

... SOCIETY ...

Alpha Zeta Dance

Members of Alpha Zeta, agriculture fraternity, entertained recently at a farewell dance for the senior members of the fraternity. The dance was held in Folk Hall.

Funch and cakes were served during the evening to the guests who enjoyed the hospitality of the fraternity. Popular music for the occasion was furnished by an amplifying system.

Senior members and their dates present were: R. R. Bennett with Miss Bulah Weathers, D. M. Whit with Miss Lily Pittman, Julius Wilson with Miss Mildred Bradshaw, J. L. Reitzel with Miss Margaret Owens, S. C. Winchester with Miss Dorothy Williamson, Walter Pierce with Miss Reta Caldwell, J. D. Roberts with Miss Josephine Ball. The chaperones for the occasion were: Professor and Mrs. D. S. Weaver and Professor and Mrs. L. O. Armstrong.

Mu Beta Psi Banquet

Members of the N. C. State College chapter of Mu Beta Psi, honorary musical fraternity, entertained at a delightful banquet Wednesday evening at the Tar Heel Club. The banquet, which is an annual spring affair, was given in honor of the new members of the fraternity.

An artistic color scheme of red and white, the fraternity colors, was carried out in the banquet hall. Professor A. M. Fountain, faculty member, was the toastmaster. Several humorous talks were given during the banquet by members of the fraternity.

At the conclusion of the banquet, an enjoyable musical skit was presented. Later in the evening dancing was enjoyed by members and guests in the ballroom of the clubhouse.

Members and guests present at the banquet-dance were: Jack Stonebanks with Miss Nancy Bunn, Edgar Geddie with Miss Ruth Pender, Brock Sisell with Miss Marth Metcalfe, L. R. Burgess with Miss Jane Penner, Professor A. M. Fountain with Miss Mary Davis, Jack Memmert with Miss Frances Fleming, Russell Goodwin with Saddle Barber, Hyman Dave with Jean Allison, Jimmie Geddie with Miss Mary Antrine, Nichols, W. E. Boykin, Harold Webb, W. M. Porter, L. G. Garrard, Professor C. S. Grove, Professor and Mrs. Johnny Foster, Major and Mrs. C. D. Kutschinski, and Dean E. L. Cloyd.

Fraternity Banquet

Rho chapter of Theta Tau, a professional engineering fraternity at State College, held its eleventh annual banquet last Friday evening at the Carolina Pines clubhouse.

After a course dinner had been served the group heard from Dr. W. C. Reddick, dean of the Engineering School. Following the talk, C. J. Maneri, president of the fraternity, presented the fraternity pin to the newly initiated men, the pins being pinned on by the dates.

Members of the fraternity and guests present were: William Boyd with Miss Dorothy Finlator, R. A. Bradshaw with Miss "Snooky" Bogue, J. F. Abernethy with Miss Elizabeth Layfield, W. F. Sledge with Miss Sarah Holman, R. W. Stephens with Miss Sarah Shreve, W. C. Harris with Miss Lucille McDonald, C. N. Rogers with Miss Flora Bethen, T. T. Swain with Miss Betty Redfern, M. S. Wilkinson with Miss Betsy Moss, G. M. Jordan with Miss Maxine Hayes, J. W. Coffey, T. O. Smith, C. J. Maneri, M. E. Rion, W. G. Thompson, E. L. Roper, and Rufus Nims.

Faculty members present were: Dr. W. C. Reddick, Professor and Mrs. F. B. Turner, J. W. Harrelson. Grand Regent Fred Coffman was to have been present but due to sickness was unable to attend.

Pink roses were used for decorations, as was a large banner of the fraternity.

HARRELSON APPOINTED TO AID WAR SECRETARY

Mathematics Head to Serve in Advisory Position on Civilian War Training

Colonel J. W. Harrelson, head of the department of mathematics at N. C. State College, has been notified by the War Department of his appointment as civilian aide to the Secretary of War.

The period of the appointment is for four years and is in conformity with the recognition extended by the Secretary of War to the Military Training Camps Association of the United States as a civilian agency cooperating with the War Department in fostering the voluntary training of civilians. In this capacity Colonel Harrelson will serve as an adviser to the Secretary of War.

Colonel Harrelson returned to his duties at State College this past fall after serving as state head of Conservation and Development. He has held a number of public offices and has written and traveled extensively.

He saw active service during the World War as a major in the Coast Artillery and was also stationed at the War College in Washington. Since 1923 he has been a colonel in command of the 316th Field Artillery, 81st Division, Reserves.

Last week in Asheville, Colonel Harrelson was elected vice president of the North Carolina department of the Reserve Officers of the United States.

Final Dances

Amid a flourish of gay music, brilliant colors, and a carefree atmosphere State College students will bring to an end their social activities for 1933-34 with a final series of dances beginning Friday, June 8, and ending the following Monday night.

Elaborate arrangements for the dance set sponsored by the Interfraternity Council of North Carolina State College have been made. Ozzie Nelson with his famous orchestra and popular vocalist, Harriet Hilliard, will furnish the music for the dances Friday and Saturday, and Joe Haymes will play for the Monday dances.

Lavish decorations of Frank Thompson Gymnasium, where the entire set will be held, is planned. The details of the decorations are secret, but the committee in charge promises a surprise with ornamentation more magnificent than that for any previous dance set. Each fraternity will have a booth in the gym, and fraternity insignia in colored lights will line the walls.

The finals will consist of a set of five dances beginning with the Friday night dance on June 8 and followed by a tea and night dance on Saturday, and a morning and night dance on Monday, June 11. All the night dances are formal while the morning and afternoon dances are informal. To State students tickets for the entire set are available for \$8.50, but individually the night dances are \$2.50 each and the morning and afternoon, \$1.00 each.

As yet the figure has not been planned, but since there will be but one for the set to be given on Monday night, it will be striking. The dance leaders are Howard Stony, president of the Interfraternity Council for 1933-34, Lambda Chi Alpha, with Miss Henrietta Wright of Klamath Falls, Oregon, and Walter Jones, vice president, Alpha Gamma Rho, with Mrs. Walter Jones.

The Finals Dance Committee is composed of H. E. Benton, Wilson, Theta Kappa Nu, chairman; Charles Coldiron, Wilmington, Kappa Alpha; G. C. Isaacs, Louisville, Kentucky, Phi Kappa Tau; and Minor Hunter, Charlotte, Sigma Nu.

Sponsors for the fraternities are: Miss Jessie Coachman of Clearwater, Fla., Sigma Nu; Miss Annie Laurie Le Grand of Birmingham, Ala., Delta Sigma Phi; Miss Mary Claire Stokes of Wilson, Sigma Phi Epsilon; Miss Sarah Snipes of Raleigh, Kappa Alpha; Miss Melba Chamblee of Zebulon, Pi Kappa Alpha; Miss Frances Thompson of Raleigh, Kappa Sigma; Miss Margaret Britt of Greensboro, Lambda Chi Alpha; Miss Carolyn Webb of Dampoplis, Ala., Pi Kappa Phi; Miss Maud Gwaltney of New Bern, Phi Kappa Tau; Mrs. Walter Jones, Alpha Gamma Rho; Miss Willie Love Morgan of Edenton, Alpha Lambda Tau; Miss Joan McIntyre of Raleigh, Sigma Pi; Miss Mary Stewart Moore of Wilson, Theta Kappa Nu; Miss Mary Jo Swicegood of Spencer, Alpha Chi Beta.

