

DRUNKS FEATURE IN MOST WRECKS

Prof. Harry Tucker Issues Bulletin on Causes of Auto Fatalities in State

NORTH CAROLINA RANKS HIGH IN FATAL CRASHES

Says Most Drivers Involved in Wrecks Have Had Considerable Driving Experience

Conditions under which motor vehicle fatalities occur most frequently in North Carolina are those in which the driver has his car in use between the hours of 7 and 8 in the evening, of a clear day, on Saturday or Sunday, during the month of December, in a passenger car, speeding along on a straight, dry, well-paved road, out in the country, and either the driver is intoxicated or another car with an intoxicated driver is involved, finds Prof. Harry Tucker, director of the North Carolina Engineering Experiment Station and head of the highway engineering department. These facts and others pertaining to the causes and remedies of highway accidents in North Carolina are incorporated in Professor Tucker's latest engineering experiment station bulletin "Highway Accidents in North Carolina and Guides to Safety."

In addition to the setting pictured above for the ideal fatality, the car is most likely to be in good condition, has four-wheel brakes, equipped with balloon tires, and the driver is between 25 and 54 years of age and has had one or more years of driving experience. According to the bulletin, North Carolina ranks higher among her sister states in the average number of deaths per 100,000 population. The average for North Carolina is 22.4, while Virginia has an average of 20.6; Tennessee, 18.5; South Carolina, 17.8; and Georgia, 17.5.

Collisions with pedestrians cause the greatest number of accidents, while non-collision accidents and collisions with other automobiles tie for second place.

The statistics also show, Prof. Tucker says, that over 70 per cent of the persons killed by automobiles in North Carolina are from 15 to 84 years old, were confused by the traffic, and were walking in the streets or on the highways.

Professor Tucker in his bulletin also points out a number of ways to prevent the increasing number of motor vehicle accidents. Among these he lists are the correct location, design and maintenance of roads; design and maintenance of motor vehicles to eliminate mechanical defects; instruction and education of pedestrians as to conduct in traffic; regular inspection of motor vehicles for mechanical defects; prompt official investigation of accidents; enforcement of traffic laws; elimination of drunken drivers; a strict and well enforced driver's license law; and a civil liability act.

A number of safety rules for the pedestrian and the motor vehicle operator as well as other helpful recommendations are included in this bulletin.

BAND GETS BACK FROM FAIR TOUR

Members of College Musical Organization Return After Two Day Booster Trip

The State College Band under the direction of Major C. D. Kutschinski returned to the college last night after a two day trip through Eastern North Carolina as a part of the State Fair Booster's trip. The band left Raleigh Wednesday morning.

Wednesday night, the band gave a concert on the Postoffice lawn in Wilmington, where the members of the State Fair party spent the night. After the concert, the members of the band were entertained at a dance at the Cape Fear Hotel in Wilmington.

The following members of the band made the trip: T. T. Allison, E. W. Blackwood, K. Brockwell, L. N. Brown, D. F. Burns, K. W. Clark, W. F. Corbett, J. H. Corey, L. Crane, M. M. Dell, B. Ellen, J. M. Foster, M. F. Harris, F. Hicks, R. P. Hood, R. Huffman, F. S. Martin, J. N. McQueen, F. D. Newcomb, J. W. Ogletree, J. C. Owen, I. M. Porter, L. Sanford, P. K. B. Scales, T. S. Teague, H. Van Oesen, W. Weathers, J. R. Wetherington, A. W. White, and H. Wilder.

The Red Coat Band is made up of approximately 85 members. As usual this year, it will play at all N. C. State home games in Riddick Stadium, and will also attend the State-Davidson game at Greensboro on Saturday evening, September 28, at 8 o'clock. Other trips are anticipated by Major Kutschinski.

Major Kutschinski has announced that the first regular meetings of the Glee Club will be held Tuesday and Wednesday evenings, October 1 and 2, at 6:30 p.m. in Pullen Hall. All freshmen and transfer students who are interested in the Glee Club are asked to meet with the Musical Director in Pullen Hall Monday evening, September 30 at 8:30.

