STATE COLLEGE STATION, RALEIGH, N. C., MAY 4, 1934

OFFICE: 10 HOLLADAY HALL

FRAT MEN NAME LITTLE TO PLAY FOR FINALS SET

Council Considered Bids of Many
Nationally Known Orchestras
Before Deciding

DATES SET FOR FINALS
ARE JUNE 8, 9, AND 11

Finals Expected to be Most Elaborate Ever Put On at N. C. State College; Frank Thompson Gymnasium Will be Lavishly Decorated Since Fire Hazard Removed; Engagement Here Will Be the First in South Since Organization of Little's Band

Little Jack Little and His Orchestra have been secured by the N. C. State College Interfraternity Council to play for the final dances this year. The announcement was made late last night after a call meeting of the Interfraternity Council.

The council considered bids from several well-known dance orchestras, including Enoch Light's, Wayne King's, Isham Jones, Ozell Nelson, Lolo Reisman, Ted Weems' and Mal Hallett, before finally deciding on Little Jack Little.

This will be his first trip South since the organization of his orchestra, and it will be the only engagement down here this spring. Little Jack Little is known throughout the United States for his smooth music and his unique piano arrangements.

The Interfraternity Council feels that it was very fortunate in securing this well-known orchestra, and it is expected that the finals this year will be the most elaborate ever put on at State.

The Frank Thompson gymnasium will be lavishly decorated this year, since the fire hazard which heretofore has made decorations unsafe have been removed by adding new doors to the gym.

The finals will consist of five dances beginning with the Friday night dance on June 8, a tea and night dance on Saturday, and Monday morning and night dance on June 11.

The Final Dance Committee is composed of H. E. Benton, Theta Kappa Nu, chairman; Charles Coldiron, Kappa Alpha; G. C. Isaacs, Phi Kappa Tau; and Minor Hunter, Sigma Nu.

**GOLDEN CHAIN SPONSORS
TALKS FOR HIGH PUPILS**

H. S. Stoney Makes Talk on State College to High School Students of Asheville

Howard Stoney representing the Golden Chain, Senior honorary society, made a trip to Asheville last Sunday for the purpose of showing prospective students the benefits of State College.

Fifteen colleges were represented at several meetings held for this purpose at the high schools of Asheville. Dr. Faust, President of N. C. C. W., made a talk to the seniors in high school on "Why Go to College?" Pamphlets were distributed from all of the schools also.

Stoney left Sunday morning and arrived in Asheville late Sunday evening and Monday morning visited the schools and made a talk on the benefits of State College. He returned here Monday night.

The Golden Chain is a senior honorary society having the requirements of scholarship, leadership, and citizenship for admission into the society.

**ELECTRICALS TO HONOR
OFFICERS AT SMOKER**

Fouraker Gives Pointers to New Officers on Conducting Chapter Meetings

A smoker in honor of the outgoing officers will be held May 15 by the State student chapter of the American Society of Electrical Engineers. It was decided at a meeting of the society Tuesday night.

Prof. R. S. Fouraker, electrical engineering instructor, gave the new officers of the club pointers on holding meetings. This was in the form of a round table discussion.

J. E. Jenkins read a paper on "The Outlook of the Electrical Profession." This paper was prepared by G. B. Roberts of the Westinghouse Electric Company.

C. N. Rogers, new president of the society, spoke briefly to the members as did Bill Price, new Engineers' Council member.

Freshmen and Sophmores To Stage Fight Tomorrow

All Plans Completed for Battle Between Two Classes in Front of 1911 Dormitory Tomorrow at 2:30 p.m.; Classes to Fight For Possession of Choice Position; Evidence of Over-ripe Fruit and Vegetables Will Be Seen in Battle

By C. A. RYHER
Due to the condition of Ag Hill, there has been a slight change in the plans for the Fresh-Soph Rush which will take place at 2:30 tomorrow afternoon. The place will be 1911 Hill.

The sophomores are to be given the hill and a flag with their numerals on it to defend, while the freshmen will endeavor to capture the hill, take down the soph flag and replace their own flag in the place occupied by the soph flag. They will be given an hour in which to do this. At the end of the hour, the flag which occupies the place of honor determines the victorious side. The winning side will then be given an adequate ceremony of praise, in which their flag will be hoisted to the old flag pole in front of Holladay Hall by the Raleigh Fire Department, where it will rest indefinitely.

Captain P. W. Ricamore requested that no "fatigue suits" be worn, so the committee decided upon the following apparel for the two classes. All sophomores are asked to wear their gym pants and some kind of a shirt, and all freshmen are asked to wear only gym pants. This will make it easier to distinguish one class from the other.

The battle will be started by Johnny Miller at exactly 2:30. Honorary officials chosen to preside at this event include Dean E. L. Cloyd, Colonel Bruce Magruder, and Dr. E. C. Brooks. Field judges are Johnny Miller, "Doc" Sermon, "Hunk" Anderson, Doctor Potent, "Chick" Doak, Bob Warren, Frank Reese, and Bill Beatty. These men will see that the few rules and

regulations are held to and that the battle is a fair and square one. The rules are as follows: Positively no slugging allowed; any man caught in the act of doing so will be immediately dismissed from the scene of action; if the battle appears to be too rough and crooked, it is to be immediately stopped and the student body will never again be permitted to hold an inter-class rush; rotten tomatoes, cabbages, grapefruits, eggs, flour and any other soft missiles will be allowed on the field all through the battle.

Knowing this, the freshmen are all planning to make good use of the rule. All over the campus are small groups of freshmen hatching up evil and secret plans for the downfall of the sophomores, and if these rumors are true, many freshmen and sophomores will be as popular as skunks generally are for several days after the battle. Another rumor has it that the infirmaries had better plan on having a full "bed list," and a hurried call for ammonia and iodine. Still another rumor has it that the Freshman Class is organizing in very secret meetings so if this be the case, the sophomores had better watch out.

Amil J. Gerlock, president of the Freshman Class, in a recent interview with one of THE TECHNICIAN reporters expressed the opinion that there was no doubt but that both classes would be fully organized for this battle. He said, "I am positive the battle will place N. C. State on the map of interest for there is no doubt but that (Please turn to page two)

STUDENT INJURED AS CAR COLLIDES WITH MOTORBIKE

Hampton Receives Severe Injuries in Collision Near College Court Monday

ACCIDENT ADDS ANOTHER
TO ALREADY LONG LIST

Students at College Form Caterpillar Club; to be Eligible Student Must Have Received Injuries on Motorcycle Serious Enough to Send Him to Hospital; Was Thirteenth Motorcycle Accident in Past Two Years

Horace D. Hampton, Jr., freshman at State College, has returned to school following injuries received in a collision when the motorcycle ridden by him crashed into a car driven by Mrs. W. H. Wynne of Raleigh, Monday afternoon.

He sustained a deep cut over his right eye, a wrenched knee, and body bruises.

The accident occurred on Hillsboro street at the main entrance of the college. According to Hampton he was proceeding out of Fendell Lane when he saw a car approach going east on Hillsboro street. He slowed down and saw the woman driving look at him and then slow down. Thinking she was waiting for him to go across, he speeded up and when she did likewise he crashed into the side of the automobile. In a report given to the police Mrs. Wynne stated that she was turning into Hillsboro street from the college road when Hampton's motorcycle ran into the side of her car. She was accompanied at the time by her daughter, Miss Roberta Lee Wynne.

Hampton is the thirteenth person to become eligible to the Caterpillar Club in the past two years. The Caterpillar Club requires that its members be college students who have participated in a motorcycle wreck of such seriousness as to require hospital attention. Others eligible in the past two years are Hugh Eudy, lost one leg and broke the other; Percy Robertson, broken leg; Charles Rogers, broken leg; "Buster" Rivenbark, broken ankle; C. L. Wright, broken knee; James Powell fractured foot; Sam Hagerman, leg injuries; Charlie Robertson, minor injuries; Owen Douglas, collision with car; Robert Boone, killed pedestrian; Rudy Bouldin, minor injuries, and Thurston and Speight, who were killed.

**MILITARY ORGANIZATION
TAKES IN NEW MEMBERS**

Colonel Magruder Explains New Method for Election Into Scabbard and Blade

The North Carolina State College chapter of Scabbard and Blade, national honorary military organization, has extended an invitation to eleven juniors to become members. All have accepted.

Those extended this outstanding honor are: J. C. Pounds, Jr., Concord; W. C. Furr, High Point; W. L. Smith, Raleigh; W. E. Barnes, Raleigh; W. W. Hood, Beaver Falls; W. R. Campbell, Raleigh; L. A. Martin, York; N. Y. W. F. Greenwood, Rocky Mount; J. T. Stanko, Steubenville, Ohio; P. N. Pastore, Newark, N. J.; and E. L. Spence, Kinston.

Captain P. W. Ricamore, of the State College R. O. T. C. instruction staff, serves as faculty adviser of this group.

Under the supervision of Colonel Bruce Magruder, State College commandant, the taking in of new members this year was changed so that the cadets of the regiment nominated prospective members whose qualifications were then considered by old members of the organization.

The purpose of the new method of securing members by nomination from the ranks is to invest more power in the Scabbard and Blade, whose members will act as representatives for the R. O. T. C. regiment in social and other than military contacts, Colonel Magruder explained.

**30 AND 3 ORDER ELECTS
CARROW 1934 PRESIDENT**

Claude Carrow, vice president of the student government, was elected president of the Order of 30 and 3 at a meeting of the society Wednesday night. Members were nominated for other posts and they will be voted upon at a coming meeting.

SPRING CONVENTION OPENS WITH PRESS REPRESENTED FROM NINE N. C. COLLEGES

BLUE KEY GROUP
BIDS SIX JUNIORS

Society Also Votes Money to Erect Directory in Entrance of Holladay Hall

Six juniors were tendered bids to Blue Key, leadership society, at a meeting of the group Wednesday.

Those tendered bids were W. H. Sullivan, Jr., editor of the *Watagan* and Student Council member for three years; W. F. Greenwood, president of the Interfraternity Council; J. D. Findlay, Y. M. C. A. member and Student Council member; F. C. Williams, Y. M. C. A. member and a member of Tau Beta Pi, honorary engineering fraternity; J. L. Sammers, Tau Beta Pi member and president of the student chapter of the American Society of Mechanical Engineers; and R. H. Page, editor of the *Agriculturist*.

The initiation banquet will be held at Carolina Pines Wednesday, May 16. Officers for next year will be elected at this banquet. The nominating committee is composed of W. P. Kanto, Joe Dixon, R. S. Poole, A. H. Couch, and Bill Braswell, chairman. The banquet will be formal. A faculty member will be secured to speak at the event.

