

Short Illness Proves Fatal To W. G. Geile

State Professor Dies of Angina Saturday Morning; Funeral Held Monday

Funeral services for Prof. W. G. Geile of the civil engineering department of State College were held Monday afternoon at 2:30 p. m. in the Montlawn Memorial Park. Dr. P. D. Miller, pastor of the First Presbyterian Church, officiated.

Professor Geile died suddenly of angina at his home on Country Club Road Saturday morning shortly after being stricken in his office at the college.

Funeral services were James Fontaine, C. M. Lamb, Frank Poles, J. D. Paulson, Lee Parker, James F. Johnson, LeRoy Martin, J. F. Miller, Dean Blake B. Van Lear, Col. J. W. Harrelson, Prof. C. L. Mann, Prof. Harry Tucker, Prof. C. R. Brainer, Prof. T. S. Johnson, Dr. E. B. Shaw, Prof. William Hand Browne, Prof. L. Vaughn, Prof. Ross Shumaker, Dr. A. F. Greaves, Walker, Dr. J. L. Stuckey, Dr. E. E. Randolph, Penn Marshall, J. H. Griswell, D. F. Stansbury, Walter Forest Fayette, Glend and B. V. Hedrick of Hamlet.

Tribute
All classes in the civil engineering, mechanical and industrial engineering departments were suspended for the day in tribute to the popular faculty member, and other classes in the School of Engineering were suspended during the afternoon. A large number of students and faculty members, with other friends, attended the final rites.

PASSES Prof. W. G. Geile

of the civil engineering department, associated with State College for the past thirteen years, was buried Monday in Montlawn Memorial Park. Professor Geile died suddenly of angina at his home shortly after being stricken in his office at the college.

Banquet Honors Visiting Leader Of Tau Beta Pi

Charles H. Spencer, National President, Addresses Local Chapter Members

Charles H. Spencer of Washington, D. C., national president of Tau Beta Pi, honorary engineering fraternity, was the feature speaker at a banquet held last night in the Carolina Hotel Ballroom. The supper meeting began at 7:30 o'clock.

Engineers To Hold Annual Exhibition March 29 and 30

Student Projects at Fair Expected to Draw Thousands of Visitors to Campus

The annual Engineers' Fair, one of the high spots in State College tradition, is scheduled for Friday and Saturday, March 29 and 30.

Drawing visitors from all parts of the State totaling approximately ten thousand, the fair has been the major attraction annually of the Engineering School. The exhibits, which are prepared by the engineering students will be open to the public on Friday afternoon. The council awards prizes to the best exhibits in each department.

As a climax to the two-day exhibition, the engineers will step out Saturday night at Fair Week to the Grand Brawl, which will be held in the Frank Thompson Gymnasium. Preceding the brawl will be the election of St. Pat, reigning as Saint Pat, who will be accompanied by Princess Pat Randolph is president of the Engineers' Council, which sponsors the Fair.

Attendees to the royal couple at the Brawl will be the Knights of St. Pat, outstanding engineering seniors who will be chosen for their prominence and work in their individual school societies.

Also attending will be companions of St. Pat, outstanding female engineers. Two companions from each department will be selected on a basis of scholarship and prominence in their respective schools.

High honor of the celebration will be the presentation of an award to the outstanding engineering senior. This presentation will be made Saturday night at the Grand Brawl.

The entire Fair and its proceedings are sponsored by the Engineers' Council, which is composed of two representatives from each of the eight engineering departments.

The Council has recently been active in sponsoring the Engineers' Week and bringing to the campus several outstanding engineers who speak during the observance of this week.

Contest To Award Theatre Tickets

"Technician" Will Offer Wake Tickets as Prizes in Unique Ad Contest

Are you in the market for securing two free passes to one of the local theatres? Well, if you are, just read on.

Beginning with next Friday's issue, THE TECHNICIAN will sponsor a contest in which two students will be awarded two tickets each to the Wake Theater. And here's how to get them:

Each week two students' names will be selected, and these names in their entirety will be hidden in one of the advertisements located in THE TECHNICIAN. Each student's name will be in a different advertisement.

If you find your name in one of the ads, all you have to do is go to that store or firm in whose ad your name appears, present your registration card, and you will be given your free tickets.

Now don't get the wrong idea! The idea is foolproof, for the names will be selected with a numbers device, by a member of the faculty. Naturally, no person connected with the staff of THE TECHNICIAN will be eligible for these tickets.

Tompkins Hall Being Divided Into Sections

Renovation Will be Completed June 8; To House Mathematics and Education Departments

Col. J. W. Harrelson announced yesterday that the renovation of Tompkins Hall, former home of the Textile School, is scheduled to be completed by June 8, when it is destined to house the school of education, the mathematics department and the future college printing plant.