All students interested in joining the Orchestra also are requested to meet in Pullen Hall at 4:30 Tuesday afternoon, October 1. Those reporting should bring their instruments, Major Kutschinski said.

THE TECHNICIAN

MAGRUDER GIVEN FULL COLONELCY

Venable and Althaus Also Promoted to Rank of Major By War Department

Bruce Magruder, commandant of the State College R. O. T. C. unit, was recently promoted to the rank of full colonel in the army by the United States War Department, and at the same time B. W. Venable, assistant professor of military science and tactics, and K. G. Althaus, recently assigned to this unit, were promoted to the rank of major.

Colonel Magruder served overseas during the World War with the 35th Division in the Argonne. He was decorated three times with the Distinguished Service Medal from the United States, the Legion of Honor from France and the Order of the Crown from Belgium. He is a graduate of the advanced course, Infantry School, Fort Benning, Ga.; a graduate of the Command and General Staff School, Leavenworth, Kan.; and is on the General Staff Eligibility List. During the past three summers he has served as commander of the R. O. T. C. camp at Fort McClellan, Anniston, Alabama.

Major Althaus was transferred to State after completing a three year tour of Foreign Service in Hawaii, where for the past two years he has served as Assistant G-2 for Military Intelligence at Hawaiian Department Headquarters. He entered active service in 1917 as captain of Infantry and served in France with the 37th Division as assistant division G-3 operations officer, participating in both the St. Mihiel and Meuse Argonne offensives. After the Armistice was signed he was placed on duty with the War Damage Board, Paris, France. From 1923-27 he was assistant professor of military science and tactics at Alabama Polytechnic Institute, Auburn, Ala. He has received the

decorations of the Croix de Guerre with palm leaf and the Belgium War Cross. Major Althaus is a graduate of the Infantry School at Fort Benning, Georgia, the Tank School, Fort Meade, Maryland, the Command and General Staff School, Fort Leavenworth, Kansas, and is on the General Staff Corps Eligible List.

Major Venable likewise saw service overseas during the war and shortly afterwards, made a trip around the world in the interest of the Siamese Government. He received his A.B. from Hampden-Sydney College, and is a graduate of the Infantry School, Fort Benning, Georgia, a graduate of the Army Command and General Staff School, Fort Leavenworth, Kansas, and is on the General Staff Eligibility List.

Captain John R. Eden, an instructor at State until his transfer this summer to foreign service in Hawaii also was promoted to the rank of major.

NEEDY STUDENTS TO RECEIVE HELP

A Total of \$3,240 a Month to be Paid to 216 Students of State College

The State College Self-Help Bureau has been allotted a total of \$3,240 per month to be paid to a quota of 216 self-help students working in every department of the college, and needing the money for the completion of their college education.

Students may earn not more than twenty dollars a month at State College. The wage rates are twenty-five cents per hour for general labor, thirty-five cents per hour for clerical work, and forty cents per hour for work requiring special skill, except tutoring which brings fifty cents per hour. Only students especially qualified as upperclassmen in English, physics, chemistry, or mathematics can secure assignments as tutors.

Approximately eighty-four members of the faculty requested of the Self-Help Bureau the services of three hundred and four students for this term. The quota of jobs possible through the allotment of the money is 216 students. This number is twenty per cent of the enrollment of October 15, 1934.