All the fraternities are having house parties over the week-end of the finals.

CERAMICS GROUP ISSUES BULLETIN

Pamphlet Covers Investigation and Report on Clays and Shales of N. C.

A recent bulletin, "The Occurrence, Properties and Uses of the Commercial Clays and Shales of North Carolina," by A. F. Greaves-Walker, N. H. Stolte, and W. L. Fabianic of N. C. State College, covers an investigation and report on the clays and shales of North Carolina made by the State College department of Ceramic Engineering. It is now ready for distribution at a small sum.

The report, issued by the Engineering Experiment Station, is one of the most complete of its kind ever issued by a state agency and is the only one on the subject ever made by a department of Ceramic Engineering without outside assistance.

It covers in detail the geology, mineralogical, chemical and physical properties of the shales and clays of North Carolina and the uses to which they may be put.

The pre-cambrian deposits are reported to be of largest extent and cover a considerable area in the Piedmont plateau between the Virginia and South Carolina lines. These deposits of commercial value were found to be confined to the area south of Greensboro.

The Cambrian shales of the mountain section of the state were found to be of less value than the other shales, but of sufficient value to supply products for the territory in which they are located. Several clay deposits north of Raleigh, where usable shales do not usually occur, were also reported on.

The report is the result of ten years work on the part of Professor Greaves-Walker and his assistants, the first five of which were consumed in a personal survey of the state and preliminary tests on materials to determine whether they were worth further investigation.

New Cheer-Leaders

KENNETH BROWN

HAROLD HUTCHINS

The above students were recently elected cheer-leaders for the coming school year. Brown is a rising senior, and Hutchins is a rising sophomore. The Student Council now makes the selection of cheer-leaders, replacing the old system of election by the rising Senior Class.

GROUP PROPOSES DRASTIC CHANGES IN HONOR SYSTEM

(Continued from page one)

Investigations by means of the proctors themselves.

"2. It is recommended that three members of the faculty be elected by the Student Council to serve on trial juries only. They shall have full power in that capacity. The term of office for these shall be for one quarter only.

"C-1. In this plan, the responsibility lies jointly upon the faculty and the students."

FERA AIDS MANY STATE STUDENTS

(Continued from page one)

and I think they should have all the encouragement and assistance possible."

In his report an engineering professor said, "Students could be assigned to regular work assisting department heads in the Engineering School, such as making drawings, gathering data and statistics necessary in teaching and in service to people of the state; in looking after equipment and instruments, etc. Many of these things are

now neglected due to the lack of help and funds."

According to another faculty member, "Most of the work that has been done in my department could not and would not have been done without the help given by the student helpers. The boys can be of still greater service next year by reason of training they have received in doing the work assigned to them in the past few months. We shall need their help and I hope the project can be continued."

"This program of work," replied one departmental head in a letter to Dean E. L. Cloyd, "I believe has been the best program that we have had from any phase of student work in our department. The boys take a real interest in the work and we have accomplished things that I had hoped to do for some time but never could get either funds or help."

The FERA work has been a life saver to many students. Men who were absolutely unable to continue their college work this year otherwise have been able to do so with the Federal aid. From all faculty reports the students have been praised for their efficient and trustworthy work. There were no cases of loafing on the job reported by any professor. In each case, according to Shepherd, the student has been conscientious, appreciative and industrious. Several students have written letters to Shepherd telling him just what the FERA has meant to them.

In reply to Shepherd's bulletin, one student wrote as follows: "The FERA means to me what water means to a traveler crossing the desert. In other words, the FERA work has enabled me to remain in school whereas, otherwise, I would have been forced to borrow money to continue my studies the rest of the school year of 1934.

"This work was so planned that I was able to earn the maximum pay without interfering with my study hours.

"Through my connection with the service department, I have gained some practical experience in: surveying, taking inventory, typing, grading dormi-

tories and building on campus, and the workings of a service department."

"Such letters as this, as well as the statements of the faculty," says Shepherd, "prove that the FERA is well worth while and should be continued if possible."

BRIGHT OUTLOOK FOR 1934 WOLVES

Wolfpack's 1934 Season Predicted to be Packed Full of Thrills and Upsets

By BROCK SISELL

The outlook for the success of the 1934 Wolfpack team is very bright. According to all indications, Coach Hunk Anderson's aggregation will prove stubborn opposition to their foes.

The coming of Hunk Anderson to State this winter and the extensive winter football drills which he has conducted has keyed up the squad until it looks like a "do or die" spirit will pervade the Wolfpack team next fall.

Loss Five Veterans

Only five varsity men will be graduated this spring. Already, Anderson has several men groomed for the positions to be vacated by the veteran seniors. The five varsity players who will graduate this year are: Captain Mope Cumsiskey, fullback; Bob McQuage, halfback; Don Wilson, quarterback; Buck Buchanan, guard; Bo Bohannon, halfback.

The hardest places to fill will be that of quarterback and halfback, as the graduation of Don Wilson and Bob McQuage will take from the Wolfpack two of the team's most consistent and brilliant stars. McQuage and Wilson have been playing varsity football for three years and have been mentioned on All-State teams numerous times.

Fireworks at Fullback

Captain Mope Cumsiskey's position at fullback will find plenty of candidates bidding for it next fall. Venetis Farrar showed up best in the position during winter drills. One must not forget Ray Rex at that position for he helped share the position with Cumsiskey during the past season—and made a good job of it too. Mention should also be made of Odell Smothers, a freshman this year, who is a strong contender for the post. He should make strong competition for Farrar and Rex.

The loss of Buck Buchanan, one of the steadiest and cleanest guards State has ever put out, will be felt but with two monogram reserves, John Stanko and Barnes Worth, and four up-and-coming men from the freshman team of this year, Alex Regdon, Albert Chiemiego, Herb Karschner, Harold Schlossberg, the guard positions are expected to be stronger than they have been during the past three years.

Robert McAdams, Phil Davis, and Roscoe Roy are veteran reserves for the halfback posts. They should be able to fill the boots of McQuage and Bohannon neatly. Roy and McAdams, if you remember, teamed together in that position during the '32 season, and were stars. Last season they were unable to play but in winter drills this spring they still showed the old fighting pep and spirit. Four good freshmen who should make competition for the reserves are Howard Barbes, Nick Hayden, Gus Scanlon, and Joe Ryenska.

Lawrence McCulley looks like a good man to replace Wilson at the "signal calling" position. However, Maurice Roy, from the freshman team stands a good chance to win the post along with two other aspirers for the position, Eddie Jaskowich and Willie Dusty.

