## Voting Heaviest In History As 1,454 Trek To Polls

### EXAMINING FUTURE DRESSES

Latest fashions using fabrics made of cotton and rayon will be paraded in Pullen Hall next Thursday when 143 girls, representing nine North Carolina colleges, model clothing made by themselves with fabrics designed and woven by students in the Textile School.

Two of the mannikins, Miss Miriam McGregor of Hamlet and Miss Mary Garvey of Winston-Salem, are shown examining the "opening" machine which starts raw cotton on its transformation into beautiful fabrics. The girls are home economics students at Meredith College.

Additional pictures on page 3.

### Textile Exposition Will Open Thursday

#### Plans Complete for Thirteenth Style Show; North Carolina College Girls to Model

Plans for the 13th Style Show and Exposition have been completed by the students of the Textile School for their annual event which will be held in Pullen Auditorium Thursday, April 25.

Visitors to the exposition this year will have the privilege of seeing the most recent developments in the textile industry in operation. All of the departments in the school have prepared special exhibits on the latest developments that have been made that pertain to their individual department.

In the Yarn Manufacturing Department there will be some of the latest types of spun rayon going through the several steps of processing that are needed to get it ready for weaving. This type of rayon is also shown in the steps of blending with wool.

In the knitting department there is an interesting exhibit on the latest creation for women's hosiery, nylon. This new fiber has threatened to revolutionize the production of hosiery and it has met with wide acclaim. Many experiments have been run to determine its qualifications and the students of knitting will have the results of their work on display.

The Chemistry and Dyeing Department will offer a series of interesting types and ways of dyeing cotton goods and fibers. Individual demonstrations will be given by the students in this department showing the practical application of the latest dyes and the latest methods of dyeing.

Of special interest to visitors to this department will be the microscope room. Here they may see, in enlarged views, the fibers that have been treated in mercerizing and the several other processes that will be demonstrated.

The weaving room in the new building is equipped with every modern device that assures good production. The foreman of the Weaving Department has assigned two operators to run every loom and every type of weaving in the

### Hoey Will Give Main Address At Graduation

#### North Carolina Governor Will Speak to Largest Senior Class in History of College

Governor Clyde R. Hoey will deliver the commencement address on Monday, June 3, to the largest graduating class in the history of the college, containing 60 more students than last year's. The announcement was made this week by Dean of Administration J. W. Harrelson.

Registrar W. L. Mayer reported that candidates for degrees would number 380, a remarkable increase over last year's record high total of 350.

The college's third term will end Friday, May 31, and the commencement program will begin the following Sunday. Alumni groups will rally Monday preceding the finals exercises.

Following custom, the graduation program will be held at twilight in Riddick Stadium, unless barred by inclement weather, which will necessitate use of Pullen Hall.

The considerable increase in the number of candidates is explained by the steadily growing number of freshmen in each year's class. Enrollments have consistently set new high records with each term. Candidates for degrees, as reported by Registrar Mayer, are divided as follows according to schools: Agriculture and Forestry, 88; Engineering, 151; Teacher Training, 44; Textile, 65; and general, 32.

A friend of State College since he was a 21-year-old legislator at the turn of the century, Governor Hoey has played a large part in the institution's growth and progress. He was instrumental in establishing the Textile School and educated two sons at State.

Announcement was also made that summer school will start on Tuesday, June 11, following registration the previous day.

### Hughes Selected Theta Tau Head

#### Honorary Engineering Fraternity Elects Officers for Coming Year

Donald C. Hughes was elected last Monday night to head the State College chapter of Theta Tau, professional engineering fraternity, for the coming year.

Selected for vice regency was Richard Tatum. Other officers chosen by the organization are J. B. Hathaway, scribe; J. Ward Andrews, treasurer; W. E. Cline, marshal; H. W. Fox, inner guard, and E. R. Proctor, outer guard.

Theta Tau is a national honorary professional engineering fraternity, organized for the purpose of promoting a spirit of friendliness and helpfulness among its members. Membership in Theta Tau is not restricted to any one department, but is open to all fields of engineering.

New members recently initiated into Theta Tau include W. E. Cline, John Hood, Julian Bunn, H. B. Leffer, Bruce C. Halsted, E. R. Proctor, E. B. Ambers, W. H. Rivers and H. W. Fox.

The three days preceding the conference at Mississippi State were devoted to the inspection of Norris, Chickamauga, Wilson and Wheeler dams and the Sheffield steam plant. An interesting addition to the trip was the inspection of a porcelain manufacturing concern which specialized in electrical insulators and other electrical equipment.

Much praise should go to Prof. R. S. Fournaker for leading the senior group on this successful trip.

### ASME President To Visit Campus

Warren H. McBryde of San Francisco, president of the American Society of Mechanical Engineers, will visit the student branch on the campus and the Raleigh section of the society April 23. C. N. Sanford, secretary-treasurer of the Raleigh section, announced this week.

He will meet with the student branch at 4:30 o'clock Tuesday afternoon, and will address a dinner meeting of the Raleigh section that night in the Hotel Carolina.

During the morning Mr. McBryde will visit the student branch at Duke University.

### Will Head Student Council

Paul Lehman, left, was chosen president of the student body Wednesday in the general campus elections, defeating W. J. Reams, right, who will automatically become vice president of the student body.

—Courtesy The News and Observer.

Howard B. Bell of Winston-Salem, a junior at N. C. State College, was elected Saturday as president of the Southern conference of student chapters in the American Institute of Chemical Engineers.

The 212 young engineers in attendance, closing their annual meeting at State College, selected the University of Alabama at Tuscaloosa for their convention next spring.

Officers elected to serve with Bell were A. J. Hawkins of Birmingham, Ala., Alabama Polytechnic Institute, vice president; Walter Watkins of Athens, Tenn., University of Tennessee, treasurer; and J. T. Castles of Blacksburg, Va., Virginia Polytechnic Institute, secretary.

The formal program for the two-day conference ended with the delegates, representing colleges and universities throughout the South, giving a luncheon at Chapel Hill, and a ball in Hotel Carolina Saturday night.

Frank O. Truelove of Draper is president of the State College chapter of the Carolina Pines Clubhouse. Troy D. Williams, Jr., of Winston-Salem, was chairman of the convention committee.

In the closest balloting of the election, Ed "Ty" Coon of Waterbury, Conn., nosed out Tony Di-Yoso of White Plains, N. Y., for the Alpha Athletic Trophy by a scant 17 votes. Coon and Di-Yoso were placed on the final ballot as a result of the primary voting last Wednesday.

Louder proclaimed campaign in the list of candidates was for the

### Delegates Preparing For NCCPA Conclave

#### Over 200 Expected to Attend Charlotte Press Convention on Thursday; Davidson and Queens Are Joint Hosts and Hostesses

The annual spring convention of the North Carolina Collegiate Press Association will be held in Charlotte April 27-28 and 29. It was announced here yesterday by Steve Salter of Raleigh, executive secretary.

More than 200 delegates representing student publications of 17 leading colleges and universities throughout North Carolina are expected to attend, Salter added.

Wake Forest, Davidson, Queens-Chloro College will be joint host and hostesses for the convention.

Delegates will register late Thursday afternoon at the Hotel Charlotte, convention headquarters, and will be guests of the local chamber of commerce at a theatre party that night. The conclave will formally get underway Friday morning with a general business meeting, followed by a luncheon at Queens-Chloro College. Group discussion meetings, led by men prominent in the field of journalism, will be held Friday afternoon.

A banquet will be given Friday night at which time gold keys will be awarded to the editors and business managers of the publications judged to be the best in their class. The banquet will be followed by an informal dance.

Following the election of officers and committee reports Saturday morning, the convention will adjourn.

Colleges and universities to be represented are N. C. State, Duke, St. Mary's, Meredith, Peace, Carolina, Greensboro College, the Women's College, Lenoir-Rhyne, Wake Forest, Davidson, Queens-Chloro, Flora Macdonald, East Carolina Teachers College, Salem, High Point, and Elon.

Representing State at the convention will be E. P. Davidson, Jim Mitchiner, Bruce Halsted, Henry Rowe and Aldine Thomason of the Technician; Jones Pharr, Lloyd Wilks, Fabe Clemens, John Bocher, P. D. Kaley

### Alumnus-Veteran Speaks In YMCA

#### Lieutenant Johnson, Painter of Picture, "Zero," Tells Story of Life

Lieut. Rangwald O. Johnson, Wilmington artist and Commander of American Legion Post 194, spoke last night in the College YMCA. Lieut. Johnson is a State graduate, class of 1913.

Introduced by Dan Paul, acting secretary of the Alumni Association, Johnson also told something about his painting "Zero," which he recently presented to the college. A World War veteran, Johnson has painted many scenes depicting life of soldiers on the front.

Prior to Lieut. Johnson's talk R. L. McMillan, Raleigh attorney and Legionnaire, spoke on the current European war situation. During his talk McMillan advocated the neutrality for the United States.

