College Approved For Short Course In Diesel Engines

Mechanical Engineering Department Authorized To Give Course As Part of Defense Work

The Mechanical Engineering Department at State College has recently been authorized to give a course in Diesel Engineering on the recommendation of the Advisory Committee on Engineering Training for Defense, it was announced Wednesday by Professor R. B. Rice.

The authorization was given as a direct result of a preliminary proposal which was sent from the Mechanical Engineering Office last November to the Federal Security Agency of the United States Office of Education in Washington. In this proposal the Mechanical Engineering Department offered its facilities which include its well-equipped, internal combustion engine laboratory, its design rooms, and certain members of its faculty who were equipped to teach this phase of engineering on a part-time basis. It was stipulated in the original proposal that the department could economically teach a minimum of 20 students with its present staff without interfering with its regular work. With its present facilities and with additions to its teaching staff, the department could handle as many as 60 men if necessary.

The course is designed to cover a period of ten weeks, six hours per day, and five and a half days a week. This is a total of 330 classroom hours. Members of the staff who were appointed by the M. E. department to give the course are Professors H. E. Satterfield, E. G. Hoefler, W. S. Bridges, and G. G. Kennes, all under the supervision of Professor R. B. Rice.

Thermodynamics, fuels and lubricants, Diesel engine construction, Diesel engine design, and laboratory experimentation are all included in the new course. In planning the subject matter for the curriculum, 20 Diesel engine manufacturers were consulted, and material was procured from them for use in the laboratories. Students will, therefore, be acquainted with the best and most modern equipment.

Dr. Sherwood Eddy Debates In YMCA

War Issue Subject of Heated Discussion As Eddy and Beal of UNC Have It Out

By "SPUD" DAVIDSON
The right of America to grant "all aid short of war" to England became the subject of heated controversy Wednesday evening in Pullen Hall, in a debate presented before a huge audience which packed the college auditorium.

Defending all possible aid to Britain was Dr. Sherwood Eddy, noted lecturer, author and traveler, and former Christian missionary. He was opposed in his beliefs by Dr. Howard E. Van Leer, head of the Department of History at the University of North Carolina. Each speaker was limited to 25 minutes of discussion, after which each was given a 5-minute rebuttal.

The debate was presided over by the Right Reverend Edwin A. Patrick, Bishop of the Diocese of North Carolina.

"The British had rather die on their feet than live on their knees before Hitler," said Dr. Eddy in defending his stand of all aid to England. "Britain is our own first line of defense, for if Britain should fall, the last defense of democracy in Europe would have fallen." He further pointed out that with the resources of all Europe, Hitler could find easy prey among the remaining democratic countries of the world.

Quoting from Hitler's book, Mein Kampf, Dr. Eddy reminded his audience that the dictator said "by our shining sword shall we conquer and rule the world." "The future of the world," Dr. Eddy said, "depends on the relation between England and America today."

Opposing the present plan of all aid to Britain, Dr. Beal emphasized his belief that it is impossible for America to give "all aid to Britain short of war" without actually going to war. Protesting against the atmosphere which influences our actions and conclusions, particularly at a time like this, Dr. Beal stated that "our thoughts should be results of long study during calm times when reason will operate, rather than violent ideas perpetuated by emotions."

OUTSTANDING in the State College extracurricula field are the six men pictured below. They are members of the top-notch crop judging team of the Ag. School. The team is tied for first place in judging championships of the nation. Left to right: Coach Stuart, E. B. Elliott, Carter Hurst, Max Chesnut, J. D. Simmons, and Coach Rigney.

Tommy Dorsey and Band May Play for Officers

Civil Service Jobs Open for Engineers

Examinations soon will be held by the U. S. Civil Service Commission for applicants desiring jobs as student aides and junior assistants in government engineering work, Dean Blake R. Van Leer, head of the State College School of Engineering, was advised yesterday by W. Kerens Johnson, acting administrative officer for the National Advisory Committee for Aeronautics.

Jobs as student aides are open for college juniors, who may work during the summer months and obtain a bursary to complete their education. The pay is \$1,440 annually.

Upon completing their college training, the students may be recalled to duty and advanced to the grade of junior engineer at \$2,000 annually after successfully passing examination.

Senior engineering students may apply now for the examination for junior professional assistant, paying \$2,000 a year.

All applications must be on file by Jan. 20, Dean Van Leer was informed. Copies of the application may be obtained from Dean Van Leer or the civil service representative in the post office building.

"At the present time, there is a shortage of engineers in the government service," Mr. Johnson said. "It is therefore expected that the opportunities for employment with the government will be exceptionally good. This organization has a special need for aeronautical engineers, mechanical engineers and electrical engineers."

The National Advisory Committee for Aeronautics is located in the Langley Memorial Aeronautical Laboratory at Langley Field, Va.

Leaders of Defense Schedule Addresses

State-wide Attendants of Annual Meeting Will Hear Discussion of Defense Measures

Leaders in the national defense program will be principal speakers in the annual Institute for Engineers which N. C. State College will present Thursday, Jan. 23, at the Quartermaster Corps, U. S. Army, which will deal with the "Construction Problems of the Quartermaster Corps"; and Col. L. L. Simpson.

Among the speakers will be A. B. McMullen, chief of the Airways Division of the Civil Aeronautics Administration, who will discuss "Construction of Airports in the South"; Commander Lewis B. Combs, U. S. N., assistant to the chief of the Bureau of Yards and Docks, whose topic will be "The Construction Interests of the U. S. Navy"; Col. Breton Somervell, chief of the Quartermaster Corps, U. S. Army, who will deal with "Construction Problems of the Quartermaster Corps"; and Col. L. L. Simpson.

