CAMPUS FROLICS WILL BE STAGED IN COMING WEEK

Junior Chamber of Commerce Sponsors "Campus Carnival" Here Wednesday

STATE AND HIGH SCHOOL STUDENTS TO TAKE PART

State College and High School Bands to Add Color to Occasion; Admission to Be Free; Many Military Calisthenics to Be Exhibited, Such as Tent-pitching, and Wall Scaling; Final Graduation Parade to Be Held at 9 p. m.

The "Raleigh Campus Carnival," a demonstration of the activities of both State College students and high school students of Raleigh predicted to be the most colorful organized event to have been put on at State College, will take place Wednesday night at 7:30 on Riddick Field, under the sponsorship of the Raleigh Junior Chamber of Commerce.

Eight hundred State College military students, 200 Boy Scouts from Raleigh and vicinity, and two bands will participate in the event, admission to which will be free to the public. Reserved seat tickets are being distributed through the Junior Chamber of Commerce, students in R. O. T. C. Schools Band.

Mayor George Lesley and Governor J. C. B. Ehringhaus have been invited to attend the show. Others invited are General George Van Metis and Col. C. C. Early, commandant of the State College R. O. T. C. four years ago, who recently has improved from a serious illness.

The program for the carnival will open at 7:30 when the State College Band, under the leadership of Major C. D. Kutschinski, and the Raleigh High Schools Band will march on Riddick Field. At 7:40 eight troops of Boy Scouts will erect tepees to form an Indian village, after which they will entertain with Indian war dancing. Colorful lighting effects have been provided for this.

At 7:55 a wall scaling demonstration by Company "A" will take place, under the leadership of Capt. Bob McQuague, athletic officer on the cadet military staff. Cadet Captain T. J. Raber, together with the First Platoon, Company "E," will demonstrate tent pitching. "Battis Manual," military calisthenics with rifles, will be given by the Second Platoon of Company "G." The drill will be given with great success in Madison Square Garden 10 years ago, and will be of special interest to oldtimers in the service. This drill will be directed by Cadet Captain J. B. Liles.

Students in the Physical Education department of State College will give tumbling and pyramid building events at 8:45, and at 9 o'clock, the final graduation parade of the military students will take place, when graduating seniors will hand their sabers over to incoming junior officers, and the juniors will take over the regiment.

Prizes and awards will be given during the military parade to the best drilled platoon, the most military sophomore, and the outstanding freshman in the military department.

This will be the first time Riddick Field, the State football field, will have been used since it was improved as a CWA project. Stadium lights will be used as footlights. Amplifiers will be installed on the field for use in explaining the various events, Captain J. R. Egan announcing them as they are given.

State College Style Show Winners

The young women pictured above were first prize winners from their respective schools in the Seventh Annual Style Show sponsored by students in the Textile School of N. C. State College and held April 26. Over 100 young ladies representing nine home economics departments of North Carolina colleges cooperated with the Textile School in putting on one of the finest exhibitions in the history of the event. The winners are wearing costumes that they made during their regular class time from fabrics designed and woven by State College Textile students.

Fountain Says 1934 Annual Most Ambitious Ever Edited

DELTA SIGMA PI ELECTS OFFICERS

Craig Furr Elected President of Commerce Fraternity For Coming Year

W. Craig Furr was elected president of Delta Sigma Pi, International commerce fraternity at a meeting of the society Tuesday night. Other officers elected were: L. S. Summey, senior warden; E. A. Herbst, junior warden; M. F. Browne, treasurer; H. S. Keck, scribe; C. W. Turlington, Delta Sig correspondent; W. H. Wesson, Jr., historian; I. M. Porter, senior guide; W. C. Perry, junior guide; H. S. Keck, master of festivities; C. H. Lloyd, master of ceremonies; and J. D. Renn, Record editor.

SCIENCE CLASSES TAKE TRIP TO COAST TODAY

Field Zoology and Ornithology classes under Dr. Z. P. Metcalf and Dr. Bostian will leave on a week-end trip today, to the coast for the purpose of studying the varied animal life of that region.

Cheer-Leaders

Kenneth Brown and Harold Hutchins were elected head cheer leaders by the Student Council at a meeting last night. Brown is a junior and Hutchins a freshman.

English Prof Reviews Work of Editor Couch and Business Manager Poole

SAYS GENERAL APPEARANCE MUCH IMPROVED THIS YEAR

By ALVIN M. FOUNTAIN. Daringly different, but in general good taste, would be the best brief description of the 1934 *Agronomer*.

Editor Couch and his manager, Poole, have made the politics of the student fee, the business of finances, and the artistry of format all combine to form the most ambitious annual ever issued at State College. The pardonable pride with which they issue "State's first 9 by 12 *Agronomer*" is matched by an excellent editing and arrangement that make the book one of which all of us may be proud.

It doesn't waste any time getting started. With but few formalities of copyrights, obituaries, twin-presidential portraits—the only reference to the consolidated university—and a few excellent campus scenes, it is ready to plunge into the senior section. On each page three seniors arrange themselves in an irregular order of large good pictures, with no decorations save a list of activities, a lower marginal sketch of agricultural or industrial activities, and a gold band decoration, diagonal across the page. Each of the other classes has individual pictures, decreasing in size with each drop in rank.

The sophomore and junior pictures are arranged in a non-alphabetical order that must be a nightmare to any one wishing to find any particular person. The fraternity section has two distinct innovations, that of the insertion of snapshots made about the several houses, and that of the inclusion of a sponsor for each group. It also contains individual pictures of the pledges as well as of the members. The attitude of the whole section seems to be one of an attempt to make the fraternities more folkly, a needed change.

THREE ACT PLAY TO BE PRESENTED

Experimental Theatre to Give First Play of This Type May 25 and 26

The first three-act extemporaneous play "Heroic Confusion" will be presented Thursday and Friday nights, May 25 and 26 by the Experimental Theatre, according to Professor E. H. Page, director of forensics at State College. The play is not only the first of its kind to be presented, but it is also unique in that it is based on an idea given by Dr. John McGee, of Atlanta, that will be presented extemporaneously at the Little Theater in Chicago during this summer.

The story concerns one Henry Deveroux, a national hero, and his attempt to please everyone including three women, two conflicting parties, the public and mainly himself, at a time of a hectic political election. Deveroux has become a national hero because of his efforts to rid the country of the scourge of kidnapping caused by the crime wave at the end of prohibition. By his conscientious work, his unmerciful executions of kidnapers and gangsters, his freedom of the use of military and naval forces in coping with the tenacious of gangdom, and his forceful personality have put him in a position to command the respect of the entire nation.

The opposition parties seeing his vast control over the people and realizing this fact, are striving to gain his support in the coming election. There is a Senate Committee wishing to investigate the President of the United States, as there is some doubt as to whether the president is supporting Deveroux, or opposing him. Deveroux is engaged to Elaine Wilding, who is the daughter of the candidate for the opposing party in the coming election of 1946. However, there are two other women who are after the affection of Deveroux. They are the stenographer, and a mysterious adventuress. The situation in the play is the struggle of Deveroux to decide which of the three women to please, which party to please, and how to do it in order to retain his position as national hero number one. This play is one of clashes of dynamic personalities, forceful political parties, and underhand politics which truly make up an adequate plot for "Heroic Confusion."

RALEIGH EDITOR SPEAKS ON EVALUATION OF NRA

John A. Park, publisher of the Raleigh Times, spoke last night before the meeting of the Taylor Society on the "Evaluation of the NRA."

FACULTY TO DON CAPS AND GOWNS FOR GRADUATION

Faculty Agrees to Wear Formal Attire at Commencement at Meeting Saturday

DEGREES TO BE GIVEN 284 AT COMMENCEMENT

Decision of Faculty Came As Culmination of Fight by The Technician and Senior Class, As Well As Student Opinion; Graham to Speak to Graduating Class; Reverend Penick to Deliver Baccalaureate Sermon in Pullen Hall

Faculty members taking part in the graduation parade this year will wear caps and gowns, it was decided at a meeting of the faculty Saturday.

This decision came as the climax of a long fight toward that goal by THE TECHNICIAN, as well as a degree of action that was taken by the Senior Class. At the commencement exercises in past years at this institution the faculty has not worn the formal attire.