The building is being divided into offices and class rooms on the first and second floors and part of the basement, while a large portion of the basement is being reserved for the printing plant which will be equipped for use by the opening of the fall term.

The school of education will occupy the remainder of the basement and all of the first floor, and the mathematics department will be moved to the second floor. In addition to the printing plant a metal working shop and a wood shop will be located in the basement. These shops will be used for the division of teacher's training, and will serve as models for high schools which offer courses in industrial arts and farm mechanics.

In the college printing plant, which will be under the management of the publications board and the general alumni association, only work for the college and its publications will be done, and no competitive bidding will be done on outside jobs. All of the college publications will be published in the shop if facilities of the project permit.

At the present time the mathematics department has offices and classrooms in Page Hall, the civil engineering building, and Pullen Hall. When Tompkins Hall is finished, Page Hall will be used entirely for engineering, and Pullen Hall will be used exclusively by the English department.

Broadcasts Begun By Golden Chain

Honor Fraternity Launches Series of Programs to Encourage Higher Education

The first in a series of four radio programs inaugurated yesterday by Golden Chain, senior honorary society, over radio station WPTF at 5:30 o'clock.

The 15-minute program, which was presented in the form of a play, was put on by members of the organization who played the various roles in the drama.

In addition to high school seniors in attending college, these radio programs are planned to pave the way for the annual high school deputation of Golden Chain. Members will begin visiting the schools next week, and these visits will continue until around the middle of May.

No particular emphasis is placed on any college during these Golden Chain broadcasts, but the main purpose is to interest high school seniors in continuing their efforts toward obtaining a higher education. The dramas deal with preparations for college, and incidents of actual college life.

Taking part in the program yesterday were Golden Chain members Hal Randolph, "Buddy" Means, Herb Crawford, Frank Sabol, Jones Pharr and Ben Pace. Miss Dot Durley of Raleigh played the female role in the drama.

The next program in the series will be presented next Thursday afternoon from 5:30 until 5:45 o'clock over WPTF.

Got Yours? . . .

All students who entered school this term and who have not received their copies of "The Technician" may secure these copies by calling at the office in the Publications Building.

Their names will be added to the mailing list for next week's edition.

STATE DEBATERS ARE HONORED

Cary K. Watkins and F. H. "Jack" Price, Jr., star debaters of the State College forensic team, have been invited to the Rocky Mountain Speech Conference in Denver, Col., February 15-17 to demonstrate the direct clash method of debating before crack collegiate speakers of the West.

They will be accompanied by Prof. Edwin H. Paget, director of forensics, who originated the direct clash method in 1932. Both students have outstanding forensic records. It is considered a high honor for Easterners to be invited to the Denver tournament.

Donkey Fraternity of Dishonor Clears Its Decks for Annual Student Election

As a form of preliminary warning, we wish to inform the many State College students that next week will mark the opening of a campaign, which has become a long-honored and sacred tradition on our campus.

Yes, for you who have already gathered with us are awaiting of the next week's edition of THE TECHNICIAN will carry the first ballot for nominations into the great fraternity of Alpha Sigma Sigma, brotherhood of every-learned State College men.

And for the information of the freshmen, and those who might not be so well acquainted with the high order, we might add that Alpha Sigma Sigma is a noble fraternity associated with anatomies of the lowly donkey. You should gather that, you know what we mean. So if the names of three such meanies enter your mind, wait until the ballot appears, and there's your chance.

Naturally, the top-ranking candidates will receive top ranking of votes in the noble fraternity, which is in the past will receive a page of the current Agromek, according to Editor Joseph Pharr.

Anxious to have everything on the up-and-up, Pharr has requested you to vote conscientiously and honestly—for surely he does not desire a member into that organization who is not worthy of upholding the great name and tradition of the noble fraternity, for which it is recognized by other jealous students on the campus.

Blue Key Drive Nets Large Sum

The Blue Key drive, which was a part of the nation-wide program, was worked in with the drive being conducted locally in Raleigh. One-half of the funds collected during the drive will go to the national program, with the other half going to the local drive.

Collections on the campus were made throughout the dormitories, fraternities, and at various spots on the campus. Dormitory collections were made with the assistance and co-operation of the dormitory assistants.

Funds raised in the dormitories amounted to \$32.44, with Eighth and Seventh leading in the total amounts given. Fraternities contributed a total of \$33.80, with Phi Kappa and PIKA leading in amount raised.