Over 1,000 students applied for help at the offices of the Bureau, and every effort possible is being put forth to secure work for the students who have as yet not been assigned work. It is hoped that the quota can be considerably raised during this term. Any student needing work is requested to stop at the office of the Bureau and fill out the necessary application blanks. These blanks, when filled out, contain such information as to where the student can be found at any hour during the day, what types of work he can do, what types of work in which he has had special experience, what types he is less experienced, and any other information which might be needed. Any professor having difficulty in finding students for work he desires done has

Dr. Miller, who was recently connected with the University of Idaho, has been added to the faculty of the forestry school here. He received his doctor's degree from Yale University in 1932. His B.A. was taken in political science at Reed University. Advanced scientific work preparatory to forestry was done at the University of Montana and his M.F. was gained at Yale in 1930. Dr. Miller has done research work in silviculture at western colleges and experiment stations. He will teach silviculture.

access at any time to these applications which are filed in the office of the Bureau at the Y. M. C. A.

According to M. L. Sheppard, director of the Self-Help Bureau, the students have shown much interest in the work assigned to them and it is expected that the progress will be of considerable educational worth to the students besides being a needed financial aid.

Golden Chain Members

Above are pictured the members of Golden Chain, senior leadership organization for the coming year. Every spring this society holds its annual tapping and takes into membership twelve of the most outstanding members of the junior class. Since its founding, Golden Chain has become an integral part of campus life. Membership is coveted by every State College student.

COLLEGE LIBRARY ADDS NEW ROOM

Browsing Room is Created Where Students May Spend Their Leisure Hours Reading

State College will soon become the first men's college in the state to have a browsing room, where students may spend leisure hours in a home-like atmosphere of deep easy chairs, comfortable davenports, and soft reading lamps, to read fiction, light periodicals, and enjoyable non-fiction.

The browsing room will be located in the D. H. Hill Library in the old periodical room, to the left of the rotunda as you enter the building. Already painters are at work on the project and according to Mr. W. P. Kellam, librarian, the room will be opened this fall.

Professor Paulsen of the Architectural Engineering Department worked out the color scheme of the room. The walls are to be in pale green with ivory paneling and light gray woodwork. Curtain material has been donated by Dean Nelson of the textile school and will be made up by Miss Betty Valentine, senior in education. Oval glass panels will be set in the doors, affording a view into the interior from the rotunda. Two large rugs will be on the floors to the right and left of the entrance. Arranged about the room will be four large overstuffed davenports and six easy chairs with bridge lamps correctly placed to afford the best light for persons reading. Two medium-sized library tables each having on them a table lamp conveniently placed. Here will be found the periodicals. Opposite the entrance and on the far side of the room will be the librarian's desk where books may be checked out. Shelves for books will line the walls.

The furniture and rugs have arrived for the room and suitable books are being purchased out of a five hundred dollar fund given by the 1934-35 Student Publications Board for this purpose. In addition, such books as are in keeping with the standards of this project will be moved in the library to this room.

The browsing room will be kept open for student use from 9 a.m. to 10 p.m., an hour shorter than the remainder of the library. Students may check books out if they so choose for two weeks, returning them, however, to the main desk in the building.

The only browsing rooms at colleges in this state are found at the Duke Woman's College, and at the Womans College of the University of North Carolina at Greensboro. However several outstanding institutions in the country have them, among these being Columbia and Northwestern universities.

Wednesday evenings from 6:30 to 7:30, will study "The Manhood of the Master," by H. Emmerson Fox. The sophomore council, which will meet

each Monday evening from 6:30 to 7:30, will discuss "Current Economic and Social Problems in the Light of Christian Efforts." The junior-senior program is being

worked out by a committee composed of A. N. Grey, John Ogletree, and Stephen Ward, and will be announced shortly. This council will meet each Tuesday evening from 7:45 to 8:45.

STATE REGIMENT IS REORGANIZED

Three New Companies Are Added As Many Changes Are Made in R. O. T. C. Unit Here

As a result of the heavy increase in enrollment at State College this year, the R. O. T. C. unit has been completely reorganized and a full regiment of three battalions of four companies each has been formed.

The three new companies added are companies L, K, and M, and these, and company I now constitute the 3rd Battalion. Companies G and H have been moved to the 2nd Battalion and Company D to the 1st Battalion. To provide an adequate staff for the new companies an additional number of students have been selected to take the advanced military course. These new students were taken from last year's sophomore basic course class, and selections were made from the entire regiment with the result that the officers in the separate companies are approximately equally distributed as to ability throughout the unit. According to Colonel Magruder, this increase in enrollment provides additional opportunity for the training of cadet officers in command and leadership.