The faculty meeting, which lasted about an hour and a half, was presided over by Dr. E. C. Brooks, who is able to again take an active part in college affairs after a long illness. He called on the deans of the five schools first asking whether or not they would support the wearing of caps and gowns at the occasion. All of the deans were in favor of the proposal, as were the professors. It was decided then that all faculty members who took part in the exercises would be asked to wear the robes. The faculty at the other two units of the Greater University wear robes at the commencement exercises.

The commencement exercises this year will be arranged in much the same manner as they have been held in past years. The graduation speaker was done away with this year, since the exercises will be held at twilight, and sufficient time to hear the speaker was not available. Dr. Frank Graham, president of the Greater University, will, however, give a short talk to the graduates in lieu of the regular speaker.

The commencement will be opened Saturday evening, June 9, by the senior orations, which will be held in Pullen Hall. The baccalaureate sermon will be delivered by Bishop Edwin A. Penick of Raleigh in Pullen Hall Sunday evening. The final exercises, or the awarding of diplomas, will be held Monday.

WILLIAMS ELECTED HEAD OF ENGINEERING GROUP

Tau Beta Pi Elects Officers at Banquet Held Last Night in Cafeteria

F. C. Williams was elected president of Tau Beta Pi, national honorary engineering fraternity, at a banquet held by the society last night.

Other officers elected were: Aaron Epstein, vice president; F. C. Johnson, recording secretary; W. R. McLain, corresponding secretary; Prof. L. L. Vaughan, treasurer; and Prof. W. N. Hicks, cataloger. Professors Hicks and Vaughan were re-elected. The advisory board elected were: Professors R. R. Brown, L. L. Vaughan, E. E. Randolph, and W. N. Hicks.

TWELVE JUNIORS TO BE SELECTED BY GOLDEN CHAIN

MORRAH TO HEAD BLUE KEY GROUP

Leadership Society Holds Election of Officers at Banquet Wednesday

Dave Morrah, Jr., Greensboro, was elected president of Blue Key for 1934-35 at a banquet held Wednesday night at Carolina Pines. Other officers elected were: W. R. McLain, Stateville, vice president; John Findlay, Charlotte, recording secretary and treasurer; Carter Williams, Greensboro, corresponding secretary; and W. H. Sullivan, Jr., Greensboro, alumni secretary.

Dean E. L. Cloyd spoke to the members on the purpose of Blue Key. The banquet was attended by the following members: W. R. McLain, Dave Morrah, John Findlay, Carter Williams, W. H. Sullivan, W. F. Greenwood, Rocky Mount; J. L. Summers, Schenectady, N. Y.; R. H. Page, Jr., Charlotte; Joe Dixon, Greenville; W. E. Braswell, Greensboro; W. E. Kistler, Charlotte; H. S. Stony, Watertown, Mass.; D. L. Webb, Mt. Airy; Albert Couch, Darlington, S. C.; William Newman, Waynesville; W. R. Smith, Charlotte; H. M. Foy, Jr., Mt. Airy; E. J. Lowrance, Charlotte; W. P. Kanto, Youngstown, Ohio; M. J. Gardner, Greensboro; and J. H. Barnhardt, Charlotte.

A. S. M. E. CLUB INITIATES FOURTEEN NEW MEMBERS

The American Society of Mechanical Engineers closed its current activities at its final meeting of the year last Tuesday evening. The business session was followed by the initiation of new members. Members taken in were: R. S. Talton, Smithfield; W. R. Mann, Whiteakers; J. Margulies, Raleigh; C. A. Croom, Bolton; F. E. Ticknor, Monroe; J. A. Parrott, Kingston; James G. Blair, Yonkers, N. Y.; R. W. Stephens, Jr., Apex; C. T. Isaacs, Struthers, Ohio; H. F. Amador, Mountain Lakes, N. J.; A. S. Cherevko, Brooklyn, N. Y.; Geo. R. Rose, Jr., Raleigh; A. B. Combs, Raleigh; C. R. Riddick, Hertford.

Campus Concert

The State College concert band will give an out-of-door concert on the campus Sunday, May 27. It will be the first spring concert given under the director of Major C. D. Kutschinski.

Dean Justin Miller of Duke University to Speak at Tapping Thursday

STONE REQUESTS JUNIORS TO ASSEMBLE AT TOWER

Ceremony to be Held at Sun Dial At 6:30 p. m.; to be Held in Gym In Case of Rain; Presents Impressive Occasion; Stone to Make Talk Prior to Tapping; Old Members of Society Select Most Outstanding Rising Seniors

The annual tapping of twelve outstanding members of the rising Senior Class into Golden Chain, senior honorary leadership society, will be held around the sun dial near the War Memorial Tower Thursday, May 24, at 6:30 p. m.

Justin Miller, dean of the law school at Duke University and well known throughout the state, will speak at the tapping. In case of rain the tapping ceremonies will be held in the Frank Thompson Gymnasium. During the past few years, only one tapping has been held in the gym, this being two years ago.

Phil Stone, president of the society, has requested that all members of the Junior Class assemble at the sun dial at the appointed time, since those juniors selected will not be known until the tapping.

At 6:30 the arch regent, Stone, will make a talk to those assembled. Following his speech, all old members will come from Holladay Hall and enter the circle formed by the juniors. Dean Miller will then deliver his speech, and following this will come the tapping of the new men. The old members will then surrender their robes to the new members and both groups will file back into Holladay Hall.

The selection of these men will take place Sunday by the old men. They will be given a list of prominent juniors and from this list each man will select the twelve which he thinks the most outstanding. The selections will be given to the president, and he will place them in a safe until just prior to the tapping ceremony. No one but the president will know the results of the balloting until that time.

Senior members of the society and their positions are: Phil Stone, president of the A. I. C. E.; Bill Braswell, president of the Y. M. C. A.; Bill New, president of the Engineers' Council and St. Patrick; H. M. Foy, Y. M. C. A. member; W. P. Kanto, president of Blue Key; Ernie Lassen, past editor of THE TECHNICIAN; Albert Couch, editor of the *Agronomer*; Howard Stoner, president of the Interfraternity Council; Bob McQuague, winner of the annual award for the most outstanding athlete; Bill Barker, past president of the student body; Joe Dixon, president of Pine Burr; and W. R. Smith, editor of the *Agriculturist*.

MUSICAL FRAT ELECTS BOYKIN AS PRESIDENT

Mu Beta Psi Plans Annual Banquet Wednesday, May 30 and Faculty Dance, May 31

At a meeting of Mu Beta Psi, honorary musical fraternity, last Tuesday night, W. E. Boykin, Charlotte, was elected to head the organization for the coming year. Other officers elected were: H. W. Webb, Charlotte, vice president; L. G. Garrard, Durham, secretary-treasurer; I. P. Dunham, North Wilkesboro, outer guard; W. M. Porter, Charlotte, inner guard.

During the past year the fraternity has sponsored musical programs at the college and have honored members of the faculty with dances. Membership in the fraternity is composed of juniors and seniors at State who are outstanding in campus music circles. Plans were made by the organization to hold its annual spring banquet, in honor of the new men initiated recently, on Wednesday night, May 30. The fraternity, also, decided to hold the final faculty dance of the year on Thursday, May 31 at the Frank Thompson gymnasium. The Mu Beta Psi orchestra, under the direction of Hyman Dave, will play for the dance.

Watagan Appears Wednesday. The first issue of the *Watagan* will appear on the campus Wednesday. It has been labeled the "Purer *Watagan*."

Smith Urges Wide Training In Preparing For Business

Printing House President Talks to Members of Delta Sigma Pi at Banquet

STRESSES RIGHT IDEAS FOR COLLEGE GRADUATES

Says Graduates Will be Judged During Life by Contacts With Associates

Dr Charles Lee Smith, president of Edwards & Broughton Company, spoke to the members of Delta Sigma Pi, international commerce fraternity, Sunday night at their annual spring banquet at Carolina Pines. Dr. Smith, a former president of Mercer University and a world-wide traveler, gave a lecture on the "Victory of Ideas."

"In the past ages people thought it did not require training for a business career," said Dr. Smith, "but people have changed their minds, and know now that all knowledge is related. To be a good lawyer one must have business ability, and to be a good business man one should know law. Therefore, it is a worth while education to prepare yourself in many different courses."

"It is very important that we become associated with the right ideas of things. The evolutionary theory is fundamentally right. The growth of the business world is an example of evolution. The change in government, business, and social order has been great since the world war. Changes are inevitable, and the government has been prepared to meet them. This has been done in an orderly manner. We should not change our old ideas too fast. Build on the old ideas to help the new, because the business man always suffers when conditions change."