Sabot Holds Center

Steve Sabot, the power man at center during the past year, will hold his position during the coming season if he continues the good work. Willie Hammerick and Mitchell Pollinsky will be fighting for the post if Sabot makes a slip.

There will be tackles galore next fall competing for positions but the good work of Cliff Isaacs and Clifton Daugherty during the past fall should be a factor in qualifying them for the positions. Five husky candidates from this year's freshman team are promising candidates also . . . and it wouldn't surprise me if one of them does win one of the posts. The five freshmen are Edward Snyder, Carl Goode, Al Edwards, Carl McIntyre, and Jack Klaver.

Co-captains for next year's team, Raymond Redding and Kenneth Stephens will continue to hold down the wing positions for the Wolfpack team . . . unless Carroll Conrad and Dominic Cara from the freshman team upset them.

Thrills Next Year

With six regular players back for the varsity team next fall, and experienced reserves for the remaining positions, along with a flock of promising under-studies for each position from the freshman team, Coach Hunk Anderson should have a well-rounded, smooth and efficient aggregation to pit against some of the leading teams next fall. But after all one must not become too enthusiastic about the team. One must remember that Coach Anderson is a new man here, and as yet he has not seen any of the players "under fire" in a regular game, and too it will take time for the team to become adjusted to Anderson's system of play which is somewhat different from the one former Coach Clipper Smith used last fall. However, I think I will be safe in saying the coming 1934 season for the Wolfpack team will undoubtedly be charged with dynamite, packed full of thrills, upsets, and unexpected victories before the season draws to a close.

Ex-Captains of all Sports

The following men were captains of State varsity athletic teams during the '33-'34 season. Bob McQuage, Salisbury, captain of the basketball team and co-captain of the baseball team; Jim McLaurin, High Point, captain of the wrestling team; Mope Cumsiskey, Youngstown, Ohio, captain of the football team; Ray Rex, Decatur, Illinois, captain of the track team; Curtis Roach, Climax, captain of the baseball team; Bill Dunaway, captain of the boxing team. Dunaway had to leave school before the boxing season this year, and the team was captained by Allan Nease and Turner Bilisoly.

2ND 7TH, PIKAS WIN TRACK MEET

Large Number Enter Intramural Track Meets Held Last Thursday and Friday

The third sport in the spring intramural program made an appearance on May 24 and 25 when the dormitories and fraternities held their track meets. 2nd 7th with 27 points won the dormitory meet and the Pikas with 23 points won the fraternity meet. As was hoped the dormitories met, Cox, 1st 1911, was the high point man in the dormitory meet with 10 points. Gerlock, 2nd 7th, was runner-up with eight points. Garodnick, Theta Phi, with ten points was leader of the fraternity men, while H. Lynch, Pi Kappa Phi, and Eaton, Pika, were next with eight points each.

As was hoped the dormitories turned out much better for their track meet than they have in previous years. The summaries:

Dormitory
1st 2nd 7th.....27 points
2nd 7th.....16 points
3rd 1st South.....15 1/2 points
4th 1st 1911.....15 points

FOOTBALL KICK (dist. 95 yds.)
1st Cox (1st 1911)
2nd Machado (1st South)
3rd Conrad (2nd 7th)
4th C. C. Cox (5th Dorm.)

BROAD JUMP (dist. 6 ft. 6 ins.)
1st Rodwell (2nd 7th)
2nd Lange (3rd South)
3rd Simmons (1st South)
4th Gill (5th Dorm.)

DIBBLE (dist. 105 ft. 7 ins.)
1st Gill (5th Dorm.)
2nd Gerlock (2nd 7th)
3rd Conrad (2nd 7th)
4th Schwartz (2nd South)

RIOT JUMP (dist. 6 ft. 7 ins.)
1st Cooper (1st South)
2nd Flynn (2nd 7th)
3rd Simmons (1st South) and Lange (3rd South) tie

BASEBALL THROW (dist. 94 1/2 yds.)
1st Shell (3rd 1911)
2nd Norwood (1st 1911)
3rd Smith (2nd 1911)
4th Cox (5th Dorm.)

SHOT PUT (dist. 43 ft. 4 ins.)
1st Gerlock (2nd 7th)
2nd Conrad (2nd 7th)
3rd Jaskowich (3rd 7th)
4th Gill (5th Dorm.)

50 YD. DASH (time 10.4)
1st Cox (1st 1911)
2nd Gattis (2nd 7th)
3rd Ryenska (3rd 7th)
4th Simkins (2nd 7th)

60 YD. LOW HURDLES (time 8.1)
1st R. Roy (3rd 7th)
2nd Machado (1st South)
3rd Fabri (3rd 7th)
4th Gattis (2nd 7th)

400 YD. RELAY (time 44.8)
1st 3rd 7th
2nd 2nd 7th
3rd 1st 1911
4th 1st South

Fraternity
1st, Pi Kappa Alpha.....23 points
2nd, Pi Kappa Phi.....21 1/2 points
3rd, Sigma Nu.....17 points
4th, Sigma Phi Epsilon.....11 points

BASEBALL THROW (89 yds.)
1. Eaton, Pi Kappa Alpha
2. Ryan, Alpha Kappa Pi
3. Helmick, Sigma Nu
4. McGinty, Pi Kappa Phi

RIOT JUMP (45 ft. 5 ins.)
1. Garodnick, Theta Phi
2. McGinty, Pi Kappa Phi
3. McQuage, Pi Kappa Alpha
4. Guzas, Sigma Phi Epsilon

DIBBLE (105 ft. 5 ins.)
1. Garodnick, Theta Phi
2. Guzas, Sigma Phi Epsilon
3. McQuage, Pi Kappa Alpha
4. Snyder, Alpha Lambda Tau

FOOTBALL KICK (69 yds.)
1. Barabard, Sigma Phi Epsilon
2. Eaton, Pi Kappa Alpha
3. Davidson, Delta Sigma Phi
4. Kinken, Sigma Nu

HIGH JUMP (5 ft. 2 ins.)
1. Gale, Kappa Alpha, and McPhail, Sigma Nu (tie)
2. Davidson, Delta Sigma Phi, and C. Lynch, Pi Kappa Phi (tie)

4. Westcott, Alpha Lambda Tau

BROAD JUMP (19 ft. 4 1/2 ins.)
1. H. Lynch, Pi Kappa Phi
2. Bridges, Sigma Nu
3. Westcott, Alpha Lambda Tau
4. Dossback, Delta Sigma Phi

100 YD. DASH (10.3 seconds)
1. Smoak, Pi Kappa Alpha
2. H. Lynch, Pi Kappa Phi
3. Bridges, Sigma Nu
4. K. Scaler, Pi Kappa Alpha

60 YD. LOW HURDLES (8 seconds)
1. Allison, Pi Kappa Phi
2. Helman, Sigma Nu
3. Keeney, Kappa Sigma
4. Helman, Sigma Phi Epsilon

400 YD. RELAY (46 seconds)
1. Pi Kappa Alpha
2. Pi Kappa Phi
3. Sigma Nu
4. Sigma Phi Epsilon

3RD 7TH CLINCHES DORMITORY TITLE

A. K. Pi Defeats Delta Sigs in Semi-Final Intramural Baseball Contest

This is the last of a series of write-ups of the most interesting dormitory and fraternity intramural baseball games featured each week by THE TECHNICIAN. —Ed. Note.