The society at the meeting voted to erect a directory in the entrance of Holladay Hall similar to those used in large office buildings. Visitors to the building have encountered so much difficulty in finding offices that the society has donated money to erect a bronze directory.

**METCALF AIDS IN SURVEY
TO CURB COTTON INSECTS**

Group Suggests Breeding of Cotton With Weevil-resistant Characteristics

Efforts of the United States Department of Agriculture to curb insect pests affecting the cotton crop in the South have been approved by a committee of entomologists which was asked to make a survey of the work being done. Dr. Z. P. Metcalf, head of the department of entomology and zoology at State College, was a member of the committee headed by W. E. Hinds, entomologist of the Louisiana Experiment Station.

The committee suggested a few new lines of work, including the breeding of cotton with weevil resistant characteristics. It was also suggested that agricultural engineers be asked to design machines to cut the top root of cotton plants so that growth would be checked after the bolls had formed. This, said the committee, would prevent much late fall breeding of the weevil but would not interfere with picking late-opened bolls.

The committee further pointed out the menace to the cotton crop of the Thurbria weevil, a close relative of the boll weevil, but not yet established in the main cotton belt, and recommended that it be made the subject of intensive study.

Dr. Metcalf spent considerable time with other outstanding Southern entomologists in making the survey at the request of governmental officials. His selection is regarded at State College as a recognition of his ability as an entomologist and scientist.

**FROSH FORESTRY GROUP
GO TO CAMP NEXT WEEK**

The freshman class in forestry will make its first overnight field trip Friday and Saturday, May 11 and 12, to the Hill Forest, the school experimental forest located near Durham.

The purpose of the extended trip is to give the students opportunity to see in actual practice various phases of forestry work, allowing them ample time for careful observation, and to acquaint them with overnight camping. Students will leave Friday morning in the forestry bus and private cars, since the second bus is being used by the seniors on their Southern inspection trip. Forestry freshmen will be excused from all classes on those days.

Students will furnish their own food and cook it during their stay, and will also bring their own bedding. Sleeping accommodations will be provided for by the floor of the new uncompleted cabin or if the foresters choose they may sleep out on the ground.

Press Head

GENE NEWSOME
New officers of the North Carolina Collegiate Press Association will be elected tomorrow morning. Newsome, pictured above, was president of the association this year. He is from Duke University.

**DELTA SIGMA PI
BIDS SEVEN MEN**

Commerce Frat Tenders Bids to Outstanding Students in Business School

Seven outstanding students of the School of Science and Business were pledged by Beta Delta chapter of Delta Sigma Pi, international commerce fraternity, at a special ceremony Tuesday night.

Those students who were pledged are: E. A. Herbst, of Salem, N. H.; Frank I. Busbee, of Raleigh; Jack L. Stonebanks, of Raleigh; W. C. Perry, of Durham; Eldon E. Cox, of Asheville; Arthur W. Brown, of Raleigh; Jimmy Wren, of Raleigh. These men will be formally initiated into the profession-fraternity at the regular spring initiation to be held May 13.

To receive a bid from this organization is considered the highest honor a student can receive in the School of Science and Business. The purpose of the fraternity is to foster the study of business in universities, to encourage scholarship, to encourage the association of students for their mutual advancement by research and practice, to promote a closer affiliation between the commercial world and students of commerce, and to further a high standard of commercial ethics and culture and the civic and commercial welfare of the community.

Members of the local chapter are: R. S. Poole, M. I. Annette, G. V. Foster, W. C. Furr, J. G. Riddick, W. H. Wesson, H. S. Keck, C. H. Palm, R. P. Morrow, L. S. Summey, W. A. Myatt, Jr., I. M. Porter, C. W. Turlington, R. D. Anderson, C. C. Howard, C. R. Goodwin, C. H. Lloyd, and M. F. Brown.

The ceremony was held in the home of Dr. R. O. Moen and was conducted with candle light by Head Master Rawlings Poole.

Farmers Dinner

With places for 480 guests already reserved a capacity crowd is expected to attend the fifth annual farmers dinner at N. C. State College here May 11. Senator E. D. Smith of South Carolina, will be the principal speaker.

**Electricals to Return
FROM POWER PLANT TOUR**

Twenty Seniors Make Tour of Power Plants in Vicinity of Charlotte

A group of twenty seniors in Electrical Engineering left Wednesday to make a three-day inspection trip of power plants in the vicinity of Charlotte.

They visited the plant at Norwood Wednesday and the plant at Baden and the telephone and telegraph exchange in Charlotte.

Before returning to school tomorrow they will visit the River Bend station and the Mount Island plant.

Those making the trip were W. R. Aycock, D. S. Barnes, W. J. Bection, J. C. Bolen, C. J. Brown, William Boyd, F. A. Carter, J. W. Coffey, L. L. Cole, H. M. Cooper, M. W. Pounce, J. T. Freeman, E. M. Geddie, J. W. Hunter, J. E. Jenkins, S. C. Lynch, W. B. Powell, Myron Reeves, J. W. Smith, and N. M. York.

Brown Points Out Defects In Correction of Criminals

Business Dean Gives Review of Current World Topics at Soph Assembly

FAR EASTERN QUESTION GIVEN AIRING BY DEAN

Class Takes Up Challenge of Freshman Class for Bag Battle Tomorrow

Sophomores discussed the coming Soph-Fresh battle at their assembly Wednesday. A taunt of defiance from the freshman class delivered by Gerlock, frosh president, was received with jeers and boos. Following the discussion was a review of current events by Dean Brown.

"The incredible escapades of John Dillinger in Chicago, the law and evading arrest afford a good example of one of the greatest unhealthy growths on society which modern society fosters," said Dean Brown. "Society is taking little criminals and making big ones out of them. Dillinger as a young offender was sent to a reform school in Michigan. This school, originally intended to correct the morals of minors, soon became a prison for hardened criminals as well. Thus the mingling of new and old served as a training school for the younger offenders in all the arts and sciences of crime."

According to Dean Brown, the Wirt investigation is important because it shows which way the wind is blowing. Wirt's "Brain Trust" furor was in reality a "red herring" drawn across the industrialists' investigation to throw the investigators off the scent just as a herring is drawn across the trail of a fox to throw the hounds off the trail. Wirt is superintendent of schools in the city of Gary, Indiana, where a gigantic steel corporation holds forth. To prevent the investigating of this industry Wirt started another investigation.

"The Japs made a kite which wouldn't fly," was Dean Brown's diagnosis of the recent far eastern developments. "Whenever a nation wishes to find out whether or not a certain policy will be accepted and how it will be accepted it selects some official in the government whose word carries authority but is not final to promulgate the policy. If the world accepts it, the nation gives it proper sanction. If the statement made by the official fails to find the approval of the other nations, it is repudiated. Japan made a kite that wouldn't fly. The United States for one nation has failed to accept Japan's 'Monroe Doctrine' for Asia. If the United States persists in its present attitude towards Japan's decision (Please turn to page two)

Patriotic Engineer

Fans at the State-Carolina baseball game Tuesday were afforded much amusement by a display of enthusiasm on the part of a passing railroad engineer.

While the game was in progress a passenger train passed. From the cab of the locomotive the engineer wildly waved a red and a white flag. State fans wildly cheered his action.

A similar incident happened about two years ago when a passing engineer waved red and white flags at a football game. Red and white are State College's colors.

BLUE RIDGE RALLY MEETS JUNE 9-10

Conference Will Be First Joint Meeting of Y. M. C. A. and Y. W. C. A. Held There

The annual Southern Student Conference will be held at Blue Ridge, June 9-10, according to E. S. King, secretary of the Y. M. C. A.

The conference this year will be one of outstanding interest. For the first time in the history of Blue Ridge, the Y. M. C. A. and Y. W. C. A. will meet in a joint conference. This will make the conference much more interesting, according to Mr. King.

The association is glad to announce that Rev. E. McNeill Potat is back on the program again as the principal speaker. He will deliver an address each night as well as lead discussion groups.

Kirby Page, editor of the *World Tomorrow*, who is well known to State students, and Raymond Currier of the Student Volunteer Movement of New York City will both be prominent speakers at the session as will Dr. W. D. Weatherford and Mr. Claud Nelson.

BROWN POINTS OUT DEFECTS IN CORRECTION OF CRIMINALS

(Continued from page one) laration, it will establish something new in international diplomacy.

Touching upon scientific discovery Dean Brown told how the application of heat by means of electricity is used in curing pneumonia.

"A fine illustration of the defect of our laws in allowing delay in the execution of justice is afforded by the case of the Leas, father and son. Three years ago Colonel Luke Lea and his son were convicted of violating the banking laws of this state. Going to Tennessee they resisted extradition from that state to this by appeals to federal courts. The decision of the Supreme Court has put an end to this after justice was delayed for three years."

FRESHMEN AND SOPHOMORES TO STAGE FIGHT TOMORROW

(Continued from page one) the battle will be a sure success. And if it is, other Southern colleges will be sure to eagerly discuss it and follow our example of inter-class spirit. For what is college life with that spirit? There undoubtedly will be many minor bruises and black eyes, but what of it? Those things don't last forever and then if acquired in action they are sure to bring the lady friends to a closer understanding of your heroic character.

"As for anyone being disqualified for slugging or as to the probability of the fight being stopped on account of undue roughness, I feel certain that the members of both classes are of such gentlemanly calibre as to keep the battle a wholesome one which will be enjoyed by all, and will be remembered for many years to come."

"I feel sure the freshmen realize the importance of making this battle a success, and that they are willing to cooperate to the fullest extent with the Sophomore Class. At the Freshman Class assembly this Friday, the whole idea will be explained and talked up so that all members of the class will know just what to do this Saturday."

CURTIS GIVES INTERVIEW TO CHEMICAL ENGINEERS

Dr. H. A. Curtis, chief chemical engineer for the Tennessee Valley Authority, spent last Saturday here visiting the Chemical Engineering Department.

During the day Mr. Curtis interviewed prospective students for jobs with this project. He also inspected the equipment of the department.

Dr. Curtis is now the vice president of the American Institute of Chemical Engineers and the chairman of its committee on chemical education. He was formerly head of the Chemical Engineering Department at Yale University and one time chief chemical engineer for the Vacuum Oil Company.

STATE STUDENT TO GIVE EXHIBITION IN FLYING

James W. Miller, Jr., sophomore in forestry, will give an exhibition of plain and fancy flying at the Raleigh Airport Sunday, May 20, for the benefit of a few of his friends. According to Miller, he has received his pilot's license and has accumulated a total of ten thousand hours in the air.

