

## Annual State Fair Starts Next Week; Students To Help

### EXHIBITS ARE VARIED

Students' Agricultural Fair Exhibits Will Be Displayed in East Wing of Exhibit Hall During Fair, October 12-16; Each Department in Ag School Will Sponsor a Display; Sam Williams Heads Agriculture Men in Preparing for Event.

Following a custom of past years, students at State College will contribute their share to the splurge of agricultural exhibits at the annual North Carolina State Fair October 12-16.

Known as the Students' Agricultural Fair, the displays will be housed in the east wing of the main exhibit hall. Each exhibit will depict some phase of study at the college.

The students have spent several weeks in preparing for the event, and Sam Williams, president of the Students' Fair, is of the opinion that the exhibits will attract a great deal of attention from the thousands who will attend the celebration.

The animal husbandry exhibit will show how certain soil-building crops can be marketed at a profit through livestock. The agricultural engineering display will picture the value of tilling by contrasting two farms, one which is tilled and the other untilled.

The purpose of the agronomy exhibit is to exemplify the use of soil-building crops and to show the disastrous results of planting only soil-depleting crops. The value of horticultural products grown on North Carolina farms is to be shown by a system of lighted graphs.

Since the pine is the leading forest tree in the South, the forestry exhibit will show the many varied products which come from this tree. The agricultural economics display will stress the value of farm budgeting and organization.

The botany exhibit is designed to show the definite value of seed before planting, and the zoology department will headline game conservation.

Interest growers The facts discovered in connection with scientific farming must be conveyed directly to the grower. This essential information is carried to the high school student through the vocational agriculture teachers. The methods employed in placing this information where the students may receive benefit from it will form the subject of the agricultural education display. The poultry exhibit is to consist of recommendations essential to successful poultry production.

M. E. Gardner, head of the horticultural department at State College, has acted as adviser to the students in the preparation of the exhibits.

## Johnson's Home Nearer Campus

Andrew Johnson's Birthplace Is Moved From Old Location Facing Tracks

The historic house in which the seventeenth President of the United States was born is being moved into the circle of oaks in Pullen Park, west of the Raleigh Armory. The two-story, three-room, frame building will face the D. H. Hill Library and will be an additional wonder spot near the college. On this new site the historic old structure is expected to be safe from hoaxes who have carelessly used it for sleeping quarters and from dangerous sparks from locomotives. In addition, many more people will be able to visit the house.

The journey from its former location across the railroad tracks to the cedar court in Pullen Park is the third for the structure. When Johnson was born in it December 29, 1808, the house was located at the head of Fayetteville Street, near the site of the new Ambassador Theatre. From there it was moved to Southeast Raleigh, where the danger of damage to it necessitated its being moved in 1900 to its former location in Pullen Park.

## HINKLE RECEIVES WIDE REKNOWN IN "WHO'S WHO"

### LEADING LINGUIST

State College Language Professor Chosen for 1938 Edition of International "Who's Who"; Has Rendered Valuable Scientific Work in Field of Language; Famed Book Will Appear in Autumn of This Year.

Dr. Lawrence E. Hinkle, head of the modern language department at State College and one of the country's leading linguists and educators, has recently received world recognition.

Hinkle has been elected to the International Who's Who, and his name will appear in the 1938 edition which will be published in the fall of the year.

Recently Dr. Hinkle has been in charge of translation work at State College, and has rendered valuable scientific work in the field of linguistics.

The language professor said that the service was an outgrowth of a more practical approach to instruction. For recitation work he substituted lecture periods, in which the structure and technique of the languages were discussed. He instructed the students in their translation in a manner to encourage the translation for "thought" and not just for "literal translation."

Although there has been no financial provisions for this work, Dr. Hinkle has made typewritten copies of these translations and has placed them in the college library. Thirty or more articles were translated and made available in this manner.

The library of the Department of Agriculture in Washington has become interested in the works of Dr. Hinkle and proposed to establish an exchange service for such translated material, and a committee has drafted suggestions for its formation. Copies of these translations have now been filed with the library in Washington, the State College library, and in the libraries of the departments of modern languages. Other institutions, Dr. Hinkle said, are also beginning to cooperate with the exchange service.

At the time Dr. Hinkle has 20 projects in the process of translation, and these will cover many fields of science.

## IRC To Meet Tuesday Night

The International Relations Club will hold its first meeting of the year in Peels Hall at 7 o'clock Tuesday night, it was announced today.

