

Tower Lights Are Dedicated By Senior Class

McSwain Gives Presentation Speech; Col. Harrelson and Sexton Accept for College

Brilliant floodlights etched the stately beauty of State College's Memorial Tower against a dark sky Wednesday night as hundreds looked on in admiration, and nature provided an extra attraction by casting the reflected glow in a perfect cross against low-hanging clouds.

Against the threat of rain, nearly 1,000 persons gathered for the formal dedication of the floodlights, which were presented to the college as the official gift of the 1939 Senior Class. The ceremony was brief and impressive.

After the battery of lights had been presented to the college, the band played the Alma Mater. There was a moment of silence in tribute to State College's World War heroes, to whom the handsome granite shaft is a memorial, and then the lights bathed the monument's upper portion in a softly brilliant glow.

Crowd Cheers
The crowd burst into cheers, then stood silently to marvel at the new, nocturnal beauty of the 116-foot tower. Soon the cross was observed, hanging low over the shaft. College Electrician J. E. Wright and his associates focused the eight 500-watt lamps, two at each corner of the tower, without preliminary tests at night. Bad weather prevented the lights being made ready for tests on the previous night.

The lights cost the seniors about \$600. Senior Class President Joe Pye is on the transcontinental forestry trip, and substituting for him was Peter Bruinoge, vice president.

The Rev. O. L. Hardwick, pastor of Fairmont Methodist Church, opened the ceremonies with prayer. Prof. C. L. Mann, chairman of the Alumni Memorial Committee, presided and Bruinoge presented Horace McSwain, prominent scientist, who made the presentation speech.

Dedicated to Service
Response came from Col. J. W. Harrelson, dean of administration, and John W. Sexton, president of the General Alumni Association. Each speaker dedicated the lights to a continuance of the spirit of service and courage for which the monument stands. Harrelson referred particularly to the unselfish sacrifices of the 33 State College men who died in service during the war.

On the tower base with the speakers were former President W. C. Riddick and John A. Park, member of the Alumni Memorial Committee. The State College Band played before and after the ceremony.

Present plans call for the lights to be on nightly from the beginning of darkness until midnight.

Great Progress Made On Campus In Recent Years

Building Program Reaches New High With Seven Units Under Construction

During the past four years members of the senior class have seen a steadily improving and progressing State College building program which has reached an all-time peak this year with the construction of five new dormitories, a chemistry building and a substantial beginning of the new textile building.

Even a member of last year's graduating class would scarcely believe State College was the same institution he remembers so well if he should be suddenly transported without warning into the center of bustling activity about one of the building sites.

First among the items of the four years of improvement was the completion of Riddick Stadium, which brought State up to the athletic level of the other two major colleges in North Carolina. Remodeling of the YMCA, cafeteria and the library came soon after.

Later the agriculture quadrangle was landscaped; the field house was erected at the far end of Riddick Stadium and now contains athletic offices and living quarters for athletes.

Finally, in the early fall of 1938, construction was begun on two of the new dormitories, which complete the freshman quadrangle, and the chemistry building. Later bids

HEADLINERS ON STATE COLLEGE FINALS PROGRAM

Two outstanding leaders in education and religion will address the 1939 graduating class of North Carolina State College at commencement exercises Sunday and Monday, June 4 and 5. The commencement sermon will be preached Sunday evening by Dr. John W. Rustin of Washington, D. C., pastor of Mount Vernon Place M. E. Church, South. Dr. Francis Pendleton Gaines of Lexington, Va., president of Washington and Lee University, will deliver the baccalaureate address at twilight graduation exercises in Riddick Stadium Monday, June 5.

Col. J. W. Harrelson, dean of administration, will preside over the commencement program. He is pictured above with Dr. Rustin and Dr. Gaines with Holladay Hall, first building on the campus, in the background. State College will celebrate its 50th anniversary next October.

College To Celebrate Fiftieth Anniversary

New Loan Funds Made Available To Ag Students

Sears, Roebuck Donates \$2,000 For Benefit of 20 Farm Youths

A fund of \$2,000 was made available to State College today to aid 20 worthy and needy farm youths of this state to enter the college's School of Agriculture, Dr. Z. P. Metcalf, head of the Zoology and Entomology Department, announced.

Dr. Metcalf will select the youths to receive the awards, and application blanks may be secured by writing to him. Each boy will get \$100 to help defray his college expenses next year.

The fund was provided by Sears, Roebuck and Company, which specified that the money should go "to those who have made the most of their opportunities in high school and on the farm." J. C. Haynes of Atlanta, public relations director for the firm's Southern region, notified Dr. Metcalf that the money was available.

Aid to Industry
Pointing to the definite relation between agricultural prosperity and business prosperity, Mr. Haynes said: "We feel that it is only natural that business should co-operate in any way possible in developing our most basic of all industries in the South—farming. To believe State College was the same institution he remembers so well if he should be suddenly transported without warning into the center of bustling activity about one of the building sites.

First among the items of the four years of improvement was the completion of Riddick Stadium, which brought State up to the athletic level of the other two major colleges in North Carolina. Remodeling of the YMCA, cafeteria and the library came soon after.

Later the agriculture quadrangle was landscaped; the field house was erected at the far end of Riddick Stadium and now contains athletic offices and living quarters for athletes.

Half Century of Operation Reveals Remarkable Record of Progress

North Carolina State College's fiftieth birthday will be celebrated on October 3, 1939. In the past 49 years the college has grown steadily from a humble beginning to a recognized position among the nation's leading technological schools.

Seventy-two freshmen registered when classes first began here on October 3, 1839. They came from 37 counties to study under six professors and a couple of assistants. The institution's physical holdings consisted of two buildings; the present Holladay Hall and the Mechanical Building which was demolished to make room for Peele Hall.

Today State College has a physical plant valued at more than \$5,000,000 plus a \$1,400,000 building program that is rapidly nearing completion. Almost 500 men and women are employed by the college and its extension division.

All in One

Forty-nine years ago the students ate, slept and attended

King of Drums Feature Leader At Finals Set

Gene Krupa, Bobby Hackett, Don Bestor, To Play at Council Dances

State College finals for the year 1939 will mark the appearance of three nationally known dance band leaders, Gene Krupa, Bobby Hackett, and Don Bestor, and their orchestras, to play for the set which will include a dance Thursday night, June 1, and both afternoon and night dances on June 2nd and 3rd.

Bestor, who is widely known because of his long engagement with Jack Benny's program, will play for the Thursday night dance. He first thought of organizing a band of his own while working for a music publisher. After the organization of the band, which specialized in unique arrangements, he trouped through the Middle West until 1931 when he first invaded New York. One of his novelties is the vibraharp, which he discovered in a funeral parlor. He was the first to see its possibilities in

National College Graduate Survey Proves Merit of Higher Education

By STEVE SAILER

This week on college campuses throughout the country, seniors are musing thoughtfully on graduation and the problem of conquering a world filled with economic hardships. They are on the threshold of new careers.

With the aid of the WPA, the U. S. Office of Education has held the bewildered collegian might take a look into the future. It has made the first nationwide survey of how college men and women fare after graduation. Replies to the survey were received from some 46,000 alumni representing more than 31 institutions of higher learning.

According to the results of the survey the outlook is not as black as painted by defeatists who moan that modern collegians have nothing but frustration to look forward to in later life. Although the average college graduate is not likely to become rich, he is better able to get a job earn a living and stay married than the non-college man.

Some Highlights
Some of the highlights of the survey:
1. The most advantageous way for a graduate to find work after college is through an active personal campaign of his own without waiting for anybody to find a job for him. The employer will not do it for you. The applicant's college record and ask for recommendations from professors, but the real search for employment rests with the graduate. The biggest single group got their first jobs by going out and hunting for them. One-fourth got jobs through experience gained in self-support during college, about one-fifth through college placement bureaus, one-tenth through family influence and two per cent through fraternity contacts.

2. About one man in four found the kind of work he wanted in his first job, but nearly a third of them took unsatisfactory jobs because no others were available. One-tenth of the men graduates started their own business or professional office the first year out and by the eighth year one-third were their own bosses.

3. College men earned an average of \$1,314 the first year out and \$2,383 after eight years. College women averaged \$1,092 the first year, \$1,666 the eighth.

Large Number To Graduate At Commencement Exercises

COMMENCEMENT PROGRAM, 1939

Thursday, June 1
9:00 p. m.—Dance in Frank Thompson Gymnasium (Formal).
Friday, June 2
4:00 p. m.—Tea Dance in Gymnasium.
9:00 p. m.—Dance in Gymnasium (Formal).
Saturday, June 3
4:00 p. m.—Tea Dance in Gymnasium.
9:00 p. m.—Dance in Gymnasium (Formal).
Sunday, June 4
4:00 p. m.—Band concert at base of Memorial Tower.
8:00 p. m.—Baccalaureate Sermon by Dr. John Rustin, Pastor, Mount Vernon Methodist Church, Washington, D. C., Pullen Hall.
Monday, June 5
10:00 a. m.—Business meeting of General Alumni Association and election of officers. In College YMCA.
1:00 p. m.—Annual Alumni Luncheon.
3:00 p. m.—Graduating Exercises in Riddick Stadium. Address by Dr. Francis Pendleton Gaines, president of Washington and Lee University, Lexington, Va.

To the Seniors

Graduating Class:

We were happy to see you upon your arrival here four years ago. Today we are not saying goodbye. We are just saying "good luck" and that "we will see you later."

We will see you later because you are not leaving State College. You are only changing your classification from that of student to that of alumni.

The college reviews with pleasure your record here. Your sympathetic understanding of the College's problems in dealing with student matters has been reassuring. While the college staff has within the resources available tried to train you in fields of your selection, you have helped us to better understand student problems.

In our opinion the best compliment is paid in saying that we hope that other classes of State College will emulate your good deeds.

We wish you every success and will be looking forward to your return.

Sincerely yours, J. W. HARRELSON.

