

## Expansion Planned By Monogram Men

### Letter Men Propose Erection of "Hut" for Own Use; Formulate Extensive Program For 1939

The State College Monogram Club is on the way back to its former position as one of the most powerful organizations on the campus. Under the inspiring leadership of President Bunny Hines, the club has snapped out of its lethargy and is planning for one of the most active years in its history.

Plans have already been drawn and a drive for funds has gotten underway for the erection of a Monogram Hut which will probably be located near the new track and practice field. The "Hut" as it will be called, is to be furnished by the members and used for its meetings and social gatherings.

In order to raise funds for the "Hut" a dance is to be given tomorrow night and another will probably be given in the spring term. Membership fees have been raised and the Monogram men are endeavoring to obtain the refreshment concession at home basketball games. The annual Stupendation, a vaudeville show put on by the members of the club, will be given this term and should it prove successful, it will be staged at the Capitol Theatre, with the proceeds going to the Monogram Club. Bill Retter is chairman of this year's Stupendation committee and Art Rooney, E. P. Hamilton, Sam Kaufman and John Savini will work with him.

Initiation for new members will get underway next week when the following men will be taken into the organization: Francis (Pat) Fehley, J. E. (Pop) Brown, C. W. Stuart, Jr., Fred Gardner, E. H. Coon, Jr., Walter Novick, Ralph Burt, Wallace (Mickey) Thompson, Howell Stinson, John Tatum, Charles Smart, Bill Windley, and Monte Crawford. The initiation committee is headed by Tony De Yesso and includes Mickey Sullivan, Ted Johnson, Robert Fleetwood and John Tatum.

The officers of the Monogram Club for the current year are Bunny Hines, president; P. G. Hill, vice president and Fred Mastrolia, secretary-treasurer. Only those students who have won State College monograms for participation in intercollegiate sports are eligible for membership.

## Delegates Return From Convention Of S. G. Leaders

Bill Bailey and Walter Fanning, president and vice president of the Student Government, during the holidays attended the Fourteenth Annual Congress of the National Student Federation of America held at Purdue University December 27-31.

Bill Aycock, former president of the State student body, attended the convention as a member of the Executive Council, and was elected first vice president of the Federation for the coming year.

Delegates were divided into commissions, each of which discussed its own topic. Topics allotted these commissions were: Educational Schools, Students and National Commissions, College Stimulation, Elections, Curriculum, Freshman Orientation, Services of the NSFA to Colleges, The Honor System, Student-Faculty Relations, Teachers' Colleges, and Finances.

## Work To Start Shortly On New Textile Home

### Estimated Cost of Structure Is placed at \$350,000; PWA Will Assist Financially

Another phase of State College's \$1,000,000 building program will occur Jan. 15 with the opening of bids for construction of a new textile building designed to be the most modern of its type in the South. Ross Shumaker of the Department of Architecture announced today.

Estimated cost of the building, which will face Hillsboro Street on the extreme western edge of the campus, is \$350,000. A PWA grant will help finance the project.

Actual construction of the new building is expected to begin shortly after the contract is let. Workmen are already clearing the site and preparing for foundation excavation under a contract awarded last week to C. C. Mangum of Cary.

Approval of another dormitory project is expected within the next few days, Mr. Shumaker stated. Four dormitories already are under construction, and two more are included in a tentative program.

Hitherto forced to turn away large numbers of prospective students because of lack of dormitory facilities, State College will have quarters for 800 additional students upon completion of the present building program next fall.

The new textile building will be four stories high and will conform architecturally with other buildings on the rapidly growing west section of the campus. It will contain approximately 75,000 square feet of floor space. The building now in use contains about 50,000 square feet.

## Engineering Week Begins January 25

Program Planned for Assembly of Engineers and Discussion of Technical Problems

An elaborate program for Engineers' Week, Jan. 25 to Feb. 1, is being developed at State College through co-operation of the School of Engineering and the College Extension Service.

Dean Blake R. Van Leer of the School of Engineering has appointed the following faculty members to the committee for Engineers' Week and the Engineers' Institute, which will be held Thursday, Jan. 26.

Chairman: Prof. William Hand Browne, Prof. C. M. Heck, Prof. R. S. Fournaker and Prof. H. E. Satterfield. Dean Van Leer will be an ex officio member.