Seniors Meet Tomorrow To Plan Concerted Action

Terrors Top Tigers By One-Point Margin In Closing Seconds

Ball's Foul-shot Puts Game On Ice After Hectic See-Saw Battle

State College's Red Terrors got sweet revenge last night for a defeat handed to them by Clemson last week, licking the fast-moving Tigers by a 44-43 count.

Craig, Clemson forward, started the scoring for the night by sinking a field goal from side to put the Tigers ahead. Monte Crawford followed with a hook shot to even everything up for the first several minutes. Crawford added another hook followed by field goals by Craig and Chipley of Clemson and the Tigers moved into the lead which changed many times during the next few minutes.

Both clubs turned on the steam and the Red Terrors began to pull away from the Tigers during the middle of the first half with Bill Ball, Roy Cromartie and Monte Crawford sinking field goals to put State ahead by a 20 to 12 count. Three Clemson field goals and a free throw by Chipley brought the Tigers back to the lead with five minutes left in the first half ended with the Terrors leading 20 to 19.

Red Hot Battle
Both clubs picked up where they left off at the close of the first half and the steam was really on during the second half. In the closing minutes of the second semester, The Terrors had a five-point margin at the opening of the second half and they stayed in the lead until Stan Lancaster tied things up with a free throw late in the period. Jack Tabcoot put the Terrors in the lead with three field goals. Levin added a free throw to make the count 38-34. Moise sank a basket for the Tigers closely followed by a free throw by Ray Smith to keep the Techs ahead 39-36. Joe Blalock, Clemson's All-American football star, dropped in a two-point shot from the free throw ring to pull the Tigers up to within one point of the Terrors. Everett Levin sank a free throw to make the count 41 to 39 in favor of the Techs.

Henry Buchanan tied up the ball game with a free throw. Jack Tabcoot sank a field goal to put the Terrors in the lead with seconds to play. Bill Ball sewed up the contest by making good a free throw that bounced on the hoop three times before it decided to go into the basket.

The game was a thriller from beginning to end with both clubs really mixing it up. Cromartie, Craig and Tabcoot were especially clicking offensively, and Everett Levin and Ray Smith did a bang-up job defensively for the Red Terrors.

Issue Reveals Need for Trained Engineers in National Defense Program

The January issue of The Southern Engineer has set a new and higher standard in the engineer's campus publication.

The pictures of a few of America's implements of warfare, and the editorial "Arsenal of Democracy," are features of the new defense program and its need of thoroughly trained engineers.

The article, "Teaching Mother Nature" uniquely defines, describes, and explains the development, versatility, and future possibilities of a substance not found in nature, but manufactured from air, gas, coal, salt, and wood by the process of polymerization.

State College has taken another step in the preparation of our youth to serve the United States in the National Defense Program. The part played by N. C. State College is outlined and explained in the article, "Engineering Training for National Defense."

The problem of securing employed is attacked and discussed by Mr. T. C. Brown in his article, "After Four Years." Although Mr. Brown's discussion applied to engineers, the thought and underlying principles are applicable to any young man about to begin his life's work.

Plans for the Graduate Engineering Education, by Robert

(Continued on Page 4)

Organizations

All student organizations which anticipate giving a dance in the spring term of this college year must file their request with the Secretary of the Social Functions Committee (Dean E. L. Cloyd) not later than Friday, January 31.

Blanks for your requests may be obtained from the Dean of Students' office.

The Social Functions Committee expects to meet early in February to consider all requests for the remainder of the year.

F. M. HAIG, Chairman
Social Functions Committee.

Radio Auditions Begin Tuesday

Students Interested In Trying Out For Radio Work May Apply For Audition

The first meeting of the boys interested in taking part in developing the possibilities of a radio program at State College was held last week and it was a big success.

As it had been mentioned before all students that are interested in taking part in any form of radio work were invited to attend the initial meeting and the response was very good.

Auditions for the boys that are interested in news commentating, announcing, program directing, and being masters of ceremonies will be held in Prof. Baker Wynne's office in Pullen Hall on Tuesday at 5 o'clock. All those boys that filled out blanks for this division drop by Mr. Wade Leon's office in Room 11 Holliday Hall and arrange for an audition. Blanks will be there for applicants.

Some of the students that have already made arrangements for auditions are Davidson, Alan McIntyre, Joe Aquilino, Louis Fendt, Bill Harvey, Wilbur Bryant, Bill Alford, Charles Boyette, and Jerry Hurwitz.

Members of the committee that are making the arrangements are Mr. Wade Leon, Chairman; Mr. C. A. Upchurch, Jr., secretary; Gene Knight, Dean Blake R. Van Leer, Prof. Baker Wynne, Roy Smith, Ankers, Bill Derby, and Bill Friday.

Maestros Considered As Date Draws Near For Mid-Winter Set

Capacity Turnout Expected At Dances Scheduled For End of February

The State College Interfraternity Council is making arrangements for the annual mid-winter set of dances which are scheduled for Friday and Saturday, February 14 and 15.

Frank Thompson Gymnasium will again be laden with decorations for the social group as the most important event of the winter term gets underway. The set of dances will consist of a dance Friday night, an informal tea dance Saturday afternoon, and the grand finale Saturday night. A capacity turnout is expected in view of the tremendous success of the Pledge Dances presented by the IFC last term.

Friday Calls Special Meeting Of Class In Pullen Hall At Noon Tomorrow; Colonel Harrelson Will Speak

Senior class members will meet in Pullen Hall tomorrow at noon to discuss plans for a drive for a larger appropriation from the current session of the General Assembly, to whom the Budget Commission has recommended a \$3,000 decrease in State's appropriation for each of the years 1941-43 as compared with figures for the current year.