Mr. Miller who is a versatile young man is a native of North Carolina, coming from Albemarle, N. C.

RED CROSS EXAM COMES NEXT WEEK

National Red Cross Representative to Lecture and Conduct Examinations

Raymond Eaton, representative of the eastern area of the American National Red Cross, will visit the State College campus Monday and Tuesday, May 7 and 8. Mr. Eaton will conduct an examination for reappointment of Red Cross life saving examiners on Monday, and on Tuesday he will examine any new candidates for life saving examiner.

From 2 to 4 o'clock Monday, the examiners will meet at the Y. M. C. A. for a two hour lecture on life saving methods by Mr. Eaton, and from 4 to 6, the group will meet at the college pool for water demonstrations. From 7:30 to 10, more water demonstrations will be given at the pool. College students are cordially invited to attend all these lectures and demonstrations, and it is hoped that a large group of interested students will be present.

Tuesday, the senior life guards who are applying for examiners will meet at 2 o'clock at the Y. M. C. A. to receive further instructions for the main part of the program.

Mr. Eaton is a man of great practical experience in the field of water safety. He has been life guard and aquatic director at various resorts along the Atlantic seaboard from the Chesapeake Bay to Miami. He is a native of Virginia and has built up a large following in water safety in the schools, colleges and army camps of the South. He has also done much first aid work in industries and in municipal fire and police departments.

For some time, Mr. Eaton has been the director of the National First Aid and Life Saving Institute held annually at Brevard, North Carolina. Hundreds of men and women attend this institute yearly and return home to become active leaders in water safety among the people of their home community.

KECK SELECTED AS BEST SOPH MILITARY STUDENT

Selection Made From Twelve Sophomores Nominated From the Nine Companies

Harris S. Keck, sophomore in Business Administration, has been selected as the best military sophomore in the State College R. O. T. C. regiment. The selection was made by Colonel Bruce Magruder and Captain John R. Eden from the twelve sophomores nominated from the separate companies.

WILLIAMS NAMED HEAD OF OFFICERS CONFERENCE

Fifty-seven "Y" Delegates Representing Colleges of State Were Here For Meeting

Carter Williams, Greensboro, vice president of the State Y. M. C. A., was elected president of the North Carolina Y. M. C. A. and Y. W. C. A. Officers Conference, which held its annual meeting at State College April 27-29. Miss Rosabelle Cash of Duke University was former president of the conference.

The opening address of the session was made by Claud Nelson, Southern regional secretary of the Y. M. C. A. Other speakers and leaders in the group were David R. Porter, traveling secretary of the National Y. M. C. A.; Rev. J. F. Fletcher, chaplain of St. Mary's; and Miss Carnie Meares, national Y. W. C. A. secretary. The conference was closed with a sermon by Rev. E. McNeill Potat, at Pullen Memorial Church, Sunday morning.

There were 67 student delegates representing various colleges throughout the state. The colleges sending delegations were Catawba, Davidson, Guilford, N. C. W., Greensboro, Elon, Duke, Carolina, Atlantic Christian, and State.

Other officers elected for the coming year were: Mary Woodard, Women's College of the University of North Carolina, vice president; Frances Watson, Eastern Carolina Teachers College, secretary; and Walter Sprunt, Davidson, treasurer.

DELEGATES FROM STATE "Y" INVITED TO VIRGINIA

Paul Derring, secretary of the V. P. I. Young Men's Christian Association, who visited State this year, and H. E. Robinson, traveling secretary of the Virginia Y. M. C. A. movement in a letter to E. S. King, have invited State College to send a delegation to the Virginia State Officers Training Conference.

The conference will be held at Camp Johnson May 11-13, 1934. The feature speaker on the program will be Raymond Currier of the Student Volunteer Movement. Besides the address by Mr. Currier, the program will include various discussion groups and recreation and social activities.

TAYLOR SOCIETY ELECTS OFFICERS

Frank Busbee, Raleigh, Will Head New Club Organized on College Campus

Frank Busbee was elected president of the Taylor Society at its regular meeting in Peele Hall last night. Other officers elected were: T. A. Betts, vice president; C. H. Foy, secretary and treasurer; R. F. Lawrence, assistant secretary and treasurer; and G. P. Wheeler, reporter.

The committees appointed were: Executive committee—Busbee, Betts, Foy, Wheeler, Lawrence and E. E. Parker; program committee—C. C. Howard, J. F. Scales, W. C. Furr, J. G. Riddick, and E. R. Sykes; membership—P. N. Troskin, E. E. Parker, F. B. Wheeler, R. O. Jackson, and W. K. Caldwell.

"The constitution, which was drawn up by Busbee, Foy, and Betts, was read before the members and approved. The next meeting will be held Thursday, May 10 at 7:00 p.m. in 108 Peele Hall. Those students interested in the society are invited to attend. There will be a prominent speaker.

DOZEN STATE STUDENTS PASS SWIMMING COURSE

James Porter and Ed Stone, Red Cross Examiners, Conduct Course at State

One dozen State College students recently completed the senior life saving course of the American Red Cross conducted at the college.

The students were: J. F. Harper, Raleigh; B. F. Bertland, Brooklyn, N. Y.; H. C. Byrd, Wilmington; Carroll Conrad, Greensboro; O. R. Douglas, Lake City, Fla.; F. Kubisa, Babylon, N. Y.; R. E. Rettew, Burlington; Chester Wescott, Hackensack, N. J.; E. R. Snyder, Patterson, N. J.; J. G. Shelley, Wellesley, Mass.; Jack Fabri, Taylorsville, Ill.; and Edward Reinisch, Pleasantville, N. Y.

The following five students renewed their senior life saving requirements: John Hunter and Boyce Holoman, Raleigh; W. L. Dixon, Charlotte; J. A. Garner, Jonesboro, and G. G. Gets, New Philadelphia, Ohio.

The course was under the direction of Charlie Stott of Wendell, a student at State and chairman of the Wake County life saving corps. He was assisted by James Porter and Ed Stone of Raleigh.

Punishment
As a punishment for stealing pencils from the library at the University of Oregon, students are deprived of their shoe laces, which are then used to tie the pencil to the desk.

SO ROUND and FIRM and FULLY PACKED that's why you'll find Luckies do not dry out

LUCKY

LUCKIES are all-ways kind to your throat

"It's toasted"

Only the Center Leaves—these are the Mildest Leaves They Taste Better

Copyright, 1934, The American Tobacco Company.

Luckies use the mildest tobaccos—for Luckies use only the clean center leaves—and these are the mildest leaves. They taste better. Then science plays its part in making these choice tobaccos truly kind to your throat. "It's toasted"—for throat protection. These mellow, fine-tasting tobaccos are cut into long, silky, full-bodied shreds and fully packed into every Lucky—so round, so firm, free from loose ends. That's why Luckies "keep in condition"—why you'll find that Luckies do not dry out, an important point to every smoker. You see, always in all-ways—Luckies are kind to your throat.

INTEREST SHOWN IN SUMMER WORK

Director Browne Says Many Requests Already Pouring in for Information

"The interest shown in the State College Summer School for 1934 is most encouraging," said T. E. Browne, director of the Summer School, yesterday.

Up to the present time, there have been received by mail one hundred and two inquiries and requests for Summer School Bulletins, Bulletins giving detailed information about courses, instructors, expenses, etc., have been sent to three thousand persons.

State College Summer School increased its 1933 enrollment over the enrollment for 1932. Indications now point to a much larger enrollment in 1934.

A list will be given each week of the courses that can be taken during the Summer School.

The following courses are the first installment:

- A. H. s102. Animal Nutrition 1, Mr. Ruffner.
- A. H. s209. Horse and Mule Production, Mr. Haig.
- A. H. s217. Ice Cream Making, Mr. Cleverger.
- A. H. s304. Herd Improvement, Mr. Haig.
- F. C. s1. Cotton Classing, Mr. Darst, Mr. Cotner.
- F. C. s225. Cotton Classing II, Mr. Cotner.
- F. C. s302. Advanced Cotton Classing, Mr. Cotner.
- F. C. s201. Cereal Crops, Mr. Darst, Mr. Cotner.
- F. C. s210. Cotton Production, or s215. Tobacco Production, Mr. Cotner.
- F. C. s330. Advanced Seed Judging and Grading, Mr. Darst, Mr. Cotner.
- F. C. s351. Advanced Study of Crops Research, Mr. Darst, Mr. Cotner.
- Ag. Econ. s260. Agricultural Economics, Mr. Knapp.
- Ag. Econ. s265. Farm Marketing, Mr. Knapp.
- Ag. Econ. s269. Farm Accounting, Mr. Knapp.

STATE PROFESSORS READ PAPERS AT CHAPEL HILL

Dr. B. W. Wells, Department of Botany, Presides at Academy of Science

The N. C. State Academy of Science held its annual meeting in Chapel Hill on May 4 and 5, under the presidency of Dr. B. W. Wells of the State College Department of Botany. Seventeen State College professors presented papers on various subjects.

Dr. Wells' presidential address was given under the title "Galls and Galls." In this illustrated lecture he showed that the galls should be sharply divided into lower and higher forms, the latter being remarkable specific growth forms, whose revolutionary origin is located in the germ plasma of the insect responsible for their appearance. These structures are not pathological in the strict sense and the name "gall" is misleading. Only the lower galls are truly pathological.

Among the most interesting of the papers presented by State professors were: "Growth of Chemical Industries in N. C.," by E. E. Randolph; "The Homopterous Head," by Z. P. Metcalf; "Relative Humidity of Vapor Pressure," by Donald B. Anderson; "North Carolina Tale Deposits," by J. L. Stuckey; "Effect of Tread Upon the Skidding of Automobile Tires," by J. B. Derieux; "Polyporus Curtianii, the Cause of Heart Rot of the Peach," by R. P. Poole.

Required to Take Oath

The committee on academic freedom of the Civil Liberties Union is opposing the passage of a bill by the New York legislature requiring teachers in the public schools to take a special oath of loyalty to the government. The organization describes the oath as "wholly useless and a reflection on the loyalty of teachers."

Radio Education

Premier Mussolini has inaugurated a system of mass education by radio in all Italian schools, the radio lessons being broadcast from Rome and reaching even the most remote rural schools.

Junior-Senior Bids

Dates for securing bids to the Junior-Senior Prom, which will be held May 11, have been announced. Bids may be secured at the following time: next Wednesday and Thursday afternoons from 1 to 2 p.m. and from 4 to 6 p.m. in the Student Government office.

