROM THIS INSTITUTION

All But One Student to Take Advanced Work at Fort McClellan; Juniors Report for Camp Duty June 7 and Serve Until July 18; Boyles Goes to Chemical Warfare Camp at Edgewood Arsenal in Maryland; Magruder Named By General Mosely

N. C. State College will send 82 R. O. T. C. students to military camps this summer for a period of six weeks.

All but one of the 82 men will be in camp at Fort McClellan, in Alabama. S. J. Boyles, Winston-Salem, will be stationed at the Chemical Warfare Camp at the Edgewood Arsenal in Maryland.

Lieut. Col. Bruce Magruder, commandant of the State College regiment, will be stationed at Fort McClellan this summer as commander of the R. O. T. C. training camp. His appointment was made by Major General George V. H. Mosely, commander of the Fourth Corps area of the army and head of all R. O. T. C. activities in the South-eastern States.

The students are to report to camp on June 7 and will complete their six weeks of duty on July 18. Those going to Fort McClellan are:

M. L. Andrews, Parneto; J. A. Bailey, Raleigh; W. E. Barnes, Raleigh; D. F. Behney, Harrisburg, Pa.; C. E. Bernhardt, Salisbury; I. Berson, Newark, N. J.; H. F. Bishop, Chambersburg, Pa.; J. G. Blair, Yonkers, N. Y.; E. L. Bolick, Hickory; C. H. Bronson, Durham; B. S. Burt, Raleigh; W. R. Campbell, Raleigh; F. E. Correll, Cleveland, Ohio; and C. A. Croom, Bolton.

B. Culp, Gastonia; E. C. Dameron, Bessemer City; F. W. Dickerson, Salisbury; W. L. Dixon, Charlotte; O. R. Douglass, Lake City, Fla.; G. A. Fisher, Salisbury; A. L. Folley, Aberdeen; E. B. Fowler, Spencer; T. J. Fowler, Monroe; W. C. Furr, High Point; L. G. Garrard, Durham; W. F. Greenwood, Rocky Mount; A. H. Griffin, Edenton; J. T. Griffin, Centerville; R. J. Griffin, Wilmington; J. L. Hinson, Stanfield; A. F. Hoffman, Adams, Mass.; W. W. Hood, Beaver Falls, Pa.; R. S. Hudson, Raleigh; C. L. Jennette, Raleigh; G. M. Jordan, Raleigh; and C. H. Kerr, Lawrence, Mass.

J. W. Lamberson, Raleigh; W. W. Lambeth, B. Summit; H. H. Latham, Washington; J. J. Long, Edenton; L. H. McCulley, Lenoir; W. R. McKinney, Mt. Airy; L. A. Martin, Nyack, N. Y.; F. N. Pastore, Newark, N. J.; R. C. Paterson, Wilmington; J. W. Peal, Everett; J. L. Ponzer, Elizabethtown; R. L. Poovey, Statesville; W. M. Porter, Charlotte; J. C. Pounds, Concord; D. W. Ramsey, Wendell; R. D. Redding, DeCATUR, Ill.; E. C. Robbins, St. Augustine, Fla.; A. W. Robinson, Greensboro; C. N. Rogers, Bethlehem; A. R. Roy, Louisville, Ky.; J. B. Sauls, Raleigh; W. L. Smith, Raleigh; J. E. Shaw, Macon; E. L. Spence, Kinston; J. T. Stanko, Steubenville, Ohio; C. C. Stapleford, Durham; J. K. Stephens, Apex; R. W. Stephens, Apex; J. L. Summers, Laurinburg; T. T. Swain, Henderson; E. C. Treverton, Marion; P. N. Troshkin, New York City; G. Wheeler, Burlington; M. S. Wilkerson, Whitesville; F. C. Williams, Greensboro; L. B. Williams, Kinston; and S. C. Winchester, Sumnerfield.

W. J. Winfree, Raleigh; R. B. Worth, Raleigh; W. F. Dunaway, Raleigh; J. L. Padgett, Cliffside; J. F. Nycum, Durham; and D. M. Whitt, Greensboro.

THETA TAU GIVES SMOKER TO PROSPECTIVE MEMBERS

Fred Coffman, Grand Regent of Fraternity, Talks on Purposes of Frat

Theta Tau, professional engineering fraternity, held a smoker last night for prospective members.

About sixteen of these men were present.

Fred Coffman, grand regent of the fraternity, spoke on the purposes of Theta Tau, and explained the organization for the benefit of the prospective members.

Bill Boyd, senior in Electrical Engineering, is president of the fraternity.

Textile Exposition Heads

Pictured above are the student textile heads who conducted the fifteenth annual Textile Exposition and Style Show at N. C. State College yesterday. The officers are: Front row, left to right—R. L. Poovey, Statesville, assistant foreman of designing; T. L. Ritchie, Gastonia, foreman of yarn manufacturing; D. A. Brannon, Rockingham, foreman of knitting; E. L. Bolick, Hickory, assistant foreman of knitting; G. T. Gardner, Grifton, superintendent of the entire exposition; P. W. McCullum, Weintworth, foreman of designing; and J. J. Griffith, Kernersville, assistant foreman of dyeing. Back row, left to right: H. D. Whitener, Gastonia, assistant foreman of yarn manufacturing; K. W. Horne, Mt. Olive, assistant foreman of weaving; W. A. Blackwood, Cooleemee, assistant superintendent; H. M. Foy, Mt. Airy, foreman of weaving; and T. S. Blackwood, Cooleemee, foreman of dyeing.

22 RECEIVE BIDS TO PHI KAPPA PHI

Honor Society to Initiate New Members at Carolina Hotel Banquet May 14

Eighteen undergraduates, two graduate students, and two faculty members were tendered bids to Phi Kappa Phi, national scholarship fraternity, Wednesday.

Undergraduates receiving bids were W. E. Barnes, J. P. Abernethy, D. L. Bohannon, R. S. Poole, J. C. Broadmeadow, Joe Dixon, W. E. Adams, J. H. Mullen, L. A. Dudley, Miss Edna Mae Halverson, Miss Mildred Pittman, S. J. Dusinski, C. A. Williams, T. H. Sears, W. B. Boyd, C. D. Thomas, W. J. Brown, and C. J. Brown. All of the undergraduates were seniors.

Graduate students tendered bids were Mrs. Olive P. Worth and W. C. Reddon. Faculty members were Hugh T. Lefler and D. B. Anderson.

The initiation of the new members will be held May 14. The banquet will probably be held in the Carolina Hotel.

PHI ETA SIGMA ELECTS NEXT YEARS OFFICERS

A. J. Gerlock, Mt. Union, Pa., is President of Honorary Group for Coming Year

Phi Eta Sigma, honorary freshman scholastic fraternity elected its officers for next year in a meeting held in the college Y. M. C. A. The sophomores in the fraternity presided over the election.

Officers elected were: President, A. J. Gerlock of Mt. Union, Pa.; Vice President, C. M. Matthews of Washington, D. C.; Secretary, Carl Langs of Melrose Park, Pa.; Treasurer, A. R. Blackburn, Wilson, N. C.; Historian, Dwight W. Durham of Warrenton, N. C.; and Senior Adviser, J. H. Barnhardt of Charlotte, N. C. These officers are all freshmen except Barnhardt who is a rising senior.

Also at the meeting, all recently elected freshmen were presented with their certificates of membership. The recent initiates received their keys at the time of the initiation, March 9.

The purpose of Phi Eta Sigma is to encourage scholarship among the freshmen by rewarding men with membership who make high grades in their first year. The men who are initiated into the fraternity are active members through their freshman and sophomore years. During the junior and senior years, they become associate members.

Show Goes On

Doctor A. C. Campbell, State College physician, invited John Stanko and Phil Stone to go down to the hospital on Wednesday afternoon and watch him perform an operation. Johnny and Phil were given white uniforms and were conducted into the operating room where they took seats and watched the performance.

The boys report that the operation was most interesting to watch but that in the middle of it Doc Campbell's pants fell down, and he had to finish the job without them.

STEPHENS NAMED TO HEAD SENIORS FOR COMING YEAR

Williams Elected As Vice President and Johnston as Secretary-Treasurer

AGROMECK HEADS CHOSEN TO PUBLISH 1935 ANNUAL

Juniors Vote Down Proposal to Have Compulsory Chapel Attendance; Proposal Brought Up By Pine Burr Honor Society; Group Also Votes Down Election of Editor and Business Manager of Agromeck By Student Body Vote

Kenneth Stephens, co-captain of the 1934 football team, was elected president of the Senior Class for next year at a meeting of the Junior Class Wednesday. Hubert Todd and James Barnhardt were elected editor and business manager respectively of the college annual, the Agromeck.

Other officers elected were Leslie Williams, vice president, and E. L. Johnston, secretary-treasurer.

In the race for president Stephens was opposed by T. C. Gardner and E. B. Smith. Stephens received a simple majority over the other two candidates. Williams was opposed by Paul Troshkin and Barnes Worth for vice president. Johnston was opposed by J. B. Sauls, Lamar Summey, and J. F. Pou.

The group voted down a proposal for compulsory chapel by a small majority. Pine Burr, honor society, submitted the proposal to the class because of the apparent lack of interest exhibited by the class in attending the chapel meeting. The proposal called for compulsory chapel twice each term and for called meetings when necessary. The chapel if missed by a junior or senior would count the same as a class cut. The society had worked on the proposal for some period before Wednesday but that meeting was the first opportunity at which the proposal could be presented.

The class also voted down the proposal that Agromeck officials be elected by a popular vote of the student body rather than by the Junior Class. The two other major publications, THE NEWS and the Watauga select their editors and business managers by the vote of the entire student body.

Hubert Todd was unopposed for editor of the Agromeck and was voted the post unanimously by the group. H. M. Cullen was Barnhardt's only opponent for business manager of the annual.

The meeting was attended by about 150 juniors, the largest number that has attended a meeting this year.

CERAMIC HEAD LEAVES TO ATTEND CONVENTION

Greaves-Walker To Be in Charge of Entertaining Visitors at Asheville Meet

Professor A. F. Greaves-Walker left last evening for Asheville to attend the 65th meeting of the Electrochemical Society. Professor Greaves-Walker, a past president of the society, H. and head of the department of Ceramic Engineering at State College, is chairman of the committee in charge of the arrangements for entertaining the visitors.