School officials are unanimous in protesting the failure of appropriations to increase with enrollment, and Colonel John W. Harrelson will speak to the seniors tomorrow to ask their cooperation in convincing the Assembly of State College's need for larger allotments. Student leaders are also expected to speak and there will probably be a general discussion.

State College had requested a permanent improvements program totalling approximately \$1,600,000 and a general maintenance fund of \$569,601, but the Advisory Budget Commission cut the improvements program to nil and the maintenance fund to \$361,393 as compared with \$364,326 for this year.

This refusal to grant any increase in appropriations came as a severe blow to college officials, professors, students, and friends of State College, especially since North Carolina revenue was higher last year than ever before.

Other units of the Greater University suffered along with State College since no permanent improvements were recommended for Carolina and the Woman's College. The maintenance fund at the Woman's College was raised approximately \$20,000, and Carolina's was raised by more than \$30,000.

Colonel Harrelson is expected to present a few interesting facts and figures to the assembled seniors, and to offer his advice in drawing up a program advocating an increased appropriation.

New Officer's Club Studied By Council

Colonel Harrelson Appoints Committee to Investigate New Organization

From the sanctums of the Faculty Council this week came word that the new Officer's Club might be nipped in the bud before it has had time to become completely organized.

Because of the opinion of some members of the council that there is no need for an organization of this kind on the campus, it was decided that a committee of five students and three faculty members be appointed by Col. Harrelson to investigate the proposed feature and to make a report and recommendation to the council.

The action came as a blow to the leaders of the newly-formed club, who had not expected opposition from the council.

Biggest fear of worry to President Fabe Clements and his fellow officers in charge of plans for the gigantic Military Ball scheduled for March 29 is the fact that Tommy Dorsey and his band, who have agreed to play for the dance, may be lost to the school before the Faculty Council completes its action on the matter.

Seniors Will Meet To Complete Plans

Endowment Fund and Graduation Ceremonies To Be Discussed

The third meeting of the Senior Class will be held in Pullen Hall on Thursday, January 23, at 12 o'clock.

Important measures and programs will come up before the group at this meeting. A final decision in regard to the regulations of the endowment fund will be submitted by the committee appointed to draw up the plans. The final draft for the type and make-up of the graduation invitation to be used by the seniors will also be submitted and acted upon.

Entered as second-class matter, February 10, 1920, at the post office at Raleigh, North Carolina, under the Act of March 3, 1879.

The Budget

It is hard for us to understand why the Advisory Budget Commission has cut our 1941-42 budget down to three thousand dollars a year less than it is this year, especially when revenue and prospective revenue is greater than ever before.

Now that National Defense is the vital issue about which all others hinge, it seems to us that State College should have been recommended for the appropriation it deserves.

It is up to State College to provide its quota of the men the nation needs so vitally, but with our present facilities and lack of equipment it is almost impossible to turn out men capable of filling these key positions.

With our appropriation for 1941-43 approximately the same as it was this year, our professors will, in effect, be receiving salary cuts because of the rising cost of living.

We have heard from a reliable source that the reason no permanent improvements were recommended is the rising cost of labor and building materials.

The decisions of the Advisory Budget Commission are not final, and we believe that the General Assembly may recognize our needs and give us the help we seek.

Ounce Of Prevention

Throughout the history of State College a great number of freshmen have been forced to leave school because of their inability to make passing grades.

A start has been made in tutoring freshmen by the English Department. Operating on the theory that most freshmen cannot write because they have never had the opportunity to write or to read good literature while in high school.

one-hour laboratory course without credit this term. Since the laboratory work is still in the experimental stage, and also because of a lack of space and funds, the English department has excluded for the present all students who have already had more than one opportunity to pass freshman English, and also those least likely to benefit from the work.

This is a good beginning, better than most departments can lay claim to, but it seems that even more could be done in the first place to prevent first-year men from flunking their major subjects.

Let's get the ball rolling and see what can be done on at least one thing that should aid and further the record previously made by State College.

An Opportunity

A prominent authority and lecturer, who is interested in the personal problems of youth and of college students in particular, has written to us asking our aid in placing these problems before him.

He is making an important study of the personal problems of college men and women as compared with those who have no more than a two-year high school education.

For many years the authority in question, who is one of America's foremost psychoanalysts, has been solving personal problems for thousands.

After deciding to make the study which he is about to undertake he chose three colleges and universities, selecting one woman's college, one co-ed university, and one college for men.

We have been asked to offer our readers an opportunity to send in their problems for consideration and solution.

No matter what your problem is, do not hesitate to ask that it be solved. Problems on love, courtship, and marriage will be especially welcome.

Send your letters to "Personal Problems," The Technician, State College Station, Raleigh; and we will forward them at once in order that you may receive your answer as soon as possible.

Letters To The Editor

F. M. S. & T., North Carolina State College, Raleigh, North Carolina

Dear Sir:

The presence of the State College ROTC with the band and drum corps in the inaugural parade added immensely to the success of this notable occasion.

With best wishes, I am

Cordially yours, J. M. BROUGHTON, Governor of North Carolina.

Colonel Thomas W. Brown, State College Campus

Dear Colonel Brown:

I want the staff of the Military Department and the student members of the ROTC to know that the retiring Governor, Clyde R. Hoey, and the incoming Governor, J. M. Broughton, are very grateful to all for their participation in the inaugural parade on Thursday, January 9.

The information coming to me is that the State College Cadet Corps received many fine compliments for its showing in the parade.

With best wishes, I am

Sincerely yours, J. W. HARRELSON, Chief Marshal, Inaugural Parade.

To the Students:

There is considerable concern in the minds of students and members of the faculty about the prevalence of colds and influenza among our students.

Our infirmary has been filled to its capacity during the past week and we are using the large room in the basement of the Y. M. C. A. for those cases which are lightest.