The purpose of the club is to discuss impartially news and current events of the present day which happen in this country and abroad.

The club is not partial to any party, follows no definite political policies, and is a meeting place where different opinions of students can be discussed and argued.

Many plans have been laid for the club this year. Nationally known speakers will be invited to the campus to address the club, and important officials of the State of North Carolina will also be invited.

The club is open for anyone who wishes to join at the present time, but membership will be restricted after the club has received its full quota of members.

## N.C. Pressmen To Meet Here At Convention

State College To Be Host To All North Carolina Collegiate Press Representatives.

Charles R. Dunnagan, president of the North Carolina Collegiate Press Association, announced here yesterday that the fall meeting of the association would be held in Raleigh on the 4, 5, and 6 of November.

Dunnagan said that the committee for the affair was already working on the program and that the convention was expected to be one of the biggest and best that the association has ever had.

Romeo Lefort, assistant dean of students at State, was elected by the delegates to the convention during the spring of last year as permanent secretary and treasurer of the organization. Lefort will have his first duties in connection with the convention this fall.

President Dunnagan said that plans had not been completed as to the local hotel at which the convention will meet, but he expected to make that announcement within the near future.

The other officers of the association without Dunnagan, who is also business manager of The Technician, are: Warren C. Stack, first vice president, Duke University; Bill Staton, second vice president, Wake Forest; Georgia Underwood, secretary, Queens-Chicago; and Dick Vowles, treasurer, Davidson. The association is composed of the leading collegiate papers of North Carolina. Two conventions are held during each year, one in the fall and one in the spring. Many of the colleges in North Carolina, both boys and girls schools, will be represented at the meeting.

## KERAMOS HONORS CERAMIC FOUNDER

State Ceramic Fraternity To Institute Memorial Banquets as Tribute To General Orton, Father of Ceramic Engineering.

At the current meeting of Keramos, professional ceramic engineering fraternity, the establishment of a Memorial Banquet in memory of General Edward Orton, Jr., the founder of ceramic engineering both in this country and throughout the world, was proposed by Professor A. F. Graves-Walker.

This proposal was adopted, and October 8th or a date as close as possible was set for the celebration, as this is the date of birth of General Orton.

This year the Memorial Banquet will be held in November in conjunction with the initiation of the new members into Keramos.

Other business before the meeting was a motion to distribute pamphlets throughout the junior colleges and high schools in this State, Tennessee, South Carolina, and West Virginia in an attempt to interest students in ceramic engineering.

Further business pertained to an attempt to have the scholarship loan fund by the North Carolina chapter of Keramos in 1938. This fund is designed to aid seniors in ceramic engineering who have met with financial difficulties. The North Carolina chapter of the American Ceramic Society is to aid this fund by contributing a minimum of \$15 each year.

## President Graham Says a Word

Mr. J. C. Frink  
President of the Student Body  
State College of U. N. C.  
Raleigh, N. C.

My Dear Frink:

This little note is simply to congratulate the State College Student Body, Coach Newton, his staff, the squad, the cheer leaders and other student leaders on their splendid sportsmanship and spirit in the game Saturday.

The two finest things about the game to me were the way the student bodies stood by the teams and the way the teams gave their best until the last whistle. Spirit and sportsmanship shine brightest in defeat, and in these high respects State College was not defeated Saturday.

May the teams of our two institutions always represent the best of our traditions and hopes, and play so hard and clean that in winning we shall not lose something finer than the victory, and in losing we will win something bigger than the game.

With best wishes for a fine year in all things, I am  
Sincerely yours,  
Frank P. Graham  
President.

## LATEST FIGURES ON REGISTRATION SHOW 8% GAIN

### FINAL TABULATION

Enrollment Exceeds All Previous Marks and Surpasses Last Year's Total Enrollment by 158 Students; Seven Foreign Students; School of Engineering Leads All Other Schools in Total Enrollment.

Final registration figures for the fall term of this year were released yesterday by the Registrar's Office, showing an increase of 158 students registered over last year, an eight per cent increase.

From a total of 2099 students, 1738 are enrolled from North Carolina, 353 from other states in the United States, and eight foreign students, compared to the last year's record of 1941 students. This is the largest enrollment in the history of the school, and represents the largest number ever enrolled from North Carolina.

Leading the five schools in registration was the School of Engineering which enrolled 522 students, followed by the School of Agriculture which enrolled 538 students. The chemical engineering department led the various departments of the Engineering School with 231 registered students.

