## SCHOOL TO SPEND LEGISLATIVE GIFT ON NEW BUILDING

New Chemistry Building to be  
Constructed With Two-thirds  
of Appropriation

## CAMPUS IMPROVEMENTS FEATURE NEW PROGRAM

Committee on Buildings and  
Grounds Presents List of New  
Projects; Building and Remodeling  
Seen as Campus Necessities;  
Cooperation of Students Urged

With the appropriation of \$381,000  
for campus improvements and new  
buildings by the last legislature, the  
committee on buildings and grounds  
will immediately swing into action to  
get the several projects underway so  
that all will be completed by the be-  
ginning of next school year.

Topping the list for the largest ap-  
propriation is the new chemistry build-  
ing which is to be built at a cost of  
\$200,000 and which will be located be-  
tween Ricks Hall and the physics  
building, facing west. The Textile  
School received a large portion of the  
appropriation with a grant of \$45,000  
for an addition to the west wing of the  
present building and \$15,000 for addi-  
tional equipment.

Smaller Gifts  
The power plant will be improved  
with an appropriation of \$44,000 and  
new dairy barns will be constructed at  
a cost not to exceed \$25,000. Patterson  
Hall, its inside structure old, worn,  
and decayed, will be renovated at a  
cost of \$35,000, and the School of Agri-  
culture will purchase additional equip-  
ment with its grant of \$10,000. The  
School of Engineering received the  
smallest appropriation of only \$7,500  
for new engineering equipment.

Members of the committee on build-  
ings and grounds, chaired by Profes-  
sor M. E. Gardner, head of the horti-  
culture department, have drawn up a  
set of proposals which will, they hope,  
bring about a long time improvement  
program for the beautification and ex-  
pansion of the campus. With the ad-  
dition of the new chemistry building to  
the campus proper, there will be no  
more room for other buildings, and ex-  
pansion from now on will be on the  
vast tract of land west of the campus  
which is owned by the College.

New Intramural Fields  
"Grounds for intramural sports are  
not plentiful enough on this campus,"  
Gardner commented yesterday, "but in  
our new proposals we include several  
additional playing fields. With this  
new addition, 1911 field will be closed  
as an intramural playground and will  
be converted into a beauty spot.

"But we will be unable to make head-  
way in the new program until the stu-  
dents are willing to give their whole-  
hearted efforts to help in campus beau-  
tification," Gardner continued, "and  
only when the time has come when  
students are willing to walk on the  
paths will we be able to remove the  
bare spots and makeshift paths which  
mar the beauty of the campus."

Campus Addition  
The historical Johnson home  
now located in Pullen Park, in home  
of the 17th President of the United States  
was born in 1807, will be moved to the  
site just in front of the library in  
Pullen Park which is property owned  
by the city. The college was asked for  
permission to place the home on its  
property, but as the home had no con-  
nection with the history of State Col-  
lege, this grant was refused.

Plans are drawn up for the beauti-  
fication of the grounds surrounding the  
recently completed Memorial Tower,  
planting of additional shrubbery around  
the buildings, a system of building  
markers and street markers, and a wall  
bordering the college property on Hills-  
boro Street to protect the natural  
beauty of the campus.

Clean-up Campaign  
The committee proposes to have a  
general and thorough campus clean-up  
to remove old lumber, concrete, scrap  
iron, garbage cans and all unsightly  
objects which destroy the beauty of the  
campus. This will be a student project  
for and by the students themselves.

Steps will be taken to remove the  
telephone poles and wires from the  
south side of Hillsboro Street along  
the entire frontage of the college prop-  
erty, placing all wiring systems under-  
ground.

A nursery for the growing of trees  
and shrubs, with an allotment for a  
staff of regular workmen, is also pro-  
posed. Much of the nursery work is  
now done in the greenhouse, but there  
is insufficient room there for this type  
of work to be carried on.

## Heads NCCPA

Charlie Dunnagan (shown above)  
was elected president of the North  
Carolina Collegiate Press Association  
at its closing session last Saturday  
morning at the Hotel Sheraton, High  
Point. Dunnagan is business manager  
elect of THE TECHNICIAN. The associa-  
tion will meet under his direction in  
Raleigh next fall.

## FORENSIC SQUAD VISITS TENNESSEE

Invitation is Third National Rec-  
ognition Extended to Debate  
Team This Year

The State College Forensic Squad  
demonstrated the direct clash debate  
plan and the response-to-the-occasion  
after-dinner speaking before the South-  
ern District convention of the National  
Forensic League, Bristol, Virginia,  
Tennessee, April 22 and 23.

Harold Zekaria clashed with H. R.  
McSwain in a direct clash debate on  
Roosevelt's proposal to add new jus-  
tices to the Supreme Court. Zekaria,  
McSwain, and H. R. Crawford demon-  
strated the response-to-the-occasion af-  
ter-dinner speech, which was originated  
at State College.

Assisted  
They were assisted in the demonstra-  
tion by Misses Peggy Dunn and Louise  
Webb of Virginia Intermont College  
and Professor and Mrs. Edwin H. Paet.

The invitation to appear on the pro-  
gram of the National Forensic League  
was made by Professor Roy C. Brown,  
president of Phi Rho Pi, national junior  
college forensics fraternity. It  
marked the third national recognition  
extended to State College this year.

Direct Clash Plan  
On April 3 they appeared before the  
Eastern Public Speaking Conference at  
New York City to demonstrate the  
direct clash debate plan, and on April 8,  
were invited to give a similar demon-  
stration before the Grand Eastern  
Forensic Tournament at Winthrop Col-  
lege.

The demonstrations at Bristol were  
enthusiastically received, and every  
school present expressed its intention  
of trying out the direct clash debate  
next year. In a speech to the entire  
assembly, Professor Roy C. Brown, the  
tournament director, declared, "No  
school in the South has done more  
than State College and no man more  
than Professor Paet to encourage the  
development of new and valuable  
speech forms. State College way well  
be called the experimental speech  
center of the nation."

## Reporter Makes Proposal For Revolutionizing Swing

By JOHNNY BING  
For a long time, there has been a  
question that has bothered me no end.  
It is, to have, or not to have? That  
sounds a bit vague, I grant you, but  
for a long time, I have hesitated to  
mention it. Now, I feel I no longer  
can keep quiet. I am going to make  
a proposal, or suggestion, that will  
stun a few, and gain the favor of  
others.

This proposal is strictly for us  
males. By that, I mean it concerns us  
in the main. The fair ladies will, no  
doubt, squawk and raise the very roof,  
but what's fair for the goose, is fair  
for the gander. For a long time, I've  
endured a practice that the weaker (?)  
sex has loved to indulge in, and I  
though I'm a patient man, my patience  
is nearing an end. I'll tell you about  
the whole thing, and I know you men  
will back me up, one hundred per-  
cent.

How many times have you taken  
the little lady to dance where the

## DUNNAGAN CHOSEN FOR NCCPA HEAD

"Technician" Business Man-  
ager Elect Will Head N. C. Collegiate  
Press Association

## STATE COLLEGE IS HOST FOR FUTURE CONVENTION

Raleigh Chosen as Place to Hold  
Next Convention, with State  
College as Host

Charles R. Dunnagan, business  
manager elect of THE TECHNICIAN, was  
elected president of the North Carolina  
Collegiate Press Association in its  
final session of the spring convention  
last Saturday morning at the Hotel  
Sheraton in High Point.

Romeo Lefort, assistant dean of  
students of State College, was elected  
to the newly created office of executive  
secretary by the group after consider-  
able time was spent during the con-  
vention deciding as to whether the  
constitution of the association should  
be changed so as to permit the en-  
gaging of such an executive officer.

Other Officers  
The newly elected officers with the  
exception of Dunnagan and Lefort are:  
first vice president, Warren Stack  
of Duke University; second vice pres-  
ident, William Staten of Wake Forest  
College; treasurer, Dick Vowles,  
Davidson College; and Georgia Under-  
wood, Queens-Chloris, secretary.

The convention decided to accept  
the invitation of State College and  
will meet in Raleigh for the fall con-  
vention next year.

The association holds two meetings  
during the year—fall and spring, the  
various members of the NCCPA tak-  
ing turns as host.

Constitutional Changes  
During the convention, the com-  
mittee on permanent changes ap-  
pointed by Jim Mason, of Wake Forest,  
retiring president, and headed by  
J. Frank Curry of State College made  
its report on proposed changes in the  
constitution to provide for a more  
worthwhile association for North  
Carolina.

The chief change suggested by the  
committee was the employing of an  
executive secretary to attend to the  
business affairs of the organization,  
and to have the general overseeing  
of the entire work of the group.  
The final adoption of the report  
of the committee, with the exception  
of a few changes, and the election of  
officers came at the end of the three-  
day session of the convention.

