

Thousands Expected To Attend State's Engineers' Fair

Campus Politics Hot As Students Prepare For Primary Election

Last Names Filed In Dean's Office On Wednesday; Voting On April 13 Will Eliminate Low Men In Preparation For Final Elections; Student Government, Publications and YMCA Offices Affected By Coming Polling

By SCOTT BOWERS

The political pinwheel began spinning in earnest Wednesday as the final names which will appear on the ballot of the coming primary elections on April 13 were officially filed in the office of the Dean of Students.

The complete list of candidates will be found in tabulated form, for easier reference, elsewhere in this issue.

In the race for president of the Student Government there will be only two candidates because of the withdrawal of Walter W. Brown of the School of Education, from the running. The runner-up in the final election will become vice-president. The rising junior class will furnish the secretary and treasurer of the Student Government who will be selected from among four candidates.

There will be only two candidates for editorship of The Technician this year, eliminating this office from a place on the primary ballot. The position of business manager of the weekly will be filled from a field of three.

The top office of the Watauga will go unopposed, since only one candidate for each position was able to qualify.

Editorship of the Agromock is uncontested because of the withdrawal of J. P. Sawyer, who was approved for the job. Of the other publications, only the Agriculturalist candidates have been announced.

One senior Athletic Council representative will be chosen from a field of five, supplementing the two seniors who will, as Monogram Club president and Student Body president, automatically become members. From the junior class two representatives will be picked from a field of four.

The YMCA candidates were chosen by a nominating committee. In the presidential contest the runner-up becomes vice-president, while the offices of treasurer and secretary will be chosen separately.

Judging Team Gets In Trim

Twenty-five juniors and seniors in the School of Agriculture are training for the livestock judging team, which is coached by Dr. J. E. Foster and Prof. F. M. Haig of the animal husbandry department.

Practice judging will continue daily until May 5, when a team of four will be selected to represent the college May 6 at the university of Kentucky, Lexington, where the southeastern judging contest will be held. Contestants will be required to judge horses and mules, beef cattle, mutton, sheep and swine.

Students now contesting for team places are W. G. Andrews, J. E. Brown, F. W. Brown, P. L. Brawley, J. C. Bateman, R. R. Boman, F. J. C. Frink, yesterday, R. O. Lackey, E. S. Millsaps, Jr., D. J. Murray, D. H. Purdy, J. C. Pierce, H. G. Snipes, E. L. Shore, J. L. Tunnell, W. C. Thacker, L. E. Thornton and J. C. Von Cannon.

Sidewalk Week Planned Here

Student Council To Begin Drive To Make Students "Grass Conscious"

The Student Council is sponsoring a "Walk on the Sidewalk Week" on the State College Campus next week, announced President J. C. Frink yesterday. In an effort to help beautify the campus and to keep it beautiful, Frink has already met with the members of the junior and sophomore classes, urging them to use the sidewalks instead of walking across the grass. The council is asking the entire student body to cooperate in the movement.

Dates Revealed For Men To Get Room Assignment

Students now occupying rooms in all dormitories except Fourth, Fifth, Sixth and South and third floor Seventh, may retain their present rooms, regardless of class work, by making application at the office of T. T. Wellons, superintendent of dormitories, from April 11th to April 23rd.

The excepted dormitories are reserved for incoming freshmen with exception of first floor Seventh which has been set aside for self-help students only.

The following schedule will apply to all other vacant rooms:

April 25th to April 30th inclusive, members of the junior class who will rank as seniors next year may have their choice of remaining rooms between these two dates.

May 2nd to May 7th inclusive, members of the sophomore class who will rank as juniors next year may have their choice of remaining rooms between these two dates.

May 9th to May 14th inclusive, members of the freshman class who will rank as sophomores next year may have their choice of the remaining rooms between these two dates.

Prices on all first floor rooms 1911 Dormitory, \$7.50 per month each student with the exception of rooms Nos. 101, 104, 108, 131, 132 and 137 and these are \$6.50 per month each student. Prices on all second and third floor rooms 1911 Dormitory, \$8.67 per month each student with the exception of rooms Nos. 236 and 336 and these are \$5.50 per month each student.

Prices on all rooms in Watauga Dormitory are \$8.67 per month each student with the exception of rooms Nos. 101, 102, 105, 106, 113, 117, 118, 205, 206, 305 and 306 and these are \$7.50 per month each student.

Prices on all first floor rooms 7th Dormitory \$5.50 per month each student. Prices on all second floor rooms 7th Dormitory \$8.67 per month each student with the exception of rooms Nos. 203, 204, 221 and 232 and these are \$3.50 per month each student. Rooms Nos. 207, 208, 227 and 228 in this dormitory are \$5.50 per month each student.

Watauga office will remain open from 8 a. m. to 5 p. m. on all week days except Saturday, when it will be closed at noon.

Dean Clloyd Reminisces At Smoker

Describes Early Ventures and Adventures of State Band to Mu Beta Psi Members and Guests

Mu Beta Psi held a smoker in the YMCA Monday night. Thirty men besides the members were present.

The program consisted of talks by Dean E. L. Clloyd, Tom Parks and C. S. Storey.