Boxes were placed at points on the campus, and also in Lewis Cafe and the College Soda Shop. Altogether, these boxes netted \$17.87, with Lewis Cafe leading in the single box collections.

There will be an important meeting of Blue Key YMCAs at 1 o'clock, in the YMCA. All members are urged to be present.

Alpha Sigma Brethren To Welcome Initiates

Students who have snapshots which they would like to have included in this year's "Agromek" are urged to leave them at the "Agromek" office in the Publications Building by the middle of next week at the latest.

Students who have snapshots which they would like to have included in this year's "Agromek" are urged to leave them at the "Agromek" office in the Publications Building by the middle of next week at the latest.

Infantile Paralysis Drive on Campus Ended Tuesday With Collections Amounting to \$117.47

The infantile paralysis drive on the State College campus, sponsored by Blue Key fraternity, ended Tuesday with a total collection of \$117.47 being contributed by students toward the national campaign to abolish this dread disease.

The work of the entire membership of Blue Key was praised by Frank Sabol, president of the organization, who placed especially value upon the work done by Pale Clements, who acted as chairman of the drive committee.

State College's drive, which was a part of the nation-wide program, was worked in with the drive being conducted locally in Raleigh. One-half of the funds collected during the drive will go to the national program, with the other half going to the local drive.

Boxes were placed at points on the campus, and also in Lewis Cafe and the College Soda Shop. Altogether, these boxes netted \$17.87, with Lewis Cafe leading in the single box collections.

Socialist Discusses Nation's Problems

Engineer Urges Equal Taxation Of Transports

Equitable regulation and taxation of all types of common carriers were urged last Saturday by Dr. Roy V. Wright of New York City, prominent engineer and editor, in his lecture series delivered as the feature of State College's observance of Engineers' Week.

Discussing the national transportation problem, Dr. Wright was emphatic in declaring that "transportation cannot continue to be made the football of politicians, as has been true of the railroads over so great a part of their history."

Men placed on the Interstate Commerce Commission and other regulatory bodies, he stated, should be selected for their ability and types, not on the basis of problems coming before them.

Analyzing the personnel of the Interstate Commerce Commission, Dr. Wright described two as engineers without any experience in railway operation or administration, one man experienced in the field of public administration, one business economist-lawyer, one lawyer-traffic expert and five lawyers.

"Not a bad makeup in some ways," commented Dr. Wright, who began his career in the Midwestern railway shops as a mechanic, "but why the great preponderance of lawyers?"

Dr. Wright, long editor of Railway Age and other transportation and engineering organs, said solely.

Norman Thomas Argues for Governmental Intervention, and State-Controlled Natural Resources

Simmering the American problem down to the necessity of "hardening military life, not death; to peace, not war; abundance for all, not poverty," Norman Thomas, three-time Socialist candidate for the Presidency, addressed an audience of State College students in Pullen Hall last Monday afternoon.

Sponsored by the Student Council, the Socialist Party leader kept his audience laughing with light quips on both the Republican and Democratic parties. He was introduced by the Rev. Alvin Robinson, Jr., pastor of the Union Church.

—Promised Lead—

Thomas told his audience that since the depression hit us ten years ago, "there have been mirages of a promised land, but we haven't got there. Giving statistics to substantiate his statements, he claimed that in spite of New Deal legislation and the reduction of unemployment, unemployment has increased since 1929, and the problem has not been solved by the present administration.

Stating that "the tendency is towards more intervention not less by the various governments all over the world, the speaker said that the answer to our problems is not to go back to the days of Coolidge and the Republican regime when there was little control or to stay with the Democratic administration which has so far failed to solve the problem."

Social Control

Using the agricultural situation as an example, Thomas pleaded the case of the farmer, and with a population that is becoming more constant every year, an ever-increasing amount of foodstuffs is not needed. He said he approved of Secretary of Agriculture's reciprocal trade agreements in principle, but saw no large future for American agriculture in foreign markets, a world becoming more and more nationalized.

The political writer and lecturer said he was avoiding an indictment of the present capitalist system, but declared that economic order is past its zenith and is on the wane; laissez-faire has given way to intervention."

Our present problem could be solved, Thomas declared, if we would put brains to work planning for the common good rather than for profits of absentee owners of military equipment. Further planning does not require a

Quaker Preacher Speaks on Prayer

Dr. Douglas V. Steere Tells
Gathering in YMCA of the
Value of Silent Meditation
Each Day

Dr. Douglas V. Steere, Quaker minister and professor of philosophy at Haverford College, spoke at a gathering in the State College YMCA Wednesday night on the subject, "Resources for Religious Living."

