LEADERSHIP BODY SPONSORS PLANS FOR 'HELLO WEEK'

Observance of Annual Week Will
Begin Monday With Exercises
in Riddick Stadium

BADGES WILL BE GIVEN
TO ALL STATE STUDENTS

Colonel Harrelson and W. B. Aycock to Speak to Students on Observance of Week; Golden Chain This Year Sponsors Program Begun Last Fall by State College Club; Hello Observance is Expected to Foster Friendlier Relations Among State Students

The second annual "Hello Week" will be observed by State College students, when badges are distributed to the student body of the school with appropriate ceremonies in Riddick Stadium Monday at 12:30.

"Hello Week" will be sponsored this year by Golden Chain, senior leadership organization. The movement was started last year by the State College Unity Council to increase school spirit at the college and to foster more friendly relations among State students. The procedure followed will be very similar to that begun last year.

Buttons Distributed
"Hello Week" buttons will be distributed to members of the R.O.T.C. regiment on Riddick Field Monday. These buttons will be similar to those used last year, and will be red and white with a space for the wearer's name. Those of the student body who are not taking military may secure the buttons at the Student's Supply Store Monday.

In inaugurating the "Hello Week" movement, the military regiment, led by the band, will march into Riddick Stadium. There the students will be led in mass cheering by the cheer leaders.

Harrelson to Speak
Colonel J. W. Harrelson, executive head of State College, will speak to the student body on the purpose for which "Hello Week" was founded, and he will encourage the students to enter wholeheartedly into the traditions of the week. His speech will be followed by more group cheering. After this, "Hello Week" buttons will be distributed to members of the regiment while the band plays.

Following the distribution of the buttons, W. B. Aycock, president of the State College student body, is scheduled to speak on the purpose and idea of the week.

To Raise School Spirit
Last year the date for "Hello Week" was set as the week before the Duke football game. This year the week selected will be that preceding the game with the University of Georgia, a home game for the Wolfpack with a major Southern Conference foe. Last year the week of salutations was a great help in raising the school spirit of the student body to a high pitch before the grid contest with Duke, and it is expected that the same will be true this year. In addition, "Hello Week" last year made for a better acquaintance among the student body of State College, and it was a major factor in keeping up the old State tradition that members of the student body of the college always speak to each other both on and off the campus.

State College Unity Council
As the State College Unity Council, the founder of the "Hello Week" movement, was organized last year, the membership was composed of heads of various campus organizations, presidents of social fraternities, dormitory floor presidents, and publications heads. As most of these men were members of the club were also seniors, the State College Club has not been actively organized for this school year.

"Hello Week" was merely a carrying out of the ideals for which the Unity Council was founded, "to renew the waning school spirit at State, and to foster more friendly relations among the students."

Idea Carried On
This year "Hello Week" was adopted as a project by Golden Chain. This is a senior leadership society composed of twelve members of the graduating class who have distinguished themselves as leaders during their college career. Kenneth J. Krach is president of the organization this year. Other members of Golden Chain are: W. B. Aycock, Charlie Turlington, Steve Sabol, Mickey Browne, Harry Pierce, Harry Keck, Tommy Jenkins, Seaman Hudson, Perry Wilson, Bob Seitz, and Joe Canady.

S. C. Alumni Meet
Dr. R. R. Sernon, David Clark, Polk Denmark, and Coaches Hunk Anderson and Ed Kony were guests at a banquet given by State College alumni in Columbia, S. C., last Saturday. About 40 alumni were present.

RIDDICK STADIUM TO BE DEDICATED

Ambrose O'Connell to Be Speaker
in Dedication of New State
College Stadium

Dedication of the new Riddick Stadium will take place tomorrow night between the halves of the State-Wake football game, according to a statement made last night by "Hunk" Anderson, head coach of the State Wolfpack.

Ambrose O'Connell, assistant to Postmaster General Farley, will make the dedication speech. General Farley was invited to make the speech, but was unable to do so because of a previous engagement in New York. Mr. O'Connell will be introduced by J. W. Harrelson, dean of administration.

The dedication speech is expected to last about four or five minutes. Following this, bands of the two schools will parade and execute intricate figures. Practice for these figures has been held during the last three weeks.

State's new stadium has a seating capacity of 14,728 in actual seats besides the press box and guest box. The stadium is not a completed product as yet. The finished plans call for the completion of the north end to turn the stadium into a horseshoe, and the building of a field house at the south end.

A feature of the stadium is the amplifying system. It is an RCA product and is the best and most modern that can be bought. Officials and directors of the Durham Life Insurance Company aided greatly in making the obtaining of the system possible. A portable amplifying system for use in Pullen Hall and at basketball games will be purchased later.

DELEGATES TO ATTEND "Y" MEET HERE TONIGHT

Chapel Hill and E. C. T. C. to Be
Represented at Joint Cabinet
Meeting

A joint meeting of the Y. M. C. A. and Y. W. C. A. cabinets from Chapel Hill, Eastern Carolina Teacher's College, and State will be held in the north end of the "Y" building tonight at 8 p.m.

Representing the University will be Billy Yandell, Y. M. C. A. president, Harry Comer, secretary, and about twenty members. Attending from E. C. T. C. will be Miss Lucy Cherry Crisp, secretary, and a delegation of about twenty members. A number of State student "Y" members are also expected to attend.

Rev. Don Stuart, pastor of the Chapel Hill Presbyterian Church, will be the principal speaker on the evening's program. Following the dinner, the presidents of the respective cabinets will make reports of their activities, and more effective cooperation between the three cabinets will be discussed.

PROSPECTIVE MEMBERS ENTERTAINED BY A. S. M. E.

Over seventy-five students attended a smoker given by the State College chapter of the American Society of Mechanical Engineers in the Y. M. C. A. on Tuesday night.

Chairman R. S. Talton welcomed the visitors, and told them of the purposes of the society. Professor F. B. Turner then gave a history of the organization, after which Professors R. P. Korb and L. L. Vaughan placed emphasis on the importance of becoming a member of the society. The visitors were extended an offer to join the A. S. M. E.

Refreshments were served at the end of the program.

Directory

All faculty members and students are requested to verify their directory cards in the office of the dean of students during the first part of the week as a final check before publication in the new student directory.

Material for the directory will be placed in the hands of the publishers by the end of next week, and the book should be off the presses by November 1, according to C. E. LeFort, assistant dean of students.

Cadet Colonel

Bob Seitz, chemical engineering senior, was recently named cadet colonel of the State College R.O.T.C. regiment. Seitz, in addition to his military rank, is president of Blue Key honor fraternity, and is active in many campus organizations.

