STATE COLLEGE STATION, RALEIGH, N. C., OCTOBER 4, 1935

OFFICE: 104-105 PRICE HALL

MEMORIAL TOWER TO BE COMPLETED WITH FEDERAL AID

Grant of \$37,000 is Made By Works Progress Administration to Complete War Memorial

EXPECT WORK TO BEGIN SOON ON CUTTING STONE

\$40,000 Has Already Been Donated Towards Construction of Tower By Alumni and Others; Hope for Completion of Memorial Was Waning Before Federal Grant Was Received; Committee Hopes That Construction Work on Tower Will Revive Interest

Work is to begin shortly towards the completion of the World War Memorial Tower. This announcement came from Professor C. L. Mann, chairman of the War Memorial Committee, last night.

The construction on the tower is to be financed by WPA funds. The amount granted by the government to this project is \$37,000. This amount covers the cost of the stone and the completion of the shaft.

Work on the memorial tower was begun in 1920, and up to the present time about \$40,000 has been contributed from pledges from graduating classes and from alumni gifts. Work on the tower has been at a standstill for a number of years, however, and as contributions were not forthcoming hopes for the completion of the memorial had begun to wane.

Tower Designer

The tower was designed by William Harry Deacy of New York City. Mr. Deacy is a specialist in war memorial towers. He claims the design for the State College memorial is one of the most handsome he has planned. The stone used in the tower is Mount Airy granite fine cut. When completed, the memorial will tower 112 feet from the base, or 116 feet above the surface of the ground. It is 18 feet square at the base and will taper to 14 feet square at the top. The top is to be supported on four massive eagles cut of granite. The tower is of Romanesque architecture and it exemplifies in all details the merit of war.

Cost of Tower

The architect's original estimate of the cost of the tower was placed at \$100,000. A little more than a year ago the proposition was first brought up to complete the tower with the assistance of Federal funds, as it looked as if the completion of the tower would otherwise be put off indefinitely. The matter was taken up with the relief administrations of both Wake and Surry counties, a special trip being made to Mount Airy to consult with the Surry County administration.

High hope was held for the appropriation of funds, as the project was thought to be an ideal one for relief work, and the Federal money would be used to help the unemployed by hiring them, to do the work for which they were trained. Work in the quarries from which the first stone was cut had practically stopped, and the stonecutters were doing work foreign to their training.

The application for funds was delayed due to the reorganization of the relief administration, but the memorial committee continued to push the project, and when the Works Progress Administration was organized, the memorial project was one of the first to be brought to its attention. Now that the project has been approved and funds allotted to it, work should begin at the quarries within a few days.

Interior of Tower

When completed, the interior will be faced with marble. Trophy cases will be placed around the walls, and these will provide space for the trophies of the alumni who died in the World War. A large memorial tablet carrying the names of alumni who were killed in the war will be placed on the west side.

When the tower is completed, it will be equipped with a complete set of chimneys to be operated by a carillon of the students' choirs. Plans also call for a clock to be placed in the tower with electrically lighted faces on the four sides.

Although the government appropriation includes only enough money to provide for the actual construction of the tower, the memorial committee hopes that when work begins on the shaft it will revive alumni interest in the memorial and that more contributions will be forthcoming.

Commentator

Gene Knight, State College graduate and last year's editor of THE TECHNICIAN, whose daily 15-minute radio broadcasts are heard over WPTP as a program of the State College Agriculture Extension Service. Former Editor Knight's dispatches are also read over several nearby broadcasting stations.

JOHNSON PRAISES R.O.T.C. GRADS

Instructor Raleigh Area Praises Work of State Graduates in Summer Camp

Twelve graduates of the June class at State College who were officers in the R. O. T. C. unit here and who participated in active training with the 321st Infantry at Fort Moultrie last August, were commended for their excellent work in a letter recently sent Col. J. W. Harrelson by Lieut.-Colonel Alexander L. P. Johnson, inspector and instructor of the O. R. C. of the Raleigh area.

Writes Harrelson

Lieut.-Colonel Johnson stated that, "It affords me particular pleasure to inform you that the twelve graduates of North Carolina State College of A. and E., class of 1935, who participated in active training at Fort Moultrie, S. C., August 18-31, 1935, have created a most favorable impression by the excellence of their personal appearance and the uniformity of their equipment."

"These young officers gave evidence of the thoroughness of their military training and showed marked ability as instructors reflecting credit and honor upon the R. O. T. C. unit attached to your institution."

The officers commended were James A. Bailey, Jr., Chas. H. Bronson, Clifford A. Croon, Oliver M. Horton, Charles L. Jennette, Jr., James W. Lamberson, Samuel H. McKinnon, Robert G. Peterson, John L. Ponzer, John M. Smith, R. W. Stephens, Jr., and W. J. Wintree.

A.S.M.E. MAKES PLANS FOR STATE FAIR EXHIBIT

The State College chapter of the A. S. M. E. held its first meeting of the year Tuesday night. Committees were appointed for the accomplishment of the various objectives, and plans were made for an exhibit at the State Fair.

Mr. Rothgibb, director of the engineering projects of North Carolina state institutions, made a talk on "The Economic Operation of Power Plants." A smoker for prospective members will be given in the Y. M. C. A. Tuesday night.

Accepts Position

T. S. Johnson, professor of industry at State College, was named yesterday as chief engineer of the water resources division of the Department of Conservation and Development.

Professor Johnson will take his new job on a part-time basis, and he will continue his teaching work at the college, it was announced. The State College teacher will take over the position formerly held by Thorndyke Saville in the conservation department.

GOVERNOR POINTS TO ACHIEVEMENTS OF STATE COLLEGE

College Celebrates 46th Anniversary of Its Founding in Exercises Held Wednesday

PRAISES LOFTY IDEALS OF COLLEGE'S PIONEERS

Governor Urges Students to Set Hearts and Aspirations Toward Worthwhile Objectives; Principal Speaker is Introduced by Dr. Frank Graham, President of the Greater University; Colonel Harrelson Gives Brief Story of the Founding of State College

By HALL MORRISON

His Excellency, J. C. B. Ehringhaus, Governor of North Carolina, was the principle speaker of the Founder's Day exercises held in Pullen Hall Wednesday on the 46th anniversary of the founding of State College.

The speaker stressed the achievements of State College graduates in the fields of agriculture, engineering, and textiles, and he spoke with confidence of a glorious future for the institution now that the major problems of consolidation have been thrashed out.