## A BIRD'S-EYE VIEW OF THE POST-XMAS RUSH!

If you registered Monday, you will understand that this is only a small view of the enormous crowd that flooded Frank Thompson Gymnasium as the second term of school got under way, and registration was in progress. Some students stood in line for hours before completing their enrollment for the second quarter. (Photograph by J. C. Richmond, Staff Photographer)

## Dean Cloyd Beginning 22nd Year of Service

### Dean of Students Has Been Connected With College Since 1918; Reorganized Inter- fraternity Council in 1931

DEAN E. L. CLOYD

On Wednesday of this week Dean E. L. Cloyd celebrated his twenty-first year of service at N. C. State. Joining the faculty in 1918, Dean Cloyd taught engineering drawing and descriptive geometry for five years. He was appointed Dean of Students in 1921 and as such has come into contact with more of the student body than any other administrative official. He is well known for his friendliness toward the students despite the fact that he is chairman of the disciplinary committee.

Dean Cloyd considers the establishment of the student government in 1921 to be one of the most significant changes in student life which has occurred during the time he has been connected with the college. The college had an enrollment of a little over 650 in 1918 when Dean Cloyd first joined the faculty compared to the approximately 2,100 students enrolled now.

Another development of importance which has occurred since Dean Cloyd arrived in 1918 is the establishment of honor societies, the first of which was Pine Burr. In 1918 there were no honor societies on the campus.

Dean Cloyd played an important part in the reorganization of the Interfraternity Council here in 1931.

His interest in fraternity welfare has resulted in an appointment to serve on the Educational Committee of the National Interfraternity Council for the coming year. The National Interfraternity Council is a national organization of the fraternities throughout the country, which convenes in New York each fall.

## Frats Will Begin Rushing Program On Monday Night

### All Sunday and Monday Afternoon Set Aside for Visiting Days; Silent Period Begins Thursday Midnight

State College fraternities will officially begin their second term rushing for freshmen Sunday, which will include two days of visiting to the chapter houses, four nights of rush parties, and a three-day silent period.

Freshmen will be sent invitations to visit the chapter houses from Sunday noon until Monday afternoon at 5 o'clock, during which time they will fill out their date cards for the remaining rushing period.

The actual rush affairs will begin Monday night, and will continue through Thursday at midnight, after which silent period will begin. Bids will be sent out Friday and the silent period will continue until Sunday.

This is the first year that State College has used a system of deferred rushing, in which no freshman can be pledged until the beginning of the second term. Rushes were allowed to visit the chapter houses on Sunday, each fraternity having two visiting Sundays in the month.

The deferred system of rushing was designed to give freshmen a chance to see the various fraternities, and also to give the Greeks a better view of the men they bid.

The place and the time for accepting the bids has not been announced, but will be given out from the Dean of Students' office later in the week.

## Carr Accepts Job As U. S. Examiner

### Former State Graduate in School of Agriculture Goes With Civil Service

Jeff D. Carr of Sampson County, a State College graduate in 1937, will go to Washington Tuesday to accept a position as junior examiner for agronomy with the United States Civil Service Commission, Dr. J. E. Cotner of State College announced today.

During his senior year at State, Carr was selected as a member of the State College cross-judging team which competed in the American Royal Intercollegiate Cross-judging Contest in Kansas City and the International Contest in Chicago.

After graduating from State, he was awarded a fellowship by the University of Tennessee. His duties were assigned, during the fellowship year, with the seed improvement program in Tennessee and the instruction of laboratory classes in agronomy.

## Registration Hits New Record Figure

### College Offers Air Facilities To Government

### 1,917 Students Enroll as Institution Enters Its 50th Anniversary Year; Highest in His- tory for Winter Term

### State Would Train Pilots Annually Under Newly Proposed Federal Aviation Program

For the second successive year all previous records for enrollment at State College during the winter term have been broken by the registration of 2,006 students, figures released by the registrar's office reveal.

State College's facilities for teaching aviation were made available during the holidays to the Civil Aeronautics Authority for use in its program providing for the annual training of approximately 20,000 pilots in the colleges and universities of the United States.

Joining in the offer were Col. J. W. Harrelson, dean of administration; Blake Van Leer, dean of the School of Engineering, and Prof. L. R. Parkinson, of the aeronautics department, who interrupted his Christmas holidays to fly to Washington and press the proposal upon Grover Webster, head of the CAA private flying division.

Seven schools have already been selected for a "test semester for pilot training, starting with the approaching term.

"While State College probably will not be included on the experimental basis, we are hopeful that our facilities will be used by the Civil Aeronautics Authority when the program is given nationwide standing," stated Col. Harrelson.

President Roosevelt has approved the program calling for the annual training of approximately 20,000 student pilots, for which the estimated cost of the first full-scale, one-year training program is \$9,800,000.

