Gift Collections Making Progress

Standards to be Ready For Commencement; Mail to Speak at Class Meeting

Charles A. Hunter, president of the Senior Class, announced today that approximately \$350 had been collected for the purpose of purchasing standards for the tower lights, the senior gift.

The copper standards, which are being made in the college machine shop under the direction of Professor F. B. Wheeler, should be ready by commencement. The plate which states that the standards were presented by the Class of 1940 has already been completed.

President Hunter urged that all seniors who have not done so pay their dues as soon as possible by filing them to a member of the Gift Committee.

Orders for graduation invitations will also be taken at the meeting. Graduation expenses are to be seven dollars, including rent of cap and gown, diploma, two leather in-stitutions and four paper invitations.

NYA Students

Each NYA student must fill out a new roster card and file it at the self-help headquarters immediately.

Notice ...

All students enrolled in the School of Engineering with the exception of special and graduate students, are entitled to receive one bid to the Engineers' Brawl.

## NEWS HIGHLIGHTS

by "Spud" Davidson

### Why Not Cooperate? . . .

Next Monday the college will begin the examination of students for tuberculosis in the infirmary, in cooperation with the extension department of the North Carolina Sanatorium. Examinations will be given Monday through Wednesday, and will be free to all students.

These tuberculosis tests are entirely voluntary, but each student should feel that it is his duty to be examined. According to one of the Sanatorium physicians, about one out of every three or four hundred students will be found to have active tuberculosis, often without any definite symptoms, but dangerous to all with whom he associates.

One or two of such cases in a dormitory or fraternity house will do untold harm, and will endanger dozens of others. It is often the case that a student does not know he has tuberculosis.

Every student should feel it his obligation to take this test, just to make sure that he is on the safe side. Always remember the slogan, "an ounce of prevention is worth a pound of cure."

N. C. STATE

### Still Going Strong . . .

Tuesday a throng of students packed Frank Thompson gym to mark up another registration record for State College, showing an increase so far of 137 students over the spring registration of last year.

Certainly this follows similar marks that have been set this year, indicating that State is growing in popularity and that its student body is steadily increasing. For the past four years, that is to the extent of our knowledge, enrollment each year has exceeded that of the previous period, which also illustrates the point that the increase has not been sudden or something new.

Last year numerous persons predicted that registration would decrease heavily this year due to increased tuition costs, or due to the fact that the requirements were becoming more strict. However, it is apparent that tuition and requirements were no barrier, as the figures show for themselves.

The only pitiful part is that the college is operating at present with one of its largest student bodies in history. It is giving education to its greatest number, working an inadequate plant overtime. And yet, in spite of all this, we have not received a single increase of appropriations. And, we might add, these appropriations fall far below what is needed for the adequate and sufficient operation of an education plant such as we have at State College.

N. C. STATE

### Cooperative Plan Is Tops . . .

The School of Engineering of State College added another rung in its ladder of fame this week when it officially announced the inauguration of a plan of Cooperative Engineering Education, making possible education for students who otherwise would be unable to finish college.

The cooperative system is not something new in the educational field, for it has survived thirty-three years of operation. Today it has the approval of the majority of outstanding educators, who realize that it is another step forward in offering training to the youth of America. The significance of the plan is seen in a short paragraph found in the bulletin issued by the college on the plan, which read: "The cooperative plan of education has apparently come to stay. It has passed through the experimental stage, survived the depression and is now firmly rooted in our educational system."

But students alone are not the only ones who would be benefited by this plan. Cooperating industries themselves would find an advantage in that the plan produces better trained employees, and those who would be more dependable and capable of advancement.

Society would find benefit in that it makes a college education possible for thousands of students who otherwise would be kept out of institutions of higher learning. At the same time society will receive men who are not only well-trained, but who have the ambitions and desires to seek something better.

Naturally the school does not guarantee work nor stipulate any certain amount of compensation for students engaged in the plan, but it will use every effort to place students to their best educational and financial advantage.

Several firms have agreed to work with the college in promoting the cooperative plan, and it is certain that student applications will not be lacking.

From every standpoint we agree that this cooperative plan of engineering education marks a real step of progress for this institution, and furnishes the beginning of something for which State College will in later years be proud.

We offer our heartiest congratulations to Dean Van Leer and Professor Frank Groseclose on their success in the promotion and inauguration of this system.

