

Campus-Wide Celebration To Mark Faculty-Student Day

OUTSTANDING JUNIORS TAPPED INTO GOLDEN CHAIN

In an impressive tapping ceremony held on the campus last evening at the base of Memorial Tower, the above students were inducted into Golden Chain, outstanding leadership society. Front row, left to right, are: Hal F. Randolph, Charlie Hunter, E. P. Davidson, Jones Y. Pharr, Tony Di Yeso, and E. Durham; second row: Frank P. Sabol, H. D. Means, H. R. Crawford, B. S. Pace, Sam Mann and H. W. Branson.

GOVERNOR ADDRESSES ENGINEERS

Clyde R. Hoey, Governor of North Carolina, was feature speaker at the meeting of the American Institute of Chemical Engineers Tuesday night, at which time he urged the students to go forward. Pictured above are Dr. E. E. Randolph, head of the department of chemical engineering, Governor Hoey, and Frank Truslow, president of the AICHE.

Governor Praises Engineer's Work In AICHE Address

Members of the student chapter of the American Institute of Chemical Engineers were especially honored Tuesday night by the appearance of the Honorable Clyde R. Hoey, Governor of North Carolina, as the principal speaker at their regular meeting. At the beginning of his address Governor Hoey gave a brief account of some of his early experience in business and politics. He expressed an extreme personal interest, aside from that rising from his duties as governor, in State College, because two of his sons graduated from this institution. "To me, engineering is marvelous," he said. "I stand in wonder at what engineers are able to accomplish. Today the average man has many more conveniences and pleasures than the extremely wealthy man had a few years ago. All this progress can be attributed to the inventive and creative genius of the engineer."

Golden Chain Taps New Men At Ceremony

Twelve Outstanding Juniors Honored; Governor Hoey Is Feature Speaker

By DICK McPHAIL In an impressive ceremony yesterday on the campus lawn, 12 outstanding Juniors at State College were tapped into membership in Golden Chain, honorary leadership fraternity. Not knowing beforehand the 12 men to be selected, prospective members from the junior class gathered at the base of Memorial Tower and seated themselves in a circle around the Golden Chain sash. The 12 members of Golden Chain walked singly around the circle of students, stopping suddenly behind a selected junior and hanging a link of chain around his neck. Prior to the tapping ceremony, Governor Clyde R. Hoey addressed the crowd of two hundred spectators, prospective members and members. He was introduced by Col. J. W. Harellson, dean of admission, who highly praised the Golden Chain fraternity for the service it has rendered the college administration this year and during the past decade.

A Challenge

"I do not share the belief that many hold that you young men are graduating into a period of inopportunity," said the Governor. "The troubles and hardships of today should be challenges to young men to guide the lives of the young men with vision and intelligence would always find opportunity. Hoey highly praised Dr. E. C. Brooks, president emeritus of State College, who was due to give the invocation, sitting in his car watching the ceremony, for his fine contributions to the growth and progress of the college, and urged the students to guide the lives along the lines followed by Dr. Brooks. Following the brief address by the Governor, A. M. Smith, president of the Golden Chain, started the tapping ceremony. Each member circled the students and selected the man of his choice to take his position in the fraternity.

New Members Juniors tapped into the organization were Sam Mann, Jones Y. Pharr, H. W. Branson, E. E. Durham, H. D. Means, E. P. Davidson, Frank P. Sabol, H. R. Crawford, Charlie Hunter, B. S. Pace, Hal F. Randolph and Tony Di Yeso. Following the ceremony, new members and retiring members met in secret session to elect fraternity officers to serve next year. H. D. Means was elected president; Sam N. Mann, vice president; Tony Di Yeso, secretary; H. W. Branson, treasurer.

Student Lands Stripped Plane

George Bethel, first of the State College students to fly solo during the Civil Aeronautics Authority pilot-training courses here, brought his plane to earth Wednesday in a forced landing when his motor went dead during a spin. Bethel was practicing spins in a Cub at an altitude of 3,500 feet, when his motor went dead. He brought the plane from the spin, picked out a spot to land, and brought the ship to the ground. The landing gear was damaged slightly, but the ship was not otherwise damaged and Bethel was not hurt. Mrs. Marie Meyers, manager of the local airport, said that the fact that Bethel brought his ship out of the spin and landed safely is a credit to instruction given in the CAA courses.

"C" Average

Each student who feels that his average might be less than "C" average is required under the "C" average rule for admission in September, 1939, and who would attend summer school if necessary to make up credit points, is requested to come to the Registration Office and address an envelope to himself at the address where he will be during the week of June 5th. Teachers are being requested to post final grades for the spring term on their office doors. This will enable students to total their credits and points for this term and determine whether or not they should attend summer school.—W. L. Mayer, Director of Registration.

Festivities To Begin At Noon, Climaxed By Dance Tonight

Program For First Annual FACULTY-STUDENT DAY

Friday, May 19, 1939 Classes excused at 1:00 p.m. for all students. 12:00 noon—Military parade in Riddick Stadium honoring students and faculty members. 1:15 p.m.—Luncheon in YMCA for faculty and student leaders. 2:30 p.m.—Beginning of faculty-student contests in tennis, horseshoes, and volleyball on varsity field. 3:30 p.m.—Faculty-student baseball game, varsity diamond. 5:00 p.m.—Lawn party for all members of faculty, faculty wives, and student body in Riddick Stadium. 7:30 p.m.—Free movies in Pullen Hall, sponsored by Student Supply Store. 8:30-11:00 o'clock—Faculty-student dance in gymnasium. Admission free. Music by Key Scales and his Orchestra. In case of rain, all events will be called off with the exception of the luncheon and dance, and classes will continue on their regular schedule.