A total of \$100,000 in NYA funds has been allotted for the experimental stage of the project, which if proved sound, will be extended to several hundred colleges and universities during the 1939-40 school year.

In the past two years State College's aeronautics department has grown from a rickety wind tunnel and a couple of outmoded motors to a department with over \$75,000 worth of modern equipment, most of which has been secured from the government and commercial aviation firms without cost.

The winter social season at State College will be inaugurated tomorrow night when the rejuvenated Monogram Club presents an informal dance in the Frank Thompson Gymnasium from 9:00 o'clock until 12:30 o'clock. Key members of the orchestra will furnish the music for the affair and the public is invited.

A novel decoration motif has been arranged by the members of organization for the dance. Proceeds will go to the fund being raised for the erection of the Monogram Club's "Hut." Tickets are on sale now and may be obtained from any member of the committee.

Students are urged to buy their tickets in advance in order to take advantage of the lower price of seventy-five cents. Admission at the door will be ten cents more. Tomorrow's dance is the only one given during the winter term, other than the Pledge Dances.

Chaperones will be Mr. and Mrs. Williams Newton, Mr. and Mrs. Herman Hickman, Dr. and Mrs. Bob Warren, Mr. and Mrs. Wade Ison, Mr. and Mrs. J. L. VonGlaban, Mr. and Mrs. Nig Waller, Dr. and Mrs. R. R. Sermon, Mr. and Mrs. Charles Doak and Mr. and Mrs. John Bonitz of Greensboro.

Members of the dance committee are Leslie Boney, George Fry, Tom Rowland and Jim Murray.

## Appointment To Ceramic Head

Dr. A. F. Greaves-Walker, head of the Department of Ceramic Engineering at State College, has been appointed chairman of the subcommittee on ceramic investigations for the advisory board of the Bureau of Mines Electrotechnical Laboratory at Norris, Tenn.

Of this number, 86 are either new students or upperclassmen who were not in school last term. One hundred and ninety-two students failed to return to school after the fall term, thus accounting for the decrease of 106 in the total enrollment, there having been 2,112 enrolled during the first period.

Statistics of the various classes and schools have not been compiled as yet, but will be ready for disclosure very soon after the closing of the registration period tomorrow, the date set as the deadline for registration or change in schedules.

## Building Program Reaches New Peak

### Construction Soars on New Dorms and Classrooms at State; Occupancy Planned By Fall

Students returned from a long Christmas vacation this year to find that truly amazing progress had been made on the construction of the new dormitories and buildings comprising State's \$1,000,000 expansion program.

In the lower corners the two new dormitories have attained their full height and work is about to start on the interiors. The roof of one of the dormitories is almost completed, and from all appearances it will be an exact replica of Seventh.

Behind the dairy barns the foundations for the newest dormitories have already been finished and some of the steel girders erected. These two dormitories are being built by the South-eastern Construction Company of Charlotte, which received the contract on November 1.

Little more than a naked framework of girders and foundations before the holidays, the Chemistry building has risen by leaps and bounds and one is given an inkling of its future appearance by the nearly half-finished brick and concrete walls and the girders rising from the inside of the structure.

By next year the building will be finished inside and out and States will have the latest laboratory equipment. The old chemistry building will be reserved for the use of the Chemical Engineering Department.

All of the buildings now under construction will be ready for use by next fall if the work continues to proceed on schedule. The new textile building, for which plans are being drawn, will not be finished before January of next year.

## Marriage Course Becoming Popular

### Subject Inaugurated by Pro- fessor Hicks Last Term; Number Taking Course Has Increased Many Times

The popularity enjoyed by the newly-inaugurated course in marital relations is readily indicated by the large increase in this term's enrollment over that of last term. Only twenty students took the course last term and over fifty-five are taking it now.

## STATE COLLEGE MEN TAKE TO THE AIR

Advanced students in aviation at State College are shown here at the Raleigh municipal airport, where they receive expert flight instruction, with several of their instructors. They are a small part of the nearly 100 students who are taking the aeronautical courses offered in the Department of Mechanical Engineering.

State College has offered the facilities of its aeronautics department to the Civil Aeronautics Authority for use in its program to train annually approximately 20,000 pilots in the colleges and universities of the United States. The department has over \$75,000 worth of modern equipment, most of which was secured without cost from the government and commercial aviation firms.