Dr. Smith then compared the changes that have been made in foreign governments compared to ours. "We don't want a rational change in our government such as the ones caused by Hitler and Mussolini," he said. "We want free men in our government. Let's look upon America as being conservatively progressive. We want to be recognized in our professions, but we don't want to take views which will take our opportunity and freedom from us. This has been done by dictators in some countries. During the past four years, it has been necessary for our government to take steps that were unusual, but in America we are still a democratic people who love freedom of every kind. If a man causes a displeasure in Russia, he may be deported to some foreign country. In these countries every two out of three men one sees are spies. No man is allowed to express his ideas, because the European powers are held by strong hands. That is one reason why we have so many foreigners coming to our country publishing and preaching different political ideas than ours."

"What kind of ideas are you going to have when you go out into the business world? This is very important because it is your ideas that are going to control things. When you go out what sort of influence are you going to exert? As a representative democracy you can bring about these changes which are needed. What we want is individual liberty, and individual initiative."

"Profits are highly condemned by many, but without them, people would not save. This would result in our going backward. If we take all the capital and consume it, who will be able to build a new business to replace the old in the future? The average man

Banquet Speaker

DR. CHARLES LEE SMITH

At the annual Delta Sigma Pi banquet held at Carolina Pines Sunday, Dr. Smith was the principal speaker. Delta Sigma Pi is an international commerce fraternity, composed of students in the Business School.

of wealth, contrary to public opinion, leads a simple life, and he has made life better for the working men. When you go out in business you will want an opportunity to save. If you are honest in your business dealings you will have a great opportunity, but for the student who benefits by indirect means there is a rare chance of success. "I believe in giving freedom where freedom is helpful, but not where it is unproductive. Have you a moral foundation? It is essential to men who succeed in life. We must have rugged honesty at all times. Are you going out into the world with moral and personal honesty? A man makes friends, but his friends make him. You will be judged during your life by your friends, and you can tell a man's friends by his ideas. Study what a man thinks, his ideas, and I will tell you what that man is."

In his conclusion Dr. Smith pleaded with the youth of America to love our country, its flag, and to make this a better world in which to live.

The Taylor Society will hold its last meeting of the year Thursday night, May 24, at 8:45. All members are urged to attend.

STATE STUDENTS MEET WITH COMMERCE GROUP

Purpose of Meet to Bring About Closer Relationship Between State and City

In attempting to bring about a closer relationship between the city of Raleigh and State College, a small group of students and faculty from this institution met with the Raleigh Junior Chamber of Commerce at a luncheon Tuesday to discuss possible plans which might fulfill the need.

J. G. Berwanger, chairman of the committee on State College, spoke briefly on the attempts which have already been made and the future attempts of his group to bring about a closer feeling between the city and the college. He urged the students present to give their opinions as to the best remedies for the situation, and closed by saying that at any time the Junior Chamber of Commerce could be of any aid to the college, they were ready and willing.

Each of the students gave his views as to how the situation could be remedied. They also brought out some of the grievances which they thought the students held against the city. Following the speeches of the students, the faculty members gave their opinions on the subject.

Students present were Marshall Gardner, president of the student body; John Stanko, Council member; Kenneth Stephens, president of the rising senior class; and Eugene Knight, editor of THE TECHNICIAN.

Faculty members present were Prof. T. S. Johnson, Dr. R. R. Sermon, Coach "Hunk" Anderson, and Col. Bruce Magruder.

R. O. T. C. UNIT HONORS DANIEL WITH PARADE

Mr. P. S. Daniel, superintendent of the public schools in Raleigh, was guest of honor at the parade and ceremony of the State College R. O. T. C. regiment last Monday noon.

Special guests included the students of the sixth grade of Hayes-Barton school and numerous visitors from Winston-Salem and other surrounding cities.

PROMINENT GROUP TO ATTEND MEET

Institute of Education Brings to State College Leaders in Education Field

The Institute of Education, to be held in connection with the summer schools of the University of North Carolina, will bring to the state a group of leaders in the field of education such as have seldom been assembled at any forum.

The group of men and women coming to the state from Columbia University has already made a significant contribution to the life of the state through the large number of North Carolina teachers who have studied in their classes in Teachers' College.

Dr. J. C. Wright, assistant U. S. Commissioner of Education, is well known to many North Carolinians. He was for a number of years Federal Director of Vocational Education. When the Federal Board for Vocational Education was abandoned and its work taken over by the Office of Education, Dr. Wright was appointed Assistant Commissioner for Vocational Education. Dr. Wright will discuss problems related to Vocational Education and the new social order.

Dr. Sidney B. Hall, State Superintendent of Public Instruction, in Virginia, is considered among the nation's foremost leaders in education and may be expected to inject into the conference many new and refreshing ideas.

The appearance of Governor J. C. B. Ehringhaus and Dr. Clarence Poe upon any North Carolina program always generates interest and enthusiasm. The present plan is to begin the conference at State College on Monday and Tuesday, June 25 and 26, work on west

WANTED

One or two passengers going to Wake Forest Summer School, daily, share expense. R. G. O'BRIEN 117 Cox Avenue, Raleigh

to Chapel Hill, and finish the week at Woman's College in Greensboro.

Regular summer school students will be given an opportunity to hear these distinguished speakers.

This Institute of Education is one of the special features provided for students attending the summer schools of the University. This Institute should appeal to a large group of North Carolinians who do not attend the regular summer schools.

PROFESSIONAL CAREER

Hundreds of college men and women have found a pleasant and dignified career as optometrists.

The Pennsylvania State College of Optometry, a class "A" school, offers a degree course. Extensive clinical facilities, complete laboratories and equipment, well-known faculty.

Luckies are All-Ways kind to your throat

WHEREVER the finest tobaccos grow—in our own Southland, in Turkey, in Greece—all over the world, we gather the very Cream of the tobacco Crops for Lucky Strike. And that means only the clean center leaves. The center leaves are the mildest leaves—they taste better and farmers are paid higher prices for them. These clean center leaves are the only ones used in making Luckies. Then "It's toasted"—for throat protection. And every Lucky is fully packed with these choice tobaccos—made round and firm, free from loose ends—that's why Luckies "keep in condition"—why you'll find that Luckies do not dry out—an important point to every smoker. Naturally, Luckies are always in all-ways kind to your throat.

CANADY TO LEAD CLASS OF 1936

Perry Wilson and Harry Brown Are Other Officers Named at Soph Class Meeting

Joe Canady was chosen president of the rising junior class at the class election Wednesday. Polling more than twice as many votes as either Bob Seitz or G. R. McColi, his opponents, Canady rises from vice president to the position of chief executive.

In a closer race Perry Wilson, Middleburg, won out for vice president over Bob Seitz, T. L. Hurst, and K. J. Krach. Wilson also steps up in official rank among next year's juniors, having served as secretary-treasurer this year.

H. J. Brown, Jr., Snow Hill, was elected secretary-treasurer, defeating J. R. Hill, G. R. McColi, and C. W. Ambrose.

Cheer leaders for next year from the class are C. E. Lynch of Wilmington and B. G. Upham of Biddleford, Maine. The newly elected pep manufacturers declined to give demonstrations of how to lead rosters.

Canady, Wilson and Brown worked well together this year as leaders of the sophomore class.

Fountain Says 1934 Annual Most Ambitious Ever Edited

(Continued from page one) ternity section, the editors added two whole pages which did honor to the most attractive women on the campuses of eleven of the colleges of the state. Necessarily, this is the best-looking section of the book, and brings up the total of the women pictured higher than it has ever been before.

Another great stroke of genius was that of making the humor section a take-off on the *Wataugan*, campus humor magazine. Such an arrangement gave the editor free range in questionable humor, that never could have entered respectable pages otherwise. The jokes, however, are not particularly bad; the editor didn't make half use of his opportunities. They are about half-and-half sex and puns. We needed more puns, anyway.

The athletic, military, and organization sections do not have quite so many new things. Perhaps the football pages have too much of Hunk and too little of Clipper, considering that the team and the season belonged to the latter. We shall have to consider the write-up in the nature of a prophecy. The military department had such attractive views as to indicate careful preparation; and the minor sports and intramural sections plainly registered the recent agitation for giving them a place in the sun.