### Freshman's "Iroquois Clip" Coiffure Reaching Fame As Tonsorial Creation

By ROBERT POMERANZ

at North Carolina State College, displays the latest campus haircut. Called the "Iroquois Clip," it is designed to keep water from running in the eyes after a swim. Yeah, Matty, she'll wait for a date."

Several other papers had captions in the same vein, but none hit the nail on the head as well. Matty reports that he has torn up his date book until after his hair grows back again. Not only won't the girls date him, they won't even talk to him.

The payoff on the whole incident is a letter Matty got the other day from a woman in Bar Harbor, Maine. You may have heard about the endearing epistles which have been flooding Pop, well now, read on:

"Miss Matty Hannon  
"North Carolina State College  
"Raleigh, N. C.  
"Miss Hannon:  
"Your haircut, the 'Iroquois Clip,' is the most indecent looking extreme the country has ever seen in print in our good old U. S. A. If you women who have the privilege

### Paul Lehman Wins; Rowe, Thomason Head Technician

#### Bell Is Selected Regional President At AICHE Conclave

State Student Elected to Lead District Next Year; Convention to be Held in Alabama

Howard B. Bell of Winston-Salem, a junior at N. C. State College, was elected Saturday as president of the Southern conference of student chapters in the American Institute of Chemical Engineers.

The 212 young engineers in attendance, closing their annual meeting at State College, selected the University of Alabama at Tuscaloosa for their convention next spring.

Officers elected to serve with Bell were A. J. Hawkins of Birmingham, Ala., Alabama Polytechnic Institute, vice president; Walter Watkins of Athens, Tenn., University of Tennessee, treasurer; and J. T. Castles of Blacksburg, Va., Virginia Polytechnic Institute, secretary.

The formal program for the two-day conference ended with the delegates, representing colleges and universities throughout the South, giving a luncheon at Chapel Hill, and a ball in Hotel Carolina Saturday night.

Frank O. Truelove of Draper is president of the State College chapter of the Carolina Pines Clubhouse. Troy D. Williams, Jr., of Winston-Salem, was chairman of the convention committee.

### Phi Kappa Phi Honors Initiates

#### Dean of Students E. L. Cloyd Inducted as New President of Honorary Society

New officers of the local chapter of Phi Kappa Phi, national honor society, were inducted at a dinner in the Carolina Pines Clubhouse last Tuesday night. The dinner was held in honor of the members elected to the society this year.

With the most rigid requirements of any society on the campus, Phi Kappa Phi takes only seniors and graduates with top scholastic rankings.

Dean of Students E. L. Cloyd succeeded Dr. L. F. Williams as president of the chapter. Other officers are Prof. D. Boyd Thomas, secretary; Prof. A. C. Hayes, treasurer; J. M. Smith, Jr., new member; and Prof. F. W. Cook, historian. The vice president of the chapter will be the top-ranking student in next year's senior class.

New members from the senior class are James McGinnis, Lincoln; C. L. James, Oakboro; T. M. Kolarik, Pittsburgh; P. C. F. Eberd, Greensboro; Sam Mann, Asheville; Mike W. Nakoneczny, Burgaw; Robert L. Cain, Fayetteville; Robert F. Lamb, Elizabeth City; James N. Smith, Jr., New Bern; John M. Manney, Lincoln; F. J. Zerilli, Brooklyn; B. A. Heidebach, Jr., Danville, Va.; H. M. Taylor, Jr., High Point; Arthur R. Williams, Jr., Greensboro; Ben S. Pace, Raleigh; Kenneth Murchison, Mocksville; Charles A. Hunter, Charlotte; Robert N. White, Jr., Winston-Salem; O. J. Howell, Greensboro; and Richard P. McCabe, Raleigh.

### ASCE Delegates Attend Meeting

Thirteen delegates representing the local student chapter of the American Society of Civil Engineers will be at The Citadel in Charleston, S. C., today and tomorrow for a council meeting of student chapters in the Carolinas.

J. M. Smith of Raleigh will present a paper in competition with spokesmen for other chapters. His topic will be "Elimination of Street Intersection Hazards." Smith is a junior in civil engineering. The students will be accompanied on the trip by Prof. C. L. Mann.

### Robbins Wins Over Lewis; Krochmal Defeats Carter for Athletic Council

Voting in a heated and most active political campaign, a record number of 1,454 students went to the polls Wednesday to cast their ballot in the final campus elections—marking the end of an election unprecedented in both number of votes and scope of activity.

Carrying a majority of 211 votes, Paul Lehman of Winston-Salem defeated W. J. Reams of Apex for the presidency of the Student Council. Reams automatically becoming vice president of the Council. Also in the race for Student Council offices, Dudley Robbins of Burgaw won over W. D. Lewis of Fairmont for secretary of the Council. Lewis will become treasurer of the Council.

Only publications candidates to be entered in the race, Henry Rowe of Mt. Airy defeated Bruce Halsted of Washington, D. C., for the editorship of The Technician, by a majority of 166 votes. Aldine Thomason of Charlotte was unopposed for business manager of the newspaper.

In the closest balloting of the election, Ed "Ty" Coon of Waterbury, Conn., nosed out Tony Di-Yoso of White Plains, N. Y., for the Alpha Athletic Trophy by a scant 17 votes. Coon and Di-Yoso were placed on the final ballot as a result of the primary voting last Wednesday.

Louder proclaimed campaign in the list of candidates was for the

### Golden Chain Men Continue Project To Aid Education

#### Twelve Outstanding Seniors Speak at High Schools Over State to Promote College Attendance

Twelve leading State College students, all members of Golden Chain, have been visiting high schools throughout North Carolina in an effort to arouse interest in higher education.

"These students have been talking to student bodies, groups of high school seniors, and others interested in going to college," reports Buddy Means, president of Golden Chain.

Their purpose in these visits has been to advertise State College, but to tell of general college life with its fraternities, dances, athletics, and other activities. Many of the high school boys have shown an interest in the new aviation program recently put in at State College.

Member of Golden Chain sponsoring these trips are Sam Mann, Tony Di-Yoso, Jones Pharr, Frank Sabol, Ben Pace, Buck Branson, Ernest Durham, Herb Crawford, Charlie Hunter, and Hal Randolph. Buddy Means, Ed Davidson.

High schools in the following places have been visited so far: Charlotte, Asheville, High Point, Winston-Salem, Concord, Greensboro, Roanoke Rapids, Lexington, Rankin, Kannapolis, Mooresville, Indian Trail, Kernersville, Calfax, Henderson, Salisbury, Burlington and Danville.

### Church Plans College Day

The Fairmont Methodist Church will observe "State College Day" Sunday at 11 o'clock in Pullen Hall, where the Fairmont Methodist Church holds Sunday school and church services each Sunday. State College persons who will participate in the special exercises will be: Col. J. W. Harrelson, Jack Price, Cary Watkins, Prof. Frank F. Groselocis, George Yingling, Selby Korneagy, Ed Wilson, Chan McAdams, Tom Uzzell, Roland Riddick, Frank Bennett, Ed Young, Bob Hinson, Ben Johns, Jr., and James Rollins.

Rev. Howard M. McLean, pastor of the church, will deliver the sermon. All students are invited to attend the services.

## To Prove We're Gentlemen . . .

Hundreds of distinguished guests and students of many leading colleges and universities throughout the State will assemble in Pullen Hall Thursday to witness the annual Style Show to be sponsored by the Textile School.

The assembled audience and the girls taking part in the Style Show are the guests of State College and it is the duty of each student to see that they are treated as such.

In past years, all but three or four students did their best to see that the visitors carried with them a favorable impression of the college when they left. It is to this handful of students that we make this appeal. For your good and for the good of State College as a whole we ask you to save your yelling, whistling, and bright remarks for the next carnival that comes to Raleigh. All the good-will and favorable publicity that the Style Show makes possible can be undone in the space of a few minutes by your selfish actions.

We would like to think that if you stopped to realize the harm that your actions do to State College, you would not commit them. May this editorial serve as a reminder.

For nine months out of the year this institution is your home and we ask you to treat the Style Show visitors as you would treat guests in your home.

N. C. STATE

## Sorta Rushing Things . . .

In spite of the systematic and extensive arrangements that have been made by the college to handle and eliminate duplication of college events to a large extent, it appears that there is one place where this has failed. What we are speaking of is duplication in affairs which should have student body attendance.

Take for example, last Thursday night. While there was an important and excellent program going on in the YMCA, there was also an address being given in Withers Hall by a prominent North Carolina political leader. It was not a question of which was the more important; but attendance was low at both affairs due to the fact that the students could not be in two places at once.

And the same incident is true of last night's program. Lectures were again being presented in the "Y" and Withers Hall, and here again came a split up of the student body.

It is true that the students fail to display the proper interest they should in public affairs of this nature, and attendance records never reach a large peak. But the plan of having two such affairs on the same night just halves the prospective attendance, and leaves the speaker with the impression that we have an extremely small student body.