In addition to this, he received word just before his departure that he had been appointed chairman of the technical sessions to be held today. Professor Greaves-Walker spoke at St. Mary's School on Wednesday in accepting invitations extended him by both institutions.

TWENTY-SIX GET BIDS TO CHEMICAL SOCIETY

Twenty-six Chemical Engineering and Chemistry students elected to membership in Gamma Sigma Epsilon, honorary chemical fraternity, were tendered bids this week.

Students receiving bids are: W. A. Bain, P. L. Barnes, U. B. Blacklock, A. W. Brown, J. G. Copeland, James Fallon, W. G. Faw, J. J. Griffith, H. M. Hamberger, A. L. Johnson, W. S. Leroy, R. E. Lewis, C. E. Lynch, J. T. Nicholson, C. D. Norlander, J. D. Pendleton, J. M. Poyner, J. D. Wren, R. W. Seitz, Martha Smith, A. M. Tatum, E. T. Taylor, F. P. Wilson, C. F. Gorman, S. H. McKinnon, L. B. Williams.

Women's President

MISS CHRISTINE SHEPHERD

The young woman pictured above was elected president of the State College Women's Student Government at an election held by the co-eds Monday. The co-eds have a student government of their own that is entirely separate of the men's government.

SUMMER SCHOOL COURSES NAMED

New Bulletin Giving Information On Summer Session Released This Week

The new State College Summer School Bulletin which gives a schedule of courses offered here during the summer session has been released. The session begins June 13 and runs for six weeks, closing July 24.

In accordance with plans being carried out in the consolidation of the Greater University of North Carolina, the summer school at the three units, State College, the Chapel Hill division, and the Woman's College, have been united into one organization. A director of all three of these schools has been appointed with an associate director for each of the divisions. T. E. Browne is director at State College. Agricultural, vocational, and technical training will be the distinctive field of work at State College, with elementary education the distinctive field at Greensboro, and secondary and graduate work being stressed at Chapel Hill.

There will be a single session of six weeks at all three of the institutions, with a second term of six weeks being offered at Chapel Hill only. The work of the institutions is being correlated and coordinated in such a way that the students and teachers of the State may be served better than heretofore.

During the week of June 25, a series of conferences will be held in Raleigh, Chapel Hill, and Greensboro in connection with the summer session of the University, with lectures and round-table discussion by distinguished leaders in American education. The theme of the conferences will be "The Place of Education in the Program of Reconstruction." A complete program of the conference will be announced at a later date.

Among the distinguished visitors who will participate in the Institute are Professors William H. Kilpatrick, George D. Strayer, George S. Counts, John K. Norton, Edward H. Reinsel, Jesse H. Newton, Louis C. Mossman, John J. Coss of Columbia University; Dean Malcolm Maclean of the University of Minnesota; Professor Edwin H. Reeder of the University of Vermont; Dr. Sidney R. Hall, State Department of Education of Virginia; Mr. J. C. Wright, United States Office of Education; Governor J. C. B. Ehringhaus; Dr. Clarence Poe, editor of the Progressive Farmer; and others.

Many of these visitors will lecture and conduct discussions in Education 107. In connection with the Institute of Public Welfare, which is held annually at Chapel Hill in cooperation with the State Board of Charities and Public Welfare, there will be held in the week of July 16 to 20 a conference on the question of labor and industrial relations. This conference will be held partly in Raleigh and partly in Chapel Hill. The program is being worked out with the cooperation of the State Department of Labor, the Commissioner of Charities and Public Welfare, and other State leaders, and with officials of the United States Government in the Department of Labor at Washington.

THROUGH ATTENDS MANY FEATURES OF TEXTILE FAIR

SURVEY INCLUDES TEXTILE SCHOOL

State Textile Department is Found in Report of Textile Foundation

A survey of the Textile School of N. C. State College is included in the report of the Textile Foundation made from the results of a six months study of educational facilities and methods of training men in eleven textile engineering schools or institutions in the United States. The practical report, now available from the Foundation headquarters in Washington, D. C., was conducted with a view of the requirements of a nine billion dollar industry for trained personnel.

The survey was conducted by Frederick M. Feiker, a graduate of Worcester Polytechnic Institute and now Executive Secretary of the American Engineering Council of Washington. His advisory committee consisted of Dr. E. C. Brooks, president of N. C. State College; Dr. Karl T. Compton, president of Massachusetts Institute of Technology; and R. E. Doherty, dean of the School of Engineering, Yale University.

Opportunities for trained men in the textile industry are reviewed in the report, which also discusses the specialized training necessary to equip men to cope with the problems of the industry, as well as the opportunity for textile schools to meet the new requirements for trained personnel. The hearty cooperation of the various textile schools and of numerous executives of the textile industry has aided greatly in the preparation of this report.

Of the schools investigated, three of textile schools are located in Massachusetts, two in Texas, and one each in Rhode Island, Pennsylvania, North Carolina, South Carolina, Georgia, and Alabama. The report contains brief histories of the development of these textile schools, an analysis of the educational significance of the present trends in the industry, several proposals for matching present educational trends with present educational methods, and numerous suggestions for training in the field of economics, industrial management and sales research.

SHEPHERD NAMED HEAD OF CO-ED GOVERNMENT

Miss Christine Shepherd, of Raleigh, was named Monday as president of the Women's Student Government at N. C. State College in elections held by the co-eds of the college. Miss Estelle Doyle, who polled the next highest vote was named vice president. Martha Smith was named secretary and Eloise Gibbs, of Columbia, was voted the treasurer position.

Co-eds named to the Women's Council were Hilda Fuller, Raleigh, senior member; Eleanor Green, Raleigh, junior member; Margaret Owens, Raleigh, sophomore member. Members of the House elected were Kathryn Pierce and Aileen Jenrette, senior members; Hazel Beacham and Sue Pierce, junior members, and Antrine Nichols, sophomore member. The elections Monday was the fourth held since the Women's Student Government was inaugurated at State in 1930. Miss Lorena Brinson was the first president of the Womens government at State.

Ball and Chain

On this much over-organized campus there has appeared a new society, the Order of Ball and Chain.

The membership of this club will be composed of those students in the Senior Class who are married, either benedicts or old heads. The purpose of the society has not been ascertained. Mike Annetta, one of the charter members, estimates that there are about fifteen married men in the Senior Class.

All seniors who are married and wish to become members of the Ball and Chain Club are requested to report to "Mope" Cumiskey so as to get their names on the society roll.

Annual Textile Exposition and Style Show Larger Than Ever Before

STYLE SHOW DRAWS CROWD ENTIRELY FILLING PULLEN

Over 100 Girls from Nine Colleges Take Part in Style Show; Meredith Girl Wins First Prize for Best Costume; Visitors Shown Workings of Textile School; Meredith Girl is Winner of First Prize for Best Costume in Show

By FRED GORE

The seventh annual Textile Exposition and Style Show which was held yesterday by the Textile Students of State College was one of the largest which has been held, people coming from all parts of the State to attend and participate in the event. Elizabeth Lewis of Meredith College won the grand prize for having the best outfit at the Style Show.

With a clear sky and crowds milling about the buildings the Exposition was opened at ten o'clock with a meeting of the Eastern North Carolina Division of the Southern Textile Association. A large number of the members were present at this meeting and many things of interest to the Textile world were discussed.

At two o'clock the Style Show was opened in Pullen Hall by several selections by Major Kutschera and 103 girls representing nine girls' colleges took part in the show, modeling dresses made by them from material that was furnished, designed and made by textile students at State College. Judges for the Show were: Miss Madge Cobb, Assistant Supervisor, Home Economics Department of Education, Raleigh; Mrs. H. H. Dalton, stylist, Raleigh; and Miss Willie H. Hunter, extension specialist in clothing, Division of Home Demonstration Work, State College, Raleigh.

Dean Thomas Nelson, head of the Textile School, gave a short talk on the history of the Textile School at State College. He said "This is not merely a Style Show, but a demonstration of what the students at State can do in textiles. Since 1929 the growth of textiles has been phenomenal."

The grand prize, a bouquet of flowers, contributed by the J. J. Fallon Co., florists, was won by a Meredith Student, Miss Elizabeth Lewis. Miss Lewis' home is in Clifton, Arizona. The goods worn by her were made by F. A. Thomas and M. A. Rhyne, and was of green and yellow plaid gingham material. Her outfit, in the form of a raincoat and umbrella, was cravatented by the Cravatente Company of the U. S., Hoboken, N. J. The coat was lined with plain yellow and the umbrella was covered by Miss Lewis. Black galoshes with the cuffs lined with the plaid fabric were also a part of the outfit. The time required to make the complete outfit as stated by Miss Lewis was a month and a half.

Other winners in this contest were: from Catawba, Fannie Stokes and Blanche Wyatt, from Elon, Marguerite Harris, Emma Lloyd and Elizabeth Stephens; from Flora MacDonald, Clara Fussell, Alice Gannon, Elizabeth Mariner and Maud Newton; from Louisville, Lucille Sherman, Virginia Siler, Ida Fuller and Della Budd; from Meredith, Celia Ellis, Alice Bryan, Elizabeth Blanchard, Nancy Allen and Ruby Pearson; from Peace, Joyce Wilcox and Margaret Cochran; from Queens-Chicago, Mildred Brown, Dorothy Johnson, Louise Orr, Marguerite Prevost and Bettie Cabell; from Saint Mary's, Maria Tucker, Jane Flannigan, Frances Adams and Sallie Heywood; from the Woman's College of U. S. C., Evelyn Sharpe, Martha Lockhart and Emma Aderholt; Lucille Farmer and Helen Strickland.