Senior Petition Plan Gains Alumni Support

Letterhead Found Is 27 Years Old

Paper Used in Describing Short Course Discovered by Ex-Faculty Man

A letterhead used in connection with an agricultural short course at State College 27 years ago was shown yesterday by C. L. Newman of Raleigh, former member of the agricultural faculty.

Of the 15 names listed on the faculty of the School of Agriculture in 1912, only Dean I. M. Schaub and Prof. J. P. Pillsbury remain connected with the college now. Dr. Daniel H. Hill was president of State College then, and Schaub was a professor in agricultural extension. Mr. Newman was professor of agriculture. The college was known as A. & M. College.

The letterhead set forth that the winter short course in general agriculture would last six weeks, following a one-week corn course.

Executive Committee Votes to Continue the Practice in Subsequent Years

Unanimous approval not only was given the present Senior Petition for membership in the Alumni Association and Doc Newton Club, but election of subsequent graduates to full membership under the same plan was voted at yesterday's meeting of the General Alumni Association's executive committee, presided over by Irvin B. Tucker of Whiteville and held in the Alumni office in Holladay Hall.

The committee, in further spirit of co-operation, changed the wording of the petition in order to make all petitioners full-fledged members of the association at the beginning of the annual meeting at 10 a. m., June 5, in the College YMCA auditorium, on condition, of course, that the petition is signed by 90 per cent of the graduates, as set out in the original draft.

Bunnie Hines, chairman of the committee endeavoring to have every senior sign the petition for full membership in the association and the Newton Club for nominal dues of \$1 for the first year after graduation, announced last night that new workers have volunteered and are passing the petition among those who graduate next month.

Answers Call

Jack Marsh, senior Ag student, answered Hines' call for a worker in his school. The committee chairman also placed a copy of the petition in the Alumni office, where seniors may drop by and sign any day between the hours of 8:30 a. m. and 4:30 p. m.

Petitions being passed by Hines, Steve Sailer, Art Raymond, Russell Burcham and Carlyle Summey, as well as Marsh, are being filled rapidly and within a short time the specified 90 per cent of the student signatures should be reached.

By signing the petition and \$1 pledge card, each senior will receive the full and many privileges of the Alumni Association and the Doc Newton Club, the alumni's athletic scholarship association. Ordinarily alumni dues are \$3 and the Newton club \$10 per year.

Huge Body

Efforts are being made daily to enlist the support of this huge body, which is one of the largest alumni bodies, although unorganized, in this part of the country.

331 Will Be Awarded Degrees; Changes to Be Made in Engineering Titles

The largest number of candidates ever to come up for degrees at State College will take part in the commencement exercises to be held here June 5. The candidates number 331, exceeding last year's record number by 26.

There will be a slight departure in the designation of degrees in the awarded to students graduating in the School of Engineering this year. Instead of receiving a Bachelor of Science degree, as in the past, the engineering senior will receive a Bachelor of Science in whatever course he has majored. That is a graduate in the Department of Electrical Engineering will receive a Bachelor of Science in Engineering degree. The same change applies to the master's degree.

Seniors in the Textile School and the Agricultural School will continue to receive the Bachelor of Science and Master of Science degrees, as in the past.

Master's Degree

Candidates for the master's degree this year number 32, as compared to last year's 11 candidates. The number of candidates for the bachelor's degree is 295, an increase of four, and four students are candidates for professional degrees as compared with three last year.

The number of candidates for engineering degrees in the bachelor's classification has increased from only 87 last year to 135 at present. Other schools and their number of candidates are: textile school, 58; education, 21; science and business, 4 and agriculture, 77.

Degrees will be awarded in the twilight graduation exercises slated to take place Tuesday. The commencement address will be delivered that evening by Dr. Francis Pendleton Gaines, president of Washington and Lee University in Lexington, Virginia.

The baccalaureate sermon will be preached Sunday evening, June 4 by Dr. John Rustin, pastor of the Mount Vernon Methodist Church in Washington, D. C. It is scheduled for Pullen Hall at 8 o'clock.

Gaines Known

Dr. Gaines formerly was president of Wake Forest College and is widely known in North Carolina. His address will be given during the twilight graduation exercises in Riddick Stadium.

Monday of commencement period also will be Alumni Day at State College, Alumni Secretary Dan Paul announced. The business meeting of the General Alumni Association will convene at 10 o'clock in the Y. M. C. A. auditorium with President John Sexton in charge. The annual alumni luncheon is scheduled for 1 o'clock and reunion classes will gather at three.

A three-day series of finals dances will begin Thursday, June 1 and end the following Saturday evening.

Technician To Present Huge Issue

Fifty-Page Paper Will Commemorate Fiftieth Anniversary of College

The publication of a 50-page TECHNICIAN, to appear on the day of the 50th anniversary of State College, was approved yesterday at a meeting of the Publications Board.

This paper, which will appear on Oct. 3, 1939, will be the largest in the history of the College, and one of the largest school papers ever printed in the South.

The theme of the newspaper will be that the anniversary of the College and it will contain a condensed history of the institution, along with memorabilia pictures and scenes of college activity.

An eight-page rotogravure section will be carried in the publication, featuring snapshots and campus scenes, and will in a manner illustrate the growth of State College.

The paper will be edited by E. P. Davidson, editor-elect of THE TECHNICIAN, assisted by C. A. Upchurch of the State College News Bureau, who will serve as managing editor. Advertising and business matters will be handled by J. W. Aldridge, business manager-elect of THE TECHNICIAN. Aldridge will be assisted by Romeo Lefort, assistant dean of the school, who will act as assistant business manager.

The Curtain Falls...

With the printing of this thirty-first and last issue of THE TECHNICIAN our work for the year has concluded. Before writing the traditional "thirty" at the end of our last story, however, we feel we should avail ourselves of the opportunity and express to all who have had a hand in our small success with the paper our heartfelt appreciation.

Without the co-operation of the student body, the faculty, and our advertisers our task, at best a difficult one, would have been impossible. It was only with the aid of this unselfish assistance and generous good will that we have been able to publish a paper worthy of State College.

We sincerely hope that our readers will be tolerant of the errors and the omissions, and try to remember longer the things we have done that have proved or may in the future prove of benefit to the College and to those whose lives are related to it either as students or faculty members.

To Mr. Abe Upchurch of the College News Bureau we say, "Thank you from the bottom of our hearts for the valuable assistance you have given us and for your helpful advice. Without you and your staff we would have been lost, but if our true gratitude is any compensation, then you have it."

Grateful appreciation also should go to our printers, The Capital Printing Company, for the part they have played in making the paper possible. Their attitude has been one of cheerful co-operation, and the skill of their craftsmen is reflected in the general typographical quality of the paper.

We have been fortunate in having two of the most efficient and hardest-working staffs that any publication head could hope for. Our job is done, and into it has gone the best efforts of the editorial and business staffs all the way down to the greenest reporter or advertising solicitor. We are all one in this expression of thanks and appreciation to you.

To the capable men who take over the reins next year, you have our sincere wishes for the best of luck. We could wish you no more than the co-operation and willing help we have received this year. We hope that you will bring a better TECHNICIAN next year—one that is worthy of the greater State College we know is coming.

STEVE SAILER and MORT BROWN.

Adequately Trained...

Notwithstanding Webster's dictionary, the two words "adequately trained" have taken on a new meaning to the college graduate of today who is seeking a job.

The dictionary will tell you that these two words are defined as "specialized knowledge and skill in the technical processes of the occupations." However, modern educators will tell you that to be "adequately trained" today, the college graduate must also be prepared to adapt and adjust himself to the changing conditions about him.

One director of vocational guidance, basing his statements on the results of a nation-wide occupational trend study of over 18,000 professional and semi-professional positions which were actually filled by college graduates, predicted that the job hunt of tomorrow would be predominated by the socially well-adjusted and the versatile student.

The study revealed among other things that the individual most in demand is the one who can get along successfully with other persons, control his emotions, and the like. Mere skill and book knowledge are no longer enough. Employers insist that the social faculty is an indispensable factor.

Versatility and adaptability are the yardsticks by which the qualifications of job-seekers are most frequently measured. The employee of tomorrow will be expected to prepare for and do well two or three different kinds of related work rather than one highly specialized task. The day of the narrow specialist who knows only his technical duties is passing.

A Year Ago This Week
The Interfraternity Council at a call-meeting Wednesday afternoon, decided to place an absolute ban on corsage wearing at social dances in the future.

State College will soon be the home of a new theater, according to an announcement made last night by Mr. Enloe, manager of North Carolina Theaters, Inc.

The awarding of diplomas to 298 seniors in the traditional twilight exercises will climax the 49th annual State College commencement program.

Three Years Ago This Week
With the audience booring the villain and praising the hero, the Red Masquers presented their most successful production of the year last Friday night before a highly appreciative audience.

An aggressive attempt to renew publication of the Southern Engineer is being made this week by Fred Gore, president of the Engineers' Council.

Two hundred and twenty-three seniors will receive diplomas in the forty-seventh annual commencement exercises which will come to a grand climax Monday in Riddick Stadium.

Five Years Ago This Week
The self-help students at State College have earned more than \$14,000 in FERA and other self-help work, according to M. L. Shepherd, director of the self-help bureau.

Through the efforts of Pine Burr and Tau Beta Pi, scholastic fraternities, all of the State College streets have been named, it was announced last night.

The sophomore class voted at its last meeting to award its long contract to the Star Engraving Company, marking the first time in the history of the College that a sophomore class has voted on its contract before the junior year.

an orchestra and has obtained exclusive radio and recording rights to it. It sounds like a combination of the celeste, organ, harp, and piano, and has the appearance of the latter.

Every now and then some monevic writing in the "Wagon" on an expedition for a humor magazine, tries in his own delusional little way to poke a little fun at the editor of the "Technician" without having the courage to put his name to the childish thrusts.

College To Celebrate Fiftieth Anniversary
(Continued from page 1)
classes in Holladay Hall, which was named after the first president, Alexander Q. Holladay. There are seven dormitories on the campus with four more to be available when the 1939-40 students arrive. Today approximately 2,200 youths representing most of the states of the union and half a dozen foreign lands are receiving their education at State College.