Both juniors and seniors will be given bids at this time. Juniors who have not paid their fee may do so at this time or pay any member of the Prom Committee. Committee members are John Findlay, chairman, John Stanko, S. R. Smoak, Claude Carrow, Walter Greenwood, and Albert Stroud. Unless the student secures his bid at this time, he will not be admitted to the Prom.

GREAVES-WALKER NAMED ON RESEARCH COMMITTEE

Aim Is to Direct and Develop Uses of Electrical Processes in Ceramics

At a series of conferences held at Asheville, N. C., over the week-end, between the executives of the Tennessee Valley Authority and a group of the country's prominent ceramic and electro-chemical engineers, Professor A. F. Greaves-Walker, head of the Department of Ceramic Engineering at North Carolina State College, was appointed one of the five members of the Electro-Ceramic Research Committee.

This committee will direct researches for the TVA to develop the use of electrical processes in the ceramic industries and especially to develop electric furnaces and kilns to replace those now using coal, oil and gas. The research laboratories will be set up at Muscle Shoals. The opinion of those attending the conference was that the work of this committee would revolutionize present ceramic practices in the firing of products.

Members of the committee, in addition to Professor Greaves-Walker, are S. T. Henry, electrical engineer, Spruce Pine, former editor of *Chemistry and Metallurgy*; Dr. Colin G. Fink of Columbia University, the country's foremost electro-chemical engineer; Dr. A. V. Bleininger, ceramic engineer and formerly director of the Ceramic Division of the U. S. Bureau of Mines; and Perry Helsler, ceramic engineer of New York City.

Professor Greaves-Walker will act as the refractories expert for the committee.

STATE MUSICIANS PLAN MUSIC WEEK PROGRAM

College Orchestra, Band and Glee Club to Play During Week May 6-13

National Music Week, which begins Sunday, May 6, will be observed by State College musical organizations by participation in various activities on and off the campus.

Tuesday night the State College Glee Club will sing a group of numbers at the Raleigh Memorial Auditorium on a program in which musical organizations from St. Mary's, Meredith, and Peace will take part. The Glee Club will also sing that week at the sophomore assembly, and at the freshman assembly on Friday.

The band will play at the usual Monday noon parade, and at the State-Duke baseball game to be played here on Thursday, May 10.

During the week the college orchestra will play a short program in the dining hall at the supper hour Friday, and on Friday night the orchestra and the quartet will furnish music for the Chamber of Commerce annual farmers' dinner in the college dining hall.

Sunday, May 13, at 4:30 p.m., Major Kutschinski will give a violin recital in Pullen Hall. Donald Peery will play a group of piano solos as well as the accompaniments on this program. There will be no band concert this Sunday, due to the community concert to be given in the State Theatre by the Raleigh Male Chorus and the St. Cecilia Society. However, Major Kutschinski, director of music, stated that the band would give an outdoor concert Sunday afternoon, May 20.

ANNUAL TO BE REVIEWED BY COLLEGE PROFESSORS

1934 Book to Rival Any in South According to Editor and Business Manager

The 1934 *Agromech* which will appear on the campus soon will be reviewed by several professors in a coming issue of *THE TECHNICIAN*.

The yearbook, this year, according to the editor and business manager will rival any annual in the South. A petition was passed this year in which a majority of the students voted to pay a standard fee for having their pictures placed in the annual. As a result most of the student body will be represented in the book.

Several new features have been incorporated in the book that will make it larger than annuals printed in previous years.

Much secrecy has surrounded the plans of the book this year, little information having been divulged as to its content. The editor and business manager wish to keep the entire book a secret until it appears. Albert Couch is editor and Rawlings Poole is business manager.

MORE LIVESTOCK URGED FOR SOUTH

Dr. Poe Stresses Need of More Livestock at Judging Contest Held Here

Teams representing Mississippi State College and Virginia Polytechnic Institute tied for first place in the sixth annual intercollegiate livestock judging contest held at State College last Saturday. The team from Clemson College, South Carolina, was awarded second place and the one from the University of Tennessee was awarded third place.

Individual winners in judging all classes of livestock were: First, H. M. Hamilton of V. P. I.; second, W. H. Hamberlin of Mississippi State; third, A. V. Allen of V. P. I.; fourth, C. G. Lambert of Mississippi State; and fifth, A. J. Jesse of V. P. I. Gold, silver, and bronze medals were awarded the first three of these winners.

The teams judged seven classes of livestock at the State Fair grounds in the morning and gave oral reasons to the officials in charge in the afternoon. A banquet was given in the evening in honor of the winning teams and at that time Dr. Clarence Poe, editor of the *Progressive Farmer*, pleaded briefly for more livestock farming in the South. He reiterated former statements calling for "two armed" farming in the South in which livestock would be added to the cash crops already being produced.

"Livestock," he said, "offers the opportunity for us to use our intelligence, our land and our labor. At the same time it helps improve the fertility of the soil." The farm paper editor also stressed the fact that men who farmed with livestock seemed to have a personality and an understanding greater on the average than growers of cotton, tobacco and other crops.

Dr. Z. P. Metcalf, director of the instruction in the School of Agriculture, welcomed the visitors to the college, and Prof. R. H. Ruffner, head of the animal husbandry department, presented the trophy cup and medals. The banquet was presided over by Prof. Earl H. Hostetler, as toastmaster.

At the Theatres

STATE THEATRE

Hitch-hiking to Heaven on the royal road of Romance! A poor, little rich girl, with a million dollars—but she had to beg for Love! Sparkling comedy! Exciting surprises! Thrilling romance!

That's the story of "It Happened One Night," the Clark Gable-Claudette Colbert co-starring comedy-drama showing all next week at the State Theatre. Claudette runs away from her father's palace; Gable's home to go to New York. She meets the gallant Clark on a night bus and ere long is safely ensconced under his protective wing. A rainstorm halts the bus; they spend the days hitch-hiking, the nights in auto-camps. After a series of thrilling and romantic adventures they reach New York with the prospect of a wedding in the offing.

Walter Connolly, Jameson Thomas, Roscoe Karns and Ward Bond are featured in the all-important supporting roles under the direction of Frank Capra.

A Souvenir and News complete this program.

NEW Y. M. C. A. OFFICERS TAKE OFFICE WEDNESDAY

H. P. Cotton, New President, Will Be Given Oath of Office By Dean Cloyd

The installation of the Young Men's Christian Association officers will take place Wednesday night at 7:30 in the Y. M. C. A. auditorium, according to E. S. King, General Secretary of the State Y. M. C. A.

The program will be a simple one. There will be short talks by Bill Braswell, the old president and Horace Cotton the new president, and a short address by an outside speaker, Dean E. L. Cloyd will give the oath to the new officers and cabinet.

Cotton has not made public his selection of cabinet members yet, however it is expected that he will do so before Wednesday. The new officers are Horace Cotton, president; Carter Williams, vice president; V. C. Herlocker, secretary; and Marion Gatlin, treasurer.

One State College Publication Key on the campus. Name engraved on back of key. Please return to F. H. Jeter, 113 Ricks Hall.

Members of the International Relations Club will meet at the Y. M. C. A. at 5 p.m. Thursday, May 10 to go on a picnic.

E. L. Johnston, President.

All Glee Club members are expected to be on hand for the rehearsal Monday night for the final preparations for the program Tuesday night. There will also be an important rehearsal Wednesday night in preparation for a short program Friday.

There will be an important orchestra rehearsal Tuesday at 4:30 in the band room at the gym.

All members of Sigma Pi Alpha are urged to see Prof. S. T. Ballenger before 12 m tomorrow.

M. I. Annetta, President.

Gamma Sigma Epsilon will meet Monday evening at 6:45 o'clock.

C. A. Williams, Grand Alchemist.

WOMANS COLLEGE INVITE "Y" WORKERS FOR MEETING

Dr. Graham Will Speak Before Joint Meeting of Workers at Greensboro May 10

Dr. Frank Graham, president of the University of North Carolina, will address a group of Young Men and Young Women Christian Association workers at a joint supper meeting which is to be held Thursday night May 10 at the Woman's College at Greensboro.

Dr. Graham will speak on the plans and purposes of the young peoples' Christian work. During the address, he will outline a plan by which the associations from the different branches of the University may work together for greater effectiveness and closer contact with the students.

Chapel Hill, the Woman's College and State College will be represented at the meeting. The State delegation will include: Horace Cotton, Carter Williams, Marion Gatlin, V. C. Herlocker, E. S. King, Professor Wheeler and other members of the faculty.

Stresses Wide Reading

As the result of a new teaching policy at Brown University which lays particular stress on wide reading, a 50 per cent increase in the use of the John Hay Library at Brown has been noted in the last three years.

LANGUAGE GROUP WILL MEET HERE

National Convention of Sigma Pi Alpha to Be Held at State Tomorrow

The national convention of Sigma Pi Alpha, language fraternity, will be held at State College tomorrow, under the auspices of the local chapter.

The meeting will be called to order and the welcome address delivered by Dr. L. E. Hinkle, national president of the fraternity. The welcome by the local chapter will be given by M. I. Annetta, president.

Following these welcomes a nominating committee will be appointed for

MRS. FRANCIS L. PICCARD, Proprietor

PALM BEACH... like raising a window

Ventilation! Air entering to evaporate body perspiration! That's what you get all summer through the wide-open pores and patented weave of the new Palm Beach.

Wide open because each pore of the cloth is a real little window in itself—with no fringe around the edges—with none of the whiskers or scales (scilla) found on the fibres of wools and worsteds, to catch dust and close the openings. That's why scientific tests show Palm Beach to be many times as porous as other summer fabrics.

Have you been a Palm Beach post-ponee all your life? Then let this summer introduce you to its luxurious coolness. It is dirt-repellant, wrinkle-resisting, crease-holding, washable, fully pre-shrunk—and it comes in white and many colors. Smartly tailored by GOODALL. \$18.50

GOODALL COMPANY - CINCINNATI

Showing how Palm Beach lets in the air and evaporates body perspiration... Your body is apt to give off a pint of perspiration on a warm day. Hence, these five jars, each containing a pint of liquid, were exposed to air. In 4 1/2 hours the jar without any covering evaporated all the perspiration. In the same length of time, 95% was evaporated in the jar covered by porous Palm Beach Cloth. Note the contrasting results in the jars covered by other summer fabrics.

JAR NO. 1 (with no covering) shows 100% evaporation. JAR NO. 2 (covered with Palm Beach) shows 95% evaporation. JAR NO. 3 (covered with other summer fabric) shows 25% to 41% of "perspiration."