There is an increase of approximately 200 men in the R. O. T. C. unit over last year, including the 14 additional students taking the advanced course. This brings the advanced section up to 175, the full allotment allowed this institution by the War Department. Of this number 80 are seniors and 95 are juniors. Three hundred and eighty sophomores are taking the basic course and 630 freshmen, increases of 92 and 81 students, respectively, over last year. In addition, the State College Band and the Drum and Bugle Corps have comparatively increased.

Stringent observance of the new physical requirements as prescribed by the War Department have eliminated many freshmen who would ordinarily have been enrolled in the basic course this year, and several of the juniors selected for the advanced work, stated Major Althaus. The principal defect has been in vision.

There has been no increase in the military department faculty for the coming school year. The only change has been the assignment of Major Althaus to replace Major Eden, who is now serving a foreign tour of duty in Hawaii.

Drills are being held at 12 p.m. on Monday, Wednesday, and Friday this year instead of on Monday, Tuesday and Thursday, as in the past. Drills are being held on the same fields as last year and are being directed by the same army officers.

Announcements

There will be an important meeting of Delta Sigma Pi in Peele Hall, Tuesday night at 7 p.m. All members are urged to be present.

Pine Burr honor society will hold its first meeting in the Y.M.C.A. on next Thursday at 4:30 p.m.

There will be a meeting of Sigma Pi Alpha tonight at 7 p.m. All members are asked to attend.

D. F. Schoof, Secretary.

All licensed radio operators are invited to meet with Professor Caveness, W4DW, at his home, 2607 Vanderbilt Avenue, on Friday evening, September 27, at 7:30 for the purpose of reorganizing the State College Radio Operator's Club.

All active members of the American Ceramic Society are asked to be present at a special meeting on next Tuesday evening at 7:00 o'clock.

THREE STATE GRADUATES ENTER MILITARY SERVICE

L. F. McCulley, W. E. Barnes, and W. L. Smith Prepare for Active Military Duty

L. F. McCulley, W. E. Barnes, and W. L. Smith, graduates of State College last June and cadet majors, respectively, of the 1st, 2nd, and 3rd Battalions last year are preparing for active duty with the United States military forces. Barnes and McCulley have received commissions in the United States Marine Corps and Smith is now attending the United States Military Academy at West Point.

Barnes was selected by the Military Department from the applicants in the advanced R. O. T. C. course, to fill the 2nd Lieutenantcy allotted to this college annually by that unit of the Service. He received his commission in July and reported to the Marine Corps Basic School at the Philadelphia Navy Yard. He will graduate on March 1, 1936 at which time he will be assigned to active service as a second lieutenant in the Marine Corps.

McCulley was appointed as alternate to Barnes and has since been accepted for entrance at the Basic School. He will enter in March.

Smith entered West Point as a plebe immediately after graduation at State.

All were active participants in extra-curricular activities while at State College. Barnes was president of the Engineers Council last year, Smith was a varsity basketball player and last year's captain of Scabbard and Blade, and McCulley was a varsity football player.

EXTENSION DEPT. AGAIN ENLARGED

Ruggles Announces the Addition of Eight New Correspondence Courses

Eight new correspondence courses have been added to the curriculum of the North Carolina State College extension division, announces E. W. Ruggles, head of the college extension service.

More than 75 correspondence courses covering a wide variety of college subjects are now available through the State College extension division.

The eight new courses recently added are farm management, animal nutrition, vegetable production, grades and standards, history or architecture, physical geology, and heredity and eugenics.

State College's correspondence courses are offered under fourteen general heads, namely: agriculture, agriculture economics, art, chemistry, mathematics, modern languages, sociology, and zoology.