"Happy birthday to you," Governor Ehringhaus greeted his audience. "I bring to you anniversary greetings as the representative of the people of North Carolina. This occasion should bring to the hearts of all of us pride, resolution, and hope."

Lauds Founders
"The founders of this institution had the tenacious audacity to seize upon the opportunity for higher education to be found here. From a humble beginning this college has maintained a steady progress."

"Not failure but low aim is crime," quoted Governor Ehringhaus. "The worst crime is the failure to set our hearts and aspirations towards a worthwhile objective. The founders of this institution, and those who followed after them, centered their hopes and activities towards improvement of agricultural and engineering activities in this state. Those two enterprises have perhaps more future than any other."

Remembers Promise

The Governor pointed to the promise made in a commencement address to the class of 1933—that State College should not be made the goat of plans for consolidation of the three units of the present Greater University of North Carolina. The alumni of Chapel Hill fought with those of State College to center engineering education at this college, the college intended for engineering education.

"Today we face enlarged opportunities," the governor stressed. "We face it with the knowledge that all other units are working with us. United we stand; therefore this is a happy day. This institution is justly proud of its history. North Carolina is grateful for and proud of its past. We express our gratitude for its founding and for the maintaining of its original high purpose."

Speaks of Presidents

"We pay our tribute to those who have gone to real citizenship service from these halls. We are grateful for Holladay, Winston, Hill, Brooks, and Harrelson. For Colonel Harrelson (Please turn to page four)"

Governor Ehringhaus

Governor J. C. B. Ehringhaus, who was the principal speaker at the State College Founder's Day exercises held yesterday, praised the courage and ideals of the founders of the institution. The celebration marked the 46th anniversary of the founding of State College.

FORESTRY ROLLO TO BE HELD SOON

Forest Students Will Hold Their Annual Affair Tomorrow in Hill Forest

The fourth annual Forestry Rollole will be held at the George Watts Hill Demonstration Forest near Durham tomorrow. As in past years, the event will be an all-day affair and will be followed by the initiation of new men into the Forestry Club.

The rollole is sponsored by the Forestry Club and consists of a number of events, such as log-sawing and chopping, tree climbing, tree height and diameter estimation, tree identification, rock throwing, smoke-chasing, and others, which are open to teams composed of representatives from the freshman, sophomore, junior and senior classes. A cake is given to the team winning the greatest number of points in the competition and its class numeral is placed on the Rollole Plaque. For the past two years the class of 1937 has won the contest.

Arrangements have been made to transport the students in the forestry department buses. These will leave at 9:15 a. m., 11:15 a. m., and 12:15 p. m. Students will return late Saturday evening. They will carry lunch and supper with them.

Frank L. Woodard, junior in forestry, is chairman of the rollole committee.

GARDEN CLUB INVITES WELLS TO LEAD JAUNT

Dr. B. W. Wells, head of the Botany department, has been invited by the Clinton Garden Club of Clinton, N. C., to lead a woods expedition in the White Woods near Clinton this afternoon.

The expedition will be of a popular nature for the purpose of familiarizing the members with the common flora of the area. It will be conducted in the White Woods, a locality that is rich in flora and which includes most of the major plant communities in the Coastal Plain region. Following the excursion Dr. Wells will lecture on "The Soil Control of Plant Distribution."

Hall of History Grants Custody of Famous Ship's Bell to College

Custody of the ship's bell once used on the armored cruiser U. S. S. North Carolina, decommissioned in 1930, has by resolution of the Council of State and with the permission of the Hall of History, been granted to State College, and will be mounted and used on special occasions, according to Col. J. W. Harrelson, dean of administration.

The bell, 25 1/2 high, 33 1/2 inches in diameter at the base, and weighing approximately 815 pounds, has been on display at the Hall of History since January of 1933. It was discovered in storage at Puget Sound Navy Yard, Bremerton, Washington, along with a small bronze plaque, commemorating World War service, and four gangway headboards of hardwood and hand carved. Two of these were carved with the seal of the State of North Carolina, and two carved with the great seal of the United States, by Lieutenant Joseph C. Huske, of the

United States Navy, in the spring of 1932. These objects were removed from the U. S. S. Charlotte, which was formerly the armored cruiser U. S. S. North Carolina. The building of this cruiser was authorized in 1914, and she was a unit of the fleet until stricken from the navy list on July 15, 1930. Her name was changed to the U. S. S. Charlotte June 7, 1920, and she served through the World War as such.

At the request of Joseph Huske and Hon. O. Max Gardner, who was then Governor of North Carolina, the United States Navy Department donated the four articles to the state, naming the Hall of History as custodian upon the request of that institution. Early this fall, Colonel Bruce Magruder, commander of the R. O. T. C. at State, inquired of the Hall of History of the possibility of the custody of the bell and plaque being transferred to the college. He expressed the opinion that it would be appropriate to

BOARD RELEASES FISCAL REPORTS OF PUBLICATIONS

Publications Board Adopts New Policy in Making Public Financial Statements

SEEK TO CLEAR CHARGES OF EXCESSIVE RETURNS

First Publications Association Organized on Campus More Than Ten Years Ago; Later Reorganized to Include Minor Publications and Enlarged Membership; Board Includes Faculty Members and Student Government Representatives

Determining to thoroughly air the financial operations of the three major student publications, the Students Publications Board released yesterday a complete report covering the income and disbursements, respectively, of THE TECHNICIAN, AGROMECK, and WASTAGAN, over the past year.

In giving publicity to the publications accounts, the board hopes to clear up recurring rumors of "excessive" profits made by the student heads. Each account will be given further publicity by postings to be made on the Blue Key bulletin board, and the books of each publication will be open to student inspection, according to C. R. Lefort, secretary of the board.

The first publications organization, known as the Students Publications Association, was formed in 1925 by L. L. Hedgepeth, then editor of the Agromeck. A. S. Brower presented the faculty on the first association. He was succeeded by H. Jeter, director of the News Bureau, who has served as faculty chairman since that time.

The organization was reorganized three years ago as the Students Publications Board with a constitution and by-laws. The reorganization necessitated a larger student and faculty membership and two minor publications were added. Member publications and their representatives on the new board are as follows: Bob Knox and Claude Lloyd, editor and business manager of THE TECHNICIAN; Harry Keon and Tommy Jenkins, editor and business manager of the Agromeck; Ed Landreth and Joe Canady, editor and business manager of the Wastagan; F. T. Scott and Bill Goad, editor and business manager of the Southern Engineer; and George McCall and J. C. Keith, editor and business manager of the Agriculturist.