One other innovation of the book is the addition of a Who's Who section, giving pictures and brief discussions of twelve of the outstanding seniors. The number included being the same as that of the Golden Chain, selected by the seniors last year, it is interesting to note that there is a 66.23 per cent correlation between the two groups. In a way, the feature refreshes old material, and one is inclined to think that the idea may have come from the lowly *Wataugan*, which has done something along the same line in various issues during the year.

The advertising pages are more numerous than recently, reflecting the general upturn in business; but the staff had to dig around in the 1923 *Agromeck* for several of Kittrell's cartoons for illustrations, and even went to the 1921 book for one.

The Alpha Sigma Sigma, at once hope and despair of all faculty and deserving students, has so much material on the page that it is read with difficulty. Were it not for the sponsors' pictures, the page would be a total loss.

The rich dark covers, with their subdued red and gold decorations and their gold fly leaves, give a final touch of dignity and finesse that lends splendidly with the dedication to the parents of the seniors, and with the general excellence of the book.

All members of Sigma Pi Alpha are requested to see Professor Ballenger or Joe Weitz before Monday to let them know whether or not they are going to attend the outing.

M. I. Annetta, President.

Even glass insulators behave badly toward telephone currents when humidity is high. This has been proved by experiments at Bell Telephone Laboratories.

When it's humid, a film of moisture forms on the glass. The more humid, the thicker the film—and the more electrical current escapes! Important factors governing amount of leakage are the chemical nature of the glass, its shape and age, the amount and kind of dirt on its surface.

Through exhaustive studies, telephone men have developed more efficient types of glass insulators—and are seeking ways to make them still better. Close attention to every detail of Bell System equipment leads to constantly improving service.

EASING A STRAINED RELATIONSHIP

A meeting was held this week between a small group of State College students and the Raleigh Junior Chamber of Commerce the purpose of which was to find means of bringing about a closer relationship between State College and the City of Raleigh.

This organization of young men has performed an outstanding work in bringing State College to the attention of the people of the state on many occasions, and has expressed its desire of aiding State College in any way possible in the future. The group was largely responsible in making the Southern Conference Basketball Tournament held in this city recently a very successful event, both financially and otherwise. It will sponsor the military show which is to be staged here May 23. All in all, the group is doing a wonderful piece of work in bringing the city and the college to a better understanding.

At the meeting there was pointed out means by which a closer relationship could be established. The chairman of the State College committee stated that much misunderstanding had been brought about by the actions of some State College boys in the willful destruction of property about the city. There is no denying this fact since students have time and time again destroyed property to which they had no title. But, as one student pointed out, those students who commit these acts of vandalism are not in the majority, but are distinctly a very small minority group. By their acts, the small group causes the larger group to fall under the criticism of the people of the city who label the entire State College student body a bunch of hoodlums.

As long as this situation exists, a friendly feeling will never be established. People who have been the objects of an act of vandalism by some member of the student body will renounce the entire body of students as being a group of thieves and pass the word to their neighbors to that effect. To remedy the situation, steps must be taken against those students who willfully and maliciously damage property by the larger group who have enough self-respect to leave the property of others alone.

Some objection may be raised to this by some who will declare that the acts are only in fun and that it is a part of the "college spirit," but there is a point where "college spirit" leaves off and actual thievery begins. The people do not object to a reasonable amount of noise or celebration, but when it oversteps the bounds of decency, then a halt should be called. Too many things already have been disguised under the mask of "collegiate pranks" and students have been absolved for that reason. If those who do destroy property should be placed in the position of the owner of the destroyed property, they would raise the loudest and most plaintive wail about "those college boys." Surely such acts would not be tolerated in the homes from which they come, yet it seems perfectly natural to confiscate property when they come to college to get a higher education. If college teaches them to steal and destroy, then it would be better if they stayed at home and deprived themselves the benefits of a college education.

If the students are to secure the full cooperation of the city, these practices will have to be eliminated. The Junior Chamber of Commerce has offered its aid in bringing about a closer feeling, and the other civic clubs of the city might do likewise if the students would meet them half way.

The Literary Digest, national weekly magazine recently ran the opinions of nine college editors in various large schools of the country as to the possibility of college graduates securing positions after being graduated from college. Some of the editors saw the depression lifting and the much greater ease with which graduates would secure positions this year. Some reported conditions about the same in their respective schools, and some saw the situation as even gloomier. The employment situation at State College seems to be some better than it was last year, with several graduates in all of the schools assured of positions after graduation.

FACULTY GIVES IN

The State College faculty meeting Saturday went on record as being in favor of wearing caps and gowns at the commencement exercises this year.

The move on the part of the faculty came as the culmination of the efforts of THE TECHNICIAN, combined with the Senior Class and the student body, toward that goal. Student opinion had long favored the wearing of robes by this group, but no definite action was taken on the matter until last week.

By their action the faculty will greatly improve the general appearance of the graduation exercises. In past years, they have participated in the ceremonies in their street clothes, while the graduates were attired in robes, thus creating an unbalanced appearance. The exercises this year will present no such appearance, since all will be robed in cap and gown. The general aspect of the occasion will be greatly enhanced, and visitors, especially the fathers and mothers of the graduates, will leave with a higher impression of the exercises than they would have had not the faculty been properly attired.

It is regrettable that the action was not taken sooner. During the past years the ceremony was lacking something, due to the failure of the faculty to cooperate with the students in making the occasion impressive, an occasion for which the students strove four years. If only a debt of honor, the robes should have been donned.

The graduation exercises will now be on a par with the other two units of the Greater University, as well as the other schools of the state where the faculty wear the attire. The wearing of robes may be considered old-fashioned and ante-bellum by some, but the graduation exercises is incomplete without it.

FERA FUNDS FOR COURTS

In an effort to secure additional recreational facilities at State College, a group of students have sent a request to Mrs. Thomas O'Berry, State Administrator of the FERA, asking her assistance in securing Federal funds for additional tennis and handball courts here.

The request, in the form of a petition, states that more had been spent at the Chapel Hill unit for tennis balls alone in the past year than had been spent at State College for tennis equipment, courts, and everything connected with the game in the past three years. The petition also asked for a minimum of twenty courts for this school.

There is no doubt that State College has an insufficient number of tennis courts to accommodate the students who wish to play this game. A few new courts have been added this year, and some of the old courts rebuilt, but still the number is only seven or eight. In comparison, other large schools of the state have a much greater number of courts for the convenience of their students. Carolina has forty-three compared with State College's seven or eight. If Carolina had five or six times more students than are at this institution, the arguments for more courts would not be justified, but this condition is not true. If the consolidation of the three units is to show favoritism toward one school, it is a failure, not that consolidation, however, has anything to do with tennis courts.

As the petition states, the building of the courts would serve a large proportion of the student body and would be in line with modern thought and tendencies in recreation. The number of students who participate in major sports is small, leaving the majority of students to get their exercise as best they can. One of the sports most participated in by this large group is tennis. If there is an insufficient number of courts, these students cannot possibly engage in the game without waiting long periods for those already ahead of them.

It is sincerely hoped that Mrs. O'Berry will take into consideration the viewpoint of the student here, and recommend funds for the building of additional courts.

The recital given in Pullen Hall Sunday failed to attract a great number of students, less than a dozen being present. Whether or not the students dislike the type of music played, or whether they knew nothing of the recital, the fact remains they were not present. The appreciation of good music is necessary in the securing of culture, and students should take a more active interest in such appearances.

College Opinions

PROVINCIAL COLLEGE JOURNALISM

"The college newspaper is growing provincial." This is what a sociology professor at Yale told a group of eastern college editors recently, and with him we disagree.

Provincialism has been one of the faults of the college newspaper of the past, unfortunately. Few editors have looked beyond their own campuses for material to run in their columns, and few have bothered to inquire what was going on in the world and interpret it for their readers. But to say that provincialism is growing is an untruth, because it is actually on the decline.

If one were to compare the college newspaper of five or ten years ago with the present day edition, one would be surprised at the wider variety of stories and editorial topics which are printed today. A graduate student at this university made such a survey of the Daily Trojan recently and found to her surprise that the number of off-campus news stories had increased seven times in the last ten years, and that the increase in editorials about world and national affairs had been tremendous. Ten years ago current topics were seldom if ever recorded in the editorial columns; today the paper has become both a mirror and mold of public opinion.

This doesn't indicate a growth of provincialism locally. Neither do we believe that college newspapers generally are growing along narrower lines. Other Pacific coast papers, especially, bear this out, for at least three of them print intelligent discussions of state, national and international politics and sociological problems. In the middle west there are a dozen which reach out beyond the campus for editorial topics. Among these papers provincialism is on the wane.