### LETTERS TO THE EDITOR

To the Editor:  
As one of "Mr. Charley's" old boys, I want to say a word about the feeling I know the hundreds of boys he coached at State in the last 17 years must have at the thought he is no longer baseball coach. There never was a better coach, one that knew more baseball, or was loved more by his boys. For 35 or more years Chick Doak was an outstanding athlete and coach and his record will stand for all time as one of the best. He deserved relief from a hard and often thankless job at State, and in his present job as Associate Professor of Physical Education, his hundreds of "boys" and friends wish him every success. We know him so well that we know his successor, Doc Newton, will have no more helpful and interested supporter than Mr. Charley.

OPEN FORUM

(Signed) WILLIE DUKE.

To the Editor:  
The Raleigh police seem to have our interest in mind by trying to prevent boys from bumping in the streets. If they really want to help, why not eliminate the cause of this bumping in the street? I believe most boys will agree with me when I say that students bump

EYES CLEAR MONEY CAN BUY

### At It Again . . .

Information is out this week to the effect that the current issue of The Watagan, which will probably smell up the campus in the next few days, will be a take-off on The Technician.

We really don't mind in the least. It will be a pleasure to have our many weaknesses pointed out by such a literary masterpiece as The Watagan. Certainly we will not be able to retaliate and point out to them ways of improving their publication—that would be doing the impossible. We could advise that their best out would be by way of the waste basket.

Seems that The Watagan should declare a personal "Give-Up Week" and if they need support in this project we shall be exceedingly glad to cooperate.

### Swing and Sway . . .

Seems that this term will be crowded with all sorts of social activities, including a dance practically every week-end. Functions begin officially Monday night with the annual Pika ball, followed by the Engineers' Brail on Saturday night. And then the routine will begin.

Add to that the Engineers' Fair, the "Style Show," the "Barnwarming," and dozens of other annual or impromptu affairs, and you can readily see that if we get a lot of school work done this term it will mean cramming in the homework between meals.

### What's Up Now? . . .

A couple of weeks ago we got a very lengthy telegram from Hollywood, asking why State College had not sent in their entry in the "Campus Queen" contest. Following that was almost a carload of material on the nation-wide contest, which was intended to select the most beautiful co-ed in the nation. We have just decided that we must have us mixed up with some other institution, for, after all, co-eds don't flourish here in great number.

In the street because of the cars parked along the curb at those particular places where the bum can one thumb a ride as long as he is hidden behind these parked cars?

Why couldn't the police create a non-parking zone here at State College across from the college court and one down town across from the public library? This would enable thumbers to attract the attention of passing motorists without going into the street.

Arresting students for thumming will not prevent a recurrence, but will only antagonize them. Cooperation on both sides will help solve a situation such as this.

### Here They Come . . .

If you are a lover of cheap cigars and worthy promises, the campus will be your Paradise for the next three weeks while hopeful candidates prime students in preparation for the campus-wide elections. Dates for the elections were announced yesterday as April 10 and 17, with the primary on the 10th and the general election on the 17th. An official list of candidates will be released next week, and that should start the pot to boiling in earnest.

A picture which will be of historical significance for years to come was taken by an alert photographer during the recent dedication of the new Textile Building. The photographer snapped Justice Heriot Clarkson, Governor Hoke, and Dean Thomas Nelson holding a confab—and these three men are titled the pioneers of the textile industry in this state.

### History Is Made . . .

Peter Pop can proudly boast that he has almost run the European war right off the front page of newspapers with his baby-tending business. Pop has literally swamped the papers with publicity since he began his enterprise, and has received wide spreads in prominent papers all over the nation. Maybe you don't think we were not surprised to see three pictures of him in a recent Sunday News. More power to you, Pop.

### This Boy Pop . . .

Still remaining as one of the unsolved problems is the question that has been roaming around the campus for several months . . . and that question is, Shall the Junior-Senior be formal or informal?

Not that it really makes a lot of difference right now, but seems like they would hold a meeting, appoint a committee, or do something to answer this question.

### How About an Answer? . . .

Still remaining as one of the unsolved problems is the question that has been roaming around the campus for several months . . . and that question is, Shall the Junior-Senior be formal or informal?

Not that it really makes a lot of difference right now, but seems like they would hold a meeting, appoint a committee, or do something to answer this question.

### Proposed Bills For Student Assembly

The following bills have been presented up to date for consideration in the Student Assembly at its next meeting:

Bill No. 3

A. To foster an organized fencing team to represent North Carolina State College.

B. This team to represent North Carolina State College in inter-collegiate fencing competition.

Bill No. 4

We students in the dormitory rooms which do not have screens on the windows feel that there is a need for such. Since some of the dormitory rooms do have screens, we feel that those without them should be equipped with screens.

