

## Graham Protests Tuition Increase

President of Greater University Gives Strong Opposition at Budget Committee Hearing

Speaking before the Legislature's Appropriations Committee Tuesday, Dr. Frank P. Graham, fiery president of the Greater University of North Carolina, vigorously attacked the proposed increases in tuition as "applying a test of wealth instead of merit to prospective students."

Graham warned the group that boosts in entrance fees for out-of-State students would violate the spirit of the State's Constitution and traditions and asked the General Assembly to increase the annual appropriation for the Greater University by \$508,233. This increase includes amounts which the Budget Commission had estimated would be raised from the proposed tuition increases.

Graham warned the group that boosts in entrance fees for out-of-State students would violate the spirit of the State's Constitution and traditions and asked the General Assembly to increase the annual appropriation for the Greater University by \$508,233. This increase includes amounts which the Budget Commission had estimated would be raised from the proposed tuition increases.

Regarding the proposed increases in tuition charged out-of-State students, Dr. Graham said:

"We are not fighting a moderate increase in the differential for out-of-State students. However, there are a few institutions that charge a higher tuition differential than we do for out-of-State students."

"But remember that to be a real institution of higher learning, we need these students coming in for exchange of ideas."

He said that State College now has 380 out-of-State students, the Women's College 283 and the University 1,015.

"Too High Now"

"We stand high in tuition and somewhat high in fees already," continued Graham, pointing to charts on charges at other State-supported institutions in the country. Other institutions that do not rank with our institutions are spending more money than we are."

He warned the committee that undue economy in appropriating funds for the Greater University might result in "social, economic and intellectual waste."

Murray Speaks

DR. FRANK P. GRAHAM

## Chaplain Favors Gas Execution

Reverend Cooper Condemns Electrocuting Preparations As "Horrible"

"Putting a man to sleep before snuffing out his life is a very inhuman way to exact a death penalty," Reverend E. C. Cooper, chaplain at North Carolina's Central Prison, told a group of State College students at a meeting held last night in the College YMCA.

Reverend Cooper said that he was bitterly opposed to any proposal, such as will be introduced to the General Assembly, to put a criminal to sleep before taking his life.

"I prefer the gas chamber to the electric chair, because with gas, a man does not die immediately as if forty sledge hammers had hit him at the same time. When a criminal is given gas, during the thirty or forty seconds while he is losing consciousness, he usually is asking for forgiveness and is for the first time seeing things in their true light," the chaplain said. He added that there was no chance for this last plea in electrocution because when the heavy current struck a man, he was killed on the instant.

Reverend Cooper said that the preparations leading up to an electrocution were horrible.

"When you see them shaving a man's head, strapping him tightly in the chair, putting a salt-water sponge on his head, blindingfold him, and then clamping the steel helmet on his head, you will realize how much easier a death gas provides," he said.

"We are trying to correct criminals now by spiritual guidance instead of strict punishment in North Carolina over five hundred of the best ministers from every denomination conduct regular Sunday service without the slightest remuneration from the State," he said.

## Honor Society Initiates 15 Upperclassmen

Blue Key Holds Formal Induction Ceremonies for New Members; Lefort Is Speaker

Fifteen outstanding upperclassmen were formally initiated into Blue Key honor society yesterday following a luncheon held in honor of the new men.

The initiation ceremony was held in the YMCA, with president Russell Burcham administering the oath. C. R. Lefort, assistant Dean of Students, spoke briefly to the initiates and members on the value of frequent meetings and the position of Blue Key on the State College campus. Walter L. Fanning, vice president of the organization, assisted with the initiation ceremonies.

The upperclassmen initiated were C. A. Hunter, J. Y. Pharr, Ernest Koella, Jr., A. S. Sallenger, James L. Murray, Stephen S. Saller, E. E. Durham, T. D. Williams, Frank P. Sabol, H. D. Means, C. L. Mosley, E. J. Angelo, J. A. Mitchiner, George V. Hanna and E. A. Dees.

Faculty members attending the luncheon and the initiation ceremonies, other than Dean Lefort, were Professor A. H. Grimshaw and Professor W. N. Hicks, all members of Blue Key.

## Juniors Will Meet To Discuss Dance

To Convene Thursday in Pullen Hall to Complete Plans for Junior-Senior Prom

Members of the Junior class will meet in Pullen Hall at noon next Thursday, February 2, to select a date for the annual Junior-Senior Prom, Jim Mitchiner, president of the class, stated today.

During this meeting the juniors will decide whether to give their dance on Friday night in conjunction with a fraternity dance on Saturday night, or hold their own dance Saturday night.

Should the date be set for Friday night, the dance will be held on Saturday night, and still cut the expense, as the two groups will share in the cost.

On the other hand, if the juniors decide to give their dance on Saturday night, they would secure their own band and carry the full burden of expense.

No Conflict

Mitchiner emphasized the fact that should the dance be given with a fraternity, there would be no conflict between the two groups. The Prom would be held on Friday night and the fraternity dance on Saturday night, with the same orchestra furnishing the music for both affairs.

He also stated that "support is needed from juniors who have not paid their dues in order to make the dance exclusive," that is for juniors and seniors only.

A list of the juniors who have not paid their dues has been posted on the Blue Key bulletin board.

Attendance at the class meeting next Thursday will be compulsory, and the roll will be checked.

## Gift Committee Appointed By Frye

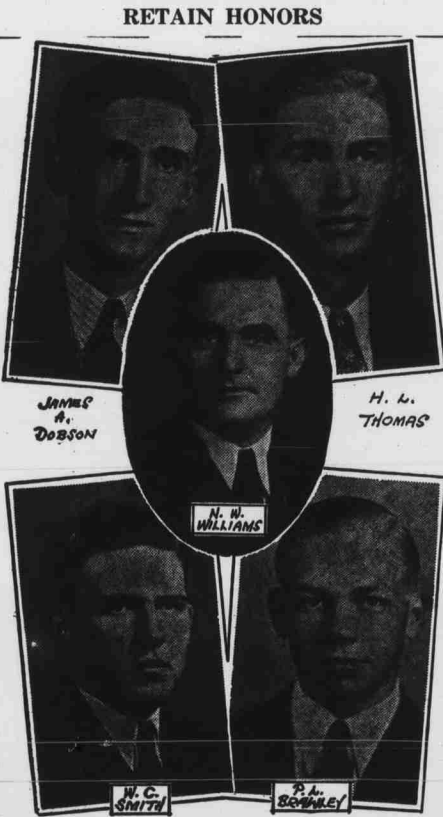

Senior From Each School Chosen to Collect Fee for Senior Gift

Curtis Todd, Bill Bailey, Horace McSwain and Jim Patton have been appointed by Joe Frye, president of the senior class, as a committee whose duty it will be to collect the senior gift fee from seniors in the schools of Engineering, Forestry, Textiles and Agriculture.