Paschal Elected Junior President

Wins Over Kaley By Nineteen Votes; Only 190 Votes Cast by Sophomores

Through a veritable maze of politicians, 190 members of the rising junior class fought their way into the YMCA at noon yesterday to give Forrest Paschal a margin of nineteen votes over his opponent, Dudley Kaley, in the race for president of next year's junior class. D. L. Turner was chosen vice president by a vote of 109 to 81 over C. H. Wheatley, and R. L. Burrage defeated Fabe Clements for secretary and treasurer by a count of 111 to 79.

Election activities began Tuesday with the nomination and elimination of officers in the primary held at the special class meeting. Six and seven nominees for each office was the order of the day as man after man was nominated, while others desperately attempted in vain to close the nominations.

Freshman Counselors

Due to the fact that the administration has not made definite decisions in regard to the set-up of the freshman housing plan, counselors for next year will not be appointed until after commencement. Dr. W. N. Hicks requests that all applicants for counseling leave their summer addresses with him so that he can notify them in regard to the appointments.

Bestor Replaces Jones At Finals

Split-up of Band Forces Interfraternity Council to Secure Substitute

Due to a recent break-up between Isham Jones and his band, he will be unable to play for the Thursday night Finals dance, but the Interfraternity Council has secured Don Bestor as a capable substitute. Other bands for Finals, consisting of Bobby Hackett on Friday afternoon and night, and Gene Krupa for Saturday afternoon and night, have definitely been engaged also and will appear here. Bestor played on Jack Benny's radio program for some time and is now at a night club in New York. Krupa is playing at the College Inn in Chicago, and Hackett is at Nick's in Greenwich Village, New York. All students at State College will be eligible to attend the dances this year, regardless of their class, but they must secure bids as usual from a fraternity man.

Lockmiller Gets Study Aid Grant

Dr. David A. Lockmiller, associate professor of history and political science, today was notified that he has been awarded a grant-in-aid for study and research in the field of Latin-American history. The announcement came from the Committee on Latin American Studies of the American Council of Learned Societies and the University of Michigan. Dr. Lockmiller is author of "Magoon in Cuba," a history of the second intervention by the United States, and numerous articles dealing with the activities of the United States in the Caribbean area.

Alumni Petition Proves Successful As List of Senior Signers Increases

Described by Acting Alumni Secretary Dan Paul as "the most progressive step taken toward building up the Alumni Association within recent times," the petition being passed among State College seniors already has been signed by a third of the graduating group, Bonnie Hines, in charge of the petition, said last night. Hines and associates are endeavoring to secure the signature of every senior on a petition to the executive committee of the college's General Alumni Association and the Doc Newton Club that would make each member of the graduating class a full-fledged member of both organizations for a full year at the flat rate of \$1 each. Ordinarily the minimum fee for General Alumni Association dues is \$3 per year and the minimum membership in the Doc Newton Club is \$10 per year. Already three organizations have made a 100 per cent record. They are the Monogram Club, Blue Key Society and the SPE fraternity, each of whose senior members has affixed his name to the petition. Glad to Sign "Every senior who has contacted has been glad to sign," Hines said. "We just haven't had the opportunity to contact them all during the ten days we have been circulating the petition. I am sure that every senior will sign. It is just a question of seeing them all."

Sports Contests Will Be Main Feature on Program; Lawn Party at 5 o'clock

Today will mark the premier of State College's annual Faculty-Student Day, sponsored by the Interfraternity Council, when students and faculty members will meet socially and on the playing field in an effort to obtain a closer bond of fellowship between the two groups. Preliminary arrangements for the program were in charge of A. H. Sallenger, president of the Council, and C. R. Lefort, assistant dean of the college and Athletic Director Johnny Miller will be in charge of all athletic contests. The initial celebration will begin at noon today, when the ROTC regiment, 1200 strong, will present a mock and dress parade in Riddick Stadium, complimentary to the Faculty Council and the Interfraternity Council.

Following the parade, deans and student leaders will gather at 1 o'clock for a luncheon in the YMCA dining room, where they will hear brief talks by prominent members of the faculty and student body.

The athletic program will begin at 2:30, when faculty and students meet in tennis, horseshoes and volleyball. The volleyball and horseshoes will be played on freshman field in front of the baseball bleachers. Climaxing the athletic contests will be a student-faculty baseball game, starting at 3:30 on the varsity diamond. Several teams will be selected from both sides, and numerous substitutions made during the contest. Chief official for the event will be E. L. Cloyd, dean of students.

Lawn Party

A lawn party for the faculty, faculty wives and the entire student body will be held at 5 o'clock on the lawn in Riddick Stadium. The lawn party is under the direction of Mrs. F. M. Haig, and refreshments have been prepared for the entire student body. In co-operation with the Faculty-Student Day celebration, the College YMCA will present free movies tonight at 7:30 in Pullen Hall, sponsored by the Student Supply Store. The feature picture will be—Continued on page 4.