That all rooms in the college dormitories not equipped with screens at present be equipped with screens in the near future.

### Nine To Play Wake Forest Here Monday

(Continued from page 3)

senior from Elizabeth City, N. C., seems to have the best batting average and Jim Carney, sophomore from Bethel, N. C., is leading candidate at second base.

Barry Griffith, Richmond, Va., junior, and Bill Morrison, also competing for by Don Hamilton, senior from Charlotte, N. C.; Earl Stewart, sophomore from Roxboro, N. C.; and John McAulay, sophomore from Mt. Carmel, N. C.

The outfield seems to be pretty well set, with big Wade Brown of Rockwell, N. C.; Len Constant of Cratford, Mass.; and Hollowell Nixon, sophomore from Hertford, N. C.; Derward Harper, Garner, N. C.; Ray Smith, Natley, N. J.; Curtis Ramey, North Fork, W. Va.; and Norm Wiggin, sophomore from Mansa, N. C., are the right-handers on the mound staff. Peanut Doak, Raleigh, sophomore, son of former Coach Doak, and Sammy Kaufman, Miami Beach, Fla., senior, are the southpaws.

"Play safe for a nickel," says Reddy Kilowatt, Your Electrical Servant. "Get there and back without taking a chance on your thumb. You'll save time, your energy, and your patience, too!"

IT'S MORE THAN WORTH THE NICKEL

G. F. & L. CO.

### Juniors . . .

There will be an important meeting of the Junior Class, Thursday, March 23, in Pullen Hall, at 12 noon.

Samples from the four companies bidding for the class ring contract will be displayed, and the ring committee will report on its investigations of the various companies.

Other important subjects to be discussed include the formality of the junior-senior, the possibility of organizing an officers' club in military, and the election of next year's senior members of the Student Government.

Dwight Turner, who is securing the band for the junior-senior on May 4, is handicapped by those who have not yet paid class dues. In order that the class may secure the best band it can afford, it will be necessary to pay all unpaid dues at this meeting.—Forest Paschal, President.

### Announcements . . .

There will be a very important meeting of Blue Key on Tuesday at 1:30 o'clock in the College YMCA. All members are urged to attend.—Frank Sabol, President.

There will be meetings of the editorial and business staffs of "The Technician" on Tuesday night at 6:30 in the Publications Building. All staff members urged to attend.

The following is the schedule for the Glee Club for next week: Monday, 6:30, rehearsal; Tuesday, 6:30, picture taken, wear tuxedo; Wednesday, 6:30, rehearsal; Thursday, 1:30, concert at Carolina Hotel.

All members of the orchestra are asked to report at Pullen Hall Tuesday at 7:00 p.m. sharp, dressed in tuxedo, for a picture to be taken prior to rehearsal, which will disband in time for Eisenberg concert.

A concert band rehearsal will be held on Thursday at 6:45.

Young Democrats will meet Wednesday night at 7:00 o'clock in the college YMCA. The meeting will be important and all students interested are urged to attend.

There will be a meeting of the Flying Club on Tuesday at 6:45 in 102 Page Hall.

### Last Call . . .

If there are last-minute snapshots which students would like to get into the current Aggro-ack, they must have them in the Aggro-ack office in the Publications Building by the middle of next week at the latest.—Jones Pharr, Editor.

# GLEANINGS

by THE STAFF

With my feet comfortably propped on this battle-scarred desk, my hands nestling lovingly on the keys of a venerable old typewriter, the twang of two-fors in the air . . . it's swell to be back at work after that two-week layoff . . . digging up choice morsels of scandal for all hungry gossip mongers and finding it comparatively easy with spring on my side.

Rumors about the campus have it that the forthcoming issue of that disreputable campus humor rag, The Watagan, will be a take-off on The Technician and its staff members . . . it might not be amiss to mention in this connection that with the advent of spring a number of the local citizens are on the lookout for fertilizer to help their daisies grow . . . it's a low grade, but even the Watagan can find a use there.

The old saying goes, "A dog is man's best friend." . . . that little pooch in the back yard of the Delta Sig house is both Bill Sarandria's best and only friend judging from the suggestions of his fraternity brothers that he "barbecue Salomie" and treat them all to "a dog-burger" . . . Salomie, though, was a present from Kitty, and, according to Bill, it will stay in one piece for a while.