Each of these men will select a senior from each department in his own school. This senior will have charge of collecting from the seniors in that department.

Plans are rapidly being made for the installation of the lights on the tower and a trial will be made tonight under the direction of the Carolina Power and Light Company. When the specifications for the lights have been drawn up and approved by the architect the contract will be offered on a basis of competitive bidding.

Several plans for the arrangement of the lights have been proposed and many of the seniors are in favor of an attempt to conceal the lights by placing them in clumps of shrubbery about the tower.

State College retained its high ranking at the New York Poultry Show when the 1939 judging team emerged only eight points behind Pennsylvania State to take second place, and also furnished the individual high scorer for the contest. Members of the team with their coach, N. W. Williams, are pictured here.

## State Victory Marked By Noisy Celebration

Bells, Whistles and Fireworks Climax Downfall of Carolina Jinx

The mythical "Carolina jinx" which has plagued the State College campus for years is dead. It was buried Tuesday night in the Frank Thompson Gymnasium, amid the lusty cheers of the State student body.

The honorary pallbearers were Doc Serron's galloping Red Terrors, who buried the hapless Carolina cagers to the tune of 35-22 for the first State victory since 1934. The long-awaited win called for an unheralded celebration on the part of State supporters.

The capacity-crowded gymnasium literally rocked on its foundations as the lusty cheers echoed and re-echoed for a State quintet hitting their victory stride. The high pitch of excitement continued for hours after the smoke of battle had died away.

General Bedlam

For the first time since the completion of the Memorial Tower, the clang of the tower bell was heard, hailing the victory to the four corners of the campus for almost three hours. Sharp blasts of the college whistle and a barrage of fireworks added to the general celebration din. Jubilant supporters proclaimed to all that the so-called "Carolina jinx" had been broken.

A united feeling of spirit and loyalty swept the campus overnight. The ring of the bell, the blasts of the whistle and the general bedlam carried a meaning, a meaning that can only be felt and understood by a State College supporter.

## SAM Fraternity Gets New House

A reception was held Sunday by the State College chapter of the Sigma Alpha Mu Fraternity at its new home located at 2304 Clark Avenue.

The fraternity, which was known as Theta Phi before it became affiliated with the national Sigma Alpha Mu recently, moved from its old house on 116 Groveland Avenue, where they had been located for the past five years.

The new home on Clark Avenue is an attractive red brick building and is very tastefully furnished.

The officers of the fraternity for the current year are Adolph Lonsick, president; David Colvin, treasurer, and Leonard Blesinger, secretary.

## Visiting Engineer Features Program

Plan To Move Textile School Early In Fall

Work Begun on Final Project in Construction Program; Will Add New Equipment

Construction was started last week on the new \$300,000 Textile Building which is slated to replace Tompkins Hall as the seat of the Textile School.

Excavation for the building has been progressing rapidly and all will soon be in readiness for the beginning of work on the building proper. The site of the new plant on Hillsboro Street aids materially in the excavation work, being somewhat lower than the street level. A fill on only about 15 feet of the street side of the building will be necessary.

Completed by September

The authorities in charge of the project feel confident that the building will be completed and ready for use by the opening of the College in September, although minor portions of the interior work may not be finished by that time. It is expected that the machinery which is now in use in Tompkins Hall will be moved during the summer.

Dean Thomas Nelson, head of the Textile School, stated that among the features of the new building will be complete equipment for the preparation of both rayon and woolen fabrics, neither of which has had any extensive treatment in the school to date.

Modern rooms will be provided for offices and classes, and in addition it is expected that a special room will be fitted out for use as a reading room. Various books and periodicals pertaining to the industry will be put on file in this room.

Dr. David B. Steinman, Famous Bridge Builder, Is Principle Speaker During Engineers' Week

Eloquent tribute to the engineer as "God's Journeyman, continuing the work of creation," was voiced last night by Dr. David B. Steinman of New York City, internationally known bridge builder, in the second of three public lectures during State College's observance of Engineers' Week.

Colonel J. W. Harrelson, dean of administration, presided over last night's lecture by Steinman, who has constructed bridges on four continents. The visiting engineer spoke on "The Poetry and Romance of Bridges," giving exciting examples of vision, courage and genius used by engineers in building some of the world's mightiest bridges.

Prior to Steinman's address, Dean Van Leer and Colonel Harrelson welcomed the engineers. Each emphasized State College's broadened program of adult education designed to embrace and enhance the college's service to the state.

"Symbolic"

"A bridge is the symbol of Humanity's struggle toward mastery of the forces of Nature," said the speaker, illustrating his lecture with colored lantern slides.

"I want you to visualize the story of bridges as an epic of human vision and courage, high hopes and disappointments, heroic efforts and crowning achievements," said the speaker at the outset of his lecture.

"There is one message I want to carry to bridge designers and laymen throughout the land," continued Steinman. "I want to awaken the profession to the fact that the full possibilities of making steel structures beautiful have not yet been realized."

To Speak Saturday

Dr. Steinman spoke in Pullen Hall where his remaining lecture will be delivered. Saturday morning at 9 o'clock, Dean Van Leer of the School of Engineering will preside at tomorrow's session.

"The importance of the work of the engineer in our civilization should be recognized," stated the

## On Extracurricular Activities . . .

The experience gained by taking part in extracurricular activities on the college campus is a valuable asset. Numerous business leaders have testified to that fact. Colonel Leonard P. Ayres, a Cleveland economist and business executive, adds his comment:

"I know two men about the same age, graduated from the same college and employed by the same company about the same number of years. Both came from respectable, but not distinguished social strata in the community. I believe that if both were to take an examination on the knowledge of their business, their grades would be about equal. Yet, one of these men receives a salary of \$3,000 a year and the other gets \$23,000."