"The human spirit is like a giant tree," declared Steere, "and the main root from which the tree gets its life is prayer. Prayer, when it is used as God intended it to be, keeps one strong and fresh, and gives one the ability to withstand the gales of life as a strong tree withstands the mighty winds which bowl over lesser objects in their path."

In speaking of the time given to prayer and religion in the daily life of the average American family Steere stated that it was far too short, adding that thirty minutes of silent meditation each day would prove highly beneficial to the spiritual needs of everyone.

"It is better to have few experiences and understand each of them to the largest possible extent," he continued, "than to have many, and understand few of them."

"Cooperative prayer, that is, including others in your prayers, is highly commendable," he told the group, "but we ourselves should be prepared to give what aid we can to those who pray for in the event that we should be called to help."

The visiting speaker, who is a member of the Society of Friends, has been active in numerous projects undertaken by its national service committee. He is at present vice president of the social industrial section of the committee, in charge of its camp work program, and was also one of the group which founded Pendle Hill, Quaker center for religion and social study at Wallingford, Pa.

Influenza Fatal To State Junior

Funeral services for L. Reade Powers, 19, State College student who died last Wednesday of complications following an attack of influenza, were conducted yesterday at Mitchell Funeral Home. Dr. L. Steery, pastor of the First Baptist Church, officiated. Burial was at Wallace, N. C., the student's home.

A junior in civil engineering, Powers was born April 13, 1920. Both of his parents died when he was quite young. He is survived by four brothers.

Six State College students were pallbearers. They were Redfield Mattox, Ward Andrews, Frank Weaver, Fred Armstrong, H. W. Fox and C. E. Talley.

Textile Students Select Officers For Annual Show

Textile Exposition and Style Show Scheduled for April 25; Payne Is Chosen Superintendent

Officers for the Student Exposition and Style Show at State College, April 25, were announced this week, with Raymond J. Payne of Kannapolis heading the annual event as general superintendent.

Hubert C. Woodall of Smithfield was named assistant superintendent. The officials were chosen from an election among the Textile School students.

The Style Show was originated in 1928 by Deana Thomas Nelson of the Textile School and is one of cotton in wearing apparel. Hundreds of students in North Carolina girls' colleges have participated as models, showing clothes made by themselves from fabrics designed and woven by students in the Textile School. The Style Show has attracted nation-wide attention.

Last year a prominent visitor was Dr. Claudius T. Murchison of New York, president of the Cotton Textile Institute. He will be invited to attend this year's show.

Department foremen and assistant foremen chosen to work with Payne and Woodall in staging the Style Show, with the foremen listed first, are:

Yarn manufacturing, Ernest Rogers and Eubert McLeod; knitting, Fred Meisheimer and Bill Friday; weaving, Bob Mauney and J. Taylor Shotwell; designing, E. D. Kearns and James E. Odegaard; dyeing, Charles K. Watson and Paul Clements.

The committee selected for the Lint Dodgers Ball, April 27, is composed of Chairman James E. R. Tillman, Done E. Hamilton, William D. Pearson, Gordon Sandridge and Howard Allen.

Ten girls' colleges have been invited to participate in the Style Show and samples of clothes are going to the home economist students who will model. The colleges are Peace, St. Mary's, Meredith, Greensboro, High Point, Lenoir, Queens, Appalachian State Teachers, Elon, and Floss Macdonald.

Housing Group Elects Johnson

T. S. Johnson, secretary of the State Planning Commission and professor of sanitary engineering at State College, was elected Wednesday as first president of the North Carolina Council of Housing Authorities.

The council, composed of representatives of all six housing authorities in the state, met last Wednesday morning and afternoon.

Professor Johnson is a member of the Raleigh Housing Authority.

Not That We Agree...

Still contending that we do not agree to the fullest extent with the ideas and opinions expressed by Socialist Norman Thomas, we must admit that he not only has some appealing proposals, but that he is extremely capable of putting them across.

Naturally he advocated collective control. This seems to always be cropping into prominence as one of the prerequisites of real Socialism.

Not considering the subject, which we must still say we do not agree heartily with, the fact still remains that Norman Thomas is a brilliant speaker and an intelligent gentleman.

Once before we availed ourselves of this opportunity to explain to you a service of the college which should prove of utmost value to every student, that is considering that he desires in some manner to give State College and his associates some publicity.

State College maintains a News Bureau whose sole function—and a large one it is—hinges upon publicizing this institution. This bureau, under the capable directorship of C. A. Upchurch, Jr., is not only a valuable asset to the college but to the student organizations as well.

Now most of you understand what to do with a news item when you get it, and you usually know how to get your organization publicity to the proper place—and if it is of State-wide interest, it should go to the News Bureau.