There's nothing like a few cigars to keep relations between the faculty and the students friendly about exam time . . . on the last day of class Professor Fournaker's junior E. E.'s were scheduled for a quiz . . . on the same afternoon State had scheduled a practice football game . . . when Professor Fournaker walked into class, thirteen cigars and a big red apple were lined up on his desk . . . all were nickel cigars except "Billy Moore's" contribution . . . two two-fors . . . "Quantity not quality" theorized Billy.

With memories of Mid-winters on . . . ask Buckingham about Dover's little black bag . . . Leon Williams and the smooth girl he imported from Converse . . . Aldine Thomason telling a girl he was irresistible, and the answer he got.

Incidentally, girls, here's a warning . . . if a tall, dark-haired heart-breaker introduces himself as Tom Brown, don't believe it . . . his real name is Thomas F. Jackson, and he knows Louise . . . Angus Ray is having heart trouble down at St. Mary's . . . along with Thurston McNeely.

Surprise of the week . . . Frankie Sabol only visited his co-Alma Mater, Meredith, once during the holidays . . . it is in the wind that instead of a "Sadie Hawkins" day the Meredith lassies are planning a "Frankie Sabol" day . . . good luck, girls.

Registration day with its bustle and bustle . . . genial Joe Michael collecting dues for the newly-formed State College chapter of the Young Democrats Club . . . Bob White registering for a course he had already taken and made an "A" on . . . Sid Ingram signing up for a marriage course, with blood in his eyes, and St. Mary's in his heart.

Love is a strange and powerful thing . . . Don Edwards wants to transfer to Citadel . . . that lovely girl he had a blind date with for Mid-winters who goes to Winthrop College, close to the Citadel . . . ask Ray Gustafson about the girl who talked him into taking her to Bethel over the holidays.

Important notice . . . "Glamor boy" Buddy Means has asked us to state that he is unattached, and all girls wishing to contact him may do so at the Kappa Sig house . . . Ted Johnson is a handy man with those curling irons, so the story goes . . . Then there's Avery Williams' nightly trips to a trailer down in Pullen Park . . . going traveling, Avery?

Speaking of power houses, how about this? . . . W. S. McLaughlin had a girl visitor during the holidays all the way from Boston . . . Wilton Smith worked all his girl's physics problems last term . . . such is love.—BRUCE HALSTED.

Comments

As yet, our Athletic Council has taken no action in appointing a track coach and head trainer for next year.

It has been clearly shown that the students' choice for these positions is Doc Sermon, a man well beloved by the students, and one who has shown the ability in both these positions.

Any attempt to saddle one of the men already on the coaching staff with the job of track coach would be foolhardy, as not one has any experience as a track coach.

Here and There
The tennis team is going to take a trip South going as far as Atlanta, to meet Georgia Tech.

Boxing
The effect of Duke University's act of abolishing intercollegiate boxing will probably have widespread effects.

5-4 Win Over Richmond Opens Tennis Season

Doubles Win By Sevier and Baker Clinches Match

State Scores First Win Over Richmond in Seven Years

For the first time in seven years a State College tennis team gained a victory over a Richmond University tennis team, when the Green-coached outfit gained a 5-4 decision over the visiting Spiders group yesterday afternoon on State's courts.

With the score tied at 4-4, a doubles team composed of "Red" Sevier and Ruggles Baker whipped Richmond's doubles team of Shackelford and Wright, 4-5, 6-4, 6-4, to give State the matches.

Sevier and Baker started slowly, puzzled by Wright's tricky service, but after they caught on to they came back strong to take the next two sets. This is the first year that Sevier and Baker have played together, but they were, nevertheless, a smooth working pair.

Lummis Wins
State's number 2, 3 and 5 men earned wins in the singles pairings. Bill Lummis, a junior and a monogram man from last year, disposed of his opponent, Captain Abernathy, in straight sets, 6-2, 7-5.

Walt Cline, number 2, found the going tough against Richmond's John Wright, but triumphed 6-2, 6-3, 9-7. State's number 5 man, P. N. Sales, had little trouble in disposing of his foe, 6-1, 2-6, 6-0. His opponent was Jimmy Donahue.

The tennis team's next home matches will be played here Saturday at 2 o'clock, against Michigan State.