Kneeling, left to right, are R. L. Furman, L. F. Williams, E. R. Bates and F. T. Abbott, Jr., L. H. Taber, A. C. Truex, and B. B. Redmon. Standing, C. J. Fleming, Jr., J. T. Power, J. N. Drum, P. E. Johnson, Jr., D. R. Powers, Prof. R. J. Maddison and Prof. L. R. Parkinson; Instructor H. J. Cary and Instructor R. W. Swann. (Photograph by J. C. Richmond, Staff Photographer)

# Cagers Open Home Stand With Clemson

## Clemson to Show Classy Team in Game With Terrors; Mann and Sevier Return to Action

The Red Terrors will swing into action on the home court next Wednesday evening when they take on the tough Clemson Tigers in Frank Thompson Gym. The freshmen will play a preliminary game with Louisburg College at 7:00 o'clock.

Lead by their Co-captains P. G. Hill and Bill Mann, the Techs form a formidable line-up. At the guard posts Doc Sermon has in Selby Jones, Elwin Hamilton, and Red Sevier, three men he can depend on to be in there every minute giving their all. At center Jim Rennie is as close to looking like Mac Berry as anyone possibly could. The lanky center is a dead shot on long ones and he can put them up from all angles.

The Techs are well supplied with some good reserve material this year. They have good men to fill in at every post.

In the forward positions the Terrors have the two co-captains and two other dependables in Honnicutt and Waters.

The Terrors displayed their power in the pre-season trip to Florida. They took on two of the toughest in the Gator State and won with ease. Rennie scored a total of 45 points in the three games.

Clemson Strong  
The Clemson aggregation will bring a veteran team to town tonight when they meet the Techs. Clemson had little trouble in taking two games from the Tigers.

In Banks MacFadden and Bryce the tigers will bring two of the best basketball players ever to show on the State College floor. These two men were a constant threat to the Terrors in the two games last year. All of the Clemson men saw service last year.

The fast-stopping Wake Forest team had a tough time stopping the Tigers in their opener last Wednesday night.

There may be some changes in the State lineup before they take the floor next week. The Terrors will play McCrary Eagles, one of the best independent outfits in the business, tomorrow night in Ashboro.

# Techs Place Four On Mythical Team

Only Two Big Five Teams Place Men; Carolina Misses First Team

The three bowl teams North Carolina, State and Wake Forest played this year won nine of the 11 positions on the Wolfpack's all-opponent team selected in a poll recently.

Carnegie Tech, foe of T. C. U. in the Sugar Bowl, was voted first of the berth; Alabama, the past year's eastern representative in the Rose Bowl, won three, and Duke University, January 2 opponent of Southern California in the Rose Bowl, was awarded two. The others went to one University of Detroit player and one Wake Forest player.

None of the players received unanimous vote. Alabama's tackle and halfback, Fred Davis and Herky Moseley, and Carnegie's halfback, George Muha, led the balloting with 17 out of a possible 20 votes. Halfback Eric Tipton of Duke, an all-America player, and End Carl Striegel of Carnegie came next with 16.

| Player (Votes) | Pos. | Team          |
|----------------|------|---------------|
| Striegel (16)  | E    | Carnegie Tech |
| Schauer (9)    | E    | Detroit       |
| Davis (17)     | T    | Alabama       |
| Campbell (13)  | T    | Carnegie Tech |
| Bostick (9)    | G    | Alabama       |
| Waters (10)    | G    | Wake Forest   |
| Hill (13)      | C    | Duke          |
| Muha (17)      | B    | Carnegie Tech |
| Moseley (17)   | B    | Alabama       |
| Tipton (16)    | B    | Duke          |
| Conner (13)    | B    | Carnegie Tech |

Others receiving votes: Ends, Perdue, Duke, (8); Shoemaker, Alabama, (4); Nolan, Furman, (2); Iverson, Davidson, (1). Tackles, Pate, Wake Forest, (2), and Favelle, Detroit; Maronic, North Carolina; Kimball, North Carolina; Hinson, Furman; Hase, Duke; Maloney, Duke, and Merrill, Alabama, one each; Guards, Woodson, North Carolina, (3); Devin, Virginia Tech, (7); Fall, Manhattan, (3); York, Duke, (3); Bakerville, Duke, (1); Centers, Cox, Alabama, (4); Schmidt, Carnegie Tech, (3); Backs, Miller, Virginia Tech, (8); O'Hara, Duke, (4); Palumbo, Detroit, (2) and Carvelly, Carnegie Tech; Zivich, Alabama and Spangler, Duke, one each.