Dean Clloyd told of many interesting episodes of the earlier State College band activities. Outlining briefly the history of the State band, he described the progress it has made since he was a member. Dean Clloyd was first a member of the band in 1911, when it was strictly an ROTC organization. It played for military parades and athletic contests, but did no concert work.

The first concert band was organized in 1919 by "Daddy" Price, who came to State College as a professor of textiles. Price showed so much interest in promoting music on the campus, and proved to be such an excellent organizer of band and glee club that he was given a full-time job as director of music, the first music director at State.

Blunder Made In Drawings of Chemistry Building

Because of a misunderstanding between the chemistry department and the architect who was awarded the contract for the new chemistry building, the complete plans for the new building will have to be redrawn and corrected.

Claring among the errors in the plans was the misplacing of various rooms and laboratories in the building. These mistakes have been corrected in the specifications for the new plans.

Two hundred thousand dollars has been appropriated by the State Legislature for the construction of the building. This is not enough to complete the whole structure, but work will be started on the north end and this half will be completed first. The building is to be located a short distance west of the physics building.

In addition to the laboratories and lecture rooms a complete scientific library will be installed. Most of the scientific books from the D. H. Hill Library are to be moved to this new room. A trained librarian will be in charge.

A large lecture room capable of seating 300 people will be built on the first floor. This room will be available for the use of every department on the campus.

Grotesque Garb Denotes Alpha Zeta

Citizens of Raleigh needn't think a flock of "hayseeds" has gone haywire on the public streets within the next few days when they see young men parading around in tattered overalls, red bandanas, tattered straw hats and even more grotesque garb sometimes associated with the lowgrounds.

The occasion will be merely the initiation of 15 new members into the local chapter of Alpha Zeta, honorary agricultural fraternity, and the youths will be students with above average learning in farming practices.

And though the boys might have worn straw tuckered behind their ears and carry a rusty hoe meddled-down Fayetteville Street, they will have the satisfaction of knowing they have been accepted into a group which bases its membership on scholastic attainments in the school of agriculture.

The new crop of future farmers who will be initiated into Alpha Zeta are J. P. Moorefield, C. Early, W. A. Hask, Sam Dobson, Sam Mann, R. W. Brake, Dan Purifoy, L. Holland, P. S. Thompson, J. D. Thompson, R. W. Slocum, Joe T. Frey, Van S. Watson, R. O. Lackey and Charles Hunter.

Statics and Waves To Be Discussed By Meteorologist

One of the leading meteorologists and authorities on wave propagation and static phenomena, Professor G. W. Hendrick, of the physics department of Porto Rico University, will be a guest on the State College campus Wednesday, April 13.

During his stay, Professor Hendrick will speak to the students of the electrical engineering department, and later to the engineering faculty on the subject "Location of Tropical Disturbances by Means of Static Phenomena."

Hendrick, before going to Porto Rico, was on the staffs of various universities in the United States. He was also in the service of the American Telephone and Telegraph Co., and the Radio Corporation of America.

Concert Band Picks Leaders

Crane Elected President for Coming Year; Four Plans Discussed

Members of the N. C. State College Concert Band yesterday elected Lester R. Crane of Raleigh as president of the organization for 1938-39.

The crack musical organization consisting of 55 instruments, also discussed plans for concert tours in the near future.

Other new officers chosen by the band are E. L. Huffman of Brookfield, Mo., vice president; Robert A. Loos of Haddon Heights, N. J., secretary-treasurer; C. H. Storey, Jr., of Wilmington, business manager; Jack S. Younts of Greensboro, assistant business manager; and Tom F. Parks of Lenoir, reporter.

REIGN OVER ENGINEERS' FAIR

Saint Pat and Princess Pat will rule over their loyal engineering subjects today and tomorrow at the annual Engineers' Fair. Sitting on the throne as Saint Pat will be Bob Blackwood and with him Miss Sophia Scott Schaeffer, his princess, from the Womens' College in Greensboro. Saint Patrick is honored as patron saint of engineers because in his legendary joust with the snakes of Ireland, he invented the first worm drive.

Editor of "Character" Will Speak On Honor

Will Be Here Sunday Through Tuesday at Request of Student Council; Will Tell of Merits of the Honor System

J. M. Artman, nationally known editor of the "Character" magazine, will arrive here Sunday to discuss with faculty and Student Government members the possibility of installing an honor system among the students of this school to replace the time-worn and much-criticized Proctor system that is now in effect.

Meeting at Hill Forest near Durham on Sunday morning, faculty Student Government committees and incoming and outgoing members of the Student Councils of State College and the University of North Carolina will meet in an all-day conference to discuss Student Government and campus problems.

Artman has made an extensive study of the honor systems throughout this country and is believed to be the greatest authority on the system in the country today. He

Students Prepare Scores of Exhibits For Annual Event

Monday Dance For '38 Finals Is Abolished

Cloyd Announces Action of Faculty Council, Made Last February, Doing Away With Traditional Interfraternity Affair

Dean of Students E. L. Clloyd revealed yesterday that the Faculty Council has unanimously decided to abolish the Monday night dance of the Interfraternity Finals series. An official bulletin announcing this action, taken last February, is to be sent out today or tomorrow, stated Dean Clloyd, who explained that the delay in announcing the decision was due to a rush in the office.