The high spots of the convention  
included an address by A. M. Beck, of  
Edwards and Broughton Company on  
"Advertising in Relation to Modern  
Business" on Friday morning, and a  
banquet in the Hotel Sheraton ball-  
room Friday night featured by a very  
colorful address by W. O. Saunders,  
editor of the Elizabeth City Independent,  
on newspaper work in general.

Adopted Here  
The changes in the constitution  
of the association were almost wholly  
approved by the Publications Board  
before the amendments were  
submitted to the NCCPA as a whole.  
Besides the creating of the position  
of executive secretary of the associa-  
tion, among the changes provided  
for were: a definite request that all  
commercial firms doing business with  
the members of the NCCPA become  
associate members of the association;  
that the executive secretary go about  
organizing the various groups of the  
NCCPA, starting with the business  
managers of papers, so that they can  
bargain collectively with national  
advertisers.

At the banquet keys were presented  
(Please turn to page four)

## Style Winner

Shown above is Mary Lanier Sea-  
graves, winner of the tenth annual  
Style Show held by the State College  
Textile School Thursday afternoon  
week. Miss Seagraves is from Fuquay  
Springs and a student at Meredith Col-  
lege. She held up the high record that  
the local Baptist Women's College has  
made, the school having won eight  
out of the ten times the contest has  
been held. Since the boys would prob-  
ably not be interested in the ensemble  
that Miss Seagraves wears, it is sum-  
marized as follows: The dress was made  
of fabric woven in the Textile  
School here and is the product of the  
Meredith home "ce" course.

## LIBRARIAN SPEAKS BEFORE AG GROUP

Kellum Describes the Reasons for  
Using the Library for Refer-  
ence Work

W. P. Kellum, college librarian, spoke  
on the use of the library at the reg-  
ular meeting of the "Ag" Club last  
Wednesday night.

"The present day library is thought  
of as a dispersion agency of knowl-  
edge," said Kellum. He went  
on to point out that the student could  
not absorb enough information to last  
a lifetime in four years at college,  
because one's knowledge must be  
continually supplied with new  
thoughts and advancements to stay  
abreast of the times.

Use of the Library  
"Each student should read in, and  
use the library after graduation,"  
encouraged the library official, "be-  
cause an educated person need not  
try to learn everything, but should  
know where and how to find the in-  
formation that he wants."

Each student should read in, and  
use the library after graduation," en-  
couraged the library official, "be-  
cause an educated person need not  
try to learn everything, but should  
know where and how to find the in-  
formation that he wants."

Officers  
The following nominees are candi-  
dates for the offices mentioned: Sam  
Williams, H. L. Brake, and H. C.  
Bragaw, for president of the Agri-  
cultural Fair; J. D. Patton, J. F.  
Giles, and E. H. Wilson, for secre-  
tary of the Agricultural Fair; Joe  
Fou and Roy Eaker for editor of THE  
Agriculturist; L. N. Hall and J. P.  
Lyler, for business manager of THE  
Agriculturist; and V. J. Goodman,  
H. S. Boswell, and E. R. Edgerton,  
for president of the Barnwarmers.

## YMCA-YWCA CONFERENCE ATTENDED BY STUDENTS

"We have talked religion to death  
Now we've got to do something about  
it," said Reverend Robert Lee Shep-  
pard, pastor of the Baptist Church in  
Blacksburg, Va., as he expressed  
the main theme of the annual state-  
wide conference of student members  
of the YMCA and the YWCA at Camp  
Nawakwa, located 20 miles south-  
west of Greensboro, last Saturday.  
The main purpose of the conference  
was for the purpose of creating friendly  
relations between boys and girls from  
all parts of North Carolina. It con-  
sisted of friendly discussions of  
mutual interest to the group and  
afforded opportunities for participa-  
tion in such sports as hiking, horse-  
shoe pitching, motor boating and  
swimming.

## ASPIRING JUNIORS GO AFTER VOTES

Candidates for Offices Prepare  
for Hot Battle in Class Elec-  
tions Next Week

## PRIMARY ELIMINATIONS WILL BE HELD TUESDAY

"Agromeck" and Class Officers  
Will be Chosen Wednesday at  
Final Voting

Members of the rising Senior Class  
who have political aspirations buzzing  
in their heads will be busy using all  
their influence to come out on top in  
next week's class elections.

Easily the two hottest races will be  
those for business manager of the  
Agromeck for the coming year and for  
the presidency of the class of 1938.  
Jim Catlin receives his editorship of  
the college yearbook with no trouble as  
the Publications Board approved him  
as their nominee, and Catlin needs  
only the confirmation of his classmates  
to make his office secure.

Pollticking  
Rumor has it that Clarence "Dixie"  
Howell and Rodney Graham have their  
henchmen busy pollticking among the  
members of their class, for both candi-  
dates would like to see themselves  
holding down that job of annual busi-  
ness manager, a job which pays \$350  
per year plus a quarter slice of the  
Agromeck profits.

Secret Ballot  
Juniors will cast a secret ballot next  
week for the candidates of their choice.  
This vote will take place Wednesday  
following a class meeting Tuesday for  
the purpose of eliminating all but two  
candidates for each class office. Tues-  
day's meeting will take place in the  
college YMCA at noon.

Pete Bronson, incumbent president  
of the Class of 1938 said yesterday that  
polls for Wednesday's secret ballot will  
be in the YMCA also, with voting tak-  
ing place from 9:00 until 2:00. Juniors  
will vote on a president, vice president,  
and secretary-treasurer.

With Golden Chain and Blue Key  
elections still in the offing, the competi-  
tion for all class offices will probably  
be every bit as keen as the race for  
Agromeck business manager.

## "Y" COUNCIL DELEGATES TO ATTEND CONFERENCE

Two Men to Leave Today for Vir-  
ginia State YMCA Officers'  
Gathering

Van Watson, treasurer-elect of the  
"Y" cabinet, and Charles Baker, fresh-  
man "Y" council representative, will  
leave today for Camp Johnson, lo-  
cated twenty miles southwest of  
Roanoke, to attend the Virginia State  
YMCA Officers' Conference.

This conference is held each year  
for the purpose of creating friendly  
relations between the various leaders  
in the "Y" groups in all the Vir-  
ginia colleges.

Prominent among the various speak-  
ers at this convention will be Professor  
George Terry of Randolph-Macon,  
William McKee, south regional "Y"  
secretary, Paul N. Derringer, secretary  
of the "Y" at VPI, William K. Smith,  
secretary of the YMCA at University  
of Virginia, and Reverend Lee Shep-  
pard, pastor of the Baptist Church at  
Blacksburg.

The State delegates will return from  
the convention late Sunday night.

## Decries Foreign War

Sergeant Alvin C. York (above), said  
by General John Pershing to be the  
"greatest civilian soldier of the World  
War," pled strongly for a non-inter-  
ference program for the United States  
in the event of another war in Europe  
in his speech before the freshman as-  
sembly yesterday at noon in Pullen  
Hall.

## MEMORIAL PLATE TO ADORN PEELE

Tau Beta Pi Will Place Bronze  
Plaque Inside Entrance of  
Peele Hall Next Week

A bronze plate, in honor of William  
J. Peele, will be placed inside the en-  
trance to Peele Hall next Thursday  
by the local chapter of Tau Beta Pi,  
national honorary engineering fraterni-  
ty.

Last year the fraternity decided to  
make an annual practice of placing  
one plaque each year in the buildings  
named for some man of importance in  
the history of the college. Last year  
this bronze plate was put just outside  
of the entrance to Page Hall, in mem-  
ory of Walter Hines Page, famous  
North Carolinian and ambassador to  
Great Britain.

W. J. Peele  
Peele Hall was named in the honor  
of William J. Peele, one of the mem-  
bers of the Watauga Club, who con-  
ceived the idea of promoting a school  
for the training of students in the ag-  
ricultural, industrial, and engineering  
arts. Peele was largely responsible  
for the interest and support of the  
Watauga Club in beginning the North  
Carolina A. and M. College, the name  
later being changed to North Carolina  
State College.

The local chapter of Tau Beta Pi  
annually places a marker on one of  
the buildings on the campus. The fra-  
ternity, of which D. W. Durham, senior  
in chemical engineering is president,  
now has seventeen active members,  
four being taken in at the first of the  
year, and six men being initiated at a  
later date.

Honorary Engineering  
Tau Beta Pi, which is an honorary  
engineering fraternity, is very active  
in promoting scholarship among the  
students, and membership is limited  
to students of outstanding scholastic  
ability in the engineering school. The  
plan of placing plaques was originated  
last year.