THE AIR WALKS RIGHT THROUGH A PALM BEACH SUIT TO COOL YOUR SKIN

Winner of North Carolina Collegiate Press Association Prize for 1931-32 and 1932-33

WELCOME N. C. C. P. A. DELEGATES

To the delegates from several North Carolina colleges attending the annual spring convention of the North Carolina Collegiate Press Association which is being held in Raleigh, State College extends its warmest greetings.

The purpose of these conventions, which are held twice each year, is to bring the staff members of the North Carolina publications closer together and for the exchange of ideas on publications work. At each convention speakers are secured from the newspaper, magazine, and engraving fields to impart new ideas to the college editors and business managers. These men are chosen for their outstanding knowledge of the field in which they work and many new ideas that go to make better newspapers, magazines, and annuals are passed on by these men at the meetings. One of the most helpful phases of the convention is the meetings in which the publication is torn apart and studied. In this way the editor and business manager of the publication being studied gain the reaction of the speaker as well as the other delegates who also aid in the criticism.

The field of college journalism is not far removed from that of the outside, as was pointed out by a prominent Raleigh newspaper man at a recent publication banquet. The journalism practiced in colleges is just a little less mature than other journalism. In many cases college newspapers are superior to some dailies and many weeklies. Possibly the major objection found by outsiders in college newspapers is the editorial policies employed. There is really no freedom of the press in college journalism as has been exhibited many times in colleges and universities all over the country, as well as at this college. When the college editor becomes militant he is promptly assailed on all sides and soon finds himself on the outside, looking in, figuratively speaking.

The convention being held in this city will also give those staff members of the three publications an opportunity to participate in these meetings which they would not have gotten had the convention been held elsewhere.

It is sincerely hoped that State College and Meredith will act the perfect host to the assembled delegates, and that the convention will be successful in every way.

CHEER LEADER ELECTION

The Student Council has suggested that the election of the head cheer leader for next year not be confined to the rising senior class.

Under the present plan only one candidate is eligible for the position next year. Under the new system two cheer leaders will be selected from each class and given try-outs before the Student Council. To that student whom the Council sees best fitted for the position will be given the head cheer leader post.

The new plan has many advantages over the old plan. In the first place, there is a wider field from which to choose the man. The field is not limited to one or two men as has been the case in past years. In the second place, the student who is best fitted will receive the position. It will not necessarily go to that man who wishes to be cheer leader just for the sweater and monogram which goes with the position. A certain degree of "politicking" will also be eliminated. This has often kept the best man from holding the post.

One of the best ways of bolstering up school spirit is having a good cheer leader. Indications are that the school will have a good football team next year. This will go a long way toward establishing some of the waning school spirit which has been so evident during the past year. A cheer leader is a real leader. He must know how to arouse a grandstand when his team is losing as well as winning. If he fails to do this, then he has failed his position.

While motorcycle drivers may be taking excessive risks, there is also another group on the campus that is equally guilty of the same thing—those owning motor cars. It is surprising that more accidents have not occurred when the reckless operation of some cars are observed about the campus streets.

MACHINES OF DEATH

This week witnessed another motorcycle accident in which a student was severely injured.

Thus another is added to the already long list of those students sustaining injuries or losing their lives as a result of motorcycle accidents. Practically every owner of one of these machines has at a time or another been involved in accidents. A specific request is made each year by the administration that the student not bring a motorcycle when he enters this college. The warning has been disregarded by some with the result that they have become involved in accidents and sustained injuries, more or less serious.

Now that accidents have become so numerous it is up to the administration to abolish these machines of death from the campus in order to prevent those who insist on keeping motorcycles from possible injury. The matter was brought up before the Student Council this year, but nothing was done to alleviate the trouble.

The death rate is probably higher with motorcycles than any other means of modern conveyance. For the limited number of these machines there is an enormous number of deaths and injuries. The owner of a motorcycle, as any psychologist will verify, seems to think that although others may be killed or receive injuries, he is singled out and harm cannot befall him. It is for this reason that they drive recklessly with little thought of the danger ever lurking with each turn of the wheels. The beginning, although sometimes involved in accidents, is much more careful than the experienced driver. However, after a period the novice feels that he can manipulate the machine with a great degree of skill and immediately climbs into the ranks of the veterans. Then his trouble begins. Taking chances which he never took before and for which the average citizen might brand him crazy, he rides straight into an impending doom. Sometimes he is fortunate enough to receive only minor injuries, and sometimes injuries which main him for life, and in many cases death results from his carelessness.

To the average person it is difficult to see how students, who are in the very beginning of their life, take such chances when the odds are so against them. Some may defend them, giving as the reason the typical spirit of youth, but the majority label them as fools.

The administration has the power to abolish these death-dealing machines from the campus, and in view of the recent disaster steps should be taken to strictly forbid their use by students at this institution.

FOR A BETTER HONOR SYSTEM

A new proposal has been brought up on the campus that will, if put into effect, remove some of the objectionable features of the Honor System.

The new plan calls for retaining the instructor in the room by request during examination and have him report any one whom he sees not doing his own work. The Student Council members will also report those students seen "cribbing." In this way there will be a double check on one of the most troublesome problems experienced in every school.

At the present the Honor System here is far from perfect. Something is needed to shake up the System and rouse it from the slumber into which it has fallen. It was established here as a forward step, but since the very beginning it has failed almost entirely its purpose. Students are reluctant to report classmates whom they see "cribbing," and as long as this situation exists (and it always will) there will be no true Honor System here.

Some mention has been made of going back to the old system in which the professor watched all his students with a vigilant eye, and did all the reporting of offenders. There have been many arguments pro and con on this plan, with many faculty members expressing their desire for the return of the plan, while generally the students favor the retention of the Honor System.

If the Honor System is abolished, it means that students who are to be the future leaders of the country cannot be trusted. It will mean that just those few who insist on "cribbing" will deprive the college of a worth while plan, the Honor System. Usually the student who leans on others while in college will lean on others when he is out of college in the business world. As a result he will see other independent men rise far above him, while he remains in the same rut year after year.

The Honor System could be made a success if the students' cooperation were secured. If the students wish the return of the old system, the matter is left entirely up to them. If they wish the retention of the far superior system in which the student is trusted, they should exhibit their sanction of the plan by their cooperation.

Change

Change is the key of progress. It has been the vital element in the development which has taken place in this old world since time began. This has been the necessary ingredient in the making of nations, civilization, industry, and generally everything. Without change the world, or at least those parts rejecting it, becomes stagnant, out-of-date, ignorant, and steeped in a stubborn worship of and reverence for the past. Such elements might well be compared to the turning to a pillar of salt as a result of looking backward as mentioned in the Bible.

Japan and China, and all the Far East for that matter, are good examples of what that prohibition of change can do. And especially through the example of Japan can be seen the profits to be derived by accepting the changes of the rest of the world and getting into line to help this game of change and revolution to continue. Without a doubt, that item concerning the rejection of change which affects most of the world is the tenacity of business to so-called "economic laws." When England was undergoing the industrial revolution, industry and business of the age accepted the opinions of Adam Smith as law, and law it has been since that time. In *Wealth of Nations*, Smith asserted that the world must have a depression every so many years and nothing can be done to prevent it. He opined, and the rest of the world affirmed. Now the world refuses to see the rut it has fallen into and refuses to climb out by changing its methods of economics.—*The Blue Stocking*.

HERE and THERE

By G. W. FORD

Not that I wish to chime in on the sports editor, but I can't help saying something about what has happened in the field of minor sports this past week. With Milan Zori breaking the record for the discus throw at the Penn Relays and the golf team winning the state championship, it's about time that our minor sports receive some recognition. What makes them minor sports anyhow? Compared to golf and track events, our football and baseball are young sports. Maybe, after our so-called minor teams smash a few more records, they will gain recognition and receive the proper appropriations to carry on.

Walter Jones is the latest man eligible for the Ball and Chain Club, although there are about fifteen more boys in school who have all the requirements but are keeping them secret. Walter didn't take long in taking Long.

Will some one please tell us what the color of the jacket is that Mister Johnny has been wearing lately? One fellow suggested that *safron-colored* might be the proper term for it.

The freshman-sophomore battle which is scheduled to take place on Saturday afternoon ought to arouse a great deal of interest. The classes ought to be complimented for reviving one of our old traditions.

With the announcement of this event, many stories of former inter-class battles have sprung up. Once again they are telling about the time that they had the fuss with fire hose. They wrecked the "Bull Hall" and pulled up a water hydrant.

Locke Webb has been favorably impressed by Spring and a young lady at Duke.

Elmer Spence has been worrying some lately about his girl friend back home.

You know, there's nothing like reading the paper once in a while to keep up with the things going on around here. I was reading in *THE TECHNICIAN* last week about the election of president for next year's senior class. In the next column was an article telling about the co-eds and their election of a president for the coming year. Putting two and two together, I says to myself, says I, "Yes sir, . . . Birds of a feather flock together."

A bus from Greensboro stopped in front of St. Mary's school the other day to let a few girls off. Our old friend "Ham" Hutcherson was right at hand to see that they got off all right . . . or maybe he was just giving them the once over . . . looking for prospective co-eds.

This is convention week for the N. C. C. P. A. These letters have nothing to do with the new deal . . . the Collegiate Press Association has been going on for years. However, we are honored this year by having the convention in Raleigh. As our editor has told you, the purpose of this convention is to bring the members of the different publications closer together.

And now let's find some short sayings. . . The selecting of an orchestra to play for finals is causing quite a bit of comment. . . Jack Fowler claims he had the library clock in a million pieces. . . I'll bet that there are not more than several thousand pieces to the whole clock. . . Summer school here is offering a course for janitors and firemen. . . The Theta Kappa Nu are working on a new lawn. . . State Drug Store makes the best coffee around here. . . The Delta Sigs are starting to wear uniforms in their intramural games. . . The co-eds had a dance last Saturday night. . . any professor who was not invited as a chaperone can give me his name and I'll see that he gets on the mailing list. . . I wonder if Honeycutt has ever thought of using shatter-proof glass in his windows. . . The seniors in M. E. had a good trip up to Virginia last week. . . Brought back some empty bottles and some tall stories. . . The Ceramic school is proud of its seniors. . . all three of them are outstanding students. . . Lambda Chi Alpha bridge tournament comes off the 8th, 9th, and 10th. . . Some of you birds will have to give up poker for a few days to go up there and compete. . . Bob Seitz left the N. C. P. S. convention last Saturday to meet his "special attraction" in Greensboro. . . wrote her a special delivery as soon as he got back, too. . . Our editor and managing editor came home on the first bus last Friday morning. . . worked all night (so they say).