Colonel J. W. Harrison, dean of administration and a graduate in the class of 1909, took over the administrative reigns of the college in July, 1934, from Eugene C. Brooks, last of State's presidents. Dr. Brooks is now president emeritus.

The post of dean of administration was created when the campus was transferred to the consolidated Greater University was placed under the presidency of Dr. Frank P. Graham. The executive of the college in the order of their service were Dr. Holladay, 1889 to 1899; Dr. George T. Winston, 1899 to 1908; Dr. Daniel H. Hill 1908 to 1916; Dr. W. C. Riddick, 1916 to 1934 and Colonel J. W. Harrison who took over the reins in 1934.

During the past year State College has provided training to approximately 10,000 students including those who attended the regular session, summer session, the various short courses, night school and other extension courses. More than 1,000 additional students took correspondence courses during this time.

The college spends annually approximately \$2,300,000 exclusive of the huge building program underway. Most of this money is spent in Raleigh and all of it is exclusive of the thousands of dollars spent by students annually.

YOUR ROVING REPORTER

By WENDELL LEONARD
The question: In a few weeks you will be graduating. What do you plan to do then, and what part of college do you feel has helped you the most for your future work?

Henry Busse left his whole band recently. The trumpet major got ambitious for Broadway and had to let his old band go on account of labor trouble...

Outlawed Horn
Most musicians have quit using the once popular C-Melody saxophone, but Frankie Trombar has made over a quarter of a million dollars tooting one of these outlawed horns...

J. R. Shearon, electrical engineering: "After all, I think the essence of an engineering course is teaching how to learn. I feel that the basic training given here in electricity, physics and math will enable me to learn quickly when I enter the electrical industry."

an orchestra and has obtained exclusive radio and recording rights to it. It sounds like a combination of the celeste, organ, harp, and piano, and has the appearance of the latter.

Everyone has heard of Gene Kays, "The Ace Drummer Man" who was once the matstay of Benny Goodman. Gene will be right here drums and all for both the Saturday afternoon and Saturday night dances which will wind up the Interfraternity Council's Finals for 1939.

* OPEN FORUM *

To the Students of State College:
The Senior Class has given what they feel to be the most appropriate gift possible. It points out in bold relief our most beautiful structure for all who will to see and admire. Nothing about our campus will get more attention and favorable comment by all who see it.

It is appropriate as a symbol of the Spirit of State College. A spirit that half a century ago inspired the founding of this institution and has for that half a century stimulated continuous growth and development of a program of training of youth for lives of service to the state and nation.

This is our contribution to the ever-growing Spirit of the College that seeks continually to free the souls of men from the bondage of ignorance and stupidity, just as thirty-three men who gave their lives for the freedom of men. We entrust this gift in your care. The lights have been focused and they are expensive. Take it upon yourself to see that they are not tampered with or defaced in any way.

Sincerely,
Senior Class Gift Committee.

STOP BAGGAGE-ITIS! *

Technical name for "Baggage bother when vacation bound."
Use this easy, economical RAILWAY EXPRESS cure - pre-tested by thousands of career collegians: (1) Pack everything carefully into your trunks, boxes and bags. (2) Lock, strap and label 'em deftly. (3) Phone or drop by the RAILWAY EXPRESS office and tell them when to call and where to deliver. THAT'S ALL! Your baggage is practically home. Charges include pick-up and delivery in all cities and principal towns. And you can send everything "express collect" at low rates.

LISTENING IN

By JOE MICHAEL
We wish that some one could come to some sort of an agreement as to where the words to "Hold Tight" came from when they mean. Time says this and a well known daily says that, but who cares where the words come from if they click...

Francis Craig is one handsome man that sure sticks to the Southland. His band features a unique style of sweet and swing and has been doing so at the Hotel Hermitage for the last 14 years to lead in the last five years to fill a dirgible.

Teddy Wilson is another one of Alec's favorites. It seems as if European critics always think that our Negro musicians are best...

day night dances which will wind up the Interfraternity Council's Finals for 1939. Gene had been with Goodman for three years before organizing his own band, and has played with Bud Freeman, Teamacher, Meislow, Stacey, Red Nichols, Irving Aaronson, Russ Collins, Franky Trumbauer, and Benny Rogers.

Barnard College next year will offer a special course on the history, economics and arts that characterize a democracy.

GLEANINGS

Looking backward over four grand but speedy years: That muggy September afternoon when freshmen orientation week officially got underway with a warm welcome from Colonel Harrelson delivered to a record-breaking number of we registered, homesick yearlings...

"Taking part in the newly inaugurated 'Hello Week' and being so proud of that big red button... The dedication of the then newly completed Riddick Stadium with its accompanying fanfare... One introduction to a military uniform and a nine-pound rifle... The new time clock installed in the stadium... That unsuccessful experiment of trying to replace the college whistle with a fancy bell...

The first Halove'en night spent in Raleigh and to make matters noisier it came on the eve of a State-Carolina grid battle with its accompanying pep meetings and parades... Classes dismissed for the Armistice Day parade... That swell bunch rooming on third floor Seventh, Jimmie Worrell, Jim Murray, Danny Hines, Wayland Stuart, Emilio Aristepe, Bob Lake, Leslie Brooks, Jimmie Angelo, Harold Nass, "Mule" Biggers, "Shurtzy" Lawrence, roommate Art Raymond and the rest.

The freshmen's debut at a State dance and coming face to face with a real, live prom-trotter... Bill Bailey elected freshman class president... The Duke game played on as cold and bleak an afternoon as this correspondent ever sat through... The library's browsing room open for the first time... That memorable snowfall four years ago and the ensuing snowball fight which raged on freshman quadrangle for an entire afternoon.

The "flu" epidemic which struck the campus and caused all sports contests to be cancelled for weeks... The days of dormitory telephoning and the many ways thought of to keep from paying a nickel to phone the best girl... What a swell gentleman was Colonel Magruder... Lloyd Brown elected student body head... Reggie, the friendly maul who won the heart of the ROTC regiment and became its mascot.

The Finals with Benny Goodman and Company providing the musical background... Another year and another grueling day of registration... Getting all worked up about hearing Carolina as usual, and as usual coming out on the short end of the score... Recovering from the freshman's awe of Dean Cloyd and the book of cuts only to discover that the Dean was as likable a gent and as much a friend of the students as any one man could be... The first Wake Forest painting incident when the library and other buildings were marred last year... Professor Johnnie Miller and his splendid intramural program, one of the really worthwhile phases of a college education.

That pep meeting in Pullen Hall to welcome Doc Newton and the new staff of coaches... Russell Burcham walking away with the Junior class presidency and a better choice couldn't have been made... Another exam schedule that keeps us here until the last day... State's advance into big-time football with the addition of Publicist Wade Isom and an impressive schedule... The yearly squabble over the honor system versus the Proctor system.

The first boost in tuition and fees, which seems to have started a legislative pastime... Those hair-raising State-Wake Forest basketball games... The morning after the President's Ball two years ago which Dick McPhail still can't remember... Abe Upchurch, the pride of the News Bureau and one of the best newspapermen ever to cuss a deadline... The ever-present question of the Mop-up.

The insignificant freshmen that suddenly become the friend of the people around election time each year... The Monday night dance fuss last year with its parades, mass meetings and excitement... Tom Park and the band's drive for new uniform funds... Our introduction to the freshman-sophomore pub-hall contest, and especially the "painting good time" the night before... Corsages banned at all Interfraternity Council dances and the college boy saves money for once... Hal Kemp, Jimmie Dorsey and Paul Whiteman swing for Finals.

Inviting Carolina over here to take part in the Greater University festivities are still they best us... That Mars invasion radio program that threw the campus in a panic... Bunny Hines, the pride of the News Bureau and one of the best newspapermen ever to cuss a deadline... The ever-present question of the Mop-up.

Dean Honored By Appearance In Who's Who

Col. Harrelson Listed In Latest Edition; Has a Colorful Career In Education

By C. A. UPCHURCH, JR.

A new honor has come to Col. John William Harrelson, the Cleveland County native who has quietly—but steadily—become one of the outstanding public men in North Carolina.

His debut in the new edition of "Who's Who in America," with a great galaxy of the nation's leading citizens, brought to public attention more vitally than ever before the leadership qualities possessed by the unassuming, straightforward administrative head of State College.

Not until one scans the achievement-studded career of Col. Harrelson does there come full realization of his versatility, so successful has he been in moving across the public scene without fanfare. A study of the record, however, reveals how intimately his life is linked with North Carolina's progress.

Early Life

While other public men have had their careers thoroughly aired through the publicity mediums, Col. Harrelson's rise to a top niche in public service has been accomplished without many people knowing the vital statistics concerning his origin and early life.

He was born June 23, 1885, in the Double Shoals section of Cleveland County, the son of John H. Harrelson and Mrs. Ellen Williams Harrelson. The father has passed on, and the mother now lives in Shelby. Col. Harrelson has a sister, Miss Elizabeth Harrelson, who resides in Richmond, Va.

Born into a farm family, young Harrelson attended a rural grammar school in Cleveland County and the Piedmont High School at Lawndale. He entered State College in 1905 and was graduated with the Bachelor of Engineering degree four years later at the Medical College of Virginia.

Career Here

After graduating in 1909, Harrelson remained at State College as an instructor in the mathematics department. In the years passed by he became assistant professor, associate professor, professor and, in 1923, head of the Department of Mathematics. Meantime, he had served as director of the North Carolina Department of Conservation and Development from 1929 to 1933, and in this capacity awakened the State to the far-reaching possibilities of its resources. He was appointed dean of administration at State College July 2, 1934, under the Greater University consolidation program.

Col. Harrelson immediately inaugurated an era of progressive-ness that has placed State College well in the front ranks of the nation's technological institutions. Enrollment in the past five years

STATE COLLEGE KEEPS MARCHING ALONG!

These views of construction at State College and the architect's drawing (top) of two new dormitories which will be occupied next year are symbolical of the expansion program nearing completion at the College. The drawing illustrates how Eighth and Ninth dormitories will look when completed. Prof. Ross Shumaker, head of the Department of Architecture, was granted a leave of absence to design the buildings.