After the judges had announced the winners of the contest and the prizes were given out a picture of the group was taken in front of the Library. Pictures of the winners were also taken. At four o'clock the Textile building was opened and all of various phases of textile manufacturing were demonstrated by the students. The Yarn Manufacturing Department afforded one the pleasure of seeing how the fleecy, downy cotton is transformed into the finest of threads. Looms were in operation in the weaving room and fancy rayon, and cotton fabrics, designed and woven by the students, were on display in the exhibit room. The Knitting Department had in operation (Please turn to page six)

Old College Annual Reveals Naming of 1911 Dormitory

Dormitory Was Named in Honor of Class of 1911 Which Abolished Hazing

FROSH LED TOUGH LIFE BEFORE MOVEMENT TAKEN

Freshmen and Sophomores Stage Battle Royal in 1908 With Dire Results

By JOHN PENDLETON

When at the end of a season of hazing worthy of the tests to which old Sparta put her heroes, and forty-four members of the class of 1911 survived, they resolved that never again should a class of freshmen have to run the gauntlet from face blacking to the water wheel, according to the pages of the 1911 *Agromock*.

With W. M. Lambeth as president, the class of 1911 as freshmen answered the challenge of the sophomore class to meet in a pitched battle. Showing that they could take it, they exchanged lusty blows with the sophomores on the jousting field, and when both classes left the field each had a mighty respect for the other along with bruises, goose eggs, closed peepers, and sprained necks.

The second year of their stay at State College they pledged their word that henceforth a freshman should not face the hazing of the sophomores. Although they signed no pledges, they solemnly "shook hands on it." When the class of 1912 matriculated, they went unmolested, and the example has since been followed. The same year they made their pledge, Dr. D. H. Hill became president of State College, then known as Carolina A. and M. A building program started in 1909 saw the erection of a great engineering building and 1911 Dormitory. The following plaque was placed over the entrance of the center door of 1911 Dormitory:

To the Class of 1911
In Testimony of its Loyalty
To the College
In its Sophomore Year

To the class of 1911 the dormitory stands for the four years in which it gave the eternal freshman an everlasting guarantee of not having to wear the thumb screws before becoming a member of the Wolf Tribe, the South Atlantic Championship in football, the beginning of Dr. Hill's administration, and four unforgettable years.

ELECTRICAL TO LEAVE TO TOUR POWER PLANTS

Twenty seniors in electrical engineering will leave Wednesday morning to make a three day inspection trip of power plants in the vicinity of Charlotte.

The group will visit the plant at Norwood Wednesday and will spend the night in Albemarle. The next day they will visit the plant at Baden, and the telephone and telegraph exchange in Charlotte. On Saturday they will visit the River Bend station and the Mount Island plant. They will return to school that night.

Those making the trip are W. R. Aycock, D. S. Barnes, W. J. Becton, J. C. Bolen, C. J. Brown, William Boyd, F. A. Carter, J. W. Coffey, L. L. Cole, H. M. Cooper, M. W. Foscoe, J. T. Freeman, E. M. Geddie, J. W. Hunter, J. E. Jenkins, S. C. Lynch, W. B. Powell, Myron Reeves, J. W. Smith, and N. M. York.

MONOGRAMS TAKE NEW MEN INTO SPORT CLUB

At the regular meeting of the Monogram Club on April 18, eight new men were initiated. Men initiated won their varsity monograms in football, basketball, swimming and wrestling. The new initiates with the sport in which they won their monogram: Milan Zori, basketball; Boyce Holeman and F. N. Thompson, swimming; Charlie Nolen and Craig Furr, wrestling; L. H. McCulley, football; and Charlie Stott and Frank Doggett, managers of the swimming and wrestling teams respectively.

STATE DEBATERS CONCLUDE SEASON

Team Ties for Second Place at Speech Teachers' Convention at Birmingham

The State College debate team has concluded a successful season last week at Birmingham, when it tied for second place in the Southern Tournament. The team tied for this place in both South Atlantic and Southern states.

At the convention, Dwight Stokes won the first place in interpretive reading. Stokes also won third place in the National extemporaneous speaking contest at the Pi Kappa Delta convention at Lexington.

The debate team composed of Dwight Stokes and R. L. Batts went through seven rounds of debates at the tournament, definitely placing itself above 100 other debate teams in the country. The team also gave a demonstration of the direct clash system at Lexington, when they debated Redlands.

H. D. Carpenter, representing State College, won first place in oratory at the South Atlantic contest at Greensboro. He won first place in North Carolina afterdinner speaking as well as third place in South Atlantic afterdinner speaking.

Outside of the tournaments there were only three decisional debates. State won in the clash with Bates College, which was held during the National Association of Teachers of Speech convention at New York City, and one clash with Wake Forest. Wake Forest also won one clash from State. The team participated in many practice debates which were non-decisional. Other members of the team are Horace Cotton and Frank Busbee.

Protest Athletic Tax

The ten percent admission tax on college athletic events was protested here before the Senate Finance Committee by representatives of the National Collegiate Athletic Association. They claim that the tax is driving away spectators and crippling self-sustaining college sports.

Conducting the fight are Frank McCormick, director of athletics of the University of Minnesota; D. H. Harrison, University of Pittsburgh athletic director, and C. P. Miles, athletic director of Virginia Polytechnic Institute.

They state that the athletic associations at Notre Dame, Southern California, Army and Navy are the only ones in the nation now making money. The 10 per cent tax was collected first in 1930 and brought in \$900,000 instead of the anticipated \$3,000,000, the N. C. A. A. men claim. The Government will take in only \$132,000 this year.

Profs Choose He-Man Books for Desert Isle

A Boy Scout Manual, the White House Cook Book and Robinson Crusoe, were some of the tomes chosen by University of Chicago professors for reading on a fabled desert isle. The outcome of the questionnaire shows, said a campus wit here, that the faculty would like to be invited to the White House, to travel dangerously with Defoe in a dressing-gown and slippers before the fire, and to eat out of doors with a Boy Scout knife.

EXPERIMENTAL THEATER MAKES TOUR OF SOUTH

Engagements in Near Future Are at University of North Carolina and Goldsboro

The Experimental Theater gave three successful productions while at Birmingham, Alabama, according to Frank Busbee, business manager of the club. The impromptu and extemporaneous plays were produced before the Birmingham Little Theater at Birmingham, Howard College Dramatic Club, and the Southern Association of Teachers of Speech. The production before the Southern Association of Teachers of Speech, marked the recognition of the dramatic value of the new type of plays.

The group also gave a performance for the Little Theater of Charlotte on April 23. This performance was the sixteenth public appearance of the Experimental Theater before various audiences over the South.

There will be two more engagements in the near future, one at Goldsboro and one at the University of North Carolina.

The plays were produced under the direction of Prof. E. H. Paget, aided by a cast including Frank Busbee, H. D. Carpenter, Dwight Stokes, and Prof. and Mrs. Paget.

Not Idle Rich

Students in modern colleges are not members of the idle rich, is the result of a survey at the University of Wisconsin. Over two-thirds of the parents of students here are engaged in occupations under the headings of "trade," "manufacture," "agriculture." The parents of the students for the most part have not had a college education.

JUDGING CONTEST TO BE HELD HERE

Representatives From Six Southern Colleges to Take Part in Contest Today

Livestock judging teams from six colleges and universities of the South will participate in the sixth annual collegiate livestock judging contest to be held at State College today, announces John E. Foster, associate in the animal husbandry department.

Professor Foster says teams from the University of Tennessee, Virginia Polytechnic Institute, Clemson College, Mississippi State and the universities of Florida and West Virginia will take a part in the contest. The teams will consist of three students and an alternate each and will judge three classes of beef cattle, three classes of sheep, three classes of hogs, one class of mules and one class of horses. Actual judging will be done at the State Fair Grounds and will be under the supervision of Prof. Earl H. Hostetter, in charge of livestock research work at the college, assisted by John E. Foster, L. I. Case and R. E. Nance. The contest is held under the auspices of the college animal husbandry department, the student agricultural club, and the animal husbandry club.

Since State College is the host institution, no team will be entered from the college. Professor Foster says a loving cup will be awarded to the highest ranking team in all classes. Individual students

FRESHMEN IN A. I. Ch. E. ELECTS SPRING OFFICERS

Vincent Thorpe Makes Talk On Glass and Glass Manufacturing in United States

The freshman division of the American Institute of Chemical Engineers held its regular weekly meeting Wednesday in Winston Hall.

At a previous meeting the following officers were elected to head the society for the spring term: Hall Morrison, president; Max Saunders, vice president; C. D. Delamar, secretary; and Fred C. Gore, reporter. These new officers took charge of the meeting and a program was had in the form of a talk by Vincent Thorpe. Thorpe spoke on glass and glass manufacture and was supplemented in his talk by Dr. E. E. Randolph.

C. M. Heck in Washington

Prof. C. M. Heck, head of the physics department at State College, and G. W. Bartlett of Swannanoa, graduate student in physics, will represent State College at the American Physics Society in session in Washington this week-end.

winning first, second and third places, will be given gold, silver and bronze medals. In addition, gold medals will be awarded students ranking first in judging beef cattle, sheep, hogs, and mules and horses. The contestants will be graded on the basis of 50 per cent on their placings and 50 per cent on oral reasons for so doing. The final awards will be announced at a banquet to be held in the college dining hall this evening at seven o'clock.

"Y" CONFERENCE TO BE HELD HERE

Approximately Seventy-five Delegates to Attend Annual Meeting at State

Approximately seventy-five delegates from different colleges of the State are expected to attend the annual North Carolina Y. M. C. A. Y. W. C. A. Officers Conference which will be held here today, tomorrow, and Sunday.

The conference opens this afternoon with registration in the Y. M. C. A. building followed by a tea and social hour and dinner. At seven o'clock tonight Claude D. Nelson of Atlanta, Georgia will deliver the opening address. A discussion period will follow his address.

Rev. J. F. Fletcher will talk to the delegates tomorrow morning at 9:30 o'clock. At 11 o'clock election of officers for the coming year will be held. At this time there will also be reports and suggestions for next year. The afternoon will be devoted to discussion groups. Rev. Fletcher will again talk to the group that evening. Sunday morning will be devoted to the installation of officers, reports of the conference, and expression hour. The group will attend church services at the Pullen Memorial Baptist Church at 11 o'clock.

The theme of the conference will be "Right Relationship with God and Men." Miss Rosanella Cash of Duke University is chairman of the conference.