INDUSTRIAL WORK TO BE EXHIBITED

Chemical Engineering Department
Completes Plans for its
Booth at the State Fair

The chemical engineering department of State College will have an entirely new set of exhibits in its booth at the North Carolina State Fair next week. This announcement was made by Dr. E. E. Randolph, head of the department yesterday.

"It has been the custom of the department to have a booth at the State Fair for the past several years," said Dr. Randolph. "In it we try to represent some of the chemical industries of the state."

Varied Exhibits
Probably the chief drawing card at the chemical engineering booth will be a tanned elephant's hide. This hide was tanned by the Hans-Ross Tannery of Asheville, and it was sent by them as a part of their exhibit of fine and commercial leathers which they loaned to the department for the fair. This hide is valued at over \$1,000, and it is said to be the only tanned elephant hide in the United States.

The Champion Fiber Company of Canton has sent many varied exhibits of paper and pulp products. This company makes more than fifty per cent of the material used in U. S. post cards and much of the stamp paper used by the government. Eighteen State College chemical engineering graduates are employed by the company.

Moving Pictures
During the fair, moving pictures will be shown in the chemical engineering booth of the extraction of bromine from sea water as is done in the Ethyl-Dow Company's plant near Wilmington. This plant extracts over 5,000,000 pounds of bromine from sea water a year.

The Aluminum Company of America, the Virginia-Carolina Fertilizer, the Spiritine Turpentine Company, and others have also loaned or given exhibits to be used by the department in its booth at the fair.

Dr. Randolph estimated that the value of chemical products manufactured in North Carolina ran close to \$250,000,000 annually. He said that chemical products represented one-fourth of all the products manufactured in North Carolina. In addition to serving North Carolina, the chemical engineering department has done research and laboratory work for industrial chemical corporations in Virginia and Tennessee. "It is our purpose in this exhibit," said Dr. Randolph, "to attempt to show the importance of the chemical industries to the economic life of North Carolina." The chemical engineering booth will be located near the center of the main exhibit building at the State Fair.

AG MAGAZINE WILL GIVE PRIZES FOR BEST STORY

The N. C. State Agriculturist will make its initial appearance for the school year on the campus on Monday in its old size of nine by twelve inches. George McCall, editor announced yesterday. A series of contests will be run throughout the forthcoming issues for the best article published each issue and for the best published during the year. Prizes for the former will be a carton of cigarettes and the latter a first prize of five dollars and a second and third of three and two dollars respectively. The Agriculturist is the official organ of the Agriculture school.

BROWN EXPLAINS NEW BANK LAWS IN SPEECH HERE

Delta Sigma Pi Members Hear
Secretary of Bankers' Association
Here Tuesday

BROWN SAYS NEW LAWS
WILL TIGHTEN CONTROL

Congressional Factions Led By Glass and Steagall Clash Over Legislation; Resultant Compromise More Acceptable to Bankers Than Original Bill; North Carolina Banks Receive High Rating From Deposit Insurance Corporation

Paul P. Brown, secretary of the North Carolina Bankers' Association, was the speaker at the first of a series of opening meetings sponsored by Delta Sigma Pi, professional commerce fraternity, and held in Peele Hall on Tuesday evening, October 8, in the Ceramics Building, with a large number in attendance.

The act was the result of compromise between two groups in Congress, according to Mr. Brown. A group headed by Senator Glass wished to look after the interests of the Federal Reserve System, while Representative Steagall was the chief advocate of deposit insurance. As finally adopted the act made the Federal Deposit Insurance Corporation permanent, and made several changes in the powers of the Federal Reserve Board.

Mr. Brown stated, "The bill was much better than it was to begin with, and was much better than the bankers expected. It is more remarkable for what it does not contain than for what it contains. It is a big step towards centralized banking."

There was considerable opposition to the deposit insurance act of 1933 because it made banks subject to assessment at any time. Mr. Brown said that this had been corrected in the 1935 act by provisions for definite semi-annual assessments. He explained the basis of the assessments, the provisions regarding the entrance and withdrawal of banks from the deposit insurance corporation, and the identification of banks whose deposits are insured.

"North Carolina is the only state which has every insured bank rated Number One on the records of the Federal Deposit Insurance Corporation," continued Mr. Brown. He said that all banks in the state are insured with the exception of one commercial and four or five industrial banks.

Mr. Brown expressed his belief that it would never be possible to force all banks into the Federal Reserve System. "Some small banks have no business in the System," he said. In conclusion, Mr. Brown pointed out that it is now a federal offense to rob any member bank of the Federal Reserve System or of the Deposit Insurance Corporation. This law was enacted to secure the aid of federal officers in the apprehension of bank robbers.

This was the second occasion at which Mr. Brown had spoken at an open meeting. He first appeared before the group in February of this year.

DEAN BROWN DISCUSSES SUPREME COURT RULING

Dean B. F. Brown, professor of economics, addressed the newly organized Open Forum Group in the Y.M.C.A. auditorium last Wednesday evening on the subject "The Supreme Court's Decision on the Poultry Case."

Dean Brown stressed the unfairness of the 5-4 decisions in the Supreme Court, and came to the same conclusion that he is concerned in the question chosen by the Pi Kappa Delta forensic fraternity for current debate, i.e., "Resolved: That Congress should be permitted by a two-thirds majority to override any decision (or any 5-4 vote) of the Supreme Court declaring a law unconstitutional."

Professor J. D. Clark of the English department will speak next week on "The Need of Free Inquiry." The meeting will be open to the entire student body.

Registration Cards

Students who have not yet secured their registration cards may do so at the registrar's office today and tomorrow.

No student will be admitted to the State-Wake Forest game here tomorrow night without one of the new cards, according to information received yesterday. The office of the registrar will be open tomorrow from 9 a.m. until 1 p.m. The student entrance gate to the stadium is located in the west stands between the college warehouse and power station.

Ag Fair Sponsor

Miss Marion Wallace of Raleigh, a junior at Meredith College has been selected by Paul Cox to sponsor the 1935 Student's Agricultural Fair. Cox is president of the Ag Fair.

FEE COMMITTEE MAKES DECISION

Ag Fee to Be Divided Between
Forestry and Agricultural Activities on Pro Rata Basis

An interpretation handed down by the Agricultural Fee Committee at their meeting last Thursday on the status of the Agricultural Fee states "That this is one of the regular College Fees collected from all students in Agriculture, Agricultural Education, Agricultural Engineering, Forestry and Landscape Architecture and it is not for student activities or group activities of the Agricultural School. It is for the undertakings of the school as a whole." This interpretation puts at an end the question over the disposal of the Ag Fee which has caused a rift in the Forestry and Agriculture Clubs for the past year.