We have no suggestions as to the elimination of this seemingly unsatisfactory arrangement, but perhaps someone else does, and it is for this reason that we thought it wise to bring the matter to the attention of the students and the faculty.

N. C. STATE

## A Remarkable Fact . . .

Full realization of the rapid growth that State College has experienced during the past few years was emphasized this week when it was announced that the number of candidates for degrees was 60 more than the number last year. The fact that the size of a graduating class has increased by sixty students in the period of one year is truly remarkable and startling when you actually think what such a statement means.

Such a rapid increase is of necessity abnormal, and naturally one does not expect jumps of this nature to continue steadily. Should they do so, in a period of ten years, State College would be crowding the State Fair grounds for room. However, these figures do serve as an indicator of the fact that our institution has made unbelievable progress and had very rapid growth during recent years. With each class and at each registration for the past four years, a new record has been set; and this increase is very likely to continue, as our college continues to grow. For these figures have not shown such an increase as 60 out of 380, but they have been large enough to warrant and even press demand for adequate facilities to handle these additional men.

In spite of limited facilities and extremely insufficient appropriations, the number of well-trained graduates from State College has sky-rocketed, accompanied by a similar increasing demand from industry for State men. These men have been trained under difficulties—these difficulties being crowded classrooms, small and improperly equipped laboratories, lack of necessary equipment and apparatus, and a doubling up of professors and instructors.

These are the factors that prevent State College's move up the ladder of educational fame from being more rapid than at present. And these are the factors that can be traced back to the fact that the State Legislature failed to place the edu-

## NEWS HIGHLIGHTS

by "Spud" Davidson

### Pertinent Conversation . . .

Nothing could be more talked about for the next few days than the two-day-old campus-wide election, which in our recollection was the most active ever staged in the history of State College. Appearing on the scene for the first time were numerous handbills, cards, posters, and the like, proclaiming the good merits of aspiring candidates. One humorous sign that we couldn't fail to notice bore the notation of "the honest candidate." Lucky these elections come only once a year, or else personal printing bills would run mighty high.

### Add To Organizations . . .

We understand that the Forestry School will make an addition to the campus organizations by the installation of a forestry society or fraternity of some nature to recognize outstanding members of that school. When you analyze the situation, you will find that this was about the only place left that had no honorary society or fraternity, and so with that taken care of all that is left is securing the growth and active promotion of the almost 100 organizations we already have.

### Heaven For a Day . . .

Next Thursday our campus will look like something we have been reading about in books or have been dreaming about with the advent of these beautiful spring nights. For on that date, around 150 girls from nine North Carolina colleges will converge on State College to take part in the 13th annual Style Show. And if previous records and memories are to be judged, there will certainly be some queens among that crew of coeds.

### Printing Plant Info . . .

According to all present plans, in about a month and a half State College will be the home of a brand new printing plant, which will be in operation in the old textile building, now in process of complete renovation. Also, it is planned for this shop to handle all of the

cation of its youth in the proper place—head and shoulders above every other demand for State funds.

We are truly proud of our institution and of its growth and progress. But at the same time we are well aware of the fact that it is not in the position to which it would have risen had it received its proper and due financial support. These are some of the facts we are hoping the Legislature will bear in mind when they set appropriations at their next year's session.

N. C. STATE

## LETTERS TO THE EDITOR

To the Members of the Legislature:

Last week I had the privilege of attending a meeting of student government representatives of the various colleges in the South. During the discussion on the forms of student government our assembly was discussed as a model form for adequate student representation, and as a good means for getting a clear expression of student opinion.

The last two sessions of the assembly have been held with entirely too many of you absent. Therefore, I want to urge you to make it a point to see that you are present for the next session. You have been elected by the students to serve as their representative, and it is your duty to be at these sessions to assure them of an active voice in the discussion of the legislation.

Other schools think that our system is good enough to be used in their own institutions, therefore, it is up to you to cooperate and make the State College Assembly an even greater success.

BILL FRIDAY,  
Speaker of the House.

Dear Mr. Davidson:

I am grateful to you for your kind expressions through "The Technician." I have enjoyed my stay at State College, even more than can be told in words, and in the fourteen years that I have been on this campus I have had many pleasant contacts with students. The good people of North Carolina have contributed much toward my happiness. Only a call to greater duty has removed me from the State College faculty.

I shall not be a total loss to North Carolina. I shall always continue my interest in State College. Under the leadership of Dean Harrison, an able and splendid man, I believe this institution will reach to greater heights. He merits the united support and confidence of the student body, the faculty, the alumni, and the people of this great State; and I shall stand ready at all times to assist him in any manner that promises better things for State College, the farmers, and industries of this State. All of the people of this State will profit more and more as the usefulness of State College continues to spread magnificently from Manteo to Murphy.

Cordially yours,  
Dr. R. F. Poole.

## Wheatly Elected Beaux Arts Head

Charles H. Wheatley of Washington, N. C., junior in architectural engineering, has been elected president of the Beaux Arts Society, composed of leading students in the Department of Architecture.

Other new officers are: J. M. Burnham, III, of Charlotte, vice president; H. A. Loffer, of Albemarle, secretary-treasurer; Marshall P. McDowell of Goldsboro, reporter; Ralph B. Reeves of Raleigh, representative to the Engineers' Council; and R. Sharp Smith of Asheville, alternate representative.

## Banks Is Chosen Geological Head

Mason K. Banks of Greensboro, junior in geological engineering, has been elected president of the local student chapter of the American Institute of Mining and Metallurgical Engineers.

Other new officers are: Keston H. Tongue of Siler City, vice president; Dan D. Arden of High Point, secretary; and Sam Ingle of Statesville, treasurer. Banks, Tongue and Arden were elected representatives to the Engineers' Council. The local chapter was organized

college printing, if possible, including all of the student publications except the Agromech.

Some talk about expanding The Technician into a twice-week publication has also been floating around, and may materialize into the real thing before the year is out.

### Convention Bound . . .

While State College is in the midst of a style show and Exposition, student publications men on the campus will be entangled in the arms of the annual spring convention of the North Carolina Collegiate Press Association, meeting in Charlotte next Thursday through Saturday.

Both old and new editors and business managers will attend, and the convention is predicted to attract over 200 delegates to the Queen City. Among the important business will be the election of next year's officers.

### Commencement Speaker . . .

Word was released this week that Governor Hoey was slated to deliver the annual commencement address at the University of North Carolina in the history of this institution. What makes the item most newsworthy is the fact that the candidates for degrees in this class number 60 more than last year. If the size of graduating classes continues to jump at the rate of 60 a year, in about 10 years, watch out. It does seem that with every registration for the past four years the college has seen a new high record, and this in itself is an indication of fast growth.

### Another First Place . . .

State College took another first place last week when Howard Bell was selected as president of the Southern student chapters of the American Institute of Chemical Engineers at their convention here last week-end.

All of which just goes to illustrate that we are coming up in this world, and mighty fast, too.

## Other Papers Say--

### ON COMIC STRIPS

(By Gold and Black, Wake Forest College, April 6, 1940.)

For a long time we believed and said that the comic strips were the best part of the newspaper. This belief we held until we became part of that vast, imponderable group called college students. Then we felt ourselves good for the funnies; we felt that we must spend our time wandering around in Plato, Aristotle, and George Bernard Shaw.

Suddenly, after some four years of college, we found ourselves apparently in our dotage; indeed, in our second childhood, for we again liked to spend a while each day with Maggie and Jiggs and Captain Easy. This was a cause for some small worry, until we found encouragement in the editorial columns of the staid old Charlotte News, to wit:

"The country owes a debt of gratitude to Mr. Chic Young. Mr. Chic Young is the man who draws 'Blondie.' 'Blondie' is one of the few truly comic strips extant."

"Not that we would disparage the transformation of comic strips from dramatic and adventure serials, except to say that some of them have gone too far in gruesomeness and violence. These are bound to have an insidious effect on the minds of our America, and the immature adults who are most wrapped up in them, and they need to be toned down. That is a job for the newspapers, which they probably won't undertake."

"But for the main part, these serials are a wholesome, crude form of dramatic art, to the United States, and to the short and boring play is to the Irish, with educational and entertainment possibilities that have not been realized. And in contrast to their fumbling for expression, the heaviness of their character and situations and the ripe sentimentality in which they deal 'Blondie' is like—well, it is like what it is, a gentle satire on the 'dominant' male, his sweetly tyrannical helpmeet, and the minor variations of behavior in a devoted young family."

"Verily, 'Blondie' is almost any household in its comic moods. And as amusing as good humor itself."

### Delegates Preparing For N.C.C.P.A. Conclave

and Buddy Price of the Agromech, Scott Bowman, Zelle, John Lewis of the Watauga; Lloyd Langdon, Gene Starnes and the newly elected editor and business manager of the Agriculturalist; Troy D. Williams, Tom Blount, and the newly elected editor and business manager of the Southern Engineer; John Atkins, Pete Cromartie, F. J. Hartman and J. V. Chambliss of the Pi-ne-tun.