The following reasons were given for the discontinuance of the traditional dance:

- 1. The Council was of the opinion that the official graduation exercises on Monday afternoon should be the last event on the college calendar.
- 2. There are so many dances during the spring term, that the dance was deemed unnecessary.

Dean Clloyd amplified the last statement by saying that between April 18 and May 14 there were scheduled six big dances.

Senior Gift Fund Swells Each Week

This year's senior class is marching forward to take a prominent position relative to other senior classes.

They set out this year to raise \$1,000 with which to purchase a clock for the Memorial Tower.

The individual gift, which was voted to be voluntary for each senior, is \$3.00. Already 95 seniors have visited the treasurer's office and contributed toward the goal. The total amount paid through April 7 is \$294. Many of the military seniors, who expressed a desire to pay when their check comes in, will have that opportunity Saturday morning. Some member of the class will be stationed in the military department to accept contributions from seniors.

It is the belief of the class officers that the full amount will be paid or pledged during the term; however, for the installation to be made during this school year, early payment is necessary.

Percentage contributions by schools is: 37 per cent for the School of Science and Business; 27.2 per cent for the School of Engineering; 28.7 per cent for the School of Agriculture; 28.2 per cent for the Textile School, and 9.8 per cent for the School of Education.

This week's honor roll: C. L. Woody E. S. Scott W. P. Crawley Walter Jacobson J. T. Massey J. William Brown C. L. Fulw W. B. Graham J. S. Fulghum, Jr.

Phi Psi Smoker Given Tuesday

At a smoker held in the YMCA last Tuesday night, ten students in the textile school were elected to Phi Psi, largest fraternity of its kind in the world.

The members and their guests were entertained during the evening by a quartet of colored men, better known on the campus as the "Cooks and the Bakers." Dean Thomas Nelson and Professor W. E. Shinn spoke briefly to the group, telling of their more humorous experiences in the textile world.

The students who are being initiated this week are: R. J. Payne, E. Arzilpe, C. Reynolds, E. Koella, A. C. Hattaway, M. F. Spencer, J. A. Towery, A. T. Strupler, E. P. Haskley and T. W. Bridges. J. W. Irving, who was unable to take the initiation last term, is also included in the group.

New Looms

The Textile School has recently made a valuable addition in its weaving department by purchasing six new Crompton and Knowles automatic looms.

Formal Opening by Governor Hoey; Full Dress Review; Grand Brawl In Which Knighthood Is Bestowed On Outstanding Seniors Will Climax Months of Planning For Big Event by Engineering Departments

Preceding the official opening by Governor Clyde R. Hoey of the Annual Engineers' Fair today at two o'clock, State's ROTC regiment will parade 1,000 strong in Riddick Stadium in the first full dress review of the year.

More than the estimated 10,000 persons who saw the 1937 fair are expected to witness the parade through the maze of ingenious displays which will be open to the public from 2:00 p. m. until the flow of visitors ceases.

Tomorrow night all eyes will be focused on the Engineers' Grand Brawl, climax of the Fair, as Saint Patrick Bob Blackwood and his royal princess bestow on the outstanding engineering students knighthood in the order of Saint Patrick. Music for the Brawl is to be furnished by Dave Burnside.

In the following paragraphs are given a summary of what each department is showing. Fair maps will be issued to guests so that they may better find the various departments.

Architectural Engineering The main exhibit of the architectural engineering department will be a model of the new chemistry building, which is to be constructed some time in the near future.

Drawings on designs sent out by the Beaux Arts Society of New York will be of interest to persons who admire the handiwork of good draftsmen. The designs have already been judged by specialists in New York. There have been six half mentions of these Beaux Arts problems on banks, country clubs, country restaurants, and fire houses.

There will be a display of modern cameras, film, and other photographic equipment. Completing this display will be an exhibit showing how pictures are made, developed and printed.

Ceramics Department Always among the most interesting displays of the Engineers' Fair, the exhibition that has been arranged by the ceramics department for this year's event will again attract wide interest and admiration.

—Continued on page 2.

Prominent Bankers To Give Lectures On Financing

Prominent North Carolina bankers will address State College students on banking activities in a series of talks sponsored by Beta Delta Chapter of Delta Sigma Pi honorary commerce fraternity. The discussion series is part of the public education program of the North Carolina Bankers Association.

The discussions will be held in Room 103, Feele Hall, at 8 p. m. on the following dates:

April 12: Mr. Allan Langston, Assistant Trust Officer, Wachovia Bank and Trust Company, will speak on the subject, "The Effects of Inflation on Investments."

April 19: Mr. R. C. deRosset, Vice-President, Security National Bank, will speak on the subject, "Credits."

April 26: Mr. George P. Goehrgan, Jr., Vice-President, Wachovia Bank and Trust Company, will speak on the subject, "Federal Housing Administration Loan Procedure."

May 3: Mr. Thomas G. Chapman, Trust Officer, First-Citizens Bank and Trust Company, will speak on the subject, "Trusts and Trust Activities of Banks."