Petition Filed
The strife between the two organizations arose last year when the members of the Forestry School filed a petition with Colonel Harrelson that the four dollar Ag Fee collected from them be used by the Forestry Club for the purpose of promoting their own activities instead of being used to promote the activities carried on by the Agricultural Club including the Ag Fair and the Barnwarming. The basis for their claim was the fact that they did not participate in the activities due to a lack of interest in them on their part and that since they constituted practically one half of the total enrollment of the Agricultural School, they should rightly receive their pro rata share for their own organization and its work.

No further action was taken on the petition and at the last meeting of the Ag Club in May the Forestry Club as a body attended the meeting of the Ag Club and the fee was voted to be turned over to the forestry group on a pro rata basis. However it was found that faculty sanction was lacking on this matter and Dean I. O. Schaub of the Agriculture school appointed a committee of three composed of Dr. Z. P. Metcalf, head of the Zoology Department, Professor F. M. Haig of the Animal Husbandry Department, and Assistant Professor G. K. Slocum of the Forestry Department to decide on the matter.

Decision Made
Their decision stated that it was a student fee approved by the Board of Trustees and like all other college fees subject to the same limitations and criticisms as the others. As such it is not in the power of the Club or any subordinate departmental organization to revoke or compromise this fee. Any action of this sort, would have to come from higher authorities. The fee is to be used to further the interests of the Agricultural School as a whole.

The distribution of the fee will be in the hands of this committee who will make allotments to the various organizations in the proportions that they see fit, judging on the basis of their merit to the school. The Students Ag Fair, The Barnwarming, The Agriculturist, and The Pinetum will hand in their budgets within the next few days and allotments will be made. Any surplus will be divided pro rata among the two organizations.

J. S. FULGHUM ELECTED SOPHOMORE COUNCILMAN

At a meeting of sophomore science and business students held in Pullen Hall last week, J. S. Fulghum was elected to the Student Council. He will be the successor of George Riddle who was elected to the office last spring and did not return to school. The meeting of second year science and business men was held after the regular sophomore assembly. It was presided over by Jim Hill, vice president of the Student Council.

STUDENT EXHIBITS NEAR COMPLETION FOR FAIR OPENING

OWENS TO HEAD CERAMIC GROUP

American Ceramic Society Fills
Official Vacancy in First
Meeting of Year

The North Carolina student branch of the American Ceramic Society held its first regular meeting of the year on Tuesday evening, October 8, in the Ceramics Building, with a large number in attendance.

C. W. Owens, Jr., was elected president of the Society to fill a vacancy caused by the failure of E. B. Smith to return to college. He automatically becomes senior representative of the department on the Engineer's Council.

Following the election, Prof. A. F. Greaves-Walker, head of the department, gave a short informal talk welcoming the freshmen and transfer students to the department and society.

The initiation date for freshmen and transfers into associate membership in the Society was set for November 5. The ceremony will be followed by the annual Halloween party honoring the new men.

The following committees were appointed by President Owens: Program—W. G. Cole, chairman, T. L. Hurst, and J. L. McLaughlin; Initiation—A. R. Blackburn, chairman, S. G. Riggs, and W. C. Bell.

The officers of the Society for this year are: C. W. Owens, Jr., president; R. B. Knox, Jr., vice president; S. G. Riggs, Jr., secretary; J. L. McLaughlin, treasurer; and Professor Greaves-Walker, counselor.

SENIOR FORESTERS WIN IN CONTESTS OF ROLLO

Class of 1936 Gains Seven More
Points than Juniors to Win in
Annual Competition

All the romance and glamour of the "old logging days" lived again as student foresters exhibited their artistry at the staging of the Fourth Annual Forestry Rollo at the Hill Forest last Saturday afternoon. The forest echoed to the ringing blows of deftly driven axes and the sharp twang of the swinging cross-cuts as the would be Paul Bunyans vied gallantly in competition. At the end of the day the seniors had gathered 71 points, nosing out the juniors by a scant margin of seven to win first prize. The freshmen finished third with 44 points and the sophomores were last with 25.

Really opened the day for the seniors by taking a first in the stone throwing for distance and Adman, a class mate, received first in the stone throwing for accuracy.

"Pug Johnson" of the junior class repeated his victory of last year in the wood chopping by cutting his way through a ten inch log in twenty-five seconds. Russell and Davis, both experienced hands at the cross-cut saw took first place in that event for the juniors in the time of thirty seconds. Johnson heaved a ten pound ball approximately thirty-five feet to win another first for the juniors and he and Gash led the field in the fire building contest.

The freshmen as usual proved to be the surprise of the day. Ganger walked daintily up a sixty foot pine, in the tree climbing with spurs, to win the event and Bristol and Hauelka took the diameter estimation.

The first prize was a large box of marshmallows. In judging, first place was given five points, second, three, and third two.

Following the events the initiation, both formal and informal, was held for the freshmen joining the Forestry Club.

Pep Meeting

All members of the student body are urged by Head Cheer Leader "Unky" Dunn to attend the big pep meeting planned for tonight in Riddick Field, at 8:15, as a final rally before the State-Wake Forest game tomorrow night. Scheduled to make short talks on tonight's program are Dean J. W. Harrelson, Student Body President Bill Aycock, Head Coach "Hunk" Anderson, and Football Captain Barnes Worth.

Agricultural Students Make Final Plans for Exhibits at State Fair Grounds

EXHIBITS TO BE HOUSED
IN LARGE CANVAS TENT

Burning of Exhibition Building Necessitated Emergency Housing Measures; Prizes to be Awarded to Winning Departmental Exhibits by Committee of Judges; Fair to be Under the Supervision of Paul Cox, This Year's President.

A carnival-like atmosphere of tents, booths, and sawdust will greet the thousands of spectators who will pass through the State College Student's Agricultural Fair at the State Fair Grounds next week. The exhibition is rapidly nearing completion as the student directors and crews of the various departmental exhibits are placing the final touches on their booths in preparation for the opening Monday afternoon.

For the first time since 1931 the Student's Ag Fair will open under canvas. The east wing of the main exhibition building which had housed the fair during past years was razed by fire during fair week of last year and has never been rebuilt, necessitating the housing of this year's student exhibit under a large tent, forty by sixty feet. The tent is located near the ruins of the burned structure.

Nine Exhibits
As in previous years there will be nine departmental exhibits and an information booth sponsored by Alpha Zeta, honorary agricultural fraternity, Lambda Gamma Delta, honorary judging fraternity, and The Agriculturist. Each booth will portray some phase of work being done by the department it represents.