The main element that the majority of the students fail to consider is the time element. They do not seem to realize that a story should be given out as soon as possible, so that advance publicity may be prepared.

Get your organization behind the News Bureau one hundred per cent. We do not know of any place that you will find a more cooperative and congenial office to work with.

State College last week suffered the loss of one of its most brilliant, prominent and well-liked professors in the tragic death of W. G. Geile, professor of structural engineering.

For the past thirteen years Professor Geile has been connected with the civil engineering department, and during that period has seen that department advance through its greatest development.

Instrumental in installing the local and national of the Associated General Contractors, Professor Geile also fostered many other similar movements which tended to push State College out in the front in the engineering field.

Truly, State College suffered a great loss last week, a loss which will be extremely difficult for us to replace.

Gaining prominence on the campus again this week is Golden Chain with a series of radio programs over radio station WPTF designed to interest high school students in continuing their education after graduation.

In line with this program the deputations made by members of the honor organization each winter and spring to cities throughout the state to speak to high school students begin next week.

State College will, however, receive much favorable publicity from these deputations, since this year the representatives will carry with them the movie "State College Days," which has been brought up to date by the insertion of scenes showing new buildings on the campus.

The opportunity to talk to outstanding college men should prove invaluable to the high school students who are contacted. Help is important at this crucial period in a boy's life when he is undecided whether to quit school and seek a job in hope of some immediate return or continue on to college with the hope of securing a better job after graduation.

Bouquets to Golden Chain for sponsoring this noteworthy project.—B. C. H.

The Technician

NEWS HIGHLIGHTS

by "Spud" Davidson

Mr. Thomas Says...

Monday marked the appearance of Socialist Norman Thomas on the campus, and the opening of the first in a planned series of political addresses to the student body.

And though not all the student body was present he heard Politician Thomas, he gave forth with many of his ideas on present day affairs—political, economic, and otherwise.

Golden Chain on the Air...

The first in a series of four radio broadcasts was presented by Golden Chain last night as a part of their program of interesting high school students in attending institutions of higher learning.

The first year that this scheme has been tried, it appears to be a novel and beneficial idea, and should be of great assistance to high school students in enlightening them about college.

And in line with this, Golden Chain is beginning their visits to high schools all over the State next week, which will continue until the middle of May.

Blue Key had fairly good success with their drive to collect funds for the infantile paralysis drive, reaching a total of around \$115.

Joe Louis the Second? ... Raleigh seems to have an officer on its police force, Smith by name, who apparently takes delight in

beating on anyone who comes in his path...

Last summer this same officer gained for Raleigh nation-wide publicity by clubbing to death a dog on the main street—an affair in which a State College student intervened, only to be arrested two days later by the riot squad.

It appears that this particular policeman takes delight in beating upon whatever comes in his path, cursing any who interfere.

Alpha Sig Campaign...

This week marked the opening of the now-famous and traditional campaign to place some of the less-famous State College students in the royal order of Alpha Sigma Sigma—a fraternity based upon the national campus personalities.

Blue Key had fairly good success with their drive to collect funds for the infantile paralysis drive, reaching a total of around \$115.

Joe Louis the Second? ... Raleigh seems to have an officer on its police force, Smith by name, who apparently takes delight in

Every year about this time the musicians get together and conduct a poll for the selection of an all-America Band.

The men in the following list (marked *) go to make up the all-America band.

LETTERS TO THE EDITOR

In behalf of Blue Key, we are extending our appreciation for the splendid way you have co-operated in making the "fight infantile paralysis" drive a real success.

How would you like to go out in the cold, snowy weather without an overcoat? Lately, several boys' overcoats have been misplaced in the cafeteria.

We would like to take this time to thank you for your co-operation in the Student's Book Exchange. With your help the Exchange has made a good beginning.

I wonder if some of the readers of this honorable manuscript were fortunate enough to hear Brother Norman Thomas speak last Monday in Pullen Hall.

That's the situation. And we State College engineers and farmers, and I say that with a great deal of pride, can't even have a suitable place to assemble under the roof.

THE STUDENT UNION...

For the last four years the American Student Union has filled an important and much-needed place in colleges and high schools throughout the country.

But at its last convention in Madison, Wis., the A.S.U. went aground on the shoals of foreign politics.

In reply to this remarkable favoritism toward the Soviet Union by an organization whose ostensible concern is the American student, the national chairman, executive and college secretaries sent out a statement repudiating the New York resolution and urging one "on keeping out of war framed in American terms."

By demonstrating conclusively that in a showdown, the Communists can swing the entire organization to their "party line," the students at Madison effectively terminated the life of the A.S.U. as a liberal organization.