Photos at the bottom show (left) workmen on the dormitory job and (right) the excavation for the new chemistry laboratory building between Ricks Hall and Daniels Hall. In the background is Ricks, with 1011 Dormitory on the right. Two more dormitories, a textile building and two modern animal husbandry barns, are under construction. The dormitories described above are situated between Seventh Dormitory and Frank Thompson Gymnasium. The three dormitories combine to form a quadrangle effect. Ninth will contain a social room for the use of parents and other visitors. The four new dormitories which State College will have next year will house 710 more students.

has increased by approximately 700 students to bring the present registration to 2,200 youths from most of the states and a half-dozen foreign countries. He has liberalized student-faculty relations, and he has continually hammered home the ideal that North Carolina and the South need not merely educated men but educated gentlemen. And he has persistently pushed the expansion program while transmitting his zeal for a greater State College to his associates in the administration and faculty and to the student body.

Graduate Manager

In addition to his other activities, Col. Harrelson served as State College's graduate manager of athletics in 1911-17 and 1921-23, and was president of the General Alumni Association in 1914-15.

Summer School Date Announced

Session Will Begin June 12; June 14 Is Deadline For Registration

The 26th annual summer school session at State College will begin Monday, June 12, and close Friday, July 21, Registrar W. L. Mayer announced yesterday.

Classwork will begin on June 13 at 8 a.m., and the deadline for completing registration is 5 p.m. Wednesday, June 14, Mayer said. Provision has been made for students not carrying a full load and others who receive permission to attend classes as auditors for a small fee. This arrangement will not permit the individual to receive credit for the course, take part in class discussion, or receive any individual assistance from the instructor.

Women students will be accepted for the summer session on the same basis as men. Sixty-four faculty members will serve on the summer session staff.

Regular students planning to attend summer school can simplify their registration by leaving their names at the registrar's office before leaving at the close of the term, Mayer stated. Teachers will be asked to post grades as soon as possible to enable the student to decide whether or not he plans to attend the summer session.

Students planning to take the three-week surveying course offered by the Civil Engineering Department should see Professor Gelle immediately, and take care of the preliminaries of registration. The three-week course will begin June 5 and end on June 24.

Summer instruction for sophomores in forestry will be offered from June 6 to August 12.

Work Is Started On YMCA Handbook

"Material is now being prepared for the 1939-40 edition of the State College Freshman Handbook," announced Robert F. Coleman, editor of the book yesterday.

The Handbook is published annually by the State College Y.M.C.A. as part of its work toward orienting the incoming freshmen. A copy of the book is sent to each freshman just previous to his entrance in the fall in order that he may acquaint himself with the State College in which he will spend the next four years.

Four years ago, the size of the book was increased and also the breadth of the material and it now contains material which is valuable to the upperclassmen as well as the freshmen.

RECEIVES AWARD

Col. J. W. Harrelson is shown pinning a gold medal upon Cadet Corporal Wayland J. Reams, who was designated as the best sophomore cadet by the College's military department. The award was made at the annual graduation parade and review held Monday evening in Riddick Stadium. —Photo, courtesy, The Raleigh Times.

Cadets Given Awards At Last ROTC Parade

New Curricula In Engineering Begins In Fall

General Engineering Course to Present a Liberal Choice of Electives

When the college catalog for next year makes its appearance, a new general engineering curriculum will be added which is designed for the student who wishes to take part in extracurricular activities and not specialize in any one branch of engineering at the outset.

The new general engineering course will lead to a Bachelor of Science degree in Engineering instead of the bachelor of a specialized curriculum, such as Bachelor of Electrical Engineering or Civil Engineering. The general course is nine term credits shorter than the present specialized courses and offers 48 free electives which a student may take in any department at State College. It will be the most liberal curriculum offered in the School of Engineering.

Dean Blake R. Van Leer, who proposed the new curriculum, commented in reference to it: "The new general engineering curriculum is not easy and omits none of the fundamental foundation stones of the regular engineering course. However, many of the specialized courses are replaced by electives and thus it provides a better basic training both in engineering and in culture. The heavily loaded specialized engineering curricula permit none but best students to take part in extracurricular activities, whereas the general engineering course affords the average student more free time for such activities. "It will not be possible for a student to obtain a Bachelor's degree in a specialized field in engineering unless he chooses and passes the proper elective courses in all three years," Dean Van Leer added. "Therefore, if he is contemplating a fifth year to obtain a specialized degree, he must choose those electives very wisely and consult with the head of the department in which he intends to major promptly."

Another high honor at State College, carrying free tuition for one year, was bestowed upon Edward L. Bryant at the colorful graduation parade by which the ROTC regiment honored its seniors who will graduate next month.

Bryant, a freshman in chemical engineering, received the award as the best freshman cadet. At Scholarship Day exercises recently, he was honored for having averaged "A" in all his studies this year. Honors were distributed to the outstanding cadets by Col. J. W. Harrelson, dean of administration. The parade was in charge of Major Kenneth G. Altman, acting commandant. Gov. Hoey congratulated the graduating cadets.

Honor Men Named

Designated as honor graduates because of their "efficiency in military training and intelligent attention to duty" were George V. Hanna, Jr., Julian V. Lyon, Eugene A. Dees, Lewis L. Copley and Sterling C. Jones.

Company G won a steamer for its guidon and an engraved silver clasp as the best-drilled company, and Cadet Captain Eugene A. Dees received an officer's sash as head of the unit. An officer's sash also went to Cadet First Lieutenant Hunter L. Land whose unit, the Second Platoon in Company G, was adjudged the best-drilled platoon.

Cadet Lieut.-Col. Walter L. Fanning received a gold medal presented by the Reserve Officers Association to the best senior cadet. Fanning also has won scholastic honors this year and has served as vice president of the student body. Cadet First Sergeant Henry D. Means received a gold medal as the best junior cadet, and another gold medal, given by the College's military department, was presented to Cadet Corporal Wayland J. Reams as the best sophomore cadet.

Sabers Awarded

Special awards of an officer's sash were made to the following cadet battalion commanders for "outstanding leadership demonstrated by them throughout the school year": Cadet Lieut.-Cols. Benjamin F. Harris, Charles S. Jones and Charles S. Smart. Medals for winning the Fourth Corps Area Gallery Competition were awarded to members of the rifle team, as follows: Millard S. Hayworth, Ralph W. Brake, Benjamin R. Hatley, Ralph E. Lee, Thomas W. Shallington, Glenn M. Sheetz, Barry T. Griffith, Charles Whitson, James D. Dodge and Floyd H. Wymann.

Comments

By "ACE" KROCHMAL
State's second year in "Big Time" football looks ahead, but the situation doesn't appear half as awesome as it did a year ago.

Doc Newton will have an experienced team next year, composed mostly of seniors, with a few juniors. Last year he had an all-junior team, with the exception of the guards.

Tackle Ed Coon really came into his own last year—earning an All-Conference berth for himself and gaining All-America mention on several teams. Next year should find the big chap hitting his stride.

Little Arty Rooney will be playing his final year at State, and with seasoned ends, Art should fill the airlines with passes; his kicking leaves nothing to be desired and is best in the bunch.

The Wolfpack will have to replace the five guards who are graduating. Top men for these posts are monogram winners John Savini and Bill Windley.

Last found the 'Pack strong in tackles, but the situation is not so bright for next year. Alternate-captain and tackle Buddy Fry has graduated, and Coon's understudy, Red Novick, will graduate.

Good Ends
The center position is well taken care of, what with Co-captain Bill Retter and monogram player Howell Stroup.

State's schedule is permanently open, the preceding the traditional tilt with Carolina. Bad breaks cost State their game with the Tar Heels last year.

New Coach
A week later the famed Dukes of Duquesne invade Raleigh. They will be working under the hand of a new coach, but they are a mighty team under any conditions.

For two years in a row now, State and Furman have played 7-7 ties. State's star-filled team next year should break that record with a win over the South Carolina team.

Tradition has it that State plays their hardest against the Blue Devils. They proved that last year by penetrating the nearest to Duke's goal-line than any team did during the Devil's regular season.

State's grid season closes with the game being played at Coral Gables, Florida. The Florida team is good one, and should prove a tough nut to crack.

who has been most generous of his time and services in helping me put out this page since I took it over. My sincere thanks to you, Wade.

And so, until next fall, I'll say good-bye, wishing you all a most pleasant summer.

Fifty per cent of those present at a recent George Washington University sophomore club meeting were nominated for officers of the club.

Before I end this column, the last of the year, I want to express my sincere gratitude to Wade Isom, sports publicist for State College,

State Enters Second Year of Big Time Football

Heels, Duke, Tennessee Miami, Detroit, Duquesne Top Wolve's Schedule

'Pack Tackles Tough Ten-Game Schedule; Tennessee Is First Home Game

"We're going to do a lot more than win moral victories next year," says Co-captain Bill Retter of the 1939 Wolfpack, which tackles a mighty tough schedule.

The season's opener is with Davidson College, at Greensboro, on Sept. 23. The Wildcats can truly make the fur fly. They have a small team, but a scrappy one.

Tennessee Vols
Six days later, Doc Newton's charges will meet the toughest foe they have to face the whole season—the mighty Tennessee Volunteers.

Wake Forest was improved a thousand per cent last year over the previous year. Their sophomore team played great ball all during the season.

The Wolfpack travels to Detroit, Michigan, to meet the University of Detroit, the following week. Last year the Titans won a 7-0 victory over their hosts.

State's schedule is permanently open, the preceding the traditional tilt with Carolina. Bad breaks cost State their game with the Tar Heels last year.

BROADCAST

The last in a series of sports broadcasts over Station WRAL, given by Arnold Krochmal, sports editor of the "Technician," will be heard tomorrow night at seven o'clock.

Newton and Doak Coach Baseball

State Football and Baseball Mentors to Direct American Legion Teams During Coming Summer.