"Why? The reason lies largely in the ability to deal with and influence people."

Industry does not usually seek the man with the highest grades. There are a good many statisticians in the country and most of them are not very well paid. There is a constant demand, however, for the graduate who has learned to deal with his fellow man by taking part in extracurricular activities. His experience is one of the most valuable things which he gets from college life.

N. C. STATE

## Your College Monogram . . .

The State College Monogram Club is having one of the most active years in its history and is in the midst of a drive to gain a well-deserved place among the other leading organizations on this campus. To accomplish this successfully they need your cooperation.

The symbol of the club is the college monogram, an award given for outstanding athletic achievement. This award cannot carry its proper meaning as long as students persist in buying and wearing the similar monogram which is being sold by a campus agency. The imitation detracts from the value of the official award and lessens its deserved prestige. Visitors to the campus have been puzzled by the large number of monograms which are to be seen.

It's up to you students to do your part in maintaining the value and meaning of your college monogram. The Monogram Club appeals to you for your cooperation. They ask that students do not purchase the imitation and those that already have done so do not wear them on the campus.

N. C. STATE

## Dr. Graham's Part . . .

(Reprinted from The News and Observer)

President Frank Graham did more than make out a case for the three-part University system before the Appropriations Committee yesterday. In a clarifying, broadly inclusive survey of the University situation, he redefined the State's educational aims, set the University in its proper place within the educational establishment, and summoned State pride and responsibility to a new valuation of the University's service to the State and of its relationship to the nation.

He left with the committee some uncomfortable, disturbing facts. The appropriations increase the University is asking this year as a reasonable minimum is still pitifully short of the money actually spent by the three institutions of the University system ten years ago.

Members of the faculty who can be counted and named, in the last six years have sacrificed \$600,000 of personal income represented in offers of out-of-state employment they rejected to stick to their posts in North Carolina.

In spite of an increasing national acclaim, the University of North Carolina in the item of faculty salaries is 44th in the roll of states.

Any increase in the scale of tuition as proposed would repudiate North Carolina's constitutional declaration for free education and put the state in the van of a movement to make wealth, rather than preparedness, promise and ambition, the chief qualification for college entrance.

If there was any validity left in the ill-conceived proposal that tuition rates should be increased for North Carolina students, Dr. Graham's restrained analysis of its meaning exposed it for the piece of short-sightedness it was.

As Dr. Graham made it dramatically clear, there can be no tolerance in North Carolina's educational philosophy for a questioning of the fundamental principle that either public schools or the colleges may be crippled without a reactionary crippling of the other.

## LISTENING IN

By JOE MICHAEL

There sure is lots of difference between the spotless white tie and tails of a band leader at some swanky hotel or night club, and a pair of overalls that are covered with coal-dust, miner's cap, and smutty face of a Scranton, Pa. coal miner. Knowing little about the mines we can hardly conceive of the big gap that lies between the former and the latter, but Russ Morgan has traveled the entire distance.

It seems as though most of the people high up in the world of entertainment have parents who at some time or another were in the show business. Morgan's mother and father were vaudeville stars back in the old days, and it was they who taught him showman's and music, first the piano and later the trombone.

## Worked in Mines

Russ was still working in the mines when he made his first money in the music business, as a piano player in a Scranton theater and it was with this hard-earned cash that he bought his first electric guitar.

The big break came when Morgan was the arranger for the State Theater in Detroit. Raymond Hitchcock, the great stage comedian, was booked for a return engagement. He blew in town several days before his show opened and while making arrangements with the theater manager he discovered that Russ was absent from the orchestra pit. Hitchcock told the big-wigs to either get Morgan back or he would tear up the contract. Russ was put back on the bandstand and the contract stayed in one piece.

## Made Records

Sometime later Morgan and Joe Venuti made a few records together. These went over big so they decided to form the Morgan-Venuti association. Both musicians had been with Jean Goldkette's band in the days of jazz. With Joe playing plenty hot fiddle, and Morgan doubling between piano and trombone, the band soon gained a wide reputation.

When sweet music became popular, Morgan formed his own band and now the whole nation thrills to "Music Played in the Morgan Manner." The Morgan-Venuti band has become a classic in the world of tromboning. Many said that Morgan played a style that was almost impossible to copy, but some bandmen on the West Coast has it well under control.

Pardon me boys while I toot my own trumpet. I want to thank Mr. Biddy of Jacksonville, Fla. for his fine letter complimenting LISTENING IN and THE TECHNICIAN.

## Oddities

After ten years of study by its scientists, there will be published soon at Brown University a three-volume atlas of the speech peculiarities of New Englanders.

The department of printing at Carnegie Institute of Technology has equipment valued at more than \$250,000.

The first students of Villanova College were required to furnish themselves with large silver spoons.

An Oberlin College committee has just passed a ruling which says that the college flag must be flown when the college is in session or on special holidays.

Northwestern University is offering a special series of lectures on how to fill out income tax blanks.

"It is far better that the college youth of America are led by bad leaders than being bad leaders." —Comedian Eddie Cantor.

WHA, University of Wisconsin radio station, has been named the outstanding social service radio station in the U. S. for 1938.

The so-called "French" telephone is not French at all. It was invented in this country by a graduate of Brooklyn Polytechnic Institute.

Exactly 71 per cent of University of Pittsburgh co-eds participate in some extra-curricular activity.

The University of Pittsburgh Men's Council has established a Tuxedo Exchange Agency for formal-less students who wish to go to formal dances. Students will provide the tuxes to be rented.

Three University of Kansas blind students are earning their way through college transcribing text books into braille.

Oregon State College has a new class aptitude appreciation that meets every week.

Culver-Stockett College is constructing a hotel on its campus.

Vera Hruba, 18-year-old Czech figure skater, has been selected as the feature performer of this year's Dartmouth College winter carnival skating program.

## YOUR ROVING REPORTER

By ARNOLD KROCHMAL

The Question: A well-known executive recently stated that when he considered a college graduate's application for a job, he first examined the man's record of extracurricular activities and then his scholastic record. He claimed that the man who merely had high grades and did not take part in any campus activities was not worth hiring. What do you think?

J. W. Irving, Senior in Textiles: "I think that a college man's participation in extracurricular activities is an accurate indication of his initiative. It shows an attempt to get all possible benefits from educational opportunities. The man who takes part in outside activities broadens his outlook upon life and emerges from college a well-rounded individual."