Up to the present time the cases have all been mild ones and are responding to treatment very satisfactorily.

We are requesting whole-hearted cooperation of all students by their reporting to the infirmary immediately if they do not feel well enough to attend classes.

We are requesting the dormitory counselors to report twice daily the names of any students whom they find remaining in their rooms on account of illness.

We are requesting all fraternity chapters to report daily to the Dean of Students the names of any of their members who are sick at the fraternity houses.

The rumor that the infirmary is so full that no further students can be taken care of is not correct, because students are constantly being released from the infirmary; and, while at 8 o'clock in the morning every bed in the infirmary might be filled, by 10 o'clock or 2 o'clock of that same day there may be several vacancies.

State College has had a remarkable record over a long period of years in its care of students in times of epidemics of influenza, and with the full cooperation of the students we can handle the present situation with a minimum of interruption of our regular college work.

E. L. CLOYD, Dean of Students.

SENIOR OF THE WEEK

By REECE SEDBERRY

BRUCE HALSTED

Bruce Cushman Halsted, president of Blue Key, was born in Washington, D. C., on December 11, 1919.

Bruce later moved to Arlington, Va., where he attended the Washington-Lee High School. While in high school he was a captain in the Cadet Corps, and also a member of the National Honor Society.

After graduation from high school, Bruce came to N. C. State College and enrolled in the curriculum of electrical engineering.

Since the beginning of his college career, Bruce has been an outstanding student in scholarship and in extra-curricular activities. He is also a member of Phi Eta Sigma, Pi Kappa Phi, Tau Beta Pi, Theta Tau, and Eta Kappa Nu, all of which encourage and require a high standard in scholarship.

Bruce is also a member of Blue Key and Golden Chain, which express his character and leadership ability. Along with taking part in the numerous honorary fraternities and societies, Bruce takes an active part in the Pi Kappa Phi social fraternity, being a member of the N. C. State Interfraternity Council.

He worked on the Technician staff for three years, and was an associate editor in his junior year. Bruce is doing a swell job in the Student Legislature, and has been elected vice-president of the senate.

This man should be an inspiration to every State College student. Not only has he kept up a high scholastic average, but he has also taken an active part in the leading campus organizations, to say nothing of his activities on Circle Drive.

Congratulations, Bruce! We are confident that your future will be as successful as your past, and we are pulling for you all the way.

-AND THE GATE POST

In the midst of the whirl caused by the Advisory Budget Commission's pleasant little cut in our appropriation and the doubt about the ultimate fate of the Officer's Club, we again put forth an attempt at reminding a few notables of the opinions of the masses toward their recent activities.

Open Letters:

To "Finito" (Finished) Mussolini: May we suggest some of these new-type ball-bearing roller skates?

To the Daily Tar Heel: Your recent articles criticizing the actions of our former governor may—as you say—be founded on reputable information, but it seems quite a bit like the old "hand that held the dagger" act that you publicize all this after he has gone out of office.

To the Military Department: Have an aspirin.

To the Faculty Council: Please hurry! Mr. Dorsey is a busy man and he can't wait 'til the "mood to move" strikes you.

To Adolph Hitler: What's the matter? You're a little behind schedule, n'cht wahr? And then there was the one about the Raleigh girl who couldn't date for a whole week because her screen door was broken.

Motto of the week: "Billions for defense, but not one cent for remodeling buildings."

The story of a century drifted our way this week from our neighboring educational institution over at Wake Forest. It seems that the "big operator" in the Pan-Hel dance council over there was looking for a band to play for one of their dances, and we hear that he wrote Benny Goodman and told him they had \$1,500 to spend and they would like to have him come down and play for the dance-set.

It is reported that Goodman's answer came back in a telegram saying that he would be glad to come down and play for their dance; in fact, he wouldn't miss the opportunity for anything, and for \$2,000 more he would bring his band with him.

ANNOUNCEMENTS

There will be rehearsals of the glee club at 6:30 Monday, Tuesday and Wednesday nights in Pullen Hall. Full attendance is urged in preparation for a concert in the near future.

There will be an orchestra rehearsal Monday night at 8:30 on account of the Allen Jones concert Tuesday.

GLEANINGS

Remember how Gleanings started last week? "And now, ladies and gentlemen, we bring you the music of Tommy Dorsey and his orchestra. The first selection . . ."

When Writer Angus Ray wrote those words he knew not how true they might become in a few weeks.

For, ladies and gentlemen, we are going to bring you none other than Tommy Dorsey and his orchestra, and in person, too. That's the news first hand as it came from Babe Clements, the almighty of the Officers Club and the guy who has such intimate connections with booking agents north of the Mason-Dixon line—and intimate connections, too.

Tommy has agreed verbally to come to the campus of the college for the annual Military Ball in a telephone conversation with Babe. The slip-horn artist has agreed to play for one afternoon tea dance and a formal ball Saturday, March 29, for the small sum of \$2,000. They should make expenses.

We are wondering if Managing Editor Charlie Barrett isn't somewhat sticking his neck out with his attacks on the textbook commission in our recent issues of the Daily Tar Heel, daily bull organ of the University of North Carolina.

About the deplorable trick we have heard all year leaked out just recently. It seems that a couple of nearby newspapermen were planning a trip up to the nation's capital.

At the football barbecue the two aforementioned newspapermen invited lovely Dick Watts, of football fame, to accompany them. They told Dick of the dates they had arranged and the black-haired youth thought it a good idea. He agreed and the dates were arranged.

But, then came the honor. At the last minute Dick found that he had rather confine himself to the campus for a little study, so he asks to be excused which naturally meant the beautiful girl in Washington with whom he had a date would be stood up, for it was too late to let them know.

Well, the two aforementioned newspapermen went alone.