Officers of the association are: Sherwood Staton of Reidsville, Wake Forest, president; Emory Carpenter of Hickory, Lenoir, Rhine, first vice president; Lura Self of Raleigh, Peace College, second vice president; Rebekah Fulghum of Greensboro, Greensboro College, secretary; Jones Pharr of Concord, N. C. State, treasurer; Steve Sailer, of Raleigh, N. C. State, executive secretary.

### Paul Lehman Wins; Rowe, Thomason, Head Technician

(Continued from page 1)

position as senior representative on the Athletic Council, in which "Ace" Krochmal of The Bronx, New York City, defeated "Cutie" Carter of Raleigh by a 170-vote majority. John Barr, Charlotte, and Jack Huchabee, also from Charlotte, were chosen as junior representatives on the Athletic Council, eliminating Jake Tinga of Castle Hayne.

### Y. M. C. A. Men

Running for election to offices of the college Y.M.C.A., C. H. Kirkman of Pleasant Gardens won over Kenneth Womack of Winston-Salem for vice president of the "Y." H. M. Willis of Elizabethtown was unopposed for presidency of the Y.M.C.A. Man Lathan of Monroe defeated F. M. Bennett of Jack Springs for treasurer, and Bruce Jackson of Fayetteville won over William LeGrand of Shelby for secretary of the Y.M.C.A.

A total of 310 fraternity men voted yesterday to elect George Weant of Salisbury as president of the Interfraternity Council. Weant defeated F. M. Clements of Greensboro. D. C. Hughes of Hamlet won over Lane Drye of Landis for vice president of the Interfraternity Council.

### Assembly Meeting

The next session of the State College Assembly will be held on the first Thursday in May. All bills that are to be presented should be turned in to the Student Council office by the 25th of April so that they may be printed in "The Technician" of that week.

### Announcements . . .

Anyone wishing to pay Junior Class dues can do so by seeing any of the class officers, or Fabe Clements, Cutie Carter, or W. J. Reams—Dance Committee.

### All students from Sampson County are urged to be present at the Memorial Tower on Friday, April 26, at 1:30 o'clock to have a picture made of the Sampson County Club.

### The Young Democrats Club

will meet in the center area of the college YMCA on Wednesday night at 7:30—Bill Friday.

## GLEANINGS

by THE STAFF

Ouch. . . My head feels like a beer hanger. . . Politicking is no easy job. . . and when you've talked two days in a row, trying to get votes lined up, you've really done some talking. . . After this first venture into politics, I've come to the conclusion that it's the freshman who can swing the election. . . Most upper classmen come to the polls determined to vote for a particular man. . . and no amount of leaflet distribution will change their minds. . . Jim Farley's representative in North Carolina, Bill Friday, was at the polls studying the various techniques of persuasion and influencing people. . . Bill's face was completely hidden from sunrise to sunset behind thick clouds of odoriferous cigar smoke. . . and a couple of candidates for governor of the state received some publicity in the form of printed cards. . . Charlie Hunter was the personal escort for two of our coeds, Maxilla Everett and Frances Dess. . . The usual swarm of politicians didn't flock around the girls and their escort. . . They knew that even the proverbial fickleness of women's minds was out if Charley had "politicized" first. . . Ernie Durham was kept busy chasing campaigners off the "Y" steps.

The politicians were out in full force. . . The Agromech crew were busy snapping pictures from all angles and of everybody. . . One of the Patten twins tried to go in with one of the freshman voters to "help" him in his selections. . . The boys in charge wouldn't let him do this, so he wrote down the names on a slip of paper for the bewildered freshman. . . Cars were pressed into service, and one enterprising group picked up boys at the humming corner near the Capitol and brought them to the polls. . . In reply to the question "How many times a year do you go to church?" one honest chap answered "Not enough." . . Another stated he would fight in a war only if it were a World War. . . one of those everything-or-nothing propositions. . . Peter Pop got so hoarse campaigning through the freshman quadrangle that it is feared he will be unable to croon lullabies to his babies for several days to come. . . Several politicians asked "Pedro" to get his babies out to vote, but he declined. . . Joe Mills and Howard Walker were an efficient crew. . . they would enter a room, and while one talked the other would stick his head out of the window and holler like a blazer. . . Tuesday night the freshman quadrangle was full of politicians as the Duke teams are full of Pennsylvanians. . . The Soph hop last Saturday night offered fine opportunity for politicking. . . and a "tea" room in town tried to capitalize on the occasion. . . Lucky were the boys who were unopposed.

Here and There: Rumor has it that Larry Golding uses enough hair oil to grease a locomotive. . . "Egghead" Jones craves publicity. . . Another W.C. girl has gone the way of all W.C. girls when a State man enters the picture. . . Lew Millaps is the man. . . Congratulations to Sid Ingram. . . she's mighty sweet. . . Burton Hathaway nearly lost his tie at the carnival this week. . . careful, Burton. . . The post office at Meredith seems to attract the president of our student body. . . Jerry Bell is lost without her Pat Feeley. . . Jack Gell resembles Don Budge in looks and tennis ability. . . If you want to be sure, ask Jack. . . Gordon Pratt took a Meredith girl on a picnic last night. . . After gazing at Gordon for several hours in the moonlight, during which time Gordon gazed at the moon, the girl exclaimed, "I wish I had a man with me." . . She must have spelled that word "picknick" right. . . Hal Byrd has his troubles, too. . . Hal had a date with a supposed fast girl the other night. . . After trying his best to kiss her, with no results, Hal told the girl she was mighty hard to get along with, and he was going to take her home. . . "Huh, I don't like you, either," exclaimed his date. . . Roy Thomas is reported to have received a bill for rooming out at Meredith. . . Steve Sailer, whose heart is supposed to be at Converse, still gets that faraway look in his eye when you mention Weldon. . . Thank you, and so long—"ACE" KROCHMAL.

They will compete with 141 other girls from nine colleges. These girls are home economics students at Meredith College.

## Nelson Advocates Efficient Sales; Modern Machinery

Satisfied Personnel Essential to Mill Operation, Says Textile Dean in Trade Publication

"Satisfied help is a necessity if a textile plant is to be operated at a profit," according to Dean Thomas Nelson of the State College Textile School.

Writing in the annual survey issue of *The Daily News Record*, textile trade paper published in New York, Dean Nelson stressed modern equipment and an efficient sales organization, together with satisfied personnel, as necessary for successful operation of a textile plant.

He also emphasized the importance of textile schools in providing trained men for production, distribution and research.

"The textile industry needs men who know not only the production of yarns and fabrics, but also the economical and psychological aspects, who know people as well as machines, who think in terms of efficient management and human welfare instead of only mass production and cut-throat tactics," declared Dean Nelson.

"Men who aspire to leadership in the textile industry should know the fundamentals of physics, chemistry, economics, industrial and personnel management, applied and industrial psychology, and the scientific principles involved in the manufacture and processing of textile products."

Dean Nelson stated that some of the most successful textile plants in North Carolina make a practice of employing several textile graduates each year and training them for positions of responsibility.

"Textile organizations which look to the future should always have young men in various stages of development so they will have a ca-

## Phi Psi Fraternity Active On Campus

Important Textile Organization Serves as Employment Aid for Members

Phi Psi is the largest and most highly respected textile fraternity in the world and its members and alumni hold some of the highest positions in the branches of the industry.

Since its organization at State College, Eta Chapter has taken an active interest in all of the activities of the Textile School. Its members have been prominent in affairs of the college also.

The main objective of the fraternity is to keep in touch with large textile concerns and secure employment for its fellow members. Their magazine carries a list of this nature and it enables the members to keep in touch with each other.

Many of their alumni hold high positions in North Carolina. Some of them are Mr. A. A. Cannon, president of the Cannon Mills; Mr. C. A. Rudolph, president of the Carolina Mills, and Col. Millard Brown, president of the Continental Mills.

Officers for next year in the fraternity are Bill Murdoch, president; Bill Morrison, vice president; J. T. Shotwell, secretary, and T. A. Johnson, treasurer.

Textile products manufactured during 1935 were valued at \$4,080,833,927, second only to the most important of all commodities—foodstuffs.

The cotton farmers of the South receive an average of more than \$35,000,000 each year for cotton consumed in this country by textile manufacturing concerns.

## Nelson Has Made Brilliant Record

Dean of State Textile School Has Headed Department for 39 Years; Came Here in 1901

By BILL FRIDAY.

In 1901, shortly after the textile department was established at North Carolina State College, the heads of this institution secured a young Englishman, Thomas Nelson, as instructor in warp preparation, designing and weaving.