All students are invited to attend these meetings.

Alumni Meet Tonight

Col. J. W. Harrelson, administrative dean, and Head Coach Williams (Doc) Newton will address alumni of Craven, Carteret, Pamlico and Jones counties at a banquet in New Bern tonight at 7 o'clock.

Do Your Own Thinking

Students are inwardly boiling this week because of rumors that heads of certain schools and departments on this campus are dabbling in student politics.

It is a well-known fact on this campus that the head of one of the engineering departments decides for his students whether or not they shall run for a certain political office. For them to go against his dictates spells their doom. A specific case in this occurred less than a week ago. A worthy man was chosen to run for a campus office, and as much as he wanted the job, he could not give his answer until he had received his advisor's sanction. Although his grades were excellent and his mark established as a campus leader, he was not available to run for the office because his advisor advised him against it.

In another case, a department head is urging his men to get into campus politics, to band together and elect men from their school, regardless of the fact that men recommended from other schools might be better qualified. That is politics, in the common sense of the word, but that is not the type of politics befitting college students. And when unconcerned parties start dabbling in student politics and begin dictating policies, students lose their lawful democratic rights.

This article is not written as political propaganda in any manner or fashion, and is not intended to influence student voting. It has a purpose, however, in that it wishes to urge students to vote for the man they think best fitted to hold office and the one they think can serve their purposes best; not for a man they know is not worthy but who they must support because of the school or party he represents.

A Change in Style

In an effort to keep abreast of the modern trend in publications, this paper has changed its style in accord with thousands of papers throughout the nation. New style heads, concise news stories and other minor features accompany this issue, and it is hoped that the students will enjoy the paper more by our change.

Opportunity Knocks

With new administrations coming to fill publications positions, there is opened a wide field for students interested in publications work. There is a position on any publication staff for any man who wishes to engage in that type of work, and if you will contact an editor or business manager on any publication, he will find something for you to do that you will enjoy and derive much benefit from.

Engineers' Fair

(Continued from page 1)

The work of the department is unique among the engineering sections in that the complete process of the preparation of pottery products is presented to the public.

On the main floor of the ceramics building there will be an exhibit of ceramic products and art pottery that has been prepared by the students outside of class hours.

Exhibitions of the commercial methods of manufacture will be given in the laboratory, where the processes of enameling, glazing, and further preparation of tableware, pottery, and sanitary ware will be presented.

Professor A. F. Green-Walker, head of the department, has promised that in addition to a display of the use of ceramic equipment, there will be a demonstration of "throwing" on the potter's wheel.

During the exhibit the group is to turn out enameled plates, which will be distributed as souvenirs of the Engineers' Fair.

Chemical Exhibits

After several weeks of work and preparation, the chemical engineering department has completed many different kinds of exhibits of chemical products and the methods of their production.

Working models of plants that manufacture rayon, cellophane, bromine, paper, and other industrial products have been constructed.

Processes for making sugar from wood, bromine from sea water, lard from cotton seed oil, nitrates from the air, and a substance called furfural, which is made from corncobs and is used in petroleum refining, will be explained and demonstrated.

A complete model city water filtration plant has been constructed and will be in operation. All types of oil tests will be run, including cold pour tests, lubrication value tests, and anti-knock tests.

In the electro-chemistry room an electric furnace capable of generating an intense heat of approximately 3,000 degrees will be displayed. All kinds of metal will be electro-plated by a special process.

In the water treatment laboratory refreshments will be served, music furnished, and the guests entertained with demonstrations of chemical magic. A chemical I. Q. test will be given all willing guests.

A complete museum displaying products of the industry is located in the building. This includes a working model of an oil well.

Electrical Engineering

The electrical engineering department will present many astonishing exhibits featuring that mysterious thing, "electricity."

A Tesla coil which develops 1,500,000 volts of man-made electricity and makes sparks that will jump a gap fifteen inches long will be shown in operation. An exhibit of particular interest to the layman will be the electric fountain which automatically turns on when the user bends down to drink. The amateur radio station W4ATC will be in operation as an exhibit in radio.

One part of the exhibits will be devoted to tests of electricity. A perpetual motion machine which looks like the solution to an age-old problem will be shown. Cooking on top of a cake of ice will be done in opposition to all natural laws. A ball will be shown suspended in air, completely oblivious to all laws of gravity.

Although engineering is not often connected with the arts there will be music in the electrical engineering part of the fair in the form of a color organ which produces delicate shadings of color as the organ is played, and an electric organ similar to the now famous Hammond organs featured by many dance bands.

The exhibits will turn toward the future when a television machine is shown which operates on the latest cathode-ray principle.

Rural electrification, burglar alarms, electric fences, power machinery, dial telephones, and a magnetic fountain that spouts metal instead of water will be among the many interesting exhibits.

Industrial Displays

Included among the exhibits of the industrial engineering department will be a kymograph, which is an instrument for measuring a worker's efficiency, a model of a ship illustrating the action of a gyroscope, and a Galata, in which one object fades out and another appears. A number of graphs and charts illustrating conditions of business will also be displayed.