Denmark Talks To Blue Key Members At Honor Banquet

Frank Sabol Elected President For Next Year; Five New Men Inducted

Speaking before the active and honorary members of Blue Key honor fraternity at the organization's annual banquet Tuesday night, L. Polk Denmark drew a sharp line of distinction between the "joiner" and the true campus leader. "Leadership is a penalty... a penalty of service and responsibility which has fallen upon you," Denmark stated. "The accomplishments of Blue Key are enough to warrant the conclusion that this fraternity has been fortunate and proficient in its selection of members, but do not be content to rest on the laurels you have already attained." Denmark, a graduate of State College in the class of 1915, is the grandson of the late Colonel L. L. Polk, one of the founders of the College for whom Polk Hall is named. He has served as Alumni Officers Elected. Initiates taken in at the banquet were Jack Price, Sam Mann, Herb Crawford and G. J. Howell, Jr. L. C. Hartley was inducted as an honorary member of the organization. Following the banquet, election of next year's officers was held and Frank P. Sabol, a junior in Ceramic Engineering from Campbell, Ohio, was chosen president of Blue Key. Sabol is one of the most promising rising campus leaders and has been outstanding in Blue Key work. He will succeed Russell Burcham as president. Other officers elected were T. R. Frazier, vice president; F. P. Gregg, secretary; Jack Price, treasurer, and I. M. Vann, sergeant-at-arms. Steve Saller served as toastmaster for the occasion and Ernie Kolla was chairman of the committee in charge of arrangements.

Lang Is Featured At Annual Banquet

South presents challenge to all youth, says Student Government speaker. "Youth in the South is faced with a greater problem than ever before," Dr. John Lang told members of the Student Council and their guests at the annual Council banquet held last night. "We have conditions here today which demand leaders and if a man makes a good leader on your campus, there is no reason why he should not make a leader in later life. But we need men with more vision, courage and initiative than ever before to put the South on an equal plane with the other sections of the country, Lang added. Lang is one of the leaders of the North Carolina Student Federation and is considered an authority on campus government.

Civil Engineers Hear Fleming

T. Alfred Fleming, director of conservation for the National Board of Fire Underwriters, spoke to the Civil Engineers at a joint meeting of the A. S. C. E. and the A. G. C. last Tuesday evening. Fleming stopped in Raleigh prior to going to Wilmington, where he talked before a meeting of the fire marshals of North Carolina.

Last Minute Cramming Worth Little Says Professor In Advice On Exams

By PROF. F. F. GROSECKLOE Examinations are as much a test of an instructor's ability to properly evaluate the progress made by his students as they are the student's final display of his achievements toward mastering the course. The evidence presented is only circumstantial and many points should be considered in arriving at a term grade but examinations are still the chief means of determining whether or not the student is satisfactorily proficient in the course just pursued. Five years ago President C. C. Williams of Lehigh University published some important information on the subject of examinations that is considered appropriate for quoting here: "1. To enable the instructor to ascertain the adequacy of the student's knowledge and of his mental powers. "2. To reveal to the student the adequacy of his preparation and of his study methods. "3. To compel the student to make comprehensive review of the subject matter. "4. To afford an exercise in working efficiently under pressure of time and circumstances. "5. To pass examinations advantageously, the student should make the following preparations: "1. Study thoroughly all term; master each assignment day by day; review weekly; fix the outline of the subject in the mind and relate all details to the outline; give special study to portions which the instructor indicates as being important. "2. Review systematically before the examination; outline the whole subject; make sure of important details; but do not cram by working unusual hours the night before the test. The review is almost valueless unless it follows thorough day-by-day study. "3. At the examination period, the student will profit by the following suggestions: "1. Bring sharpened pencils, and be ready to begin work at once. "2. Read over the entire list of questions (if available) before answering any, and answer at once those of which you are sure, thereby gaining confidence, and at the same time making sure of getting credit for all that you know. "3. Be sure you understand the question before beginning the answer. "4. Do not crowd your answers; leave room for additions, because frequently more complete answers will occur to you as you proceed with subsequent questions. "5. Carefully review your paper and check all calculations if time permits. Do not hurry to finish; use the entire period if needed."

To Next Year's Campus Leaders . . .

With the college year rapidly drawing to a close and with commencement just around the corner, many of this year's campus leaders will be departing from State College and others will rise to take their places. It is to these potential leaders that we direct this editorial.

As a noted speaker stated recently, leadership means guidance, showing the way, preceding and directing. The heading of the parade, or the presidency of an organization is of no importance in itself. True leadership means directing the opinion, thoughts and acts of others, and it is often misunderstood. It is easy to fall into the belief that leadership relates to public affairs, that the band must play and the colors fly. On the contrary, it is required in every activity whether recognition is forthcoming or not.

The need for leadership is recognized here on the campus and in later life as well. Formulate your philosophy of leadership and be certain that it spells true leadership. This requires first, mastery of the problems on hand; second, clear, constructive thinking; and third, courage. If you expect respect from your fellow students you must know what you are talking about. What you do and say must be bottomed on facts, not inferences or suppositions. You cannot be a leader by assuming you know more than your followers. Some follower will surprise you.

It is also unwise to enter upon a great many campus activities, for you can only do one job well. It is extremely easy to assume so many responsibilities that none are done well.

Eliminate your feelings and sympathies. Reserve your conclusions until your job is complete. Sleep with your problems. Build your foundation with facts. Give your decision with courage. You will be admired and you will precede and direct men in thought and action. Yours will be a true leadership, for it will be accepted and followed.

N. C. STATE

Choosing a Business Career . . .

[Editor's Note: The following article is from the recent issue of "Business as a Career," and was written by E. J. Kilduff, assistant dean of the New York University School of Commerce.]

As Thomas Edison so aptly put it, too many men drift lazily into any job suited or unsuited for them and, when they don't get along well, blame everybody and everything except themselves.