In addition to conducting many courses by correspondence the college extension division conducts many extension classes in communities throughout eastern North Carolina. These classes are organized when 15 or more individuals in the same community desire to enroll for the same subject, says Director Ruggles.

Organized eleven years ago, the State College extension division has served many students in the extension classes in eastern North Carolina and students from practically every state in the Union and many foreign countries have enrolled for the correspondence courses.

"Y" COUNCILS OUTLINE WORK OF COMING YEAR

FOR STATE COLLEGE WIN OR LOSE

SOCIETY

Debutante Ball

The Thirteen Club Dance given in the Raleigh Memorial Auditorium on last Saturday night brought to a close the social festivities attendant to the 1935 debutante week-end, and the presentation to North Carolina society season's debutantes.

During this week-end, many varied social activities were given in honor of the debutantes and their escorts. Thursday night, the Black Cat Club of Raleigh gave a dance in the Virginia Dare Ballroom of the Sir Walter Hotel in honor of the debutantes. Music for the dance was furnished by Jimmy Poyner and his State Collegians. This dance marked the tenth anniversary of the founding of the Black Cat Club, a social organization which numbers among its members many leaders in Raleigh's younger society.

Friday night, the Debutante Ball sponsored annually by the Terpsichorean Club of Raleigh took place at the Raleigh Memorial Auditorium. The debutantes were presented at 8:15. As each debutante was presented, she stepped through a gilt frame, forming a living picture. There she was met by her marshal, and together they walked down the steps to the dance floor.

The debutante figure was led by Miss Shirley Haywood of Raleigh with Vass Shepherd, also of Raleigh. They were assisted by Miss Hortense Jones of Greensboro with Ed Jeffries of Greensboro, and Miss Rosalie Richardson of New Bern with Watt LaRogue of Kinston, representing the western and the eastern sections of the state respectively.

Assisting the leaders were the following Raleigh debutantes and their escorts: Misses Macon Crowder, Nell Smith, Mary Leona Ruffin, Laura Ball Hudler, Dorothy Thurman, and Primrose McPherson.

In addition to the debutante figure, there was a Terpsichorean Club figure led by Charles Lee Smith, Jr., president of the Terpsichorean Club with Miss Ruth Whipple. They were assisted by Tom Alexander and Miss Hazel Perkins, and Mr. and Mrs. John H. Anderson, Jr.

Music for the Debutante Ball was furnished by Joe Venuti and his Venutians, and by the Del Regis Orchestra.

The debutantes and their marshals were also entertained by the Terpsichorean Club with a dance Saturday morning, and a tea dance Saturday afternoon.

At the Thirteen Club dance on Saturday night, Miss Mary Letty Mebane was presented with a silver loving cup as the most beautiful debutante of the season.

Music for the Thirteen Club dance was furnished by Joe Venuti and his Venutians.

STUDENT GROUP LEAVES FOR PLANT STUDY TRIP

Twenty-three Students Make Annual Ecological Trip Under Direction of Dr. Wells

Twenty-three students in Plant Ecology, under the direction of Dr. B. W. Wells, head of the botany department, left at 8 a. m. this morning on the annual ecology trip to the Carolina Beach area of this state.

The students will travel by bus, stopping off at various points to make detailed studies of plant communities. Friday and Saturday nights will be spent at Carolina Beach and the return trip will be made by way of White Lake. Included in the itinerary is an inspection tour of a turpentine plant near Wilmington.

The remainder of the class, which could not be accommodated this trip, will make the same excursion the week-end of October 11-13.

According to Dr. Wells this ecological excursion is far superior to any that can be made in the vicinity of any Northern college, as the Wilmington region has long been noted for its botanical riches, and in this area 11 of the 12 major plant communities found in this state can be encountered. The other is the mountain community.

Students will return early Sunday evening.