Textile School Third The Textile School ranked third with 365 students, an increase of 27 over last year with the department of textile manufacturing having more than five times as many students as any of the other departments in that school.

The School of Education ranked fourth with only 187 students, and the School of Science and Business, which enrolled neither sophomores nor freshmen, had only 25 students to enroll in the Junior and Senior Classes.

In the Freshman Class, 645 new students were registered, and 191 students were transferred from other schools. Former students returned numbered 1261. New York led in out of state students with a total of 78, followed closely by New Jersey who sent 75. Twenty-nine of the 48 states in the Union are represented this year.

Representing the foreign countries are students from Mexico, Cuba, Puerto Rico, Iraq, Canada and Argentina. The student from Argentina, Fernando Olivera, knows very little of the English language and is being tutored by Professor Ballenger. He was sent to this school by his government to make a study of tobacco.

## Bronson Is Given Valuable Award By Supply Store

Six Honorary Fraternities Make Decision On Basis of Scholarship-Leadership

After a careful selection of men made by the six leading honorary fraternities on this campus, A. G. "Felix" Bronson was named winner of the coveted scholarship award given by the Students Supply Store.

This is the first year that the award has given the scholarship, valued at eighty dollars, but Manager L. D. Ivey said that the award would be given for at least two more years.

Bronson received the award on the basis of his past record in leadership and scholarship on this campus during the past three years. Besides having held a high scholastic average, Bronson has held high honorary positions such as president of the Junior Class, member of social functions committee, Golden Chain, Tau Beta Phi, Phi Eta Sigma and is now the president of Blue Key, honorary fraternity.

The six leading honorary fraternities on the campus were each asked to submit three names ranked in the order of their importance, and when a final tabulation was made of the votes cast, Bronson was far in the lead.

### LEAVE YOUR NAME

There are a few students whose addresses are not known and, therefore, they are not receiving their copy of The Technician. If these students will leave their addresses in the box at the Technician office, they will be put on the mailing list.  
Charles Dunnagan, Bus. Mgr.

## Attendance Bare For Celebration Of Founders' Day

### SPEAKS AT MEET

John W. Sexton, president of the General Alumni Association, who addressed the students at the Founders' Day celebration in Pullen Hall Tuesday morning.

## FOUNDERS' DAY BANQUET HELD AT SIR WALTER

Pine Burr and 30 and 3 Sponsor Banquet as Climax To Celebrations

As a climax to the annual Founders' Day celebration which was held on the State College campus last Tuesday, the Pine Burr and 30 and 3 gave a banquet in the dining room of the Sir Walter Hotel.

After a tempting menu had been served to the guests present, an interesting program was conducted under the direction of Professor Hicks, master of ceremonies. The program was broadcast over station WPTF, and featured talks by Professor Hicks, Horace McSwain, who told about the Order of 30 and 3, L. A. Ward, president of Pine Burr; Colonel Harrelson, dean of administration, and a talk by Dr. Frank Porter Graham, president of the Greater University, who complimented the students on their attitude and interest in State College.

During the banquet music was supplied by Major Kutchinski who also presented the music during the broadcast. The State College quartet also gave renditions during the radio program.

The banquet is sponsored annually by Pine Burr and 30 and 3, honor organizations on the State College campus who also have charge of the Founders' Day celebrations on the campus. These Founders' Day exercises are leading up to the 50th anniversary which will be celebrated in 1938.

## Boys Amazed By Beauties

Pretty Girls Set Campus Astir As 4-H Representatives Gather Here

State College campus was flooded yesterday with pretty 4-H Club representatives coming from one hundred counties of North Carolina who met here to select a representative who will compete in the annual contest in Chicago the first week in December.

Pretty Miss Ada Braswell, sixteen year old high school girl from Anson County, took top prize in the contest, first prize that will send her to Chicago with all expenses paid in full. Miss Braswell's record in 4-H Club work was praised highly by officers in charge of the meeting.

The 4-H Club is under the direction of the North Carolina Agricultural Extension Service, but no expenses are paid to the club members by that department, their expenses coming from commercial concerns who act as sponsors for the girls.

The girls who participated in the contest were the chosen representatives of their respective counties throughout the state. Only the first prize winner will go to Chicago for the national contest.

Winner of the second prize was Miss Mildred Edwards of Pitt County, and Miss Margaret Roscoe of Alamance County was third prize winner.