W. R. Garret, Junior in Architectural Engineering: "I agree wholeheartedly with the executive's statement. The man that neglects extracurricular activities at college does not receive a balanced education. These activities will make the participant more alert mentally and physically. The student who depends solely upon the knowledge gained in classrooms is doomed to failure in industry."

John Barry, Junior in Textiles: "I think that if a man gives himself solely to his books while in college, he will find that he has not acquired an interest in other vital phases of campus life and his personality will have suffered. Both studies and extracurricular activities should be on the student's 'must list.'"

E. T. Smith, Sophomore in Agriculture: "Extracurricular activities help make boys into cultured men. They give the student a broadened conception of college and social activities by teaching him to get along with other people. Anyone hiring a college graduate for a position is wise to take into consideration the applicant's outside activities."

Hubert Woodall, Junior in Textiles: "When a student completes his college career and settles in a community, his success and happiness depend largely upon his social and civic activities. Extracurricular activity while in college offers him preparatory training in these spheres of action that cannot possibly be obtained from text books."

Bert Heidelbach, Jr., Junior in Architecture: "Extracurricular activities hold a definite place in a college man's life. Although a great deal of knowledge can be gained in classrooms, an additional store of valuable knowledge may be derived from an association with other students while taking part in extracurricular activities. These activities form a needed aid to book knowledge."

Three Years Ago This Week  
State College Student Council swung on the Graham bandwagon last Tuesday night when the body voted unanimous approval to the recommendations on athletic eligibility drawn up by Dr. Graham and now pending Southern Conference action.

A heated struggle over the issues involved in the Graham plan, and over the rumored, single-handed fight of John Sprunt Hill to maintain an engineering school at Chapel Hill looms as the University Board of Trustees meets this morning in the Governor's office.

Five Years Ago This Week  
The appointment of a dean of administration for State College during the illness of Dr. E. C. Brock by President Frank Graham was authorized Wednesday by the Board of Trustees in its semi-annual meeting in Raleigh. Dr. Graham said later that he expected to make the appointment within a few days.

Golden Chain, senior honorary society, and the Interfraternity Council, composed of various representatives from the social fraternities, have endorsed the return of freshman caps, which were abolished from State College in 1930.

Contracts for the addition of an eighth section of concrete stands to the seven-section unit built last fall on Riddick Field, will be let Monday, according to announcements made by T. S. Johnson, professor of industry at State College.

## GLEANINGS

by THE STAFF

Abe Upchurch, the college press agent who has been putting State College on the front pages of North Carolina newspapers for the past year, nearly had apoplexy when a wire came through from Washington announcing the fact that State College had been included in the list of 13 technical schools in this country which will train youthful aviators for the government.

Nobody is any happier about the whole thing than Dean Blake R. Van Leer. He believes that on account of the new aviation program and the rapid expansion of the school, we will double our enrollment within a short few years. "You never have seen a boy who is not crazy over airplanes, have you?" he asked. "They'll all be trying to come here to get the course," he explained.

The organized protest voiced by students of State-supported institutions in North Carolina against a general tuition increase has evidently had its desired effect. The legislators and State Senators were split in their ideas on the matter, and even should the appropriations committee approve a cut in the appropriation and a raise in the tuition, neither would be very large because of the discretion in the ranks. A compromise with a very slight raise in tuition is the worst thing that can happen now, and college officials even doubt that this will be necessary.

Have you ever thought why it is so easy to get married in our neighboring State of South Carolina? Well, the reason is that all you need is the fee and the girl; whereas, in North Carolina we have physical exams, permits, etc. But it's not so easy to get a divorce in South Carolina as it is in the dear old Tar Heel State. They don't have such things. And speaking of the Tar Heel State—H. L. Cannon was accused of being from there. "The reason I look like I'm from South Carolina is because I've been sick," says he. He said it, I didn't. But I've always wondered if South Carolinians really do use syrup on their rice when they have it for breakfast every morning.

When "If I Were King" played at the Ambassador Theatre recently a romantic woman spectator nearly broke up the show with a wise crack. In a very amorous scene, Ronald Colman was fighting him- self to keep from kissing the beautiful Florence Rice. "Kiss her, you fool," screamed the woman, and the house nearly split its sides.

I know a boy on the campus, a very timid boy, who went with a girl for three months and didn't even hold her hand. One night, being a bit bold, he leaned over and kissed the girl tenderly on the lips; and the girl fainted on him. For ten dollars I'll tell the name of the modern Galahad. Boy, what a powerhouse that man must be.

Haven't you often wondered just what fascination there is about a mustache? Women go for them in a big way. If I were a girl, I would like to know how it feels to kiss a man with a mustache, commonly called a "cookie duster" in collegiate circles. I don't mind wondering how it feels, but I'll be blest if I'm going to try to find out.

Off the Cuff: All the members of Paul Whitteman's dance band said they would prefer to attend State College rather than any other college they have ever attended. . . . Appalachian State Teachers' College in Boone is a veritable paradise for a man. There are about 800 girls and only about 200 boys, which gives each boy four girls, which gives me an idea. . . . A student was thumbing through a dry psychology book yesterday. "The man who wrote this book is certainly boring," said the boy. He glanced at the writer's name, Professor Boring. . . . 'Twas the night before Christmas, and all through the house, not a creature was stirring—it must have been a WPA job. . . . The best description of the week: "A revolving gentleman. A gentleman any way you look at him." . . . Professor Heck's intelligence pills have the students smiling behind their hands. . . . Sidney Rogers is answering to the name "Red Herring" since he announced the Clemson-State College basketball game last week. . . . It cost many a student a nice pile of change to lose the game to Wake Forest, but wait until we get them on the home court. Lots of the students couldn't get over for the game. . . . Dan Paul, Alumni Secretary, was looking over apartments this week. For a friend, says he. . . . Emilio Arango went to visit Ambassador to Mexico Josephus Daniels last week, and the Ambassador sent Emilio back to the College in his fine new Lincoln. . . . Found on the cuff: Call 6440-W and ask for Mable. . . . Did you know that William Monroe, Class of '37, is now working in Brazil, South America? He is. . . . If Bill Aldridge, my old roommate, doesn't stop 'smoking' on me, there's going to be a fine duel. . . . Robert Smith was bragging to his girl that he was a fine cross-country man. Said the girl, "I know you are plenty country, and I always did suspect you were a little crossed." . . . Georgia Tech and State College are both fifty years old this year, and both will be here when we are long gone. . . . and I'm long gone right now—DICK MCPHAIL.