The booths will be eight feet square and will stand two feet off of the ground. The backs and sides of each will be covered with green burlap, making a uniform exhibit. A committee composed of Dr. Clarence Poe, editor of the Progress Farmer, J. M. Gray, former director of extension at State College; and Dr. K. W. Kilgore, former Dean of Agriculture, will judge the booths next Wednesday on the basis of originality, excellence of execution, and attractiveness. The departments, having the two booths selected as the best, will receive silver loving cups donated by T. W. Woods and Son, seedmen of Richmond, Va. The departments gaining these prizes will have their names engraved on each and will hold them for a period of one year.

Exhibit Arrangement
The exhibits will be arranged around the tent to allow the maximum amount of space for onlookers. Displays of red and white strung from the various booths will cross at the top of the tent. Sawdust and shavings will be strewn on the ground.

The fair is under the direction of Paul Cox, senior in animal husbandry, and this year's president of the affair. Professor A. M. Haig of the animal husbandry department is faculty supervisor, replacing Professor D. S. Weaver, who has been assigned to two-thirds-time extension work. Cox has chosen as sponsor this year Miss Marian Wallace of Raleigh, a junior at Meredith.

In conjunction with the Ag Fair a float will be entered in the State Fair parade to be held next Monday afternoon at two-thirty. The float is being constructed under the supervision of J. G. Weaver of the horticultural department and will have as its motif a gigantic balance made of wood and portraying the balance between production and consumption of farm products.

Result of Corn Show
The Students Agricultural Fair is a direct result of the old Corn Show inaugurated at State College in 1912.

The Corn Show was started by Professor C. L. Newman, then head of the department of farm crops, who offered five dollars for the best corn exhibits brought in by freshmen. So much interest was aroused, not only in the freshmen but the upper classes that, at the suggestion of Professor M. E. Sherwin, a Fair Association was formed. Plans submitted to the Agricultural Club and to the faculty were adopted, officers were elected, and the Fair became a reality. At first it was little more than a few exhibits held annually, but with each succeeding year additions were made and it steadily grew larger. Finally, in the fall of 1923, it was held at the fair grounds in conjunction with the North Carolina State Fair and such a policy has been continued to the present. (Please turn to page two.)

PUSH "HELLO WEEK"

During the coming week Golden Chain will undertake to sponsor the second annual event known as "Hello Week." Identification buttons will be worn by students and faculty members throughout the week which will be climaxed by the State-Georgia football game. The wearers of the buttons are particularly requested to speak to one another on and off the campus.

The real purpose of "Hello Week" lies deeper than the mere greeting of a fellow student. That undefined intangible thing called "school spirit" is the primary objective in view. Whatever you may call it, there is something about school spirit that makes college more than a mechanism grinding out graduates on a four year schedule. Impalpable though it is a student can readily sense its presence on a campus.

State students demonstrate school spirit on occasions following a football victory or other mass celebration, but it dies quickly after the fever of excitement has passed. Although it should continue throughout the year, a winning athletic team, representing the student body, does much to encourage and stimulate an allied feeling. Lacking a traditional momentum, it is natural that some outward show of enthusiasm would have such an effect. Hence the inauguration of "Hello Week."

"Hello Week" met with some success last year when first tried. The experiment resulted in a noticeable improvement in speaking on the campus long after football season. This year it should meet with even more success. However, its success will depend on student reception more than on Golden Chain or any other organization that might be its sponsor. Particularly should the first year men try to catch the significance of the motive. Responsibility rests most heavily on them for its continuance and ultimate goal.

Perhaps it would be impossible to create a true school spirit in the course of a week or a year, but a beginning can be made. If the results of "Hello Week" were no more than the sowing of a seed, then it will have served its purpose. Hard rocks can be broken by the spreading roots from a germinated acorn. In a similar manner, the inertia of the student body could be overcome by a growing school spirit.

There is no reason why the custom of speaking on the campus could not be continued throughout the year. It will go a long way toward creating a better campus atmosphere, and a more unified student body. Social fraternities depend to a large extent on a fraternity "atmosphere." So should the college as a whole depend on a campus atmosphere, which is equivalent to a school spirit. Behind a school spirit lies the solidity of an institution greater than any of its parts, and continuing in its functions. It is of profound significance.

The student body should enthusiastically support Golden Chain in its plans for "Hello Week." It is well deserving of the interest and cooperation of every student.

Students in the School of Agriculture have been diligently at work in preparation for their annual showing at the State Fair. Unluckily, the building housing their exhibits burned during fair week last year, totally destroying the student booths. However, they are going ahead this year despite obstacles. The burned building has not been rebuilt, and they are preparing to make their showing in a large tent.

Work such as this is a good advertisement for State College and the training being given here. The ag school is to be commended.

USELESS ORGANIZATION

Almost every college campus is overrun with a hodgepodge of lethargic organizations serving only as competitors for the student's time and money. Highly over-organized, State College is no exception to the general rule. There are far too many inactive and ineffectual clubs, societies, and other associations on the campus. Some have outlived their usefulness, others have never shown justifiable reasons for existence.

It is natural that college men should form groups with common interests and objectives. When, however, membership in an organization means only another feather in the top-heavy plumage of a typical "activities" man, then that organization serves no good purpose. Membership constitutes a lichenous drain on the student's energy, interest, and capabilities. It is largely for this reason that many representative campus groups have fallen into a state of extreme inertia. Potential student leadership is wasted in a maze of organized distractions.

Naturally, there follows a lack of originality in purpose and a lack of sustained interest and enthusiasm. Few really worthy objectives have been planned and carried to completion by local campus groups. Each year, many suggestions are set forth, and are just as regularly allowed to pass by as wasted opportunities. Trophy cups are offered to give incentive to higher scholarship, but these are attractive to only a few. Similar efforts to stimulate an appearance of activity are also futile and meaningless. This statement is not general in that it is applicable to all campus organizations, among them being several which have regularly worked hard to be of service to the student body. However, by far the greater number are dully inert.

Certain faculty committees have also proved to be incapable of progressive action in the past. At the beginning of each school year appointments are made by the administration to faculty committees. This procedure is a generally accepted division of labor and responsibility. Nevertheless, if the direct results of some of the committees appointed last year are used as a basis for judgement, then little can be said for their actual worth.

THE TECHNICIAN has purposely refrained from unwarranted criticism in the past. This policy will be continued, but every effort will be made to bestir activity on the part of responsible groups. Editorial proddings will be forthcoming for failure in duty. No attempt, however, will be made to discredit any organization.