The construction of Peele Hall was  
begun in 1926, and the building was  
completed in 1928. It is one of the  
newer structures on the campus, and  
houses the offices and classrooms of  
the school of science and business, and  
(Please turn to page two)

## WORLD WAR VET SPEAKS TO GROUP DURING ASSEMBLY

Sergeant York Addresses Fresh-  
men at Assembly Yesterday in  
Cause of Peace

## YORK DENOUNCES WARS IN WORLD PEACE MOVE

Says No War Can be Fought With-  
out the Aid of the United States;  
Asks Students to Assist in the  
Move for Promoting World  
Peace

"Millions of dollars and fifty thou-  
sand young men from all walks of life  
were put into the World War, but we  
did not get anything out of it as far  
as I can see," said Sergeant Alvin C.  
York, prominent World War veteran,  
when he spoke on "No More Foreign  
Wars" before the freshman assembly  
yesterday in Pullen Hall.

He declined to speak about what he  
did in the war, but Professor J. D.  
Clark of the English department, in  
presenting him, said that Sergeant  
York, single-handed, captured one hun-  
dred and thirty-two Germans, includ-  
ing four officers, eliminated thirty-two  
machine guns, and left twenty-five of  
the enemy dead during one attack.

Fight and Work  
Sergeant York went on to say that  
the American soldiers not only went  
to France to fight, but they had many  
details to work out. He said that they  
 dug communication trenches at night  
for the French soldiers, and after-  
wards, the landowners submitted bills  
to the United States government to  
cover damages done by the American  
soldiers while digging the trenches.  
Also, said the speaker, French land-  
owners billed the United States for  
damages done by American soldiers  
during rifle practice.

No Use for America  
"I have come to the conclusion," said  
Sergeant York, "that the foreign coun-  
tries have no use for America, except  
to get all the money they can from us,  
and get us to fight their wars. They  
are trying to make arrangements to  
pay their war debts so that they can  
get on the good side of the United  
States, because it is said that no major  
war can be fought without the consent  
of the U. S."

Education Essential  
Sergeant York went on to say that  
we should eliminate the root of the evil  
by educating the people against war.  
Only by education can we get to the  
vital spot, and take the malice out of  
our hearts.

He said that when he came back  
from the World War, he lectured from  
east to coast, and from passing his  
time he collected \$10,000, with which he  
founded the Alvin C. York Agricul-  
tural School at Pull Mall, Tenn.

He first began his school in the coun-  
try poor house, and many refused to  
come, but today they have two modern  
buildings with four hundred students  
in grammar grades, and one hundred  
and thirty in high school. These  
buildings, said the speaker, were the  
first electrically lighted and steam  
heated buildings that some of the peo-  
ple in that county had seen, and plans  
are now underway to build a Bible  
school.

Eliminate Protesting  
"We should look upon war as a horri-  
ble thing, which it is," said Sergeant  
York, "and should pass bills in Wash-  
ington which will keep us out of war."  
He said that it should be illegal for  
concerns to ship anything to the bel-  
ligerents, particularly food, for without  
food no war can be fought, and the  
United States usually feeds both  
armies.

"Men who cause war," said the  
speaker, "have been the largest profi-  
teers of war; therefore we should pass  
a bill which would force the munition  
companies to pay a certain  
amount of money to the government  
every time a man is drafted to fight  
on foreign soil. And rather than lose  
their money, they will stop promoting  
war."

According to Bob Ripley, Sergeant  
York said, the United States has di-  
rectly or indirectly fought one hundred  
and thirty-one wars in the last one  
hundred and fifty years. Sergeant York  
said that Ripley was a personal friend  
of his, and he did not doubt his state-  
ment, but was going to verify it as  
soon as he went to Washington.

## Explosion Follows Theory So Textile Seniors Worry

When glass explodes, does it go  
BOOM or do it go POOF? This  
was the question the textile seniors  
attempted to solve Wednesday while  
conducting an experiment in the base-  
ment of the textile building. And much  
to their dismay, they found that the  
apparatus not only goes BOOM, but it  
also goes into a million pieces.

A few select students were very busy  
in the laboratory evaporating some de-  
natured alcohol in an electric oven,  
when by some unknown source, an elec-  
tric spark flew into the harmless ap-  
paratus device. The fumes from the  
alcohol exploded when the spark came  
in contact with them, and the results  
were a ruined apparatus, some de-  
stroyed chemicals, and mostly a few  
scared textile students.

After the explosion, student Jaegers  
proceeded to cut off the current, and  
was rewarded by his pants bursting  
into flame. But being quick-minded,  
he immediately grabbed a curtain and  
put an end to the scorching blaze.

At last some thoughtful person de-  
cided that it might not be a bad idea  
to extinguish the blazing apparatus,  
and so they proceeded to turn on the  
water hose just outside of the door,  
and put an end to all the fun the stu-  
dents were having.

Well, it just goes to show you that  
you are not always right. And still  
some seniors are undecided as to  
whether a glass apparatus, heating de-  
natured alcohol by means of an electric  
oven, and having several slightly in-  
flammable chemicals on top of the oven,  
will explode with a BOOM or a POOF!  
Maybe they were both right, after  
all.

The blast did come about as some of  
the students were discussing the possi-  
bilities of the explosion of the appar-  
atus, but such a thing was entirely  
unpredicted by all concerned. But with  
quick thinking on the part of the stu-  
dents, no serious damage resulted, and  
no one was injured.

### YOUR PUBLICATIONS

The majority of State College students do not take an active interest in their student undergraduate publications.

There are two very important reasons why the publications staffs should be composed of a good cross-section of the student body. First, the sensitiveness of the publications are increased by having a larger number of men serving on their staffs. Second, more students on the campus derive the benefits from work on the publications.

Some groups complain because they feel that they are not played up properly in a certain publication. They blame the existing staffs of the periodicals for the deficiency, when if they would but analyze the situation carefully they would see that the organizations under consideration have not made any attempt to see that their members are represented on the publication staff.

THE TECHNICIAN has always tried to handle all news carefully and impartially, giving all organizations as much space as needed routinely, and more on special occasions. This is very often a very difficult matter since the editors cannot be members of all the organizations on the campus, nor keep in touch with the many diversified pursuits of college life without a large supporting staff. This large staff is absent. We believe that the members of the staff are very proficient in their work, and having worked with them, we admire the thought and care they put into their work, yet we know that they have their failing in that they cannot cover every section of the campus at all times, especially since all of them are taking their full quota of curricula work.

We wish to stress also the value the individual derives from publication work. As a general rule (and it has been proven true at State College) the men who rise high in college publications generally get to the top in later life.

The student gets training in how to deal with people; he gets valuable experience in practical organizational management; he learns the "hows" and "wherefores" of the type publication upon which he serves. Publication work helps him as a college student to make contacts that will prove very helpful to him in later life.

We are sincerely interested in getting more students to help on THE TECHNICIAN, as are most of the other campus journals, so next Tuesday night we will hold an Open House in our offices in the publications building. There will be no refreshments served, but if you are interested in contacting members of our staff, and getting into what we think is the most fascinating of college activities, then come around and meet us.

### IT CAN HAPPEN HERE

Next Tuesday at noon the Junior Class will assemble under the direction of the outgoing president, Pete Bronson, to nominate and narrow down to two men for each office the men who will do the work of the class during the next year. Even though President Bronson and his associates have labored hard during the year to get the class together to hold a meeting, their efforts have often been in vain. If we judge by the attendance which the officers have been able to muster for majority of meetings this year, the election of key men for the class of 1937 will be done by a small portion of its members.

No one can deny that the business to be brought up at the meeting in the YMCA Tuesday is of the

highest importance, not only to the juniors, the rising seniors, but to the entire student body.

The officers, president, vice president, secretary-treasurer, of the class, the editor and business manager of the *Agroneck*, are to be nominated in the sessions Tuesday (the class officers from the floor; the publications men by the publications board) and narrowed down to two contestants for each office for a secret ballot vote on Wednesday.

These officers are the ones who will lead or retard the Senior Class next year, and everyone realizes that the graduating class is the most important student group in college.

We urge that every member of the rising Senior Class take the opportunity that is his, to vote. We believe that it is possible for the Junior Class to gather and decide its policies in mass, not with just a bare handful. We have confidence that if the juniors will only do their best to help get others and be there themselves, the business of the class can be settled in a swift and satisfactory manner. We see no reason why the men cannot get together and transact their business. THE TECHNICIAN believes that it can happen here, that a full attendance can be had if every one does his part.

Juniors, the rest of the students are watching you to see whether you will do your duty. Juniors, be present at the class meeting to be held in the State College YMCA next Tuesday at noon. Vote! We don't care who you vote for, but vote!

### LIVE OR DIE?

Sergeant Alvin C. York, whom General John J. Pershing spoke of as the greatest civilian soldier of the World War, made a very strong plea for peace in his address before the Freshman Assembly yesterday at noon in Pullen Hall.