Civil Engineering

The exhibits in the civil engineering department have been built by the student chapters of the ASCE and the AGC.

The exhibits will illustrate principles of highway construction and civil engineering problems. In the highway engineering group is a model of a clover-leaf intersection, a type of highway construction which is used to handle large volumes of traffic with the least possibility of accidents. Another exhibit is a model airport, designed for high-speed transports.

The construction group consists of models of buildings, including a modern house, a concrete water house, a brick building, and modern fire-proof buildings. These models show all types of modern buildings in different stages of construction.

In the civil engineering group are models of a dam and of a steel bridge, showing the different steps of construction. Also in this group is a topographic map and a model illustrating the principles of surveying.

There are many other interesting exhibits.

Glee Club

The Glee Club of the Woman's College of the University at Greensboro presented a public concert in Pullen Hall last Saturday night at 8:30 o'clock.

Students and faculty members of Meredith, Peace, St. Mary's and N. C. State heard the versatile program, which was sponsored by the college Y.M.C.A.

There will be an important meeting of "The Technician" editorial staff Monday night at seven o'clock.

HERE and THERE

By "SLOOP"

That must have been quite a trip that W. B. Coward and his stogees made to Charleston for the alleged purpose of viewing the magnolia blossoms. . . . From what we hear, they saw lots more of the local police than they did blossoms, with swiping milk from porches, swimming in the raw, etc. . . . And then they wound up in the infirmary on Monday morning with a so-called upset stomach.

Young John Flowe seems to be carrying on in his best vest-pocket Casanova manner. . . . Rumor has it that a group of Greenboro lasses practically mobbed him last week-end, one of them even going so far as to challenge him to a wrestling match with no holds barred.

Walt Koon has a system about women. . . . when he comes in from a date he rushes to the little black book and classifies the young lady. . . . One X means one thing, two X's mean another and three X's mean I would like to have s date with her myself.

Since Jim Worrell found out that Jack Sawyer would not oppose him in the Agromech race, he's going the rounds trying to round up all those pre-election cigars he has stashed away.

Outsiders passing through the campus seem rather puzzled by the strange costumes worn by the men being initiated into the various Ag and Textile honor societies. . . . One woman, seeing a "hit head" in his fuzzy hat and dress, wanted to know if this was the St. Mary's campus.

LISTENING IN

by JOE MICHAEL

Saturday night the wizards of the slipstick will put the old stand-by in its death and socialize in the form of a dance, in honor of their patron, Saint Patrick. The patrons of the saint will try their level best to put aside their homework and school worries, but the minds of all good engineers are undoubtedly sure to fly off on a tangent and their math-ridden minds will drift back to the subject of curves, especially when these so-called curves glide and away to the rhythmic beat of Dave Burnside's music.

GLEANINGS

By THE STAFF

With our feet on this battle-carried old desk and our gray matter at a dead standstill, we go to press with spring in our eyes. . . . not to mention the numerous members of the faculty in search of our scalps after that April Fool issue.

Speaking of professors, it seems that the first day of April isn't the only day that we students can get the jump on them. . . . I chanced upon one of the old grads the other day and in the course of a conversation about college and his little-known facts, he gleefully related to me how he had managed to attend nearly four years of classes without ever being called upon to recite. . . . He said that the main thing to do was to get off to a good start.

"I started right out in the beginning," he said, "and pretended that I stuttered badly. To avoid any unnecessary embarrassment, none of my professors ever called upon me to answer any oral questions. I called it the 'Prof-proofing plan' because it protected me from professors just as moth-proofing protects clothes. . . . Now all we have to figure out is a means of hoodwinking them out of those written quizzes and it will be smooth sailing.

Wandering slowly down to the cafeteria in the heat of the day and finding young "Stinky" dogdom's newest contribution to the State College campus, lounging on the steps, feeling very bored with life in general. . . . All the ordinary pleasures have lost their appeal, and as "Stinky" muses over our silly sentiments that come with spring, he gazes anxiously toward the cafeteria's swinging door, worrying only about when his dinner is going to be brought to him. . . . and once again Carl Plaster comes through with enough to feed a good-sized horse. . . . Thinking to myself that perhaps a dog's life is quite worth while after all, what with nothing to worry about and all day to do it in.

Hastily washing one of "Soupy" Harris' TASTY lurches down with a glass of water and then over to the Agromech office for a gossip-yielding chat with Jimmie Catlin. . . . It seems that Jim has started a school of romance at the Kappa Sig house, with classes meeting once a week. . . . All the good brothers tell their romantic troubles and are graded according to their progress. . . . It was this little group of "advice-to-the-lovelorn" givers that convinced Ed Saravain to make a trip to Baltimore last week-end. . . . After traveling about seven hundred miles and spending his allowance for the rest of the term, Ed is now deemed a graduate of the Catlin School of Romance.

Downtown Wednesday and dropping by for a talk with John Marshall of the Raleigh Times. . . . and realizing that he is fast becoming one of State's most loyal supporters. . . . John is planning to follow the 1938 Wolfpack in its travels to Alabama, Detroit, Manhattan, etc., in order to provide us with a more thorough coverage of away games. . . . What we need now is someone to start a movement in favor of special trains and busses to carry the State students to the scene of action.