CONGRESSMAN TO SPEAK AT Y. M. C. A. TOMORROW

Congressman A. F. Lever of South Carolina will speak at N. C. State College Saturday morning at 11 o'clock on "The Farm Credit Administration." The address will be delivered at the College Y. M. C. A. Auditorium and is primarily for agricultural students on the campus. The public, however, is invited to attend the lecture, Dr. Z. P. Metcalf, director of instruction in the school of Agriculture, announced.

COLLEGE COURSE AT GYM STUDIED

Students Can Elect Thirty Hours Work in Physical Education for Degree

DEPARTMENT COMPARES FAVORABLY TO OTHERS

Three Phases of Gym Program at State Work Successfully Under Miller

In a recent study made by the Department of Physical Education, the curricula and required courses offered in this field were found to compare most favorably with those of other colleges in the South.

The curricula offered in the Physical Education field at State is a rather new development here. With the present system, Physical Education has been made one of the options in the School of Education, and while a student cannot major in this course, he can make it a minor and take thirty semester hours in this subject.

Students who have had the most experience in sports playing and coaching will be allowed to take this option.

When interviewed on the proposed changes and additions, Mr. Miller gave many facts and figures on his department which had not before been realized and which are probably not known by the school at large.

"I am especially proud of the required courses in physical education given to all freshmen and sophomores in the college," said Miller. "Many colleges simply provide a place and equipment for the students to get exercise, and in these schools not many of the students avail themselves of this privilege.

"The purpose of our required physical education classes goes far deeper than to just give the student physical exercise while he is in college. It is our hope that the student will find some sport which appeals to him and become so proficient in it that he will take an active interest in it after he leaves college.

"Another example of the correlation between different phases of our physical education program is the fact that all games played in our intramural program are taught in the required classes.

Students receive instruction in the fundamentals of the game in class work, and then the zest of competition is added when they participate in intramural league games.

Mr. Miller also stated that while a member of the physical education staff was in all the required classes to give instruction, student assistants who were taking the elective courses got actual coaching and teaching experience in teaching the freshmen and sophomores.

Announcements

Any student wishing to try out for a position on the editorial or business staff of The Technician will please call by The Technician office in the basement of Holladay Hall Tuesday at 7 p.m., Wednesday 2 p.m. to 8 p.m., and Thursday 2 p.m. to 6 p.m.

The Sophomore Assembly for the month of May will be held next Wednesday, May 2, at twelve o'clock in Pullen Hall.

The Taylor Society will meet in 108 Peele Hall, Thursday at 7 p.m. Officers will be elected.

Speaks to Frat

B. F. BROWN

At the final open meeting sponsored by Delta Sigma Pi, international commerce fraternity, the dean of the Science and Business School pictured above predicted that in the future man will control the world as he sees it.

COUNCIL MEMBERS INSTALLED FRIDAY

Members of 1934-35 Student Government Offices Take Oath At Frosh Chapel

New Student Government members were inducted into office at the Freshman class assembly held last Friday in Pullen Hall.

Following this was the installation of the Council members as a group. These men elected to represent the various schools of the college are as follows: Juniors Bill Sullivan, Engineering; Marshall Gardner, Business; John Stanko, Education; Claude Carrow, Textile; and John Findlay, Agriculture; Sophomores, C. H. Lloyd, Business; W. B. Aycock, Education; T. M. Jenkins, Textile; and H. F. Chilson, Agriculture; Bob Seitz, Engineering; and S. K. Hudson, Agriculture; Freshmen, Hall Morrison, Engineering; Lloyd Brown, Textile; and C. A. Ryther, Business.

Bill Barker, then introduced Prof. W. N. Hicks who gave a talk on the merits and possibilities of Student Government.

Bill Barker closed the installation with a speech in which he said that he had enjoyed working with the Council as their head and hoped that he had not made too many errors.

DUKE WINS OVER STATE IN TENNIS ENGAGEMENT

The Duke net team scored an overwhelming victory over State's tennis team here Monday afternoon.

In the only match to run more than two sets M. A. Wright scored State's only victory. He defeated McNeil 10-8, 2-6, 6-3.

Singles results: Kenyon, Duke, defeated Renn, 6-4, 6-2; Martin, Duke, defeated Westbrook, 8-6, 6-2; Morefield, Duke, defeated Fisher, 6-3, 6-2; Wright, State, defeated McNeil, 10-8, 2-6, 6-3; Taylor, Duke, defeated Foley, 6-2, 6-0; and Caton, Duke, defeated Brown, 6-2, 6-4.

Doubles results: Kenyon and Martin, Duke, defeated Fisher and Renn, 6-2, 6-2; Morefield and McNeil, Duke, defeated Wright and Foley, 6-3, 6-2; and Taylor and Caton, Duke, defeated Brown and Westbrook, 6-1, 7-5.

NETMEN OF CAROLINA WIN OVER STATE HERE

University of North Carolina tennis team won all nine matches in a dual meet with State here yesterday, but the Techs showed marked improvement over their play in a recent meet with the Tar Heels.

Carolina's No. 1 performer—Harvey Harris, Raleigh youth—did not play, and State was minus the services of A. L. Foley, veteran player who was operated on Tuesday.

Summaries of yesterday's play: Willis defeated Wright, 6-0, 6-4; Levitan defeated Renn, 6-0, 6-1; Jones defeated Westbrook, 6-3, 8-6; Minor defeated Fisher, 6-4, 3-6, 6-0; Lovill defeated Brown, 6-1, 6-0; Johnston defeated Perry, 6-0, 6-1.

Minor and Levitan defeated Renn and Fisher, 6-3, 6-2; Willis and Lovill defeated Brown and Westbrook, 7-9, 6-2, 6-3; Johnston and Jones defeated Wright and Perry, 7-5, 6-1.

BROWN PREDICTS WORLD CHANGES

Business Dean Says Man Will Control World to Suit Needs In Future

Making a prediction that man in the future would control the world to suit his needs, Dean B. F. Brown, head of the Science and Business School, told of the advancement of the world in the past two centuries at the final open meeting of Delta Sigma Pi, international commerce fraternity, Tuesday evening.

"Changes are taking place in the world at a constantly accelerated pace," said Dean Brown. "One of the greatest achievements of recent years has been the conquering of superstition. Only two hundred and fifty years ago the early settlers of this country believed in witchcraft. It is only within the past few years that Turkey has discarded its ancient superstitions and customs and replaced them with modern institutions. The ability to discover the relation between cause and effect lies at the bottom of man's increasing power to dispel superstition.

"However great has been our progress, there are still a large number of cause and effect relationships that we do not understand," Dean Brown pointed out. "For instance, we do not yet know the cause of depressions. It is especially in human relations that scientific procedure has not been utilized. But the next twenty-five or thirty years will see an increasing amount of control exercised by man especially over himself. The fundamental laws of human relations will be discovered, and society will know the remedy for its ills.

"We are going to have an increased measure of control over our environment. We know whence our corn crop comes, but not whence our criminal crop comes. In the future we will be able to solve such problems by the application of scientific knowledge. The Russians and Italians are now trying to run their world and not let it run itself.

In conclusion Dean Brown stated, "Where cause and effect have not been related—the open mind. Where they have been related—knowledge."

ESQUIRE WATAUGAN MAKES APPEARANCE ON CAMPUS

The Esquire issue of The Wataugan, campus humor magazine, made its appearance on the campus Tuesday marked by an attractive cover.

The issue contained the usual crack or cracks at The Technician, a good article by Carter Williams on "Leadership," an introduction to the new editor, and the contributors, a passable short story by David Perkins, and the much commented upon "We Just Heard."

The magazine attempted to follow throughout the general pattern of Esquire, new men's magazine, and succeeded remarkably well under the circumstances. The issue was marked by the return of at least two articles of literature, which has heretofore been lacking.

The cartoons were good, as well as the make-up. The man in the black slouch hat seems to have gone "nuts" over Meredith. He has never had a column when the Baptist institution did not get less than half his space. The article "Do Professors Breathe" had a good title, but the story had absolutely no meaning. It was more or less a conglomeration of words intended to sound good to the reader but to mean absolutely nothing.—G. N.

SUMMERS ELECTED HEAD OF MECHANICAL SOCIETY

E. S. McCarn Presented With Book For Being Most Valuable Man to Society

J. L. Summers was elected chairman of the State Student Chapter of American Society of Mechanical Engineers by popular vote Tuesday night at the weekly meeting of that society in Page Hall.

Other officers elected were: A. K. Pearson, vice chairman; Bill Moody, secretary; E. L. Roper, treasurer; and "Smut" Smith, council member. J. L. Summers automatically became a council member.

The society, under the leadership of the new chairman, passed a motion to appoint a committee to discuss members of the sophomore and freshman classes who were eligible and fitted to be appointed as alternate to the council. At the next session this committee, composed of A. K. Pearson, chairman, and "Smut" Smith, assistant, will report on their investigation and the candidates will be voted upon to select one as alternate.

E. S. McCarn was presented with the book, John A. Brashier's Autobiography. This book is the annual award given by the Senior American Society of Mechanical Engineers to each Student Branch of the society to award to the member who has done the most outstanding work and shown the greatest interest and cooperation in the affairs of the society. This book is available only to the senior branch of the American Society of Mechanical Engineers and cannot be purchased at any price anywhere. It is the highest award the student branch can make to one of its members.

STATE GROUP ATTENDING WINSTON-SALEM MEETING

A group of students from State College are attending the statewide convocation of the student government representatives in Winston-Salem.

Those attending are: W. P. Kanto, Claude Carrow, Bob Seitz, John Findlay, and Bill Aycock. Kanto is the only senior council member on the trip. Carrow is the new vice president of the student body; Seitz is treasurer; Findlay is council member from the Agricultural School, and Aycock is secretary.

The convocation is being held at Salem College. Two other members are attending a Southern meeting of student government in Atlanta, Ga. These men are W. H. Sullivan, Jr., past secretary and Marshall Gardner, newly elected president.

Strick The leader of the student federation at Stuttgart, Albert Schmehle, declared in a programmatic speech: "No German student will be permitted to cross the German frontiers unless having been submitted to a thorough examination of his character, his views and his abilities. We can and will not permit anyone to represent Germany abroad who is not a 100 per cent German and National Socialist."