# N. C. State 1938-39 Basketball Schedule

- Jan. 11—Clemson in Raleigh
- Jan. 14—Wake Forest in Wake Forest
- Jan. 17—Davidson in Charlotte
- Jan. 20—Furman in Raleigh
- Jan. 24—North Carolina in Raleigh
- Jan. 31—Duke University in Durham
- Feb. 3—V. M. I. in Raleigh
- Feb. 4—Maryland in Raleigh
- Feb. 7—Wake Forest in Raleigh
- Feb. 13—Virginia Tech in Raleigh
- Feb. 14—Davidson in Raleigh
- Feb. 17—North Carolina in Chapel Hill
- Feb. 20—Duke University in Raleigh
- March 2, 3 and 4—Southern Conference Tournament in Raleigh

# Winter Sports Have Premier Next Wednesday

## Talking Things Over

Grouped around their able mentor, Doc Sermon, are members of the 1938 Red Terror basketball team who will swing into action on the home court this Wednesday night. Co-captain Bill Mann, Selby Jones, Coach R. R. Sermon, Adolph Honnicutt, Co-captain P. G. Hill, and Rollin Sevier. Jim Rennie was absent when this picture was taken.

# Terrors Win Three On Southern Trip

## WRESTLING

All members of the freshman class interested in wrestling are urged to report to Coach Herman Hickman in the gymnasium as soon as possible. There is an excellent chance for anyone desiring to make the team to do so if they report early enough. Practices are held in the gym at 4:30 every afternoon.

# Boxers To Show Veteran Line-Up

All Weights Show Experienced Men; Abrams Only Newcomer to Squad

The varsity and freshman boxing teams returned to practice this week after the vacation to settle down to their final workouts for one of State's most interesting boxing schedules. The roster of the team will show that all but one of the men on the team this year have had plenty of experience and are willing leather pushers. In the heavy-weight class the team is well fortified with Andy Pavlosky of football fame. In the 175-pound class State will have the only inexperienced man in Paul Abrams. However, he was a member of last year's championship freshman team. In the other weights State will have men who fought on the team last year and are well seasoned. Smart, 165; Traylor, 155; Turner, 145; Brown, 135; Young, 125, and Bett, 118, go to make up a well-balanced team. The team has been provided with a very interesting schedule this year and will meet the following teams at home: South Carolina, Jan. 11; V. P. I., Jan. 23, and Duke, Feb. 11. The Southern Conference Tournament will be held in Columbia, S. C.

# Frosh Gridders Receive Numerals

Although they won not one of their five scheduled games, 27 North Carolina State College students comprising the freshman football squad will be given their 1942 numerals. Prof. H. A. Fisher, chairman of the college's athletic council, said the council has agreed. Awarded for their efforts during the past fall's campaign when they worked almost daily with the varsity in addition to playing their schedule were the following: John Barr, guard, from Charlotte; Henry Boltrek, tackle, Arverne, N. Y.; Alex Carmean, center, Spring Hope; Ignatius Czernecki, fullback, Elizabeth, N. J.; W. V. Copeland, tackle, Burlington; Bill Cooper, guard, Charlotte; Charles Doak, guard, Raleigh; R. R. Doak, quarterback, Raleigh; Jack Dall, tackle, Winterville; Francis Farrell, tackle, New York City; Gaston Faison, center, Greensboro; Don Gillespie, halfback, Coeburn, Va.; Roland Gaddy, center, Sanford; Jardine Gibson, halfback, Gastonia; John Hines, tackle, Rocky Mount; Jack Huckabee, halfback, Charlotte; Charles Jones, center, Washington, D. C.; Woody Jones, tackle, Roxboro;

# Wolves To Receive Monogram Awards

Twenty-eight Members of Squad Awarded Monograms By Athletic Council

Twenty-eight players and two managers will be lettered for services performed the past football season by the N. C. State College athletic council of which Prof. H. A. Fisher is chairman. Thirteen of the players won their black monograms for the first time as Coach Williams (Doc) Newton continued his policy of building an experienced Wolfpack squad.

The new letter winners are: Ends, Fred Gardner of Smithfield; John Tatum of McGill, S. C.; Charley Smart of Concord; Mickey Thompson of Sparksville; Monte Crawford of Spartanburg, S. C., and Wayland Stewart of Winston-Salem; tackles, Walt Novick of Frackville, Pa., Ralph Burt of Raleigh and Bill Windley of Pantego; center, Howell Stroup of Cherryville, and backs, Don Traylor of Murfreesboro, Pat Feeley of Easton, Pa., and Paul Loster of Grantwood, N. J.