We have commonly thought of York in connection with the glories and valor of war, yet yesterday he made a plea to the student to help enact legislation to keep the United States out of foreign wars.

We have often asked ourselves the same question, who does war benefit? Does the shrapnel-torn soldier who lies under the greensward derive any benefit from war? Does the blinded, shell-shocked, mentally deranged, veteran enjoy the fruits of his sacrifice? Does the man who was torn away from home to fight a foreign battle in a foreign land, and who returns to the United States whole, but impaired in mind, get repaid for his labor?

Certainly we do not think that the dollar-a-day soldier was content to call the greenback his fair and just reward for fighting in muck, mire, blood, and dead men.

No, the profit which was made from the war was not distributed among the men who did the fighting. In fact, it was not even distributed among those who had reason to claim a just share, but went wholly to those who did nothing but invest their money (or someone else's) in the munitions, and other war industry.

We firmly believe that the United States stands little chance of an actual attack by outside enemies. We believe that the United States can keep out of a foreign war by refusing to aid either belligerent in case of a war in Europe (or anywhere else for that matter); but we believe that Uncle Sammy will inevitably be drawn into war if he begins to barter with either opposing force.

Why should the mothers and families give their sons and fathers to the ruthless war god Mars for sacrifice on his altar of greed in order to line the pockets of the already rich? Do you believe in giving yourself in order that another man can make money? Neither do we, so let's keep the United States out of foreign alliances which will lead on toward war. Let's keep Uncle Sam's nose out of other people's affairs.

### THE CAMPUS BEAUTIFUL

This issue of THE TECHNICIAN carries a story of the final grant of funds to N. C. State College for permanent improvements and the planned disposition of the appropriations.

We wish to compliment the administration, headed by Col. J. W. Harrelson, for the splendid and efficient work that they did in preparing required appropriations and in showing the legislators the actual need for the grants. Also, Professor M. E. Gardner and his committee on buildings and grounds should come in for their fair share of the credit for their work in planning the improvements which are to be carried out.

Professor Gardner's committee has done, and is doing, excellent work in studying the building and grounds situation as it exists at State and preparing for a permanent solution of the problem.

But as Professor Gardner pointed out, the final verdict as to whether State College shall have a more beautiful campus lies with the students. If they do not realize the value of the improvements and strive to protect the newly planted grass and shrubbery from being trampled on, the buildings from vandals, the program can gain little headway since the work will be one of replacement; costly and unsatisfying.

The administration has already made great headway even with the small amount of money that has been available toward improving the campus. We hope that with the new building and the other improved ones, they will be able to do many times the work that has been done.

State College is on her way toward a more beautiful and attractive campus. The final decision as to the outcome of the program of beautification lies with the students. Let each individual man make a resolve that he will not be the one to hold back progress, but to further it!

## HERE and THERE

By DICK MACKENZIE

Well, "Beechie" Gaither was in his seventh heaven when the Beech-Nut Circus pulled up in front of the cafeteria last Friday, with girls in bright red dresses of the gay nineties handing out "sweets" manufactured the Beech-Nut way. From the way the State politicians scrambled for those sweets, I'd say that the way to a man's heart is through a chew of gum.

Through the moon light of the past nights has come the clear call to the faithful worshippers of Venus. At least that is my deduction after standing in the gateway watching the host of "Romeos" dashing gallantly off to woo some fair maiden. I don't care to discourage any parsons but with every tick of the clock the exam time draws nearer, and if you want to be absent on summer school registration day, you had better remove the old dust and scan through the pages.

E. E. "Heart Breaker" Frink, while out seeking a little romance on the dam at Camp Nawakwa, chanced upon a fair damsel. Wishing to start the conversation Frink says, "Isn't that moon beautiful?" The girl somewhat astonished replied, "I'll have you know that I'm no romantic sister, and if you touch me, I'll hit you in the head with a merritt."

Rerrick Davis was seen strolling around the campus sans trousers last Tuesday night. I wonder if this is the same affable professor is that contagious, or if it is just a new "style."

David Ramsey, vice-prexy, was suffering no little embarrassment when Farmer in the Dell in the cafeteria during the Phi Psi initiation Thursday night. It seems that the boys wished being the cow off on him. Maybe David'd rather be the cow than the goat.

The tepsichorean enthusiasts have had a bit of repose since the college social calendar has not slated any such activities for the past two weeks. It is just a good chance to get prepared for the Military ball next week-end.

George "Hog about it" Norman changed his name to "I'm no hog about it" after he fell into a knee-deep puddle of mud early Sunday morning. If anything can make you change your "motto" I imagine that falling into a mud puddle would be most effective.

### AS WE SEE IT

By JOHNIE BING

I wish it were possible to turn the clock ahead until the middle of next month. I really believe that such an action would save many a person from going completely insane. By then, both the Coronation and the Phi Psi Supreme Court decision will be over. Reports from official Washington indicate that the Court question will be brought up for a deciding vote not later than the middle of May. By turning the clock ahead, all the yoww that will be heard until then would be foregone.

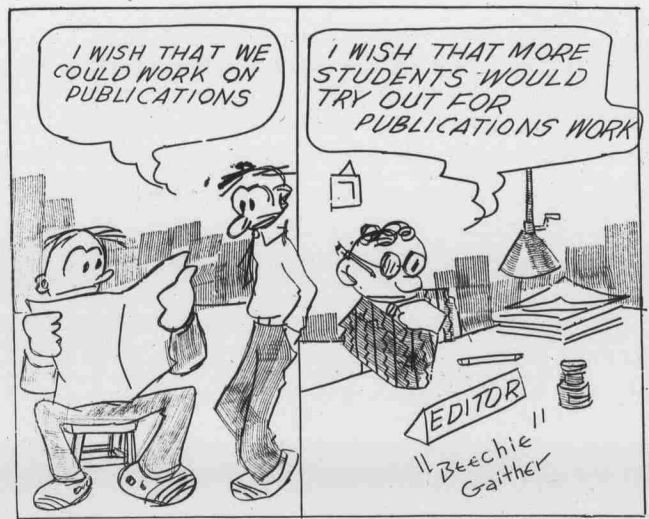

This Coronation business is undoubtedly the best tourist attraction any foreign nation has had in many a moon. It seems as though everyone is going over, including Maggie, Jiggs, and Dinty Moore. It looks like I'm going to be the only one left over here, and I'm feeling lonesome already. Even though a lot of Englishmen are flocking over here to preserve their sanity, I still crave the company of my own countrymen.

It must be the pageantry that the Coronation has to offer that entices all the people over there. I know, speaking from the Yankee angle, that it isn't our special love of Britain that is the attraction; we told them twice, in rather strong ways, what we thought of them and their monarchs, and have reminded them numerous times to meet their obligations. So, it must be all the pomp and ceremony attendant to such a pageant. I grant you that it will be a good show, and I'd give my eye-teeth to see it, but why can't we have something like that over here just as well, and keep all that money at home?

The inauguration of the President of the United States could be made over into a show that would really be worth seeing. There are plenty of people that see the inauguration anyway, and an enterprising person could buy up all the frontage and charge fifty dollars a seat to see the parade along Pennsylvania Avenue. The number of spectators allowed in the plaza at the capitol could be limited, and that would make them all the more desirous to get in. People from all over the world would flock in to see the show.

As a climax (I realize that we would have to forego the crowning ceremony) the Chief Executive and the Chief Justice, who administers the oath, could indulge in a bit of a knock-down drag-out debate on the subject of who is to be the real boss during the next four years; the winner to take all. Let the spectators be the judges as to who wins, and let that decision stand. Just think that over. Such a plan as that would allow our people to stay home and see a really good show; there would never again be a Supreme Court question; and King George could live a life a little less like a goldfish in a glass bowl. Above all, I wouldn't lose what little mind I have left, worrying about those two topics. That's what's really important!

### Let's Get Together!

### The Open Forum

This is a department available for the free expression of the views of the students. Contributors are requested to confine their articles to a limit of not more than 500 typewritten words. Such views as may thus be offered and accepted are by no means to be interpreted as necessarily supported by the editor. The right to reject all such contributions in whole or in part in the interest of conformity to standards is reserved. Abusive, vicious, and inflammatory views will not be published.

April 26, 1937.

Editor of THE TECHNICIAN:

N. C. State says that it is a progressive college. A certain professor on this campus advocates the use of the Wasserman tests for every student, professor, stenographer, and every person who is connected with the college. This is one of the most progressive moves that could be promoted on this campus.

Dr. Leiby of the N. C. State Health Department says that the dreaded venereal diseases are about eight (8) times more prevalent than T.B. or typhoid fever. We try to stamp out other contagious diseases, but why don't we treat venereal diseases as highly contagious and stamp them out?