This is what our beautiful hero missed. The two newspapermen had arranged dates with these famous models, widely known as the best on the market (if they are on the market). The most beautiful of these . . . (her name has been censored here) was to date Dick. She was a blond and recently appeared in Life magazine, modeling gowns because she possessed such graceful curvatures of the body. Since that time this certain blond figure of loveliness has been chosen from 5,000 models to go to South America to model for Coty powder . . . because she has such a beautiful complexion—and with her figure, whew!

That is what the one and only Dick Watts turned down for his studies.

Even though this is recognized as the scandal corner of The Technician, 't would not hurt a bit if we pass on helpful hints to the student body.

It is just this. There are better than good prospects that a flu epidemic is in the making. No one wants to catch the flu. You don't want it and the fellow next to you doesn't want it. So, if you have the sniffles or feel tough some time soon, don't try to out-last your bad feelings but go by the infirmary and get some of those damnable brown pills, or better still, take a whopping big dose of castor oil . . . they both have the same effect.

But above all, do your part toward keeping down a flu epidemic on the State College campus.

Editor's Note: Better than 300 students at the University of North Carolina were reported to be ill with influenza early this week.

Speaking of the infirmary, Alberta Ballenger, the co-ed who likes to be first, made another "first" recently. She was interned by the infirmary with something that might have been German measles (we wonder if they are the kind that break out with little swastikas), flu or something similar, and that makes her the first female to take bed in Doc Campbell's Pill Box.

Miss Ballenger is occupying a room ordinarily used to house four boys. Unless I catch the swastikaritus—that's German measles—or sumpin', I'll be seen' ya. EDWIN PERRY.

USED WE CAN'T PROMISE YOU CARS

AT PRICES SO LOW AGAIN

Already the Defense Program is placing heavy burdens on industry. Used cars probably will soon be at a premium; nevertheless, we're now offering our entire stock at sacrifice prices . . . prices you may never see again!

This Is News To A Former Student

New-Dealer Arnold Krochmal, formerly of the Athletic Council, now of ladies footwear fame, let out a howl when the 1941 football schedule was originally released.

The game is with Newberry College, of South Carolina, and is set for the evening of Saturday, October 25. In all probability, it is definitely intended to be a breather because it is strategically placed between two powers of the gridiron, Wake Forest and Carolina.

Whether it has been noticed or not, the style of State's basketball team this year is quite different from that of previous years.

Dr. Bob Warren hasn't made any statement of the fact, and surely can't be quoted as saying so, but he seems from all prevalent indications to be using a two-team attack.

The usual starting team consists of the shorter, faster men of the squad. Those starters usually are Joe Mills and Ray Smith at guards, Jim Mills and George Strayhorn or Roy Cromartie at forwards, and Monte Crawford at center.

As for the reserve unit, it is a pretty uncertain outfit. Only one point is sure with them. They have height. That is an asset for any basketball team, and should be especially effective against such teams as the Great White Phantoms of Chapel Hill.

Sophomore Bill Ball probably is the top center of the reserves. Two newcomers are pretty sure performers on the No. 2 club. First of these is Everett Levin, a transfer student, who probably will team with Strayhorn or Cromartie on the reserve unit.

I'll be angling at you.

Black Trophy To Be Awarded At Banquet Tonight

Crawford, co-captain of State's basketball team, is being closely pushed for his key position by Tabscott and Ball.

Broadcasts

Went to see State play Carolina at basketball Tuesday night and then hear a broadcast of the game afterward? Tune in to the Duke-Clemson contest via transcription over WPTF, starting at 11:05 p. m., January 21.

This same method will bring a broadcast of the inter-sectional Carolina-NYU tilt tomorrow night at 11:05 over WPTF. The Duke-Clemson contest will be aired via WRAL tomorrow night starting at 8:15. WRAL will make a regular broadcast of the State-Carolina game Tuesday night starting at 8:15 p. m.

FORWARD

Cromartie stepped right into the Red Terror starting line-up as soon as his eligibility for intercollegiate competition was announced.

National Defense

Shipment from the mill of the monogram sweaters scheduled to be distributed at a special ceremony at tonight's Wolfpack Club banquet, have been held up due to a rush of national defense orders.

Wolfpack Club Spreads First Annual Feet; Bob Cathey Gets Blocking Trophy

The Paul Black Improvement Trophy and the Mills Blocking Trophy will be awarded tonight at the first annual Wolfpack Club banquet.

Bob Cathey was chosen by 15 North Carolina scribes several weeks ago as the best blocking back of the year. John Marshall, sports editor of the Raleigh Times and chairman of the Mills Trophy Committee, will be on hand to present the coveted award to "Cathey-go."

Selection of the player to get the Paul Black Improvement Trophy is being kept a deep dark secret until the actual presentation. Given to the State football player who has shown the greatest improvement on the gridiron during the season, the trophy, awarded for the first time this year, will go to a man selected by the entire State coaching staff.

Though nothing definite can be had from any member of the coaching staff, word slipping around the campus seems to indicate that "Boo" Stillwell and Dick Watts appear to be premier choices for the prize. This, however, is only the wildest guess, and equally in line seem to be Pat Fehey, Dink Canton, Jack Huckabee, Pete Bortek, and Cathey.

Fraternity Bowling League Table with columns: Team, W, L, Pct., Total Points

GREENSBORO HIGH Coach Herman Hickman, State's top poly professor of grappling, has announced the addition of Greensboro High School to the freshman wrestling schedule.

"Bones" McKinney, Glack-type center, has been high-scoring both in points and color. Possessing a not yet too accurate pivot, the six and a half foot key man has nevertheless rolled up 67 points so far.

MURAL MUSINGS

By JOE LEVASSEUR

Winter Intramurals started off with a bang on January 9, with four basketball games heading the night's attractions.

