STATE COLLEGE STATION, RALEIGH, N. C.

YMCA Committee Plans Orientation Of New Students

Arriving Freshmen Will Be Met at Bus and Train Sta-tions and at All Entrances to College

to College
When the class of 1944 arrives at State College for Freshman Week, which begins officially at eight a.m. on September 10, they will be met by members of a committee of wenty specially selected upper-lassmen who will direct the freshmen to their rooms.
Whether the incoming freshmen arrive by bus, train, or automobile hey will find committeemen awaiting them at the bus station, of the college campus. Free trainsportation will be provided by the 'f. M. C. A. from the bus and railroad station to the campus. All committeemen will be easily recognizable by the red arm bands that they will wear.

Prèper procedure on the part of

FIRST WORKERS UNDER CO-OP PLAN Shown here with Professor Frank F. Grosechose, director of the plan, are the first students at State College to secure jobs under the new cooperative program for engineering education. These students are working with The Carolina Telephone and Telegraph' Company, with headquarters in Tarboro. Left to right: W. C. Ranes, Tarboro; James F. Calfee, Belhaven; Prof. Grosechose; Wallace G. Cooper, Climax; and Ray A. Boyette, Kenly. All the students are juniors in electrical engineering except Boyette, who will be a senior in industrial engineering next year.

LOOMING BEAUTY Here at a loom in the modern plant of the State College Textile School is pretty June Dickson, co-ed at State, who is studying textiles in preparation for a career in cloth-designing. June majored in art at Peace Junior College for two years before entering N. C. State. Cloth-designing is a wide open field for women because, while knowing fabrics better than the average man, few women know the limitations of machines which must manufacture the beautiful fabrics they wear. June is learning just what can be done in yarn manufacturing, dyeing and weaving.

New York. Following graduation
exercises, a banquet in honor of the
recipients was given by the Newcomen Society of Tennessee at the
Hermitage Hotel in Nashville.

North Carolina Boys Slow to Recognize Opportunity in State's Largest Industry.

The Textile School of North Carolina State College has established an enviable record for training textile industry and render useful service, but North Carolina boys have been slow to realize the tremedous opportunities for success which the State's largest industry offers them.

Approximately 20 per cent of all the cotton spindles in America are located in North Carolina's 60t textile plants which produce a diamond woolen fabrics that touch every phase of human life. These plants furnish employment for more than 160,000 people and in every one of them there is from one to a dozen or more positions that a college trained man might aspire to.

In commenting on these facts recently, Dr. Thomas Nelson, Dean of the Textile School, said that in 1994 as has been the case for manner of the Textile School and the state of the State College Textile School exceeded the number of men in the graduating class. Of the 65 textile graduates at commencement, three-fourths of whom were North Carolina boys, a large percentage have accepted positions with commission houses in New York, or with large rayon plants located elsewhere.

Dr. Nelson also said that the completion of the new textile building during the past year, the installation of a complete woolen unit, and the addition of considerable new equipment in other death of the completion of the new textile building during the past year, the installation of a complete woolen unit, and the addition of considerable new equipment in other death of the completion of the said that with its installation of a complete woolen unit, and the addition of considerable new equipment in other death of the completion of the new textile building during the past year, the installation of a complete woolen the completion woolen to the completion of the new textile building during the past year, the installation of a complete woolen the completion of the season of the best continue to de everything in its power to a

Entered as second-class matter, February 10, 1920, at the post office a Raleigh, North Carolina, under the Act of March 3, 1879.

Welcome Freshmen

We are stealing a march on everyone else this year in ex-tending to you our heartiest welcome and wishing you the best of luck during the four-year struggle which you are about to begin.

best of luck during the four-year struggle which you are about to begin.

We are not going to tell you to study hard, keep your nose to the grindstone, and plug for high grades; you will hear plenty of that from others almost as soon as you get here. We are just going to tell you these facts and let you draw your own conclusions. (1) There will be many smiling faces absent from the freshman roll call after the first term—at the request of the college. (2) It takes more than a few State students five years to finish instead of four.

When you begin your work here it won't be a continuation of the high school picnic you have been accustomed to. And don't let anyone tell you your freshman year will be the hardest, because in most courses the work gets harder every year. If you are looking for a place to play for four years and walk out with a degree you had better go somewhere else, because easy courses are few and far between around here. Now don't let us scare you away, because it isn't all work. We have plenty of social life and fun too, but make up your mind to work hard and play hard before you come to State College.

College.

You will be absolutely on your own here, no one will tell you when to go out, when to stay in, when to study, or when to get up in the morning. There are certain college rules which you should obey, but about the only thing you will have to do will be to attend classes. Your dormitory assistants will be glad to give you any advice or help that they can.

KNOW YOUR SONGS!