Undirected or misdirected ambition will get you nowhere. Your success in business depends largely upon your intelligent choice of the branch for which your natural talents or aptitudes best fit you.

In the life of almost every successful person there must have come a time when he first realized that if he were to get ahead he would have to do it himself—a time when he first began seriously to analyze his inclinations, to sense his possibilities and to think about and plan his future.

And so with you. You have probably already faced the fact that you, and you alone, must accept the responsibility for your success. And now you must plan intelligently how you are to get ahead.

Many young people rely too much upon the advice of others in this important matter of making a decision on an occupation. Of course, it is desirable that you solicit the views of older and more experienced persons, for such information will often help you to make up your mind. But after all, it is usually unwise to follow too closely the advice of another, for he cannot know so well as you what you like and what you dislike. He cannot know as well as you what your special abilities are. No one has as much at stake as you in making the decision, and no one will give the question the careful consideration and study that you should. So make your own decision.

Analyze carefully the occupation you are considering, to make sure what essential qualifications are required for success in that field. Moreover, analyze yourself even more carefully to find out whether you possess those qualifications. If you do not have them you should either honestly consider whether or not there is any likelihood of your being able to develop them; or should you select some other occupation for which you do possess the necessary qualifications.

It Won't Be Long Now

You'll be leaving us soon—for some it'll be good-bye and to those we can only say, "good luck—we've enjoyed your friendly visits." To those of you who will return—we'll be waiting to serve you.

In the Meanwhile . . .
Come By Often and Stay Long!

"On the Campus" L. L. IVEY, Manager
"Make It a Habit to Visit Us Often"

FROM THE FILES

A Year Ago This Week
Three Juniors considered as the most outstanding men on the campus were chosen yesterday in the impressive tapping ceremony held by Golden Chain at the base of the Memorial Tower.

"There is a vital need at State College for a student welfare committee to serve as a clearing house for student and faculty recommendations," said Dr. Frank P. Graham in an address last night to student body representatives.

Three Years Ago This Week
Closing their season with a win, the State College baseball team defeated Wake Forest for the second time of the season by a score of 5-0 in a game played in Wake Forest Saturday.

Frank Reiss, tutor of State College's Wolfpack backfield for the past two seasons, has been invited to return this fall. He was notified of the changes in the coaching staff by head coach, Hunk Anderson.

Five Years Ago This Week
State's baseball nine took two seven-inning games from V. P. I. here last Saturday afternoon, the first game 10-4, and the second game 1-0. Willie Lynn pulled a "strong arm" stunt by pitching State to the two consecutive wins.

Kenneth Brown and Harold Hutchins were elected head cheer leaders by the Student Council at a meeting last night. Brown, a former cheer leader at M. I. T., is a junior and Hutchins is a freshman.

Announcements

Installation of the new YMCA officers will be held Sunday afternoon at 2 o'clock in the Faculty Club room. The installation will be conducted by Dean E. L.loyd and the address will be made by the Rev. Les Sheppard. Faculty and students are cordially invited.

"Agromeck" will be distributed at the warehouse on Monday, Tuesday and Wednesday afternoons from 2 until 5 o'clock. Wednesday is the last day, however, and all who have not done so, are urged to get their copies before then.

It is imperative that all seniors who have not done so pay their Senior Gift Fee as soon as possible. Pay Curtis Todd in the Executive School, H. B. McSwain in the Textile School and G. Patten in the Ag School.

There will be a brief but very important meeting of the editorial staff of "The Technician" at 6:30 p.m. Sunday night to assign stories for the graduation edition to come out next week. It is urgent that all staff members be present at that time.

Alumni Petition Proves Successful

(Continued from page 1)
etc.; (5) preferred classification on football tickets; (6) two tickets on the new automobile, radio and three electric razors to be given away at the November 11 football game with Duquesne; (7) a copy of each home game football program issued during the coming year (to be mailed after each game).

The Doc Newton Club is the alumni's athletic scholarship association and besides the privileges of the confidential letters, preferred classification on football tickets, automobile-radio-razors tickets and the football programs, admission to certain private events such as the recent spring practice football scrimmage with the University of Richmond, are included in its membership.

Besides Acting Secretary Paul's, the action of Hines and his committee bears the endorsement of General Alumni Association President John W. Sexton and Wade Ison, who serves as secretary of the Doc Newton Club.

Answers
Under the plan the \$1 subscribed by each petitioner would be divided equally between the Alumni Office and the Doc Newton Club.

Answers to other questions asked by signers are:
Seniors should list their home addresses on the pledge cards.
The confidential letters from the Athletic Department are sent frequently during the school year and include letters written by the coaches and other members of the department dealing with prospects of the various teams and other newsworthy bits about the players, coaches, former players and the Doc Newton Club.

The \$1 fee is to be paid to Miss Nancy Steele in the Alumni Office in Holladay Hall any time between now and October 1.

Tickets on the car and other prizes will be distributed to the signers as quickly as the petition passers return the pledge cards to the Alumni Office.

Preferred classification on football tickets means entitling holders of Doc Newton Club tickets to purchase choicest seats in Riddick Stadium.

Normal fees for membership in the Alumni Association and the club will be charged after the graduate has been out of school a year.

YOUR ROVING REPORTER

By WENDELL LEONARD
The Question: Many of the boys are of the opinion that the Alpha Sigma Sigma fraternity should be discontinued. How do you feel about it?

The People: State College students.
E. P. Healey, senior, textile chemistry and dyeing: "As it is now, Alpha Sigma Sigma is only a means of satisfying a personal grudge against someone by railroading him into the fraternity."