STANKO NAMED OFFICER IN STUDENT FEDERATION

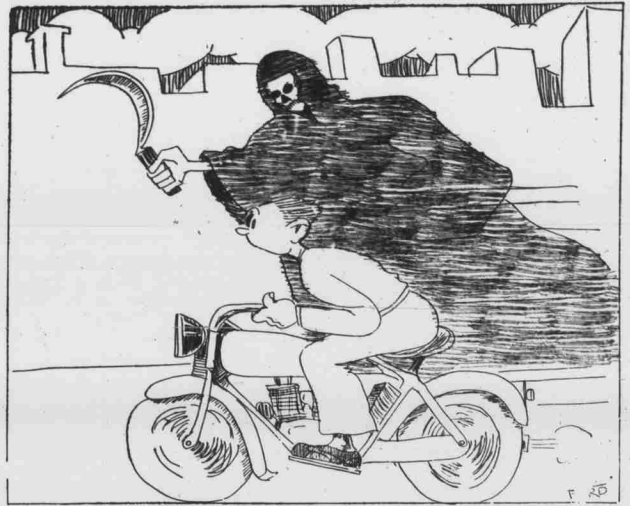

John Stanko was elected vice president of the North Carolina Federation of Students at its annual meeting in Winston-Salem last week-end.

Those attending from State College besides Stanko were W. P. Kanto, Claude Carrow, Bob Seitz, Bill Aycock, and John Finlay.

Kanto led a discussion group at the convention and the association passed a resolution that if the editorial policies of a paper were to be censored the students, not the faculty, should be the ones taking action.

The convention will be held at Meredith College next year.

Maybe Barnum Was Right

SENIORS RETURN FROM INSPECTION

Twenty-eight Mechanical Seniors Visit Navy Yards in Virginia During Trip

Twenty-six seniors in mechanical engineering and the aeronautical option visited engineering concerns and government experimenting and manufacturing stations at Newport News and Langley Field last week during an inspection trip which is taken annually as part of the course in mechanical engineering by seniors of that department.

The visit lasted two days, April 26 and 27. Thursday, April 26, the group was entertained at the Country Club by the Alumni Club of that section. Prof. J. M. Foster, head of the State College aeronautics department, spoke to the assembled men on the improvements being made at the college and the changes which will be brought about upon the completion of the consolidation of the three units of the Greater University, State College, Chapel Hill, and the Woman's College. J. D. Buchanan told of the advancements being made in the State College sports world. The seniors were then given descriptions of various parts of the *Zenger*, the first built-to-order airplane carrier to have been built by the Newport News Shipbuilding and Dry Dock Company, at a cost of \$21,000,000.

Thursday afternoon the seniors were shown the laboratories of the Newport News concern in which experiments are carried on as to frictional resistance on model ship hulls. They then saw a museum consisting of assorted parts of old sailing vessels and motor ships.

After the banquet Thursday night, the seniors attended a dance in the Chamberlin Hotel at Old Point Comfort.

Suggested Readings

Each week a new list of books will be published as an aid to the student in selecting suitable reading matter. In this list will be included works of the foremost American and foreign authors.—Ed. Note.

Adamic, Louis, *The Native's Return*. Anderson, Maxwell and Stallings, Laurence, *Three American Plays*.

Ashby, R. C., *He Arrived at Dusk*. Beebe, C. W., *Beneath Tropical Skies*. Blumenthal, Albert, *Small-Town Stuff*.

Eckstein, Gustav, *Noguchi*. Morley, C. D., *Where the Blue Begins*.

The New Dealers, by Unofficial Observer.

Roosevelt, F. D., *On Our Way*. Sandburg, Carl, *Slabs of the Sunburnt West*.

Teasdale, Sara, *The Answering Voice*.

Walpole, Hugh, *The Fortress*. Schwetzer, Albert—*Out of My Life and Thought; an Autobiography*.

Lee, Cuthbert—*Contemporary Portrait Painters*.

SEVEN NEW MEN TAKEN INTO MUSICAL SOCIETY

Mu Beta Psi, honorary musical fraternity, held its spring initiation of new members last night in the band room. Seven new men were initiated. To become eligible for membership in the fraternity, a student must have been active two years in some music organization on the campus and must have a grade average of at least 75 per cent.

The faculty dances which are given once each quarter of the school year are sponsored annually by the Mu Beta Psi fraternity. The third dance for the spring quarter will probably be held the last week of May. Arrangements are now being made for a banquet in honor of the newly initiated members of the fraternity.

OLD DRILL BACK FOR STATE UNIT

R. O. T. C. Unit Had Used New Simplified Drill Since Inauguration Fall of 1932

The State College R. O. T. C. unit will return to the old regular army style of drill next fall, according to a statement from Captain John R. Eden, Instructor of Military Tactics.

Two years ago the War Department selected various army units to try out the proposed new drill as an experimental measure to determine whether it could be substituted to advantage, in whole or in part, for the old drill. The regiment at State College was the only R. O. T. C. unit to be selected throughout the country. A report of the two year experiment has been sent to the War Department. Until the results of this nation-wide experiment have been compiled and a decision reached the old standard form of drill will be used.

The new drill is a much simplified form easily adaptable to handling troops in battle, while the old drill is much more complex and precise, prettier to watch, and of the closed order type. Freshmen taking military have been excused from the remaining Thursday drill periods in lieu of their firing on the rifle range outside of the regular allotted periods. At this time the Juniors and sophomores in military are practicing the old drill in preparation for its resumption next fall.

THORN'S

DOES YOUR ALLOWANCE HAVE these SYMPTOMS

Loss of weight? Anemia? Inability to last out the week?

These are signs of overwork.

You can relieve your allowance of one burden... your laundry bill. Send your laundry home—collect, if need be. We'll call for it, take it home, and bring it back again quickly, and, who knows, maybe even prepaid. See how your allowance responds to this tonic.

We give a receipt on collection and take another one on delivery. Railway Express is a nation-wide organization that has served your Alma Mater for many years. It provides rapid, dependable service everywhere for laundry, baggage and shipments of all kinds. Telephone the nearest Railway Express agent for service or information.

Techs to Play Three Games on Home Ground Next Week

Doakmen to Play Davidson on Tuesday and Wednesday and Duke on Thursday

TEAM MAKES POOR SHOW IN LAST GAMES PLAYED

Games Lost to Duke and Carolina and One-sided Victory Scored Over V. M. I.

Baseball fans at State College will get their fill next week when the varsity plays three home games on consecutive days. Tuesday and Wednesday, the team plays Davidson, and Thursday a game with Duke is scheduled. All of the games will be played on Freshman Field at 4 o'clock. Yesterday, the Techs played the University of Virginia here.

State's baseball team turned in a .333 percentage of wins and losses for the past week. The Techs defeated V. M. I. by a 15-3 score and were in turn defeated by both Duke and Carolina. The score of the Duke game was 4 to 0 in favor of the latter, and Carolina won 8-7.

Y. M. I. Game
In the game with V. M. I. on Freshman Field last Friday, the State team got enough runs in the first inning to win the game. In that inning they made five runs off four hits to chase "Stumpy" O'Brien, V. M. I. pitcher, from the mound. Neal of V. M. I. finished that inning with four further hits, but in the second inning, State made three hits and four runs off him.

Neal pitched for the Cadets until the end of the fifth. During that time, State made five more runs, all of them in the fifth. Smith pitched the last innings for V. M. I. Dave Rodwell and Bill Lynn turned in a very good pitching performance for State. Four hits were made off Lynn. Rodwell allowed only six hits in five innings besides starting at the bat with a home run and two singles. These three hits brought home four runs for State.

Riley, playing his first game for State at second base, hit a home run in the first inning to bring one man home and in the third, he got a long two-base hit. Wally Oakden, State center fielder, had a perfect day at bat with three singles. Leseur led the cadet batters with three singles.

Duke Game
Reynolds May, Duke pitcher, proved to be just so much poison for State in the game at Durham Saturday. May pitched to just 29 batters, and no State player got farther than first base. In fact, Kirkman's single was the only hit State got during the whole game.

In the meanwhile, Duke made three runs in the fourth inning and one in the fifth. Michael and Wentz each sent out singles to start Duke going in the fourth. Hendrickson bunted safely, and May hit a grounder to bring in Michael on an error by Lambeth. Then Bell hit a single to bring in two more runs before the inning ended. In the next innings, Cornelius made a run while Lambeth was tossing up to second to force another Duke player.

Carolina Game
Carolina, in a game with State Tuesday, bunched six runs in the first inning, and it looked like an easy victory for Carolina, but State kept on scoring, and the game ended rather closely with Carolina ahead 9-7. Brandt and Tatum of Carolina each hit home runs with two men on base to account for Carolina's runs in the first. The Tar Heels got two more runs in the second and one in the seventh.

All the scoring done by Carolina in the first inning was done after two outs had been made when Kirkman, State center fielder, dropped a fly. Outside the first and second innings, Carolina could not do much with Flythe's pitching. Flythe allowed fewer base hits than Andrews of Carolina, but he walked more men. Andrews, who became eligible to play only last Monday, struck out the State batters in order in the second, third, and fourth innings.

McQuage led State batting with three hits. Irwin, the only Tar Heel to get more than one hit, got two two-base hits.

2ND 1911, PIKAS WIN IN BASEBALL

Played Interesting Baseball Games in Intramural League For Past Week

This is the second of a series of write-ups of the most interesting intramural dormitory and fraternity baseball games featured each week by THE TECHNICIAN. (Ed. Note.)

Second 1911-Second Seventh
A slugging Second 1911 baseball team defeated the Second Seventh baseball team by a score of 11-4 on Wednesday, April 25.

The winning team started strongly and collected three runs in the first two innings while handing their opponents goose eggs. In the third, Second Seventh got underway by bringing in three runs, but in their half of this inning Second 1911 added five more tallys to their total. Second 1911 brought in another run in the fifth, and two in the eighth, while Second Seventh was getting a run in the eighth. Neither team scored in the ninth.

The line-ups:
Second Seventh—Isenhour 3b, Denton 2b, J. Thompson c, Conrad p, D. Thompson 1b, Carlisle 1b, Simkins cf, Shely rf, Delphin ss, Gibson ss and Clark for Sinkins in centerfield.
Second 1911—Snyder cf, Wallace 2b, Wynn 1b, Gattas p, Tubble lf, Clayton ss, Strickland 3b, McKinnon rf, Marks c, Stokely ss, and Thornberg for Marks at catcher.

The score by innings:
Second Seventh.....003 000 010-4
Second 1911.....125 010 020-11

PI Kappa Alpha-Delta Sigma Phi
The Delta Sigma Phi defeated the PI Kappa Alphas 9-8 in one of the most thrilling games that has yet been played in the intramural leagues, on Wednesday, May 2.