Faculty members of the board are: R. H. Jeter, C. R. Lefort, Fred Dixon, Roger Marshall, and W. L. Mayer. Other student members are W. B. Aycock, president of the Student Council; Carroll Conrad, president of the Junior Class; and one yet to be selected.

The Publications Board has accepted the following resolution:

(Please turn to page four)

AG CLUB VOTES TO HOLD BARNWARMING IN WINTER

The annual Ag smoker was held in conjunction with the regular weekly meeting of the Ag Club Tuesday evening at 7:30 in the West College dining hall. Dr. Z. P. Metcalf, director of the Zoology Department, was guest speaker of the evening.

At the meeting it was voted to hold the annual barnwarming in the winter term instead of in the fall term as in previous years.

George McCall, junior in agriculture, is president of the Ag Club.

FRATERNITY BIDS ACCEPTED BY 139 AS RUSHING ENDS

Extension Forester

Rufus H. Page, Jr., State College graduate and last year's editor of the Agriculturist, who has been recently appointed as assistant extension forester at the college. With his selection the forestry program is being expanded to meet the growing demand for forestry information.

BARTLETT SPEAKS TO FORUM GROUP

State Graduate Addresses Newly Formed Organization on "The Tenant System"

Grady Bartlett, graduate of the Physics Department of State College, was the principal speaker at the initial meeting of the Open Forum Group in the Y. M. C. A. last Wednesday night. Mr. Bartlett took as his subject "The Tenant System."

Mr. Bartlett told of many interesting observations he made while on a social survey for the government in North Carolina and Arkansas this past summer. The Open Forum Group which sponsored his appearance is a loosely organized club organized by Charles Stinette, a Junior in the School of Science and Business. The group was organized for the purpose of fostering discussion and understanding of current events, both national and international in scope.

Brown to Speak

At the next meeting of the group to be held Wednesday night in the Y. M. C. A., the guest speaker will be Dean E. F. Brown of the School of Science and Business. Dean Brown will speak on "The Supreme Court Decision Against the NRA and Its Affect on Future Congressional Legislation."

The forum group plans to hold meetings every Wednesday at 7 o'clock. Well-known professors from Chapel Hill and State College have volunteered to speak before this group on some contemporary topic of interest, after which the members remain for informal discussion.

The Open Forum Group intends to remain loosely organized without dues or formal membership, in order to encourage as large an attendance as possible at its meetings.

PINE BURR TO PRESENT CUP TO JUNIOR SCHOLAR

At a meeting of Pine Burr Honor Society held yesterday afternoon, the group voted to give a cup on Scholarship Day to the junior who has attained the highest average in his first three years at college. This will be one of the society's projects for the year.

An activity committee was also appointed at the meeting yesterday to work out more projects for the honor group. M. F. Browne is president of Pine Burr this year.

Agromeck Pictures

Harrie S. Keck, editor of the Agromeck announced yesterday that there will be no pictures made for the college yearbook after tomorrow night. All students who have not had their pictures made, should do so before that time. It is necessary that all seniors have their pictures made by 6 p. m. Saturday afternoon. This schedule will be rigidly adhered to, and there will be no variation from it, announced Editor Keck.

Sixteen Social Fraternities on Campus Conclude Annual Pledging Season

MAJORITY OF NEW MEN COME FROM THIS STATE

Sigma Nu Fraternity Pledges 21 to Lead Field in Number of Men; Followed Closely by Sigma Phi Epsilon With 16, and Alpha Gamma Rho With 15; Greeks End Season With Large Increase in Pledges Over Last Year

Rushing season at State College was brought to an official close last Monday night when 139 men filed into Pullen Hall to accept bids to one of the sixteen social fraternities on the campus.

Charles Turlington, president of the Interfraternity Council, announced an increase of 40 men pledged this year over last year's pledging. A majority of the newly pledged men are from North Carolina, but 12 states and one foreign country are represented.

Sigma Nu led the fraternity group in pledging 21 new men, and was closely followed by Sigma Phi Epsilon with 16, and Alpha Gamma Rho with 15.

Pledges of the respective fraternities as announced by Dean of Students E. L. Cloyd, permanent chairman of the Interfraternity Council, are as follows:

Alpha Chi Beta: J. L. Carpenter, Lincolnton and J. C. Keith, Apex. Alpha Gamma Rho: Jack Bowen, Hamlet; J. F. Curry, Lebanon, Tenn.; Pierce Fleming, Asheville; Sterling Holmes, Cambridge, N. Y.; George R. Horn, Spencer; William Hubs, Wise, Va.; Frank Jeter, Jr., Raleigh; Robert Hughes, Parkton; Frank Kingsbury, Camp Hill, Penn.; Charles Matthews, Albuquerque, New Mexico; J. F. Scott, Rose Snipe, Sanford; William Thorn, Raritan, N. J.; and Charles Ware, Wilson.

Alpha Kappa Pi: A. Boykin, Darlington, S. C.; J. Bradley, Seaboard; J. Keating, Woodbridge, N. J.; L. H. Knott, Oxford; A. Livera, New York, N. Y.; E. Lovelace, New Bern; J. Ormond, Kings Mountain; L. R. Parsons, Burlington, N. J.; and T. Rivers, Greenville, S. C.

Alpha Lambda Tau: Sam Brooks, Wake Forest; W. C. Caldwell, Jr., Charlotte; Gilbert Coll, Ridgewood, N. J.; John Fox, Wilmington; Joe Knox, Newton; H. C. Lindley, Winston-Salem; and R. H. Whitlark, Tarboro.

Delta Sigma Phi: Duane Arbutnot, Leonia, N. J.; James Farr, High Point; Kelman Goss, High Point; Richard C. Hines, Spartanburg, S. C.; George Womble, Rocky Mount; J. Thiem, Raleigh; and M. G. Myers, Raleigh.

Kappa Alpha: James Hodges, New Bern; Ross Reynolds, Raleigh; and William Tadlock, Windsor.

Kappa Sigma: A. R. Blackburn, Wilson; J. M. Duff, Elizabeth City; W. P. Duff, Elizabeth City; Parks Lafferty, Concord; Edward Sauvain, Concord; James Towery, Concord; and W. R. Wyatt, Rocky Mount.