Did you read the article about the Charlotte baby who has a case of syphilis? Surely you would not want this to happen to one of your loved ones! Then let N. C. State be a leader and start a movement to stamp out these dreaded diseases.

T. H. S., '40.

### Reporter Makes Proposal for Revolutionizing Swing

(Continued from page one)

So! That hit the spot, didn't it? If we must stand and look, why can't we have something to look at? Some foreign nation has had in many a moon. It seems as though everyone is going over, including Maggie, Jiggs, and Dinty Moore. It looks like I'm going to be the only one left over here, and I'm feeling lonesome already. Even though a lot of Englishmen are flocking over here to preserve their sanity, I still crave the company of my own countrymen.

So there it is; I'll have to dodge the little lady for a long time for this suggestion, but it's worth it. I'm all for starting the STPGOFUM (Society for Procuring Girl Orchestra For Us Men), and so give us a chance to get something for the money we spend on dances. Not that Hal Kemp, and others, aren't the tops so far as I am concerned. They are fine for dancing to, but if it's looking the girls want as well, and keep all that money at home!

### Memorial Plate to Adorn Peele

(Continued from page one)

also the language department. It was built through appropriations from the state legislature. The plaque was made in the foundry department of the college and the lettering is in block style. The tablet will be placed just inside the main entrance to Peele Hall.

The next project that the Tau Beta Pi is taking into consideration is the placing of a sun dial in Cedar court, but this will not be done until next year.

### JUDGING TEAM ATTENDS SOUTHEASTERN CONTEST

The livestock judging team left for Knoxville, Tennessee, last Tuesday morning to represent State in the southeastern livestock judging contest which is to be held there.

The judging team consists of E. W. Forbes, J. S. Veiverton, Sam Williams, H. G. Snipes, J. W. Pou, and Dan Holler. The group was accompanied by R. E. Nance and J. M. Haig, coaches of the team.

The judging group left State several days earlier than necessary so that they could stop at several large livestock farms enroute to Knoxville and continue their training. The

three students who will represent State's judging team in the contest will be chosen at the completion of the training period from the record that they have made during the period of training. However, each of the six members will be able to compete for individual honors in the judging competition.

The colleges that will compete in the contest will be from Virginia, South Carolina, Tennessee, North Carolina, Mississippi, and probably Kentucky and Florida.

The various teams will judge horses, mules, beef cattle, sheep, and swine. The final scores will be based on the basis of one-half on placings and one-half on oral reasons for the team's choice.

# State-William And Mary Engagement Rained Out Yesterday

## Doakmen Have Success On Extended Road Trip

### State Defeats North Carolina and Washington and Lee But Drop Game to VPI

After having stopped the wandering State team from playing VMI last Tuesday, the rain again intervened yesterday and halted the scheduled game with William and Mary at Williamsburg, Virginia.

The baseball team received a severe blow just before leaving on their trip, when they lost the services of Walter Rabb and Red Blount, for the remainder of the season. The loss of Rabb, valuable to the team, and Blount, the outstanding fielder on the club and also produced many of the games winning bingles for the team.

New men have filled nicely into the vacant spots and again Mr. Charlie Doak has a well oiled machine. Jimmy Barb has held down shortstop in a fine way and although his hitting is not quite up to that of Rabb's, he has done well at bat. The rest of State's pitching staff have taken a little more burden on their shoulders and have filled in the gap left by Blount's removal.

The club is now in third place in Big Five standings and has a good chance of overtaking their Wake Forest rivals who were knocked out of their first place position by successive losses to Duke and Carolina.

By grace of the rain, the Doakmen got an early start for Raleigh and landed back home at six o'clock Tuesday afternoon. They can now set down to a five day rest and on Tuesday must pick up their cleats again and meet the Davidson Wildcats here in the first of their two game series. The second game is set for Wednesday.

The Techs have done rather well against the 'Cats so far this season, winning both of their encounters. However, Davidson has come along in a big way since the start of the season and can claim several major victories, among them a win over the Carolina Tar Heels.

### BERRY TOUGH ON HEELS

With Connie Mac Berry on the mound, State College's baseball team blanked Carolina in a 5-0 triumph Friday at Carolina.

Connie Mac, from start to finish held the game in his own glove. Only twice did he find himself in a tight spot. Berry turned in his best performance of this season allowing Carolina only six hits, making three strikeouts, and passing only four men.

Taking advantage of Bann Hear's weak start as pitcher for Carolina, State's batsmen piled up five runs in the first inning. Hear's tightness down in the fourth and held the Techs scoreless from there to the end, but he had waited too long.

This victory over Carolina gave State their third win in seven Conference starts, and earned for them the middle position in the ranks of the Big Five.

State College's stellar center fielder, Uriah Norwood, was the only State man to reach Hearn for more than one hit. Norwood had a double and single to his credit out of four trips to the plate. Bill Mann and Eddie Berlinksi showed up nicely also, the former with a triple and Berlinksi with a double.

Ruffner picked a six hit game, allowing the Techs only one run up until the eighth inning. In the seventh frame, Ruffner, to make assurance doubly sure, stepped up to the plate and smacked a home run into the left field stands. This proved to be the winning run for Virginia Tech. State College attempted a rally in the ninth frame, which garnered two runs, but this was not enough to overcome the lead of one run given VPI by Murray's circuit drive.

N. C. State	5	R	H	E
Carolina	0	6	3	0

### RUFFNER BEATS DOAKMEN

A home run by Ruffner Murray of Virginia Tech led to a 4-3 victory for VPI over State College at Blacksburg, Va. last Monday.

Ruffner pitched a six hit game, allowing the Techs only one run up until the eighth inning. In the seventh frame, Ruffner, to make assurance doubly sure, stepped up to the plate and smacked a home run into the left field stands. This proved to be the winning run for Virginia Tech. State College attempted a rally in the ninth frame, which garnered two runs, but this was not enough to overcome the lead of one run given VPI by Murray's circuit drive.

### STATE TAKES SLUGGEST

Washington and Lee almost upset the dope cart last Wednesday afternoon, by giving the State baseballers a close battle before losing 12 to 10. It was a slugfest all the way with a total of 36 hits and 22 runs being rung up. Although the batters were tough on the hurlers, only one General and two State moundmen saw action.

Lefty Hart started the game for State and was handed a nice lead in the first when the entire Tech team batted around in an eight hit-seven run ory. The Generals came right back and hopped on Hart for four runs in their half of the first canto.

From then on it was a matter of who could hit the hardest. Steele replaced Hart in the second and held the Washington and Lee men to only one other large inning, that one coming in the sixth when four more runs crossed the platter.

State was doing pretty well at bat also, scoring four in the fifth and then getting one more in the ninth to sew up the game.

### SPORTS GLIMPSES

By CLARENCE GALE

The rumor came floating around, as rumors will, that Mac Cara would turn pro and go into pro football next year. I asked him about it and he admitted as much. Mac will go with the Washington Redskins, formerly the Boston Redskins, Eastern champs last year, of the National League. He's due to report sometime in August. Good luck, Mac. . . . Sympathy to Louie Marks, who broke his jaw in the last five minutes of spring football practice three weeks ago. Louie's jaws are wired together with so much wire that he appears to be a walking screen. All that he can include on his menu at the present time is soup, but I heard Herman Hickman, varsity line coach, offer Louie a nice, thick, T-bone steak "on me" when the wire is removed two weeks hence. Maybe it's worth it.

I've been accused of not making the column long enough two or three times and I wish that I could make it more local than it is, but what with the scarcity of column news around here, I just can't fill the whole piece without going to other papers and delving a bit. If some of you fellows would tip me off to things new and then, I might be able to do better. Anyway, the two items mentioned above were the best that I could dig up this week. . . . And so for some more delving. . . . Both of the recent heavy-weight fights in England have taken a bad turn for the folks here on this side of the Atlantic. First Max Baer was knocked off and then King Levinaky. Neither rated much over here, but apparently, neither did the boys that they fought. I heard the broadcast of the Baer fight and it was interesting to hear an English sports announcer doing his stuff over the air waves. His use of the King's English at all times made the account quite different from most of ones we hear on this side. . . . Another local gem. Fred Dixon, high-pressure publicist for the athletes here at State, is now a convicted man. I strolled in Fred's office Wednesday and there sat one of the local gendarmes preparing to write out a ticket for Freddie. He didn't have a pencil, so I obligingly let him borrow mine. Fred's pall Fred tried to alibi his way out of the charge, by saying that his car just picked up and double-parked all by itself, but it was no use. The Johnny gave him the slip anyway. . . . The rumor came floating around the same time the one concerning Mac Cara did, but I held off printing it until I could check the information definitely and find out just what the outcome would be. The rumor was that Alex Regdon had received a contract to play pro football with the Pittsburgh Pirates of the National League. When I first brood him about it, he said that he hadn't decided definitely, but when I saw him Wednesday, he said that he had signed. Both boys, Bill and Mac, are playing in the National League. Wonder if they'll ever tangle on the gridiron on opposing teams. . . . The freshman baseball team's victory string has at last been broken. Greensboro HI did the trick with an easy-ball pitcher who has a bit of control. From where I was sitting, it looked as though the boys were used to faster pitching and were swinging before the ball was half way to the plate. . . . It'll be next Tuesday before you see the Doakmen in action again. Following the present swing through Virginia, they come here for a two-day stand against Davidson Tuesday and Wednesday.