It must not be supposed that the greater interest of the college editorial in affairs of government and the nation is due to a remarkable and peculiar influx of intelligence into the editorial chairs of the nation's universities. Rather it is but an indication of the greater consciousness on the part of youth in the importance of acquiring both a knowledge of, and an interest in government.—Daily Trojan.

HERE and THERE

By G. W. FORD

The battle clouds have drifted away and the shouting has ceased, but the effects of the freshman-sophomore flag-rush are still to be seen on the campus. Approximately forty of freshmen and sophomores are suffering injuries sustained in this encounter. Most of these injuries seem to be in the form of infections.

There seems to be a lull on every annual freshmen event that we have tried to start for the past few years. Will someone suggest an annual event which can be carried out without filling the infirmary.

Albert Couch has at last sprung his *Agromock* on the student body and they are well pleased with it as far as it can see. There are some interesting things to be noted about this annual. First of all, two co-eds were elected to the Alpha Sigma Sigma, national "donkey" fraternity.

In my estimation, these co-eds should not have been brought up for such an organization. Their election was a trick which has "sour grapes" written all over it.

Clarence Gale had his picture in the class group three times, once under a different name.

Red Goodwin was the only one in the sophomore class to have his name printed in italics on the class page.

These are just some of the little things that I noticed. I haven't mentioned any of its good qualities or its bad jokes.

The orchestra went over big in the "Bull Hall" last Friday night. For once the hungry mob took its time eating supper.

Bill Sullivan gave Marjorie Wilson a Sigma Phi Epsilon bracelet the other day. Now she's campused... of course this is just coincidental; there's no connection... I hope.

The Golden Chain, honorary campus organization, will have its annual tapings on the Memorial Tower lawn next Thursday evening. In my spare moments I have picked twelve men whom I think will be tapped. Here they are: Dave Morrah, Wilmer Barnes, Bill Sullivan, Jim Barnhardt, Walter Greenwood, Marshall Gardner, Kenneth Stephens, John Stanko, Claude Carrow, Larry Martin, Horace Cotton, and Eugene Knight. Compare these names with the ones picked next Thursday and see how far off I am.

Can you imagine a professor surnamed "Wimpey" and a student named Hamburger not being able to get along?

The R. O. T. C., with the assistance of the Boy Scouts of Raleigh, is going to put on an exhibition next Wednesday evening on Riddick Field. The thought of this brings back those same mental pictures I had when I read about the Roman gladiators marching into the arena to salute the Caesars and perform for them. Although centuries have elapsed since the days of Rome, Wednesday evening's affair will be a repetition of the same old play with different costumes.

The University of Richmond's paper, the *Collegian*, carries Open Forum letters every once in a while which are signed "The 13." These letters criticize campus matters in a frank manner. It would be well for us if more of our students and faculty members took an active interest in things and expressed their feelings through the Open Forum.

Dr. Wells Speaks

Dr. B. W. Wells, head of the Botany department at State College, gave an illustrated lecture to the members of the Forestry Club last night. Dr. Wells discussed all of the major soil types of this state from the swamp forest lands of the eastern part to the high mountain soil of the western forests, and showed the relationship of soil types to the forest cover of each region.

ENGINEERING COMMITTEE HOLDS MEET AT DURHAM

Dean W. C. Riddick and Professor Harry Tucker to Represent State in Discussion

The Committee on Engineering Education in the Consolidated University of North Carolina will meet today at the Washington Duke Hotel in an all day session to study the engineering situation of the University, according to Dean W. C. Riddick, representing State College on the committee.

The meeting will be presided over by Rubin Robertson, president of the Champion Fiber Company who is the chairman of the committee. Other members of the committee are: W. M.

Riaw, Durham; Curtis Mees, Charlotte; W. D. Fawcett, Norfolk, Virginia; Dean A. W. Hobbs, Carolina; Dean H. G. Baily, Carolina; Harry Tucker, State College; Dean W. C. Riddick, State College; Charles E. Waddell, Asheville and N. S. Mullikan, Walnut Cove.

WE'LL COLLECT YOUR BAGGAGE

—take it home... and bring it back again

Here is a simple time-saving suggestion that will eliminate a lot of unnecessary trouble and worry for you. Send all your baggage, trunks and personal belongings home by Railway Express.

Wherever you may live, if it is within regular vehicle limits, Railway Express will call for your trunks and bags and speed them away on fast passenger trains through to destination. You'll be surprised how easy it will be and how quickly your trunks will be home. Thousands of fellows—boys and girls, too—have found Railway Express service an economy not to be sneezed at.

Then, after the vacation, send your baggage back the same way and Railway Express will handle it swiftly, safely and promptly direct to your fraternity house or other residence.

Railway Express has served your Alma Mater for many years. It provides fast, dependable service everywhere. For rates and all necessary labels, merely call or telephone

STREAMLINED MOTOR

The new automobiles and airplanes have nothing, as far as streamlining goes, on an electric motor recently manufactured by General Electric. And undoubtedly many visitors to Langley Field, in Virginia, where the motor is now located, will think it some kind of miniature "Zeppelin." The motor is being used in investigations of the noises made by various types of propeller, the objective, of course, being to design a propeller in which noise is reduced to the practical minimum.

The motor, of the wound-rotor induction type, rated at 200 horsepower, is probably the first of its kind ever built. The propellers are mounted directly on the motor shaft, and can be run at speeds of between 1000 and 3600 rpm. The noises are picked up by a microphone and analyzed by means of special measuring devices.

The motor was designed by C. J. Koch, M.I.T., '24, and M. H. Walls, Syracuse, '02; and the control by A. Suksdorf, Washington State, '16.

CHARLES PROTEUS STEINMETZ "Guide, philosopher, and friend" to his generation of electrical engineers, he would have been 69 years old had he lived until April 9. From his 30 years of work with General Electric came the mathematical formulas involving alternating current, the discovery of the laws of hysteresis, and methods of protecting transmission lines from lightning damage. These, to name a few, were basic aids in establishing present-day standards of electric service. Yet, the heritage left by Steinmetz is the memory of not only a great scientist but of an essentially charming, kindly, helpful man of wide interests.

Out of the past, on the night of April 7, his voice spoke to radio's thousands—a voice that lives on a strip of film, evidence of our victory over time. Thus was inaugurated a three-day tribute to one who was loved for his human qualities as well as revered for his engineering achievements.

LESS NOISE

Until recently, noise has been regarded as a necessary evil, something that has come quite naturally with higher speeds and more complex civilization. But someone noticed that noise gives us the "jitters"; rubber tires began to appear on milk wagons, and rubber cushions on ash cans. So, when General Electric was developing its air-conditioning units, noise became an important factor. Propeller-type fans, which had to run 24 hours a day to circulate air, were used, and they made too much noise for comfort. The Research Laboratory was given the job of doing something about it.

Research scientists examined the blades and found that on conventional fans all parts of the blade did not push air at the same rate of speed; in some cases, in fact, some parts pulled air back instead of pushing it forward. Blades on which every bit of surface pushed air at approximately the same speed were designed. And! not only was the efficiency of the fan tremendously increased, but the fan was quiet. Furthermore, a system was evolved whereby accurate fan-noise rating is possible. As a result, air-conditioning units which make no more noise than is present in a closed room on a quiet day were developed. This quiet-fan development was done under the direction of K. D. McMahon, Oklahoma A. & M., '29, of the G-E Research Laboratory.

GENERAL ELECTRIC

State Baseball Team Wins Two Games From Gobblers

Bill Lynn Pitches in 14 Inning Double-Header to Win for State 10-4, 1-0

WAKE FOREST ENGAGED TOMORROW AND MONDAY

Casey, V. P. I., Makes Brilliant Catch to Stop State Run in Second Game

State's baseball nine took two seven-inning games from V. P. I. here last Saturday afternoon, the first game 10-4, the second 1-0. Willie Lynn pulled a "strong arm" stunt by pitching State to the two consecutive wins.

V. P. I. used three pitchers against Lynn in the two contests. In the first game, Sutherland and Lindsay took the mound for the Virginia team, and Saunders pitched the later contest for them. State got eight safe hits off Sutherland and Lindsay and four against Saunders. V. P. I. got five hits off Lynn in the first game and two singles and a double in the second.