FERA Pays \$2,606.36 According to M. L. Shepherd, self-help director, the government paid \$2,606.36 to 148 students in the FERA for a month and four days work.

SENIORS INSPECT NAVY SHIP YARDS

Twenty-three Mechanical Engineers Making Tour of Newport News Yards

Twenty-three students in the mechanical engineering department at State College left yesterday morning for a two-day inspection trip at Newport News, Va.

Yesterday afternoon the students inspected the ship yards of the Newport News Shipyard and Drydock Company and went aboard the Ranger, the newest and most modern aircraft carrier now almost completed and ready for service in the navy, and inspected the ship.

Last night the Tidewater Alumni Association of State College entertained the students at a banquet.

Today will be devoted to the inspection of the National Advisory Committee for Aviation Laboratories at Langley Field and the air corps and airplanes at the field.

The students were accompanied by Prof. John M. Foster, head of the Aeronautics department, and J. C.

CHILDREN OF THE DEPRESSION

With commencement exercises only about six weeks away, those who are ending their college careers here have begun to wonder of the prospects of making a livelihood after the roll has been called and they have received a diploma which signifies four years of labor at this institution.

The present graduating class will no doubt find it easier to secure positions than the three classes graduating before them. Business is now on the uplook after four years of the darkest depression. During this four years, college graduates have fared much the same as others. Positions were few and far between. Men who had held positions for twenty and thirty years found themselves suddenly without means of support. It struck a severe blow at those who were graduated during this period and at those who had been graduated in the few years preceding the depression.

Those who went through college during this period have secured a world of experience which they would not have had if they had been in college when times were more prosperous. The depression has sobered men to the fact that they must hold on to a position when they are employed, and strive to put their utmost in their work. Those that were fortunate enough to hold their positions and have proven their worth will rise to better positions when the incoming horde of new workers pour in. Promotion for them will come almost immediately.

Most of the schools report that large companies have again started employing college graduates. Firms which ceased sending representatives after the depression set in have sent representatives to interview prospective candidates for employment, and already some of this year's class have been placed or are practically certain of positions.

Some time will elapse before graduates will receive employment as they did before the business slump. In former years quite often the graduate had to choose between a number of positions which had been offered him. The government codes have gone a long way toward creating positions for the graduate. Firms which had been getting along with a limited force suddenly found that they must hire more men under the new working hours and wages. This naturally created a demand for more workers, and graduates stepped into many of the new places.

In this modern technical world State College will come in for her share of positions being offered. Her graduates will be fitted to take their places alongside those graduates of other similar colleges.

GOOD-WILL AMBASSADORS

Recently, Golden Chain, senior leadership society, has been sending its members to different high schools of the state to give the students in these schools a picture of the courses offered here and a general view of college life.

Personal representatives have a great advantage over letters and pamphlets. The prospective college student comes into contact with the representative and can derive more information than the printed matter could ever give. The advice of these ambassadors from State College will in all probability decide for many students who are in doubt as to which college to attend the advantages of coming here. Quite often high school students are in a quandary as to which college to attend and only a little encouragement will decide the matter for them. The object of these visits is not to inveigle students into coming to this institution, but merely to show the courses offered and campus life, and let the student decide for himself.

Golden Chain is to be commended for its forward step.

Now that elections are practically over, all that is left is the many conventions and inspection trips that spring up about this time of the year. It seems that students enjoy these almost as much as the elections.

COMPULSORY CHAPELS

A very definite lack of interest exhibited by juniors and seniors in class meetings has resulted in one of the honor societies drawing up a proposal for compulsory chapel attendance.

The proposal follows:

"Having investigated and considered the procedure of calling upper class meetings at the other 'Big Five' institutions of this state, and having considered the opinions of faculty members and campus leaders here at State College, we, the Pine Burr committee on compulsory chapel, have come to these conclusions and have drawn up the following plan:

1. There shall be compulsory class meetings for the Junior and Senior classes.
2. These meetings shall be held twice each term, along with called meetings when necessary.
3. The seating arrangements shall be in charge of the vice president of each class, with such aid as he may desire.
4. Attendance will be checked by a committee appointed by the president of the class.
5. Absence from such a meeting shall carry the same penalty as a class cut.
6. The programs for these meetings will of necessity be mainly business, but this shall be left to the discretion of the class president.
7. The dates for these meetings shall be set by the class president, not later than two weeks after the beginning of the term; and shall be announced by him at that time, and also one week before each meeting.
8. The most appropriate time to have these meetings will be from twelve to one o'clock on Wednesday, as there will be less class conflict at that time.
9. Any student having a conflicting class shall be excused.

The reasons for the investigation and the advancement of these plans are as follows:

1. At the present only a small number of the class members attend meetings and transact the business of the class.
2. Since the most important officers on the campus result from class elections, it is necessary that they represent the majority—not the few.
3. The Junior and Senior classes practically control campus affairs; therefore, these affairs should be brought before the class members as a body.
4. This plan will result in a better understanding of class business. The fact is especially essential to the two upper classes, since there is a much greater amount of business to be transacted than in the two lower classes.
5. It is believed that the plan will result in better class and school spirit.

Anyone who has witnessed the attendance of the two upper classes this year at meetings will readily agree that something must be done, and apparently the only method of remedying the situation is compulsory chapel attendance. At the recent elections for Student Council and House representatives in the Junior Class some schools had only two or three students at the meeting to cast a vote. At a previous meeting to decide on the Junior-Senior Prom only fifteen Juniors were present to cast votes. The Junior Class has over three hundred members. When only a few take an interest in proceedings that should be of vital interest to all, and the rest of the members show an attitude of utter indifference, then compulsory chapel attendance is the only resort.

The Junior Class is not the only offender. The Senior Class is almost as guilty. Some meetings have been held this year with less than two dozen members present. Important issues have been brought up and passed or rejected by the vote of only a small percentage of the class.

As the situation now exists, there is not a true democracy in the Junior and Senior classes. Democracy comes from the will of the majority. As long as only a few carry on the business of the two classes there will be heard loud cries of protest from those who have had an opportunity to voice their opinions but who have not availed themselves of the privilege by showing enough interest to attend the meetings.

At a meeting Wednesday the Junior Class showed itself not in favor of the required chapel. The vote against this was carried only by a small majority. Those students who were genuinely interested in the welfare of the class were voted down by those who thought their time much more valuable than having it wasted by attending insignificant chapel meetings.

A SUCCESS

The Textile Exposition and Style Show held at State College each spring showed by the attendance yesterday that the event is gaining in popularity yearly.

Thousands thronged the building where the results of student handiwork in textiles were exhibited. The Style Show was presented in Pullen Hall to an overflowing audience, which crammed every available inch of space in the auditorium.

Many comments were heard on the excellence of the entire affair, which should go for making a bigger and better exposition next year. Those students who devoted much time and effort toward making the exposition a success deserve a large amount of praise as should also go an even greater amount of praise to the head of the school, Dean Thomas Nelson and his assistants.

This event is one of the greatest aids to State College in bringing to the view of the public the type of work done by the students at this institution, and impressing upon them the fact that the school is turning out future leaders in the textile industry.

HERE AND THERE

By G. W. FORD

Among the many things that we could do without, we have the girl who, when she meets you at a dance, says, "Isn't the music *terry*?", or, "I got *merd* all over my feet on the way in."

I hate to act dumb, but it becomes exceedingly hard, at times, to understand just what they are trying to say. If you ask one of these girls whether or not she reads *Ballyhoo*, she will emphatically tell you that she does not. Upon pushing the question you may get her to admit that she once saw a copy that a friend had.

Far be it from me to run down any magazine; I would only like to suggest that its readers do not try to imitate its phrases. Imagine how it would be if we all went around speaking like Joe Penner, Ed Wynn, Amos and Andy, and the Baron Munchausen.

Someone informed me the other day that it costs the College eight cents every time they blow the whistle at the power plant. By taking credit of the regular whistles which are blown by eight cents per whistle, seven days per week, twelve weeks per term, and three terms per year I figured that it costs them \$613 per year just to blow the whistle for class changes.

Think of all the ice cream cones they could buy if they didn't waste all that money blowing a whistle.

I'll have to take back what I said about the band last week. They did real good at the parade on Monday.

When Audrey Rowell was down to the Easter dances with J. D. Swain she left forgetting her purse. J. D., not having had the time to return it, has taken good care of it. . . in fact, they tell me that he has made something of a fetish of it.

I thought that all the campus polking had ended a couple of weeks ago, after the student body elections. Once again I was wrong. . . back patting, hand shaking, and all those other traits common to office seekers sprung up anew at the Junior class elections on Wednesday. The co-eds were divided into three factions: those who voted for the boys they knew; those who voted for the boys who looked good to them; and those who didn't vote. . .

They tell me that Tommy Kerr is the best player on the freshman baseball team. Tommy was umpire at the game with Louisburg last Tuesday.

At one time I thought that the WELCOME sign on Seventh Dormitory was put there to welcome the high school teams that were competing in the tournament. It has been there so long that I'm beginning to wonder what it really is there for. . . It's good in a way, though—everyone that comes to visit the campus will think that it was put there for them.

And now a bit of this and that. . . The *Watawan* has come out with a real good issue this time. . . Heard from Hagopian again. . . He's still unemployed. . . There's a rumor out that they're going to switch orchestras for the Queen's Ball. . . Bill Ingram goes around reading the bulletin boards every Sunday morning. . . he wants to see what has happened during the week. . . The Lambda Chi has a new mascot; Wimpy, a black cat. . . Students out at the University of Utah run big political ads in the paper before elections. . . Michigan State College is considering a football course for men and women. . . The subject of a recent debate at Concordia College in Moorhead, Minnesota, was: Resolved, that a house burns up and not down. . . And still we have no Dean of Administration. . . Our adopted co-eds, the *Comptometer* girls, will be leaving the campus soon. . . They tell me that one of the "Good" girls goes to Meredith. . . Let's eat some spinach some night and go to see her. . . Gotta go now. . . see you next week.

Open Forum

This column is conducted for the expression of student opinion. Opinions expressed below are not necessarily in accordance with the editorial policies of this newspaper.—Ed. NOTE.