Veterans winning awards are: End, Mickey Sullivan of Staten Island, N. Y.; tackles, Ed (Ty) Moon of Watertown, Conn., and Altona of Easton, Pa.; guards, Captain Bunnie Hines of Winston-Salem, Freddy Mastrolia of East Boston, Mass., Warren Wooden of Baltimore, Md., John Savini of North Hanover, Mass., Steve Acal of Donora, Pa., and Bill Matheny of Pulaski, Va.; center, Bill Retter of Easton, Pa., and backs, Little Aris Rooney of Pittsburgh, Pa., Tony Diviso of White Plains, N. Y., Andy Pavlosky of Struthers, Ohio, Bobby Sabolyk of Yonkers, N. Y., and Ken Sands, of Pulaski, Va.

The student managers lettered were J. E. (Pop) Brown of Rich Square, who bossed the varsity managers, and E. W. Smith III, of Norfolk, Va., who bossed the freshmen managers.

Last year the Athletic Council lettered the same number of men on Coach Newton's recommendation. Only six of the current year's monogram winners have completed their playing careers—Tackle Fry and Guards Hines, Mastrolia, Wooden, Acal and Matheny. Thus the Wolfpack mentors appear to be pretty well stocked for the 1939 campaign with experienced players at every position except guards.

# Matmen Prepare For Season Opener

The team which built up the best record of State College last year is hard at work for their opening engagement with Maryville College of Tennessee next Friday evening. The able coach of the grunt and groaners has been hard at work getting the team in shape for their toughest schedule which includes Tennessee, V. P. I., and members of the Big Five.

The only varsity men to return to school this year were Captain Charley Hunter and Ted Johnson. However, there are several good men coming up from last year's championship freshman team and these men are expected to fill the shoes of those lost by graduation.

# Football Rules Changed Slightly For Next Season

More Extensive Use of Lateral Pass Predicted; Better Defense of Forward Passes Certain

Next season football fans throughout the country will be treated to some variations of the game's most spectacular play—the forward pass.

This year's meeting of the National Rules Committee at Colorado Springs made only two minor changes in the rules of the nation's sport but both of these will tend to open the game up as far as the forward pass is involved. There will be greater use of the shovel or short pass back of the line of scrimmage and far less screening on long passes.

The first change in the passing rules made by the committee will aid the offensive team. It provides that if an ineligible player is hit by a forward pass, the penalty shall be loss of the down and 15 yards penalty, instead of loss of the ball.

Aids Defense  
The other change in the rules will aid the defensive team. It will require that all ineligible players stay in the three-yard zone at the line of scrimmage until the pass is thrown. This reduces the number of players going down the field for a pass and tends to help the defense pick up the receivers going out of the line of scrimmage.

The rules committee gave thought to the safety of the players, desiring that the football player must wear thicker pads at the thigh and knee and that the cleet must be enlarged to a half-inch at the bottom.

# Techlets Open Season Tonight

The 1938 Techlet basketball team will swing into action tonight in Frank Thompson gym when they take on the fast stepping Wilson high team. The game will get under way at 8 o'clock.

Some twenty-five first year men reported to Coach Bob Warren at the start of the season and the team has been rapidly rounding into shape. The following have been showing a lot of promise and may get the starting call tonight: Norman Wiggins, Jones, Hiram, Jenny, Carney and Strayhorn.

In addition to Warren the team has been coached by Hill and Sevier of the varsity. They will play Louisburg College next week on the same bill as the State-Clemson game.

### Plans Under Way For Junior-Senior

\$202 Collected From Juniors On Registration Day; Efforts Being Made to Make Dance Exclusive

Plans for the Junior-Senior Prom, to be held in the spring term, are getting steadily underway, said Jim Mitchner, president of the junior class. Two hundred and two dollars were collected on registration day, which means that \$222 juniors have given their full cooperation to put on an exclusive Junior-Senior Prom, and about 40 other juniors have signed pledges to pay their dues of one dollar in the near future. This does not mean, Mitchner went on to say, that the remaining juniors out of approximately four hundred are not going to pay, but on the contrary, we feel sure that because of a very good season they did not pay their dues on registration day and will do so as soon as possible by seeing one of the class officers.

If the class agrees, the dance will be given in conjunction with a fraternity dance, said Mitchner, and it is up to the class as to whether the dance will be held on a Friday night or a Saturday night. By giving the dance in conjunction with a fraternity, a much better orchestra can be obtained for the same amount of money than if the class had an orchestra to play just for their dance.

It is up to the juniors who have not yet paid their dues as to whether the dance will be exclusive, said Mitchner, and by exclusive, we mean that no students except juniors and seniors will be given bids. The juniors will not give a bid in exchange for their dues receipts and the seniors will receive their bids upon presentation of their registration cards.