## SPORTS

## Comments

By ART RAYMOND

This old campus went crazy last Tuesday night and why not. . . . We beat the fading White Phantoms for the first time in six years and what a beating. . . . The Terrors were superb in every department. . . . There wasn't an individual star in the game, it was just a star quint out there playing as a unit and playing to win. . . .

I realize it's hard to keep from doing most anything when one is witnessing a game such as the one this past week but it seems that we could be a little more considerate of the players. . . . Not only the visiting team but our own. . . . At one time in the proceedings Tuesday night we were a little rude and I think that's all we need say about the incident. . . . Remember that the visiting team and coaches are our guests while they are here and we should treat them as such. . . . I'm sure you wouldn't be rude to a guest in your own home and State College is your home for four years and lets leave a good impression on our visitors. . . .

## Grant and Growlers

Minus their coach the grapplers went over to Greensboro and made a good accounting of themselves in the A.A.U. meet. . . . Brandt and Abbie Johnson turned in victories for the Techs and along with their teammates piled up 36 points and second place over a large field. . . . George Fry and Clements from Carolina put up a scrappy fight in the heavyweight bout at the wrestling matches last Saturday. . . . Chalk up another record for Ross Reynolds. . . . Ross shattered the pool record for the 220 last week against Virginia. . . .

## Monograms

I've seen quite a few imitations of the State College monogram since this term started. . . . I think it would be a good thing for our fellows who do own these imitation monograms to put them away some place and forget about wearing them. . . . It only cheapens the State monogram to have someone wearing an imitation of it and I'm sure don't want to do that. . . . If anyone attempts to suit you one, don't buy it. . . . Co-operate with the Monogram Club in this little matter. . . .

Herman Hickman dressed his wrestlers up with big numbers on their trunks this year. . . . It's to tell you what match is on if you come in late. . . . State's winter sports teams have co-captains. . . . They are Bill Mann and "Mole" Hill in basketball and Bill Bailey and Ross Reynolds in swimming. . . . Don Traylor of boxing and Charley Hunter of wrestling complete the varsity captains' personnel. . . .

## Grab Bag

Footballers Coon and Pinky Dvick courting a couple of members of the fairer sex at the game Tuesday. . . . Going soft on us Ed. . . . These Louis fights are getting to be a joke. Why doesn't he retire and give some other pug a chance. . . . They tell me that they really went to town in the Golden Gloves last night. . . . Russ Sorrell, former State ring captain is entered in the light-heavy class and will probably show in the finals Saturday night. . . . Larry Smith up for the Carolina game informs me he's working out with a club in the Southern Association. . . . Larry will be remembered as the ace catcher on last year's nine. . . .

Why can't we have someone like Budge and Vines on a sports program here. . . . Tilden played here before a capacity crowd four years ago. . . . The footballers are hard at it and there's nothing sly about these spring practices. . . . Baer wants to fight Louis again, won't those fellows ever learn. . . . Betts, manager of the boxing team up until today has traded his top for a pair of gloves and may start in the 120 pound class this week. . . . I'll see ya.

## Red Terrors Invade Devils' Lair Tuesday Night

## Techs Make Bid For Top Rating In Big Five Race

## Win Will Place Terrors as Sole Occupants of First Place; Duke Has Veteran Quint; Frosh to Play First

State College's high-stepping basketball quint, already boasting Big Five victories over Carolina and Davidson, will face the Southern Conference titleholders Tuesday night when they tackle the cagers in Durham.

The Devils present an impressive record thus far this season, holding victories over Princeton, Navy and Wake Forest, and being the only Conference five to beat the Deacons this year.

State will have the advantage on paper, having beaten the Davidson team which trimmed the Duke's early in the season. State's win over Davidson and its showing against Carolina will make the Terrors a slight favorite to take the Devils into camp.

## Baby Terrors Lose To Carolina Frosh

## Tar Babies Height too Much For Frosh; Strayhorn Paces Losers With 17 Points

In the preliminary to the State-College game last Tuesday night the State Frosh lost to the Tar Babies from Carolina 54-31.

The Tar Babies showed too much height and reserve strength for the Techlets and took an early lead in the game which the Techlets could not make up.

## The Week in Sports

Jan. 27—Swimming (Varsity), Virginia Tech at Raleigh, 7:30 o'clock.  
Jan. 28—Boxing (Varsity), Virginia Tech at Raleigh.  
Jan. 28—Boxing (Frosh), Virginia Tech at Raleigh.  
Jan. 30—Wrestling (Varsity), Virginia Tech at Blacksburg, Va.  
Jan. 30—Wrestling (Frosh), Virginia Tech at Blacksburg, Va.  
Jan. 31—Basketball (Varsity), Duke University at Durham.  
Jan. 31—Basketball (Frosh), Duke University at Durham.

## THEY BURST THE FADING PHANTOMS BUBBLE

Seen here is the high-stepping State College basketball team, which accomplished what no State quint has done since 1934 when they trounced the Carolina team last Tuesday night by the score of 35-22. The set-back handed the Phantoms by the Red Terrors virtually precludes any possibility of their participating in the Southern Conference tournament. Reading, from left to right: Elwin Hamilton, Jim Rennie, Selby Jones, Bill Mann, P. G. Hill, Rollins Sevier, Ray Payne. Second row: Coach Sermon, Roy Andrews, Ray Smith, Jim Watters, Cader Harris, Dick East, John Maulsby, M. O. Laurence, manager. Third row: Ruggles Baker, Phil Oransky, Earl Auman, Howell Stroup, Sid Tager, Monte Crawford and Jack Fowler.

## Boxers Play Hosts To Virginia Tech

## Manager Betts Swaps For Boxing Gloves; May Start Saturday

The State College boxers will square off Saturday night for their third ring meet of the season against the strong Virginia Techs in the feature home attraction on the week-end sports card.

The Techs will have practically the same lineup as they sent against Carolina last week with the exception of the 120-pound class. Barton Betts exchanged his manager's togs for a pair of boxing gloves and may get the starting call in that weight. Betts fought several times for the varsity last year and his experience may be the deciding factor in choosing the man for that weight. Jack Nelly fought in that class against Carolina last week in the most exciting fight of the night.