Phi Kappa Tau: Lee Bost, Salisbury; Edward Church, Salisbury; Felix Connell, Everton, Ga.; J. H. Corey, Rocky Mount; W. D. Hood, Jr., Smithfield; B. R. Rudisill, Cherryville; Van W. Ward, Rowland; and Edison Watkins, Wilmington.

Pi Kappa Alpha: Robert Coleman, Birmingham, Ala.; C. J. Dulla, Charlotte; John Flowers, Greensboro; Harry Hendrix, Beaufort; Alfred Oliver, High Point; D. M. Pollock, High Point; Ernie Remmey, Greensboro; Frank Sotherland, Durham; Ted Strupler, Fayetteville; and Clement Wrenn, Southern Pines.

Pi Kappa Phi: Moses Barber, Charlotte; Harry Billings, Raleigh; Jeter Brawley, Charlotte; Merritt Davis, Charlotte; Jim C. Durland, High Point; Joseph McCoy, Banner Elk; and George Poovey, Jr., Hickory.

Sigma Nu: A. J. Bing, Hickory; Henry R. Browne, Hickory; J. B. Gaither, Raleigh; M. F. Harris, Raleigh; Zack Holler, Hickory; Robert Lake, Jr., Mahaness, N. Y.; John McClelland, Shelby; Bill Manney, Lincolnton; Johnny Miller, Jr., Raleigh; George Murphy, Asheville; Julien Murphy, Asheville; Jack Noyes, Marion; R. L. Oliver, Raleigh; Lynwood Perkins, Smithfield; Harry Plummer, Asheville; Bill Scholes, Detroit, Mich.; J. M. Smith, Hickory.

EXIT THE WHISTLE

Like some of the men of '39, so were we a little nonplussed at first by the college whistle. The idea of being summarily called to classes and other gathering by the sudden burst of a whistle seemed hardly appropriate. Perhaps the psychologist could better explain our feelings, but there is still something about it suggestive of time-clocks and freight car sidings.

Now we are told that the historic old bell of the decommissioned cruiser *North Carolina* will supplant the college whistle in the role of gathering the student body. It is our opinion that the change will meet with general enthusiastic approval. Ivy clings appropriately to academic walls, and so does the tolling of a bell blend properly into the academic atmosphere. Perhaps it is because bells were invented before factory whistles, but we can't conceive of traditions associated with the latter. Traditions are still among our invaluable possessions.

Progress always looks to the comfort and convenience of tomorrow. Rounding out our years at State College, we cannot but feel a little envious of the thirty-niners for the provisions being made for them. Not for long will the luckless chap with "eights" be rudely awakened by the blast of a whistle. Neither will he feel a momentary flash of anger at the double burst while scurrying to class. Only the most tedious will be irked by the tolling of a bell. There is something respectfully reminding about a bell that is quite unlike the vexing note of a whistle.

We are informed that there are still millions of jobless who would welcome the blast of a whistle summoning them to work. Mr. Babson and others hopefully forecast an upward trend of times, but it is within reason to wonder if not more than a few college editors will be hopefully awaiting the sound of a whistle before a year has passed. Almost everything can be used to some good end, and the logical place for a whistle is atop a factory.

Colonel Harrelson tells us that it has been his determination for some time to rid the college of its whistle. Whether the new bell will see routine service is not yet known, but we understand that a bell will soon be ringing on the hour and at seven past. Perhaps it will be the same one formerly used to rouse the middle, possibly another. Nevertheless, the purpose stands.

It has just occurred to us that Edgar Allen Poe would hardly have written a memorable poem concerning whistles, whereas he turned out a masterpiece about bells. He didn't have in mind the efficient buzzer systems of today, but the mellow tolling of a clapper within a great bell such as we now have. Perhaps we shall later be overtaken by efficiency in the form of synchronized buzzers, but it is grateful to know that we will still have the other kind.

No more appropriate resting place for the *North Carolina's* bell could be found than in the state's capital and at a unit of the University. No more appropriate use could be found than to summon Tar Heels to assembly.

A number of complaints from various campus organizations were registered last year at THE TECHNICIAN office for failure to give full publicity and to record their activities. Every effort will be made to cover the campus completely this year, but we suggest that each organization appoint a member to direct its publicity. Only by the fullest cooperation can we best serve the interests of the student body. Regardless of how carefully we comb the campus there will usually be some event of student interest which will fail to appear in these columns. It is a responsibility of each campus group to see that one member is responsible for its share of publicity.

COMPLETING THE MEMORIAL

Begun in 1920, the half-completed shaft of the World War Memorial Tower has stood for years as a monument to the heroic dead of State College, and the apparent futility of fund-raising through small private contributions. Various plans have been devised to raise funds for the completion of the monument during this period, but less than half of the originally estimated cost has been collected. Graduating classes have from time-to-time made pledges to the fund, and these donations, together with alumni contributions, constitute the greater part of the \$40,000 thus far paid in. However, during the past few years contributions have dwindled to a standstill.

Had each graduating class throughout the past fifteen years made modest but proportionate pledges into the fund, the memorial would have been completed, but the interest of the graduating men has not been maintained.

Seeking a way to complete the tower, these men have made the most of their opportunities. It has been largely through the efforts of Professor C. L. Mann and his Memorial Tower Committee that we are assured of the completion of the Memorial through funds secured from the Works Progress Administration. When completed in approximately eight months the tower will be a beautiful Romanesque shaft of native North Carolina granite. It will be one of the really beautiful objects to point out to visitors on the campus. However, provisions for a considerable part of the original project will remain to be found.

The WPA allotment will not provide for the set of chimes and clock for the tower, neither will it provide for the interior decoration and completion of the proposed base of the shaft. Additional funds must yet be forthcoming if State College is to have the bell tower originally planned. It seems possible that alumni and student interest could again be revived in an effort to raise funds with virtual completion so near an end.

Each year the graduating class makes an effort to leave some permanent memorial on the campus. This year's class could find no more permanent nor worth while project on the campus in which to invest its contribution. In some past years more than ninety per cent of the seniors have signed pledges for the Memorial fund, and many of the pledges were paid in full. There is no reason why the drive could not be reopened this year and with success. If this procedure were followed in the next few years, all necessary funds could be raised. Moreover, a sustained drive would probably stimulate alumni interest in the project.