Two members of the N. C. State coaching staff are going to take part in the American Legion Junior baseball program again this summer.

Coach Chick Doak will lead the Raleigh entry, and Coach "Doc" Newton will again pilot the Gastonia club. This will be a reneuving of a rivalry between the two coaches which began last summer.

Coach Newton has put out several championship teams since he has been in Gastonia, reaching the regional and national playoffs. His teams of the past three seasons are well represented in the various leagues over the State and college regularly in Class D leagues.

Coach Doak's teams have not advanced as far in the State races as have Coach Newton's clubs but they have made successful records. "Peanut" Doak was the big gun of the Raleigh entry last season. He was one of the team's leading hitters as well as the ace of the pitching staff, hurling a no-hit game during the playoffs.

The program of American Legion Junior baseball was set up by the organization as a means of creating a feeling of Americanism and developing good sportsmanship. The program has been successful in applying these points to the boys that take part in the program as well as a means of discovering major league baseball talent.

Students Defeat Profs In Softball

President Graham Stars for Faculty in Faculty-Student Day Tilt.

With the aid of Centerfielder Frank Graham of the Chapel Hill unit of the Greater University, the faculty of State College managed to squelch what from Legos out at the hands of the students. The game finally ended at about 21 to 14 (or thereabouts) in favor of the students.

The students were really outplayed in the last two innings of the game, when Coach Romeo LeFort sent in his first team, including President Graham, of the Greater University.

On his first trip to the plate, Centerfielder Graham popped out. On his next appearance, he smacked a really good double. He also scored out centerfield several times to make almost impossible catches and break up several sure hits.

The students ran up quite a big lead in the first few innings, but were calmed down by the athletes on the faculty: Coaches Nig Walker and Bob Warren, Sports Publicist Wade Isom, Athletic Director John Miller, and Chairman H. A. Fisher of the Athletic Committee.

THE SENIORS SELECT

Students Select Mythical Eleven

All-America Center Steve Sabol Captains All-Four-Year Team.

A group of senior students voted last week on a football team theoretically composed of the best men who have played here in the last four years.

The team is composed of some of the best gridders ever to play in the Southern Conference.

Chosen as captain was All-America center Steve Sabol, a bruising player, who was, in addition a campus leader of note, being a member of Golden Chain and winner of the Alumni Athletic Trophy.

As guards, Alex Regdon and Steve Acal got the nod. Acal was voted the most valuable player on this year's team, while Alex Regdon earned Conference honors for his splendid playing at the guard post.

State's candidate for All-America next year, Ed Coon, earned the left tackle post, and his mate at the other side of the line is Vince Farrar, probably one of the most versatile players ever to don a football uniform at State.

Two State men who are playing professional football, Mac Cara and Jesse Tatum were picked for the flank positions. Both men play for the Pittsburgh Pirates professional football team.

The backfield is made up of Eddie Berlinaki and Andy Pavlovsky at halfbacks, Joe Ryneska, fullback, and Art Rooney, quarterback.

WINNER

Willy Dusty, former captain of State's golf team, came out first in the first intramural golf tournament held at State. He beat out H. M. Wagoner for the championship.

Vic Holshouser Won't Turn Pro

Star Pitcher, Ruled Ineligible to Finish Education Despite Attractive Offers.

Declared ineligible for competition this year due to a shortage in academic work, Victor Holshouser, ace right-handed junior pitcher of Coach Chick Doak's baseball team is hearing attractive offers from professional baseball teams desiring his services.

But Vic has turned a deaf ear. "I'm going to finish my education," he tells the baseball scouts.

His loss to the team was a gigantic blow, but his veteran coach is greatly pleased that Vic, brother of Herman Holshouser who dropped out of the University of North Carolina to pursue a major league career with the St. Louis Browns and Boston Braves (now Bees), is going to stick it out in the State College classrooms.

The Rockwell boy not only is going to play baseball for State one and maybe two years more, but he is going to try out for the basketball team next winter. At Rockwell, N. C., high, where he was coached by Luther Hodges, he played football, basketball and baseball.

At nearby Kannapolis one summer he played baseball for the American Legion junior nine, coached by Dr. Bob Warren of the State College coaching staff. From there his path led to State and he played baseball under Warren in his freshman year.

Last spring he was the ace fast ball pitcher of the varsity and later for Sanford in the Tobacco State League, of which his coach was president. From a slender, though promising, boy Holshouser has grown to a six-foot, one-inch lad of 20 years and 177 pounds.

"My brother, now in the textile school here, majoring in textile management, this summer he expects to play with some fast independent nine.

Grid Team Loses Seven Varsity Men

Acal, Stuart, Hines, Sands, Mastrolia, Fry and Sands Have Played Their Last For State.

State College's football team will be minus the services of seven of its varsity players when the grid season rolls around next September.

Graduation will take Captain Bunny Hines, Wayland Stuart, Steve Acal, Fred Mastrolia, Bill Matheny, Buddy Fry and Warren Wooden. Hines, Wooden, Matheny, Acal, and Mastrolia were guards, Stuart an end, and Fry was a tackle, in addition to being alternate captain.

Despite the fact that he was not a starting player, Hines' gridders elected him captain, because they felt that he was "the man best suited for the job." That their choice was a wise one cannot be doubted, now that the 1938 football season has gone down into history.

Alternate-Captain Fry played a bang-up game at tackle, and earned a letter. He was also president of the Monogram Club, and a monogram winner on the wrestling team.

Fry an Ace
The Rockwell boy not only is going to play baseball for State one and maybe two years more, but he is going to try out for the basketball team next winter. At Rockwell, N. C., high, where he was coached by Luther Hodges, he played football, basketball and baseball.

At nearby Kannapolis one summer he played baseball for the American Legion junior nine, coached by Dr. Bob Warren of the State College coaching staff. From there his path led to State and he played baseball under Warren in his freshman year.

Last spring he was the ace fast ball pitcher of the varsity and later for Sanford in the Tobacco State League, of which his coach was president. From a slender, though promising, boy Holshouser has grown to a six-foot, one-inch lad of 20 years and 177 pounds.

"My brother, now in the textile school here, majoring in textile management, this summer he expects to play with some fast independent nine.

Elect Captains To Lead State's Sport Program

Retter, Pavlovsky, Young, Johnson, White, Rowland and Harris Lead Teams of Next Year.

Despite the fact that the current sports season has just been closed, prospects and hopes for a successful season next year are already being discussed pro and con.

The football team has chosen to have co-captains for next year Center Bill Retter and Fullback Andy Pavlovsky. Both these men have earned two monograms in football.

The Red Terrors of wide basketball fame will be captained by Rollins Sevier, the only member of the "Six Iron Men" to be back in school next year eligible to play.

Rollins is a transfer from Billmore Junior College. Last year was his first year in varsity competition, and under conference rules, next year will be his last.

Captain Young
To Ed Young goes the honor of being boxing captain. Ed, a senior in electrical engineering, boxes in the 118-pound class. The prospects for next year's miltlmen is bright, as only one man will be lost, Captain Don Traylor.

Coach Hickman's outstanding wrestling team will be led by Ted Johnson, a 175-pound wrestler. Ted is also captain of Seaboard and Blade, honorary military fraternity. The diamondmen will be led by Cader Harris, one of the leading batters of this past season's batters. Harris plays first base and does a mighty good job of it.

The co-captain idea is carried out by the swimming team which has chosen Tom Rowland and Bob White to be their captains next year.

Warren Wooden and Steve Acal dropped out of school at the end of the first quarter, Wooden to return to his home at Baltimore, Md., to teach, while Acal, who was voted the most valuable player this year, is teaching and coaching at Littleton, North Carolina.

Mastrolia is working on his master's degree here at State, in rural sociology, and Fry is completing work for his bachelor's degree in textiles.

Matheny is working in Raleigh. The sixth man who will be missing is Kenneth Sands, starting fullback, who dropped out of school without completing his course. All the other men received their degrees.

MAT CAPTAIN

Ted Johnson is the man who will lead State's grapplers next year in the mat wars.

Good Offense

The best defense is a good offense. And State really has an outstanding bunch of men in the backfield. Rooney, Pavlovsky, Dyesso, Sabolyk, Loider, Traylor, Fehley, Thompson, and East are as fine a group of backfield men as any college in this conference can boast.

Before I end this column, the last of the year, I want to express my sincere gratitude to Wade Isom, sports publicist for State College,

Track Athlete Writes Story Of Past Season

Star Dash Man Turns Out Copy on Cinder-men's Feats in Past Season

By DICK "MAGIC" EAST

State College, after an absence of eight years from home track competition, returned to the cinders this year. The team did so well that track has definitely taken its place among the major sports of the college.

The hard work Doc Sermon and Herman Hickman and their group of trackmen did this spring against some mighty fine competition showed clearly that they appreciated the efforts of the men who made it possible for the school to have its new track stadium.

In the first meet of the season the Statemen were noised out by a strong University of Richmond team by the close score of 69-57. Taking into consideration the fact that this was the first time that many of the boys had ever competed in a track meet, the strong showing the Wolves made was nothing less than a miracle.

Hit Pay Dirt

In the next meet, with Hampden-Sydney the fast-stepping Wolves were victorious by the score of 66 1/2-59 1/2.

With renewed hope, but weakened by injuries, the Raleigh team invaded the Gobblers' roost, but bowed to VPI in a close meet.

The next week a stronger State team really had a "track meet" with the "Injun" from Catawba. With the ease of Jesse Owens outrunning a flat-footed turtle, the Pack, led by Mickey Thompson, Ike Hanf, Roberts, Stroup, Johnson, Tyren and others, walloped Catawba 98-30.

A major sport that can gain a .500 average in its first year of home competition deserves a lot of praise—so to Doc Sermon, Herman Hickman, Ed Singman, we wish you many successful seasons to follow.

We salute all the boys who turned out for the team and worked hard to make a go of the baby of State College teams, and we know that next year the team will be even better than it was this year.

Records Made In Intramurals

Pika Fraternity and Third 1911 Tie With Two Records Apiece.