Summary
Singles: Snyder (R) defeated Sevier, 6-2, 6-3; Lummis (S) defeated Captain Abernathy, 6-2, 7-5; Cline (S) defeated Wright, 6-2, 8-6, 9-7; Shackelford (R) defeated Boger, 6-3, 6-3; Sales (S) defeated Donahue, 6-1, 2-6, 6-0; and Baker (S) defeated Jones, 9-7, 6-1.

Doubles: Snyder and Abernathy (R) defeated Lummis and Cline, 8-6, 8-6; Owens and Pruitt (S) defeated Gordon and Phillips, 6-3, 6-2; and Sevier and Baker (S) defeated Shackelford and Phillips.

Baseball
That Easter Monday game we've got here against Wake Forest is going to be a humdinger. It is a traditional event. Old foes will meet once more. The Deacs have John Polanski of gridiron fame. . . and State has Curt Ramsey, Wade Brown and Pat Fehey. Ramsey is a pitcher, up from last year's frosh.

Duke Athletic Council Abolishes Boxing Team

By unanimous action of the Athletic Council, Duke University abolished boxing from the list of intercollegiate sports at the Durham school.

Lacrosse, which has had an unofficial status at Duke, will take the place of the abolished boxing team in the future.

The Athletic Council gave no reason for their action, but the vote was unanimous.

Another sport which is making its bow in the Southern Conference is rowing, with Virginia teams leading the way. Richmond University's crew, which has not yet been recognized, is heading South to meet Rollins College and American International College.

Six Home Games For Frosh Nine

Techlets to Meet Tar Babies April 6 in First Home Event

A twelve-game schedule, covering six sets of home and home games, has been carded for the 1940 Freshman Baseball Team. Campbell College is listed first on April 3 at Campbell, and three days later on April 6 State Frosh tackle their first home opponent in the Freshmen of U. N. C.

Handicapped by spring vacation which caused the postponement of Freshman practice sessions, Coach Nig Waller has only had three days to bring his crew into shape. From 85 men who answered the practice call, 30 will probably be carried through the season, and they will be divided into 6 pitchers, 4 catchers, 11 infielders and 9 outfielders.

Present training routine calls for daily practice sessions starting at 3 p. m. Only a few uniforms have been issued to outstanding possibilities, and as men are chosen for the squad they will be given playing clothes.

Further hampering the Frosh baseballers is the state of their practice diamond. With the best diamond on Freshman Field being used by the varsity squad, the Freshmen use the lower end of the field. No infield workouts are possible and practice games will have to wait until the varsity is ready for interquad workouts.

Thirty-Four Men Get Monograms

North Carolina Boys Top List With Twenty Men; New Jersey Next With Four
Thirty-four students from 27 towns and cities in six states and one foreign country were approved for monogram awards in winter sports at State College, according to a list made public by Athletic Council chairman, Professor Fisher.

Twenty of the awards are for boys from North Carolina. Next in line is New Jersey, with four monograms, while New York, Pennsylvania, Maryland, Connecticut and the Republic of Mexico have one each.

Swimming: J. H. Bower, Don Cox, Ralph Donnell, Stan Goldman, Walter Haese, Sid Ingram, Jr., A. W. Katterman, (C) Tom Rowland, Art Rooney, (C) R. N. White, J. N. Barkdolly Mgr. C. C. Davis, Jr., and J. T. Madero.

Boxing: (C) Ed Young, Paul D. Abrams, Herbert Robertson, Chap Hampton, and Jeff T. Brown.

Wrestling: Charles Hunter, Bill Murdock, Edwin (Abie) Johnson, George Troxler, Luther Canup, George Brandt, (C) Ted C. Johnson, Robert Stuckey, Mgr., and Sprague Schworm.

Basketball: Monte Crawford, Roy Cromartie, Gilbert Croll, Mgr. (C) Rollins Sevier, George Strayhorn, Ray Smith, and Earl Auman.

VALUABLE At a recent meeting of the football team Mickey Sullivan, senior end, was named as the "Most Valuable Player" on the 1939 Wolfpack. Sullivan, an industrial arts student who hails from Staten Island, N. Y., was on the varsity three years.

GET WIN Despite the absence of Captain Les Boney, pictured on the left, who is out temporarily from the results of a broken wrist suffered this winter, State's tennis team whipped an outstanding Richmond team here yesterday. In the center is Professor Green, the man who coaches the netters. On the right is Ruggles Baker, who teamed with "Red" Sevier to win the doubles match that clinched the match for State.

MURALMUSINGS

By WALTER WILLIAMS
Well, folks, here I am back this term with last term's news, but after all, old news is better than none at all.