### ALUMNI HEAD SPEAKS

Students Fail To Attend Meeting Because of Mixup In Dates; John W. Sexton, Alumni Association President, Talks To Group On Business Principles, Lauds School Spirit; Founder's Day Banquet Is Broadcast Tuesday Night Over WPTF.

Tuesday noon, before what was supposedly an assembly of the Sophomore Class, Pine Burr and the Order of 30 and 3 presented a program in celebration of the 48th year of the founding of State College.

The day was further celebrated by the cooperating organizations at a Founders' Day banquet held at 6:30 Tuesday night in the Manteo room of the Hotel Sir Walter and broadcast over WPTF.

The assembly room at noon lacked the customary attendance of Sophomores due to a misunderstanding on the part of the members, but the program was carried out as scheduled in spite of the vacant seats.

Sexton Speaks John W. Sexton, president of the General Alumni Association, was the principal speaker of the occasion. He made a short address stressing the things that the student should learn while in college. Being a railroad executive, he put the flavor of railroading into his talk.

He stated that a man while at State College should learn cleanliness because that would be required by his future employer; that he should take care of his health because he would have need of it when he went into work; and that he should practice safety because that was a protective measure required by industry.

Since mention has been made of the Carolina game last Saturday, Sexton, who was an outstanding football player for State, said that while at State College he never played in a football game that Continued on page 4.

## Blue Key Founder Pays Campus Visit

Major C. B. Riley, Founder and National Supervisor of Blue Key, Spoke Here

In the first official meeting of the year, the State College chapter of Blue Key, national honorary leadership fraternity, had as its speaker of honor, Major C. B. Riley, founder and national executive officer of the organization. This was Major Riley's first visit to State College campus in the past five years.

The meeting was held Monday night at 7:30 o'clock in the college YMCA.

Major Riley, in his talk, gave the history of Blue Key from the time that it was formed at the University of Florida, outlining the ups and downs of the organization up to the present day, when the fraternity has a total of 73 active chapters in leading colleges and universities and is spread over the entire United States.

### Questions . . .

You should be able to answer at least half of the following questions. For correct answers please turn to page two.

1. Who is the present manager of the State College football team?
2. How many co-eds are there enrolled at State this year?
3. What was the average amount spent per meal by students during the month of September in the cafeteria?
4. Who is the State College librarian?
5. Who is coach of wrestling this year?
6. When did State College first open its doors?
7. What State professor has been recognized by the International Who's Who in the 1937-38 edition?
8. Who is business manager of the Agromech?
9. What is the approximate seating capacity of Riddick Stadium?
10. "Doc" Newton is an alumnus of what institution?

# 'Pack Journeys South To Meet Furman

## Angry Bull Dogs Slight Favorites Over the Wolves

Newtonmen To Meet  
Old Rivals In Night  
Game at Greenville,  
S. C.; June Scott Is  
Big Furman Gun.

The Wolfpack is on the trail again—undaunted by their loss to Carolina by the score of 20-0, which score is no indication of the closeness of the game. Student spirit is running high, and Doc Newton's boys are going to try and repeat their last year's victory over the South Carolina State champs, the Furman Purple Hurricane.

Furman will probably confine its offense to passes, as the State gridders outweigh them several pounds per man. State will combine both a ground and an aerial attack, the ground attack featuring Eddie Berinski, ace yard-gainer of the team, and state of the Carolina game, and if passes are called for, Art Rooney will have them to Connie Mac Berry and Jess Tatum.

If Luis Mark, Danny Piloseno, and Carrol Conrad turn in as fine defensive performances in the Furman game as they did in the N. C. U. game, State will be on the long end of the final score. The main fault with the Pack last Saturday was that every time they got within scoring territory, their attack just collapsed. However, it is expected that Coach Newton will have ironed out these difficulties by the time Saturday rolls around.

As in the Davidson game, there will be no huddle used, but the new indicator system of calling signals will be utilized. The State team will undoubtedly run up against some stiff opposition when they engage Coach Andy "Dizzy" McLeod's team. The Purple whitewashed Wofford 58-0 last week-end, and in doing so ran up the total ground gained to the astounding figure of 588 yards, while holding the Terriers to 53 yards. Furman displayed a dazzling assortment of passes, end runs, off-tackle plays and line plunges. In Captain June Scott, scorer of 21 points in the Wofford debacle, the Hurricane have an able replacement for their last year's star, Bob King, a replacement who is a real triple threat man, kicking, passing and running, and undoubtedly one of the finest backs in Dixie. Scott and Jack Shivers, a dynamo at the guard position, are the spark-plugs of the Furman team, and will lead their team's offense and defense.

