EDITOR ON AERONAUTICS

The smash-up last week of the monoplane built by Lewis Curry and Paul O. Stahl in the Aeronautics department set off a fuse, which exploded some adulterated dynamite in the form of an editorial in the Raleigh Times based on nothing tangible so far as implications are concerned, in which the writer runs rampant on the subject of a "collegiate flier" as related to an airplane.

Professor K. P. Kolb, wishing that the editorial writer be enlightened on the subject of the "collegiate" airplane answered the editorial Tuesday, expressing the opinion, we dare say, of all State College students, as to the student-built plane.

Col. Charles A. Lindbergh owns a Lockheed plane built of "wood and cloth" and perhaps the writer of the editorial might not be sitting comfortably writing against "wood and cloth," had it not been possible for such a combination to be used in airplanes during the World War.

The editorial condemning the plane follows:

COLLEGIATE CAR BAD ENOUGH WITHOUT ITS SKY DUPLICATE

It fortifies a faith in Divine Providence to see a cut-down T-Model achieving prodigies of speed on a down grade and carrying in its driver's seat, tonneau, and improvised rumble anywhere from ten to fifteen students, with perhaps half a dozen more perched on the running boards.

Here go rushing through the streets a baker's dozen of fathers' hopes and joys of mother hearts, apparently rushing to destruction. Catastrophe seems to be inevitable. Yet in a wonderfully percentage of cases these voyages spurred by the dare-devil instinct return as lumps unscathed. When they do so smash for the most part they miraculously survive and immediately commence to ransack the junk heaps for the makings of another fiery chariot.

If such sights chill the backbone of the on-looker with horrid imaginings, what must be said of the counterpart of the college car equipped for the air? One such venture recently came to disaster near the Raleigh Airport. State College experimenters had built a home made plane. It was a contraption of wood and cloth, with a power plant consisting of an old sputtering "Lizzie" engine of a by-gone day. Miraculously enough, it took its preliminary run and soared grandly to the altitude of a modest skyscraper. But quickly the stress and strain proved too much. From all accounts, propeller went one way, wings another, the engine dropped like a plummet, and the fuselage and occupants careened toward Mother Earth.

Whereupon the aforementioned Divine Providence stepped in to work a miracle and save the lives of the unlicensed experimenters, leaving to one of them the slight memento of a broken nose.

Off the bat, everybody will say it is a shame that such things can be and that there ought to be a law, with teeth that bite, to prevent any such monkey business in what is generally considered the third dimension. Which is as true as shooting, so far as the outcome's go, but which leaves out of the calculation that curious and well recognized, if not understood, urge to "be collegiate," no matter what happens, or may happen.

Professor Kolb's answer testifies to the lack of airplane knowledge of the editorial writer:

MR. R. L. GRAY, EDITOR,
THE RALEIGH TIMES,
RALEIGH, N. C.

Dear Sir:

Your editorial in last night's paper (November 14) commenting on the recent crash of the State College student's plane, is so unfair and so filled with erroneous statements that it requires an authoritative answer.

Your editorial implies that the students who built the plane are "crazy collegians" who are getting a big kick out of snapping together a ship out of any material at hand. As a matter of fact each of the builders is a mature student, one being now a senior and the other a junior; and both are taking the aeronautical option in mechanical engineering. Each of the students is a resident of Raleigh. Your editorial fails entirely to bring out the fact that these students built this ship according to approved design, and that the construction was effected in the shops of State College under the observation of the teachers of mechanical and aeronautical engineering. Three impartial judges awarded this ship the first prize among the exhibits made by the students on the occasion of the last Engineers' Fair at the college. Your editorial casts a reflection both on the students and on the college.