### Huckabee Elected To Head Freshmen

Johnson, Lambe, and Walker Also Victorious in Class Elections

Voting during examination week last quarter, State College freshmen elected Jack Huckabee, engineering student from Charlotte, to the presidency of their class. He emerged victorious in the voting after a hotly-contested race with W. F. Lovell of the School of Agriculture.

The voting climaxed a three-week campaign for the coveted freshman class offices. The qualifying ballots were held to thin out the number of candidates before the final vote, two aspirants for each of the four offices moving into the final election.

For vice president, Norwood A. Johnson, agricultural student from Smithfield, defeated Ralph Shimer in a nip-and-tuck battle. T. W. Lambe, Raleigh boy enrolled in the School of Engineering, defeated W. D. Robbins for secretary-treasurer; and Jimmy Walker, another Raleigh boy enrolled in the School of Engineering, bested J. M. Barr for representative on the Student Council.

### Library Exhibits Old Manuscripts

Interesting Collection Dates Back to Ancient Method of Hand Printing

An interesting collection of illuminated manuscripts is on exhibition in the "browsing room" of the Dan Hill library, and will remain through January 15. Accompanying information states that the collection, which is being circulated by the American Federation of Arts, was gathered by Mr. Otto P. Edge of Cleveland within the past twenty-five years during searching tours through fourteen different countries. They have been selected especially to illustrate typical book and court handwritings from 840 to 1825, representing various countries of Europe and the Near East. Although collected principally to show the various types of writing, the manuscripts are also interesting because of the materials on which they were written.

These manuscripts are taken from Bibles, Books of Hours, which in the Roman Catholic Church were books of devotions containing offices for private use, the Koran or Arabic Bible, Missals, Antiphonals, as well as deeds, legends, and other records which were kept. They were written by hand during the Middle Ages, before the general adoption of the printing press and are mainly the work of monks in the monasteries or members of other religious orders who were practically the only groups versed in the art of writing. Many of them are enriched with superbly illuminated letters and elaborately painted miniatures, and the work is so minute as to sometimes require the aid of a magnifying glass to discover the accuracy of detail. The colors and gold leaf employed in the paintings have remained clear and fresh through the hundreds of years, although in places they are rubbed and worn from use.

5. No, you city slicker, a peahen lays eggs.

### INTRAMURAL SPORTS

(Continued from page 3)  
teams played good ball on a slippery field.  
In the fraternity league the Kappa Sigs took top honors by defeating the AGR team in an extra period. They were all tied up at the end of the regular game and in the extra period the winners made two first downs to sew it up, 3-1, in first downs.

In the play-off for third and fourth places the Delta Sigs took the Lambda Chis into camp in another extra-period game, 6-4, in first downs.

The standings:

| Fraternity     | Points |
|----------------|--------|
| PKA            | 505    |
| Kappa Sig      | 497    |
| Sigma Nu       | 414    |
| SPE            | 400    |
| AKP            | 345    |
| Delta Sig      | 286    |
| Lambda Chi     | 268    |
| AGR            | 210    |
| Phi Kappa Tau  | 187    |
| Pi Kappa Phi   | 105    |
| KA             | 175    |
| Sigma Pi       | 170    |
| Theta Kappa Nu | 60     |

| Dormitory   | Points |
|-------------|--------|
| 2nd 7th     | 427    |
| 3rd 1911    | 421    |
| 3rd 7th     | 340    |
| 4th         | 320    |
| 2nd South   | 319    |
| 2nd 1911    | 289    |
| 2nd Watauga | 233    |
| 6th         | 216    |
| 1st South   | 150    |
| 5th         | 60     |
| 1st 1911    | 50     |

The private library of famed economist Richard T. Ely has been acquired by Louisiana State University. It represents 80 years of collecting and is the second most important collection on economics acquired by any American library in this century.

### MONOGRAM DANCE SPONSORS

The four lovely young ladies pictured above will sponsor the Monogram Club dance to be given in the Frank Thompson Gymnasium tomorrow night. The sponsors and their escorts are Miss Lydia Lea Bailey of Greensboro with Bunny Hines, president of the Monogram Club; Miss Becky Davis of Rocky Mount with Leslie Boney, chairman of the dance committee; Miss Ruth Kingsolver of Hickory with P. G. Hill, vice president of the Monogram Club, and Miss Dorothy Brown of Greensboro with George Fry, a member of the dance committee.