To sum it up, there will be two good football games out on the field tomorrow night and a great battle should ensue.

### GRID-O-GRAPH

Football fans who are unable to attend the State-Furman game, will be interested in the grid-o-graph to be shown in Pullen Hall Saturday, October 9, at 8:30 o'clock. No admission will be charged for students, but outsiders will be required to pay twenty-five cents.

The grid-o-graph is a large screen 7 1/2 x 10 feet. In this screen, lights flash indicating position and possession of the ball.

It is hoped by the officials of the college that the attendance will justify the showing of all out-of-town games.

## FIGHTING PACK LOSES TO JINX

Carolina Puts Indian Sign On  
Techs and Gets a 20-0 Victory  
Despite the Fine Play  
of Whole State Team.

The fangs of N. C. State's Wolf-pack were not sharp enough to pierce the tough hides of the University of North Carolina Tar Heels here last Saturday and the Chapel Hill lads walked off with a 20-0 victory over the Techs.

Coach Ray Wolf brought a stronger outfit to Raleigh last week than had fought the University of South Carolina to a 13-13 deadlock the week before. Carolina's weak points had been thoroughly ironed out and Coach Wolf's boys proved to be up to par.

State proved its fighting spirit in the early minutes of play when it held the Tar Heels for four downs on the one-yard line. A few minutes later the Techs recovered a Carolina fumble on the five-yard line and advanced down the field into safe territory.

The Wolfpack, however, was not able to hold up under the murderous onslaught of the Tar Heels and Crowell Little, quarterback for the Carolinians, bucked the line and netted the first touchdown on a four-yard gain. Carolina scored again in the second period on a pass from Tom Burnett to Andy Bershak.

The contest remained as such until the last five minutes when Tommy Burnett broke away for 26 yards and another touchdown. Turbott's Tommy made the extra point on a placement.

State showed that it meant business many times in the personage of Eddie Berinski, who, time and again shattered the University's line for sizeable gains. Berinski proved to be the heart of the Tech's outfit.

### This Week's Star...

Pictured above is Eddie Berinski, State College's bounding half-back. Eddie was born in Newark, N. J., August 27, 1914. He played his first football in grammar school in Bloomfield, N. J., and was presented with a cup his last year there for being the outstanding football player of the school. He then went to Bloomfield High School and a virtually put the school on the football map single-handedly, playing dazzling football for four years. He made the all-state team in his junior and senior years and was placed on the All-American High School Team of 1933. Berinski came to State in 1934 and enrolled in the High School Teaching course. He has made an outstanding record on the gridiron since his first day here, playing three years of varsity ball and one on the freshmen eleven. He was right halfback on the all-state freshman team of 1934. Last year he was given much attention by the sports writers and this year stands a fine chance of making several honor teams. He is treasurer of the Monogram Club and is a Second Lieutenant in the College Cadet Corps.

Pictured above is Art Rooney, triple threat halfback on the Wolfpack. Although Art is only a sophomore, he is considered one of the finest backs in the State and is expected to do big things against Furman Tomorrow.

## 'MURAL MUSINGS

by BOB COLEMAN, JR.

Where is 1st Watauga? was the question on the 1911 Field last Wednesday when 2nd 1911 came on the field to open their football season with the Watauga boys. In the meantime, the team from Watauga was getting ready for the big game, which they thought was the following day, over on Red Diamond. Anyway, 1st Watauga lost to 2nd 1911 by a forfeit.

One of the best games of the week was that played between the Delta Sigs and the Sigma Pis last Tuesday on 1911 Field. The Sigma Pis scored in the first quarter and were able to turn back every Delta Sig threat until the last few

## All Big Five Enter Frays

Tomorrow will be a big day in Big Five annals with all five teams swinging into action against tough foes.

Duke leads the quintet as they encounter the Tennessee Volunteers. Tennessee has already displayed strength in winning its first two games and will bring a smooth running eleven to Durham. Last year the Vols upset the dope cart by beating the Blue Devils in a hard fought contest. The Devils will be out to average the loss and will shoot such backs as Honey Hickney, Eric Tipton and Bob O'Mara at Major Neylands lads.