Art Rooney, varsity football player, was individual high scorer in the two-day intramural track meet held last week. Rooney took first in the shot-put and discus.

Pika fraternity and Third 1922 tied for high team scores with two firsts each.

The intramural records for the new track are as follows: Third 1911, and Honeycutt, AKP, tied for first. Time, 10.7. 60-yard low hurdles: Gibbs, PKPhi. Time, 7.8. Mile run: Smith, Third 1911. Time, 5:17. 440-yard relay: PKA (Hill, Walker, Smart, Harris). Time, 48.8. High jump: Peele, SPE. Height, 5 ft. 7 in. Discus: Rooney, Second 7th. Distance, 115 ft. 10 in. Shot-put: Rooney, Second 7th. Distance, 46 ft. 9 1/2 in. Broad jump: Waldin, PKA. Distance, 19 ft. 10 1/2 in.

Famed Iron Men To Be No More

Co-Captains Hill and Mann, Hamilton, Jones and Rennie Finish Years of Eligibility.

Two of State's famous "Six Iron Men" will receive their sheepskins from President Graham next week, to draw the curtain on their colorful careers as college basketball players, while three more will have played their last year of ball.

The two men who will graduate will be Co-captain P. G. Hill and Selby Jones. The three who have played all they are allowed to are Co-captain Bill Mann, who graduated last Christmas, Elwin Hamilton, who graduated last June, but who had one more year of eligibility, and Jim Rennie, who has one more year of scholastic work to get off.

Doc Sermon will find it a hard job to replace these men. The only one of the group to return will be the captain-elect, Rollins Sevier. The coach will have two more monogram men around which to mold a team, Ray Smith and Chapline Andrews.

Among the more promising freshmen are George Strayhorn and Hy Jennie. Coming up from last year's reserves will be Jimmie Watters and Ruggles Baker.

WOLFPACK'S FANGS

These are some of the men who will be featured on State College's football team next year, which embarks on one of the toughest schedules in the South.

State's schedule is studded with such famed teams as Duke, Tennessee, North Carolina, Miami, Detroit, and Duquesne.

The outlook for a good year is extremely bright, what with such men wearing the Red and White of State.

defeat the SPE in tennis or lose the third-place cup. In the dormitory league 3-1911 took second place and 3-7th finished third.

Buddy Means of the Kappa Sig fraternity and Ted Tyren of 3-1911 were honored by being presented with the best all-round athlete's trophy. Saul Feit of 2-7th and Val Waldin of PIKA fraternity received the best managers' trophies.

Mr. Miller offered his thanks to Mr. Ivey of the Student Supply Store, who gave a lot of the cups and expressed his appreciation to all those who helped to make this year such a successful one.

Following are the men who received all-campus awards:

Football
Means, Kappa Sig; Harris, Pika; Crawford, 3rd 1911; Brooks, SPE; Kolarick, 2nd 7th; Lake, Sigma Nu; Savain, Kappa Sig; Tyren, 3rd 1911; Koella, Kappa Sig; Joslin, Sigma Nu; Miller, Lambda Chi; Jones, 2nd 1911.

Baseball
Sides, 1st South; Phillips, 1st South; Hazeltine, 2nd Watauga; Woodruff, AKP; Lozier, Delta Sig; Brooke, SPE; Smith, PKP; Paschal, SPE; Tyren, 3rd 1911; Means, Kappa Sig; Joslin, Sigma Nu.

Basketball
Frazier, Kappa Sig; Rains, 1st South; Joslin, Sigma Nu; Sabolyk, Lambda Chi; Hamilton, 3rd 1911; Gibbons, Delta Sig.

Wrestling

COLLEGE COURT BARBER SHOP COLLEGE COURT

THE FIVE IRON MEN

These are five of the famous "Iron Men" who have finished up their playing careers. The sixth, Rollins Sevier, will captain next year's basketball team. Reading from left to right: Elwin Hamilton, Jim Rennie, Selby Jones, and Co-captains Bill Mann and P. G. Hill.

Ex-Sports Editor Reverts To Type

Fred Dixon Pauses in Wanderings Through Watauga to Jot Down a Few Lines.

By FRED DIXON, '32

After a year and three months away from the press box at State College, I come back on this hot day in May to rattle off a few lines for this last issue of THE TECHNICIAN.

Strolling through Watauga Dormitory on Wednesday afternoon of this week, I spied Tony DiTeso taking it easy on the lower half of a double-decker. In a previous room I had just spied Fred Gard-roomer fast asleep, using this form of relaxation to take his mind off a bad case of sun-burn gotten from a tennis game Tuesday afternoon. Fred was really and truly taking it easy. He had not one stitch of clothing on.

Distinctive Types

Now, in these two you have two distinctive types of athletes. There is Fred, a big 225-pounder who can depend on his weight and strength to get along on the field. Fred also has a keen mind to go along with that strength.

Then there is Tony, a little fellow, but a powerhouse in anyone's opinion. Tony can't rely on power or weight because he just lacks those things, but he has that determination, that grit, and that fight that makes him a fine competitor. Then, too, Tony has a pair of fast legs and elusive hips.

Just why I should talk about these two in particular is simply told: They happened to be the athletes I saw in Watauga. But from them we can get a good thought—it doesn't matter if we are big or small; if we have what it takes, we can get along.

Folks downtown are genuinely interested in the sports set-up at State and are all for Doc Newton, Doc Sermon, Chick Doak, and all

(the other fine fellows who compose the athletic staff.

Afternoon programs of "Quiet Hours of Music" are provided for the relaxation of students of Woman's College, University of North Carolina, during examination weeks.

Paul Gord, Ohio State University senior, is a full-fledged auctioneer.

WILL PROVIDE RHYTHMS FOR FINALS DANCES

Two of the three band leaders who will bring their famous orchestras here to play for the Finals dance set June 1, 2, and 3, are shown here. On the left is Gene Krupa, the idol of swing fans everywhere and recognized as one of the top drummers in the business. Krupa will furnish the music for both the Saturday afternoon and the Saturday night dances. On the right is Bobby Hackett who, with his band, will hold sway at the Friday dances. Hackett's orchestra is one of the newest to appear on the swing horizon, but the ace trumpeter is reaching fame rapidly.

Board Members Elected For Print Shop

The Publications Board approved the special committee's recommendations and elected its representatives to the executive board.

College publications, with the exception of the *Agronomist*, will be printed in the plant, but no printing shall be done except for the college, its divisions and student organizations. The plant and its equipment will be jointly and equally owned by the college and the General Alumni Association with the money for the purchase of machinery and equipment to be advanced from the publications reserve fund.

The print shop is to be located in the basement of the present textile building as soon as the Textile School moves to its new home and the old building can be renovated.

Plant Moves Nearer Reality as Proposal Is Approved by Publications Heads

The machinery for the establishment of the proposed college print shop got under way this week when

rated. This cannot be completed until the middle of the winter term next year, Colonel Harrelson stated. The plant shall be controlled by an executive board composed of two members of the General Alumni Association, two representatives of the Publications Board and one faculty member appointed by Col. Harrelson to act as chairman. The student members of the Publications Board elected to serve next year are E. P. Davidson and T. D. Williams. The representatives of the Alumni Association are Dave Clark and Bland Chapman.

Dobson Is Elected Ag Club President

O'Brien To Become Vice President; Hemmings Is Selected New Secretary

Director Frank Jeter of the State College News Bureau was the principal speaker at a meeting of the Ag Club held Tuesday night. Jeter devoted his talk to the school's publication, *The Agriculturist*.

"Our publication has taken its place as a leading collegiate magazine of its type," he stated, "and I feel that the editors and business managers deserve a large measure of credit for the splendid job they have done." Jeter told the students that such sources of information as the experiment station and other similar research units were available for use by students. He also urged all the Ag students to get behind their publication and pledge their support.

Following the address, elections for next year officers was held and Adrian Dobson was victorious in the race for the presidency. He defeated Joe O'Brien, who automatically became vice president. Other officers elected were Jim Hemmings, secretary, and Arnold Krochmal, reporter.

The annual club picnic was held last night at the Tar Heel Club with more than 200 attending. Chaperons for the occasion were Professor and Mrs. F. M. Haig, Professor and Mrs. Gardner, Professor and Mrs. Ruffner and Dr. and Mrs. J. B. Cotner.

To propagandize for the embargo of Japanese war materials, college students have formed a special Student Committee Against Participation in Japanese Aggression.

Engineer's Council Members Selected

14 Students Are Chosen To Serve; Engineers' Fair Is Main Project

Announcement was made today of students who will serve on next year's Engineers' Council by newly-elected President Hal F. Randolph. The Council will have 14 regular members, two representing each department in the School of Engineering, and the other two who will be allowed to attend meetings as representatives of the Department of Geological Engineering. They will not be members until next year, when the department will be fully recognized.

One of the most important functions of the Engineers' Council is production of the annual Engineers' Fair, which attracted 9,000 visitors to the campus this spring. The Council also serves as the governing body of the students in the School of Engineering.

Students named to the Council and the department they represent are: R. B. Reeves, Jr., and L. N. Boney, architecture; Hal F. Randolph and S. R. Millhouse, ceramic; P. Forcher Gregg and E. H. Johnson, civil; F. O. Trustlow and B. A. Hildebrand, chemical; M. E. Watson and W. D. Sharp, electrical; F. C. Cunningham and L. A. Fletcher, industrial; M. M. Dalton and H. R. Crawford, mechanical; Ross I. Edwards and J. V. Hamme, geology.

Alumni Reunion Chairmen Picked

Class of 1914 To Celebrate 25th Anniversary on Annual Alumni Day

Chairmen for the class reunions which will be held at State College on Alumni Day, June 5, were announced today by Alumni Secretary Dan M. Paul.

Twelve classes will hold reunions, and the Class of 1914 will observe its 25th anniversary. E. E. Nichols of Morristown, N. J., is chairman of the 1914 celebration.