"I think that Alpha Sigma Sigma should be sponsored by the Watasop; and everyone, given one vote only. By this method only deserving men will be voted into the ancient and honorary organization."

W. W. Balla, junior, chemical engineering: "The Alpha Sigma Sigma is a good publicity stunt. It shows that there is still some good wholesome humor on the campus. People know us by our A. S. S. fraternity."

Walter J. Glad, junior, electrical engineering: "After looking over the list of members in the Alpha Sigma Sigma fraternity, I am not in favor of the fraternity appearing in the Agromeck. Some of the honor students and campus leaders have been elected and that is not the purpose of the fraternity."

W. P. Harris, junior, chemical engineering: "The A. S. S. fraternity has always been a feature of the Agromeck and has come to be an annual event of much interest to find out what fellow students have had the honor of becoming affiliated with it. I feel that it should continue as it has in the Agromeck."

Wilton W. Smith, junior, electrical engineering: "I think the A. S. S. fraternity should be in the Agromeck if the students would elect only those who fulfill its requirements. After looking over the list of names in the fraternity this year, one could almost consider it an honor to be elected."

ANNOUNCEMENTS

Any students desiring a ride to Apex this week-end may secure same by calling or seeing Art Raymond at the Delta Sig house.

There will be an important meeting of the sports staff of "The Technician" tomorrow night at 7 o'clock, in room 118 Watauga.

LOOKING 'ROUND

By "LE SCOOP"

It seems that George Lippard went down to Winthrop on a debating trip and fell for one of the lassies there. Despite the letters he wrote, candy he sent, etc., the only thing George got in return was an all-day sucker sent through the mails.

The Casanova of Ag Hill, who sells candy, has finally run into some competition. John (Tool) Davis is the rival, and from what happened over at Williamston last week, he should be the head man.

We knew Jim Murray was interested in engineering, but not interested enough to spend all his spare time around the office of one of the better-known deans. Could there be some other attraction, Jim?

Zan Smith can handle calculus problems and the like with the greatest of ease, but according to that worried look on his face, he's run into something really troublesome. Zan found out he had to get a date for the dance tonight and couldn't quite figure out how to go about it.

Red Novick attracted quite a bit of attention down town the other afternoon by leading a very young child around the streets by the hand, amid the cheers of his "friends." Congratulations, Red; but why didn't you tell us about it!

A pat on the back to Professor Baker Wynne for coming through with that idea of the waits contest for the faculty and the "jitterbug" contest for the students. But what we would like to see is a faculty Big Apple circle.

ANNOUNCEMENTS

It is very important that a representative of every campus organization leave a list of their officers for the coming year in my office during the next week.
—C. R. Lefort.

All Ag students who have not yet received their "Agriculturnists" may do so by coming to the "Agriculturnist" office any time.—Russ Handy.

GLEANINGS

by THE STAFF

Today will mark the beginning of one of the best moves that State College has taken in many years to improve the relationship between the student body and the administration. Faculty-student Day, accompanied with an elaborate program, will get under way at noon, and there is going to be plenty of fun in store for all of us.

"Speedball" Lefort has been so engrossed in the Faculty-Student baseball game that he even took time out during the Junior-Senior last Saturday night to practice up on his hurling. . . watch out, here goes a home-run.
What are college students going to think of next? . . . It is going to take Ohio State University's dean of men some weeks to recover from a shock he received in the mail the other day. Read the following excerpt from a letter he received and you'll discover why: "I would like to take this opportunity to thank you for expelling me from the university." That was the finest thing that ever happened to me. . . what an ironical rascal that must have been.

My nomination for one of the smartest and most congenial members of the administration is Abe Upchurch, who handles all of the State College publicity through the News Bureau. He is what I consider truly a gentleman. . . and his next-door neighbor is Gene Knight, one-time editor of the "Technician," and a real State booster. Ask Gene about some of the good times they used to have around this institution.

Our campus has had the privilege this week of having his excellency Clyde R. Hoey, Governor of the State of North Carolina, to visit us on two occasions as a feature speaker for our organizations. One thing is certain. . . campus organizations are going a long way in getting outstanding men to appear on the campus this year, and we are proud of the Governor's visits.

Why was it that everybody applauded when Hal Randolph and his beautiful blond date walked through the historical ring at the annual Junior-Senior last Saturday night? . . . "Jeep" Mitchner also went on record as saying he had trouble when he went to kiss that cute little thing that was by his side. . . and Stephen, our noble editor, took a temporary detour from the night so that he could make his second trip through.

For some unknown reason, Walter Fanning has been answering to the name of "Tom Collins" since he returned from that tennis trip. . . Jimmy Watters ran into shogun trouble the other night when he went to see his girl. . . her husband didn't seem to appreciate Jimmy's affections. . .

You can't keep a good man down. . . Kaufman is again seeking the tender glint from Miss Cameron, better known as "Greasy". . . Wendell Leonard made his first trip to the Woman's College in Greensboro strictly on business. . . to conduct a "Roving Reporter" inquiry. . . since then he has become a frequent visitor to the institution, each time to supposedly see his sister. . . Paul Wood denies violently that he ever dated a girl in his life. . . and that boy Emilio Arizpe really gets around. . . a date every other night, with just about a different girl each time.

Mentioning no names, members of the "Watauga" staff said that they "certainly had a party" at the press convention. . . ask Zeb Lane where he got the expression, "I'll bite you". . . and what would be this sudden interest that Don Hamilton has taken in the City of Charlotte. . . and speaking of hidden interests, Charlie Santore has also acquired one. . . he is even making plans to get a job in Greensboro during the summer, he likes the town so well. . .