BROTHER OF PROFESSOR DIES AS RESULT OF BITE

Professor Alvin M. Fountain's Brother Bleeds to Death After Being Bitten By Shark

Mr. Pere W. Fountain, who was a victim of shark bite while in bathing at Brown's Inlet on the New River Sunday evening, is a brother of Professor A. M. Fountain, instructor of English at State College.

According to J. Collins and P. Venters two companions who were with Fountain at the time of his death, the three were concluding a week-end camping trip at Brown's Inlet with a swim. Fountain who was in water waist deep yelled, "Come and help me! Something has bitten me." Venters went to his assistance and carried him up on the shore. Blood was spurting from the wound where the shark had bitten him above the knee, nearly severing the leg. Too isolated to get medical attention, they tried to stop the flow but were unable and he died within ten minutes.

Mr. Fountain is a prominent farmer and mail carrier in Onslow County and is survived by a wife and three children.

Rush Week

During the past week members of the freshmen class have been extensively entertained by the fourteen Greek letter fraternities at State College. Rushing of freshmen began officially Saturday noon September 21 and closed Wednesday at midnight. Among the entertainments given for the freshmen by the various fraternities were dances, smokers, picnics, and dinner parties.

A partial list of entertainments is as follows: Alpha Kappa Pi, a dinner and smoker Sunday night and a dance Monday night; Alpha Gamma Rho, a house dance Monday night.

Alpha Lambda Tau, smokers on Sunday and Tuesday nights; Theta Kappa Nu, a dance at the fraternity house Tuesday night; Kappa Sigma, a buffet supper and a dance Tuesday night; Kappa Alpha, a dinner dance at Carolina Pines Saturday night.

Pi Kappa Alpha, a buffet supper Sunday night; Pi Kappa Phi, a dance Wednesday night; Sigma Phi Epsilon, a smoker Saturday night, and a dance Monday night. Sigma Pi, a smoker Monday night, a dance Tuesday, and a buffet supper at the fraternity cabin Wednesday night.

Sigma Nu, a tea dance Saturday afternoon, a smoker Sunday night, and a dance at Carolina Pines Tuesday night; and Phi Kappa Tau, a tea Sunday afternoon, a smoker Monday night, and a dance Wednesday night.

DEAN BROWN TO SPEAK BEFORE SOPH "Y" GROUP

Dean B. F. Brown, dean of the school of science and business of State College will be the guest speaker of the Sophomore "Y" Council at a meeting to be held Monday evening at 6:30 p. m.

Dean Brown has chosen as his subject "What the TVA Means to the People in the Tennessee Valley." All State College students and members of the faculty are cordially invited to the meeting Monday night to hear Dean Brown speak.

FORESTRY SCHOOL ACQUIRES TRACT

With the Addition of New Timberlands, State College Has 86,000 Acres for Foresters

With the acquisition of 34,000 acres of timberland in the Coastal Plain Area of this State by the Forestry Department of State College, the forestry school has now one of the largest school forests in the United States. The new site is located in Jones and Onslow counties in the White Oak Pocosin District, and will be used by the students in connection with their class-work.

Totaled with the George Watts Hill Demonstration Forest near Durham, N. C. the forestry department has a school forest of over 86,000 acres for forest demonstrational work: an equivalent of a small national forest.

As in the Hill Forest the students in forestry will use this area as a supplementary classroom, making periodic trips to do practical forestry work, research, or study modern forestry methods. A six weeks summer course at the end of the junior year will be given here in soils, mensuration, and silviculture.

The property will also be used as a demonstration project to show the public how forest lands should be managed and what improvements can be made through proper management. Timber will be cut from the area under an approved management plan and by approved forestry methods to demonstrate the best principles of timber harvesting. The cut timber will be sold and the payments on the property will be made from the revenue brought in from the timber sales. The title to the land is held by a non-profit corporation for the sole use of the forestry department of State College.