Over 200 airplanes have been built in this country according to the designs used by these students, and the company which furnishes the plans also builds ships according to those plans. Only the fact that this plane had a wooden fuselage prevented it from being eligible for a government license. Even so, the government inspector expressed himself as being satisfied with the quality of the construction. The engine was from a Model-A Ford and was fitted with a special carburetor, special cylinder heads, and a complete pressure-feed oiling system. The ship took eight months to build, and prior to the crash, had been flown about 45 hours, during five of which it was taken up by pilots at the local airport. It has attained an altitude of 5,000 feet and on one trip was flown to Kinston and back.

At the time of the crash this ship was the property of two men from a neighboring town, who had purchased

the ship from the students. The purchasers had fitted a different propeller and this flew to pieces shortly after their agent had taken off from the local airport to deliver the ship to them. The plane did NOT disintegrate in the air, but the pilot had it under complete control during the forced landing, although he was not able to clear several trees while making the landing. The loss of the propeller relieved the engine of its load with the result that several connecting rods were broken during the over speeding.

We understand, of course, that your editorial was based on inaccurate information, and the facts are substantially as stated in this letter. I trust that you may be able to correct your editorial statements of last evening either by printing this letter or by other means at your disposal. Certainly neither the students involved, nor the college, should be the victims of the unfavorable publicity already given to this crash which had absolutely no connection with either.

Very truly yours,
(Signed) R. P. Kolb,
Assistant Professor Mechanical Engineering.

It is hoped that the writer of the Times editorial will amend some of his "collegiate" chatter and that he may understand better the strange student and his foolhardy ways.

A NEW ANNUAL

The annual which the Forestry school has voted to issue, and for which it last week elected an editor and business manager will express better than any other project the true individualism of that group.

In introducing the annual, the Forestry club is following the example of forestry schools at other colleges and universities. The book will be paid for in part by members of the club, and it is expected that advertising will cover the final cost of its publication.

Forestry students are, more than are students in any other school, brought closely together during field trips and inspection tours, forming a unit separate and distinct from any other here. The plan for a yearbook is one which will tend to promote in that group an additional cooperation which has been so evident in its every undertaking.

Although the Forestry school was begun comparatively recently here, it boasts a large enrollment, and it is known as one of the best, if not the best in the South.

Our best wishes are with the Forestry School in this latest undertaking and hope that the results will be parallel to others of its kind.

That State students are becoming journalistically inclined is evidenced by the two new publications to be issued on the campus. The engineering quarterly which was recently begun, and now the forestry annual are the outcome of discussions on the subjects which have been going on for several years. Students should be commended on the activity which they are showing this year in bringing to a head these discussions, thereby finding other roads to conquer in their search for a broader education:

HERE AND THERE

By G. W. FORD

Well, well, Old Man Winter is headed this way at last. Yes sir, Winter draws on and I must get rid of some shorts that I have not been saving.

First of all, let me put you wise to something I've heard. Rumor has it that Doc Rhodes is going to put stirrups on his seats down at the corner for the Drug Store Cowboys.

Fust Sabgint Spence of company H must have heard that the pen is mightier than the sword. From this he drew the conclusion that the pencil is mightier than the pistol; he carries a pencil in his pistol-holster.

Hugh Eudy has been seen around lately minus his little black mustache. It can't be that he's afraid of the clipping squad . . . maybe he's looking forward to a mild winter, who can tell?

Joe Swift has been riding around in a Pontiac sedan lately. And as we hear this, none of us comment but we merely smile and cast meaning glances at one another.

Get a load of this boys: Miss North Carolina will make her appearance at Huneycutt's on Monday, November 20 at 4:00 p.m. She is to be received by the Governor, eight Mayors, and several members of the American Legion. That's one time, I'll bet, that the Raleigh cops will make their appearance out this way.

J. M. Foster, our flying professor, has been confined to bed for the past few days with a bad foot.

It wasn't until we got our proofs from the *Agronomy* office that some of us realized how funny looking we really are. Well, some people are born rich and others are born good looking. . . I'm one guy that was cheated out of both.