Three professors fainted when "Rube" Milholland walked into class on time the other day. . . ditto Roger James. . . My nomination for the best freshman politician. . . Harold White. . . "Raza" says they have the contracts signed and locked in a safe, but he still won't believe it until he goes down to the Gym and sees the orchestra sitting up there swinging away. . .

With strongest hopes that it won't rain this afternoon, I'll be seeing you at the Tigers vs. Giants baseball game this afternoon on the varsity diamond. . . E. P. DAVIDSON.

Landing dock of the Ford Motor Company on the River Rouge

RAINBOW ON THE RIVER

THERE'S a rainbow on the River Rouge by the Ford plant—oil in a thin coating, washed from metals and parts by the water used to cool or clean them.
To most folks that colorful coating spelled just oil; no more.
To Ford men it spelled "waste." They dipped their fingers in it . . .

rubbed them together . . . reflected. A few days later a strange device was installed where the stream flows through a narrow channel into the mooring slip. It was an oil skimmer. Each month that skimmer reclaims thousands of gallons of oil. Reclaimed, it is used as fuel in the open-heat building.

Poor Richard said straws show how the wind blows. That's how the wind blows at the Rouge. Pennies saved where pennies can be saved safely are multiplied into millions by large-scale Ford operations.
At the end of that rainbow on the waters of the Rouge, Ford owners find extra value, lower price.

By ED PERRY
(Sports Editor's note: This is the first in a series of articles to be written by guest writers for the Technician. Ed Perry is a student here at State, and is a member of the sports publicity staff of the college.)

A great deal of water has passed under the figurative bridge and a lot of things have happened in the State College athletic department since Doc Newton and his staff first opened gridiron drills last September. Come to think of it, some of them are worth talking about.

Football
I bet you all can remember last September when our football team licked the stuffings out of Davidson. The weather was just fine, and everytime you turned around, there was Andy Pavlovsky following his blockers through the Davidson line, for another first down. Remember that nice showing the boys made against such powerful teams as Alabama, Detroit, Carnegie Tech and Duke, on top of beating Wake Forest and the Citadel?

We wound up the football season with three wins and seven losses, plus a tie game with Furman, for the second time in two years.

Red Terrors
Since we are turning back the pages of time, let's turn over a few more and see how much we can recollect about the basketball team. You are bound to remember that team, and I guess that a lot more of that water in the first paragraph will flow under the bridge before most of us forget that out.

Doc Sermon had just six men to use—the famed "Six Iron Men." Do you remember the time they played Clemson's Southern Conference champs here? . . . that was before the Tigers won the title. . . we swamped them 54-37. Oh, hand, I think the Red Terrors were the most popular team at the basketball tournament. Despite the loss of Jim Rennie, the Terrors whipped Duke and The Citadel.

Grapplers
I can remember how Herman Hickman used to sit down there on the ringside and coach the wrestlers. . . I bet he was wishing he could get into the ring with them.

Doc Sermon is to be congratulated on the fine track team he turned out. . . Mickey Thompson is some runner, believe me. Coach Doak had had luck. . . he lost Smith, Kearns and Holshouser. So you see why Duke and Wake Forest beat us.

But all of that is history now, and we look forward to next year optimistically. . . and I wouldn't be afraid to bet my single shirt that State will show them a thing or two next year. It's been a swell year, and maybe I'll see you from this nook next year.

Liniment Sales Rise As Profs Prepare For Games

Students, Faculty Clash In Softball, Volleyball, Tennis

Horseshoes Are To Be Free of Horses; Teachers Expected to Display Flashy Aerial Attack in Softball

By "ACE" KROCHMAL
"Better than a burlesque, crazier than a comedy," is the way a member of the faculty described today's athletic events celebrating the First Annual Faculty-Student Day.

Athletic activities will commence exactly at 2:30, when games in horse-shoe pitching, volleyball and tennis get under way. The faculty's gallant offer to pitch their horse-shoes with the horses attached so as to give the students more of a chance, was graciously declined.

"I've been pitching so much bull in the classrooms that horse-shoes present no problem to me," declared a professor. Grimshaw Hot
The man who will bear the burden of the equine event will be Grimy Grimshaw, who plays a bang-up game at the quarterback post. "Grimy" is an elusive man in the open field, and one hard to bottle up. Aily assisting him will be Dean Cloyd, who is a powerhouse on the offense and a tower of strength on the defense. Cloyd is also a three-gaited player. He pitches, tosses, and shoots the horse-shoes.

The instructors' softball outfit will be seriously weakened by the loss of Dean Romeo, who was caught breaking training late yesterday afternoon. Romeo was found surreptitiously downing a Coca-Cola in back of Boon-Isley's, Nahlkhar Safe
The short-centerfield position was clinched by "Sluggo" Nahlkhar, who had this to say: "By the Law of Permutations and Combinations, aided by the Gas Law, I found that the mathematical possibilities of a ball being hit to my position were very slight."

The softball event will start at 3:15 on Freshman Field, and if enough of the contestants are physically able to play until 4:30, WPTF will make a brave attempt to broadcast the mad proceedings. The students have agreed to let the faculty, or as they are better known, "The Ten Old Men," bat first, because they feel that the teachers should have at least one chance at bat.

The fact that Dean Cloyd and President Graham will umpire the softball game is no indication that the game is "fixed."

After the athletics, there will be a lawn party on Riddick Field, beginning at 5:00 o'clock.