Among the many organizations on the campus there are some which are barely able to survive. We see no particular reason why such organizations should continue to exist if they fail to maintain student interest or serve a necessary function. In order to do this each group should form a program of activity with a definite objective in view. No sustained enthusiasm will result, however, unless that objective be of permanent value, and something on which to build from year to year. It is not necessary that it be in physical form. Programs providing for mental and social training are an indispensable part of college life.

It lies entirely with the respective organizations to see that they show cause for bidding membership. Many will continue to join ineffectual associations for no obvious reason other than "joining," but their interests will be divided, the greater part being diverted to that group which shows the most activity. The money they pay in the form of dues dribbles down through numerous channels of overhead organization expense.

Student activities would be far more satisfactory and on a much higher plane if there were fewer organizations with strengthened memberships. Many will die a natural death, but others are continually springing into existence. Some effort should be made to check an increase in number. Almost every field of student interest is already represented on the campus by an organization. If each such representative group would make its privileges of membership more attractive and its purposes more clearly defined, then there would be little reason for the springing up of competitive groups. In this way organizations could be made to perform more effectual duties, and serve a clearer purpose.

COMPARATIVE FIGURES

With the closing of Swain Hall for repairs and alterations, students at the Chapel Hill unit of the University found their boarding bills skyrocketing upward. Incensed at the apparent advantage being taken of the students by boarding house operators, the student government undertook a survey of food prices at the Woman's College, Duke, and here. Whether their investigation will result in the establishment of a comparative yard-stick or a lowering in the boarding costs at Chapel Hill is conjectural, but a summary of their figures is interesting.

The committee found that State students could eat from six to eight dollars a month cheaper than those at Chapel Hill. Boarding prices at the Woman's College were found to be still lower, being about two dollars a month less than it costs the students here. In addition, the committee found the quality and wholesomeness of the food about the same at all three units.

Those who have objected to a small increase in the cost of food this year over last year should feel somewhat reconciled from these findings. It is encouraging to know that we are fairing better than we thought.

HERE and THERE

By JERRY FORD

But you were surprised to hear that they are going to complete the Memorial Tower... we all were. But isn't that the way things are. We'll just about have time to complete this tower when we'll need a new one. You know, we simply couldn't afford to get behind two wars in our memorial building.

I dropped in on a dance down at the Carolina Hotel last Saturday night to see what this bunch of boys who were "decided" blondes looked like. I got quite a kick out of just sitting there and observing. Outside of the vocalists singing a bit off key and reciting the notes that they couldn't reach, the most amusing thing of the evening was watching the committee. A committee of about ten kept throwing the same little ninety pound drunk out of the dance all night. He'd always managed to get back and the committee would immediately pounce on him and show him to the door.

Good times are back again... and I'll tell you why. Professor Hicks put in a requisition for a pencil sharpener in 1929. Then came the depression. Well, the other day they sent him the pencil sharpener... we're up again. Seems the only thing left that's "just around the corner" is love.

One of my favorite pastimes is talking to a group of youngsters and finding out what they would like to be when they grow up. If what they told me this summer were to come true, within twenty-five years every working man on my home street would be a G-Man... That's what movies will do.

Billy Aycock was awakened the other night by strange noises on the campus. Sounded like a bunch of wolves singing "It's our night to howl." Billy got dressed and started out to calm the disturbance only to find that it came from the stadium where they were testing the amplifying system.

Saw our old friend Jimmy Webb the other day. He was driving a tractor in the direction of the State Fair. Guess he wants to get there early.

Rudy Seitz was around the campus yesterday too. He's working out in the western part of the state... dropped in the alumni office to have a chat with Polk Denmark.

Seems that the telephone number I printed last week caused its owner quite a bit of trouble. If you're a pal of mine lay off the phoney calls.

The latest thing in paint jobs on the campus is the car done up with red and white spotted paint. On first sight it looks like a punch in the eye... if you know what I mean.

I hear that they're planning to have the dedication of the new stadium during the half at the game tomorrow night. Major Kutschinski has also been working for some time on an enormous combined figure to take place during the half... And the time

Boom Times!

between halves is still only ten minutes.

Question:
Dear Cousin Ella:
I hear that you have been running around with my husband and that he gave you a string of pearls. What do you have that I don't have?
"A Wife"

Answer: A string of pearls.

STATE DRUG STORE

Down The Deacons

Pack Meets Deacs In First Home Game

Techs Favored Over Deacs In Night Engagement Here

State Meets Second Big Five Foe Under Lights of Newly Completed Riddick Stadium

INJURIES TO DEAC STARS BOOST WOLFPACK STOCK
Possibility of Kitchin and Sheppard Being on Shelf Hurts Wake Forest Chance

State College's Wolfpack will put in its initial home appearance for the current season tomorrow night when it meets Wake Forest's Demon Deacons in a game under the arc of Riddick Stadium. The starting time of the tilt, which is the first to be played since the new west stands have been completed, will be 8 o'clock.

Wolfpack Favored
The Techs will rule favorites by a considerable margin. Both teams invaded South Carolina last week, the Deacs to take on Clemson, and State to hook up with South Carolina. A 70 yard punt return by Streak Lawton, flashy Clemson back, was the only thing that prevented Wake Forest from bringing back a win. State took the Gamecocks into camp by a 14-0 count, Anderson's men having much the better of things throughout the entire game.

Wake Forest will be the second Big Five foe that State has faced in three games. The Techs opened their season by defeating Davidson, 14-7, in a night game at Greensboro for their first engagement in Big Five circles. The Deacs have already met Duke and Carolina, and dropped both tilts. They lost the first by a 26-7 score and the second 14-0.

Wake Forest Injuries
Recent statements from Wake Forest indicating that Walton Kitchin and Porter Sheppard may be lost to the Deacons for the State game boosted the Wolfpack stock several points higher. Kitchin was the whole show for Wake Forest in the Clemson game and it was this same Kitchin that passed the Deacons to a victory over State last year. The Deac back is one of the most accurate passers in the South and will give the Techs considerable trouble if he is able to play. From the play of Anderson's men and from the results of each game it is apparent that the Wolfpack mentor is keeping the blanket on the team and that he hasn't let them open up to their full extent as yet. So far this hasn't been necessary and while other teams in this section have been running up large scores against their opponents the Wolves have held their scores down and counted just enough points to win.

Worth Injured Slightly
State came out of the South Carolina game practically devoid of injuries. Captain Barnes Worth was the only serious casualty and he was only on the shelf for the first game of the week. Nick Hayden, diminutive half-back who broke a bone in his right hand several weeks ago, will be ready for the Wake Forest game also. A change in the lineup will probably find Venice Farrar starting at one of the tackle posts. Farrar played tackle while a freshman and came through in great style. Last year he was shifted to the backfield, first to full-back and then to half, but this year he was moved back to the line again. His initial position for this year was at guard, but he went in as a tackle in the South Carolina battle and, from his playing, will probably stay there.