Third Seventh-First 1911
Third Seventh defeated First 1911 2-0 Wednesday in perhaps the smallest scoring game of the year, for the intramural dormitory league title.

The victors scored one run in each the third and fourth innings, but this was enough to clinch the game and the championship.

Fabri, the winning pitcher, has been pitching good ball all season. F. Wagon, with a double and a single, led the victors at bat, while Hill, with two singles, led the losers.

Third Seventh has issued a challenge to the winner of the fraternity championship to play a game for the all-campus championship.

The line-ups: Third Seventh: Dusty, rf; Hayden, cf; Westbrook, lb; Fabri, p; Willard, 3b; Bishop, c; F. Wagon, ss; W. Wagon, ss; Nickau, 2b; Van Deventer, 1b; and Douglas for Nickau, 4th.

First 1911: Hill, rf; Cox, cf; Hamberger, 3b; Layton, ss; Hooks, lf; Crawford, lb; Becton, ss; Baunous, p; Mathews, c; Lambeth, 2b; Ramsour for Becton, and Upham for Lambeth.

Score by innings: R
Third Seventh.....001 100 000-2
First 1911.....000 000 000-0

A. K. Pi-Delta Sigs
The A. K. Pi team defeated Delta Sigma Phi 5-0 on Freshman Field Wednesday in one of the semi-final games of the fraternity league. The victors will play the S. P. E. frat team in the final championship game.

Both teams went scoreless in the first, but in the second A. K. Pi got under way with two runs. In the third they collected another, while in the fourth both teams again went scoreless.

The winners brought in another run in the fifth, but the sixth was scoreless. A. K. Pi ended its scoring in the seventh by getting one more run.

Schoof, pitcher for the winners, seems headed for the mythical all-campus team as this is the third shut-out game that he has pitched. Southerland, A. K. Pi, led the hitting with four hits. Horton and Goodwin, with three hits, were best for the Delta Sigs.

The line-ups:
A. P. Pi—Williams, lb; Garner, 3b; Souls, c; Southerland, ss; Rhyne, lf; Walsh, rf; Stephenson, cf; Norlander, 2b; Estes, ss; Schoof, p.

Delta Sig—Poole, ss; Horton, p; B. Underhill, c; Sykes, cf; Goodwin, 3b; Dossenback, 2b; Martin, lf; Williams, ss; W. Underhill, lb; Latham, rf; and Herbet for Latham.

Score by innings: R
Alpha Kappa Phi.....021 010 100-5
Delta Sigma Phi.....000 000 000-0

Announcements

Photographic material such as sponsors, individuals, organization groups, athletic pictures, etc., used in the 1934 Agromeck will be released for the only time on Monday afternoon, June 4, from 4:30 to 6, in the Agromeck editorial office, 103 Fifth Dormitory. The material uncalled for that afternoon will not be saved.

Albert H. Couch,
Editor 1934 Agromeck.

STUDENTS SUPPLY STORE

BOOKS, SCHOOLS SUPPLIES AND EQUIPMENT
STATE COLLEGE STATION
RALEIGH, N. C.

June 1, 1934

L. L. IVEY

To the Students of North Carolina State College:

We wish to make this one point clear to everyone that our main purpose and function on the campus is not the buying and selling of second-hand books. As a matter of fact we don't have to do it at all, and it would be much easier and simplify matters for us greatly if we sold only new books. We have made it a practice in the past as much for the accommodation of our customers as we have for profit for ourselves.

If the books you offer us for sale are worth more to you than the market price at the time they are offered, it is your privilege, of course, to keep them or sell them privately to other students. We would not for a minute have you feel that you are under any obligation to sell. We do, however, expect you to consider the appraisal of your books as you would your automobile or other property as coming from one gentleman to another and govern yourself accordingly.

The price we pay for a book is based entirely upon the information we have concerning that particular book at that particular time. It is possible for the value of a textbook to change from time to time or even overnight. We may receive notice of a revision or new edition, or your professor may change his mind about using the text again, or we may have more books offered us than we can use.

If your book has been approved for use next term or next year and has been kept in good condition, it will bring the top market price which is one-half of the original publisher's list price. For books that have been used the second or third time, value is governed by condition. The value of discontinued books and books that have been revised is based entirely upon what second-hand book jobbers offer us. The usual price offered us by these jobbing houses is one-fourth of the publisher's list price.

My advice would be to sell for cash or trade in the books which have been approved to be used again and for which you can get one-half price or more; also the books that have been definitely thrown out. For other books that have some chance of being used again but are not yet on our "want list" my advice would be to place them on conditional sale under our Book Exchange Plan, which is as fool-proof as it is possible to make it from the student's point of view.

We are doing the best we know how with over fifteen years experience back of us to give the students of State College the best book store service possible. We invite comparisons with other institutional service stores; we invite constructive criticism at all times; we invite your cooperation in making it still better. If you know of a better way to run our business we should be glad to have you come in and talk it over. We assure you in all sincerity that any suggestions you may offer will be appreciated.

Very cordially yours,
STUDENTS SUPPLY STORE

L. L. Ivey
Manager

We Urge You to Take Advantage of the Service we Offer to State College Students Under the STUDENTS' PROFIT-SHARING TEXTBOOK PLAN

ADVANTAGES OF THIS PLAN:

1. You set your own price for the texts you wish to sell
2. Free storage on your books without cost to you.
3. The books are your property until sold and may be returned to you upon demand at any time except at the beginning of each school term as specified in contract.
4. The plan saves you the trouble and expense of advertising books for sale. We give free advertising without cost to you.
5. The plan assures you of an established trading center not only for the books you wish to sell, but also for texts you may need for your next term's work.
6. The plan will serve you best if you will bring your books prior to the beginning of a new term. The biggest demand for used books comes the first days of the new term.
7. You assume no obligations in the transaction.
8. The plan saves you from being pestered to death by everybody looking for used books, and saves you the trouble of looking everywhere and pestering other people for books you want.

THE HONOR SYSTEM CHANGES

Realizing the necessity of a new set-up in the Honor System, a committee was authorized to draw up a set of rules to be used as an experiment in eliminating cheating on the coming examinations. The recommendations made by the committee have been approved by the Student Council, and will go before the general faculty today. If the faculty places their sanction on the recommendations, the change will take place immediately, going into effect with the examinations next week.

While the rules formulated by the committee may appear drastic to a large number of individuals, such a step was necessary. The Honor System was not functioning. Everyone admitted that. If the faculty places their approval on the new set-up, the Honor System will exist during the examinations in name only. The proposal is only an experiment, however. If it fails its purpose, a new plan will be substituted or the present system reinstated.