### Southern Engineer Subscription Fees Explained in Detail

Many engineering students have complained this week that they were charged twice for their subscription to *The Southern Engineer*, monthly organ of the School of Engineering. Some students made a voluntary subscription to the magazine at the beginning of school in September, and when students registered for the Winter term last Monday, they were required to pay the Treasurer a three dollar engineer's fee, which included the price of a subscription to the technical magazine. Sidney Rogers, business manager of the magazine, issued the following statement late yesterday afternoon in an attempt to clarify the situation:

"Several people have asked me about a refund to those students who subscribed earlier in the year to *The Southern Engineer*. There is no need for a refund. The names of the students who paid the one dollar subscription fee were turned in to the Treasurer's Office, and those students were charged two dollars engineering fee, instead of the three dollar fee the rest of the engineering students were required to pay. If the complainant will check his receipts, he will find this to be correct."

### High Honors Won By Forensic Team

State Debaters Rank High In Dixie Tournament; Two Clashes Planned for Near Future

True to form, the State College debating team walked away with high honors at the Dixie Forensic Tournament held at Winthrop College, Rock Hill, South Carolina, on December 1-3.

George Lippard won the Dixie Championship in Argumentation, and C. K. Watkins won second place in the same classification.

In the debate tournament the best record was made for State College by Jack Price, who ranked sixth in a field of over 150 debaters from 35 colleges, and finished fifth in the Best Debate contest. Price's record was all the more remarkable since he was participating in his first tournament.

Another feature of the tournament was the use of the contest in Problem Solving, perfected by the State College forensic squad in 1936 and used successfully in the Southeastern Experimental Tournament in 1936 and 1937.

Professor Edwin H. Padgett, coach-of the debating team, spoke for fifteen minutes over a state-wide radio hookup on the history and importance of the Dixie tournament.

State College was represented in the Dixie Tournament by H. B. Bell, Robert S. Smith, C. H. Kirkman, P. W. Woodruff, George Lippard, C. K. Watkins and Jack Price.

The debating team will clash with Campbell College here Friday, Jan. 13, and with Wake Forest at Wake Forest on Tuesday, Jan. 17.

### Fountain Author Of English Book

English Professor Composes Textbook Dealing With Technical Writing

High praise for "A Study of Courses in Technical Writing," written by Dr. A. M. Fountain of the English Department, is contained in the book review section of the current issue of *The Journal of Engineering Education*.

The book, said the review, "is a mine of interesting information for teachers of English and for administrators in engineering colleges. . . . Dr. Fountain is to be congratulated on having prepared a really useful study, and the North Carolina State College deserves the thanks of engineering colleges for having published it."

Dr. Fountain spent several years gathering information about courses in technical writing and English in all the engineering colleges of the country. His findings were combined in his book with a detailed study of textbooks which have been used in technical writing courses from the beginning.

The study was used by Peabody College as a thesis for his doctorate.

### State Men Attend Alpha Zeta Meet

Three Representatives of Local Chapter Go to Conclave in Atlantic City

Three representatives from State College attended the biennial conclave of Alpha Zeta, honorary agricultural fraternity, in Atlantic City Dec. 29-31.

They are Prof. David S. Weaver, head of the Department of Agricultural Engineering; Leiland E. Thornton of Hampton, Va., senior in animal husbandry and chancellor of the State College chapter, and Charles A. Hunter of Charlotte, a junior, who went as alternate delegate.

Prof. Weaver is High Chancellor of Alpha Zeta and edits the *Alpha Zeta Quarterly*, which is sent to all members of the fraternity throughout the United States. The biennial conclave is the governing body of the national fraternity, and every chapter in the country will be represented by at least one member. Alpha Zeta was founded 40 years ago at Ohio State College. Only men of high scholastic attainment, with qualities of leadership and personality, are selected as members of the fraternity. The State College chapter was established in 1904 by Prof. C. W. Burkett, at that time professor of agriculture and one of the co-founders of the national fraternity. The fraternity now has a chapter in practically every agricultural college in the nation.

A classical museum—a valuable collection of antiquities—has been opened at Vassar College.

# Happy Combination

...a new year  
...a new SMOKING PLEASURE

Make Chesterfield your New Year's resolution ...they'll give you more pleasure than any cigarette you ever smoked.

Chesterfields are better because of what they give you—refreshing mildness, better taste and aroma.

Chesterfields are the right combination of mild ripe American and aromatic Turkish tobaccos—rolled in pure cigarette paper.

When you try them you will know why Chesterfields give millions of men and women more smoking pleasure...why THEY SATISFY.

# Chesterfield

...the blend that can't be copied  
...a HAPPY COMBINATION of the world's best cigarette tobaccos