The game started as a slugfest, with the first inning when the Pikas made two, and the Delta Sigs made two. In the second inning the Pikas again collected three runs, but the Delta Sigs doubled this, adding six runs to their total. The next three innings went scoreless. The Pikas managed to tie the score by bringing in one run in the sixth and another in the seventh. This ended the scoring for the Pikas in the game, while in the eighth the Delta Sigs pushed over one more run to win the contest.

The Pikas rallied in the ninth inning, when with two outs, F. Scales singled, stole second on an error, and advanced to third on a wild pitch. He was left there on base, however, as K. Scales hit a fly to end the game. Caldwell pitched the first two innings for the Delta Sigs, then was replaced by Sykes who pitched the rest of the game for them. Smoak pitched the whole nine innings for the Pikas. All three of the pitchers did well, the errors in the field accounting for most of the runs. Brannon, playing second base for the Pikas, turned in a creditable performance.

The line-ups:
Delta Sigs—Caldwell p, 2b, Horton c, Underhill 1b, Poole ss, Brockwell 2b, ss, Sykes ss, p, Goodwin 3b, Martin lf, Latham cf, Herbst rf, and Williams for Herbst.

Pikas—F. Scales 2b, K. Scales lf, Smoak p, Eaton 1b, Norman cf, Smitherman ss, Sawyer c, Cockman rf, Griffin ss, Brannon 2b, and Gibbons for Griffin.

The score by innings:
Delta Sigs.....260 000 01x-9
Pikas.....320 001 100-8

STATE FROSH DEFEATED BY CAROLINA NINE 20-3

Carolina Frosh Make Eight Runs in Fifth and Four in Third for Give Away

The Carolina Frosh defeated the State first year baseball team here last Saturday by the one-sided score of 20-3. Monday the Techlets will journey to Carolina to play a return engagement with the Carolina Frosh. Carolina got 19 hits off Mason Bugz and Jerry Davidson, State Frosh pitchers. Fletcher, Carolina moundman, gave State only seven hits. Carolina collected the majority of their runs in the fifth when they scored eight runs on four hits, three walks, and several errors by the State Frosh.

Voliva, Frosh outfielder for Carolina, led both teams at bat. He got a home run, a triple, and two singles out of six times at bat. McCarr of the Chapel Hill frosh got two singles and a home run. Uriah Norwood of the State frosh continued his usual slugging with a home run and a single to lead his team in batting.

Ping-Pong Contest

Next week the Y. M. C. A. will sponsor a Ping-Pong Tournament among the students. It is expected that many exciting sets of this favorite indoor sport will be played during the process of the tournament.

STATE GOLFERS DEFEAT DAVIDSON BY BIG SCORE

The State College golf team defeated Davidson links team 16 1/2 to 1 1/4 in a match played on the Carolina Country Club course last Saturday. Fred Newnham, Jr., played the feature match of the evening, turning in a 74 to win three points from Hamrick of Davidson.

State made a clean sweep of the best ball matches. Newnham and Captain Pat Pastore took three points from Hamrick and Captain Bowman of Davidson. Styron and Baerthlein took three points likewise from Cannon and Barnes of Davidson.

DUKE NET TEAM BLANKS STATE IN 9-0 VICTORY

The State Net Team put up a game fight in matches with Duke at Durham Wednesday, but the Blue Devils outclassed them to win 9-0. This was the second match State has had with Duke this year, the other being played at State.

This is Duke's fifth straight victory, and the second match in which every Duke man won in straight sets. State put up stiffer competition than the scores would seem to indicate however.

Last Thursday, the Tech tennis team was defeated by the Carolina aggregation. Summary of the matches in the Duke contest:
Singles: Welsh defeated Renn, 6-1.

STARS TRAINING FOR TWO MEETS

Zori and Rex to Try for Records in State and Southern Conference Track

Milan Zori and Ray Rex, State's track stars, have started training for the State Track Meet at Chapel Hill on Saturday, May 7, and the Southern Conference Meet at Duke University on May 18 and 19.

Last Saturday the Penn Relay Carnival in Philadelphia, Zori set a new carnival record of 151 feet 1 inch against stiff competition from all over the country. Rex and Zori, State's representatives, and Ralston LeGore of Carolina who took first place in the javelin throw, were the only representatives of North Carolina colleges at the meet.

At the State Meet May 7, Zori should easily better the discus mark set by Mullis of Carolina last year. The present meet record is 141 feet 8 inches. Last year in the State Freshman Meet, Zori threw the discus 152 feet 1 inch.

Rex holds the present State record in the shot put, and he will be competing to maintain or better his present record of 45 feet, 5 and 7 8 inches, which he set last spring as a sophomore.

Zori and Rex will also be working against conference records in the Southern Conference Meet at Duke. Zori should easily better the present record of 142 feet 9 inches. Rex has hopes of breaking the record of 45 feet 7 1/2 inches set in 1931. The Southern Conference Meet generally brings out some of the outstanding collegiate track talent in the South.

Students Fined

Students in an English class at Oklahoma A. & M. College are fined one cent every time they misspell a word. The fund derived from this source is used to pay for an annual banquet of the class.

6-2; Higgins defeated Westbrook, 6-2, 6-3; Kenyon defeated Wright, 6-3, 6-0; Martin defeated Fisher, 6-2, 6-4; Morefield defeated Peck, 6-1, 6-1; McNeil defeated Peck, 6-0, 6-1.
Doubles: Welsh-Higgins defeated Renn-Fisher, 6-2, 6-1; Kenyon-Martin defeated Brown-Westbrook, 6-1, 6-4; Morefield-McNeil defeated Wright-Peck, 6-2, 6-3.

Intermural Standings

With spring term intermural sports drawing to a close, dormitory and fraternity teams are fighting hard for the last few points with which to boost their average.

The averages as they stood at the end of the winter term were:

ATHLETIC COUNCIL ACTS ON ED HUNSINGER TODAY

Meeting Thursday Postponed Due to Inability of Some Members to Attend

The scheduled meeting of the N. C. State College Athletic Council, called for 11 o'clock yesterday morning to take final action on the question of retaining Ed Hunsinger as varsity end coach was postponed, but will be held at 10 o'clock today, it was announced late last night.

The postponement was made necessary by the inability of several out-of-town members of the council to come to Raleigh Thursday for the meeting. Members of the council are Dave Clark, Charlotte; T. L. Bland, Raleigh; D. W. Seifert, Weldon, representing the alumni; and Prof. Ted Johnson, Dr. A. J. Wilson, Dr. Ray Sermon, representing the faculty.

State College Golf Team Competes In S. C. Tourney

CAVALIERS BEST STATE NINE, 7-6

Virginia Wins Close Contest By One Run With Lead Changing Several Times

The University of Virginia put up scrappy competition against State yesterday afternoon in a baseball game that was anybody's until the finish. Virginia finally took the victory 7-6, but the fans on Riddick Field saw some real baseball by both teams. The Cavaliers continue their invasion of the state with games with Carolina at Chapel Hill today and at Greensboro tomorrow night.

Willie Lynn started the pitching for State, but he was taken out by Coach "Chick" Doak after two innings when he allowed two hits, hit one batter and walked one. Dave Rodwell took his place on the mound for the rest of the game. Seven hits were made off him, and he struck out two and walked two.

Orlin Rogers was Virginia's ace hurler. He limited State to seven hits, struck out eight, and walked three. He was helped materially by fine infield play of his teammates.

Johnnie Johnson, State second baseman, led both teams at bat with a triple and a home run. Driscoll of Virginia was the only other player to get more than one hit. All of Virginia's hits were singles.

Ray Rex at centerfield and Woody Lambeth at shortstop both turned in excellent fielding performances. Rex raced up the bank in centerfield to take in a long hit by Brewer in the fourth inning. In the seventh, Lambeth picked up a hot grounder which had gone through third base. The game was tied in the first, fourth, fifth, and sixth innings. Virginia's two runs in the sixth and one in the seventh were what gave the Cavaliers the victory.

Score by innings:
Virginia.....120 102 010-7
State.....103 100 010-6

Techs Win Team and Individual Championships in State Tourney Recently

NEWNHAM HAS PROSPECTS FOR INDIVIDUAL TROPHY

Team Engages Five Schools for Southern Conference Team Championship

The State Golf Team will begin competition this morning in the Southern Conference golf tournament at Hot Springs, Virginia. Teams from five colleges, State, Washington and Lee, Duke, Carolina, and Virginia, will play for team honors, but other schools are expected to send players for individual honors.

N. C. State's team is rated high as the probable winner by virtue of their capturing team and individual honors in the State Tournament held in Raleigh last Saturday. But Carolina trailed the Techs by only one point in the tournament last week, and the Tar Heels are expected to put up a strong fight for the championship.

Fred Newnham, Jr., State ace, has good prospects of winning individual honors. Last week he tied with Cliff Perry of Duke for State championship, and he has been playing a stellar brand of golf all through the season. Erwin Laxton of Carolina is the present Southern Conference individual champion. Although both Perry and Newnham bested Laxton in play last week, the present champion is expected to put up a strong fight to retain his crown.

In the competition today, each player will play 36 holes and the team score will be the aggregate made by the four players representing each school. State's team will consist of Newnham, Captain Pat Pastore, Charlie Styron, and Bill Baerthlein. Captain B. W. Venable who coaches the team, accompanied them to Hot Springs.

The State team has been putting up scrappy competition in intercollegiate golf all year, and its winning of the State title last week was not much of a surprise to those acquainted with the past record of the team.

Watch out for the signs of jangled nerves

You've noticed other people's nervous habits—and wondered probably why such people didn't learn to control themselves. But have you ever stopped to think that you, too, may have habits just as irritating to other people as those of the key juggler or coin jangler are to you? And more important than that, those habits are a sign of jangled nerves. And jangled nerves are the signal to stop and check up on yourself. Get enough sleep—fresh air—recreation—and watch your smoking. Remember, you can smoke as many Camels as you want. Their costlier tobaccos never jangle the nerves.

COSTLIER TOBACCOS
Camels are made from finer, MORE EXPENSIVE TOBACCOS than any other popular brand of cigarettes!

CAMELS—SMOKE AS MANY AS YOU WANT... THEY NEVER GET ON YOUR NERVES!

TUNE IN! CAMEL CARAVAN with Casa Loma Orchestra, Stoopnagle and Budd, Connie Boswell, Every Tuesday and Thursday at 9 P. M., E.S.T.—8 P. M., C.S.T.—7 P. M., M.S.T.—6 P. M., P.S.T., over WABC-Columbia Network

... SOCIETY ...