The Techs are in good physical condition and have an even chance of coming out on top of the Virginia Tech team.

## Leather Pushers Bow To Carolina

## Traylor Only Man to Get Win in Tough Fights at Carolina

State College pugilists lost to Carolina, defending Big Five champions, last Saturday in eight of the toughest fights seen in the Tar Heel gym. The score was 6½ to 1½.

State's points came in the 155-pound class when Don Traylor, grid star, defeated Fred Hardy, Tar Heel track man. In the 165-pound class Paul Abrams fought to a draw with Bob Farris in a fight that was close all the way.

The best fight of the night was in the 120-pound class between Nelly and Winstead of Carolina. Winstead came out of his corner throwing punches all over the ring. Nelly fought back gamely but the Tar Heel boy piled up too many points in the opening round. In the preliminary to the varsity fights the Carolina frosh edged a 4½ to 3½ win over the State frosh. Pierce, Robins, and Carr won for the frosh and Sam Pierce fought to a draw with Dameron of Carolina in the 120 pound class.

## Prospects Bright For Rifle Squad

Those men that successfully made the N. C. State rifle team were as follows: Sam Hayworth (captain), Harley, Griffith, Brake, Shallington, Wyman, Sheets, Whitson, J. S. Smith, E. T. Smith, Dodge, Derling, Haynes, Hildebrand, Roberts, Lee, Luke, Owens and Dover.

From these will come the men to represent N. C. State in their first rifle match of the year which is with Idaho University, Saturday, January 28.

N. C. State College will be represented in the more important rifle matches of the U. S. Some of these being with the Marine Corps, corp area and Hearst Trophy matches, along with fifteen college matches. Georgetown University, Kemper Military School, and Utah State Agriculture College are the main contests with the leading colleges and universities of the United States.

Sergeant Knight, assistant to Coach Major Robert E. Jones, says that after losing five varsity men last year, he thinks that the team will be just as good, individually, and collectively.

By BILL GIBBONS

Boxing came in with a bang this week as the fraternities held their preliminary fights. All those who attended were well repaid for the small admission charge by witnessing some very entertaining exhibitions of slugging and boxing.

The PKA's came through with five victories, closely followed by the Delta Sigs with four, then by the Sigma Nus, AGR's, and the SPE's with three each. The Kappa Sigs, AKP's, Sigma Pi, and Pi Kappa Phi ranked next in that order. I haven't room to tell you more about the fights, but don't miss the semi-finals on Feb. 2.

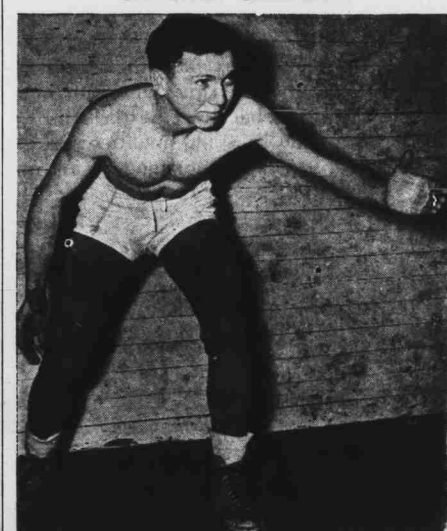

Handball results are as follows: Sixth over 1st 1911. Second 7th over 2nd Watauga and 3rd South. Third 1911 over 4th. Second 1911 over 2nd South.

## Cadets Meet State Swimmers

State College's swimming team is grooming itself for the invasion of the Virginia Tech mermen, who will meet the Red team tonight at 7:30 in the Frank Thompson Gymnasium.

The two teams that State has met this far this year were both Virginia teams. Randolph-Macon, when they took into camp to the tune of 62-12, and the University of Virginia, who beat State 46-29. The team has been hard at work all week under the direction of able Coach George Kurehs, a former State star, and Dean Romeo Lefort. Complete schedule follows: January 27, Virginia Tech, here. February 4, U. N. C., here. February 10, V. M. I., here. February 15, Duke, here. February 22, William and Mary, away. February 25, Duke, Durham.

## CAPTAIN CHARLEY

Seen here is Captain Charley Hunter, leader of the State College wrestling team who piloted his team successfully through the Carolina A.A.U. wrestling tournament. Hunter is one of the few veterans members of the team this year and is being depended upon considerably. Charley, as he is known to his friends, is a senior in agriculture and hails from Charlotte, N. C.

## Techmen Bury Phantoms In Hectic Battle

## State Breaks Eleven-Game Losing Streak in Tough Struggle; Jones Leads Scoring Parade

Staging one of the most hectic court struggles seen on the Frank Thompson gymnasium floor in many a year the State College basketball team literally knocked the fading Carolina Phantoms out of the Southern Conference races by shellacking them 35-22 before 4,500 frenzied fans. The score at the half was 16-11 in favor of State.

The opening minutes were nothing short of a melee with the players and the fans both worked up to the point of explosion. McCachern broke the ice after two minutes of struggling on a free throw. The first field goal came five minutes later when Carolina's Howard sank a crisp from under the basket.

Hamilton broke the State scoring famine with a free throw and Mann quickly added a field goal to the things up for a minute.

Thus ended the Carolina string of victories for lanky Jim Rennie sank a foul shot and from here on it was State going away. The Tar Heels were out of the picture as the Terrors settled down from here on and made their shots with regularity.

The first ten minutes of the game was marked by the tenaciousness of the players as they fought to gain possession of the ball and take hurried shots. Neither team had a chance to take a set shot all night because of the close guarding.

State took the floor for the second half leading 16-11. State added their first field goal on a crisp by Sevier from the foul circle. The Terrors put on a scoring spree at this point that put them out in front 29-20 with four minutes to go.

Jones featured for the State team on the defense and the offense. Selby held the high scoring Ben Dilworth scoreless. Gilmack, reserve center, made one field goal. With one minute to go Jones and Brandt in the 165-pound class were the final winners for the State team. State compiled 36 points and Appalachian 39. Carolina took third with 10 points.

Finalists for State were A. Johnson, T. Johnson, George Fry, Paul Reichert, Blackwelder and Brandt.