State put the first game on ice in the second inning by making six runs. V. P. I.'s initial score in the first game was in the fourth, when Red Negri made a home run with the bases loaded. Negri hit a ball on top of the backstop in left field, one of the longest hits made at State this year.

Sammy Kirkman made two home runs in the first game in two trips to the bat to lead State's batting. In the second contest, Kirkman was practically robbed of another home run. He hit a ball deep in center field, but Casey of V. P. I. made the greatest catch seen this season to stop the run. Casey caught the catch with one hand at a dead run.

Lambeth did some pretty fielding for State in both games, making 14 catches without an error, and taking part in two double plays with Johnson and Williams in the first game.

State played the first of a series of baseball games with Wake Forest here yesterday. Tomorrow, they play the Deacons again at Raeford. This is the first college game ever to be played there, and it was changed to Raeford largely through the efforts of State alumni living there. Monday, the third game of the series will be played at Wake Forest.

Box for the two V. P. I. games:

Scoreboard for V. P. I. games with columns for V, P, I., Ab, R, H, O, A, E.

Totals 24 4 5 18 9 3

Hit for Lindsay in 7th.

Scoreboard for State games with columns for Ab, R, H, O, A, E.

Totals 26 10 8 21 10 1

Score by innings: R 000 400 0-4

State 182 001 x-10

Second Game

Scoreboard for second game with columns for Ab, R, H, O, A, E.

Totals 27 0 3 18 8 2

Hit for Pickup in 6th.

Hit for Saunders in 7th.

Scoreboard for second game continuation with columns for Ab, R, H, O, A, E.

Totals 19 1 4 21 10 4

Score by innings: R 000 000 0-0

V. P. I. 010 000 0-1

Runs batted in: Lambeth, Three-base hits: Mitchell, Farris. Stolen bases: Bell, McQuage. Double plays: Mohler, unassisted. Left on bases: V. P. I., State 3. Base on balls: Off Saunders 4; Lynn 3. Hit by pitcher: By Saunders 4; Lynn 3. Hit by pitcher: By Lynn (Bell). Umpire: Holding. Time: 1:20.

Frosh Play Wake Forest In order to make room for today's varsity baseball game here, a tilt between freshman teams of State and Wake Forest was switched from State to Wake Forest. The frosh will start batting at 3:30 on Gore Field.

1ST SOUTH WINS FROM 5TH DORM

S. P. E.'s. Rout Kappa Sigs Overwhelmingly, Winning 17-0 in Seven Innings

(This is the fourth of a series of write-ups of the most interesting intramural dormitory and fraternity baseball games featured each week by THE TECHNICIAN.—Ed. Note.)

First South-Fifth Dorm

1st South remained to top in the intramural league this week by defeating 5th Dormitory 8-7 on Thursday, May 10.

The winners got under way by bringing in one run in the first inning while holding their opponents scoreless. In the second inning, 5th Dorm retaliated by getting four runs to the victors' one. Both teams again scored in the third with 5th Dorm adding two runs and 1st South getting one. The fourth inning was scoreless, but in the fifth 1st South added two runs. In the sixth 5th Dorm collected one run, ending their scoring for the game and bringing the total to 7-5 in their favor. 1st South came back in the seventh and eighth by getting two counters in the seventh and one in the eighth.

Spinback was the leader for the victors by virtue of his pitching and for getting three runs. Davis was best for the losers by collecting three runs.

The line-ups: For 1st South: Spinback, p.; Weltman, 2b.; Fowler, c.; Griffler, ss.; Waldrop, 3b.; Sairocco, ss.; Hyde, cf.; Yates, 1f.; Kurfels, 1b.; Freeman, rf.; and Leig for Kurfels.

For 5th Dorm: Sigmon, Cunningham, Johnson, Gill, Connell, Davis, Lyday, Corpening, Meekins, and Bose.

Score by innings: R 111 020 21x-8

5th Dorm 042 001 000-7

S. P. E.-Kappa Sigma

The S. P. E.'s continued their winning stride in the past week by downing the Kappa Sigs 17-0 on Friday, May 11. The victors started strongly in the first inning by battling through the batting order and collecting several runs. In the second inning they added two more, but in the third they were held to a goose-egg. However, the winners continued their run making in the fourth with two runs and then brought in one run in the fifth. They didn't score in the sixth but added five counters in the seventh. The game went only seven innings.

Bardhardt and Starr of the victors both had perfect days at bat. Each of them made four runs, while making no outs.

The line-ups: For S. P. E.'s: Sullivan, Kelly, Findlay, Barnhardt, Starr, Tyson, Ponzer, Guzas, Summey, Robbins, and Jenkins, for Ponzer and Arai for Robbins.

For Kappa Sigs: Wright, Hughes, Campbell, Murdoch, Blalock, Flournoy, Ross, Keeney, Hodnett, Keck, and Todd for Ross.

The score by innings: R 170 000 000 210 5-17

Sigma Phi Epsilon 720 210 5-17

Kappa Sigma 000 000 0-0

GYM COURSES OFFERED IN SUMMER CURRICULA

Students Will be Allowed to Pass Off Deficiencies in Physical Education

J. W. Miller, physical education instructor recently announced that students who expect to attend summer school will be able to make up any term's work in the required courses in physical education that they are back in. Coaching courses in the four major sports and one course in general physical education will be offered teachers also.

It will also be of interest to women attending summer school to know that an additional course in sports activities will be offered in addition to that offered in previous summer sessions. These courses carry regular college credit and are open to all students taking education.

State Champions

State College's rifle team, winner of the State Championship this year, is pictured above. Members of the team, front row, left to right, are: J. J. Griffith, Kernersville; Phil Stone, Rocky Mount; M. L. Andrews, Farmele, 1933 captain; Earl Moser, Zebulon; J. S. Whitley, Raleigh; and E. R. Daniels, Spring Hope, 1934 captain.

TRACK MEET TO FINISH INTRAMURALS FOR YEAR

Meet to be Held on Freshman Field for Dorms on May 24 and Frats May 25

The third intramural spring sport for this year will come out with the staging of a track meet May 24-25 on Freshman Field.

There will be nine events on the card, eight of which are taken up in the spring term freshman gym classes. Each organization may enter two men in any one event, but the total for the meet may not exceed twelve men.

J. F. Miller, director of intramural sports, says that in the past the dormitories have not been turning out as they should for this meet. He hopes that they will be out in full force in the approaching meet.

The dormitory meet will be held on the 24th and the fraternity meet on the 25th. The list of events will be: 100 yard dash, 60 yard low hurdles, 4 man 400 yard shuttle relay, high jump, broad jump, shot put, discus throw, football punt, and baseball throw.

STATE MUSICIANS HOLD SUCCESSFUL MUSIC WEEK

The State College Glee Club delighted hundreds of listeners by its four appearances during National Music Week; first at the community festival in the Raleigh Memorial Auditorium on Tuesday night, then at the sophomore and freshman assemblies, and finally for the Chamber of Commerce annual Farmers' Banquet on Friday night.

The college orchestra provided music on this occasion as well as in the college dining hall during the supper hour.

Baseball Standings

Table of baseball standings listing teams like Fraternity League, Sigma Phi Epsilon, Alpha Kappa Pi, etc., with W, L, and Pct. columns.

TECHLET GOLFERS BEAT HENDERSON HIGH TEAM

The State Frosh golfers defeated the Henderson High School team 10 1/2 to 7 1/2 in a match played at Henderson last Friday afternoon.

The frosh golfers got their wings through players in the second foursome, as those in the first foursome broke even. Key Scals, Techlet ace, had a 78 for the best score of the afternoon. He was the only man on either team to break 80.

Summaries of match with points won: Scals, State, 2 1/2, defeated Royster, 2 1/2; Wortham, Henderson, 2 1/2, defeated Cautchen, 1 1/2; Scals and Cautchen, 1 1/2, broke even with Wortham and Royster, 1 1/2; Palmer, State, 3, defeated Legg, 0; Cooper, Henderson, 2 1/2, defeated Swift, 1 1/2; Swift and Palmer, 2 1/2, defeated Cooper and Legg, 1 1/2.

W. F. FROSH NET TEAM DEFEATS TECHLETS 6-3

Nading Defeats Tate and Lange Defeats Cahoon for State's Only Victories

The State Frosh tennis team journeyed to Wake Forest Thursday, May 10, to be defeated by the Wake Forest Frosh netters 6-3.