State Has Edge
The Wolfpack has the edge in the series played with Wake Forest. The rivalry started in 1908 and the teams have played 27 times since then. Of the 27 games State has won 19, the Baptists have won 6, and the remaining two have been tied. It is one of the oldest rivalries in the state. State has lost out when the Wolves taken the Deacs in tow. Wake Forest won in 1930 by a 7-0 score, and the tilt in 1931 ended 6-0 in favor of the Deacs. Both the game in 1932 and the one in 1933 were scoreless ties, and last year's game was won by the Baptists 13-12.

STATE HARRIERS HOLD INTERSQUAD RUN SOON
Fallen to Use Run as Basis for Picking Eight-Man Team From Nineteen Candidates

State College's cross country team will hold its first intersquad run of the current season next Saturday at 5 o'clock according to a recent statement by Jimmy Fallon, harrier coach. The run will start at the gym and will be over a 3.6 mile course.

W. G. Davis and T. L. Hines, lettermen, will be leaders of the white and red squads respectively. The run will be important as it will be the basis for the determination of the team of eight men who will represent State in the meet against Guilford College. This meet, which is the first scheduled varsity meet, will be run on Saturday, October 19. Candidates for the team besides Davis and Hines are W. S. Terrell, J. G. Abrams, E. P. Bounous, R. V. Keating, C. R. Stennette, J. E. Bishop, W. L. Hildreth, R. V. Hendren, J. H. Mackay, C. M. Young, S. F. Long, E. J. Church, W. O. Baucum, K. C. Lovelace, L. H. Knott, J. L. Millholland, and J. W. Pierce.

The Wolfpack, riding atop a victory wave of two wins away from home, open the 1935 home season in Riddick Stadium tomorrow night at 8 o'clock with the Wake Forest Demon Deacons furnishing the opposition. The Wolves have not defeated the Deacons since 1929. Last year, the Deacs sprung a passing attack in the last few minutes of play, to score a touchdown and win the ball game. This last minute victory is still fresh in the minds of the Wolfpack and they are pointing to defeat the Wake Forest eleven in the curtain raiser for their new stadium.

I was very much impressed with the spirit shown over at the Grid-O-Graph in Pullen Hall last Saturday. The place was practically full, and everybody there was cheering almost as if they were sitting in the stands looking at a football game. That Grid-O-Graph is a mighty good thing for all of us that can't follow the Pack everywhere they go this year, and Mr. Charlie Dock stated that an effort will be made to have every one of the games played away from home for the remainder of the season to be shown on the Grid-O-Graph.

The Wolfpack has allowed its opponents only eight first downs in two games this season. And only three of those came by the scrimmage route, five coming from penalties. That's a pretty good defensive record for any man's ball club. The only touchdown scored on the Pack this year came on a long forward pass over the goal line. One of the biggest reasons for State's great defense this year is Steve Sabol, all-southern center. Sabol has played bang-up in the middle of the line in both games, so keep an eye on him tomorrow night.

E. V. Helms is making quite a name for himself in the way of making those extra points after touchdowns good. So far, Helms has a perfect average in four attempts to convert extra points. Last year, several games were lost simply by that one little point after touchdown, but this year the story is going to be different. E. V. is kicking that ball squarely between the uprights on every attempt.

The Wolfpack has scored four touchdowns this year and they have been equally divided between four backfield men. Cowboy Robinson stepped across the Davidson goal line for the first touchdown of the season, but he was followed by Joe Ryneska later on in the same game. Charlie Gadd took a pass from Robinson to score the first touchdown against South Carolina, and Eddie Berlinki slipped through for another six pointer later in the contest with the Gamecocks.

And as the scoring has been equally divided, so have the honors in the backfield been divided. Every man who has gotten into the game in the Wolfpack backfield has done some nice work. Joe Ryneska has looked mighty good when a few yards are needed for a first down, and Eddie Berlinki and "Cowboy" Robinson have begun to put on some of that running exhibition that they have been counted on for. Charlie Gadd played a bang-up game when he got into the South Carolina game. He seemed to do everything right.

I was looking over Riddick field yesterday afternoon and they're certainly gotten everything right for that opening game tomorrow. Of course, the biggest improvement is the new stands on the West side. However, from the spectators' standpoint, that new amplifying system down there is really the stuff. In test the other day it sounded mighty good. An announcer for the game tomorrow night has not been selected yet, but Doc Serrano has promised to get a man that can really let you know what's going on out there.

Here's a few shorts for this week. Mack Berry was a disappointed man last Saturday when he was taken out of the game before he had time to catch a pass. Mack threw one of the Gamecock backs for a 12 yard loss and Coach Anderson thought he was hurt on the play. I've noticed in these "Wolf-A-Day" releases by Fred Dixon that nearly all football players have a dislike for Mathematics. I almost forgot... this week's prediction, State over Wake Forest by two touchdowns.

CAROLINA TEAMS GET RECOGNITION

New York Sports Writers Pick State, Carolina, and Duke As High-ranking Teams

WADE GIVES MUCH PRAISE TO THREE N. C. ELEVENS

Duke Mentor Says That Football in North Carolina Is on Par With Any in Nation

Three North Carolina teams are being rated as potential Rose Bowl material by Associated Press writers in New York, according to reports appearing in daily papers last Monday.

The University of North Carolina's Tar Heels jumped into the national spotlight by virtue of their 38-13 victory of the strong Tennessee eleven. Duke's mighty team defeated what was regarded as one of the best teams in the conference when they ran up a 26-0 score over the Washington and Lee Generals and North Carolina State coasted to a 14-0 win over South Carolina.

Up until this year, Southern football has been dominated by teams in the Southeastern Conference, especially Alabama, Georgia Tech, and Tulane. All of these teams have paid visits to the celebrated Rose Bowl within the past few years. However, so far this year, Alabama has been tied by Howard College and the Tulane Green Wave has been turned back by Auburn. For the past two years, Wallace Wade, Duke coach who has taken three teams from Alabama to the Rose Bowl, says that in his belief, football in North Carolina is about as good as that in any other state in the country. He goes further to say that the three big teams in North Carolina could hold their own against any three selected from any other state in the union.

Wade says that in the past few years, Southern teams have become much heavier, and now they can stand up and drive into other teams instead of playing an open forward passing game.

GOLFERS MUST REPLACE NEWNHAM AND PASTORE

Loss of Pair of Regulars Through Graduation Lessens Prospects of Links Team

The outlook for State College varsity golf is not as bright this year as it was last, according to a recent statement made by Major Ben Venable, State golf coach.