### WARRENITES WIN THEN LOSE TILT

Frosh Win Ball Game With Tar Babies and Then Drop Tilt to Gate City Boys

Bob Warren's freshman baseball team made it six wins and one loss for their record so far when they took Carolina's Tar Babies, 7-4, last Saturday and lost to Greensboro HI, 9-8, on Tuesday. Both games were played here.

The yearlings make their next appearance here tomorrow at 3:00 o'clock when they tangle with Mars Hill.

The Techlets opened the Carolina game with one in the first and two in the second, and although the Tar Babies pushed two across the plate in the third, State counted twice in the fourth to total five runs altogether—enough to win the ball game.

Washam and Holshouser led at bat in the Carolina game, the former getting a single and a homer for two trips and the latter getting the same for four trips. Holshouser, on the mound for the Techlets, struck out 13, walked 8, and allowed 4 hits. Joslin, visiting hurler, whiffed 5, passed 4, and allowed 7 hits.

Greensboro started the scoring in the Tuesday game, by counting three times in the first two innings. The Techlets came back in the third to score five runs and take the lead, but not for long.

In the fifth, the Gate City boys counted six runs to capture the lead again, and finish their scoring for the day. The Techlets tallied three more runs in the seventh and eighth, but they weren't enough.

Brown and Holshouser were on the mound for State.

The State-Carolina score:

Carolina	002	010	010	—4	5	4
State	000	120	010	010	—7	9

The State-Carolina score:

Greensboro	210	060	000	—9	10	8
State	005	009	120	—8	6	4

### DALE CARNEGIE'S BOOK IS REVIEWED AT PEACE

By special request, the Forum of Public Opinion repeated their "Living Book Review" of Dale Carnegie's best-seller, *How to Win Friends and Influence People*, Thursday, April 29, at Peace College.

Thirty students took part in this innovation in mass speaking, all having received training as part of the extra-curricular speech program sponsored by the Forum of Public Opinion speaking here. The appearance at Peace College Thursday night was their second performance, the first having occurred March 9 in the YMCA Auditorium at State College.

During the 1936-37 school year, over 130 students have received coaching and extra-curricular speech experience. This number places State College among the three or four leading schools in the nation not only in their forensic record in inter-collegiate competition, but also in the number receiving individual instruction.

H. R. McSwain acted as chairman for the review. The following students participated: J. T. Lee, G. H. Herring, T. W. Yarborough, W. L. Foster, L. S. Satterfield, L. A. Fletcher, J. L. Sullivan, R. A. Loos, J. G. Frink, H. Zekaria, W. B. Freeman, R. S. Smith, R. S. Marsh, E. L. Hobbs, Helen Scott, Natalie Hic, P. Phrydas, P. J. Lyery, L. H. Hall, J. T. Frye, M. O. Lawrence, R. B. Coleman, J. W. Fredericks, C. S. Harris, J. S. Campbell, L. H. Abraham, T. S. Harrel, J. R. Smith, J. A. Worell, and S. B. Moss.

### NOTED MEN MAKE TALK BEFORE TEXTILE GROUP

Outstanding Textile Chemists Address Local Chapter of AATCC at Meeting

Two outstanding chemists spoke to the meetings of the local chapter of the American Association of Textile Chemists and Colorists last week, and explained many of the operations of textile dyeing to the students.

At the meeting held on April 17, the chapter was addressed by William H. Cady of the U. S. Finishing Co. and president of the AATCC. Cady spoke to the members on the finishing processes, including softening, trubenizing, and embossing.

At their meeting last Friday the chapter heard Ben Verity, research and demonstrating chemist for the Carbic Color and Chemical Co. He spoke mainly on the processes of screen printing, and explained the dyeing and printing operations. Verity also mentioned some of the new dyes that had been developed.

Both of the speakers were highly noted in their particular field, and they both were interesting and educational to the group.

### FORTY-FOUR STUDENTS PASS SWIMMING COURSE

Forty-four students, comprising the largest Life Saving class ever to be held at State College, this week completed their training course in Senior Life Saving.

The course was held at the college pool under the direction of George Getz and William Retter.

Those passing the course were: S. C. Holmes, R. B. Eakins, T. E. Gerber, S. F. R. H. Reynolds, J. T. Madero, W. F. Koon, E. H. Johnson, H. G. Davis, U. Tommola, J. W. Fredericks, H. E. Rooney, H. C. Persinger, R. T. McNeely, B. B. Redmon, J. P. Powell, J. B. Carraway, W. F. Phillips, E. M. Lockhart, J. B. Griffin, J. S. Wicker, J. M. King, S. Whiteside, J. W. Wilkinson, J. W. Proffitt, G. B. Dewey, J. E. Michael, F. H. Wyman, F. O. Smith, A. R. Saltzman, G. J. Bell, W. C. Snow, J. C. Ruark, E. O. Hudson, J. Sapero, J. R. Smith, B. L. Ross.

A general rally in the eighth by making a fine running catch of Frazier's long drive to right centerfield.

The yearlings make their next appearance here tomorrow at 3:00 o'clock when they tangle with Mars Hill.

The Techlets opened the Carolina game with one in the first and two in the second, and although the Tar Babies pushed two across the plate in the third, State counted twice in the fourth to total five runs altogether—enough to win the ball game.

Washam and Holshouser led at bat in the Carolina game, the former getting a single and a homer for two trips and the latter getting the same for four trips. Holshouser, on the mound for the Techlets, struck out 13, walked 8, and allowed 4 hits. Joslin, visiting hurler, whiffed 5, passed 4, and allowed 7 hits.

Greensboro started the scoring in the Tuesday game, by counting three times in the first two innings. The Techlets came back in the third to score five runs and take the lead, but not for long.

In the fifth, the Gate City boys counted six runs to capture the lead again, and finish their scoring for the day. The Techlets tallied three more runs in the seventh and eighth, but they weren't enough.

Brown and Holshouser were on the mound for State.

The State-Carolina score:

Carolina	002	010	010	—4	5	4
State	000	120	010	010	—7	9

The State-Carolina score:

Greensboro	210	060	000	—9	10	8
State	005	009	120	—8	6	4

## 'MURAL MUSINGS

By GEORGE BETHELL

The Intramural fraternity track meet Wednesday afternoon was the sport highlight on the campus this week. The meet was closely fought throughout the afternoon and every one was in doubt who had won until the results were totaled.

The Pikas came out first leading their nearest opponent, the Pi Kappa Phi's by only one and two-thirds points. The AKPI's were third and the Kappa Sig's came in fourth.

The Pikas won the meet with 33 2/3 points to gain a total of 163 2/3 points toward the Intramural cup. The Pi Kappa Phi's were second with 32 points to gain a total of 127 points toward the cup. The AKPI's were third with 21 points to gain a total of 101 points. The Kappa Sig's, third with 9 points, gained 79 points toward the cup.

In the high jump Harris (Pika) and Honeycutt (AKPI) tied for first place at 5 feet 3 inches. Sallinger (Sigma Nu), Brown (Sigma Nu) and Peele (SPE) tied for third place.

In the baseball throw Harris (Pikas) was first with a toss of 101 feet. William (AKPI) was second and Clark (Kappa) was third.

Scales and Walden (Pikas) and Brown tied for first place in the broad jump at 18 feet 7 inches. Crawford (Kappa Sig) was fourth with 15 feet 6 inches.

In the shot put Helms (Pi Kappa Phi) took the honors with a heave of 45 feet. Crawford was second with 42 feet. Dossenbach (Delta Sig), third with 40 feet 11 inches.

In the football kick Honeycutt (AKPI) was first with a punt of 69 yards. Laughlin and Helms (Pi Kappa Phi's) were second and third.

In the discus Helms surpassed all his opponents by fifteen feet with a throw of 121 feet 4 inches. Crawford (Kappa Sig) and Anderson (AKPI) were second and third.

### RIFLEMEN GET VICTORY IN LAST MATCH OF YEAR

State Takes Georgetown in Its Last Match as a Venable-coached Team

The varsity rifle team put a fitting climax to the last of the 1937 series of matches when they beat Georgetown U. 1329 to 1320 on State's remodeled range last Saturday morning.