Greetings From Hagopian
 The following is a letter received from a former State College student who is now in his native land, Egypt. He left here last fall to engage in work there.—Ed. Note.

Dear Fellow Students:
 You must think I am forgetful. But in truth I have thought of you many times. . . of the pleasant friendship that we had together in four years on American soil. Many times I have thought back with unmitigated joy on the happiness we had together in good old State College. Those State College memories linger softly and harmoni-

What's Wrong With This Picture?

ously in my mind's eye. Often I cast a wistful yearning thought away over there to you and walk silently on the campus, get into the dormitories and listen to your "bull sessions." Would that I could do this once more?

For the most part life has been good to me. There have been some very violent spells of depression, when I have felt that everything was in vain and useless. But the next morning the world always seems a lot better, and you will find out that nothing is so bad that it could not be worse. I have become quite a philosopher of late. . . and have come to the conclusion that the world is not interested in your ills and complaints. Instead, they welcome you if you can spread good cheer and show that you have an indomitable spirit and courage. Everyone loves a clean fighter. . . the kind who never knows when he is beaten, who persistently and doggedly fights on after all has been exhausted. To him deservedly go the spoils of the battle.

About six weeks ago I paid my first visit to Cairo and in the afternoon I went around to see the pyramids. Well, well, everything is as usual, those skyscrapers of the desert are still going strong and strong. The old man Sphinx is still laughing and mocking at its spectators. He is on his job, guarding the pyramids. If any of you are interested in romance come over here and have a date on the laps of the Sphinx on a moonlight night.

This letter is only a small symbol of the high regards in which I hold everyone of you and I trust that it finds all of you well and happy.

Most sincerely yours,
 (Signed) Hagopian,
 Box 285, Alexandria, Egypt.

Says Editorial Misleading

To the Editor:
 Your editorial, which appeared in the April 20 issue of *The Technician* under the heading "A Mere Figurehead," is so misleading that I feel I must present the truth.

Publications come and go according to the tastes of the people to whom they cater. In this matter there are three, and at times four or more aspects of the entire situation. There is first, the owner's point of view; second, the subscribers'; and third, a sort of go-between, the editor and his staff. Since ownership at times may be in the hands of a large body which of necessity demands a government, some provisional form of government must be set up to control the interests of ownership in the publications. At the head of any government stands a Dean's Council, a Faculty Council, or some such other group. This group may see fit to bring into being various subordinate groups, Publications Boards, committees and so forth.

To parallel the general case, that is to focus our attention upon the publications on our own campus, let us have a look into conditions as they exist. In the first place, the students publish all periodicals, papers, and journals. They have, therefore, the right to impeach from office any editor and his staff who does not, in their opinion, satisfy their requirements of editorial service, regardless of whether he is a "dam good fellow" or not. In the second place, the students are the subscribers, and this doubles their right to question the policy of the editor. Since organized government is ordinarily preferable to unorganized radicalism, the Faculty Council has been invested with the power to advise, guide and otherwise minister to the best interests of the institution and the student body. The Council is not in any sense of the word, autocratic, but owes its being to the peculiarities of institutional problems and the very nature of democratic pedagogy in dealing with numbers of students as a group. The relative positions then of the Faculty Council and the Publications Boards become evident.

To preserve this order, the Faculty Council, the highest tribunal on the campus, created the Publications Board. In this order of subordination, then, the Faculty Council retains the right to overrule, to set aside, or to

make such interpolations as its own good judgment and common sense recommends.

Before decision was made to petition the Faculty Council, advice as to the advisability of such a course was requested. Dean Clody said he did not know just what action would be taken by the council, but assured the petitioner a hearing.

Now if, in the natural order of things, one of the publications on the campus becomes so generally worthless that the students are willing to take the time and trouble to sign a petition to that effect. (In spite of the disrepute of this form of protest!), then, obviously, something must be wrong with the "mere Figurehead." Here might I say that the chairman of that Board, Mr. Frank Jeter, who admits the thanklessness of his position and his efforts to be of service, deserves at least a small niche in the hall of fame and accomplishment, for I honestly believe that he has been the source of what life that Board has shown, and the one redeeming virtue which is their only excuse for existence. Now that you mention it, Mr. Knight, I think that Board is a "Mere Figurehead," one which adds up two and two, and miraculously enough arrives at the remarkable sum of five, and you talk when the Council prompts "41"

But it is not my purpose here to deliver a scurrilous attack upon any group or person on the campus, friend or enemy. We must face the fact that *The Watawan* during the past year, has not been liked—and no end of

writing or exorcism will influence it. I have pledged my cooperation with the new editor to give any aid which might come from my small resource. If words cannot express my attitude and sincerity, then time and action will.

O. K. Irgens.

Suggested Readings

Each week a new list of books will be published as an aid to the student in selecting suitable reading matter. In this list will be included works of the foremost American and foreign authors.—Ed. Note.

V. M. I. Nine Plays State On Freshmen Field Today

State Ball Team Loses Last Game to Duke 6-5 in Thirteen Inning Contest

DOAKMEN WILL ENGAGE BLUE DEVILS TOMORROW

Home Run by Duke Shortstop in Thirteenth Breaks Extra Inning Deadlock

State College's baseball team has a big week-end in store for them with games with V. M. I. this afternoon at 3:30, and with Duke tomorrow afternoon. In State's preceding game with V. M. I. there, the Techs won 7-1. Duke, however, has won two games they have already played with State by the close scores of 7-5 and 6-5. A large crowd is expected to see the State diamond team in both engagements.

The preceding Duke game played last Saturday was truly a thriller. The contest ran for thirteen innings before Dave Michael, Duke shortstop, hit deep into center field and managed to beat the ball across the home plate by inches. This gave Duke the victory 6-5. State came very near evening the score in their time at bat in the 13th. Rupert Cox made two bases on his hit, then Russell May, Duke hurler, retired Flythe and the Kirkman, and Sammy Bell, Duke second baseman, made a thrilling catch of a hit by Roach to finish the game.

Stuart Flythe pitched the entire thirteen innings for State, and he did a good job of it, too. Flythe fanned eleven Duke batters during the progress of the game. But Duke was helped materially by Flythe's walking eight men and hitting one.

Ken Weaver and Russell May divided the pitching honors for Duke. Weaver pitched the first six innings, and when he left the game, the score was 5-4 in favor of Duke. May pitched hitless ball for his first four innings on the mound, and turned in a very creditable performance for the rest of the game. State put in some great defensive play in several spots in the game, and stopped what appeared to be assured scores for Duke. In the eighth inning, the bases were loaded, when Cornelius of Duke hit a long fly to left field. It was taken by Ray Rex who threw in a beautiful peg to Farris to put out Hutskamp of Duke at the home plate. Hutskamp led the hitting for both teams with a double and two singles. He plays right field for Duke.

ZORI AND REX DEPART FOR PENN RELAY MEET

Ray Rex and Milan Zori left Raleigh yesterday to represent State College at the University of Pennsylvania Relay Carnival to be held at Franklin Field, Philadelphia, today and tomorrow. Rex will compete in the shot put and Zori in the discus throw. This meet yearly draws leading intercollegiate track talent, and it is one of the oldest meets in the country.

The only other track star from North Carolina expected to attend is LeGore of Carolina, who huris the javelin. It was also expected that Abernathy of Carolina, star hurdler, might attend the meet.

Zori, who attracted much attention last year because of his prowess with the discus, expects to put in a strong bid for victory in his event. Rex does not stand as good a chance to win in the shot put, but he may win a place.

LOUISBURG WINS FROM FRESHMEN

Louisburg College Wins in Two Game Series With Scores of 7-2 and 10-7

State College freshmen received their second defeat within a week at the hands of Louisburg College here last Wednesday afternoon. Louisburg won 10-7. The score of the preceding game played last Saturday was 7-2 in favor of Louisburg, at the home of the latter team.

Uriah Norwood, frosh center fielder, hit two homers for the freshmen, while Weldon and Richards of Louisburg got a four base tally each.

The State freshmen staged a rally in the last half of the ninth after two outs were already charged against them, and they had made four runs in that inning. The bases were full and it looked like there would be more scoring when the frosh made their third out.

Mason Bugg pitched the first seven innings for the freshmen, and Jerry Davidson, a southpaw, finished the game. Garland Gilbert of Louisburg pitched the entire game for the winning team, and for the first eight innings State had made only four hits off his three of these by Norwood. However, in the ninth, Gilbert weakened to the extent of hitting one man, walking two and allowing two hits. All in all, though, Gilbert pitched a very good brand of ball.

The freshmen have two games scheduled next week. They played Campbell College there yesterday. Tomorrow they play the Carolina freshmen here, and next Wednesday they have a game with the Duke frosh team at Duke.

The box for the game:

MILLER TO AWARD INTRAMURAL CUPS

Fraternity and Dormitory Groups to Receive Individual and Team Trophies

Johnny Miller, intramural director, announced that cups and awards for the various champions in intramural sports for this year have been sent for. Cups and awards will be made to the championship teams as well as to individuals.

The Interfraternity Council is giving three big cups. The first is to go to the fraternity getting the most points in the different sports. This fraternity will have the title of the year's grand champion. The council is also awarding two other cups for second and third place.

In the dormitory league two cups will be given by the Dormitory Council. These will be for the year's grand champion in the dormitory league and for the runner-up.

Individual awards to be made include sixteen silver boxing glove charms to be given to the winners in each weight in both the fraternity and dormitory sections. Two statuettes will be given, one each to the best all-around man in the fraternity and dormitory leagues. The boxing gloves were bought with the proceeds from admissions charged at the intramural boxing matches this year. The statuettes will be given on the recommendation of each fraternity and dormitory club. Each organization is to submit their candidate for this honor, and Mr. Miller will make the final selection. Miller stated that interest shown in intramurals would count as much as anything else.

At present, the leaders in the fraternity section as regards point standings are the Sigma Nus, S. P. E.'s, Pi Kappas, and Delta Sigma Phis. These teams are holding true to form in the spring sports. So far the Sigma Nus and the Delta Sigs have won two baseball games each, while the Pi Kappas and S. P. E.'s have each won one.