The state is cooperating with the college in providing adequate fire protection on the tract. A number of fire wardens have been appointed and will also serve as game wardens to prevent unlawful hunting or abuse of the game on the land. One CCC camp has been located

there during the summer and a new one was added recently. At present fire towers, fire lines, and roads are being constructed to facilitate the removal of timber and reduce the fire hazard, and to make other general improvements on the area. A large log cabin, similar to the one on the Hill Forest, will be constructed to house the students while they are working there.

Mr. G. E. Jackson, a graduate in forestry last June has been appointed supervisor of both the forests by Dr. Hofmann, and will be in charge of all the work done on these areas.

The junior class in forestry will be the first class to attend a summer camp on this site.

UNSEASONED TEAM TO START NIGHT GAME IN GREENSBORO

(Continued from page five)

prising ability to crack lines wide open. In the open field he looks like a halfback and he is also one of the best blockers on the squad. Ren Hoek has a slight edge on the other applicants for the job as Rynek's understudy, but Jake Mahoney and Pete Kuzma are both well up there. Hoek was another of the State men placed on the list of sophomore stars of '35 by *Football Annual*.

Davidson has already opened its season, having done so last Saturday in a game with Elon which the Wildcats, took, 7-0. According to Anderson, who scouted the game personally, the 'Cats will have a better team this year than they did last. If the Wolves come through and block, they should have no trouble with Davidson, but if they don't, it will be a toss-up.

Remainder of Schedule

The remainder of the State schedule after the Davidson game is as follows: October 5, South Carolina at Columbia; October 10, Wake Forest at Raleigh (Friday of State Fair); October 19, University of Georgia at Raleigh; October 26, Manhattan at Brooklyn, N. Y.; November 2, University of North Carolina at Raleigh; November 9, V. P. I. at Portsmouth, Va.; November 16, Richmond at Richmond, Va.; November 23, Duke at Raleigh; November 28, Catholic University at Washington, D. C.

DON'T START TO CLASSES Without School's Finest Tool!

The Parker Vacumatic—Invented by a University Professor to replace pens that suddenly run dry in Classes and Exams

Holds 12,000 words of ink—102% more than old style... When held to the light you can see the Ink Level—see when to refill!

THE marvelous new Parker Vacumatic is no more like the pens of yesterday than your 1935 car is like a '25 model.

It's the identical pen you've often said that someone ought to invent. Scores of inventors tried to—fully 250 sadsess pens were patented before this miracle writer was born. But none found a way to surmount the mechanical faults of squirt-gun piston pumps, valves, etc.

Then a scientist at the University of Wisconsin conceived the Vacumatic. And Geo. S. Parker, world's leading pen maker, agreed to develop it because it contained no rubber sac or lever filler like sac-type pens—no piston pump as in ordinary sadsess pens.

That's why Parker can—and DOES—guarantee the Vacumatic MECHANICALLY PERFECT!

Because there is nothing else like it, the United States and foreign countries have granted Parker patents.

This original style creation introduces luminous laminated Pearl and Jet—yet when held to the light the "Jet" rings become transparent, revealing the level of ink!

Step into any good store selling pens, and see it. The Parker Pen Company, Janesville, Wis.

FREE! Send a Post Card for New Ink That Cleanses Any Pen As It Writes

Parker Quink—a remarkable new ink—contains a harmless ingredient that dissolves sediment left in pens by ordinary inks. Ends clogging. Get it from any store, or send your address for small bottle to try. FREE. Address, Dept. 711.

The leaves of Turkish tobacco are strung one by one like beads (see how it is done in the picture). After the leaves are strung they are packed in bales (see picture)—sometimes as many as 80,000 leaves to the bale!

We have on hand at all times for CHESTERFIELD cigarettes upwards of 350,000 bales of Turkish tobacco...

The pleasing aroma and flavor of Turkish tobacco is almost necessary if you want a good cigarette.

Turkish tobacco is more costly when you take into account that you have to pay 35c a pound duty, but we have to have it to blend with our mild ripe home-grown tobaccos.

It helps make Chesterfields milder, it helps give them better taste. Just try them.

Outstanding .. for mildness .. for better taste