ALMA MATER

Words by A. M. Fountais, "23 Music by B. F. Narris, "23 Where the winds of Dixic softly blow O'er the fields of Caroline; Where the tall pine tree sentineis stand As a guardian at thy shrine; Where the bravest hearts of men are found, That are loyal through and through, There stands, ever cherished, N. C. State, Firmly, strong and true.

CHORUS

Then lift your voices! Loudly sing
Our Alma Mater's praise!
Over all the earth her song shall ring,
Whose notes we proudly raise;
Her glories we shall sound afar
From hill to cean side;
Our hearts ever hold you, N. C. State,
In the folds of their love and pride.

Shout afar our tribute loud and strong,
That the whole wide world may hear,
Tell the story to all the land, ye,
Her sons, and have no fear.
As she grows the greater ev'ry hour,
As she scales the topmost height,
Our voices will blend in triumph songs
For the Red and White.

Though the years come and go their way Down the path where ages trod;
Though the workings of men may lead,
As we leave our native sod;
Yet not time or clime can e'er dispel
Any love that holds thee near,
Nor keep from our hearts thy memory,
Alma Mater, dear.

STATE COLLEGE KEEP FIGHTING ALONG

Music—U. S. Artillery, by Col. E. L. Gruber
Play the game, fight like men,
We're behind you, lose or win—
State College, keep fighting along!
Scrap 'em men; hold 'em fast;
You'll reach victory at last—
State College, keep fighting along!
Rise, men, to the fray, and let your banners wave,
Shout out our chorus loud and strong;
And where'er we go we'll let the wide world know,
Old State College keeps fighting along!
N. C. STATE—

Fraternities

Fraternities

Soon after you register as a freshman at State College "Rush Week," a week during which the social fraternities on the campus invite certain freshmen to their respective houses for dances and parties, will begin. "Rush Week" has a two-fold purpose: It enables the fraternity men to meet the freshmen and it gives the freshmen the opportunity to choose the fraternity they would prefer to join.

Fraternity houses at State are private homes, and just as you would not visit the home of a perfect stranger without an invitation you should not go to any fraternity house without first being invited. Most of the freshmen who are invited to participate in "Rush Week" have been recommended to one or more of the fraternities by their alumni members who live in the towns from which the freshmen come. Therefore, if you are not invited to one or more of the fraternity houses during "Rush Week" do not feel that you are a social outcast or that you have been left out. Many of the best fraternity men are not pledged until their sophomore or junior years.

years.

State College is fortunate in having, for the most part, a sober, hard-working group of young men in its fraternities. On the average, during the past few years, the grades of the fraternity men have been on a par with the entire student body average.

At the close of "Rush Week" bids will be sent out by the fraternities to those freshmen they consider worthy of membership. Before joining any fraternity be sure to read the advice of Dean of Students E. L. Cloyd as written in the Y. M. C. A. Handbook.

\$1.50 a Year

One of the oldest and finest traditions on our campus is that of friendliness toward all. Early during the first term we hold a campus-wide "Hello Week" when each student makes it a point to speak to everyone he meets on the campus. In a student body that is expected to be at least 2,500 this year it will not be possible to know every student by name, but we can at least speak to each other.

Don't wait until "Hello Week" to begin speaking to each other, however, start as soon as you get here. Get acquainted as quickly as possible; your stay here will be much more enjoyable. Practice remembering names, and call a student by name whenever you can. Remember that, to him, a man's name is the sweetest sound in the English language. If a student whom you do not know calls you by name make it a point to find out his name from someone else so that you will be able to say "Hello Jim," instead of just "Hello, there," the next time you meet.

N. C. State—

N. C. State—

N. C. State College forget all the stories of beaten and murdered freshmen that you have heard, because here hazing is a thing of the past. You may experience a little good-natured teasing from the sophomores, but you may rest assured that it will all be verbal and none physical. Not only is hazing punishable by dismissal from college, but it is contrary to the laws of the State of North Carolina.

There are no freshman caps and no distinction is made between the freshmen and upperclassmen. All work together for the good of the college and for their own benefit.

FRESHMAN WEEK

. . . by BILL FRIDAY

About the Wolfpack

Let us in the beginning extend to you—the members of the Class of 1944—our best wishes from this corner of THE TECHNICIAN. We of the sports department are looking forward to meeting you and using your deas in putting out the following thirty-sir issues of our college paper. Almost all of us want to see our athletic teams up among the leaders in the state. We all want to see a winning team. Last year our football team played a schedule that was flushed with teams that were of superior strength and the result was a season that gave us very few victories. This fall will be a horse of a different color if we may use that expression. Our club is built around a group of the fighting "country boys" that played so well last season and we believe that when November rolls around the Wolfpack will be up there among the leaders in the state. We don't have a team that has several outstanding players but rather a team that will go on the field as a scrapping unit—a team that will fight to the final whistle.