Donates Trophy
Eddie Hough, manager of the Wake Theatre and an ardent State College supporter, will award the "Wake Theatre Cup" to the winner of the current First All-Campus Golf Tournament, which reaches the semi-final stage next week.

Pushball Contest Ends In 3-3 Tie

Game Goes Into Extra Period as Frosh and Sophs Fight on Muddy Field.

Last Saturday afternoon, on 1911 Field, the traditional freshman-sophomore pushball contest came to a muddy end with a three-all deadlock. This was the first time in the history of the contest that it had ended in a tie.

In the pouring rain, 43 sophomores, led by their class president Dody Furr, bunched their power to get two tallies in the first quarter, and another early in the second period. The sophomores started with a rush and left the freshmen bewildered and trying to push the ball over by main strength. They caught on later, though, and ran over three points of their own. An extra period was played, but neither team was able to score again.

160 Freshmen
The freshmen, led by class president Jack Huckabee, turned out 160 strong. They started the game by all getting behind the ball and pushing it. They soon were shown that it took half of their men to hold the sophomores while the rest of them pushed the ball. So, with no conference, about forty of them rushed behind the sopho to pull them off. Accordingly, the ball was soon pushed across the goal with only about ten frosh in front of under it. After this they learned that it was a half-and-half proposition, and used this knowledge, along with reserve power from the sidelines, to net them three points to tie the contest up.

The regular game ended at three-all. The rules state that an extra period of five minutes is to be played if the regulation game ends in a tie. There was much tugging and straining, but the score remained knotted at three and three. The frosh were at the five-yard line when the extra period ended. Another period could have been played at the mutual consent of both teams, but the 43 sophomores had taken all they could handle for the afternoon.

OUCH! GET OFF MY TOE

The wet weather of last week-end did nothing to dampen the enthusiastic spirits of the freshmen and sophomores who took part in the pushball contest.

By BILL GIBBONS

PI Kappa Alpha's well-rounded track and field team ran away with Prof. Miller's annual fraternity division of the State College intramural games Tuesday in the college's new track stadium.

The PKAs picked up 37 1/2 points. In second place was Alpha Gamma Rho with 13 1/2 points. Sigma Phi Epsilon trailed by a point and Alpha Kappa Phi by another for third and fourth honors. Other team scores: Pi Kappa Phi, 30; Sigma Nu, 5 1/3; Delta Sigma Phi, 3, and Kappa Sigma, 1.

With Little Arlie Rooney of football fame scoring 15 points as the result of victories in the broad jump, shot put and discus throw. Second Floor of Seventh Dormitory copped first honors in Prof. Johnny Miller's annual intramural track and field championships, dormitory division, at State College Wednesday. First South was second with 23.

Fraternity summary:
100-yard dash—Honeycutt, AKP; Walker, PKA; Hill, PKA; Paschal, SPE. Time, 10.7.
60-yard low hurdles—Gibbs, PKPhi; Matson, DS; Smart, PKA; Huckabee, PKA. Time, 7.8.

High jump—Peele, SPE; Mason, AGR; Messeramith, SN, all tied for first; Huckabee, PKA, Harris, PKA, and Honeycutt, AKP, all tied for fourth. Height, 5 feet, 7 inches. Discus—Harris, PKA; Huckabee, PKA; York, AGR; Paschal, SPE. Distance, 105 feet, 11 inches. Shot—York, AGR; Marsh, SPE.

Red Cross Awards Students Diplomas

Life-Saving Course Was Given in State College Pool

Nineteen certificates were issued Wednesday, April 17, to those who completed the Red Cross Aquatic Instructor Course. The preliminary training phase of this course started March 30 with 42 enrolled. C. C. Stott, chairman, Life Saving, Wake County, R. Cross, John W. Hunter, and Gene Small gave this instruction.

Mr. Charles A. Mix, life saving field representative, completed the course with 15 hours instruction May 8-12. A very valuable phase of the new course was the showing of the latest films on boating, canoeing, life saving and water safety, swimming, diving, and of the Aquatic Schools. One of the latest pieces of rescue equipment used was the surfboard. Artificial respiration can be given to victims before reaching shore with the use of the surf board.

The following State College students received certificates: Gene Small, C. B. Laaser, J. Carl Higgins, Jr., Sam Hayworth, David Bennett Henderson, and C. J. Ellen.

This course was made possible by the Wake County chapter of the American Red Cross and Mr. J. F. Miller, director of physical education, N. C. State College.

Intramurals

Intramural awards will be presented at the freshmen assembly next Thursday. All organizers winning cups and all men winning medals be sure to be there.

Champs

AKPI defeated the PKA's this week to get the fraternity volleyball championship, and Second 7th put the finger on Basement South for the form championship.

Techs Get Win Over Catawba In Season's Last

State Closes Baseball Season With 6-3 Win; Honeycutt Stars for the Techs

State College's ball club wound up its 1939 season last Friday afternoon in what proved to be one of the most thrilling games of the year for the Techs.

Adolph Honeycutt rose and shone when, in the ninth inning, with the score 8-7, one out and men on second and third, he caught a hard-hit fly in deep centerfield and threw out a man at home plate to break up the ball game.

State bunched its scoring in three innings, the third, fourth and fifth. They knocked two Indian pitchers out of the box. The third Catawba pitcher, Even Shelton, limited the Techs to two hits, and struck out eight men.

Harris Leads Batters
Catawba outlast State 12-10, but their six errors proved costly to them. Leading State batters were Cader Harris, with 3 for 5, a double and two singles; Bill Hoyle, with 3 for 5, and T. E. Hendrix with 2 for 4. Pitcher Shelton hit a four-base hit in the fifth stanza.