The loss of Fred Newnham by graduation is quite a blow to the prospects of the team. Willie Dusty is captain of the links team this year and Key Scales and Bill Baerthlein are the other regulars. The places of both Newnham and Pat Pastore will have to be filled. Possibilities for taking the places of the graduated regulars are Marion Palmer, George Foyner, and Bruce Caution.

Freshman prospects are better than they have been in years. Among the leaders in the battle for places on the freshman team are Tommy Card, junior champion of Raleigh; A. E. Remmey, state high school champion; and A. A. Oliver, High Point Country Club champion.

Card has been creating quite a sensation around the various clubs of Raleigh. The youngster has at one time or another beaten almost every one of the outstanding golfers of this section. He started as a caddy at the Raleigh Golf Association, a club that is giving special privileges to State College students.

Shifted Again

Vince Farrar is perhaps the most shifted man on the State football squad. His sophomore year he was a tackle and was all-state material. Last year he was shifted to the backfield, first to fullback and then to halfback and he performed well at both posts, although not as well as he did at tackle. This year Farrar was again found in the line, but as a guard. In the South Carolina game he played tackle again and from his play there he is certain to be one of the starters in the Wake Forest game.

TANKSTERS START PRACTICE MONDAY

Promising Sophomores, Together With Returning Lettermen, Make Prospects Bright

Varsity swimming practice for this year will start next Monday according to a recent announcement issued by Romeo LeFort, water sports mentor.

Candidates for the varsity tank team are asked to be at the pool at 4:30 for the first workout. Freshman swimming practice will start a week after the varsity drills commence, said LeFort.

LeFort is starting the drills a bit early this year in hopes of getting two meets before Christmas. The start of the actual schedule is to be around January 18. Fourteen meets are planned, but all of them haven't been approved as yet. LeFort has the meets planned in such a way that there will be seven at home and seven away.

Prospects for the year are good at the present time. Ray Whitmarsh, who last year took care of the backstroke race, has dropped out of school, but Dick Rettew is ready to take his place. Boyce Holoman is to lead the tank team this year. At the present time Holoman is on the sick list, but he should be in shape before long.

Several promising sophomores have come up and will give the returning lettermen hard fight for their positions. Among the best of these are Payne and Dammann.

GRID-O-GRAPH PLEASES LARGE NUMBER OF FANS

Grid-o-graph fans were well pleased with the showing last Saturday of the State-South Carolina game. While a failure financially the showing was a great success, according to Dean Romeo Lefort, a large number of fans jammed Pullen Hall to see the tilt.

The next game shown will be that with Manhattan, October 26. The showing begins 30 minutes after the game actually starts. There will be no charge.

TOUGH FOOTBALL WELL UNDERWAY

Large Scores Feature Past Week's Games in Which Many Old Favorites Are Upset

Football has been flying thick and fast this week and it has not been entirely due to the varsity and freshman football squads. Fraternity and dormitory clubs are not only playing three games every day, but many teams are busy getting polished up for their coming games. Mr. Miller has footballs galore this year and the clubs are taking advantage of the fact. Every available open space in this part of the city is being used for practice. The outstanding happenings of this first week of intramural play are first, the scoring abilities of the teams this year and second, the bids to fame of new clubs by defeating old favorites.

In the fraternity league Alpha Gamma Rho lived up to her preseason predictions by winning from the Sigma Phi Eps 12 to 0. Kappa Alpha's led by Charlie Aycock and Gordon Smith upset the old dope by beating Phi Kappa Tau's 6 to 0. The Pika's demonstrated they have not lost their winning stride of last year by administering a 20 to 0 licking to the Lambda Chi Alphas. The passing and running combination of the Scala brothers will have to be solved by other teams. The Kappa Sig's won from the A. L. T.'s in the closest game of the week 7 to 2. A dark horse has come up over the tough football horizon. The Alpha Kappa Pi's walloped the Theta Phi 33 to 0. Honeycutt, Keating, Baerthlein, and company will surely cause other clubs to lose some sleep.

In the Dormitory League, the king, 2nd 1911, was toppled from his throne by 1st 1911 by a score of 6 to 0. Fortney, Cox and Spader starred. Other clubs must not be misled by this defeat; if they think 2nd 1911, led by Wynne, is down, they have another guess coming. 1st Watauga has been threatening for some time to do things. They came through starting the year's action by winning from 2nd 1911 13 to 0. Plaster was the main cog. 5th Dorm opened the freshman section by defeating 8th dorm 6 to 0.

Independent League

Four teams have been entered in the Independent League so far, the Local All-Stars managed by R. E. Fowell, the Forestry Club managed by W. J. Bridges, the State Bearcats managed by J. E. Jackson, the Woodburn Road Cardinals managed by Rex Wheatley.

One more week will be given for groups to organize and enter before the schedule is made up. Any Physical Education Class has a nucleus of boys living off the campus who could get together. This nucleus in each class can go out and sign up players any place just so they are not playing on any other team. Get busy boys, next week is the last chance to enter a team.

STATE GETS WIN OVER GAMECOCKS

Twelve-yard Pass From Cowboy Robinson to Charlie Gadd Brings First Score

DRIVE IN FINAL MINUTES NETS SECOND TOUCHDOWN

Anderson's Men Cover 55 Yards in Six Plays to Count Second Six-Pointer

First downs... 13
Yards gained, rushing... 194
Yards gained passing... 67
Forward passes attempted... 8
Forward passes completed... 3
Passes intercepted by... 5
Fumbles... 5
Fumbles recovered by... 2
Yards lost by penalties... 86

Using both aerial and ground routes, the State College Wolfpack defeated South Carolina, 14-0, on the Gamecock's gridiron in Columbia last Saturday to bring home the bacon for the second time this season.

How They Scored
Cowboy Robinson tossed a 12-yard pass to Charlie Gadd for the first touchdown, which came in the second period, and Eddie Berlinki plowed through the Gamecock forward wall for the second courier just two minutes before the final whistle blew. E. V. Helms kicked both extra points to make the victory completely sophomore.

The first six-pointer came after a drive of 73 yards that placed the ball on South Carolina's 8. Here the Techs were penalized 15 yards, but on fourth down State's blond flash dropped back and passed to Gadd in the far corner of the field.

Second Tally
State put on another drive, this time of 55 yards, to gain their second touchdown. It took the Wolves just six plays to cover that distance and cross the Bird goal line. Howard Barnes, Joe Ryneska, and Eddie Berlinki alternated in carrying the ball.