The Pi Kappas, with one win, are the only ones of the leaders who have as yet played games on the tennis schedule. Matches in this sport are being played very slowly. Mr. Miller expressed a desire that managers of the tennis teams get together and play their matches off soon.

In the dormitory section, 2nd 1911, 1st 1911, 3rd 7th, and 3rd 1911 are the leaders. Of these teams 2nd 1911 is the only one who has lost a baseball game. The others have forged ahead with two wins each.

INTRAMURAL TRACK MEET TO BE HELD LAST OF MAY

Plans Near Completion for Track Meet of Dormitory and Fraternity Men

Plans for the intramural track meet to be held May 24 and 25 are nearing completion, according to Mr. Miller, director of intramurals. The dormitory track meet is to be held on the former date and the fraternity meet on the latter.

In past years the fraternities have responded whole-heartedly to the idea, but the dormitory clubs have not taken to it. Mr. Miller expressed his desire that the dormitory clubs will be at the track meet in full force for the year. The list of events will be: 100 yard dash, 60 yard low hurdles, 4 man 400 yard shuttle relay, high jump, broad jump, shot put with the 12 lb. shot, discus throw, football punt, and baseball throw.

The meets will be held on Freshman Field. Managers are urged to get their list of entries ready and have them in before the meet. Organizations may enter two men in each event, but the limit is 12 men on any one team. The scoring will be 5, 3, 2, 1 for 1st, 2nd, 3rd, and 4th place.

The events in the track meet are the same that the freshmen are practicing in gym this quarter. All intramural sports are taken up in gym classes by either the freshmen or sophomores.

HAMPDEN-SYDNEY LOSES GOLF MATCH TO STATE

State College golfers won easily over the Hampden-Sydney College team at the Carolina Country Club yesterday. The score was 14 1/2 to 3 1/2.

Fred Newnam, Jr., State ace, shot a 73, one over par, for the best medal round of yesterday's play.

Summaries and points won, with State players listed first:

Newnam 3 defeated Jeffries 0; Southerland 0 lost to Holden 3; Styron 2 1/2 defeated Fallwell 1/2; Pastore 3 defeated Rogers 0; Newnam and Southerland 3 defeated Jeffries and Holden 0; Styron and Pastore 3 defeated Fallwell and Rogers 0.

On Other Campuses

The R. O. T. C. Department at Presbyterian College is quoted as "being pleased to note the tremendous improvement in the health of members of the cadet corps"—the catch was that all absences had to be made up at a special drill on each Monday afternoon.

GOLFERS ENGAGE DAVIDSON TODAY

State Golf Team Will Enter Intercollegiate Tourney Here Tomorrow

The State golf team is facing a heavy round of competition this week. They played a match with the Hampden-Sydney team yesterday, play Davidson this afternoon, and tomorrow they will enter a team in the State Intercollegiate Golf Tournament at the Carolina Country Club.

The match with Hampden-Sydney was played on the Raleigh Country Club course, and the match with Davidson this afternoon is to be played on the same course.

Formerly it was announced that the North Carolina Intercollegiate Golf Tournament would be played on the Hope Valley course in Durham, but last Tuesday, definite announcement was made that the tournament would be at the Carolina course at Raleigh. It is known definitely that teams will be entered from Davidson, Duke, and Carolina, besides the one from State. Carolina may enter two teams. Several individual players from Wake Forest may enter, but it is not thought likely that there will be a full team from the Baptist institution.

Officials of the tournament at the Carolina Club announced that there would be play Saturday for both individual and team honors. Each school must designate four players to compete for team honors, but there is no limit to the number of individual entries a school may make. State's eligible players who will probably enter are: Fred Newnam, Jr., Pat Pastore, captain, Charlie Styron, Bill Bertlein, M. E. Rion, J. W. Southerland, and Jimmy Poyner.

Next Thursday the golf team will leave on a trip to include matches with Furman and Clemson. There is a possibility that a match may also be arranged with the University of South Carolina while the team is on the trip.

The R. O. T. C. Department at Presbyterian College is quoted as "being pleased to note the tremendous improvement in the health of members of the cadet corps"—the catch was that all absences had to be made up at a special drill on each Monday afternoon.

Sports Views

By BROCK SISEL

A speedy recovery is hoped for A. L. Folley, of Aberdeen, who was stricken with acute appendicitis last Tuesday evening. Folley is one of State's stalwart tennis players this year. His absence from the team for the next several weeks will handicap the team considerably.

Fred Newnam, Jr., running true to predictions made in last week's column, captured the Raleigh amateur golf championship this week. Fred, with his excellent golf playing, is rapidly bringing State to the forefront in golf circles—as much so as Bryant Grant, put the University of North Carolina in the front with his excellent tennis playing in past years. Newnam prefers to be a student rather than an athletic hero. He recently said that he would not enter the State Amateur Golf Tourney at Sedgewick because he felt "that he needed to settle down and study on his books."

W. N. "Red" Hicks, coach of the State wrestling team, for the past three seasons, should be backed in his stand that wrestling should be supported at State by the Athletic Council. During the past several years, Hicks has coached his mat team to the State Championship and has on several occasions defeated superior out-of-state teams—all without any financial assistance from the college and with his own services free of charge. When a bunch of champion matmen as these overcome such obstacles, it should be only fairness to them and the coach for the Athletic department to support it as much as football, basketball, boxing, and baseball.

Stuart Flythe, sophomore, pitched a great game for the State baseball team against Duke last Saturday here. Thirteen innings is a pretty tough grind for one pitcher, but Flythe stood the gaff well. It was not his fault when a man whom he had blanked six times at bat comes up for his seventh and with a lucky swing beats out a homer which wins a thrilling 6-5 game for the Blue Devils. Fans not present for that game missed a real game in which both teams were of equal strength.

Don't forget the baseball game with V. M. I. this afternoon at 3:30 on Freshman Field.

THE NEW CUBAN SPORT SHOES

From Cuba has come a JAI-ALAI (HI-LI) sport shoe that is fast taking on the aspect of the Magna Charta in being one and the same for all classes, the high, the middle and the low. Jai-alai won its way over night in America. Wherever young men are congregated, there the Jai-alai is welcomed with open arms and worn on willing feet.

In Palm Beach and in Miami this season, among the elite at the exclusive Bath and Tennis Club, where only those of social-register standing are admitted, the Jai-alai shoe went in cushioning the aristocratic tread of scions of great wealth. All winter the shoe has sold well for indoor tennis, squash and gymnasium wear. The early Spring and Summer will see it blossoming forth on the campuses of the leading universities. The undergraduates at Princeton and Yale have already gone in for it in a big way. Jai-alai is patented. It carries a crepe rubber sole, self-vulcanized on the uppers. You ought to have a pair.

Alpha Lambda Tau

Zeta chapter of Alpha Lambda Tau fraternity entertained its new initiates last Thursday night with a cabin party at Boone's Pond.

The cabin was elaborately decorated with dogwood and streamers of the fraternity's colors, gold and black. Games were played throughout the evening. A novel type of entertainment was also provided through the distribution of \$2,500 in play money, which was used in almost every conceivable game of chance. Miss Foy Allen and Buck Newcomb received prizes for finishing the night with the most money.

Refreshments, consisting of drinks, sandwiches, and salad, were purchased with the play money. Marshmallows were roasted over a smoldering fire in the fireplace.

Young ladies present were: Miss Katherine Harris, Miss Mary Smedes Poyner, Miss Margaret Britt, Miss Katherine Noel, Miss Ella Mae Noel, Miss Emma Burns Norris, Miss Marlon Womble, Miss Louise Ward, Miss Virginia Phelps, Miss Lutrelle LaFarge, Miss Dorothy Furr, Miss Virginia Kennedy, Miss Foy Allen, Miss Edythe Wyatt, Miss Alice Poe, Miss "Snooky" Bogue, Miss Lucy Virginia Grimsom, Miss May Roebuck, Miss Ray McKinney, Miss Katherine Mason, Miss Douglas Rankin, Miss Elizabeth Dees, and Miss Elizabeth Weathers.

The chaperones for the occasion were Mr. and Mrs. Arthur Morris.

Sigma Nu Dances

A delightful series of spring dances were held last Saturday when members of the Beta Tau chapter of Sigma Nu entertained at a tea dance and a formal dance in the Frank Thompson gymnasium.

The gymnasium was decorated in a novel manner, black, white and gold, the fraternity colors being used. A large illuminated fraternity pin was suspended from the ceiling and from the insignia, streamers of black, white and gold extended to the sides of the walls.

Jimmy Poyner, a member of the fraternity, and his State Collegians furnished music for the dances.

An attractive dance figure was presented at the evening dance by members of the fraternity and their dance partners, the figure being led by Miss Elizabeth Everette of Rockingham with Minor Hunter of Charlotte. They were assisted by Miss Mary Smedes Poyner of Raleigh with James Coachman of Clearwater, Fla.

Immediately following the Saturday night dance, Mr. and Mrs. L. G. Benford, alumni advisor, entertained at a buffet supper honoring fraternity members and their dates.

Young ladies taking part in the dance figure were: Miss Elizabeth Davidson, Miss Mary Smedes Poyner, Miss Pickett Kendall, Miss Elizabeth Everette of Rockingham, Miss Helen Tyson of Bennettsville, S. C., Miss Kit Smith of Wilmington, Miss Cynthia Anderson, Miss Margaret Brewer, Miss Nell Joslin, Miss Minnie Hughes Rogers, Miss Elizabeth Dickenson of Hamlet, Miss Mary York Neal, Miss Katherine Harris, Miss Mary Read Martin, Miss Margaret Vass of Charlotte, Miss Mary Helen Stewart, Miss Evelyn Bagby, Miss Sarah Gresson of Wake Forest, Miss Margaret Tyson of Georgetown, S. C., Miss Sue Pierce, Miss Martha Ruth Kendall, Miss Lelia Wooten of High Point, and Miss Elizabeth Park.

Monogram Dance

One of the most colorful dances of the season is going to be given by the Monogram Club on May 12. Invitations have been sent to the captains of teams at all of the Big Five schools.

Jimmy Poyner's Collegians will play the music for a tea dance in the afternoon, and for the formal dance in the evening.