Monogram Dance

One of the many enjoyable social events scheduled for State College this spring will be the second annual Monogram Ball, Saturday, May 12.

Many of the necessary dance arrangements have already been completed and there is every indication that the event will be one of the most attractive and enjoyable of the social season at the college.

Members of the State College Monogram Club inaugurated the Monogram Club dance last spring with an evening dance. The dance proved so popular with the collegiate set of North Carolina that this year's members of the club have included a tea dance in the afternoon. The tea dance will be from 4:30 to 6:30. Hours set for the formal evening dance are from nine until midnight.

One of the features of the dance series will be the decorations. Plans are to have the Frank Thompson gymnasium a blaze of color. The predominant colors will be red and white with green as a basic background. Many native shrubs will be brought in to line the four walls of the large dance hall, and large monograms of each of the Big Five schools will be placed at intervals.

In the midst of this colorful setting, the young people will dance to music furnished by Jimmy Poyner and his State Collegians.

Every Big Five captain of 1933-34 has been extended a special invitation to attend and with their dates will participate in the figure. Governor and Mrs. J. C. B. Ehringhaus are expected to head the large list of specially invited guests.

Definite plans for the figure during the evening have not been completed. Preliminary arrangements call for two figures, one to be participated in by members of the State College club and the second staged by the visiting monogram men from Carolina, Duke, Wake Forest and Davidson.

Assisting John Buchanan, president of the State College club, with the dance arrangements are Bo Bohannon, vice president, and Charles Garner, secretary.

The following captains have been invited from Duke, Carolina, Davidson and Wake Forest: Duke—Carl Shocks, football; Philip Weaver, baseball; Jim and Herb Thompson, basketball; Bob Bird, track; Jerry Bray, cross country; Barney Welch, tennis; LeRoy Sides, boxing; Thurman Troxler, wrestling; Jake Sullivan, golf, and O'Connor, swimming.

Carolina—Bill Croom, football, Ralston LeGore, javelin; George Brandt, baseball; Dave Morgan, tennis; Erwin Laxton, golf; Dave McCaughren, basketball; Norment Quarles, boxing; and Clark Mathewson, wrestling.

Davidson—Charles Rives, Jr., football; Charles Harris, basketball; Charles Fort, wrestling; Frank Mock, Jr., baseball; Franklin Cochran, track; Earle Frazier, cross-country; James Halverstadt, tennis; and W. F. Bowman, golf.

Wake Forest—Dunc Wilson, football; Joe Mulhern and Bill Herring, baseball; Stork Swing, basketball; Bob Hutchins, tennis; George Hatcher, golf; and Whitey Russell, track.

State captains who will participate in the figure are: Edgar Cumiskey, football; Bob McQuage, basketball; Turner Bilsby and Allen Nense, boxing; James McLaurin, wrestling; Fehi Carter, swimming; Curtis Roach, baseball; Ray Rex, track; Pat Pastore, golf; and Bill Fisher, tennis.

REHEARSAL FOR STATE PLAY CALLED TONIGHT

"Heroic Confusion," the three-act play to be given during the last of May, will hold the first rehearsal tonight. Try-outs for the cast will be held this afternoon, announced E. H. Paget, director. The cast will include 22 men and 11 women.

Sorority Dance

Alpha Mu Sorority of State College entertained at a delightful formal dance last Saturday evening at 3202 Clark Avenue in celebration of the Founder's Day of the sorority.

Pink and lavender, sorority colors, were carried out in the decoration of the home.

Fruit punch was served throughout the evening. At midnight a large birthday cake was cut and served to the guests.

Members of the sorority wore corsages of pink roses and lavender sweet peas, the sorority flowers.

Guests of the sorority included around fifty members of the college set. Members of the sorority present were: Miss Mildred Pittman, Miss Eloise Gibbs, Miss Hazel Beacham, Miss Sue Pearce, Miss Hilda Fuller, Miss Christine Shepherd, Miss Edna Mae Haverson, Miss Katherine Williams, Miss Eleanor Green, Miss Clyde Cotner, Miss Elizabeth Gantt, Miss Rosalie Smith, Miss Ernestine Holland, Miss Aileen Jenrette, and Miss Mary Matthews.

The chaperones for the occasion were Professor and Mrs. R. O. Moen, Professor and Mrs. A. I. Ladu, Professor and Mrs. W. N. Hicks, Professor and Mrs. D. S. Weaver and others.

Fraternity Dance

Attended by an unusually large crowd, the Alpha Kappa Pi fraternity dance last Friday night given at their home on Ferndell Lane was one of the most pleasant social happenings of the past week.

The State College colors of red and white provided the decorations which hung from the wall in three attractive waves. Over the mantel-piece on either side the colors started at top of the wall and came down to points. Greenery in the form of shrubs gave an added artistic effect.

Delicious punch was served during the evening.

Young ladies guest of the fraternity were: Miss Helen Dowell, Miss Virginia Kennedy, Miss Lillian Covington, Miss Frances White, Miss Marguerite York of Cary, Miss Alice Poe of Rocky Mount, Miss Lola Maynard, Miss Dorothy Poole, Miss Ann Whitehurst of Norfolk, Va., Miss Clyde Cotner, Miss Allie Lee Pierce, Miss Jean Edgerton, Miss Jewel Sandlin, Miss Jessamine Bland, Miss Virginia Weathers, Miss Sarah Chesson, Miss Louise Warren, Miss Mary Beddoes, Miss Nelle Lowe, Miss Katherine Mason, Miss Douglas Rankin, Miss Rita Colwell, and Miss Elizabeth Lewis.

Junior-Senior Prom

One of the anticipated social events at State College next week will be the Junior-Senior prom to be held on Friday night, May 11. The dance promises to be unusually successful this year since it will be given in conjunction with the Monogram Ball which will be held on Saturday.

The dance will be informal and will be held in the Frank Thompson gymnasium. The decorations will consist of red and white colors and a large symbol of the class ring.

The dance will be featured by the annual ring ceremony. At this time the juniors with their partners will come out through a huge ring six feet high and form a ring on the dance floor. The partners will place the rings on the men. Following the ceremony there will be a no break dance number.

The sponsors for the dance will be Miss Grace Brown of Kinston with Claude Carrow, president of the class; Miss Christine Shepherd of Raleigh with Kenneth Stevens, vice president; and Miss Margaret Plunk of Greensboro with John Findley, secretary.

The dance committee by whom plans for the dance are now being formulated is composed of John Findley, Charlotte, chairman, assisted by the following juniors: Walter Greenwood, Rocky Mount; S. R. Smoak, Greensboro; John Stanko, Steubenville, Ohio; Albert Stroud, Kinston; and Claude Carrow, Kinston.

The chaperones for the prom have not been announced by the committee but they are expected to be announced early next week.

Bridge Tournament

On the 8th, 9th, and 10th of this month Lambda Chi Alpha fraternity will hold its annual bridge tournament.

This tournament sponsored by Lambda Chi is one of the high spots of the term. Fourteen of the fraternities on the campus will enter teams in this and the winner will be awarded a plaque on which their name will be put. They will have possession of the cup until next year when it will be awarded to the next winner. The plaque was won last year by the Kappa Sigma fraternity.

The preliminaries will begin at 4:30 Tuesday afternoon and continue until they are finished that night. The quarter finals and semi-finals will be held on Wednesday. In the quarter finals it will be necessary for one team to draw a bye. This team will not play in the quarter finals but will in the semi-finals. The finals will be played Thursday night leaving Thursday afternoon vacant for some other games that have not been played off. The teams have been paired off in the following order: Alpha Kappa Pi with Pi Kappa Alpha; Pi Kappa Phi with Kappa Alpha; Alpha Chi Beta with Phi Kappa Tau; Sigma Nu with Alpha Gamma Rho; Sigma Phi Epsilon with Theta Kappa Nu; Sigma Pi with Alpha Lambda Tau; and Delta Sigma Phi with Kappa Sigma.

No Meeting

There was no meeting of the Ag Club Tuesday night.

Arrangements had been made with Polk Denmark, alumni secretary, to show several motion picture reels on campus views which he has to the club. Members of the club were waiting outside for the meeting to start when an apologetic alumni secretary brought the news that there would be no motion pictures at that meeting. His projector had been misplaced and he was unable to locate it in time for the meeting.

He made a promise to the club to see to it personally that they would see motion pictures at the meeting next week.

TWENTY RECEIVE PINE BURR BIDS

Honor Society Extends Invitations to Those Outstanding in Scholarship

Twenty students were extended bids to Pine Burr, local scholarship society at a meeting Wednesday.

Those receiving bids were: J. H. Barnhardt, W. E. Boykin, J. C. Castlebury, C. W. Comfort, F. J. Cyabator, M. J. Gardner, J. J. Griffith, F. C. Johnson, J. A. Lutz, W. R. McLain, L. A. Martin, Dave Morrah, Fred Newham, Jr., W. M. Porter, E. G. Roberts, D. W. Rodwell, John Stanko, H. D. Whitener, F. C. Williams, and Elizabeth Gantt.

To become a member of this society a student must have never failed a course, must have a scholastic average of over 85, must have a good character, and must be active in campus affairs.

The society was founded at State College in 1922. Its purposes are to encourage high standards of scholarship, to develop leadership in all worthwhile organizations on the campus, and to preserve the history of the college.

MANERI ELECTED HEAD OF THETA TAU SOCIETY

Ten Men Extended Bids to Society; Initiation to be Held Sunday, May 6

Charles Maneri has been elected president of Theta Tau, professional engineering fraternity.

Other officers elected were R. W. Stephens, vice president and Joe Abernethy, secretary.

The initiation of the new members into the society will take place Sunday, May 6. Ten men have been extended bids to the society. These men

CERAMIC GRADS OFFERED LARGE NUMBER OF JOBS

The ceramic department has issued optimistic statements concerning the placing of their 1934 graduates.

All of the seniors have been offered their choice of several positions with large companies dealing in ceramic products. Scholarships have also been offered to the graduates to further their training received here.

Prof. A. F. Greaves-Walker is head of the ceramic department.

The way tobacco is cut has a lot to do with the way Chesterfield burns and tastes

There are many different ways of cutting tobacco.

A long time ago, it used to be cut on what was known as a Pease Cutter, but this darkened the tobacco, and it was not uniform.

The cutters today are the most improved, modern, up-to-the-minute type. They cut uniformly, and cut in long shreds.

The tobacco in Chesterfield is cut right—you can judge for yourself how Chesterfields burn and how they taste.

Everything that science knows is used to make Chesterfield the cigarette that's milder... the cigarette that tastes better.

Chesterfield

the cigarette that's Milder
the cigarette that TASTES BETTER