The Tailor Made Man, although it almost turned out to be a monologue, was a good production. (I'd better say that it was good) But seriously, the performances given by some of our

Forestry Journalists

amateur actors are really inspirational, colossal, stupendous, and all that.

Did you ever stop to think, boys and girls, that the Christmas vacation is just a few weeks off? Tempus sure is fugiting this term. (That's my favorite Latin expression.)

We just found out that Hazel Beacham was a runner-up for the leading role in the moving picture "Saturday's Millions" which played in town last week. Well, well. . .

SOPHOMORE WEEK CLOSURE WITH SOCIAL AND TALK

Sophomore week reached its climax last night with a social in the Y. M. C. A. followed by a talk by T. S. Johnson, professor of Industry.

E. W. Cooper, president of the sophomore class, also talked to the assembly. The meeting was a result of a campus-wide canvass of the sophomores,

conducted by the fraternity presidents, the dorm club presidents and the Y. M. C. A. Cabinet.

A TIP FOR STUDENTS

Students who are able to review complete notes are much better prepared for examinations. With ABC Shorthand, which is quickly learned in 12 easy lessons, you can take lecture and reading notes verbatim. Complete course now sold for \$1.00 at STUDENTS SUPPLY STORE.

PIZER BROTHERS COMPANY
10 E. Hargett St.
WALK A FEW STEPS OFF FAYETTEVILLE ST. AND SAVE THE DIFFERENCE

IT TAKES HEALTHY NERVES TO BE A CHAMPION BRONK RIDER!

RIDE 'EM COWBOY! Every second is crowded with danger for Eddie Woods, twice all-around cowboy champion at the famous Calgary Stampede. It sure takes healthy nerves to stay on board a fighting bronk! "Camels are my smoke," says Eddie Woods. "They never jangle my nerves."

"OUT ON THE RANCH I became devoted to riding and smoking Camels. Even if I am not in the championship class I need healthy nerves. And Camels do not upset my nerves. They are the mildest cigarette I know!"

Steady Smokers turn to Camels

EDDIE WOODS, one of the "top hands" of the cowboy world, says: "Ten seconds on the back of an outlaw horse is about the hardest punishment for a man's nerves that anybody can imagine. To have nerves that can take it, I smoke only Camels. I've tried them all, but Camels are my smoke! They have a natural mildness, and I like their taste

better. Most important of all, Camels do not jangle my nerves, even when I light up one Camel after another."

If you are nervous . . . inclined to "fly off the handle" . . . change to Camels. Your own nerves and taste will confirm the fact that this milder cigarette, made from costlier tobaccos, is better for steady smoking.

A MATCHLESS BLEND

IT IS MORE FUN TO KNOW

Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand.

Boxing Men Start Practice For Heavy Winter Schedule

Seven Veterans and Large Group of Sophomores Report for Early Season Work

THREE GRIDMEN TO BOX AFTER FOOTBALL SEASON

Coch Beatty Produced Some of South's Best Leather Punchers Last Year

Coch Bill Beatty's call for boxing candidates last Monday brought out many experienced and promising candidates. Boxing practice for the '34 season was begun early this year to get the team well-rounded into shape for a tough schedule.

Seven Veterans Back Heading the list of candidates was Bill Dunaway of Raleigh captain and Southern Conference title holder in the 155 pound class. Five other monogram men of the 1933 team reported with Dunaway and two more will check in with the completion of the football season. Those already on hand are Turner Bilsally, Raleigh, 115 pounds; Allen Nease, Savannah, Ga., 125 pounds; J. B. Sauls, Ayden, and Marshall Rhyne, Mount Holly, 135 pounds; and Charlie Garner, Portsmouth, Va., 145 pounds. Garner was captain of the 1933 team and held the 1932 welterweight championship of the Southern Conference.

The two monogram men to report after football is over are Jack Fabri, Taylorsville, Ill., 165 pounds, and Kenneth Stephens, Apex, unlimited.