One of the most pertinent suggestions made by the committee is the appointing of student proctors to report all cases of cheating observed in the classroom. Of the entire class, not less than twenty per cent of the members will be appointed as proctors before the beginning of the examination. It will be the duty of those appointed to observe all their classmates and if anyone is seen not doing his own work, his name will be placed on a list and submitted to the Student Council through the dean of students.

The faculty will also play an important part in the new set-up. They will be empowered to handle all cases of cheating observed at their own discretion. As the last paragraph of the recommendations reads, "In this plan the responsibility lies jointly upon the faculty and the students," the success of the new undertaking will depend entirely on the students and the faculty, and their reactions.

Much criticism will be brought to bear on the proposal during the coming week, both from students and possibly from some faculty members. The authors of this plan will come under fire as a result of their efforts to eliminate one of the most criticized things with which a college has to contend.

There will be cheating on the coming examinations, despite the efforts of the committee to stop the practice. There always has been and there always will be cheating as long as there is a human race. Some individuals are leaning on others now to get through school, and the same individuals will depend on others after they leave school. They know it is wrong to cheat, but due to a habit which has grown on them during their life find it hard to break away. They realize their utter lack of independence and unless they make some effort to overcome this handicap, the position for which they strive in the world will never fall into their possession. Most students are at a stage in life when habits are not hard to overcome. They are still plastic. For their own good, they should attempt to build up a resistance now against such habits which will cause them to realize their inferiority later in life.

Cheating usually arises from a student's lack of knowledge of a particular subject, but there may also be another cause in which the professor is at fault—that of giving examinations so unreasonable that the best students in the class fail to maintain their usual high rank.

Since the faculty member will play an important part in the experiment, it will be his duty to aid in every way possible to eliminate cheating, and examinations which do not demand too much of the best students should be given.

The Sophomore Class has set somewhat of a precedent by placing their ring contract before becoming juniors.

The class acted wisely in placing its contract now and thus avoiding any sudden rise in the price of gold. There is the possibility, however, that the price of gold may suffer a drop before the rings are ordered next year.

THE LAST ROUND-UP

With this issue THE TECHNICIAN makes its last appearance for the current school year, bringing to a close the fourteenth year of its publication.

Starting in 1921 as a small four page three-column sheet, THE TECHNICIAN underwent a series of improvements that culminated in the present seven-column paper at the beginning of the school year in 1931. The first issues consisted of a mixture of poetry and news matter, and the poetry was not eliminated until three or four years after the initial volume.

During these years, the paper has endeavored to gather all the college news and present it in the most attractive manner to the students, and to interpret news in its editorial columns for the welfare of the students. Quite often much criticism was directed at the editor for taking certain stands, thus causing an enormous amount of ill-feeling which would not have occurred had a clear position on the case been understood by both parties.

Satisfying everyone is impossible in conducting a newspaper. There will always be some who will raise objections to any plan brought forth or any interpretation given. The views may be good or bad, but they will have their supporters and their opponents. If the college was run in the way the average student would like to see it function, a grand dilemma would result. Some of the ideas advanced by students would be for the best of the college, but again, there are ideas which would wreck the present set-up, not that it does not need a severe jolt to rouse it from its present lethargic condition.

Many students who have objections to raise confine their remarks to their friends and classmates, when they could be expressed through the columns of this paper. The Open Forum column is conducted for the use of the students, but very little opportunity has been made of it this year. Any communication which the sender might wish addressed to the student body will be printed in this paper unless it has to do with the needless slandering of some individual.

As another chapter is closed, the paper extends its wishes to the entire student body for a pleasant summer and will await their return next year.

GRADUATES FARE FORTH

Within a short time nearly three hundred State College graduates will take their places alongside the rest of the world. Some of them have been assured of positions already, while some have not as yet been placed.

From a survey conducted by this paper a much brighter outlook is seen for the graduate of 1934 than was his predecessor in 1930, 1931, 1932, and 1933. Departmental heads have reported that more graduates are being placed this year than have been in the years following the down swing of business. The bottom of the business cycle has apparently been reached and business will slowly rise to the place which it formerly occupied. The change will not come about rapidly, since the country will require a long period to fully recover from the stroke which paralyzed business with the crash of the stock market in 1929. The government, through its legislation under the new regime, has been the contributing factor in stemming the tide and turning back the panic which threatened to ruin the country. Had not such drastic steps been taken, the situation today might have been worse than at the time the new administration took the reins. It is true that the new program has created a huge national debt, but in placing money into circulation and creating business activities, the real aim of the program, sluggish business conditions have been stirred into action. The results have been far-reaching, and every community in the country has realized increased business activity.

The seniors are going out into the world just as these changes are taking place. There is no doubt but what they will benefit by them. Once definitely placed in positions, they will be sure of a steady job and promotions, provided they prove their worth.

Some large companies have long designated their preference for State College graduates by coming to this institution to select their new employees before giving other schools consideration. There are many companies which draw upon only four or five colleges in the United States for employees, and this college is included in their list. This fact speaks highly of the opinion of those on the outside as to the kind of training given here.

Most of the department heads have stated that they expect more graduates to be placed in coming years. With returning business activity, this is only natural. Taking a retrospective view of the past four years, it will readily be seen that college graduates have fared much the same as others. The period through which they went will probably prove disastrous to some graduates because they failed to get established after graduation, but to some it may prove actually beneficial since they have been placed on their own resources during the darkest period of the present generation.

Like the old fairy tales, the senior represented as the knight will fare forth to do battle with the dragon. A majority of them will conquer the dragon, but some will be conquered. Statistics have shown that about thirty per cent of college graduates result in failures.

State College streets have been named at last. Two honor societies after working on the plan for a long period, have finally succeeded in carrying the proposal across. With the identification of the streets, visitors will find it less difficult to make their way over the campus. The two societies are to be commended for their action.

As a suggestion, the societies might now work out a plan for placing some means of identification at the entrance to the college so that visitors and passersby will recognize this school.

HERE and THERE

By G. W. FORD

After struggling through a year of putting out this little sheet we have stood the gauntlet and have now come to our last issue of this volume . . . all of which means the end is in view. Good old exam time . . . it's like a ghost that hovers around and swoops down on the student periodically, making him burn his midnight oil, sweat blood, and smudge the pages of a hitherto unused book. It does not attack without a warning but the sound of its approach gives the student a sinking feeling.

As you enter into the final struggle with this mighty monster there's one thing you should remember: The pencil is mightier than the chisel. In other words, if you can't beat this thing using a pencil, don't turn to chiseling.

A remarkable spirit of cooperation was shown this week when Dave Morrah, retiring editor of the Wataugaan, consented to come over and draw the cartoon for this week. Aside from being an artist, editor, and outstanding student, Dave is a Southern Conference wrestling champion. I might also mention that he makes regular visits to Meredith . . . for some reason or other.