GLEANINGS

by THE STAFF

The beginning of the new month presents me with another crack at this column, and gives me the opportunity to put down in writing a few of the stray dreams and thoughts which have been making a racket out of my head for the last three weeks.

Our fondest congratulations to Buddy Means and the Student Council for furnishing us with the opportunity of hearing Norman Thomas last Monday afternoon.

While dancing with one of Raleigh's fairest recently, she requested me to fill this column with dirt, the more the better.

Confucius say, the dimmer the porch light the greater the scandal power.

By "ACE" KROCHMAL

We lost last night, but Duke's rough-house boys had the right of their lives on their hands. The "gentlemen" from Durham...

Roy Cromartie was the obnoxious member of Duke's dirty work. There were Duke men, however, bouncing off the floor...

Two men in back of me, evidently not State students, kept muttering, "State can't win, the refs are from Durham..."

We've just about reached the half-way mark in winter sports. The season hasn't been outstanding, but it has not been particularly bad.

The exhibition put on by the swimming team Wednesday in defeating Duke's State champ team really gave the spectators a kick.

"43" Club Now that the frosh athletes have formed their "43" Club, they are going to see to it that the "No Smoking" rule in the gymnasium is observed.

Here and There A number of the freshmen football players at the University of Miami want to come to State and play ball.

Winning Streak Some papers down here have written of Carolina's "phenomenal" winning streak of fourteen games.

Doc Serran The answer to my request for letters has overwhelmed me. A large number have been written approving my campaign to get Doc Serran back here next year as track coach.

Cromartie Leads State Scoring With Eight Points; Holley Stars for Blues

The Duke "Little Blues" defeated the Red Terrors last night in what resembled a football game rather than a basketball clash.

Marred by Roughness The entire first half was a wide-open, rough and tumble affair with Roy Cromartie, State's leading scorer, the object of the attacks.

Here and There A number of the freshmen football players at the University of Miami want to come to State and play ball.

Techlets Swamp Blue Imps, 45-38

Mock and Walker Lead Freshmen to First Big Five Victory of Season

North Carolina State's freshman basketball team thumped Duke University's Blue Imps 45-38 in a Big Five game last night by recording 21 free throws in 38 attempts.

The triumph gave the Baby Terrors a perfect record at home and an even split in Big Five competition.

Dr. Bob Warren's Little Terrors took the lead in the first half, led at the intermission 25-24 and held on throughout the second period although their jitterbug forward, Bill Ball from Charlotte, shot a field goal into the Duke basket nine minutes to go, bringing the count to 34-30.

Summary table with columns: N. C. State Frosh, FG, FT, TP. Rows: Ball, rf; Jim Mills, lf; Gell, lf; Mock, c; Henson, c; Joe Mills, fg; Walker, lg.

X—Ball of State-scored field basket for Duke. Half-time score—State Frosh, 25; Duke Frosh, 24.

Personal fouls—Ball 4, Jim Mills, Mock, Joe Mills 4, Walker, Westmore 4, Coyte 4, McGrane 2, Boehm 3, Stark 2, Hubbell, Janiga, Rothbaum, Kiley 2.

Free throws missed—Ball 3, Jim Mills 3, Mock, Joe Mills 5, Walker, Gell 2, Westmore, Coyte, McGrane 4, Boehm.

THE CAPITAL COCA-COLA CO., Inc. Dated 2-1-1979 Raleigh, N. C.

February View Of Next Fall's Grid Doings

State-Manhattan Rivalry May be Renewed on October 26

The sports spotlight is now occupied by basketball, swimming and boxing, but there is little doubt that football and State's 1940 team are in the minds of every member of the student body.

On October 21st the Wolfpack will help open a brand new football stadium for the College of William and Mary in Portsmouth, Va. This is the first game of a new series with W&M, and further games depend on the initial battle.

Davidson Here Davidson moves to number two spot on State's schedule. Since 1919 this meeting has been a yearly high spot on both teams' schedule, with no interruption.

The Charlotte Football Festival will again be featured on October 26, with an encounter between the Clemson Tigers and the Wolfpack. A runaway 25 to 7 licting was administered by the Banks MacFadden lads (Cotton Bowl champs) to the Newtonmen.

The authorities have been arranging a long series with Manhattan College to start on October 26, and if a suitable replacement can be arranged for that date, the Duquesne game will be wiped off. A whole day of football will be available November 2, when Fur—Continued on page 4.