Bids, of which only a limited number are available, can be secured at the office of the Dean of Students.

The committee on decorations have promised a novel and elaborate decorative scheme.

Princeton to Have Dinghy Regatta

Lake Carnegie, hitherto used by crews and rowboats alone, this spring will be the scene of a series of dinghy races under the auspices of the Princeton University Yacht Club.

The dinghies, designed for use in shallow water will be able to complete the three mile course without difficulty despite the fact that the lake rarely exceeds a depth of six feet in any place.

Twelve dinghies have already been ordered and the yacht club expects additional orders totaling the same number during the course of the spring.

College Men Make Good Cops
College graduates make good policemen because of their sense of responsibility and bribe-proof intellects, according to Roy Elmer Morgan, president of the Educational Press Association of America.

Screen Tests for N. Y. U. Students
Personality tests for the screen are offered here for students at various times during the academic year. The students judge whether a candidate has improved or slumped in magnetism and charm.

Junior-Senior Prom

The sixth annual Junior-Senior Prom will be held at N. C. State College, Friday, May 11, in honor of the North Carolina State College graduates of 1934.

The dance will be featured by the annual ring ceremony at which time the juniors will have their class rings placed on their hands by their dance partners.

The dance will be informal and will be held in the Frank Thompson gymnasium. The society decorations will consist of red and white colors and a large symbol of the class ring.

The juniors are planning to present one of the most attractive dances that has ever been given the seniors and active work has already begun on the details of the dance.

The dance is usually well attended by members of both the junior and senior classes and their friends.

The dance committee by whom plans for the dance are now being formulated is composed of John Findley, Charlotte, chairman, assisted by the following juniors: Walter Greenwood, Rocky Mount; S. R. Smoak, Greensboro; John Stanko, Stubenville, Ohio; Albert Stroud, Kingston; and Claude Carrow.

At the Theatres

STATE THEATRE

"Moulin Rouge," starring Constance Bennett will be shown at the State Theatre Monday, Tuesday and Wednesday.

For this musical de luxe they ordered the following:

—A liberal measure of Constance Bennett in a dual role filled with intensely dramatic moments, and as a singer of songs destined to be sung the length and breadth of the land.

—Franchot Tone, hailed as the screen's most romantic lover.

—Tullio Carminati, who stirred Broadway for 76 weeks in "Strictly Dishonorable," and 54 weeks in "Music in the Air."

—Helen Westley, a founder and director of the New York Theatre Guild, and one of the greatest character actresses of the American stage; Andrew Tombes, Russ Brown, and many other players brought out from New York's world of revues and musical comedies; Russ Columbo and the Boswell Sisters, whose voices have thrilled millions over the radio.

—Such songs as "Coffee in the Morning and Kisses at Night," "Song of Surrender" and "Boulevard of Broken Dreams."

Bing Crosby singing "Please," a "Strange As It May Seem" and a News complete this program.

The much-heralded production of "Death Takes a Holiday" will be shown at the State Theatre on Thursday, Friday and Saturday.

Splendidly cast with Fredric March and Evelyn Venable in leading roles, superbly mounted by Director Mitchell Leisen, and written for screen presentation by such capable scenarists as Maxwell Anderson, Pulitzer prize winner, and Gladys Lehman, "Death Takes a Holiday" merits all of the praise thus far conferred upon it.

The picture tells how this mysterious shadow changes his shape and form, becomes, for a three-day holiday, a gay, dashing, romantic lover. He comes to a house-party, concealing his identity from everyone but the host, who introduces him as a friend.

As a charming cavalier, Prince Sirk, the guest searches for life's thrills, seeks to learn what man loves in life that he must fear its end.

But the games, the pastimes of the crowd, bore him. Told that Love is the one big thrill in life, Sirk makes love. But the love that is proffered him is all too selfish, until in the arms of a beautiful, young girl, he finds love to be the one thing in life that man lives for.

Thursday only, Louise Norman Williams will present her annual revue of The Studio of Dance.

A Musical Comedy, a Cartoon and News complete this program.

Students Fight Evils in Politics

The establishment of student political clubs in colleges and universities of the Middle Atlantic States to fight against the "hypocrisy, witchcraft and corruption" of the present political set-up of the nation was urged in a resolution adopted at the final session of the Middle Atlantic States Regional Conference of the National Student Federation of America at Bernard College. The conference also went on record against any discrimination against negroes, voted to support the growing anti-way movement in American colleges and declared that the present national administration's program for building up the armed forces of the country was an "unsafe and unreasonable" course to follow.

The movement for political clubs was started by Alvin M. Josephy, Jr., of Harvard. "The individual unit of club in each college," he said, "should not adopt a radical or reactionary faith; no national party should control it. Each unit should be liberal in that it should not bar anyone or subscribe to any controversial ideal."

Limited Number

The number of women permitted to study medicine at the universities of the New Germany has been limited to 75 annually. The official Medical Gazette comments on the decision favorably and states: "A woman doctor is a bisexual creature which the natural and sound instinct of the people abhors."

SEVENTH DEFEATS LEAGUE LEADERS

Delta Sigma Phi Wins Close Baseball Game From Kappa Alphas By 7-6 Score

Beginning with this issue, THE TECHNICIAN sports department will print a write-up of the two most interesting baseball games played in the intramural leagues. One game will be selected from the dormitory league, and one from the fraternity league. The games selected this week were those between Third Seventh and Second 1911 in the dormitory league and between the Delta Sigma Phi and Kappa Alpha in the fraternity league.—Ed. Note.

Second Floor 1911 Dormitory, leader in the dormitory intramural race, dropped a game Wednesday to the strong Third Floor Seventh team by the score 9-4.

The game got underway with each club getting one run, Second 1911 getting theirs in the first inning, and Third Seventh in the second. The next two innings were scoreless, but in the fifth, both teams went on a hitting spree. Third Seventh came out on top with five runs, while Second 1911 collected two. Second 1911 added one more run in the eighth, but Third Seventh clinched the game with three runs in the ninth.

Bishop, catcher for the victors, was the leading hitter with two runs. Fabri, the winning pitcher, was his team's leader at the bat. Other run makers were Kirschoner, Davis, Vandevanter, Willard, Wager, and W. Wager for Third Seventh; and Strickland, Clayton, Fredrick, and Shockly for Second 1911.

The lineups were: For Third Seventh: Kirschoner, 1b; Davis, cf; Vandevanter, rf; Fabri, p; Hayden, lf; Willard, 3b; Westbrook, 2b; Wager, ss; W. Wager, ss; Bishop, c.

For Second 1911: Strickland, 3b; Clayton, ss; Wynn, lf; Gattis, p; Thronburg, cf; Polley, 2b; McKinnon, 1b; Fredrick, rf; Perry, rf; Dudley, cf; and Stockley, ss.

Score by innings was:
Third Seventh010 050 003—9
Second 1911100 020 010—4
Kappa Alpha-Delta Sigma Phi

One of the closest games in the intramural leagues was the Kappa Alpha-Delta Sigma Phi game played on Tuesday, April 24. The game was not the slugging spree that most games to

date have been; but turned into a close victory for the Delta Sigs, 7-6.

The K. A.'s brought in four runs in the first three innings while holding their opponents scoreless. Both teams went scoreless in the fourth, but the Delta Sigs got started with one run in the fifth. In the sixth, they added another run, but the K. A.'s doubled this in the same inning. In the lucky seventh, the Delta Sigs ended the scoring for the game, making five runs to give them the long end of a 7-6 score.

L. Martin, left fielder for the Delta Sigs, was the batting leader with two runs. Other plate crossers were Underhill, Colwell, Poole, D. Horton, and Dossenback for the winners and T. Allison, Oliver, W. L. Smith, Coldiron, Gale and Jones for the losers.

Rawlings Poole led the Delta Sigs in fielding, making several beautiful catches and helping his team materially.

The line-ups were:
For the Delta Sigs: Underhill, 1b; Colwell, 2b; Poole, ss; C. Goodwin, 3b; O. Horton, c; Williams, p; 2b; Sykes, p; Latham, rf; Fur, cf; Martin, lf; Dossenback, ss.

For the K. A.'s: Aycock, p; Allison, rf; Oliver, lf; W. L. Smith, 1b; G. Smith, 2b; Coldiron, cf; Gale, 3b; Poe, ss; Jones, ss; Morrison, c.

POLK DENMARK TO GIVE TALK BEFORE AG CLUB

The Ag Club held its regular meeting last Tuesday night in Patterson Hall. Professors J. W. Foster and F. H. Haig spoke on the advantages of the live stock contest which is being held here this week-end.

Polk Denmark will be the speaker at the next regular meeting and at that time will give an illustrated lecture on his experiences during the World War. The next meeting will be held in Polk Hall, room 110, next Tuesday at 6:30 p.m.

Cornell Sports Curtailed

With a grim determination to fight the depression, the Cornell University Athletic Association is going right ahead with its Spring sports schedule. In the face of an impending deficit, with home curtailment in operating expenditures and athletes financing some games and meets, Cornell will be represented in baseball, track, crew, lacrosse and tennis.

Curtailments include withdrawal of financial assistance to the baseball team for a spring training trip to the South, withdrawal of support for the track team for the Penn Relays at Philadelphia and withdrawal of the junior varsity crew at the Poughkeepsie regatta.

Wesleyan Uses Press Instead of Books

The only textbooks in the courses at Wesleyan University on the governments of Great Britain and the United States will be newspapers, is the announcement of Professor Frederick M. Davenport.

about Cigarettes

As to the cigarette paper on Chesterfields

THIS reel of cigarette paper is sufficient to make 42,000 Chesterfield Cigarettes. It is of the finest manufacture. In texture, in burning quality, in purity, it is as good as money can buy. Cut open a Chesterfield cigarette. Remove the tobacco and hold the paper up to the light. If you know about paper, you will at once note the uniform texture—no holes, no light and dark places. Note also its dead white color. If the paper is made right—that is, uniform—the cigarette will burn more evenly. If the paper is made right—there will be no taste to it and there will be no odor from the burning paper.

Other manufacturers use good cigarette paper; but there is no better paper made than that used on Chesterfields. You can count on that!