Sophs to Aid Team Four of the remaining six candidates are sophomores and were regulars on the yearling team last year. They are Howard White, Raleigh, 115 pounds; Harry Beddoes, Raleigh, 125 pounds; Seamon Hudson, Raleigh, 135 pounds; and Carl Stein, 165 pounds, Everett, Mass. The other two are also sophomores, but are out for the first time. They are Seth Coulter, Catawba, 165 pounds; and J. V. Fletcher, Raleigh, 175 pounds.

In addition to Fabri and Stephens, football will give to the boxing squad when the gridiron season is over, three additional candidates in Frank Landis, 155 pound sophomore from Charlotte; and Clifton Daugherty, New Bern, and Raymond Redding, Decatur, Ill.

Four Home Games State has six meets scheduled for the coming season, four of which will be staged at home. The schedule is: January 13, University of South Carolina at Columbia. January 20, University of North Carolina at Raleigh.

Sports Views By BROCK SISELL

The Wolfpack might have won that game with the S. C. Gamecocks last week if they could have kept the Gamecocks "Gaffney Ghost," Earl Clary, out of the game. Clary seemed to be the Birds' touchdown man for as soon as he was put in—straightaway fireworks began with Clary galloping for the S. C. markers.

With boxing, wrestling, swimming, and basketball teams beginning practice in collegiate circles—it won't be long now before Mr. Football will be singing his swan song for the '33 season.

Five varsity 'Pack seniors Capt. Mope Cumiskey, Don Wilson, Bob McQuane, Bo Bohannon, and Buck Buchanan will be having a clean record at stake when State plays Duke next week. The players have the distinction of having never tasted defeat at the hands of Duke.

The State frosh team has developed several promising men that should go strong on the varsity team next year. Chilson, Blanchard, and Bardes look good as backfield prospects. Frosh line-men who ought to bolster the varsity forward wall are Cara, Klaver, Smothers, and Westcott.

The swimming team is planning to put on a swell exhibition against the Fort Monroe team here tomorrow night. Why not give the team your support and plan to see the meet!

Golf Team

The State College Golf team will meet in its first engagement this fall at a picked team from the Raleigh Golf Association at the Carolina Country Club tomorrow afternoon at 2 o'clock.

January 27, University of Georgia at Athens, Ga.

February 3, Washington and Lee at Raleigh.

February 9, Duke at Raleigh.

February 17, V. P. I. at Raleigh.

Boxing Popular

Although the ring game is classed as a minor sport at State College its popularity is running the major sports a hard race. In his debut as a varsity coach, Bill Beatty produced one of the South's best leather punching squads. The Tech pugs lost only one match, and placed third in the Southern Conference Tournament.

SOUTH CAROLINA DEFEATS STATE

Gamecocks Score Twice in Final Periods After Even Playing in First Half

After playing the South Carolina Gamecocks on even terms for two periods last Saturday in Columbia, the State College Wolfpack weakened in the third and fourth periods to give the Gamecocks a 14 to 0 victory.

Both teams fought fiercely for advantage through the first half, but two fast charging lines, bolstered by backfield assistance, prevented any scoring. A safety, scored by Huskey, Bird tackle, early in the third period broke the ice, and the South Carolina offense hurtled into action.

E. Clary, "the Gaffney Ghost" and the Gamecocks stellar player, scored both touchdowns. The first marker came near the end of the half when on a fake reverse he stiff-armed his way between the Wolfpack right guard and tackle for 24 yards to the State goal. As the game neared the end "The Ghost" leaped high in the air to intercept a forward pass from Alan Bailey, substitute Wolfpack halfback, to open the way for the second touchdown. On the second down Clary bounded through State's line for a 31 yard dash to make the final score.

In between the two scoring drives that followed in the final period, the 'Pack choked off one threat by a brilliant stand on their one-yard line.