- 1st Team Forward: Doak, R., Pika, K. Leer, Delta Sig
2nd Team Forward: Joellin, Sig. Nu; Frazier, Kappa Sig
Center: Harris, Pika
Guard: C. Santore, Delta Sig; Gibbons, Delta Sig
Guard: Furr, Pika
Liberal Arts: Gerber, AKPI
1st Team Forward: Sanders, 1st South; Lacy, base. South.
Forward: Isehour, 1911
Center: Stroup, 1st C. Fleetwood, 1911
Guard: Thompson, 1st C. Avery, 1911
Guard: Keiger, 2nd South; Kaufman, 1st C; Parthou, 2nd S.

At the end of handball we find the AKPIs and 2nd A the big winners.

SCHOLAR is State's Ralph Burt, who has completed 46 hours of work thus far, for an average of 23 hours a term. This is truly remarkable. In view of the fact that Burt played football in the fall term, and was out for spring practice the next term.

Nine To Play Wake Forest Here Monday

Traditional Easter Monday Tilt Opens Baseball Season

Williams (Doc) Newton's first State baseball team is beginning to take form, as the all-important Southern Conference, Big Five and Easter Monday classic here with Wake Forest near. The game will begin at 3 p. m.

Coach Newton inherited the coaching berth Chick Doak handed so well for 15 years, and his has been the problem of rebuilding the State team from mediocre material.

At this writing it appears that Pat Fenley, the hard-hitting junior catcher from Easton, Pa., who is a co-captain-elect of the Wolfpack football team, and Chick Doak, Jr., sophomore from Raleigh, will share the catching assignment.

Captain Cader Harris, elongated—Continued on page 3.

### Waring Launches New State Song

Glee Club Follows With Presentation Over Station WPTF; Composition May be Adopted

Fred Waring and his Pennsylvanians presented a brand-new fight song to State College Friday night, March 8, in their regular broadcast over a national radio network.

Waring and his crew composed the song after receiving a petition signed by over two thousand State College students. Sponsoring this petition was the State College chapter of the Mu Beta Psi, national honorary music fraternity. Numerous other campus organizations also wrote to Waring requesting the fight song.

Following the Waring program, Station WPTF presented a special fifteen-minute program in which the State College quartet sang several State College songs and the fight song that Waring had just broadcast was played by means of electrical transcription, WPTF having been given permission by Waring and NBC to record and replay the song.

If the new song catches on with State College students, it will be adopted officially by the campus musical organizations, including the Red Coat Band, directed by Major C. D. Katschinski.

### Pop Needs Secretary

To Answer Fan Mail

(Continued from page 1)

received went to Canada and California, and Maine and Mexico, among others.

Aroused by the interest, Station WRAL interviewed Pop on two programs, one of which went over the Mutual Broadcasting System.

Two weeks ago fifteen more pictures were taken and released.

The New York Sunday News, the Philadelphia Inquirer, and Carl Goerch's "The State" magazine gave nice spreads. Before this the mail had been trickling in, primarily from local sources. Meredith and St. Mary's colleges brought forth several epistles.

The past few days it has been difficult for Pop to pull the mail from his post box, and it has become such that even the postman is complaining. But look at some excerpts from several letters.

Brooklyn, N. Y.

"Why not come back to Brook-

lyn and open a branch here? I'm sure I know of several people who wouldn't mind being watched by you. . . ."

West Newark, N. J.

"Why, I'm asking you should a handsome egg like you waste his time on that, when here I am a cute little baby of eighteen, just waiting and craving some atten-

tion. You know the kind of attention I mean—the kind you get on a warm June night with the moon as big as you want it and the stars playing tag all over the sky. . . ."

Gastonia, N. C.

"I like all sports, dancing once in a while, and parties if there isn't too much drinking and petting. A small bit of each is okay. . . . Would you enjoy taking care of me for an hour or two? You wouldn't have to put me to bed if

you didn't want to. I would be very good and go to bed by myself."

And others are chain letters and Easter cards and many invitations to correspond or better, from Long-

bottom, Ohio; El Centro, Calif.; Hartford, Conn.; Ontario, Canada; Lubbock, Texas.

Here's the formula now in full.

Get a good novel idea. Have a name that is odd and somehow ties in with the idea. And, above all, get capable Abe Upchurch to handle your campaign. As a matter of fact you don't need the first two at all.

A Norwegian shipping line has named one of its vessels "Tulane"