About the Sports Page

Fellows, each year we try to put out a sports page every week that will give a good coverage to all of the activities that are connected with college athletics. To do this takes a lot of time and energy on the sart of the members of our staff have comparatively heavy schedules and that necessitates dividing of assignments. If any of you would like to become members of our staff have comparatively heavy schedules and that necessitates dividing of assignments, if any of you would like to become members of our staff just drop in at our office in Tompkins Hall. We would be glad to have you and we can assure you that you will find it time well spent. If you find that you cannot take the time to do actual work on the page don't let that keep you from coming around to see us. We are always open for suggestions and criticisms of all kinds and don't hesitate to let us know what you think about our sports page.

'Y' Students Active At Blue Ridge Meet'

State Men Continue Partici pation in Y. M. C. A. Worl By Attending Training

A number of students active in Y. M. C. A. work at State College are continuing their association during the summer, General Secretary Edward S. King announced recently.

At Blue Ridge for the first six weeks of the Y. M. C. A graduate school were C. H. Kirkman, Jr., of Pleasant Garden, vice president of the college "Y" for next year, and R. Bruce Jackson of Fayetteville, recording secretary. W. J. Reams of Apex and Hans Frei of New York City are attending the second six weeks beginning July 22. Attending both sessions is David M. Whitted of Elizabethtown, chairman of the New Student Committee.

Kenneth Wommack of Winston Salem and Jacob Tinga of Cast! Hayne, members of the Freshman Work Committée, are attending the officers' training school conducte in New York City by the nations Y. M. C. A.-Y. W. C. A. in cooperation with Columbia University an Union Theological Seminary.

Representatives of other Nort Carolina colleges attending th New York school are Rebecca Ros of Aurora, East Carolina Teacher College; Bess Johnson of Hender son, Womar's College of the University of North Carolina; Si Alexander of Charlotte and Bil Joslyn of Raleigh, Chapel Hill uni of the University.

State College delegates attendin the Southern Student Y, M. C. A. Y. W. C. A. Conference now in see sion at Blue Ridge are Dean ension at Blue Ridge are Dean ension at Blue Ridge are Dean entransport of the students of the W. P. Crawley of the students of Shelb Charles McAdams of Mebane, O. -Howell of Goldsboro, F. A. Webl Jr., of Raleigh, Selby Kornegay of Mount Olive, Scott Ferebee of Her derson, William Wommack of Wir ston-Salem, Sam B. Moss of Alb marle, alumnus of the Class of 1938; N. B. Watts, Y. M. C. A. self-help secretary; and Gener

Kenneth Wommack of Winston-Salem and Hans Frei of New York also will spend some time at the Blue Ridge conference

Alumni Prepare Textile Articles

Two graduates of the State College Textile School, C. R. Hall and D. Crawford Smith, have collaborated in preparing a series of articles entitled, "What Happens to Our Yarn After It Leaves the Plant?" for The Enka Voice, organ of the employees of the American

These articles give a history of weaving and then describe various processes through which rayon passes in its transformation from yarn to woven fabrics. Mr. Hall is the weaving technician for this large rayon-producing company and Mr. Smith is employed in the textile laboratory.

Their articles have attracted favorable comment in the nation's textile press.

Outsiders Banned From Cafeteria

Students, Persons Connect ed With College

The sale of meals in the collegcafeteria has been restricted by North Carolina law to students members of the educational staff members of the staff auxiliary to the educational staff, and personaftending conventions and other meetings as guests of the college.

Pressure for the passage of the bill of which this restriction is a part came from the business men of Chapel Hill, who expressed the opinion that the University was operating too many mercantile establishments which offered products for sale at prices with which they could not compete.

they could not compete.

The bill contains a clause whice states that members of a student's immediate family may "occasion" purchase meals in the

A driver or a pedestrian who had een drinking was involved in one ut of every four fatal accidents

Classwork Begins On September 16

Freshmen Will Register on September 10; Upperclassmen to Enroll September 13

Classwork in the 1940-41 term will begin at State College Monday Sept. 16, Registrar W. L. Mayer

Freshmen will register first, on Sept. 10, and a week of orientation will follow. Transfer students will register Sept. 11-12, and returning piperclassimen and graduate stuients will register Sept. 13. Mr. Mayer said Sept. 21 will be the ast date for registration or changes in registration for the fall term.

The first general faculty meeting will be held Sept. 9, when the faculty will pass on the qualifications of 49 candidates seeking degrees following study in the summer session. Degrees will be mailed to successful candidates.

the next four years? The Tec nician contains each week nev of the happenings and devolo ments at your college.