The 'Pack showed scoring promise once in the first period after Ray Rex, running from his 20 yard mark, skirted left end for 14 yards, the longest Wolfpack gain of the afternoon. Rex and Bob McQuane tore off another first down in short order, but the offense went to pieces then.

In the State Line, Buchanan, Farrar, Sabol, and Stephens gave the best performance. Bob McQuane and Ray Rex showed up well in the 'Packs backfield. Huskey, Craig, and Epps were best in the Birds line. The Clary brothers were the dynamite in the Gamecocks backfield.

Iron Man

Steve Sabol, State's varsity center, is out to break "Red" Espey's record of 495 minutes of consecutive playing. So far this year Sabol has played the entire time for State's eight games

for a total of 480 minutes. If he plays in the coming game with Duke he will have exceeded Espey's record by 45 minutes. He has not made a bad pass this season and has played a consistent game.

WOLFLETS LOSE TO BABY DEACS

Score Comes After Wake Forest Frosh Recover Fumble on State 17-Yard Line

In a battle which could be compared to any varsity game, the State College frosh last Friday lost 7-0 to the Wake Forest Baby Deacons on Riddick field. The game closed the curtains for the State frosh team for the '33 football season.

The Techlets threatened in the first period when a steady march carried the ball to the Baby Deacs 8-yard line where the Deacs held. Hayden, Blanchard and Bardes alternated in carrying the ball with passes to Westcott aiding in the offense.

The lone score of the game came in the second quarter after the Techlets fumbled on the 17-yard line and the

Baby Deacons recovering the ball. Edens, Wake Forest fullback, smashed through the Tech line for the score.

After the only scoring of the game, the two husky bunch of freshmen battled without any further menace to each other's goal. The little Deacons, however, outplayed the Wolfcubs in exhibiting a better offense. Not to be outdone in all departments, the State frosh did break up the highly touted aerial attack of the visitors.

Bardes, Hayden, Kirschner, Polinsky, and Regdon were stars in the Techlets play. Baby Deacon mainstays were Edens, Kitchin, Swan, Hurtt, and Hardee.

Although the State frosh lost its chance to cop the State yearling championship by losing to the Wake Forest freshmen, it had a fairly successful season. In the Techlets five game schedule it won two games, tied one, and lost two. The wins were over Eastern Carolina Teachers College and Davidson College, the tie was with Duke, and the two losses were with University of North Carolina and Wake Forest.

INTRAMURALS POSTPONED UNTIL AFTER CHRISTMAS

Interclass Competition to be Played Off November 28, Announces Miller

The Championship series between winners of the sections in football and horseshoes will not be held until after the Christmas holidays, according to Johnny Miller, intramural sports director.

Delay in playing some of the games because of bad weather caused this announcement to be made. Miller also said that a number of teams were back in their horseshoe games, and that the managers of the teams should arrange at once for a playoff of these back games.

Interclass competition between the physical education classes in football, swimming, and the freshman athletic events will be held on November 28.

In the fraternity section of intramurals, the Pi Kappa Alpha, Alpha Gamma Rho, S. P. E.'s, Kappa Alpha and Sigma Nus are ahead in football with no losses. The Sigma Nus, S. P. E.'s and A. L. T.'s are leading in horseshoes.

The 2d floor 1911, 1st floor South, and 3d floor South are ahead in dormitory football, and 1st Floor 1911, Y. M. C. A., and 2d floor South are the leaders in horseshoes.

Three out of five of State's 1934 wrestling bouts will be staged here.

SWIMMING TEAM BEGINS SCHEDULE

Carter, Stonebanks and Moorman to Lead Tankmen in First Meet of Season

The swimming team of N. C. State will open its winter schedule tomorrow night at 7:30 when it meets the Fort Monroe team of Virginia in the Frank Thompson gymnasium.

Three monogram swimmers of last year's team headed by Captain F. A. Carter of Cornelius, will lead the Techs in their first tank appearance. The other two swimmers are Jack Stonebanks of Raleigh and Wynant Moorman of Clifton, N. J., Captain of last year's team.