2nd "A" got off to a good start beating 1st "A" 19-16, with Martin racking up 9 points for 2nd, while Gibson scored 7 for 1st.

Fraternity preliminaries were played the next night. Zellweger and Leer led Delta Sig to a 15-12 win over AKPI.

points each. Phi Kappa Tau had trouble subduing Sigma Pi, but finally won, 13-11. Ulrich and Hadley scored six points each to lead the opposing teams.

All-dormitory and all-fraternity football selections are being worked up now, and should be ready for publication here next week.

Intramural Boxing preliminary rounds are scheduled to take place February 6 and 7. Extra large gloves and head-guards will be worn this year.

Two Mile Course Laid Out; Event Open To All Students A course starting at the track field house, going through the outskirts of Pullen Park, and ending at the field house, has been laid out for the cross-country cake race to be run next Friday.

Conceived by Cliff Carroll and Herman Hickman, the event is being sponsored by Blue Key. The last such race was run in 1932.

About 15 entries have been received so far, and additional ones will be taken by any member of Blue Key, Cliff Carroll, or Herman Hickman.

Cosch Hickman announces a meeting of all varsity and freshman track candidates, for Tuesday night at 7, at the "Y." All members of the team are expected to attend.

Monte Crawford, center of State's basketball team, is being closely pushed for his key position by Tabscott and Ball.

Grapplers Get Win Without Services Of Captain Johnson

Frosh Do Too, 26-10 Varsity Chalks Up Easy 19-9 Victory over Davidson;

The varsity and freshman wrestling squads decisively defeated the mat squads of Davidson College, on Monday night, in the first match of their five-bout card.

With Captain Able Johnson confined to the infirmary, the varsity squad nevertheless looked strong. Assistant Coach Ted Johnson reports that several additional men have come out for the grunt and groan squad since the Davidson match, and there seems a possibility of going through an all-win year.

The squads move up to Blacksburg, Va., on January 25, for a set of matches with Virginia Tech. The varsity licked Davidson 19-9. Troxler pinned his opponent in the 165-pound class. Reichert, 145 pounds, Camp, 165 pounds, and Schworn, 175 pounds, decided their opponents. Collins, 128 pounds, won by default, while Swinney, 121 pounds, and Jones, unlimited, were on the short end of their scraps.

The yearling team pounded out a 26-10 score. Rhodamer, 175 pounds, pinned his man, with Pharr, 128 pounds, and Warren, 155 pounds, winning on decisions. Defaults won for Changaris, 121 pounds; Erick, 145 pounds; and Ott, unlimited. Bratton, 165 pounds, lost a decision, and Davidson was awarded the 136-pound class on a default.

Cross Country Race Held Next Friday

Two Mile Course Laid Out; Event Open To All Students

A course starting at the track field house, going through the outskirts of Pullen Park, and ending at the field house, has been laid out for the cross-country cake race to be run next Friday.

Conceived by Cliff Carroll and Herman Hickman, the event is being sponsored by Blue Key. The last such race was run in 1932.

The two-mile course will include water and road hazards commonly found in cross-country running. Cakes will be awarded to the first 30 finishing.

About 15 entries have been received so far, and additional ones will be taken by any member of Blue Key, Cliff Carroll, or Herman Hickman.

Cosch Hickman announces a meeting of all varsity and freshman track candidates, for Tuesday night at 7, at the "Y." All members of the team are expected to attend.

"Bones" McKinney, center of State's basketball team, is being closely pushed for his key position by Tabscott and Ball.

"Bones" McKinney Leads Frosh Cagers As Squad Takes First Four Starts

State's Yearlings Score 201 Points in Four Games; McKinney Has 67

State's yearling basketball team, under the impetus of determined scoring drives by McKinney and Magee, has tallied a total of 201 points in their first four battles of the season, for an average of 50 points per game.

With the first four games put into the win column, the freshmen face their first important tests during the week ahead. After meeting Charlotte High School on the campus tomorrow night, the frosh must start prepping for tussles with Carolina on the 21st, and Wake Forest four days later.

In all, 11 games remain to be played. "Bones" McKinney, Glack-type center, has been high-scoring both in points and color.

Possessing a not yet too accurate pivot, the six and a half foot key man has nevertheless rolled up 67 points so far.

"Big John" Magee, 210-pound forward, has been giving signs that he is on friendly terms with the game. Slightly erratic, the husky lad has been developing a loop shot

Navy Man Inspects Diesel Department

Commander Straub Visits Campus To Decide on Diesel Short Course

Commander C. L. Straub of the U. S. Navy Bureau of Ships, Washington, D. C., visited State College recently to ascertain if the college has facilities to give special courses in Diesel engineering to junior officers in the Navy.

Ten or 12 schools will be selected by the Navy to provide Diesel courses for about 2,000 men now on active duty.

Commander Straub told Dean Blake R. Van Leer, head of the State College School of Engineering, he was favorably impressed by State College's facilities for teaching the courses. Selection of the schools probably will be announced in a week or 10 days, he indicated.

Diesel engineering is one of 10 special courses now being taught at State College as part of the program of engineering training for national defense.

DIESEL

(Continued from Page 1) The course, which was authorized through the Supplemental Functions Appropriation Act of 1940, is being administered through Mr. Ruggles and the University Extension Division in close cooperation with the M. E. Department. The costs will be carried by the United States Office of Education, to which it is to be allocated some \$9,000,000 for use in promoting short engineering courses in colleges and universities of the country. The U. S. Commissioner of Education determined the industries essential to national defense and which colleges and institutions were to give this work. To date the following schools have been selected to give courses in Diesel engineering: Illinois Institute of Technology, the Pennsylvania State College, the University of Pennsylvania, and the North Carolina

A C S Honor Roll Lists State Men

Agriculture Research Staff Members Halverson and Sherwood Long Associated With Chemical Society

Two members of the State College agricultural research staff are listed in the American Chemical Society's honor roll of men with long continuous affiliation with the society.