Now that we are in the midst of a campus beautifying program and are urged to remain on the walks in order to protect the grass, it seems that several of the faculty members would do well to join in the movement. . . . There's one well-known economics professor who makes a daily trip across the lawn of the square between Peete Hall and Watauga on his way to the "mop-up." . . . Despite the numerous paths and the wire strung up to protect the newly-sown grass, this gentleman seems to be a firm believer in the fact that a straight line is the shortest distance between two points.

Candid Camera Shots: Who was the sweet young thing that went to sleep on Paul Warwick in front of the Capitol at about five o'clock Sunday morning? . . . Ted Johnson and some friends spending all of last Saturday night in search of a fresh duck sandwich. . . . Wonder why a ship is called "she"? . . . Jim Murray, John Flowe and Emilio Arizpe giving a darn good imitation of "Lucky" Teter on the road from Greensboro. . . . Bill Hood, State's representative at the "Angel Farm" any night in the week. . . . Looking forward to those Friday parades with their gala, colorful air.

Kay Kayser's new radio program. . . . one of the most entertaining on the air. . . . Mort Brennan and Mert York wandering out of the Vance Apartments in a most unsteady manner. . . . George Norman romancing one of the cuter Meredith lasses. . . . "Cactus" Manno escorting one of the local charmers around the town. . . . Claude Clark minus his fraternity pin and his heart. . . . B. B. Aycock, our own Joe College.

Seniors wandering about with a very worried look saying, "What now?" . . . Elwin Hamilton dropping by the room to borrow two pieces of paper, one to write to his wife and the other to write and ask a girl down for the Engineers' Brawl. . . . what a man! . . . And still wondering why we have afternoon classes this term—STEPHEN SAILER.

DAVE BURNSIDE

Burnside, as you will remember, played for the Pledge Dances last year and is a popular maestro in the dancing circles of North Carolina, shown by his extended engagement at the Washington Duke Hotel last year. Since his last appearance on the campus he has included three worthwhile features to his list of entertainers. At the top of the preferred lists stands "Betty Lou," the featured feminine vocalist.

It seems that we have some ballot-box stuffers on the campus. There must be some motive behind it, but I have not seen any Sammy Kaye or Tommy Dorsey cigars going up in smoke. Sammy Kaye and Tommy Dorsey have locked horns for first place. Horace Heidt dropped to second place this week with Abe Lyman and Hal Kemp tied for third place. Other bands that picked up a vote here and there are: Kay Kyser (by the way he has listened to Kyser's show on Wednesday night); Benny Goodman, Guy Lombardo, Glen Gray, Wayne King, and Blue Barron.

Doc Sermon's Track Team To Open Season April 16

State's Tracksters Preparing For Tilt With Richmond

Doc Sermon Optimistic as Tech Cinder Stars Round Into Shape for Season's Opening Clash to be Held Saturday

Coach Ray Sermon seemed quite optimistic over the coming track season and the manner in which his men are shaping up, in our interview with the ace mentor yesterday.

"We are in need of good material and will give every boy a good chance to make the most of the opportunities," declared Doc. "We only hope to get things in good shape for next year as we are now without the use of a good cinder track."

The new track will not be ready for use for about another month. Work is progressing as rapidly as possible on the new athletic field, which will include two 220 yard straightaways, and a large space for field events, surrounded by the quarter mile cinder path.

Davis, in the one-mile event; Ross in the two-mile grind and Burcham in the sprints are the men around whom Sermon is building his team. The first two and Matson have all had experience on State's cross-country teams. Gibbs and Kirkland are also in the running for the dash events. The entire team was put through its paces yesterday at practice when they were required to go through their distance or specific event. Davis finished his mile, running in his usual effortless manner and Burcham tore through the hundred in ten flat.

In regards to the field men, Coach Hickman stated that it would mean developing men for the shot, discus and the javelin. The weight candidates were given an entire afternoon of drill in the style and form required.

The first meet for the Tech tracksters will be with Richmond on April 16 at Richmond. This will mark the first time that a State track team has engaged in intercollegiate competition in six years.

Mann O. K.

Bill Mann, co-captain elect of the basketball team and varsity first baseman on the baseball team was operated on for appendicitis last Wednesday at the Rex Hospital.

Mann will most likely be unable to play baseball again this season. He is resting comfortably, according to last reports.

Doakmen Lose To Tar Heels, 6-5

Rivals Turn On Typical Carolina Finish to Score Four Runs In Ninth for Win

State's baseball team lost its second game of the season in as many starts when the Carolina Tar Heels came from behind in the first half of the ninth inning to score four runs to win 6-5 in the first Big Five game of the season.

At the end of the eighth stanza the Chapel Hill contingent was trailing 3-2. However in the next inning they started a rally which sewed up the game for them.

Greene, Tech pitcher, blanked the Heels for 6 innings, but the pace was too fast for him. In the seventh and eighth innings Carolina got some singles, but were unable to push across any runs. In the ninth Greene committed two errors and walked two men. Carolina scored four runs in this inning.