Mr. Nelson was well qualified for his position. In his native land he had attended the Preston Technical School and was awarded a certificate for weaving and designing in 1890-91 by the city and guilds of the London Institute. This was accomplished while working in two of the finest and fanciest mills in the town of Preston, where he gained practical experience in spooling, warping, and weaving. Following this he received personal instruction in weaving, designing and mill management under John Fish, of the Queens Mills in Preston.

Upon his arrival in America, Mr. Nelson secured employment at the Ponemah Mills, Taftville, Conn., one of the fanciest mills in the United States. Later he went to the Harriman Mills in Lowell, Mass., and the New England Bunting Company. At these two mills he received no remuneration, doing work to receive practical experience in American methods of production. Then he accepted a position at the Merrimac Mills, in Lowell, which for many years had produced some of the finest fabrics in America. He later left here to go to a position in a mill in Petersburg, Va. After a year and a half there he returned to Lowell Textile School as an instructor and utilized his spare time to take advanced work in designing and cloth analysis.

When Mr. Nelson arrived at State College, the first textile building was under construction and the textile equipment consisted of a few machines in the basement of Holladay Hall. In 1906, Mr. Henry Wilson, then head of the department, resigned to take a position in South Carolina and Mr. Nelson was made professor of textiles and the head of the department. In 1924, when the Board of Trustees decided to enlarge the Textile School, Mr. Nelson became its first dean. There, for thirty-four years he has served as dean and head of the division of State College and developed it into one of the finest textile schools in America.

Building a School It is interesting to note some of the things that have been accomplished under the supervision of the man who has headed the department since its inception.

In 1914, the original textile building and practically all of its equipment was destroyed by fire. A new and larger structure was erected to replace the old one, and in 1925 a three-story, eighty-foot addition was added which made it the largest textile school building in the South. This year the Textile School moved into its new home, which is the latest thing in a modern textile structure. It is a four-story "T" shaped building that contains 75,000 square feet of floor space. Complete new units in woolen work and a new slasher have been added to the equipment to make the facilities for the students the best of any textile school in the nation.

Dr. Nelson has endeavored to make the school the best equipped so that the students will be able to make any kind of fabric that is manufactured in the United States. In doing this he has interested a number of prominent textile men of the school and they have aided him in securing this equipment, so that today the State College Textile School is equipped to manufacture almost every class of fabric made in America.

In 1907 Dr. Nelson's first book, "Weaving, Plain and Fancy," was published and enjoyed wide circulation. A few years later his second book, "Practical Loom Fixing," made its appearance. This book, which is now in its third edition, has an international circulation and is used as a text in several textile schools. He has also written many articles pertaining to the textile industry for leading textile publications.

In 1908 Dr. Nelson helped organize and was a charter member of the Southern Textile Association. Since that time four of his former students have served as president of this organization.

Dr. Nelson has spent several summers doing work for the United States Government. In 1911 he served as special agent for the Tariff Board and conducted several research programs in determining the costs of fabrics. During the summer of '21-22 he made a survey and study of imported yarns and fabrics and their relation to American tariffs. In this work he had conferences with domestic manufacturers and importers as to the effect that imported fabrics have on the sale of similar fabrics made in America.

In 1926 North Carolina State College conferred upon Mr. Nelson the honorary degree D.Sc. in recognition of twenty-five years of meritorious services to the college. He has always taken a genuine interest in the welfare of the college and its textile alumni, and his office is a mecca for his old students whenever they are in Raleigh.

## Hart Rounds Out Twenty-First Year

Textile Professor Has Served on State Faculty for More Than Two Decades

T. R. Hart, professor of weaving and designing, is rounding out his 21st year of service as a member of the faculty of the Textile School.

Mr. Hart graduated from the State College Textile School in the spring of 1913, and that year he went to work for the Aurora Mills of Burlington, N. C. After working for this concern for two years he accepted a position with the Draper Corporation of Hopedale, Mass., as their Southern erector.

After traveling over the South for this company for several years, Professor Hart returned to the Textile School as an assistant professor of weaving and designing. In 1920 he was awarded the degree of textile engineer, and in 1924 he acquired his master of science degree.

During the many years that he has been connected with the Textile School Professor Hart has always had a genuine interest in the affairs of the students and he has always cooperated with them to the fullest extent on all their programs.

In addition to his many duties at the college Professor Hart has found time to take an active part in the civic programs of the city. He has just concluded his term as the president of the Raleigh Exchange Club and, at the present, he is secretary of the Raleigh Safety Council. He has also written numerous articles on the various phases of the textile industry for the leading textile publications of the nation.

As a charter member of Phi Psi and Sigma Tau Sigma, honorary textile fraternities, many students go to see him every week for advice on their future work, and he always is glad to help them in any way that he can.

## Three State Men At Kelly Field

McLean, Worrell, and Mosley Receiving Final Three-Month Flight Instruction in Texas

Three former North Carolina State College men are now flying cadets in the Army Air Corps, scheduled to be transferred from Randolph to Kelly Field, the advanced flying school, for a final three months flight instruction before receiving their wings and being commissioned as second lieutenants in the Air Corps Reserve.

They started their aviation career last August when they reported for primary flying instruction. After three rugged months they were transferred to Randolph Field, where they spend most of their flying hours solo. Aerial acrobatics, night flying, and instrument flying were included in the Randolph Field course.

Transfer to the advanced flying school is the last step in their aerial career before being graduated as full fledged military airplane pilots and commissioned second lieutenants in the Air Corps Reserve.

Pilot training activity has been stepped up at Kelly Field of late, and classes of 250 young college men are reporting to Randolph Field every six weeks for basic flight training. Previous to this they have piled up 65 hours at one of the Air Corps' elementary flying school.

The former State men who are now student pilots at Randolph are C. L. Mosley of Raleigh, J. A. Worrell, Jr., of Rich Square, and John L. McLean of Raleigh. All three were members of the Class of 1939.

## Technician History Placed In Library

Biography Written for Anniversary Edition by Professor Fountain

A copy of "A History of THE TECHNICIAN," written by Dr. A. M. Fountain of the English Department and appearing in the Fiftyth Anniversary Edition of THE TECHNICIAN, has been bound and placed in the college library so as to be available to all those interested in the development of this publication.

The history, composed especially for the Anniversary Edition, contains many interesting facts about the first edition of the successive editors and the various changes made by each, the founding of all the new organizations during the years, and numerous other revelations.

Dr. Fountain, it was revealed, worked for the paper from the very beginning, and was rewarded by being elected to the editorship in the spring of 1922.

## 39 YEARS AT STATE COLLEGE

Dean Thomas Nelson, veteran head of the Textile School, will this year end his 39th year of service to this institution, coming to State College in 1901. It has been under his guidance that the annual Style Show and Exposition have originated and progressed, and he has seen the development of the Textile School into one of the finest in the world.

In the photo below Dean Nelson is seen working at one of the modern looms in State's up-to-date textile laboratory.

## Sigma Tau Sigma Honors Scholars

Honorary Textile Society Is Organized to Recognize High Scholarship

Sigma Tau Sigma fraternity, honorary textile society, was organized at the North Carolina State College Textile School during the year of 1929-30. A group of the ranking scholars in the Textile School started the organization in order to create higher standards of scholarship among textile students. The society was named Sigma Tau Sigma, derived from the initial Greek letters of the words "Society for Textile Scholarship."

The society has always worked toward a higher standard of excellence for the textile industry. The members are selected on the basis of their standing in scholarship. The requirements for admission are high, and election to Sigma Tau Sigma is considered an honor.

Up until the school year 1937-1938, juniors were admitted into the organization but the membership strictly to students having completed eight terms of college work, i. e., rising seniors.

Each year since the organization of Sigma Tau Sigma, it has awarded a scholarship cup to the senior in the Textile School who has achieved the highest scholastic average during his college career. This cup is awarded this student at the annual Scholarship Day exercises.

In 1939 Sigma Tau Sigma, in cooperation with the Tompkins Textile Society, began sponsoring a reception for the young ladies participating in the Style Show. The members act as official escorts for these young ladies while they are on the campus.

## Textile Exposition Will Open Thursday

(Continued from page 1)

textile industry will be demonstrated.

Best in History

Paralleling the expansion of the Textile School this year has been the enthusiasm for the exposition and show. Nine girls' schools have asked for materials to make dresses, and the total number of girls participating in the event this year will exceed that of any previous exposition.

Along with the new developments in the fibers have come many new types of machinery for the production of the finished fabric. The Textile School has installed the latest type of woolen equipment which will be in operation during the show. A new slasher has also been added for research work in the processing and sizing of wools in preparation. This machine will be on demonstration also.

R. J. Payne, senior in yarn manufacturing, is the superintendent of the exposition this year. Hubert Woodall, senior in weaving and designing, is serving as assistant to him.

Latest available figures show that one out of every 35 workers in the United States is a textile worker. One worker in every five engaged in manufacturing is a textile worker.