The victors won four of the six single matches. Of the two State wins, Nading, State, defeated Tate 6-3, 6-1; Lange, State, defeated Cahoon 6-3, 3-6, 6-0; Wake Forest took two of the doubles matches in straight sets and forfeited the other one to State.

The summary of the matches: Singles: Tuttle, W. F., defeated Cooke 6-2, 6-4; Stroupe, W. F., defeated Cahoon 6-3, 6-4; Lange, State, defeated Kingbury 6-3, 3-6, 6-0; Wood, W. F., defeated Crumley 6-3, 5-7, 6-1; Nading, State, defeated Tate 6-2, 6-1; Mills, W. F., defeated Bertland 6-2, 6-2.

MILITARY STAFF REMAINS UNCHANGED FOR 1934-35

Colonel Bruce Magruder, head of the State College Military Department, has been notified by the War Department that there will be no change in the teaching staff of the military department for next year.

Captain John R. Eden, who has already served his term at R. O. T. C. instructor, will remain another year. Other instructors include Captains B. W. Venable, P. W. Rickamore, and T. C. Thorton. Sergeants H. P. Leighton, H. C. Thomas, and J. S. Lange are also stationed here.

The State College unit is the largest R. O. T. C. regiment in North Carolina and one of the largest in the South, comprising nine companies of Infantry, a band, and drum and bugle corps.

Techlets Win One Contest and Drop Two During Week

ZORI PRACTICES FOR TRACK MEET

Hopes to Top Present Conference Record by Wide Margin at Duke Meet Today

Milan Zori, State's star discus hurler, is getting in all possible practice for the Southern Conference track meet at Duke today and tomorrow.

Zori's throw of 154 feet 9 inches won the state title for him at the North Carolina meet at Chapel Hill last Saturday. In addition, that throw was the second best discus record of the year in this country. John Lyman of this year's Stanford track team, holds the national record with a throw of 162 feet 4 inches.

Zori has hopes of beating Lyman's mark in the conference meet. In practice for this meet Zori has bettered 160 feet, and his backers believe he can do better than that in the meet today and tomorrow.

AG HILL SENIORS PLAN AGRICULTURAL LIBRARY

Realizing the inadequacy of material in the State College library on some agricultural subjects, a group of seniors in the Agriculture School met Tuesday night to discuss plans for starting an agricultural library.

It was proposed that each senior, or any student, alumnus, or faculty member donate as much as possible in the way of books and periodicals in the building up of this library. In this way the founding of such a library can be started, and it is hoped that in the future one of the leading agricultural libraries in the South developed.

The library will take care of all surplus textbooks which agricultural students might own and rent them to students at a small charge. Each department in the Agricultural School now has an abundance of material which can be filed properly in this library and made available to the students.

Much sentiment has been expressed by members of this school of the need for such a library so that recognition may be gained. The group will hold a meeting in Patterson Hall Tuesday at 7 p.m. in room 40 to receive contributions.

STATE PLAYS DEACONS IN DIAMOND GAME TODAY

"Weather permitting," the baseball teams of State and Wake Forest will meet this afternoon at 3:30 o'clock on Freshman Field at State.

"Weather permitting," is an apt tag for any announcement of State-Wake Forest diamond meetings. Just as in previous seasons, the 1934 campaign has found the Techs and Deacs blocked several times by rain.

Frosh Nine Score Win Over Campbell and Lose to Wake Forest and Duke

DAVIDSON PITCHES GOOD GAME AGAINST CAMPBELL

Left-Handed Hurler Strikes Out Nine and Allows Only Two Hits in Win

The Frosh baseball nine lost two games in the past week and won one, for a percentage of .333. Losses were to the Wake Forest and Duke freshmen teams, and the victory was over Campbell College.

The game played with Wake Forest here last Saturday was a 10-4 victory for Wake Forest, and with the victory, Wake Forest carried away the Big Five frosh baseball title. Wake Forest's win was their sixth straight in competition this year.

Rhodes, Wake Forest pitcher, struck out nine men, and on top of that got a home run, a double, and a single to lead his team at bat. He allowed State batters only six hits.

Jerry Davidson took the mound for State for the first eight innings. He pitched a good game with the exception of the fifth inning. Then the Baby Deacon batters got five hits and six runs off him for their biggest inning.

Neil Dalrymple, with two singles, led the State batsmen, being the only Techlet player to get more than one safe hit.

Monday afternoon, the game scheduled with Duke had to be stopped in the first half of the fifth when Old Man Weather took a hand. The wind started blowing, creating such sand clouds over Freshman Field that it was impossible to continue play. However, when the game stopped Duke was far in the lead with a score of 13-1 in their favor.

In the game with Campbell College, which was played on Freshman Field Wednesday, Jerry Davidson did the best job of pitching he has done this year. He allowed the Bules Creek delegation only two hits during the game. Davidson struck out ten men, walked two, and hit one.

Royal, Campbell shortstop, made both hits for his team. Steve Clary pitched for Campbell. State touched him for six hits. The Campbell hurler struck out seven, walked one and hit one.

The game was tied two all until the eighth inning when runs were scored by Dalrymple and Bugg on singles because of errors by Campbell College. State's other two runs in the second were made on a single, a triple and an error.

Campbell made their first run in the first inning, when Royal hit a triple and State made an error. Their second came in the sixth when Royal hit a single to bring in a Campbell man who got to first on a walk and stole second. Score by innings: R 000 100 000-2

... SOCIETY ...

Final Dances

Elaborate arrangements are nearing completion for the fourth set of Final Dances sponsored by the Interfraternity Council of North Carolina State College, which will be held this year on June 8, 9, and 11.

Contracts have been confirmed by telegram for the orchestras of Ozzie Nelson and Joe Haynes to furnish the music for this set of dances instead of Little Jack Little and his orchestra, who were scheduled originally to furnish the music. A conflict in dates prevented his doing so.

The finals will consist of five dances beginning with the Friday night dance on June 8, a tea and night dance on Saturday, and a morning and night dance on Monday, June 11. Ozzie Nelson will play for the Friday and Saturday dances and Joe Haynes will play for Monday dances. All the night dances will be formal and the morning and afternoon dances informal.

Plans are being made to lavishly decorate the Frank Thompson Gymnasium, scene of the dances. Two new exits have recently been constructed in the gym, eliminating the fire hazard, and the use of paper decoration will again be permitted.

The Finals Dance committee is composed of H. E. Benton, Wilson, Theta Kappa Nu, chairman; Charles C. Coldiron, Wilmington, Kappa Alpha; G. C. Isaacs, Louisville, Ky., Phi Kappa Tau; and Minor Hunter, Charlotte, Sigma Nu.

Officers for the 1933-34 Council are: Howard Stoney, Watertown, Mass., Lambda Chi, president; Walter Jones, Fayetteville, Alpha Gamma Rho, vice president; and Dean E. L. Cloyd, permanent secretary.

Officers for the 1934-35 Council are: Walter Frank Greenwood, Rocky Mount, Kappa Sigma, president; and C. W. Eldridge, Charlotte, Theta Kappa Nu, vice president.

The chaperones for the finals as well as the dance leaders will be announced later.

Pi Kappa Delta Banquet

A joint banquet of the State College and Wake Forest chapters of the Pi Kappa Delta, national forensic fraternity, was held Saturday, May 12, at the Woman's Club, officially closing the forensic activities of State and Wake Forest colleges after a successful season for both schools.

D. G. Myers, president of the Wake Forest chapter, Frank Busbee, president of the State College chapter, and Dwight Stokes, who are graduating this year made short talks. Dr. J. Rice Quisenberry, of Wake Forest, Dean E. L. Cloyd, Prof. A. M. Fountain, and H. D. Carpenter also made short talks. The banquet was presided over by Prof. E. H. Paget.

After the banquet an initiation ceremony was held for the initiation of the pledges of both schools. The officers of the State College chapter were elected for next year. The new officers elected were: President, R. L. Batts, Rocky Point, and secretary and treasurer, H. D. Carpenter.

Guests at the banquet included: Henry Becker with Miss Evelyn Fowler, Al Martin with Miss Ella Lee Yates, George Copper with Miss Mary Bell Wheeler, Frank Busbee with Miss Ruth Watson, Bill Braswell with Miss Grayce McLean, E. T. Hollifield with Miss Velma Morris, Addison Maupin with Miss Jane Virginia Hawkins Andrews, Prof. A. M. Fountain with Miss Mary Henning, Prof. and Mrs. E. H. Paget, Dean and Mrs. E. L. Cloyd, Dr. J. Rice Quisenberry, H. Clay Cox, W. R. Dixon, Charles W. Harris, R. O. Poplin, D. A. Pickler, D. G. Myers, H. L. Garris, Dwight Stokes, and H. D. Carpenter.