Plans for the interior of the tower provide for the mounting of metal plaques, bearing the numerals of each contributing class, arranged on the marble face of the wall and following a bronze staircase in its upward circuit to the top. It is to be hoped that the numerals of the class of '36 will find a niche in the wall with past and future contributing classes.

GATHERING CLOUDS

Imaginative minds have for some time heard the rumble of cannon and the drone of war planes over the tense Ethiopian frontier. Actual conflict between the troops of Il Duce and the warriors of the Lion of Judah has at last broken out, according to the latest dispatches from the affected area. All the diplomacy of the League's diplomats, and all the threats of economic pressure and armed force have apparently failed to impress Mussolini. That he would risk the antagonism of the entire world in his conquest of the barren and mountainous wastes of the little African empire are indications of either a dictatorial madman or an hysterical ruler grasping at straws.

If he is the first his doom is sealed in the beginning. No civilized people would follow him in plunging the world into a major war as such a man would surely provoke. Although the League of Nations has shown itself incompetent to settle major differences or prevent war, the individual nations of Europe will certainly bring great pressure to bear on Italy. Great Britain has placed herself in a position from which it would be difficult to retreat, and France has evidently aligned herself in sympathy with the British. Only a miracle, can even now prevent the other nations of Europe from brushing against Italy. Certainly the odds would be disastrous to Mussolini in the event his actions touch off the European powder keg. Germany also once defied the world.

If the actions of Mussolini are those of hysteria then he is just as liable to disaster. Fear of internal disturbance may have justified in his mind the fever raising mobilization of troops. Such actions might possibly prolong his downfall, but it would be just as certain. If these conditions exist it is a sign of economic disorder, and an overpopulated country such as Italy could ill-afford to venture into a costly war. Present indications are that he would receive little financial aid from London, Paris, or New York, the money capitals of the world.

Whatever the outcome, the world will learn a lesson in the fate of the Dictator. That the whims of a single man could so threaten the peace of Europe as to rock the world is unthinkable. Only now emerging from the depths of a great depression and still shaken from the last great conflict, the outcome of another major war could be nothing but disastrous.

President Roosevelt has assured us that the American government will maintain an aloof neutrality, but only complete isolation from the rest of the world would be a guarantee of permanent neutrality. Despite these assurances, the American government continues a policy of strengthening forces; the army and navy continues to amuse themselves playing war games. Perhaps armed neutrality is the only alternative. We tried the other type once before.

HERE and THERE

By JERRY FORD

Students who attended the game in Greensboro last Saturday tell me that there was a fellow wandering around the students' section with a large cardboard box under his arm. They were about to call him and ask him how much he was selling peanuts for, when who does it turn out to be but our own Hamilton Hutchison.

Self control, they say, is that trait which keeps people under 40 from doing anything that they might be sorry for, and people over 40 from being sorry for anything they might have done.

"Daddy" Price was a great man. He loved State College. When he was offered a better job and more pay at another institution he stuck by State. Then one day "Daddy" passed on to another world where good men are appreciated. . . . Last year we started a move to change the name of old First Dormitory to Price Hall but there are still those who prefer to call it Old First or the Publications Building. I don't know why.

One of the new boys down at the Alpha Gamma Rho house tried to call the corner drug store to order a cup of pineapple ice cream the other night. The line was busy. One of the boys suggested that he might call 922-- and he did. Well, the fellow that he got on the other end of the line was not exactly a mystic but he was a well-known dealer in spirits.

I was going to town the other night on the bus when a car, going at break-neck speed, came flying past us. The driver of this car swerved over to the left side of the road as he passed us and forced the cars coming from the other direction onto the curbing. What impressed me was a sticker on the rear window of this car. It read, "I Will Drive Safely". . . . The world despises a hypocrite.

I hear that we're going to have a large bell set up somewhere on the campus to replace the power plant whistle. Let's dedicate it to those belles who now roam the campus and who were greatly disturbed when I mentioned that they are slowly vanishing.

Latest news from the war area: Halle Selassie is having a hard time recruiting aviators for his army. His own natives are used to keeping their feet on the ground.

Before long we're to have an added feature in the Library: a browsing room. We're all just waiting for the day that we can go over there and browse some.

The *Agromech* staff has not only started to have pictures taken for the book but they have also organized a quartet among the staff members. In the last book the boys were pictured smiling . . . in the next one they will be laughing.

Question:
Dear Cousin Ella:
My boy friend never tries to kiss me and he never offers to buy me a Coca-Cola. What shall I do?
Yours truly,
"Worried."

Dear "Worried":
Isn't one dope enough for you?

RED MASQUERS ANNOUNCE CHOICE OF PRODUCTION

Dramatic Organization to Hold Tryouts for "Big Hearted Herbert" in Near Future

"Big Hearted Herbert," a three-act comedy has been tentatively decided upon by the Red Masquers dramatic group for their first production of this season. The dramatic organization will hold its try-outs in the near future. Professor L. C. Hartley is the director in dramatics again this year, as he has been since the reorganization of the Red Masquers in December of last year. Hartley, in announcing "Big Hearted Herbert" as the first Red Masquer's production, stressed the opportunity this production afforded to all students interested in acting, as well as those interested in trying out

as stage-hands, electricians, and so forth. Hartley also announced that try-outs for "Big Hearted Herbert" would be held in the near future.

Techs Head South for Second Tilt

Wolfpack Meets Gamecocks In Engagement at Columbia

State's Second Game of Season to be Played Tomorrow in South Carolina City

BERRY TO START AT END IN PLACE OF MAX CARA

Only Change in Starting Lineup Puts Pair of South Carolinians on Tech Flanks

State College's Wolfpack will meet its second foe of the current gridiron season tomorrow when it tangles with South Carolina's Gamecocks in Columbia. The Wolves entrained early this morning for the site of the battle.

Both teams have already opened their seasons. South Carolina did so by defeating Erskine 35-0 two weeks ago and since that time the Gamecocks have gone down in defeat themselves, this time to the highly-touted Duke Blue Devils, 47-0. State turned back Davidson, 14-7, in a night game in Greensboro last Saturday.

On paper, and from previous scores, the Techs look to be several touchdowns better than the Birds. However, it was a powerful team that South Carolina met last week and one that had many veterans. State looked to be in good shape in their opener against Davidson, but the Pack will need plenty of improvement over their play in that game to come back from the Gamecock stronghold victorious.

John A. Montgomery, sports editor of The State, Columbia morning paper, predicts that the Birds will take the Techs.