## Livingston To Play For Textile Dance

Lint Dodgers' Ball Will Climax Annual Textile Style Show and Exposition

The Lint Dodgers Ball, climax of the Style Show and Exposition, will be held in Frank Thompson Gymnasium on Saturday night, April 27.

Playing for the occasion will be Jimmy Livingston and his band direct from an extensive road tour. This group has a reputation for playing danceable music in the smooth, sliding style.

Jimmy Tillman is chairman of the dance committee. Other members are: Bill Pearson, junior class; Don Hamilton, senior class; Howard Allen, freshman class; Gordon Sandage, sophomore class, and Hubert Woodall, president of the Tompkins Textile Society.

All textile students can get their bids to the dance by presenting their registration cards to the member of the dance committee at the desk in the textile building next Tuesday.

Advance sale price for tickets is 85 cents. The duets will be one dollar at the door.

## "Y" To Present Motion Picture

"A Sudden Death," a full-length feature taken from a sensational article in the *Readers Digest* depicting the horrors of motor accidents, will be shown in Pullen Hall tonight at 7:30.

The picture, which stars Randolph Scott, Frances Drake and Tom Brown, has a well-written plot as well as the safety motive. Admission will be 10 cents.

The motion picture is one of the series presented by the Y.M.C.A. for the benefit of the students throughout the year. Several other movie features will be shown before the end of the term.

## Ease, Comfort Reflected In Spring Styles

**Collegians Finding Tweeds and Other Soft, Rough Fabrics Most Appropriate**

Ease and comfort are the two characteristics notably reflected in campus wear for spring, 1940. The fabrics, which are soft and rough, tweeds, chevrons, and shetlands, are used widely because collegians find them "easier" and more becoming.

Domination of the sports theme in suits was first noticeable last fall. This spring it is even more evident, and the cut of the cloth, the fabrics, the colors and the models all bear out the popularity of the sports theme. The three-button, single-breasted coat continues to lead. It is no longer noticeably fitted, and there is a trend in favor of sack coats and lounge effects with easier features. There is also a marked slackening in extreme styles.

### Jackets, Too

Although double-breasted jackets are showing a slight decline, they are still strong, particularly in smooth finished fabrics. Throughout the South this style retains its popularity and holds its own against the single-breasted coat for leadership.

For actual cutting, coats are longer and trousers of most suits are narrower.

Many of the materials are rough, and most of them have definite designs, stripes and plaids leading. The popularity of the striped sports coat is reflected in many of the suiting materials, and in some cases plaids are so designed that the vertical lines are dominant, producing a striped effect. Some of these coats will undoubtedly be worn separately as sports coats with covert cloth or flannel slacks.

The war will have its effect upon this season's colors as the British government has asked fabric manufacturers to conserve dyestuffs wherever possible. Consequently imported fabrics are in lighter shades which do not require the amount of dye necessary for the navy blue, black and dark brown.

## Sport Jackets Lead Fashions

Heading the parade of fashions in the deep South this season is the odd sport jacket, worn with sport shirts and slacks. Unseasonably cool resort weather has been partly responsible for the great interest shown in sport jackets, but also there is a desire on the part of the well-dressed man to get away from the sloppiness that has characterized sportswear in the last few years.

The off sport jacket, usually in three-button, single-breasted model, is right into this picture, giving the wearer comfortable protection from coolish days in addition to a more completely clothed appearance.

The midnight blue dinner jacket will retain its popularity for spring and summer wear.

**WHAT'S CORRECT**—a single- or double-breasted evening formal? Answer: Both. And shown below in the top picture is the favorite double-breasted style featured by Palm Beach this season. Even with its fullness, the whole outfit weighs less than 37 ounces.

A new shade, called Jute, is also being featured in Palm Beach suits this spring, as is shown in the bottom picture. A rich tan, it combines well with sport coats and slacks of any color.

Clothes will stay better shaped overnight if they are hung properly on hangers, but for those too lazy to walk to the closet, several manufacturers are putting out a "valet rack" that stands on the floor with a hanger for everything from the skin out. It takes

## Technician Presents Spring Fashion Issue

**Latest Spring Styles Presented With Illustrations for Benefit of Students**

Finally convinced that the weatherman is right and that spring is here to stay, our thoughts naturally stray toward those beautiful things that accompany this period of the year—romance, moonlight nights, beaches, and above all, clothes and fashions.

Being unable to furnish the student body with the first three of the above mentioned ideas, we do avail ourselves of the opportunity to present to the students a fashion edition of their newspaper.

This page of fashions is not presented by THE TECHNICIAN from the standpoint of a criticism or recommendation of a particular style or model, but has been prepared more from the standpoint of illustrating for the benefit of the students some of the latest fashions for spring.

For who knows why spring brings a change in color—a trend for more comfort—and an emphasis on accessories for every occasion. Colors in men's apparel during the year have and will take the form of mixture, blends and off-shade fabrics, and it appears that various shades of brown have the lead in the spring and summer field.

College men are and should be clothes conscious, and numerous styles have swept the country after being adopted on some college campus. If you would query as to why they were more "clothes conscious," you would probably find that they are more prone to experiment than their elders, that college men check their wardrobe at least three times a year. Because the more recent trend in style has been toward sportswear, these types of clothing are perfectly at home on the campus of any and all colleges.

So you see, it is natural that we interest ourselves with our wearing apparel, and it is also natural that we should be leaders in the field of setting styles. It has been said that a college man would try anything once, and this is certainly no exception in the field of good-looking clothing.

So for your benefit, here is a page of what will have them raving during this current spring and this coming summer. Take a long gander at them, and see how they compare with your wardrobe.

the place of the chair that often produces those round-shouldered or peaked effects in your coat shoulders.

**SMOOTH** That might be the title given to this sport coat, and also to the manner in which it fits across the back. A particular favorite this spring, tan sport coats are quite the thing, and will match a multitude of various colored slacks.

Shirts are now out which have the top button removed and replaced with new grip fasteners. It closes easily and yet holds the collar securely.

**NOTHING BUT CLASS** These three versions of dress for the collegian show that the double-breasted is still in there fighting, although the three-button single-breasted model is best seller. On the right is also seen one of the many models of sport coats that will be popular this spring.

## Colors Shine In Sock Parade

Stripes in various colors, clocks and plaids are only a few of the brilliant design effects that make this spring's socks the most colorful ever seen.

Greens have gained steadily in popularity, but blues and tans, grays and purplish tones all contrast well with the new mittens. Rayon appears more often than ever, cotton and wool mixtures are popular, and lilies are as always the choice of the man who likes lightweight comfort on foot.

The Danish moccasin continues to be a favorite for shoes and with it will be the two-tone sports shoe, preferably in brown and white. Most of these are now equipped with rubber heels.

## Ties Number In Millions

A little high-powered mathematics and a large amount of ingenuity produced the information that there are 155 million neckties in the United States for the 40 million males 18 years of age or over.

And so by arithmetic, we divide the 155 million ties by the 43 million males and find that each male has approximately 3.12 ties. The comment was made that these half-ties may be classified as bows.

Now available in most men's shops, the gabardine porkpie introduced by college students last year, will be even more popular in 1940, and can now be purchased in a large variety of colors.

## ARTISTS AND MODELS

### Comments

By "ACE" KROCHMAL

I want to take this opportunity to thank the students of State for electing me as senior member of the Athletic Council and to assure them that I will do my utmost to fulfill their trust and confidence in me.

My feeling about the coaches may be summarized in a few sentences, and I think I am correct in stating that these sentiments are shared by the majority of the students.

here, I think that although we pay around \$35,000 a year in athletic fees, the job of coaching belongs to the coaches, and Paul Lehman, newly elected president of the student body, a fifth member will be the man who is chosen as president of the Monogram Club.

Once again, thank you, fellows. Here and there.

Miracles will never cease. Second-Baseman Brophy, who has hitless last season in 33 times at bat, got two for three against V.P.I. yesterday.

There's no keeping a good man down. Coach "Nip" Waller has put in a request that my first official act as a member of the Athletic Council be to introduce a motion that he be given a concession to operate a beer joint (high class) in the gymnasium on nights where there are no basketball games or other athletic events.

O.K., Coach. And George Strayhorn wants unlimited cuts for athletes. Red Diamond is featuring some nifty softball games these nights.

admission is only a dime. I'll be there is a deep groove around the V.P.I. baselines. 37 runs is an awful lot to be scored in a baseball game.

Tomorrow will be State's winning day. I hope. Too bad there aren't two Alumni Trophies.

Tony DiYeso and Ed Coon are two of the finest boys ever to go to State College. Some of the Durham High boys have visited the campus.

Coach Warren is drilling his basketball players in the gym most every afternoon you go there. One of our State boys, a freshman by the name of Ames, and a Raleigh boy, is turning in some fine pitching on Red Diamond in the softball league.

The track team heads for Charlotte today to run against Davidson. Their first win of the season. Next Saturday will be another double feature day. The track team tangles with V.P.I. and the diamondmen play host to those Deacons.

who got slapped 18-9 by little Elon. They're still top in the Big Five. Lots of the newspapers print the Deacs' catch.