Finalists for State were A. Johnson, T. Johnson, George Fry, Paul Reichert, Blackwelder and Brandt.

## Grapplers Trek To Old Dominion

## Techs Take on Virginia Tech At Blacksburg in First Away Contest

The State College wrestlers, fresh from the Carolina A. A. U. wrestling tournament, will face the strong grapplers from Virginia Tech this Monday night at Blacksburg, Virginia.

Herman Hickman's men took two first places in the meet at Greensboro and piled up enough points during the tournament to take second place.

The teams will be at full strength when they take the mat against the Virginia team. Abbie Johnson, who was out of the Carolina meet, will be back in the lineup in the 135-pound division. Brother Ted Johnson, who likewise was not in good shape for the Carolina meet, has recovered.

State will be seeking their first triumph over a Virginia Tech team in several years. The Virginia team usually has the class of the conference.

Freshman teams from the two schools will meet in a preliminary to the varsity meet.

## Tar Heels Take Close Matches

Last Match Decides Meet; Johnson and Brandt Get Falls

The outcome of the State-College wrestling match depended on the final match of the night between two classy heavyweights, Fry of State and Clements of Carolina. The two big fellows put on the toughest and scrappiest fight of the night with Clements edging a win in an overtime period. The final score was 17-13.

Carolina gained an early lead of 14-3 in the early stages of the meet but the picture was changed when Ted Johnson and Brandt won falls in the 165- and 175-pound classes. This cut Carolina's lead to 14-13.

Reichert, State, defeated Broadfoot to chalk up State's first victory.

In the frosh meet Carolina took the Techlets into camp 24-5.

## WPTF To Air Debate With Boston University

### State Forensic Team To Present Direct Clash Debate in Monday Broadcast

The State College debating team, under the direction of Professor E. H. Paget, will meet the Boston University debating team in a direct clash debate to be broadcast over radio station WPTF from 2 to 2:45 p.m., on Monday, January 30.

This will be the second radio appearance of the State team within ten days, the squad having journeyed to New York City on January 21 to demonstrate the direct clash plan over the inter-city network of 14 stations, originating from Station WMCA. This debate was featured in the *New York Times* as one of the outstanding radio events of the week.

In the debate with Boston University, the State team will uphold the affirmative of the question, "Resolved that the United States should cease to use public funds, including credits, for the purpose of stimulating business." Mr. George Lippard, the Dixie champion in argumentation, will be team captain. He will be supported by Howard Bell, C. H. Kirkman, Robert Smith, and C. K. Watkins.

The debate should be closely contested, Boston University long being one of the outstanding schools in the East in forensics. The Boston team is stopping here as part of an extended trip through Virginia, North Carolina, Tennessee, Georgia, Alabama, and Florida.

The night after the debate the Boston debaters will be the guests of honor at a dinner given by the State College Will Rogers After-Dinner Speaking Club, and an after-dinner speaking contest will be held at that time.

### Committee Appointed On Senior Invitations

President J. T. Frye of the Senior class announced today that the members of the Graduation Invitation Committee had been appointed and will begin work immediately.

The seniors appointed to serve are C. L. Mosley, Leland Thornton, B. J. Musso and Frye. The committee will meet with W. L. Mayer, College Registrar, this week in order to draw up tentative plans for the invitations.

Committee members stated that they are open to suggestions from the seniors concerning the invitations.

### Willis Speaks Before Ag Club

L. G. Willis, soil chemist of the North Carolina Experiment Station, spoke on problems in North Carolina at the meeting of the Ag Club last Tuesday night. He illustrated his talk with colored slides showing soil problems in this state.

On Tuesday night, January 21, the Ag Club will sponsor a speech by Clarence Henry, head of the Educational Department of the Chicago Board of Trade. Henry is well known throughout the United States and is now making a tour of the South.

#### Announcements

All industrial engineering students are urged to attend a meeting of the Society for the Advancement of Management to be held on Tuesday night, January 31 at 7 p.m. in Room 223 CE Building. Refreshments will be served.

There will be an extra rehearsal of the Concert Band this afternoon at five o'clock. Full attendance is urged.

All members of the orchestra are urged to attend every Tuesday night rehearsal at eight o'clock to prepare the program to be presented on Sunday, February 19th.

The attendance of all members at Glee Club rehearsals is imperative during the next two weeks, in order that the programs for the near future may be arranged.

All the engineering students wishing to get their January issue of the *Southern Engineer*, please see Grady Bell, circulation manager.

Sid Rogers, Bus. Mgr.

There will be an important meeting of Phi Eta Sigma in the YMCA auditorium next Thursday night at 7:00. All members are urged to be present.

#### Graham Protests Tuition Increase

(Continued from page 1)  
Raleigh Junior Chamber of Commerce, asked that the Appropriations Committee equalize the per capita appropriations now made to State College as compared to those granted the University. He said that State's per capita appropriations have always been lower than those at Chapel Hill and said technical education given at State costs more than the academic education given at Carolina.

#### Visiting Engineer Features Program

(Continued from page 1)  
world-renowned engineer in concluding, "The community or nation that best develops and applies the brain power and inventive genius of the engineer will be the most prosperous."

In conjunction with Engineers' Week, the annual meeting of the North Carolina Society of Engineers will convene in Hotel Sir Walter this morning at 9 o'clock, and they will hold their banquet tonight at 7 o'clock. Dr. E. U. Condon, assistant director of the Westinghouse Research Laboratories at Pittsburgh, will be the featured speaker at the banquet. The session will move to the State campus tomorrow morning for Dr. Steinman's address on "Some Engineering Aspects of Bridges."

Surveyors' Institute  
A three-day Institute for Surveyors, with about 80 engineers expected, will convene at the college Monday morning, with registration to begin at 9 o'clock. The surveyors will organize a State Society at the conclusion of their session next Wednesday afternoon.

Prior to his address Wednesday night, Dr. Steinman inspected the School of Engineering, and was later guest of honor at a luncheon given by the Engineers' Council. The program for Engineers' Week at State College was arranged jointly by the School of Engineering and the College Extension Division, headed by Edward W. Rugles.

#### SCHEDULE OF ASSEMBLIES

##### PULLER HALL-REMAINDER OF WINTER TERM

The following will be the Assembly Schedule for Freshman, Sophomore, Junior and Senior Assemblies to be held in Puller Hall from 12 to 1 o'clock for the remainder of the Winter Term.