They are Dr. John O. Halverson, head of animal nutrition research for the Agricultural Experiment Station, and Dr. Frank W. Sherwood, associate in animal nutrition. Dr. Halverson joined the Society in the 1905-10 period and Dr. Sherwood began his membership in the 1910-15 period.

Two members of the University faculty at Chapel Hill, Dr. Frank Cameron and John T. Dobbins, also are on the honor roll. Longest membership in the Society is held by August Eimer of a New York drug and chemical supply firm, who joined in 1879.

BSU Is Entertained By Moving Pictures

Activities At Ridgecrest and Students' Retreat Featured in Show

The B. S. U. council was entertained at their last meeting by a moving picture shown by John Lawrence, student secretary. The movie showed scenes of B.S.U. activities taken at Ridgecrest and Southside Student's Retreat.

The Bible study group will continue to meet on Sunday afternoon on the second floor of the Y.M.C.A. at 2 o'clock. This is an informal discussion group in which a chapter of the Bible is discussed at each meeting. All persons interested in attending these meetings are invited to come.

EDDY

(Continued from Page 1)

The defender of the hands-off policy refused to allow the blame for this Second World War to be traced to Hitler, but stated that other factors influenced such an outbreak. "Hitler," he said, "has only been one factor, and he has taken advantage of the other factors." Dr. Beal expressed the belief that Hitler would not attack the United States, should he defeat Britain, for the dictator would be confronted with other problems pertaining to countries which he has already conquered for several years to come.

"In fighting totalitarianism, America itself is becoming more and more totalitarian, and this in itself should frighten every American," Dr. Beal stated.

Following their debates and rebuttals, an open forum was held in which the audience asked numerous questions pertaining to the problems of aid to Britain, and they were referred to one of the speakers for a possible solution.

FEATURED on "Romance of Old Mexico" program scheduled for Pullen Hall, February 6 will be Greta Rubio, mezzo-soprano, and Col. Ricardo Escamilla, lecturer, pictured below.

Radio Code Classes Growing Steadily

Marked Increase in Interest Responsible for Growth of Young College Radio Club

The Radio Club was dangerously close to annihilation at the beginning of this school year, but the cooperation of the students and the approval of the faculty have eliminated this deplorable situation.

Attendance to the meetings and code classes was very good last term, with a special interest being shown in the code classes. By way of construction, the transmitter was revamped, the receiver was improved, and an oscillator for code practice was prepared. The social function of the term was an "Open House," with Mr. H. B. Caviness as guest speaker.

Plans for this term include the construction of a foundation unit for a new transmitter, information on how to obtain "Ham" licenses, several lectures by student and outside speakers, and the continuance of the code classes. Since

SOUTHERN ENGINEER

Pomeranz, clearly explains the purpose, the operation and the progress of a plan whereby a boy can study engineering and pay his own expenses by working and studying alternately every three months.

Dean Blake R. Van Leer explains the importance of a degree in engineering and the faults of quitting school in order to take a quick course and go to work.

Other interesting and educational articles such as "The History of Glass," North Carolina Society News, and "Technician Notes" all show evidence of careful engineering and planning.

code instruction often costs as much as twenty-five dollars, these code classes are a golden opportunity to anyone wishing to master the code. Classes begin Monday night, January 20, at 6:45, and the instructions are free.

Every State student is eligible for membership in the radio club, since the only prerequisite is that he have an interest in radio from the technical viewpoint. The regular club meetings are held each Friday night at 6:45 in Room 4, Daniels Hall.

BEHIND THE MIKES

By Jack Thurner and Albert Johnson

Benny Goodman recaptured his title as "King of Swing." Glenn Miller's orchestra was chosen as the greatest sweet band, Helen O'Connell of the Jimmy Dorsey troupe as the favorite singer, and Bing Crosby once more took male vocalist honors in the annual Downbeat Magazine poll.

In the combination of votes cast for both sweet and swing, Glenn Miller was way ahead, followed by Tommy Dorsey, Duke Ellington, Benny Goodman, Woody Herman, Jimmy Dorsey, Glen Gray, Jimmy Lunceford, and Bob Crosby.

Among the swing troups, Goodman finished first and was followed by Ellington, Woody Herman, Glenn Miller, Count Basie, Jimmy Dorsey, Bob Crosby, and Tommy Dorsey.

The Downbeat All-American Band for which leaders of orchestras were declared ineligible this year follows. The choice of 10,000 instrumentalists and singers is as follows:

- Ziggy Elman (T. Dorsey).... Trumpet
- Muggsy Spanier (Bob Crosby).... Trumpet
- Cootie Williams (Goodman).... Trumpet
- Johnny Hodges (Ellington).... Trumpet
- Toots Mondello (Radio).... Alto Sax
- Eddie Miller (Bob Crosby).... Alto Sax
- Tex Beneke (Miller).... Tenor Sax
- Irv (Fazola) Prestopnik.... Clarinet
- Jay Higginbotham (Red Allen).... Trombone
- Jack Jenney (Shaw).... Trombone
- Ray Bauduc (Bob Crosby).... Drums
- Bob Haggart (Bob Crosby).... Bass
- Jess Stacy (Bob Crosby).... Piano
- Charlie Christian (Goodman).... Guitar
- Bing Crosby and Helen O'Connell.... Vocalists
- Fletcher Henderson (Goodman).... Arranger

It will be noted from this list that Bob Crosby, although finishing well down the list among the swing bands, nevertheless managed to place the greatest number of individual performers on the All-American aggregation, an indication that Crosby has been catering too much to popular appeal in material to suit the musicians.