The State team, aided by new sights that the military department had just put on all the rifles, led the firing with Clapp and Holloway getting two possible scores firing prone while Lewis, manager and outstanding marksman of the visiting team, also scored one prone possible. Lewis also shot the highest score of the visiting team, thereby tying Warren of State with a score of 272 out of 300 points.

The scores for State were: Warren, 272; Hayworth, 267; Whitley, 266, and Holloway and Clapp, 262. Georgetown's scores were: Lewis, 272; Switzer, 268; Lachman, 267; Spalding, 260, and Fleury, 253.

This final match, besides ending the rifle season, is an appropriate finish to the coaching career of Major B. W. Venable who has guided the freshman and varsity teams of State College through three of the most successful seasons the teams have ever had. The Major's tour of duty at State will be up at the end of this semester and he will be transferred to some other military post to continue his active duty in the regular army.

Major Venable first saw State when he arrived for duty as a member of the staff of officers of the Military department of this college. Since that time he has not only guided the rifle team through some of their most successful seasons, but has established a reputation as one of the best natured and most respected officers and professors on the campus.

The rifle teams will not remember the Major for the number of matches that they were won or lost during his period of coaching as much as they will the Saturday night suppers and friendly individual matches for prizes that he inaugurated.

### ADVANCED LIFE SAVING WILL BEGIN NEXT WEEK

Life Savers Examiners' Course Will Begin at Gymnasium on Next Monday

The annual Life Saving Examiners course for State students will begin Monday night at the pool in the Frank Thompson gymnasium.

The examiner's course is given to provide the Senior Life Savers the opportunity to continue their work in this field, and also to enable them to become summer life guards at pools and beaches. The students will also be able to teach life saving in their home communities.

The course will be under the direction of C. C. Stott, who last summer served in the capacity of field representative for the American Red Cross. All men must undergo a two week training period on Monday, Wednesday, and Friday nights before they will be an examiner. All senior Life Savers who are interested are asked to report at the pool at 7:30 Monday night.

### MECHANICAL ENGINEERS SELECT NEW OFFICIALS

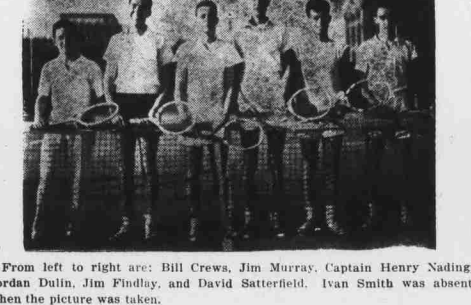

The ASME held their annual election of society officers in Page Hall last Monday night and followed the election with a special meeting to consider when would be the most opportune time for the group to hold their yearly banquet.

The 1937-38 officers installed at this meeting were: W. H. Fisher, president; S. D. Rogers, vice president; H. S. Overman, Engineers' Council representative; M. C. Brennan, secretary; J. W. Hollis, treasurer; and R. A. Loos, alternate Engineers' Council representative.

The final plans for the banquet, as agreed upon by the group, reveal that the celebration will take place at the Carolina Pines Inn on May 12; further details are not, at present, available.

A new ruling was also passed at the meeting. This ruling requires all candidates for offices of the society to be present during the election. Otherwise, their names will not be voted on.

## State Net Team

From left to right are: Bill Crews, Jim Murray, Captain Henry Nading, Jordan Dulin, Jim Findlay, and David Satterfield. Ivan Smith was absent when the picture was taken.

## 'MURAL MUSINGS

By GEORGE BETHELL

In the 100 yard dash Gibbs (Pi Kappa Phi) was first—time 10.3. Scales (Pika) and Lovelace (AKPI) were second and third.

In the 60 yard hurdles Gibbs (Pi Kappa Phi) was again first, time 7.4; Blackwood (AGR) was second; with Schriber (Pika) and Mann (Sigma Nu) tying for third place.

The Pika team of Bandy, Norman, Remmey, and Scales came in first in the 400 yard relay, time 45.3. The Pi Kappa Phi's and the AKPI's came in second and third.

In soft ball there were four games played in each league. In the fraternity league the AKPI's defeated the ALT's, 18-10. Barthelme and Kugler were the battery for the winners. One of the bright spots of the game came when Honeycutt, AKPI short stop forced a man at second and then pegged the ball over to Anderson, AKPI first baseman, to make a double play.

In the other games this week the Theta Kappa Nu's licked the Lambda Chi's, 20-12; the Pi Kappa Phi's defeated the Sigma Nu's, 6-4; and the KA's forfeited to the Pikas.

In the dormitory league 3d South defeated 6th Dorm, 16-4; 2d 1911 beat 2d South, 20-18; 3d 7th licked 2d 7th, 19-11; and 5th Dorm defeated 1st Watauga, 11-9.

In the semi-finals of volleyball ball 2d Watauga will play 1st Watauga, and 1st 1911 will play 3d South. The SPE's will play the AKPI's. The winner of the Pika-Lambda Chi match will meet the winner of the Kappa Sig-ALT match in the semi-finals.

In intramural tennis the Pikas are to play the winner of the Lambda Chi-ALT match in the semi-finals and the AKPI's are to meet the Delta Sig's, 1st 1911 will play the winner of the 2d 1911-6th Dorm match, and 2d Watauga will play 1st Watauga.

### SGT. THOMAS IMPROVES THE STATE RIFLE RANGE

"State now has the best equipped rifle range in the South," stated H. C. Thomas, supply sergeant and assistant coach of the State rifle team, when he was asked how the newly renovated rifle range rated in comparison with other ranges in the United States. Sergeant Thomas revealed that "if the range were only about 20 feet longer we would have one of the best shooting ranges in the country."

Sergeant Thomas and his ROTC assistants have worked hard and are quite a bit of the military department's money in remodeling the range in the basement of the gymnasium in order that the State team might have the best equipped, the cleanest, and the safest shooting range in this part of the country.

The main improvements that have been added to the gallery are: a non-reflecting target curtain in front of the deflecting plates of the backdrop, better vision due to brighter and more numerous lights placed out of the way of the firing, new canvas covers on the firing mats, adjustable target holders that can be adapted for firing prone, sitting, or standing, and can be pulled back to the firing point without endangering the man firing, and places enough for a 10 man team to fire simultaneously in all positions.

## GOLFERS TEE OFF IN BIG FIVE MEET

### Major Venable's Linkmen Meet Big Five Teams This Morning at Greensboro

This morning promptly at nine o'clock the State College golf team will tee off on the Sedgefield Country Club Course, Greensboro, N. C. in a tournament that will bring together representatives of the Big Five colleges and other teams from all over the state.

This state meet is an annual affair and gives rise to some of the keenest competition to be witnessed during the golfing season.

The tournament was won by Duke University last year and they are again favorites this season. State College will enter the meet as the dark horse and may upset Duke's apple cart. The Tech's only defeat this year was at the hands of the Blue Devils, who trimmed the State boys on the Duke home course. A different ending may result if the two teams should meet on a course unfamiliar to both.

Tommy Card, State No. 1 man, who was runner-up for medalist honors in the tournament last year, is looked upon to claim first place honors this time. State College will be represented by Tommy Card, Key Scales, Earnest Remmey, Marion Palmer, and Dick Oliver.

State College will resume its play here at the Carolina Country Club links next Monday with Citadel. The match will begin promptly at one-thirty o'clock, and it is urged that the student body be represented in the gallery. From all prospects this play should prove very interesting to the spectators.

### TECH NET SQUAD DEFEAT DAVIDSON

### Jordan Dulin Leads Mates to One Point Victory Over Davidson Wildcats

The State net team defeated Davidson last Tuesday afternoon in a Big Five match by a 5-4 count.

The matches were close all the way with both sides winning their share of the sets. It wasn't until the last two sets in the doubles had been completed that State was able to gain the lead. State won both of these sets, first tying the Wildcats and then gaining a one point winning margin.

Jordan Dulin was the real hero of the afternoon with his victory over Davidson's Kennedy. Both of these men were freshmen the same year and in Frosh competition Kennedy had always been Dulin's superior. Dulin won 7-5, 3-6, and 4-6.

Other results, with Davidson men listed first, were: Carlson defeated Smith, 6-3, 6-3; Frampton lost to Murray, 6-3, 4-6, 5-7; Boggs defeated Captain Nading, 6-3, 6-4; Reinhardt defeated Crews, 6-4, 6-1; Woodward defeated Findlay, 6-3, 6-4.

Carlson-Kennedy defeated Nading-Crews, 6-0, 6-4; Woodward-Boggs lost to Smith-Satterfield, 7-5, 3-6, 2-6; Reinhardt-Frampton lost to Dulin-Murray, 2-6, 1-6.

The Tech netters also won a match when they defeated the Emory team in Atlanta last Friday by a 7-2 count. The winners for the State team were Smith, Murray, Captain Nading, Crews, and Satterfield in the singles and Crews-Nading and Findley-Satterfield in the doubles.