Carter is one of the fastest dash men in the Southern Conference and in a trial swim this week broke the 50 yard conference dash record of 25.2 seconds when he covered the distance in 25 seconds. This same record was also broken by another member of the team this week when Jimmy Westbrook of Wilmington, freshman star of last year and holder of the State record for the 50 yard dash, covered the distance in 25 seconds flat.

In addition to the men mentioned, Coach Moore has as other material F. W. Peiffer, W. G. Thompson, Jimmy Poyner, Harvey Dixon, J. W. Hunter, Joe Canady, and Henry Cooper.

2 about Cigarettes

There are 6 types of home-grown tobaccos that are best for cigarettes

- BRIGHT TOBACCO U. S. Types 11, 12, 13, 14.
- BURLEY TOBACCO U. S. Type 31.
- SOUTHERN MARYLAND TOBACCO U. S. Type 32.

U. S. Type 11 is produced in the Piedmont Belt of Virginia and part of North Carolina.

U. S. Type 12 is produced in eastern North Carolina.

U. S. Type 13 grows in South Carolina.

U. S. Type 14 is produced mostly in southern Georgia—a few million pounds in northern Florida and Alabama.

U. S. Type 31 includes what is called White Burley tobacco. It was first produced by George Webb in 1864. It

is light in color and body, and is milder than the Burley used for pipes.

U. S. Type 32, Maryland tobacco, is noted for its "burn". In this respect Maryland excels most other tobaccos.

These are the kinds of home-grown tobaccos used for making Chesterfield Cigarettes.

Then Chesterfield adds aromatic Turkish tobacco to give just the right seasoning or spice.

Chesterfield ages these tobaccos for 30 months — 2½ years — to make sure that they are milder and taste better.

Tobacco being sold at auction on a Southern market.

Chesterfield

HERE'S Energy FOR YOU

SHREDDED WHEAT helps you go places and do things. And that's easily explained. Shredded Wheat is whole wheat. And whole wheat is man's greatest energy food, blessed by Nature with all the vital elements... proteins, vitamins, minerals, carbohydrates, and bran. All of these come to you in Shredded Wheat. Nothing has been added, nothing taken away.

The next time you draw up a chair in your

favorite campus eating place, order Shredded Wheat. When the crisp-baked, golden brown biscuits are placed in front of you, just pour on plenty of milk or cream and top with your favorite fruit. And enjoy the best-tasting bowlful of energy that ever brightened your day.

When you see Niagara Falls on the package, you KNOW you have Shredded Wheat.

Sophomore Ball

Elaborate preparations are being made by the class of 1936 to present a "Sophomore Ball," Friday night, November 24, in the Frank Thompson Gymnasium.

The affair will be informal and all students are cordially invited to attend. Accommodations for a large crowd have been arranged.

Jimmy Poyner and his State Collegians have been selected to furnish the music. The dance committee which is directing final plans for the function is composed of: E. W. Cooper, Lester Mims, Carson Sims, Joe Canady, Norman Raines, and Charlie Turlington.

Chaperones for the dance will include: Dr. and Mrs. E. C. Brooks, Prof. and Mrs. F. M. Haig, Prof. and Mrs. W. N. Hicks, Captain and Mrs. P. W. Ricamore, Dean and Mrs. E. L. Cloud, and Mr. and Mrs. J. F. Miller.

Thirteen Club Dance

The eyes of the members of the state social set will be focused upon the Thirteen Club Dance to be given to-night at the Sir Walter Hotel.

Approximately three hundred bids have been issued to various members of the younger social set in the neighborhood. State College is particularly well represented among the membership of the club.

Music for the affair will be furnished by the State College Collegians. Dancing will be in order from nine until one.

Sigma Pi

A delightful informal dance was held by members and pledges of Rho chapter of Sigma Pi in their home on Clark Avenue last Friday evening.