Rapist Students Will Hold Party

Week-end Party Will be Sponsored by B.S.U. Groups at State, Meredith, Saint Mary's, and Peace

Baptist students at State College will begin a Baptist Student Union week-end party tomorrow, in conjunction with the state-wide B.S.U. officers' meeting. The meeting, which will be held tomorrow and Sunday, is being sponsored jointly by B.S.U. organizations at State, Meredith, Saint Mary's and Peace.

The initial session will begin in Pullen Hall tomorrow night at 7 o'clock, at which time local students and visitors will hold an open forum on "Problems Facing the Christian Student." Leading this open forum will be two of Raleigh's best known religious workers, Dr. Pezzer and Mrs. Carl M. Townsend.

Sunday afternoon a co-operative concert will be presented in the Meredith auditorium at 3 o'clock, featuring vocal groups from State, Shaw University, Meredith and St. Mary's. Among the high lights of the concert will be a solo by Annie E. Bunn of St. Mary's; organ solo by Virginia Council of Meredith; violin solo by Nancy Carroll of Meredith; and Negro spirituals by the Shaw University Choral Society. Many other well known selections will be included on the program.

Student B.S.U. members will lead

vesper services in Peace College auditorium Sunday afternoon at 5 o'clock. Leading the group will be Bob Akers of State College.

The season will end with a meeting at the First Baptist Church Sunday evening at 7:30 o'clock. At that time the B.S.U. members will discuss the theme, "Youth and Christianity."

All of the meetings which will be held during the week-end are open to all students, and the general public has been invited to attend.

February View of Next Fall's Grid Views

(Continued from page 3)
man meets State under lights in Riddick Stadium just a few hours after the Carolina-Tulane tussle in Chapel Hill. Next comes Wake Forest on November 9, with most of last year's team back in uniform. The Deacons are touted as probable conference champs on the basis of the 1939 steam roller they had.

Still to be listed is the opponent for November 16. Duke now occupies the last slot, on November 23, though Thanksgiving Day, five days later, may be booked to round out a 10-game schedule. Wallace Wade's boys may have their bows hopes torn to shreds by the Wolfpack. All in all, the 1940 list is much the same as last year, though Miami and Detroit have been dropped.

Injuries Big Bogy
Injuries to key men will again detract from the possibilities of the Wolfpack. Fred Gardner, 240-pound fullback, has been aching to get back in the game again, but his ever-recurring knee injury puts that hope in the safe can. Dick East, backfield letterman, is another big question mark. East has broken his ankle three times in the last two years and that, coupled with a knee injury, probably keep Dick on the sidelines.

Seventeen lettermen remain to enter the gridiron wars for State again. The abundance of experienced varsity players is due to the group of sophomores who saw plenty of action in Doc Newton's "Corn Bread and Chittlins" crew the year of course, there are up-and-coming prospects rising from the freshman ranks, but Coaches Newton, Hickman and Wood will probably mold the team around a "Pickard, Jack Huckabee, Dick Watta, Earl Stewart and Bob Cathey, and a line of Wade Brown, Alvin Phillips, Frank Owens, Mike Thompson, Ralph Burt, Woody Jones, Curt Ramsey, Bill Windley, John Barr, Bill Cooper, J. D. Jones and Howell Stroup.

That's the February view of the Wolfpack for 1940.

Short Illness Proves Fatal To W. G. Gelle

(Continued from page 1)
ing Code Council, chairman of the Building Code Committee of the North Carolina Society of Engineers, contractor representative of the Associated General Contractors of America, a member of the Masonic Lodge and two fraternities, Phi Delta Theta and Sigma Xi. At the time of his death, Jack Huckabee, president of the North Carolina Section of the American Society of Civil Engineers. Professor Gelle served for two years in the World War, part of the time with the 33rd Engineers Regiment in France.

It was through Professor Gelle's efforts that a state building code was finally adopted in North Carolina. Shortly after coming to Raleigh he conceived the idea for a building code. He secured the cooperation of interested organizations and eventually the code was authorized by the General Assembly.

He was employed extensively as consultant of various engineering projects. His knowledge and experience enabled him to design intricate structures, and his services were of great value to architects, engineers and contractors.

It was through his efforts that the first student chapter of the Associated General Contractors was organized at State College and in the nation. Survivors are his wife; a son, Bobby; a daughter, Mary Lou; a brother, Frank Gelle of Winston-Salem, and a sister, Mrs. Andrew Hudisaskoff of New York City.

Rabbi To Lecture On Jewish History

Addresses in YMCA Auditorium Tuesday Will be Open to General Public

Rabbi Robert F. Jacobs of Congregation Beth H. Tephila, Asheville, will lecture in the YMCA auditorium at State College Tuesday evening, February 6, at 8 o'clock on "Forgotten Moments in Jewish History."