12 to 1 o'clock-Puller Hall

Tuesday, January 24	Engineering Freshmen
Thursday, January 26	All Freshmen
Tuesday, January 31	Sophomore Class
Thursday, February 2	Junior Class
Thursday, February 2	Freshmen will not meet
Tuesday, February 7	Engineering Freshmen
Thursday, February 9	All Freshmen
Tuesday, February 14	Senior Class
Thursday, February 16	All Freshmen
Tuesday, February 21	Engineering Freshmen
Thursday, February 23	All Freshmen
Tuesday, February 28	Junior Class
Thursday, March 2	Freshmen will not meet
Tuesday, March 7	Sophomore Class
Thursday, March 9	Engineering Freshmen
Thursday, March 16	Winter Term Ends

Freshmen in Agriculture, Textiles, and Education will be governed entirely by instructions from their school as to assemblies on Tuesdays at 12 o'clock.

E. L. CLOYD, Dean of Students

### Band Arranges Program Group

Mu Beta Psi, honorary music fraternity, will sponsor, during the winter term, a series of concerts to be held on Sunday afternoons, and to be given mostly by State College musical organizations.

The concert band is already well under way in its preparations for these concerts, and their schedule is as follows:

February 12-Band concert.  
February 19-State College Symphony Orchestra.

February 26-Raleigh String Quartet, assisted by Mr. Toms, of the University of North Carolina, and by Lillian Wallace, pianist.

March 5-State College Glee Club.

### "Y" To Conduct Lecture Series

A new series of lectures on "The Personality of Jesus" will begin in the State College YMCA next Monday night, when Dr. Kenneth Cameron, of the English Department, opens the discussion.

Dr. Cameron's subject will be "Jesus, Concept and Experience of God."

This new series of lectures follows the past series given by Dean B. F. Brown on "World Conditions at the Time of Jesus," which ended last Monday.

Also a deputation of five girls from East Carolina Teachers College will conduct a vesper program next Thursday night, February 2, at 7 o'clock, under the auspices of the "Y."

All students as well as the general public are invited to attend both the discussion and the services.

### Magician Featured On YMCA Program

#### European Slight-of-Hand Artist to Give Public Performance Wednesday

Students at State College are destined to see a real European court magician in the flesh if they will rush to the YMCA auditorium on Wednesday, February 1, at eight p.m.

In case some of you, at least the few who do not know, should be interested in knowing who the magician is, he is Principe Notas Majahara, illusion artist, linguist, world traveler and magician super-extraordinary.

At the age of nineteen Principe left school to devote all his time to the art of sleight of hand, and by the time he reached the age of twenty-one he had already mastered almost every branch of ancient and modern magic, even going further by discarding mechanical equipment, something no other modern master has attempted. He works alone and without an assistant, often calling for volunteers from the crowd.

In 1917 he attempted and performed his most amazing and daring feat. Bound hand and foot with chains and ropes and tied in a sack, he was thrown into the sea, but he escaped without injury. Houdini has been the only other man to attempt this stunt—and live.

An admission fee of twenty-five cents will be charged, and everyone is invited. According to N. B. Watts, self-help secretary, Majahara can make almost anything disappear; so if you are afraid of losing your lady love perhaps you had better leave her at home—or borrow a pair of handcuffs.

### Photography Course Offered To Students

Beginning next Wednesday evening at 8 o'clock the Raleigh Camera Club will offer a course called "Taking Good Pictures." The course will be given as a series of lectures, the first of which will be free and open to the public. They will be given in the studio of the Architecture Department on the fourth floor of the Physics Building.

Paul E. Shearin, who teaches the photography course at Carolina, will conduct the first lecture on cameras and how they work. Bring your camera. Each meeting thereafter will likewise be conducted by a practical photographer. Individual help and advice will be available after each lecture. The course is a part of the Camera Club's regular program and is free to all members. Membership fee is one dollar for three months.

The University of Dayton students' newspaper has been given a two-foot ball alligator as a mascot for its staff.

Have Your BANQUET at the

**TALLYHO INN**  
OPPOSITE WALGREEN'S

### Sigma XI Club Plans Meeting

Continuing this year's study of characteristics of the North Carolina Coastal Plain, the State College Sigma XI Club will meet Feb. 1 in Daniels Hall to hear Dr. William F. Prouty, head of the geology department at Chapel Hill, discuss the origin of inland "bays." The meeting will convene at 7:30 p.m.

Sigma XI is a national honorary scientific society. The State College club, which has applied for a charter, is composed of members of the fraternity who graduated from institutions which had chapters. Dr. Jasper P. Stuckey is president and Dr. I. D. Jones is secretary. The club scheduled five lectures for this year on the Coastal Plain.

### Library Is Featured In Frat Publication

Beautiful D. H. Hill Memorial Library at N. C. State College is featured on the cover design of the *Cross and Crescent*, national publication of the Lambda Chi Alpha Fraternity, issued this week.

The publication will go to a large portion of the fraternity's 19,000 members living in all parts of the world. It is also sent to the Dean of Students at each of the eighty-five institutions where chapters of the fraternity are located. State College is especially honored by the selection of D. H. Hill Library as a cover design, because the issue commemorates the completion of the 25th volume of the

### Fellowship Given State Professor

#### J. L. Stuckey Receives the Highest Honor That Can be Given to Mineralogist

Dr. Jasper L. Stuckey, professor of geology at North Carolina State College, was notified today he has been elected to fellowship in the Mineralogical Society of America, which is composed of outstanding mineralogists of the United States and other countries.

Election to fellowship in the society is one of the highest honors that can be bestowed upon a mineralogist.

Dr. Stuckey has been interested in North Carolina minerals for several years and has published a number of research papers in the leading journals of the country. Some of the more important papers have been based on barite, cyanite, chloritoid, feldspar, kaolin, pyrophyllite, sericite and talc.

In addition to his fellowship in the Mineralogical Society of America, Dr. Stuckey is a member of the American Ceramic Society, the Society of Economic Geologists, the American Institute of Mining and Metallurgical Engineers, a fellow of the American Association for the Advancement of Science and a fellow of the Geological Society of America.

magazine, and contains special articles of great historical interest to members of the fraternity.

The cover photograph was secured through the co-operation of the State College News Bureau.