State will have a return night game booked with Furman. Last year the Pack took 'the measure of the bull dogs by a 27-0 count. This year led by June Scott, the pupils of Dizzy McLeod will present a stronger front.

Carolina invades New York for the second successive year to do battle with N. Y. U's Violets. The Violets defeated the strong Carnegie Tech eleven last week by the aerial route and they will give the acid test to the Tar Heel's new pass defense.

Davidson travels to Virginia and meets V. M. I. The Cadets will have a chance to see Mr. Lafferty in action and may see a little too much of him before the afternoon is over.

Wake Forest will take the field against Erskine with a crippled eleven and will have a hard battle on their hands. Erskine has dropped two games, one of them to Davidson but boast a rugged team.

## STATE YEARLINGS DROP FIRST GAME

Belmont Abbey Eleven Is Just  
Too Tough for "Nig" Walker's  
Green Freshmen

North Carolina State College's freshmen football aggregation found a husky Belmont Abbey eleven too much last Friday and gave up a 24-7 decision to the Abbey boys here in Riddick Stadium.

Belmont Abbey scored twice by the air route and twice through the line in defeating the Techlets. Belmont scored in the first three minutes of play, when Joe Cuffaro, ace of the Abby backs, hit the center of the line for the score, climaxing a 39 yard drive.

Held scoreless in the second period, the visitors took advantage of a blocked punt in the third quarter and made the second score on line plays.

Shortly after this score, State tallied when Clyde Frye, relief back, shook loose and loped 55 yards—the longest trip of the afternoon. This was the Wolflet's only score.

Featuring the play of State was Charlie Lennon, Clyde Frye, Bill Smith, Willard Parker, and Bob Avery, all backs. Phillip Aver, Joe Cathey ends, Mac Williams, tackle and Cutie Carter, center, starred in the Techlets line play. Carter, Raleigh boy, played the entire game.

Pullen Hall at 12 o'clock on the fourth Tuesday of each month. Junior class assemblies will be held on Tuesday, October 24, and on Tuesday, November 23, in the first term.

**Senior Class**  
Y. M. C. A. auditorium on the first Thursday of each month at 12 o'clock. This will give the senior class assemblies on Thursday, October 7, Thursday, November 4, and Thursday, December 2. Senior assembly was arranged for the Y. M. C. A. rather than Pullen Hall in order to enable the School of Engineering to meet all of its freshmen twice a month in Pullen Hall, there being no other hall on the campus that will accommodate the freshmen engineers.

The faculty and this program are pleased with this program of assemblies. It is believed that with every class in College having an assembly at least once each month, the necessary business of the classes may be handled successfully and information of interest and of value to the entire student body can be broadcast so that all students will receive it. These class assemblies will do much, it is believed, to overcome the handicap which State College will be working under until we can build an auditorium large enough to accommodate our entire student body and faculty.

A shortage of football shoes will apparently force a large portion of the Gooding College football team to play barefooted. The "large portion" being George Blankley, who stands 6 feet 3 inches barefooted—barefooted because he needs a size 14 football shoe.

## NEW SOUTHERN ENGINEER WILL BE READY MONDAY

Revised and Rejuvenated Engineering Journal Comes Off Press Monday

The new Southern Engineer will be ready for distribution to the students on Monday afternoon of next week, according to information received yesterday from F. E. Mask, business manager.

This college publication will present to the student body a new and distinctive magazine, redesigned and planned along lines that will give a new and modern effect to this engineering publication.

The color of the first issue of this magazine will be maroon with black and white contrast. The portrait on the front cover will be an angle shot of a portion of an industrial plant.

**Technical Contents**

The contents of the new Southern Engineer will pertain strictly to engineering matters, and in this first issue will feature a story of B. R. Van Leer, new dean of the engineering school. It will also contain an interesting article on college highways that have been developed through the efforts of State College, and the article is the product of the North Carolina State Highway Commission. Incorporated in the new magazine is a "quiz math" section which has been brought up-to-date, and will present many good hours of worry for the puzzle conscious campus. This is just one among the many features that the staff of the Southern Engineer promises in their rejuvenated publication.

This year's work on the engineering journal has been carried on by George Kilian and F. E. Mask, who are editor and business manager respectively.

### Attendance Bare for Celebration of Founder's Day

(Continued from page 1)  
State lost. He also said that for two years while at State College he never played in a baseball game in which State College came out second.