# State Diamondmen Lose To Virginia Tech 20-17

## Both Outfits Score Freely In Thriller

Both Teams Use Four Pitchers in Slug-fest; Ritter Top Batter

Blacksburg, Va., April 18.—State's traveling baseball team brought its Virginia trip to a close today by dropping a free-scoring game to the Virginia Tech Gobblers.

Both teams used four pitchers, but Tech's pitchers limited State's hitters to a mere 17 hits, while they and their team-mates tallied 22 hits. For such a high scoring encounter the number of errors, five, three by State and two by Tech, is unusually low. State's pitchers were Sam Kaufman, Ray Smith, Norm Virgin and "Peanut" Doak.

The Virginia boys got eight hits off Kaufman in three innings, three up the first in one and a third inning, eight off Virgin in two and two-thirds innings and two off Smith in one inning.

Bill Ritter, diminutive State shortstop, paced Doc Newton's boys with three for four, a triple and two singles. Pete Brophy, State's record-breaking no-hitter of last year, displayed an amazing reversal in form by getting two for three, a triple and a single.

State's next home game is with William and Mary Saturday.

er's name as Swell. Instead of Swell. Does that journalistic error refer to the gentlemen's coupe-driven home?

The Mills twins are killer dillers with the women. Every time their big brother visits them and brings a girl, the twins rush out and see who can get the first "Hello" from their brother's girl.

Fresh Uniforms. I'm wondering if, because of our difficult financial circumstances, it might not be possible to start a drive among the business men up-town to get new uniforms for our freshman baseball team. They are sadly in need of new outfits.

In the middle of the Duke game this week the catcher's chest protector disintegrated. One had to be borrowed from the Duke team, as there were no more available for the freshmen. I think that new uniforms would not only improve the looks of the team, but would aid their morale considerably. What do you fellows think of starting such a drive?

Ill in a Charlotte hospital is Tom Rowland, co-captain of State's swimming team this year. From the entire student body comes good wishes to Tom for a speedy recovery.

## Techs Beat VMI, Lose To W & L

State Bows to Washington & Lee, 7-5; Trounces Virginia Military 9-1

The State nine ran wild on the basepaths Wednesday against Virginia Military Institute and racked up the first win of a three-game Virginia tour. On Tuesday the Techs had bowed to Washington and Lee 7 to 5 in the first game of the trip.

In a game shortened by rain to six innings, Curt Ramsey with an early State lead in back of him, yielded only four hits for one run. The final score was 9 to 1. State scored twice in the first inning and once in the second. In the sixth, the Techs bunched two hits, four walks, and seven stolen bases to push across six runs.

Absher starred in offensive play, gathering three hits, one a triple, in five times at the plate, and stealing two bases. Len Constant, Jim Carney and Chick Doak each singled. Constant stole three bases. Doak and Morrison two, Brown and Ritter one each.

Gen's Win

On Tuesday the Techs left Washington and Lee twice take the lead away. After W. & L. had tallied once in the first, State went with two in the third frame. The W. & L. Generals, however, also scored twice in their half of the third. The Techs pushed single markers across in the fourth, fifth, and sixth innings, but the Generals meanwhile were scoring four runs. A total of seven hits were gathered by the Techs.

Brown belted the apple for a home run and a three-bagger, Ritter also got a circuit clout, while the other brackets have not gone far enough to tell who is out in front.

The games played this week are as follows: Phi Kappa Tau 7 and Lambda Chi 6. Went, with two runs, led the batting for the winners.

Weber led the ALT's to a 9 to 4 victory over KA. The Delta Sigma Nu also had a 9 to 4 win over AKPI, with Davidson and Matson each knocking out three runs. The Sigma Nus took a 14 to 14 win from the AGR's. Messersmith scored four runs for the winners, while Fletcher did the same for the losers.

Second Watauga, led by White and Hampton, won by score of 16 to 7 from Fifth. Basement 8th beat 3rd 7th by score of 16 to 12. Weson and Toppell were the outstanding players for the winners. The Sigma Nus scored the SPE's from the winning list by score of 5 to 2. Robbins and Jones got three runs apiece, while Burnham was the outstanding one for the losers.

First 8th beat 2nd 8th by score of 22 to 8, with Sweet scoring four runs. The Pikes took a 14 to 8 win over the Phi Kappa Taus. Charlie Smart, pitcher for the winners, got a home run and got three hits for three runs.

Bowling... The fraternity bowling tournament is bowling along at a merry pace. Leaders to date are the KA's, with 7,077 points. Following them are the SPE's with 7,074, and the Sigma Nus with 6,980.

LEADERS Of Carolina's baseball team are George Stirnweiss, on the left, and Matt Topkins. Both men are sluggers. Stirnweiss plays second and Topkins shortstop. State's scheduled game with Carolina, last Saturday, was called off because of cold weather.

FINE'S MEN'S SHOP We Have the Sport Shirts and Sport Pants To Match at \$1.95 and \$3.95 Cor. Fayetteville & Hargett

WINNER Of the Alumni Athletic Trophy in Wednesday's election was State's great all-America tackle, Ed "Ty" Coon. He is a senior in civil engineering, and is from Watertown, Conn.

Baseball Team Meets High-Stepping William and Mary Outfit Tomorrow will find State College's baseball team playing host to William and Mary's nine.

The Techs have just returned from a tour through Virginia, during which they lost two, to Washington and Lee and V.P.I., and won one, from V.M.I. State's weakness seems to be in its pitching. Curt Ramsey seems to be the leading hurler on Doc Newton's outfit this season. Ramsey, a big 240-pound football player, pitched three-hit ball against Washington and Lee earlier in the season, and pitched four-hit ball against V.M.I. Wednesday. He is a speedily moving artist, but can toss some nifty curves across.

Other State pitchers are Lefty Semmy Kaufman, Ray Smith, "Peanut" William and Delmore Harper. Harper did not make the Virginia trip as a result of coming into Raleigh Monday from a trip home, after the team had left. He and Kaufman are the only monogram pitchers of the lot.

Returning to play for State is Pete Brophy, who has been switched from short to second base, and is a mighty man at the field and is a mighty man at the bat. A lad who is showing constant improvement is Len Constant, another slugger outfielder.

The starting lineup: T. Andrews, 2b; V. Andrews, cf; Sils, 1b; Dennis, 3b; Howard, if; Halley, rf; Challico, c; Crane, p. State-Ritter, ss; Brophy, 2b; Constant, cf; Harris, 1b; Morrison, 3b; Brown, lf; Absher, rf; Fehley, c; Ramsey, p.

Northern Scribe Accuses State of Sending Scouts to Take Yankee Player Recently an Ohio sports writer came out with a story, printed all over the nation, in which he intimated that State College had sent scouts to Ohio to lure boys away from colleges up there to play ball here. The fallacy in that story is that Southern Conference rules prohibit a man who has played ball in any college in the country to participate in a conference school.

The Ohio writer had in mind a particular player, from a small Ohio college. The truth of the matter is that the man in question came to Raleigh on his own hook, in an automobile driven by an Ohio friend. Train tickets were not sent to this player.

There is a wide-spread belief up North that Southern colleges are always lurking in dark Northern alleys waiting to pounce on unsuspecting athletes and lure them to the South with large-sized checks. This may be true in some schools, but the majority don't get their athletes that way.

As a matter of record, a former State football player, who participated in varsity football at State for a year, is now a member in good standing of the football team of a large mid-Western university.

Ingram and Cox Elected Captains Sid Ingram and Don Cox were elected as co-captains of State's swimming team for the 1944 season at the annual swimming team picnic held Wednesday night.

Ingram, a rising senior in forestry, is from Asheville, and Cox, a rising senior in ceramic engineering, is from Raleigh. At the same time, Ingram was also awarded a medal for being the most valuable member of the swimming team this year. Included among the guests were Professor Fisher, Dean Cloyd and Mr. Von Glahn.

Included in the picnic were a baseball game and a rabbit chase.

Pushball... Plans are being made by Blue Key Fraternity for the annual Freshman-Sophomore rush, which will be held on May 11. Details of the contest, which incites considerable rivalry and interest among the two lower classes, will be announced at a later date.

LEADERS Of Carolina's baseball team are George Stirnweiss, on the left, and Matt Topkins. Both men are sluggers. Stirnweiss plays second and Topkins shortstop. State's scheduled game with Carolina, last Saturday, was called off because of cold weather.

## Minor Sports Rules Changed By Council

Recommendations of Minor Sports Coaches Are Adopted by the Athletic Board

At its last meeting, held last Friday, the Athletic Council passed a new set of rules governing the awarding of minor monograms, as recommended by a committee of minor sports coaches. These rules will go into effect next September first.