Chairmen for the reunion classes are R. H. Merritt of Raleigh, 1897; A. E. Cohoon of Elizabeth City, 1898; C. L. Mann of Raleigh, 1899; Dean I. D. Schaub of Raleigh, 1900; R. L. Tatum of Raleigh, 1916; Commissioner W. Kerr Scott of Raleigh, 1917; Lyman Kiser of Raleigh, 1918; J. I. Wagoner of Greensboro, 1919; J. Kenneth Stephens of Apex, 1935; Micou F. Browne of Raleigh, 1936; Neill Dalrymple of Fieldale, Va., 1937, and David Gilbert of Zebulon, 1938.

The business meeting of the General Alumni Association will convene at 10 o'clock Monday, June 5, in the Y.M.C.A. auditorium, with president John W. Sexton of Raleigh in charge. The annual alumni luncheon is scheduled for 1 o'clock and reunion classes will gather at 3.

Sigma Tau Sigma Inducts New Men

Seventeen rising seniors with high scholastic averages were admitted into membership today by Sigma Tau Sigma, textile scholarship fraternity at State College.

The new members are F. T. Broyles, E. W. Fisher, S. B. Frank, D. E. Hamilton, C. E. Jennette, Ernest Koella, J. M. Mauney, R. J. Payne, J. Y. Pharr, Jr., W. H. Ritter, M. L. Slesinger, J. R. Wall, C. K. Watson, H. C. Woodall, Jr., M. B. Sokoloff, B. L. Overbey and J. M. Harkey.

Officers elected for next year are Watson, president; Jennette, vice president; and Hamilton, secretary-treasurer. The fraternity is limited strictly to seniors.

Cornell University scientists have discovered the special enzyme that makes race horses run fast.

Tuition Increase

Students at State College rose up in protest this year to a proposal of the General Assembly to increase tuition at this institution, made necessary by a cut in the State College budget.

Protests were first demonstrated in a mass meeting of the entire student body held in the gym, at which time Colonel J. W. Harrelson, dean of administration, told the students that he would stand behind them.

Campus leaders assembled and drew up a letter which each student was given to send to his parents, and several appeals were made in person and by letter to members of the Legislature.

A protest parade of representatives of the three units of the Greater University was held in Raleigh, followed by a mass meeting in Hugh Morson High School. At this meeting the group went on record as favoring an increased appropriation for "education and health in North Carolina," and expressed their disapproval of a tuition boost.

The budget committee proposed to raise in-state tuition from \$80 to \$125, and that of out-of-state men from \$180 to \$225, which would have been an increase of \$49,000 in tuition fees.

Final outcome of the incident was that the Legislature voted to increase the out-of-state tuition by \$75, at the same time letting the in-state tuition remain on the same level.

The YEAR at a GLANCE

"I STAND BEHIND YOU ..."

... in our fight against the proposed tuition increase," stated Colonel J. W. Harrelson at the student body mass meeting held in protest to the bill introduced in the Legislature to raise tuition fees for State College. The administrative dean is shown above as he addressed the 2,000 students assembled.

Welfare Committee

A year and one month ago eight hundred students gathered in Pullen Hall at the invitation of the Student Government, and drew up a plan whereby a "Student Welfare Committee" would be created.

This committee, composed of eight faculty and eight student members, was to be a clearing house, and measures originating either from students or faculty were to be brought before this committee. The committee studied the proposal and recommended it to the General Faculty, who had the last say-so in the matter. Last fall the Welfare Committee began its first functioning, and during the year have considered and seen passed several acts benefiting the student body. The group chose Professor Fred M. Haig to act as chairman, and through his work the body has grown into a capable and efficient organization.

The most important measure passed through the Student Welfare Committee during this current year was Tau Beta Pi's proposal for the establishment of a Dean's List for outstanding scholars. The committee favored the bill with unanimous approval, and saw it pass safely through the powers-that-be.

Greater plans and functions will come from the Student Welfare Committee next year, as their hard problem of organization has been passed. If one as capable as Professor Haig retains the head of this group, it will go far in furthering student-faculty welfare.

Bond of Fellowship

The plans for State College's first Faculty-Student Day began early in May in the Interfraternity Council, and through its work in conjunction with the faculty and entire student body, the initial celebration was held on May 19.

This year's celebration began with a mock and dress parade of the ROTC regiment in Riddick Stadium, and was followed in the afternoon by an extensive program including a luncheon, various athletic contests, and a lawn party.

Friday night students and faculty met on the dance floor at the annual Faculty-Student Day dancy held in Frank Thompson gym, which was attractively decorated with unique caricatures.

The highlight of the festivities was the faculty-student soft ball game played on the varsity diamond. Two separate games, with two different teams, headed the program, and in the first contest the students were too much for the "ten old men" and came out victors.

In the following game, however, the "ten rejuvenated men" pulled an unprecedented rally and won from the student aggregate by a small score. A realistic broadcast of the game was given over radio station WPTF.

Student-Faculty Day was begun here at State to increase the bond of fellowship between the administration and the student body at large, and in accord with the success of this year's program, indications point to a much larger celebration of this hereafter annual day next year.

News Briefs

Lockmiller Honored

Dr. David A. Lockmiller was notified recently that he had been awarded a grant-in-aid for study and research in the field of Latin-American history. Dr. Lockmiller is the author of "Magoon in Cuba" and numerous articles dealing with the United States and its activities in the Caribbean area.

Tuition Boost

Out-of-State students returning to State College next year will be faced with a \$70 increase in tuition fees, bringing the total to \$250 per year for non-residents of North Carolina.

Masked Beauty

As an added touch to the State-Duke football game played in Durham, the formerly "Masked Majorettes" unmasked before leading the State College Redcoat Band on the field during the half of the game. The attractive drum major, Miss Louise Williams of Raleigh, has appeared at all of the State home games this year.

Morning, Senator

Speaking before the Legislature's Appropriations Committee, Dr. Frank P. Graham, fiery president of the Greater University of North Carolina, vigorously attacked the proposed increases in tuition as "applying a test of wealth instead of merit to prospective students."

Student Assembly

State College forensic students played host to more than 200 delegates from twenty North Carolina colleges convening for the second annual Student Legislative Assembly. A banquet was also held in honor of the visiting delegates.

Band Trip

At a special meeting called last Saturday, the Athletic Council decided, after careful investigation and consideration, that the Redcoat Band will not make the proposed trip to New York to play at the State-Manhattan football game.

Heck Invents

Professor Charles Heck of the Physics Department invented a weather instrument that can predict the weather with an amazing degree of accuracy. The instrument was a curious looking object but remarkably sensitive to weather changes.

In Short

Artman and Student Government

"We want to unite student and faculty interests into one unit of campus government and to make this government a real, vital part of our lives," Dr. J. M. Artman told members of the Student Welfare Committee at a special meeting.

Honor Students Shine

Special awards were presented to top-ranking students at the 14th annual Scholarship Day exercises and Dean of Students E. L. Cloyd announced that 333 students had made the honor roll for this year.

Tuition Boost

Out-of-State students returning to State College next year will be faced with a \$70 increase in tuition fees, bringing the total to \$250 per year for non-residents of North Carolina.

Masked Beauty

The attractive drum major, Miss Louise Williams of Raleigh, has appeared at all of the State home games this year.

Graham Speaks

Speaking before the Legislature's Appropriations Committee, Dr. Frank P. Graham, fiery president of the Greater University of North Carolina, vigorously attacked the proposed increases in tuition as "applying a test of wealth instead of merit to prospective students."

Keys Awarded

Gold keys for meritorious service were awarded by the State College Publications Board to 33 students at their annual banquet held at the Carolina Hotel Ballroom. The banquet was presided over by F. H. Jeter, director of the State College News Bureau and chairman of the Publications Board.

Marriage Course

The popularity enjoyed by the newly inaugurated marriage course was readily indicated by the large increase in the second term's enrollment over that of the first term. Only twenty students took the course the fall term and over fifty-five the winter term.

'Technician' Doings

Two new "firsts" were established by this year's TECHNICIAN. For the first time in the history of the College a ten-page paper was issued when the TECHNICIAN made its appearance on October 21 in celebration of Homecoming. The other "first" was the extra, which was put out the day of the protest parade on the General Assembly.

Activities

Welfare Committee

Coming as a direct result of the student body mass meeting which was held at the close of school last term, the proposed Student Welfare Committee has been formed to serve as a clearing house for student and faculty recommendations.

Colden Chain

Juniors tapped into membership of Golden Chain this year were E. P. Davidson, J. Y. Pharr, Sam Mann, Hal Randolph, H. D. Means, Frank Sabol, Buck Branson, Ben Pace, Charlie Hunter, Al A. Di Yeso, H. R. Crawford and E. Durham. H. D. Means was elected president of the organization for next year.

Haig Elected

Professor Fred M. Haig was elected as chairman of the newly formed Student Welfare Committee. In its initial meeting held Tuesday afternoon in the YMCA, the Welfare Committee will study any propositions or grievances arising and then make its recommendation to the general faculty, which has the authority to accept or reject the proposal.

Tuition Protest

Students at State College rose up in protest to the proposed increase in tuition fees included in the State budget presented to the current session of the General Assembly. A student body mass meeting was held in the gymnasium, with Colonel J. W. Harrelson as speaker.

Some Fun

Catch that rock, Dean. We students like this Faculty-Student Day, but we guess it's sorta hard on the "Ten Old Men."

Faculty-Student Day

Friday, May 15, marked the premiere of State's annual Faculty-Student Day, sponsored by the Interfraternity Council. Students and faculty members met socially and on the playing field in an effort to obtain a closer bond of friendship between the two groups.

On Campus

Political Pinwheel

State College students thronged to the polls 1,210 strong in the final campus elections which saw E. Durham barely nose out H. D. (Buddy) Means for the student body presidency. E. P. Davidson was elected editor of the TECHNICIAN for next year.

Banner "Agromeck"

Several superlatives could be used on this year's Agromeck without overdoing or exploiting all its possibilities. Editor Jim Worrall and Business Manager S. C. Holmes have wrought well.

Pushball Tilt

Meeting on a muddy field and in a steady downpour of rain, the outnumbered sophomores were able to hold the freshmen to a 3 to 3 tie this year in the annual class pushball contest.