He wrote, "After seeing Duke drub Carolina, 47-0, at Durham Saturday afternoon and North Carolina State beating Davidson, 14-7, at Greensboro that night, I predict that Carolina will defeat State Saturday at Carolina Stadium."

Montgomery backs his prediction with the following: "The Gamecocks were dumfounded by the baffling array of plays executed by Duke's seasoned veterans and their defense wrecked by the fear of the expected. Unless State digs deeper into its repertoire than it did in its opener against the Wildcats, however, the Gamecocks will not be taken off guard."

Blocking has been on the program of the Wolves this week. Anderson was not satisfied with blocking, or lack of it, on some of the plays in the Davidson game and has been stressing this part of the pigskin sport to a great extent in the drills of the past week.

Only one change has been made in the State starting lineup. Connie Meck Berry is slated to start at left end in place of Max Cara. Berry's starting at end means that the Techs' flanks will be protected by South Carolinians. Berry is from Spartanburg and Greenville, while Jess Tatum, who guards State's right flank, is from McColl, South Carolina.

The probable lineups:

| State | Position | S. Carolina |
|-----------|----------|--------------|
| Berry | LE | Johnson |
| Goode | LT | Bramlett |
| Regdon | LG | Gaffney |
| Sabol | C | Tabor |
| Worth | RG | Watson |
| Helms | RT | Robelot |
| Tatum | RE | Craig |
| Schwerdt | Q | C. Alexander |
| Robinson | LH | Clary |
| Berlinski | RH | Lyons |
| Ryneska | PB | Derrenbacher |

TOUGH FOOTBALL TO OPEN MONDAY

Miller's Intramurals Start Season With Three Games in Fraternity League

The lid will come off the intramural program for this year next Monday when three games of touch football in the Fraternity League will be played on Freshman Field, Red Diamond, and 1911 Field.

The Pikas will meet the Lambda Chis, the Alpha Gamma Rhos will oppose the S. P. E.'s, and the Sigma Nus hook up with the Sigma Pis in the opener. Tuesday the dormitories will get underway with 5th Dorm playing 6th Dorm, 1st 1911 meeting 2nd 1911, and 3rd 1911 opposing 1st Watauga.

The Fraternity League is divided into three equal sections of five teams each. The first section is composed of the Pikas, Lambda Chis, A. K. Pis, Theta Phis, and Pi Kappa Phis. The second section consists of the S. P. E.'s, Alpha Gamma Rhos, A. L. T.'s, Kappa Sigis, and Delta Sigis. In the third section are the Sigma Nus, Sigma Pis, K. A.'s, Phi Kappa Taus, and Theta Kappa Nus.

The Dormitory League is divided into two sections. The freshman section has 5th Dorm, 6th Dorm, 4th Dorm, 1st South, 2nd South, 3rd South, and Basement South. The upperclass section is composed of 1st 1911, 2nd 1911, 3rd 1911, 1st Watauga, 2nd 7th, and 3rd 7th.

Play will be within the sections and the winners of each section will then

The Wolfpack is going to make that Carolina Daily Tar Heel eat those words that they published in their last Sunday issue to the effect that "a grossly over-rated State eleven barely managed to eke out a 14-7 win over the Davidson Cats." They continued further to say "From the moment that Davidson kicked off to State at 8:30 last night, it was apparent that Hank Anderson's club was not as 'hot' as pre-game dope has made it out to be. It was evident that their 'bark' was bigger than the bite." It might have been a "bark" that the Wolves offered against the Wildcats, but for the simple reason that they are saving the "bite" for the Tar Heels when they put in their appearance on Riddick Field November 2.

You noticed that Joe Schwerdt did some nice quarterbacking by running Berlinski and Ryneska until the Wolfpack got almost to the Wildcat goal, and then giving the ball to Cowboy Robinson, with orders not to stop until he had crossed into the promised land. And the Cowboy stepped off that 15 remaining yards in hot style to be the first member of the Wolfpack to score. E. V. Helms stepped back and kicked the point to be the second Wolf to get into the scoring column.

Some of the State followers are going down to Columbia tomorrow to see the Wolfpack go into the Gamecock's backyard. And all indications point to the fact that there'll be plenty of fur and feathers flying. South Carolina got off to an impressive start by defeating Erskine 35-0, but Duke put the squelchers on the Birds with a 47-0 defeat. Wilburn Clary, South Carolina backfield star, has been commissioned a colonel by the governor of South Carolina for his showing in the Erskine game.

While the varsity is playing in South Carolina tomorrow, the Techs will be in main idle. They opened their schedule last week by downing the Wake Forest frosh 13-0. Bob Warren takes his team to Davidson next week for their second game in Big Five circles.

Eddie Berlinski and Joe Ryneska looked mighty good in the State backfield Saturday night. Joe was the chief groundrunner carrying the ball 19 times for a total of 65 yards or an average of almost four yards per try. Berlinski ran the ball nine times gaining 37 yards, a little better than four yards per try. Howard Bardes and Jake Mahoney got into the game late, but they contributed their share of ground gaining. Bardes picked up 24 yards in three runs, one of which was good for 23 of them. Mahoney also carried the ball three times for a total of 24 yards, an average of eight yards a try for both Mahoney and Bardes.

Every time we think of Davidson, we think of this little quarterback, Paul Pittman. He was the iron man of the Wildcat team, carrying the ball 19 times for an average of 2.5 yards a try. Pittman was what I would really call a triple threat back. He was on the throwing end of Davidson's touchdown pass, and kicked the point after touchdown. He did all of the Wildcat punting, averaging about 39 yards, and then doing the signal calling and practically all of the running.

The score might not sound so impressive, but a glance at the statistics shows that State gained 199 yards on running plays and Davidson got only 53. The Techs took to the air five times and contacted the receiver on three of the attempts. Davidson passed thirteen times, completing three, one good for six points. So after all, the Wolves played a pretty good game. We missed our guess on the score of last week's game, but I think it's pretty safe to pick the Wolfpack by one touchdown, maybe two, in tomorrow's game.

play for the championship of that league. The two league winners will play for the campus championship. The same teams will play an elimination tournament in horseshoes. Games will begin October 15. The fraternity swimming meet will be held on November 25 and the dormitory meet will come off on November 26. Any group of students, on or off the campus, who are interested in entering a team in the Independent League are asked to make their entry with Mr. Miller as soon as they have organized their team. It is hoped that the Ag Club, Forestry Club, and similar organizations will enter this league.