Scabbard and Blade

One of the outstanding social events of the spring college season will take place tomorrow night when Company "G," Third Regiment, of Scabbard and Blade, national military fraternity, entertains with its sixth annual dance. The banquet-dance is given in honor of the junior officers recently elected to the fraternity.

The Scabbard and Blade dinner dance is novel and original in that it is the only all no-break card dance given during the year by any State College organization. Following the banquet at seven-thirty, the twelve cadet sergeants who were recently initiated into the fraternity will take part in the junior figure in which their dates will pin the emblem of the fraternity on their chests. Card dancing will be enjoyed until intermission, after which the senior cadet officers and their dates will participate in the senior figure, a pageant-like march of much dignity and beauty. Further dancing will then be enjoyed until twelve o'clock.

Music for the dance will be furnished by Jimmy Poyner and his State Collegians.

The newly elected men who will be honored are: J. C. Founds, W. C. Furr, W. L. Smith, W. E. Barnes, W. W. Hood, W. R. Campbell, L. A. Martin, W. F. Greenwood, J. T. Stanko, P. N. Pastore, E. L. Spence, and L. B. Williams.

Officers of the fraternity who will lead the senior figure are: Captain Maurice Thelm, president; First Lieutenant J. G. Haddock, vice president; Lieutenant Forest Kelly, secretary; Lieutenant J. S. Suggs, treasurer.

The dance will also be attended by Dean and Mrs. E. L. Cloyd, Colonel Bruce Magruder, Mr. and Mrs. George Goodwin, army officers of State College and their wives, and alumni members of the fraternity with their dates.

Monogram Club Dance

The Monogram Club lavishly entertained State College and Big Five Society the past week-end with a dance series given in Frank Thompson Gymnasium.

Captains of Big Five teams with their dates were guests at the tea dance Saturday afternoon and the formal dance Saturday night. Wake Forest, Duke, Davidson, and Carolina were represented.

Brilliant decorations featured the State College colors festooned from high in the center downward to the sides of the gym. Around the sides was a profusion of green in the form of Carolina pines. An ingenious lighting system gave an added pleasantness to the occasion.

In the figure Big Five captains marched into the gym under an arch of green in two lines, one on either side of the gym. Following this the members of the Monogram Club marched in groups of nine. Consecutively the groups formed the letters W, D, C, D, and S, for members of the Big Five. Each group was led and followed by a State captain.

John Buchanan of Louisville, Kentucky, president of the club, led the first figure with Miss Elizabeth Mason of Raleigh. They were assisted by Charles Garner, Portsmouth, Va., vice president, with Miss Jessamine Bland of Raleigh; Charles Styron of New Bern, with Miss Nell Joslin of Raleigh; James McLaurin of High Point, with Miss Ella May Noell of Raleigh; Turner Biltsoy of Raleigh, with Miss Ethelene Thome of Raleigh; Allen Nease of Savannah, Ga., with Miss Frances Hill Norris of Raleigh; Edgar Cumskey of Raleigh, with Mrs. Cumskey; Jack Stonebanks of Raleigh, with Miss Dorothy Tyson of Georgetown, S. C.; Ray Rex of Decatur, Ill., with Miss Betty Weaver of Raleigh; Bill Fisher of Southern Pines, with Miss Elizabeth Layfield of Raleigh.

The visiting Monogram Club figure was participated in by captains of Big Five teams with their dates. Governor and Mrs. Ehringhaus and Mayor and Mrs. George Iseley were honored guests.

Cotton Ball

The second annual North Carolina Cotton Ball, sponsored by the Raleigh Junior Women's Club for its charity fund, will be held tonight in the Raleigh Memorial Auditorium. Music will be furnished by Fess Williams and his orchestra, nationally known colored orchestra from New York.

More than 130 of the North Carolina society girls who were invited to sponsor the event have already accepted and it is anticipated that 150 sponsors would be present with their marshals for the ball, in addition to the large representation expected from the state dancing contingent and spectators. Sponsors for the Cotton Ball were selected by the invitations committee of the Junior Women's Club, and many of the sponsors were suggested by Junior Women's organizations in other towns. Each sponsor names a marshal and they will be presented in the Cotton Ball figures at nine o'clock tonight.

A cotton fashion show will precede

the Cotton Ball in the Auditorium. It will begin at 8 p.m. and will be part of the program, lasting until 9. Raleigh merchants are furnishing the cotton gowns and other fashionable cotton apparel which will be worn by Raleigh girls. A number of special entertainment features have been added to the cotton fashion show and music will be furnished by Jimmie Poyner and his State College Collegians.

The Cotton Ball will be formal, but cotton suits will be considered formal, as will the very appropriate cotton mess jacket, and cotton dress coats, as well as the customary tuxedo. Spectators may wear anything they see fit, but they are urged to enter into the spirit of the event and wear cottons.

In order that more people may enjoy the Cotton Ball this year, it has been announced that popular prices would prevail and that one ticket would cover both the ball and the fashion show. Dance tickets will be one dollar per couple, and spectators fifty cents per person.

Queens' Ball

Elaborate plans for the Central Carolina German Club's brilliant "Queen's Ball" to be held in the Raleigh Memorial Auditorium Monday, May 21, have been made. The social event is being heralded as "The Dance of the Year" again this year, and the German Club intends to leave nothing undone to make the ball as successful as last year's, which, incidentally, broke all Southern dance attendance records.

Glen Gray and his Casa Loma orchestra, the "Queen's Ball" band, started on its first tour in eight months, two weeks ago. According to Variety,

the musicians' and theatrical magazine, the tour is already a tremendous success. Quoting Variety: "Casa Loma is surprising promoters. On its dance tour of New England, with its trip back to New York every Tuesday and Thursday nights for commercial broadcast, it has been turning away people in every place except one. In Philadelphia 18,000 attended an affair promoted by Penn State students. 'Casa Loma' is the band, incidentally, which played before 76,000 paid admissions at the huge Atlantic City Pier last September 8, a world's record."

The orchestra will arrive in Raleigh from New York Monday night of the dance at nine o'clock in time to start playing at nine-thirty and will leave for New York at two o'clock when the dance ends.

More doors will be open at the Memorial Auditorium than last year, in order that the crowd may secure entrance more quickly and more easily. A special door will be opened for those guests who secure their dance and spectator tickets in advance.

Junior-Senior Prom

One of the largest crowds ever seen in the Frank Thompson Gymnasium enjoyed the Junior-Senior Prom Friday night. Given by juniors in honor of State's 1934 graduating class, the dance was a complete success.

Decorated gaily with State colors of red and white and set off with greenery in the form of Carolina pines, the gym was entirely filled with State College and Raleigh young people.

Chaperones invited included the entire college faculty.

L. L. IVEY

To the Students of North Carolina State College:

We are now busy collecting information about textbooks to be used next fall, and shall be ready in a few days to start buying used books.

There are no inside secrets that we use in buying and selling books, but there are a few points we wish to make clear to everybody, and in the next few issues of The Technician we shall attempt to show you where, when and how you can sell your used books to best advantage.

Before exams begin we shall make an honest effort to see every member of the faculty about the books they will use for their courses next year. This takes a lot of time and a great deal of persistence.

In many instances your teachers will not be able to give us any definite information. New and improved textbooks are constantly coming from the presses of the country and many of these are not announced until after school closes. We might state here that the great majority of your professors are sincerely and conscientiously interested in securing the newest and best textbooks covering the subjects they teach.

In the next issue of this paper we shall attempt to show you how you may lose more than you gain by using second hand books.

Very cordially yours,

Down where they grow tobacco.. in most places Chesterfield is the largest-selling cigarette

—what does that mean?

- it takes good things to make good things.
- the mild ripe tobaccos we buy for Chesterfield mean milder better taste.
- the way they are made means Chesterfields burn right and smoke cool.
- it means that down where

they grow tobacco folks know that mild ripe tobaccos are bought for Chesterfields.

And because Chesterfields are made of the right kinds of tobacco, it is a milder cigarette, a cigarette that tastes better.

There is no substitute for mild, ripe tobacco.