The scoring of the game was started by Charley Beam, who smacked out a home run in the second inning. Beam has been a consistent hitter thus far in the season. A walk, an error and Smith's triple brought in two runs.

In State's ninth inning rally, Smith and Hoyle hit safely to bat in tallies.

Parker, of Carolina, who pitched 8 innings, received credit for the win. An interested spectator was Les Butcher, star pitcher of the Trenton club, one of the Washington Senators' clubs. Butcher spent about a week and a half on the State campus working out with the Tech team, before reporting to his own outfit.

Techlets To Meet Carolina Friday In Initial Battle

Lineup Tentative Says Walker As State Fresh Go Through Final Paces In Preparation For Game At Chapel Hill

Coach Nig Walker has been putting the freshman diamond candidates through the mill for the past three weeks in an effort to round out a 1938 edition of fresh ballers in time to open the schedule on April 15.

Walker has selected a tentative squad which is subject to change at any time. He stated yesterday that he was uncertain as to which of the boys were in line for top berths but that many of the lads were showing some fine form in the drills.

The Techlets open their regular schedule on Friday, April 15, when they meet the Carolina freshmen at Chapel Hill. In the meantime Coach Walker has made arrangements with S. O. Brandon and Willie Duke, coaches of Raleigh's high school baseball team for practice games. In addition to these the fresh plan to take on the varsity in a few practice sessions.

Injuries have shown up rather early among the fresh hopefuls. Already three of Walker's dependables are out due to mishaps. They are Griffith, shortstop, Winstead, outfielder, and Jordan, catcher.

Coach Walker has selected the following for the tentative squad: First base: Tilley, Phipps, Edmond; second base: Morrison, Ritter, Dickson; shortstop: Watt, Griffith, Suggs; third base: Scarborough, Raines, Davidson, Oliver; outfield: Smith, Brown, Jones, Winstead, Shapou, Winslow; catcher: Jones, Carter, Wood, Jordan; pitchers: Sykes, Cathey, Wooten, Milhouse, Garrell, Shotwell, Smith, Dawson.

The season's schedule is as follows: April 15, Carolina in Chapel Hill; April 20, Duke in Raleigh; April 22, Wake Forest in Raleigh; April 23, Carolina in Raleigh; April 29, Wake Forest in Wake Forest; May 6, Louisburg College in Louisburg; May 11, Duke in Durham.

Ford Ineligible

Bill Ford, number one golfer on the current links team, was declared ineligible to compete in the Southern Conference yesterday, when it became known that he had attended the University of Cincinnati in 1933. This means that Ford has already completed the maximum number of years of varsity competition that the Conference allows. His withdrawal is the second blow to the State golfers' chances as earlier in the year it became known that Captain Ernest Remmey would be unable to compete because of scholastic shortcomings.

By BOB COLEMAN, JR.

Those long awaited all-campus basketball teams have finally been announced by Director Miller. The men making the all-campus team will receive all-campus medals. The men and their team will be found near the end of the column.

The all-campus medals and championship cups are on display in the Student Supply Store. The cups and medals are of the same design as last year.

Softball has gotten off to a good start with 11 games played and only one forfeit. Most of the games have been rather one-sided and with large scores except that between 2nd, 7th and 1st, 1911, which 2nd, 7th won 4-2.

URNS PRO...

Connie Mac Berry, captain of the 1938 basketball team and one of the most outstanding athletes ever to attend State, will join the Chicago Cardinals, professional football team, when they begin their drills in the fall.

Freshmen vs. Clemson In '38 Grid Contest

The Charlotte Observer has extended invitations to the State College freshman football team and the Clemson freshman football team to play in the annual fresh air game next Nov. 19 in the Charlotte Stadium.

The purpose of the game is to raise funds for the Observer's fresh-air camp for under-privileged boys.

Hines To Lead Monogram Club

Hill, Miller and Mastrollia Also Chosen as 1938 Officers

At a meeting of the Monogram Club held last Tuesday night, Bunny Hines, scrappy little guard

on the 1937 Wolfpack, was elected to lead the organization for the coming year.

The remaining officers elected were: P. G. Hill, vice-president; Johnny Miller, secretary, and Fred Mastrollia, treasurer. These men will succeed Clarence Shimer, George Fry, Dick Payne and Eddie Berlinski at the helm of the club.

Matheny Steals Show At State Grid Banquet

Sands, Acai and Mastrollia Also Join In Skit As Wolves Put On Feed Bag

Members of State College's 1937 Wolfpack were entertained and made a part of the evening's humorous entertainment at a banquet given in the Carolina Hotel last Friday night by the college athletic association.

"Wild Bill" Matheny, reserve tackle on the 1937 grid squad, was the individual star of the show. Matheny had them rolling in the aisles with his hilarious imitation of Line Coach Hermann Hickman. The r-t-u-n-d griddler, known for his accurate imitations and knack for mimicry, had the large number of spectators in tears with his takeoff on Hickman.

In another skit entitled "An Informal Meeting Before Practice," Fred Mastrollia played the part of Coach Doc Newton and Kenneth Sands took the role of Backfield Coach Bob Warren. Steve Acai also scored a hit with a side-splitting imitation of Sergeant Glendmeir, keeper of the athletic supplies.