Bill New and Phil Stone have been turning their attentions toward Peace quite a bit lately. And another thing . . . these two boys left their dormitory between one and one-thirty Wednesday morning for parts unknown. I heard that the Nurses' Convention was on, but who would want to go to a convention at one o'clock in the morning.

The Indians seem to be moving into the vacant lot next to Dean Cloyd's home. More wigwags are being pitched every day. The pictures on them are real good. Remember the one about the Indian who wore a feather in his hair to keep his wig warm?

While Miss Mayes, nurse at the Infirmary, was eating in the cafeteria the other day someone went to her coat and put a note in the cuff of the sleeve. The note contained a proclamation of affection but was signed with the initials R. A. and A. F. H. I have looked in the directory and the only names corresponding to these initials are Randall Atkinson and Arthur F. Hoffman.

A fellow came by the office Wednesday looking for Professor Moore's office. Can it be that he's getting old? . . . most everyone that I know refers to him as Joe Moore.

Since we have been putting up a hill for better traffic conditions on Hillsboro Street they have gone ahead and put a white line down the center of the street. Being interested in it, I have counted the cars that cross the lines and find that the number ranges from forty to fifty per cent. This means that the lines are doing no good. It's just like putting a pencil line around a piece of pie to keep the flies off of it.

Although we have been having weather every day since the creation of the world never have I seen the elements go as loco as they have during the past week. Of course, I haven't been here all the time, but you'll have to admit that the weather was rather unusual. It was hard to decide whether to wear a linen suit or a slicker and rubber boots when going out.

MANY GRADUATES WILL BE PLACED DURING SUMMER

(Continued from page one)
four students graduating in Architectural Engineering all had hopes of being placed before commencement. No definite word has been heard from several of the prospective jobs, but all indications show that these men will be placed in jobs.

Dr. E. E. Randolph, head of the chemical engineering department, reported that thirty-five chemical engineers are candidates for the Bachelor's degree and two are candidates for the Master's degree at commencement. More than half of these men have been offered definite positions, and the prospects are encouraging for the remainder to be employed in the near future. With the improvement in business conditions the companies are more hopeful than they have been for the past two years and are more readily adding to their force of technical men. The twenty-eight chemical engineers who received degrees at commencement last year were employed before the end of the summer.

"With improved business conditions prospects seem to be encouraging that all the chemical engineering graduates this year will soon be employed," said Dr. Randolph.

Textiles
Dean Thomas Nelson, head of the Textile School, announced that of the 29 seniors to be graduated, all but three or four of these men have been placed in definite jobs, and the others are waiting to hear the final word about their job.

"The prospects have been better this year than at any of the preceding years," said Dean Nelson. "There have been letters requesting more men than are to be graduated this year. Many of the students are to be located in mills in the state."
Dean Nelson also announced that this had been one of the most successful

Knighted But Untried

years in the history of the Textile School.

There were 212 students registered in Textiles this year, which was an increase of 49 per cent over last year. Of the students now in school 86.6 per cent of them are from North Carolina. Textile alumni records 1901 to 1933, inclusive, show M.S. degrees awarded 11, and B.S. degrees awarded 400.

Education
The signing of the George-Elley bill by President Roosevelt on Monday, May 21st, has made available considerable additional federal money for vocational agriculture in North Carolina, making it possible to approve thirty-eight new departments of vocational agriculture in the state. This creates a demand for more than thirty teachers of vocational agriculture for the coming year. "Since there are only thirteen students graduating in the teaching of agriculture at State College, it seems that they have the best assurance of securing positions of any class in a number of years," said T. E. Browne, dean of the Education School. These young men are being considered for various positions and are holding conferences with superintendents and principals. It now appears that by commencement time, every graduate in Agricultural Education will be definitely placed for next year. There is still a demand for quite an additional number which the department will be unable to supply.

L. T. Weeks and P. F. Edmond are the only seniors who have definite placements at the present.

No reports were available from the Agricultural School in the survey.

Suggested Readings

Each week a new list of books will be published as an aid to the student in selecting suitable reading matter. In this list will be included works of the foremost American and foreign authors.—Ed. Note.

- Novels**
Byrne, Donn—*Hugman's House*.
Bromfield, Louis—*A Modern Hero*.
Cather, Willa—*The Professor's House*.
Christie, Agatha—*Thirteen at Dinner*.
Walpole, Hugh—*The Fortress*.
Hammett, Dashiell—*The Thin Man*.
Wren, P. C.—*Valiant Dust*.
Miscellaneous
Thomas, Norman—*The Choice Before Us*.
Edie, L. D.—*Dollars*.
Wain, Nora—*The House of Esile*.
Holmes, S. J.—*The Trend of the Race*.
Macdonell, A. G.—*Napoleon and His Marshals*.
Clark, B. H.—*Eugene O'Neill*.

Call
"RAILWAY EXPRESS"
to get your baggage home
QUICKLY and ECONOMICALLY

You probably have 101 things to do and think about before leaving the university for home and vacation. One of the items you can strike off the list is your baggage. Send it Railway Express whatever it may be—trunks, bags, or personal belongings. Wherever you may live, if it is within regular vehicle limits, we will call for your trunks and bags and whisk them away on fast passenger trains through to destination. And after the vacation, bring them back this simple, easy and economical way, for Railway Express will pick 'em up and make direct delivery to your fraternity house or other residence. Railway Express has served your Alma Mater for many years. It provides speedy, reliable service at moderate rates. The local Railway Express representative will be glad to supply you with necessary labels and will give you a receipt for your shipment that includes liability up to \$50, or 50¢ per pound for any shipment weighing more than 100 pounds. Merely call or telephone

Showing of State Athletic Teams In 1933-34 Reviewed

Red Terrors Defeat South Carolina in S. C. Tourney for Feature Contest

FOOTBALLERS HAVE BAD SHOWING WITH ONE WIN

Better Days Expected on Gridiron As Hunk Anderson Takes Team in Charge

By HALL MORRISON
At the close of the 1933-34 sports season, it would probably be interesting to sports fans to see just what the State College athletic teams have done in the various sports in which they have competed. The athletic program has been successful in some branches of sport and not so successful in others, but all the teams have been scrappy, fighting ones whether they won or lost.

Perhaps the most successful varsity team in point of victories won was the basketball team. At the beginning of the season, prospects did not look so bright, and authorities were predicting a mediocre team. But when the season closed, it was found that the Red Terrors under the tutelage of Dr. R. R. Sermon had won ten contests and lost five. They lost to Duke, Carolina, South Carolina, and Washington and Lee. The climax of the season was the Southern Conference Basketball Tournament held in Raleigh, when the Terrors took the highly favored South Carolina team down.

The Terrors got the reputation of being a slow starting team, but they surely did make the second half count in a big way. One of the most thrilling contests of the year was their defeat of Carolina 34-30 at Raleigh, after the Chapel Hill team had run up a big advantage in the first half.