Prof. William Hand Browne, chairman of the Public Lectures Committee, said the lecture will be open to the general public. Rabbi Jacobs was born in Syracuse, N. Y., in 1908. He received his B.A. degree in 1929 from Syracuse University, where he was winner of the Fisher Extracurricular Speaking prize, editor of "The Crystal," literary magazine, and organizer and president of "The University Forum." In 1933 he was ordained rabbi by the Jewish Institute of Religion, receiving the degree of Master of Hebrew Literature and the Leopold Michels prize in Hebrew Proficiency.

From 1934 to 1938 he served as rabbi in Hoboken, N. J., and since 1938 has been spiritual leader of Congregation Beth H. Tephila in Asheville.

Rabbi Jacobs has traveled extensively abroad and lived for a year in Palestine, where he studied at the Hebrew University in Jerusalem. He is a member of the Central Conference of American Rabbis, the Zionist Organization of America, the American Civil Liberties Union, the National Religion and Labor Foundation and "The University Forum." He has taught Old Testament literature in Asheville Normal and Teachers College.

Socialist Discusses Nation's Problems

(Continued from page 1)
dictator if its primary interest is the people and not the State, he said.

Stating that he approved of the T. V. A., Thomas said that the first step toward the "conquest of poverty" is national control of all natural resources, such as oil, power and minerals. He claimed there would be nothing impossible about collectively owned natural resources governed by a board on which both consumers and producers would be represented.

The Socialist leader argued for socialism by compensation. His plan is to pay for the industries and resources which would be taken over and owned collectively. Thomas warned the audience that he did not mean that the government should take over all private land, emphasizing that democracy depends on the private diffusion of consumers goods.

Engineer Urges Equal Taxation of Transports

(Continued from page 1)
tion of the transportation problem must be worked out "in a broad way, and it must be done under the direction of unprejudiced, unbiased and capable authorities."

It is in the public interest, he said, for public utilities to be subject to some public regulation, "but it is not in the public interest, however, to over-regulate them to the point of hampering their efficiency and usefulness." Government ownership cannot possibly help the railroad situation, declared Dr. Wright, adding that "Experience elsewhere does not indicate that they can operate as efficiently under such conditions." Observance of Engineers' Week.

Forester To Talk On February 16

Dr. N. H. Wheeler, U. S. Forest Service, Will Address Third Conservation Conference

Dr. H. N. Wheeler of Washington, D. C., chief lecturer for the U. S. Forest Service, will be the chief speaker for the third annual Conservation Conference which will be held at State College Friday, February 16, under auspices of the college and the State Garden Club.

Details of the program were announced yesterday by Mrs. J. Buren Sidbury of Wilmington, president of the Garden Club of North Carolina. The program will begin at 10:30 a. m. in the College YMCA and conclude at 3:30 p. m.

Dr. Wheeler's talk, beginning at 11 a. m., will be illustrated by many beautiful slides. At 2:15 p. m. a round table discussion of conservation problems will be conducted by F. H. Claridge of the State Department of Conservation and Development. Other representatives of the department and of various colleges have been invited to participate in the discussion.

At 3:30 p. m. the Raleigh Garden Club will entertain at a tea at the home of Col. and Mrs. J. W. Harrelson in honor of State Garden Club officers and guest speakers.

As one aspect of practical conservation, an exhibit of decorative arrangements using scrub pine, with or without additional material, will be staged at the YMCA. Judging will begin at 10:30 a. m., and prizes will be awarded for winning arrangements.

An annual program at State College, began Wednesday night with the first of Dr. Wright's three addresses. Dr. Wright was secured for the series by the Engineers' Council, student group headed by Hal Randolph of Raleigh, through the Public Lectures committee, headed by Prof. William Hand Browne.

Co-operating in arranging the program, which included the transportation symposium Thursday, were Dean Blake R. Van Leer of the School of Engineering and Director Edward W. Ruggles of the College Extension Division.

Progress Is Made On Meeting Room

Construction and Renovation of Conference Room in YMCA Being Rushed

Construction and renovation is rapidly being pushed on the new meeting room being installed in the college YMCA. It was announced this week by E. S. King, general secretary of the "Y," who predicted that the room would be ready for use around the first of March.

Besides many alterations that are being made in the construction, numerous repairs were also necessary. Included in the renovation work are a new floor, new walls, and other minor repairs.

A small room is being built in which various organizations may keep their books, recordings, and other objects that are now spread all over the campus.

Several organizations, including Blue Key, Golden Chain, Alpha Zeta, Interfraternity Council, and Student Council, have agreed to aid financially in the project. Mr. King added that the room would be furnished as much as possible this year, and that the remainder