Sexton seemed very optimistic about the game last Saturday, congratulating the team and the student body for their fine conduct. He said that State College was not defeated in the game because of the splendid spirit of her students.

Previous to the speech by Sexton, Pine Burr and the Order of 30 and 3 took in new members. Pine Burr, local scholastic honorary fraternity whose requirements are the highest of any organization on the State campus, tapped the following men: Robert Loos, Jack Leet, Jack Sawyer, William Bailey, R. L. Huffman, James Worrell, and Leslie Brooks.

A pine cone was pinned on the lapel of each of the neophytes as a sign of his honor.

The order of 30 and 3, campus Sophomore Leadership Group, took in six men and placed on their lapels the symbol of the order, a white rose. The men honored were: Henry Means, Ernest Koella, R. C. Stuckey, E. P. Davidson, Ed Withrow, and Sam Mann.

### MURAL MUSINGS

(Continued from page 3)

stubborn Lambda Chi team 12-0. Johnny Miller and his Lambda Chi fought off several Sigma Nu threats, but were unable to prevent their scoring in the 1st and last quarters. The first score came early in the first from a pass Mauney to Davis. The score in the fourth came as the result of a run by Mauney after a series of runs and passes had put the ball on the five-yard line.

Director Miller issued a timely warning from his office yesterday when he suggested that all intramural wrestlers should be getting in shape. The prelin's are less than three weeks off. While wandering around the gym trying to pick up a story, I haven't noticed the mat in as much use as possibly it should be. Now may be the time for some early bird to get the jump on the other matmen when he can get the mat to himself.

It is hard to pick winners when so few games have been played and when the dormitory setup is so changed every year. It is easier with the fraternities. My picks are based on what practices I have seen and on last year's men in the case of fraternities. My picks are marked.

Games for the week are: Monday, S. P. E. vs. A. L. T. on RD; 3rd 1911 vs. A. L. T. on RD; on 1911. Tuesday, Pi Kappa Phi vs. Alpha Chi Beta on 1911; 3rd 7th vs. 1st and Basement South on RD. Thursday, Phi Kappa Nu on RD; 1st Watauga vs. 2nd Watauga on 1911. RD is Red Diamond and 1911 is 1911 Field.

Results this week were: 2nd and 3rd South 19, 4th 0; 1st Watauga 0, 2nd 1911 1; 5th 0, 6th 0; Sigma Nu 12, Lambda Chi 0; Delta Sig 7, Sigma Pi 6; Phi Kappa Nu 0; Phi Kappa Tau 0; A. K. Pi 0; Pika 25, K. A. 0; Remmey to Dulin scored 3 of touchdowns; A. K. Pi 24, Pi Kappa Tau 0, Snook and Honeycutt were two sparkplugs of the A. K. Pi; 5th 12, 6th 0.

If any group will get up a club, Mr. Miller will arrange games. If four clubs gather up, he will form a league.

The woman who wants to hold her husband can do no better than to study his mother.—Penrhyn Stanlaw.

## Great State Fair To Open Tuesday

Lucky Teter and His Hell Drivers, Huge Revue, 19 Rides and 22 Shows

Gates will swing open next Tuesday morning on a State Fair of which every citizen of North Carolina can well be proud, Manager J. S. Dorton declared today as he put final touches on arrangements for the great exposition October 12-16.

Exhibit halls, with added space to accommodate the emergency overflow, are receiving the vanguard of North Carolina products which will go on parade in an imposing array of progress. Entertainment attractions, of which there are a dozen features entirely new to the South, will begin to move into the far-flung fairgrounds Sunday, and by Tuesday

morning the fair will swing into full blast for five days and nights packed with education and fun.

Back in State hands after several years of private operation, the State Fair of 1987 has struggled against numerous handicaps to assure citizens of North Carolina a creditable exposition, Manager Dorton explained today.

"The eyes of the whole State are on us, eagerly watching to see just what kind of fair we produce," he said. "Thus it is with a great deal of confidence that the fair management, backed by the Department of Agriculture which operates the fair, urgently invites every Tar

Heel to see for himself that his State can produce a worthwhile fair."

With a total of \$14,000 being offered in agricultural premiums, keen competition is indicated from producers throughout North Carolina. Judging of exhibits will begin Tuesday morning.

All school children of Wake County will be admitted to the Fair free Tuesday on presenting their school tickets which have been distributed through local superintendents. "Lucky" Teter and his Hell Drivers will be the special attraction Wednesday afternoon in the grandstand arena.