Outstanding performers on the 1934 edition of the Red Terrors were: Bob McQuage, captain and guard; Ray Rex, guard; Stuart Flythe, center; Leroy Jay, Charlie Aycock, and Woody Lambeth, forwards. Of these men, only McQuage will be lost by graduation. Ray Rex, who made the second All-Southern Conference team, will captain next year's team, and prospects look bright for a successful season.

Football
The 1933 football season could not be termed a very successful one in point of games won and lost. The Wolfpack won one contest, tied three, and lost five, under what turned out to be Coach John P. "Clipper" Smith's last year of coaching at State. The scores of the games do not indicate the fight the Wolfpack put out in every one of them, but at best, the football record could not be called a good one. The best game of the year was the final one, the contest with the Duke Blue Devils. The Wolfpack was favored to take a terrible beating by the Duke team, who at that time was favored for possible Rose Bowl competition. But State put up a scrappy fight and held Duke scoreless until nearly the end of the game. They had the Blue Devils in a very worried state, and when Duke finally put over the victory winning touchdown, it was because they had exhausted the State team by constant pounding.

Steve Sabol, center, and Kenneth Stephens, left end, played 525, and 518 minutes of consecutive football respectively to hang up somewhat of a record for continuous play. Ray Rex was placed in the fullback position on the A. P. All-State team. He and Steve Sabol, center, were also given honorable mention in the All-American selections. Other players picked on All-State teams were Ray Redding and Bob McQuage.

With the selection of Hunk Anderson, former coach at Notre Dame, to coach the 1934 Wolfpack, prospects for the next season look very bright. Anderson put the gridirers through a strenuous spring practice, and the team looked good in practices then. Co-captains for next year's Wolfpack are Raymond Redding, and Kenneth Stephens, ends on last year's team.

Boxing
Boxing fans in Raleigh saw the State ring put on some scrappy exhibitions this year. The team had a very successful season under Coach Bill Beatty. They beat Duke, Washington and Lee, and Georgia, tied Carolina, and lost to South Carolina. The team entered the Southern Conference meet, but the Virginia teams seemed to have an edge over all the N. C. teams entered. Allan Nease went to the semifinals, however.

The ring team missed the services of Captain Bill Dunaway, a Southern Conference champion, who was out of school during the boxing season. Some of the outstanding State pugilists were Charlie Garner, Turner Bilsoly, Jack Fabri, Ken Stephens, Ray Redding, Allan Nease, Leonard Peacock, and James Fletcher. Prospects are bright for a successful season next year. Charlie Garner will be the only man lost by graduation.

Wrestling
The State mat team also had a very successful season, climaxing it by winning the Big Five championship, and placing two men as the Southern Conference champions. W. & L. was the only team to defeat the Techs during their entire season. They scored wins over Carolina, V. M. I., V. P. I., and Duke. This was the second consecutive year they have won the state championship. The team placed third

McQUAGE HANGS UP NEW RECORD FOR ATHLETICS

Plays Every Varsity Football, Basketball, Baseball Game in Three Years

Bob McQuage, Salisbury boy who graduates from State this year has hung up an amazing sports record for other athletes to shoot at in the future. McQuage has actively competed in every varsity football, baseball and basketball game which State has played since his freshman year. And during his first year, he played in every freshman contest in the above named sports.

McQuage has also played basketball in three Southern Conference tournaments, and was in active competition in every tournament game which the Red Terrors played.

It is a record that has never been made by another State College athlete, and it is practically certain that no other college athlete in the state can boast of such a record.

McQuage was recently awarded the Alumni Athletic Trophy by a vote of the students in the college. This trophy is awarded annually to the outstanding athlete of the college. The competitors for the cup must also have maintained an average of 75 or more during their school careers.

The outstanding Salisbury athlete will be a Science and Business graduate this month. He will leave a gap in State athletics that will be hard to fill to say the least.

Swimming
Coach Joe Moore gave this year's tank team the instructions and work to enable them to gain wins over Duke, Fort Monroe Army Team, and William and Mary, and lose to the University of Virginia in the feature meets of the season. They gained a total of four wins and three losses in competition.

Baseball
The varsity baseball team after losing nine stars through graduation at the end of the '33 season, played a 22-game schedule this year, winning 8, tying one, and losing 13. The team came out fourth in the Big Five race. Coach "Chick" Doak, completing his tenth year of diamond coaching at State, had to compete with untrained material all through the year. Some good men were developed in the course of the season's play, however, and prospects look brighter for next year.

Minor Sports
The only gesture State made in track this year was to enter Ray Rex and Milan Zori in track meets at Durham, Chapel Hill, and Philadelphia. It is to be hoped that the powers that be will appropriate more money for track, golf and tennis than they did this year. However, Zori has been bringing fame to State through his discus throwing, and in almost every meet he has entered this year, he has broken the existing record. He is to enter the National Intercollegiate A. A. Meet to be held in Los Angeles later this month.

The varsity links team under the leadership of Captain Pat Pastore and the able coaching of Captain B. W. Venable, brought State the N. C. Intercollegiate golf title. Fred Newnam, Jr., who has been State's ace golfer throughout the season, tied for individual honors in the Southern Conference Tourney held at Hot Springs, Va. Charlie Styron is the only man who will be lost by graduation, so prospects are bright for next season.

Bill Fisher of Southern Pines was captain of this year's varsity net team, and he courageously led his netters through a season that held a lot of defeats for them. With him on the tennis team were: Renn, Fisher, Brown, Westbrook, Wright, and Peck. Jack Brown of Burlington is captain of the 1935 team.

The Rifle Team led by Captain E. R. Daniels turned in a good record for the season, topping it off by winning the State Championship. The team was coached by Captain B. W. Venable. Members of the team are: J. J. Griffith, Phil Stone, M. L. Andrews, captain for 1935, Earl Moser, J. S. Whitley, W. A. Corpenning, W. M. Shaw, F. H. Hube, and J. S. Sugg, manager.

Freshman Sports
The Techlet football team under the coaching of Bob Warren and Bill Beatty broke exactly even on their five-game football schedule this year. The freshman team won two, lost two, and tied one. They won games from Eastern Carolina Teachers College, and Davidson, tied the Duke freshmen, and lost to Carolina and Wake Forest freshmen.

When the season opened, approximately seventy men reported for duty, the largest number to go out in the history of the college. Freshmen whose work was outstanding were: Conrad, Goode, Jenkins, Haydon, Smothers, McIntyre, Thompson, Roy, Scanlon, Tatum, Bugg, Kirchner, Potlasky, and Regdon. The freshman season showed up a number of good

Intramurals Close

The race for the championship cup in both the fraternity and dormitory leagues is getting close now that most of the point-making events have been finished. It was impossible for The Technician to get final standing before going to press, but Mr. Miller's office stated that the Pi Kappa Alphas were almost certain to win in the fraternity league, even if they lost all their contests that have not yet been played. The runners-up in standings at present are the Sigma Nus, winner of the cup last year, and the Sigma Phi Eps.

In the dormitory league, Second 1911 has a lead of over 100 points and looks like the logical winner of the dormitory cup. First 1911 and First South are in second and third place respectively.