Graduation will take Wicker, Green, Peatross, Hoyle, Honeycutt, Hendrix and Brumage. Some consolation can be found in the return of Harris, Brown, Winstead, Kaufman, Morrison, Griffith, Fehey, Carter, Holshouser, Ritter and Broyhill.

Although the list is not complete, Manager "Duck" Parsons places the number of monogram winners as about fifteen. The 1939 edition of the Techs won five and lost nine.

Lost: Duke (3 games), Wake Forest (2 games), Catawba (1 game), Carolina (1 game), Davidson (1 game), W. & L. (1 game). Won: V. P. L., V. M. L., Carolina, W. & M., Catawba. Rained out: Cornell, Wake Forest, Davidson.

Conference Meet At Chapel Hill

State Enters Team in Annual Event; Thompson Expected To Star.

Eleven men will represent State today and tomorrow at the Southern Conference track meet to be held at Chapel Hill. The preliminaries take place at 3 o'clock, and the finals tomorrow at the same time. Mickey Thompson, State's versatile athlete is the man who will be counted on to do most of the scoring. Mickey is entered in five events.

The men and the events they are entered in are as follows: 220-yard dash—Thompson, Roberts; 440-yard dash—Thompson and Roberts; 880-yard dash—Tyren, Lovelace; one mile—Van Johnson; two mile—Cal Ross; high jump—Joslin; shot-put—Stroup; javelin—Peters; pole vault—Hant; broad jump—Thompson.

Congratulations!

To Tony Di Yesso, who was tapped into Gold Chain last night, go our heartfelt congratulations.

Tony, who plays half-back on the varsity football team and is president of the Monogram Club, is one of the best liked men on the campus, because of his unflinching good humor and friendliness.

No better choice could have been made.

Forestry Seniors Beat Montana

Traveling Students Get 13-6 Win Over Grizzlies in California.

(Special to The Technician)

Scotts, Calif., May 14.—State College's touring forestry seniors beat the touring forestry seniors of the University of Montana 13-6 last Saturday in a game played at Scotia, California.

The State College boys came through with timely hits and smart base running to upset the Montana boys' ideas of how slow Southerners are.

State's pep and spirit completely took the Montana boys off their feet. Reed and Lyons were the Tech's battery, with Shelly pitching the last inning.

Bill Beasley and Ed Smith led State's attack, with four hits each for four trips to the bat. Lyons collected three bingles in three times up.

Wright, Rupp and Plummer fielded well and kept the Westerners from scoring on several occasions.

Diamond Captain

At a meeting of the baseball team last Wednesday, Cader Harris, first baseman from Elizabeth City was chosen to lead the 1940 team.

Harris succeeds Bob Wicker, third baseman from Sanford.

Honor Chemists Extend 19 Bids

Gamma Sigma Epsilon Will Initiate New Members at Early Date
 Nineteen outstanding students at State College have just received bids to the State College chapter of Gamma Sigma Epsilon, national honorary chemical fraternity. Gamma Sigma Epsilon was founded at Davidson College in 1919, and at the present time there are 14 active chapters in colleges and universities throughout the country. The object of the fraternity is to increase interest and scholarship in chemistry, to promote friendship and chemical work. Invitations were extended to G. S. Achorn, W. E. Cline, W. P. Eagle, J. T. Ferguson, E. G. Hollowell, Edward Izmarlan, D. B. Mattox, James McGinnis, H. D. Means, E. S. Pace, C. N. Sinsack, M. L. Slesinger, C. H. Smith, E. E. Stansbury, Nathaniel Statton, R. L. Tatum, E. R. Todd, A. B. Webster, Jr., and Avery Williams. An initiation ceremony will follow acceptance of the invitations.

Campus-Wide Celebration To Mark Faculty-Student Day
 (Continued from page 1)
 Bobby Breen in "Let's Sing Again," and will be accompanied by two choirs. As a grand climax to the day's festivities, a Faculty-Student dance will be presented tonight in Frank Thompson Gymnasium, with music by Key Seales and his orchestra. The dance will begin at 8:30 and last until 11 o'clock, and admission will be free to all members of the faculty and student body. Outstanding event of the dance will be a waltz contest for members of the faculty, followed by a

"Jitterbug" contest for the student body. Both contests are open to all members of the respective groups, and awards will be made for the winners in each event. Prior to intermission members of the committees responsible for Faculty-Student Day preparations will be featured in a unique figure, which will terminate in a huge circle in the center of the dance floor. All classes will be dismissed at 1 o'clock for the remainder of the day, in order that all students may take part in the celebration. However, in case of rain, all events will be called off except the luncheon and dance, and classes will continue on their regular schedule.

Keramos Chooses Two Ceramic Men

S. R. Millhouse and H. H. Thomas were initiated into Keramos at the fraternity's annual banquet held Wednesday night. Keramos is a professional ceramic engineering

fraternity recognizing scholarship and character. The banquet was held in honor of General Edward Orton, first ceramic engineer and first honorary member of the State College chapter. Dr. A. F. Greaves-Walker, a former student of General Orton at Ohio State College, was the principal speaker of the evening. He spoke on the scientific field of ce-

ramic engineering that had been opened up by General Orton. "Modern students should be imbued with the ideal of serving humanity in life after college, instead of having compiling a fortune as their chief objective," Dr. Greaves-Walker stated. Several senior members of Keramos made farewell speeches at the banquet.