Guy Lombardo was elected "King of Corn" over Clyde McCoy. Benny Goodman was chosen as the favorite instrumental soloist. The Turntable Kay Kyser's "We'll Meet Again" with Ginny Simms, Harry Babitt, and the ensemble is the best record he has made in a long time. He drops the singing song titles and other parts of his style and plays some straight dance music. "You Say the Sweetest Things" is a good other side.

Glenn Miller's "I Do, Do You" with a Kenny Sargent vocal is another pretty side with "You Say the Sweetest Things" on the reverse side. Johnny Long's "When I Grow Too Old to Dream" is another Glee Club swing arrangement and "Shadows on the Sand" in a slower tempo. Hal Kemp's "I Can't Remember to Forget" and "You're the One" are the last records of this band and aren't done in the typical Kemp style.

Benny Goodman in a sweeter strain does "Cabin in the Sky" and "Taking a Chance on Love," with Helen Forrest doing the vocals on both sides. Guy Lombardo's "Jungle Drums" is a better than average arrangement of this rumba fox-trot.

Glenn Miller's "My Blue Heaven" is a fast rideout with his trombone and Tex Beneke's tenor taking honors. "Frenesi" is a slower reverse side. Will Bradley's "Three Ring Rideout" is a muted trumpet and trombone rideout.

Dinah Shore honors the famous city of her home state in the best recording of the first blues song ever written, W. C. Handy's immortal "Memphis Blues." Bing Crosby does his usual good treatment of "Along the Santa Fe Trail" and "I'd Know You Anywhere."

Britain reports three former team captains at Eton College have been killed in the armed services.

Hamilton Addresses Ag Club Meeting

Important Session Also Chooses Officers for Annual Livestock Show

Addressing the weekly meeting of the Ag Club Tuesday night in the auditorium of Withers Hall on the "Mechanization of Agriculture," Dr. C. Horace Hamilton, head of the Department of Rural Sociology at State College, said that machines were intended to save time and labor and to make life more pleasant, but that they were being used in a deplorable fashion to break the laws of nature and of justice.

Dr. Hamilton pointed out that the reduction of manpower on the farm was a direct result of machinery, and he predicted that as military service called more people from the farms in the South even more machinery would be installed to replace these laborers. As a specific example of this, he predicted that the cotton picker would be improved.

Cecil Jackson was elected chairman of the annual Livestock Day. Other officers elected were: Paul Brown, vice chairman; J. C. King, secretary; and Bill Little, treasurer. Professor C. D. Swaffar was named faculty assistant for Livestock Day.

The time for next Tuesday's meeting was set at 6:45 in order that the members might attend the basketball games.

DEFENSE

(Continued from Page 1) son, construction quartermaster at Fort Bragg, who will discuss "Construction Plans and Problems at Fort Bragg."

Other speakers will include Dr. J. V. Hofmann, head of the State College Division of Forestry, who will discuss "The Place of the Lumber Industry in National Defense," and Charles R. Brammer, professor of construction engineering at State College, whose topic will be "Educational Facilities in Construction in North Carolina."

Built around the general theme of "Construction and National Defense," the program was arranged by Director Edward W. Ruggles of the College Extension Division in cooperation with Dean Van Leer.

Registration for the Institute, which will attract engineers from every section of the State, will be

gin at 9 a. m. Jan. 23, in the Civil Engineering Building. The formal program will start at 10 o'clock in Daniels Hall.

The Institute is timed a day ahead of the annual meeting of the North Carolina Society of Engineers on Jan. 24, so members may take advantage of both programs conveniently. Col. Simpson is scheduled to address the Society, which will hold its annual banquet and dance in the evening.

On Wednesday, Jan. 22, the college will be the scene of two other programs, the annual meeting of the North Carolina Society of Surveyors and the annual Safety School for Truck Operators. Both are being arranged by Director Ruggles.

Harvard University in the last year received gifts totaling \$4,857,942.

NEW POLAROID* Study Lamp \$2.95 ONLY

Attention—students, desk workers: This "magic lamp" wipes away glare from the desk-top just as famous Polaroid Day Glasses block outdoor glare... almost doubles visibility... makes studying easier... helps keep healthy eyes healthy. Smartly styled. Finished in walnut bakelite with copper trim. Parchment type shade. Priced to fit the student budget.

POLAROID* Desk Lamp

Executive Model

For executive desks. Gives clear, brilliant, glare-free light. Makes it easier to concentrate. Walnut or ebony bakelite with satin aluminum column...

This book TOBACCOLAND*U*S*A* gives thousands of smokers like yourself the facts about tobacco and...

Chesterfield's

MILDER, BETTER TASTE

To the keen interest of the thousands of men and women who visit our Chesterfield factories, we owe the idea of publishing the book, "TOBACCOLAND, U. S. A." It is a comprehensive picture story about the growing, curing and processing of tobacco, telling you why Chesterfields are MILDER, COOLER-SMOKING and BETTER-TASTING.

We are proud of the hundreds of letters from smokers like yourself who have seen "TOBACCOLAND, U. S. A." Many have asked us to send copies to their friends. We would take pleasure in sending you a copy—just mail your request to Liggett & Myers Tobacco Co., 630 Fifth Avenue, New York, N. Y.

Capt. JOHN M. MILLER, America's No. 1 aviator pilot and pioneer of the world's only wingless mail plane route between Camden, N. J. and the Philadelphia Post Office, is shown here enjoying Chesterfield's new interesting book "TOBACCOLAND, U. S. A."

Do you smoke the cigarette that Satisfies... it's the smoker's cigarette

Britain reports three former team captains at Eton College have been killed in the armed services.