Schedule

An error that was published in the State football schedule last week necessitated the printing of the schedule again this week. The remainder of the schedule is as follows: October 5, South Carolina at Columbia; October 12, Wake Forest at Raleigh; October 19, University of Georgia at Raleigh; October 26, Manhattan at Brooklyn, N. Y.; November 2, University of North Carolina at Raleigh; November 9, V.P.I. at Portsmouth, Va.; November 16, Richmond at Richmond, Va.; November 23, Duke at Raleigh; November 29, Catholic University at Washington, D. C.

WOLFPACK TAKES OPENING CONTEST

Cowboy Robinson Circles Right End for Fifteen Yards and First Touchdown

RYNESKA AND BERLINSKI FEATURE LONG MARCHES

Techs Put on Drives of 62 and 90 Yards in Gaining 14-7 Victory Over Davidson

Memorial Stadium, Greensboro, Sept. 28.—Scoring in the first and third periods, State College's Wolfpack turned back Davidson, 14-7, in a game under the arcs here tonight. The contest was the initial engagement of the season for the Techs.

First Touchdown Drive Anderson's team took the ball on a determined drive immediately after the opening kickoff and in just twelve plays had crossed the Wildcats' goal line. Pittman, who, incidentally, was the whole show for Davidson, kicked off to Sabol who took the ball on State's 25 and returned it 13 yards. With Berlinski and Ryneska alternating in carrying the ball the Techs moved steadily down to the Davidson 15. Here Cowboy Robinson, who had only been called on once before, circled right end, cut back and went over for a touchdown without being touched. E. V. Helms kicked the point and rest on his laurels.

The quarter ended with the ball in the Wildcats possession on their own 41. From here they invaded State's territory as far as the 20, but lost the ball on downs to the Wolves. After another exchange of the pigskin, Pittman kicked outside on the Techs' 10. On the second play following this Joe Ryneska pulled his only poor play of the game when he fumbled and the 'Cats recovered on the State 16. From here the Presbyterians scored on a pass from Pittman to Armfield. Pittman's kick tied the score.

Techs March 90 Yards The Wolfpack put on a drive in the middle of the third quarter that netted them 90 yards and the winning touchdown. Joe Ryneska counted from the one yard line after a pass from Joe Schwerdt to Eddie Berlinski had gained 19 yards and placed the ball in the scoring position. The pass had apparently been broken up by Armfield, but he knocked it down into Eddie's arms instead of on the ground. E. V. Helms educated toe again sent the ball soaring through the uprights to add the extra point.

The Techs as a whole looked to be in good shape. On their first touchdown trip the Wolfpack looked to be an unbeatable combination, but after that they let down and at times let Davidson gain considerable ground on its passing attack.

Backs Show Well All of State's backs showed up well with Joe Ryneska grabbing the top honors. Eddie Berlinski, Cowboy Robinson, Howard Bardes, Eddie Entwistle, and Jake Mahoney were in the ground-gaining group. The last three were substitutes who ran 23, 20, and 13 yards respectively for their longest trips. Joe Schwerdt and Charlie Gadd both worked well at quarterback. The entire line functioned well, with Steve Sabol playing his usual fine game and E. V. Helms coming through nicely also.

The lineup:

| POS. | N. C. STATE | DAVIDSON |
|------|-------------|----------|
| LE | Cara | Windham |
| LT | Presman | Presman |
| LG | Regdon | Johnson |
| C | Sabol | Burns |
| RG | Worth | McClain |
| RT | Helms | Cashey |
| RE | Schwerdt | Touss |
| Q | Schwerdt | Pittman |
| LH | Robinson | Lafferty |
| RH | Berlinski | Randolph |
| PB | Ryneska | Dennis |

Score by periods: 7 0 7 0—14 Davidson Touchdowns—Robinson, Ryneska. Points after touchdown—Helms 2 (missile). Point after touchdown—Pittman. State substitution: End—Conrad, Tucker, Buz and Griffin. Guards—Parrar and Brownie. Backs—Gadd, Bardes, Entwistle, Mahoney. Davidson substitutions: End—Williams, Tucker—Johnson and Hunter. Guard—J. Johnston. Backs—Yarborough, Veeble, Gorch.

Officials: Referee, Foster (Hamden-Sydney); umpire, Perry (Sewanee); headlinesman, Koch (N. C.); field judge, Hill (Wetford).

Sophomore Halfbacks

COWBOY ROBINSON EDDIE BERLINSKI

Cowboy Robinson scored State's first touchdown against the Davidson Wildcats in Greensboro last Saturday night after Eddie Berlinski had played a great part in putting the ball in the scoring position. Both boys are sophomores.

WRESTLERS START TRAINING MONDAY

Prospects Bright in Spite of Loss of Quintet of Lettermen by Graduation

With a large squad of eager wrestlers anxious to begin training for the 1936 season, Coach Dave Morrish has set the date for the first workout as next Monday, October 7.

The outlook for the season is promising considering the fact that five lettermen were graduated last June. The lettermen lost by graduation were Colin Kerr, 126 pounds; Harley Canup, 145 pounds; Captain Carl Bernhardt, 155 pounds; Craig Furr, 165 pounds; and Clifton Croom, 175 pounds.

Another letterman, C. W. Cooper, has not returned to school this year. Cooper, who fought in the 175-pound class, was one of the favorites to take the conference championship this year. A definite schedule has not been completed as yet, but it will include home matches with Duke, Davidson, V. M. I., and V. P. I. Carolina and W. and L. will be met away from home. The grapplers will also participate in the Southern Conference tournament which will be held at Lexington, Virginia.

Leading candidates for the various weights are: 118-pound—Bell, a letterman; Hinchshaw and Hocutt, reserves from last year; and Cheslock, a newcomer showing promise.

126-pound—McSwain, Bridges and Hein, reserves from last year; and Stovall, a newcomer. 135-pound—Captain Ken Krach, a favorite to win the conference championship.

Grid-O-Graph

Football fans, who are unable to attend the State-South Carolina game, will be interested in the grid-o-graph to be shown in Fullen Hall Saturday at 3:00 o'clock. No admission is to be charged students, but outsiders will be charged twenty-five cents. The grid-o-graph is a large screen 7 1/2 X 10 feet. On this screen lights flash indicating possession of the ball, downs, and yards to go. A large diagram of a football field is drawn upon the screen. Lights flashing upon this field indicate the movements of the ball. It is hoped by the officials of the college that the attendance of this grid-o-graph will justify the showing of all out of town games.