In awarding of monograms, coaches will consider the following points:

1. A candidate for a team must attempt practice regularly, unless excused by the coach.

2. Good sportsmanship must be shown not only to opponents, but to team mates.

3. Should a student qualify for a monogram under the rules and not have the proper attitude desired by the coach, his monogram may be withheld.

In addition to the above general rules, the following rules for particular sports were also passed:

Boxing and wrestling—A boy who competes in all meets may be awarded a monogram. Swimming—A student must compete in a majority of the scheduled meets. He must score an average of 11.2 points for the total number of meets entered, or must place in at least one-half of the events he has entered. Tennis—A student must compete in a majority of meets scheduled. He must score one-half as many points as scored against him. A man competing in all meets may get a monogram. No. 1 and 2 men are to receive consideration.

Monogram Dance... The Monogram Club invites all members of the "43" Club and the "42" Club to attend a dance at the Tar Heel Club next Wednesday night, April 26, which will be given by and in honor of the entire membership of the Monogram Club.

Admittance to the dance will be limited to members of these three organizations.—Tony DiYeso, Pres., Monogram Club.

## Professors Write Language Booklet

Results of Investigation of Foreign Reading Knowledge Are Published

The results of an investigation of the question of a reading knowledge of foreign languages in connection with graduate work are compiled in a booklet issued recently by Dr. L. B. Hinkle, head of the Department of Modern Languages and director of Translation Service at State College, and I. O. Chronick, instructor in the Department of Modern Languages at State.

The booklet, entitled "Reading Knowledge Requirements and a Translation Service," presents a very comprehensive but concise resume of data taken from questionnaires sent to deans, language teachers, and former graduate students at leading institutions in the United States.

The bulletin points out that most foreign language departments lead students only to literary study, neglecting to a great extent the more practical phases of language training which would be a distinct benefit to the student in his field of specialization.

This bulletin is free for distribution as long as the supply lasts. All communications concerning it should be addressed to Dr. L. B. Hinkle.

## Baptist Union Elects Officers

Buddy Price was elected to serve as president for the coming year of the State College B.S.U. at a meeting last Monday night.

Other officers elected were Bob Anders, first vice president; J. B. Barnhill, second vice president; Lewis Davis, third vice president; David Harris, assistant third vice president; Ray Small, secretary; Franklin Lewis, assistant secretary; Harry Underwood, treasurer, and D. R. Wright, Jr., reporter.

The installation of these new officers will be held this Sunday night at Fulton Memorial Baptist Church at 7:30 o'clock. The annual spring banquet will be held Tuesday night, April 23, with Wake Forest and Meredith Colleges in the Meredith dining hall.

## Chemistry Praised As Aid To Justice

Duke Professor Lectures on Close Relation of Chemistry to Modern Criminology

Last night Dr. Haywood Taylor of the Duke University Medical School faculty, gave a lecture on chemistry and its relation to criminology in the new State College chemistry building.

Dr. Taylor, an eminent toxicologist and biochemist, pointed out many interesting facts concerning the work of an expert on poisons and their effects in aiding justice. During his address Dr. Taylor brought up several cases to prove the point that carelessness or ignorance on the part of inexperienced coroners might have permitted grave errors in justice to happen if it were not for the work of technical experts.

Dr. Taylor pointed out that many murders and suicides might pass as accidents if it were not for the accurate and precise work of toxicologists.

In discussing the work of a toxicologist, Dr. Taylor explained that the field covered by this type of work was much broader than most laymen suspect, and covered not only autopsies to determine causes of death, but such subjects as the determination of degree of intoxication of suspects in drunken driving cases, the identification of blood stains, and the determination of deaths by drowning. "While these determinations are not strictly in the toxicological field," said Dr. Taylor, "we are often called upon to help local law enforcement officers in matters of this kind."

Dr. Taylor was introduced by Mr. Satterfield, head of the biochemical department at State College.

## PLAN FOR CONVENTION

Busy making plans for the annual spring convention of the NCCPA, which will be held in Charlotte next week-end, are the two gentlemen pictured below. They are Sherwood Stokas of Wake Forest College, president of the association, and Steve Sailer of State College, executive secretary.

## Coming Theatre Attractions

### AT THE WAKE

On Sunday through Wednesday of next week, the Wake Theatre presents "Swanee River," 20th Century-Fox's story of Stephen C. Foster, the great American troubadour, filmed in technicolor. What Robert Burns was to Scotland and Thomas Moore to Ireland, Stephen Foster is to America. His songs embody the very soul of his country and spring inspirationally from his rich earth. What American is there who at some time has not hummed, sung or whistled "The Old Folks at Home" ("Swanee River"), "Old Black Joe," "My Old Kentucky Home," "De Camp-town Races," "Jeanie With the Light Brown Hair," "Oh! Susanna," or "Ring, Ring de Banjo?" "Swanee River" is said to be a magnificent picture because it combines the immortal melodies of Foster with the romantic drama of his life, so that it is more than a glorious musical cavalcade of one of the most romantic periods in American history.

"Swanee River," faithfully tells the story of Foster's life as he actually lived it. His life contained all the dramatic ingredients—all the romance, the comedy and the color—which go into the making of a great motion picture. Few liberties were taken with the facts, for there was no need to do more than portray them faithfully.

### AT THE AMBASSADOR

Ann Sheridan will prove to everyone (students of Harvard not excepted) that dramatic ability plus "oomph" makes a delightful combination, when the new film, "It All Came True," in which she stars, opens at the Ambassador on next Sunday.

Adapted from a recent novel by Louis "Rains Came" Bromfield, "It All Came True" tells the charming story of a group of quaint characters in a New York boarding house whose complacent lives are thrown into an uproar when a gangster decides to use their house as a hideout. Featured in the film are such fine performers as Humphrey Bogart in the role of a benevolent gangster, Jeffrey Lynn as young man who tries to better himself by leaving home. The supporting cast is made up of such excellent players as Zasu Pitts, Una O'Connor, Jesse Basley and John Litel. The fascinating story of modern life with an old-time quality could only be told so believably by Louis Bromfield.

A color cartoon, "One Mother's Family," and a news are the added subjects.

In 1935 the textile industry employed 1,657,737 persons, almost 900,000 more than any other manufacturing industry in the United States.

Some 52,000 cigarettes were used by Williams College fraternities during rushing season this fall.

## Attends Meeting...

Registrar W. L. Mayer will leave tomorrow for St. Louis, Mo., to attend the annual meeting of the American Registrars Association April 22-25.

## Fountain Reviews Writing Handbook

English Professor Writes Criticism of Technical Writing Instruction Text

Dr. A. M. Fountain, whose long and detailed review of J. Raleigh Nelson's "Writing the Technical Report" appears in the current number of the Journal of Engineering Education, has just received an unusual piece of fan mail. It is written by Prof. F. B. McDonald of New York University.

"That's the best book review I ever saw in the Journal!" writes Professor McDonald. "It covers the large issues and the outstanding details, the virtues and the faults. The reviewer really criticizes; most of the Journal's reviews enumerate chapter headings and give a more or less perfunctory pat on the back. In fact, they aren't worth reading or printing."

Professor McDonald, who has been for many years a teacher of technical writing at New York University, is joint author of one text and sole author of another on technical writing.

Shorter reviews by Dr. Fountain on Nelson's book have recently appeared in the News and Observer and in College English.

## Surveyors Elect Society Leader

William S. Ragdale of Smithfield was elected president of the North Carolina Society of Surveyors Wednesday at the annual one-day meeting held at State College.

## MAESTRO Shown below is Band Leader

Charlie Randel, who will bring his orchestra to the campus tomorrow night to play for the annual Sig-Ep Ball, which will be held in Frank Thompson gym from 9 until 12 o'clock.

He succeeds F. C. Morton of Oxford.

Guy J. Fisher of Concord was elected vice president and Prof.

C. L. Mann was reelected secretary-treasurer.

A number of technical papers were presented at the meeting.

## Forestry Club Elects Officers

Members of the Forestry Club met Tuesday night and unanimously elected Fats Cromartie to head the organization as president next year.

Fred J. Hartman was elected vice president and Frank Santopolo will fill the post of secretary. Other officers elected were Bill Pickett, treasurer; W. A. Crombie, sergeant-at-arms; T. F. Spiker, program chairman; Leigh S. Wilson, dance chairman, and Quentin Surratt, relay chairman.

Plans were discussed for the annual forestry picnic, which is held during the spring term.

AMERICA'S BUSIEST CIGARETTE

Chesterfield goes to bat with the  
*World Champion*  
Line-up

Definitely Milder  
Cooler-Smoking  
Better-Tasting

...these are the three good qualities that every smoker wants and every smoker gets in Chesterfield. That's because Chesterfields are made of the world's best tobaccos, blended in the right combination.

You can't buy a better cigarette.

Joe McCarthy

"The Yankees," says JOE MCCARTHY, "win championships because they're good in the box, at bat and in the field"...CHESTERFIELDS win more smokers every day because they're tops for cooler smoking, better taste and real mildness.