There are no scheduled matches for next week but there is a possibility that matches with Wake Forest and Washington and Lee may be arranged during the week.

# SOCIETY

### May Dances

State College's dancing contingent will welcome the socialites of next week-end when the tenth annual Military Ball will take place on Friday, May 7, and the fifth annual Kappa Alpha-Kappa Sigma dances on Saturday, May 8.

Don Gregory and his Orchestra will furnish the music for both dances and will feature the singing of Virginia Lee.

The committees for both dances have made arrangements for attractive decorations in the Frank Thompson Gymnasium. Friday night's dance will feature the senior military figure at which time all senior cadet officers will present their dates with attractive favors.

Kappa Alpha and Kappa Sigma will give a tea dansant Saturday afternoon followed by a joint banquet at Carolina Pines. At the evening dance, members of the two chapters and their dates will take part in an attractive figure.

Sponsors for the Military Ball will be Miss Loretta Sweet of Mount Holly with Cadet Colonel Fred Connell; Miss Mary Richardson of Raleigh with Cadet Lieutenant Colonel Clarence S. Gale; Miss Annie Connolly of Elberton, Georgia with Cadet Major Mario Connolly; Miss Frances Knott of Raleigh with Cadet Major Cecil Pendleton; Miss Beverly Fulwider of Raleigh with Cadet Major Joseph P. Ryneka; and Miss Natalie Johnson of Raleigh with Cadet Major George Estes.

The following young ladies will sponsor the Annual Spring Frolic dances of Kappa Alpha and Kappa Sigma — Alpha Alpha: Miss Mary Glenn of Washington, D. C., with T. T. Allison, Jr.; Miss Charlotte Ruffer of Raleigh with Hall Morrison, Jr.; and Miss Dorothy Thurman with E. A. Quintard. Kappa Sigma: Miss Jean Poe of Raleigh with George Ross, Jr.; Miss Becky Williams of Raleigh with Jack G. Gaw; and Miss Mary Haynes Robinson of Wilson with A. R. Blackburn.

### Theta Tau

Thursday night, April 22, Rho chapter of Theta Tau, professional engineering fraternity, entertained at a smoker in the YMCA. The smoker was held for one of the national officers, D. D. Curtiss of Clemson College, and also in honor of fourteen new pledges.

Each year the local chapter endeavors to have one of the national officers visit the group, and this year Curtiss is making a trip through the south visiting chapters of Theta Tau. He is going to the University of Virginia from State.

Special guests for the occasion were Professor Frank E. Turner of the mechanical engineering department and Professor Harry Tucker of the highway engineering department.

After the social meeting, the members held a business meeting, at which time the date of the initiation was set about the second week in May, and plans for a banquet were made.

### Sample Bazaar

The Hostess Committee of the Rex Hospital Guild will sponsor a sample bazaar at the Woman's Club Tuesday, featuring cake walks every half hour with a cake as prize each time, fortune telling, free samples, sweet music, and beautiful sponsors.

Chewing gum, candy, cosmetics, tobacco, and cereals will be given away from commercial booths, while soft drinks and ice cream may be purchased at other booths. The bazaar will be open from 4:00 to 7:00 and from 8:00 to 11:00 o'clock Tuesday, with a small admission charge at the door.

The event is being staged for the benefit of a fund to be administered by the hostess committee to help furnish parts of the new Rex Hospital. The committee announced that numerous popular girls of Raleigh will act as sponsors for the affair.

## GROUP TO DECIDE COLLEGE RATING

### Engineering Council for Professional Development Reviews Engineering School

The Engineering Council for Professional Development visited the State campus Wednesday for the purpose of determining the rating of State College as an engineering school. The council, composed of outstanding engineers and professors, made a complete survey of the curricula, equipment, and general set-up of the entire Engineering School. They were also furnished with complete information concerning each department of the school, and from these facts they formed a rating of the engineering department.

**Grade to be Given**  
The grade given to State will not be known, however, for a long time, but according to Dean W. C. Riddick, head of the School of Engineering, the council was given a favorable impression.

The council, after reviewing the school, will present their report to a general committee, who will determine the rating of the engineering department of this school as compared with the standings of various other schools that they will visit. This grade will show how State College stands compared to all of the larger colleges in this country.

**Prominent Men**  
The engineering council was composed of Dr. H. A. Curtiss, of the TVA, chairman of the committee; Dean B. M. Brigman, University of Louisville; Dean W. S. Rodman, University of Virginia; Professor N. W. Dougherty, University of Tennessee; Professor C. E. Lawall, University of West Virginia; and R. S. McBride of Washington, D. C.

During their review they visited the architectural, ceramic, civil, chemical, electrical, and mechanical departments, and they were accompanied on their inspection by Dean Riddick. The members of the council were special guests at a luncheon given by the administration in the college

### Announcements

The 1937 Agromocks will not be distributed until all bills are paid up.  
George Ashby, Business Manager.

There will be an election of Glee Club officers Monday night at 8:30.  
Robert A. Loos, Secretary.

There will be a meeting in room 208 Polk Hall, Monday night at 8:00 o'clock to welcome back the Livestock Judging Team. All agricultural students are urged to be present.

### HOME OWNERSHIP PLANS BROUGHT OUT BY SCOTT

Commissioner of Agriculture Speaks to Honorary Agricultural Fraternity

The local chapter of Alpha Zeta, national honorary agricultural fraternity, held their weekly meeting Tuesday night, April 27, in the Alpha Zeta room at 7:00, at which time they were addressed by Kerr Scott, commissioner of agriculture.

During his talk Scott emphasized the necessity for home ownership, and brought out its benefits to the country. He took many of the major problems of today and showed in almost every instance that they were created by non-property owners, especially non-home owners.

To encourage home ownership, Scott brought out in his talk the fact that the homestead exemption of \$1,000 would be some encouragement. He also stated that in some states exemption up to as much as \$5,000 was permitted.

The commissioner of agriculture went further to say that home ownership may not be a solution to all problems, but it would certainly solve many of the major problems that now face us.

YMCA, at which time they were given a speech of welcome by Col. John W. Harrelson, dean of administration. A few talks were also made by the members of the council and special guests.

### ROTC UNIT REVIEWED IN ANNUAL MILITARY RATING

Colonel John Rhett of Davidson College Inspects State Military Unit

Results of the annual War Department inspection of the military department here will not be known until a later date, according to information from the military department, but the school military heads are optimistic over the outcome.

The inspecting officer this year was Colonel John T. Rhett, commandant at Davidson College, who will make his report to the War Department, and the military authorities here will be notified by it of State's rating for the coming year. For the past ten years, the College military unit has received a rating of "Excellent," the highest rating awarded.

The inspection covered theoretical and classroom work, and practical problems in first aid and other military subjects were given. Colonel Rhett observed the various units at drill, a battalion parade, and inspected the military equipment here.

Colonel C. S. Caffery, commandant here, is visiting Wofford College at Spartanburg, S. C. this week to conduct a two-day War Department inspection there.

### CONSTRUCTION ENGINEERS SELECT NEW OFFICERS

At a business meeting held Wednesday night, J. W. Brown and E. I. Clancy were elected president and vice president of the AGC for the coming year, and the secretary will be elected in the near future.

New members from the junior and senior classes were taken in, and initiation for these recruits began yesterday and will continue until next Thursday.

All construction engineers from the freshman and sophomore classes will be invited to join or to become associate members of the AGC before the end of the term. Definite plans have not been made as yet for the lower classes, but they will be notified in ample time, and it is hoped that all will respond to the invitation.

### PLUMBING AND HEATING CONTRACTORS TO MEET

The North Carolina Association of Plumbing and Heating Contractors will hold their spring convention in Raleigh on May 4, 5, and 6 with headquarters at the Carolina Hotel.

The business meeting will be held Tuesday afternoon, so that the remaining two days may be devoted to the short course that the College Extension Division has planned.

This short course, sponsored by the Association, will consist of a series of lectures and discussions on topics relative to the plumbing and heating business. Also, various manufacturers will display and demonstrate their equipment in the ME laboratories throughout the course.

The institute and the facilities of State's Engineering School have been offered to the association in the hope that both the college and the association may be benefited.

A banquet will be given Wednesday night in the ballroom of the Carolina Hotel for all attending the convention and the short course.

Col. Harrelson Visits Administrative Dean and Mrs. J. W. Harrelson left yesterday for Newport News, Va. to meet with the Tidewater Alumni Association of Virginia at the James River Country Club tonight.

The Tidewater association is one of the most active alumni organizations of State College with membership made up of State College alumni living at Williamsburg, Norfolk, Portsmouth, Hampton, Fortress Monroe, and Newport News.