HARRIES OPEN SEASON BY MEETING GUILFORD

Cross country men have been in training for three weeks and a great season is in prospect, according to a recent statement by Jimmy Fallon, coach of the harriers. The team will be built around W. G. Davis and T. A. Hines, the only letter men returning from last year. E. P. Bourneau, a last year reserve, and several sophomores are looking fine and are furnishing Davis and Hines with plenty of opposition. Eight regulars and four reserves will be selected from the fifteen candidates by October 19, when the team meets Guilford College for the first meet of the current season. The team finished third in the conference meet last year with Fallon, Davis, and Curry winning medals.

The freshman team of eight men has been working hard for two weeks and are showing signs of making a fine team with M. M. Young leading the freshmen in practice runs and looking like a good prospect.

Announcements

A smoker will be given for prospective members of the A. S. M. E., Tuesday night, October 8, at 7:30 p.m. in the Y. M. C. A. All sophomores, juniors and seniors in Mechanical or Aeronautical Engineering are invited to attend.

R. S. Talton, Chairman.

There will be a meeting of the Red Maquers Dramatic Club in Pullen Hall on next Tuesday evening at 7:00 p.m.

The American Society of Civil Engineers will give a smoker in the Civil Engineering Building on Tuesday evening, October 8, at 7:30 p.m. All civil engineering students are cordially invited.

The American Society of Ceramic Engineers will hold its first regular meeting of the year on Tuesday evening, October 8, at 7:00 p.m.

C. W. Owens, President.

There will be a meeting of the Interfraternity Council tomorrow (Saturday) at 12 noon.

Charles Turlington, President.

All men interested in varsity wrestling report to the gym at 4 p.m. Monday.

Dave Morrah, Coach.

Alpha Zeta will hold a smoker Monday night at 7 p.m. in the north room of the Y. M. C. A. Building. All freshmen in the School of Agriculture and Forestry are invited to attend.

An important meeting of the Ag Club will be held Tuesday night at 8:30 in room 38 of Patterson Hall. All Ag students are urged to attend.

G. R. McCol, Pres.

All students interested in working on THE TECHNICIAN please be present at a meeting in THE TECHNICIAN office in Price Hall at 7:30 Monday evening.

R. Knox, Editor.

BOARD RELEASES FISCAL REPORTS OF PUBLICATIONS

(Continued from page one)

mulated over a period of several years a reserve fund which is hoped to be used to reduce the student publications fee of \$6.00. Of this amount, at the present, \$4.00 goes to the *Agweek*, \$1.25 to THE TECHNICIAN, and 75 cents to the *Wataugan*. The *Southern Engineer* and the *Agriculturist* are supported by special fees in their respective schools.

Following is a financial report of the three major publications during the past school year:

STATE YEARLINGS BEST BABY DEACS

Two touchdowns, coming in the first and third periods, were enough for the State College freshman football team to defeat the Wake Forest frosh 13-0 last Friday afternoon in Riddick Stadium.

The Wolflets scored their first touchdown early in the first period when Kenneth Sands drove over from the two yard line to climax a 36 yard drive. It took eight plays to carry the ball that 36 yards and Sands took the ball on six of these plays. McDonough, starting quarterback, kicked the extra point.

GOVERNOR POINTS TO ACHIEVEMENTS OF STATE COLLEGE

(Continued from page one)

there is due an added word of praise. He has the friendship and confidence of his faculty and student body as well as of his superiors.

"Looking at the past, we are stirred to high resolves for the future," Governor Ehringhaus concluded, "and we dedicate ourselves to reflect upon and pray for a better and better name, and more and more praise for the State College we know and love. We face a great day, and much is expected of us."

Colonel J. W. Harrelson, dean of administration of State College, opened the Founder's Day exercises. He gave a brief history of the beginnings of State College, and stressed the influence of the Wataugan Club in bringing the institution into being.

Graham Present

Governor Ehringhaus was introduced by Dr. Frank Graham, president of the Greater University of North Carolina. Dr. Graham introduced the speaker as a friend of State College, and a friend of agriculture, engineering, and the textile industry. He stated that Governor Ehringhaus has always stood for the best interests of education during his term of office as chief executive of the State.

E. L. Cloyd, dean of students of the college, pronounced the invocation and formally opened the exercises. Music for the occasion was furnished by Major C. D. Kutschinski and a group of State College musicians.

All college classes were suspended for the Founder's Day program.

A COLLEGE PROFESSOR DISCOVERED

That Often It Isn't a Student's Brain but his Pen that Runs Dry—causes Failure—in Classes and Exams!

So he invented this sacless Vacumatic, and Parker engineered it to perfection—gave it 102% more Ink Capacity—made its Ink Level VISIBLE, so it suddenly can't go empty!

YES, a scientist on the faculty of the University of Wisconsin was amazed to find how pens that run out of ink slow down classes, demoralize thinking, and bring marks that no student wants to write home about.

His observations led to the birth of the revolutionary Parker Vacumatic. This miracle pen writes 12,000 words from a single filling—shows when it's running low—tells when to refill!

Any good store selling pens will show you how the Parker Vacumatic eliminates 14 old-time parts, including the lever filler and rubber ink sac found in sac-type pens.

And due to this, it has double room for ink, without increase in size.

But don't think that sacless pens containing squirt-gun pumps are like Parker's patented Vacumatic. This new creation contains none of these. That's why it's GUARANTEED MECHANICALLY PERFECT!

Go and try writing two different ways with its Reversible Point—solid Gold combined with precious Platinum—skilfully fashioned to write on both sides—slightly turned up at the tip so it cannot scratch or drag, even under pressure!

Do this and you won't let an old pen impede your learning another day. The Parker Pen Company, Janesville, Wisconsin.

Send a Post Card for Free Bottle of Parker Quink—the marvelous new quick-drying, pen-clearing ink, and throw your blotter away. Address Dept. 712.

Pencil, \$2.50, \$3.50 and \$5

Outstanding

"OMAHA"—Winner, one after the other, of the Kentucky Derby, the Preakness, and the Belmont

Omaha is an outstanding horse today.

And in the cigarette world Chesterfield is outstanding.

Both won their place strictly on merit.

Apply any test you like—Chesterfields stand for the best there is in cigarettes.

They are milder... yet they let you know you're smoking. They taste better—give you real pleasure.

.. for mildness .. for better taste