Cadet Colonel

William McC. Bailey, a senior in the School of Forestry and president of the State student body, was appointed cadet colonel of the entire ROTC regiment. This is the first time in the history of the college that one man has held both positions.

Senior Superlatives

Members of the senior class met and chose the following class superlatives: Bill Bailey, most popular; Walter Fanning, best all-around; Steve Sailer, best dressed; Don Thompson, best looking; Jim Worrall, best politician; Jim Angelo, most likely to succeed; C. S. Jones, most military; Bunny Hines, best dancer and Joe Frye, best executive.

Print Shop

Establishment of a printing plant at State College moved nearer reality when the Publications Board adopted recommendations of a special committee to study the feasibility of the plan. The committee recommended that a shop be established with equipment adequate to handle all of the college's printing, including publications.

Crops Judging

Members of the State College crops judging team returned to the campus with a huge gold cup for first place honors at the national contest held in Kansas City. They also won second place in the international contest held in Chicago.

Who's Who

Eighteen prominent State seniors have received national-wide recognition and were listed in 1939 edition of Who's Who in American Colleges and Universities. The men selected were Bill Bailey, J. A. Worrall, Steve Sailer, W. L. Fanning, Russell Burcham, S. C. Holmes, Art Raymond, J. B. Hines, Mort Brown, H. R. McSwain, A. H. Sallenger, A. M. Smith, Joe Frye, G. W. Marsh, E. J. Angelo, J. L. Murray and J. C. Haynes.

Returning!

Hold that train, buddy! I'm going back for State's Greater University Day.

Scram, Press

Two local press photographers engaged in snapping pictures of State College's stringing drum majors, were ousted from their vantage point atop the recently completed warehouse by the caretaker of the college.

Tennessee Game

State will meet the top-notch Tennessee Vols here September 23 in an intercollegiate football classic. Business Manager Von Glahn announced, "The Tennessee game completes one of the hardest schedules a State team has been called upon to face in the college's history."

52 Pledged

At the close of the longest rushing season in the history of the college, fifty-two men became pledges of fourteen fraternities on the State College campus. Due to the deferred rushing plan introduced this year, the number of pledges hit a sharp decline as compared to former years.

Builder Speaks

Eloquent tribute to the engineer as "God's journeyman, continuing the work of creation" was given here by Dr. David W. Steffman, internationally known bridge builder, in a series of three lectures given here during Engineer's Week.

Swing and Dine

Swing music met its match this term in the college cafeteria when Pine Burr honor society installed three loud speakers and equipment to supply recorded music at meal time. The society hopes that it has helped students digest their meals better.

Fraternity Row

"Special legislation for the land grant and bond issue proposed for a fraternity row at State will be unnecessary. Only the approval of the fraternities, the administration and the Board of Trustees is needed," stated Pierce Fleming of the Council.

Solo Flight

George W. Bethell who received his first aviation instruction March 15, was the first State College student to fly solo as a result of training provided by the Federal government.

Free Movies

The first in a series of free movie programs to be sponsored by the YMCA was given in February. The pictures have been shown each Friday evening according to Secretary E. S. King of the YMCA, will be continued.

McCutcheon Wins Research Grant

Zoology Professor Receives Award From Advancement of Science Association

Dr. F. H. McCutcheon, assistant professor of zoology, was announced today as winner of the annual Research Grant awarded in recognition of outstanding research work by the North Carolina section of the American Association for the Advancement of Science.

Accompanying the honor is a cash award to enable Dr. McCutcheon to continue his research, which deals with the physiology of blood and respiration. Reports on his investigations have been published in American and English scientific journals.

In collaboration with Dr. F. G. Hall of Duke University, Dr. McCutcheon conducted special investigations in 1937 at the United States Bureau of Fisheries laboratories at Woods Hole, Mass. A native of North Dakota, Dr. McCutcheon attended Lombard College, University of Illinois, North Dakota State College and Duke University. He was an instructor in the Department of Zoology at Duke before coming to State College in 1936.

Organizations with which Dr. McCutcheon is affiliated include the American Association for the Advancement of Science, American Society of Zoologists, North Carolina Academy of Science and Sigma Xi.

Sigma Nu's Plan Alumni Banquet

Sigma Nu social fraternity will hold its annual alumni banquet Saturday evening, June 3. President A. S. Sallenger announced today. The banquet will be held at

the Sir Walter Hotel at 6:30 o'clock.

The affair was inaugurated last year by Sallenger with the purpose of creating a closer relationship between the alumni and the active members. Invitation acceptances have been coming in from alumni all over the state and from all appearances the banquet will meet with an even greater success than the gathering last year.

Hull Smith, newly elected president of the chapter, will serve as toastmaster at the banquet and will briefly summarize the activities of the chapter during the past year. Jack Bing and Harold Robinson will join discussion on the possibilities of establishing an alumni club in the state.

Ag Club's Last Meeting

The Ag Club held its final meeting of the year last Tuesday night in Polk Hall, at which time moving pictures of the senior trip, taken by Professor Gardner, were shown.

There were three reels in all, one of which was in color. The films showed some of the highlights the boys saw on the first senior ag trip.

After the showing of the pictures, Charley Hunter told the members of a proposed Little International Livestock Exhibition which might be held at State College next spring. The idea of the show would be to have various students work with various types of livestock, such as cattle, horses, sheep and swine, and see how much they could improve these animals by using a carefully prepared diet, and so forth. The animals would be supplied by the animal husbandry department, and winners in the various fields named.

The club voted in favor of the idea, and a committee was appointed to draw up further plans for it. The meeting adjourned with the singing of several songs.

Foster To Head Red Coat Band

John M. Foster was last night elected as president of the State College Red Coat Band for the coming year, at a meeting of all the bandmen.

The band, famous for its colorful appearance at State football games, was headed this year by C. H. Storey, Jr.

E. W. Price was chosen as vice president of the group, and C. L. "Red" Sullivan was selected as secretary, representing the large group of rising sophomores on the administrative staff of the organization.

Major C. D. Kutschinski will continue to direct and supervise this popular student organization.

SPONSORS FOR FINALS DANCES

The Interfraternity Council of State College will present its Finals set of dances in the Frank Thompson Gymnasium on Thursday, Friday, and Saturday, June 1, 2, and 3, coming as a fitting climax to State's graduation exercises.

Pictured above are the sponsors, who with their escorts, reading left to right: Miss Ida Dargan of Florence, S. C., with Asbury Sallenger, president of the Council, and Miss Margaret Daniel of Wilson, with Jake Marsh, vice president of the Council; Miss Nell Goodwin of Raleigh with Pearce Fleming; Miss Ethel Gray Clifton of Raleigh, with Art Raymond; Miss Anna Laurie Hare of Selma, with Curtis Todd; and Miss Nancy Gilliam of Warrenton, with T. R. Frazier. Frazier, Raymond, Todd, and Fleming are members of the dance committee.

The tea dances will be informal and the night dances formal.

Making Plans For '39 Ag Fair

Plans for the 1939 Students' Agricultural Fair got under way last week, with the election of new officers to direct the fair. Charlie Hunter was chosen as president, Paul Wetmore, vice president, and Sexton Vinson, secretary.

At the last meeting of the Ag Club the chairman and assistant chairmen of the booths for the different departments in the Ag School were selected.

An additional booth is going to be made to the fair in order to make the exhibits of more service to those interested in the practical work that the students are doing. The Students' Ag Fair is held annually in connection with the North Carolina State Fair.

Watkins Elected President of IRC

C. K. Watkins was elected president of the State College chapter of the International Relations Club at a regular meeting held Thursday night. Watkins will succeed Charles Hinkle as president.

Other officers elected for the coming year are Sexton Vinson, vice president; and J. D. Hemmings, secretary and treasurer.

Dr. G. W. Forster, head of the agricultural economics department, spoke briefly to the group preceding the elections. His topic was, "The Rackets in Modern Society."

ANNOUNCEMENT

SENIORS: The Class Gift Committee has completed its task of getting the lights for the tower before you go, but our collections have been too inadequate and far below those of last year's class. Look at the lights at night and you will feel that you do want to have a real part in putting them there. Pay your fee right away to any member of the committee or the treasurer.

Great Progress Made On Campus in Recent Years

(Continued from page 1)

were let for three other dormitories and the textile building. By the time students returned from the Christmas vacation all except the textile building, which was started late in January, had taken their places among the older buildings. By next fall only the textile building will remain to be completed.

New Track
The athletic department took at least one major step this year when the new track was completed and track was revived as a sport. The athletes were brought closer together by their occupation of the new field house.

Memorial Tower has been practically completed. Last year the senior class presented the clock for the tower and now, with the installation of the lights as the senior gift, little remains that could be done to improve the appearance of the memorial.

During the next four years it is hoped that State College will advance steadily along the highway of progress. A rapidly increasing enrollment will make necessary the construction of more and more buildings each year.

Already appropriations have been asked for an auditorium large enough to seat the entire student body, and funds for a new agricultural building, a poultry science building, and a general engineering laboratory have also been requested.

New Sophomores Elect Officers

The incoming sophomore class gathered in Pullen Hall yesterday to elect their class officers and chose Edward L. Bryant to lead them next year. Bryant is enrolled

in the School of Engineering. Jack Huckabee, who served as president of this year's freshman class, was elected vice president of the rising sophomores, and John Barr was chosen as secretary-treasurer.

Surveys show around 300,000 accidents to eyes occur annually.

The Class of 1939...

Mrs. Hudson and her student force wish to extend sincere congratulations to you. It has been our pleasure to serve many of the seniors. We hope that you have enjoyed our efforts to give you well-balanced meals in a home-like atmosphere.

The Chesterfield glove, created by New York's smart designer Merry Hull...

Original and different too is Chesterfield's way of combining the world's best tobaccos to bring out the finer qualities of each. It's the Chesterfield way and that's why Chesterfields are milder than other cigarettes. They also have a better taste and more pleasing aroma. Chesterfields really satisfy.