The lower floor of the house was open and decorated with the colors of the fraternity. A large crowd of guests enjoyed the hospitality of the fraternity. Delicious refreshments were served at eleven o'clock.

The chaperones for the affair were: Professor and Mrs. A. F. Greaves-Walker and Mrs. H. K. McIntyre.

Royal Court Ball

The Royal Court Ball honoring Miss Edna Taylor, the official "Miss North Carolina" to be held Monday, November 20 at Greenville, is being sponsored by the Greenville Cotillion Club.

Chief marshals from many towns in North Carolina will lead the beautiful court figure for their respective towns. Guy Lombardo and his Royal Canadians will furnish music for this first Royal Court Ball to be held in North Carolina. "Miss North Carolina" will entertain all her sponsors and marshals at a lovely dinner at the Woman's Club in Greenville on the night of the dance and at one in the morning she will share honors with Guy Lombardo at an elaborate intermission party at which the chief marshals and their sponsors and the maids of honor and their marshals will be guests.

Alpha Kappa Pi

Xi chapter of Alpha Kappa Pi entertained at an informal house dance in their home on Ferndell Lane last Saturday evening.

The house was simply yet attractively decorated. Punch and tasty wafers were served the guests during the evening.

Chaperones for the dance were: Prof. and Mrs. A. H. Grimshaw.

Y. M. C. A. DISTRIBUTES SEX BOOK TO STUDENTS

"Men, Women, and God" is the Title of Book Written by A. Hubert Gray

The State College Y. M. C. A. this week began a campus-wide circulation of "Men, Women, and God," by A. Hubert Gray. The book, by the well known author, contains a frank discussion of sex questions from the Christian point of view.

Most of the fraternities and many of the dormitory clubs have already received copies, which have been read with a great deal of interest. It is hoped that those who have not received copies will call at the Y. M. C. A. desk as soon as possible, since the supply is limited.

The Y. M. C. A. is circulating this book at the request of a large number of students. After every student has had an opportunity to read the book, an authority on matters of sex is to be brought to the campus to lecture to the students.

ACTORS PRESENT FOUR-ACT PLAY

(Continued from page one) severed, returns to work in the tailor shop. Of course, the president comes to the rescue, and Bart ends the play in a clinch with the heroine, the tailor's daughter.

Between the third and fourth acts, an imaginary meeting of the labor union of American Motors was held. Students taking part in this were Frank Busbee, I. O. Berson, Horace Cotton, J. T. Cooper, Walter Jones, William New.

Announcements

There will be an important meeting of Pine Burr at 6:30 Wednesday night in the Y. M. C. A.

Joe Dixon, President.

There will be a meeting of the A. S. M. E. Tuesday night, November 21 at 7:00 in room 113 Page Hall. The feature of the program will be a talk given by Mr. T. S. Johnson. All members are urged to be present.

W. E. Kistler, Chm.

Gamma Sigma Epsilon will meet Monday night at 8:30 in the Chemical Engineering building.

C. A. Williams.

All freshmen interested in swimming report to Joe Moore in the gym Monday at 4:30.

Joe Moore.

Delta Sigma Pi will hold an open meeting Thursday night, November 23, in the Y. M. C. A. at 7:15 o'clock. J. M. Broughton, President of the North Carolina Bar Association, will be guest speaker. His topic will be "Business and Law." All students are welcome.

Long GOLDEN STRANDS

OF FINE TOBACCO —and no loose ends

It would delight you to open a Lucky Strike and examine the long, golden strands of fine tobacco. To notice how fully packed it is... how free from annoying loose ends. Every Lucky Strike is a blend of the world's choicest Turkish and Domestic tobaccos—finely shredded—long and evenly cut. That's why every Lucky draws so easily—burns so smoothly.

ALWAYS the finest tobaccos
ALWAYS the finest workmanship
ALWAYS Luckies please!

"it's toasted"

FOR THROAT PROTECTION—FOR BETTER TASTE