Former Governor J. C. B. Ehringhaus presented the awards to the monogram winners. He made a brief talk lauding the fine showing of spirit and cooperation shown by the players.

Professor H. A. Fisher was toastmaster for the occasion and Colonel Harrelson introduced Speaker Ehringhaus.

Players whose 1937 play earned monograms: Louie Mark, Ed Berlinski, Steve Acai, Charlie Dunnagan, Joe Schwerdt, Tony Dileo, Jess Tatum, Mickey Sullivan, George Fry, Bill Retter, Paul Lozier, Manager Boswell, Cecil Brownie, E. V. Helms, Dan Piloneno, Pete Kuzma, Fred Mastrollia, Mac Berry, Carroll Conard, Dick Thompson, Bunn Hines, Arthur Rooney, Ed. Coon, Bob Sabolyk, Ken Sands, George Murphy, Bill Matheny, Warren Wooden, John Savini, and J. B. Thompson.

Hickman Enlisted To Aid Trackmen

With spring football drills already out of the way, Line Coach Hermann Hickman has turned his attention to the State track team where he will assume the new role of weight coach.

Hickman is to be in charge of the shot put, discus and javelin throws in his latest position. The rotund mentor spent his first day with Tech cinder path artists yesterday and was greeted by quite a large number of prospective weight tossers. At the present time the leading candidates for the field events are Peters, Retter, Furr and Wickenfied.

Hickman starred for the University of Tennessee in his undergraduate days as an outstanding track man. He was the leading participant in the shot, discus and javelin events.

Tech Netters Romp Over ECTC, 9-0

The State College varsity tennis team won its second match of the current net campaign here Wednesday when it whitewashed the racquet wielders from E. C. T. C. by the score of 9 to 0.

Once again lanky Jim Murray, State's number two man, paced the Tech's attack. Murray romped through his singles match with Meadows, 6-0, 6-0, and paired up with Boney in the doubles to down Burks and Wilkerson.

The summaries: Singles: Dulin, State, defeated Burks, 5-7, 6-0, 6-4; Murray, State, defeated Meadows, 6-0, 6-0; Boney, State, defeated Wilkerson, 6-1, 6-1; Spear, State, defeated L. Wilkerson, 6-0, 6-1; Cline, State, defeated Lindsley, 6-0, 6-1; Reeves, State, defeated Green, 6-0, 6-1.

Murray and Boney defeated Burks and Wilkerson, 6-4, 2-6, 6-1; Fanning and Cline defeated Meadows and L. Wilkerson, 6-0, 6-1; Tucker and Fleetwood defeated Lindsley and Green, 6-2, 6-0.

Gold Diggers Club Organized Here

In an effort to work out a philosophy of life, the upperclassmen group of the YMCA Cabinets organized what is known as a "Gold Digger's Club" last Monday night.

The club, which is composed of all members of the sophomore, junior, and senior cabinet members, selected the Reverend Lee Sheppard, Pastor of Pullen Memorial Baptist Church, to serve as chief engineer for the group.

All upperclassmen are cordially invited to attend all of these meetings, which are held in the YMCA building each Monday night from seven until eight o'clock.

Memorial Fund

The Alumni Memorial Committee of the General Alumni Association, under the chairmanship of C. L. Mann, has recently mailed to all State College alumni blanks soliciting funds for the completion of the World War Memorial Tower.

The amount needed to finish the monument is \$35,000.

Editor of "Character" Will Speak on Honor

(Continued from page 1)

comes here at the request of the Student Council and will speak at many meetings the council has arranged for him on Sunday, Monday and Tuesday. At a luncheon Tuesday in the YMCA campus leaders, old and new, will hear him tell of the merits and advantages of the honor system.

On Tuesday night there will be an open meeting of students and faculty in the YMCA to discuss questions concerning the honor system and problems concerning the Student Government.

Artman's policies are best summed up in an article appearing in a current issue of "Character" magazine in which he said, "Democracy . . . is implicit in school government. Most schools are autocracies run by the school administration. In most schools students do not have the privilege of the responsible development of the life of the school. The general run of student government allows students to act in only a few things, and in these the faculty control lurks in the background. With the faculty in the background the school community is complete."

SUCCESS OF STYLE SHOW DEPENDS ON THESE MEN

These students were selected by popular vote by their fellow students to direct the annual Student Textile Style Show and Students' Textile Exposition on Thursday afternoon, April 21.

Peace Contest

The State College peace oratorical contest for the gold medal for excellence in oratory, will be held Tuesday, April 12, in the YMCA.

The winner will represent the school in the North Carolina peace oratorical contest to be held at Elon College, May 6. Following the contest, the sixth forum of public opinion of the year will discuss the topic, "Is peace possible?"

A Man is WELL DRESSED

only when he is properly fitted. Scientific designing that achieves exact proportions . . . and careful tailoring of quality fabrics . . . are both essential for correct fit, right style, comfort and good taste. An easy order to fill at a high price . . . but an amazing accomplishment at Timely Clothes' prices!