TENNIS TEAM DEFEATS RALEIGH TENNIS CLUB

The State College varsity tennis team defeated the Raleigh Tennis Club 5-2 Wednesday, May 23, at the Club courts. Westbrook and Strong played the closest match, Westbrook, State, finally winning two out of three sets.

Professor Green, State coach, played for both teams, State in the doubles and the Club in the singles.

This match was the last one of the year for the team.
The summary:
Singles—Fletcher (Raleigh) defeated Renn 7-5, 6-4; Westbrook (State) defeated Strong 6-3, 4-6, 6-2; Wright (State) defeated Benson 6-0, 6-4; Fisher (State) defeated Green 6-4, 6-2; Brown (State) defeated Hassinger 6-1, 6-1.
Doubles—Strong and Winston (Raleigh) defeated Brown and Westbrook 6-4, 1-6, 6-3; Wright and Green (State) defeated Hassinger and Benson 1-6, 6-2, 6-2.

Parkes Shell, Howard Bards, Thomas Hines, and Clyde Tickler.
The freshmen also turned out tennis and golf teams. Key Scales, a Raleigh boy turned out to be one of the best freshman golfers and he should make a good varsity man next year. Freshman net players were: Cooke, Kingsbury, Lange, Crumley, Nading, and Bertland.

NEWS! Science reveals important new Facts for Smokers!

Camel Smokers can verify these facts!
A famous New York research laboratory announces a latest discovery that throws new light on our past knowledge of cigarettes. It embodies an "energizing effect" — a quick restoration of the flow of natural body energy... an experience well known to Camel smokers. When you smoke a Camel you feel an almost immediate relief from fatigue. You have released and made available the latent energy in your body. You've helped your body to help itself. During the day your energy curve has certain low points. Camels raise your flow of energy... quickly, conveniently, and without jangling your nerves.

There's a "Lift" in CAMELS that drives away Fatigue and Irritability

Feel "all in"? Then light a Camel. It's cool and fragrant and delightful...but far more important than that, it brings your flow of energy up from the depths! You feel fatigue vanish. Irritability seems to slip away. And you go back to work — or play — with the energy that is naturally yours. This experience is no news to Camel smokers. But the explanation is news — and good news — to everyone. The "lift" you get from smoking Camels is simply a release of the natural latent energy in your body. You have helped your body to help itself...easily, naturally. Remember this explanation when your energy curve is "down"...times when you're irritable and your brain just doesn't seem to work and you feel too tired to move. Camel fans smoke frequently — and they can — as often as they like. Camel's costlier tobaccos never get on the nerves. Keep your flow of energy at a higher level with Camels.

TOO TIRED FOR FUN...and then she smoked a Camel!

CAMELS Costlier Tobaccos never get on your Nerves

Camels are made from finer, MORE EXPENSIVE TOBACCOS — Turkish and Domestic — than any other popular brand.

"Get a LIFT with a Camel!"

ENGLISH COURSES WILL BE OFFERED

Summer Term to Give Eight English Courses and 24 Educational Courses

A variety of English courses will be offered students and teachers attending N. C. State's 1934 Summer School session, opening here June 13 and continuing through July 24.

Joseph D. Clark, professor and chairman of the English department, will be in charge of the courses—eight in number. He will be assisted by Prof. Arthur I. Ladu, associate English professor at State.

An analysis of the principal plays of Shakespeare, and major and minor poems of Milton, with a limited treatment of Milton's prose, will be two of the subjects taught by Professor Clark.

Professor Clark will also teach "Advanced English Grammar" and "The Romantic Period." In the first Clark will stress the science of grammar and the art of its application. The course will be taught especially for English teachers in high schools or in the grades, and for journalists and other creative writers. Representative poems of Gray, Blake, Burns, Wordsworth, Coleridge, Scott, Southey, Byron, Shelley and Keats will be studied in the course "The Romantic Period."

Professor Ladu will offer courses in "Rhetoric and Composition," a series of illustrative reading exercises in types of composition; "Survey of American Literature," a study of the masterpieces and outstanding types of American literature in their historical setting; "The Bible as Literature," a study of selected books of the Old and New Testament as literary and historical documents; and "Contemporary American Literature," a study of leading writers of the present century.

Dean T. E. Browne, head of the summer session, announced that there would be 24 educational courses offered for undergraduate students and teachers expecting to attend the summer session.

A staff of nine will teach the courses. Seven of the instructors are members of the teaching staff at State. The other two are Mrs. Lillian Parker Wallace, of Meredith College, and Dr. J. Henry Highsmith, director, Division of Instructional Service, State Department of Public Instruction.

Subjects to be taught by Dr. Highsmith are "High School Course of Study," "Public School Administration," "Problems in Secondary Education," and "Supervision—The Improvement of Instruction." Mrs. Wallace will teach "History of Education." The seven State College professors

and the subjects they will teach are: K. C. Garrison, two courses in "Educational Psychology" and one in "Psychology of Secondary School Education"; J. M. Foster, "Mechanical Drawing for Teachers;" Merle F. Showalter, "Extra-curricular Activities in the Secondary School;" "The Teaching of Geography," and "The Teaching of Science in the Secondary School;" E. W. Boshart, "Vocational Guidance," "Theory of Industrial Arts in the Elementary School," "Practical Arts Problems," "Art Studies in the Elementary School," and "Occupational Counseling;" L. O. Armstrong, "Visual Instruction," and "Visual Aids in Social Sciences;" C. G. Mumford, "The Teaching of High School Mathematics;" and L. E. Cook, "Special Problems in Teaching Agriculture," "Character Education," and "Problems in Agricultural Teaching."

SHAW NAMED PRESIDENT OF TEXTILE FRATERNITY

Phi Psi Initiates Two Honorary and Two Active Members at Banquet Friday

J. E. Shaw, Jr., was elected president of Phi Psi, textile fraternity, at a recent meeting of the group.

Other officers elected were: H. D. Whitener, vice president; R. J. Griffin, secretary; E. T. Taylor, treasurer; K. C. Brown, senior warden; and J. D. Moore, junior warden.

At a meeting of the group Friday two honorary and two active members were initiated into the fraternity. The honorary members are G. G. Allen of Kannapolis and Prof. J. T. Hilton. Allen is a graduate of State College in the class of 1906, and is now general superintendent of the Cannon Mills at Kannapolis. Professor Hilton has been instructor in the textile school for the past ten years. The active members initiated were P. W. McCollum and E. L. Bolick.

After the initiation ceremony a banquet was held in the college cafeteria. Prof. D. B. Hardin acted as toastmaster. Short talks were made by Dean Thomas Nelson, Professor Hilton, and Mr. Allen.

PROFESSIONAL CAREER

Hundreds of college men and women have found a pleasant and dignified career as optometrical eye specialists.

The Pennsylvania State College of Optometry, a class "A" school, offers a degree course. Extensive clinical facilities, complete laboratories and equipment, well-known faculty.