The Wolfpack gained a total of 133 yards during the game to a loss of 24 yards for South Carolina. Anderson's men had 13 first downs, while the Gamecocks were credited with three, all of them on penalties.

Sabol, Cara, and Farrar were the line leaders in pushing South Carolina plays, while Ryneska, Berlinki, Robinson, and Barnes headed the backs.

FORENSIC GROUP BEGINS PRACTICE

Subject for Season in Intercollegiate Debating is Received By Professor Paget

The subject for intercollegiate debating for the present season was recently announced by Pi Kappa Delta, national forensic fraternity. This question will be debated by the State College debating team in all of its collegiate engagements this year.

The debate question as released by Pi Kappa Delta is "Resolved: That Congress should be permitted by two-thirds majority vote to over-ride any decision (or any 5-4 vote) of the Supreme Court declaring a law unconstitutional." Professor E. H. Paget, State forensics coach expects to get his debating squad started to work on this subject in the near future.

Meet Only Veteran
As S. B. Moss is the only veteran debater left on the team at present, Professor Paget will have to train practically a whole new squad for the coming encounters. Freshmen are eligible for intercollegiate debating teams as well as upperclassmen, and the forensics coach is looking for new talent among the ranks of the first year men.

The lack of experience among the debaters is expected to be a great handicap to the debaters in their attempt to follow up their very successful season last year. Among the major titles gained by the State forensics team during the past season were: Southern championship in extemporaneous speaking for the fourth time in five years, and South Atlantic championship in extemporaneous speaking for the third time in three years; South Atlantic championship in oratory for the second time in three years; South Atlantic and North Carolina championships in after-dinner speaking, and North Carolina championship in oratory.

Society

Demolay Dance

The Raleigh Chapter Order of Demolay will entertain at their Fair Week Dance, tomorrow night in the ballroom of the Sir Walter Hotel.

The following sponsors have been selected for the event: Miss Mary York Neal of Raleigh, Miss Dorothy Thurman of Raleigh, Miss Marguerite Dewey of Goldsboro, and Miss Helen Morton of Raleigh.

Music will be furnished by Les Brown and the Duke Blue Devils. This orchestra has enjoyed several successful seasons both at Duke University and in New York.

The following chaperones have been invited to attend: Mr. and Mrs. L. P. Denmark, Mr. and Mrs. Grimshaw, Dr. and Mrs. C. P. Eldridge, Mr. and Mrs. D. R. Ponton, Mr. and Mrs. D. Holoman, Mr. and Mrs. J. M. Coleman.

New Alumni Chapter

The Alamance County State College Alumni chapter was established at a meeting held in Burlington on September 26. P. C. Beatty, '26, was elected president, W. A. Horn, '26, vice president, and Phillip H. Mast, '29, treasurer.

Announcements

Try-outs for the play, "Big-Hearted Herbert," will be held in Pullen Hall auditorium at 4:00 o'clock Friday afternoon.

All upperclassmen who are interested in the Varsity swimming team, report at the swimming pool in the gym at 5:00 o'clock on Monday, October 14.

There will be a meeting of Mu Beta Psi on Wednesday, October 16, at 7:30, in the Y. M. C. A.

Bob Bourne, President.

There will be a meeting of the A. I. E. E. in Room 207, E. E. Building, at 8:45, Tuesday, October 15.

All students who are interested in going out for the freshman tennis team please sign up at the Y. M. C. A. at once.

W. G. Cole, Jr., Manager.

There will be a meeting of Sigma Pi Alpha on Friday, October 11 at 7 p.m., in Peele Hall. A speaker and refreshments will be included in the night's program. All members are urged to attend.

There will be a meeting of Gamma Sigma Epsilon in Winston Hall on Tuesday evening, October 15, at 8:45 p.m.

There are still some vacancies in the State College orchestra. All those who are interested in trying out are asked to report at the next rehearsal Tuesday at 4:30 p.m., in Pullen Hall.

C. D. Kutschinski.

Glee Club rehearsals will be held in Pullen Hall Monday, Tuesday, and Wednesday at 8:30 p.m.

Leaves for Convention

Bob Selts left Wednesday night for Detroit, Michigan, to attend the national convention of Tau Beta Pi, engineering honorary fraternity. Selts, who is a high honor student in the chemical engineering department of State College, is expected to return from the convention Sunday night.

The lost and found Bureau is located

at the desk in the Y.M.C.A. building. Students should report there in claiming or reporting articles found.

MEETING OF REPORTERS PLANNED FOR TUESDAY

The second of a series of weekly meetings of students interested in newspaper reporting is to be held in The Technician office in Price Hall Tuesday night at 7:30 p.m. In this meeting, further discussion of news writing, feature, and editorial writing will be taken up by members of The Technician staff.

These meetings are open to all those who are interested in newspaper writing and in working on the campus weekly newspaper. The meetings are expected to lead toward the formation of a Reporter's Club at State College.

A BRAIN HARASSED BY A PEN THAT RUNS DRY, LOSES ITS

Brilliance...Power...and Expression
Hence Parker Created 102% More Ink Capacity and Visible Ink Supply

*From Harvard to Southern California

Wanted by More Students
Than All Other Standard
Brands Combined

Every time that you write, your Train of Thought flashes along rails more delicate than gossamer. And every petty annoyance—every distraction—caused by a pen that skips and runs dry in study periods, classes, or exams, obstructs the track and derails the train.

That's why thousands of students are replacing their present pens with this revolutionary new Parker Vacumatic with visible ink supply and 102% more of it.

By holding this miracle writer to the light, they can see the ink level—see days ahead if it's running low. It is laminated—built up ring upon ring of shimmering Pearl and Jet—smart, velvet-like, wholly exclusive.

It contains no rubber sac found in sac-type pens—no squirt-gun pis-

ton pump like other sacless pens—nothing to render it useless later on. That's why it is guaranteed mechanically perfect. Go to any good store selling pens and try it yourself. The Parker Pen Company, Janesville, Wis.

326,093,357 lbs.;
an increase of 2392%

It takes mild ripe tobacco to make a good cigarette.

During the year ending June 30, 1900, the Government collected from cigarette taxes

\$3,969,191

For the year ending June 30, 1934, the same taxes were

\$350,299,442
an increase of 8725%

—a lot of money.

Cigarettes give a lot of pleasure to a lot of people.

More cigarettes are smoked today because

more people know about them—they are better advertised.

But the main reason for the increase is that they are made better—made of better tobaccos; then again the tobaccos are blended—a blend of Domestic and Turkish tobaccos.

Chesterfield is made of mild, ripe tobaccos.

Everything that science knows about is used in making it a milder and better-tasting cigarette.

We believe you will enjoy them.
